

Famed Commander Bucher Becomes Author Of Spy Book

By WARREN I. NELSON
WASHINGTON (UPI) — Twenty months after being North Korea, Cmdr. Lloyd M. Bucher, skipper of the spy ship Pueblo, has become an author, published this month by Doubleday. To promote it Bucher took leave and came to Washington where he spent two hours in the Pentagon Book Store one day autographing copies for the curious. Combination Leads to Capture In an interview with UPI, Bucher said a combination of intricate electronic gear to around off the Chinese and North Korean coasts. The graying commander said some unknown person floated the critical idea of dispatching a lone ship mission. Later the spy ship mission was changed to include posing as a merchant ship.

Fares Bring Complaints

By YERN BAUGLIAND
SP Aerospace Writer
WASHINGTON (UPI) — A Civil Aeronautics Board attempt to set air fares has brought a flood of complaints and triggered an industry-wide quarrel over rates. Even 32 congressmen who won a court order outlawing fare increases earlier this year appear somewhat appalled at the resulting turmoil. They suggested Thursday it might be best for the CAB to leave the illegal fares in effect long enough to determine what is legal. The problem dates back to last fall when the CAB rejected proposed fare increases as excessive. As a substitute, the CAB set a 6.25 per cent rate hike for the 2 trunk lines and 7 per cent for the nine local-service airlines. The new fares went into effect last Oct. 1. But the group of congressmen filed suit and the U.S. Court of Appeals invalidated the new fares on grounds the CAB had approved the schedule without the public notice. Following orders of the CAB, the airlines filed revised fares to be effective Oct. 15. The CAB plans to rule on these by Sept. 15. The new fare proposals differ sharply, and the airlines are at odds over them. The group of congressmen charged Thursday all of the new filings are tainted by the illegal CAB order of last Sept. 12. They said there is a serious question on the matter in which the new fare proposals were arrived at, because letters of instruction from individual airlines to their common agent, the Airline Tariff Publishers Inc., have been made available to other airlines. The net result was a substantially similar tariff filing by a number of carriers, thus raising the issue of possible violation of antitrust laws, they said.

They said there is a serious question on the matter in which the new fare proposals were arrived at, because letters of instruction from individual airlines to their common agent, the Airline Tariff Publishers Inc., have been made available to other airlines. The net result was a substantially similar tariff filing by a number of carriers, thus raising the issue of possible violation of antitrust laws, they said.

Bridge Clearance To Be Discussed

Greater Sanford Area Chamber of Commerce Executive Manager John Krider and Harold Kastner, chairman of the Chamber's Osteen Bridge subcommittee, have been invited to Tallahassee for a Thursday 11 a.m. meeting with State Department of Transportation and Department of Natural Resources officials to discuss clearances of new structures at Osteen Bridge.

The meeting, which is in line with the Chamber effort to get a replacement for the antiquated span on SR 415, just east of Sanford, was set by Tom Alberd, engineer for highway structures.

Krider stated that Edward Mueller, Department of Transportation secretary, had indicated if the structural problems could be cleared, it would be possible to put the new bridge in the 1971-72 fiscal budget for funding.

The transportation department has tentatively placed the renovation of SR 46 west to the Wekiva River in the present year's funding.

Citizens and chamber groups have worked on this project for some time to get this much needed road project started.

The SR 46 road improvements and Osteen Bridge replacement were the two major road projects undertaken by the chamber and other interested citizens this year.

Georgetown Paving Is Slowed Down

By BILL SCOTT
Protesting increased property taxes, a group of Sanford's Georgetown area property owners have slowed down the scheduled paving of that area's north-south streets by filing a lawsuit in Jacksonville's U.S. District Court.

The court action, which asked for a temporary injunction to prevent the City of Sanford from going ahead with paving the streets was sought by members of the Black Community of which Georgetown is majority in composition.

Sanford City Commissioners at last night's budget session lamented that people in the area, in which they were trying to help, had seen fit to take the action, that will delay if not eliminate the entire project, which was modeled after the so-called Winter Park plan, whereby persons living on both sides of the affected streets split the paving costs equally.

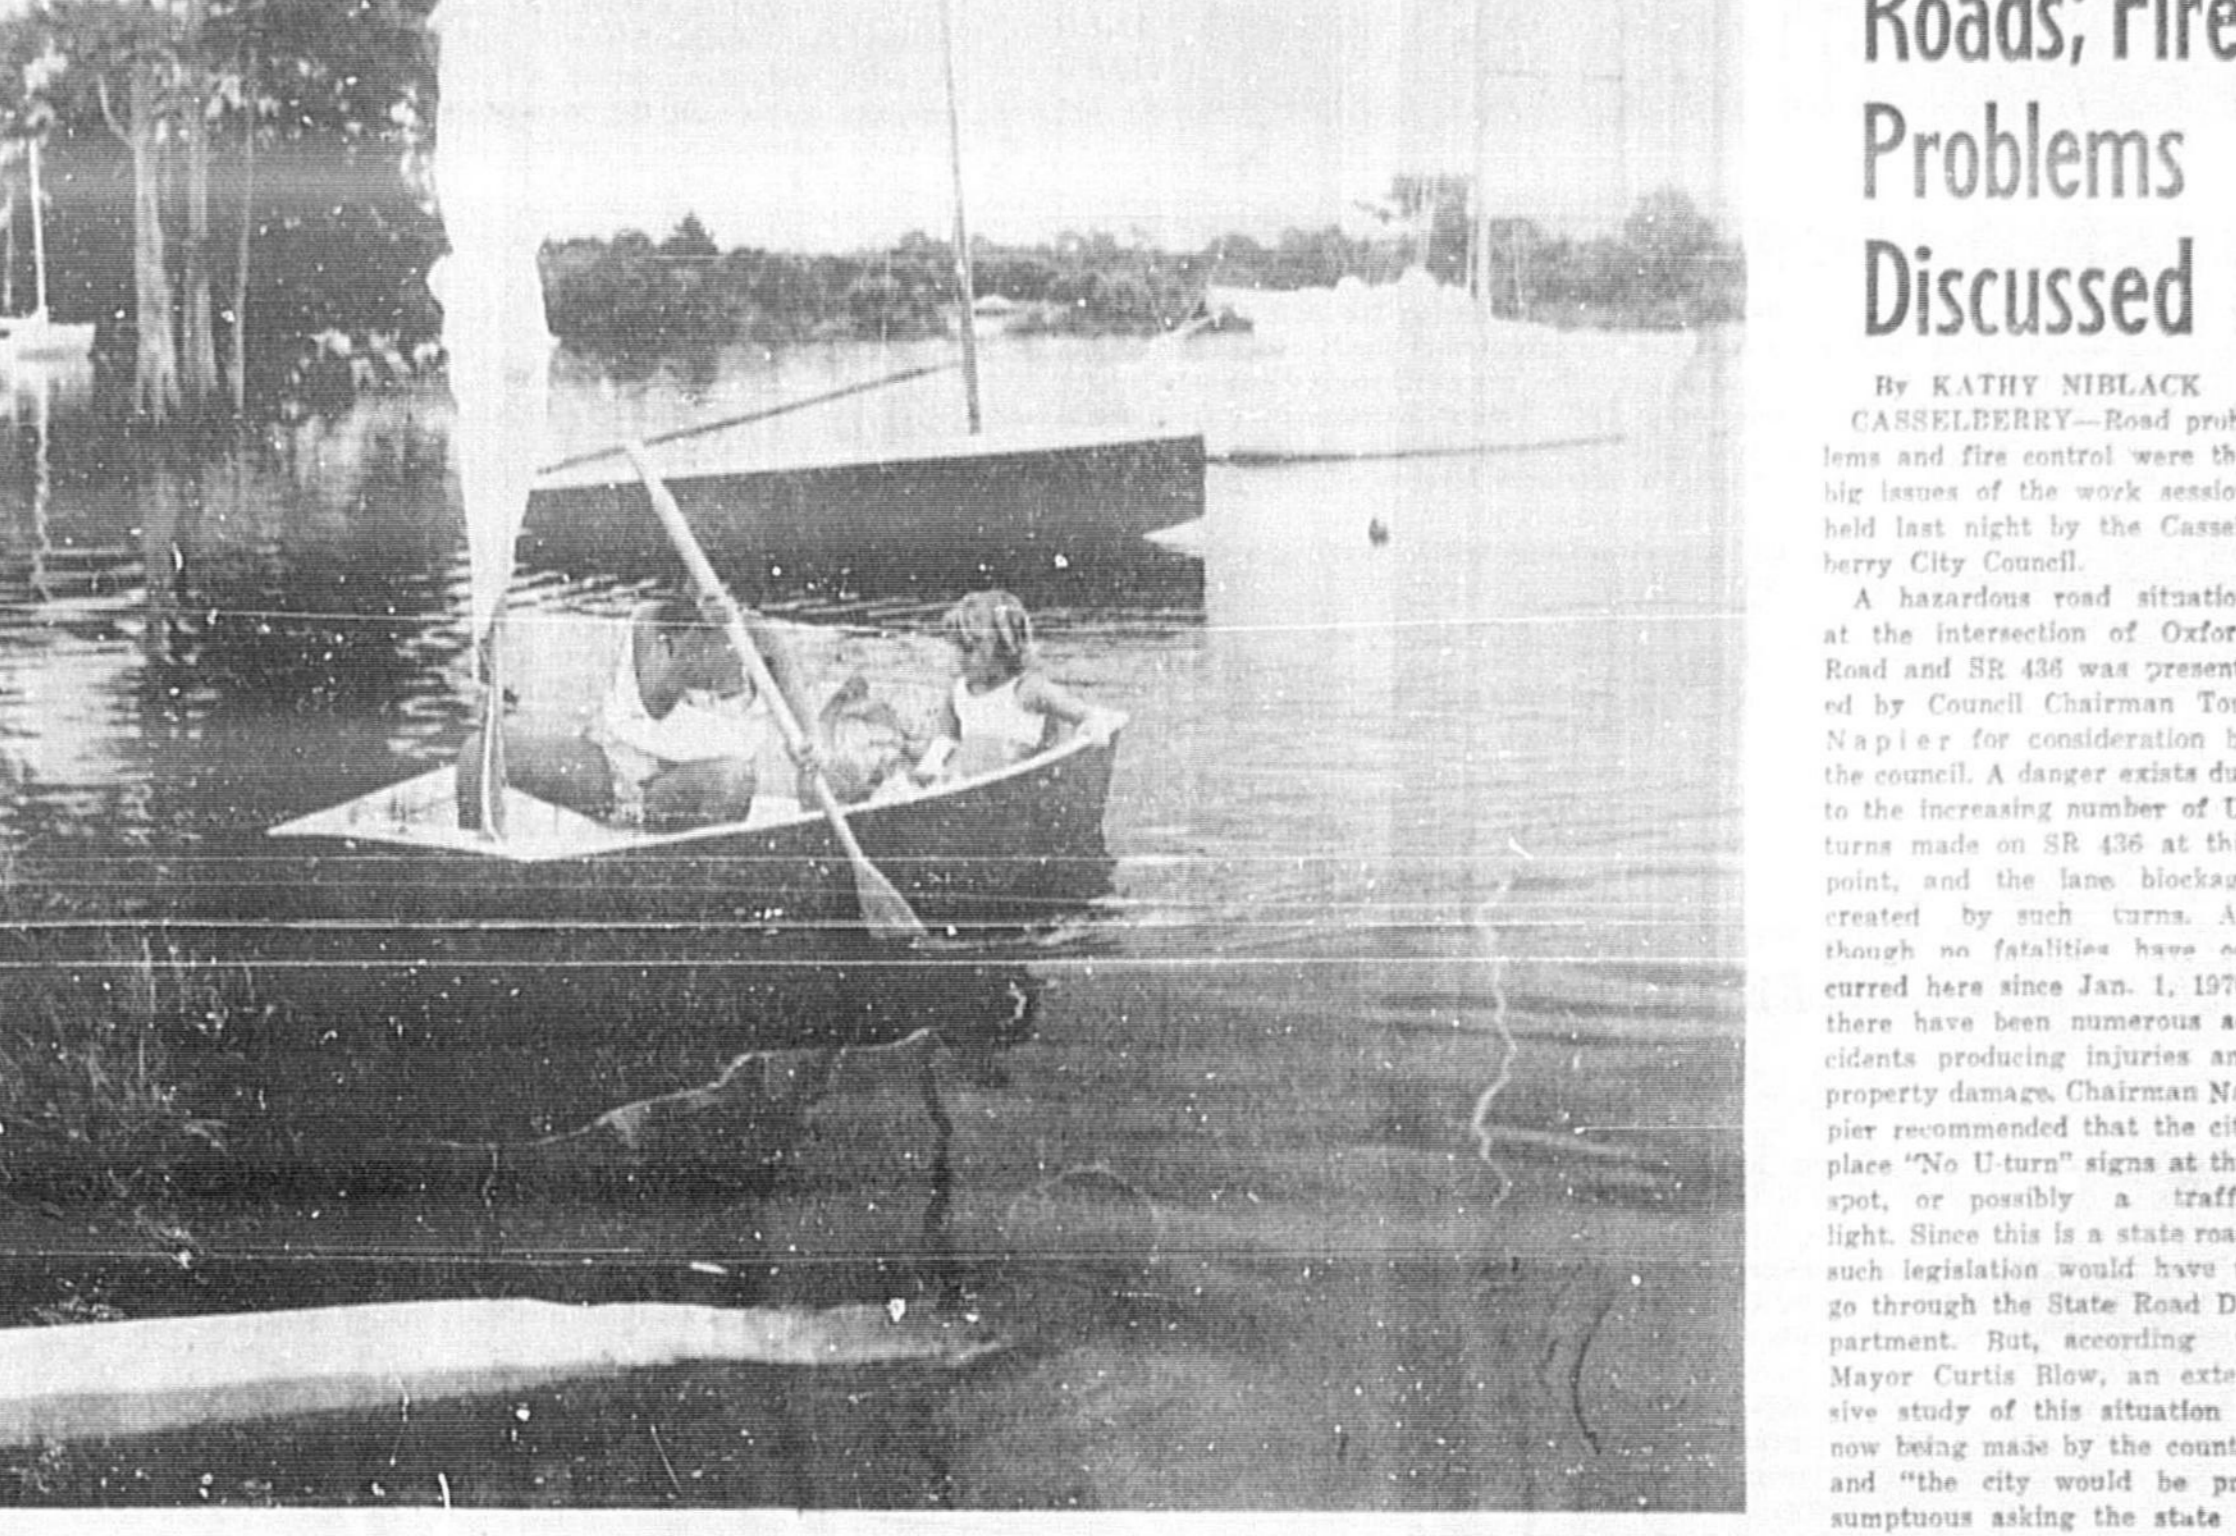

This would amount to roughly \$100.00 a running foot for each foot of property for the Georgetown property owners, with the funds being raised along with regular property taxes over a five-year period.

The city had offered to borrow the money from banks at six per cent interest rates, which is lower interest than anyone, other than a municipality can borrow.

Mayor Lee P. Moore at last night's meeting said the public should not be forced to pay the \$5,000 or more needed in legal fees to fight the property-owners' action. "It's not fair for other city taxpayers to pay this legal fee to give something that the majority wants." Moore added.

The mayor said he had talked with one of the leaders of the black community about the action and said that person was also upset and was going to try to do something about the situation.

LAZY DAYS of Summer are conducive to sullying away to faraway places with your lunch in a brown paper sack, but vacation fun will soon be replaced by reading, 'ritin' and new math so these two young adventurers are taking advantage of the time left by enjoying themselves in a nautical sort of way on Lake Howell in Casselberry. (Melinda Casselberry Photo)

Parents Requesting Sidewalks

By MARION BETHEA
The area to receive sidewalks is between Eastbrook, Boulevard and Tangerine Avenue.

Bush further stated that an additional five foot right-of-way would be needed behind the back slope which is on private property. Commissioner Greg Drummond questioned whether the owners would dedicate the right-of-way if the houses were built too close to the road to which Bush replied that the houses were not adversely affected.

THE CHILDREN
Mrs. McGinnis told the board that there would be approximately 40 elementary children attending the new Eastbrook School and requested reducing the speed limit to 15 miles per hour. Commission Chairman John Alexander said that the speed limit related to the law in which signs are placed under standard code. Mrs. McGinnis, who echoed Alexander's criticism of improper access in (Continued on Page 2 Col. 2)

Judge Orders Two Men Arrested

"The capias was recalled because it was issued from the wrong court," said Judge Roger Dikes, the Circuit Court Judge who issued the order for the arrest of two men as the result of "true bills" issued by the Seminole County Grand Jury last Friday.

"It may be issued from an other court," he said. He explained that the case is "under seal" and he could not comment further.

Assistant State Attorney Tom Speer said: "It is believed by this office that the summons for the second individual will be issued to the Sheriff from the County Court sometime today."

He explained that he cannot make further comment because all proceedings of the Grand Jury are secret under law, unless the person under indictment has been arrested.

The first indictment by the Grand Jury has resulted in the arrest of a Longwood man, T. W. Estes, who is out on bond as a charge of driving under the influence of alcoholic beverages. The second indictment was supposed to have resulted in the arrest of a second, as yet unnamed individual on an undisclosed charge.

"At 3 p. m. yesterday I received a telephone call from Tom Speer, the assistant state attorney, telling me to return the capias (the order, signed by Judge Dikes, to arrest the two indicted by the Grand Jury, unsevered by order of Judge Dikes," said Seminole County Sheriff John Palk.

County Judge Wallace Hall, whose court usually handles indictments (such as driving under the influence of alcoholic beverages) could not be reached by press time for comment on the case.

If the capias is released it will be from the County Court, indicated Judge Dikes.

County Prosecutor Kenneth W. McIntosh, said this morning

'All In Line Of Duty' Claims Local Airman

played the role of hero. Four years ago he was credited with saving the life of a little girl who was drowning in Crystal Lake at Lake Mary. He is a 1966 graduate from Seminole High School.

The incident occurred Aug. 7 when the two men were stationed at the main gate at Chuan Kung Air Force Base on the 4 p.m. to midnight shift. They received a report that an unidentified American was seen lying in a rice paddy and when they arrived at the scene they started attempts at reviving the unresponsive unconscious person. When smelting salts failed they began artificial respiration which they continued until he was brought back to medical facilities at the base.

This was not the first incident in which Sgt. Dickerson

Roads; Fire Problems Discussed

By KATHY NIBLACK
CASSELBERRY—Road problems and fire control were the big issues at the work session held last night by the Casselberry City Council.

A hazardous road situation at the intersection of Oxford Road and SR 436 was presented by Council Chairman Tom Napier for consideration by the council. A danger exists due to the increasing number of U-turns made on SR 436 at this point, and the lane blockage created by such turns. Although no fatalities have occurred here since Jan. 1, 1970, there have been numerous accidents producing injuries and property damage. Chairman Napier recommended that the city place "No U-turn" signs at this spot, or possibly a traffic light. Since this is a state road, such legislation would have to go through the State Road Department. But, according to Mayor Curtis Blaw, an extensive study of this situation is now being made by the county, and "the city would be presumptuous asking the state to place signs, since the county is already studying this." In light of this, City Attorney Ken McIntosh was delegated to request a status report from the county. As the situation stands now, the city can do nothing. A request for a traffic sign at the Regency Square shopping plaza on SR 436 was (Continued on Page 2 Col. 3)

Circuit Court Due On Friday

Leo Peterson, accused of assault with intent to commit second degree murder, will be arraigned in Circuit Court Friday, Sept. 4, at 11 a.m.

Others to be arraigned at the same time are: Richard E. Gourley, larceny of a motorcycle; Robert Louis and Willie Coumbe, larceny of an auto; Roosevelt Bell, aggravated assault; Jerry A. Murphy, grand larceny; and Ron Brown, larceny, breaking and entering with intent to commit a felony and grand larceny.

Julius A. Bird and Gary E. Caraway will be arraigned for possession and sale of narcotics and conspiracy.

Famed Commander Bucher Becomes Author Of Spy Book

By WARELL L. NELSON
WASHINGTON (UPI) — Twenty months after being North Korea. Cmdr. Lloyd M. Bucher, skipper of the spy ship Pueblo, has become an author, regained the weight he lost in prison and developed a punch. His growing boy window is not unexpected for a man of 43. The book is something else again. In it, the officer who hopes he will have a career in the Navy, argues that it was Navy bungling that led to the capture of the USS Pueblo on Jan. 23, 1968.

"Bucher's My Story" was published this month by Doubleday. To promote it, Bucher took a combination train to Washington where he spent two hours in an interview with UPI. Bucher said a combination of incompetent naval officers and a bureaucracy that would not lead to the capture of the Pueblo and its 83 officers and crew was the main reason for the capture. The growing commander said some unknown person floated the initial idea for dispatching the spy ship mission. Later the spy ship mission was changed to include raising staff study.

increase electronic gear to around off the Chinese and listen to on Soviet radio and North Korean coasts. This created risks which had not been envisioned in the original staff study.
