

Pennsylvania Jail Is Scene Of Bitter Rioting Outbreak

Smoke, Flames Arise In Corridors When 1500 Inmates Burn Mattresses In Cells

PHILADELPHIA, Sept. 27.—(A.P.)—A flaming riot, set off by a revolt against punishment for bitter convict fights, swept Eastern Penitentiary last night, throwing the prison into one of the worst formidles in its century of history.

While smoke and flames from burning mattresses arose in cells and corridors, practically the entire prison population, about 1500 "old timers" for more than three hours kept the institution in disorder, screaming and smashing cell furnishings.

MICHIGAN CITY, Indiana, Sept. 27.—(A.P.)—Ten convicts, fleeing desperately from Indiana prison where they escaped, armed, yesterday, twice shot elaborate police traps today. The desperadoes are believed separated into three groups.

Four of the men still held captive Sheriff Charles Neal of Corydon, Indiana. They either victim whose automobiles the convicts had been released.

Plans are underway for an inquiry as to how the convicts obtained arms, marched bloodily across the whole prison grounds and cut the front door without meeting opposition from the guards, who line the high wall of the prison.

Mason Is Elected Head Of Kiwanis Club At Luncheon

C. B. Mason was elected president of the Sanford Kiwanis Club today during a luncheon at the McManis Hotel. Kiwanis members balloted upon all officers for the ensuing yearly term.

Other officers elected were: Counts Johnson, first vice president; S. F. Doudney, second vice president; Arthur Brannan, treasurer; and T. L. Dumas, Walter Coleman, J. G. Shanon, H. D. Carroll, Howard Long, Jno. D. Jenkins, and W. B. Zachry, directors.

The club voted to continue its policy of providing lunches for needy school children this year. Rev. Burke Culpepper, evangelist, who was a guest of the luncheon, delivered an address on the subject "I Am From No Mean City—Memphis."

Those present were Fletcher Bailey, C. O. Bare, Dave Boniker, Mr. Brannan, Otto Caldwell, Dr. Carroll, Mr. Coleman, Mr. Doudney, Mr. Dumas, William DuBois, H. I. Hay, Mr. Jenkins, A. B. Johnson, Howard Long, Sidney J. McManis, Howard Long, W. A. Patrick, E. B. Randall, Jr., Eddie Rawson, Judge Sharon, W. B. Zachry, John C. Leonard, Frank Jones, H. G. Harper, Jeff Bracklin, and Smith Hardin and the guest, Culpepper.

WOMAN CONVICTED

WILMOR, Texas, Sept. 27.—(A.P.)—Ruth Alwood, convicted yesterday in the death of her husband, was sentenced to not more than two years and not more than five years in the state penitentiary yesterday by Judge J. M. Alford, Jr., in special district court here.

DEATH SENTENCE IS PRONOUNCED ON DAVID LAMSON

Convicted Slaying Of Wife Maintains His Innocence Of Crime

SAN JOSE, Calif., Sept. 27.—(A.P.)—The death sentence was pronounced yesterday upon David Lamson, young Stanford University publishing house representative convicted of wife murder, after he had professed innocence in a statement to the court.

Superior Judge R. R. Syer denied a defense motion for a new trial of the case growing out of the death of Allene Thorpe Lamson, attractive Stanford U. W. C. A. secretary, in a campus slaying last May 30. Lamson then was asked to plead.

"Have you any legal cause or reason why judgment should not be pronounced on you?" asked Judge Syer.

"I am innocent, your honor," said Lamson emphatically. "That under the law and under this verdict you have no alternative but to pronounce the death sentence. I should like you and the people of this state to know that my conscience is clear before your judgment and before the judgment of God."

"I know in my heart that I have been a good husband. I loved Allene. I love you for my heart. I am a good person of law death as a punishment for my death."

Then Judge Syer read the sentence that Lamson had pronounced on his wife and that on Dec. 15 he "pleaded guilty to the crime of murder and that he was sentenced to death."

The sentence of death was pronounced on Lamson for the slaying of his wife. The sentence was pronounced on Lamson for the slaying of his wife.

It was expected the appeal would be based on grounds that the sentence was not in accordance with the law.

Lamson was charged with the slaying of his wife in a hotel in San Jose. He was charged with the slaying of his wife in a hotel in San Jose.

With a view to speeding up action Florida's petition for approximately \$25,000,000 for public works to expedite emergency employment, Representative Wilcox of the Fourth District, returned in his district today. Wilcox said he would urge the immediate approval of some 20 projects in his district, which stretches from Jacksonville to Key West.

Included among the projects is the cross-state canal, Chapman Field airbase at Miami, the overseas highway and 12 federal buildings in as many cities which have been approved by Congress.

\$73,250 Of Urschel Ransom Recovered

WASHINGTON, Sept. 27.—(A.P.)—The justice department announced today that \$73,250 of the Urschel ransom money has been located, buried in a cotton patch on a farm near Coleman, Texas. The farm was occupied by Casa Coleman, described by officials as an uncle of Kathryn Kelly, wife of "machine gun" Kelly, under arrest in Memphis. Coleman was arrested. Of the \$300,000 paid in ransom, a total of \$73,250 has been recovered.

INFLATIONISTS TOLD TO QUIET THEIR CLAMOR

Full Trial Of President's Credit Expansion Program Is Urged By Senator

WASHINGTON, Sept. 27.—(A.P.)—All advocates of inflation were urged yesterday by Senator Thomas, Democrat, Oklahoma, a leader of the campaign for cheaper money, to quiet their clamor to permit full trial of President Roosevelt's credit expansion program.

Thomas predicted the credit program would fail to lift and stabilize price levels.

The full newspapermen he would talk over his own program for a temporary cessation of the inflation agitation with leaders from whom he has come to the capital to campaign for currency expansion.

The Thomas position came sharply before Senator Hubley, Democrat, Ohio, a member of the banking committee, had said after the conference with Mr. Roosevelt that inflation by issuing treasury notes would "infect the public mind."

Hubley said that the "infectious" course of expanding commercial and business credit, and increasing the volume of currency, would "infect the public mind."

John A. Simpson, president of the National Farmers Union, in an open letter to President Roosevelt, called for "a more definite and determined policy of sound money."

Notorious Outlaw Held In Jail Cell Heavily Guarded

MADISON, Wis., Sept. 27.—(A.P.)—A notorious outlaw, held in a jail cell heavily guarded, was the subject of a report today.

The outlaw, who is believed to be a member of the "Baruch" gang, was held in a jail cell heavily guarded.

Living Costs Will Be Scrutinized By Secretary Of Labor

WASHINGTON, Sept. 27.—(A.P.)—Automobiles and gasoline will be placed high on the list of commodities from which the Labor Department makes up its cost of living figures for the United States, Mass. Francis Perkins, secretary of labor, disclosed today.

First steps in the new study of living costs which President Roosevelt recently asked to be made among government employees in Washington will be taken early next week when every United States worker in the capital will receive a questionnaire asking for information about his living arrangements. From these replies the Labor Department will determine what ought to be included in any cost of living study.

Besides being used to determine government salaries, the questionnaire replies will give the basis for determining the cost of living in any typical American city, Mr. Perkins said. Despite the fact that high-buttoned shoes have been retained until this time as one of the items on which reports are received while automobiles and gasoline have not been given their just consideration, Labor Department experts estimate that the Government cost-of-living reports have not been more than 4 percent off, compared with surveys made by more up-to-date statistics gathering agencies.

Testimony Reveals That Underworld Had Marked Anton Cermak For Death

CHICAGO, Sept. 27.—(A.P.)—Testimony that the underworld had marked the late Mayor Anton J. Cermak, of Chicago, for execution, because of his anti-criminal activities and had chosen Louis "Little New York" Capone as his executioner, was given yesterday in criminal court.

The declaration was made by a former police sergeant, Harry Miller, in the trial of Harry Lang, suspended police officer, who is charged with assault with intent to kill Frank Nitti, reputed one-time enforcer of Al Capone's empire.

Under cross-examination by defense attorney Al Marozich, Miller said a race last December at a camp where Nitti was staying had been ordered by the late Mayor Cermak two days before.

Marozich asked whether Mayor Cermak had crossed threats from the underworld.

"He did, and Miller, he told of a plan that had been made to kill the mayor because he had planned to go all out against racketeering during the World War.

Asked if the mayor had mentioned Cermak, Miller answered: "The mayor said that 'Little New York' had been important to me, and I had been important to him."

Miller said that the underworld was planning to kill the mayor because he was a "public enemy" and had been important to the underworld.

Miller said that the underworld was planning to kill the mayor because he was a "public enemy" and had been important to the underworld.

REQUEST FOR FAST SPENDING MAY BE MADE

Presidential Request For Haste Seen As Likely To Speed Up Public Works Funds

WASHINGTON, Sept. 27.—(A.P.)—So slowly is the billion and a half dollars allotted by the public works administration being put to use to spread employment that some officials believe that President Roosevelt will be called upon to make a personal request for haste.

Such a request they expect to be made by the President to the federal agencies that have received the larger part of the funds.

Large sums were allocated to the navy for new ships and construction and repair work, to the army for housing, rivers and harbor and flood control works and the reclamation bureau of the interior department for irrigation and power projects.

Other funds have gone to the bureau of public roads of the agriculture department and to a newly created sub-sistence household division of the interior department.

Non-urgent technical difficulties have arisen in some of the federal projects.

The bureau of public roads, given \$400,000,000 for highway work, has approved 1841 road projects that would involve an expenditure of \$116,200,000.

Secretary Ickes was informed yesterday, however, that at the close of business Saturday there was no road construction in progress in 17 states, although in every instance an expert one, projects had received the approval of the district engineer of the bureau of roads. The exception was Georgia where a local controversy between Governor Luttrell and the highway commission has been blocking action.

States in which no road projects were reported under construction are Alabama, Arkansas, Connecticut, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Michigan, Missouri, Mississippi, New Jersey, Oklahoma, Pennsylvania and South Carolina.

In addition, it was noted, except for a road project in a national park, neither California nor Tennessee had any federal aid highway construction.

The newly created sub-sistence household division of the interior department called a meeting of its advisory committee to determine on policy for disposal of the \$25,000,000 that has been allotted to it.

James A. O'Neal, president of the American Farm Bureau Federation, and organized agriculturists, and organized supporters of the sub-sistence household movement because of private export interests, but that it was recognized something along the line should be done.

600 Additional Men To Be Put To Work On State's Roads

TALLAHASSEE, Sept. 27.—(A.P.)—The state road department announced Monday that approximately 600 additional men would be employed within a few days to supplement those already at work repairing roads in the Florida storm territory.

These men will be 30 cents an hour and they will work 30 hours each week, C. H. Treadway, chairman, said.

Arrangements have been completed, Treadway said, for immediate use of \$700,000 of federal funds for rebuilding highways in 25 counties touched by the Labor day storm. An additional \$300,000 will be allotted by the government to purchase of materials on projects in the storm zone approved by divisional highway engineers.

The federal government also is assisting in repairing damaged schools in the storm area. This work is costing about \$200,000, Marcus Pegg, state relief director, said.

Treadway said repair work on churches would not be financed by the federal government on the grounds they are not part of public building units.

Many Festivities Are Being Planned For "Cracker Day"

Programs Announced For Affair Which Is Expected To Attract Big Through

"Come to Sanford for 'Cracker Day' is the cry that has been circulated throughout Central Florida for the past week by members of the Seminole County Federation of Women's Clubs, Elks Auxiliary and the Sanford Elks Auxiliary who have extended invitations for the celebration here Saturday through the mails, verbal conversation and through the medium of the press.

A complete day of activities has been planned for the celebration of Sanford's growth throughout the committee appointed by the various sponsors who have been working under the chairmanship of John Leonard.

The program for the day will begin at 10 o'clock Saturday morning when the grand parade of all contestants, on horses, will begin at Brady's Stable on Main Street and go through the streets of the business section, ending at the Court House where Hon. J. B. Sears, congressman-at-large of Florida, will deliver the main address of the day promptly at 11 o'clock.

At 12 o'clock the fish fry will be served. This dinner will consist of fried fish, hot grits, corn bread, rice stew, and coffee and a nominal fee. The funds derived from the sale of the dinner will be given to the Elks home for crippled children.

The "Cracker" celebration and horse riding contests will take place at the municipal Elks from 12 o'clock to 5 o'clock. The first prize will be a horse race (free for all). The others will be a horse race, boys free for all, boys' race with Shetland ponies, tournament riding, mule race, egg race, thread the needle race, popping the whip and the old fiddlers contest. Later in the afternoon a "Cracker" square dance will take place in the business section.

Judges for the horse races are V. E. Douglas, Bob King, Homer Nicholson, and Ed Melech while (Continued On Page Six)

Florida's green fruit law stands and I am out to enforce it rigidly to the best of my ability," Commissioner Mayo asserted.

Truck crops of the state are in excellent condition insofar as they are developed today, the commissioner said. He added that prospects for Florida truck crops are dependent upon the ability of the markets to absorb the state output. "It's all a question of demand and the people's ability to buy," he said.

The commissioner said the egg law was one of the most constructive pieces of legislation enacted. He added that the poultry men were singing its praises.

The American Of Soviet Recognition

Russian recognition is on the way despite all protests to the contrary. It is one of those things which is coming whether we like it or not.

Throughout all this period since the Russian revolution, this country has been like an ostrich which stuck its head in the sand.

Recognition in itself is a very simple thing. It doesn't mean that we have to become involved with Russia in any way.

It simply means that we will send them an ambassador and they will send us one, and our Secretary of State will sign a treaty for the Russian ambassador and Stalin will sign a treaty for the American ambassador.

It is not, therefore, upon any ground of principle that we make this plea. We have yet to find any friends or advisers of the Administration who feel confident of what the President's convictions are upon any problem of this kind.

So far as we can find out, most people have no objection to Russian recognition itself, if only our American diplomats can't learn to speak Russian.

What Could Have Done

Men who despair of getting ahead during the present business stagnation and the unsettled state of world affairs should take heart from the example set by E. L. Cord.

Five years ago he was buying second-hand cars from junk yards, fixing them up, making them into tricky looking contraptions and reselling them.

This would seem to be a fair attainment of success for the average man, but it was only a beginning for Cord.

From automobiles Cord next turned his attention to aviation and the industry awoke one morning to find that he had acquired Stinson Aircraft Co.

The next startling thing heard about Cord was when he acquired New York Shipbuilding Corporation.

What he has done should be a stimulant to countless business men who view the outlook with an "Oh, what's the use?" philosophy.

FACING THE TRUTH

NEW YORK HERALD TRIBUNE

This is anti-inflation week in a little later. Each time the dose must be larger, and each time it becomes increasingly difficult to stop the treatment.

The country, however, knows the course of events in Administration circles too well by this time to feel much security.

It is not, therefore, upon any ground of principle that we make this plea. We have yet to find any friends or advisers of the Administration who feel confident of what the President's convictions are upon any problem of this kind.

But that appeal, in our judgment, is so overwhelmingly against inflation that the advocates of sound money could not ask for a better one.

The President is plainly facing a major crisis in his administration. Whether the country yet realizes the fact or not, official Washington now takes a gloomy view of the N. R. A. experiment.

Notably the textiles and coal on the road to a possible return to health. Through codes it has circumvented the anti-trust acts and accomplished certain administrative reforms.

WINTER PARK, Sept. 27.—Faculty replacements and additions at Rollins College for the 49th year opening this week total 17.

Four professors, an associate professor, eight assistant professors, two instructors, and an assistant instructor are included in the new group.

Heading the list of appointments in the field of literature and English are those of Richard Burton, the poet, critic, essayist, and former head of the Department of English at the University of Minnesota.

PRICE CUTTING IS BARRLED IN CODE FOR RETAILERS

WASHINGTON, Sept. 27.—(AP)—Approval of an NRA code for retailers and druggists with their provisions against extreme price cutting was indicated yesterday by officials.

Although Hugh S. Johnson, the administrator, has been ill for almost a week from an infection that necessitated a slight operation, it was said both he and President Roosevelt had been informed fully about the proposed codes.

In his room at the Walter Reid Hospital, the administrator yesterday signed for presentation to President Roosevelt nine codes of competition and announced he expected to approve at least six more before he returns to his desk, probably on Thursday.

Codes approved yesterday were for the lime, building supplies, optical manufacturing, textile machinery manufacturing, electric battery manufacturing, women's belt manufacturing, and the knitting, braiding and wire covering machinery manufacturing industries.

After a general conference with his principal staff members that lasted until late Monday night, Johnson called others of his aides for talks yesterday.

Meanwhile, despite vehement protests in some sections to the proposed system of price regulation contained in the retail charters, the administration announced less than one-half of one percent of the expressions received voiced opposition.

Hundreds of letters and telegrams have reached the administration since it made the code public last week. Most of them endorsed the price provisions.

This section of the master retail code would prohibit sales below a price representing wholesale cost plus 10 percent.

Assistant professor of classical. Dr. M. Alberta Hawes, assistant professor of astronomy.

Dr. Edward J. Salstrom, assistant professor of chemistry. Dr. J. Stuart Campbell, assistant professor of physics.

Dr. Elizabeth W. Kingsburg, instructor in ornithology and entomology. Mrs. George C. Warner, instructor in costume design.

Richard Wilkinson, assistant instructor in psychology. Freshman Week, which began yesterday, will be continued until Sunday. First classes will be held in all departments next Tuesday, Oct. 3.

Government Wins Points In Its Case Against Jim Davis

NEW YORK, Sept. 27.—(AP)—The government, trying United States Senator James J. Davis on charges of lottery law violations

and the administrator will approve these articles as written officials would not attempt to say, but it was indicated strongly the administration believed some such ban on price-cutting would be approved.

In Johnson's absence, Kenneth M. Simpson, a deputy administrator, sought to clear the final controversy over the soft coal code by bringing the Alabama and Kentucky operators into the fold.

Simpson predicted an early agreement on wages and hours which would permit issuance by the President of an executive order incorporating their basic scales into the general code.

Officials also expressed surprise that a code for the anthracite coal industry had not yet been received. It was expected some time ago.

In an effort to clear up some reported misunderstandings of the scope of codes after they are made effective, Frank S. Pollak, assistant counsel of the NRA, issued a formal interpretation asserting that codes "become binding upon each employer in the trade or industry on the effective date stated in the code, regardless of whether or not the particular employer has signed."

However, to get the blue eagle, Pollak said, an employer must sign a certificate of compliance with his post office, asserting he has fulfilled the terms of the code.

successful yesterday in presenting evidence in the record concerning charity enterprises of the Lloyd Order of Moose, basis of the case against the Pennsylvania.

Davis is on trial with Theodore G. Miller, head of the Moose propagation department. The latter is director-general of the order and the government contends he and Miller sent lottery tickets interstate.

Successful objections by the defense kept the government from getting much of its evidence in the report, but late in the day Federal Judge Hagan admitted a letter pertaining to the 1930 charity activities of the order.

The letter, was from Malcolm H. Giles, supreme Moose secretary and was addressed to all lodges. It said Miller was preparing a fund-raising plan and asked the lodges not to transfer plans submitted by independent cooperation.

arrangement on wages and hours which would permit issuance by the President of an executive order incorporating their basic scales into the general code.

Officials also expressed surprise that a code for the anthracite coal industry had not yet been received. It was expected some time ago.

CENTRAL BANK IN CANADA OPPOSED BY FINANCIERS

Weakening of Present Structure Is Seen in Proposed Action. OTTAWA, Ont., Sept. 27.—Strong opposition to the establishment of a central bank in Canada was registered by managers of the leading banks before the Royal Commission on Banking and Finance today. The commission is currently investigating the feasibility of a central bank in Canada.

CONTROL OF MILK ENGLAND WILL BE UNDER BOARD

Central Organization Will Handle About 5 Billion Gallons

LONDON, Sept. 27.—Control of 5,000,000 a year milk industry in England and Wales is to be entrusted to a new Milk Marketing Board as a result of a bill announced here today.

Under the scheme, 99 per cent of the milk producers voted in support of the scheme for control.

The scheme to organize a central organization will handle about 5,000,000,000 gallons of milk annually is regarded as a landmark experiment for administration of which superlatives have been engaged at the time.

The bill, which is expected to be introduced in the House of Commons next week, will be introduced by the British Prime Minister.

The scheme, recommended by the National Farmers Union and approved by the Government, aims at controlling the price received by the milk producers, distributing the milk and seeing that the consumer is not damaged by the price the producers receive.

The sale from producer to retailer or distributor will have to be through the board. From the board, the farmer receives an average of 10 per cent of the price of the milk, the balance being paid to the consumer.

The board will be responsible for cheapening the distribution of milk. The board hopes to keep the rates that it will pay the farmer, while preventing the prices from rising more than a negligible amount. Producers are to be paid for farmers' level quantity and quality.

England and Wales will be divided into 11 pools. As each pool will use its milk in different ways, the prices will vary in one region where milk was mostly used for manufacturing from another region where milk was mostly sold for consumption. To even out prices in the regions there is a levy on all consumption sales which will be distributed among those who produce for

Dahlia Named For Mrs. Roosevelt Is Feature Of Exhibit

NEW YORK, Sept. 27.—A beautiful new white dahlia, the Eleanor Roosevelt, a bloom about 12 inches in diameter, is a feature of the exhibit at the nineteenth annual Dahlia and Fall Show at the Pennsylvania Hotel.

This dahlia has carried off highest honor—the gold medal awarded by the American Dahlia Society for the most outstanding bloom of the year. The show includes 200 classes for private and commercial growers.

The single specimen of the Eleanor Roosevelt, exhibited in a slender silver vase, is the only survivor of blooms from more than 400 plants of the same variety which were ruined in the recent wind and rain storms.

The exhibit, which is that of Velle & Mendham Company of Easton, Penna., also won the President's Cup awarded for general excellence.

The Golden Eclipse, a splendid yellow bloom; Aiko, a beautiful cardinal-colored flower; Yo-yo, magenta and pink, and Sentinel a deep red miniature, are among the new varieties on display.

An exhibit which is attracting special interest consists of 16 varieties of dahlias imported from England and Holland, and not yet disseminated in this country. Mr. George L. Farnum, a vice-president of the American Dahlia Society, is the exhibitor.

The distinction of carrying off the largest number of prizes went to Dr. Bruce B. Press of Rockville Center, L. I., who took 22 first prizes and two seconds.

Besides a wide range of giant dahlias, some more than 18 inches in diameter and others of the cactus, semi-cactus, incurved, recurved, migrons and collarette varieties; baby pompons, roses, sinias, asters, marigolds, orchid lilies, tritons, gladioli, delphiniums and many other fall blooms were on display.

The salaries of the five administrative posts of the Milk Marketing Board will represent a total yearly outlay of over \$17,000, which will be borne by the milk producers; manager, \$5,000 to \$7,000; accountant, \$2,500 to \$3,000; registrar and statistician, \$1,000 to \$1,250; secretary, \$2,000 to \$2,500; marketing officer, \$2,500 to \$3,000.

The highest salaries are aimed at attracting the most capable men with the widest possible experience.

Chief opposition to the scheme came from cheese and butter manufacturers.

CHICAGO, Sept. 27.—(AP)—Representatives of five major air lines yesterday announced an increased pay scale affecting pilots and co-pilots and a program providing better working conditions as they sought to eradicate unrest manifested recently regarding compensation.

Announcement of the pay agreement was made in a joint statement issued by American Airways, Eastern Air Transport, Transcontinental and Western Air, United Airlines, and Western Air Express.

The new wages will be effective Oct. 1. Pilots, company representatives said, will receive an average of \$7.50 per hour. No statement was given regarding present wage scales but the conferees said the new scale represented an increase in pay "to 250 out of a total of 375 pilots employed by the five lines." They said it would maintain an average salary of about \$7,000 annually for pilots flying an average of 18 hours a week and about \$7,700 for pilots flying 21 hours weekly.

Pilot's pay is dependent upon base pay, or guaranteed annual salary, and hourly pay. The new scale increases base pay an average of \$200. Present base pay runs from \$1,600 to \$3,000, the conferees said.

The pay controversy among pilots has been increased since higher speed planes have been introduced, thereby cutting down their average hourly flying time.

Increase In Pay Of Air Pilots To Be Put In Effect

CHICAGO, Sept. 27.—(AP)—Representatives of five major air lines yesterday announced an increased pay scale affecting pilots and co-pilots and a program providing better working conditions as they sought to eradicate unrest manifested recently regarding compensation.

PIRATES READY FOR 1ST AIR RAID

AERIAL MARAUDERS HOP OFF FROM ST. LOUIS OCT. 3

Stopping at Terre Haute and Indianapolis, Ind.; Cincinnati, Cleveland and Columbus, O., and Buffalo, Syracuse, Albany and New York, N. Y., more than 100 private pilots will take part in the first Aerial Treasure Hunt, a part of the National Charity Air Pageant, Roosevelt Field, October 7 and 8. Object of hunt, the winners of which will receive a huge silver cup and cash prizes of \$1,918, will be to find the 50-foot letters spelling L-I-B-E-R-T-Y stretched out in open fields. Bernard Macfadden, the publisher, will be host to the "pirates" during the hunt and will present the prizes at Roosevelt Field, October 7. He is shown at left above, handing over silver cup to Commander Frank Hawk (in pilot's gear), who will be chief pirate in his 14-cylinder Northrup monoplane (upper right). Mrs. Franklin D. Roosevelt (lower right) is honorary chairman of the Pageant. Map shows route to be taken by the flyers and stops they will make. (Photos by Ace Feature Syndicate)

Crooner Held Upon Murder Charge Is Jail Entertainer

JERSEY CITY, N. J., Sept. 27.—(AP)—Louis Kenneth Nau, 28-year-old Savannah crooner, scribbled "poems" and entertained his jailers with songs yesterday, seemingly unconcerned over the question of whether he will stand trial here first for the killing of Lawrence H. Shead, or be taken to Louisiana to be tried for the slaying of Sheffield Clark, Nashville, Tenn., business man.

Shead, Paterson theater manager, was killed in a fight in his apartment Sept. 10. Clark was beaten to death a week later in a New Orleans hotel. Police say Nau has confessed to both crimes.

Officials were not certain yesterday about the immediate disposition of Nau's case. In Paterson Prosecutor Kent went before the Passaic county grand jury and that body returned a first degree murder indictment.

Superintendent of Police Reyer of New Orleans arrived here yesterday and said he would ask for Nau's extradition.

Mrs. Eunice Hinte, New Orleans waitress, who accompanied Nau on the trip north in the

apartment Sept. 10. Clark was beaten to death a week later in a New Orleans hotel. Police say Nau has confessed to both crimes.

Sholtz Urges U. S. To Stress Benefit Of Citrus Juices

TALLAHASSEE, Sept. 27.—(AP)—Gov. Sholtz Monday night telegraphed Miss Frances Perkins, secretary of labor, to request that the national health recovery conference "consider the advisability of featuring a discussion that emphasizes the superior merits of fresh fruits and vegetables in all cases of deficient nutrition."

The conference will begin in Washington Oct. 6. The governor's telegram also was sent to the children's bureau of the department of labor.

"Authorities are agreed," the governor said, "on the beneficial effects of fresh fruits and vegetables, but the previous lack of continuing supplies at all seasons doubtless discouraged dietitians from more generally recommending them."

"Florida can furnish them throughout the year in greater variety than other sections of the country, and in unlimited quantities. More general utilization of her products elsewhere in the nation for rebuilding health will assist this state in increasing labor employment and improve the living conditions in families of farmers and growers themselves."

"Believing the welfare of the country will be advanced by more general use of fresh fruits and vegetables ripening here this year, Florida urges that stress be placed on their worth in diets

for malnutrition." The telegram was dispatched after representatives of the Florida Citrus exchange called upon Governor Sholtz yesterday.

UPSET SEEN AS CHANCE IN GATOR GAME SATURDAY

Wright Reminds Fans Of Possibilities Of Opening Tilt Upset

By Frank S. Wright
GAINESVILLE, Sept. 27.—Football history is dotted with games where "the little fellow" hit a chunk out of his giant opponent. Many a fan has witnessed the grim spectre of a renewal of the David and Goliath drama within the shadows of gridiron goal-posts. And it is just that sort of thing, that possible "big upset" that arouses the interest of the football world and gives the decade, which is surrounding the approaching University of Florida-Stetson football game here Saturday with more than usual opening day interest. The atmosphere is actually charged with a degree of restlessness and anxiety, and there will be moments of grave concern until the first four quarters of Florida's 1933 football season are successfully passed.

Coches Dutch Stanley and his all-around coaching associates expect to beat Stetson Saturday, as they hope in like manner to win one or twice thereafter this season, but it is no secret, no "staged issue," that Stanley and his Florida Gators fear the invasion of McQuillan and Company. There have come reports from DeLand of a small squad, a crippled squad, and a non-dangerous squad, but those who have barged around football camps in Florida have every reason to believe that when the kick-off whistles shriek on Florida Field at 3 P. M. Saturday, Stetson will have a stubborn, well-trained eleven in action, resolved to be the team that adds another spectacular chapter to the book of football upsets.

The Gators resume their night practice Monday evening and likely will work four sessions under artificial lights, finishing up the week with a brief afternoon drill Friday. Coach Stanley has labored in no easy fashion with his charges, but the tempo of the workouts probably will be softened this week as he rounds off the rough spots and gives the host of minor injuries an opportunity to mend perfectly.

It has been exactly 10 years since Florida and Stetson tangled in a football game, and it has been just 24 years since Stetson wrestled its first and last victory over the Gators. Back in 1909 Stetson took a 26-0 decision from Florida, and in the last game played by the two institutions, the Gators captured a 27-0 verdict from the Hatters. The Orange and Blue has won six of the eight games played with Stetson, one was a tie and one was a loss. Both the defeat and the no-decision affair came the same year.

Welcome Shearer, one of Coach Stanley's able set of juniors, is back at center, where he played in high school, as a freshman, and where he trained through the first weeks of last fall, only to be shifted to tackle, then to end. At every position, the 185-pound Jaxon showed himself at a marked advantage, and the Stanley-Clemons-Boyer conference that terminated with Shearer's going back to the middle of the line undoubtedly adds strength at that position. Keen disappointment prevails over the failure of Big Bill Ferruzzi, a senior, to discard the attack of malaria which gripped him some weeks ago, and it was Ferruzzi's inability to reach A-1 condition that provoked the change of Shearer. Three sophomores, Charlie Fleming, Alton Brown, and Charlie Metheny, will continue to fit themselves into the center battle, and Shearer is assured of robust competition at all times.

The somewhat spectacular play of Hubert (Orr) Scheidt, of Sarasota, may mean that he will be the only sophomore in Florida's starting line-up with Stetson, for he has been Coach Stanley's first call at left end since Shearer was transferred. But the hustling

Stetson Reports Big Increase In Its Enrollment

DELAND, Sept. 27.—Opening of the fall semester at John H. Stetson University at DeLand saw an increase of 24 percent in the combined enrollment of colleges of law and liberal arts over that of last year, according to an announcement by the registrar, C. B. Ross. Dr. Lincoln Hulley, university president, attributed the sizable increase to a strongly growing interest in Stetson in all parts of the state.

Over seventy Florida towns and cities, as well as many states of the union are represented in the student body.

The year opened with a full faculty of 48, a successful first annual summer session ending in August, marking the Golden Jubilee of the institution's establishment in 1833 as a high school. Following requests from summer school students that accommodations be provided them to continue summer school work during the winter, extension facilities will be provided the second semester according to arrangements made with Dr. Arthur C. Fleishman, formerly of Converse College. The announcement has just been made by Dr. B. F. Essel, of the department of psychology and education, head of the summer school.

Chuck Rogers, with a year of varsity experience, is far from being outside the realm of first team choice as the position is not in any sense assured for any one man. Robert Rickett's shift to right end may not be permanent, although he was used at that terminal considerably last week.

"Footie" Turner, from Mulberry, another sophomore, has shown versatility, and Line Mentor Clemons is working the rugged forward at both guard and tackle. Turner is one of the squad of this year expected to develop rapidly. Those who recall his play with the "Baby Gators" last season know that he possesses fine possibilities.

If one were to guess what line-up will start the Stetson game, he might pick Starbuck and Bernhard at the tackle; Lane and Shearer at the guard; Shearer and Capt. Davis at right end, and Capt. Davis at quarterback, with reasonable accuracy, but beyond this his opinions would be hazardous. Hughes probably will get the call over Stols at fullback, and McAlpy likely will start out at right half over Brown or Frandgold. Henderson's experience should favor him for left halfback, but Chase has shown fine form, and Beckwith is a threat. When one scans the fullback situation he finds that Stols is not alone Hughes' stern competitor but The sensational running, and blocking of Walter Middlekauff has made him a candidate for topmost consideration.

Walter Hawkins, of DeLand, prominent Stetson alumnus, advises that a 35-piece Stetson band will be here for the game, and that a booth for "Stetson Boosters" will be erected near the stadium at which point all Stetson alumni and friends will be expected to register.

Don't forget the kick-off Saturday at 3 P. M. Tickets may be purchased in Gainesville at the university athletic office, or downtown at Here: in Jacksonville at Porter's, or in Tampa, at King's

SAINTS DEFEAT DELANDBREAKING LOSING STREAK

Take Third Contest Of Series By Lopsided 11 To 1 Score

By E. H. CULLUM
St. Augustine Masted DeLand's hopes of taking four straight in the current series yesterday afternoon in DeLand by winning the third game of the series 11 to 1.

The St. Augustine boys lit into B. Letts in the first inning with a vengeance and when the dust had cleared away for round one the Saints had put over five runs on five hits. Bussey, the first batter to face Letts, sent a line drive to left field for a single, and advanced to second on Frisbee's single to almost the same spot. Singleton advanced both runners with a neat sacrifice bunt. With two on Letts thought it wiser to walk big Tom Nash, who was the next batter up, rather than risk him hitting the ball out of the park. With the bases loaded, one out, Dunbar hit one to third which made a bad job just before Robinson could get his hands on it, Bussey coming in on the hit.

With three on, Masters put one to the left field fuses for a three-bagger, scoring Frisbee, Nash and Dunbar; Erwin singled to center, scoring Masters; Chapman drew a walk; Pruitt flew out to center, and Bussey coming up for the second time in the inning went out, second to first.

B. Letts started off the second inning in the box. Frisbee, first up, got his second hit of the game with a single to right field. Letts evidently lost all control of the ball then, walking Singleton and Nash in succession. With three on and no outs, Guise relieved Letts in the box, Letts taking Fisher's place at first. Guise in going into the box at this stage of the game was facing a terrible ordeal, but he seemed to be equal to the occasion, causing Dunbar to lift a high infield fly which was taken by Porter; Masters hit one to Letts at first who forced Frisbee at the plate, and Erwin went out, third to first.

From then on to the seventh inning it was a pretty pitcher's duel between Guise and Pruitt, pitching with reasonable accuracy, but beyond this his opinions would be hazardous. Hughes probably will get the call over Stols at fullback, and McAlpy likely will start out at right half over Brown or Frandgold. Henderson's experience should favor him for left halfback, but Chase has shown fine form, and Beckwith is a threat. When one scans the fullback situation he finds that Stols is not alone Hughes' stern competitor but The sensational running, and blocking of Walter Middlekauff has made him a candidate for topmost consideration.

Dr. C. A. Fisher, of the department of business administration and economics announces a larger enrollment than at any time in the past three years.

First two weeks of the semester have been occupied with campus orientation and annual rushing by men's and women's fraternities. Student body and class elections will be held next week.

Pick The Winner

Get busy, football fans! Here's the Herald's eighth annual Pick The Winner contest to keep you busy reading our sport columns trying to dope out the winners of football games played throughout the country. The first three persons sending in the nearest number of winning teams will be awarded two tickets each to the Milane Theater, a courtesy offered by Joe L. Marepette, manager of the theater.

Just clip this list, place a "W" in the column opposite the name of the team you think will win, and send it to the Sports Editor of The Herald before noon, Saturday, Sept. 30. If you think the teams will tie, write the word "tie" opposite the teams listed.

Struck out, by Pruitt 6, Guise 3, Shirley 1. Hit by pitcher by Pruitt (Roberson), Wild pitch

London Newspaper Calls U. S. Change Miraculous Event

LONDON, Sept. 27.—"Little short of miraculous" is the description applied in the leading editorial of The Times recently to the change in the public temper of the United States from "the almost abject despondency which characterized the final months of the Hoover regime."

This change, The Times continues, "has already translated itself into concrete results too striking to be ignored."

President Roosevelt has acted, The Times says, "with magnificent disregard of all known canons of orthodox economics and methods which to European eyes must seem strange indeed. But Mr. Roosevelt, however ignorant he may be of the academic teachings of economists, does thoroughly understand the psychology of his own people."

By reviving "war-time enthusiasm" he has succeeded in six months in effecting "a real revolution in the economic structure of American capitalism and has induced the most individualistic

of nations to assent to measures of far-reaching control," the editorial writer comments.

The Times thinks the testing time has now come for the re-

covery plan—the time when people begin to take stock to see what have been the concrete results. Nobody, in the opinion of the Times can venture any dogmatic assertion as to what plan is leading. But who is in no certainty there can be hope.

Do You Know?

WHAT in Jamaica the native women do their washing by dipping the soap-soaked materials against rocks and then rinsing them in the river water. Mandy's a Jamaican Mandy at work and if you don't think wash day isn't really blue Monday in Jamaica, just take another look at Mandy's.

Government Cost Of Cities Has Gone Up By 143 Percent

NEW YORK, Sept. 29.—The cost of government of the average American city rose 143 percent between 1917 and 1931, Robert A. Crosby, executive secretary of the Chamber of Commerce of Bridgeport, Conn., told the 200 delegates to the nineteenth annual meeting of the National Association of Commercial Secretaries, which began a three-day session yesterday at the Hotel New Yorker. Mr. Crosby illustrated his story of the growth of municipal costs over a fifteen-year period with a series of charts which he said had been prepared with United States government figures as a basis. Simultaneous with the increase in city government expense was an increase in the general property tax levy per capita of 143 percent, Mr. Crosby said. During this period, he added, the average American city further increased its debt, less sinking fund, by 97 percent, Mr. Crosby said. During in net debt per capita of 93 percent. The figures indicated, he pointed out, an "utter absence of any concerted attempt to balance the budget."

South Heads 'New Deal' in Transportation With Dixie Flyer's 5-Mile-a-Minute Mark

WITH the establishment at Chicago of a new land plane record of 306.33 miles an hour by James R. Wedell of Louisiana, the old South once pictured as an easy-going land of leisure, adds leadership in the "new deal" in transportation to its modern industrial achievements. While all America is taking notice of the new trends in streamlined trains, automobiles, boats and airplanes, Louisiana's Wedell carries the modern theory of opposing air resistance to a world's record in his famous "44," a streamlined ship largely of his own design. His flight in the air peasant, held in connection with A Century of Progress, did more than direct new attention to the South's growing commercial and scientific supremacy. This is indicated by the interest which is being shown by the Dixie Flyer's achievement by engineers and scientists now busy with the problem of converting land speed records to the sleek forms of the sleek flying designs of the new era. Photo shows Wedell and his "44" in flight.

Hotel Operation Course At College Seen As Popular

ITHACA, N. Y., Sept. 29.—Graduates of the hotel administration course at Cornell University are today actively engaged in hotel management all over the world, a survey just completed here reveals. In the short time since the first students in this course were graduated in 1923 many of them have risen to positions of high responsibility in the hotel world. One graduate is supervising manager of four hotels in Philadelphia; another is employed in the restaurant of the largest hotel in the world.

partment stores in Melbourne to introduce American methods of bookery into Australia; a Japanese graduate is in charge of all the Japanese Imperial Railway hotels in Manchuria, with four big hotels and 80 or 40 inns under his supervision; one graduate is in Germany, and another in South Africa. The survey shows that, despite the economic depression and unemployment of the past four years, between 97 and 98 percent of the graduates of the course are employed. Of the 100 students who have taken the course, more than 80 percent are actively engaged in hotel work, according to Professor Howard B. Meek, who directs the course. "The insignificant percentage of unemployment among the graduates of the course is due in part," Professor Meek said, "to the requirement that undergraduates work in hotels during the summer. This year 148 of the

158 students of hotel administration are working in hotels. This requirement not only gives the student practical experience, but it makes him known to hotel managers the country over. "Other things which enable students to find their way into hotel work directly after graduation are an annual trip to New York City, during which students of the course operate a large New York hotel for a day; the operation for a day of the Hotel "Extra Cornell" in Ithaca during the school year, and the loyalty of the graduates of the course who are engaged in hotel work."

Neu Declares His Appeal To Women Caused Downfall

NEW ORLEANS, Sept. 29.—(AP)—Louis' Kenneth Neu, 26-year-old self-confessed double killer reached New Orleans yesterday from Jersey City clad in the suit of one of the men killed and the shoes of another. As he stepped from the train in the custody of two New Orleans police officers, he called jauntily to the crowd and asked them if they didn't think he was acting "pretty well for a man with a rope around his neck."

"I know it is the rope for me," he said. "I have confessed the killing of Lawrence N. Sheard at Paterson, N. J., and Sheffield Clark in New Orleans. Won't somebody crack a funny joke. How do you think I am going to keep on laughing?" In his cell, Neu blamed women for his predicament. "Hang it all, I suppose I am here because of women," he said. "You know the girls have been crazy about me, and I can't understand it. I don't want you to think
