

Now Hear This!

JACKY FENWICK

On Tuesday night, June 11, the Fleet Reserve Association installed its new officers. The new president is Jack Hipps, senior vice-president, Eugene Zak, junior vice-president, George Walsh, and secretary-treasurer, John Matthews. Also at the meeting, many of the FRA wives signed up for the Women's Auxiliary of the Fleet Reserve, which is in its formative stages. Several of the wives have taken it upon themselves to procure the names of as many wives as possible so that they may send them on to Washington, (national headquarters), to be officially enrolled as members. If your husband belongs to the FRA, and you would like to be in "on the ground floor" of what promises to be an active organization, you can do your part by calling either Marie Sundvall at FA 2-4067, or Dorothy Cotter at FA 2-4062.

Would like to add a word of praise for the loyal wives who worked so hard preparing the food for the delicious buffet that was served at the installation. They were: Mrs. Marie Sundvall, Mrs. Dorothy Cotter, Mrs. Clea Carey, Mrs. Louise Phillips, Mrs. Betty Brinn, Mrs. Bette Mathews, Mrs. G. V. Leahy, and Mrs. Esther Piskorski. They would also like to thank Dorothy Cotter's mother-in-law, (Mrs. Mrs. Cotter, though I didn't get her first name), for the help she gave them. The girls worked hard all afternoon, and went back in the evening to work some more, and give up part of the party to do their share of the work.

Before I go any farther, (it sounds as if I had so much to write about!) I again want to urge all VAH's wives and dependents to be at the base tomorrow morning for the presentation of the "Bombing Derby" trophy. The South compound gate will be open, and parking space will be available inside the gate for those attending the ceremonies. And by now all "S" wives have received their invitations to the Sanluis Springs party. The other day, when I talked about the party, I said it would start at 1:00 P.M. Well, I received my invitation too, and it says 1:00

P. M.!! Though I did receive my information from someone in the squadron, (and NOT my husband,) you had better believe your invitation, and not me! (I don't want to be blamed for anyone being late!!) They hope to have various kinds of team games, and maybe a sack-race for the "kids" or whatever else they can think of! Don't expect a silver cup, but they hope also to have a "taken" prizes for these games. A lot of work has gone into this, so be sure and attend. You'll have fun!

Sorry I didn't get around to giving you all the movies for the week, (at the base theater,) but if it's any help to you, here are the ones for tonight, Friday, and Saturday.

THURSDAY: —Garment Jungle, starring Lee J. Cobb and Gia Scala.

FRIDAY: Beyond Mombassa, starring Cornell Wilde and Donna Reed.

SATURDAY: China Gate, starring Nat "King" Cole and Gene Barry. Jean and Willard Glover have three visitors from Miami. They are a niece, Shirl Ann "Aunt," and two nephews, Carl and Wayne Walton. Their ages, in order, are eleven, thirteen and fourteen. They feel very much "on their own", since their parents drove up with them, and returned to Miami leaving the children with the Glover's for a three weeks visit at their Lake Mary home.

A last reminder for all the youngsters who are planning to sign up for the city's Summer Recreation Program. If you plan to do so, be sure and get down there tomorrow morning! If you live in the Pinecrest area, you can sign up at the Pinecrest School. Living elsewhere, you'll sign up at the lakefront in Fort Mellon Park.

Conning The News

By VIRGINIA CORN

Dessert and coffee were served last night at Cliff and Rosemary Duncan's, honoring Mike and Bob Stone and Camille and Bob Metzger. Invited were members of the Class of '46, '47. The Metzgers are going to London in July. Camille will be able to travel with Bob, and their tour of duty will be two years. Lucky, lucky. Attending the party were Sally and Howie Weigle, Anita and Bob Hadden, Mollie and John Barlow, Marty and Lew Millsaps, Alice and Mildred Loper, Virginia and John Johnston, and of course, the honored guests.

A luncheon was held at Jim Spencer's today by the Officer's Wives Club. The occasion was the installation of the new executive board. Members of the club met in the bar for cocktails and then were seated in the dining room, where club sandwiches and sherry comprised the menu. The main table was centered with a large arrangement of yellow gladioli and blue delphinium. The smaller tables were beautified by yellow hibiscus and fern. Before the introduction of the new officers, president Dornell Killiney auctioned off the prizes that were left from the benefit bridge. The proceeds will go to the Harry Anna Crippled Children's Home in Umattila. Successful bids were made by Evie Williams, Katie Jackson, Dorothy Dohne, Pat Hansen and Katie Cummins. Betty McCracken lost out when her bids stopped at fifty-one cents. And must add that Dornell missed her calling. She should have been an auctioneer.

Dornell introduced the new president, Joy Weber, who will preside for the next six months. Other members of the board, who were seated at the large table, were Jean Ross, vice-president, Treta Michel, recording secretary, Hazel Rowall, treasurer, Peggy Tugwell, corresponding secretary, Dorothy Dohne, publicity, and Jean Fowler and Gene Fritz, planning and decorating. Paterson has still to select their representative, who will be on the planning committee.

Retired president, Dornell Killiney was presented with an engraved silver dish in gratitude for her fine efforts as president. She thanked her board for their help, and reminded the club members that Mary Muntz will be on

Angie's Magic Mirror the twenty-fifth of this month. Mary was selected from the Officers Wives Club to become "transformed", although he will have to search long and hard to transform Mary. She will be one of his loveliest subjects. The Chief's Club will have a demonstration the same night, and have invited members of the O. W. C. to attend. This will be sponsored by the E.W.C. Farewells were said to Mike Stone, Katie Jackson, Judy Smith, and Pat Todd. New members introduced were Shirley Youngblade VAH, Arlene Bryant, VAH, Diane Sangster, Staff, Betty Fuller, N.A.S., Margaret Hendricks, VAH, Sally Warwick, VAH, Tommy Tennyson, VAH, Adela Tolin, N.A.S., Diane Sangster, Shirley Youngblade, Arlene Bryant, Millie Loper, Treta Michel, Mollie Barlow, Anne Tammy, Mary McGuire, Betty Fuller, Joy Weber, Dorothy Dohne, Mary Muntz, Adela Tolin, Peggy Tugwell, Katie Jackson, Pat Todd, Judy Smith, Jean Elton, Marge Martin, Betty McCracken, Ruth Tully, Sonja Blackwood, Hazel Rowall, Katie Cummins, Gene Fritz, Evie Williams, Jean Stetson, Ruth Chaffee, Phyllis Graham, Sally Warwick, Tommy Tennyson, Margaret Hendrick, Ann Purdy, Dottie Malczewski, Sadie Nafie, Virginia Deromago, Jean Ross, Thelma Ventres, Pat Hansen, Ann Bear, Dornell Killiney, Julie Anderson, Jean Fowler, Ginny Conn, Shirley Ross, Mike Stone, Anita Hadden, Betty Linker, Polly Brubaker, Mae Edwards and Dornell's guest, Sue Killiney.

Celebrating his making U.S.N. last night with Paul O'Dea were Betty and John McCracken, Mike and Bob Stone, Marge and Bill Hill, Bob Osterholm, Ethel and Bob Fitzsimmons, Evie and Bob Williams, Marjorie Donovan and Millie Thomas.

Humphrey Says Taxes May Be Cut In '58

Lions Club Ladies' Night, Installation Scheduled Tuesday

The Sanford Lions Club will hold its annual ladies' night and installation of new officers Tuesday night at the Elks Club on East Second St.

The Lions and their ladies will have a barbecued chicken dinner at 8 o'clock with the program immediately following.

Installation of the club's new officers who will take over on July 1 includes: W. Hugh Duncan, president; H. W. "Buddy" Rawls, first vice president; Joe Barnes, second vice president; Clifford Ables, third vice president; Jack E. Morrison, secretary; treasurer; Grady L. Durcan, Lion tamer; Jack E. Stempier, tail taster; and directors Ben F. Wade, Clarence C. Welsh, James S. Williamson Jr. and Edward S. McCall.

At Tuesday night's meeting the club will review its accomplishments during the past year which includes the 39th year of sponsoring the Little League Baseball for boys nine through 13 years of age and in which 300 local boys participated this season. Also among the accomplishments are the purchases of many pairs of eye glasses for needy patients, many corrections of eyes, and examinations to determine needs for correct eyeglass.

Sight conservation is the main object of Lions throughout the 81 countries and different geographical locations where clubs are located.

International Counselor Burton Brown of Leesburg will have charge of the installation service and the Cooper-Gregory Music Co. will render a musical program.

All Lions and their ladies are urged to be present.

County Legislative Delegation To Be Rotary Speakers

The regular weekly program of the Sanford Rotary Club next Monday noon at the Yacht Club will be featured by the appearance of Seminole County's Legislative Delegation, Sen. Douglas Stenstrom, Rep. Mark N. Cleveland Jr. and Rep. Gordon V. Frederick, who will share the program and tell the members of the local business and professional group some of the accomplishments of the last session of the Legislature and also, some of the items that failed to pass.

Charles Morrison will act as program chairman for the day with Dr. Charles L. Persons, presiding.

TAX SQUEEZE
PARK RIDGE, N. J. — Two communities have put a tax squeeze on Edison Girls Park Ridge and neighboring Woodcliff Lake are involved in a border dispute and Girls' property is being sold to both communities. It has been assessed by both.

Two years pass quickly. And now Captain Jackson, his wife, and his wonderful family must leave—leave for another assignment. He will leave behind him a grateful community—a host of friends. We hope Captain "Rob" will remember Sanford equally as much as Sanford will remember him. We can only add, Good Luck, Captain. Come back again.

CAPTAIN ROBERT W. JACKSON (Official U. S. Navy Photo)

Grateful Friends Say Farewell To Jacksons

Evidence of the increasingly important part the Sanford Naval Air Station would play in the daily lives of Sanford citizens began to be seen midyear of 1955.

It was then that Captain Robert W. Jackson reported for duty as the Commanding Officer of the local Navy establishment—it was June 24, 1955, to be exact.

A quiet, unassuming officer, with unknown qualities at that time, began to take part in the day-by-day activities of the community. And bit by bit he began to tell the "Story of the Navy" to Chamber of Commerce members, Kiwanis Club gatherings, before special celebrations where Armed Forces were featured, on the golf course, and wherever he could get an audience around him to hear about the good things the Navy stands for.

Whenever the opportunity presented itself Sanford and Seminole County people began to hear about the Naval Air Station and what it means to the community.

Frankly, Captain Jackson told the Navy to Sanford and Seminole County. He made them realize what "an important" niche the Navy carves into the every day life of a community.

As a public relations representative, the Navy has never had a better one. For suddenly, through the columns of the newspaper, over the radio station, and into the channels the Navy creates for itself such as the "Sanfly", there were safety programs, awards, sports programs, station improvement programs—everything that spells "good."

And then, the community began to wake up to the fact that the Navy really meant something big to Sanford and Seminole County, yes, to Central Florida as a whole.

Captain Jackson gathered a group of people about him on his staff who knew what "work" meant—and each man, assigned a task to complete would not stop until a newspaper "job" could be written below the final report.

And there was additional help, too. The help of a charming wife, who with her interest in Girl Scouts, Brownie Scouts, Boy Scouts, and all of the civic projects confronting the community, won the hearts of Sanford and Seminole County ladies.

There were big hurdles to jump—but Captain Jackson and his Navy team knew the height of the hurdles and the strength necessary to go over them. Each job, large and small, was accomplished.

Two years pass quickly. And now Captain Jackson, his wife, and his wonderful family must leave—leave for another assignment. He will leave behind him a grateful community—a host of friends. We hope Captain "Rob" will remember Sanford equally as much as Sanford will remember him. We can only add, Good Luck, Captain. Come back again.

Impossible This Year

WASHINGTON — Treasury Secretary George M. Humphrey said today it may be possible to cut taxes sometime during the fiscal year starting July 1, 1958.

He said a tax cut this year is "absolutely out of the question" and added that "I don't see how there can be one to take effect at any time in the next 12 months."

Humphrey made the statement to a joint congressional economic subcommittee studying tax cutting proposals.

Chairman Wilbur D. Mills D Ark. told Humphrey there have been published reports that the administration is planning to ask Congress early next year to enact a tax cut.

There are no such plans that I know of, Humphrey replied. Speaker Sam Rayburn D-Tex. recently abandoned Democratic plans to push for a tax cut until next year, but he insisted that Congress next year will make relief retroactive to Jan. 1, 1956.

Mills noted that Budget Director Percival F. Brundage testified Thursday that he believed the earliest possible date for tax relief would be some time after July 1, 1958.

Humphrey said it was too early to say, but "the weight of the evidence is in favor of his (Brundage's) conclusions at the present time."

Humphrey put his earlier depression forecast in reverse form in his prepared statement today. "If we are successful in properly controlling the size and spending of government," he said, "we can look forward to a continuing period of high prosperity for our country."

Brundage's testimony boded down to this. The earliest you can expect a tax cut is more than a year away—and then only maybe. He said a reduction effective in mid-1958 "may be possible."

Jaycees Enjoy Quiz Program; J. Sewell Is Presented Watch

Eight members of the Seminole County Junior Chamber of Commerce received shiny silver dollars for correctly answering them out of four questions from a category of his selection and one member was on the receiving end of a watch as a reward for securing the largest number of new members in their recent campaign.

The quiz was held at the Jaycee luncheon held yesterday noon at the Yacht Club.

For signing up 11 new members, Jack Sewell was presented the watch by Bill Gramlow, membership chairman. The goal of the aggressive young men's group was 100 active and a like number of associate members and, as M. L. (Sonny) Raborn, club president announced, the goal could still be reached as over 150 members are presently on the rolls.

Those winning silver dollars in Morrison's quiz program, were: Harry Casell, Bob McGee, Ambrose Ollif, Marion Wharton, David Kingsmith, William Lockard, Everett Harper and Rod Thompson. Among the categories selected were The Bible, business and industry, American history, geography, true and false sports, aviation, toughies, "how come", brain teasers and famous names.

Both past-president, G. Andrew Speer and incumbent "Sonny" Raborn failed to qualify, each missing two of four correct answers.

Executive secretary-manager of the Senior Chamber of Commerce, John Krider, announced that he had been contacted by an agent of the Philip Morris road show which had an open date on July 18 and was hopeful of playing in Sanford if a large area could be secured.

Krider suggested that the Jaycees, with no expense of any kind being incurred, sponsor the show with the idea in mind that the Memorial Stadium could be the site of the mammoth production.

It was stated by Krider that all expenses of the show would be borne by Philip Morris and that the Jaycees, by making the concessions, could secure some funds for their projects.

Further study of the proposition is to be made by the local group with a definite announcement in the near future, President Rayborn stated, with the suggestion that the event might prove worthy of acceptance by the club and the general public.

SNAS Gets Safety Honors; Admiral Presents Award

Rear Admiral D. S. Cornwall, Commander Naval Air Base, SIXTH Naval District, presented the annual Certificate of Achievement in Industrial Safety and Motor Vehicle Safety Awards for the year of 1956 to the Naval Air Station, Sanford, during ceremonies held this morning aboard the Naval Air Station.

The Commanding Officer, Captain Robert W. Jackson, recognized that the subject award and certificate are the results of a wholehearted and earnest effort exerted by all hands and particularly those civilians and military personnel specifically concerned with the operations and utilization of vehicular and other motorized equipment. This complete supplement on Page Nine.

Silver Lake Girl Scout Camp Is Closed To Public

Sheriff Luther Hobby, this morning, announced that the Scout Camp on Silver Lake will be closed to the public during the time that it is being used as a camp by the Brownie and Girl Scouts this summer.

Sheriff Hobby said that "the Scout Camp is private property but has been used permissively by the public leaving rubbish and litter scattered about the large tract."

The site is being cleaned up for use by the girls and will remain closed to the public so long as the camp is there, the Sheriff said.

Man Says Engineering Mistakes Made On 17-92

A Seminole County businessman criticized the State Road Department in a letter to the Board of Seminole County Commissioners dated June 13.

S. Forbes Simpson, operator of a new and used furniture establishment at the intersection of Highway 17-92 and 434 said "it is my purpose in this letter to try and put a stop to a repetition of the same engineering mistakes made on Highway 17-92."

Simpson complained that the engineers have raised or lowered much of the highway where just the opposite should have been done. "They have created drainage problems where there were none; besides, adding to them in many places."

He cited as an example the stretch of about a mile where 434 and 17-92 cross Highway 17-92. In his letter to the Seminole County Commissioners, Simpson said "At this particular point, the road was raised going both ways. That created the needless expense of culverts and the raising of 434 for a hundred feet or so. That, in turn, created another drainage problem. On the west side, the road was raised so that every-

Rotary All Stars To Play Orlando Team Tomorrow

The Rotary Club's All Stars will play the Curry Electric team of Orlando tomorrow morning at 9 o'clock on the diamond immediately back of the New York Giant's dormitory.

This is the third game played by the two teams. The first game was won by Curry Electric, the second was won by the Sanford Rotary Club All Stars, and the deciding game will be played tomorrow morning.

The local Rotary Club All Stars have been invited to play the Curry Electric team in Orlando as a part of a double header played by the Orlando Flyers. Date of the game is to be announced later.

"Such an invitation speaks well for the local boys who participated in the Rotary Club baseball this summer," one official said this morning.

JUDGE VASSAR CARLTON (left) administers the oath to Volie A. Williams Jr. who is being sworn in as a Circuit Judge for Seminole County in the Ninth Judicial Circuit. Nearly 100 people attended the ceremonies in the court room of the Seminole County Court House. (Photo by Bergstrom)

Circuit Judge Sworn In This Morning

Nearly 100 Sanford and Seminole County attorneys, friends, and interested citizens watched Volie A. Williams Jr. this morning as he was being sworn in as a Circuit Judge of the Ninth Judicial Circuit for Seminole County.

Williams broke into tears as he attempted to speak. He finally said "I pray the Lord will give me wisdom to do the job."

Kerlyla Housholder, Sanford Attorney and prosecutor for the Seminole County Court read the appointment by Gov. LeRoy Collins issued and signed on June 10.

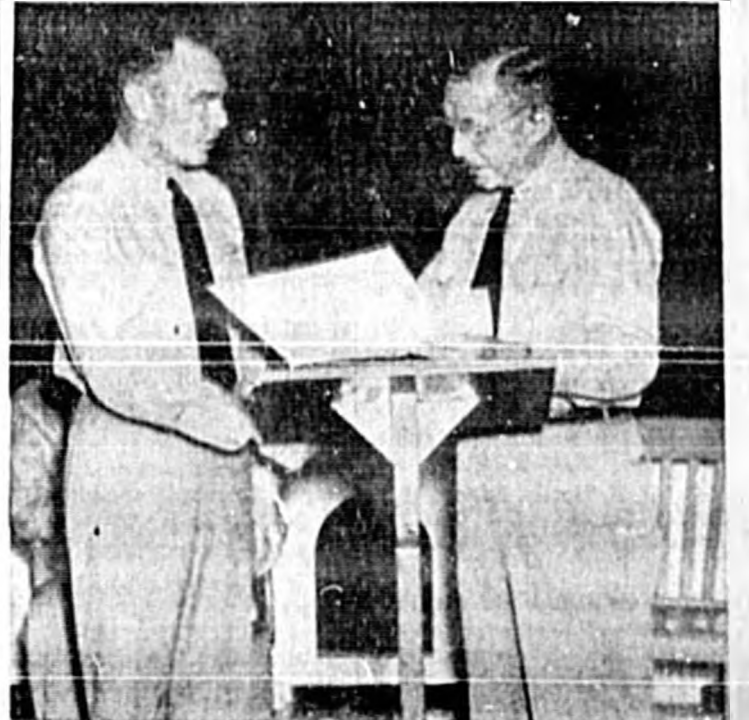

Senator Douglas Stenstrom, representing the Seminole County Bar Association, presented Wil-

Legion, Auxiliary Schedule Joint Installation Event

A joint installation of officers of the Campbell-Lesslie Post 53, American Legion and the American Legion Auxiliary will be held Monday night at the Legion Hut beginning at 8 o'clock.

Also on the program will be the awarding of a \$25 Savings Bond to the member who has turned in the largest number of new and renewal memberships since April 15.

According to the official publication of the Post, released yesterday, there are 294 members at the present time. The goal, said Lynn Lyon, Commander of the post is 400 by Monday.

REAR ADMIRAL D. S. CORNWALL, PRESENTED safety awards this morning during ceremonies at the Sanford Naval Air Station, Captain Robert W. Jackson, Commanding Officer of the Sanford Naval Air Station (left) accepts the awards. (Official U. S. Navy Photo)

Conning The News

By VIRGINIA COON

Katie and Bob Jackson are leaving Sanford on Monday. They will go to Melbourne for a few days vacation before going on to Norfolk. There is little need to add my sentiments to the Jackson conquest of the entire Sanford area. Bob Jackson has done more to increase warmth and friendship between townfolk and the Navy than any doer of us hard working individuals who try as hard, I'm sure. Bob Jackson was the right man in the right place at the right time. This past year has seen the Naval Air Station in jeopardy. Without a popular and sincere spokesman for the navy, perhaps the town of Sanford would not have been so anxious to retain the navy. The payroll was not everything under consideration.

The Jacksons appeared at every function to which they were asked. This in itself is a tremendous job. Here in Sanford it meant a great deal. It was one more step towards the absorption of the navy family—and that absorption is the strongest tie that can be offered to the nomads in navy blue. Both Bob and Katie are masters of the tactful statement, carefully considered. We are proud that we have been associated with the Jacksons in some way. Perhaps if they were sent to the near east, we would not have so much trouble with foreign diplomacy.

Louise and Jim Parker are

leaving Sanford the first of July. Jim's mother is here from Mississippi for a visit until they leave. By the way, Jack and Judy Smith are not leaving until the twenty-third of June. Instead of the seventeenth. Still pretty close, but a few extra days. Alberta Hall is arriving back in town for a visit next Monday. She will divide her time between friends in Sanford and her parents in Apopka. Rosa Peyton just called to give me this information and as we were talking we discussed a mutual friend, Rosemary Phillips. Rosemary and Rocky were stationed in Sanford during the war, and again when they were in VCS a few years ago. They were an extremely popular couple and well-known, as Rosemary is a gal that gets into everything. Rosa had just received a letter from Rosemary from London. The Phillips have recently gotten settled there, and have a delightful house. The children wear uniforms to school and are taking lessons in everything imaginable from boxing to French. The social life sounds gay, and the sightseeing very interesting. This should be a busy weekend for the many who are leaving next week. At the same time we are getting an equal amount of new people who are busy getting settled. Hope that they will call on me if I can be of any assistance. I know lots of useful things I can't print.

Lancaster Facing Irate Columnists

By ALINE MOSSBY

United Press Hollywood Writers HOLLYWOOD (U.P.)—Burt Lancaster has taken on assorted cattle rustlers, Indians and Anna Magnani in recent movies, but now he bravely faces irate columnists for playing a "real life" villainous Broadway scribe.

"I've never sought publicity—I've never had a press agent or cared about column mentions," is one of the outspoken Lancaster's philosophies, which may be just as well, for he portrays a New York columnist who's one of the archest villains in screen history in the absorbing drama, "The Sweet Smell of Success." "I'm going to New York June 21 for the opening of the picture," said Lancaster. "I guess the columnists will be ready with sharpened knives. Ha: Nothing pleases me more."

My reaction to the movie about columnists is that the Broadway variety certainly leads an exciting life. According to the story, they make or break careers with the snap of a finger, tell off senators and are bowed to by press agents and malice d'at at Toots Shor's and El Morocco.

But the columnist in the film, as described by press releases from the producers, Hecht—Hill Lancaster, also is an egomaniac who would be a revengeful god, arrogant, cruel, deceitful, a man with an acid soul and of acid words, uncompromising when he pounces for the kill. . . . The columnist, called J. J. Hunter, writes a gossip column.

has a nationwide television show, prowls around New York in a police car and holds court in night clubs.

To find out why Lancaster dared face the wrath of the Fourth Estate I interviewed him at Wil Wright's ice cream parlor. Wil Wright's isn't exactly Toots Shor's or El Morocco but at least I can get a table there.

"Ernest Lehman wrote the story of the movie from his personal experiences," Lancaster said. "Lehman once was a Broadway press agent."

Curtis in Picture
The press agent in the picture, played by Press Curtis, is described by Hecht—Hill—Lancaster as "ambition-ridden, sly, swivel-tongued." New York scribes will recognize the character as a composite of some actual press agents.

"This movie is not a personal vendetta against any one columnist or press agent," Lancaster continued. "It's just an incident concerning two evil people. There is misuse of power in any industry. It's not about the newspaper business."

Some Hollywood columnists have been sniping at the picture. But Lancaster says he has nothing to say.

Now Hear This!

JACKY FENWICK

Our new captain has arrived, which brings up the sad fact that if I remember correctly, the Jackson's will be leaving soon. Change of command ceremony will take place on June 14. I believe there's a small chance that they might take place on the seventeenth. As I understand it, the Jackson's are not planning to leave immediately, which will give their many friends a chance to say goodbye. Until such time as the Jackson's vacate their quarters, Capt. and Mrs. Arthur Drake are provided with a suite at the B.O.Q. where we hope they will be comfortable until they can get settled in their permanent home. Capt. Jackson took him on a tour of the station today, and they were also present to greet Admiral Cornwall when he arrived "aboard" the Air Station today to present the safety awards to all Station and Fleet units receiving them.

There's been a lot of talk about the new pay raises according to proficiency in rates. This pay-raise will apply to men serving in what the Navy considers "critical" rates, and will only apply to those rates ("Critical" is when a rate falls below 75 per cent of its petty officer requirements.) It is expected that by June 30, the Navy will have a list of nine critical ratings. They are as follows: quartermaster, signalman, radarman, radioman, communications technician, aviation guided missileman, aviation fire control technician, and parachute rigger. Though it's probably far off in the future, if you're in one of these ratings you might be in for a raise!

Read a short article in the "New Times" about the commanding officer of the Naval Air Station at Oakland, California, presenting incentive award checks to the civilian personnel at the station. Of interest to those who have been here over two years, (before Capt. Jackson took over) is the fact that the commanding officer involved was Capt. James E. Voss Jr., former commanding officer of our own Sanford Naval Air Station!

NAVY LINEN-WEAVE silk is used for Mollie Parnie's famous "soul-mate" jacket costume designed for her spring into summer collection. The jacket buttons snugly right up to the waist collar. The slim, short-sleeved dress exemplifies Miss Parnie's "telescope silhouette" with its high level neckline and front envelope detail at the belted waistline.

PONTIAC GIVES YOU UP TO 8.9% MORE SOLID CAR PER DOLLAR!

Not one of the smaller cars can give you the heavy-duty construction, the road-hugging feel and solid security that surround you in every Pontiac. Yet Pontiac's the nimblest heavyweight you ever managed—and your Pontiac dealer can show you more than six dozen advanced-engineering reasons why! Pontiac has gone all out to make this genuine big car the best behaved beauty that you ever had the pleasure of driving. You'll find Pontiac's exclusive Precision-Touch Controls make steering and braking the surest, easiest you've ever experienced! Park it, cruise it, try it in stop-and-go traffic... this is driving the smaller jobs can't duplicate.

PONTIAC GIVES YOU 4 TO 7 INCHES MORE WHEELBASE!

The small cars extend bumpers and fenders to look big—but Pontiac puts the extra length where it counts—between the wheels! Pontiac's longer stride bristles the bumps instead of riding on them. And this extra length shows up inside, too, in stretch-out space for six footers. Add to Pontiac's bonus in length its all-new suspension system and you have an exclusive level-line Ride no car at any price can surpass... and a built-in sense of direction and security that will spool you for the smaller cars forever!

WHY re-enlist in the small-car army?

READ THIS STARTLING FACT
5 out of 10 Smaller Cars wear a Pontiac Price Tag—yet none gives you Any of Pontiac's Advantages

PONTIAC'S PERFORMANCE TOPS THE BEST THE SMALL CARS CAN OFFER—BY A WIDE MARGIN!

Not one of the smaller cars can measure up to Pontiac's Performance. Whether you judge a power plant by engineering statistics or on-the-road performance, Pontiac's Strato-Stroke V-8 stands head and shoulders above anything in the low-price field. Your Pontiac dealer will be happy to show you a complete facts-and-figures comparison—then an eye-opening test drive in traffic or out on the highway will supply all the heart-lifting proof you need that Pontiac has separated the men from the boys when it comes to performance!

—AND PONTIAC HAS ALWAYS BEEN FAMOUS AS ONE OF AMERICA'S TOP TRADE-INS!

Maybe it comes as a surprise to you that so much more car can be yours at the same price you've seen on the smaller cars. But there's the fact: And Pontiac is a wonderful investment, too. As you know, it has always commanded a top trade-in. So why not step out of the small-car class and into a Pontiac... there's nothing in your way. Your Pontiac dealer has the keys and an eye-opening offer waiting for you right now!

So why not look and feel like a million—instead of a million others?

SEE YOUR AUTHORIZED Pontiac DEALER TRADING'S TERRIFIC RIGHT NOW!

TODAY'S THOUGHT
The publican smote upon his breast, saying, God be merciful to me a sinner. Luke 18:13.

Sanford Naval Air Station Means Economy, Protection To Community

What does the Sanford Naval Air Station mean to Sanford?

That question has been asked over and over again. The fact is evident that Sanford needs the Naval Air Station—not only needs this important Master Jet Base, but wants it.

There are substantial facts which bear out Sanford's need for the Naval Air Station.

The payroll, each month of the year, is approximately \$1 million. That's a lot of money, especially when you consider the simple addition that there are \$12 million in a payroll alone.

Add to that the fact that more than a thousand personnel will be added to the station's roster within the year, increasing the payroll alone by one third.

Statistics show that with each person added to the community, there are 3.2 people per person brought in as families to settle here with their servicemen husbands.

A very minimum of 1,800 people will become Sanford citizens for approximately two years.

That isn't all—for it is expected that there will be approximately 1,000 civilian workers in various capacities brought into Sanford for Naval Air Station workers. Many of these will be employed by construction companies involved in the building of interim facilities.

This year, projects totalling \$2,900,000 will be started at Sanford's Naval Air Station as many buildings are remodeled, rehabilitated, or constructed new, along with the interim facilities already announced.

These are the reasons why the Sanford Naval Air Station is important, economically to the community. Payrolls are necessary to keep clerks, filling station attendant, repairmen, salesmen, druggists, waitresses and hundreds of others busy and employed.

Nixon All-Out Cheerleader For Ike

By LYLE C. WILSON
United Press Staff Correspondent
WASHINGTON — It was by calculated risk and no more chance that Vice President Richard M. Nixon stood up last month to be counted as an all-out cheerleader for the Eisenhower administration.

It was a calculated risk of presidential politics looking to the 1960 Republican nomination. It was no mere chance because Nixon has repeated the maneuver three times this month.

The vice president is likely to be on his feet a good part of the time between now and the 1960 Republican National Convention. He will be telling the voters, especially Republican voters, that they should rally to Eisenhower's support.

Faces Difficult Audiences
Nixon's defense of the Eisenhower administration last month was before the Iron and Steel Institute in New York. It was all out, unqualified by reservations or doubts. Next came the vice president's address June 6 at Asheville, N. C., before the General Federation of Women's Clubs.

He faced a more difficult audience the next day here in Washington. The occasion was a grass roots Republican conference summoned to harmonize party differences over President Eisenhower's big spending budget. Preliminary regional conferences had established the fact of disharmony and disapproval among local party leaders.

Nixon chose to champion in that speech the modern Republicanism to which party conservatives object. His advice was that the Republicans should cease squabbling among themselves and devote their energies to battling Democrats. As in New York in May, Nixon aligned himself firmly with the administration and its policies.

Urgent Support Plea
To the women assembled in Asheville, Nixon directed an urgent plea for support of the administration with special emphasis on three hotly controversial subjects:

1. National defense spending.
2. Foreign military and economic aid.

LOOK, NO HANDS
SIOUX FALLS, S. D. — Citizens rallied to help when they saw two cars collide in the middle of a street here. However, it turned out to be two drivable automobiles.

He is a 1952 graduate of West Hazleton (Pa.) High School.

624 Tornadoes Hit U. S. This Year

WASHINGTON — The Weather Bureau says that an all-time record of 624 tornadoes which killed more than 100 persons, were reported in the first five months of this year.

The previous high for the January — May period was 592 storms in 1955. The big seasonal increase this year made it almost certain a new record for the entire year would be established.

The bureau emphasized that the increase was in the number of storms reported and not necessarily in the number that occurred. It said the expanded tornado detection network has made it possible to keep much better records.

Preliminary figures showed that 324 of this year's tornadoes were reported in May, compared to the previous high of 219 for the month. In April, 236 tornadoes were reported, topping the old mark of 114.

Texas was hit hardest with 95 tornadoes in the first four months of the year. Oklahoma had 46. The worse loss of life this

year—39—occurred in the May 20 tornado which slashed across Ruskin Heights at the southern edge of Kansas City.

The total number of tornadoes this year appeared likely to top the number reported in recent years, including 680 in 1954, 870 in 1953 and 823 in 1952.

OR, NO?
VESTAL, N. Y. — After fining and handing suspended jail sentences to four college students for stealing a cemetery gravestone, Justice of the Peace Leland E. Merton said, "They made a grave mistake."

Approximately half of all the losses in the U. S. are school buses.

CASH IN POCKET
SIOUX FALLS, S. D. — Albert Morris, 75, was brought in a hospital here from his Hill Rapids, S. D., home after it was discovered he was suffering from mania. While going through his clothes, hospital attendants found \$2,500 in cash in his pockets.

Many NAS Improvements Made During Capt. Jackson's Duty Here

By J. MARION HARMAN SR.

Much can be accomplished in two years.

For within this comparatively short time there has been a transition from an "ordinary" Naval Auxiliary Air Station to a Master Jet Base at which one might marvel over its modern facilities, and completeness.

Much of the success obtained by the Sanford Naval Air Station can be attributed to the Commanding Officer's faith in people and their ability to do things right.

Only Wednesday of this week, Captain Robert W. Jackson, in his final conference with the members of his staff said "It is in you gentlemen the credit must go for doing so much in so short a time."

For two years Captain Jackson has been a leader. Not only among the members of his staff and personnel at the Sanford Naval Air Station but in the community in which his interest and dreams have centered during his "four of duty" here.

Captain Jackson is a member of the Sanford Kiwanis Club, and to hear members of the club express it "he has been one of the best members we've ever had." He has consistently attended meetings of the Seminole County Chamber of Commerce to keep civic leaders posted on the activities at NAS.

Whatever function it might be, Captain Jackson has attended and took part. "This is my town too," he has said on one occasion, "and I'm proud of it."

An ardent golfer and sports enthusiast, Captain Jackson attended the Mayfair Country Club at

his every opportunity, not only to participate in his favorite recreation but to associate with the community's leaders.

Many remember the air station as it was in 1948, 1949 and 1950—the same ponds now are amazed at the transformation.

During the Korean emergency, the Naval Air Station was re-commissioned as an Auxiliary Air Station to provide facilities for training of carrier pilots. The Station was in a fairly temporary status, and the general belief was that it would be closed down at the end of the emergency. Very little money was spent at the base in the years between 1951 and 1955, time major improvement, however, during this interim period was the extension of the main East-West runway to 8,000 feet. This was accomplished in 1953 in order that the smaller jet planes could safely operate on this field.

A decision was made in the late spring of 1955 to turn the Station over to the Navy's only Heavy Attack Wing as a supporting base for that Wing. It was at this time that planning in the Navy Department level was such to put the Naval Air Station on a more permanent basis. It is very significant that during the month of May of this year, there were 6,416 individual sorties flown from this Station, the greatest number since the Station became a Master Jet Heavy Attack Base. Significant also is the fact that more people are living aboard and working on this Station than ever before, including the war years of World War II. For comparison figures, prior to 1955, the Station

expended approximately \$600,000 for operations. In the fiscal year just being completed, the Station has expended approximately \$1,300,000.

In 1954, the Station was granted \$21,000 for minor improvements. With the coming of the Heavy Attack Wing, the Station was granted \$516,000 in fiscal 1956, and \$454,000 in fiscal 1957 for similar improvements. Statistical analysis of the Station's growth in personnel is provided by the amount of monies allowed to feed the non-married personnel who dine in the General Mess. In 1954, \$17,000 was allocated for this purpose, there being approximately 800 military personnel based on board. "Today, we are spending \$261,000 for food for the approximately 2,600 military personnel who call this Station their "home away from home", said Captain Jackson. Significant also are the costs involved in running the Station. Three years ago, the Station paid \$2,700 per month for its electrical power. Today, the bill runs in the neighborhood of \$3,500 per month. Water on the Station today costs approximately \$1,000 per month even though Station wells dug within the past two years furnish a portion of the Station's water supply, since the Heavy Attack Wing arrived at Sanford, there have been many improvements in buildings and facilities as well as construction of new buildings. Some of these are:

Construction of six Butler Buildings to expand spaces utilized by the squadrons.

Construction of a Maintenance Trainer Building.

Construction of a Jet Engine Maintenance Facility.

A complete Cyclone Paving of the Operations Area to provide necessary security in this vital area.

Rehabilitation of all Fuel Storage Tanks on the base—a job which had never been done on this Station previously.

Rehabilitation and painting of five of the larger buildings in fiscal 1956, and 20 of the buildings in 1955. These accomplishments plus the routine maintenance done by the Station Civil Service personnel have, for all intents and purposes, completely renovated the base.

Construction of a very important and necessary recreation facility at Lake Golden to provide recreation facilities for Station non-married personnel as well as for families.

Installation of sidewalks and access roads to one of the original runways which has been closed to provide necessary aircraft parking space for the Heavy Attack Wing.

In 1956, nine of the large Station buildings have been completely roofed.

A new building to house important radio direction facilities and landings aids was constructed near the main instrument runway.

As previously mentioned, two medium depth wells have been dug and are in operation to provide partial water supply for the Station, and an emergency supply readily available for use by the Station, and if needed, by the City of Sanford.

Construction of a Gate House and

Security Office, plus a complete outside lighting system for the new Operations Security Area.

Provision for automatic sprinkler systems in various Supply buildings.

Runway end stabilization on the ends of the main instrument landing runway to provide an effective 10,000 foot landing area for the new Douglas Skywarrior which operates from this Station.

Construction of a building for storage, test, and issue of liquid oxygen a product now as intensively used for our high altitude jet flight operations.

Vitality important for Station operations has been the extensive repair work to the Station's overhead steam lines and complete renovation of the Station Railroad and Railyards.

A further job which has been started but not yet completed covers repairs to the outside recreation areas of the Station.

The coming of the Heavy Attack Wing to the Air Station at Sanford has required special security and policing arrangements. These were established, therefore, in October of 1955, a Marine Detachment at this important base, and in May of 1956, the importance was fully recognized by higher authority when the Station was officially redesignated a Naval Air Station under the Commander of the Naval Air Base, Sixth Naval District. An examination of the Station Map will show these particular improvements since 1955.

The Chief Petty Officers' Mess and Club have been renovated, and a new, beautiful, airconditioned lounge was built in this building.

The Marine Detachment has been housed in one wing of the Chief Petty Officers' barracks, giving important Marine Security personnel one of the best living accommodations for Marines in the entire United States.

The Bachelor Officers' Quarters are undergoing complete renovation with rooms painted in various colors as recommended by interior decorators. New tables and chairs have been provided for the Dining Hall.

The Administration Building has been renovated and additional office space has been provided in this building.

The Enlisted Men's Club has been completely renovated and now provides an attractive spot for the single and married enlisted personnel. Dances and other parties are regularly held in this Club.

The Public Works Shops have been moved to the new Butler Buildings adjacent to the Public Works offices where a greater efficiency of Public Works Operations has been attained.

One important additional building was provided on the Station by moving the unused Operations Building at Oceola Field overland to the Sanford base. This building, now completely renovated, houses the station's aircraft fueling area and is centered in the fuel truck compound.

Building three, which once housed the Photographic Squadron, has been completely renovated and changes made to make this building most suitable for the number one university of the Heavy Attack Wing—the Heavy Attack Training Unit.

The Snack Bar in the Operations Compound has been renovated within the past year and now provides an excellent short-order food facility for those married personnel and others who do not carry their lunches to work with them.

The immediate requirement in connection with the arrival of the Heavy Attack Wing was the need for complete photographic laboratory facilities, particularly for aerial photography and analysis of Heavy Attack bombing runs. This new facility was housed in one of the oldest Station buildings which had to be almost completely rebuilt, and now houses one of the better naval photographic facilities on the East Coast.

All of the 10 Station Barracks have been completely renovated and new plumbing installed to replace the poor quality World War II plumbing fixtures. Also, within the past year, attractive and utilitarian lounge furniture has been placed in the recreation rooms of each of the barracks.

The Station General Mess Hall has been attractively decorated as was noted by members of the Sanford civic club organizations when they dined in the General Mess on the Wednesday prior to Armed Forces Day in May of 1957. Since then, the worn out tables and benches have been replaced by attractive and comfortable restaurant tables and chairs.

A two-lane Bowling Alley has been installed in an unused wing of the General Mess. Money for the Bowling Alley was obtained from the small profits generated by the Naval Exchange facility

of this base.

Recently, a Banking facility, housing the Florida State Bank of Sanford Branch, has been established on the base and is providing long needed services for our base personnel.

The increasing number of non-married personnel assigned to this base has not only required a movement of the Marine Detachment to their new quarters, but has also required the establishment of additional quarters for the Commissary Division of this command in an unused wing of the Station Dispensary. The Commissary Crew, which is required to arise early and work at odd hours to provide for the health and comfort of our military personnel, now have separate quarters apart from the barracks area with individual rooms and toilet facilities. In this respect, they probably have better housing accommodations than any other Commissary Division in the United States.

Since 1955, the Fire Fighting facilities have been expanded and new equipment received for the important mission of the civilian and military fire fighters.

The Ham Radio Station has been established and sponsored on the base in order that families and husbands away on deployment may keep in touch with each other. Recently, Warrant Officer Filbey, who has been detached from the Station, was able to have a pleasant conversation with his wife by calling from the Hawaiian Islands to Sanford, using these facilities.

"These and many, many, other items have been accomplished by the Naval Exchange facility

(Continued on Page Six)

Lake Golden Now Family Picnic Area

apt. Jackson

(Continued from Page 5)
 Increase the effectiveness of our Naval Air Station at Sanford," Captain Jackson commented. There are plans for more improvements which have been recently reported in the local newspapers, and it is expected that additional minor repairs and construction will be provided for in annual appropriation of funds by the Bureau of Aeronautics of the Navy Department. "In conclusion," he pointed out that the management officials of the Naval Air Station, both military and civilian, constantly recognize the fact that it is the taxpayers' dollar which we spend for our operations and improvements. Every effort is made to get the greatest value from the taxpayers' dollar while still providing for the necessary combat training accomplishments at the base, remembering always that the readiness of our Heavy Attack Bombers constitutes, in the last analysis, the naval offensive strength in the defense of our country," he said.

This has been the two-year accomplishment under the direction of Captain Robert W. Jackson, Commanding Officer, Naval Air Station, Sanford. As Captain Jackson leaves for his new assignment and another tour of duty in the United States Navy, he leaves behind him a challenge to those who take over the station and to the citizens of Sanford.

No doubt, as future Commanding Officers are assigned to the Sanford Naval Air Station, they will be surrounded by a staff of competent, efficient, and cooperative Na-

The Lake Golden Recreation Area at SANAS has become a picnicker's paradise.

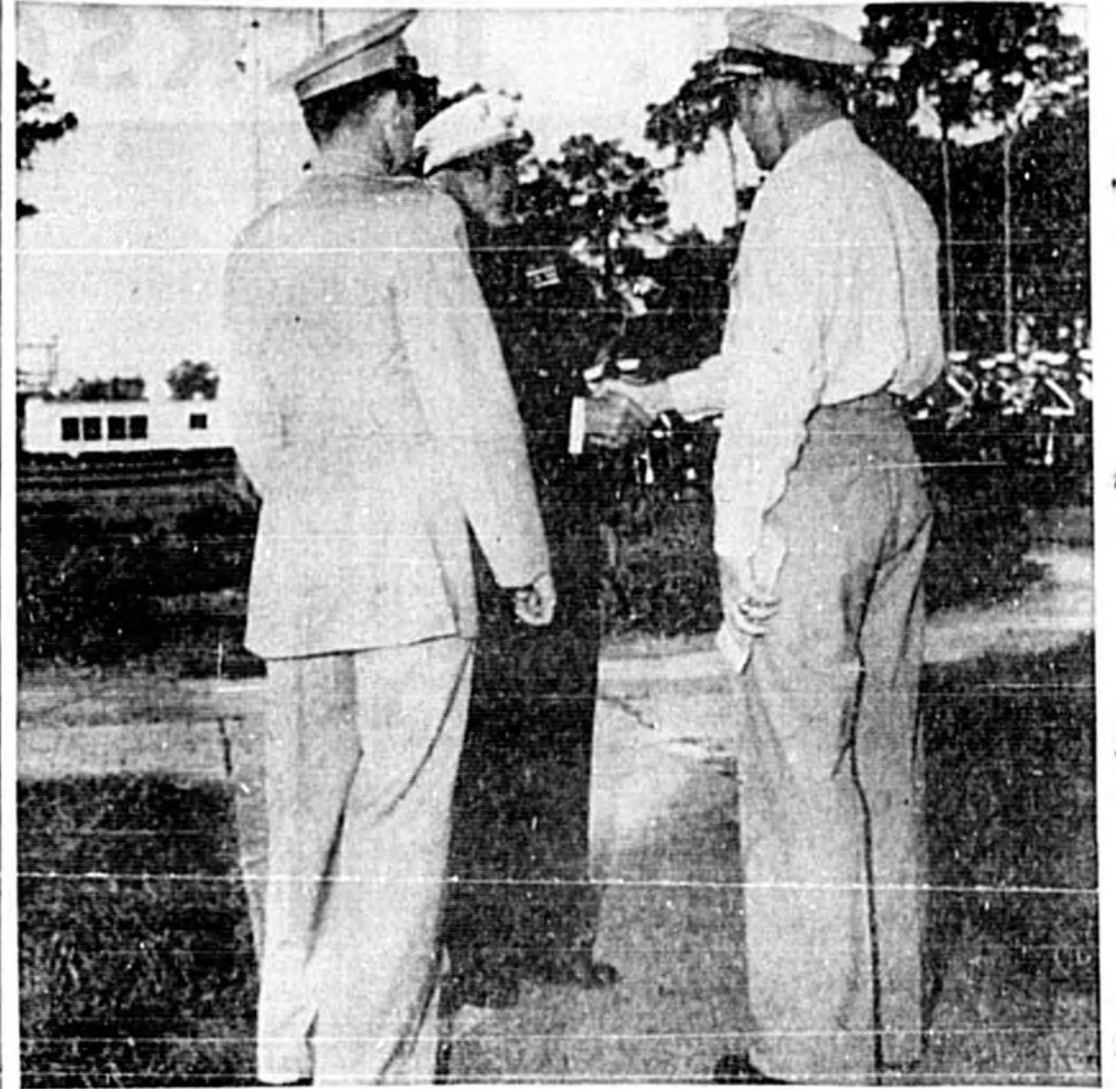

In little less than two years the site of the old station dump located on the north side of Lake Golden has been developed from a weed patch spotted with large derelicts of crashed airplanes to a sunny, sandy beach on the lake with all the trimmings of a juke box, dance area, band stand, refreshment stand and adjoining picnic area for the entire family.

Through the foresight and perservance of Captain Robert W. Jackson, Lake Golden Recreation Area was made possible. Ever alert for recreational facilities which improve morale and encourage Navy personnel to remain on board, Capt. Jackson immediately recognized the great morale potentials inherent in the development of a recreation area at Lake Golden. Although funds for such purpose were almost nonexistent, plans were drawn, bids let and work commenced on a "lend a hand basis" in the early summer of 1956. Eventually contracts were awarded and Lake Golden Recreation Area began to really take shape. By Christmas of 1956 family picnickers had begun to migrate to the recreation area on sunny days and by spring utilization of the area was in full swing. Now that summer has arrived and school is out, Lake Golden Recreation Area never knew a dull day.

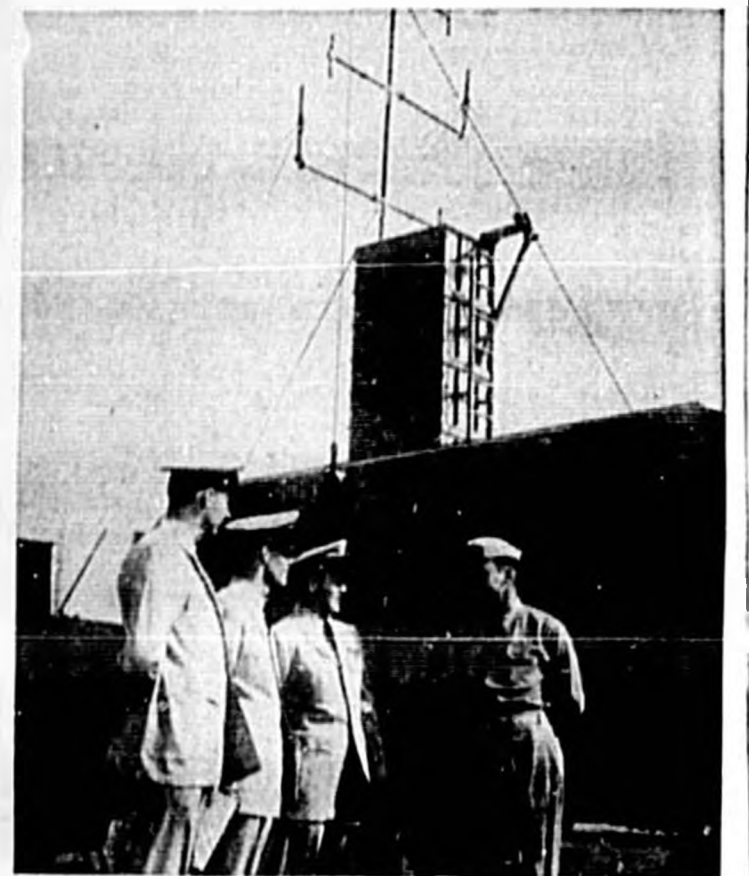

val officers to accomplish an equal task, or possibly a larger one, as the future of Sanford's Naval Air Station becomes more and more prominent and important in the defense of our country.

ERWIN E. ROENFELT, native of Australia, who is now associate secretary of the Adventists' international general conference in Washington, D. C.

Adventists Hear Pastor Roenfelt Today

FOREST CITY—“Conditions in the world are such that a continuing experience in Jesus Christ offers the only sure hope and security for any of us,” an international officer of the Seventh-day Adventist Church declared here today.

Pastor Edwin E. Roenfelt, a native of Australia, who is associate secretary of the Adventists' General Conference in Washington, D. C., said, “The time is not far distant when we shall see tens of thousands of people, and more, turning to God in a single day. The times demand it and God is waiting to satisfy the needs of those who seek Him.”

Roenfelt is one of the featured speakers at the nine-day Seventh-day Adventist state-wide camp meeting which concludes Saturday night.

He told more than 3,000 Adventists that “Holy Writ indicates that world conditions are now facing what will be largely responsible for bringing on an outpouring of God's Spirit in an even greater measure than was witnessed on the Day of Pentecost of New Testament times. “We are told in the Scriptures,” the speaker asserted, “that the work of the Christian Church will climax with a greater manifestation of the power of God than marked its opening.”

Pastor Roenfelt said the Christian Church is on the verge of this “greater manifestation” and that when it does come it will herald the soon return of Jesus Christ to this world.

The speaker noted “one major barrier” in the ultimate success and final victory of the Christian Church. “This,” he pointed out, “is a tendency on the part of Christians in all sections of the world to take a theoretical attitude toward Christianity. This is dangerous, for the motivating force of Christianity must have content of every experience the professing Christian has.”

One of the major duties of Pastor Roenfelt to his church is to recruit young people for foreign mission service. In an address to young adults attending the camp meeting he said that, “foreign mission service offers the greatest challenge and the most satisfying adventure that you can find” where there is tremendous need for many specialists, from technically-minded young men to college professors and M.D.s.

“Right now,” he said, “our church alone has immediate needs for 25 physicians. During the course of a year we have hundreds of calls from almost every part of the free world.”

T. L. Hartley Receives B. S. Degree From Uoff

Thornton Lee Hartley, son of Mr. and Mrs. W. J. Hartley of Longwood received his B. S. degree in Journalism and Communications from the University of Florida at the recent graduation exercises.

Hartley was an honor student and was one of ten seniors in the University School of Journalism and Communications who were recognized for outstanding service and scholarship at the school's annual awards banquet, which was held in the Student Service Center.

He was awarded the Dillon Cup in recognition of outstanding scholarship, professional attitude toward journalism and promise of future contribution to the field. He was also elected to membership in Phi Kappa Phi, national honor society.

Hartley is a graduate of Seminole High School.

SNAS

(Continued From Page One) part of the station's safety program is sincerely appreciated. It was stated:

The Secretary of the Navy Award for Motor Vehicle Safety read in part, “In winning this award you have achieved an accident rate, a casualty rate, and a damage cost rate which are better than the Navy-wide averages in these three categories.” This was the third such award to SNAS Sanford has won.

SNAS Sanford has won the Secretary of the Navy Award for Achievement in Industrial Safety three times previously. The Award read in part, “The fact that you have again won this award indicates that all employees at your facility have a continuing interest in safety and are keenly aware of the importance of accident prevention.”

HAPPY SON-IN-LAW

LONDON, Pa. — A man arrested Thursday for breaking into a store told the judge he got drunk celebrating the death of his mother-in-law. “I was expecting some insurance from her because I had insured her eight times,” the man explained. His name was not given.

Man

(Continued From Page One) one for several hundred feet south of the intersection with a large culvert going under the highway which serves no purpose but to be a nuisance to property owners, besides being an unnecessary expense. Having raised the road, new expensive maintenance problems are created. Also, the shifting property owner is forced to go to a lot of expense in order to have proper means of egress and ingress.

“There are many more of these instances that are proof of the incompetence of the engineers and the Highway commission,” said Simpson in his signed letter.

Referring to Gov. LeRoy Collins, Simpson said, “Collins is trying to do a job, but, unfortunately, is not in a position to judge the competence of his appointees.”

“Were it not for Bradley Gilman,” said the Seminole County furniture dealer, “it is doubtful in my opinion if we would have had the funds to improve Highway 17 to our county.”

DOCTOR CAUGHT

FLAT ROCK, Ind. — Dr. J. A. Davis had the surprise of his life. He caught the measles “I had them a day before I knew it,” he said. He said he probably caught them from a recent case he treated.

A RELIC RETURNS

NEW YORK — Police Commissioner Stephen Kennedy said 29 dangerous weapons have been turned in to police during the first nine days of a month-long amnesty. Among them was a World War I machinegun.

Simpson refers in his letter to the “Chinese Wall through Orlando” and stated that “Their idea is to compound their mistakes.” Orlando is too large to be a one-road town, he commented.

“We need more and better roads,” said Simpson, “we need a highway on both sides of both Sanford and Orlando. One at the east end of Lake Monroe and another west of the Monroe Bridge.”

The Seminole County business man said that such highways would feed more business through either of the downtown areas than they could possibly handle.

NO MORE ARGUMENTS OVER SALAD

OPORTO, Portugal — Maria Pereira Alves returned home after treatment at a hospital for a bruised rib wounding not to argue with her husband about the salad. She did not like the way he was fixing it and tried to interfere but he elbowed her out of the way.

THE TRUTH IS

EAST IS EAST AND NORTH IS SOUTH?
CONTRARY TO WHAT YOU THINK, THE ORIGINAL TRUTH IS IN THE NORTH. WHEN PLANTING PLANTS FORGIVEN IN THE NORTH, A BLUE CHERRY PLANT GROWS IN THE SOUTH. IF YOU PLANT A PLANTATION OF BLUE CHERRIES IN THE SOUTH, THEY WILL BE CALLED BLUE CHERRIES. IF YOU PLANT BLUE CHERRIES IN THE NORTH, THEY WILL BE CALLED BLUE CHERRIES. IF YOU PLANT BLUE CHERRIES IN THE SOUTH, THEY WILL BE CALLED BLUE CHERRIES. IF YOU PLANT BLUE CHERRIES IN THE NORTH, THEY WILL BE CALLED BLUE CHERRIES.

HOW ABOUT YOU?

BOTH GRANDFATHERS HAPPY
CHICAGO — Mr. and Mrs. James K. Fielding now have satisfied both their fathers. Their first son was born on Mr. Fielding's father's birthday, their second on his maternal grandfather's.

MOONSHINERS CAUGHT
GREENSBORO, N. C. — Six moonshiners began serving federal prison terms today with a rueful thought about their business acumen. They tried to pay protection money to a deputy sheriff and had hired a federal revenue agent as a “stilt hand.”

NIGHTIES NOT COVERED HOLLYWOOD — Local police rushed for the rule book when they spotted actress Lisa Davis walking on a downtown street wearing a brief, fuzzy, pink nightgown to publicize a movie. The desk sergeant found a city ordinance which forbids wearing bathing suits on city streets—but not a word about nightgowns.

SAVE! by financing your car in Sanford at one of our fine Banks. (Why Pay More?) TELL! them you want to insure with W. H. "Bill" Stemper Agency It Pays! A 2-1991 112 N. Park Cars — Homes — Business Liability — Others

Making a HAUL

Works like a truck!
Pile on the load! Ford's new Ranchero is rated for more than half a ton of payload—more than many standard pickups! The floor of its man-sized body is over six feet long. And for extra loading ease, it's the lowest of any pickup.

Having a "BALL"

Rides like a car!
Fun time—and the Ranchero becomes a fine personal car! Behind the wheel, you enjoy every luxury and comfort of a '57 Ford Ranch Wagon. Ball-joint front suspension—for the first time on any pickup—gives true passenger-car ride.

New Ford RANCHERO!

Nothing on wheels ever led the kind of double life that this trim, slim beauty leads. During the working day, the Ranchero pitches into any job a pickup truck can handle—and does it in style. After hours, it's ready for a picnic, an evening out or whatever your pleasure is. And you'll find the Ranchero a great prestige builder, too! It labels your company modern and progressive—good to do business with. Call us and see how little it costs to put your name on a new Ranchero!

Try America's first work or play truck

City Honors Jacksons At Farewell Dinner

30-Day Hurricane Forecast Sees 2 Storms For State

MIAMI — The weather bureau's first of its new 30-day hurricane season forecasts, indicates today that conditions are ripe for one or two tropical storms between now and July 15.

The "probability" report, the first of its kind ever issued, was based on past records and current conditions in the hurricane spawning areas.

But the weather bureau warned that the report was merely a "long range prediction" and cannot enable it to pinpoint when and where disturbances will develop. The reports in the future will be made on the first and 15th of each month during the hurricane season.

Today's report said: "Records for the past 75 years show that on the average a tropical cyclone may be expected to develop during the period from mid-June to mid-July about once every three years. A full hurricane is likely only once in five (Continued on page 2)

Funeral Services Conducted Sunday For John E. Baker

John E. Baker, 63, died at the local hospital at 6:40 p.m. Friday, June 14, 1957. Mr. Baker had lived here for 45 years. Mr. Baker and his wife, the former Miss Selma Erickson, who were married here in 1914, resided at 1500 W. First St.

He was a member of the First Presbyterian Church, Sanford Masonic Lodge No. 62, chaplain of the local lodge No. 27100F. Mr. Baker was associated with Mahoney Walker Company of Sanford for 24 years and the City plumbing for 15 years. For the past several years he owned his own plumbing business here.

Survivors include the widow, Mrs. John Baker, Sanford; one son Ernest Baker, DeLand; one grandson John Charles Baker, DeLand; two cousins, the Rev. John L. Miller, Hypoluxo; and Mrs. John Lee, Orlando.

Funeral services were held yesterday at 4 p.m. at Brison Funeral Home with the Rev. A. G. McInnis officiating. Burial was in Lake View Cemetery. The Sanford Masons conducted services at the graveside.

Pallbearers were the following 100F members: J. T. Hardy, I. V. Williams, D. C. Howard, Ralph Spotts, Victor M. Greene and C. J. Wilkinson.

It was Captain Bob's night! Everybody admitted it.

Captain Robert W. Jackson, Commanding Officer of the Sanford Naval Air Station made his last public appearance in Sanford when representatives of local civic organizations wished him bon voyage as he leaves on his new assignment.

With Captain Jackson was his wife Katie, smiling and listening to the words of praise from practically every phase of civic

F. G. Case, 67, Succumbs Sunday

Floyd G. Case, 67, passed away at his home suddenly at 12:05 p. m. Sunday.

Mr. Case has lived in Sanford for the past two years. He was born Jan. 20, 1890, in West Mecca, O.

He was a member of the First Presbyterian Church of Sanford and a member of the O. Erie Lodge Three of the Masonic Lodge of Warren, O.

Mr. Case was employed by the State Road Department as Chief Clerk for the past 11 years.

Survivors include: the wife, Mrs. Mildred Case, Sanford; two sons, E. H. Case, Lake Mary and William H. Case of Birmingham, Ala.; and six grandchildren.

Funeral services will be held at 4 p. m. Wednesday at Brison Funeral Home with the Rev. A. G. McInnis officiating.

Burial will be in Osklawn Memorial Park with Masonic services at the graveside.

and government organizations of the area.

At times there seemed probable that a tear or two might slip into the program, but speakers, aware of the situation, were able to weave humor into their presentations, thus preventing the occasion turning into a solemn one.

There were resolutions — one from the City of Sanford, one from the Board of Seminole County Commissioners, and one from the Seminole County Chamber of Commerce. County Commission Chairman Fred Dyson presented the formal resolution from Seminole County wishing Captain Jackson well as he leaves from Seminole County wishing for a new assignment; Seminole County Chamber of Commerce Past President George Touhy presented the resolution from the countywide organization. Then Mayor David Gatchel read the resolution from the City of Sanford.

The key to the city — a huge (Continued on page 2)

Legion To Install Officers Tonight

Campbell - Lossing Post 53 American Legion will hold its installation ceremony for new officers this evening at the Legion Hut beginning at 8 o'clock.

The ceremony will be a joint one with the local American Legion Auxiliary.

Lynn Lyon, Commander of the Post has urged all legionnaires to attend the important meeting.

Byrd Promises Study Of U.S. Dollar Decline

Senate To Probe Reason

WASHINGTON — Sen. Harry F. Byrd, D-Va., promises a sweeping Senate investigation into why the purchasing power of the dollar has declined to 49.8 cents compared with its 1949 value.

His promise came as U.S. Chamber of Commerce officials made a prediction which, if borne out, could lead to an even further shrinkage of dollar's buying power.

Six Chamber officials and the organization's chief economist, appraising the economic outlook at a news conference Sunday, predicted that prices will continue to climb for the remainder of this year, although perhaps at a slower rate.

Byrd is chairman of the Senate Finance Committee which will make a comprehensive checkup on the state of the nation's economic health at hearings beginning Tuesday. Secretary of the Treasury George M. Humphrey will be the first witness.

It will be the first investigation of its type since the Aldrich investigation of 1908 which laid the groundwork for numerous financial reforms.

Byrd said the new investigation will cover "just about everything in the way of monetary questions, both private and public."

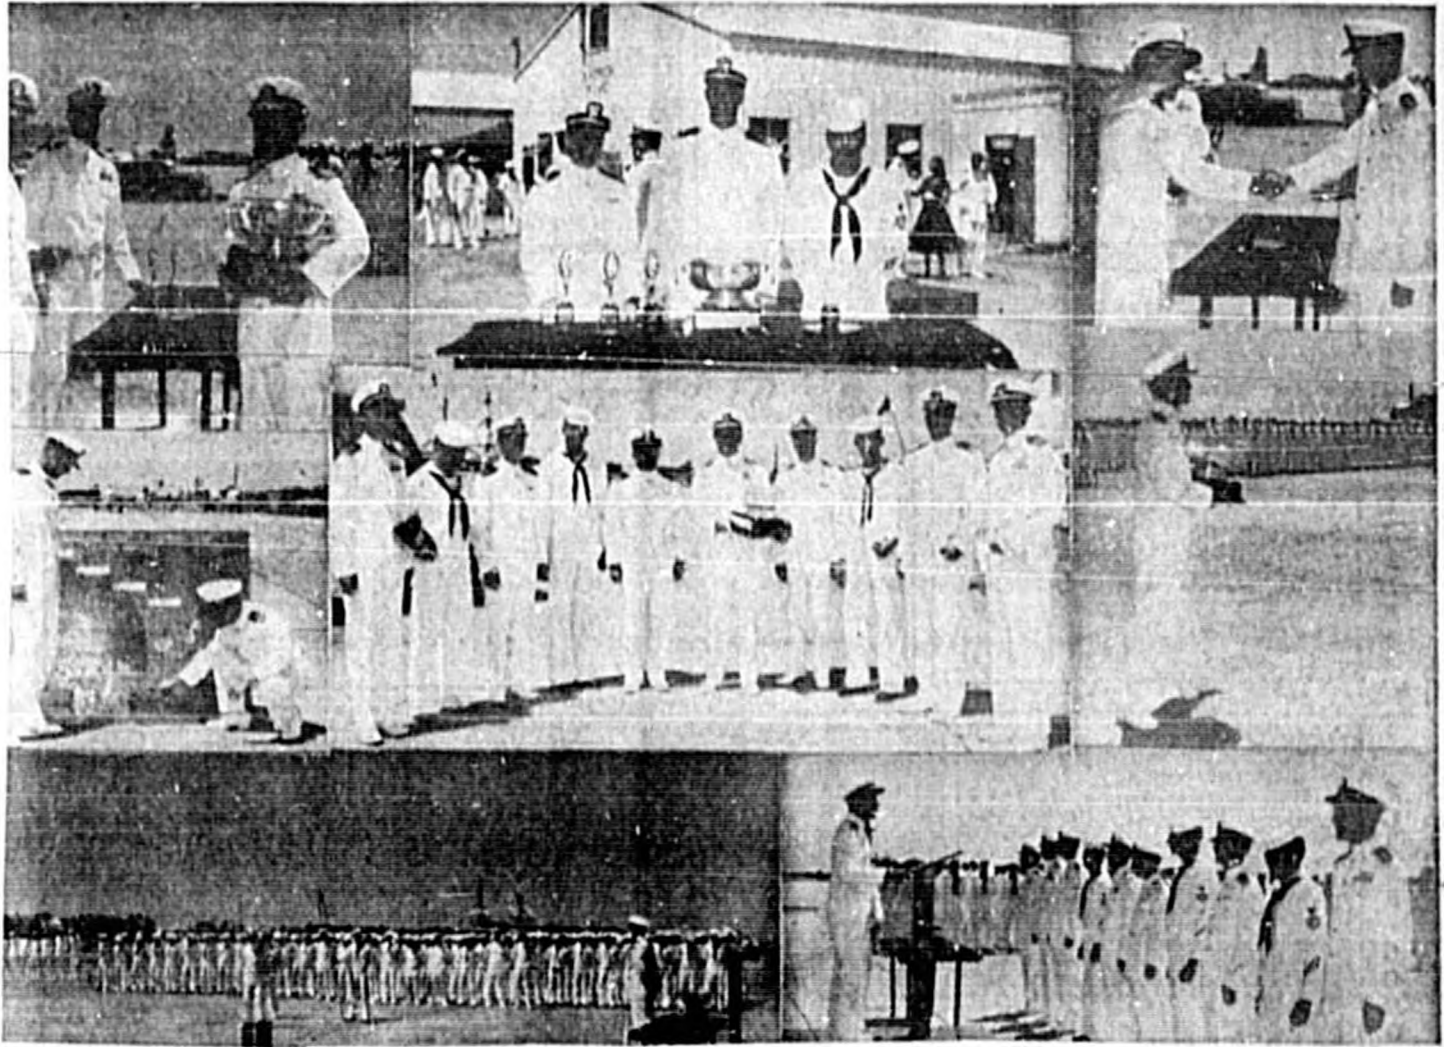

But he said it will concentrate first on "the inflation thift has occurred since 1949." Inflation, he said, has led to a 49.8-cent dollar compared with the 1949 dollar.

Furthermore, he said, there has been "a loss of two cents in the purchasing power of the dollar in the past year, or 4 per cent of its 50-cent value."

The inquiry also will concentrate on current high interest rates, Byrd said in a television interview.

Senate Democratic Leader Lyndon B. Johnson told newsmen the administration's hard money policy—a policy of forcing interest rates up as an anti-inflationary move—has imposed an increasing hardship on businessmen, farmers and all taxpayers. He said Congress will "have to devote considerable attention" to the problem.

Johnson said high interest "lowers the value of the dollar for those who spend and raises the value of the dollar for those who lend on a large scale, and it hits the taxpayer with a heavy penalty."

BOMBING DERBY HONORS go to VAIL-5. Top row (left to right) Cdr. J. M. Tully receives the Conover Trophy the second time from Capt. J. T. Blackburn, Commanding Officer, Heavy Attack Wing One; Top men with the squadron's trophies. They are Lt. (jg) Curt Kretschmann, Lt. (jg) Gordon Jacobson, and A01 Ed Baron; and Lt. (jg) Gordon Jacobson, top bombardier, receives trophy from Capt. Blackburn. Middle row (left to right) Lt. (jg) Gordon Jacobson watches his name placed at top by Lt. (jg) Curt Kretschmann on the Bombing Derby Scoreboard; Cdr. Tully, the trophy, and the winning squadron's entries in the derby; Cdr. Tully takes the Conover Trophy to his squadron after the presentation. Bottom row (left to right) Squadron VAIL-5 waiting for the presentation; Capt. J. T. Blackburn addresses the winners just before presenting the five trophies. (Staff Photos)

Dr. Rutland Takes Over Methodist Pastorate Here

A Methodist pastor, in the ministry over 42 years, delivered his first sermon in Sanford yesterday after coming here to take over the pastorate of the First Methodist Church replacing Rev. Milton H. Wyatt.

Dr. R. E. Rutland came to Sanford from Gainesville where he was District Superintendent prior to the conference held recently.

Dr. Rutland is a graduate of the Candler School of Theology at Emory University, Atlanta, Ga. He had previously attended Auburn University.

He has served in Florida churches since 1915 and all of his assignments have been in the south. In Florida he has served the Seminole Heights Methodist Church, Tampa; First Methodist Church of Lakeland and the First Methodist Church of Winter Haven.

Dr. Rutland and his wife Leila have two sons, both of them in the ministry. One son is serving at the Tampa Heights Methodist Church, the other at the Pasadena Church, St. Petersburg.

"A Strong Faith" was the subject of Dr. Rutland's first sermon at the First Methodist Church. His evening sermon topic was "Disciples are Christians."

Scientist Picks Death Over Committee Probe

PACIFIC GROVE, Calif. — William K. Sherwood, a cancer research scientist, killed himself early Sunday rather than appear before a subcommittee of the House Un-American Activities Committee.

A committee spokesman said he may have taken with him in death information "that would have been significant to the security of this country." He said Sherwood's testimony had been considered so "very valuable" that the committee planned to offer him immunity in prosecution in return for it.

Scientific colleagues of Sherwood, 41, said he was a "brilliant" scientist. On Friday he completed a paper describing work through which he believed he may have established a link between cancer, schizophrenia and some kinds of heart disease.

Sherwood was found dying at the Hopkins Marine Laboratory by his wife, Barbara. He had taken poison. He had left a letter saying:

"My life and my livelihood are now threatened by the House committee.

"I will be in two days assassinated by publicity. . . I would love to spend the next few years in laboratories, and I would hate to spend them in jail."

A friend made public a statement which he said Sherwood had

Special Session Of City Fathers Called For Tonight

A special meeting of the Board of Sanford City Commissioners has been called for tonight by Mayor David Gatchel to consider five items.

The agenda includes a public hearing on the request by Ted Williams for the rezoning of the block south of 25th Street between Magnolia and Palmetto Avenues to 25th Place.

Other items on the agenda include a request by Sam Williams for a beer and wine license at 305 Sanford Ave. This request was tabled from the last meeting on the report from Police Chief Roy Williams that "the man could not be found."

Also a request by the Sanford Boat and Ski Club to lease their Yacht Club when the Sanford Civic Center is built.

A discussion of the proposed lease agreement with the National Exhibition Company has been set, an item continued from the previous meeting of the board of commissioners.

The pay scale for city employees has been set for discussion at tonight's meeting.

Adventist 9-Day Camp Meet Closes

FOREST CITY — The little community of Forest City probably won't be the same for another year.

For nine days its population of a few hundred, at most, has mushroomed to some 7,000—Seventh-day Adventists attending the church's annual state-wide camp meeting on the campus of Forest Lake Academy.

Beside the school, the community has one medium-size store, a service station, a garage, two restaurants and the Fosgale Citrus Cooperative—hardly enough businesses to provide services for 7,000 visitors.

But the Adventists conference set up temporary cafeterias, a book store, a grocery store, a medical tent staffed by doctors and nurses, hundreds of dwelling tents, exhibit tents and other facilities. Though not the comforts of home in most cases, they sufficed nevertheless.

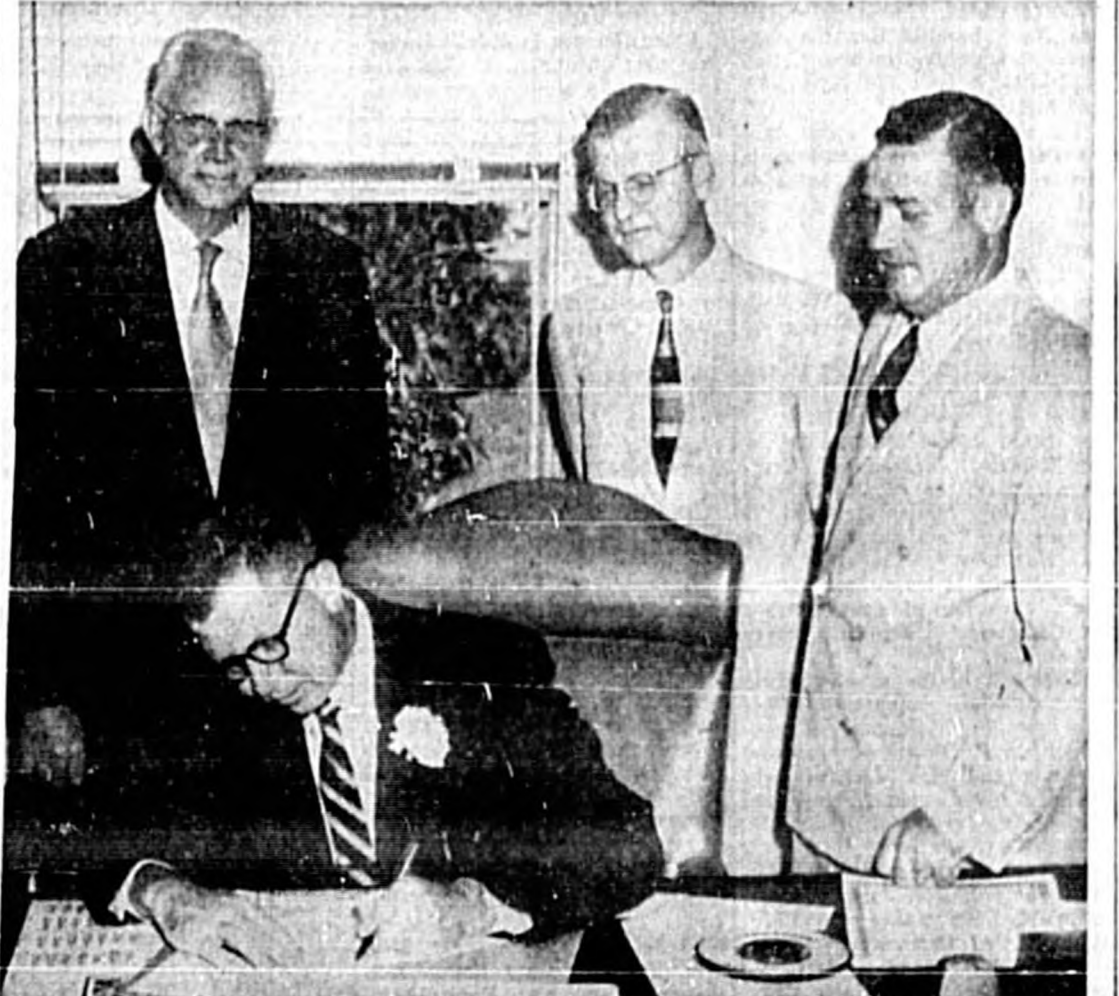

Chairman of the convention was Pastor Harold H. Schmidt, of Orlando, president of the Florida Conference of Seventh-day Adventists. This was his first experience as such, for he was elected to the

Major Wright Will Be Kiwanis Speaker
Members of the Sanford Kiwanis Club, at their noon luncheon meeting Wednesday at the Yacht Club, will hear Major Dwight Wright, retired Army engineer, speak on his experiences in Alaska and in the Arctic Circle area while for ten years doing construction work there.

Art Pleva, of the club's House Committee, is program chairman and will introduce the speaker. (Continued on page 2)
