FRANCE DETERMINES TO FORCE EXECUTION OF THE VERSAILLES TREATY BY STICKING TO RHINE

BRIDGE HEADS WILL ALSO BE KEPT INDEFINITELY

POINCARÉ SPEAKS

Says That Decision As To Ruhr
Dependent Upon Attitude
of Belgium

(By The Associated Press)
PARIS, Nov. 19.—France's determination to continue occupation until treaty of Versailles has been executed and protection assured as expressed by Premier Poincaré in his speech at Neuilly yesterday applies only to Rhineland and bridge heads according to official foreign office statement issued through Havas Agency. The statement adds that decision concerning Ruhr would be dependent upon agreement with Belgium.

The premier, who apparently was in a combative mood, added that new penalties against Germany would be imposed unless full satisfaction from Germany was obtained.

The premier expressed no disappointment over the failure in the negotiations for the creation of a commission of experts to determine Germany's capacity to pay. He said France was firmly resolved she was quite capable of bringing Germany to terms.

"France is determined," said M. Poincaré, "not to evacuate the occupied territories until all the clauses of the treaty signed at Versailles have been completely executed and we are firmly protected against fresh policies of aggression."

"Will Take Penalties."—German defiance of the treaty as regards military control and the return to Germany of former Crown Prince Frederick William called for penalties against Germany, the premier declared, "and we shall take them unless we obtain satisfaction."

The occasion of the premier's speech was the unveiling of a monument to the war dead of Neuilly. Great interest had been attached to the speech inasmuch as it was the first delivered by M. Poincaré in the Metropolitan district since he began his Sunday oratorical campaign. Yesterday the premier stated France's case more bluntly and went farther into France's demands upon Germany than he had done in the provinces. Hitherto he always had delivered the Ruhr would be evacuated progressively in proportion to the reparations payments.

"As much as we insist upon receiving reparations," declared M. Poincaré, "we are no less determined to maintain the occupation."

Suicide Report Denied By Billy Sunday's Son

(By The Associated Press)
CHARLESTON, S. C., Nov. 19.—Billy Sunday who is conducting evangelistic services here and who is celebrating his 61st birthday received a telegram from his son, William, Jr., in Los Angeles telling him not to pay any attention to reports that evangelist's son had attempted to commit suicide yesterday.

United States Produced Two Thirds Oil Output

(By The Associated Press)
WASHINGTON, Nov. 19.—The United States produced almost two-thirds of the world output of petroleum last year, and Mexico slightly more than one-fifth, the Geological Survey reports. World production was 854,889,000 barrels, of which the United States supplied 577,331,000 and Mexico 182,278,000 barrels.

In the 62 years, 1867-1922, world production of petroleum totaled 10,366,778,000 barrels. The United States furnished 65.3 percent, or 6,749,532,000 barrels.

St. Petersburg Wants To Know Who Is Chief

(By The Associated Press)
ST. PETERSBURG, Nov. 19.—Ailing of the St. Petersburg police chief today brought news that the city council is considering a resolution that would require the chief of police to be a resident of the city.

Jack Walton of Oklahoma isn't the only state executive having trouble. Gov. Walter M. Pierce of Oregon has been threatened with recall.

COOLIDGE FAVORS REDUCTION OF TAX

Such Endorsement May Sweep Aside
All Opposition Among Republican
Leaders

(By The Associated Press)
WASHINGTON, Nov. 19.—President Coolidge is strongly inclined toward the Mellon tax reduction program and is expected by some of his advisors to endorse it fully in his message to congress. Such endorsement, in opinion of administration officials, would be sufficient to sweep aside such opposition as there has been among Republican leaders to tax revision at coming session.

Announce First Circus of Season in Sanford

Sparks Circus To Show Here—Three
Rings n' Everything.

The big gala day will soon be here. The No. 1 Advertising Car in charge of J. M. Randolph arrived in the city Saturday morning and his crew of 23 billers immediately started to work putting up the flaring posters and bills that set forth the wonders innumerable of the big performance to be given here Saturday, December 1st. Are there clowns? I should say so! A young army of them, and each and every one guaranteed to produce more laughs in a minute than all of the Doc. Coue or King Tutt jokes could produce in a century. They are as full of funny capers as Germany is of unruly soldiers and just to add good measure to the circus, an additional number of huge 70 foot cars have been added to the trains to carry the recent assignment of trained wild animals received from the foreign trainers in Stellingen, Germany.

Earthquake Shakes Southern Portion of France Early Today

(By The Associated Press)
PARIS, Nov. 19.—Earthquake early today shook eastern portion of southern France along Spanish frontier in what is called Gavonne basin, or eastern Pyrenees causing some commotion but no serious damage or loss of life.

Typhon Sweeps the Phillipine Islands

(By The Associated Press)
MANILA, Nov. 19.—Typhoon from Pacific has swept over Luzon and Visayas islands. Rail and telegraph communication has been entirely suspended. Manila is partially under water as a result of a terrible downpour, boats replacing motor cars in several of the city streets. The storm also caused considerable damage to crops.

DAYTONA SLAYER TO BE EXAMINED

Court Grants Request of Counsel For
Defense—Commission Is Appointed
For Examination

(By The Associated Press)
DELAND, Nov. 19.—The trial of Charles Brown, charged with murdering Howard Usher, taxicab driver several weeks ago started this morning but the court granted defense the request for a commission to inquire into Brown's sanity. Clara Brown and Joe Brown also accused of Usher's death were granted separate trials. Defense counsel said Charles was gassed during the World War and does not remember the Usher slaying. He was confined for a while in an insane asylum in New York state, the counsel said.

Operation of Panama Canal By Government Produces Big Profit

Also Renders Valuable Aid To World
Shipping—Profit of Twelve
Million Shows in Return

(By The Associated Press)
WASHINGTON, Nov. 19.—Operations of the Panama Canal and auxiliary agencies during the fiscal year ended June 30, 1923, were record-breaking in volume both as to financial returns to the United States government and aid rendered world shipping, the annual report of Governor Morow made public today, shows. From the financial standpoint the canal netted a profit of \$12,063,880 from all sources, excluding the Panama Railroad Steamship Line, as compared with \$9,201,613 in the fiscal year 1922 and, traffic operations increased on a scale that has brought the waterway to a point of "rapidly overhauling the Suez Canal."

Commissioners of St. Johns County Favor Road No. 3

ST. AUGUSTINE, Nov. 19.—St. Johns board of county commissioners has gone on record as favoring the building of what is known as the coastal route, the coastal highway via Savannah, in preference to what is generally known as the Waycross route.

The fact that St. Augustine is on state road No. 4, the Waycross route, and that the coastal highway, state road No. 3, extending from the Georgia state line at Wilds Landing, via Jacksonville, remains on the western side of the St. Johns river, passing through Green Cove Springs and Palatka, hence to Deland, Sanford and Orlando, would appear to make this action of the county commissioners of St. Johns inconsistent, but the resolution was adopted in good faith. Travel via Savannah to Jacksonville, bound for East Coast points, will naturally take road No. 4 out of Jacksonville, so if road No. 3 is built between the St. Marys river and Jacksonville, this city will get the benefit of the incoming travel over both roads, the coastal route and the Waycross route.

Sportsmen Hear "Call of the Wild" Opening Season

"Can't you hear the wild—it's calling you!" Sportsmen are hearing the call of the "Open Season" and are leaving for the hunting grounds of Lake Orange, Ocala and Beverly, where tomorrow they may hunt to their hearts content.

On account of the fact that the hunting season for Seminole county does not open until December 1 only 44 hunting licenses have been issued by the county judge's office.

Volusia county which has long been one of the most popular hunting places in the state is now closed against the sportsmen; a local game law prohibiting hunting in that county for several years.

It is understood that the sheriff's office of this county is on the alert to see that no hunting is done until after December 1.

BREAK AVERTED TODAY BETWEEN GREAT POWERS

Agreement Subject To Approval French and Belgium Cabinets

(By The Associated Press)
PARIS, Nov. 19.—Agreement in principle was reached by the Council of Ambassadors today and the break between France and Great Britain on the question of attitude toward Germany was averted. The agreement was subject to the approval of the French and Belgian cabinets meeting this afternoon.

The understanding was that the agreement called for sending Germany a protest against the lack of facilities she was furnishing for the work of military control of mission but without mention of what action the allies might take in case Germany failed to give the required assurances of protection. The French are understood to have made reservations on the question of penalties so that if it should prove necessary they would be free to take separate action. The impression in allied political circles is that the entente is saved for the moment, but still in a precarious situation.

Appeal For Homeless Made By Marcus Fagg

Appeal For the Homeless.
DELAND, Fla.—An urgent appeal to the people of Florida for aid for the Florida Children's home has been sent out by Marcus C. Fagg, state superintendent. Thanksgiving and Christmas are coming, he says, and "our society is in need of some help from every man, woman and child—and every church, school, lodge, Sunday School, Woman's club, Rotary club, Kiwanis club, Civitan club, Civitan club, Young People's Society, and other organizations or business concerns in the entire state."

"We need good homes for our homeless children—most of all—for we have scores of little ones that we

LITTLE JUSTIFICATION FOR UNREST IN THE PHILIPPINES SAYS GENERAL MCINTIRE IN REPORT TO CONGRESS

"Progress Toward Normal Conditions Has Continued and Islands Are Experiencing General Prosperity" He Says

WASHINGTON, Nov. 19.—Although political activities in the Philippine islands are in Porto Rico have been marked in the last fiscal year, Major General Frank McIntire, chief of the War Department's Bureau of War Reliefs, said in his report today that there is justification for relief of unrest existing in the islands.

"Political activities in the islands during the past year," McIntire said, "both in Porto Rico and in the Philippine islands have received during the past year greater benefits from the United States than at any time in the past, and these benefits have been more generally appreciated."

Regarding economic conditions prevailing in the Philippines during the fiscal year ended June 30, 1923, the report declared "progress toward normal conditions" had been continued.

"The year has been one of general prosperity," the General continued. "The first six months of the calendar year 1923 show a material betterment in foreign trade. For this period the total shipment of domestic products was \$67,109,479, of which \$50,470,807 came to the United States; the imports were \$41,770,348, of which \$24,169,123 came from the United States.

The showing in the sugar industry was particularly favorable. The total value of sugar exported was \$36,500,000 out of total exports slightly exceeding \$47,000,000.

"This excellent showing in the sugar industry, compared with former years, was due to the modern mills erected in the islands in recent years largely as result of free admission of their sugar into the United States."

Million Dollar Fire At Nashville, Tenn.

(By The Associated Press)
NASHVILLE, Tenn., Nov. 19.—Loss estimated at a million dollars which was covered by insurance, resulted when the Hermitage elevator owned and operated by Charles D. Jones and Company burned here with 500,000 bushels of corn, oats and wheat last night. The origin of the fire is unknown but authorities are investigating. No lives were lost.

FIRE TRUCK IN COLLISION SUNDAY

No One Hurt, Car Badly Damaged,
Happened On Corner French
And Third Street

While responding to a call from the gas plant yesterday afternoon about three-thirty o'clock, local fire truck number one, crashed into an auto owned and driven by Justin Van-Buskirk, realtor of Orlando.

It seems if the Van-Buskirk car was driving north on French avenue, and just before reaching third street, seeing the fire truck turning the corner to come on French from First, he immediately applied the brakes of his car. As the truck neared the intersection, the driver seeing another car coming down third street, fixing to cross French, swerved to the left so as to miss this machine and at the same time crashed into the Van-Buskirk car, a Hupmobile.

The Hupmobile was damaged considerably in front especially, both fenders being torn off, and the right hand wheel broken to pieces, bumper and headlights smashed up.

No one in either car was injured seriously, the occupants of the Hupmobile having, however, a few bruises. There were five in the wrecked car.

The fire at the gas plant was extinguished before the department arrived.

Advise Given As To Mail-
ing Packages

(By The Associated Press)
WASHINGTON, Nov. 19.—Co-operation in mailing Christmas gifts is being sought by the Post Office Department. Here are the suggestions of Third Assistant Postmaster General Glover:

Mail early.
Prepay postage fully on all matter.
Address all matter plainly and completely, giving street address whenever possible.
Place sender's name and address in upper left hand corner of address side.
Pack articles carefully in strong, durable containers.
Wrap parcels securely but do not seal them except when bearing a printed label or indorsement reading: "Contents: Merchandise—Fourth Class Mail. Postmaster: This parcel may be opened for postal inspection, if necessary," as sealed parcels so labeled or indorsed are subject to postage at the letter rate.
Parcels may be marked "Do not open until Christmas."
Insure valuable parcels.
Do not include letters with parcels, as doing so would subject entire parcels to letter postage.
Written greetings such as "Merry Christmas," "Happy New Year," "With Best Wishes," and new year emblems, or symbols for the purpose of inscription may be included in the class (parcel post) matter, but not simple dedicatory notes, not additions and not postage stamps.
The first class parcels may be wrapped in envelopes or written cards.

Medical Society Meeting At Montezuma Hotel

Plans have been completed for holding the November meeting of the Orange County Medical Society in Sanford Wednesday evening of this week at the Hotel Montezuma. Papers will be read by Drs. Tolar, Mitchell and Simmons, according to G. H. Edwards, secretary of the society.

Supreme Court Rules Against Alien Rights

(By The Associated Press)
WASHINGTON, Nov. 19.—Two more decisions upholding efforts to curtail land rights of aliens in California and Washington were returned by supreme court.

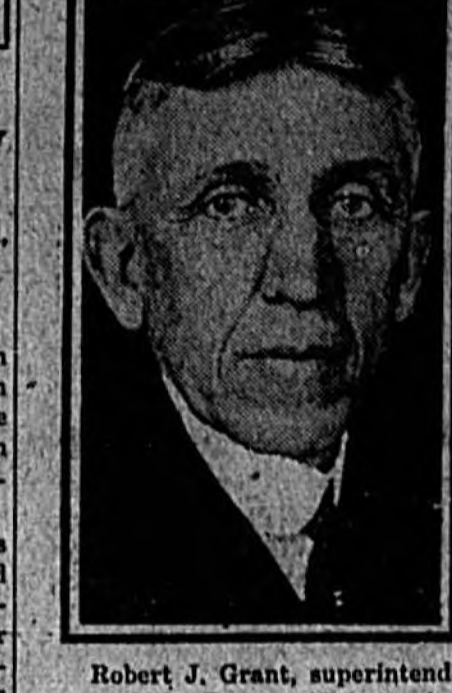

In one, the court held that under alien land laws of the two states recently held valid, aliens ineligible to citizenship cannot own stock in land owning corporation. In the other it was decided aliens who cannot own or lease land are likewise barred from entering into contracts with landholders for division of crops.

Edward Y. Clark Enters Court to Defend Charge

GROWING SENTIMENT FAVORING CONSTRUCTION OF BOULEVARD ALONG SHORE OF LAKE MONROE

Money to Burn

Robert J. Grant, superintendent of the Denver (Colo.) mint has been appointed Director of the Mint by President Coolidge.

COMMISSIONERS TO CONSIDER ESTIMATES AT NEXT MEETING

PUBLIC INVITED

To Express Views Regarding
This Important Development
Program

Citizens of Sanford and interested property owners along the route of the proposed lake front boulevard will soon be given an opportunity to go before the City Commissioners to express their views regarding the big development.

Since the publication of the fact that City Engineer F. T. Williams would complete estimates in time to submit to the City Commissioners at their next regular meeting, considerable interest has been aroused throughout Sanford and Seminole county in the project.

The City Commissioners expect to bulkhead the lake front from the present bulkhead west to the city limits. The remainder of the bulkhead to Lake Monroe will be built under authority of bill passed by the last legislature and fathered by Representative Forest Lake. This bill provides that pursuant to a request from property owners on the lake front, an election may be called to provide a bond issue to build the bulkhead and boulevard from the West limits of the City of Sanford to the town of Lake Monroe.

This will give Sanford and Lake Monroe a continuous driveway 100 feet wide along the beautiful shores of Lake Monroe and through one of the most beautiful sections of natural scenery in the state of Florida.

Plans and specifications of the new boulevard will comply with all requirements of the State Highway Commission and Federal Government and will receive aid from both and will be a component part of the St. Johns Scenic Highway between Sanford and Jacksonville.

Advocates of the big improvement point out that aside from good roads feature of the proposition, the benefits from the standpoint of health and sanitation cannot be ignored, and that much of the land through which the new road will be built is low and swampy, unavailable for farming purposes and of no value to the owners in its present state.

It is also stated that everyone directly affected should seriously consider the plan from the standpoint of health as well as wealth and should lend every aid and encouragement to those behind the move to make its completion possible at the earliest possible date.

BIRTHDAY PARTY.

Little Miss Ella Spencer was the charming young hostess yesterday afternoon when she invited a number of her friends to help celebrate her tenth birthday anniversary, at her home on Hughey street.

The color scheme of pink and green was artistically carried out in the decorations and other details. In the dining room the table was laid with a lace cloth and centered with the birthday cake iced in pink and topped with ten tiny pink tapers. Around the base of the cake was an effective arrangement of asparagus ferns and rose buds. Suspended from the chandelier to the corners of the table were streamers of pink. The place cards and nut cups were also of pink.

The afternoon was merrily spent with games both old and new and several interesting contests were featured. At a late hour the hostess assisted by her mother, Mrs. G. W. Spencer, Mrs. Morris Spencer and Mrs. Claude Herndon served refreshments of jello topped with whipped cream and cakes. The favors were cunning little turkey gobblers and hens filled with candies.

About twenty children enjoyed this happy occasion and the young hostess was the recipient of many beautiful gifts.

THIRTEEN BRIDGE CLUB.

Mrs. B. L. Perkins was the gracious hostess yesterday afternoon when she entertained at bridge at her home on Magnolia avenue, the guests included the members of the Thirteen Bridge Club and an extra table of players.

The rooms where the card tables were arranged with a profusion of cut flowers in the various shades of yellow carrying out the color scheme of yellow and green.

Scores were kept on tallies decorated with pumpkins and turkeys suggesting the approach of Thanksgiving. When scores were counted after several absorbing games of bridge, the prize for the high score among the club members went to Mrs. Harry B. Lewis, while the high score guest prize was awarded Mrs. W. A. Fitts, both were presented pottery bowls of narcissus bulbs.

At the conclusion of the card game, the hostess assisted by Mrs. Mary Strong served a delicious salad course with coffee.

The favors were dainty nut cups of yellow filled with candies and nuts. A number of friends joined the players for tea.

Those enjoying this lovely party were Mrs. D. P. Drummond, Mrs. Harry B. Lewis, Mrs. David Caldwell, Mrs. A. B. Wallace, Mrs. Claude Howard, Mrs. W. C. Hill, Mrs. E. F. Housholder, Miss Mabel Bowler, Mrs. W. A. Fitts, Mrs. Floyd Palmer, Mrs. W. T. Langley, Mrs. W. A. Lefler, Mrs. George McRory, Mrs. Padgett, Mrs. W. W. Potter, Mrs. Ralph Wight, Miss Mary Powell, Mrs. M. Strong.

WEBSTER-ALLEN.

In the presence of the immediate families and a few intimate friends, the marriage of Miss A. V. Allen and Mr. George Webster, was beautifully solemnized Sunday morning at half after ten o'clock at the home of the bride's parents on Second street, Dr. W. J. Carpenter, pastor of the First Methodist church, officiating, using the impressive ring ceremony. The lower floor was opened on suite and effectively decorated with quan-

titles of large potted ferns, palms and other plants forming a rich background for the myriad of cut flowers artistically arranged in baskets. The stairway was covered with white studded with sprays of feathery asparagus ferns. In the living room where the solemn words were spoken, an improvised altar was placed. Suspended over this was a large white wedding bell, the clapper being one huge white chrysanthemum.

While the guests were assembling a lovely program of nuptial music was rendered by Mrs. C. A. McKay. Using as a processional, "The Bridal Chorus" from Lohengrin, and Mendelssohn's Wedding March, as the recessional.

Promptly at the appointed hour, the bridal party descended the stairs and took their places before the altar. The groom and his best man, Walter Tyler entered first. They were followed by Little Miss Anice Cripe and Roy Allen, Jr., who carried French baskets filled with rose petals which they scattered in the path of the bride.

Little Anice's frock was of cream canton crepe with trimmings of brown, worn with a becoming poke bonnet and shoes to match. Guy, Jr.'s suit was of brown satin worn with blouse of pongee.

The bride entered with her maid of honor, Miss Carrie Dansey, who was attired in a smart costume of Copenhagen blue flowered crepe de chine, with trimmings of gold lace. With this she wore a large picture hat with ostrich trimmings. Her flowers were of roses in the various shades of pink.

FORD ANNOUNCES NEW TUDOR SEDAN

Is of Distinctive Type and Will Carry
Five Passengers—Has
Graceful Lines.

DETROIT, Mich., Nov. 19.—The Ford Motor Company today announced an addition to its line of cars—the Tudor Sedan which brings to the public an entirely new style of Ford enclosed body.

It is a distinctive type designed to carry five passengers in complete comfort. The roof line is low and straight which with the latter radiator, now standard on all Ford cars, gave Ford designers an opportunity of effecting most graceful lines and at the same time a most sturdy construction.

Besides its general appeal and high quality aspect, the Tudor Sedan has several new features which promise to win immediate favor.

The two doors are unusually wide, 28 3/4 inches to be exact, and are set at the front of the car, hung in exceptionally heavy frames and swing open forward on either side in line with the driver's seat.

Side windows running back from the doors are oblong in shape and thirty-two inches in length, affording unusual vision to the occupants, while a large rear window adds to the visibility. All window glasses are lowered flush with the framing, affording clear vision and the maximum in ventilation.

Exterior appearance is enhanced by a windshield visor, cowl ventilator and secure rear fenders of new design.

Interior arrangements of the Tu-

dor Sedan meets all comfort requirements both for driver and passengers. The driver's seat is of the "bucket" design, with easy cushion and back, assuring restful posture. There is a noticeable roominess in front with plenty of foot room. The tilting seat opposite the driver folds compactly out of the way so that entrance and exit through the large and roomy door is easily and conveniently effected by those occupying the rear seat is amply large for three persons. The Tudor Sedan is priced at \$590 at Detroit.

America's Greatest Sight-Seeing Tour

AT last a visit to Miami and Coral Gables as our guests in one of the new modern pullman auto busses especially planned and carried out for the people of Sanford.

An opportunity to enjoy free of charge a motor trip through the interesting points along the east coasts of Florida; a sight seeing trip to points of interest in Miami, and a tour through Coral Gables—that Master Suburb of the Magic City where the beauty of Spanish architecture, the setting of tropical plants, the broad plazas and boulevards, the magnificent country club, golf course, the tennis courts, the out door dancing floor, and the Venitian swimming pool framed with flowers and trees makes life richer and fuller.

Mr. Ralph Green special man for Coral Gables will be in this office Wednesday, November 21, to make reservations for a special bus to be made up entirely of Sanford people to make the trip Monday, November 26. This is your chance to make the trip with our local people.

Reservations should be made at the earliest moment at the local office. The big bus is as easy riding as a pullman car, and the trip will be in charge of courteous and efficient members of the Coral Gables organization. Here's your opportunity to join the greatest sight seeing tour in America. Space is limited. Make your reservation for seats now.

Skinner Coke Heaters Economical Frost Protection

Low in original cost; fueled with coke, cheap and easily handled, these heaters are perfect frost insurance at small expense.

In use they raise the temperature evenly, surely, without danger of scorching and maintain this protecting heat unattended from seven to nine hours. Additional coke thrown on the embers of the initial charge will continue the protection. This re-charging is simple and can be done with great rapidity.

Hundreds of groves and truck farms in Florida and other states are protected by Skinner heaters. We will be glad to give you names of experienced growers near you who have adopted this protection after full investigation.

TODAY'S BIBLE THOUGHT.

What doth it profit, my brethren, though a man may have faith, and have not works? Can faith save him? —James 2:14.

Wide-awake Sanford!

Genuine patriotism is service.

Opportunity doesn't knock at Sanford doors. It walks right in.

Some folks don't know that keeping the weeds cut is one very good kind of patriotic display.

Thanksgiving Day is almost a December feast. Nine more days to practice your Thanksgiving smile.

That's a wise school teacher who requires the memorizing of beautiful passages of literature. A memory gem for every day is a power builder.

These snappy days give warning that Sanford's busiest season is close at hand. Only a little more than a month for the Christmas preparations.

Send The Herald your list of advertising facts about Sanford and Seminole county. Help The Herald to tell the world.

Noting that this is "Education Week," the Times-Union suggests that the Jacksonville sign painters be given a spelling book.

Why not some more Sanford signs on the East Coast highway? Visitors to Florida are deprived of much pleasure if they don't see the Sanford territory.

Observing that a Detroit scientist says reckless drivers are feeble-minded, the Palatka News declares it had no idea idioy is so nearly universal.

Good advice for every town, the Clearwater Sun says: "Trade at home. If your merchant does not carry in stock what you want, tel him about it and he will be glad to get it for you."

So many people have been brought up on the belief that Thanksgiving is just a synonym for turkey and pumpkin pie, they lose most of the significance of the great American holiday.

Several Florida towns make a practice of observing "Post Card" days at frequent intervals. Some excellent advertising can be achieved this way, if the post cards sent are creditable.

Plant a flower garden. Sanford can be made the prettiest Flower City in the country. Some pictures of the lovely gardens already established here would make attractive advertising.

The St. Petersburg Times is our authority that the mayor of the Sunshine City has invited a famous evangelist to come and hold a revival there. That "Salut" may be Pete's nick name.

Secretary Mellon has approved a program which he announces will take \$23,000,000 off the national taxes. It's time to begin showing the dear people that a Republican administration is a money-saving proposition.

Tarpon Springs Leader "guesses that Henry Ford's idea of being financially embarrassed would be to let his checking account run down below a million dollars." If Henry ever should get "embarrassed" about money, he'd merely add a coinage department to his silver plant.

This is the kind of talk Florida likes to hear. The Daytona Journal says: "The Halifax Country is building new homes and business blocks on every hand, and it is estimated that the total value of buildings to be erected in the next twelve months will range between two and three million dollars."

To The Readers of The Sanford Herald

With today's issue, The Sanford Herald finds itself in the hands of its new owners. It is entering upon another era of its life, and has no knowledge of the days before it.

The new owners of The Herald have learned to think of their newspaper as a Personality. A newspaper must live its life as much as a human being lives. It must have character and individuality. It must have ambition and hope. It must have the faculty of making friends and the ability to make the right sort of enemies. It must have a reason for its existence and a purpose to shape its course. It must have vision and the power to speak its mind.

A newspaper IS a Personality, and the new owners of The Sanford Herald have the task before them of trying to make it as creditable a personality as was achieved for it by R. J. Holly.

It is with this thought uppermost that the undersigned take hold of the publication of the Sanford paper. We have come to Sanford to make our homes. We have come filled with enthusiasm over the prospects here for business success and pleasant social relations. But we come with the knowledge that Sanford has possessed a newspaper of exceptional merit in the "person" of The Sanford Daily Herald, and that Bob Holly's successors must be alert, indeed, if they hold this publication in its creditable place among the newspapers of Florida.

A moment ago, however, we were speaking of newspapers as living beings. The Sanford Herald is a living being—strong and vigorous. May we not, then, ask it to carry on while giving us mere helpers time to become acquainted with conditions here? We wish to learn just what the people of Sanford and the neighboring territory desire us to do with their daily paper. We wish to go slow and sure, with as accurate knowledge as we can acquire of what their daily paper means to Sanford people.

"Their" daily paper—YOUR daily paper. For after all, a real newspaper "belongs" to the people it serves. The Sanford Herald belongs to the people of this community. It is to them only what they desire it to be. It works for their interests to the extent that they take advantage of the opportunities it offers. It is a public institution of immeasurable potentiality for usefulness.

Sanford's intelligent people know all this. We are well aware that we are to serve discerning people who have been accustomed to good newspaper service. We shall endeavor to continue the good work upon which they have learned to depend.

With a working slogan, "Today's news today," The Herald force will undertake to tell its readers the stories of the day's happenings, with especial attention to the activities and the interests of the home people. We shall endeavor with equal effort to augment the paper's long-time pull for Sanford's growth and progress. We stand for law enforcement, for decency, and for all things, big and little, that will keep Sanford happy and wholesome.

More than this we cannot say. We are too unacquainted with conditions here and too ignorant of the big dreams that many Sanford people have been dreaming and making come true, to attempt to offer advice or to express didactic opinions about what should be done for Sanford's greater progress. But we should like to take this chance of saying to the people of this community, that they have SOME town!

Coming from Miami and its phenomenal development, we feel that we are qualified to recognize signs of life in other towns. Sanford impresses us as being one of the liveliest towns in Florida. Its opportunities for substantial growth are greater than those which Miami has used to such signal advantage. And we feel that we have come in time to "get in on the ground floor" while doing our best to bring to the attention and appreciation of the world this Sanford of Ours.

Please tell us how we may serve you. Reese Combs, R. L. Dean, R. H. Berg.

"Canny Florida" In the Limelight

Florida is receiving much approving comment from thoughtful writers throughout the country because of its proposed constitutional amendment which would prohibit income and inheritance taxes and would exempt from taxation \$500 worth of personal effects from every family residing in the state.

One Connecticut paper, the New Haven Register, calls Florida "canny," predicting that there will be thousands of people transfer their personal property and their industries to this state to avoid the unfair income and inheritance taxes which have become so burdensome in many other parts of the country.

The amendment will be voted upon in the general election next year and should be thoroughly discussed and understood by Florida electors.

DISCRIMINATING AGAINST HOME

(Jacksonville Times-Union)

The Georgia papers have had much to say recently about the practice that has been discovered in that state of buying Georgia products under the brand of other states. The Savannah News says:

Oh, yes; you may be eating Georgia-made butter every day and don't know it. In a sort of perversion of human nature in this part of the country there are many who will pay more for an article from a distance than for the home product, there are many who buy food by the label. And the packing houses know this psychology. They buy the Georgia creamery product, repackage it and sell it back to Georgians under the packing company's own brand-name.

It is safe to say that this practice prevails in Florida to some extent but, generally speaking, the products of this state are considered by the people here as superior to others of the same kind. But there is more or less of a discrimination in giving contracts or supervision of work to firms or individuals in the bigger cities. Some men seem to think that a man's ability is measured by the number of skyscrapers in sight of his place of work and that his reliability is in proportion to the population to the population of the city in which he lives.

The poorest citizen in the world is the one who takes it for granted that his own people are incapable or unreliable. Of course, home people should not be permitted to charge exorbitant prices for a contract. If they are unreasonable the contract should go elsewhere. If they charge no more than others the contracts should remain at home. This is not so much

at a favor to the local man who gets it as to the community in general. Money that goes out is lost to the local circulation. Money that stays at home circulates at home and all classes get more or less of the benefit of it.

This is especially true of money raised through taxation. The people are entitled to get as much as possible for it and work of every kind should go to the lowest efficient bidder. But if two bids were equal and efficiency were equal the home bid would be the cheapest for the money would be retained at home.

And a man is a mighty poor citizen of any state who presumes that the local man is inefficient. His influence is against his state for what he does has a tendency to show that the man who lives here and spends his money here is looked on with a suspicion that he would be free from if he lived in a larger city. There is no excuse for not knowing as to the ability and as to the equipment of Florida firms for handling work in Florida. It is much easier to find out all about a home man than it is to find out about one a thousand or more miles away.

A white crow captured in Denver is causing much comment. Perhaps it is a 1924 model.

Circulating dollars are the measure of a town's prosperity. Bills paid promptly keep the dollars moving.

Forty automobiles loaded with Florida-bound tourists waiting at one ferry in Georgia! That is the report brought by one returning winter resident. Florida is to have a great tourist business this winter,

Yesterday And Tomorrow

By Robert Burdette.

THERE are two days in the week upon which and about which I never worry; two golden days kept sacredly free from fear and apprehension. One of these days is yesterday. Yesterday with all its cares and frets, with all its pains and sorrows, has passed forever beyond my control, beyond the reach of my recall. I cannot undo an act that I wrought; I cannot bring back a word that I said; I cannot calm a storm that raged on Yesterday. All that it holds of my life, of regret, of sorrow, of wrong, is in the hands of the mighty Love that can bring sweet waters out of the bitter desert—the Love that can make the wrong things right, and turn mourning into laughter. Save for the beautiful memories, sweet and tender, that linger like perfume of dried roses in the heart of the day that is gone, I have nothing to do with Yesterday. It was mine; now it belongs to God.

And the other day I don't worry over is Tomorrow. Tomorrow with all its possible cares, its burdens, its sorrows, its perils, its poor performances and its bitter mistakes is as far beyond my reach of mastery as is its dear sister, Yesterday. Its sun will rise in rosetate splendor, or behind its gloomy mask of weeping clouds. But it will rise. And it will be God's day. It is God's day. It will be mine. Save for the star of hope that gleams forever on the brow of Tomorrow, I have no possession of Tomorrow. All else is in the safekeeping of the same Infinite Love that holds for me the treasures of Yesterday.

There is left for myself, then, nothing but Today. And any man can fight the battle of Today. Any man can carry the burden of just this one day. Any man can resist Today's temptations. This is the strength, then, that makes the way of my pilgrimage joyous. I think and do, and I journey but one day at a time. And while I do that, God and the Almighty and All-loving takes care of Yesterday and Tomorrow.

FLORIDA LAWS AFFECTING MOTORISTS

(Clearwater Sun)

For your information in advising about this matter. If any one should be arrested for driving a pleasure car weighing more than 4,000 pounds under the terms of this law, public sentiment would be so strong against such procedure that it would not be persisted in. It is generally known or understood that the speed limit in Florida is 30 miles an hour. As a matter of fact, there is much driving at a speed in excess of 30 miles and our people do not get arrested, provided they are driving carefully and do not cause trouble.

The same legislature also passed an act limiting to thirty days the reciprocal period during which time motorists from other states may drive on Florida highways without being required to take out a Florida license. However, visiting motorists staying over thirty days may take out licenses for periods of two months each at a corresponding proportion of the annual license fee. For example, a two months license will cost one-sixth of the annual fee. This courtesy is only extended to non-residents.

H. B. Phillips, chairman of the Florida Highway Commission has the following to say regarding this new law: "I am very sure that the legislature did not intend to limit the speed of touring cars in any such manner. What they are striking at was to limit the speed of trucks and heavy passenger buses. I do not think there will be any trouble in our State

about this matter. ROMANCING.

The years have flown so quickly
And Time has quickened pace;
But in the dusky gloaming
I seem to see your face.

From out the past's swift glory
It shines with radiant joy;
I see you, as you were that night
A happy carefree boy.

Love's fires sweetly kindled
Your eyes of wistful brown;
Which told an old, old story
While star-shine tumbled down.

Your arms stole softly 'round me
And gently held me fast;
Contentment breather upon us
Too sweetly true to last.

Your lips, with tender passion
Rained kisses down on mine;
The World was love-enchanted
With ecstasy divine.

That night is far behind us
And youth and romance fled;
But love eternal, lives for aye
Though Life itself, were dead.

The many friends of Mrs. Fred Walsma will be grieved to learn that she is quite ill at the Valdez Hotel.

SANFORD HIGH SCHOOL NOTES

The Junior Class is hard at work practicing for their play which they are planning on giving just before the Christmas holidays in the High School auditorium. The play is entitled "Lost A Chaperone" and promises to be as good as the one staged last year by the Senior Class. Date of staging the entertainment will be announced later.

The marvel of the school is Walter Bach, who attends school about ten days out of a month—and yet gets 98 on Geometry! This bird just naturally has circles, angles, etc., stuck into his head like football formations!

And closing, we are all singing "Down Hearted Blues" because we didn't beat St. Augustine High Saturday afternoon!

LOVELY BIRTHDAY PARTY

On Saturday afternoon, little Miss Karla Wheeler, was the charming young hostess when she invited a number of her friends to help her celebrate her sixth birthday anniversary, at her home on Union avenue.

The artistic color motif of brown and yellow, was beautifully carried out in the various rooms, with baskets of chrysanthemums, daisies and other cut flowers in the shades of yellow and brown. In the dining room, the refreshment table was laid with a brown and yellow cover and centered with the large birthday cake iced in yellow, topped with six tiny yellow tapers in rose holders. Surrounding this were myriads of tiny turkeys and pumpkins. Marking the places were cunning little novelties suggestive of the Thanksgiving season.

Games of all kinds dear to the childish heart were played on the spacious lawn, the children being assisted in these by Miss Russell Lee Wheeler. As two of the prize winners babbled were in attendance, Mrs. Victor Check presented them each a lovely gold necklace. They were Joe Marion Crenshaw and Virgil Louise Wheeler.

Late in the afternoon Mrs. W. V. Wheeler, assisted by Mrs. Victor Check and Mrs. Emmett Hunt served refreshments carrying out the color scheme, consisting of ice cream in tiny flower pots, topped with shredded chocolate and small yellow chrysanthemums.

Each child was given a turkey cap and candy box also in the form of small turkeys, filled with candies and nuts, as favors.

The afternoon was one of exceptional enjoyment to the youngsters and the hostess was the recipient of many beautiful gifts.

The Methodist Ladies will hold their annual bazaar December 14th and 15th. No. 200 etc.

There is no waiting for meals with a Florence Oil Range

Quick heat for cooking

WHEN you are rushed to get your meals promptly, you won't have to waste time fussing and fuming over a slow stove if you cook on a Florence Oil Range.

The Florence gives you intense heat for speedy cooking. Just touch a match to the Asbestos Kindler. In a few moments the kettle begins to sing and the pot to chuckle. You can roast, bake, boil and fry—in fact, cook anything on a Florence Range.

When you are not using the fire, merely turn it out. This means a cooler kitchen in warm weather, and it means economy. And, remember, there are no ashes or soot to dirty your kitchen; no shaking the fire to tire you; no drafts to baffle you.

The flame in a Florence Range is close up under the

cooking, where the heat is not wasted. By turning a lever you can regulate the heat to any degree.

Does not burn from a wick

The vapor from kerosene is what burns. Kerosene is a cheap and plentiful fuel. The Florence flame is not a wick flame, such as you see in the ordinary oil lamp.

You will appreciate the special features of the Florence the moment you examine one at the store (department, furniture or hardware store).

The Florence Leveler enables you to set the range level on an uneven floor. Notice particularly the quality of the porcelain enamel and the sturdiness of the whole range. The Florence not only means a clean kitchen, but it adds beauty to any kitchen.

The Big Burners
The heat in the Florence burners is close up under the cooking where it is not wasted.

Florence Leveler
Attached to each leg of the stove, this device enables you to set the stove level on an uneven floor.

Coach McQuillan Rated One of Florida's Best

Mentor of Dreadnoughts Has Put Out a Team That Is Marvel All Over The Country.

LAKELAND Nov. 19.—Coach H. R. McQuillan, the South Florida mentor creating such a sensation throughout Florida with his Lakeland high dreadnought eleven, is not as widely known as some lesser lights in the high school coaching world, who have nowhere near the record McQuillan has.

He is a Westerner by birth, hailing from Rochester, Minn., but as an athlete he starred, at North Dakota, and made All-State for many years as a back in his high school athletic career.

During the present campaign he has only been scored on once, this honor being held against him by Orlando High. A fumble on the ten yard line, when an Orlando back recovered the ball and ran the whole length of the field for the only touchdown against the Dreadnoughts this season.

McQuillan is possibly the smartest coach in Florida when it comes to the "tricks of the profession." He was in Jacksonville when Orlando played there. He was in Tampa when Clearwater played there. He was in Barrow on four different games when opposing teams played there.

NOTICE TO BROTHERHOOD OF ST. ANDREW BOWLERS

The following Brotherhood Bowlers are requested to be on hand tomorrow night at the Bowling Alleys to bowl for their team in the match with the Men's Club: Robert Mason, Clarence Duffin, Louis Hughey, Geo. Thurston, Carl Dorner, Geo. Smith, Mutt Moye, and Alton Jester.

ST. AUGUSTINE TIES SANFORD HIGH IN ONE OF MOST EXCITING FINISHES EVER WITNESSED HERE

With Score 7-0 Up To Last Five Minutes of Play, Canfield, St. Augustine Half Dashes Eighty Yards For Touchdown, Followed By Successful Goal Kick Tying Score

Fields Outstanding Star of Sanford Clan, While Canfield Starred For Ancient City Boys

Sanford High lost her chance to win her fourth straight high school game when Canfield, St. Augustine halfback ran eighty yards for a touchdown in the last few minutes of play Saturday afternoon.

The St. Augustine Yellow Jackets in a thrilling and very close game tied the Sanford High football squad on Hood Field here Saturday afternoon. The game started at four o'clock with a fair attendance.

The game started with Sanford winning the toss and electing to kick off. E. Moye kicked-off to Mulvey, who made a fair return. G. Sanchez then took the ball around left end for five yards. Canfield plunged through right guard for two, Howett around right end for two more, Howett then failed to gain through center, then Pope took the ball through center for the one necessary yard and coupled with a piece of beautiful field running by Lee Peck, placed the ball on the one-yard line from whence Fields too kit across for the first blood of the game.

Celery Feds Fail in Field Goal Attempt.

Again the Celery-Feds kicked-off to St. Augustine, Canfield making the catch and practically no return. The game was then a see-saw till the end of the first quarter when the locals placed the ball in front of the goal posts. At the beginning of the second quarter, Bach tried a place kick which failed and it was blocked by Buell.

Yellow Jackets Threaten With Big Air Attempt.

The Yellow Jackets then opened up with a strong aerial attack which gained them fifty yards in five plays and placed the ball on the locals twenty-yard line. The whistle for the half Fields intercepted a pass and brought the ball to the thirty-five yard line.

Third Quarter Uneventful.

The third quarter was uneventful, the ball going from one team to the other and both sides desperately striving to place the pig-skin within striking danger of the other's goal.

Five Minutes Which Ties Score.

The last quarter was practically the same as the third until the last five minutes of play when Canfield got loose on a line buck and ran eighty yards for a touchdown. This was one of the best exhibitions of broken field running ever witnessed on this field and showed the fine coaching of the visiting team.

The game was marked by brilliant playing on both elevens, although the locals were not up to their usual

form. On the local squad, Field was the outstanding star. His marvelous broken field running, his ability to intercept or break up passes and his quickness at finding a hole in the Saints' line was remarkable. E. Moye as usual was a hurricane when it came to hitting the line and failed not a single time in making gains. Bach and Peck were also playing an excellent game and deserve much credit.

Canfield was the outstanding star of the game for St. Augustine team while Howett and G. Sanchez were not far behind. On the line Connolly, Mulvey and Buell showed up well. Good Game and Locals Deserve Credit Even If They Did Not Win But Tied.

In all it was a fairly good game, full of the usual thrills in football with perhaps a few new ones thrown in and although our boys have done better, they had a hard team to battle with and were proud that the Saints were not able to beat them.

Line-up table with columns for Sanford, Position, St. Augustine, and player names like Wade, Buell, M. Moye, Mulvey, etc.

Substitutions: Drysdale for G. Sanchez, M. Pope for Beacham, Pyles for Drysdale, Meadows for Connolly, Hartman for McQuaig, Flowers for Stone.

Officials: Chittenden, referee; Case (Fla.) umpire; Headlinesman, Hines (Mount Vernon); Time-keepers, Spencer and Buell. Time of quarters, fifteen minutes.

CHANGE IN BOWLING LEAGUE SCHEDULE FOR THIS WEEK.

Due to a meeting which was scheduled by one of the clubs, the Bowling League schedule for this week had to be changed slightly. The Knights of Columbus will meet the Merchants Thursday night instead of Tuesday night.

Brotherhood of St. Andrew Will Have Basket Ball Team

Wants Games With High School and Other Young Men's Teams.

The Brotherhood of St. Andrew will have a first rate basketball team this year according to all reports. They will have Geo. McRory at their helm and with the excellent material on hand they propose to put out a team that will excel any the Brotherhood has had in previous years.

The team will be composed of members of the Senior Chapter, most of whom go to High school and have had much experience at the game. Last year the Brotherhood of St. Andrew was reputed for the wonderful baseball team that they had and it is expected that they can make repetition of this in basketball.

Some seem to think peace in Europe will take French leave.

CELERY SEED

Too much "can" on the "field" (Canfield) proved to be a surprise to our boys Saturday afternoon on Hood Field. The aforesaid Mr. Canfield got loose and ran eighty yards for a touchdown, said touchdown being followed by point gained by kicking goal, tied the score!

This was one time we got our wires crossed. We will say frankly that we expected the Celery-Feds to trim the Ancient City lads by the margin of two touchdowns at least.

We were watching closely when Clarence Fields made that touchdown and we want to say right here that he certainly uses his eyes and head. He picked the prettiest open hole to dash through for Sanford High's first touchdown that we ever saw.

Another player who was in up-to-date form was Ed Moye. Ed usually makes pretty good gaps in the opposing line and he certainly gave them the "line breaker" Saturday. The Saint players thought the Spaniards were attacking San Marco again.

We were not able to get the weight statistics on the St. Augustine bunch but if our eyesight was right (which it is when it comes to seeing something good to eat) those fellows certainly outweighed our "11."

Anyhow the Saints certainly put a crimp in our hopes in regard to Saturday's game.

The games this past week left the contenders for the State Title about the same. Duval kept her slate clean by giving St. Petersburg a drubbing. Hillsborough and Lakeland also kept with Duval in the race by defeating Plant City and Manatee respectively. Looks to us like this State Title race is going to have some real development.

Especially so if Hillsborough's "hunk of beef" and Lakeland's Dreadnoughts ever meet on a hundred yard field!

The Truckers meet the Champs tonight in the Bowling League. So by this time tomorrow the undefeated list should be narrowed down to two teams.

The Brotherhood of St. Andrew, as they do every year, are forming a basketball team this year. With the competent coaching of Geo. McRory they ought to put a nifty quintet.

The local football team will play their next game away from home. Next Saturday they will meet the Memorial High Tigers in Orlando in what is expected to be one of the greatest high school grid battles of the season.

Memorial High has a much better team this year than last year and it will be no easy game for Sanford. The locals have had a fine season but they will certainly have to be in fine shape to beat Memorial.

Earl of Cristenberry Makes Name For Self

A clipping from a Birmingham paper gives us the interesting information that Earl Cristenberry, who spends his vacations with his parents in Sanford, has made quite a name for himself in football circles among the schools of Alabama. Earl played baseball considerably here last summer in the Pepper League, playing for the Big Berean Brotherhood and was rated by them as a classy baseball player.

According to the clipping, Earl, in a recent game between his school and Jefferson County High, "caught the ball on his own five yard line and with perfected interference ran through the entire opposing team 95 yards for a touch down. Again in the fourth he intercepted a pass and ran seventy yards for a touchdown." No doubt Earl's many Sanford friends will be glad to hear that he is making such a success at the game.

McQuillan, the South Florida mentor creating such a sensation throughout Florida with his Lakeland high dreadnought eleven, is not as widely known as some lesser lights in the high school coaching world, who have nowhere near the record McQuillan has. Coach McQuillan came to Lakeland last year at the beginning of the school term upon the recommendation of some of the smartest collegiate authorities in America.

He is a Westerner by birth, hailing from Rochester, Minn., but as an athlete he starred, at North Dakota, and made All-State for many years as a back in his high school athletic career. McQuillan is known as the "miracle coach" of South Florida, that is, everybody talks about him but rarely does one read of him in the newspapers as they do of his teams. He has only lost one game since he came to Florida, that one game last year when Gainesville High defeated him here in Lakeland by the score of 7 to 0.

During the present campaign he has only been scored on once, this honor being held against him by Orlando High. A fumble on the ten yard line, when an Orlando back recovered the ball and ran the whole length of the field for the only touchdown against the Dreadnoughts this season.

McQuillan is possibly the smartest coach in Florida when it comes to the "tricks of the profession." He was in Jacksonville when Orlando played there. He was in Tampa when Clearwater played there. He was in Bartow on four different games when opposing teams played there. He arranges his schedule each year so that his eleven will not conflict with dates with those of his opponents. Not once this season did Summerlin play a game on her home grounds that Lakeland had a game scheduled on the same date. He seats them all—and as Bill Roper, head coach at Princeton says in the Florida Times-Union, "It's good football judgment."

For Governor of Florida FRANK E. JENNINGS

RUNNING ON HIS RECORD

As an active factor in the civic and community life of Florida for the past twenty years.
As a member of the State Board of Control and the State Plant Board for four years, 1913 to 1917.
As a member of the lower house of the legislature of Florida, and as Speaker thereof, session of 1921.

AND ON THIS CONSTRUCTIVE PLATFORM To the Democratic Men and Women of Florida

Thought in no sense a chronic office holder, I am not untrusting and untired in State-wide affairs. My service to the State as a member of the Board of Control was positive and effective and my service in behalf of our common schools has been no less efficient. My efforts as a member of your State Plant Board, which eradicated citrus canker, thereby saving the very life of our citrus industry and adding untold millions to the wealth of Florida, constituted a service of which I am proud. My fearless and constructive work as a legislator is a matter of public record. My election as Speaker of the House during my first term was an unusual distinction, and my record as a presiding officer met the approval of the membership.

I AM FOR

- FOR the fair, the honest and the positive enforcement of law. This includes our prohibition law—government must not be degraded nor the constitution destroyed. I shall remove any officer failing to discharge his duty but not until after he has been given an impartial hearing.
- FOR a re-appointment of the House and the Senate, fair and just alike to all portions of the State. Every power and influence which I have will be used to that end. My record as a legislator and as Speaker is clear on this issue.
- FOR a road building program fair and just to all portions of the State, with the utmost speed and with just regard for the traveling public.
- FOR a constructive revision of our tax system to the end that the expense of government be justly apportioned.
- FOR every possible aid to our public schools, and support of our institutions of higher learning in keeping with their needs.
- FOR enlarging the State Marketing Bureau, and for all sound means to secure the farmer a square deal.
- FOR the rapid and aggressive completion of our Everglades Drainage, cooperating in plan and power with land owners affected.
- FOR keeping State expenses to the minimum without checking necessary development and for getting a dollar in value for every dollar spent.
- FOR just and adequate protection of our great fruit, trucking and farming industries against pests and diseases.
- FOR tick eradication and for a practical method of restoring the forests of the State.
- FOR a fair and a careful exercise of the pardoning power, as the constitution intended.
- FOR changes in our court procedure to reduce criminal and civil costs, and a more speedy termination of litigation.
- FOR bringing more people, more money and more good business to every part of this great State.
- FOR humane treatment of all convicts, I am opposed to the lash and the lease but favor constant labor for all prisoners able to work.

I will meet all issues fairly and discuss them frankly. My public record and the public records of my opponents are public property. I will discuss these records as occasions arise.

I Shall Win!

FLORIDA TO SHIP TWENTY MILLION BOXES OF CITRUS FRUIT THIS YEAR

GAINESVILLE, Fla., Nov. 19.—In a report made public here by Sam T. Fleming, agriculture statistician of the Bureau of Agricultural Economics, regarding crop conditions and estimates for the current year in the State of Florida, he places an estimate of 12,000,000 boxes of oranges and 8,000,000 boxes of grapefruit, which is approximately 10 per cent increase over last year's production of grapefruit. Mr. Fleming says that, under ordinary circumstances, a similar annual increase can be expected for the next five years due to the increased plantings of grapefruit throughout the state during the past few years.

According to figures compiled at the College of Agriculture there is no immediate danger of over-production at present. There is, however, a very apparent need of proper marketing conditions and an expansion of the state's northern markets in order that it can dispose of its fruit most advantageously, according to expressed opinion of college officials in close touch with the situation. Many cities throughout the middle west would welcome carload shipments of citrus fruits direct to them and not handled through the New York and Chicago markets, it is believed by these officials, who are of the view that there is great need in the state today of effecting an improved marketing system, which can be brought about most rapidly efficiently by co-operation of growers with the several co-operative marketing organizations within the state.

Co-operative marketing, it is pointed out control the situation created by the inclination in certain quarters, the officials say, that is causing damage to the whole citrus crop of Florida by

putting fruit on the market that is not fit to eat.

Contrary to current reports, it is said, a study of the fruit movements at the present time disclosed that there is only about a ten per cent increase in the northern movement of citrus fruits now over last year at this time. This, it is stated, is accounted for by the normal increase of the citrus crop of this year over last year.

Florida has an estimated production of 20,000,000 boxes while California's crop is placed at 22,000,000 boxes of oranges and grapefruit for the current year. When it is considered that the population of the United States is approximately 110,000,000 it seems reasonable to believe that with Canada left to be supplied by the citrus-growing areas of the United States if proper marketing systems are instituted there can be no cause to believe the citrus industry will suffer from over-production for many years to come, according to the opinions of those who have studied the situation.

ed to obtain our security. Germany for a long time has played fast and loose with the treaty's stipulations destined to guarantee it. She has paralyzed the actions of the inter-allied control commission, she has been endeavoring to rebuild in secret her war weapons and to reorganize her military formations forbidden by the treaty.

"Meanwhile she authorized the heir to the imperial throne to return to the country, he is welcoming the man who is inscribed at the top of the list of those guilty of responsibility for the war from the exploits of whom my compatriots of the Meuse department suffered during the greater part of the war. These acts on the part of the German government are impudent challenges to the allies—brazen violations of the treaty, insolent outrages to peace.

"They call for sanctions. We will take them unless we obtain satisfaction."

"All France Behind You." A crowd of several thousand working men, dressed in their Sunday clothes and small bourgeois intellectuals, the latter the most impoverished classes in France in consequence of the war and the greatest sufferers from the present high cost of living, cheered the words of the premier long and loud. "Keep on!" they shouted. "We and France are behind you!"

RECOMMENDS FOLEY KIDNEY PILLS.

"Your medicine worked a miracle for me," writes Mrs. C. Biron, 140 Fayette Street, Lynn, Mass. "I was all run down, had a cough all winter, also kidney trouble and after taking a few boxes of your medicine my cough and backache left me. I can eat and sleep well. I canvas and recommend it at every house I enter." Prompt relief secured from kidney and bladder irritation, rheumatic pains through using Foley Kidney Pills. Insist on the genuine—refuse substitutes. Sold everywhere.—12-1

authorized the repair and maintenance of the old road from the Duval county line to Green Cove Springs. You speak of the coastal route. Unless there is a change in public sentiment in Florida in regard to this route, I do not see how it can be expected that the department will do much more on that part of the road from Jacksonville to the St. Marys river. For a long time there has been put forth a constant stream of publicity and propaganda to the effect that the most important highway leading from the north to Florida is the Waycross road, and the people of Jacksonville and those on roads 3 and 4 south of Jacksonville have been led to believe that this road is their salvation so far as tourist travel is concerned. I know that you and a number of other people in St. Johns, Flagler, Volusia and the northern half of Brevard county do not share in this belief. I know that a number of you people are of the opinion that upon the completion of our present work on road 2 and the completion of the Kissimmee-Melbourne road, a large part of the travel which formerly came over the Waycross road to Jacksonville, and thence went south through your county, will go south over road 2 and that your section of the state is liable to be isolated so far as through travel is concerned.

Naturally, you are much concerned about this matter, and are hoping that road 3 from Jacksonville to the

St. Marys river (the coastal route) will be built, so that travel from the east may come down that way, and thence on south, thus avoiding the possibility that your section of the state will be "left out in the cold."

A gentleman from your county, after our recent meeting, complained rather bitterly that we did so much for the Waycross road and so little for road 3. How can our department be expected to do otherwise, when delegations from the east coast, from Miami to Jacksonville, came before us and told us that the one thing they want above all else is that we build the Waycross road. So far as I know not a man south of Jacksonville, with the exception of yourself, has ever uttered a word before our board, or published a line to indicate that you

really take any interest in the coastal route.

Because of the much that has been said in favor of the one road, and the little for the other, the impression has been created that the people of the East Coast prefer a road leading to Waycross, Ga., and to no certain point beyond, rather than a well-planned highway leading to Washington.

The moral of all of which is, if the people of Florida in general, and the East Coast in particular, want a highway leading to Washington, they should at once take steps to see that the matter is properly placed before the department at our next meeting.

Yours very truly,
(Signed) H. B. Phillips,
Chairman.
