### AN EYE ON THE WORLD

The Church is the greatest factor on earth for the building or character and good citizenship. It is a storehouse of spiritua values. Without a strong Church, neither democracy nor civili person should attend services regularly and support the Church.
They are: (1) For his own sake, (2) For his children's sake,
(3) For the sake of his community and nation, (4) For the sake f the Church itself, which needs his moral and material support Plan to go to church regularly and read your Bible daily.

The fascination of a globe . . . let the eye roam over the world map . . . notice the different countries and continents ... try to imagine what life must be like in each of these places. Yes, every spot on the globe has its particular need. Sometimes it is a need felt in that one place alone. Yet, in a sense, every place is the same, for all countries are made up of people And all people have the same basic needs.
