

SOUTHEASTERN GOVERNORS CALL ON PRESIDENT

Hopes for the development of a state unemployment insurance program were expressed by President Franklin D. Roosevelt to governors of southeastern states who visited him at the Little White House at Warm Springs, Ga. It was the President's first conference since his arrival at Warm Springs. Left to right, seated, Eugene Talmadge of Georgia; Gov. Elect Olin D. Johnston of South Carolina, and the President. Standing: Gov. Ibra C. Blackwood of South Carolina; Lieut. Gov. A. H. Graham of North Carolina; Gov. Elect Bibb Graves of Alabama, and Gov. Dave Holt of Florida. (Associated Press Photo)

PRESIDENT VIEWS SOIL EROSION WORK ON HIS FARM

Taking time off from conferences, President Franklin D. Roosevelt drove from the "Little White House" at the Georgia Warm Springs Foundation to his farm atop Pine Mountain to inspect soil erosion prevention work. Here he is shown driving a tractor in the driver's seat of his automobile watching a tractor dig terraces to prevent the washing away of top soil. Bedford G. Tugwell, under secretary of agriculture, is in the rear seat with Mrs. Roosevelt. (Associated Press Photo)

SANTA CLAUS IS KING!

Although Christmas is nearly a month away, Santa Claus already put in his appearance at Memphis, Tenn., and what a gigantic fellow he is! Standing 25 feet high and weighing seven tons, he was crowned king and paraded a mammoth parade that formally opened the Christmas shopping season. Workmen used 7,000 pounds of plaster in building him. He will sit on a royal throne in a public square during the Yuletide. (Associated Press Photo)

50-PASSENGER FLYING BOAT SOON READY

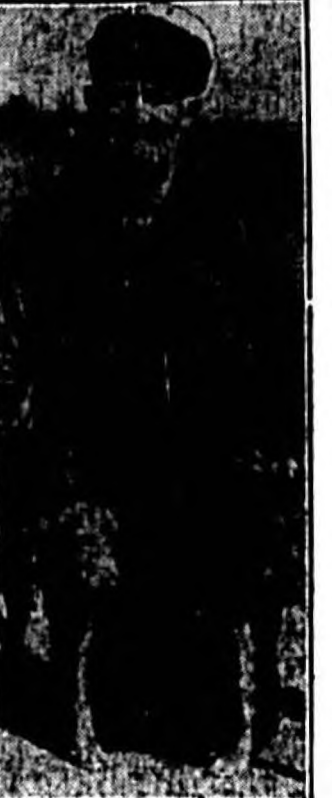

This giant "flying clipper" ship intended for transoceanic service is nearing completion at Baltimore after being carefully guarded from the public for two years. Ordered built by the Pan-American Airways, the plane is claimed to be capable of carrying 50 passengers across either the Atlantic or the Pacific at a speed of three miles a minute. It will be the largest air liner in service when it spreads its wings in December. (Associated Press Photo)

Richberg Hints That Action Would Open Thousands Of Jobs

By HARRY FERGUSON WASHINGTON, Dec. 1.—If anybody in the audience feels like marching on Washington to set up a dictatorship, the war department will be happy to act as a reception committee. Refreshments will consist of poison gas and bullets, served piping hot out of machine guns. Bring your own flowers. Military experts, commenting on the alleged plot to capture the capital next summer, pointed out recently that Washington probably is the one city in the world that is mob-proof. Major L'Enfant, who laid out the town years ago, saw to that.

AAA Economists See Farm Incomes For Year Away Up

WASHINGTON, Dec. 1.—(AP) AAA economists estimate farm income in 1934 will be \$1,000,000,000—or more—above the return in 1933. Figures compiled by economic advisors to Secretary Wallace were cited. They showed that from Jan. 1 through September 1934, the increase in returns to the farmer were \$8,100,000,000 more than for the corresponding period in 1933. Comparative figures for 1933 and 1934 were \$3,475,000,000 and \$4,313,000,000. Benefit Payments—Money paid the farmer by the AAA to adjust production were quite a factor in the 1934 rise. Through September, 1934, the producers had received \$329,000,000 in benefit payments compared with only \$75,000,000 last year. Grains, \$442,000,000 and \$500,000,000; cotton, \$296,000,000 and \$370,000,000; fruits and vegetables, \$522,000,000 and \$649,000,000; meat animals, \$752,000,000 and \$848,000,000; dairy products, \$737,000,000 and \$835,000,000.

INDUSTRY SAID MOVING TO BEAT ORGANIZED LABOR

Steel, Auto, Textile Groups Aligned To Spurn All Demands

WASHINGTON, Dec. 3.—Advertisement officials have received confidential advice that steel, automobile and textile manufacturers have made a "gentlemen's agreement" to unite in curbing the growing power of organized labor it was learned last night.

The report cast a shadow over the steady improvement in business throughout the nation and forecasts that the Christmas trade would reach the highest peak since 1929. A united front by the three major industries presents a real threat to President Roosevelt's hopes of industrial peace.

Federal officials are striving desperately to prevent the united bidding near the surface in these industries from flaring into open strife. Workers in all three are demanding elections to determine the strength of their forces for purposes of collective bargaining.

Steel leaders have notified the government they will resist employee elections to the end and carry their fight into court if necessary. They have indicated faintly they would refuse to surrender their lock to a federal board for the purpose of supervising an election of their workers.

A representative of the amalgamated iron and steel workers, an American Federation of Labor union was in Washington last night. His mission, it was said, was to demand that the national labor relations board call an election in the steel industry.

Automobile workers are dissatisfied with the reported lack of decisions made by the labor relations board for that industry. They have demanded that William Green, president of the A. F. of L., call for the resignation of the board. Green is expected to do this, this evening, with President Roosevelt upon his return from Warm Springs, Ga. Mr. Roosevelt appointed the board.

Textile privately expressed dissatisfaction of the board. Textile workers are expected to do this, this evening, with President Roosevelt upon his return from Warm Springs, Ga. Mr. Roosevelt appointed the board.

FERA Heads Seek To Eliminate Squawks

WASHINGTON, Dec. 3.—The model cost accounting system, designed to level inequalities in administrative relief costs between various states, was prepared recently by the Federal Emergency Relief Administration as an answer to demands for Congressional investigation.

FERA officials and approximately 114 persons of the industry they distribute for relief go to pay administrative costs. They consider this figure satisfactory. Any figure below 14 percent is not inconsistent with management of so large an enterprise, they say.

George McClelland, 165 senior fullback and Theodore "King King" Williams, 179 pound sophomore guard on the 1934 Seminole High School football squad were named on the All-Northwest Conference squad for 1934. It was announced from Gainesville late Saturday.

The selections came as no surprise to the scores of fans who have followed the work of the youngsters since the season first opened, for most fans are agreed that if the team had two consistently good players all year they were McClelland and Williams.

McClelland was named as a runner-up to the Tigers while Ocala placed in seventh position. Lake City was awarded first place as it received 21 points, while Leesburg totaled 20 points and London High of Jacksonville was third with 19 points.

Sanford High received 15 1/2 points for fourth place while Daytona followed closely behind with 15 points. DeLand was awarded sixth with 13 points and Ocala a close seventh with 12 1/2.

St. Augustine garnered 12 and Palatka brought up the rear with 10 points.

Although Leesburg won all of its conference games and was not tied, Lake City, with one tie with Sanford and no defeats, was awarded the championship because it played more and tougher conference teams than did Leesburg.

The Dickinson system is based on the number and strength of conference teams played. For that reason, Ocala was given seventh place ahead of St. Augustine although the Mulets actually won more conference games.

In addition to selecting the 1934 football champion the conference also voted to stage a conference baseball championship tournament prior to the state track meet to be held in Gainesville. The tournament will be played at the Palatka Azalea bowl. Seven conference teams, including Ocala, will participate in the event. It is the first time the

Columbia High's Tigers of Lake City Saturday officially were declared champions of the North-eastern Conference for the 1934 season as coaches met at Gainesville to select the winner on the basis of the Dickinson rating system.

Leesburg's Yellow Jackets, champions in 1933, were voted as runner-up to the Tigers while Ocala placed in seventh position.

Lake City was awarded first place as it received 21 points, while Leesburg totaled 20 points and London High of Jacksonville was third with 19 points.

Sanford High received 15 1/2 points for fourth place while Daytona followed closely behind with 15 points. DeLand was awarded sixth with 13 points and Ocala a close seventh with 12 1/2.

State Leads Nation In Development Of Its Aviation Fields

(Continued From Page One) fields in good condition.

Stewart said it was the hope of the aviation division to begin work on 80 additional airports once the present program is finished. He said the new plans were not entirely contingent upon the federal government's undertaking new works program this winter.

If cities will furnish materials and skilled labor, he added, the plans probably can be carried out even if the Federal Relief Administration does not provide funds for these items.

The aviation division, Stewart said, had not built airports in a haphazard manner, but had attempted to lay out several important routes and provide as many landing fields as possible along these.

He listed the principal lines as Jacksonville to Miami; Jacksonville to St. Petersburg, via Orlando and Tampa; Daytona Beach to Lake City; Miami to Lake City, via Clewiston; Jacksonville to Pensacola; Tampa to Miami and Fort Myers to Daytona Beach.

Already a speedy plane flying fairly high can traverse the St. Johns River from Jacksonville to Orlando and remain almost within gliding distance of a landing field throughout the trip.

Stewart said part of the program had been designed to promote aviation in the state.

The fields are to be made as attractive as possible. In many cases municipal recreation centers are constructed along with the airports. Tennis courts, baseball fields and to the public for its interest in and attendance at club meetings.

"It was under his control that we, the Putiloff workers, produced our first tractor, and under his control that we raised the production to tens of thousands.

MANY men of the South have been "in tobacco" for years—growing tobacco and curing it—buying it and selling it—until they know tobacco from A to Izzard.

Now folks who have been in tobacco all their lives, folks who grow it, know there is no substitute for mild ripe tobacco.

And down in the South where they grow tobacco and where they ought to know something about it—in most places Chesterfield is the largest-selling cigarette.

Harvesting tobacco and packing it in the barn for curing—and (below) a home at a Southern tobacco auction.
