

'FRIENDSHIP' MAKES WALES

McClelland Posts Lead in Sheriff's Race

Count Results Give Winner Majority Of 4 Votes Over C. M. Hand, The Incumbent

Seven Precincts Are Recanvassed

McClelland Gains In Every Place With A Single Exception

With the recount completed even disputed precincts, McClelland was formally notified today as the Democratic nominee for sheriff in C. M. Hand, incumbent. McClelland's majority was 44 votes, 34 more than first tabulation showed.

Final count was first and choice votes tabulated as follows:

McClelland	1,262
Hand	1,306

Two totals show that by the count Hand lost one vote and McClelland gained 33, their previous standings being Hand, 1,265; McClelland, 1,273.

The tabulation by precinct with first and second choice votes counted as follows:

McClelland	1,262
Hand	1,306

The recount was made in compliance with a petition filed last week by Sheriff Hand, who requested a court order directing that the ballot boxes be rechecked because of alleged irregularities. A court in six precincts was asked to amend the petition, but the court in six precincts refused to do so. The precinct number three was re-tabulated again. The other precincts in which a recount was made included number one of Sanford, Paola, Ovidio, Chuluota, Abriella and Geneva.

The tabulation of returns was made this morning in the court house, the clerks and inspectors of the several precincts conducting the canvass in compliance with the court's order. The votes of number one were recanvassed on Saturday afternoon, the results showing McClelland five more votes than he received on the first tabulation.

Smith's Manager Leaves For Texas

NEW YORK, June 18. (INS)—George Van Namee, manager of Governor Smith's convention campaign, entrained with a party of friends for Houston on today. They will arrive on the scene of the Democratic National Convention Wednesday afternoon six days before the convention opens. Van Namee was accompanied by Howard Cullman, member of the port authority and George C. Norton, a friend of Governor Smith. At Buffalo, they will be joined by Norman E. Mack, Democratic national committeeman from New York and Mrs. Mack. "Gov. Smith will have 650 delegates instructed for him at the start of the convention and we are confident of his nomination on an early ballot," said Van Namee, who declined to predict just what ballot. "There is no disposition on the part of Smith backers to prevent any state from presenting its claims," Van Namee continued.

WEEK-END RAINS CALL FORTH NEW FLOOD WARNINGS

Eight Lives Are Lost In Oklahoma Saturday As Tornado Destroys Large Portion Of Towns In Path Of Twister

KANSAS CITY, Mo., June 18.—(INS)—Flood warnings were issued along the Oklahoma and Kansas River valleys today following week-end tornadoes and rains which caused property damage of \$2,000,000.

Eight lives were lost in Oklahoma in a tornado Saturday night which destroyed large portions of the towns of Blair and Hendrick. Several tornadoes swept over Kansas Saturday night and early Sunday but no lives were lost. Several persons were injured by twisters near Hutchinson and Emporia.

POPULAR BLUFF, Mo., June 18.—(INS)—The work of caring for 2,000 homeless families became paramount today as waters of the raging St. Francis River began to recede after two major breaks through its protecting levees.

MEMPHIS, Tenn., June 18.—(INS)—With Missouri and Arkansas floods beginning to equal the 1927 Mississippi disaster, Major D. H. Connolly, U. S. engineer in charge of the district, today ordered three engineers into Arkansas to direct the work of preventing more levee breaks and give such relief as possible to the flooded areas.

Two dozen Sanford merchants and business institutions today were pushing their plans for Sanford's greatest Dollar Day, scheduled for Wednesday, rapidly to completion. From grocery stores to theaters, all are preparing for the biggest single day of business Sanford as a whole has ever seen.

Local citizens will have their first glimpse of the coming Dollar Day specials in advertisements appearing in The Herald this afternoon. In addition to the attractions listed in today's paper more than a dozen other merchants will have attractive offerings tomorrow.

Enemy Of Pope Says Catholic Democrats Have Surprise In Store At Houston Texas

Declares She Is Very Thankful Upon Hearing Report That Her Daughter, Amelia Earhart, Has Landed Safely

Large Crowd Is Disappointed When Aviators Stick To Ship

ALBANY, N. Y., June 18.—(INS)—The biggest gathering of the Ku Klux Klan ever held in Albany County listened yesterday to United States Senator Thomas Hefflin of Alabama continue his attacks on Governor Smith and Roman Catholicism almost within sight of the towers of the State Capitol.

It was a colorful crowd of 10,000 that gathered in a natural amphitheatre just southwest of the Albany city line to hear the traditional enemy of New York's Governor assail his candidate's possibility. Pointed heads and flowing robes of the KKK, the women of the organization, clad in old uniforms of "pioneers," "rangers" and various other groups and the more familiar gray of the state troopers, cut a force by direct orders of Governor Smith to see that Senator Hefflin was not heckled or interrupted.

The troops were under the personal command of Major John A. Warner, the governor's son-in-law, who shook hands with Senator Hefflin when he arrived on the scene for a two-hour address.

The Senator predicted that the Catholic Democrats might have a surprise in store for them at the Houston convention, even though the nomination of Governor Smith for the presidency is freely prophesied now.

"In 1921 in New York City," he said, "they split the convention wide open and killed the Democratic Party. They're going to get a taste this year of the same sort of medicine." Senator Hefflin objected to Governor Smith as a Democratic candidate on the following grounds, in addition to his Roman Catholicism:

The Governor's connection with Tammany Hall, "the most corrupt political organization that ever had its existence in the world." The fact that the Governor is "not only a wet but a soaking wet." The Governor's view of immigration—"restricted immigration is good for America; open immigration is good for the Catholic Church."

The fear that there might be war with Mexico if Smith were elected, because of the religious difficulties there. The Governor's lack of understanding of national questions, "I want a man for president," Hefflin said, "who is familiar with national questions and who is a national figure himself. With all that, considering the fruits of the Roman Catholic machine, I do not want a Roman Catholic to be president of the United States now."

AMHERST, Mass., June 18.—(INS)—John Coolidge, son of the President, was the only one of the 127 Seniors to graduate today from Amherst College who did not have a relative or a new friend to see him receive his sheepskin.

Do You Buy Advertised Goods?

Of course you do; everybody does. Just run over in your mind the various articles that you have purchased in the last week or the last month. How about foods? Your breakfast fruits, cereals and bacon are all advertised.

In the home. On the floor are rugs and rugs and linoleum—the better wearing kinds are extensively advertised. What about the kitchen? Aluminum ware, gas ranges, hot water heaters, dish and clothes washers, cooking utensils of all kinds—practically everything you use is advertised.

Advertising is one form of insurance. It gives you a feeling of perfect confidence and safety when you ask for an advertised brand, for you know that you will get the quality and service you expect. The name is the guarantee.

The more you read advertising the more you will know about human progress. You will become well posted in almost every line of human endeavor and a canny judge of values. Reading advertisements is a fine habit. Cultivate it.

Read the advertisements and buy advertised goods. They are the safest investments.

With Tammany In Control

We realize that we are placing ourselves in the position of the dog barking at the moon by saying anything further against the presidential aspirations of Al Smith.

But Smith is not the party's nominee yet. There is a slight chance that a resolute minority of Southern delegates can still keep those delegates from states which invariably vote Republican.

The following editorial from the conservative New York Herald Tribune, a Republican newspaper, but one which is honest as well as courageous, explains one reason why we think Al Smith would not make a suitable president of the United States:

The various graft investigations now under way may result, as did the milk graft investigation, in the punishment of a few minor offenders.

The charter of the City of New York provides that an official who violates its provisions is guilty of only a misdemeanor. A public officer may deliberately enrich himself through participation in the profits of graft.

Often outsiders, who hold no office, secure valuable contracts through their friendship with city officials. Naturally, they "split" the profits, but there is no record of the division, and consequently a district attorney is powerless to take action.

The sort of thieving which has been in operation in a number of city departments would have been detected within a few months by any well organized business concern. But business concerns are not run in the interest of justice.

A Broken Leg

There is an old saying that "Blood will tell," but the adage doesn't say just what it is that blood tells. It also doesn't say whether blood tells the truth or falsehoods.

We believe that in animals, blood tells more than it does in people. We have seen many good mongrels, mongrels that are faithful to the death, mongrels that are loved by boys as no other thing is loved.

So it is with horses. Blooded horses are nervous. They chafe at the bit. They stamp and rear, shy ten feet at a little piece of paper, and fall over backwards if checked up suddenly.

We were reading yesterday about Scapa Flow, famous son of the even more famous Man O' War. Scapa Flow fell in the Brooklyn Handicap recently and broke his leg. We wonder what spirit flamed in his game young heart, as he leaped up riderless, with broken leg, and hobbled off as fast as he could, straight for the wire.

SANFORD FORUM HOORAY FOR AL SMITH!

Editor Sanford Herald: In your Thursday edition of the Herald your editorial page was par-excellent, except the article: "An Epidemic of Graft," that went too far in showing how you stand politically.

You refer to Herbert Hoover as a "nigger lover" on the one hand and then you come back at Al Smith on the other trying to show that you are fair to both political parties.

Up to this article I have enjoyed your editorials considerable and was an Anti-Smith until I saw plainly that criticism hurled at him is so lopsided and which tends to come back to the environment and state and county of the editorial writer, guaranteeing his election if nominated.

Look upon our big-little city of Sanford, Florida, with over four million dollars too much to carry to Judgment Day. Can you say there was none or is none or has been any graft by the city officials of this city?

On the other side, can you honestly blame Al Smith for graft that is or has been happening in New York City? If you do, you also blame Governor Martin for the graft, misapplications and prolonged corruption in not only our city of Sanford, but also in numerous other Florida Towns.

If you say Al Smith's character is beset, can you say Gov. Martin's is not, or their political situation is contrast to one another are not? Hon. John W.

Martin was defeated by Hon. Park Trammell. You may righteously or wrongfully blame it on Hathaway for doubling up two from Duval County to run Florida's select governing positions.

I must say that I am a protestant, my ancestors were protestant, and I hope my children will continue to be so, but I will give Al Smith my full-fledged support for his election as our President if he is nominated, because I have now altho a Southerner I am that it takes a mono-syllable trio like Messrs. Dean, Berg and Jones to elect a mono-syllable Smith to the Highest Office in the land, and you have my support and continue on as you have been doing.

Sincerely, CHARLES J. FARNSWORTH Gen. Del.

Tallahassee Morning State last week ran a picture of "Miss Missouri" who will be in the bathing beauty contest at Galveston. We understand now why Missouri is called the "show me" state.—Clermont Press.

THE CLEARING HOUSE ASSURED? TAMPA TRIBUNE

Affiliations of shipping agencies independent and co-operative, with the clearing house have reached the point where the Committee of Fifty, through its campaign director, feels authorized to assure all growers, in a statement published in yesterday's Tribune, that they will have at their service in the organization, adequate packing and shipping facilities to handle 80 percent of the citrus crop of the state.

Additions to the shipper roster of the clearing house are announced daily. One shipper, quoted yesterday, said his company had become convinced after mature consideration, that the clearing house is "an attempt to accomplish something for the citrus industry" and that the clearing house "set up" promises for Florida a greater degree of prosperity.

We take it from Mr. Corey's statement that the Committee of Fifty now considers the clearing house assured, whether or not the remaining shippers come in to the organization. Still we must continue to express the hope that the movement may become unanimous or practically so, with all the shippers of any standing or influence in the industry actively associated in its operation and sharing its benefits.

We shall note a misunderstanding in some quarters as to the real purposes of the clearing house. It is not a selling agency, it will have no packing houses, but it will collect and distribute information, each shipper giving each day

his shipments, where destined, prices asked, sales made at what price; and it will standardize packing, regulate shipments and conduct systematic advertising of the Florida product.

Daily the clearing house will receive information as to the condition of every market. It may, if it seems best, forbid shipments to markets that are overloaded. It could, under the law, set a minimum price of grades, sizes and varieties. Thus it would accomplish the end mentioned by Mr. Morton in his address Tuesday before the Tampa Rotary Club—it would take Florida citrus out of competition with Florida citrus and put it into

competition with its real and real competitors.

If the clearing house steps cutting, steps-overcoming, particular market, schedules, amounts to avoid glutting of markets, improves the standardization of the pack, provides a business system of sales and shipments, creates an adequate fund for national advertising, it will more than justify its existence, and formulation. These things, we believe, it will do.

The clearing house offers only legal and practical solution of the problem, which is, after all, merely that of marketing a new increasing volume of fruit at a return; and, as J. A. Griffin says, this is "the simplest big job undertaken in Florida."

"Customer Ownership of Electrical Industry Safeguards Public Interests" Says Minneapolis Journal

In more than one sense, the electric light and power industry is a public utility.

In point of fact, this industry is now publicly owned through the investments of some three million share holders, insurance companies, savings banks and public institutions in its securities.

Only because of the intricate soundness of electric light and power companies which the American principle of individual initiative has built, has this support been made possible.

Given the incentive which individual enterprise always provides, the power companies have earned their services to more than seven million homes, and affected economies in the production and transmission of service, which in turn have made for enduring financial structures and substantial reductions in rates to the public.

Only as this principle of individual initiative is safeguarded in the future, can the public be assured that its interests, individually and collectively, in the ever-increasing solidity and usefulness of the electric light and power companies will be adequately protected.

"Power consolidation is on the cards. It is an economic necessity. It is already being done by a handful of men. The ownership of power is being widely distributed and the distribution given an impetus. When and if greater power consolidation is ultimately effected, it will be owned by millions and will be operated in the public interest by private management."—Minneapolis Journal.

MISS ELOISE BRADY BECOMES BRIDE OF GLENN WIMBISH AT HIGH NOON

Elegant in its simplicity was the wedding of Miss Eloise Brady and Mr. Glenn Wimbish, which was solemnized, Monday at high noon, at the home of the bride's mother on Park Avenue. The impressive ceremony was performed by Rev. Frank Marier, pastor of the First Christian Church, in the presence of relatives and a few intimate friends.

The lovely home was converted into a "bower of beauty" with quantities of cut flowers and ferns. In the spacious living room where the solemn vows were spoken, tall colonial baskets, filled with pink cut flowers and asparagus ferns were placed at intervals. The mantel was banked with bowls of pink Radiance roses. The archway leading to the sun parlor, where an improvised altar had been placed, was outlined with graceful sprays of asparagus ferns studded with myriads of pink Radiance roses. Grouped at either side of the arch were potted palms forming a rich setting for the bridal party.

The sun porch and dining room were also beautifully decorated with exquisite roses and ferns together with graceful potted plants and palms.

At the appointed hour the bride and groom, in strains of the "Bridal Chorus" from Lohengrin, played by Mrs. Francis E. Bolz. During the ceremony, "To A Wild Rose," by Mac Dowell, was softly rendered.

The bride was radiantly lovely in her stunning traveling costume of rose beige georgette. The frock was fashioned with box pleats, and finished at the cuffs with acadian pleatings. Her coat was also of rose beige, its only trimmings being large tucks at the hem line. Her hat was of beige silk with quilted motifs, and ornamented with an amber brilliant pin. Of beige too were the shoes and other accessories. Adding a

pretty touch of color to the pretty ensemble was the corsage of pink sweetheart roses and lilies of the valley.

Preceding the bride was the adorable little ring bearer, Louise Anderson Wells, young daughter of Mr. and Mrs. James L. Wells, who looked like a flower in her dainty frock of flesh organdie, the skirt made entirely of scalloped ruffles. A shower of pink ribbons and pink and blue rose buds hung from the shoulder. She carried the ring in the heart of a perfect pink rose bud.

The bride's mother, Mrs. John Monroe Brady, was attired in a creation of black figured georgette with trimming of black chiffon.

Immediately following the ceremony the young couple left in their car for Winston Salem, N. C. where they will spend a few days as the guests of Mr. Wimbish's sister, Mrs. Hugh Carter Pollard, before going to New York. After July first they will be at home to their friends at 1113 Park Avenue.

Mrs. Wimbish is the young daughter of Mrs. John Monroe Brady and the late J. M. Brady, formerly of Salisbury, N. C. She has made Sanford her home for the past three years and is a member of the faculty of the Seminoles High School. She was graduated from Salisbury High School and also from Queen's College at Charlotte, N. C., and is a member of several honorary societies.

The groom is the son of Capt. and Mrs. John Wimbish of Orlando, and a brother of Mrs. Hawkins Connelly of this city. He had made Sanford his home for several years, coming here from Winston-Salem, N. C. He was graduated from Winston-Salem High School and also the Eastman Business College at Poughkeepsie, N. Y. He served in the World War and is now engaged in the real estate and insurance business.

HERBERT CLARK HOOVER

CHARLES P. CURTIS

The Kansas City convention last week nominated Senator Curtis, above on the first ballot to serve as vice-president with Herbert Hoover on the Republican ticket. Senator Curtis has been considered as a likely dark horse candidate for the presidential honor, but was forced into second place by the landslide for Hoover. Curtis is reported to have a strong following in the middle west.

At left, Secretary of Commerce Hoover, was nominated by the Republican party at the Kansas City convention last week for the presidency of the United States. His nomination had been forecasted for weeks, and when Secretary Mellon and ex-senator Butler influenced the Pennsylvania and Massachusetts delegations in behalf of Hoover, his nomination was achieved on the first ballot.

Mrs. Bowers Honored With Bridge Party

Mrs. Roy C. Bowers who left Saturday for Charleston, West Va., was the guest of honor Friday afternoon at a lovely bridge party given by her sister, Mrs. John Walker, McGlamery at her home in Orlando.

Adorning the rooms where the card tables had been arranged for the games were a variety of pretty Spring flowers in baskets and bowls.

When the games had been concluded the first prize, a lavender flower bowl, was awarded Mrs. Floyd Palmer. The cut prize, a novel flower holder, was won by Mrs. Edward Higgins. Mrs. Bowers was presented a mesh bag as a gift from her hostess.

Late in the afternoon the bridge accessories were removed and refreshments consisting of a dainty ice course was served by the hostess.

The guests were Mrs. R. R. Deas, Mrs. Edward Higgins, Mrs. Floyd Palmer, Mrs. Ernest Housholder, Mrs. Robert J. Holly, Mrs. J. C. Benson of Sanford and Mrs. French of Orlando.

'Red Kimono' Stars Mrs. Wallace Reid In Milane Picture

The one outstanding sensation of the past dozen years is unquestionably Mrs. Wallace Reid's recent release "The Red Kimono" which will be presented Monday at the Milane Theatre. In the light of modern conditions it is only a rare, but justifiable exposition of facts, which have grown so amazingly in its toly upon the youth of America, and especially upon womanhood as to have attracted world wide attention.

The drama of the underworld upon the beauty, and frequently innocent of girlhood has grown so appallingly as to attract the attention of the League of Nations and many a nation squirms under revelations that have been brought to light, and successfully introduced at their last convention a modification of that country's indictment.

Fortunately philanthropy, which could not give of its means more boldly, conducted an independent and exhaustive search, which was suppressed in a very large measure by the League of Nations, shall be known to the world.

This is the subject Mrs. Wallace Reid has brought into the sharp light of reality as the film unrolls its daring story; there is no misunderstanding of its intent, its unusual and intimate attention to details. Though it makes one rasp, it takes hold of the heart, the mind and holds it to the end. It is a film that will be remembered for many days.

John Cherry of Atlanta, Ga. is visiting here with his aunt, Mrs. Raymond Ball.

Miss Cleo Thayer left Sunday for Waycross, Ga. where she will attend the wedding of Miss Cecile Jones and Mr. Chrey Suttive. She will also visit friends at Albany, Ga. before returning home.

Personals

Miss Thelma Wells of Arcadia is visiting here as the guest of Mrs. Clyde Byrd.

Mr. and Mrs. Braxton L. Perkins and family spent the day Sunday at Daytona Beach.

Mr. and Mrs. R. R. Deas, Richard Deas and Mrs. Harry Ward spent the day Sunday at Daytona Beach.

Miss Ruth Sample of Bartow is visiting in the city as the guest of Miss Sara Warren Easterby.

Miss Camilla Deas is spending a short time at Daytona Beach as the guest of Miss Alice De Coursey.

Mr. and Mrs. J. E. Rowland returned home Sunday from Vidette, Ga. where they have been spending the past fortnight.

James L. Wells returned home Friday from Charleston, S. C. where he attended the funeral of J. C. Murchison.

Dr. Ralph Stevens, who is attending the National Guard camp at Camp Johnson spent the weekend in Sanford.

Mr. and Mrs. A. B. Pierce of West Palm Beach spent the day here Saturday as the guests of Mr. and Mrs. John Leonard.

Miss Sara Warren Easterby and house guest, Miss Ruth Sample of Bartow, spent Sunday very pleasantly at Daytona Beach.

Joe Hugh Reese of West Palm Beach spent Saturday in Sanford on business and while here was the guest of Mr. and Mrs. John Leonard.

Mr. and Mrs. W. C. Du Coursey and family are spending the summer at Daytona Beach, having rented a cottage there for the season.

Mrs. Wallace Wright left Sunday for Hot Springs, Ark. where she will join her mother, Mrs. Roberta Howard and sister, Mrs. Purvis of Augusta, Ga.

Mr. and Mrs. A. B. Peterson and two young sons Bobbie and Tommie returned home Friday from Pablo Beach where they have been spending several weeks.

Mr. and Mrs. Roy C. Bower and two sons, Harry and Robert left Saturday for Charleston, West Va. where they will spend several weeks.

Mr. and Mrs. E. M. Walker left Sunday for Quitman, Ga. where they were called by the critical illness of Mrs. Walker's mother, Mrs. I. F. Walker.

Mrs. Roland L. Dean returned home Monday afternoon from Atlanta, Ga. where she spent the week-end as the guest of Capt. and Mrs. A. G. Wing. She was accompanied home by her mother, Mrs. John Oliver, who is recuperating from a recent illness.

Miss Earhart Earns Honor Of Being 1st Woman To Span Sea

(Continued From Page One)

"We made it," were the jubilant words of Miss Earhart. Pilot Stultz and mechanic Gordon grinned their delight over the successful termination of the long and hazardous voyage.

When the police boats ranged alongside of the Friendship, Miss Earhart and her two companions said they did not intend to go ashore. They asked that gasoline be brought to the plane as the fuel supply had run dangerously low. Miss Earhart said they had decided to continue to Southampton as soon as the machine was refueled.

Stultz had his machine under perfect control. After flying over this town the plane passed over the inlet and flew into the direction of the Estuary. The Friendship circled the Estuary at slightly decreasing altitude and then dropped lightly upon the surface of the water.

In the belief that the fliers would come ashore a large crowd gathered on the water side to greet them. Soon a boat came back from the Friendship and reported that the American fliers refused to leave their "ship."

They said they would hop off again for Southampton as soon as they obtained a fresh supply of petrol," announced the boatman. This news was a big disappointment to the townspeople but they fingered along the waterfront hoping that the fliers would change their minds.

Immediately upon the return of the boat a wild search was started throughout the town for gasoline suitable for airplane use. Since "aviation gas" is practically unknown here it was not certain whether a supply could be obtained in the Lanely district.

Meanwhile the Friendship, with the fliers still on board, was riding at anchor two miles down the inlet from this town. It had been brought in shore to a point about 350 yards from land. Low tide prevented it from approaching any closer.

Hoover Will Not Resign Cabinet Says Secretary

(Continued From Page One)

Secretary of Commerce Hoover was expected here tomorrow and will talk the situation over with Curtis.

Hoover's office announced that a telegram of congratulation had been received from Senator Goff, of West Virginia, one of the candidates for the nomination. Goff pledged himself and his backers to "go on the firing line for Hoover and Curtis."

The Curtis conference will be of considerable significance as it is expected the farm situation will be discussed Hoover already had definite ideas on the agricultural situation which he believes will appeal not only to the McNary-Haugenites of the Middle West, but to those elements which oppose the equalization fee principle.

President Finds Fishing Poor On First Attempts

(Continued From Page One)

Since the President's first day, he made his initial cast, using a leader with three "wet flies," a three pound German Brown Trout immediately struck. For five or six minutes the fish gave battle, then subsided. Starling was about ready to let it take water when suddenly the line whirled over his reel and the fight was on again. Finally netting his catch he found that just as he was about to land the big one—a pound and a half Rainbow Trout had struck at one of the other flies. Two fish were on his line.

Today the President plans to make his deferred visit to the temporary executive offices in Superior Work has accumulated since last Wednesday and the air mail, abetted by the army fly corps has laid down regularly here. Mr. Coolidge was to have come in Saturday, but rainy weather here and fair skies over Cedar Island Lodge prompted him to stay there and fish instead.

CARDINALS SET DIZZY PACE IN NATIONAL LOOP

Sound City Team Seems To Have Struck Its Stride; Yankees Are Way Ahead

NEW YORK, June 18.—(INS)—It looks like 1927 all over again. The St. Louis Cardinals and the New York Yankees in the world series. Sporting an eight game winning streak and a lead of three games over Cincinnati, the Cardinals have left their pitchers in shape and are hitting the ball on the nose. The Yankees, although held to an even break in Chicago and St. Louis, increased their lead over the Athletics from seven to eight and a half games during the western trip and are nearly 200 percentage points ahead of their last year's mark at this stage of the race.

The Yanks won nine and lost four in the west. Whether the Mackmen still have a chance to stop them will be determined tomorrow when the two teams clash in a doubleheader. The A's with six wins in their last eight games, are all set for a killing.

With Lucas and Luque out, Cincinnati's overworked pitching staff has collapsed. The tip-off on the Reds was furnished when they lost three straight to the Phillies. The Phils all hopped up, have copied five of their last six starts. The Boston Braves, who sputtered for a time under Rogers Hornsby's management, have dropped eight games in a row. Washington has won six out of eight. The other teams in both leagues are barging along at their usual pace.

Warmer weather has resulted in better pitching. Dazzy Vance Brooklyn strike-out king, whiffed 15 men and yielded only three hits in whitewashing the Cubs yesterday, 4 to 0. Waite Hoyt hung up his ninth victory in 10 starts, holding the Browns to three hits and winning 6 to 2, with the aid of Ruth's 25th homer and Gehrig's 16th.

The third three-hit performance of the day was turned in by Sad Samuel Jones of the Senators. He blanked Detroit, 12 to 0, and hit a home run into the bargain. The Nats nipped four Tiger hurlers for 18 hits.

Burleigh Grimes, once a Giant and now a Pirate, also pitched fine ball. He limited New York to five hits and no runs, while the Bucs rolled up six tallies.

The Cardinals scored five runs off Jackie May in the first inning and trimmed the Reds 6 to 2 in a game curtailed to five innings by rain.

The Athletics captured a ding-dong tilt with Cleveland, 8 to 7, despite a five run rally by the Indians in the eighth.

Sanford Business Men Push Plans For Big Dollar Day

(Continued From Page One) town customers with special inducements on Dollar Day. Forst's the newest shoe store in Sanford, is also planning unusual offerings. Mi-Lady's Shoppe will have a wide selection of offerings for one dollar.

Hill Hardware Company and Bell Hardware Company are also making arrangements to offering something attractive to shoppers Wednesday. The Hill Hardware Company is planning a special window display.

On Sanford Avenue, Kanner's Department Store and Dave's Department Store have announced special Dollar Day bargains in both clothing, hardware and general merchandise.

Myrtle's Doughnut Shop will offer special inducements and also serve meals for the hungry shopper from out-of-town. The Great Atlantic and Pacific Tea Company's three stores in Sanford will announce special grocery offerings tomorrow. The Arcade Delicatessen will also have bakery delicacies for sale. Piggly-Wiggly Stores will also offer specials.

The Sanford Atlantic National Bank is planning to carry its savings campaign into Dollar Day with the new book-savings banks. It is offering those starting accounts for one dollar or more.

WEST PALM BEACH—"Sunshine Special" is new paper being published by local chapter of Izaak Walton League.

Quarrel Over Girl Leads To Slaying Of Markham Negro

George Jones, negro, is dead and Charlie Davis, another negro, is in the county jail facing a charge of murder as the result of a fatal shooting early Sunday morning in a lumber camp near Markham.

Jones is said to have been slain during a quarrel with Davis, who was accused by Jones with having paid too much attention to Jones' girl. The dead negro is said by local authorities to have become incensed because Davis purchased a pair of silk stockings for Jones' sweetheart.

All feeling had existed between the two men for several weeks, the authorities learned. Under the influence of liquor, Davis, who is described as a "bad negro," is said to have gone to Jones' home in the early morning hours on Sunday. After a short argument, he is said to have fired upon Jones with a shotgun, the lead penetrating the right chest.

Dr. C. P. Vincent, city physician, made an examination of the negro's body. Deputies Chris Stephenson and D. E. Booth arrested Davis about 7:30 o'clock Sunday morning and lodged him in the county jail to await a preliminary hearing on Tuesday. No coroner's inquest is to be held, it was stated today.

ST. PETERSBURG—Fourth International Advertising Association recently held its 4th annual convention here.

American Athletes Have Better Olympic Material Now Than They Had In 1924

By DAVIS J. WALSH
NEW YORK, June 18.—(INS)—Dr. Otto Peltzer is likely to be only a minor factor in the Olympic Games at Amsterdam. Charley Borah probably would be permitted to run in the final tryouts at Boston next month, if he recovered from his illness in the meantime. Paavo Nurmi is in excellent form again and Edwin Wide is a better runner today than he was in the 1924 Olympics. The American Olympic team of 1928 is potentially 10 per cent stronger than the teams of 1920 and 1924, and, unfortunately, so is the foreign opposition.

Peltzer, according to information received by Robertson from abroad has injured himself so badly in training that he plans to start in neither the 800 or 1,500 metre races, in both of which he holds the accepted world records. The Herr Doktor, it seems will have less than four weeks training for the international games, when he recovers and has decided to enter only the 400 meter hurdle race. His projected withdrawal from the middle distances considerably lightens the load under which Lloyd Hahn, who ran 1:52-1/5 to an American 800 metre record on Saturday, will labor at Amsterdam.

Other pertinent observations by the noted trainer were as follows: Leland Locke, judged by his curmudgeon team. Frank Hussey rent form, will be hard pressed to seem reasonably sure of breaking into the Spring qualifications with the Californians and Aubrey Bracey and George Simpson. There is little to choose between the latter pair, although Bracey bent the other twice in the N. C. A. A. sprints. Chet Bowman, held back by injuries, will not make the team, although he is the current champion. Jackson Scholz was

overtrained but is coming back nicely. The defeat of Leo Lermond at 5,000 metres by Macaulay Smith will do the former more good than harm.

"Lermond has been winning his races too easily" Robertson declared. "Now he knows there is more to distance running than mere strength. Smith's time was the best ever made by an American, although there was a trick record once credited to a man by the name of Hunter. It is believed now that he ran a lap short."

Robertson based his belief that America will be stronger than at any time since 1912 on the following summarization of the proposition. Sprinters, good even if Borah is definitely out of competition; 400 metres, probably the best runners we ever had in this race, with Emerson Spencer favored by the system of running the affair in lanes and Barbuti estimated as a better man than Reidpath was; 800 metre and 1,500 metres, considerably better if only for the fact that Hahn must be reckoned a real contender in both races.

Improvement noted again in the running of Smith and Ermond, who beat Johnny Romig last July although the latter ran as well on Saturday as he did in placing third in this race in 1924.

 once. Blivins Loan Company, Moul-
 trie, Georgia.

Help Wanted—

YOUNG LADY—YOUNG MAN—
 Four months ago you read the
 ad for apprentices on the Linotype
 machine and then you wished you
 had a position. One young lady
 took advantage of that ad and af-
 ter three months and one week of
 study is now holding a good posi-
 tion in Mobile and is independent.
 You are still looking. Will send
 another young lady to same shop
 in two weeks. Last week the fa-
 ther of one of our students stated
 that his 17 year old daughter had
 made \$35 the week before. Five
 months from now she will be get-
 ting from \$40 to \$60 (guaranteed)
 per week. What will you be get-
 ting. Better snap out of it and
 quit waiting. Plenty of good jobs
 when you are trained to hold them.
 Call for C. A. Haines at Herald
 office and he will be glad to ex-
 plain details.

21—ACREAGE FOR SALE

ACREAGE FOR SALE: suitable
 for poultry, farm. Located four
 miles south of Sanford on old Or-
 ando road. 33 acres, part high
 and some of it low, ideal for
 chickens and ducks. Can be bought
 for \$100 per acre on your own
 terms. Address R. J. Holly, First
 National Bank Building, Sanford,
 Fla.

22—Real Estate For Exchange

WILL TRADE: Several building
 lots, free and clear, for small
 house in good section. Your price
 must be right. In answering this
 ad give complete information as
 to size of house, location, and
 price. Address S. B. D. Cure, The
 Herald.

25—Exchange

SWAP—Perhaps you have some-
 thing you don't need and some-
 one else has something you want
 that they no longer find use for—
 make an exchange through this
 classification. Call 148 for service.

GERMAN MOTOR HEAD FORESEES BIG AIR ROCKETS

Declares Great Future Lies Ahead of Inter-Stellar Airship Communication Which Will Attract Big Interest

BY O. T. TOLISCHUS
 International News Service
 Staff Correspondent
 BERLIN, June 18.—“Today,
 our airplanes still laboriously
 plow their way through the dense
 air mud.

“Tomorrow, rocket planes will
 hurtle at ten times the present
 speed through the stratosphere
 a few miles higher up where
 there is neither air resistance
 nor unfavorable weather con-
 ditions.”

This picture of the future was
 painted by Fritz von Opel, Direc-
 tor of the Opel Auto Co., just be-
 fore he risked his life publicly to
 demonstrate on the Avus race
 track here that his now famous
 rocket auto actually moved and
 already could attain a speed of
 105 kilometers an hour.

When this roaring, fire-spitting,
 smoke-belching “Flying Devil,” as
 the German press has named the
 car, shot away, it marked the be-
 ginning of the practical realiza-
 tion of the dreams of Max Val-
 ler, a year ago an obscure Munich
 scientist and inventor, whose plan
 for reaching the moon had seemed
 so fantastic. And the thousands
 who breathlessly watched the
 speeding cloud began to realize
 that a new epoch in man's effort
 to annihilate time and space had
 dawned. Von Opel himself said:

“The construction and public dem-
 onstration of this first and only
 rocket auto, whose wings serve
 not to carry it into the air but to
 keep it on the ground, concludes
 the first stage of the evolution of
 the inter-stellar airship by means
 of which man may hope to reach
 the neighboring planets, Opel said.

The next stages he outlined as
 follows:

1. Attempt to break the world's
 speed record in a rocket auto run-
 ning on rails.

2. Construction of rocket air-
 planes, attaining a speed of about
 250 miles an hour.

3. Construction of rockets that
 will carry registering instruments
 to hitherto unreach heights.

4. Construction of man-carry-
 ing rockets that will fly to pro-
 gressively greater altitudes in or-
 der to ascertain what provisions
 must be made for the safe trans-
 port of human beings through the
 rarified stratosphere.

5. Construction of rockets that
 will fly to altitudes of 60,000 to
 90,000 feet and attain speeds be-
 yond 1,000 miles an hour.

6. Construction of interstellar
 rockets which will go out into un-
 derstand space to worlds beyond our
 own.

Quick Ocean Hops
 “It is wholly within the bounds
 of possibility,” Von Opel said,
 “that with such rockets we might
 fly from Europe to America in a
 few hours and encircle the earth in
 half a day—travelling faster than
 the sun. The sixth stage offers
 even the possibility of reaching
 other planets. “But,” he added,
 “that is still far off and for the
 present such ideas merely cause
 confusion and disturb the practi-
 cal work.”

Both the rail speed car as well
 as the first rocket plane are now
 under construction. The latter is
 being built by the Raab-Katzen-
 stein Airplane Works of Cassel.
 Even the pilot is engaged. He is
 Anton Raab, noted German flier
 and member of the firm building
 the plane.

The plane will be of the “Grass-
 hopper” type already being built
 by that company. But instead of
 a motor it will have a battery of
 rockets which will be fired off in
 turn, the repercussion driving the
 machine forward. Rather it will
 drive it backwards, for what is
 now the rear will be the front, be-
 cause the fire-spitting rockets
 would burn up any “tail.”

With this first rocket plane Raab
 hopes to be able to make his first
 test flights at Staaken, near Ber-
 lin, some time this summer.

Encouraging Start
 Experiments made with small
 model rocket planes at the Techni-
 cal High School at Breslau have
 shown the feasibility of such a
 plane. Starting from a rising run-
 way, the model rocket plane rose
 like a normal plane, developed a
 tremendous speed, flew as long as
 the rockets could “shoot” and then
 landed in a beautiful glide.

If the plane should continue to
 rise into regions where the atmos-
 here is too rarified for the pilot,
 Raab plans to jump off with a spe-
 cial parachute and let the plane
 go on alone till the rockets are ex-
 hausted. Another high parachute
 is supposed to bring the plane it-
 self to earth.

So convinced are German scient-
 ists of the feasibility of the rock-
 et plane that they have already
 started to investigate the possible
 effects of the contemplated speeds
 and altitudes on the human body.

In the first place, it is feared that
 the terrific speed of the plane
 would destroy the pilot's sense of
 balance to such an extent that he

Non-Stop Flights

The unusual is almost the usual thing in aviation today—so great have been recent accomplishments in the air. So many times—each week, each day—the little classified ads in The Sanford Herald make non-stop flights to the finder, the loser, the buyer, the seller, one wishes to reach. Lost things that can't be found, houses and cars that can't be located, deals that can't be closed, opportunities that can't be discovered—all these are being turned into pleasant actualities every day through The Sanford Herald classified ads.

Read them for profit, use them for results. To phone an ad-taker call 148.

To Startle World

“We are convinced that our ef-
 forts will concentrate the attention
 of the whole scientific and techni-
 cal world. We are convinced that
 in a short while the rocket problem
 will become a problem of all na-
 tions.”

The construction and public dem-
 onstration of this first and only
 rocket auto, whose wings serve
 not to carry it into the air but to
 keep it on the ground, concludes
 the first stage of the evolution of
 the inter-stellar airship by means
 of which man may hope to reach
 the neighboring planets, Opel said.

CHICAGO SOCIETY ON 'GOLD COAST' IS WORRIED AGAIN

CHICAGO, June 18.—(INS)—
 The exclusive Gold Coast society
 folks are worried again.

Architects are telling them, now
 that their highly fashionable resi-
 dence district, around Lincoln
 Park and north along the north
 shore of Lake Michigan, is going
 to be a “slum” in a few years.

The Gold Coast folks know what
 slums look like, and they aren't
 breathing free for a while. They
 can see visions of undesirable en-
 croaching on the sacred precincts
 and already in their backyards they
 have a foreign district, hemming
 them in.

For years, through the history
 of Chicago, the Gold Coast has
 been famed as a show place, and
 the residence of the city's elite.
 Tall apartment towers with lux-
 urious fittings and tremendous
 rentals have arisen in serried ranks,
 and the residents are proud of
 them.

But it is from these very apart-
 ment buildings that the danger is
 coming, according to architects.

Back To Slums
 Young couples, they say, will be
 moving into these towers, and fill-
 ing them up as soon as they are
 built. In a few years the young
 couples will be well established
 and will be moving with their
 children to the suburbs. Vacant
 apartments, creating a problem
 for the building owners, will force
 rentals downward in a sharp drop
 and the once vaunted structures
 will become inhabited by less and
 less desirable tenants.

This has been the case, the ar-
 chitects point out, in other parts
 of the city where apartment dis-
 tricts have reared.

The once brave structures have
 become the roost of transients,
 persons of dubious character, and
 the foreign population, with its
 teeming families.

Only a few weeks ago the mil-
 lionaire population of the suburbs
 of Wilmette, Evanston and other
 north shore communities became
 alarmed at the encroachment of
 apartment houses and congestion
 of residents.

Now the Gold Coast finds itself
 in the position of having admitted
 already a vast number of apart-
 ment houses.

Allan B. Pond, architect, told
 members of the Chicago Regional
 Planning Association:

“Crowding in so many families
 per acre, as the apartment build-
 ings allow, could not have any
 other than a disastrous effect on
 a community.

“Young couples move into the
 apartments. When they have chil-
 dren they move into the suburbs
 and build homes. Rentals are low-
 ered in the apartments. Eventually
 they in destitute circumstances in-
 habit them.

Warning Given
 would become unconscious. Exces-
 sive speed, it is held, has the same
 effect as rapid and continued turn-
 ings about one's axis.

Now, experiments at the Physio-
 logical Institute at Goettingen have
 shown that the sense of balance is
 located in the so-called labyrinth
 of man's middle ear and that per-
 sons in whom for some reason this
 labyrinth had been operated away
 never lose their sense of balance
 no matter how much they were
 turned around. Science is asking
 now whether it might become nec-
 essary to select men without the
 ear labyrinth to make successful
 rocket flights.

BROTHERHOOD OF ENGINEERS OPEN SESSION IN WEST

Thirty-First Convention Of Locomotive Organization In Underway As Delegates Of East Arrive Upon Specials

SAN FRANCISCO, June 18.—
 (INS)—Headed by President D. B.
 Robertson, of Youngstown, Ohio,
 delegates to the thirty-first con-
 vention of the brotherhood of Lo-
 comotive Firemen and Enginemen
 opened session in the Civic Auditor-
 ium here.

Many of the delegates arrived
 here on a special train from the
 east; others arrived singly and in
 small groups, representatives from
 every state in this country and
 many of the provinces of Canada.

Officers of the organization were
 welcomed by city officials upon
 their arrival, and Market Street
 was gaily decorated with banners
 in honor of the visiting “tallow-
 pots”—a name bestowed upon the
 members of the organization so
 long ago that its origin and appli-
 cation is still argued in “switch
 shanties, sidings, “beaneries” and
 other places where railroad men
 gather.

Committee Busy
 With business of the convention
 still in the formative stage, the
 committees were busily engaged
 in picking up loose ends today, pre-
 paratory to presenting reports on
 the floor.

The last convention of this or-
 ganization was held in Detroit, in
 1925, hence there is a huge vol-
 ume of business to be disposed of.
 This is the sixth convention which
 the Brotherhood has held at tri-
 ennial intervals. Its first 13
 conventions were annual, and its next
 twelve biennial.

The Brotherhood convention was
 once held in San Francisco before
 38 years ago—when the organiza-
 tion convened here in 1896.

Since then the organization has
 made great strides and has become
 one of the most powerful organiza-
 tions of its kind in the United
 States.

100,000 Members
 The Brotherhood originated more
 than fifty years ago, when a fire-
 man on the Erie Railroad, George
 Page by name, was killed in an
 accident. He left his family al-
 most destitute, and eleven of his
 fellow workers banded together to
 help them, and then they formed
 a permanent organization for mu-
 tual aid. This was at Port Jervis,
 N. Y. in 1873.

From this modest beginning, the
 Brotherhood has grown until it
 now has 10,402 members in both
 the United States and Canada.

During the past three years the
 organization has paid out to its
 members, and their beneficiaries,
 in life insurance and disability
 benefits almost \$4,000,000. Since
 1882, according to the Brother-
 hood's figures, it has paid out
 nearly \$35,000,000 in death and
 disability claims.

James F. McNamue, of Cleve-
 land, manager of the organization
 magazine, asserted that his Brother-
 hood in fifty years of relations
 with railroads had never broken
 a contract.

“We are proud of that record,”
 he said, “and during this time we
 have maintained uniformly peace-
 ful relations with most of the rail
 managements.”

FILM COMPANIES SUED

CHICAGO, June 15.—Charging
 that the Paramount Famous Lasky
 Corporation and a score of
 others affiliated in the motion
 picture industry have conspired to
 create a monopoly to hinder com-
 petition, the Marx Brothers
 Theaters Incorporated of Chicago
 filed suit today asking an in-
 junction to restrain the defend-
 ants from the alleged illegal ac-
 tivities.

VERO BEACH—W. M. G. Mo-
 tors, Inc. Vero Beach, with cap-
 italization of \$15,000 chartered.

Axel Lonquist, of Wilmette, re-
 newed his warnings to the associa-
 tion that the suburbs will face
 the same problem, if apartments
 are allowed there.

A large percentage of the popu-
 lation of Chicago now lives in
 apartment buildings, according to
 real estate men. Rentals are
 placed high enough while the
 buildings are new to allow sharp
 reductions after the first two
 years. Because owners of ground
 find it difficult to be public minded
 and refuse large offers from apart-
 ment builders, the association is
 having trouble in passing zoning
 restrictions.

The Gold Coast has awakened to
 the situation—with a brown taste
 in its mouth. The vaunted apart-
 ment palaces may be the nemesis
 of the Coast, and residents and
 owners are attempting to find a
 way to combat the menace—with
 little chances of success, according
 to the architects.

Train-Plane Service From Coast To Coast Will Have Every Conceivable Luxury

By ROBERT HERFORD
 International News Service Staff
 CHICAGO, June 18.—By train
 and airplane from New York to
 California in 48 hours.

Deluxe pullman service for the
 train part of the trip which will
 provide almost bedroom comfort.

Large comfortable airplane ca-
 bins equipped with lavish diner
 service which will allow the trans-
 continental traveler to eat his
 meals while sitting on top of the
 world.

And all this to take place within
 six months.

That was the picture painted
 recently in Chicago by J. Cheever
 Cowdin, member of the firm of
 Blair and Co., Inc., New York, a
 principal in the formation of
 Transcontinental Air Transport
 Inc.

With the transcontinental system
 in operation a new era dawns in
 American transportation. Cowdin
 and Col. Paul Henderson, vice
 president of the National Air
 Transport Inc., agreed.

Optimism Shared
 Sharing the optimism of these
 two is C. M. Keyes, president of
 the Curtis Airplane and Motor
 Company, who will be the first
 president of the Transcontinental.

“The initial route” says a state-
 ment authorized by Mr. Keyes,
 “from New York to Columbus, to
 St. Louis to Wichita, to a conven-
 ient point to New Mexico and to
 Los Angeles was selected to per-
 mit the maximum of comfort and
 safety to passengers.”

This route, Mr. Keyes explains,
 will permit all-year travel in com-
 fort. From Columbus to Wichita

from New Mexico to the Califor-
 nia terminus will be made in the
 same manner. All flying will be
 by daylight.

“The cost of coast to coast trav-
 el over the new line will be only
 slightly in excess of the present
 tariff for a drawing-room and
 train fare. It will be within the
 reach of the average pocketbook,”
 Cowdin said.

No contracts have been let and
 a survey is in progress to deter-
 mine the planes best suited for the
 work, it was announced. Three
 motor types, with room for 14
 passengers, are favored.

“Formation of the T. A. T.
 Inc., marks the beginning,” said
 Mr. Cowdin, “of a new era in
 transportation. It is
