## SERVANTS ARE TAKEN IN LINDY KIDNAP CASE

### Cook And Butler Who Disappeared After Abduction Are To Be Given Questioning

HOPWELL, N. J., Mar. 18.—(A.P.)—Police at the Lindbergh home announced today that the two Franklin Park servants who disappeared the day after the kidnaping of the Lindbergh baby had been located and were to be questioned. The pair were the cook and butler for Leonard Lightfoot and circumstances of their sudden disappearance seemed lightfoot to make a report to the police.

Lightfoot said the servants, known as Paul Thornberg and Mrs. left with the statement that Thornberg's mother was dying in Germany. After they had gone, Lightfoot discovered wood similar to that used in the ladder employed by the kidnapers and a chisel like the one found beneath the Lindbergh nursery window was missing. The chisel was found at the Lightfoot home yesterday and it was generally believed the whole investigation concerning the missing servants had been dropped as a result but a police bulletin today revealed the investigation is still on. It was also disclosed that the servants are known to the police by another name than Thornberg.

An indication those working on the Lindbergh kidnaping case are going back over their investigation of the last 16 days in a search for clues they may have missed came from the families of the servants.

## City Commission Has Informal Meeting With Bond Group

### Mayor T. L. Dumas, presiding over a conference between the City Commission and members of the Bondholders' Protective Committee and their attorneys at the City Hall yesterday afternoon, voiced the practically unanimous opinion of the entire Commission when he said that "unless our taxpayers are given a definite goal to work for in regard to their share of the city debt, the tax collection for the remainder of this year and all future years will grow less and less."

The conference, one of several informal meetings during the past two weeks, was called at the request of Kenneth M. Keefe, chairman of the Committee. Mr. Keefe sought further discussion of what procedure his committee might follow in respect to 1931 tax collections, primarily for the benefit of C. T. Diehl, and Albert C. Mitchell, committee members who have just arrived in Florida for a serious discussion of debt problems.

### Blanket Embargo On U. S. Fruits Is Lifted By France

PARIS, Mar. 17.—(A.P.)—The French government last night lifted a blanket embargo on fresh fruits from the United States, Canada and several other countries, imposing instead conditions under which fruit will be admitted.

The embargo was imposed last week to prevent the entrance of the San Jose scale into France.

The ministry of agriculture also made a special provision for fruit in French ports in transit when the decree of March 15 was promulgated.

Fruit importers protested when the embargo was clamped on last week, declaring that losses to American shippers would amount to many thousands of dollars, because importers or shippers could not re-ship before the fruit spoiled.

The measure apparently was aimed especially at apples on which the San Jose scale appears.

The decree provides that fruit shipped since Mar. 8 must be accompanied by a certificate from competent authorities of the country of origin guaranteeing that such fruit is free from scale.

Apples and pears cases and shipped in paper and shipped from the states of Washington, Oregon and California, will be admitted without formality but apples and pears shipped from Virginia, West Virginia, New York or New Jersey must be inspected and pears in other terms of packing must be inspected.

### Legion Will Urge Federal Highway Construction Bill

NEW YORK, Mar. 17.—(A.P.)—Forming the proposed federal emergency highway construction bill, appropriating \$138,000,000 for road work throughout the nation, the economically sound and defensible measure of unemployment relief, the American Legion has announced it would urge its passage by Congress.

Passage of the emergency highway construction bill at this time, Henry L. Stevens, Jr., national commander, said, "will be of almost immediate benefit to the country at large, and in urging its adoption the American Legion feels it is putting its strength behind an economically sound and definite measure of unemployment relief."

An estimated 500,000 men would be put to work seasonally, Stevens, who also is general chairman of the united action for employment of the legion, its auxiliary, American Federation of Labor, and Association of National Advertisers, said, the "great effort now is to put jobless men back to work. The records of the United States bureau of public roads show that from 75 to 90 percent of the average dollar spent goes ultimately to the wage-earner, either directly or through employment in industries furnishing materials."

### W. C. T. U. President Can't Understand Wets' Jubilation

COLUMBUS, Ohio, Mar. 17.—(A.P.)—Mrs. Ella A. Hoole, national president of the Women's Christian Temperance Union, yesterday said she would "just like to know why" anti-prohibitionists claimed a victory in Monday's congressional vote which denied House consideration of the return to state control by 27 to 167.

Mrs. Hoole is in Columbus for a regional W. C. T. U. conference.

"We are fighting a war," Mrs. Hoole said. "That vote in the House was just a skirmish—one of many skirmishes. We prohibitionists were victorious because we prevented the wets from achieving their objective."

"Indeed," she continued, "many of those 127 votes were cast by representatives merely because they were willing to allow the matter to be brought before the Senate, not because they are opposed to the Eighteenth Amendment."

"But suppose they had succeeded in bringing the recommitment before the House. Suppose we had lost. We still should be stopped there in the Senate."

"The didn't know what to say" about the four congresswomen who voted for recommitment.

"Indeed," she continued, "many of those 127 votes were cast by representatives merely because they were willing to allow the matter to be brought before the Senate, not because they are opposed to the Eighteenth Amendment."

### National Politics May Be Affected By Dry Law Issue

CLEVELAND, Mar. 17.—(A.P.)—Two surprising anti-prohibition developments in Ohio with possibly far reaching reverberations entered the forefront of national politics in Cleveland today when Maurice Marchak, national Republican committee, disclosed that for the first time since prohibition a majority of Ohio's delegation to the Republican national convention will be known to be wet.

At Columbus the Democratic Governor George White who is listed by the Anti-Saloon League as a friend of prohibition when elected two years ago on his record as favoring a referendum on the Eighteenth Amendment. White is his state's favorite son for the Democratic presidential nomination.

He said the Anti-Saloon League is making a mistake in the battle against the referendum. Marchak's statement indicated that a serious fight will be made at the Republican convention for a referendum plank.

And the Lindbergh case was an exceptional one. Because of his widespread fame, and matchless popularity, the entire police and detective forces of the country have been mobilized and directed into this one baby hunt.

PARTIES IN FLORIDA TAMPA TRIBUNE

A committee adopted to draft a Republican state platform meeting in Tampa, voted to insert a dry plank, championed before the committee by Mr. Hovey, who has been elected to succeed himself as the Republican nominee for governor.

With some of these declarations, we have no doubt, a great majority of the Democrats of the state are in full accord, although, unfortunately, they have been permitted no medium through which to express their convictions.

### Harry F. Powers Will Die Tonight For His Slayings

ROUNDSVILLE, W. Va., Mar. 18.—(A.P.)—Harry F. Powers, 37, was shot last night on his death bed and pronounced to be dead. The slaying was called "Moose" because he blew the crowd he lured with love, he was something and save him from the gallows at the stroke of 9 tonight.

Powers shows little interest in his approaching doom.

He told newspapermen he had written a confession. It is to be copyrighted, he said, and the proceeds from its sale are to go to his wife or widow—Mrs. Leola Strother Powers of Clarkburg.

The superintendent of the Huntington state hospital has reported to the governor that Powers is legally sane and amenable to the law.

### Confession Read Telling Details Of Girl's Murder

GLOBE, Ariz., Mar. 18.—(A.P.)—The purported confession of Miss (Gibney) Seymour, read yesterday to the jury trying him for murder, said he knocked her into a Schmeiser down with a rock, then strangled her and left her while she was still breathing.

The fight with the Columbia University co-ed took place in a ravine on the White River reservation near where the body was found last July. The Indian said he had had intimate relations with the girl.

Miss Seymour was living alone on the White River Indian reservation while studying the tribesmen, at the time of her death.

Seymour was quoted as having said the girl threw rocks at him and hit him in the chest before he struck her, and then attempted to attack him with a knife.

He stabbed her in the neck, as she lay on the ground, with the knife, which he took from her hand, but she "got up, walked a little way down the canyon, and then lay down."

"I went and stood on the bank above, and cried and felt very bad," the statement continued. "I went down and looked at her, and she was still breathing."

He then went to his brother-in-law's house to wash the blood from his hands.

### Orange County Farmers Will Get Part Of U. S. Loans

ORLANDO, Mar. 18.—(A.P.)—Farmers of Orange County will be entitled to an aggregate loan of \$20,000 on their 1933 crops from the Reconstruction Finance Corporation, created by Congress on Jan. 22 last, according to E. C. Moore, county agricultural agent.

The agent who appointed a loan committee for the county yesterday at the request of the government, stated that bulletins from the Reconstruction Finance Corporation had been received and would be given to the committeemen located in the different sections of the county.

The bulletins read that all loan applications must be made by April 30, 1933, and mortgages will be taken on the crops but not on the property.

The central committee appointed by Agent Moore is composed of Thomas Preverithen, R. T. Carlton and D. F. Wurst.

### McKay Heads Group Which Will Handle Boys Week Details

SEMINOLE COUNTY'S participation in National Boys' Week, Apr. 29 to May 7, will be under the direct leadership of Prof. G. E. McKay, of Seminole High School, who was elected chairman of a committee on general arrangements, at a well-attended meeting of principals, teachers, and Sanford business men in the City Hall yesterday afternoon. T. W. Lawton was elected vice-chairman, and the Rev. H. Irving Louitt, secretary of the committee.

With the purpose of the week being primarily to focus the attention of America and Sanford on its boys, their values and needs, the general committee at once set about laying plans for a proper observance of the seven-day campaign.

The Sanford Ministerial Association was asked to work out details for the feature program of the week, on Sunday, May 7, to be known as "Boys' Day in the Churches."

Monday, May 8, known nationally as "Boys' Day in Industry," will find groups of boys escorted through various plants and industries in the county by members of the committee and owners of the firms. A committee composed of E. O. Shiholzer, chairman, A. D. Zachary, W. M. Haynes, G. D. Bishop, H. R. Stevens, C. A. Byrd, and Howard Overlin, will assume this responsibility.

An added feature of the week will be the special plans arranged for Saturday, May 7, when there will be a pet and hobby parade and show, and an afternoon of entertainment and sports on the lakefront, featuring "Boys' Day Out-of-Doors." John E. Fox, is chairman of a committee which will handle this event, and Herman Morris, D. K. McNab, Robert Herndon, Rodman Lehman, and Leonard McCucas will act as assistants.

### Proposal Won To Dig Deeper Into Larger Incomes

(Continued from Page One)

Representative Rainey of Illinois, the Democratic leader, told the House the sales tax part of the \$1,000,000,000 bill was the only fair way of raising the money to balance the budget.

"If we don't balance this budget we are going to have the biggest panic any nation ever had in the history of this world," Rainey said.

Meanwhile, Representative Doughton, leader of the Democratic group, which organized to bolt their leaders on the same issue said:

"If we don't defeat the sales tax here the Senate will do it." Representative LaGuardia obtained 39 names to a petition and forced Representative Small of New York, minority leader, to call a party conference for tonight. The independents opposing the sales levy hope to break into the regular lines at the meeting.

Asserting the government was running behind its receipts \$7,822,000 a day, Rainey told the House "we now have added to the public debt \$5,000,000,000 and we will pay an annual interest charge on that of \$210,000,000."

"To keep on borrowing and increasing interest charges may bring the day that might wreck even this government. We are directors of the greatest corporation on earth and at the present time this great corporation is bankrupt. We can pay restore its solvency by wiping out this deficit."

Turning to the subject of government salary cuts, Rainey said:

"We've got to get our salaries. That's coming and we've got to cut other salaries than our own. But you can't save this government by cutting salaries."

The savings from salary cuts would be negligible, he said, but "they are needed for the psychological effect during this time of distress."

While the bitter debate was in the seventh day Secretary Mills said on the basis of early returns on income tax payments, treasury estimates of revenues needed to balance the 1933 budget were sufficiently accurate to make it unlikely the measure would have to be increased.

A statement by the Treasury yesterday showed however, the payments had dropped under those of the same comparative date last year.

Last Tuesday the payments amounted to \$12,648,765. On that day a year ago they were \$13,100,323 and payments for this month including those of Mar. 15 were \$44,701,384 as compared with \$38,124,904 in March a year ago.

Powers was convicted of the murder of Mrs. Dorothy Pressler Yankie, Northboro, Mass., divorcee. He was also indicted but not tried, for killing Mrs. Asta Bulch Eicher and her three children of Park Ridge, Ill. The bodies of the five were found hurled in a sewer ditch near Powers' garage near Clarkburg.

Monday, May 8, known nationally as "Boys' Day in Industry," will find groups of boys escorted through various plants and industries in the county by members of the committee and owners of the firms. A committee composed of E. O. Shiholzer, chairman, A. D. Zachary, W. M. Haynes, G. D. Bishop, H. R. Stevens, C. A. Byrd, and Howard Overlin, will assume this responsibility.

### DEPOSITORS ASKED TO TAKE OUT THEIR FUNDS

### Institution Decides To Close Because Of Poor Business

CHICAGO, Mar. 18.—Depositors in the Unity Trust & Savings Bank of Chicago have been asked to withdraw all their money immediately, in a letter to 2200 depositors, the board of directors said today that a steady seepage of deposits has necessitated the sacrifice of sound securities in order to provide the cash to meet withdrawal demands.

The directors, while voicing an appeal for confidence in banks, feel that it is not fair to depositors to allow them to keep money invested when there is no chance to provide a fair return and where it is impossible for the bank to make good.

Liquidation of the bank deposits without loss to depositors was made possible through a loan of \$200,000 from the Federal Recon-

struction Corporation, which the directors of the bank personally guaranteed. Mr. John Henry, vice-president and cashier of the bank, declared that the help given this bank was an outstanding example of the effectiveness of the Federal Reconstruction efforts.

Chicago's bank failures have been numerous in the past few years, and in many cases depositors have had their long-time savings tied up; but this is said to be at least the fourth case here where a bank has closed voluntarily and paid off in full.

The letter to the depositors follows:

A bank cannot be run without deposits and deposits. It is not fair to stockholders to allow them to keep their money invested when there is no possible chance to provide a fair return for their investment.

A short time ago Unity Trust & Savings Bank had deposits of nearly \$1,000,000. On that basis the bank was operated profitably. Today, deposits have shrunk to less than \$250,000. A sum greater than this is represented by the capital structure of the bank. It is a physical impossibility to even make expenses on this basis.

The bank's board of directors has therefore decided to bring an end to this steady seepage of de-

posits, instead of allowing depositors to come in a few at a time and withdraw portions of their balances, thereby necessitating the sacrifice of sound securities in order to provide the cash to meet their demands, the board of directors has agreed to liquidate deposits in their entirety. Unity Trust & Savings Bank will therefore pay all of its depositors the full amount of their balance now in cash.

To those depositors who have remained with us—you and 2200 others—we voice our sincere appreciation for the loyalty, confidence and patronage shown to us through the years that have followed the founding of this bank. Were all our depositors as loyal as you have been, this community could continue to have the full financial facilities it has need for.

In deciding on this unusual means of meeting a frenzied public's demand, officers and directors of Unity Trust & Savings Bank are showing the same loyalty to you that you and other remaining depositors have shown in us. Sound Chicago banks are worthy of the same faith you have shown in this bank.

KEY WEST—More than \$400,000 will be spent on navigation projects here under Government's six year plan.

### 50 Years In Prison Is Handed Kidnap

NEW YORK, Mar. 18.—(A.P.)—A half a hundred years imprisonment was the penalty for kidnaping imposed yesterday on Samuel Laffer, alias Harry Harvey, 32, of Brooklyn.

Two companions, with whom Laffer kidnaped Sidney Mann, wholesale butcher, last October, previously had been sentenced—Leon Golden to a life term as a fourth offender and Max Lipky to 12 to 20 years.

Golden was alleged to have posed as a police officer and told Mann one of his trucks had struck a child. While supposedly on the way to police headquarters, Laffer was picked up and at revolver point ordered Golden to proceed to Lipky's apartment.

Mann was bound and ordered to pay \$50,000 for his release. He pleaded he did not have that much, gave the men a check for \$75 and promised to deliver \$75 more, the Laffer later demanded more money and was arrested as Mann handed him \$200 in a cafeteria.

### Bank Robbers Dealt Fast Moving Justice

CLINTON, Iowa, Mar. 18.—(A.P.)—Swiftly moving justice yesterday sent four men to prison for life for Tuesday's \$105,000 robbery of the City National bank.

The men, Clifford Edwards, 22, of Clinton, and Guy Edward Morris, 19; Earl Jeffries, 19, and Lester Stanley, 28, all of Louisville, Ky., pleaded guilty before Judge A. P. Barker.

"We might as well admit it was a foolish thing to do," said Edwards after the judge gave them a brief lecture on the futility of crime.

It was their first venture in crime, they said after making complete confessions. The plot was laid in Louisville, where Edwards had met the others.

Tuesday they went to the bank before it opened, captured the janitor and 37 other employees and customers and held them until the time lock released the vault door.

Taking the currency they headed south toward Davenport, but reached the money and some clothing along the road. The money later was recovered. One of their number, who was cut on the leg, was left at the home of Edward's uncle, Eugene Hill.

The others scattered and fell into the hands of hastily organized vigilantes and peace officers in small towns.

### Crusading Minister Indicted For Murder

PALATKA, Mar. 18.—(A.P.)—Rev. Earl H. McGaha, crusading minister here, was indicted yesterday on charges of first degree murder for the slaying of John W. Malone, reputed moonshiner, during a raid on a liquor still last Christmas day.

The court previously had reduced the charge against the pastor to manslaughter, but the grand jury made the indictment real murder.

McGaha is alleged to have fired the shot which killed Malone as the preacher and deputies surrounded a still in the Lake Hewart neighborhood several miles from here.

McGaha claimed at an inquest that he tripped and fell, his shotgun being accidentally fired as he and the officers closed in at a given signal.

Since his arrest the minister has been held in jail in default of \$5000 bail.

CANADIAN DRY POLICY OF THEIR COUNTRY

Key Government Control Is Encouraging Sale of Liquor

VICTORIA, B. C.—Government control is deliberately encouraging the sale of liquor at a time when the public is clamoring to support a restrictive and prohibitive policy.

Delegation spokesmen protested emphatically against the present long business hours of government liquor stores.

To improve conditions, the prohibitionists made four proposals: systematic temperance education for the schools from the lowest grades to the highest; shorter business hours for liquor stores and bars; total prohibition of all liquor advertising; and official encouragement of home sale.

In getting these demands, the prohibitionists declared that if British Columbia could spend more than \$1,000,000 a year for liquor it could well afford to spend something to educate the young as to the evil effects of liquor.

It was insisted that while temperance training forms a part of the school curriculum in a few classes it is not nearly general or systematic enough.

The delegation protested an emphasis on the present law by which billboard advertising of liquor is prohibited, but newspapers carry the most flamboyant advertising, injurious in its effect on the young, since it continuously proclaims the alleged health value of liquor.

The Government was asked to do everything in its power to discourage the sale of liquor, even though liquor sales brought it a large revenue.

Definite Goal Is Seen Only Hope For Tax Paying

(Continued from Page One)

ing under," Mr. Keefe stated in opening the meeting.

Mayor Dumas briefly outlined his view as to the situation in Sanford at the present, saying that: local conditions are in an extremely unsettled state although a change in the weather during stronger days had aided the farmers considerably; tax collections to date however amounted to less than 15 percent of the roll, and only two weeks remaining before the books close; the two-year agreement now in effect was a good start; toward some more definite plan, and concluding with the final assertion that "before the assessments for 1931 are made up, the people are going to want to know what the final outcome of the situation will be."

Mr. Keefe led most of the committee's discussion of the plan, stating that he was of the opinion that "such a change or any change in the form of the obligation wouldn't solve the problem at all," and that "a fixed agreement now is unfair to the investors." He further stated that contrary to Mayor Dumas' statement that "we are getting nowhere in this matter," the City is progressing rapidly toward proving the extent of its ability to pay, although whether or not the present collection is an accurate indication is problematical.

Before the meeting adjourned, the Commissioners tentatively agreed a resolution which the committee wished passed at the next meeting. The resolution will provide that all money collected on delinquent tax certificates, over the \$5000 already authorized, be turned over to the committee as fast as it is collected.

The committee meeting in Jacksonville (Ind.) will be followed by another conference between the two groups next week. It is understood, when it is believed that

SERVANTS ARE TAKEN IN LINDY KIDNAP CASE

(Continued from Page One)

or they left suddenly the next day, a chisel and wood similar to that used in making the kidnapers' ladder had been found missing.

Although Colonel Schwarzkopf said in his morning bulletin the kidnapers had found their chisel and that "no suspicion" rested on the missing servants, his afternoon bulletin stated:

"The investigation of Mr. and Mrs. Thornburgh (the missing couple) is continuing and nothing of importance has been reported as yet. These persons have not been located and every effort is being made to determine their whereabouts."

In Waterbury, Conn., detectives reported three members of the New York police bombing squad, who said they were trailing three suspects in the kidnaping case, visited rooming houses there during the night.

New York police denied the report. Colonel Schwarzkopf said "it is evidently an independent investigation on the part of New York police."

Colonel Lindbergh authorized the state police superintendent to day a report he had employed a private detective agency to make an independent search for the kidnapers.

In his last bulletin of the night Colonel Schwarzkopf said a couple at first believed to be the missing Franklin Park servants, had been questioned by Connecticut state police, who reported they were not the Thornburghs.

He said police of Denver, Colo., had been requested to investigate the possibility that four men shot in a gang battle there might have been connected in some way with the kidnaping case.

Although a marked resemblance was discovered between a child seen in peculiar circumstances in a private sanitarium in the Bronx, N. Y., and the Lindbergh child, the police head said his investigators had definitely decided it was not the missing boy.

Colonel Schwarzkopf said there were no plans for the removal of police headquarters from the Lindbergh estate.
