Straton Hits Smith With Caustic Words

NEW YORK, Aug. 8.—(INS)—An extract from the sermon of Dr. John Roach Straton, of Calvary Baptist Church, New York, which provoked a challenge for debate by Governor Al Smith and acceptance by Dr. Straton follows: "However clean, personality, the Democratic candidate may be, and however innocent he may have been of any deliberate intention to give aid and comfort to the forces of vice, lawlessness and drunkenness, because he is the type of politician he happens to be and because his sympathies and the judgment of his mind and heart are with the liquor crowd—and the hangers on of the liquor crowd—the forces of prostitution and gambling have for the sake of profit to be included with them. It must be said that, as a public man, he is the deadliest foe in America today of the forces of moral progress and true political wisdom."

STRATON DEBATE MAY OPEN SMITH ACTIVE CAMPAIGN

NEW YORK, Aug. 8.—(INS)—There was a possibility today that Governor Al Smith will open his active campaign for the presidency early in September with a debate with the Rev. John Roach Straton, noted pastor of the Calvary Baptist Church, New York City. Dr. Straton, because Dr. Straton from the pulpit of his church had pictured him as "the deadliest foe in America today of the forces of moral progress and true political wisdom," Smith called upon the New York clergyman to permit him to answer the charge from the same pulpit during the week of September 2. Dr. Straton today accepted the challenge of Governor Smith. At his summer home at Greenwood Lake, N. Y., Dr. Straton issued a statement saying that "as a matter of fair play" he would repeat the sermon of Sunday to Governor Smith's face and in his presence, giving him full opportunity to reply. Although perfectly willing to have it held in his church, Dr. Straton suggested that the debate, in view of the tremendous public interest it would arouse, be held in Madison Square Garden or some other large auditorium. Close friends of the Governor said today that the charges hurled at him by Dr. Straton have disturbed him more than anything else that has occurred since he was nominated for the presidency. They predicted that the meeting between the executive and the clergyman would be one of the most dramatic incidents in America's political history. "I do not know why you should make a statement of that kind, but I do know that I will permit it to go unchallenged," the Governor wrote Dr. Straton. "I have spent 25 years in the service of the state in elective office and the record of that service is open to the public. I do not feel that I should charge you with making this statement for any political purpose as it was made in a church devoted to the teachings of Christ, one of which was that you shall not bear false witness against thy neighbor."

German And Dutch Women Set Records In Olympic Swims

OLYMPIC SWIMMING STADIUM, AMSTERDAM, Aug. 7.—World and Olympic records tumbled in profusion during the semi-final heats of the women's 200-metre breast stroke event in the Olympic swimming championships today. Franklin Shraeder, Germany, capping the climax with a mark of 2:1-1.5, wiping everything from the books. In a previous heat of the semi-finals, the Hollander, Miss M. Bason, also bettered the world's and Olympic records by finishing in 2:10.4. Miss M. Bason, of the Netherlands, and Miss Johanna, Denmark, tied for second in 2:10-4.5, also bettering the two listed records for the event. The heat witnessed the downfall of the 1924 Olympic champion, Miss Agnes Goughly, New York, who was eliminated by placing fourth, although she swam 7-4.5 seconds faster than her winning time in Paris. Another Olympic record fell in the finals of the 200-metre breast stroke for men, which went to Tazuru, Japan, in 2:48-4.5. The listed record, 2:55, is credited to R. B. Skeelton United States, in the last Olympics.

World War Aviator Is Killed In Crash

CINCINNATI, O., Aug. 8.—(INS)—Two men were killed when an airplane went into a tailspin and crashed on the outskirts of the city today. They were Wendell Pavey, 42, of Cincinnati, the pilot, and J. L. Revis, 24, of Hamilton, O. They had been warned of the danger of attempting to fly here from Akron, O., because of heavy fog, it was reported. Pavey was a world war pilot.

BRENNAN DIES IN HOSPITAL OF SEPTIC POISON

Illinois Democratic Leader Passes Away This Morning In Chicago Following Illness Of Only A Few Days

Emergency Operation Gives Temporary Aid

Patient's Improved Condition Cheered Friends But Complications Prove Fatal

CHICAGO, Aug. 8.—(INS)—George E. Brennan, Democratic leader of Illinois, died here today following a week's illness of septic poison and complications of kidney trouble. He was 63 years old. The Democratic chief passed away at John H. Murphy Hospital at 8 o'clock this morning surrounded by his family and a few intimate friends. He had been in a unconscious most of the night. During brief lucid spells he was too weak to speak to those about him. Brennan was stricken a week ago with septic poisoning following the extraction of two ulcerated teeth. For several days his life was in jeopardy, but an emergency operation to drain off the poison was performed and the patient rallied. His improved condition gave rise to hope that he would eventually recover. Late yesterday, however, complications arising from a serious kidney disorder developed and physicians realized that the end was near. Brennan is survived by his widow and one child, a daughter, Mary. They have been in constant attendance and were at the bedside when the end came. Former Mayor William F. Dever and other lifelong personal and political friends were frequent callers at the sickroom.

German And Dutch Women Set Records In Olympic Swims

OLYMPIC SWIMMING STADIUM, AMSTERDAM, Aug. 7.—World and Olympic records tumbled in profusion during the semi-final heats of the women's 200-metre breast stroke event in the Olympic swimming championships today. Franklin Shraeder, Germany, capping the climax with a mark of 2:1-1.5, wiping everything from the books. In a previous heat of the semi-finals, the Hollander, Miss M. Bason, also bettered the world's and Olympic records by finishing in 2:10.4. Miss M. Skeelton United States, in the last Olympics.

Fred Stone Better; Recovering Slowly

NEW LONDON, CONN., Aug. 8.—(INS)—Fred Stone, injured seriously recently in an airplane crash, continues to improve slowly, attendants at the Lawrence Memorial hospital said today. The effect of the injuries on Stone's future career on the stage cannot be foretold. Surgeons said weeks must elapse before the splints holding his two broken legs may be removed and until the strengthening of his legs is well under way, it cannot be determined how long it will be, if ever, before he may be able to dance again.

Sanford Gets Only Heavy Breeze, Rain

A moderately strong wind out of the northeast, overcast skies and muddling rain were Sanford's only taste of the tropical disturbance which whipped Fort Pierce and East Coast towns with a 75-mile gale last night. Reports from the weather bureau in Washington, indicated that the storm was centered over south Ocala County and was heading westward toward Tampa this afternoon. A gradual dropping of the barometer in Sanford from 30.74 this morning to 30.58 at 2 o'clock this afternoon was not viewed with alarm by local weather forecasters. A warning of high winds from Central Florida was received by the Sanford post office this morning from the weather bureau. Hundreds of calls to The Herald office last night and today indicated interest and some anxiety on the part of Sanford citizens in the progress of the storm.

TUNNEY FIANCEE HIDES TO ESCAPE CURIOUS PUBLIC

Close Friends Reveal That Miss Lander Is Busy Preparing Trousseau For Her Marriage At Ancestral Home

NEW YORK, Aug. 8.—(INS)—While the public awaited eagerly by the official announcement of the reported coming marriage of Gene Tunney, retired world's heavyweight champion, Shakespearean scholar and millionaire, to Miss Josephine Lander, heiress to the steel industry, the future bride was said to be "in hiding" today from the eyes of the curious.

German And Dutch Women Set Records In Olympic Swims

OLYMPIC SWIMMING STADIUM, AMSTERDAM, Aug. 7.—World and Olympic records tumbled in profusion during the semi-final heats of the women's 200-metre breast stroke event in the Olympic swimming championships today. Franklin Shraeder, Germany, capping the climax with a mark of 2:1-1.5, wiping everything from the books. In a previous heat of the semi-finals, the Hollander, Miss M. Skeelton United States, in the last Olympics.

Los Angeles Police Puzzled By Murder

LOS ANGELES, CALIF., Aug. 8.—(INS)—Police investigation into the murder and mutilation of Mrs. Myrtle Mellus was thrown into turmoil today when Sgt. H. L. Barlow, in charge of the identification bureau, announced the bloody fingerprints found in the bathroom of the partial Mellus home after the murder were not those of Leo P. Kelly, accused brother boy sweetheart. The sensational development, police said, indicated another person was involved in the murder.

Storm Heading Inland After Striking Cities On East Coast; Another Hurricane Is Coming

Property Damage Is Reported Heavy At Fort Pierce Which Bore Brunt Of Storm Houses Unroofed By 50-Mile Gale

Melbourne And Vero Beach Also Suffer From Whipping W

WEST PALM BEACH, Fla., Aug. 8.—(INS)—Fears that serious damage from the tropical storm may have resulted in the Everglades and in the towns up the coast north of here was held today when no wire communication could be established in either direction. Reports were that the storm hit Stuart and Fort Pierce with considerable force and did large property damage, but these reports could not be confirmed. Vero Beach was also reported to have suffered damage. Melbourne was reported to have received the brunt of the storm at 8 o'clock this morning. The damage was exceptionally heavy at Fort Pierce, 60 miles north of here. Reports indicated that this city was whipped by a 50-mile gale, and light houses were blown down and other unroofed. The streets are littered with debris, reports said, direct communication, however, was still cut off. No loss of life was reported. Damage to towns in the Everglades in the east, side of Lake Okechobee, resulted from high wind, reports said. Telephone communication between Palm Beach and Canal Point, Pahokee and Okechobee is down. Titusville and Daytona Beach were preparing for the storm, as expected there some time today. The storm today was believed moving over the central part of the state to Tampa and the west coast, following pretty nearly the same course as the 1926 hurricane. The present storm, however, is by no means so severe as the last one. It is believed that the storm will miss Melbourne, wrecked by the 1926 disaster. Last night this city was without lights, and through the long night many of the residents sat in darkness helplessly awaiting the whim of the storm as it whipped sheets of rain to the ground, along with the power lines and wires, trees, shrubbery and parts of roofs. A hurried inspection of the damage early today indicated that it was comparatively slight. Valuable palm trees were torn or uprooted, sign boards swept down, windows broken and a few small boats damaged, but otherwise the severity that is part of this famous resort returned today. The city was like a person who has taken a bad fall and arises to find himself bruised instead of killed. The show places of the wealthy here, and their mansions, were all ready, loaded up for the summer and they suffered little damage, although tremendous rain swept over the ocean boulevard. No fatalities were reported early today. Two persons were rescued from a precarious position when the gale overturned a small boat in which they were sailing, and a power company lineman was severely shocked when a broken live wire fell on him. The city this morning is littered with broken branches and other objects which were tossed about by the wind. It presents a rather bedraggled appearance, but seems little the worse for the storm. When the storm broke last night it looked like another September, 1926. (Continued on page 3.)

Georgia Governor Visits Condemned Man To Hear Plea For Mercy And Life

MACON, GA., Aug. 8.—(INS)—A drama of death, the gallows and the emotional plea of a condemned man as he knelt and begged for mercy and life, was staged today behind the iron bars of the Bibb county jail here. The characters were the chief executive of Georgia and Wash Johnson, Milledgeville youth, who is under death sentence for an attack on an aged woman in Jones county two years ago. What passed between Governor L. G. Hardaway and the youth awaiting death on the scaffold is known only to the two—the condemned man pleading for his life and the only man in the world who has the power to grant it. It was the first time in the history of the great commonwealth of Georgia, according to Macchiarini, that a governor has gone in the very cell of a condemned man and listened alone to his plea for mercy. Governor Hardaway's visit to the jail apparently was unheralded. He slipped quietly away from Atlanta and motored to Macon, reaching here about 5 o'clock. He was ushered into the ironbound reception room and in a few moments the condemned youth walked in, trembling a bit with nervousness. Unless the governor commutes his sentence to life imprisonment, Johnson is to be executed next week, as he rejects of last May expires, and a new date set for execution in the Jones county jail vicinity of the crime. The visit has been a constant source of worry to Governor Hardaway. He has been besieged by friends of the youth's family and approached by political influences. Upon the other hand, there has been a clamor from the other side, demanding that the degree of the crime be carried out on the gallows. It is known that for several weeks the Governor has been importuned to set aside the death penalty on the ground that Johnson is of low mentality, irresponsible to a degree.

HOOVER VICTORY SUBMARINE DEAD RESTS ON THREE ARE MOURNED BY EASTERN STATES ITALIAN PEOPLE

New York, New Jersey And Massachusetts Are To Be Honored—G. O. P. Drive Have Agreed

STANFORD UNIVERSITY, CALIF., Aug. 8.—(INS)—A Republican victory in the 1928 presidential race, as viewed by Herbert Hoover today through the eyes of his political advisers, rests on the outcome in New York, Massachusetts and New Jersey. This represented a consensus of the political forecasters given the Republican landslide in the month since he left his desk in the Department of Commerce. The committee was said personally to feel that his party would return its normal majority in the far west, the mountain states, the farm belt and the middle west and that the big battle lies along the Atlantic seaboard. With this in mind, Hoover will return to Washington after his notification here next Saturday and spend the remaining time of the campaign on the actual battle ground. The nominee's closest advisers have continued line that he will win the election easily if he carries New York, Massachusetts and New Jersey. In fact, he is said to feel that Republican victory in any two of these states would result in his election to the presidency. Hoover has been told he can win without New York but that, in order to do so he must win all the normally Republican states from Pennsylvania westward to the Pacific and enjoy some of the Democratic strongholds, such as Missouri, Kentucky, Arizona, New Mexico, Montana and Nevada. In the Hoover opinion there are no "sure" states out of the "solid south." In addition to New York, New Jersey and Massachusetts, there are other "battleground states." This list includes Connecticut, Rhode Island and Delaware on the Atlantic coast; the four border states, Maryland, Kentucky, Michigan and Wisconsin; the middle west, Nebraska in the farm belt; Vermont of the possible attitude of George W. Moore, veteran Democratic leader, and Addison M. Benson, New Mexico politician; Ill. C. D. Harrell and Nevada out where the "weak" begins. In the Hoover opinion there are no "sure" states out of the "solid south." In addition to New York, New Jersey and Massachusetts, there are other "battleground states." This list includes Connecticut, Rhode Island and Delaware on the Atlantic coast; the four border states, Maryland, Kentucky, Michigan and Wisconsin; the middle west, Nebraska in the farm belt; Vermont of the possible attitude of George W. Moore, veteran Democratic leader, and Addison M. Benson, New Mexico politician; Ill. C. D. Harrell and Nevada out where the "weak" begins.

Storm Heading For Orlando, Is Report

A report that the storm which hit the East Coast last night was swinging toward Orlando and that Sanford might come within the edge of the disturbance was given out this afternoon at 2:30 by Howard Overhill, manager of the local Southern Bell Telephone Company office. His reports received from other telephone offices were that the velocity of the wind was approximately 75 miles per hour, and that it was due to reach Orlando about 5 P. M. The Florida Power and Light Company reported it could not communicate with Melbourne on the East Coast because its wires were down. This report conflicted with one issued by the weather bureau this morning which placed the storm center south of Kissimmee and said it was traveling toward Tampa.

Disturbance Is Sweeping Across Florida Toward Tampa; Hi? Wind, Gales Forecast New Storm Comes From Porto Rico

Weather Bureau Says Hurricane May Not Strike For Two Days

WASHINGTON, Aug. 8.—(INS)—The Florida storm, after striking near the Palm Beaches, is sweeping across the state toward Tampa. The United States Weather Bureau warned today. It is moving northwest and will cause strong northwest winds and gales. This afternoon in the Tampa region, North of Tampa there will be northeast gales to Apalachicola this afternoon and tonight. High tides will sweep Tampa Bay late tonight or tomorrow morning. The tropical disturbance centered over South Ocala county, is still of great intensity. In the meantime a tropical hurricane of great intensity is traversing the Caribbean Sea and will strike Florida on the northeastern American coast within a day or two, the Weather Bureau warned. The storm, traveling at a rate of about 15 miles an hour, is now south of San Juan, Porto Rico. It is headed in a west northwest direction, which would indicate that Florida lies in its path. Bureau officials have warned shipping and are attempting to obtain further details of the hurricane. "We know that the storm is of great intensity," said the Bureau's forecaster, "but we have not had sufficient reports to ascertain definitely what its actual path, progress is. From two observations it was indicated it is moving at from 10 to 15 miles an hour. If it continues it may be a couple of days before it strikes the American coast. Its general direction is west and north."

Storm Heading For Orlando, Is Report

A report that the storm which hit the East Coast last night was swinging toward Orlando and that Sanford might come within the edge of the disturbance was given out this afternoon at 2:30 by Howard Overhill, manager of the local Southern Bell Telephone Company office. His reports received from other telephone offices were that the velocity of the wind was approximately 75 miles per hour, and that it was due to reach Orlando about 5 P. M. The Florida Power and Light Company reported it could not communicate with Melbourne on the East Coast because its wires were down. This report conflicted with one issued by the weather bureau this morning which placed the storm center south of Kissimmee and said it was traveling toward Tampa.

YANKS HAVE NOT WON A SERIES IN WESTERN JAUNT

If White Sox Defeat Champs Today Huggmen Will Have Lost Four Straight Series; Macks Lose To The Tigers

NEW YORK, Aug. 7.—(INS)—The champion New York Yankees today are winding up a western tour in which they did not win a single series—a new and crushing experience for the once powerful machine which began setting the baseball world on fire two years ago. If the Huggmen are beaten by Chicago today, they will have lost all four series in the west.

The team which Manager Huggins will take east tonight now consists of three good outfielders, a first baseman with a game leg, a shortstop who has been playing football instead of baseball, two substitute infielders who can't hit their weight in horsefeathers, a joke catching staff and perhaps one good pitcher.

The only silver lining to New York's dark cloud is that their persers, Connie Mack's thunder herd of White Elephants have slowed up a trifle. The Yanks lost to the White Sox yesterday in 15 innings, 7 to 4, but their lead remained at 2 1/2 games when the Athletics were beaten by Detroit, 8 to 5. The Tigers kayod George Ershaw and his mates made three errors.

Al Simmons of the A's took the lead in the league batting race, which he held last year at this time, by making three hits and forging ahead of Goose Goslin of Washington.

Willie Kamm's triple in the fifteenth ruined the Yankees, after a pinch double by Reynolds had tied the score in the ninth. Piggas was the losing pitcher, Adkins the winner.

The pennant dreams of the Cubs, apparently have gone up in smoke. The Bruins went slumping in 17thly and were bowled over twice by the lowly Quakers, a shot that was heard round the baseball world. Hack Wilson's 25th and 26th homers failed to win the opener and Alex Ferguson stopped the Cubs in the nightcap. The casualty list totaled 8 to 7 and 5 to 1.

The much-shuffled Washington club, which presents more new faces daily than a chin-lifting emporium swamped Cleveland 11

to 2 after Willis Hudlin had won a 7 to 4 decision over the Nats. in the opener. Joe Judge got five hits in as many times at bat in the nightcap.

TILDEN CASE TO BE AIRED AGAIN BY TENNIS BODY

Big Bill Will Appear Before U. S. Association To Tell Of Alleged Rule Violation

By Davis J. Walsh
NEW YORK, Aug. 7.—(INS)—Having finished his European run, L'Opera Comique, or the spirit of a player-writer, will enjoy its American premiere tomorrow when the good ship, Paris, docks in the North river with a passenger list including members of the Davis Cup team and two officials of the United States Lawn Tennis Association who seem to suspect that all has not been love sets, in their absence.

The rest of the tennis association is prepared to receive the head man, Will Tilden, with open jaws; for Will is the young man who is alleged to have affronted rules and regulations by writing about Wimbledon in a manner entirely too familiar for good taste and was to have been declared null, void and disfranchised as an amateur.

earning a living, in addition to a lot of other people's, and must stand trial for the offense.

It is understood that President Fama J. H. Cullom feels the same way about it but from an essential different motive. He wants Tilden to be given an immediate trial because he feels a prompt show-down is only justice for a player who was condemned in the absence of his president, Cullom himself, and the chairman of the Davis Cup committee, Joseph W. Wear. Both are pro-Tilden men, first and last.

Tilden will be called before the executive committee at New York on August 24. Many bystanders seem to feel that his conviction as a professional will be slow.

However, those close to the situation believe that these developments are just as likely, if not more so:

1. Tilden to be given a very nasty slap across the index or ring finger.
 2. Tilden to beat the gun by declaring himself a professional.
 In regard to the later, they say there were rumors even before the case called that this announcement might follow Tilden's return from abroad. The plan, according to reports, was for Tilden to make his last, despairing effort to bring the cup back to America and, having done all that any reasonable man could expect of him, to declare for professionalism and enter an open championship which, they say, was being planned for Philadelphia in September. The West Side Tennis club at Forest Hills also was in the field for the open event it is declared.

Anyhow, the claim is that Tilden never will wait for the committee to declare him out, if he becomes convinced that that is the way the cards are to run. He will announce his retirement from amateur tennis, pronto, they say unless the signs are altogether favorable to ward the letting out of a committee contract for whitewashing.

When Brown Is a Bright Color

WHEN is brown a bright color? The answer to this conundrum is when brown appears in chocolate drinks and sauces. Most certainly! The face of every member of the family brightens when a chocolate drink or sauce appears upon the table. No dark looks greet it because chocolate flavor is in almost universal favor.

If you have any doubts on this score, look into the next box of yours. Blondes, in candies, are distinctly not preferred either by the gentlemen who pay for the packages, or by the ladies who receive them.

Add to Your Repertoire

The following recipe will tell you how you can add to your chocolate repertoire by using chocolate malted milk. This comes in cans, and there are several excellent brands from which you may choose.

Chocolate Egg Neg: Make a paste of from three to four teaspoons of chocolate malted milk powder with cold water. Pour this into a cocktail shaker which contains one raw egg, one glass of milk, a little cracked ice, and a dash of nutmeg. Put the lid on the cocktail shaker and shake thoroughly. Serve at once. This is an excellent drink for invalids or undernourished children.

Frosted Chocolate: Make a paste of three teaspoons of chocolate malted milk powder, one glass of milk and one serving of ice cream. Pour the chocolate paste in last, put the lid on the shaker, and shake briskly until the drink is well blended and foamy. Pour into tall glasses and serve with individual drinking straws.

Pop! Pop! Pop!

THERE are plenty of times in summer, as well as in winter, when you want to pop corn. Outdoors, over the glowing coals of a picnic fire, popping corn is a well liked diversion. Never do the puffy, snowy kernels taste better than when you eat them in the woods, or by a stream, as evening falls, and you can be sure of keeping your corn dry by taking along the kind that comes in cans. For there must be no hard centers to the popped corn, and no kernels that refuse to pop. When you start to pop corn, you want it all to pop.

Must Be Dependable

Pop corn must be absolutely dependable, or any pop corn party is doomed to be a failure. If the pop corn that you carry along to pop

NEGRO SOUGHT IN SLAYING

RALEIGH, N. C., Aug. 7.—(INS)—Police today continued search for Perry Flowers, negro, who is alleged to have shot and killed R. Norwood Conney, white youth Saturday night. The killing was the result of an argument over the sale of a pint of liquor, according to police.

FLAG IS TAKEN DOWN

WASHINGTON, Aug. 7.—(INS)—The large flag which adorned the entrance to the office of Hubert Work, chairman of the Republican national committee, was taken down today. The flag had not been received that day. Attaches conform to regulations. Regulation said the emblem was the War Department, but decided to take it down anyway.

REDDY PUT UNDER ARREST

CHICAGO, Aug. 7.—(INS)—Howard E. Reddy, said to be a prominent member of the Republican faction headed by State Attorney Robert E. Crowe, was under arrest on suspicion today in connection with the bombing of the home of William Crippen A. Wood, blind Negro political leader in the fourteenth ward. Wood was an important witness before the special grand jury investigating election frauds and terrorism.

Central Florida Service Stations

Announce Their Appointment As Distributors For

KELLEY-SPRINGFIELD TIRES

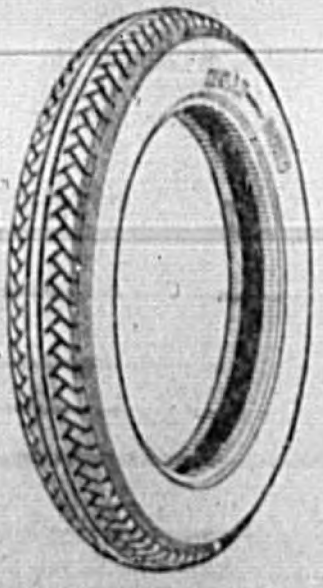

Facilities To Serve Both Wholesale and Retail

As distributors in this territory for Kelly-Springfield Tires we will be able to serve the wholesale and retail trade with greater efficiency than ever before. We will always have a complete stock of all sizes available and users of Kelly-Springfield tires are assured of fresh rubber that always gives added mileage.

We take much pleasure in announcing our appointment as distributors for Kelly Springfield Tires and feel that we are distinctly obligated to render a service in keeping with the quality of these celebrated tires. It is our belief that there is no better tire obtainable than Kelly-Springfield for any kind of pleasure-car or truck.

ROAD SERVICE

A telephone call will bring a service truck to take care of emergencies while you are on the road. This is another addition to the service rendered Kelly-Springfield tire users in Sanford. It assures them the the maximum amount of carefree tire mileage available.

Mrs. King Is Hostess To Azarian Members

Mrs. Roy King was hostess to the Azarian Class of First Baptist Church Tuesday evening at her home in Floral Heights. Bright colored binnies and verbenas were attractively arranged in crystal baskets and bowls about the rooms where the guests were received. In the absence of the president Mrs. E. C. Moore presided over the business meeting at the conclusion of which games and contests were enjoyed. The prizes, beautiful lustrous vases, were awarded to Mrs. M. C. Hagan and Mrs. R. A. Williams. The hostess, assisted by Mrs. Charles McMahon, served refreshments consisting of fruit punch, nut cake, and jello topped with whipped cream. Those present were: Mrs. B. C. Moore, Mrs. A. C. Hall, Mrs. R. L. Beard, Mrs. M. C. Hagan, Mrs. Mack Cleveland, Mrs. Albin Kendall, Mrs. Roy Pippin, Mrs. A. G. Hatcher, Mrs. R. A. Williams, Mrs. T. L. Hale, Mrs. Charles McMahon, and Mrs. C. A. Anderson Jr.

Storm Goes Inland After Causing Big Damage On Coast

(continued from page one)
hurricane but after galloping around ruthlessly for about five hours it moved further north. Towns north of here were cut off from the Palm Beach and the damage there, if any, was not known here. Towns on the lower east coast were isolated from each other when the gale jerked wires down, and it will be several days before the wire companies can get service back to normal. The barometer fell more than 20 points in a few hours, and the rain fell in torrents. The gale shrieked and the howling of the night was broken only by the snapping of trees, the crashing of roofing tile, signboards and falling telegraph wires.

While the storm has passed, some anxiety was still felt in certain quarters following reports that a second tropical disturbance in the Caribbean Sea. It was recalled that two years ago the first storm was comparatively light, but it was the second disturbance that wreaked havoc to life and property from Miami to West Palm Beach. Advice here reported that Honduras again, which sailed from New York on July 29 for Puerto Cortez, Honduras, damaged as the result of battling high seas. The United Fruit Company ship Castilla was standing by to give aid if necessary.

Mrs. H. E. Morris, Miss Dorothy Parker of Boston, and Miss Phyllis Smith formed a congenial party sponsoring by Jack the 100th weekend. Miss Parker, who was the house guest of Mrs. Jewett for the past week, took the S. S. Iroquois in Jacksonville for New York.

Mr. and Mrs. James N. Robson Jr. and small daughter left Sunday for Charleston, S. C. where they spent a few days with relatives before going to North Carolina where they will enjoy a vacation of several weeks. On their return trip they will stop at a short stop with friends and relatives in Columbia, S. C., and in Albany, Ga.

Florida produces 85 per cent of all watermelon seed sold by seedmen in America.

Personals

Miss Allie Trafford has gone to Coronado Beach where she is enjoying a vacation of two weeks.

Van Buren Council of Philadelphia, Pa., is expected to arrive in Sanford Wednesday to join Mrs. Council who is visiting her mother, Mrs. Sara J. Stewart, Mr. and Mrs. Council will return to Philadelphia in two weeks.

Mrs. T. A. Vincent of Vero Beach, left Monday after spending a short time in Sanford as the guest of her sister, Mrs. E. J. Holly. She was accompanied home by Mrs. Holly and Miss Mildred Holly who will be her guests for the next three weeks.

Mrs. Elizabeth Jewett, Mr. and

Straton Debate 'Loan Shark' Being Banished In Drive Active Campaign By Cleveland Group

(continued from page one)
you are a resident, and I am firmly convinced that you owe it to me to be heard before your own constituents to give me an opportunity to be heard on your statement that you made about my political career. Pointing to the many improvements in the state's government, brought about during the eight years he has occupied the chair of chief executive Smith told his constituents he is certain Dr. Straton cannot find anything in his political career that can possibly substantiate the charge that he is a foe of moral progress.

The Governor's advisers feel that a debate with Dr. Straton would afford him a splendid opportunity to launch his active campaign for the presidency. If Smith's friends have their way his debate with Dr. Straton, if it can be arranged, would be broadcast over a network of radio stations.

Acting under direct orders from Governor Smith a score of state troopers in civilian clothes today were conducting an intensive investigation of gambling and vice conditions at Saratoga Springs. Before sending the troops to the famous racing resort, the Governor warned the sheriff and district attorney of Saratoga county and the commissioner of public safety of Saratoga Springs that their removal would follow if gambling and vice conditions were uncovered.

According to word from Saratoga, the lid was clamped down tight as soon as it was feared that the Governor had directed the troopers to police the resort. Sheriff William N. Cozine, of Saratoga county, said today he had ordered his deputies to make a thorough investigation, while District Attorney John B. Smith announced that he was prepared to prosecute all persons charged with gambling.

Reports are said to have reached Governor Smith that the Republicans were planning to attack him in the coming campaign because of the alleged wide-open conditions at Saratoga.

Producer Planning Shakespearean Plays

LONDON, Aug. 7.—(INS)—"America is thirsting for real English Shakespeare." This is the opinion of Morris Gest, the American theatre manager, who is at present touring England, for the purpose of assembling a Shakespearean company to tour America.

"The Americans are culture-mad. They have the money and all the material comforts. Now the one thing lacking is education and art. The parents who were too busy making money in their younger days are now trying to inoculate in their children the advantages of learning."

Woman, 79, Secures Divorce In Michigan

ST. CLEMENS, Mich., Aug. 7.—(INS)—A 79-year-old blind woman has been declared winner in a divorce suit which has been contested bitterly in Circuit Court for the last six months.

An absolute decree was granted to Mrs. Matty J. Mott, of Ulica, the defendant in a suit brought by her husband, Frank Mott, Ulica business man. Mrs. Mott two years ago accused W. H. Schofield of attempting to kill her and accused her husband of conspiracy. It was on this grounds Mott sued for divorce charging cruelty.

Schofield was acquitted of the charge. Mott was never tried.

"Chesterfield?" - blow some my way!

Mild enough for anybody . . . and yet they Satisfy

*SMOKERS want a mild cigarette, but not one that tastes flat. What they do want is mildness with taste. They want a cigarette that will satisfy. Chesterfield cigarettes are blended and cross-blended from mild, pure, fragrant tobaccos in such a way as to give you mildness without the loss of taste. While mild enough for anybody, Chesterfields are not soft!

Sunshine soil and water

Florida possesses all three in an abundance and with a diversity and a combination of natural advantages that is unmatched on any other spot on earth

FLORIDA'S extraordinary natural advantages to a considerable extent are generally known. Yet their real tangible value to the economic welfare of the State is too seldom realized and are only just beginning to be utilized.

Florida's unfailing, life giving sunshine, aside from its health advantages, provides a year-round growing season. The State's fertile soil grows an unequalled variety of plant life and covers a wealth of rare minerals. Its plentiful waters add life to its soil and abound with an endless variety of fish and sea food.

Florida deposits of phosphate, one of the most essential minerals for plant and animal life, are the most extensive in the world. Florida is second among the States in the production of naval stores and is one of the nation's greatest lumber producers.

No other state equals Florida in the production of grapefruit and celery. Sixty-one per cent of the country's peppers, 57% of its egg-plant, 24% of its tomatoes, 21% of its water-melons, and a large percentage of many other fruits and vegetables come from Florida. During its 10-month shipping season each year Florida sends out nearly one hundred thousand carloads of fruits and vegetables, or

an average of eight solid train loads per day. The Sunshine State ships one-tenth of all the fresh fruits and vegetables marketed in the United States.

Yet, the land now under cultivation in Florida amounts to only one-half of one per cent of the crop land of the entire country. The growth of the State's agricultural importance is evidenced by the fact that since 1922 the average value of Florida farm land has increased from \$64.00 to \$100.00. No other state shows an increase that is even half as great.

Today the progress in farm development in Florida is greater than ever before. A rapidly growing highway system is opening up new territory and making it more accessible to markets. More land is coming under cultivation and more and more people are realizing the unequalled advantages Florida offers from an agricultural standpoint. More intensive and more efficient marketing methods are increasing the value of Florida crops.

Year in and year out--when the Northern demand is greatest--when prices are highest--each new harvest from its sunshine and soil and water brings increasing wealth and prosperity to the Sunshine State--wealth and prosperity that will grow with increasing momentum as the years go by.

One of a series of advertisements on THE FUTURE OF FLORIDA now being published by THIS NEWSPAPER in cooperation with 25 other Florida dailies and the Believers in Jacksonville, Inc.

Skeleton Of Irish Elk Is Presented To California Museum

BERKELEY, CALIF., Aug. 8.—(INS)—Consider the predicament of the Irish Elk.
He had no joints in his legs, so couldn't lie down.
And if he happened to fall down, he couldn't get up.
He slop by leaning against the trunk of a tree. All this is according to Julius Caesar, who tells in his commentaries of seeing one of the stiff-legged creatures in the Heryman forest.

Native captured the queer beast, Caesar wrote, by sawing his favorite trees nearly through. Imagine his embarrassment when his vertical bed folded on him dropping him neatly to the ground.
Interest in the strange creature was stirred in scientific circles here when a skeleton of an extinct Irish Elk was added to the paleontology museum at the University of California.

Authorities have advanced the theory that his type of elk in the creature referred to by Julius Caesar.
The specimen received here was dug up in a peat bog near Dublin, Ireland, according to Prof. W. D. Matthey, curator of the museum.

OCALA—New two-story building will be erected at Main Street and Oklawaha Avenue.

Senators and members of the House of Representatives shall be qualified to vote on any proposition submitted to the people of the State of Florida, to be voted on at a general election, to be held on the 2nd day of September, 1934, and

Inquest Held Over Slain Girl's Body

LOS ANGELES, Cal., Aug. 8.—(INS)—Bringing in a verdict that Harbor Mauer had been slain by persons unknown, a coroner's jury today had recommended further investigation of the case.
The nude body of the girl who disappeared last June, was found in an isolated gulch in north Hollywood last week. The girl is said to have been brought here from Philadelphia by Russell St. Clair Helms, who deserted his wife and two children in the eastern city. Helms is being held in connection with the murder.

LOS ANGELES, CAL. Aug. 8.—(INS)—An "asbestos" covering for the foothills of California to eliminate the menace of brush fires is a possibility.
This declaration is made on the authority of Fire Chief Ralph Scott who witnessed the tests of a new plant importation at the California botanical garden at Mandeville Canyon.
While the plant is not exactly composed on the order of asbestos, plant scientists convinced Chief Scott that it is equally as effective as far as its non-burning qualities are concerned.
Newly arrived from South Africa, the asbestos plant answers to the formal name of portulacastrum and thrives on arid slopes which makes it particularly well adapted for introduction to the foothills of southern California.
The plant is composed, almost wholly of water and is an ever-green that is unaffected by dry seasons.
The plant spreads rapidly and in addition to its qualities as a ground cover it is declared, by Chief Propagator, M. L. Ryan of botanical garden, to be excellent for cattle feed.

TWO SLAIN IN GANG WAR
LOS ANGELES, CAL. Aug. 8.—(INS)—The guns of gangland were responsible for the double murder in their home here today of Calisto Binetto and his wife, Concetta, shot as they slept according to police reports. Maria Binetto, cousin of the couple, told police she was awakened by three armed men, one with a flashlight. She was told to keep quiet, she said, and the pair went into the couples bedroom and an instant later a fatal fusillade rang out.

TIDAL WAVE KILLS MANY
LONDON, Aug. 8.—(INS)—Many persons were killed and injured by a tidal wave at Palewue in the Malay archipelago, said a Central News Bureau dispatch. Amsterdam today quoting a message received in Amsterdam from Kepong.

JAUNTY TAILORED SUIT
Nothing is more appropriate for the cooler days of Summer than a trim tailored suit. The one above consists of a double wrap around skirt and a smart jacket with decorative crisscross-shaped pockets. It is smart when worn with a white crepe de Chine blouse or with one of a printed silk. Few general town wear it is practical under covert cloth, while for afternoon or resort wear it would be attractive in a heavy printed crepe.

COMPANY—what an upheaval in the household the word did mean not so very long ago—hours of cleaning, of polishing, of beating eggs, of whipping cream, of boiling and baking, and steaming. And afterward, more than likely, a very tired, weary, worn-out hostess.

We do it all so differently nowadays. Our houses are much more completely clean with mechanical equipment, we serve food which, while just as delicious as formerly, is far more simple, because we are better informed as to correct diet. Company today means real enjoyment for hostess as well as guests, that is, if the hostess is a wise person.

Use the Refrigerator
One of her most efficient aids in entertaining is her automatic refrigerator. The very latest development in this kind is a model, the automatic refrigerator operating almost like a tiny gas flame. The clever hostess knows how to make this "servant in the house" help her immensely when company is expected—and when company comes unexpectedly. By planning her menu carefully and shopping early, she obtains her food supplies ten days in advance; she prepares

her meals, her desserts, her vegetables, her appetizers, her hot breads the day before her guests are to arrive. Even her soups or meats are made ready for the range, and her delicate soups prepared and strained to be served chilled and jellied, or reheated at the last moment.
Ice cubes for the beverages are perhaps lined to a pale rose, or a deep crimson, with the juices from fresh fruits, or with a homely vegetable coloring. Delicious mocktails are prepared, even forty-eight hours in advance, and the happy wife, with a serene assurance that everything will be so perfect and so inviting as the mood fitting guest could desire, may rest and refresh herself until it is time to dress and put the last dainty touches to her table.

A Sunday Supper
Here are suggestions for a Sunday night supper that will be a jolly affair when a few guests are present. It may be prepared all but the final touches on Saturday evening, tucked away in the silent efficient refrigerator and served on the lawn, or the porch, or in the cool dining room, in the twinkling of an eye.

Advertising will be business at every old Want Ads each day means to people all and watch for people—people who want ad page is a service. Your message will produce results that is surprising or service.
