

For Nixon's Proposals

Prompt Action Is Out

By JOHN BECKER
WASHINGTON (AP) — A closer look at President Nixon's anti-drug proposals by House and Senate members has dimmed chances for prompt congressional action.

Opponents and supporters of Nixon's program are trying to work out a compromise on a huge education bill. But strong opposition from the Constitution and the Supreme Court's 1954 decision, "Meany noted that Nixon in 1970 vetoed two bills increasing federal school aid. "Now the President is back on national television trying to convince the American people that he has changed his opinion on improving the educational opportunities of disadvantaged children," Meany said. "This is political chicanery."

Clarence Mitchell, Washington representative of the NAACP, vowed an all-out fight against the Nixon program in a telegram Tuesday to Sen. Claiborne Pell, D-R.I., chairman of the Senate committee.

Meany issued a statement Tuesday calling Nixon's moratorium proposal "a cynical attempt to reward those who said 'never,' and to undermine the moral leadership of those citizens who endeavored to comply with the Constitution and the Supreme Court's 1954 decision."

WASHINGTON (AP) — Single people have a right to freely obtain contraceptives if married people are permitted to by the state, the Supreme Court ruled today in upsetting a conviction of birth control control.

Justice William J. Brennan Jr. said that if the right of privacy means anything, it is the right of the individual, married or single, to be free from unwarranted governmental intrusion into matters so fundamentally affecting a person as the decision whether to bear or beget a child.

County Nixes Building Permit Because Of Sewers

By ANN SIECZKOWSKI
Appearing before the County Commission in its week session Tuesday, Dr. Edwin A. Anderson, retired former chief of medicine at Cape Kennedy, requested a permit to build on his property located on Lots 22 and 23, Block C, in English Estates. He said he bought the property in 1968, that it was zoned for residential use and he had obtained a building permit from the sewer problems which plague South Seminole. Dr. Anderson said he would not be in a position to use the property for his personal building plans for more than five years hence and, because of the moratorium, he is unable to sell the property.

Chuluota Plagued With Series Of Blazes In Brush

By LIZA BAKER
CHULUOTA—This community has had its share of fires, eight in the last three weeks and all near the Civic Center. A fire was extinguished by the Chuluota Volunteer Firemen Sunday night. On Monday a fire broke out at 10:45 a.m. and at 2:30 p.m. Both Chuluota trucks were on the scene in the afternoon fire and the Fire Department's fire trucks started a back fire. Without the help of the rangers, Chuluota could have been in a real trouble.

The first fire on Monday broke out at the southeast corner of the Civic Center. With four volunteer firemen and 11 residents battled the raging blaze. Fighting the second fire, which is believed to be a "Double header" fire, were 14 firemen and two residents. All the junior firemen were on the scene for the second fire, with the youngest ones directing traffic, by orders given by acting Chief William Hall. The boys did an excellent job. Curious onlookers hindered the firemen from doing their work. The firemen wish to stress the fact, should another fire break out, please obey these boys because they have been well trained in their work. The junior's have a portable pump and have it ready at a designated area to fill the truck tanks within 4 1/2 minutes. Every one who is called to the fire fighting did an excellent job. The men worked through the lunch hour and right on through the dinner hours. The Ladies Auxiliary, along with other residents, prepared sandwiches, coffee, tea and cold drinks for the fighting firemen.

With the high winds, the fire raced toward the home of Henry and Mildred Long, on Tropical Avenue. Armed with shovels and water hose, the Longs worked with the firemen to save their home. Mrs. Long said it did occur 11 orange trees and a stubborn blaze, which was determined to climb a couple of pine trees. The Longs expressed their gratitude to all the fire fighters and the Forestry who helped to save their home and stated they are going to make a donation to the Chuluota Volunteer Fire Department.

At 9 p.m. Mildred went out to shovel sand on sparks and at 9:30 she called the Chuluota Volunteer Fire Department back to help extinguish a stubborn blaze, which was determined to climb a couple of pine trees. The Longs expressed their gratitude to all the fire fighters and the Forestry who helped to save their home and stated they are going to make a donation to the Chuluota Volunteer Fire Department.

Juana Council Finding

WASHINGTON (AP) — Here are key findings and recommendations of the National Commission on Marijuana and Drug Abuse.

EFFECTS—Marijuana doesn't appear to kill or cause brain damage, and there is no evidence that it causes birth defects. It isn't physically addictive; marijuana doesn't necessarily lead to more powerful drugs. Marijuana use doesn't lead to crime and it never deter violence. Repeated marijuana use by adolescents can sometimes lead to a general lack of motivation.

USE—An estimated 24 million Americans have tried marijuana, and 6.3 million continue to use it, most infrequently. Some 600,000 smoke more than one a day.

RECOMMENDATIONS—The commission rejected legalization. But it urged elimination of fines and jail terms for smoking marijuana in private or possessing one ounce or less, while retaining felony penalties for cultivation, sale for profit or possession with intent to sell.

FINES—Fines of up to \$100 would apply to possession in public of more than one ounce, not-for-profit distribution of small amounts in public, smoking in public or disorderly conduct linked to public marijuana use or intoxication. The last would also be punishable by a jail term of up to 60 days.

DRIVING—Driving under the influence of marijuana would be punishable by up to one year in jail, a fine of \$1,000 and suspension of operator's permit for 180 days.

Zoo Plans Pointing To New Park

A REAL GO-GETTER is Jamie Brunelle, eighth grader at Lakeview Middle School, shown with his principal, Ted Barker, won a Koscot cosmetics kit by collecting \$141 in memberships for the Seminole Zoological Society. The son of society Vice President and Mrs. Larry Brunelle, he sold the memberships in his own neighborhood in only one hour.

Members of the Seminole Zoological Society have identified their efforts to keep alive the fund drive which hopefully will save the zoo and stabilize the park on a one-time basis in order that the Civic Association and/or residents in the area might be able to maintain the park site in the future.

The Board also sent a request to the Department of Transportation of the State of Florida to make a study of the curve on SR 426 at Lake Chuluota in Orlando to determine what signs, if any, are necessary to warn motorists in that area. There apparently have been a tremendous number of wrecks since the curve was restructured.

NORTH ORLANDO — Voter apathy in this municipality was again evidenced in yesterday's election in which less than a fourth of the village's registered voters went to the polls. Of the 593 electors, only 123 cast ballots.

Winner of the Group 4 seat on council, a two-year term, is Victor Miller, who is active in the drive for a new community center in the village. Miller received 78 votes to 45 cast for his opponent, John Ritch. Ritch had spearheaded a drive for police reform in the village.

Incumbent Mayor Granville Brown, unopposed, received 101 votes. There were three write-in votes for former Mayor Clifford Jordan. New term of office for the councilmen and mayor begins on April 3.

Pat Bue To Hurl A Challenge
A.P. (Pat) Bue Jr., School Board member, is expected to hurl a challenge of debate at the school board at a meeting at Lyman High School. Bue requested time on the board agenda to explain his philosophy of education and to bring this explanation to the board agenda is expected to be hurried.

FUNNY BUSINESS
THIS IS HISNAW ROBBERY!
By Roger Bollen

Editorial Comment

Congressional Redistricting: No. 1

Congressional redistricting and legislative reapportionment are two major duties imposed on the state legislature...

The word of Damocles, hanging over their heads is the knowledge that failure on their part will result in court action.

This is an eventuality which is horrible to contemplate by those politicians who know how insensitive to the nuances of political life (and rightly so) are those wearing the robes of judge.

Thus the proceedings which have already surfaced as congressional redistricting is proposed and debated are interesting primarily as this part of the two-fold duty is the less hazardous of the dual obligation.

Human nature being what it is — and that sage of mankind Abraham Lincoln has said that "human nature" never changes — "there will now take place a period when the good old political word "gerrymandering" will be worked and overworked.

The word itself dates back to 1812 when Governor Gerry was in power in Massachusetts. Redistricting took place under his political eye with a resulting district looking like a salamander to the eye of the famous painter Gilbert Stuart.

Webster defines it as dividing election districts in unnatural or unfair ways to give one political party an advantage over its opponent.

While this history and this definition is quite useful in understanding the drama which is now being presented in Tallahassee, the circumstances surrounding the redistricting must be considered.

The census of 1970 is the reason for this redistricting. Population has not only grown but it has shifted. Florida is, of course, still a very fluid area when the mobility of its residents and the changes in its economic opportunities are considered.

Residents of Seminole County are living in one of those fluid areas which will become more and more apparent when the solons take up the very much more controversial problem of reapportionment of the state legislature.

Florida's congressional representation will be increased by three. It is the carving out of districts which must be equal population-wise to meet the mandate of the law which is underway.

To do this the application of a yardstick

which will remedy the overbalancing of certain areas and make the "one-man-one-vote" theory a practical reality will not only get sharp reactions from the Congressional representatives, but will inflict changes in areas where dominance has been accepted as an unchallengeable fact.

However, to do the job as it should be done there must be sacrifice of a sort which would allow the good of ALL the state to be dominant. Our neighbors in Orange County are being

Space Age Report

Only Time Can Reward Slayton

By FRANK MACOMBER Military-Aerospace Writer Copy News Service

Deke Slayton may never fly in space, for time is running out. When historians write about America's space achievements, Deke may get only a few lines as one of the seven original Mercury astronauts...

It turns out that way, the historians will have neglected their homework, Donald (Deke) Slayton's courage and determination should be a part of any story about the nation's space program.

The other day Slayton's space flight status was restored after a 10-year hiatus which kept him bound to a desk while the other six Mercury astronauts were becoming America's newest group of heroes.

Slayton was to have been the fourth astronaut to fly in space. He was assigned to the Mercury mission following John Glenn's historic Friendship 7 earth orbital flight Feb. 20, 1962.

But space doctors discovered an irregularity in Deke's heartbeat. They grounded him, and the next Mercury mission was flown instead by Scott Carpenter in May 1962.

A former Air Force combat flier and test pilot, Slayton could have resigned from the astronaut corps and returned to active military duty. But he chose to become coordinator of astronaut activities, a job that had a long title but not really much responsibility when Slayton took it over.

Deke gave it meaning and significance, however. He became a sort of adviser and father-confessor to the little family of astronauts which was to grow to more than 50 as the years went by.

The astronauts, like other people, had personal problems which could have interfered with their duties as spacemen. But Deke saw to it that the personal lives of the corps were kept apart from their space careers.

He resigned his commission as Air Force major to take over as Director of Flight Crew Operations. This was a wider-based job, with responsibility for close-herding the activities of the astronauts, their

periodical checkouts in supersonic aircraft and directing the Flight Crew Support Division.

That meant making certain everything was in order for the astronauts in the tension-packed days and hours before a manned space mission.

As succeeding groups of astronauts were selected for the Gemini and follow-on Apollo missions, Deke Slayton's reputation as a sort of father to the spacemen began to grow.

They found out his advice usually was sound. They went to him with their troubles. Often as not he was able to help.

Now, at 68, Deke Slayton is fast becoming a legend for space flight. But by the time there is a berth for him, he may be too old to qualify for it. The last two Apollo missions, 16 and 17, are filled.

Further, because of Hanoi's leadership, and because it has so dominated the educational and economic priorities, the money and effort required have not been put into training the technically capable young men and women required in the numbers needed to run North Vietnam's factories, government offices and major farm projects.

Too many men in the government and in the factories have been political appointees. They've been "Red" but not experts. They've had the right political beliefs, but they have not been suitable for the jobs they hold.

The top posts and many of the lesser positions are filled with loyal old men. Young men with scientific and technical knowledge and organizational abilities have not been promoted.

The floods which wracked North Vietnam last year were bad enough in themselves. The results were worse because bumbling bureaucrats did not know how to handle the crisis.

And lastly, there's growing suspicion among some top Hanoi officials — Le Thanh Nghi, deputy prime minister and Politburo member, for one — that too much dialectical verbiage has been directed at workers and they've been subjected to too many propaganda sessions. This has been counterproductive.

What bothers the top officials is that the productivity and quality have declined even in those industries where there have been considerable inputs of capital and technical equipment.

Many of them were small, family-owned enterprises which were forced out of business because they just did not have the broad corporate base necessary to finance the often-huge expenditures required by new environmental standards.

Not always are just "Ma and Pa" businesses affected, however. According to James H. Evans, president of Union Pacific Corp., smelters have had to cut back operations in Arizona because of new state emission standards.

The irony is that the copper that the smelters can no longer handle is shipped to Japan for smelting, then brought back to this country. In other words, smelter workers' jobs are being exported along with the copper.

When plants close, for whatever reason, nobody gains, Evans told the Virginia General Assembly recently. Workers and their families suffer from unemployment. Communities and states lose tax money at the very time the public has to support and help retrain or relocate those who are out of work.

Yet private industry accounts for only a fraction of the pollution in this country. The bulk of it comes from agriculture, from automobiles, from sewage disposal, from large government installations and other nonindustrial sources.

Evans, whose credentials in the environmental field include chairmanship of the National Recreation and Parks Association, as well as appointment under two presidents to the Citizens' Advisory Committee on Environmental Quality, urges that attempts to achieve zero growth or zero pollution are folly.

"The answer, rather, is to keep moving ahead," he says, "for the simple reason that most environmental problems require technological solutions."

I listened carefully to Governor Askew's television address, he stated in Florida where he was moving steadily toward achieving racial balance required by the Supreme Court, and busling was only a temporary means to reach that goal, his plea was to go forward, not back to the days

Editor, Herald: I would like to thank you for giving us the tour of the Sanford Herald. It was very neat. Now I know next time when I read the paper I will realize the work and effort that was put into it. Thank you again.

Margaret L. Filis P.S. I like the funnies the best! Thanks again.

Editor, Herald: I thank you very much for letting us tour through your office. I found it to be very informative and very interesting.

Samuel Linton P.S. The newspaper looks a lot better.

Editor, Herald: Thank you very much for letting us tour the Sanford Herald. It was fascinating.

I never knew there was so much going on there every day. And those machines, wow, they are really neat. That one that reads those holes in the tape I bet it is one of the best I ever help you in a lot of ways. That giant camera though really beats all. That is just wonderful the way it works and it is so big. I'm sure it took a long time to build.

Well, thanks again. Denny Haley Grade 8, All Souls School

Belts Two Homers In Win

'Rookie' Bobby Darwin Twins' Hero

By HAL BOCK Associated Press Sports Writer Darwin's career when, after a particularly tough day, they wonder if they shouldn't be doing some other job.

That time came to Bobby Darwin in 1970, not after a tough game, but after a tough season. Darwin had been bouncing around various minor league whistlers for eight years, disguised as a pitcher. When he had an 8-4 record and 6.49 earned run average for Spokane in 1970, he decided it was time to try something else. Something like the outfield.

Now Darwin is a slugging instead of a slinger. A rookie at 29, he is making a strong bid for a job with the Minnesota Twins. The converted hurler belted two home runs Tuesday—his fifth and sixth of the spring—giving the Twins a 4-2 decision over Boston.

In other exhibition games Tuesday, Philadelphia edged Cincinnati, 2-1. Pittsburgh defeated St. Louis 5-3. The Chicago Cubs dropped Milwaukee 5-3. San Diego nipped Cleveland 4-3.

The Cubs joined ex-teammate Earl Stephenson for four eighth-inning runs to beat Milwaukee. Brock's sacrifice fly drove in the winning run as the Brewers absorbed their ninth loss in 12 spring starts.

San Diego won its fourth straight game as utilityman Rafael Robles drove in the winning run against Cleveland in an eighth inning sacrifice fly. Robles and Jerry Morales each had two singles for the Padres who pinned the loss on Gaylord Perry. Buddy Bell had four hits for the Indians.

Ken Holtzman hurled the first six innings and then Ron Klimkowski and Hollie Fingers finished up on an Oakland shut out in California. Dick Green drove in three runs with a single and double for the A's, who tagged the Angels with their fourth straight spring loss.

The Yankees got a pair of two-run homers from Rich McKenney and John Ellis to whip the Chicago White Sox. Ron Blomberg and John Callison contributed three hits each to the New York attack.

Doubles by Don Hansen and Jose Martinez sparked a five-run Kansas City rally that carried the Royals past Texas. Dave Nelson belted a two-run homer for the Rangers.

Los Angeles led Houston on Tim Johnson's seventh inning double and the game was finally halted by darkness after the 10th. Dave Roberts limited the Dodgers to one run in seven innings and Tommy John hurled five hitless innings for the Dodgers before being touched for two runs in the sixth.

Tokyo and San Francisco battled in the called after the 10th. Orlando Cepeda's two-run double started the Braves toward their victory over Montreal. Pat Jarvis and Gary Navel combined for Atlanta's six-inning heroics.

Ed Kravencik poked a two-run homer, helping the Mets beat Baltimore. Jon Matlack worked the first six innings for New York, allowing four hits and one run to earn the victory.

Admiring all the beautiful displays along the outdoor gallery were business men, housewives, mothers, grandmothers, kids, long-hairs, short-hairs, beards, goatees and beards.

Fashions included many, many bright colored pantsuits, long pants, short pants, tight pants and hot pants; also, mini skirts, maxi skirts and granny skirts, all very colorful as in an Easter Parade.

Crafts of all kinds and in large numbers displayed were metal sculptor, glazed ceramics, jewelry, hand-crafted, crocheted and weaving of many beautiful pieces in bright colors on display.

Fashion of today and yesterday were in full bloom at the recent Altamonte Spring Garden Club Fashion Show.

Modeling fashions from Mary Esther's, Sanford were Sharon Bannister, (Mrs. Russell) Demore, Mrs. June (Rudy) Heydel and Joyce Cohen. Fashions were lovely and ran the gamut from colorful Spring prints, coordinated solids, stripes and plaids of ruffles for femininity. It was a great day for all attending to get the scoop on the fashion scope. (Marilyn Gordon Photo)

Dear Abby By Abigail Van Buren

Husband's scheme may go up in smoke

DEAR ABBY: My husband is a farmer, and he is planning to plant some marijuana along with corn and other crops.

He says if he gets busted and goes to jail, he won't mind agreed a year because he could make so much money off the marijuana, it will be worth it.

We have five kids, and things have been rough for us financially. I've told him I think he's foolish to take a chance, but he says he loves me, that's the reason he wants to get rich quick. Then he can give me and the kids a better life.

I don't like his idea at all, but he says if I loved him I'd go along with it. I do love him, but I still can't. Any suggestions?

FARMER'S WIFE DEAR WIFE: Your husband's get-rich-quick scheme could go up in smoke faster than he thinks. And he stands to serve a lot more than a year if he's caught. Tell him that if he loves YOU, he'll stick to corn and other crops, and forget the marijuana.

DEAR ABBY: A woman signed "Quietly Burning" complained because her husband always called her "Hey," or "Say, there."

I'll bet anything her husband was of Scandinavian descent. My husband never called me "Honey," or any other endearing name, and we have had over 40 years of the most successful marriage possible. He's a Swede, and Swedes are naturally very cold, unemotional and nonverbal. But once you thaw out a Swede, watch out! MARRIED ONE

DEAR MARRIED: Okay. So exactly how does one go about "thawing out" a Swede?

DEAR ABBY: I am writing to correct the thinking of "George," who had qualms about his daughter's marrying a conscientious objector because in his view, a conscientious objector would not fight to protect his family.

A conscientious objector is one who, because of a deeply held moral or ethical code, or because of religious beliefs, cannot engage in any war without betraying the principles most influential in his life.

There is no requirement that he be completely nonviolent or unwilling to defend his family. There is an enormous difference between defending oneself from personal attack, and participating in the indiscriminate mass killing and destruction of modern warfare.

BETTY CANARY Deliver Us from Hands of Babes

By BETTY CANARY I have the innate mechanical ability of a beached whale and my hands are just a shade more.

Therefore, we began making plans for a back yard patio with the idea of later turning it and ourselves over to the tender mercy of a contractor. With dewy noisette we handed the contractor the drawings we had made during winter evenings before the fireplace.

What we had in mind was a simple brick floor, a short wall with built-in grill and maybe, just maybe, four posts and a roof.

The first contractor gave a cursory glance at the back yard and began to beg for a raise in a dredge—after the apple tree and the maple had been moved, of course.

The second revised our plans until they resembled Buckingham Palace—with swimming pool and interior tennis courts.

The third agreed generally to follow our drawings but at a price slightly higher than we had anticipated. What I meant was, if we wanted to pave the patio with rubies, we would have told him.

It seemed as if our patio was doomed. Then the children persuaded us that they were capable of building a patio. And why not? After all, the 16-year-old has had a course in printing, the youngest boy knows how to nail posters to walls and the girls are adept at prying can lids with a kitchen knife.

After extracting promises that no major operation would be undertaken without our knowledge and consent, we gave our blessings.

8-30-10 NBC, Hallmark Hall of Fame "Harvey" Mary Chase's Pulitzer Prize-winning play slightly compressed for television, still retains its marvelous quality, especially since Jimmy Stewart, who created the role on Broadway, and starred in its Broadway revival two years ago, is in the TV adaptation. The cast is simply superb, with Helen Hayes as Elwood P. Dowd's (Stewart) widowed sister, and Martin Gabel, Arlene Francis, Jesse White, John McGiver, Fred Gwynn and Richard Mulligan. The story is about a kind man and his best friend — an invisible rabbit — which he insists upon introducing, much to his family's embarrassment.

Daffodil Cake For Easter

By Cecily Brownstone
 Associated Press Food Editor
 If you like Angel Food Cake you may enjoy Orange Daffodil Cake even more. The latter boasts a marbled effect because it alternates white and angel food cake batter with a batter that uses egg yolks along with grated orange rind and a little orange juice.

The following recipe for Orange Daffodil Cake has a delicious Orange Butter Frosting and it's a great addition. You may want to follow our suggestion and serve the cake with fresh orange sections.

ORANGE DAFFODIL CAKE
 10 egg whites (1 1/4 cups)
 1/2 teaspoon salt
 1 teaspoon cream of tartar
 1 1/4 cups sugar
 1 1/4 cups sifted cake flour
 4 egg yolks
 2 tablespoons grated orange rind
 2 tablespoons orange juice
 Orange Butter Frosting, see below
 2 cups orange sections

In large bowl of electric mixer beat egg whites, salt and cream of tartar until whites form soft peaks. Gradually beat in sugar, continue to beat if necessary until whites form stiff, straggly peaks.
 Divide beaten egg whites into 2 equal portions. Into half of the egg whites fold in 3/4 cup of the flour.

In a small mixing bowl, without washing beater beat egg yolks until thickened and lemon color, beat in orange rind and juice. Add beaten yolks, with remaining 1/2 cup flour, to second half of beaten egg whites; fold in gently but thoroughly.

Spoon the yellow and white batters alternately into an ungreased 10-inch angel food cake pan.

Bake in a preheated 350-degree oven, on rack below center, until cake is golden brown and springs back when touched lightly — 45 minutes; if cake browns too much toward end of baking, place a sheet of foil over it. Cool cake upside down in pan, placing tube over the neck of a tall heavy bottle so cake doesn't touch any surface.

When cake is cold, with a small metal spatula loosen edges; ease from pan with fingers. Place on a cake plate and spread with Orange Butter Frosting. Serve with orange sections.

Makes 12 servings

ORANGE BUTTER FROSTING
 1/2 cup butter, soft
 4 egg yolks
 1 tablespoon grated orange rind
 1 box (1 pound) confectioners' sugar

In a medium mixing bowl beat together the butter, egg yolks and orange rind until smooth and fluffy. Gradually beat in enough of the confectioners' sugar to make a good spreading consistency.

CONFETTI RICE
 2 packages (12 oz.) rice, wild brown in the stay-perfect pouch
 1 package (16 oz.) mixed vegetables frozen in butter sauce that clings
 1/4 cup dried, toasted almonds
 Spread each fillet with 1 tablespoon sauce. Set aside remaining sauce. Place 1 pineapple spear on each fillet; roll up and secure with toothpick or skewer. Place rolled fillets in buttered baking dish and brush with melted butter. Bake at 350 degrees for 25 to 40 minutes or until fork tender. Heat remaining sauce. Arrange fillets on bed of confetti rice. Top with sauce. Makes six servings.

Sauce: In medium saucepan, melt 2 tablespoons butter. Blend in flour. Gradually stir in milk. Cook over medium heat, stirring constantly, until thickened. Add mayonnaise, parsley, mustard, pickle relish, onion, sugar and salt; blend well.

Confetti rice: Cook pouches of rice and mixed vegetables according to package directions. Turn into 8 large bowls. Add almonds; fluff with a fork.

Pumpkin Bread

By Cecily Brownstone
 Associated Press Food Editor
 The favorite recipe of Mrs. Virgil Marshall of Tulsa, Okla., is pumpkin bread. That's because Mrs. Marshall exchanges recipes with her married daughter who also lives in Tulsa and with a sister-in-law in Wichita, Kan. Not until all three have made the recipe successfully does it get their up rating.

Blanche Marshall, who has lived in Tulsa for about 80 years, was a recent visitor to New York and gave her recipe for pumpkin bread. "I have eaten lots of pumpkin bread," she says, "but this is one of the very best. It differs from the usual because of the oil and because there are no raisins or nuts in it. It slices nicely and is so good — especially warm from the oven or wrapped in foil and reheated." After trying the recipe in our test kitchen, we fully agree.

MRS. VIRGIL MARSHALL'S PUMPKIN BREAD
 1 1/2 cups unbleached flour
 2 teaspoons baking soda
 1/2 teaspoon salt
 1 teaspoon cinnamon
 1 teaspoon nutmeg
 3 cups sugar
 1 can (1 pound) solid-pack pumpkin about 2 cups
 1 cup oil
 2 1/2 cup water
 8 eggs

Grease and flour three 9-pound loaf coffee cans. In a large mixing bowl thoroughly stir together the flour, baking soda, salt, cinnamon and nutmeg. Add the sugar and stir well again.

In a medium mixing bowl gently beat together the pumpkin, oil, hot and water, add eggs. At a time, beating well after each addition.

Make a well in center of flour mixture. Add pumpkin mixture and stir just until flour is moistened.

Turn into prepared coffee cans, filling to cover second ridge or mark on cans.

Bake in a preheated 350-degree oven until cake tester inserted in center comes out clean — 1 hour.

Makes 3 loaves.

APPLE MUFFINS
 The fruit adds fresh flavor. 2 cups sifted cake flour
 1/2 cup milk
 1/2 cup sugar
 1/2 cup oil
 1 teaspoon cinnamon
 1/2 cup water
 1/2 cup milk
 1/2 cup apple (sliced, cored and finely diced), about 1 cup
 1/4 teaspoon cinnamon mixed with 1 tablespoon sugar

In a medium mixing bowl stir together the flour, baking powder, salt and sugar. With a pastry blender cut in butter until particles are fine, sprinkle in milk and water, sprinkle in apple and stir with spoon, stirring only enough to moisten. Spoon into well-buttered muffin cups, each 1/2 cup capacity, filling 2/3 to 3/4 full. Sprinkle with cinnamon-sugar mixture. Bake in a preheated 325-degree oven until a cake tester inserted in center comes out clean — 20 to 25 minutes. Serve hot. Makes 12.

COTTAGE NOODLE RING
 1 package (8 oz.) medium noodles, cooked
 2 eggs
 1 cup creamed cottage cheese
 1/2 cup milk
 Dash pepper
 1 small clove garlic, minced
 1/4 cup chopped green onions
 1/2 cup grated Parmesan cheese

Prepare 8-quot ring mold by buttering and lining with strips of aluminum foil. In large mixing bowl, beat eggs lightly. Blend in remaining ingredients. Spoon carefully into aluminum foil-lined mold. Place mold in pan of hot water. Bake at 325 degrees 30 minutes. To unmold, loosen outside ring by tapping on sides of foil. When loose all around, invert serving plate over mold. Holding both together, quickly invert. Remove foil. Still center with shrimp creole. Makes six to eight servings.

SHRIMP CREOLE
 1/4 cup each, chopped onion, celery and green pepper
 1/4 cup butter or margarine
 1 package (8 oz.) uncooked frozen shrimp
 3 cups flour
 1 can (1 lb.) tomatoes
 1/4 cup salt
 1/4 cup basil
 Dash of hot pepper sauce

Sauté vegetables in butter until just tender. Add shrimp and cook until pink. Stir in flour; then add tomatoes and seasonings. Heat to serving temperature.

Chef Likes Originality And Respects Variety

By TOM HOGG,
Associated Press Writer

Victor Filgueira-Brocieux, 43, respects originality in the kitchen," said Victor Filgueira-Brocieux, gazing pensively at an empanada, "and I also have a regard for variety."

For the uninitiated, (a) Filgueira-Brocieux is the master chef at New York's Fonda Del Sol restaurant and (b) an empanada is a pastry stuffed with beef, chili powder, olives, raisins and other goodies.

Anyone who has tarried at the buffet bar at La Fonda and sampled its assortment of empanadas and other delicacies can see what the chef was talking about.

Spinach pie may be the centerpiece at the food bar one day and chili quiche the next. Not to mention a supporting cast of delicacies such as baby shrimp, marinated cold chicken, tacos and monterey jack cheese.

Filgueira-Brocieux was born in the west pocket republic of Andorra, but has spent a good part of his 40 years traveling through Europe and Latin America working as chef and studying the native foods.

"Most every country has its own food, and it is hard to make a fair comparison," he said. "But I will say without hesitation that the two greatest cuisines in the world are French and Chinese."

"I also have an enormous respect for American food," he went on, "and I wonder why people here don't have a higher regard for it. You have some really great regional dishes like the Creole cooking of Louisiana with its gumbo and jambalaya, or the chilis of the Southwest where the Mexican influence is strong."

"In the old days when I worked on the continent," he recalled, "you had to be French to get any decent kind of a chef's job. Then I went to Paris itself and to my surprise learned that many of the chefs there were Italian."

Victor has collected recipes from the countries he has visited and developed them into creations of his own. He is particularly fond of Catalonian dishes and enjoys preparing seafood recipes picked up during his travels. He also is an expert on off-beat types of soup. Here is a specialty from his file.

1 tablespoon Parmesan Cheese
1/2 cup grated
1 teaspoon baking powder

chopped parsley or chives
In a deep saucpan place the chicken broth to boil. Melt butter over medium heat in another pan until foamy but not browned. Add sifted baking powder and flour and mix well. Add eggs one by one stirring constantly. Add cheese and blend well.

Drop egg and cheese mixture one spoonful at a time into boiling chicken stock. Let it come to boil again, then cover, lower heat and simmer seven minutes. Pour into individual soup cups and garnish with chopped parsley or chives.

HERRING, BEET AND APPLE APPETIZER
This combination is usually served as a salad, but it also makes a satisfying first course. 1 can (about 8 ounces) whole small beets
1 jar (8 ounces) herring party snacks in wine sauce or other marinated herring fillets
1 medium eating apple
1 container (8 ounces) commercial sour cream
Lettuce or watercress, if desired

Drain beets; cut each into 8 chunks — there should be about 1 cup. Remove herring from jar; cut each herring stick into 6ths or so they are about the size of the beets — there should be 1 cup. (The onion in the jar may be left in the marinade and used some other time.) Pare, peel and quarter apple; dice into about 1/4-inch cubes — there should be 1 cup. Mix beets, herring, apple and sour cream; cover and refrigerate to allow flavors to blend. Serve as is, or on lettuce on small plates and other with pump-ernickel or some other dark bread and butter, preferably unsalted. Makes 6 servings.

Into a 1-quart saucpan turn the gelatin, 1/2 cup of the sugar, the water and chocolate. Place over low heat, stirring with a rubber spatula until gelatin is melted. Remove from heat. Beat in egg yolks, then rum. In a large mixing bowl with clean beater, beat egg whites and salt until they hold stiff peaks; gradually beat in remaining 1/4 cup sugar until very stiff; fold in chocolate mixture. In a medium mixing bowl, without washing beater, beat cream until stiff; fold in spoon into dessert dishes. Chill until firm. If desired, garnish with additional whipped cream. Makes 8 to 10 servings.

Sweet Cherries Star In This 'Streusel Torte'

By Cecily Brownstone
Associated Press Food Editor
Even novices at cooking can

make this Sweet Cherry Streusel Torte. That's because there is no dough to be rolled out.

The streusel crust is a mixture of flour, sugar, baking powder, butter and egg yolk

with grated lemon rind to accent flavor, and it is pressed over the bottom and sides of a

springform pan. Some of the streusel crumbs are sprinkled over the cherry filling.

When we served this delicious company dessert at our house, we offered it unadorned.

But if you like, you may top with whipped cream.

STREUSEL TORTE
1 1/2 cups unbleached flour
1/2 cup sugar
1/2 teaspoon baking powder
1/2 teaspoon grated lemon rind
1/2 cup butter
1 egg yolk
Cherry Filling, see below

LEMON-BROILED FLANK STEAK

Subtle seasoning enhances the meat.
1 1/2 pound flank steak
1/2 teaspoon grated lemon rind
1/4 cup lemon juice
3 tablespoons salad oil
1/4 teaspoon pepper
1/2 teaspoon Worcestershire sauce

Trim any excess fat and membrane from meat. Soak steak, make very shallow cuts, 1 inch apart, across surface on both sides in a diamond pattern. In a shallow dish (large enough to hold steak), with a fork, beat together the remaining ingredients. Turn over steak in marinade; allow to stand at room temperature for 2 hours, turning several times. Remove steak and drain well. Broil close to high heat for about 3 minutes on each side; brush several times with marinade. Makes 4 servings. To carve, slice diagonally across the grain in very thin slices; steak should be rare.

Divided Seminole Looms On Horizon

TALLAHASSEE (AP) — The Senate reapportionment committee voted 8-6 today to send a new congressional redistricting plan to the Senate floor. Its first attempt was rejected Wednesday. The new compromise by Sen. Ken Myers (D-Miami) creates new districts out of Volusia, Brevard and Indian River counties; 12 southern Gulf area counties from Sarasota south; and in north Dade County.

Meanwhile, three separate plans to reapportion the state's legislative seats have been adopted by the House legislative reapportionment committee.

The legislature must reapportion both congressional and legislative seats this year based on the 1970 census.

The new Senate congressional plan, in addition to creating the three new districts, makes some drastic changes in existing ones.

It turns Ocala Democrat Rep. William Chappell's district into a 13-county superdistrict cutting a diagonal swath across the state from northern Pinellas north and east to southern Duval.

It splits Plant City and southern Hillsborough County away from the district held by Rep. Sam Gibbons, a Tampa Democrat, while adding to the district parts of northern Pinellas County, including sections of Clearwater.

It turns the present Orange County — Brevard area district into a district encompassing Orange, Osceola and parts of Lake and Seminole counties.

Sen. William Gunter, D-Orlando, said he could "live with" the plan since it preserved Orange County. An earlier plan-in-addition to one being considered by the House—partitioned it into several districts.

Chuluota's Fourth St. Partially Barricaded

Lavender said Fourth Street was paved when turned over to the county in 1960 and the county has maintained it from that year on. The streets and all rights-of-way were turned over to the county by a development company in that year.

Rev. George Downs, pastor of Chuluota Community Church, says the county road superintendent was approached about six months ago to clear the right-of-way because cars were cutting across church property from Third Court, giving the church parking area trouble with loose sand and church members were getting stuck. A native of the area says Fourth Street has been used for 60 years or longer.

OK Purchase Of Land, Buses Board On Spending Spree

By HILLSCOTT

The School Board went on a spending spree Wednesday and voted to "shell out" an estimated \$300,000 for South Seminole property and an additional \$75,000 to buy 10 school buses in disregard of the recommendations of the administration to purchase six conveyances.

Walter Teague, school finance officer, cautioned the board that it would spend \$2 million more than it takes in and warned that the board's contingency account is being depleted rapidly.

But, the words of Teague fell in deaf ears as the board, acting at the insistence of Dr. Stuart Culpepper and Ray Slaton, voted to spend school funds even if it is necessary to borrow funds to aid in the purchase of 60 acres of land.

On a motion by Culpepper, the board voted to authorize the land purchase for future school sites after Robert Poole, Eastbrook PTA president, brought proposals for five parcels of land in the South Seminole area, which he said could be purchased at prices ranging from \$5,000 to \$6,000 an acre.

Slaton seconded Culpepper's motion to authorize the land purchase and Culpepper advised the board to use whatever method is needed to acquire funds to buy the property.

This brought on a remark from Teague, who advised, "You're using up your contingency account."

In reply, Culpepper laughed and commented, "One day we will have to live within our budget."

In a second swift action, the Board on a motion by Slaton and seconded by Culpepper, voted unanimously to spend \$75,000 to buy 10 school buses.

High Carlton, supervisor of services, advised he had requested only six buses but Slaton and Culpepper insisted on purchasing vehicles and the motion passed.

Teague, by then was in a state of confusion and cautioned, "We had \$425,000 in contingency before tonight's actions."

"You are spending \$2 million more than we will take in," he added.

Carlton Bentley, Lyman High Principal, asked if the lack of funds to carry over to next year will mean a cut in programs and the answer from Teague was yes.

Utility Co. Purchase Approved

By MARION BETHEA

ALTA MONTE SPRINGS — Mayor Lawrence Swofford has been authorized by City Council to negotiate for the purchase and acquisition of Spring Valley utility plant at a figure approximating \$100,000.

Further, the mayor is to present recommendations next week for modification of out of town rates for both sewer and water to be applied to the existing rates.

City Engineer Harold Radcliffe told council that the plant has a projected revenue of \$45,000, with a \$10,000 surplus each year.

Radcliffe estimated the plant will be paid in less than five years. It was stated that a proposal was made to the city by the plant owner citing a cost of \$125,000 which includes four acres of land and rental stables which are leasing for \$1,800 yearly.

Radcliffe said that with other proposed pipe connections there would be a total investment to the city of approximately \$150,000. It is Radcliffe's contention that the acquisition of the plant is "financially attractive."

Mayor Swofford concurred, noting that the city can operate it at considerably less cost than the present operators since they will not need all of the personnel at the plant.

Although a dissenting opinion was registered by Councilman Helen Keyser, council tentatively approved preliminary plans for San Sebastian Units three and four, which are located west of the Wekiva River.

Mrs. Keyser contended that there was already too much traffic generated on SR 434 without compounding it in further development of the area.

Mayor Swofford agreed, but went on to say that there is objection upon her part to further apartments, others object to too many homes and yet these are necessary with the population increase to this area. Mayor Swofford elucidated that the development will not have a street frontage on SR 434.

Grocery Prices Zoom; Lead Overall Cost Hike

WASHINGTON (AP) — The biggest jump in grocery prices in 14 years last month triggered the sharpest rise in overall living costs since before President Nixon imposed economic controls, the government reported today.

The Consumer Price Index, measuring typical family living costs, rose five-tenths of one per cent in February, the largest increase in nine months, the Labor Department's Bureau of Labor Statistics said.

Grocery prices, which include a number of items that are not subject to federal price controls, soared 1.3 per cent for the greatest one-month increase since March of 1958, the report said.

The report followed the resignation of three AFL-CIO members of Nixon's Pay Board, who charged the government was rigidly holding down wages while letting prices continue to climb.

The bureau also reported that average weekly earnings of some 45 million rank-and-file workers rose 35 cents a week to \$130.27, but that purchasing power declined 24 cents because of the rise in consumer prices.

The February boost pushed the price index up to 123.4 per cent of its 1967 average. This means it cost \$12.38 last month for every \$10 worth of typical family purchases five years ago.

The February increase was the greatest since a six-tenths of one per cent rise last June, two months before Nixon imposed a 90-day wage-price freeze which was then followed by Phase 2 controls.

The bureau said that, so far in the four months of Phase 2, living costs have risen at an annual rate of 4.9 per cent, greater than the 4.1 per cent rate in the six months before Nixon's August economic freeze.

Prices had been held to an annual rate of 1.7 per cent during the rigid three-month freeze that preceded the looser Phase 2 controls.

Prices hikes in February included two-tenths of one per cent for housing, four-tenths each for clothing and medical care and one-tenth of one per cent for recreation.

A steep rise in meat prices, it said, accounted for about 70 per cent of the big rise in food prices.

Fresh fruits and vegetables also rose considerably. Dairy products rose instead of declining as usual in February.

Students Aid Zoo Society

By JANE CASSELBERRY

Membership packets are being distributed this week to volunteers at Seminole, Lyman and Oviedo High Schools who have agreed to solicit five or more new members for the Seminole Zoological Society.

In soliciting the aid of the student volunteers in saving the animals of the Sanford Zoo, Nelson tells it like it is, using language the younger generation can understand. "We need bread to build their bed!"

The cosmetics are part of the \$10,000 in merchandise contributed to the Zoological Society's fund raising drive by Glenn Turner Enterprises in addition to a like cash donation.

Everyone soliciting five or more members hips totaling \$50 or more is eligible to receive the prizes with the exception of the scholarship, which is for high school students only.

To aid in its efforts to relocate the Sanford Zoo, which is being closed by the City Commission, the Zoological Society is conducting a 90-day membership drive with a goal of 5,000 members.

Membership has quadrupled in the past three weeks and is now just short of 300 members. It is expected to reach 1,000 by April. A fund raising drive to solicit donations will follow the membership drive.

Support is being sought in surrounding counties as well as Seminole, and their residents also will benefit from the new improved zoo.
