

Testimony Reveals Deputy Was Aiding Escape Of Convicts

Two Women Held With Stephenson In Death Of Jenkins Relate Identical Accounts

Testimony was disclosed today that Deputy Sheriff Chris Stephenson, who has been held in the Lake County jail without bail since Tuesday, charged with the murder of Homer Jenkins, notorious gambler and roadhouse operator, had been aiding Jenkins in an attempt to escape from the state just prior to the shooting.

This information was given to State Attorney Hunter of Lake county who was called to the jail by Mrs. Homer Jenkins and Mrs. Bonnie Holland, a friend, both of whom are held on charges of aiding and abetting the escape of the slain man. The women both told the same story of the killing and were reported as being eager to assist in the prosecution of Stephenson.

According to Mrs. Jenkins, the slain man's brother called at the Blue Chip, a gambling resort on the Orlando Road near Elder Springs, before daylight on Monday morning and informed her that Mr. Jenkins, who had escaped from a Fort Pierce jail where he was being held on a charge of highway robbery, was hiding with two convicts in the woods near Oviada. They wanted help and asked that Mrs. Jenkins join them at once. Mrs. Jenkins declared that Stephenson, who she said to have spent the night at her house, together with her sister and Mrs. Holland left immediately for Oviada, with the intention of assisting the men to escape from the State.

After picking up Jenkins and the two convicts, they drove by a tunnel about way to the Wekiva bridge and crossed into Lake county, according to Mrs. Jenkins. (Near Sorrento the party stopped and bought whiskey and an argument began between Jenkins and Stephenson over Jenkins' desire that his wife accompany him out of the State. Stephenson was said to have objected to the plan. The argument continued until about noon when they had reached a spot between Tavara and Leeburg. Mrs. Jenkins said that Stephenson drove off the main road toward the lake and ordered the women and the two convicts to get down the road some distance as he had something to say to Jenkins.

About 10 minutes later, Mrs. Jenkins said, they were started by six pistol shots, and upon running back to the spot where they had left the men, Stephenson was seen standing over the body of Jenkins. (Continued on page 2)

W. A. Zachary Back From Kiwanis Meet Held In Milwaukee

Reporting one of the most interesting and entertaining conventions ever held by the Kiwanis International, Sanford Kiwanis Club's official delegate, Mr. W. A. Zachary, returned to the City last night after a 10 day visit to the Middle West, including the four day convention held at Milwaukee, June 23-27.

Mr. Zachary joined a group of State delegates, including Governor Doyle Carlton, at Jacksonville, and the party arrived in the Wisconsin city in time for the opening activities. Over 2000 Kiwanians were present at the annual affair, with the Florida delegation numbering around 150.

TWO OHIO FLIERS NEAR ENDURANCE RECORD IN PLANE

172-Hour Record Will Be Passed Tonight Plane Is Still Aloft

CLEVELAND AIRPORT, July 5. (INS)—Two habituated ex-army aviators, Byron K. Newcomb, and Roy K. Mitchell, pressed on toward a new endurance flight record today, with victory just over the horizon.

They passed the 172-hour mark at 12:38 A. M. (Eastern Time) and if they can keep their big blue monoplane, "City of Cleveland," aloft until 10:30 A. M. tonight, they will establish a new endurance flight record.

Sheer grit and determination, such as one might expect from a pair of ex-army aviators, kept the endurance flight aloft during one of the worst thunderstorms in months, one which forced down and wrecked the first refueling plane. Another has replaced it.

The fliers are carrying on with a plane whose fuselage is badly battered by supply bags from the refueling swishing against it. For that reason Newcomb and Mitchell dropped a note saying they did not wish to refuel any more than they have in because of the strain on their plane.

The next refueling has been set for 2 P. M. Everything went off in fine shape on the first refueling contact between the new tender plane and the "City of Cleveland" this morning.

Keen rivalry between the huge tri-motored pullmans of the air and the smaller single-motored airplanes for the favor of the public was revealed today as the prime reason for the endurance flight of the "City of Cleveland," which has only one motor.

Dale Dwyer, a member of the refueling crew and chief mechanic for the Stewart Aircraft Company, which is sponsoring the flight, told of the reason for the flight in an exclusive interview with the International News Service.

"There is keen competition at the Cleveland airport," said Dwyer, "between the tri-motored planes and the single-motored planes. Because the three planes covered by the three motors are bulkier and built on larger lines than the single-motored machines, there has been a tendency among the public to accept them as more stable and making for greater safety."

Two Rum Runners Shot,
Captured By Agents

DETROIT, July 5. (INS)—Two rum runners were wounded and captured and liquor valued at \$120,000 seized by coast guardsmen following attempts of the smugglers to turn the dry blockade here. Three other members of the rum running crew were also captured.

Port Hemia was shot in the foot and Alfred Lefromment received a flesh wound when Chief Boatman's Mate J. T. Hagloze of the coast guard crew seized the rum lugger just off Fighting Island. Lefromment made a spectacular escape by jumping overboard and swimming more than a half mile to the Canadian shore.

Conan Doyle, Famed Spiritualist, Is About To Die He Says In Message

LONDON, July 5. (INS)—Announcing his belief that he is about to die, Sir Arthur Conan Doyle, famous creator of Sherlock Holmes, and now a leading spiritualist, in a message to his "own generation" urges them not to "own death." He said he is convinced there is a "personal survival after death."

"We are about to die," you and I," says an extract from his remarkable message. He adds: "My age is just 70, and I suppose the average would give me five more years. It may be 10 or it may only be one. Who can say? But you and I are suffering from a wasting and incurable disease called old age and there is but one cure for it."

HELEN WILLS RETAINS TITLE AS TENNIS ACE

"Poker Face" Defeats Countryman To Win Wimbledon Cham- pionship In Fine Style

WIMBLEDON, Eng., July 5. (INS)—Playing in true championship style, Miss Helen Wills successfully defended her singles title in the Wimbledon championship by defeating her fellow Californian, Helen Jacobs, 6-1, 6-2, in a stirring match.

Although Miss Jacobs, who made the first all-American final in Wimbledon's history possible, gave the world's premier woman player a glorious battle, it was all in vain. "Queen Helen" was unbeatable today. She was superb in every department of the game. She used every stroke in her versatile bag with deadly effectiveness to prevent "Helen the second" from becoming "Helen the first."

Her single, always powerful, was augmented by a mighty variety of smashing drives, perfectly timed placement shots down the base-line and an invulnerable backhand.

Both players received a tremendous ovation when the match was over. Miss Wills for again winning the championship, Miss Jacobs for putting up a battle which was much closer than the score indicated.

Miss Jacobs won the first game of the first set on her service. Miss Wills was returning the ball too hard, frequently driving out of bounds. Miss Wills found her stride in the second game, winning on service, and then broke through Miss Jacobs' service in the third to win a set.

She followed by taking the fourth after Miss Jacobs had forced it to deuce. Miss Jacobs gave a glorious exhibition in the fifth game winning her points with a beautiful forehand smash on Miss Wills' backhand but the latter won the game after deuce by coming up to the net.

Miss Wills took the sixth after Miss Jacobs staged several rallies but lost out in the volleying duels that followed.

The seventh game was a great exhibition of how tennis should be played. Sir Walter Jacobs prevented Miss Wills from making the set point by bringing the score back to deuce after all had been reached. After reaching all point for the seventh time, Miss Wills finally put over the winning point by maneuvering Miss Jacobs.

President Will Fish On Week-end Vacation

WASHINGTON, July 5. (INS)—President Hoover will go to his fishing camp at the head waters of the Rapidan River in the Shenandoah National Park, Virginia, this afternoon and will not return to the White House until Monday. With him will be Mr. Hoover and their son, Herbert Jr., who came on from California last week.

The President spent the Fourth at the White House and last night witnessed from the south porch the sham battle in the air over maneuvering ground troops at the monument grounds.

During the afternoon the President walked to the slips, where he is usually seen in baseball games in progress and saw three of them. As interest lagged in one, he would stroll to another. He was recognized by only a few of the several thousand spectators intent on the game.

Alleged Members Of Capone Gang Are Held By Paris Cops

PARIS, July 5. (INS)—Two alleged members of "Scar Face" Capone's Chicago gang, were arrested here today by the United States Secret Service. According to the officials the two prisoners are preparing to attempt to sell worthless American stock in an alleged securities scheme. The men were booked as William Maccherry, aged 50, and Victor Luster, aged 30, alias Robert Miller. They were arrested in a fashionable hotel in the Champs Elysees.

It is rumored the alleged gangsters came to France from America when it became "too hot" for them in Chicago, following the arrest and sentencing of Capone himself in Philadelphia. Capone is now serving time in a Pennsylvania prison, having been found guilty of carrying concealed weapons.

Maccherry came in Paris first. Immediately after his arrival in a merry lambers in the night clubs and cafes of the Montmartre, his presence was shown to the Parisian police who co-operated with the American Secret Service agents in keeping him under surveillance. If Maccherry knew he was being watched he gave no sign.

Two Strikers Are Shot In New Orleans After Night Of Wild Rioting, Stoning

NEW ORLEANS, La., July 5. (INS)—Two strikers were shot and probably fatally injured by police today, following a night of rioting between street car strikers and strike breakers.

The men were shot and injured during an attempt by the street car company to resume operation after being closed down for three days by a walk-out of 1,200 employees.

The first car to leave the barn this morning was without passengers except police and strike-breakers armed with riot guns and pistols. It went for several blocks and then returned to the barn with its windows shattered.

The second car met with a shower of bricks, and police hurried fire into the crowd which hurled the bricks, and two of them fell to the ground seriously injured.

This disaster followed a night of rioting and stoning of motorists without the biggest outbreak of violence since 1901. Street car employees went out on a strike today in this week.

A laborer was shot and seriously wounded when 500 workmen attacked an almost equal number of strike breakers. There were many discharges of firearms during the night, and many persons were injured, though not seriously.

For hours after that automobiles carrying strike-breakers were chased, and for a while traffic was held up.

Eight men were arrested as a result of the new outbreak of mob violence. Six fights club fights and five for assaults were fought during the night, and the police, led to the city, the walking mass of humanity, were helpless.

Police prepared to arm themselves with sawed off shotguns, and tear gas, in case with other outbreaks if they occur.

PEAR IS CLASSED AS HOST FRUIT IN NEW REGULATION

INSPECTOR FINDS EGGS
OF PEST IN FRUIT
PURCHASED AT STORE

TALLAHASSEE, Fla., July 5. (INS)—Pears now come under the list of fruits which are hosts to the Mediterranean fruit fly, according to Orlando, Fla., quarantine headquarters.

The other day a quarantine inspector saw some pears in the window of a grocery store in Orlando, in Lake County. The appearance of these being ripe, they were purchased a few which upon examination proved to be heavily infested with larvae of the Mediterranean fruit fly.

Placing the pears back in the nearby grocery store, the inspector had purchased them and found that the lady from whom they had come had utilized the remainder of her supply for preserving. The pears, however, had not yet been diseased.

An examination of a basket of the pears, which is something more than 100 boxes, showed that some lady had sold in some of the pears which she eventually passed to a case of her acquaintance, some of which were found in every place where peeling, cores or whole pears could be located.

White pears have been upon the list since the beginning of the fly eradication work at the instance of many Florida residents that the extremely hard and grainy varieties of pears which can be grown successfully in Florida were possible to be favored by the fly. The most popular variety, however, that the business and longness of the variety of pears from Florida in Florida is no less to the fly activities and that there must be regarded as most dangerous hosts of the fly.

Fetes Continue For Spanish Air Heroes

MADRID, July 5. (INS)—Fetes in honor of Spanish Franco and his three companions of the hydroplane Naupaka continued unabated today. Following luncheon with Queen Victoria at the royal palace, the airmen were scheduled for a round of entertainments this afternoon to be followed by a gala theatre performance tonight.

In the early hours of this morning, the aviators, accompanied by the officers of H. M. R. Eagle, the British aircraft carrier which rescued them after they had floated for a week near the Azores, visited the popular Rosales Cabaret to sing and dance. They were wildly cheered by the merry-makers, and deluged with requests from pretty beauties for the honor of a dance.

Officers of the Eagle are returning to Gibraltar today.

YOUTH DROWNS

JOHNSON CITY, Tenn., July 5. (INS)—The drowning of Lester Gilley, 20, in the Holston River at Kingsport, was the only fatality in East Tennessee.

BELIEF IS HELD MELLON WILL QUIT CABINET

RUMORS OF RESIGNATION
FOLLOWED BY DENIAL
WIDELY CIRCULATED;
FRICTION IS HINTED

WASHINGTON, July 5. (INS)—There was a growing belief in the Capital today that Secretary of the Treasury Mellon may not remain long in President Hoover's cabinet. Consistently rumors have been circulated of the impending resignation of Mellon and just as consistently they have been denied.

However, to some political observers it was apparent that Mellon does not occupy the same relative position of power in the Hoover administration as in those of Harding and Coolidge.

Several instances, which would indicate that the President has lowered other policies than his Secretary of the Treasury, have developed since the new administration took office and have given rise to the feeling that Mellon was not pleased with his post in the present regime.

Among the first decided changes in Treasury policy with the advent of the Hoover administration was publicity for income and corporation tax refunds.

While a long book of regulations had been issued on this subject, Mellon asked on his own initiative, following a stipulation in a bill on the appropriation bill, asking Mellon to publish a book of refunds, of the kind of the White House was even in the sitting policy.

The appointment of Robert Lovett, of Louisville, as successor to David H. Blair, commissioner of internal revenue, was contrary to the recommendation of Mellon, while some other changes of personnel were said to have been made in the Treasury.

There was a conflict of opinion between the Treasury and the White House, or State Department, as to the reduction and the French war supply debt. As to the latter the Treasury had expressed the view that the due date of the war supply debt, maturing Aug. 1, would be postponed in the respect of French Ambassador (Grand) while the latter was informed in the State Department that there was no probability of such action.

As to the reduction it was definitely stated at the office of Secretary Mellon, that there had been no consideration so far of a (Continued on page 6)

Hatchet Murder Of 5 Stirs Detroit Police

DETROIT, July 5. (INS)—Detectives investigating a hatchet murder of Benjamin Bengel and his wife and four children were working today on a theory that the family may have been victims of a racial prejudice.

Benjamin Bengel, 34, was a well-known labor leader, had failed to cure.

Discovery of a photograph of the body of a child, offered a clue to the identity of the murderer.

Also reported as significant was the finding of a woman's nightgown in the desk of a child, which was found working when he was despatched by the slayer. Detectives pointed out that in the practice of "hooking" a garment were said to be the sign of a sick person and that they were over the article of dress.

Democrats Exalt Over Attack On "Big Business" Made By Roosevelt

NEW YORK, July 5. (INS)—Democrats were exalting today over Governor Franklin D. Roosevelt's attack on "big business" at the Independence Day celebration of the new Tammany Hall building in Uniform Square.

Heard as "the next president of the United States," the state's chief executive reviewed the struggle between popular government and special privilege. This struggle, he asserted, was just as real today as it ever was.

The Governor explained that aggregations of capital such as the recent Morgan power merger presented dangers to the liberties of the people. Without wishing to prejudice the interests of any legitimate economic group, he said, it was his intention to protect the people's rights and, above all, to

Pringle Is Snatched From Chair By Last Minute State Order

STATE PRISON FARM, BAITERS, Pa., July 5. (INS)—Pringle, of New Jersey, a convicted murderer, was snatched from the electric chair here today. A few hours before Pringle was scheduled to have been sent to his doom, a state order was received that Governor Cator had granted a week's reprieve to allow further evidence to be presented in his case.

The nation based Wednesday declined to intervene in the case. Pringle's execution was set for 10:30 today. Exactly at 9:30 came word from the State Capital that the stay of execution was granted. "Thank God," said the doorman when he received the news. At the time he was in the barber's shop, having his head shaved. He previously had been reported as being on the verge of collapse. Pringle's relatives arrived here this morning.

FEW ACCIDENTS FROM FIREWORKS MAR YESTERDAY

"Safest And Saneest"
Fourth Of July Is
Observed By Nation

By International News Service
The United States observed its "safest and sanest" Fourth of July in history. This year, according to an International News Service survey, which revealed the death and injuries from the use of fireworks were considerably less than that reported in 1928 and earlier years.

Less than a score of persons were killed by fireworks, while the number of injured is not expected to total 200. In the metropolitan district of New York, a seven-year-old girl, suffered fatal burns while playing with fireworks, and a man was killed when a cannon of his own gun exploded.

The murder in New York was indirectly attributed to fireworks when one shot and killed another because a firecracker, lit by the victim, went off at his feet.

Not a single death was reported in New England, although a few persons suffered injury. Four deaths and approximately 20 injuries were reported in cities and towns throughout the Middle West.

The department's regulations that heavily with pilots who drink, officials declare that when it is known an aviator attempted or actually operating a plane while under the influence of liquor, his flying license is revoked. He added:

"One of the main questions we ask applicants for pilot's license is whether he uses alcohol."

Wolfe Appeals To Youths To Sign Up For Week Of Camp

An urgent appeal to all boys between the ages of 12 and 16 to sign up for the annual outdoor camp at Lake Winona, sponsored by the Seminole County Y. M. C. A., was announced by Mr. C. D. Wolfe, secretary, who is in charge of the camps. Mr. Wolfe is anxious to know as soon as possible about how many boys expect to take advantage of the week's outing, which begins next Monday, July 8.

Reports from the camp, near DeLeon Springs, indicate that the younger boys, numbering around 50, who have been spending the past week there, are having the time of their lives and Mr. Wolfe predicts that next week's activities will be just as interesting.

Mr. Wolfe announced that the camp is open to all boys in the County whether they are members of the Pioneer Scouts or any other group sponsored by the Y. M. C. A. A nominal fee to take care of camp expenses will be charged each member.

Visitors are allowed on Thursday and are requested to bring their own lunches as well as fishing tackle and bathing suits. Parents and friends are cordially invited to visit with the boys on that day, and a special program has been arranged.

All boys who expect to leave are asked to meet at the Coon House Monday morning at 8 o'clock, and they will be transported to the lake in a large bus. They will return to Sanford on Saturday July 13 at about 9 o'clock.

AUTOPSY UPON STULTZ SHOWS HE WAS DRUNK

Investigation Is Begun
Into Fatal Crash Of
Airplane Piloted By
Intoxicated Airman

MINNOLA, N. Y., July 5. (INS)—Dr. Alexander O. Gettler, New York, city toxicologist, reported to assistant District Attorney Phillip Huntington today that his examination of the organs of Wilmer Stultz indicated that the famous flier was intoxicated when his plane crashed, killing Stultz and two others near Roosevelt Field Monday.

In revealing this information Huntington said he is considering starting an investigation to learn whether any official was responsible for permitting him to fly with two passengers under such conditions.

"The public is asked and urged to support aviation," said Huntington. "It is asked to become alarmed. If there is any bad spot the public is entitled to know the truth and the cause of public opinion should have great weight in assisting any such effort."

By Gettler, in his report to the assistant attorney, said:

"The amount of alcohol in the brain indicates that the deceased was in an intoxicated condition at the time of death." The brain, the doctor's report stated, showed 0.12 per cent alcohol. The alcohol was ethyl grain alcohol. A large amount of alcohol was found in the stomach, the report added, "some amount" in the heart, and a "large amount of alcohol" in the liver.

The Ministry of Health's vital organs was made upon an order issued by County Judge Lewis J. Smith.

Stultz achieved international fame as the pilot who flew the Atlantic with Miss Amelia Earhart as his passenger.

Washington, July 5. (INS)—The Department of Commerce will make a rigid investigation into a physician's report that Wilmer Stultz was intoxicated Monday evening when he crashed his passenger and himself to death near Roosevelt Field, N. Y.

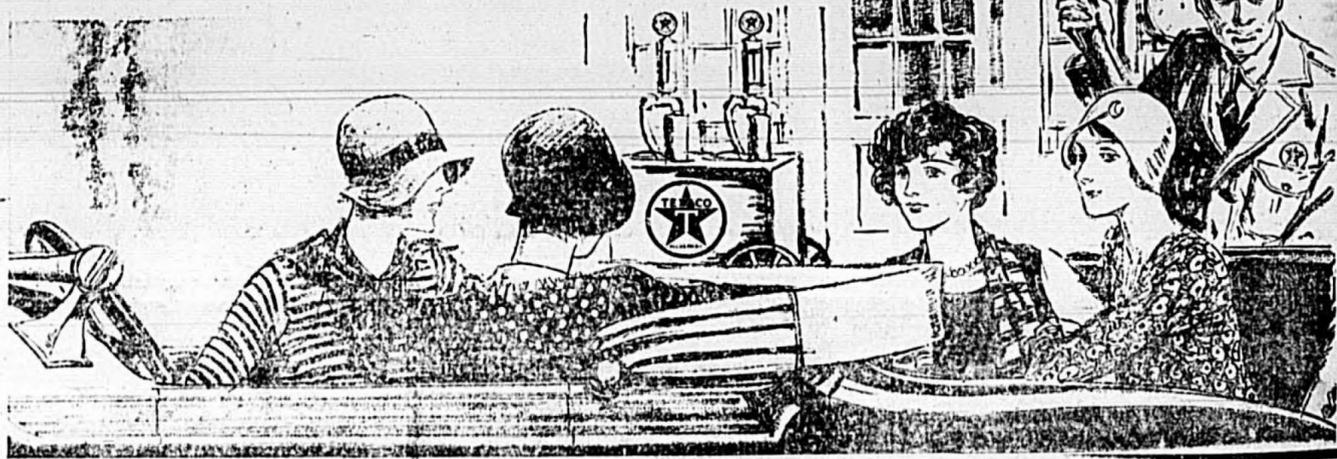

The department's regulations that heavily with pilots who drink, officials declare that when it is known an aviator attempted or actually operating a plane while under the influence of liquor, his flying license is revoked. He added:

"One of the main questions we ask applicants for pilot's license is whether he uses alcohol."

MISS MARGARET PETERS, Society Editor Residence Telephone 413

"Watch your microtones." This is the rule responsible for the amazing reproduction of voices in dialogue and spectacular song ensembles in "The Broadway Melody."

Every tone was measured in "microtones"—or, in other words, balance in terms of pitch, so small that they were measured, and hardly audible to the human ear.

Mr. and Mrs. J. N. Tolar and son, Ralph, left the first part of the week for points in California where they expect to spend several months.

Mr. and Mrs. J. K. Metlinger of Jacksonville are the guests of their daughter, Mrs. Walter Morgut, at her home in Port Mellon.

Mr. and Mrs. Herman Dresbach of Winter Garden have returned to their home after spending several days here as the guests of Mr. and Mrs. L. M. Smith.

Mr. Steve Alexander of Tampa is spending the week-end with her parents, Mr. and Mrs. B. C. Covel, 701 West Ninth Street.

Mr. and Mrs. Linton E. Allen had as their guests Thursday at their home in Fort Meade, Mrs. E. L. Miller, Mrs. C. E. E. Ives Jr. of Orlando.

Mr. and Mrs. R. E. Stevens and daughter, Dorothy, and Miss Susan Wainwright, mother of Jack Stevens, were in town Thursday where they spent the day.

Social Calendar

MONDAY The regular band of the Wesleyan Christian Church will meet at 8:30 o'clock and the input, organ and business meeting will be held at 4 o'clock.

WEDNESDAY The regular band of the Wesleyan Christian Church will meet at 8:30 o'clock and the input, organ and business meeting will be held at 4 o'clock.

THURSDAY The regular band of the Wesleyan Christian Church will meet at 8:30 o'clock and the input, organ and business meeting will be held at 4 o'clock.

FRIDAY The regular band of the Wesleyan Christian Church will meet at 8:30 o'clock and the input, organ and business meeting will be held at 4 o'clock.

SATURDAY The regular band of the Wesleyan Christian Church will meet at 8:30 o'clock and the input, organ and business meeting will be held at 4 o'clock.

SUNDAY The regular band of the Wesleyan Christian Church will meet at 8:30 o'clock and the input, organ and business meeting will be held at 4 o'clock.

MONDAY The regular band of the Wesleyan Christian Church will meet at 8:30 o'clock and the input, organ and business meeting will be held at 4 o'clock.

AMERICAN SHOWS PREDOMINATE IN PARIS THEATERS

Out-of-date Revues in U.S. Are Finding Unusual French Favor

By Alex Langlois, International News Service Staff Correspondent
 PARIS, July 5.—The Americans have certainly come to Paris, and the French show-keepers find that, although they are here in large numbers, they do not seem to be making their presence felt this season. Theatrical managers and producers cannot say as much. French plays, except for the old favorites being revived, and the standard tourist revues of the music-halls, are not appearing in the capital just now. The stage is almost entirely given over to American and British plays, or in any case, to American or English productions.

"Black Birds, 1929," an American revue with sixty-five negro performers has opened at the Moulin Rouge. Crowds are still flocking to hear the songs of "Tip-Too" at the Folies-Wagram and "Hoso-Marie" celebrated the one thousandth performance a week ago, a record for the French stage. Never before has any place in Paris achieved a run of one thousand successive performances. One is beginning to wonder if "The Trial of Mary Dugan" at the Apollo will not have about the same success.

"Maya" in the English version by Sybil Harris, which was lifted from the boards in New York, is having a good run at the Studio des Champs Elysees.
 The Haye has opened the Anglo-American season at the little Theatre Femina with "Candle Light," the outstanding hit of three capitals, London, Paris and Vienna. "Journey's End" is still the attraction at the English theatre and "Sun-Up" with the original New York company is due to appear shortly at the Mathurins.

Most important of all, perhaps, will be the opening of the first American Opera in Paris, "A Light from Saint Agnes," with Rafaela Diaz, Howard E. Preston and Eleanor Painter in the leading roles.

Two firemen, Wecker and Pradu, depressed by the monotony of a fireman's life, are alleged to have brightened things up a bit by giving themselves some work.

Wecker and Pradu spent most of their time playing checkers and found the game monotonous. Sliding down brass rods and tearing away to fires were futile day-dreams. So they decided to start things moving themselves.

Wecker was detailed as fireman at an automobile factory. Two fires broke out there in quick succession.

He was then put on duty at another factory. Again the alarm was rung several times.

The authorities began to ask themselves, "How is it Wecker is always around fires?" He broke down, confessed and implicated Pradu.

"I just can't stand a fireman's life without smoke," explained Wecker.

"The danger gave me a thrill," added Pradu.

Because he received a trans-Atlantic telephone call at 2 a. m. Ambrose Butler, wealthy American, has been ejected from his hotel here.

The whole hotel was awakened by the furious, thought it was a fire alarm and prepared to evacuate without further notice. But it was the furious clamor of the bell. Some thought it was a girl in America who wanted to talk to Ambrose.

The next day the complaints poured in. The manager told the American he could not receive nocturnal calls. The American explained that three o'clock in the morning may seem late here, but in New York it's only nine o'clock in the evening.

The argument raged hot. Things were said about American and about France. Mr. Butler found the presence no longer desirable at this fashionable Champs Elysees hotel.

American Legion plan to stage celebration in Tallahassee sometime in November for purpose of dedicating airport.

A Great Discovery
 - When the microscope was used to examine a specimen of material which was found to contain a certain substance, it was discovered that this substance was capable of killing these germs that may cause the disease and give it a name such as typhoid, tuberculosis and cholera. Now, all you have to do is to inject these germ-killing germs into the body of a person, and you will see the germs which cause the disease being killed. This is the discovery which has been made by the American Legion. It is a great discovery and it is one that will save many lives. The American Legion is now working to get this discovery into the hands of the people. It is a great discovery and it is one that will save many lives. The American Legion is now working to get this discovery into the hands of the people.

Flavor-Sealed Ham

Did you know you could buy ham with the flavor sealed in it? How? You ask. Why not go to your dealer and pick out a selected, milder cured ham which is vacuum cooked and sealed in its own can. All its juices are sealed in and the ham is delivered to you fresh, flavorful and tender. The skin and bone and other waste are all removed. To serve whole, simply pop into the oven and brown. For medium sized families the whole ham weighing six to ten pounds and which will take in sixty minutes may be purchased. Smaller families will prefer the three to five-pound can of ham which will take in thirty minutes.

Toothsome Uses
 Everyone knows the usual ways of using ham, in sandwiches, cold with salads, baked, fried, with eggs, and so on, but there are other methods which are just as delectable and more unusual.

For instance, cut one or two inch-thick slices of ham and brown in a little fat in the baking pan. Pour creamed pineapple over the ham and add one-half cup water. Bake slowly until tender. Remove to hot platter and pour hot pineapple syrup around it.
 Tomatoes stuffed with ham are delicious. Remove a thin slice from the top of each tomato and remove seeds and pulp. Run canned ham through the meat grinder and mix with half as much bread crumbs and the tomato pulp and pepper and salt. Stuff tomatoes with this mixture, cover with buttered crumbs and bake thirty minutes in a moderate oven.
 Celery and ham may be creamed together and served on toast, garnished with minced parsley.

that the impression that such a plan was to be carried out should be corrected definitely and immediately.

When the new administration took office it was the supposition that Mellon would remain about a year and that he would then be succeeded by Ogden L. Mills, the undersecretary. Other names recently have been mentioned as Mellon's successor should he resign.

Mellon has served under three presidents, Harding, Coolidge and Hoover, a distinction enjoyed by no other man. He entered the cabinet from a long and extremely retired life, devoted to banking, manufacturing and other big business, and assumed the obligation of reconstruction of the tangled post-war finances.

There was an enormous unfunded public debt, billions in war debts owed the United States, oppressive income tax rates, inadequate housing facilities for government offices here and throughout the country, and the job of enforcing prohibition in normal times yet untried, facing his administration.

All of these problems have been completed, or at least well under way, except prohibition.

Supper in the Woods

Now that the weather is warm and balmy, isn't it fun to slip some food into appropriate containers and drive out to the woods for your supper? Such a meal may be the simplest imaginable and need not involve even building a fire. Cold meat, sandwiches, perhaps fresh fruit and cup cakes, and hot coffee carried in the thermos bottle are ample for the meal. A typical menu is:

- Cold Fried Chicken
- Potato Chips
- Sardine Sandwich
- Sweet Fruit Sandwich
- Fresh Fruit
- Chocolate Cup Cakes
- Hot Coffee

To make an unusual sardine sandwich, bone and mash a can of sardines. Mix with one tablespoon

chopped ripe olives, one tablespoon lemon juice, two tablespoons chopped, pickled beets and three tablespoons mayonnaise. Spread between thinly sliced white bread.

Sweet Sandwiches
 For the sweet sandwich, mash two cream cheeses, add one-fourth cup of well-drained crushed pineapple and one-fourth cup of strawberry preserves and cream well. Use between thin slices of buttered whole-wheat bread.

Another excellent picnic sandwich consists of three-fourths cup cold baked beans, one-fourth cup chopped celery, one-fourth cup chili sauce mixed together and spread between buttered slices of canned Boston brown bread.

 tax reduction at the next Congress. The following day at the White House, it was declared that rates were being discussed, although there might be factors operating against such relief to the tax payers.
 The President felt called upon to take personal action in Mr. Mellon's department on the question of a propaganda campaign for prohibition in the public schools. While there was no indication that Secretary Mellon had any idea of such a drive, nevertheless Mr. Hoover advised
