MINISTER AND WIFE GRATEFUL TO RETONGA

Mrs. Bates Could Eat Only Soft Food And Says She Almost Lost Hope Of Feeling Better. No One More Appreciative Of Relief Retonga Gave, She States

REV. B. C. HATES

Grateful for relief from almost unbearable suffering from nervous indigestion, along with kindred distresses, the Rev. B. C. Hates, highly respected minister of Austell, Ga., Route 1, and his beloved wife, have joined the thousands gratefully praising Retonga.

"I don't believe anyone could have suffered worse distress than I did — from gas bloating and gassy heartburn," said Mrs. Bates. "Solid foods seemed heavy as lead in my stomach, and I just forced down a little soft food like soups and broths. I lost weight and felt high-strung. Strong laxatives became a habit and my muscles ached until I could hardly stand. I hardly knew what a good night's sleep was — and most mornings I felt so worn out that my housework just had to go undone. My husband also suffered badly from acid indigestion. I almost lost hope of ever feeling much better."

"No one could be more thankful for the relief Retonga brought them. I now relish my food, feel much stronger and am regaining lost weight. I sleep restfully and hardly ever notice any aches or pains, and strong laxatives are not needed now. Both of us heartily recommend Retonga. It is grand."

Retonga is intended to relieve distress due to insufficient flow of digestive juices in the stomach, loss of appetite, Vitamin B1 deficiency and constipation. Accept no substitute. Retonga may be obtained at Touchton Drug Co. — Adv.

Canal Hearing To Be Held Tomorrow By U.S. Engineers

Higgins Anticipates Large Attendance At Meeting To Be Held At Mayfair

United States engineers from the Jacksonville district will hold a preliminary hearing at 1:00 o'clock tomorrow afternoon at the Mayfair Inn to consider the matter of flood control, stabilization and navigation on the waters of the Upper St. Johns River. This program will include revival of a St. Johns River canal project to divert flood waters and for navigation.

The Seminole County Chamber of Commerce, representing the proponents of the proposed improvement, will serve a luncheon to those attending the meeting at 11:45 o'clock. This will be served in the dining room of the Mayfair Inn.

Edward Higgins, manager of the Chamber of Commerce, today announced that he has had acknowledgment from people interested in this waterway and other waterway projects, throughout the state and expects a very representative crowd. The public is invited to attend the hearing starting at 1:00 o'clock in the Mayfair ballroom.

Local interests are proposing that the government cut a 12 foot deep, sea level canal from Purple Lake on the St. Johns River with a lock at a point near Titusville, so that the canal will be available for navigation.

A proposal for a canal at this location was disapproved by the Engineers in 1939 on the ground that there was insufficient justification for the expenditure of funds. Since that time, however, Congress has passed laws that will allow the construction of flood control and water stabilization as a contributing factor in the cost of this work. It is believed by local interests that the benefits to accrue from the combination of flood control, water stabilization and conservation, together with navigation, will justify this work.

The St. Johns River rises in the marshes around Lake Winnington, commonly known as Blue Cypress, and flows north a distance of 297 miles to the ocean near Jacksonville.

The tremendous annual rainfall over this large area, concentrated for the most part during the summer, causes a rise of as much as 10 feet in the Purple Lake section of the St. Johns River Valley. This flood condition lasts approximately six months, after which the opposite conditions prevail and the water is drained off the river. Then the water recedes exceedingly low for the same length of time.

It is the plan of the United States engineers to devise canals or overflows to take care of the excessive flood waters during the flood season, and also to provide farm basins to hold the water in during the dry periods.

The St. Johns-Indian River canal is one of the canals proposed to carry off flood waters. Details of plans for the water control project will be worked out by the engineers and the operation of the plan will be under the supervision of the United States Government.

Another Critical Factor Looms In Chinese Civil War

PEIPING, Aug. 19. (AP)—There are hints today of another critical development in the civil war in China. A spokesman for the Communists declared that the army of Generalissimo Chiang Kai-shek are planning an attack on Red headquarters at Yenan. The purpose of the attack, the Communist spokesman asserted, would be to divert the Red offensive aimed at Taiyung.

The Communist official said that the Chinese government leaders also are planning retaliatory attacks on the Red military base of Kalgan, and on the Communist stronghold of Chingtan in Jehol province.

Meanwhile Chinese newspapers say that the battle for Taiyung had reached a climax, with Communist forces only three miles from that city.

LEGION MEETS TONIGHT

The regular meeting of Camp 11—Loring Post No. 23 of the American Legion will be held tonight at 8:00 o'clock at the Legion Hut located on Lakefront Boulevard.

Death Toll In Calcutta May Be Over 3,000

Less Disorder Is Reported In Various Sections Of City; Hysteria Prevails

CALCUTTA, Aug. 19. (AP)—The city of Calcutta today resembles something out of a nightmare. It now is four days since the Moslems and the Hindus began their crazed rioting and although there is less disorder in some sections of the city, hysteria still prevails. Sporadic shooting continues. Every once in a while, wild cries ring through the streets. Perhaps as many as 3,000 corpses have been counted.

In addition, several thousand persons are wounded. The authorities are frightened by the possibility of a fear-motivated epidemic of murder, pillaging and looting have been rife during these four catastrophic days. The Calcutta Fire Department answered more than 400 alarms yesterday. Houses, factories, boats have been burned. There are all sorts of stories about sadistic crimes. Calcutta's stores still are closed and the food situation is getting worse. The already desperately hungry Indians can see fruit, vegetables, and eggs rotting in the barricaded stores and on railroad platforms.

Refugees from every section of the city, the biggest in India, continue their frightened trek to rescue stations, police headquarters, and police stations. They have so jammed these places that hundreds have been sleeping in hallways. As a result, inevitably happens, the poorer sections of Calcutta have been the scenes of some of the worst atrocities. Police blotters show that hundreds of men, women, and children were butchered or burned to death in what is known as the "bustee" or tenement areas.

The Moslem and Hindu differences over the British offer for Indian independence ignited by Friday's Moslem demonstration is the reason for the rioting. The Moslem League is against the British plan because it would give the Congress party—which is controlled by the Hindus—considerable control. The Moslem demands for Pakistan—or an independent Moslem state—were turned down by the British.

Peace Conference Bugged Down On Bulgarian Treaty

PARIS, Aug. 19. (AP)—The peace conference, finally working on the final actual study of a draft treaty, has bogged down before it even started. No sooner did the delegates get to the preamble of the treaty with Bulgaria when disagreements arose.

American delegates to a statement in the preamble which stated that Bulgaria took an active part in the war against Germany. The Greek delegate asserted that Bulgaria switched sides at the last minute; that Bulgarian troops could have cut the retreat of the German armies but didn't begin to move until the end of August, 1944. The only time Bulgarian troops were active, declared the Greek representative, was when they fought along with Germany.

Sprouting the delegate in his denunciation was Bulgaria's claim last week to the Greek territory of western Thrace. Australia branded the Greek remarks as being out of order while Britain and Russia said Bulgaria ought to expose her point of view before discussion started on the treaty article by article. The argument was enough to halt all actual discussion of the treaty.

Two Carrier Boys Die In Miami Wreck

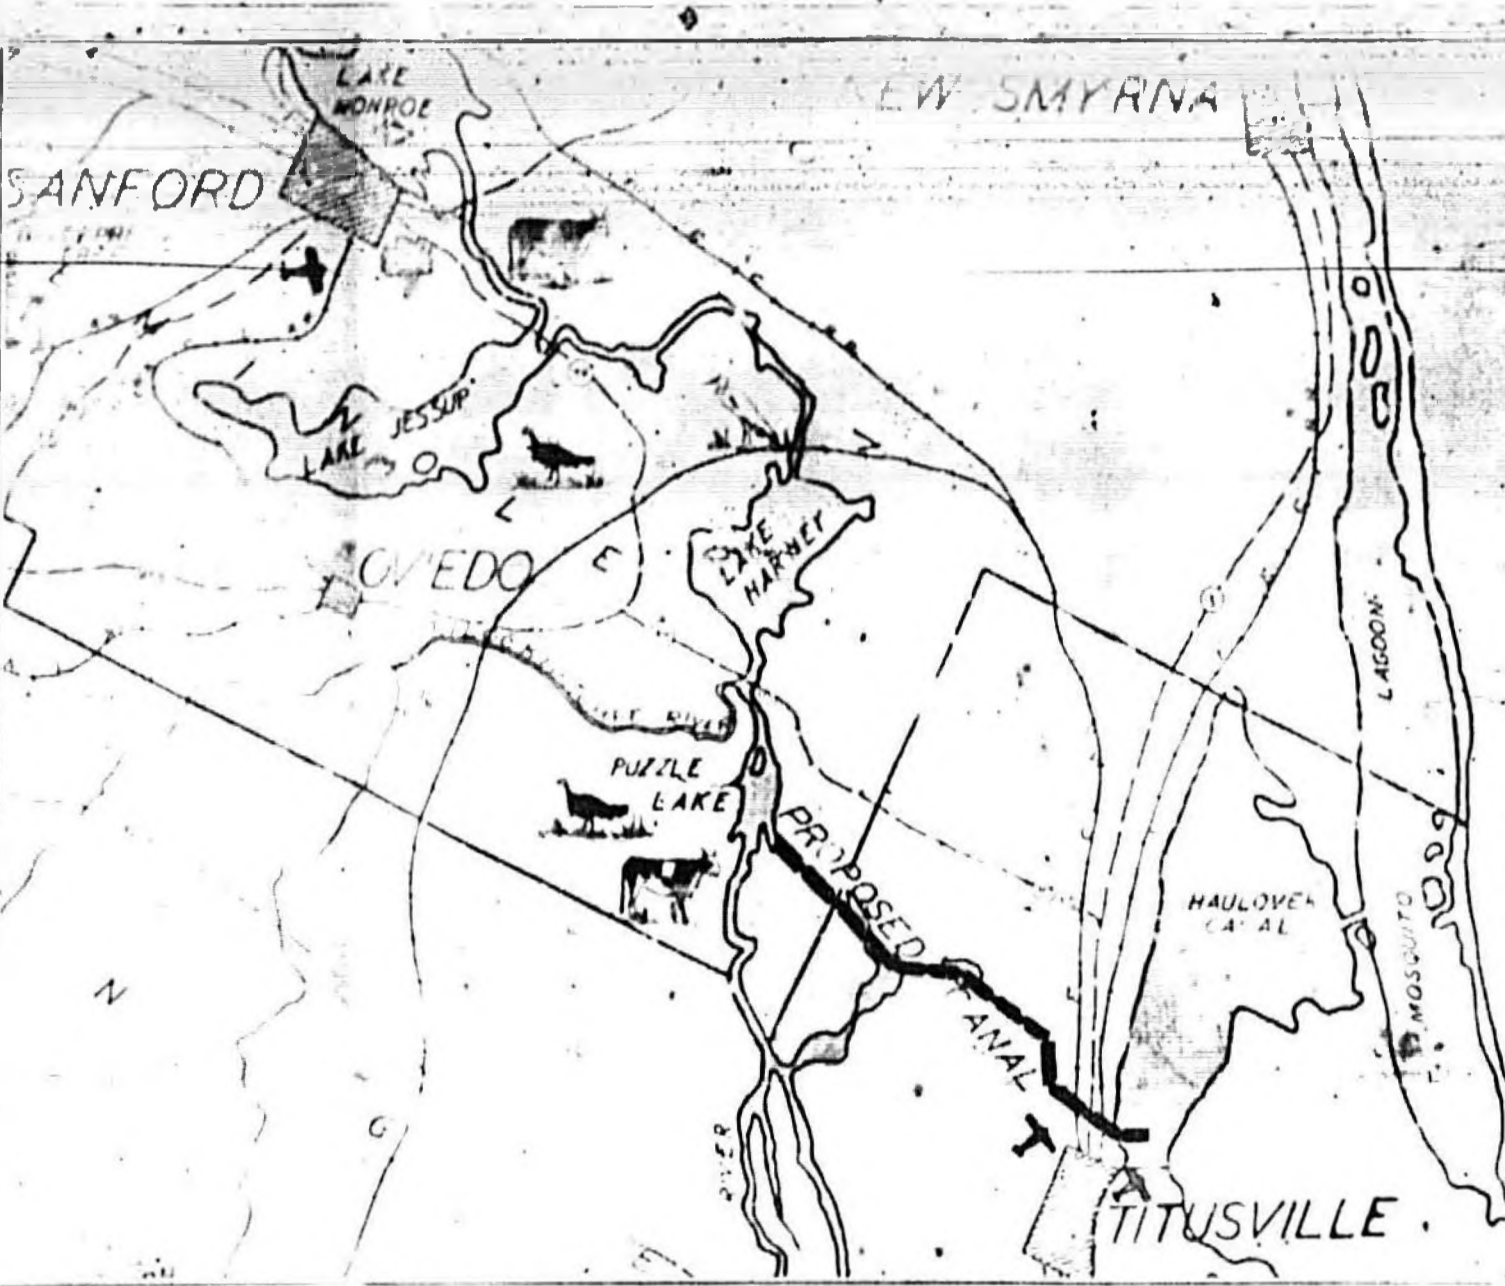

MIAMI, Aug. 19. (AP)—Funeral services are planned today for two Miami Beach carrier boys, aged 14 and 15, who were killed yesterday when an automobile struck the motor scooter from which they were delivering papers. The accident occurred on the Tamiami Trail in southwest Miami.

County road patrolman R. C. Ivo and C. W. Richard identified the boys as Hubert Robert Collins, Jr., and Charles Edward Peoples. Collins was killed instantly and Peoples died half an hour later.

The patrolman filed two manslaughter charges against Grand Lee McHugh, 31, whom they identified as the driver of the automobile.

Tension Mounts As Reports Of Imminent Full Scale Offensive By Jews Circulate In Palestine

Proposed St. Johns-Indian River Canal

The dark connecting line on the above map shows the route of the proposed St. Johns-Indian River Canal which will be a major factor in the hearing on flood control and navigation to be held at 1:00 o'clock tomorrow afternoon at the Mayfair Inn ballroom.

Army Plane Is Overdue After Being Attacked

Final Report From Pilot Said Ship Being Fired Upon

TRIESTE, Aug. 19. (AP)—An American plane was shot down in a long overdue and unexplained manner since it returned that it was being fired upon by Yugoslav fighters on which another American plane was attacked and forced down by Yugoslav fighters on Aug. 18.

The Army plane, assigned to the European Air Transport Service, left Vienna this morning. It was reported over Klagenfurt, Austria, one hour and 20 minutes later. Shortly before it was due to reach Udine, the pilot reported that tracer bullets were whizzing past him. Nothing was heard.

Anxiety has been heightened by the official declaration that the transport forced down on Aug. 18 had been machine-gunned and one of its passengers wounded. The pilot said he had become lost in a storm, and emerged from the clouds over a city he took to be Udine. As he circled to crash himself, two Yugoslav fighter planes attacked him.

After crash-landing in a corn field, the plane's crew and passengers were held incommunicado by the Yugoslavs. Even then, American authorities were allowed to talk with them only in the presence of a Yugoslav officer.

United States Ambassador Richard C. Patterson has condemned the incident as a wicked, unnecessary and deliberate attack on a friendly nation's airplane.

LT. JOHNSON DISCHARGED
Lt. (Jr.) Lauren R. Johnson, husband of Mrs. Nell Johnson, 714 Oak Avenue, has been discharged from the Navy at the Personnel Separation center in San Francisco, Calif.

Wilson Asserts Fall Planting In Florida Reaches Record High

Vegetable Producing Area of Central and South Florida Said to Be Definitely Planned

JACKSONVILLE, Aug. 19. (Special)—"Reports, reaching my office from throughout the vegetable producing area of central and south Florida, indicate that fall planting is well on definitely planned and such reports, of one town or two," said William J. Wilson, director of Florida State University Extension Department, "are so common throughout the country, that it is almost likely that the planting season should be highly profitable. We need to consider very carefully the probable available demand to take all of the high quality produce we are able to ship, at reasonably satisfactory prices. However, I feel that we need to recognize the need for increasing caution in planning and planting (vegetable) production can be as great a disaster to the producer, as a crop failure. We need to consider very carefully the probable available demand for future harvests, and to hold our production within safe limits."

The great tomato-producing area around Fort Pierce has been the scene of much activity in the last few weeks. Tomato planting is well under way. In that section the growers use the drill method of open-field planting, thinning out excess plants from the drill-rows, and eliminating the transplanting process. This tends to speed the harvest, and consequently the profits. Elimination of transplanting costs and the delayed forecast is said to more than offset the additional cost for seed, and labor of thinning.

"Wauchoa producers are already setting pepper plants, and my reports indicate the crop is getting off to a good start. Cucumbers are up, and growing well. I am told that the Wauchoa growers are looking forward to the earliest harvest of these two major commodities, in the history of their large-scale operations."

"Celery growers in the Sanford area and in other producing sections are said to have good plants in abundance. The Sanford growers will have their plant-setting operations under way by the end of the month."

Mrs. Norbeck and the boy, George, Jr., were brought to shore by a passerby, Joe Arias, also of Tampa. However, Norbeck's body had disappeared beneath the water before Arias could return for him.

British Reported To Be Ready To Beat Down Any Uprising With 50,000 Troops

JERUSALEM, Aug. 19. (AP)—Reports of an imminent full-scale Jewish offensive continued to circulate in Palestine today as thought-leaders urged the people to exercise calm restraint. But tension remained high with the British described as ready to beat down the rumored nationwide rebellion with 50,000 troops.

This was the picture in the Holy Land after 24 hours of violence and rioting, capped by the explosion of two bombs in a British transport carrying about 100 troops to a camp in Tel Aviv.

Looking back at the disturbances between moderate Jewish leaders and the British, a British official said that the British had not been prepared for the mass demonstration which broke out last night. The British had expected a peaceful demonstration, but the people, he added, are rejecting hoodlumism and turning away from violence. The crowd he said, rebelled because they were told the British had imposed on 18 Israeli Jews the same camp for the night as they had imposed on the British troops.

The British are protesting against the expectation that the Jewish offensive will be a full-scale one. The British official said that the British had not been prepared for the mass demonstration which broke out last night. The British had expected a peaceful demonstration, but the people, he added, are rejecting hoodlumism and turning away from violence. The crowd he said, rebelled because they were told the British had imposed on 18 Israeli Jews the same camp for the night as they had imposed on the British troops.

U. S. Protests Yugoslav Attacks On U. S. Troops

WASHINGTON, Aug. 19. (AP)—The United States is protesting to Yugoslavia today over the Yugoslav attacks on American troops in the Balkans.

A State Department spokesman today said that the Yugoslav attacks on American troops in the Balkans were "unjustified and inhuman." The spokesman said that the United States was protesting to Yugoslavia over the attacks.

Tug, Disabled Ship Racing With Typhoon

TOKYO, Aug. 19. (AP)—There's a tug and tug race underway off the coast of Japan between an Army tug towing a disabled liberty ship and a swiftly approaching typhoon.

The liberty ship Samuel Seasey sent a distress call after it had snapped off the propeller at the mouth of the Inland Sea, and the Army tug reached it yesterday after battling heavy seas.

Meanwhile the Japanese islands are bracing to meet the expected one hundred mile-an-hour winds of the typhoon, which should strike the coast at about 9:00 o'clock tomorrow morning.

COMPENSATION PAID 12
Seminole County recipients of unemployment compensation payments during the week ending August 10 numbered 12 of whom 7 were men and 5 women, and total payments amounted to \$190.50. Carl B. Smith, chairman of the Florida Industrial Commission, reported today. Payments throughout the state amounting to \$120,080.50 were made to 6,508 persons, 3,547 men and 2,957 women, he said.

State Guard Company To Disband Tonight

Company C of the Fourth Battalion of the Florida State Guard will be disbanded tonight at the Sanford Armory and all members are requested by Capt. John L. Galloway to be on hand for the program.

Capt. Galloway will read an order for the disbanding and will give a brief history of the company. Any members of the company who have not yet turned in clothing or equipment are requested to do so this evening.

SAIL FOR CANADA
LIVERPOOL, England, Aug. 19. (AP)—Field Marshal Viscount and the Archbishop of Canterbury, Dr. Geoffrey Fisher, sailed on the liner Mauretania today for Halifax. Each plans to visit the United States after a stay in Canada. Montgomery traveled in a suite sailed off from the rest of the ship. Associates said he was working on War Office reports.

BIBLE VERSE FOR TODAY

MANY HAVE ANTICIPATED CHRIST'S COMING AT A GIVEN TIME AND PLACE, BUT THEY HAVE UNIVERSALLY FAILED TO FIND IT. YET THE CHRIST SPIRIT MAY BE WITH US AT ANY TIME ANY WHERE: I will not leave you desolate, I come unto you.—John 14:18.

Attorney General Tom Watson says there is no Ku Klux Klan in Florida. And none is needed.

Yugoslavs Say U. S. Aids "Fascist Mob"—headline. But in Yugoslavia it is important to remember that a "Fascist Mob" is any group which doesn't believe in communism.

The current issue of Life magazine has some interesting photographs of Robert E. Lee and other members of the Lee family of Virginia. Every Southerner will be interested in this collection.

The Senate dining room is being sound-proofed, we read, so that the crunching of celery and the slurping of soup will be less audible throughout the Capitol building. Evidently they're getting the chambers in shape for the Republican resurgence.

Over 120 million dollars worth of building contracts were awarded in Florida during the first six months of 1946. And there would have been many million dollars in additional building if there had been the labor and materials to handle it.

Speaking of the veteran vote, the Tampa Tribune says, "In our humble opinion it will be useless for any man who was not in the armed services to offer for important office in this state. The only way a non-veteran can get elected is to be fortunate enough not to have a veteran opponent". Among possible gubernatorial candidates in 1948 are Fuller Warren, Francis Whitehair, Dan McCarthy and George Smathers, all veterans.

Now that the City has taken over the Sanford Naval Air Station, it should be possible for the people in Sanford who like to play tennis to have a place for their favorite recreation. There are at present four tennis courts at the station and if nets are provided they would provide an ideal place for a tennis club. Even dressing rooms and showers are immediately available. Incidentally the courts might be leased from the City by some energetic entrepreneur who could make a little money operating them for the fans.

Uncle Sam may not be supplying every Hottentot a quart of milk as it was freely asserted he would during the last presidential campaign, but the old gentleman is doing his best to get rid of the taxpayers' money. On President Truman's desk at the present time is a bill to give \$200,000,000 to the states to "raise their economic, social and educational standards." We don't know why we should try to raise their standards any more than the Afghans, the Burmese or the Zulus. And for that matter we have some people right here in our own country who could use \$200,000,000 pretty well raising their own standards. But as long as the money lasts, we suppose we will continue to hand it out to every foreigner who comes begging.

It is not only in the South that an increasing tendency toward lawlessness is noted; it is not only in Georgia since the racist election of Hugo Timmerly that men are murdered in cold blood, all over the United States. A crime wave is gathering momentum which should be the concern of every decent law-abiding citizen. In this year of our Lord, 1946, and the Year One of Atomic Peace, there is more crime in the United States than ever before in its history, not excepting the lawless plundering era which followed the first World War. Every day of last year 226 persons were killed, assaulted or raped. Since then the rate has increased by more than one-third. Yet we ask other nations to adapt our way of life.

Man For The Ages

H. G. Wells was born 79 years ago, in a shabby bedroom over a china shop in Bromley, Kent. On August 13 he died in London, ending a life of hard work, of scientific study and research, of teaching and of writing. He is one writer whose works have never become outdated. They have rather, for the most part, been ahead of their time. His has always been a clarion voice calling for the freedom and emancipation of the mind from the shackles of conventional thought.

His scientific research gave him the background for his strangely prophetic writings foreshadowing modern methods of warfare and predicting many developments which he never expected to live to see. He was, many people said, a vain and egotistical man, and some of his public utterances bear out this theory. He was, nevertheless, truly humble, as only the very great are humble, feeling himself to be only the instrument of his art.

In his "Experiment In Autobiography," written in 1932, he has this to say: "The truth remains that today nothing stands in the way to the attainment of universal freedom and abundance but mental tangles, egocentric preoccupations, obsessions, misconceived phases, bad habits of thought, subconscious fears and dreads and plain dishonesty in people's minds—and especially in the minds of those in key positions."

Politically, Wells was a Socialist, but in the broadest, most constructive sense of the term, envisioning a modern world-state, maintained by the concept of creative service. His passing leaves a great gap in the ranks of the creative thinkers, who will, in the last analysis, build the world of the future.

New Testament

For more than eight years a committee of nine theologians headed by Dean Luther A. Weigle of Yale Divinity School has been working on a translation of the New Testament. One of these men, W. Russell Bowie, a professor at Union Theological Seminary, tells in the Atlantic Monthly of their work and its result, which is published this year, as the Revised Standard Version.

The translation of the Bible which has long been accepted as standard is the King James Version, translated from Hebrew and Greek by scholars who possessed great gifts as writers and used the beautiful prose common to those who wrote in Shakespeare's time. Several modernized versions have been brought out in this century, but none has taken the place of the Bible which has influenced the style of all of the really great writers. However, important manuscripts have been brought to light which were not known in 1611, nor even a generation ago.

The work of these scholars, a labor of love, has been carried through to satisfy, as Dr. Bowie says, "the continuing desire for a translation that will be as nearly as possible exact and authoritative and yet will attain a literary distinction which may reflect for our age its trust and most noble speech." The committee hopes that this New Testament will be charitably received and tested by Christian folk everywhere.

Fire Drills

In a report on the La Salle Hotel fire in Chicago, the Cook County Inspection Bureau recommended that hotel employes be instructed and drilled in procedure to follow in case of fire. That seems a particularly practical suggestion, and one which might be extended beyond hotels.

Most hotels, institutions and public buildings where serious fire develops have never before experienced any such emergency. The staff and occupants do not know what to do first, and the result is tragedy, much of which might be avoided.

Fire drills in public schools are prescribed by law. Drills aboard ships and at military stations are common practice. Duties of each person are known ahead of time, and practised often enough to be automatic in a crisis.

Guests at hotels would probably not thank the management for involving them in fire drills, and because they are transient, there would be no particular value in that. But if the staff of every hotel were well enough trained and drilled to know exactly what to do in case of fire, they would be able to direct the guests, help empty the building quickly, and prevent panic.

STATE NEWS BRIEFS

BY WILLARD CONNOLLY

A new boating center for pleasure craft is about to be started at Eustis on the south shore of Lake Eustis on a 200 foot triangular plot of ground recently purchased from the city by E. L. C. Harold and Herbert E. Ferran. There will be a canal dug along the east side of the property, 40 by 60 foot building with concrete apron to the north will be constructed to house a boat sale shop and repair building. Two 140 foot docks will be built into the lake. Jetting from these will be covered boat wells for the convenience of boat owners who will keep their craft at the yards. A trailer camp will be constructed west of the property.

During the first six months of the year, 51 new residences were constructed at Mt. Dora. This does not include the additional house built in Sylvan Shores adjoining Mt. Dora. Building per-chases have risen from a low of \$31,950 in 1937 to \$201,375 during the first six months of this year. A new nine hole golf course will be ready for playing this season.

Company B, 4th Battalion of the Florida National Guard comprising members from the triangle section of Mt. Dora, Tavares and Eustis, will be mustered out on Nov. 14 it was announced by Capt. A. O. Jeffers of Eustis following a conference with Brig. Gen. Vivian Collins. The temporary armory in the basement of the Eustis City Hall will be vacated. Hopes for a permanent Na-

School Bells Will Ring Soon

By W. V. BITTING Touchton Drug Co.

Now is the time to have your child's physical condition checked by the doctor. Now while there is still time to have shots or serum, that he may need to ward off colds or disease in the months to come.

Your child will find school more interesting and exciting if he is able to attend every day and take part in all activities. His attendance will depend upon his health, so let your doctor give him an examination at once.

If the doctor prescribes medicine, patronize a drug store who uses drugs of unimpeachable quality.

This is the 223 of a series of Editorial Advertisements appearing in this paper each Monday.

NOT THE WAY

national guard company within the triangle have been dashed by allocation by the last legislature of \$75,000 to build an armory in Leesburg. During the war a strong company was maintained within the triangle area.

Ocala is taking heart from a recent report that Army engineers are about to undertake a new survey to determine traffic potential of the much debated trans-Florida barge canal. This will be the basis for another request to Congress to renew the project. Engineers are particularly interested in determining just how far up the Intra-coastal (Atlantic) waterway on barges can operate

in competition with tankers. No doubt they still are thinking about the torpedoes oil tankers which were sunk by submarines all along the east coast of Florida during the war.

Mrs. J. P. Ridge Fetes Miss Hutchison

Miss Helen Hutchison was honored on Saturday afternoon with a luncheon and bridge party at 1:00 P. M. given by Mrs. James P. Ridge at her home 457 Elliott Avenue.

A miniature bride and groom and white dahlias and tuberoses formed a beautiful centerpiece for the dining room table which was covered with a handsome lace cloth. Green papers in crystal candelabra flanked the centerpiece.

Mrs. H. H. McCaslin assisted Mrs. Ridge in serving the luncheon. As a remembrance of the occasion Miss Hutchison was presented an Indian pottery tea set by the hostess.

At the conclusion of the bridge games Mrs. Elton Moughton was presented a bottle of cologne for high score and Miss Elizabeth Fite was given a pair of earrings for screen papers in crystal candelabra flanked the centerpiece.

Those attending were Miss Hutchison, Miss Elise Hutchison, Miss Angela Meisch, Miss Catherine Wiggins, Miss Jean Whigham, Miss Elizabeth Fite, Miss Martha Wright, Miss Mell Whitney, Mrs. Gene Harrison, Mrs. H. H. McCaslin, Mrs. J. P. Hutchison, Mrs. Elton Moughton and Mrs. Ridge.

Buddy Lake To Be Honored At Local Ballpark Tonight

Sanford Cops One And Drops Two To Daytona Beach Over Weekend

By ARTHUR BECKWITH, JR., Herald Sports Editor

The fans of Sanford and Seminole County will honor the stellar Fed left-fielder, Buddy Lake, in a "Buddy Lake Night" at the Municipal Baseball Park this evening during the game between the St. Augustine Saints and the Sanford aggregation.

Lake has established a new Florida State League record for runs batted in with 135 in 123 games. The old record of 134 is of long standing. In 1939 Smathers of DeLand drove in 184 in 137 games. In 1940, however, a possibility of breaking the League record for the number of base hits for the season, Buddy has blasted 161 base blows, which is only 35 short of a league record set by Ralph Hyler of Sanford in 1940. Hyler's record is 196 knocks in 130 games. To date Lake has played in 123 games.

For the second season's play the Fed outfielder seems to have the League batting crown in the bag. Lake has led the League from the opening day of the season in this department.

Over the weekend the Sanford Celery Feds won one and lost two games with the Daytona Beach Islanders. The Feds traveled to the Ancient City yesterday but Juniper, Pflieger and no prospects for the game.

Jim Schantel went to the hill for the Feds in the first game of a twin bill in Daytona Friday and was pounded by the Sohamen for a total of ten base hits for a 10 to 3 loss. In the second game Jim Payne started on the mound but was relieved by Cal Blanc. The Dodgers took an even better liking to the offering in the second game and banged out 15 hits in seven innings to down the Feds by a 13 to 5 margin.

Sanford returned to the local park on Saturday night and downed the Islanders in an 8 to 7 affair. Jodie Howington aided his own cause in the game by blasting the old rock for two hits in three trips to the plate. Ed Levy and Ogie Glorig also worked Reynolds and Proney for two hits each.

The score by innings:

Sanford	100	100	100
Daytona Beach	001	010	10x

Schantel, Payne and Sharpe; Linskey, Quill and Sosh.

Sanford	203	000	0
Daytona Beach	230	620	x

Payne, Blanc and Zaspel; Hamill and Sosh.

Daytona Beach	102	001	003
Sanford	110	001	30x

Reynolds, Proney and Sosh; Howington and Sharpe.

SPORTS ODDITY

By Associated Press

There are many ways of smuggling racing results out of a track to beat the bookmakers. Track detectives are wise to most of the schemes, just every once in a while someone comes up with a new wrinkle.

During the recent meeting at Bay Meadows in California, track officials noticed an attractive woman changing gloves right after each race. As soon as the first race ended she donned a pair of elbow-length red gloves. After the second event she changed to blue and so on.

She was standing at a point clearly visible from outside the grounds, and the detectives found her confederate in a public telephone booth on the race track, each away with a line open to Las Vegas, Nev.

When picked up the woman had eight pairs of long gloves, all of different colors, in her voluminous hand bag. She admitted that she and her friend hoped to get the results to Las Vegas ahead of the racing wires, and this makes a killing from the bookies.

OFFICIALS NAMED

NEW YORK, Aug. 19, (Special) — Commissioner Justice H. Crowley today announced the names of the following five officials to work All America Football Conference games this fall: Lou Gordon, Chicago, former Illinois all-American and all-pro tackle; Earl (Brenk) Cross, New Philadelphia, Ohio, prominent mid-Western arbiter; Donald R. McMasters, Green Bay, Wis., ex-Wisconsin tackle and second cousin of the late Walter Camp; Orin North, Oak Park, Ill., who won 8 letters in four sports at Wisconsin before injuries ended his playing career; and Hal Stutz, Huntington, W. Va., former DePaul, Ohio Wesleyan and Wooster college 3-sport star.

Haynes Williams, Security Lumber Cop Playoff Tilts

Popular golfers who play the Seminole Country Club course regularly are pictured just before they tee off on the No. 1 fairway recently. Reading from left to right: F. D. Scott, Andrew Carrisaw, John Ivey, George Thurston and W. G. Fleming.

Kinard To Fight In Orlando Ring Tonight

Of interest to local fight fans is the boxing match tonight at the American Legion tonight at 8:00 P. M. in Orlando between Sanford's middleweight prospect Billy Kinard and Harold Hardy, Tampa slugger.

This will be Kinard's fifth bout, the past four being won by Kinard by way of the knock-out route. The boxer is trained and managed by Johnnie Cook.

Herald Whipped By Furnituremen By 7 To 2 Score

Moss Is Victim of 4 Run Rally In Last Frame Of 9-6 Tilt

Haynes & Williams continued their winning ways right into the City Softball playoffs last Friday evening when they pounded out a 7 to 2 decision over The Sanford Herald in the first tilt of the loop playoffs.

In the second tilt of the twin bill, Furnituremen McKey Trulock's Security Lumber Company dined copped the first game of the playoff series by grabbing a 6 to 6 decision over the Most Amusement Company.

In the initial rubbered Red Williams' Herald was asked for a total of seven blows. Standing out in defensive play for the Herald was Harold Stoffer, Newsman outer gardener.

The Herald lineup was Manager Paul Ellis, first baseman Harris, second baseman McMillan, shortstop Stoffer, left fielder Cullum, center fielder Furnituremen Earl Evans, right fielder Alvin Evans, left pitcher Clay Williams, right pitcher Stoffer, and catcher and umpire Stoffer and Red Williams.

The nightcap was Security tag batter Paul Ellis, for a total of seven hits, while Furnituremen Ty Cullum, shortstop, seventh inning, was the only outfielder to have a hit.

Hostilities began in the first frame when Moss blasted over a home run, but Security came right back in their half of the second to knot the count. Moss led the lead again with a pair of markers in their half of the third but single tallies in the fourth and fifth by Security tied up the contest for the second time. Moss took the lead for the third time with a single run in the last half of the sixth, but Security scored seventh inning, four runs, which produced four markers, proved to be the needed margin for victory.

During the contest Ellis, who fed a trio of Lumbermen while Dyess recorded a total of nine.

The Security lineup included Cook, Cullum, McMillan, Lee, Williams, Evans, Cullum, B. B. Williams, Hughes, and Dobson.

SPORTS LAUGH

By Associated Press

Among the potential backfalls on the Chicago Bears' roster is Dan Magrini, a former St. Mary's College speedster. The other day some of Magrini's pals were ribbing him about the competition he'll face 20 yards away.

All you have to do to play right half, they said, is to get out of the yard. Magrini, who is a college player, Stanford's Huie called him out from the sidelines.

Asked what he was going to do about the situation, Magrini replied:

"Guess I'll play left half, because I never became a fool's knee, who all is out for that spot."

Hal Wagner would be the catching choice over Pat Collins who caught 92 games last season.

You would have to lean to the Yanks in pitching too. They had a reliable six man staff of seven last year. Herb Parnes, Phil Rourke, George Parnes, and Phil Rourke.

The Red Sox are getting the with four post players. Mike Harris, Phil Rourke, Phil Rourke, and Phil Rourke. They are about to compete with the Yank hurlers.

But the truth of it is this: you Red Sox pitchers do not have to face the great hurler, the 192 Yank hurler, who has pitched for the great batters in Harry Holman of Detroit, who has pitched for that year with the Sox & Sox Philadelphia Athletics.

INSIDE SPORTS REPORT

By ARTHUR BECKWITH, JR.

Buddy Lake

Since the Sanford fans are honoring Buddy Lake at the Municipal Baseball Park tonight and so few of the people that know Buddy are familiar with his real name, many people suggested that we reveal his true name. His real name is Bernard D. Lake.

Buddy has been a baseball player since just a small boy on the sandlots of Sanford and during his baseball career he has been as high as Harrisburg in the New York-Penn League.

At the ripe old age of 19 Buddy made his debut with the Harrisburg team, and much to everyone's delight, the Sanford prodigy won 15 games for the Pennelvania team which was a none too lively ball club in 1933.

Lake played with Harrisburg for three years and then went to Albany, N. Y. and played there in the summer of 1936.

In the spring of 1937 Buddy developed a sore arm and was forced to return to his home in Sanford in 1938.

Lake's desire to get back in uniform prompted him to play at St. Augustine last year to play with Alvin McKey's Saints, for whom he pitched and won 10 games for a fifth place ball club.

Lake's batting eye was the next factor to change his destiny as a ball player. He had walloped the old agale so well in 1939 that the Saints decided to make him a regular first baseman during the 1940 season.

In 1940 Lake set the Florida State League on fire and paced the league with a blistering batting average of .352 to top the league hitting crown. St. Augustine was a third place ball club in 1940.

His ability to be as loose as a goose, in all situations, is his greatest asset. He is a switch hitter, batting left handed against righthanded pitchers and righthanded against left-handed pitchers. Lake is an especially dangerous batsman when "ducks are on the pond". To substantiate the latter statement, Buddy has now broken a league record for runs batted in. He has at present writing a total of 135 runs batted in.

Buddy is a true work horse for the Sanford team this year, having played in the field, on third base and has plugged a hole in the Fed mound corps when it was needed.

Buddy has enjoyed the honor of leading the league in the hitting department for the whole 1946 season and is likely to top the loop batting crown.

Lake married a Sanford girl and has three fine children. He is a hard worker in every sense of the word. He drives the Sanford Baseball Association bus, and

Baseball's Veterans Refuse To Concede That 1946 Boston Red Sox Better Than Yankees Of '27

By FRANK LUK

AP Newfeatures Sports Editor

NEW YORK (AP)—The high flying Boston Red Sox could possibly have the greatest number of victories ever scored in the American League. Yet baseball veterans refuse to concede that they have more on the trot than the 1927 Yankees who rolled up the league high of 110 conquests.

After the Boston American League entry had won 49 of its first 50 games, almost everyone began comparing them with the great New York Yankee team of '27.

As later events played, the comparison can now be called nothing more than a coincidence for it put the kiss of death on the Beantowners. They lost 11 of their next 13 games, so that by July 4 the accepted mid-way mark in the majors, the Red Sox had won 51 games and lost 22.

They leveled off after that slump winning three of their next four games and eight of their next 10. A total ball season station the Red Sox kings had 47 triumphs and 22 losses.

The Victories

Holding up that same pace in the second half of the 154 game schedule would give millionaire Tom Yawkey's team 108 victories for the season. There is every reason to believe Manager Joe Cronin's men will come close to if not exceed the Yank win total for the brand of ball being played in this first post-war season is inferior to what we had in prewar days.

The '27 Yankees lost but 44

Gator Football Fans Will See New Florida U. Band In New Regalia

GAINESVILLE, Aug. 19, (Special)—University of Florida football fans are going to see the latest in "artorial elegance" in the Gator band this year.

Abandoning the old military style uniform of the big pom pad and the long tailed coat, the Fighting Gator Band has adopted a new uniform for football games.

Approved by University officials, the new uniforms eighty of which are now on order, will be complete with caps in two styles: Royal blue coats with covered white lapels, white belts and two pairs of trousers, one pair white-trimmed with an orange stripe, and the other pair blue-trimmed in orange. The caps are white with blue trim and orange with blue trim.

The uniforms have been adopted in keeping with a "southern subtropical atmosphere" to get away from the strictly military type uniform for football occasions.

The military style uniforms will continue to be used for all formal military occasions and parades where the band will perform.

Football fans will probably get their first glimpse of the new uniform at Homecoming, Oct. 19 when the Gators meet the Miami Hurricanes.

The tongue of a fish has no muscles and therefore it cannot be moved.—Sports Afield.

88th Division Parades Near Morgan Line

Observers Say Yugoslavs Could View American Military Show With Glasses

WASHINGTON, Aug. 20. (AP)—Undersecretary of State Dean Acheson has denounced the Yugoslav attack on an American plane as an outrageous performance. Acheson made the statement as the United States handed Yugoslavia a new and emphatic protest, the third that has been disclosed in two days.

By Associated Press
A Yugoslav government spokesman has defended the shooting down of two American planes, saying Yugoslav pilots' planes did the right thing.

The United States and Britain again have let Marshall Tito know that it is not taking Yugoslav actions in the Balkans lying down. About 10,000 troops of the American 88th Division which with British forces occupy the tempestuous Venezia Giulia area staged a meaningful parade today in Gorizia. The announced purpose was to honor the members of the Second Battalion of the 351st Infantry for its part in the Italian campaign. But observers found these significant overtones.

The parade of military strength came at a time when Anglo-American relations with Yugoslavia were under a new strain from incidents. It was held close enough to the so-called Morgan line so that Yugoslav soldiers could watch it through field glasses. Ranking American and British officers reviewed the troops, who were parading for the first time in the 33 months they have been overseas. Commanding the parade was Col. Genic, commander of the Yugoslav detachment in the occupation zone. Coinciding with this, the British War Office issued a brilliant denunciation by Lieutenant General Sir William Morgan, the Allied commander in the Adriatic, of Yugoslav press dispatches. Morgan said that the Yugoslav newspaper accusations that American troops fired first in a Venezia Giulia border incident last month were entirely false.

In Belgrade, foreign circles are looking forward to a statement by the Yugoslav government on the machine-gunning of an American transport plane which was forced down 11 days ago. There still is no word from the Yugoslav side about the plane which disappeared yesterday on a flight from Austria to Italy.

According to an eye-witness, a large transport—believed to be the American ship—was shot down in flames by two Yugoslav fighters over the Julian Alps yesterday. This is said to have taken place near the Yugoslav summer resort town of Bled where Marshal Tito is understood to be vacationing. The person who saw the attack on the unarmed transport plane cannot not be heard from the ground. He said the fighter planes attacked, and then the transport spiraled down in a column of smoke, disappearing into the mountains. Then came a big column of black smoke, indicating that the plane had broken up.

Fighting Breaks Out Again In Calcutta

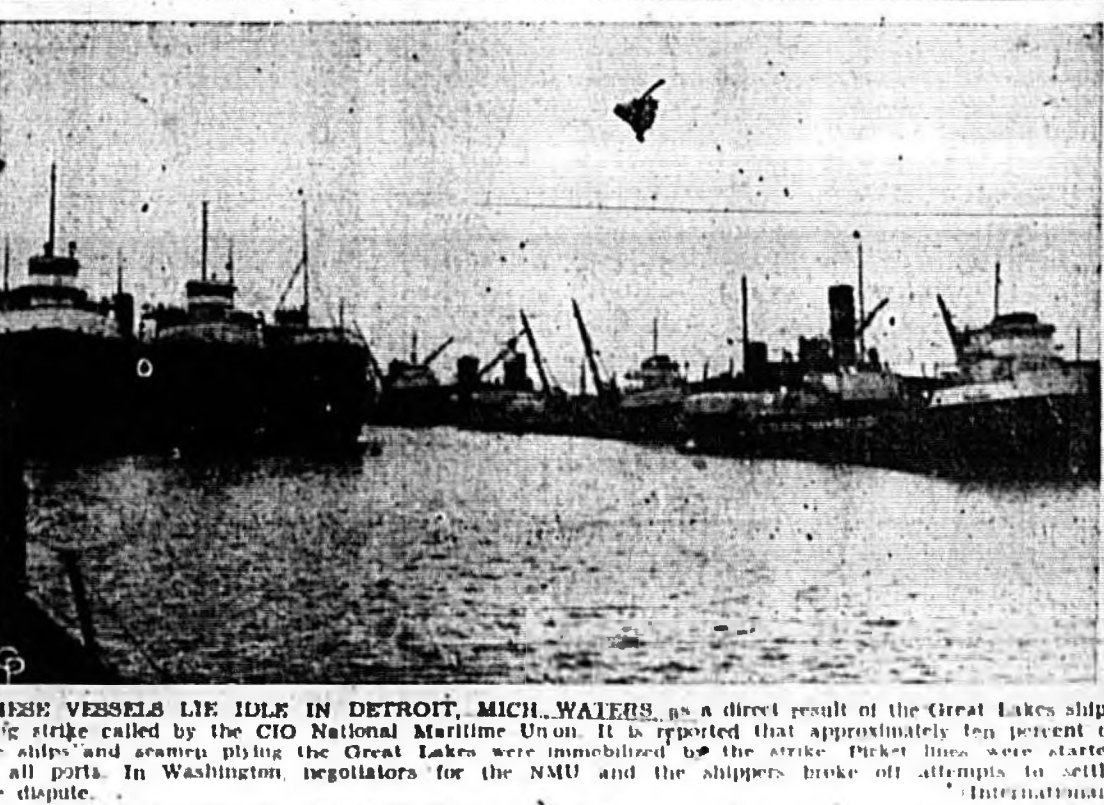

CALCUTTA, Aug. 20. (AP)—The Muslims and the Hindus today were shooting it out in the middle of Calcutta. British dispatches say fighting broke out here today in some sections of India's largest city, although by and large the situation appears to be quieting. Thousands of refugees, however, are not taking any chances of being caught in another general outbreak.

They are jamming the railway stations in an attempt to get out of the city.

Government officials are estimating the toll of the last four days, saying that only about 500 persons were killed. A Bombay newspaper, however, claims that more than 2500 were killed and 5000 injured.

The words of "Annie Laurie" were first printed in 1824 and set to music in 1825.

Great Lake Ships Tied Up By Maritime Strike

THESE VESSELS LIE IDLE IN DETROIT, MICH., WATERS, as a direct result of the Great Lakes shipping strike called by the CIO National Maritime Union. It is reported that approximately ten percent of the ships and seamen plying the Great Lakes were immobilized by the strike. Picket lines were started at all ports. In Washington, negotiators for the NMU and the shippers broke off attempts to settle the dispute.

Nation Awaits Announcement By Decontrol Board

WASHINGTON, Aug. 20. (AP)—The nation is waiting for an important announcement tonight on whether price ceilings will be restored for such major items as meat, milk and butter.

The new Price Decontrol Board will announce its decision about 8:00 P. M. Eastern Daylight Time. At 10:00 P. M. the three board members will explain their decision to the nation in an all-network broadcast.

The board plans to say whether ceilings will be restored on livestock, dairy products, grains, cottonseed, soy beans and hundreds of products derived from those basic commodities.

There is no indication whatsoever as to what the board has decided. OPA Administrator Paul Porter says that any new ceilings which the board decides to re-establish can not become effective until Friday. Porter explains that it will take that much time for business to readjust itself to new controls and for the OPA to work out the specific changes that may be required.

F. H. Stevenson To Publicize Mayfair, Weber Announces

F. H. Stevenson, veteran free lance writer and publicity expert, now has the account of the Mayfair Inn and plans an extensive winter advertising program to lure tourists to this vicinity.

Lind Weber, announced today by Gordon H. Elwell and Associates in New York, Orlando and Miami, has among other accounts in this locality the Orange Memorial Hospital, Orlando Transit Company, the City of Orlando and the Atlantic Coast Line.

Having been affiliated with Office of War Information during the war years, he and Mrs. Stevenson came to Florida in search of some sun and fun.

While in Orlando recently he ran into Gordon Elwell, an old friend of many years ago, who worked with Stevenson for Carl Byoir and Associates in New York and Washington, D. C. Thus a vacation was interrupted and Stevenson and Elwell are working together again.

Before entering the University of Texas, Stevenson worked his way around the world doing free lance writing for the Detroit News. After finishing the school of journalism he was associated with the Wall Street Journal for five years and was editor of the American Aviation Magazine. His work with Byoir as manager of the Washington office was followed by O.W.I. work.

Mr. and Mrs. Stevenson are temporarily making their home in Sanford at the Mayfair Inn. She is a sports and music enthusiast and his hobby is doing free lance aviation writing.

PUPPET PREMIER HANGED

PRAGUE, Czechoslovakia, (AP)—The former puppet premier of Slovakia, Tuka, was hanged today in the Bratislava prison for treason. Tuka was installed as puppet premier by the Nazis. He started his trial in a school chair.

BROCK DISCHARGED

ONE 3/4 Alva E. Brock, 418 Greenwood Avenue, has been honorably discharged from the United States Navy at the Naval Personnel Separation Center in Jacksonville.

Hearing Is Held This Afternoon On St. Johns-Indian River Canal

Seventy-five engineers, civil leaders and prominent representatives of agricultural and shipping interests attended the hearing of the U. S. Board of Army Engineers on the proposed St. Johns-Indian River Canal at the Mayfair Inn this afternoon for leaving a portion of the group in the aviation building room.

The hearing was presided over by Harold A. Smith, District Engineer, who also expressed the opinion of the U. S. Army that the engineering work being done is sound. D. M. Caldwell, president of the Seminole County Chamber of Commerce, read a telegram from Governor Caldwell promising to fund two representatives and bring a project "The State's most important single economic project."

Miss H. E. Hagan, of the Chamber of Commerce, presided over the hearing. The following speakers attended the hearing: Mr. J. L. Hagan, president of the Seminole County Chamber of Commerce, read a telegram from Governor Caldwell promising to fund two representatives and bring a project "The State's most important single economic project."

Mr. Lillian Hough of Jacksonville and Volusia county supervisor, and instructor, gave the devotional and the Rev. E. D. Brown, of Iredal prayer.

Principal Herman W. Moore then welcomed the group to the school. Fred R. Wilson welcomed the 73 teachers present in behalf of the City, and Walter Hayes spoke in behalf of the county school board. He regret was expressed by the speaker that Supt. T. W. Lawton who is confined by illness in a Jacksonville hospital, was unable to be present.

Miss Hand then introduced Dr. Carroll P. Gumbo, professor of the University of Florida who in turn introduced the rest of the staff including Dr. Audrey Packham of Rollins College, elementary school consultant, Sam H. Moore of the State Department of Education and Junior high school consultant, and Dr. Paul Irvine of the Alabama Polytechnic Institute and senior high school consultant.

R. E. Kipp, former Sanford Grammar and Junior High School principal and now supervisor of education of Orange county, spoke on what it meant to teachers. Dr. Irvine spoke on some of the problems that may be attacked during the workshop session. The meeting was the turned over to Manuel Turner of the general extension Division, who took up the registration.

Elementary and secondary teachers met in their respective groups and elected members of a steering and social committee.

Legion Plans Meet On Thursday Evening

Due to small attendance at the American Legion meeting last evening, which was distributed by Post Commander Henry Wolcott to the fact that there was a ball game going on at Municipal Park, no action was taken to elect a vice-commander to replace L. R. Tew, who recently resigned this office because of business reasons.

It was proposed that a special meeting be held for this purpose next Thursday evening, at which time a vote on new members will be taken.

Friday night at 8:00 o'clock at the Legion Hut there will be a meeting of the 60 and 6 Society which already holds a charter. Officers will be elected. Those who have been members of the American Legion for more than one year are eligible to join.

BROCK DISCHARGED

Three Golden Spider Female Monkeys Placed On Island At Municipal Zoo

Three golden spider female monkeys of South American origin arrived from New York yesterday afternoon and were placed in the east wing and cage at Municipal Zoo.

As James Moughton, the caretaker explained, the new arrivals were housed separately due to the fact that established monkeys do not take kindly to newcomers and would attempt to drown them. There is one exception, however, to this inhospitable tendency on the part of the monkeys and that is the kindly attitude shown to new monkeys by Preacher, ferna's spider monkey, who was so named by spectators due to her tendency to walk about with hands upraised. Accordingly, Preacher has been placed in the cage as chaperone to the new comers until such time as they are socially acceptable to the other monkeys who spend a lot of time screaming insults at them.

The rose monkeys came from the same farm in New York which supplied the late Sisy-Q, who was described by Mr. Moughton as the fiercest and most intelligent monkey ever put on the island. Sisy-Q was killed by too much kindness on the part of spectators who fed her a surplus of cornstarch candy. She also swallowed broken glass from a mirror that someone threw on the island. There are now 12 monkeys on the island.

Egypt Wants Paris Parley To Grant Frontier Changes

Driver's Permits For 1947 Will Go On Sale Sept. 3

Ware Says Licenses For 1946 Must Be Renewed By Oct. 1

Drivers' licenses for 1947 will go on sale at 9:00 A. M. on Tuesday, Sept. 3. It was announced today by County Judge R. W. Ware. The permits will cost the same, \$1 for operators and \$2 for chauffeurs' licenses. During the period of sale up to Oct. 1, which period includes the day after tomorrow, licenses may be secured on week days or Saturday until noon. The 1946 licenses may be renewed either by the owner or by any member of the family. Week day hours will be 9:00 A. M. until noon and 1:00 P. M. to 5:00 P. M. for applications. People in the State of Florida must renew their licenses by Oct. 1. Ware said that the county will issue a notice to the owners of licenses by mail. It is about from the date of September 1 and they return post to Jan. 1, applicant can secure the license by mail. It is an affidavit that the applicant is a person of good character and is of legal age and is not under any legal disability. The applicant must be a resident of the county and must be at least 16 years of age. The applicant must be a resident of the county and must be at least 16 years of age. The applicant must be a resident of the county and must be at least 16 years of age.

Morgan Relieved Of Duty As UNRRA Official

LONDON, Aug. 20. (AP)—It was announced today that General Sir William Morgan, who had been in charge of the United Nations Relief and Rehabilitation Administration (UNRRA) in the Balkans, had been relieved of his duties.

General Morgan had been in charge of the United Nations Relief and Rehabilitation Administration (UNRRA) in the Balkans, which he created a sensation last winter by stating that there was an organized, well-financed exodus of Jews from Europe. He was accused at that time of being anti-Semitic.

Half of Russia's Wheat Is Harvested

MOSCOW, Aug. 20. (AP)—Half of the Soviet Union's grain harvest has been harvested and the nation is looking forward to an end to bread rationing in the autumn. The Moscow press gave no figure on the yield, but previous reports have indicated a fair average, with bumper crops in some areas.

The fastest pace in the harvest was being set in the Ukraine, Kuban, Crimea and Don areas—Europe's most important wheat growing regions where four-fifths of the grain crops already have been reaped.

Projectiles Racing Over French Town

PARIS, Aug. 20. (AP)—Remnants of a town in Burgundy, France today declared that they have been seeing what they described as enormous long projectiles racing across the sky every night for the past week. The projectiles were said to trail orange-red lights and to emit piercing whistles.

Newspapers in Paris are speculating whether the missiles are similar to those that have been seen over Sweden in recent weeks, or whether they are simply meteors. The town over which the objects have been observed is called Cailillon Sur Seine, and lies northwest of Dijon.
