Truman Calls Taft's Economics Dangerous

Griswold Named Head Of Greek Mission; Hungarian Coup Is Called "Outrage"

WASHINGTON, June 5, (AP)—President Truman said today that Senator Taft (R-Ohio) has advocated "fallacious and dangerous" procedure on the economic front.

Mr. Truman made this statement at a news conference at which he announced the appointment of former Governor Dwight I. Griswold of Nebraska to be chief of the United States Mission to Greece under the \$400,000,000 Greek-Turkish aid bill.

At the same time, he appointed Richard F. Allen to administer the \$350,000,000 relief program for other European countries.

Truman also denounced the Communist coup in Hungary as an outrage and asserted that the United States does not intend to stand idly by in that situation. He told a news conference that the State Department right now is looking into the whole Hungarian affair.

In a lengthy prepared statement, Mr. Truman took issue with Taft's recent statement that "apparently the President and the Administration are abandoning talk of keeping prices down in favor of heavy spending abroad that will keep them up."

Reading his statement rapidly, the President said bluntly the Administration does not advocate the Greek-Turkish aid program "for the purpose of bringing prices down, but to aid starving millions restore their economies and to build up their 'anti-totalitarian' resistance."

While foreign aid programs place some strain upon the American economy, he said, the answer is to make price reductions at home "even more rapid."

Truman said: "Senator Taft's argument that high prices will be maintained is a dangerous fallacy."

U.S. And Britain Ask Inquiry Into Hungarian Coup

Papers Requested Implicating Nagy In Overthrow Plot

By JACK GUINN
BUDAPEST, June 5, (AP)—An authoritative American source said today U. S. and British military representatives here would send Russian authorities within two days renewed official demands for a three-power investigation of what amounted to a Communist coup d'etat in Hungary.

The spokesman said that British and American communications to the Russians today on the matter indicated that the two Western powers might ask a United Nations inquiry into the events which led to the resignation of Premier Ferenc Nagy and the Communist assumption of complete authority.

The representatives of the Western powers asked the Russians for documents which the Soviet officials say implicated Nagy in a plot to overthrow the Hungarian Republic.

Twice before, Lt. Gen. V. P. Sviridov, Soviet commandant and acting chairman of the Allied Control Commission here, had turned down British and American requests for a three-power investigation of Hungarian politics.

The strongest American request came March 17, when the U. S. government expressed the opinion that the Communists were attempting to seize power through "subversive" tactics.

At that time, the Communists threatened to make price reductions at home "even more rapid."

Sanford Baseball Club Names Don Murray Manager

Buddy Lake Will Remain With Team To Assist New Head

By ARTHUR BECKWITH, JR.,
Herald Sports Editor
Donald Murray, an infielder from Portsmouth, Va., in the Piedmont league reported to the Sanford Baseball Association this morning and was immediately named manager of the Sanford Celery Feds. George A. Smith, president of the Sanford Baseball Association, announced this afternoon.

Murray will replace Buddy Lake at the helm of the Sanford entry in the Florida State League. Lake will remain with the Celery Feds, he said, and will fill any position to which Murray assigns him.

Murray, a 27 year old Detroit, Mich. lad, started his baseball career with Danville, Va. and has been seen at Scranton, Pa., of the Eastern League; Beaumont, Texas, in the Texas League and Winston Salem of the Piedmont League.

He served in the Army from 1943 to 1945 and returned to baseball in 1946 with an aggregation of his own in Detroit. He was playing with Portsmouth, Va. in the Piedmont League and was hitting at a .340 clip when he left the Virginia city Tuesday.

Buddy Lake in discussing the change in Fed pilots said that he felt the shift would do the club "a world of good."

"One big thing that interests me," said Lake, "is to see Sanford at the top of the league. I know that the fans will give every ounce of support necessary to accomplish this, for they have been upset over the string of losses we have suffered since I have been manager. I have pledged Don my full cooperation. I know that he is not only a fine player, but a capable manager. The club will pull with him and it won't take us long to overcome that nine game difference between our present standing and the top of the league."

Murray paid tribute to his predecessor and said he was fortunate to get a chance to come here, for he had heard that the fans in Sanford were the best in the South.

Legislature Marks Time On Finances

Two New Senatorial Districts Created; Line Of Succession For Governor Voted

TALLAHASSEE, June 5, (AP)—The powerful House Finance Committee voted 18 to 3 today to stand firm against any bill to raise new taxes in the Florida Legislature.

Tallahassee, June 5, (AP)—The expiring Florida Legislature found itself in a financial quandary today as the taxation dilemma got all mixed up with parliamentary rules.

With Governor Caldwell still urging that the legislators balance the budget—either by cutting appropriations already voted or providing new tax money—the Senate Finance Committee voted to put three major revenue yielding bills before the Senate without a recommendation for or against them.

Those bills could be revised to provide almost any amount from the \$9,000,000 estimated by Comptroller C. M. Gay and School Supt. Colin English as necessary for essential functions, to the \$34,800,000 the Governor says it will take to cover all legislative authorizations.

But there seemed sure to be some difficulty overcoming rules in one branch of the Legislature before any of them could be brought to final passage.

The house two days ago adopted a resolution cutting off consideration of all bills after 12:30 P. M. today unless the sponsors can obtain unanimous consent. Chairman Jerry Collins of the Rules Committee, a staunch foe of any new taxes, "is making it his object to prevent any bill to let any other bills go through, though."

There seemed to be some doubt, too, about how the three tax bills sent out by the Senate committee could get up to the floor for consideration.

A movement was started to have the Senate Rules Committee call for a special session tonight to consider finance measures. However, opponents of new taxes were fighting that maneuver with the argument that it would do no good for the Senate to pass the bills in view of the House rule.

Gay and English brought more figures on tax collections to Chairman Murray of the House Finance Committee, but they made no material change in their estimate that \$9,000,000 extra for the biennium would be needed for state operations.

The Senate approved a proposed constitutional amendment creating two new senatorial districts. The proposal will be returned to the House for concurrence in the minor amendments. The proposal sets up a 39th district to be composed of Manatee and Polk counties.

Europe Urged To Aid Itself By Marshall

Nations Called Upon To Initiate Joint Action For Reconstruction In Crisis

CAMBRIDGE, Mass., June 5, (AP)—Secretary of State Marshall called today upon the countries of Europe to take the "initiative" in drafting a reconstruction program to put that continent on its feet economically and promised American assistance "so far as it may be practical."

He urged the pledge with a warning that the United States would oppose anyone backing to profit by perpetuating "human misery" — whether the governments or political parties.

Speaking before the Harvard alumni after that university awarded him an honorary doctorate in law, Marshall mentioned no foreign country by name as he gave a broad outline of America's long-range foreign policy.

Asserting a "very serious situation is rapidly developing" in Europe which "bodes no good for the world," the Secretary said:

"The rehabilitation of the economic structure of Europe quite evidently will require a much longer time and greater effort than had been foreseen."

Marshall said it was "logical" that the United States should do whatever it is able to do to assist in the return of normal economic health in the world, without which there can be no political stability and no assured peace.

Before the United States can provide additional help to Europe," Secretary Marshall stated, "there must be some agreement among the countries of Europe as to the requirements of the situation and the part these countries will play in the program. This, he added, is necessary to give "proper effect to whatever action might be undertaken" by the United States.

It would be neither fitting or efficacious for this government to undertake an unilateral program designed to place Europe on its feet economically," he said.

Before the United States can provide additional help to Europe," Secretary Marshall stated, "there must be some agreement among the countries of Europe as to the requirements of the situation and the part these countries will play in the program. This, he added, is necessary to give "proper effect to whatever action might be undertaken" by the United States.

Peace Returns To Normandy

THREE YEARS AGO, American and Allied soldiers hit the beaches of Normandy, smashing through to eventual victory. One of the towns which took a terrific pounding was Saint-Lô, where the U. S. forces drove a wedge for a drive across France. Top, a Jeep crawls through the rubble. Bottom, in a view of the same area today, the military jeep has been replaced with a tourist jeep carrying sightseers. (International)

Four Peace Treaties Are Okeyed By US

Senate Votes 79 To 10 On Italian Treaty; 3 Others Ratified By Voice Vote

WASHINGTON, June 5, (AP)—The United States, through its Senate, today ratified the first four peace treaties to come out of World War II — those with Italy, Bulgaria, Romania and Hungary.

The 79 to 10 roll call vote accepting the Italian treaty and the easy voice vote approvals for the other three, however, did not signify unbounded enthusiasm for the pacts hammered out by the Big Four foreign ministers.

Speaker after speaker voiced fears that Italy, like Hungary, might be engulfed by communism when U. S. occupation troops pull out.

The big majority, however, accepted the arguments of the State Department and those of Senator Vandenberg (R-Mich) that the alternatives to ratification are confusion and loss of belief in the integrity of America.

Just before the roll call on ratification, the Senate rejected on a count of 67 to 22 a motion by Senator Fulbright (D-Ark) to delay action on all the treaties until next Jan. 25.

Senator Connally (D-Tex), ranking Democrat on the Foreign Relations Committee, told the Senate the alternative to ratifying the treaty with Italy is no treaty at all. And that course, he declared, would lead the way to "chaos, utter confusion and Italy open to Communism."

"If we don't ratify this treaty, we will be in fact inviting the infiltration of Communism from Yugoslavia and all that critical territory that stretches eastward into the Balkans," he said.

Wallace Declines To Back Truman For Second Term

RALEIGH, N. C., June 5, (AP)—Henry A. Wallace said today that he would not support a campaign for the reelection of President Truman. The former vice president made the statement at a press conference held in advance of a speech he is scheduled to make here tonight.

Wallace was asked directly if he would support the President for reelection, and he replied: "That depends on—I would say, No."

Wallace, who has been crusading vigorously against the "firm with Russia" aspect of President Truman's foreign policy, had been asked earlier if he planned to lead in the forming of a third party, and he replied: "I'm doing everything I can to make the Democratic Party a liberal party. If the Democratic Party becomes a war party, a party of reaction and depression, then I'll no longer be a Democrat."

Explaining his answer to the question about supporting President Truman for reelection, Wallace said that his support of the Democratic Party in the 1948 election depended on whether it is a "war party" at that time.

The news conference was held at the home of Josephus Daniels, editor of the Raleigh News and Observer and former Secretary of the Navy and ambassador to Mexico. Wallace is a guest of Daniels.

Asked if he would support the Republican Party, Wallace said: "I can't imagine myself campaigning for a Republican under any circumstances."

He then modified this statement by saying that he might "make a slight reservation" about applying this to Harold E. Stassen, the former governor of Minnesota and Oregon's Republican Senator Wayne Morse, he said he had "great esteem" for Stassen and Morse. The latter, he added, was "highly rated" in his attitude toward the peace treaty.

Wallace said that the trouble with "the Republicans" is that when they get in the national field they have to work with a group dominated by "reactionary" forces.

President Requests Americans Keep Out Of Palestine Row

WASHINGTON, June 5, (AP)—President Truman today asked American citizens to refrain from any activities which may "inflame the passions" of Palestine inhabitants while the United Nations is considering the Palestine problem.

"I urge every citizen and resident of the United States in the interests of this country, of world peace, and of humanity," the President said, "meticulously to refrain, while the United Nations is considering the problem of Palestine, from engaging in, or facilitating, any activities which tend further to inflame the passions of the inhabitants of Palestine, to undermine law and order in Palestine, or to promote violence in that country."

Sanitary Conditions Improved In Cafes

Frank E. Harris, sanitary investigator of the State Hotel Commission, today investigated sanitary conditions in downtown eating places and kitchens and reported a decided improvement in cleanliness since his last visit here.

He particularly praised the sanitary condition of restaurants and lunch stands on the Sanford-Orlando highway south of Sanford.

Mr. Harris has been an inspector for the State Hotel Commission since 1943. His father, and he in turn served as business manager of the paper for more than 20 years, prior to entering the State work.

D. S. Rockey Wins D.A.R. Medal Award

Cadet Capt. David Stanley Rockey, son of Mrs. E. S. Rockey, was presented with the D.A.R. medal for good citizenship during the graduation exercises held in the chapel at Fork Union Military Academy in Fork Union, Va. Monday morning.

One of two students in the entire school to receive this medal, Capt. Rockey was also winner of a Certificate Award for activities in the Glee Club. The awards were made by Maj. J. R. Wildman.

Graduating as Commander of Co. A, First Battalion Staff, young Rockey won second place in the Officers' Club, the Varsity Club, and captain of the Tennis Club.

Centralia Mine State Market Tragedy Blamed On Negligence

WASHINGTON, June 5, (AP)—A Senate Public Lands subcommittee declared today that "use of explosives in a non-permissible manner" was the immediate cause of the Mar. 25 Centralia (Ill.) mine disaster which claimed 111 lives.

Submitting a report to the Senate on an investigation it made, the committee said:

"In summing up the responsibility, committee members found that almost everyone concerned was guilty of negligence to one degree or another — management, the miners, the mine workers' union, state bureau and federal bureau."

Chairman Cordon (R-Ore) told the Senate the committee recommends federal legislation giving the U. S. Bureau of Mines or some other federal agency authority, not only to promulgate an adequate safety code, but also authority to enforce it.

The committee report states: "The evidence in this investigation shows the immediate cause of the disaster was the use of dynamite in a non-permissible manner."

Drainage Outlet On French Avenue Is Urged By Lehman

Sales during May at the Sanford State Farmers Market amounted to more than a quarter of a million dollars as compared with \$210,000 in 1946, it was announced today by Market Manager H. J. Lehman who said that figures showing the exact increase will be revealed soon.

Celery, the season of which is about closed in Florida, is expected to lead in sales value, he said. Other valuable products sold were green beans, orange, cabbage and peppers. At \$8 a bushel, peppers hit a higher than average price here.

Applications for new stall rentals at the market have been made, and a few of the stalls will be available by next September, he revealed.

Increased land valuations amounting in some cases up to 500 percent in the vicinity of the market over those of 11 years ago when land was being sold nearby and at the market site for taxes, were today pointed out by Mr. Lehman. He traced the location of fruit and vegetable packing housing in the vicinity to the trucking business attracted by the market, which he declared, brought in more revenue, directly and indirectly, than any other business enterprise in Sanford.

Gas and tire dealers, machine shops and repair services, hotels (Continued on Page Six)

Flood Ravaged City In Vermont Slowly Recovers

RUTLAND, Vt., June 5, (AP)—Fears of an outbreak of disease abated here today as tank trucks carrying drinking water rolled into this city digging out of the wreckage of a flash flood that knocked out all utilities.

Power and light were restored but gas and water supply systems were still out of commission, with a possibility that it may be several days before pipelines can be repaired.

Hundreds still homeless from the flood unleashed by a burning power dam Tuesday night were being housed in the armory, and fed by mobile kitchens.

Emergency water stations were set up throughout the city with farmers from the surrounding countryside helping in serving fuel and spring water in a pall and bucket brigade.

Warnings came repeatedly to this city's 18,000 residents from public health officials that all water must be boiled at least 30 minutes. They were cautioned against using any faucets.

Schools, theaters and all public places were still closed, and the number of unemployed ran into the thousands as several big factories adjoining the low-lying town district were damaged by flood waters.

Meanwhile, parts of two midwest (Continued on Page Three)

Walker Re-elected

TAMPA, June 5, (AP)—The Florida Citrus Exchange at its annual meeting today reelected its president, C. H. Walker of Avon Park, and all other officers with one exception.

A. V. Surman of Clearwater was named third vice president to succeed W. O. Kirkhoff of Bradenton. F. W. Moody of Palm Bay replaced Kirkhoff as Florida county representative on the subcommittee.

Recreation Program To Begin Saturday

Youngsters of school age are expected to turn out in full force Saturday morning at the Grammar School grounds where much fun and games will start at 10:00 o'clock in connection with the launching of the City Recreation Department program, which will be bigger and better than ever this year, according to Roy Holzer, chairman of the Recreation Committee.

The fun will continue until noon, and will be resumed 2:00 o'clock and continued until 5:00 o'clock. This will be the schedule of the five day a week program thereafter, he said.

Baseball and softball will be under direction of Herman "Foots" Brumley, former Celery-Fed football star. Mrs. Nancy Brock and Miss Barbara Damphier will also serve as recreation directors.

Envoy To Argentina Accomplishes Mission

WASHINGTON, June 5, (AP)—President Truman said today the mission of Ambassador George S. Messersmith in Argentina has been successfully accomplished because the United States is now on friendly terms with Argentina.

Messersmith, a veteran career officer, has been ambassador to Argentina for about a year.

His mission to Buenos Aires was marked by several clashes with Spruille Braden who resigned yesterday as assistant secretary of state in charge of Latin American affairs. The two men differed sharply over policy toward Argentina.

Meanwhile in Buenos Aires, Gen. Filomeno J. Velasco, chief of police in Buenos Aires, resigned abruptly last night in circumstances which many interpreted as a dismissal.

Velasco long had been regarded as a "friend in court" for nationalist extremists, whose sympathy with Axis nations during the war embittered relations between Argentina and the United States.

Summer School Pupils Asked To Register

All grade school pupils who wish to make up school work by attending summer school are advised by Supt. T. W. Lawton to report at the Grammar School at 10:00 o'clock, Friday morning.

Junior and Senior High School students are advised to report at the Junior High School at 10:00 o'clock Monday morning in order to register for summer work.

U. S. Ignores Nicaragua

WASHINGTON, June 5, (AP)—The United States is not "disposed" to enter into official relations with the new regime set up by a revolt in Nicaragua. The State Department issued a statement that this was the government's attitude "pending further developments."

A department official said this meant consultations with the other American republics.

Negro Charged With Murdering Parent

Arthur G. Siplin, Jr., young Goldboro negro, who has been held in County Jail since Sunday pending the outcome of a shooting scrape Saturday evening in which his father, Arthur C. Siplin, Sr., was seriously wounded and as a result of which wounds he died this morning, was today served by Sheriff Percy Mayo with a warrant signed by Judge R. W. Ware charging assault with intent to commit murder.

If Siplin requests a preliminary hearing before the County Judge, it will be granted, said Judge Ware this morning.

According to Police Chief Roy G. Williams, the shooting took place shortly after 9:00 o'clock Saturday evening in the vicinity of Foster's Store on West Thirtieth Street. The father and son had been fighting, he said, and their bats were on the ground; but they had been separated by the crowd before the police arrived. Both men were arrested, and the father was rushed to Fernald-Laughton Memorial Hospital with bullet wounds in the abdomen and hip. The son was placed in City Jail and on Sunday transferred to County Jail.

Later, two pistols, which had been found under the house of the negro, were brought to police station, said Chief Williams.

Good Crowd Reported Taking Tests For TB

A good turnout yesterday and this morning at the Seminole County Health Unit in connection with x-ray screen tests by the State Mobile X-Ray Unit, was today reported by Dr. Frank Quillman.

At Oviedo the number of tests made were disappointing, he declared, due to the fact that many field workers were unable to attend. However, all the workers of A. Duda and sons were brought in for tests, it was reported.

The members of the Lions Club have agreed to attend the test in a body, Friday, said Dr. Quillman. Sanford Jaycees took the tests, Tuesday.

Dr. Quillman urged that storekeepers stagger the hours of employees so that tests may be made.

The mobile unit assigned to Sanford will be here all week and Monday, Tuesday and Wednesday of next week, he announced. Hours are 8:00 to 11:00 A. M. and 2:00 to 4:00 P. M.

Bag Punching Champ Gives Demonstration At Jaycee Luncheon

Prof. Fred W. Ely, bag punching champion of the world for 45 years displayed his ability before the noon meeting of the Junior Chamber of Commerce at the Mayfair Inn today.

Prof. Ely performed before the crowd heads of Europe prior to World War II.

Prof. Ely impersonated Bob Fitzsimmons, James J. Corbett and Jim Jeffries and also punched the bag while playing the trumpet. Ely made 22 trips across the ocean to participate in band concerts given by John Phillip Sousa's band, for whom he was a concert soloist for 23 years.

Newly elected officers in the Seminole County Junior Chamber of Commerce will be installed at the June 19 meeting. It was announced today by president Jack Rattigan. Rattigan also announced that Clifford Ables was the recipient of the Bath and Tennis Club membership for turning in the largest number of memberships in the extended Junior Chamber of Commerce membership campaign.

THE WEATHER
Local thundershowers early tonight, otherwise partly cloudy through Friday.

Marshall Speech

(Continued from Page One) Marshall said, "This is the business of the Europeans. The initiative, I think, must come from Europe." The role of the United States in such a program, Marshall said, "should consist of friendly aid in the drafting of a European program and of later support of such a program so far as it may be practical for us to do."

Russian Decree Lists New Penalties For Crimes Of Violence

LONDON, June 5 (AP)—A Moscow radio broadcast heard here last night by the Soviet Monitor outlined a decree fixing new penalties in Russia for crimes of violence which, it was said, aims at "strengthening the protection of private property of citizens." The decree was issued by the presidium of the Supreme Soviet of the USSR. In Russian quarters here it was recalled that the last session of the Supreme Soviet there was a complaint that penalties for crimes were not uniform throughout the country. It is believed that the new decree brings about standardization of the administration of criminal law.

Lessons Learned At Anzio To Aid Doctors In Atomic Warfare

By FRANK CAREY Associated Press Science Reporter WASHINGTON, June 4 (AP)—Lessons learned at the Anzio Beachhead, in saving precious time and blood-transfusion materials in treating wounded men, will be valuable in case of future atomic warfare, a Boston doctor said today. Describing how techniques introduced at Anzio allowed a 50 percent reduction in the amount of blood and plasma required and also allowed men to be operated on sooner than previously, Dr. Henry K. Beecher of Massachusetts General Hospital declared in an address prepared for an Army Medical Department symposium: "This economy of time and material, economy in the use of blood and plasma, so important in resuscitation, will be clearly necessary if military action ever takes place in difficultly accessible regions of the world, say, the Arctic or Antarctic, where problems of supply will always doubtless be great."

Anzio. He and Maj. Charles H. Burnett, another member of the board, found that surgery could be undertaken before a wounded man who had fully recovered from the initial physiological effects of "wound shock." Wound shock is the prostrating condition which results from loss of blood volume. When blood is lost, fluids are drawn unnaturally from body tissues into the blood system, and this causes shock. Plasma and whole blood are used to treat and cure this condition, but many of the severely wounded also require surgery for the repair of damaged blood vessels and organs if life is to be saved.

BROADWAY

RR—Broadway managers are realizing that their work is "brutal." Until now it has been a few artists who insisted that is, the slump couldn't last, that an upsurge was near somewhere. Davio Vernon reopened their eyes after folding two but after an expensive operation they are again. Several family clubs are "C.O.D." must pay for their or as it is delivered, credit during this period, all sorts of definite hat the lads had bet on to wait it out. Theater, one of us's biggest movie are the first to drop out. Several other plays coming to town are ticket, lowest price \$1.00.

BIRTH ANNOUNCEMENT

Lieut. Col. and Mrs. Charles A. Betts, announced today the birth of a son, Charles Archibald, Jr., on June 4, at Fort Sam Houston, Tex. Mrs. Betts will be remembered as the former Eleanor Hickson.

Mr. and Mrs. A. H. Harris announced today the birth of a daughter, Linda Dianna, on May 18 at the Fernald Laughton Memorial Hospital. Mrs. Harris is the former Irene Rabun.

Indian Leaders Tackle Political Problems

By WALTER J. MASON NEW DELHI, June 5 (AP)—Seven Indian leaders who agreed to accept the British plan for settlement of India's political problems by partition buckled down with the Viceroy today to the job of ironing out some of the major administrative wrinkles which lie directly ahead. Official sources said there would be one and possibly two more meetings to straighten out such problems as the process for establishing a commission to draw the boundaries of the new Hindu-Broadway with this train and Pakistan for setting up machinery of self-determination in such disputed regions as Punjab, the week, slightly higher week ends, in an attempt to catch movie audiences which have been educated to higher Broadway film management. "A Fancy" announced emiere that it would more than \$3 a ticket.

job, Bengal, Assam and the like. Other immediate problems to be faced include, in the provinces which are to be split up between the new Hindu and Moslem states, the division of assets and liabilities, of police and other services and of courts and other provincial institutions. While Congress Party, Moslem League and Sikh leaders were meeting with Viceroy Lord Princes chose the Maharajah of Patiala (to the post of chancellor. The sympathies of Patiala, a Sikh ruler, appear to lie with the Hindus.

CORRECTION The Herald regrets an error in last night's paper in stating that "Polonaise Op. 53" was played by Elizabeth Flite. The name should have been Elizabeth White.

Truman To Attend 35th Division Reunion

KANSAS CITY, June 5 (AP)—Veterans of the 35th Division, who fought in some of the toughest battles of both World Wars, today began a three-day reunion which will be attended by the outfit's most famous member, President Truman. Mr. Truman is scheduled to arrive here at the top of a Saturday night at memorial services in honor of the Division's dead. In World War I the 35th fought at St. Mihiel and Meuse Argonne and in World War II it took part in the Normandy landings and the Battle of the Bulge. General Dwight D. Eisenhower will speak at a ceremony tomorrow night, observing the 33rd anniversary of D-Day, the date of the Normandy landings. Georgia Pierre Lavelley, the mayor of St. Lo, France, also will participate in the ceremony. St. Lo, the breakthrough point of the Allied drive out of the Norman peninsula, was recaptured by the 35th division. The division is starting a fund to build a hospital for St. Lo, the town of its reunion activities. Approximately 150,000 men have served in the 35th since it was organized from the National Guard of Missouri and Kansas in 1917.

3 New 'Letter Bombs' Received By Britons

LONDON, June 5 (AP)—Scotland Yard said today that three more explosive "letter bombs" like those delivered to British cabinet members and high Army officers yesterday had been uncovered by investigators trying to stop the "murder by post" packets from Italy. One of three bombs was sent to a prominent person, while the other two were directed to persons less well known, a Yard spokesman said. He did not identify them. He declined to say whether they had been delivered to their intended victims or uncovered by the intensive screening of incoming mail instituted by British postal inspectors. Italian police said they had been unable to uncover any trace of the source of the explosive envelopes there and Scotland Yard denied it had sent detectives to Milan, which a morning newspaper said it was "very free, threaten to expire."

3 Kinds Of A Defense Ar

ATLANTIC CITY (AP)—Rear Admiral Parsons, Navy director of defense, declared today three kinds of defense are needed.

In an address preliminary to a luncheon the 15th annual of the Edison Electric sons said:

"The first defense is positive against attack, is political, is accomplished by the Baruch plan.

"The second is the ability to resist the third category of defense. The technical tests are now being made by the joint chiefs of staff."

THURSDAY, JUNE 5, 1947

WINDY TRIP FOR TODAY MEN HAVE BEEN DROWNED TRYING TO SWIM TO SAFETY WITH HEAVY LOOT. LIGHTEN YOUR LOAD OF PERISHABLE FLUNDER. HOLD FAST TO ETERNAL NECESSITIES: A man's life consisteth not in the abundance of the things which he possesseth.—Luke 12:15.

We suppose it is all right to get tough with Hungary (and Russia), but some of these brave speeches would sound better if Congress weren't cutting the Army and Navy to the bone.

West Indian hurricanes which sometimes hit Florida shores are bad enough, but we prefer them to the tornadoes which recently have been playing havoc in Arkansas and Oklahoma. At least you can tell when a hurricane is coming, two or three days before it arrives.

The Census of Agriculture reveals that 30 Florida counties are among the first 50 in the entire United States in the production of oranges, and what is more, little Seminole ranks 24th in the whole United States. The census shows that Seminole county has 364,488 orange trees, and that only three have more than a million, Polk, Orange and Lake.

The people of Orlando voted against installing parking meters in their fair city, just as the people of Sanford would have if they had been given a vote on it. However, the people of Orlando have not found the solution to their parking problem simply by voting down parking meters, a fact which will become more and more evident as time goes on.

The paper you are reading tonight, ladies and gentlemen, was made in Poland. It is the first foreign newspaper (not including Canadian) we have seen since 1939 when we were buying most of our newspaper from Finland. The two columns which are missing from this page and from page 3, were not torn off in the press, or mutilated by the carrier boys, but are the inevitable result of a 66-inch roll when we normally use a 70-inch roll. If you will tell us where we can get some 70-inch rolls, we will print the two extra columns for you free of charge, and we will not tell you what this Polish newspaper cost, but it was not given away.

True lovers of liberty throughout the world will rejoice in the British decision to transfer all governmental power in India to the Indians. There will be no Revolution in India, as there was in this country, to break away from British rule. But if freedom for Indians means freedom to wage racial and religious wars, if it means dividing the country into two or three hostile camps which will go on throughout the years slitting each other's throats, the freedom the Indians gain will be of little value and probably short lived. For, if the British do not return to rule, the Russians will.

The number of persons who knock their home towns, and their home town institutions, seems to be growing almost in direct proportion as Sanford grows and prospers. With more people here than ever before, with more new construction, with more progressive organizations and enterprising plans for the future, there is also more criticism, more belittling of the other fellow and more pessimism. The buzzard's roost, we have always had with us, but there seems to be more roost on it now for insect buzzards. If you can't boot, climb up on the buzzard's roost, where misery loves company.

Waterway for Peace

The St. Lawrence Seaway is under discussion again. By its construction, Great Lakes cities, both in the United States and Canada, would become ocean ports. A committee headed by Senator Alexander Wiley of Wisconsin recently listened to arguments for the seaway by Henry La Liberté, a Duluth business man who estimated it could be built for less than \$400,000,000 with the United States and Canada paying for it on a two-to-one ratio.

The cost to this country would be about \$270,000,000, which could be paid off within 53 years, La Liberté estimated, through toll charges on traffic. The rates would range at first from 75 cents to a dollar per ton, on 20,000,000 tons per year. When the tonnage rose above 30,000,000 tons, the rates could go down to about 30 cents. Construction would probably take about seven years. Proponents of the seaway hope it can be started next year. There are plenty of good reasons for it, and few against it.

An interesting note was added in the hearings by Undersecretary of War Kenneth C. Royall who said that "while the water route would be helpful in war time, it would not be vital." Plainly, a proposal like this to link the lakes with the Atlantic ocean is viewed by some people chiefly in relation to its contribution to needs of war. But the idea of war merely emphasizes the need for this waterway, long and seriously needed to further the pursuits of peace.

Man of Efficiency

The death of Mrs. George B. Cortelyou recalls a political career which, contrary to popular belief, was based on pure efficiency. Her late husband began his connection with Washington as a stenographer for President Cleveland. President McKinley made him his private secretary, an office not highly considered till then. Cortelyou brought out its real possibilities of usefulness.

This pioneering achievement caused Theodore Roosevelt to pick him as first Secretary of the new Department of Commerce and Labor. (Labor was set up separately in 1913). This was in 1903. Next year he ran the President's campaign for re-election. He became Postmaster-General, and in 1907 Secretary of the Treasury. His office-holding ended with Taft's presidency. Cortelyou then was chosen president of the Consolidated Gas Company of New York, a post which he held till his death in 1940.

Everywhere that Cortelyou served, he did well. None of his offices, however, came from popular election. This would probably have handicapped him severely, had the occasional mention of him for the White House ever got beyond the talk stage. Sad experience has taught the United States that the presidency is a political office, requiring political experience.

False Economy

Taxes should be reduced. But discretion is needed. In two instances at least it appears that the House Appropriations Committee is recommending cuts in the wrong places.

One is the slashing to \$1,400,000 of the two and a half million asked under advice of the U. S. Public Service for a mental health program including: research into causes of mental illness; training of mental therapists; establishment in Washington of a hospital for treatment of mentally ill, and to serve as a national model.

The other cut is elimination of the radio program in 25 languages to 67 foreign countries, with particular regard for Russia, aimed at promoting international understanding and interpretation of the American way. Its cost, it is said, if continued 10 years, would equal that for the first hour of the war it seeks to prevent.

Loud noises, will, of course, be heard from every group whose service appropriation is threatened. Its people hope for more money than it needs, and the appropriation can be trimmed accordingly. But trimming is one thing and cuts without care are another. Serious consideration is needed at this point.

SANFORD FORUM

June 1, 1947
Sanford, Fla.

Editor Sanford Herald
Dear Sir:
Having recently undergone a serious operation which brought me closer to eternity than I have ever been, makes me want to warn people, more than I have in the past of the uncertainty of Life and sureness of Death.

As I approached what the nurses and doctors were skeptical about, my recovery, I committed myself in the Lord's care, and said, as Jesus said, "Thy will be done, friends if your time would arrive as four patients did while I was in the hospital, to go to meet their Maker, would you be ready? or would you become frantic in your unmet condition."

Let's not let America be called a Christian nation only. Let's make it one. Let's forget church prejudice and really enjoy brotherly love then God call use us to win those on His side that are unmet.

Yours for a more united community.
Rev. B. W. Miller
R. 5, Sanford

Firemen Called To Rescue Tree-Climber

CHICAGO, June 5 (AP)—A seven-year-old girl became wedged in the crotch of a tree in Drorak Park yesterday, and neighbors called the fire department.

Someone told the mechanics, Paul Agnichek, 54, and John H. Kruste, 62, who took a large jack from their garage and ran to help the weeping girl, Charlene Koenig.

The mechanics, using the jack, already had partly split one branch of the tree by the time firemen arrived. Firemen helped them finish the rescue job and Charlene went home.

Battalion Chief William Hughes then suggested to the two volunteer rescuers that they save off the branch which was in danger of falling. They were half way through sawing the branch when two park policemen arrived and promptly arrested them.

Agnichek and Kruste explained about the little girl and Chief Hughes' suggestion of cutting off the branch. They were taken to the Maxwell Street station, Hughes

Plane Hopes To Make 1000 Miles Per Hour

BUFFALO, N. Y., June 5 (AP)—The Army Air Forces, its experimental tests of the X-1 rocket ship completed, still hopes to attain the plane's full speed of 1,000 miles per hour.

In an announcement made public by the Bell Aircraft Corporation last night, the Air Forces said further research with rocket craft was made possible by completion of 20 powered flights over Muroc, Calif., field, together with delivery of the second of the airplanes by Bell.

"Precisely how fast the X-1 will be flown is conjectural and dependent on many factors, but it is to be noted that the airplane is designed and powered to reach a maximum speed of 1,000 miles per hour," the Air Forces declared.

Soldier Caught After Being AWOL 5 Years

CLARKSBURG, W. Va., June 5 (AP) Deputy Sheriff Andy Casto said today he had arrested a soldier who went AWOL in September of 1942 and has lived almost five years since then in a desolate cave in the nearby hill country.

Casto identified him as Jesse W. Starr, 30, of Mount Clare, about five miles from Clarksburg, a soldier who went AWOL in Camp Reynolds, Pa. eight months after being drafted.

The deputy sheriff and a detail of MP's caught the soldier yesterday at the home of a friend at Mount Clare, where Starr turned up four days ago after deciding to abandon his life in the cave about a mile outside the hamlet.

Casto reported Starr had let his hair grow long and wore women's clothes on occasional trips into Clarksburg for supplies. Today he had a fresh haircut and a manicure.

An inspection of the cave showed Starr had enlarged the natural opening until he had a niche

Clergymen Protest Peace Time Draft

NEW YORK, June 5 (AP)—A petition was signed by 652 clergymen and religious leaders of many faiths urging President Truman and Congress to reject peace-time conscription was released today by the Rev. Dr. Allan Knight Chalmers, minister of the Broadway Tabernacle Church.

The petition also called upon the President and Congress to seek immediate agreement of all nations "to a program of universal abolition of conscription and universal disarmament with international control of the development of atomic power for peaceful purposes."

Flood

(Continued from Page One)

tern states sustained heavy property damage from rising rivers today following cloudbursts and torrential rains.

Plattsmouth, Neb., at the junction of the Platte and Missouri Rivers, was deluged, with five inches of rain yesterday and a torrent of water five and one-half feet deep swept down the city streets.

Five inches of rain also fell at Indianapolis, Ind., and Des Moines had a three-inch rainfall. Residents of Iowa lowlands were warned to be prepared to move. The weather bureau predicted river stages at some central and southern Iowa points would be about seven feet above bankful Saturday or Sunday.

about the size of a bedroom. He slept on a clump of straw and rugs.

Use refreshing, tender asparagus in a cold salad. Point up the flavor with a tart French dressing and a sprinkle of hard-cooked egg.

Bed springs can be cleaned by using a dish mop dipped in liquid wax. The wax collects all dust and prevents rust.

Legislature Ends Session Without New Tax Levies

Last Minute Attempt To Raise Money On Bottled Drinks Is Defeated In House

TALLAHASSEE, June 6. (AP)—The Florida Legislature broke off an all-day session today and adjourned its 90-day biennial session at 1:48 P. M. After agreeing to adjourn the session sine die at noon, both Houses stopped their clocks for an hour and 49 minutes to dispose of a few more matters pending before them and let the clerks clean up details which the law requires to be finished while the legislature is in session.

TALLAHASSEE, June 6. (AP)—Florida legislators came to the end of their biennial session today without settling the dispute over whether there will be enough money to carry out the broad, expensive program of state improvements they voted in 60 days. The Senate, following advice of State administrative officials that more money was needed to avert a possible deficit for the next two years, passed a bill calling for a penny a bottle tax on soft drinks. But the House turned the bill down. It backed up its Finance Committee finding that sufficient money to carry out the essential part of the program would be available by using a \$32,000,000 cash balance and depending on collections from present taxes holding their current level.

Supporters of Governor Caldwell's view that new revenue was needed mustered little support in their effort to break the committee. (Continued on Page Two)

H. Middleton Appears In Play In New York City

Herman Middleton, Navy veteran who is now seeking a degree in dramatic arts at Columbia University, recently appeared in "You Can't Take It With You," a popular play staged by veterans at Shanks Village, a settlement recently established about 20 miles from the University by the Federal Housing Authority at the former Army camp. Mr. Middleton is also a member of the Players of New York City who write and produce their own plays and during December was a player at the Madison Plaza Theater for three nights. He served in the Navy from August, 1943 to July, 1946 during which time he was stationed at Pensacola and was instrumental in producing "Navigators Holliday" which was composed by the Army's production, "This Is The Army." He wrote the "book," handled the choreography and acted in several of the parts. He graduated from Seminole High School in 1942, and for a year attended Rollins College where he was a member of the student players. At present he is home for three weeks vacation visiting his mother, Mrs. Ruby Middleton of Geneva Avenue.

Koreans Leave Red Zone For U.S. Sector

SEOUL, June 6. (AP)—A steady stream of Koreans continues to migrate from Russian-occupied northern Korea to the American sector. The U. S. Army's 84th Corps announced today that 88,882 refugees were checked in to the American sector during May. Of the total, 55,163 came from northern Korea and 1489 from Manchuria. They found food and shelter at four refugee camps south of the 38th degree parallel, geographical boundary dividing Korea, before moving farther south. The announcement said the migration was a "serious drain on the resources" of the southern zone and has "seriously affected food supplies" in South Korea.

CITY PERMIT Charles Bradford Has Obtained A License To Erect A Five Room Home

Charles Bradford has obtained a City permit to erect a five room home on Hammarlin Avenue between Twenty-fourth and Twenty-fifth Streets at an estimated cost of \$9,000. Paul Campbell is the contractor. C. E. Harrell has received a permit to erect a frame building for business purposes at French Avenue and Fulton Street. Estimated cost is \$11,000.

Investigation Of Dog Track Lobby In House Asked

TALLAHASSEE, June 6. (AP)—Rep. Sheppard of St. Johns asked on the floor of the House today that James Busey of St. Petersburg, whom he identified as a lobbyist for a dog track, be investigated by the Leon county prosecuting attorney. He said Busey had "the unmitigated gall to say to members of the House and Senate that unless we bow to his will he will kill our bills."

He declared a measure affecting a harness race track in St. Johns County had passed the House and was killed in a Senate committee after Busey had told him and his colleague, Rep. Uaina of St. Johns, that such committee action would be taken unless his demands were met. Sheppard did not say what Busey's alleged demands were. He said he wanted the investigation in order to determine the source of Busey's "power." Rep. Uaina, also of St. Johns, criticized "this damnable dog lobby by the way they handle things in Tallahassee."

Taft Says Policy Of Truman Has Increased Prices

WASHINGTON, June 6. (AP)—Senator Taft (R-Ohio) today declared President Truman has "created all the basic conditions which compel high prices." This was Taft's reply to Mr. Truman's assertion yesterday that the Republican Senate policy chief is following a "boom and bust" economic theory. In a formal statement, Taft listed a five-point program which he said illustrated "the President's inconsistent talk about lowering prices, when every policy of his administration has increased prices and is still doing so."

Three federal judges and U. S. district attorney were called before a Senate subcommittee today to tell how they concluded there were no grounds for federal action in (Continued on Page Two)

Appropriations Bill Will Not Be Signed

TALLAHASSEE, June 6. (AP)—Governor Caldwell said he will allow the record \$47,300,000 general appropriations bill to become law today without his approval. The measure calls for increased appropriations for virtually every institution, department and agency of the State government and contains \$5,500,000 in contingency funds to be spent only with approval of the cabinet Budget Commission.

Earlier in the week, the Senate rejected a motion by the Senate Finance and Taxation Committee to recall the bill from the Governor and strike out the contingency funds.

Eastern France Hit By Railroad Strike

PARIS, June 6. (AP)—Rail traffic throughout eastern France was paralyzed today as workers at the Paris Gare de l'Est and on connecting networks went out on strike in support of a demand for higher pay. The walkout, which cut off the international as well as suburban and main line traffic, added to the threat of a general railroad strike now facing Premier Paul Ramadier as a result of Wednesday night's four-hour stoppage on southeastern lines operating from the Gare de Lyon.

FLIERS FOUND

WEST PALM BEACH, June 6. (AP)—The Army Air Force at Merriam Field reported today that the last of 16 men who parachuted into a Nicaraguan jungle from a blazing Flying Fortress May 21 has been located.

Defends His Takeoff

PLANE PILOT Capt. Benjon "Lucky" Baldwin who miraculously escaped with burns and slight injuries in the crash of his DC-4 at La Guardia Field, N. Y., in which 39 persons were killed, is shown resting at a friend's home in Roslyn, L. I., New York. He denied that he has ignored the advice of the control tower operator as charged by James M. Landis, chairman of the Civil Aeronautics Board, before a Senate subcommittee. (International)

Air Force Shows Feasibility Of Bombing Bases

B-29 Squadron Lands At Giebelstadt On Flight From Azores

FRANKFURT, June 6. (AP)—The United States strategic air command has demonstrated, at least to itself, the feasibility of striking targets in Europe from offshore Atlantic bases with long range heavy bombers. The command of the B-29 squadron which landed at Giebelstadt last night was checking up today on technical details of its practice mission to Europe after a non-stop 1,700-mile flight from the Azores. Of particular interest to commanding officers was the ability of present day crews to navigate over long water distances and through bad weather to reach a pinpoint target -- and whether the big bombers could reach the target with theoretically enough fuel to return to their base.

Whatever the results of the technical analysis, observers flying with the nine-plane squadron noted the seasoned performance of the crews in fighting through murky and icing conditions then reforming over Paris and en route to Giebelstadt in light formation. The United States apparently is continuing operations at the Azores base, under an informal understanding with the Portuguese, pending a hoped for definite arrangement.

Tourist Season In Nassau Said Fine

NASSAU, Bahamas, June 6. (AP)—Nassau has just ended its best tourist season since 1938-39 with business up 83 per cent over that of 1945-46. The development board disclosed that arrivals here during the five months of the 1946-47 season, December through April, totaled 20,227. About half of the arrivals came by Pan American Airways, which alone accounted for more than 10,000 of the 14,841 arrivals by air. In the five-month period, ships brought 5,386 passengers. The top 1938-39 season was marked by the arrival of many tourist ships. The development board last season was important to the colony because many of the visitors remained for periods longer than three or four mere days.

FDR Gross Estate Is Filed As \$1,943,885

FOURTH BEACH, N. Y., June 6. (AP)—The late President Franklin D. Roosevelt left a gross estate of \$1,943,885.86 at his death April 12, 1945, the first executor's accounting revealed today at its filing in District Court Judge Burnett's court. Of the total, \$944,155.19 was received from the estate of his mother, Mrs. Sara Delano Roosevelt.

The accounting, which covered the period from April 12, 1945, to April 30, 1947, disclosed that the estate had divided to \$1,428,940.09 by the latter date through payment of debts and other expenses.

Communists Move Swiftly To Gain Control Of East European Nations; U. S. Hits Red Action In Hungary

Sharp Note Of State Department Says Russia Has Broken Yalta Agreement

WASHINGTON, June 6. (AP)—With President Truman's approval the State Department has drafted a hotly worded note to Russia, accusing the Soviet of illegal interference in Hungarian affairs. The note threatens an appeal to the United Nations.

This was learned from American diplomatic officials who said that the note is one thing the President presumably had in mind when he asserted yesterday that the United States would not stand idly by in Hungary. The note was said to make these four principal points: 1. Directly charges Soviet agents in Hungary with participation in the ousting of Premier Ferenc Nagy and other cabinet officers, the move by which pro-Soviets began to take over the government, and asserts this is a serious interference in the affairs of Hungary.

2. Charges the Soviets with breaking the terms of the Yalta agreement respecting great power protection and development of political independence in ex-enemy small nations.

3. Proposes a joint American-Soviet-British investigation of the Hungarian situation. 4. Warns that unless satisfaction is forthcoming, beginning with the reply from the Soviet Union, the United States may take the case to the United Nations. On the latter point, it has not yet been decided at the State Department whether it would be better to appeal to the Security Council or the U. N. General Assembly. The council is in session at frequent intervals but Russia has a veto there. The assembly does not meet until September in New York.

The note was completed at the State Department and approved in substance by President Truman yesterday. The draft has not been formally completed and sent Moscow because it is still under study by various diplomatic officials. The threat to take the case to the United Nations evidently reflects two points which officials are known to have considered in planning American moves in Hungary. First, the exact legal respect that the charges of grounds by which the case could be presented and kept in the U. N. are difficult to define. It is not a violation of the Yalta agreement.

Truman In Kansas City At Reunion

KANSAS CITY, June 6. (AP)—A smiling, grey-haired man in a light tan suit greeted old comrades of World War I today with a simple, "I'm glad to be here."

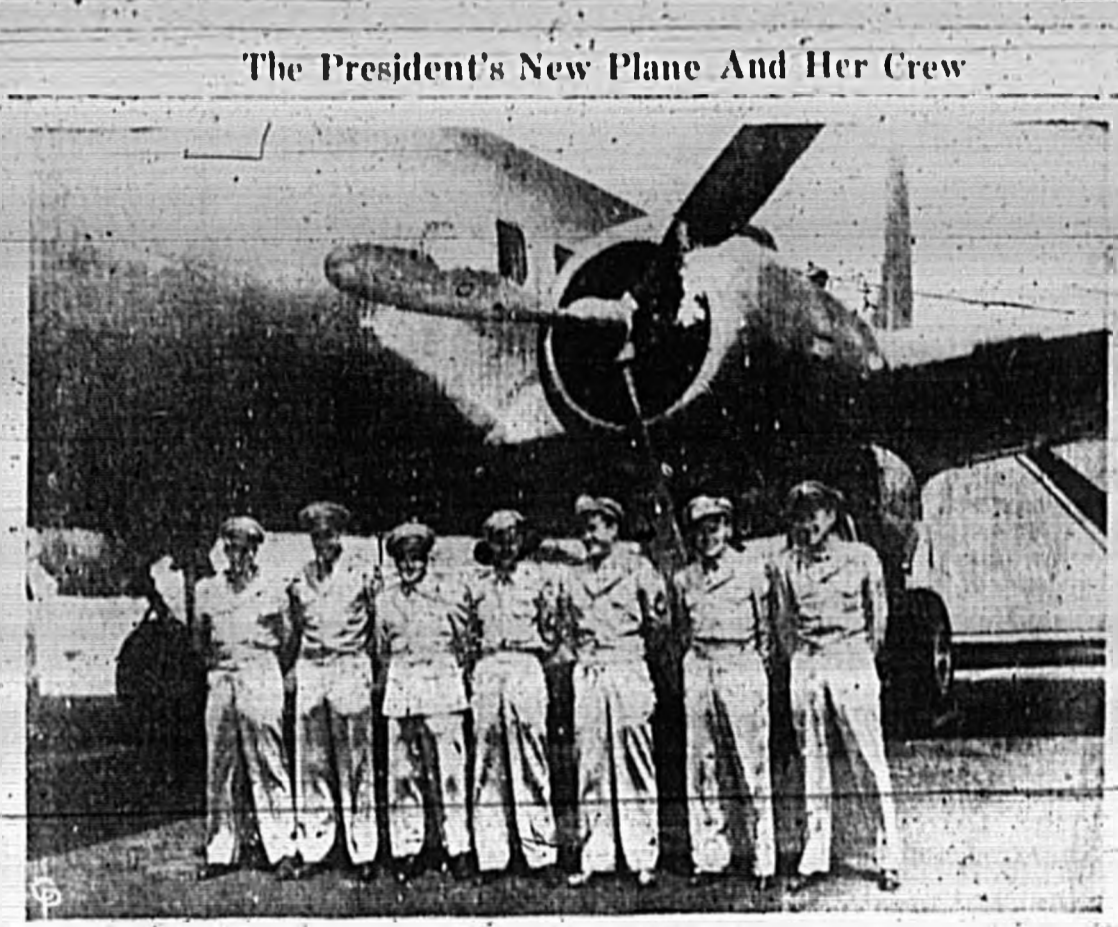

Harry S. Truman, President of the United States, thus opened the first post-war reunion of the 35th Division with which he served in France as commander of Battery D of the 129th Field Artillery. Speaking briefly at the opening business session after a flight from Washington, which he conceded was "a little rough" for a time, the President said he was saving his real speech for tomorrow night's memorial service to the division's dead of both World Wars.

3rd Anniversary Of D-day Is Observed

FRANKFURT, Germany, June 6. (AP)—American occupational troops in Germany celebrated the third anniversary of D-Day with military parades and ceremonies today. For of the soldiers who landed on the Normandy beaches in 1944 are still in Germany. The largest of the parades was at Heidelberg, U. S. consular headquarters, where troops marched in review before Maj. Gen. Withers A. Burgess, consular commander.

DIES IN SWIMMING

DAYTONA BEACH, June 6. (AP)—A. B. Leonard of Detroit, Michigan, supervisor of stations for the Grand Trunk Railroad, was found dead in the surf here today. Coroner E. A. Donovan listed the cause of death as "probable drowning" since there was no evidence of foul play.

THE CREW MEMBERS OF PRESIDENT TRUMAN'S NEW PRIVATE transport plane, a four-engine DC-6, line up beneath the huge plane's port inboard motor at Santa Monica, Calif. They are (l. to r.): Lt. Col. Henry T. Myers, pilot; Maj. E. F. Smith, co-pilot; Maj. Ted J. Howell, navigator; M. Sgt. E. A. Willard, aero-engineer; M. Sgt. C. A. Horton, radio operator and M. Sgt. Robert E. Hughes, steward. Bearing the name of "Independence," for Truman's home town, the plane will supplant "The Sacred Cow" about July. (International)

U. S. Department Of State Is Said Worried Over Indian Crisis

By JOHN HIGHTOWER
AP Foreign News Analyst
One American viewpoint on Britain's new grant of freedom for India is that a lot of American chickens are now coming home to roost.

For years the United States promoted British withdrawal from India. At last it is occurring, but under conditions which may force the United States to consider taking over some of Britain's old responsibilities.

The whole situation is becoming (Continued on Page Six)

Youth Recreational Program Postponed Until Monday A. M.

The City sponsored youth recreational program at the Sanford Grammar School is scheduled to open at 10:00 o'clock Monday morning rather than Saturday morning as formerly announced, according to Herman "Boss" Brunley, recreation director.

Twin Boys Are Born In T.B. Sanitarium

OCALA, June 6. (AP)—A Marion county mother of six children, Mrs. Perry J. Wiley, whose home is in the southeast part of the county near Umatilla, and who was admitted to the tuberculosis sanitarium at Orlando on Oct. 24, gave birth to twin boys Tuesday. The babies weighed seven pounds, six ounces and six pounds, six ounces.

Good Crowd Attends Elks Club Picnic

A picnic supper was enjoyed last evening by members of the Sanford Elks Lodge and visitors at the Elks grounds on East Second Street. It was announced today by James Rowland, exalted ruler of the lodge, who reported a fine attendance. The supper, which included chicken pilau and corn-on-the-cob, was prepared by Dr. I. T. Doss, Ralph Goodspeed, Joe Corney and Jesse Lodge. Among the visitors were Frank Caton, commander, and A. Reid Mann, adjutant, of the American Legion, Department of Florida. Exalted Ruler W. Sturman of Deland was a guest. At the Elks meeting, 14 of the members made reservations to attend the banquet of Cocos Elks next Monday.

BUS STATION

Laying of cement runways adjacent to the new bus station on Commercial Avenue is proceeding. It is expected that the station will be completed about July 1. Inside plastering is now going on. The five foot walk around the building has been completed. The overhead canopy has been fitted for fluorescent lighting fixtures with recessed reflectors.

BUS MEETING

JACKSONVILLE, June 6. (AP)—The Florida Railroad Commission has notified operators of bus companies to meet here June 10 to consider complaints from the public.

Leader Of Bulgarian Opposition To Red Dominated Government Is Arrested

By ASSOCIATED PRESS.
The chief of the opposition to Communist rule in Bulgaria was arrested today as various reports from the Balkans pictured Russia's intent on defying the Truman doctrine and moving swiftly to nail Eastern Europe permanently into her sphere.

Hungary's leading Communist and "strong man" behind the scenes, Matyas Raskoi, boasted that the Communists had established their coup in Hungary "before the United States could rub its eyes."

These developments underscored the Balkan picture: 1. Communist Premier Petru Gheza of Romania and members of his cabinet left for Belgrade, Yugoslavia, whence have come recent persistent reports that a Balkan federation dominated by Russia was in the making. The Romanians plan further concessions later in Bulgaria.

2. Nikola Petkov, leader of Bulgaria's opposition Agrarian Party, was arrested in Sofia and held for trial on charges of "conspiring against the Communist-dominated government."

3. The U. S. State Department with President Truman's approval, drafted a hotly worded note to Russia, accusing the Soviet Union of illegal interference in Hungary. (Continued on Page Two)

2500 Persons In Iowa Evacuated As Flood Rises

DES MOINES, June 6. (AP)—The 1,000 residents of Edyville, Iowa, from their homes today when a flood broke under the pressure of record flood waters of the Des Moines River. Sixteen miles downstream from Edyville, the evacuation of more than 1,500 persons from flood affected areas of Ottumwa was begun as rats and rising rivers in many parts of Iowa threatened high water marks set as long ago as 1937. Four lives already have been claimed in the state by the rising waters of this week.

Chris Des Harting, mayor of Edyville, approximately 75 miles southeast of Des Moines, said all residents were moved to the school building on high ground and to homes of friends nearby.

The town "blow" the last warning at 10:30 A. M. and with a half-hour the strike along the Minnesota and St. Louis Railroad went out at a dirt road below the town, which had held out backwaters, breached.

This permitted water to swirl into Edyville from three directions, leaving only a flooded east-west street for exit. Mayor Des Harting said the water at 10:30 A. M. was slightly higher than in a 1914 flood which did considerable damage. Sheriff Everett Orman said it was expected to rise another three feet, which would exceed the 1903 record flood level.

Powers Funeral To Be Held Saturday

Funeral services for Allen F. Powers, former resident of Maitland and Massachusetts, who was killed in an automobile accident Saturday morning, will be held at the graveside in Evergreen Cemetery at 2:00 o'clock Saturday afternoon under the direction of Campbell-Loring Post 53 of the American Legion.

All members of the Legion post are requested to assemble at 1:30 o'clock at the Erickson Funeral Home in order to attend the services. Mr. Powers, who was a veteran of World War II, is survived by the widow and three children of Lowell, Mass. He was born Feb. 26, 1920 in Massachusetts.

HYACINTH SURVEY

JACKSONVILLE, June 6. (AP)—Aerial surveys to determine the extent and destiny of water hyacinth growth will be resumed this week from Ocala.

Church Workers Aid In Taking TB Tests

Churches in Sanford are each holding a day of tuberculosis health workers from each church to assist the Seminole County Health Unit in the x-ray tests at the Unit headquarters, it was announced today by Mrs. Edward Kircher, secretary of the Seminole Health and Tuberculosis Association which is directing the voluntary work. The Sanford Women's Club has also scheduled to send volunteers for a day. Members of County Home Demonstration Clubs have been assisting the Mobile Unit in outlying areas of the county. Employer of all food handlers were today urged by Mrs. Kircher to see to it that their employees are all x-rayed.

Lions Plan Ladies Night Dance Program

Preliminary plans for a Ladies Night program and dance at the Seminole County Club were made today by the Lions Club at its meeting at the Tourist Center. Henry Witte presided. Upon the suggestion of Clyde Ramsey, it was voted to have the event during the latter part of the month, and on the same evening to install president-elect W. D. Livingston and other new officers.

J. D. McNeill reported that he is making effort to put in good condition the Lions Club signs on highway approaches to Sanford. The meeting adjourned early in order that members might obtain x-ray tests at the County Health Unit.
