

Wide Range Of Songs Offered By Boychoir

By Dorothy Austin
Intensive training and meticulous attention to detail was much apparent in the performance of the Columbia Boychoir, Tuesday on the stage of Seminole High School.

Brought to Sanford under the auspices of the Mutual Concert Association of Seminole County, the talented youngsters are gathered from all over the country, and trained in Princeton, N.J. for their national tours.

Songs ranging through the works of Handel, Negro spirituals and the contemporary works of George Gershwin delighted the large audience, which included middlemen from the Sanford Naval Academy as guests of the association.

One of the highlights of the concert was the presentation of a one-act comic opera by Franz Joseph Haydn, entitled "The Apothecary", which the young boys executed with deceptive ease, adding acting and dancing to their vocal talents.

In part three of the concert the choir took a break while concertmaster and director Donald Bryant played three piano pieces, Dances of the Gnomes, Consolation and La Campanella, all by Franz Liszt.

The final presentation in the Concert series for this year will be the famous and unusual puppet show, "Lord of the International", which will appear here on February 10th.

The show features some amazing effects in the world of puppetry, including rain, snow and fireworks, and an extraordinarily large cast of puppets, all activated by one man.

Seminole County concert members are reminded today by Association President Judge Vernon Mize that their memberships also entitle them to attend the concerts in Cocoa at the Cocoa High School auditorium.

Concerts scheduled the rest of the season in Cocoa include:
February 17th; "The Taming of the Shrew" by Players, Inc.
February 20th; "The Merry Widow," by the National Opera Company;
March 14th; Jose Molina and his Spanish Ballet;
April 18th; George Luckenburgh, renowned harpsichordist.

Geneva Neutrals Back LBJ Plan

GENEVA (UPI) — Neutral nations at the Geneva disarmament conference today expressed strong support for President Johnson's five-point plan to freeze strategic armaments.

Delegates from the eight neutralist nations represented at Geneva said the United States and Russia should begin concrete negotiations without delay.

The delegates welcomed the President's peace plan as a major constructive move and indicated they'll give it open support during the forthcoming talks.

The conference, which resumed Tuesday, scheduled a plenary meeting for Thursday morning.

The neutrals, who pushed hard for a nuclear test ban treaty at Geneva last year, indicated they planned to take a back seat for the time being to give the big powers time to consider detailed proposals.

Plastic Capsule

NEW YORK (UPI) — Probably the only plastic time capsule rests inside the cornerstone of an amphitheater in Bradstown, Ky. The 15-inch cylinder, made by Tube Plastics Inc., Chemtron Corp., affiliate, from industrial piping system parts, contains tributes from many persons in public life to Stephen Foster. Nearby stands "My Old Kentucky Home," which inspired the Foster ballad. Centennial observance of his death will take place this year.

LBJ Invited

WASHINGTON (UPI) — Florida's Democratic congressional delegation invited President Johnson Thursday to dine with them Feb. 27 at a \$100-a-plate fund raising dinner at Miami Beach.

ELLI YODER OF DEBARY AND LORING BURGESS of Sanford (second from left) are pictured purchasing Girl Scout cookies from Judy Tanner and Elaine Chapman (far right). Girl Scouts are now selling cookies at numerous locations throughout the county. (Herald Photo)

Landowners Urged To Order Seedling Pines Immediately

County Ranger Albert Harris today warned that time is running out for landowners to order seedling pines available through the Florida Forest Service if they wish to plant this year. Season ends in February.

Full information and details of the planting program may be had by calling Harris at the Longwood Fire Tower, 838-1229.

The following bulletin, issued by the Forest Service, explains, to some extent, the value of the pine forest in Florida's economic structure.

The pine — tall green backbone of a half-billion dollar industry in Florida — is an amazing tree.

And planted by the millions, as Florida farmers and landowners have planted this season, the result also is remarkable. At maturity, those planted pines open up new jobs in town, new homes go up, and retail sales increase.

A stand of mature pines is a kind of working capital. As those planted pines grow, so do opportunities in business and industry.

Of course there are few individual landowners who could plant enough pines to change the economic face of a community. Yet something of that effect is reached in any area when a number of landowners put a portion of their unused land to growing timber.

The single pine tree itself is noteworthy. For the chemical processes and engineering feats of the tree are wonders to behold.

Each tree's basic unit of life is the cell. Inside each cell is a nucleus which carries the chromosomes which guide the development of the tree. These cells serve as factories for manufacturing and utilizing needed substances.

The root of the tree, too, is a marvelous organ. The main root structure serves to hold the tree upright. But each tree also has tiny roots similar to hairs in size stretching out from the older and larger roots which serve as vital avenues.

The tiny hair-like roots finger around and through the soil absorbing moisture and nutrients — all part of the "factory."

The pine, if not taken for granted, is an impressive thing to see and ponder. Unseen are the complicated processes which go on quietly beneath the bark, in the dark green needles, and under the soil.

Indeed, the whole process which turns an unused acre into woodland profit — with a minimum of investment and care — is remarkable.

Coral flourishes within 90 feet of the water surface, but usually does not grow below 150 feet, where light is poor.

HEAVY ATTACK Squadron 3 won the John H. Bear Memorial Safe Driving Plaque for 1963 for having the lowest number of driving demerits per person among personnel at Sanford Naval Air Station. The plaque is given in memory of Cdr. John Bear, VAH-11, fatally injured in an automobile accident in 1957. Capt. Robert M. Ware (left), NAS commanding officer, presents the award to Cdr. George Kimmons, VAH-3 commanding officer, and Lt. (jg) Cliff Dowell, VAH-3 safe driving officer.

100 Families Trapped By Tumbleweeds

PALMDALE, Calif. (UPI) — Tumbling tumbleweeds may sound poetic when put to music, but the troublesome desert plants were cause for war Tuesday.

Fifty men armed themselves with pitchforks and battled a wall of tumbleweeds that had surrounded a home development, "trapping" about 100 families.

Strong desert winds were blamed for uprooting the tumbleweeds that swirled across the countryside and lodged against homes and garages at the Desert View Highlands tract on the west side of town.

Ohio ranks first among state of the Union in production of dolomite and limestone.

College Financing Explained To PTA

By Jane Caselberry
Guidance Director James Bowers presented the overall picture on college admissions, scholarships and financing at the Lyman High PTA Meeting held Tuesday night in the school auditorium.

Bowers told the parents that there is no reason, nowadays, with the many college scholarships, grants, aids and loans available from colleges, industry, banks and the Federal Government, that the conscientious student from even a family of moderate means should not be able to enter college.

The average cost of college tuition is \$1,840 a year and statistics show that the average student works to pay 25 per cent of the costs himself, 40 to 50 per cent comes from the parents' current income, 10 to 15 per cent from loans, savings or investments and 10 per cent from scholarships and awards.

He mentioned the co-op program sponsored by Martin Company, which allows a student to work alternate trimesters while attending the college with no obligation on the part of the student or the company for employment at the completion of his college education.

Long-term loans are available from most colleges at low interest rates as well as on-campus jobs for students who need them. When extending aid, colleges usually expect the student to earn \$300 during the summer toward his tuition.

Bowers also called attention to loans available through the National Defense Act which are made on the basis of need with preference given to the student of modern foreign languages, math, science or teaching.

These loans are not due until one year after the student leaves college and are paid back in 10 years at three per cent interest. Half of the loan is canceled if the recipient goes into the teaching profession.

He advised that students start making decisions as to college and the means of financing at least by the beginning of their senior year.

Rev. Edward Miller of the Altamonte Springs Community Chapel gave the opening devotion, speaking on the importance of assuming responsibility.

Principal Carlton Henley reported on the new activities at Lyman such as the Bowling Team now being organized under direction of assistant principal Ray Pharr and the Brain Bowl Team sponsored by Fletcher Cockrell.

A Leadership Council, consisting of club and class officers has been set up to promote better student-faculty relations and a better school program through the exchange of ideas.

The early history of the PTA was reviewed by James Birkenmeyer in honor of Founders Day ordinarily celebrated in February but commemorated at this meeting since the Lyman PTA has no meeting scheduled for next month.

An offering was taken to be contributed for support of State PTA work.

R. T. Milwee of the ways and means committee announced that the next PTA fund raising event will be a Variety Night scheduled for Friday, March 13, in the Lyman auditorium. Talented parents and teachers are being recruited to take part in what promises to be a rollicking evening of entertainment.

Mrs. James Birkenmeyer has been named to represent Lyman on the nominating committee of the PTA County Council.

Howard Babbitt, treasurer, reported a net profit of \$114 from the sale of Christmas cards.

Refreshments of doughnuts, coffee and punch were served in the cafeteria by the 11th grade mothers following the meeting.

The next meeting will be held March 17 and will include a panel discussion on the problems of parents and teenagers.

Retired Folks Hold Election

By Joan Magin
Members of the Chuluota Retired Folks Club named Verne Black as president at a recent election meeting of the group.

Other officers for the year are Wallace Adkins, vice president; Mrs. George Haig, secretary; Mrs. E. J. Buckley, treasurer and Mrs. H. Boswell, information secretary.

Meetings of the club are held at the Community Center on the third Thursday of each month beginning with a pot-luck supper served at 6 p. m. New members are always welcome.

President Warren G. Harding was the first U. S. chief executive to pay income tax, in 1923.

Toss away your raincoats, friends. The Board of Control has spoken.

Nobody can say Seminole was not united. Nobody can say the county didn't put forth its best effort.

Of course, the board of control's action today is a recommendation to the Florida Board of Education. It does not mean that the proposed university will be put in Orange County. The Board of Education, which is composed of the governor and his cabinet members, must put its final stamp of approval on the site.

This is not to say they won't. But when it's so obvious that a Seminole site would serve all of east Central Florida it's our opinion that the Board of Education should give serious consideration to the surrounding counties and their desires to have the school placed on a site more accessible than any other.

Lee Gary wants it known that when the Board of Control visited Oviedo yesterday it was the City of Oviedo who entertained the Orange County Commissioners. Seminole Commissioners entertained the Board of Control.

Fred Van Pelt, our managing editor, reported from Orlando that no vote at all was taken on the Lake Ada site. This is certainly strange since this was the site endorsed by so many of the newspapers and other news media in this area, plus two county commissions.

Back to the goings-on in Seminole... final tryouts for the Lake Mary Chamber's talent show will be held Monday night at 7:30. Ticket sales, 'tis reported, are going well. The show will be held at Sanford Junior High Feb. 28.

We got a bottle of "Goldwater" from a nephew of ours at Wake Forest. An attached note read: "Dear Unk: This is to get even with you for putting 'Lodge' on my Goldwater campaign buttons."

Remember that letter to the editor from "Teenagers of America" in The Herald earlier this week. We've got a reply. Look for it Monday.

We have to agree with Howard Long, a long time Sanford resident who used to be in the plumbing business, that the site where the County Home is located is one of the prettiest in U.S. 17-92 between Sanford and Orlando.

When all the past presidents of the Seminole JayCees talked yesterday, it was still Floyd "Pep Talk" Palmer who called on the young civic leaders of the area to stay on the ball and do even more for the community.

Before you make plans for Feb. 2, remember the Heart Fund's footcandy which is to be held at the Orlando-Seminole Fronton. And while we're reminding you about things, have you bought your Girl Scout cookies yet? If you haven't been asked, you must be in the hospital or in jail. The cookies are on sale every-where.

Bob Shelden of Southern Bell called to say that it should be made clear if the metro phone system is approved Sanford area residents will also be able to call Winter Park toll free in addition to all Seminole county phones.

The Sanford Downtown Merchants Association will meet Tuesday at 3 p. m., in First Federal's caucus room. They're going to discuss the downtown parking situation. Glen McCall, association president, says "Every downtown business man and his business" should be represented.

Also Karlyle Housholder has called the first quarterly meeting of the Board of Directors of the Seminole County Chamber of Commerce. It's to be convened next Thursday at 7:30 p. m., at the Sanford Civic Center. Put that one on your calendar now!

news... BRIEFS

Reds Up Ante

GENEVA (UPI)—The Soviet Union today raised the price for an agreement on banning the spread of nuclear weapons by insisting that France also take part.

'No Hand Out'

WASHINGTON (UPI)—President Johnson says his former aide Bobby Baker was "asking for nothing and as far as I knew expected nothing" from the \$81 stereo Baker gave him.

Florida Visitors

STUART (UPI)—Canadian Prime Minister Lester B. Pearson and Mrs. Pearson began a one-week to 10-day vacation in seclusion today at the exclusive Hobe Sound community on the Atlantic Ocean near here.

Bandit Slain

TAMPA (UPI)—One young gunman was shot down and his companion captured Thursday when they fled the suburban Exchange Bank of Temple Terrace carrying \$43,000 in cash—and ran into an arriving force of policemen.

No Smoke Screen

MIAMI BEACH (UPI)—Cigarette manufacturers have the major responsibility in not giving youngsters the impression that smoking is fashionable, a National Association of Broadcasters board said Thursday.

Nixon 'Runs'

NEW YORK (UPI)—Former Vice President Richard M. Nixon practically stepped into the conch shell of Thursday night by announcing he would accept a draft for the Republican presidential nomination.

Sukarno Refuses

LONDON (UPI)—Atty. Gen. Robert F. Kennedy said on arrival from his Far East peace mission today that Indonesian President Sukarno refused to promise him to give up his opposition to British-backed Malaysia.

U. S. Willing

WASHINGTON (UPI)—President Johnson says the United States is willing to discuss with Panama any issues dividing the two nations, presumably including the canal treaty, 30 days after diplomatic relations are restored.

Skeleton Found

ST. PETERSBURG (UPI)—A human skeleton was found Thursday night by a 15-year-old youth walking through a heavily wooded area in south St. Petersburg.

Reuther Hits Excessive Overtime

CHICAGO (UPI)—United Auto Workers President Walter P. Reuther, backing President Johnson's plea to industry to hire more workers instead of paying overtime: "It is scandalous that millions of workers put in excessive overtime hours while others can't find jobs."

\$6 Million NAS Bill Offered

Congressman Syd Herlong reported this morning that the Defense Department has sent to Congress a bill for military construction amounting to slightly more than \$6 million for various improvements at the Sanford Naval Air Station.

Benefit Dinner

The Men's Club of the Casseberry Community Methodist Church will sponsor another of their "all you can eat" roast beef dinners at the church this Saturday from 5 until 7 p. m. Proceeds will be used to buy equipment for the Sunday school rooms.

Two Children Die In Fire

TAMPA (UPI)—Two children burned to death near here late Thursday night in a fire caused by an explosion in a wood stove.

Highway Tolls Top \$9 Million

TALLAHASSEE (UPI)—Florida collected a record \$9.3 million last year from its 12 road and bridge toll projects.

Reuther Hits Excessive Overtime

Two Children Die In Fire

TAMPA (UPI)—Two children burned to death near here late Thursday night in a fire caused by an explosion in a wood stove.

HAROLD H. KASTNER, (seated) illustrious Potentate of the Bahia Temple, installed officers at Thursday night's meeting of the Sanford Shrine Club. Approximately 250 Shriners and their ladies attended the affair at the Mayfair Inn. Standing (left to right) are Directors W. E. Kirchhoff and James I. Smith, Treasurer Al Skinner, President Roy G. Williams, First Vice President Leroy C. Robb, Secretary R. C. Whitmire, Director Joe Corley, Second Vice President Ralph B. Wight II, and Director Speedy Willis. (Herald Photo)

Snow In Plains; Rain In South

By United Press International
A blizzard swept the North-Plains today and freezing sleet spread southward across the Midwest. Thunderstorms skirted down the Mississippi Valley and along the Gulf Coast.

Heavy snow warnings were posted from the Dakotas to Michigan. Traffic conditions grew more treacherous by the hour.

The storm slammed the Dakotas with up to four inches of fresh snow. Blowing and drifting was widespread from the Dakotas through Northern Minnesota.

Thunderstorms dumped 1.07 inches of rain in six hours at Columbus, Miss., and amounts of more than an inch were reported across the Gulf Coast states.

Reuther Hits Excessive Overtime

TAMPA (UPI)—Two children burned to death near here late Thursday night in a fire caused by an explosion in a wood stove.

Pigott Announces For Superintendent

Jim Pigott, Seminole High School's football coach for the past seven years, today announced his candidacy for the office of superintendent of public instruction. He is the first to announce for this position.

Pigott, 43, holder of bachelor of arts and masters degrees in education from the University of Florida, declared that there are two primary reasons for his decision.

"I have a deep-seated desire to use my special education and talents to serve the people of Seminole County, particularly young people. Also, I wish actively to oppose any referendum vote in this county which would make the office of superintendent of public instruction an appointive office."

"I am convinced that the person who holds this office should be elected by the voters since they are the people who must finance our county school system."

Pigott, born in Ellenton, Manatee County, said he was fully certified in both elementary and secondary administration and supervision, social studies, driver education and physical education. He holds a Rank I teaching certificate, highest granted by the State Department of Education.

"This more than qualifies me for the position I shall be seeking in the primary elections," Pigott said. He has served 14 years in the public schools of Florida. He was Lee County supervisor of elementary physical education for one year and assistant football coach at Fort Myers high school. He spent six years in Alachua County as athletic director, head football coach and teacher.

Since then Pigott has been in Seminole County, serving four years as county coordinator of the summer enrichment program. He was president of the Seminole County Teachers' Federal Credit Union for two years.

Between 1940 and 1945, Pigott served with the U. S. armed forces. He is a member of the First Methodist Church of Sanford and teaches the Fellowship Sunday school class.

He is married to the former Melba Anita Reeder of Gillette, Fla. They and their four children, Chuck 14, Pam 13, Patti 10 and Eddie 8, reside in Lech Arbor.

Benefit Dinner

The Men's Club of the Casseberry Community Methodist Church will sponsor another of their "all you can eat" roast beef dinners at the church this Saturday from 5 until 7 p. m. Proceeds will be used to buy equipment for the Sunday school rooms.

Tax Bill Given To Senate

WASHINGTON (UPI)—Senate tax writers laid before their colleagues today a \$11.5 billion tax cut program approved after a confusing wind-up to more than four weeks of labor.

The 17-member Finance Committee completed work on the biggest tax cut in history Thursday, voting approval 12 to 6.

The top priority measure, \$400 million larger than the bill passed by the House Sept. 25, would slash tax rates for virtually every U. S. taxpayer and corporation.

Two-thirds of the reductions would be effective this election year, retroactive to Jan. 1, and the balance on Jan. 1, 1965.

Senate leaders hope to start floor debate next week or by Feb. 3 and steer the bill through the Senate by mid-February. Prospects for final congressional passage by March 1 appeared good.

Curtis Appeals In Butts Case

ATLANTA (UPI)—Curtis Publishing Company today filed notice of appeal of a \$100,000 libel judgment awarded to former football coach Wally Butts.

The publishing firm dropped its action into the U. S. district court clerk's office, clearing the way for another court battle in the sensational case.

Butts, former athletic director of the University of Georgia, sued the Saturday Evening Post, a Curtis publication, in a \$10 million libel suit following publication of an article alleging that Butts gave away Georgia team secrets.

Two Children Die In Fire

TAMPA (UPI)—Two children burned to death near here late Thursday night in a fire caused by an explosion in a wood stove.

Police identified the victims as Mary Alice Hill, 12, and her brother, Lewis Thomas Hill, nine. Mr. and Mrs. Robert Eugene Hill and two of their five children escaped the blaze.

Firemen said the fire broke out when Hill, 42, poured fuel oil into a kitchen stove containing burning wood embers. The stove exploded.

New Orange

GAINESVILLE (UPI)—The University of Florida's agricultural extension service announced today it has developed a new orange by crossing a tangelo and a tangarine.

EDITORIAL COMMENT Let's Dial Unity

Next week Sanford area telephone subscribers will get an opportunity to make a decision of major importance to the future of Seminole County.

The growth of the northern and southern sections of the county is leading Seminole into two geographical areas. To forestall the possibility of further sectionalism creeping into the business, professional and political life of the county, several steps must be taken.

The initial step to be taken is to solve the problem of communications.

Telephone subscribers in the northern area are served by the Southern Bell Telephone Company and southern subscribers are served by the Winter Park Telephone Company. This situation means toll charges on calls between the areas.

The Seminole County Chamber of Commerce has obtained an agreement by the two companies to establish a metropolitan telephone system which will enable any Seminole telephone subscriber to dial toll free any other telephone in the county, plus Winter Park.

The system will be put into effect approximately 15 months from now if Southern Bell subscribers will agree decisively to a slight increase in rates. Basic rates for business phones would be raised \$1.50 while residential rates for private lines would be increased 50 cents, two party phones 40 cents and four-party phones 30 cents.

The slight increase, however, will enable Sanford subscribers to dial toll free some 35,000 phones instead of the present 15,000 phones.

The Herald joins county-wide business, professional, governmental and civic organizations and leaders in soliciting a most decisive approval of the proposed metropolitan system.

The slight increase in rates will be more than offset by the tremendous increase in the number of phones which can be dialed toll free. The system will unify the county and go far to eliminate sectionalism.

Divided the county can grow only in spite of itself. United the county can grow into a community which will be able to take its rightful place among the leading counties of Florida.

Further steps toward unification, progress and development of our economy depends upon the unification of communications. The Herald urges you to make your decision in favor of the Metropolitan Telephone System.

Seminole must have it.

Tech Quits SEC

ATLANTA (UPI)—Georgia Tech today resigned its membership in the Southeastern Conference.

Conference President J. Wayne Reits, president of the University of Florida, announced through Commissioner Bernie Moore that the Engineers, charter members of the 33-year-old league, withdrew even before a controversial scholarship limit was discussed.

Tech's departure from the SEC is effective June 30. "Georgia Tech's interest is apparently best served by withdrawal from the conference," Moore read from a handwritten statement by Reits.

"The issue was over an overall limit on scholarships," the statement continued. "Georgia Tech wanted to remove the limit and the conference membership does not want to remove the limit."

Moore said that Tech President Edwin D. Harrison spoke to an executive session of the presidents of the 12-school conference for barely a minute and a half.

Moore said Harrison offered to leave the meeting but that Reits ruled that since Georgia Tech would still be in the conference until June 30, Harrison should stay.

"Nobody said a word," Moore said. "The scholarship limit hadn't even come up yet." Asked whether there would be any change in the situation if the conference presidents should surprisingly vote in favor of writing letters to the federal government and the telephone company, Moore said "that's pure speculation. I can't comment on that."

Tech has long wanted to get rid of the limit of 140 scholarship athletes at any one time.

Business Now Mostly A Numbers Game

DES MOINES, Iowa (UPI)—"The 484-07-7439 50339 283-1313 515 Co." was formed Thursday to write letters to the federal government and the telephone company.

The name is made up of the Social Security number, zip code number, telephone and telephone area code number of its president and founder, Robert Hullivan.

Hullivan said he formed his company "in a spirit of surrender to the digit dementia of government and big corporations."

"I have seen the handwriting on the wall, and it's all numbers," he said.

Foot Sore

HOUSTON, Tex. (UPI)—Ted Clayton Jr., 23, shot himself in the right foot Thursday when cleaning his scatter-gun. It was the same foot he shot up last Friday on a squirrel hunt.

Life's Crises

When news came about the Cuban war crisis in 1962 my wife and I were in Atlanta, Ga., where I was attending a conference of evangelism. Our principal speaker was Dr. Hans Jochen Margull who is a native of Germany and an outstanding scholar. Dr. Margull is now the Executive Secretary of the Department of Studies in Evangelism of the World Council of Churches. This man was a soldier in the German Army of World War II and when the war ended he was in jail for his Christian views which opposed Hitler, a man who had been a hero in the eyes of millions, only to become a kind of demon in the eyes left to see the destruction brought by his evil ways.

Many aspects of evangelism were discussed and studied in various ways but interesting enough, before the critical news broke, the subject of evangelism in a world torn by nuclear war was at least mentioned and, needless to say, became more real after the crisis coming out of the Cuban situation.

So many things loomed large in my mind. The immediate future was of great concern and it was extremely personal. I thought of my children in Sanford and how happy I was that they were with friends who are fine Christians. I had so many people about whom I was concerned, yet I knew that panic was not the answer.

The tension in Atlanta was great enough to be felt even though there were jokes told but the laughter was noticeably nervous.

After hurrying home before the conference was over there was more time and ease with which one could reflect on the matter. People began to tell of how they were feeling now that the initial shock was over. I thrilled to hear a man who was interviewed on the radio testify to the fact that he was optimistic simply because he had a God to trust.

A little child told me how happy she was to be a Christian because of her assurance of eternal life. Even as many "brave" adults were going about as best they could this little child was leading by saying that she was not afraid even of death yet she was not at all fanatical in her approach. Others testified to many things good and bad, but it occurred to me that there must be a basic way for the Christian to face critical times.

Having to know what is ahead is not the solution. I caught myself thinking that it would be very good to be able to know what is in the future even to some particular time. This thought reminded me of the two British businessmen who were talking some time ago. They were discussing business, however,

they began to let their imagination wander. One asked the other, "If you could have anything your heart desires, what would it be?" The answer was, "If I could have anything, I believe I would ask for a copy of the London Times dated 10 years ahead." If such a request should be granted one would possibly be sorry, however, such a request cannot be answered for any of us. We are not fortune tellers and God has not seen fit to reveal the detailed path that lies ahead, but He has told us to do some certain things if we are to live at peace in this world of strife.

We can remember first that God has promised ultimate victory for His Kingdom. We do not know when it will take place, but if we believe His Word we can know that a time will come when victory will be His. This is not to say that battles or wars will not be lost, but ultimate victory will be for the Kingdom of God.

We can pray for peace. This does not mean, for many of us, that we feel that our country should abandon its weapons of defense unilaterally any more than we would want to eliminate our local police force. Even so we should pray and work for peace.

We can work for peace which means in part that we must work for extending the Kingdom of God in Jesus Christ throughout the world. The Great Commission is now seen to be the only practical solution to material as well as spiritual problems. We can do all that God directs in obedience to the very best of our ability. The Bible can be searched and followed as we turn ourselves over to God to be used as channels of His blessings.

We may trust God who in the last analysis is the One who can bring the blessing to mankind. It is not for us to know how God will accomplish His design, but it is enough to know that God does hold the world in His hand. Let us walk ahead with our eyes fixed on our Lord Christ. When Peter walked on the water toward Jesus he did not sink until he listened to the howling wind and looked from Christ to the crashing waves.

Even if the waves do seem high and the winds do howl with anger, let us keep our chin up, and our eyes fixed on God. He has been trying to get us to do this for a long time and we cannot afford to turn from Him again.

YA's To Meet
Young Adults of Westminster Presbyterian Church will meet at 8 p.m. next Friday at the home of Mr. and Mrs. Don F. Helzer, 103 Genovieve Drive, Dol Ray Manor.

NEW VESTRY of Christ Episcopal Church in Longwood is pictured with Rev. Charles W. Stewart, vicar, center front. Others on the vestry are Robert Hammond, junior warden, left front; Raymond Ball, senior warden, right front and back from left, Charles Woodruff, Frederick Wyman, treasurer; Charles Pasternack, Thomas Kuhn and Tyson Marx, clerk. Catholic Women See Film

By Donna Estes
A film strip entitled "Challenge," which was narrated by the president of the National Council of Catholic Women, was viewed at the regular monthly meeting of the Church of the Nativity Catholic Women's Club held Monday evening at the social hall of the church.

The film illustrated the scope of the NCCW during the past two years, nationally as well as worldwide. During the business meeting, Mrs. John MacFarlane, president, urged the members to participate in the formulation of a layette which will be donated to the Catholic Charities Bureau. Baby clothes are to be either yellow or white in color, or a combination of both.

The date of the monthly baby sale was set for Feb. 2. Door prizes for the evening was awarded to Mrs. Shirley Corkhill.

Holy Cross Church Has Annual Meeting

The Annual Parish Dinner and Business Meeting of the Holy Cross Episcopal Church was held Jan. 18 at the Parish House with a total of 296 adults and young people in attendance.

was the last official act of Rev. John W. Thomas, rector, who is leaving for New York City where he will be in the Office of Episcopal Headquarters in downtown Manhattan.

Father Thomas hopes to return to Sanford for the Confirmation of Kevin, his youngest son, and for the Graduation Exercises of Chris, his oldest son.

Mrs. Pat Quilling, spiritual development chairman, announced that Communion Sunday for the Women's Club will be on Feb. 16 and stressed the importance of all members attending. She also stated that the fourth Sunday of February would be Family Communion Sunday.

Reports were heard from the circle chairmen from Longwood, Lake Mary, Sanford and North Orlando.

Two new members, Mrs. Joseph Stankiewicz and Mrs. Helen Beam, and two guests, Mrs. Ruth Polgar and Mrs. Lorraine Schenck, were welcomed.

Copies of annual reports and of charter amendments presented and approved at the meeting are available at the church office.

M. V. Parry was appointed by Father Thomas to serve a one year term as senior warden in a special meeting of the Vestry called immediately following the business session. Vestry officers elected at this time were Tom West, junior warden; Chuck Register, secretary and Gordon Bradley, treasurer.

The dinner was prepared by the youth of the church under direction of Mrs. Randall Chase and Mr. and Mrs. Stanley Polaski.

Public Invited To Revival
Invitation to the public to attend a Holy Ghost Revival now in progress at the Church of God of Prophecy has been extended by Rev. Robert Strickland, pastor.

Evangelist Glendale Queener is conducting the daily services at 7:30 p. m. The church is located at 2500 Elm Street, Sanford.

Following the worship service scheduled during the first hour, the youth will enjoy refreshments served by the United Church Women of Sanford. After the break period, the group will return to the auditorium to see the Christian musical film, "The Tony Fontaine Story," which portrays what Christ can mean in a young person's life.

Local young people participating in the city-wide, interdenominational rally include the Misses Judy Cochran, Kathy Trout and Sherry Marazita.

Serving as the publicity committee are Tom Palmer, Ronnie Hall and Bob Willink. Bill Duxbury has arranged for music to be provided by the High School Brass Choir and Robert Kaynor will bring a quartet from First Methodist. Andy Lyon will be in charge of the Worship Center and Beth Morgan will arrange for flowers.

Rev. Ray Gregory, chairman of the planning committee, said today that a capacity crowd is expected to attend this second annual youth rally to be held in the city of Sanford. Invitation is open to all youths, regardless of church affiliation, from seventh grade through college age.

Sanford Youth Rally Plans Completed

Final arrangements for the Sanford Christian Youth Rally to be held at 7 p. m., Feb. 8, in the Seminole High School Auditorium, were made at a meeting of the planning committee held last Sunday afternoon at the First Methodist Church.

Speaker for the program will be Rev. John Mangrum of the Avon Park Episcopal Church of the Redeemer who has proved an interesting speaker for young people on many occasions.

Following the worship service scheduled during the first hour, the youth will enjoy refreshments served by the United Church Women of Sanford. After the break period, the group will return to the auditorium to see the Christian musical film, "The Tony Fontaine Story," which portrays what Christ can mean in a young person's life.

Local young people participating in the city-wide, interdenominational rally include the Misses Judy Cochran, Kathy Trout and Sherry Marazita.

FINAL PLANS for the Second Annual City-Wide Christian Youth Rally, to be held Feb. 8, were completed this week. Checking publicity reports are Rev. C. C. Dees Jr., Tom Palmer, Rev. Ray Gregory, Bill Duxbury and Robert Kaynor. (Herald Photo)

Two Altamonte Circles Hold Programs

By Julia Santos
Two WMS Circles of the Altamonte Springs Baptist Church held meetings this week with programs for both

on the topic, "Citizens of Two Worlds."
The Alice Price Circle, with Mrs. J. E. Hildebrand as chairman, met Monday at 7:30 p. m. at the home of Mrs. Don

Strickland, program chairman.
The Jana Hill Circle, which is led by Mrs. L. D. Haines as chairman, met at 1 p. m. Tuesday at the home of Mrs.

H. R. Hamby.
Regular business sessions of the circles were held following the program after which refreshments were served by the hostesses.

Seminole's New Service

Everyday throughout Seminole County there are people who need assistance — the type of help which only can be provided by a nurse. This means a nurse who can visit the home and accomplish simple nursing procedures.

For example, a 60-year-old man needs to be taught to give himself insulin shots because of his diabetic condition, an elderly woman needs to be shown how to bathe a bed-ridden member of the family, a young girl's surgical dressings must be changed every day or two, or a mother needs help in learning to prepare a special formula for her newborn child.

Dozens of other instances could be cited of persons not ill enough to be hospitalized and not needing, or able to afford, the services of a full time private duty nurse.

Yet, they need nursing care or counsel which their families are not able to give them, at least without the services of a visiting public health nurse.

Here in Seminole County the services are legion which a visiting nurse can render. They should be available to all who need them in this area, whether or not recipients who receive the services or their families can afford to pay for all or part of the established small fees.

Because of this need the Seminole County Home Nursing Council was organized under the sponsorship of the Public Health Department last October. At the present time there are eight public health nurses who provide home nursing services. The county now has the professional part-time home nursing care for those whose families once had to rely on untrained relatives, servants or friends. The nurses are providing more comfort for the chronically ill, the aged and the infirm. Physicians

know their patients are receiving proper professional care, and the patients have the reassurance that a professional nurse is providing or supervising their care.

Home environment provides a psychological and inspirational stimulus to patients. Not only are they in friendly and familiar atmospheres but their families, after instructions, can participate in their treatment and recovery program.

Seminole County is fortunate in having this type of service. However, its continuation, progress and success is a direct responsibility of all of the people of this county. The organization needs the support of the community.

Fortunately, the program is a part of the Public Health Department and at this time does not need financial support. But it does need the interest of the people. The public is invited, in fact, urged to learn more about the program by attending council meetings and serving in whatever capacities possible.

The Herald joins with Dr. Leone, head of the Public Health Department and Kenneth McIntosh, president of the Home Nursing Council, in urging Seminole County citizens to acquaint themselves with the program and lending their support when and where it is needed.

Thought For Today

These all died in faith, not having received what was promised, but having seen it and greeted it from afar, and having acknowledged that they were strangers and exiles on the earth — Hebrews 11:13.

Strange interlude! Yes, our lives are merely strange dark interludes in the electrical display of God the Father! — Eugene O' Neill.

"Mind If I Look Over Your Shoulder?"

Dr. Crane's Worry Clinic

Myrna's report shows the widespread educational influence of the daily newspaper. In its various advice columns on psychology and medicine, finance and politics, child care, etc. The newspaper actually surpasses the Liberal Arts college in constructive social influence. Here's just one case in point.

CASE R-405: Myrna M., aged 28, lives in Pennsylvania. After one of my recent lectures, she introduced herself and thanked me for saving her father's life.

"What do you mean?" I asked, puzzled.

"Well, Dr. Crane," she answered, "you mentioned in one of your newspaper columns that oxygen is the main need of a person during a heart attack.

"So you urged all such patients to grit their teeth and indulge in rapid, forced deep breathing.

"Last month Daddy fell to the floor as he was rushing to answer the telephone.

"He was clutching at his throat and suffering terrific pain over his chest.

"So I loosened his collar and urged him to lie still but breathe deeply.

"Meanwhile, Mother called our physician.

"And during the 30 minutes till the doctor arrived, I kept urging Daddy to breathe deep and fast, which he did.

"The pain had eased up a great deal by the time the doctor reached us. He then sent Daddy to the hospital, where they put him on oxygen.

"But he said Daddy probably would have died if I hadn't made sure he breathed deep and fast during that first half hour on the floor."

Heart Strategy

When you suffer a heart attack, the one chemical that your heart needs most is oxygen.

As soon as we medics get you to a hospital, that's what we employ to tide your hampered heart through its readjustment period.

But a physician may not reach you for an hour. And you can die in the first 5 minutes, if you don't get more oxygen to that weakened heart.

So PLEASE memorize this simple formula for helping save your life:

(1) The air around us has almost 20 per cent oxygen in it, so breathe deeper and faster. Then you can give your heart more oxygen AT ONCE!

(2) Those first few minutes may tip the scales between death vs. life. So extra oxygen from the air may turn the tide in your favor.

It's like a fire that starts in a wastebasket. One bucket of water in the next minute or two may douse the fire entirely. But if you wait 30 minutes, even the city fire department may not save the building!

(3) Lie still except for your rapid deep breathing. For a hampered heart needs all the breaks.

Don't try to walk upstairs to your bed. Stay where you are.

(4) You can suffer from several heart attacks without dying. If your heart gets plenty of oxygen to keep up its normal pumping pressure.

If you remain conscious, then you know you are more likely to survive, since fatal heart attacks usually knock you unconscious almost instantly.

And send for my booklet "How to Break the Liquor and Tobacco Habits," enclosing a long stamped, return envelope plus 20 cents.

For tobacco seems the major cause of heart attacks, so give your heart a break.

Remember, heart disease causes 3 1/2 times as many deaths every year as all forms of cancer, combined!

Bruce Blossat -- Ray Cromley

Political Notebook

WASHINGTON — (NEA)— Short, paunchy Col. L. Vallerino is commandant of the Panama National Guard, the country's combined army and police.

When called into action, Col. Vallerino's troops did a rapid and efficient job of quelling the rioters and helping bring peace and order.

The story was different in the big anti-U.S. riots in Panama just over four years ago. Then, the Panamanians were unable to curb the disturbances. U. S. troops had to do the job.

American experts say it was because in 1959 Col. Vallerino just didn't care.

Behind this difference there's a story of little things. It's a story of a Capt. Angel Arauz of the Panama National Guard being asked by the U.S. Army to be sports liaison officer. This seems like a trivial thing, but the captain loved it.

The captain is now Major Arauz, commander of the Palace Guard. His influence was important in getting action on putting down the riots. Then there's Col. Vallerino himself. He was invited to study at the U.S. Army School of the Americas and graduated with honor. This gives him considerable prestige. The Army organized special courses to train his key officers and men. His military police were invited to co-patrol with Americans in some trouble spots. His troops were provided military equipment and sports supplies.

By Latin standards, the colonel's outfit became a spit-and-polish unit with pride, discipline and ability. That showed up in the riot control.

Col. Vallerino is a good man to have on our side. He's apparently afraid of nothing.

The Arias family, most powerful in Panama, has been out to oust him because he dared jail one of the Arias boys, first for a revolutionary attempt and second for smuggling. But they haven't been able to touch him.

The cases of Maj. Arauz and Col. Vallerino are typical of the seemingly small but very real individual gains the U. S. military and foreign service groups have made in Panama since the 1959 riots.

The 1964 riots make it clear, however, that some major problems are still unsolved.

Problem 1— The four-headed jumble of U.S. authority in the scene—the U. S. governor who reports to the Army, the commanding general of the U.S. Southern Command who reports to the Joint Chiefs of Staff, the ambassador who reports to the Secretary of State Ruak, and some U. S. con-

Quotes

It was as if a mad movie projectionist had mixed up cans of film, interlacing the bitter tragedy of the great American nation with a cheap Texas thriller, a detective story and comics.

—Russian writer Nikolai S. Atarov, on the assassination of President Kennedy and its aftermath.

It is all very well to say we should have crash programs in oceanography or to find a cure for cancer. But if we were to put all the lunar program money into these fields there wouldn't be enough competent scientists in these areas to spend it all.

—Rev. Francis J. Heyden, Georgetown U. astronomy professor.

My policy is to wear out, not rust out.

—Rep. Carl Vinson, D-Ga., 80, rounding out 49 years in the U. S. House of Representatives.

Theory is nice, but a man always needs to have some luck in life. I was lucky.

—Dr. Heige Ingstad, Norwegian archeologist who discovered remains of a Norse village in Newfoundland, first real proof that Vikings came to the New World.

Washington Notebook

WASHINGTON — (NEA)— President Johnson's wife Lady Bird (the former Claudia Taylor of Karnack, Tex.), admits his sense of efficiency, when the family moved into "Las Ormes," Paris Meats's former Washington home. Mrs. Johnson went to considerable trouble angling the interior of the house, in addition to changing its name to "The Elms." New newspaper, book-

cases, Texas paintings and a hi-fi system were added.

When asked what her husband thought of the redecorating, Mrs. Johnson replied: "All the furniture he wants is something comfortable enough to put his feet up on."

Small imperfections can upset the President. His banks is always hot—but never quite hot enough. His Capitol Hill staff once responded to letters from 600 Texas constituents in a single day, but failed to answer 45 others.

"There are 45 people who didn't get the service they deserve today," Johnson cried.

Hanging in one of the rooms of the L.B.J. Ranch guest house outside Johnson City, Tex., is a small embroidered sampler. It reads:

"Come in the evening, Come when you're looking for Come without warning."

As host at the L.B.J. Ranch, the President often serves hamburgers cut to the shape of Texas. The ever-efficient Johnson always urges his

Barbs

By Hal Cochran

Some men call their wives sugar to start with and then wind up paying a lump sum.

Ten-agers are doing things faster these days — like smoking four years earlier than they used to.

Now may be a good time to buy outside thermometers. They're always lower in winter.

Paragraphs Unclassified

American youngsters need two more years of free public education aimed at intellectual growth after they graduate from high school.

This is the opinion of the Educational Policies Commission, an organization jointly sponsored by the National Education and the American Association of School Administrators.

The EPC says that the goal of individual freedom requires a much greater ability to think and a much greater understanding of self and the world than may be commonly assumed.

And, the commission says, a high school education alone is not enough to produce these ends. They call for maturity beyond adolescence and education at a higher level than can be attained in most high schools.

Two more years of free public education could capitalize on students' emerging maturity, the report says. "Many four-year colleges today devote the first two years of their program to general education with specialized education initiated in the third year. Junior colleges offer two years of general education to students who then leave school or turn to specialized study. In this two-year period, many students advance significantly toward awareness of self and the world," and, says the com-

mission, the education offered at this time must be designed to enable students to think, to develop a "rational grasp" of their own lives.

Less than two years of additional education beyond the high school, says the report, would not be enough. It would take at least two years, the report says, for the thirst for intellectual growth to become self-generating within most students.

As to curriculum in the two-year program, the report says: "No subject or group of subjects guarantees the development of the ability to think." The commission suggests that the teaching of all subjects be designed "to develop the tendency and ability to define problems as well as to solve them, to relate a fact or idea to others in new and significant ways," and "to apply specialized knowledge to more general situations."

Study of disciplines can contribute to self-awareness and knowledge of the world, but some students are ill-equipped for such study. For them, it may be necessary to offer vocational subjects. Otherwise they would drop out of college, finding no meaning in an academic curriculum. But, the commission warns, learning a job skill may be self-defeating: "In an accelerating technology, almost any specific skill is apt to become obsolescent."

"The education which is most useful equips one to attack complex new problems and to acquire complex new skills throughout a lifetime. The old struggle between practical and liberal education is less significant as the ability for abstract thinking becomes the key to both . . ."

As education beyond the high school becomes more widespread, getting and keeping a high-quality faculty will become a problem, the report says. But the problem must be faced, it points out, without giving in to the easy solution—simply increasing the number of students per teacher.

For despite new teaching aids, high-quality teaching demands enough high-quality teachers. "The value of devices like television and programmed instruction is not the prospect they offer of solving the teacher shortage, but in their contribution to the quality of instruction. As their use spreads, the basic problem will remain," says the report.

The commission reports that the ability of college students to progress toward independent and self-motivated thinking depends in large part on their earlier schooling. One of the most important steps a college can take to improve its own program, the commission says, is to help the elementary and secondary schools to improve their capabilities.

Fact

Count Casimir Pulaski, the Polish patriot who also became a hero of the American Revolution, came to this country after being driven into exile from his own land in 1772. He joined the army of General Washington in 1777 and served with distinction in several engagements. Wounded at Savannah, he died October 11, 1779.

Triple Header Here, Two Road Games Tonight

Oviedo Travels To Take On Titusville

By Joe Warden
Herald Sports Writer

Oviedo takes to the road tonight for a second consecutive road game which features the powerful AA Titusville Terriers. The Lions want to grab a big third straight victory, yet the Oviedians are aware that they will run into a "tiger" tonight.

Tonight's game will revive a rivalry between the two schools that has existed for many years. Oviedo is on top and has dominated a lot of these games overall, but Titusville has bagged these titles for the last three years, except for their last meeting in Oviedo, in which the Lions put down the Terriers. Coach Paul Miller expressed hope that Oviedo could continue in the "winning way" tonight.

The Terriers are an all senior quintet, with all centers but one towering over six feet. A few members of the Titusville lineup are listed at 6' 4", which should be a definite disadvantage to the somewhat shorter Lions.

The Terriers are much better than their record indicates, for the reputedly underdog Terriers nearly knocked off Cocoa in a ball control game that saw Titusville beat by two points 21-19. Also Titusville has tangled with other Metro conference members, and New Smyrna—a common foe to the Terriers and Lions. The Terriers are considered a definite favorite over the Class B Oviedo Lions.

Oviedo goes into tonight's contest backed by an 8-3 record. Oviedo has somewhat improved over the last few weeks, having captured five wins in six starts. Oviedo's latest win was a 58-55 triumph over outclassed Mount Dora Bible.

Oviedo has managed to produce a more balanced scoring attack recently, thus adding strength to its offense. Paced by dependable scorer Jimmy Courler, who is averaging nearly 19 points per game, the Lions are being boosted by the increased scoring production of Rex Brooks, Ted Belhorn, and Billy Mikler. Both Rook and Arden Arndt are doing a good job in the center post, and Rook is providing strength in rebounding.

Oviedo's team spirit is excellent, according to Coach Mikler. Also the boys are making fewer mistakes and teamwork is improving.

Tonight Oviedo's JV squad (6-7) also takes on the Terriers B quintet. JV work has improved recently, and with the addition of Gardner Preedy, the little Lions have picked up scoring strength.

Probable varsity lineup is Mikler and Courler, forwards; Brooks and Belhorn, guards; and Seth Rook at center.

Game time is at 8:30.

About Sports Thinking Out Loud

BY JULIAN STENSTROM
How Fast? How Slow?

What's the best speed for trolling?

The apparent simplicity of trolling generally dupe a lot of good anglers into thinking that this effective fishing technique is a matter of dunking a lure overboard and reeling up the motor.

Like other methods, trolling demands a certain measure of know-how if results are to add up to expectations, say the fishing folks at Mercury outboards.

Of all the factors that influence the fish-appeal of a trolled lure, probably speed is the most significant. Yet many fishermen overlook the basic step in determining exactly how much to throttle up the outboard or cut it back to an idle.

Since most artificial lures are designed with built-in action, they function properly only when wriggling along at a certain clip. When the pace is too fast or too slow, plugs exhibit about as much excitement as a clump of water-logged willows. They work at the right speed—nothing more, nothing less. Among different lures, the speed varies considerably.

To pinpoint just how fast a certain model should be trolled, drop it overboard alongside the boat. Then watch and feel its action at various throttle settings. At one very precise point the plug responds like it should, darting and tumbling as the maker intended. This, obviously, is the right speed.

This simple—yet revealing—trick—makes picking the correct speed an easy matter. And it's a good one for all of us to file away for warmer days.

There's a good friend of ours in Fresno, Calif., who invented a rubber cover which covers the propellers on an outboard motor and permits trolling at approximately five miles per hour.

His name is Don Fortune, and he got the idea during World War II when he served in the Pacific as a PT boat commander.

He has had the idea patented and the covers sold on west coast. If you'd like any further information call us at The Herald.

Here 'n There

The Milwaukee Braves handed Warren Spahn an \$85,000 contract to make the wrong-armed the highest paid pitcher in baseball. It was his 20th contract with the Braves. . . Florida's ace, Tom Baxley, got one bucket last night that really paid off. The sensational Gator guard put one through the hoop with 15 seconds remaining Thursday night to give the Gators a 82 to 50 win over FSU. . . We suggest one solution to the SEC which we believe will solve a lot of problems: have one league with two divisions of seven teams each. This can be done by admitting FSU and Memphis State. This would put seven clubs in each division. Each club would be required to play at least six other league opponents to qualify for a championship contest for the loop's title between the winners of each division. It would be a natural.

3 Marathon Races On SOKC Program

Three marathon races highlight tonight's 11-race program at the Sanford-Orlando kennel club with the 3/8ths

miilers scheduled for the fifth, seventh and 11th races.

In the fifth E.J. Alderson's Dark Embers will be hard to catch. The big 73-pound Black dog ran second to Rocker Circus in his last start over the long route. Dark Embers turned in a fine timing of 41.29 in finishing second.

Golden M. and protocol will be favored in the seventh. Starlight Kathy and Darold Robertson's Sweet Showers will probably share the top billing in the 11th.

Tonight's entries:

FIRST RACE — 3/16 Mile — Grade C — 1. Cherokee Hill, 2. Omer B. E. Rusty Jay, 3. Iron Guard, 4. Ducky Captain, 5. Kaffia, 6. Duke Drake, 7. No Bear

SECOND RACE — 3/16 Mile — Grade C — 1. Tarallo Hill, 2. Black Tip, 3. Bobbie Shore, 4. Sundown Rock, 5. Silent Grace, 6. Stormy Rocket, 7. Pourway Ange, 8. Jeff Mae

THIRD RACE — 3/16 Mile — Grade D — 1. Step Now, 2. Wide Ocean, 3. Brookton, 4. Hilldale, 5. Joe Canty, 6. Debbie Kim, 7. Mystical, 8. Susan Mae Ginter

FOURTH RACE — 3/16 Mile — Grade D — 1. R.R.'s Edna, 2. Trier Lee, 3. Black Julie, 4. Pina Bay, 5. Gray Matter, 6. A.J. T. Le Mans, 7. Miss Hitter

FIFTH RACE — 3/8 Mile — Grade T — 1. Avant Garde, 2. Mary Zip, 3. Oil Payment, 4. Steppilla, 5. Fable Cavalier, 6. Dark Embers, 7. Eighty Nine, 8. Repeat Recker

SIXTH RACE — 3/8 Mile — Grade C — 1. E.A.'s Scott, 2. Purbred, 3. Fawn Violet, 4. Pary Plan, 5. Nebraska No. 6, 6. Doncaster Sky, 7. Try Kwik Chew, 8. Sharp Trader

SEVENTH RACE — 3/8 Mile — Grade D — 1. Charlie McQuay, 2. O.B.'s Coloma, 3. Protocol, 4. Chill Wile, 5. Leaping Letha, 6. Golden M., 7. Rabbit Ferrari, 8. Rafil Rock

EIGHTH RACE — 3/8 Mile — Grade B — 1. Best Clue, 2. Rock Tray, 3. Flying Fable, 4. Ponda Hurry, 5. Diska, 6. Egg, 7. Calliope, 8. Ruby Kessler, 9. Halle McDuff

NINTH RACE — 3/8 Mile — Grade B — 1. Wicket Sally, 2. Fronty Tip, 3. Pat's Flash, 4. Italian Lace, 5. Mrs. Mops, 6. Brown Train, 7. Calico Hawk, 8. So Splendid

TENTH RACE — 3/8 Mile — Grade A — 1. Donnie Abbe, 2. Donna's Miss Kay, 3. Cherokee Sundial, 4. Gator Land, 5. Chuck Drake, 6. Teal, 7. Miss Dunmore, 8. Nioio

ELEVENTH RACE — 3/8 Mile — Grade B — 1. Sweet Showers, 2. Al Peasum, 3. Light Match, 4. O'Neill, 5. Mary McLean, 6. Vicks, 7. Starlight Kathy

Wins Jump Event
LE BRASSUS, Switzerland (UPI)—John Balfanz of Minneapolis won a special jumping event Sunday with 229 points and Russian teams finished one-two in the 30 kilometer (18.64 miles) relay of the International Nordic ski meet.

To Televis Race
NEW YORK (UPI)—The CBS network will televise Europe's richest trotting event, the \$100,000 Prix d'Amérique which is scheduled to be held Feb. 16.

Vol-Army Game
KNOXVILLE, Tenn. (UPI)—The Tennessee football team has scheduled two games against Army, one here in 1965 and one in Memphis the following year.

Essex Top Man In Bogey Play
Lee Essex, with a net of 78, captured first prize in Wednesday's blind bogey golf tournament sponsored by the Senior Men's Golf Association at the Mid-Florida Country Club.

Lonny Belhuis took second place with an 84 while Eric Dallman and L. S. Pfautz tied for third with 88.

Twilighter On Tap At Fleming Gym

A two-night triple-header is on tap for basketball fans in Sanford tonight when the Seminole High JayVees and the Winter Park High JayVees meet in the first of three cage tilts at the Fleming Gymnasium. This contest will get under way at 4 p. m., and it will be followed by a Metro Conference affair between the varsity units of the Tribe and the Wildcats. This game begins at 6:30 p. m.

At 8:30 p. m., the Rollins College Tars and the Bears of Mercer University are slated to wind up the three-game event.

Head Coach Ralph Stumpf's varsity hopes to rack up its second win in a row. The Tribe stepped out of Metro league competition last Friday night and stopped an oncoming rush by the New Smyrna Beach Barracudas to post a decision. But they will be re-entering Metro play tonight against the Wildcats.

Sanford has won three games and dropped nine in overall play this year. Stumpf will likely get underway with Mike Jones, Barry Barks, Barry Johnson, Ken Tyne, and Billy Higgins as his starters. Meanwhile, Winter Park is in White, Scotty Green, John Simpson, expected to go with Bruce S., Mike Egan and Mike Kelley.

At the moment Seminole is in seventh place in league standings.

Neither Rollins or Mercer will take winning records into tonight's collegiate contest. But both clubs are fairly evenly matched and it should be a closely contested affair.

Rollins' starters will include Lee Baggett, Phil Hurt, Millard Nixon, Jerry Brown and Phil Kirk. Mercer is slated to start Jim Hearn, the Bear's leading scorer and 6-foot-7 center Don Baxter.

Gators Defeat FSU 52 To 50

By United Press International

Little Tom Baxley, a 5-foot-10 guard from Miami, sank a 25-foot jump shot just as the buzzer sounded Thursday night to give Florida a 52-50 victory over Florida State.

The defeat was state's first loss in seven starts on their home court and its second defeat at the hands of the Gators.

The Southeastern Conference Gators failed in their freeing tactics during the last few minutes of the game and the Seminoles whittled away a 10-point deficit with ace Cal Hoge tying the game at 50-50 with 20 seconds left.

Florida from the ball again and passed to Baxley for the jump shot just as time ran out.

Forward Richard Peck led the Gators with 15 points. Baxley was next with 14. Hoge led the Seminoles scoring with 12 points.

All Southeastern Conference teams are idle tonight, but action picks up Saturday. The Georgia Tech Yellow Jackets—conquerors of Kentucky once this year on their home court—travel to Lexington for a match which headlines the night's card.

In addition, Auburn will be at Georgia, Mississippi State at Memphis State and Tennessee at Duke at Greensboro, N. C.

'64 Drag Season Opens Saturday

The 1964 drag racing season gets under way Saturday with more than 100 drivers from all over the country competing at the Osceola Airport drag strip beginning with time trials at 7 p. m.

The season opener, postponed by rain Jan. 11, promises to be an even more colorful event with the addition of many widely-known out-of-state drivers who will be arriving early to drive in the Winter National Drag Races at Samuels next month.

The visitors will be joined by some of this area's top drivers including the Sanford Naval Air Station's John McInerney, a consistent winner in "Gas" class competition during recent meets.

The full program of eliminations beginning at 9:30 will feature two Corvette Sting Rays, both from Sanford. J. W. Smith will match his 1963 Sting Ray against Henry White's new '64 model. Smith's car was a heavy winner in last year's racing programs.

Preceding the eliminations will be a Le Mans race, with drivers racing 30 yards on foot to man their cars at the commencement of each heat.

The sponsoring Seminoles Timing Association has announced that rain checks and classification permits from the Jan. 11 race will be honored Saturday. However, all cars must be reclassified.

Play Newcomers

BROOKSVILLE, N.Y. (UPI)—C. W. Post College announced Thursday that they will play Lyncoming and North-easters, two newcomers in the college's football schedule, next season.

Sign For Fight

NEW YORK (UPI)—Mid-dleweights Joey Archer of New York and Holly Mims of Washington, D. C., were signed Monday for a 10-round nationally televised bout at Madison Square Garden Feb.

40 MEMBERS OF THE 1381st Geodetic Survey Squadron of the Orlando Air Force Base hooked 123 fish in their shad derby at a St. Johns River fishing camp near Sanford.

Horse Show Results

Spectators at the Dusty Boots Horse Show got their share of thrills Sunday as daring riding, tricky maneuvers and several spills, including an impromptu "bucking bronco ride" which lent a rodeo air to the afternoon.

One horse decided to kick up his heels and with some fast, unexpected bucking, succeeded in dislodging his young rider, Tommy Austin. The surprised rider hung on like a veteran for a few seconds to the cheers of the crowd, but the horse won. The lad was uninjured and remounted quickly.

Earlier, young Austin was presented with the high point trophy which he won at the November show. I. V. Williams, Dusty Boots treasurer and time-keeper, made the presentation.

Also awarded a trophy, for winning the October high point score, was Boyd Edwards of Orlando.

Edwards proved that his horsemanship wasn't all luck, when he got off to a late start in the events Sunday and still nosed out the next highest rider, young Lee Christopher of Union Park, to top high points again.

Edwards tallied up 17 points in the day's events, Lee Christopher, 16; George Myers of Apopka, 15; Tommy Austin 12; Steve Brainard of Apopka 11; Christine Copeland of Oviedo, nine, and Becky Giles of Sanford, eight points.

The January high point trophy will be awarded at the next show, which will be held on Feb. 16.

Winners of the day's events are as follows:

High-point: Steve Brainard and Kellie McLin of Apopka, first; Don Hingle and George Myers of Apopka, second; Christine Copeland and Bob Copeland of Oviedo, third; Becky Giles and Tommy Austin of Sanford, fourth.

Big race: Becky Giles, first; Boyd Edwards, second; George Myers, third, and Steve Brainard, fourth.

Open Western pleasure: Chris Copeland, Tommy Austin, Shirley Duffrey and George Myers, with Danny Tanner and Mary Fowler taking honorable mention.

Pole bending: Tommy Austin, Boyd Edwards, Lee Christopher and Becky Giles.

Musical tires: George Myers, Bob Copeland, Steve Brainard, Tommy Austin.

Hollow log: Boyd Edwards.

Fight Results

United Press International

BANGKOK (UPI)—Pone Kingpleth, 112, Thailand, out-jointed Hiroyuki Ebihara, 112, Japan 15—regains world flyweight title.

LOS ANGELES (UPI)—Manuel Ramos, 195, Mexico City, knocked out Kid Apache, 210, Orange Cove, Calif., (4).

NEW YORK (UPI)—Sunny-side Garden—Harold Richardson, 158½, New York, stopped Jimmy Dupress, 166, New York (7).

Sports Editor

TAMPA, Fla. (UPI)—Paul J. Hempflil, former sports editor of the Augusta, Ga., Chronicle, was named Thursday to replace Bill Blodgett as sports editor of the Tampa Times. Blodgett resigned to accept a position on the sports staff of the Atlanta Constitution.

Archery's Birth

LONDON (UPI)—The modern sport of archery was "born" in England about 1790.

Martin, Jacin In Feature Victory

Martin and Jacin won a second chance victory in Thursday night's feature eighth game event at the Orlando Seminole Jai Alai Fronton.

The post four team was stopped in its first try for game point but made good the second time around after Arellito and Zarra missed the winning point.

Highlight of the night, and possibly some of the best jai alai action of the season, was a sixth game eorum duel between Badiola-Garay and Ernu-Lorenzo, with the latter taking the win.

Manuel and Augustin shared the Daily Double, paying \$58.40 on a 5-3 combination.

Auto Racing Club Makes Debut At Daytona Speedway Feb. 8-9

Automobile Racing Club of America (ARCA) will make debut at Daytona International Speedway on Feb. 8-9 with one of the fastest fields the midwestern racing organization has ever fielded.

ARCA (known until recently as "ABC") will stage a 100-mile modified-sportsman race on Feb. 8, and a 250-mile late model championship race on Feb. 9.

Lured by a shot at the world's fastest track, and \$20,100 in posted awards, entries from ARCA's top drivers have poured in for the 250-miler.

Jack Bowsher of Springfield, Ohio, ARCA's top national champ, was one of the first to file an entry, and since then close to 40 drivers have entered the list, many of them with the latest and fastest 1964 equipment.

Among them are Iggy Katona (Ford), Willis, Mich.; Dick Freeman of Dayton, Ohio (Mercury); Jim Cushman, Columbus, Ohio (Plymouth); Keith Plouffe, Indianapolis, Ind., (Ford); Paul Parks, Columbus, (Ford); Clyde Parker, Detroit, Mich., (Chevrolet); Bob Duell, Jamestown, N. Y., (Ford); Elmer Musgrave, Des Plain, Ill., (Mercury); Dick Hutchinson, Keokuk, Iowa, (Ford); Ernie Derr, Keokuk, Iowa, (Plymouth); Meyers, Glenview, Ill., (Ford); Paul Clark, Mansfield, Ohio, (Pontiac) and many others.

Bowsher was a recent visitor to the Speedway and while here took a few trial sprints around the high-banked curves and down the straight. He said he was sure that the ARCA boys would prove that the NASCAR ace was not the only one who would turn in record speeds on the world's fastest track.

These sentiments were echoed by Katona, when he was in Daytona as one of the chief drivers in the Comet's 100,000-mile endurance run.

Director Named

WESTBURY, N. Y. (UPI)—Jerome J. O'Neill, 45-year-old former New York City police department captain and director of traffic and transportation safety for the Greater New York Safety Council, today was appointed director of security for Roosevelt Raceway.

FRONTON

Lyman Meets Kissimmee In League Game

Lyman High School's Greyhounds, sailing along in second place in Orange Belt Conference standings, go back into league play tonight when they travel to Kissimmee for a contest with the Osceola High Kowboys.

At this time the Kowboys are deep in the loop cellar, so far without a single victory in conference competition this season.

Without the services of 6-foot-4 center Donnie Smith, the Greyhounds are likely to find the going a bit difficult. However, they didn't fare too badly at DeLand Monday night although they dropped a decision to the undefeated Bulldogs. The Greyhounds were without Smith in this affair. But Lyman has brought up another towering youngster to replace Smith. He's Dave Matis, a 6-foot-5 center from the Baby Greyhounds.

This will hurt the JayVee outfit which has lost only one game thus far this season. But Matis has shown up well in all of his games. He lacks experience but Coach Walt Duras plans to bring him along slowly.

Lyman, in addition to Matis, will start Bill Tolson, Gene Winkelman, Jim Goplen and Joe Asher. Richard Grant may share center position duties with Matis.

In a preliminary the Baby Kowboys will host the Baby Greyhounds in a JayVee affair.

Tech Loses First Round

ATLANTA (UPI)—Case 140: Georgia Tech vs. limited athletic scholarships, today went before a jury of the 12 Southeastern Conference presidents.

The nationally renowned Engineers, who have made it clear that they will go independent unless the conference lifts its present limit of 140 grants-in-aid for football and basketball combined, lost an opening round Thursday and the issue was in doubt as to what would happen today.

Bobby Dodd, Tech's athletic director and head football coach, carried the issue before a closed-door meeting of the athletic directors and football coaches of the 12-member conference and suffered a rebuke when the group, reportedly by a 9-3 vote, refused to recommend Dodd's plan.

"That doesn't mean a great deal," Dodd said later. "The only thing that really counts is how the presidents vote."

Last year, the directors and coaches voted 7-5 in favor of raising the scholarship ceiling only to have the presidents kill the change for the year by a 6-4 tie.

Auto Racing Club Makes Debut At Daytona Speedway Feb. 8-9

Automobile Racing Club of America (ARCA) will make debut at Daytona International Speedway on Feb. 8-9 with one of the fastest fields the midwestern racing organization has ever fielded.

ARCA (known until recently as "ABC") will stage a 100-mile modified-sportsman race on Feb. 8, and a 250-mile late model championship race on Feb. 9.

Lured by a shot at the world's fastest track, and \$20,100 in posted awards, entries from ARCA's top drivers have poured in for the 250-miler.

Jack Bowsher of Springfield, Ohio, ARCA's top national champ, was one of the first to file an entry, and since then close to 40 drivers have entered the list, many of them with the latest and fastest 1964 equipment.

Among them are Iggy Katona (Ford), Willis, Mich.; Dick Freeman of Dayton, Ohio (Mercury); Jim Cushman, Columbus, Ohio (Plymouth); Keith Plouffe, Indianapolis, Ind., (Ford); Paul Parks, Columbus, (Ford); Clyde Parker, Detroit, Mich., (Chevrolet); Bob Duell, Jamestown, N. Y., (Ford); Elmer Musgrave, Des Plain, Ill., (Mercury); Dick Hutchinson, Keokuk, Iowa, (Ford); Ernie Derr, Keokuk, Iowa, (Plymouth); Meyers, Glenview, Ill., (Ford); Paul Clark, Mansfield, Ohio, (Pontiac) and many others.

Bowsher was a recent visitor to the Speedway and while here took a few trial sprints around the high-banked curves and down the straight. He said he was sure that the ARCA boys would prove that the NASCAR ace was not the only one who would turn in record speeds on the world's fastest track.

These sentiments were echoed by Katona, when he was in Daytona as one of the chief drivers in the Comet's 100,000-mile endurance run.

Socialights

There seems to be something always going on in our town . . . this week's big social event will be the Elks annual charity ball tomorrow night. Everyone knows about the Elks and their charitable projects, but as a reminder—most of the proceeds derived from this dance will go toward the support of the Harry-Anna Crippled Children's home in Umatilla—a worthy project indeed! Vine Vincent and his orchestra will play for dancing and breakfast will be served after midnight . . . so, if you haven't made your reservation yet — call Bud Moughton.

Talked with Caroline Crappa yesterday and learned pretty Anne has just pledged Pi Beta Phi Sorority at FSU . . . she transferred there this year after a year at the University of Georgia . . . All the Pi Phis must be very happy about that . . . especially Anne's good friend Linda A. Williams.

Saw Madalyn Scott downtown looking fresh as a daisy and very spring-like in a gay yellow sweater and skirt . . . she is going to be in town longer than any of us thought and this will please all of her friends! She and the children were to join her husband, Dale, (LCDR. USN) in Iceland, but this tour of duty will be shorter than anticipated so they'll remain here with her parents, the J. H. Trulucks, until the summer when orders are expected and they'll be off to another interesting place. Madalyn has been in Washington where she joined Dale for a few days, and then visited in Norfolk and Atlanta before coming back here. We had a delightful chat about Coronado . . . she's been there since we left . . . and it was good to learn of all the changes made and news of the town, especially the "garage sales"—now there's a subject good for a 30 minute conversation anytime—just ask her! — for the "sales" are a popular pastime out there, and fun! Not that we want to go back—just enjoy hearing about it all.

Dot and Bob Williams are having "open house" Sunday

Osteen Personals

Mrs. Joe Masters, Mrs. James Wallin and Mrs. Norman Miller attended a class of instruction for new officers of the HDC in DeLand, Monday.

Mr. and Mrs. Lester Scott, Columbus, Ohio, have moved into their new home at "The Acres."

The Adult Ladies Sunday School Class of the Osteen Baptist Church met Monday evening with Mrs. Claude Tyson. Mrs. Millard Tyson

Anchor And Key Clubs Plan Walkathon

The Anchor Club and Key Club of Seminole High School will stage a "walkathon" for the "March of Dimes" Saturday on First Street from 9 a.m. until 3 p.m.

Welcome Wagon Club Plans Fashion Show

The Welcome Wagon Club of Sanford met recently for the monthly luncheon meeting.

During the brief business meeting plans were discussed for the fashion show to be given on St. Patrick's Day. Mrs. Benn Shafer was appointed general chairman.

An invitation was read from the South Seminole club to attend their covered dish Valentine party Feb. 15 at the American Legion Home on Highway 1792. Husbands are invited and everyone is requested to contribute a covered dish; meat will be furnished.

Reservations should be made with Mrs. Al Probst or Mrs. Harold Rowland by Feb. 13.

Mona Bridges demonstrated various ways to arrange flowers and made a Valentine arrangement and a large centerpiece, won by Mrs. Roy Pounds.

Guests present were Mrs. Walter Blevins, Mrs. Chester Davidson, Mrs. Robert Harris, Mrs. Vincent Ruta, Mrs. Robert Dodd and Mrs. David Tomlinson.

Pecans And Broilers Plentiful

Plan to put chicken on the table often during February. It tops the U. S. Department of Agriculture's list of Plentiful Foods for the month.

Also featured are pecans, which are in record supply this year. The 1963 crop report indicates production at 200 million pounds.

Add to this the other plentiful — beef, pork, canned corn, potatoes, canned ripe olives and you have lots of good, inexpensive eating during February, said Myrtle Wilson, Home Demonstration agent.

The array of meat items is broad and generous. There will be marketed in February 10 per cent more broiler fryers than a year ago. Beef supplies they say, will also be 10 per cent above year earlier levels and will continue large for the next few months.

Also look for record supplies of pork chops, roasts and hams.

With this selection of red meats and poultry, homemakers will have no trouble with menu planning during February.

Mrs. McLellan Hostess To Golden Circle Class

The Golden Circle Sunday School Class, Oaklawn Baptist Chapel, met Tuesday evening at the home of Mrs. John McLellan, for the January meeting.

Mrs. David Beverly opened the meeting with an inspiring devotion on "Time." Minutes of the last meeting were read by the secretary, Mrs. McLellan. Routine business was discussed and a pot luck supper planned for February. Ways of reaching prospective members for the class were suggested. Eligible members are young married ladies who live in the area.

Refreshments were served to the members attending: Mrs. W. F. Mann, Mrs. W. L. Bradley, Mrs. J. E. Andrews and Mrs. David Beverly.

Church Calendar

Jan. 28

10 a.m.-3:30 p.m. Service Circle

LAKE MARY WOMAN'S CLUB members viewed the latest fashions Thursday during a luncheon meeting. The models had sewn the dresses and coats worn, to be entered in a national sewing contest. Pictured from left, Mrs. Wanda Mohn, program chairman, and Mrs. J. G. Osburn admire the dresses made by Mrs. W. C. Hopkins and Mrs. Joe Smathers. Mrs. Hopkins is holding a party dress made in a yellow embossed fabric with a chiffon overskirt. Mrs. Smathers models a black and white hound-tooth plaid wool sheath.

Homemakers Class Meets With Mrs. Pittard

The January meeting of the Homemakers Sunday School Class, First Baptist Church, was held at the home of Mrs. George Pittard on Riverview Avenue. Mrs. J. C. Lavender was co-hostess.

Mrs. C. L. Park Sr., class teacher, opened the meeting with prayer and the devotion was given by Mrs. M. F. Haynes Jr. She urged members to think about their lives and "take inventory" of their activities as Christian homemakers. Mrs. Haynes suggested a basis for taking stock, "The greatest sin is fear; the best day, today; the greatest mistake, giving up; the greatest force of all, love."

Mrs. W. W. Horne presided during the business meeting in the absence of the president. Minutes of the last meeting were read and the treasurer's report given. Old and new business was discussed.

Mrs. Park asked members to join a Christian movement to pray each day for guidance for world leaders and the closing prayer was said by Mrs. Eugene Pennington.

A social hour was enjoyed and refreshments served by the hostesses, assisted by George Pittard. Those attending: Meses. Eugene Pennington, Calvia Jardine, Robert Cohen, W. W. Horne, C. L. Park Sr., J. B. Stapler, Carl G. Tillis, Hal A. Colbert, Curtis Green, A. P. Rahn, Alice Johnson, M. T. Haynes Jr., and Mrs. H. E. Long.

Famed Chefs To Perform At World's Fair Show

People who relish international foods and take special delight in preparing them are in for a unique experience if they visit the Festival of Gas pavilion at the New York 1964-65 World's Fair.

The pavilion's Theater of Food will present four shows a day in which famous chefs will demonstrate their individual techniques in preparing U. S. and world-wide food favorites. Audiences will be given illustrated leaflets containing highlights of each demonstration so they can apply what they learn to their own cooking operations.

In addition to famous professional chefs, celebrated gourmets and directors of government, commercial and utility home-service dietary agencies have been invited to participate in the Theater of Food repertory.

The experts will show the most effective ways to roast, fry, broil, bake, grill, barbecue, boil, deep-fat-fry, par-

Anniversary Party To Honor W. H. Stewarts

Mr. and Mrs. Robert W. Williams will entertain with an "open house" at their home, 1920 Park Avenue, Sunday afternoon to honor Mrs. Williams' parents, Mr. and Mrs. William H. Stewart, on their 50th wedding anniversary.

Other hosts will be Mr. and Mrs. Lauren R. Johnson, son-in-law and daughter, and Mrs. Robert W. Stewart, daughter-in-law, St. Petersburg. All friends of the honored couple are invited to call during the appointed hours of 3 p.m. until 6 p.m.

Mrs. F. Woodruff Program Speaker

The Civic and Social Departments of the Sanford Woman's Club met Wednesday for luncheon and a card party.

Mrs. W. L. Merritt, Mrs. Charles Kauffman and Mrs. N. V. Farmer were luncheon hostesses. The invocation was given by Mrs. Ralph Austin Smith.

Mrs. William Reynolds, chairman of the Civic Department, announced Mrs. Smith, Mrs. W. D. Hofman

and Mrs. W. R. Stringfield will serve on the nominating committee for the department. Mrs. Roy Tillis named Mrs. Melita Starke, Mrs. D. C. Howard and Mrs. R. D. Rhodes to the nominating committee for the Social Department.

Mrs. Frank Woodruff, DeBary, was introduced by Mrs. Al Hunt, sponsor of the program. Mrs. Woodruff chose for her subject "The Eye Bank of Seminole Memorial Hospital." She told the ladies she had been a member of an eye bank in her home state in the north and when she moved to DeBary she discovered there was no bank in the area. She interested others in organizing a "bank," so became the founder and executive secretary of "Sheba." Mrs. Woodruff explained how a transplant is made and urged more to sign for donations, stating that age is no factor.

Mrs. Starke, Mrs. Rhodes and Mrs. Howard were hostesses for the card party, following the program. Mrs. John Baker had high score in bridge, Mrs. W. L. Gramkow Sr. won in canasta and Mrs. B. C. Moore and Mrs. Howard won the screeno.

The Sanford Herald Fri. Jan. 24, '64—Page 7

Dear Abby: By Abigail Van Buren

DEAR ABBY: What do you do with a husband who is a walking adding machine? Our friends are slowly drifting away because of him. For example, he counts the number of cookies each guest consumes, and he tells them to bring their own tea bag! He is downright insulting. He will sit right there at the dinner table and tell his guests how much the meat costs a pound, and butter, too. Then he wonders why everybody has lost his appetite. My nerves are ragged and my blood pressure is very high. How can I make him realize what he is doing?

DEAR ABBY: I have just returned from another fruitless shopping trip through our local stores. I have a teenage daughter who is, and always has been, depressed by the problem of overweight. She is a lovely, sensitive girl. Because of her exceptional personality she has many friends. My problem? CLOTHES! I wonder if clothes manufacturers think that everyone who wears a size 20 or 40 has to look like "granny." Why don't they make youthful styles in the larger sizes for teenagers?

MEMPHIS MOM
DEAR MOM: Dress manufacturers design for the masses, and the teenager who requires a size 20 or 40 is exceptional. If your daughter is difficult to fit, buy patterns and fabric and make her clothes—or have a dressmaker make them. The ideal solution, of course, would be to put her on a diet under the watchful eye of a physician, and eventually get her exceptional personality into a size 12.

DEAR ABBY: Last June we sent our niece a wedding gift that cost us \$50 and mailed it to her in another state. We never got one word of acknowledgment, so we wrote to her mother, who lives in the same city, and asked if the package was ever received. We said we'd have it traced if she didn't get it. The mother wrote back, "The kids got the gift but they have been so busy trying to get their apartment furnished, and with the baby coming and all, please don't be angry with them for not writing." Abby, how can young people be so lax? We've had the same experience with graduation and Christmas gifts. But these same people are Johnny-on-the-spot with announcements of every kind. How does one handle this?

HURT AUNT
DEAR HURT: Any girl who is old enough to be married is responsible for her own actions, so it's unfair (and unkind) to expect her mother to make her apologies. You should have written directly to the girl. If one fails to acknowledge a graduation or Christmas gift, and then has the nerve to send a birth announcement, the announcement should be disregarded.

Get it off your chest. For a personal unpublished reply, write to Abby, Box 3365, Beverly Hills, Calif. Enclose a stamped, self-addressed envelope.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

Jacoby On Bridge By Oswald Jacoby

South's two no-trump response to his partner's opening is not recommended. True he held 13 points and no-trump distribution, but he was totally unprepared for a heart lead.

It would have been far better tactically for South simply to have responded two clubs and let the bidding develop slowly. Three no-trump would still have been the final contract and three no-trump should make with no trouble at all, but South really compounded his first crime by misplaying the hand.

The hearts presented no problem because dummy showed up with the ace, king and queen. At trick two South played a club from dummy and finessed his Jack. West

won with the queen and continued hearts, whereupon South continued with his club suit. Unfortunately, clubs failed to break and South wound up with only eight tricks.

How much easier things would have been for South had he only stopped to count winners and losers before leading to trick two. He might have visualized the possibility of a losing club finesse and a bad club break, then noticed that dummy held a five-card diamond suit. True, it was headed by the Jack, but South had the queen and ten to sit with it and had South simply started after diamonds he would have been sure of making three diamond tricks. He would still have his top spades, hearts and clubs. No one could take these from him and would have wound up making at least four no-trump.

We The Women: By Ruth Millett

To hear the home economists tell it, by 1983 homemaking is going to be a real snap.

At a recent confab on modernizing home making ideas, it was proposed that in the future a housewife will not be concerned with dishwashing (she'll just throw away the plastic dishes turned out by her home-molding set). The family's clothing will be made of inexpensive paper composition and will be tossed into the incinerator, along with the dirty dishes, once worn.

While the home economists and home builders are dreaming of the day of throwaway housekeeping, the practical-minded homemaker isn't likely to get her hopes too high. She is bound to wonder if making dishes three times a day, or even making a week's supply at one time, is going to be a whole lot less trouble than loading a dishwasher after meals.

It's also bound to occur to her that eating on homemade dishes instead of setting a pretty table with gleaming silver, beautiful china, and sparkling crystal is going to be rather dull and dreary.

As for those clothes you wear once and throw away—who is going to shop for them and haul them home? And just the business of getting rid of so much used material every day would seem to present a problem.

What today's housewife needs are things that last longer—not things that serve for only one meal or one wearing.

We're tired of throwing things away. What we want are things worth saving, things that are built to give long and dependable service.

Two 'Adult' Films At Movieland

Two "adult entertainment only" features are scheduled for Sunday through Tuesday at the Movieland Drive-In Theatre.

Main feature will be "Women of the World," in color, with the co-feature being "Divorce Italian Style," starring Marcello Mastroianni, Twin bill on Wednesday and Thursday will be "Female on the Beach," starring Joan Crawford and Jeff Chandler, and "One-Eyed Jacks," in color, starring Marlon Brando.

The triple feature, all in color, for Friday and Saturday, Jan. 31-Feb. 1, will be "Battle Hymn," starring Rock Hudson; "Captain Sinbad," starring Grant Williams, and "A New Kind of Love," starring Paul Newell and Joan Crawford.

"Women of the World," a Joseph E. Levine presentation in Technicolor tackles the ageless question that has defied scholars, poets and philosophers: What makes woman an tick?

To turn his probing camera on the ways and wiles of the elusive female, Gualtiero Jacopetti, noted Italian director-writer, whose "Mondo Cane" has earned worldwide acclaim, girdled the globe, covering more than 75,000 miles.

Jacopetti and his associate directors, Paolo Cavara and Franco Prosperi, ambitiously set out to depict the fascinating female at her best and worst, in her primitive and sophisticated aspects.

Their quest took them over the five continents of Asia, Africa, America, Europe and Oceania. Among the 89 countries they visited were China, Japan, Russia, Israel, Africa, France, Italy, Germany, Sweden, Borneo, Malaysia, New Guinea, Australia, Tahiti, Switzerland and the United States. Whatever Jacopetti's crew went on their global trek, their subject was the same — Women!

Disney Wacky At Ritz

In the wonderful zany vein of "The Shaggy Dog," "The Absent-Minded Professor" and "Son of Flubber," Walt Disney has produced another wild and wacky feature comedy-fantasy, "The Misadventures of Merlin Jones." Not only is it in the best tradition of way-out, screwball screen entertainment, but it has the extra drawing power of its two stars, the popular teenage favorites, Tommy Kirk and Annette.

"The Misadventures of Merlin Jones" now is featured at the Ritz Theatre and will continue through Tuesday.

Tommy plays, strictly for laughs, the part of an oddball college student whose weird mental experiments involve him and his beautiful girlfriend, Jennifer, in an unending series of hilarious situations.

For his side-splitting adventure, Disney has enlisted the light-hearted talents of some of Hollywood's best known pros in the comedy field. Leon Ames is a stern judge who has some unorthodox off-bench hobbies. Stuart Erwin and Dal McKennon are perplexed plain-clothes policemen. Alan Hewitt is a befuddled professor, and Connie Gilchrist is the judge's lackadaisical housekeeper.

Also featured is funnyman Norman Grabowski in the part of an All-American lunkhead who manages to further complicate the activities of the junior scientist.

"The Misadventures of Merlin Jones" was directed for Walt Disney by Robert Stevenson, a master of pace and timing. Ron Miller was co-producer. Tom and Helen August wrote the screenplay. In color by Technicolor, Buena Vista releases.

BY JUDY TURNER
Although it's probably temporary, the weather surely seems like spring. Just think, those old weeds will start growing again any day now. Business around town is picking up too... everyone is busy.

At Freddie's, Miss Carol Pettijohn is busy playing requests from the customers on the piano. And the customers are busy enjoying a fresh seafood meal, because in addition to the famous steaks at Freddie's, the restaurant also has a most complete line of seafood.

Darlene reports from Spencer's that "Happy Hour" is booming between 4:30 and 7 p.m. each evening and that business is just good in general. Some bad news from Spencer's, though; our friend "Sam" has been ill with some kind of bug he caught. Hopes to be better soon though and we expect to see his cheerful face back behind the bar in short order.

There's nothing better on a rain soaked day than to drive into the Whataburger for lunch or supper. The car is under a roof and the girls serving you don't get wet either. More brave types can park on the other side and go inside for a quick and good meal.

Boys over 15 interested in playing roller skate hockey, the south's answer to the exciting northern game, can sign up for it at the Skate City Roller Rink. There'll be an organization meet Sunday at 7:30 for those interested.

Busy lunch sounds were in the background of the Caribe Lounge even before official lunch hour had started... Must be some people around town getting off early to enjoy the fine food served by Rose and Wilks restaurant in the lounge. Talked to both Lou and Norma who were busy as usual with their customers. This handy place to enjoy lunch also has a dinner menu with some delicious steaks and trimmings. Music on Friday nights is courtesy of the house.

South Dakota Votes Poll Tax Clincher

PIERRE, S. D. (UPI) — The 24th Amendment banning the poll tax was a part of the U. S. Constitution for all practical purposes today as a result of a last minute race between Georgia and South Dakota for final ratification honors.

New Contract Brings Gleason To Florida

NEW YORK (UPI) — Jack Gleason described a \$4 million television contract—one of the biggest one-year deals in television history—as “sweet.”

“They’re going to let me do it in Florida so I can sit around in the sun or play golf while working,” said the comic. “That’s pretty sweet. I’ll never have to be stuck in New York in bad weather again.”

Gleason said the contract is being worked out by his representatives, General Artists Corp., and the Columbia Broadcasting System. Gleason previously had been reported to be retiring at the end of his season.

“Why did I decide to continue?” he chortled. “Well, the money had something to do with it. It’s sweet.”

The new contract would cover the 1964-65 television season. Gleason said he will have the privilege of doing his show out of Miami Beach or Palm Beach. He has preferred Palm Beach for his vacationing in the past.

The move from New York probably will require the southward migration of 200 persons connected with Gleason’s show. But as he said, “with that money I could hire 4,000 more people.”

VEGETABLE REPORT

Federal State Market News Service Sanford

Shipping point information for Jan. 23. All sales F.O.B. Precooling charges extra unless otherwise stated.

Two Added NEW YORK (UPI) — Two more sports celebrities, Bill Russell, pro basketball’s top defensive player, and Gordie Howe, hockey’s number one lifetime scorer, have been added to the list of champions to be honored at the 18th annual Bill Corum Memorial Dinner of the Sports Lodge 8th and 11th, Jan. 25.

Honor Weatherly

ATLANTA (UPI) — Joe Weatherly has been honored by the creation of a memorial award in his name by the Atlanta International Raceway. Weatherly was killed Sunday in a crash in a 500-mile race at Talladega, Ga.

Bryant Denies Any Plan To Switch Funds

TALLAHASSEE (UPI) — Gov. Farris Bryant said today he knew of no plans to use recreational bond funds to purchase right-of-way for the Cross Florida Barge Canal.

Bryant told his news conference that the state canal authority had bonding authority and had extensive lands that could be sold or used as a basis for borrowing. And he said the Legislature had enacted a law permitting the use of state monies for right-of-way purchases.

“There is no thought, to my knowledge,” the governor said, “to use recreational funds for canal right-of-way.”

Earlier this week, a gubernatorial candidate, Sen. John E. Mathews, Jacksonville, said the voters of the state bought a “pig in a poke” when they approved a constitutional amendment authorizing sale of state bonds to purchase recreational lands for Florida. He said the monies could be used to buy right-of-way for the canal, a favorite project of the governor’s.

Bryant said his feelings about the whole recreational land program were on record. He said primary consideration of where the money will be spent will concern the land’s recreational value. He pointed out that he probably wouldn’t be in office when the program was implemented.

Heart Fund Forming Sunday Volunteers

A volunteer army to conduct the Heart Sunday door-to-door canvass in Seminole County on the weekend of Feb. 23 has begun to form ranks under the leadership of Mrs. George Mills of Sanford.

MRS. GEORGE MILLS

Idylwild area—Mrs. James McKee; Lake Monroe—Mrs. Herbert G. Belton; Osteen—Mrs. James Wally Lemmon Bluff—Mrs. Dempsey Karns; Geneva—Mrs. Ed Yarbrough Castellberry—Mrs. Troy Overstreet; Altamonte Springs—Mrs. Eugene Taylor; Oakland Hills — Mrs. Molly Royland; Lake Brantley—Mrs. William Cromwell.

Additional Heart Sunday captains are needed in the areas of Fern Park, North Orlando, Lake Howell, Mailand, Briarwood, Sanlando Springs, Weathersfield, Bear Lake, Paola and Chuluota.

Legal Notice

IN THE CIRCUIT COURT OF THE NINTH JUDICIAL CIRCUIT IN AND FOR SEMINOLE COUNTY, FLORIDA. CHASLEY W. LYNCH, PLAINTIFF, vs. THE PRUDENTIAL INSURANCE COMPANY OF AMERICA, A New Jersey corporation, Defendant.

NOTICE OF SALES TO: H. C. LYNCH, c/o Conley Harlow, Route 2, Bayley, Georgia; REBECCA LYNCH, Cathedral City, California; M. A. ROBERTS, also known as Melvin Roberts and SYLVIA N. ROBERTS, his wife, 206 Alma Road, Hialeah, Florida.

YOU ARE HEREBY NOTIFIED that the Plaintiff, THE PRUDENTIAL INSURANCE COMPANY OF AMERICA, a New Jersey corporation, has instituted suit against you in the Circuit Court of the Ninth Judicial Circuit, in and for Seminole County, Florida, to enforce the terms of a certain mortgage which encumbers the following described property, said property being situated and located in Seminole County, Florida: Lot 2, Block 2, TANGLEDWOOD REPLAT, according to the plat thereof as recorded in Plat Book 4, page 94, Public Records of Seminole County, Florida, including accretions, but not by way of limitation, the following fixtures: 12 gallon electric hot water heater; 12 Range; 12 Refrigerator; Oil Heater and Tank; Venetian Blinds.

TOGETHER with all structures and improvements now and hereafter on said land, and fixtures attached thereto, and all rents, issues, proceeds, and profits accruing and to accrue from said premises, all of which are included within the foregoing description and the habendum thereof; also all accretions, electric water, and other heating, cooking, refrigerating, lighting, plumbing, ventilating, circulating, and power systems, machines, appliances, fixtures, and appurtenances, which now are or may hereafter pertain to, or be used with, in, or on said premises, even though they be detached or detachable.

YOU AND EACH OF YOU are hereby required to file your Answer with the Clerk of the Circuit Court in and for Seminole County, Florida, and serve a copy thereof upon Richard W. Lassiter, of the firm of Garvey, Ursprung, Bradley, 101 North Magnolia Avenue, Orlando, Florida, attorneys for plaintiff in the above action, on or before the 15th day of February, 1964, else a Default Pro Confesso will be entered against you.

IT IS ORDERED that this be published in The Sanford Herald, a newspaper published in Seminole County, Florida, once a week for four consecutive weeks, the first publication to be on the 15th day of January, 1964.

Richard H. Beckwith, Jr., Clerk Circuit Court, Seminole County, Florida; By: Martha T. Vining, Deputy Clerk; GURNEY, GURNEY & HANLEY, Attorneys for Plaintiff, 111 North Magnolia Avenue, Orlando, Florida. Published Jan. 14, 17, 24, 31, 1964.

FIRST ROCKET in a current series of launchings, the Delta with a Relay-3 communications satellite aboard, was working beautifully as it orbited the earth. (NEA Teletype)

Past Presidents Of Jaycees Honored

Ten past presidents of the Sanford - Seminole Junior Chamber of Commerce were honored at Thursday’s luncheon meeting of the organization as it observed National JayCee Week.

Program Chairman Tommy Speer introduced the past presidents who gave brief reports on their respective administrations in the way of fund raising projects. Most of the presidents referred to some of the more successful projects but they frequently mentioned various projects with which they learned to avoid.

Included in the list of past presidents at the meeting were Floyd Palmer, Gordon Bradley, William H. Stimpert, Douglas Stenstrom, G. Andrew Speer, M. L. Raborn, Tom McDonald, Mason Wharton, Garnett White, Glenn McCall and Julian Stenstrom.

Cuba Gets 50 Hungry Buses

MIAMI (UPI)—Havana radio said today it is buying 150 buses from Hungary.

The first 50 arrived Wednesday and the others are expected next month, the broadcast said.

Miller Play Premieres

NEW YORK (UPI) — An unsuccessful marriage involving an ill-fated sexy blonde recording and television singing star and echoes of the McCarthy probe of communism lend pointed autobiographical touches to playwright Arthur Miller’s “After The Fall,” which had its premiere Thursday night.

First-nighters at the new Anta Washington Square Theater could not avoid thinking that the three-hour drama was, in a general way, a personal catharsis for the playwright; as though he had put himself on the couch and was his own analyst.

Jason Robards Jr., in a brilliant portrayal of Quentin, a successful lawyer of 40, equates with Miller.

A shapely, pretty unknown, Barbara Loden, complete with light blonde wig in the second act, has what everyone will refer to as “the Marilyn Monroe part” referring to Miller’s movie star second wife who died of an overdose of sleeping pills a year and a half after their divorce.

His own career suffers during this marriage that soon becomes hectic because of the basic insecurity of the star, who feels she never is loved enough and takes to liquor and pills to keep her going. In a climactic scene leading to one of her pill blackouts, she almost throttles her, but she is revived for a few more months of life as he walks out for good.

Revolt Laid To 'Outside Influence'

LONDON (UPI) — A British officer ousted by rebellious Tanganyika troops said on arrival in England Wednesday night that “outside influence” played a role in the two-role revolt in the former British East African territory.

Tanganyika was reported quiet today as President Julius Nyerere sought to restore confidence in his two-year-old government. The revolt, which followed the overthrow of neighboring Zanzibar’s British-backed government by only eight days, forced Nyerere to barricade himself in his palace, but Wednesday he toured the capital and was cheered.

Escape

MIAMI (UPI) — Police chased a sleek-high speed boat up and down Biscayne Bay for four hours early today and finally lost it in the darkness.

This character, Maggie is depicted as a girl from a broken home, with not too much education, who is a phone girl in Quentin’s office. He doesn’t know she exists until a chance meeting in the park when he is beset with marital problems with his first wife. Within a few years she is suddenly a great singing star and follows up the crush she has always had on him. He marries her.

Junior College Courses Must Be Flexible, Bailey Says

TAMPA (UPI) — The curriculum at Florida’s public junior colleges must be flexible and willing to change as business and industry require, State School Supt. Thomas D. Bailey said Thursday.

Bailey said that more than 60 per cent of all college age freshmen are enrolled in junior colleges and half of them will go on to complete their four year degrees.

“Florida’s teachers, scientists, lawyers, engineers, doctors, business executives and other professional leaders will, for the most part in the future, be transfer students from junior colleges,” he said. “Our state universities will be able to concentrate upon professional and other graduate work.”

At the same time, Bailey told the opening session of the three-day junior college facilities conference, much of the state’s future working force will come from junior colleges and for many this will be their only higher education.

“We will need constantly to evaluate the curriculum and to develop new programs as business and industry require. More often than not, it will require redefining existing facilities for new use.”

Florida has invested \$22 million in buildings for junior colleges in the past seven years and will build an additional \$30 million worth in the near future under the college bond amendment.

The conference, attended by architects, engineers and junior college personnel, is to discuss buildings and facilities, with special emphasis on vocational-technical facilities and instructional materials centers.

They said it could lead to a logic computer that would be capable of guiding and controlling missiles, navigating spacecraft and operating assembly lines.

The work is actually the brainchild of physicist Robert M. Stewart, manager of Space-General’s research division. He and his co-workers have succeeded in constructing an artificial electrochemical neuron, a basic requirement in a computer capable of imitating a human brain.

Working under contract to the Air Force’s Honics and Computer Branch at Wright-Patterson Air Force Base, near Dayton, Ohio, Stewart hopes to: —Construct a brain model composed of many of the artificial neurons. —Program the “infant brain model” to respond to external stimuli as human brains do. Stewart says that since the working model’s behavior will at first be disorganized—like that of most babies—it will be “spanked” to teach it good behavior habits.

Red Skelton Cheers Cancer Doomed Boy

HOLLYWOOD (UPI)—Russell Dixon, an 11-year-old Australian boy dying of cancer, was cheered Thursday night by a visit with comedian Red Skelton.

The stricken youngster and his mother, Mrs. Edna Dixon, flew here from their home in Sydney in hopes of seeing the comic and for a visit to Disneyland.

Skelton, whose own son died of leukemia a few years ago, was visibly shaken by the visit with young Russell.

Seminole's Jaycees Will Be Future Leaders

JAYCEE HEADQUARTERS on French Avenue is a mecca for tourists seeking information about living accommodations, fishing news, travel news, road conditions and "I'm interested in buying a home in Florida, who should I see?" Jaycees also aid . . .

Sanford-Seminole Jaycees, Dave Berrien, Wendell Davis, Jimmy Jones, Chuck Roberts, Tom Spear and Frank Vollen, board of directors. McCall was appointed to serve as state director.

New officers felt highly honored to be installed in their respective offices by newly elected state president, Cody Bailey, an outstanding citizen of the local State of Florida. The local organization had found it a privilege only a few weeks before at the state Jaycee convention in Ft. Lauderdale to nominate Cody Bailey, of Ft. Pierce, for this highest Jaycee office in the state.

After these new officers were installed some time was spent in adopting projects that were to be carried out during the year and setting up a budget for these projects. Some new projects were adopted and many of the older projects were re-adopted for the year.

One of the older projects, but least recognized as to scope by local citizens, is the Jaycee park and information building on French Avenue. Thousands of tourists and people moving into this area use these facilities that the Jaycees offer at this building each year. The information building is open each day, Monday through Saturday, to give travel information and folders concerning attractions in our area and throughout Florida. Rental information also is given and any other general information that might be requested. All persons having rental units are invited to list these at the Jaycee building so that the Jaycees might make it easier for newcomers to find the type of accommodations that they might require.

The park facilities are used daily by weary travelers who wish to rest while before continuing their journey or to have a picnic with their families. The Jaycees, feel that the Jaycee park and information building is a great asset to our community and a way of saying "thank you" to those persons visiting our area.

Jaycee week, always the highlight of the Jaycee year, numerous activities take place during this week. In attendance at the past president's luncheon were 11 of the past presidents. Awards were given to five of our area's outstanding citizens at the Distinguished Service Awards banquet with the events of the week under the chairmanship of Tom Spear.

Award winners were: Joe Baker, distinguished service; Douglas Stenstrom, good government; Joyce Roberts, outstanding young teacher; Robert Hattaway, outstanding young farmer, and Richard Doan, outstanding young sailor. Guest speaker at the banquet was Sen. Beth Johnson. Youth and Sports Activities: Donald Knight was chairman of the annual Easter egg hunt held Easter afternoon at Ft. Mellon Park. Approximately 500 children enjoyed the hunt and came away from the park with their little baskets filled with the gaily colored eggs.

Tenage Driving Road-E-O, chaired by Bob Ray, was held to promote safe driving and driving skills among teenagers. There were 13 entrants, and the local winner won first place in the district finals and fifth place in the state finals. The 1964 Road-E-O will be held Feb. 1.

The Junior Golf Tournament was held on June 24 at Mayfair Inn Country Club under the chairmanship of Jim Chapman. Nine young men aged 12-17 were entered in the local tournament. Out of these nine entries, three finalists were selected and taken to the state Jaycee golf tournament in Umatilla. There were no state winners among Seminole County's entries, but scores turned in by this group of young men.

The 13th Annual Fishing Rodeo under the chairmanship of Charles Fox was held in August with approximately 600 children participating. The children had a wonderful time as they crowded around Little Lake Carolina trying their angling skill. Those who had a successful catch went away tired, but happy, carrying with them a very nice prize.

Health And Safety

The local Jaycees, chair-manned by Bob King worked very hard with the safety seat belt campaign Aug. 17. The Jaycees attempted through publicity and safety films to enlighten the public as to the use of seat belts in their automobiles. They told how seat belts might save your life or the life of a loved one should an accident occur. The Jaycees felt they had met with some measure of success, until they looked back at the tragic number of traffic fatalities that occurred in Seminole County last year, then they wondered if they had worked a little harder. If it could possibly have helped to save some of this tragedy.

Sept. 28, with the cooperation of local veterinarians, Docs. Baas, Foley and Lawrence, the Jaycees held a rabies clinic, under the chairmanship of Harold Chapman. Two hundred pet animals were vaccinated against rabies in three hours on this one Saturday afternoon. A fee of \$3 for each pet was received. A total of \$600 was raised from this project. With the help of the Seminole County and City Commissioners, it is hoped that soon this money can be spent for the construction of a needed animal shelter for our area. An additional contribution was made to the animal shelter fund by Gamma Lambda Chapter, Beta Sigma Phi, proceeds from their Harvest Moon Ball held in mid-December.

Public Affairs

The Jaycees carried out two "Get-Out-The-Vote" campaigns under the chairmanship of Lee Hawkins and Bill Richardson. The purpose of this project before election time is to encourage the public to exercise its right to vote and to help select the best leaders possible.

. . . the Downtown Merchants Association each year in staging the annual Christmas parade. The 1963 Christmas parade has been designated "the best yet" with numerous floats, bands, marching units, and, of course, Santa Claus. Jaycees also . . .

. . . sponsor other community projects. This last year, the young leaders launched a drive for a new county-wide animal shelter. Plans are afoot for a shelter in the vicinity of Five Points. Jaycees, with a rabies clinic, placed \$600 in the shelter fund.

In conjunction with the Sanford Semi-Centennial Committee, the Jaycees staged the Semi-Centennial parade under the chairmanship of Clyde Long. This was a very successful parade and added much to the Semi-Centennial celebration.

In mid-June the Jaycees endorsed "Clean Up, Fix Up, Paint Up Week" and supported this campaign through participation and encouraging all local citizens to actively take part in the beautification of our area.

The Jaycees carried on a flag sale chairmanned by Wayne Albert. They promoted the sale of flags and encouraged the public to own and fly their flags properly. The Jaycees hoped to make this area the "flag flyingest" in the country.

The Jaycees passed a resolution and joined with other civic groups to encourage the Sanford City Commission to move the public library from its present site to the old post office building which would give the library adequate expansion needed at this time without the expenditure of a large sum for construction of a new facility.

Ways And Means

As in any other organization, it is necessary also for the Jaycees to raise money to carry on their community development, youth and sports activities and other planned projects for the year.

The second in a series of sports car races was sponsored by the Jaycees with Charles Fox as chairman. This event was held at the Osceola airstrip and almost every Jaycee

. . . sponsor other community projects. This last year, the young leaders launched a drive for a new county-wide animal shelter. Plans are afoot for a shelter in the vicinity of Five Points. Jaycees, with a rabies clinic, placed \$600 in the shelter fund.

In the local organization took an active part in some phase of this project. Ads were sold, concession stands were operated, preparation of the track and crowd control. This was one of the largest undertakings to raise funds that the Jaycees have ever attempted.

Several concession stand projects have been used this year. These concession stands have been operated for the Central Florida Region Sports Car Club at its frequent schooling races held at the Osceola airstrip. Chairmen for these projects were Gary Helms, Wendell Davis, Larry Skates, Chuck Roberts and Bob White. Fertilizer sales also have been used in an effort to give financial support to other projects. This sale is held each year in the early spring and fall. Thanks to the good support of the public these sales have always been successful. The past two chairmen for the fertilizer sales were Jack Ludwig and Chuck Rose.

Christmas And Religious

This year the balloon sale had its greatest success ever. The money realized from this sale once again enabled the local Jaycees to guide 14 children of St. Luke's Lutheran Haven on a shopping tour of our town just before Christmas. Chairman of the balloon sale, held annually at the Christmas parade, was Jimmy Jones.

The Christmas parade again was the largest endeavor of the past year by the local Jaycees. All who were present took notice of the enthusiastic welcome given by the many spectators who lined First Street (approximately 30,000) to greet the various marching units, bands, local dignitaries and Santa Claus.

This parade stretched for two miles as it wound its way down First and back up Fourth Street. Many of the Jaycees took part in the parade, crowd control, parade marshals and providing transportation for dignitaries. Each year the Jaycees spend many hours in planning and constructing the Santa Claus float. This year's float was one of the outstanding floats in the parade. Chairman for this event was Dave Klingensmith who was assisted by fellow Jaycees and local merchants.

Christmas Lighting Contest, an annual contest held by the Jaycees, was chairmanned by Wayne Albert. This project creates competition among homeowners and businesses alike in decorating for the Christmas holidays. Trophies are given to winning entries through the courtesy of local merchants. Traveling trophy is given each year to the most outstanding commercial entry. This trophy was donated by the Florida Power and Light Company.

As can be seen from this foregoing list the local Jaycees are busy all year long carrying out all types of projects. In many instances the success or failure of projects such as these lies entirely with the acceptance and participation of the general public. The Jaycees deeply appreciate the participation and support that the public has given in the past to these projects and ask for continued support for future projects.

Jaycee Creed

We Believe:

- That faith in God gives meaning and purpose to human life;
- That the brotherhood of man transcends the sovereignty of nations;
- That economic justice can best be won by free men through free enterprise;
- That government should be of laws rather than of men;
- That earth's greatest treasure lies in human personality;
- And that service to humanity is the best work of life.

"Yes,
Mable . . ."

Local Jaycees Celebrate 40th Year Of Service

Sanford-Seminole Jaycees were founded in 1924. This was a very active group at its inception. They carried out many community projects in the early days. Due to the depression in 1927 the group became more or less inactive for the next several years, but the young men of that time still did what they could to further the community effort.

The next organized effort on record for the local Jaycees was in 1927-8. Sanford-Seminole was listed as one of the 36 active Jaycee chapters in the state. During this period E. D. Kirchhoff led the local chapter as president. Two of the outstanding projects carried out during this period were leading the public in an effort to increase the business done at the local postoffice so that it might be rated as a first class postoffice. Also, the construction of the first tourist information building at the local zoo.

Again, the local Jaycee history becomes cloudy through the days of World War II.

Some of the still familiar names mentioned as being active members in 1937 are Andrew Carraway, Warren Patrick, M. L. Raborn Jr., E. E. Laney, Clyde Ramsey, Henry Witte, Harold Powers, Gordon Barnett, Jimmy Rowland.

In the early days following World War II the local organization was reactivated under the guidance of Julian Stenstrom (now associate editor of The Herald), who served as president from 1945-46.

Their effort at reorganization was very successful and has been followed through the years since World War II by a long list of outstanding young citizens who have successfully led this Jaycee group.

Following Stenstrom's term as president the following men have given leadership to the organization: John Ratigan, 1946-47; J. Bratley Odham, 1947-48; Gordon Bradley,

CURRENT OFFICERS of the Sanford-Seminole Jaycees are pictured. From the left, seated: Harold Chapman, second vice president; Jim Smith, president, and Glen McCall, state director; standing: Clyde Long, treasurer; Philip Skate, third vice president; Charles Tetenbaum, secretary; Jack Ludwig, first vice president, and Lee Hawkins, historian.

CURRENT DIRECTORS of the Sanford-Seminole Jaycees are pictured. From the left, seated: Chuck Bose, Dave Berrien and Chuck Roberts; standing: Jimmy Jones, Tom Speer and Frank Finch. Wendell Davis also is a director.

1948-49; John Senkarik, 1949-50; Bill Stemper, 1950-51; John Kader, 1951-52; Douglas Stenstrom, 1952-53; Cliff Able, 1953-54; Herb Roller, 1954-55; A. B. (Tommy) Peterson Jr., 1955-56; G. Andrew Speer, 1956-57; M. L. (Sonny) Raborn Jr., 1957-58; Tom McDonald 1958-59; Mason Wharton, 1959-60; John Alexander, 1960-61; Garnett White, 1961-62; Glenn McCall, 1962-63, and in its 40th year, 1963-64 Jim Smith.

Although some of these years have been more outstanding than others, it can certainly be said that the purpose of the Jaycees has always been carried out to the fullest, this being leadership training given to the young men of the day and service to

the community throughout the years.

As we look back over the 40 years of active service to the community, we find living proof of what young men can and have done in an action organization such as the Jaycees.

It is also evident in talking with any of the past leaders or others who have actively participated in Jaycee activities that their Jaycee association has meant a great deal to the forming of their life and gave them a basis for the establishment of their aims and ideals which has carried through to their present daily activities.

Many of the past leaders of this local Jaycee organization have become active civic

leaders and served in city, county and state offices. The past has been a bright one in this organization and with our expanded growth and development in the community the future is even brighter.

There are still many improvements to be made and projects to be attempted in which young men of action are needed to participate. Many of the things that need to be done in an area such as ours, can only be done by a group such as the Jaycees, young men with the ability, foresight, courage and self reliance to try the impossible.

The only thing the young men of the Jaycees ask from their community is that they give them their active support in participating in Jaycee projects where public acceptance and co-operation is needed. Forty years of service has been established and as long as there are young men who can see the work needed to be done in community service, Jaycee activity will never cease being the method used to accomplish this type of service.

HOSTS STUDENTS FROM ABROAD

By hosting students from abroad, many Jaycee chapters contribute immeasurably to the success of the student exchange programs. Realizing no visiting student must return home and compare our hospitality unfavorably, Jaycees insure that these visitors grasp our underlying good will by conducting hospitality programs and by keeping informed on the visiting students welfare and adjustment. This program is conducted in co-operation with the American Field Service.

There are in excess of 235,000 Jaycees in chapters throughout the United States.

No. 1 Jaycee Program For Senior Students

The number one Jaycee Americanism project is script writing and voice competition for all high school seniors. These young Americans are asked to write voice scripts on the subject, "This Is My Security," wherein they research and consider the values of personal initiative and self-reliance as a means of individual security in the life ahead. These basic values have been the foundation for growth and development of the United States.

In judging scripts, major consideration is given content, originality and sincerity, with minor emphasis on oral delivery.

After school, local and state eliminations, the winners from each state and territory receive an expense-paid trip to Washington, D. C., for the na-

tional awards program. Scholarships are awarded the national winner and two runners-up. Mutual Benefit Life Insurance Co. of Newark, New Jersey, co-sponsors the program.

The Sanford-Seminole Jaycees want you as a member if you are between the ages of 21 and 35 and are interested in the growth and welfare of our area.

In 1946 Seldon Waldo was elected Jaycee national president and is the only Floridian to have held this office.

John R. Alexander, now county commissioner, held the office of national director in 1961-62, the year following his term as local president.

At the present time there are 6,977 Jaycees in 120 chapters throughout the state of Florida.

At the present time there are 6,977 Jaycees in 120 chapters throughout the state of Florida.

Jaycees Encourage Big Vote Turnout

Voting is the right that guarantees all other rights. Realizing this, the Jaycees encourage a big turnout at the polls. Such action is a reminder of our individual freedom and human dignity. It encourages better government and thus peace in the world. A non-partisan activity, Jaycees conduct get out the vote campaigns on nearly all voting issues, ranging from street and school improvements to national elections. The American Heritage Assn. assists in this regular activity.

Numerous other public af-

airs programs are conducted by Jaycee locals depending upon the needs of their community. For many years hundreds of Jaycee locals have worked closely with the National Citizens Committee to establish better School Workshops in local communities. The purpose of this project is to arouse greater citizen interest in school affairs through actual participation.

GREAT DECISIONS

Whether the public is informed or uninformed, wise or unwise, their opinions directly affect American foreign affairs. To help inform the public on American foreign affairs, hundreds of Jaycee locals annually assist the Foreign Policy Assn. in conducting a "Great Decisions" program. This program is a review by the general public of a limited number of foreign policy problems which demand attention and decision by the American people. During the program, community-wide study, debate and discussions are held and individual participants urged to express their opinions on issues by use of an "opinion ballot." Results are forwarded to Congressional representatives and the State Department.

Early Days Of Jaycees Recounted

A study of the early days' activities of the Sanford-Seminole Junior Chamber of Commerce notes that on Aug. 21, 1924, an item of the meetings that month the "St. Johns River Improvement" was discussed. Forty years later it is still being discussed.

Charter for the Jaycees was issued July 24, 1924.

During the early part of 1924, a representative of the national organization came to Sanford and met with a group of young business men to see if enough interest could be created to establish or grant a charter. Immediately thereafter a self-appointed committee made contact and called

several meetings to discuss a charter.

The late G. W. Spencer was elected first president of the Junior Chamber of Commerce and served throughout 1924 and part of 1925. L. C. Bebout was elected secretary and Rollie King elected as treasurer.

First official meeting was held and the only order of business discussed was for a 100 membership drive.

Second meeting was for an official report on the membership drive results. The Junior Chamber voted on and entered Miss Mildred Holly in the national bathing beauty contest at Daytona Beach

and she won, which gained national publicity.

The Jaycees discussed and created interest in a "City and County" clean up drive. It was brought before the Commission and the idea was criticized as usual by a few but it got results and was approved by the Woman's Club.

Provisions for new city jail was approved Aug. 12, 1924. Up until this date the city and county jail, fire department and the city hall with all the municipal records, were kept in the building now being occupied by the Sanford Fire Department. The need for a new jail and city hall

had been discussed for many months and the Junior Chamber took an active part in urging that a combination city and county jail be built. Interested citizens impressed the commissioners that Sanford had a poorly lighted and unhealthy jail. So on this date a resolution was drawn up by the Junior Chamber of Commerce which approved a sum of \$50,000 as the city's share in a combination city and county jail.

During the month of August meetings the Junior Chamber of Commerce endorsed and discussed the following:

1. The \$325,000 bond issue for extension of city's sewage system and other municipal purposes.
2. St. Johns River improvement discussed.
3. Resolution favoring removal of all advertising signs attached to telephone poles

and unsightly, misplaced garbage cans.

4. Endorsed National Defense Day.
5. Endorsed the hiring of a Seminole High Football Coach.
6. After many months of discussing and urging by the Junior Chamber of Commerce, the municipal stadium was built and dedicated on Sept. 11, 1924.

Cost of the construction was \$35,000 and had a seating capacity of 1,000 and declared the best in the state.

The membership of the Sanford - Seminole Jaycees, including associate members, is 149.

Jaycees Stress Agriculture

A joint project of the U.S. Junior Chamber and the American Petroleum Institute, this program is designed to focus public attention on agriculture and to demonstrate that farming is a profitable and satisfying occupation. Nominees, in the Jaycee-age group, represent each of the 48 states, Alaska and Hawaii at the annual National awards program where the "Four Outstanding Young Farmers of the Year" are announced. Agriculture experts make the selections on the basis of career progress, conservation practices and community contributions. Since its beginning in 1934, nominations have steadily increased to a point where more than 10,000 entries are received each year.

Budget of the United States Junior Chamber of Commerce national office is \$1 million.

Jaycee International is an organization of Jaycee chapters found in 90 countries throughout the world.

Jaycee International was founded Dec. 11, 1914, in Mexico City. Headquarters for JCI is Miami Beach.

Jaycee International is made up of 300,000 young men in 5,942 communities throughout the world.

ANXIOUSLY LOOKED forward to each year by area youngsters is the annual fishing rodeo sponsored by the Sanford-Seminole Jaycees. Evidence is shown in this shot by Herald staff photographer Bill Vincent Jr. at the last fishing rodeo.

Jaycees Back Many Projects

The youthful imagination and energy of Jaycees has resulted in many unique and outstanding local Jaycee projects. To encourage and recognize local efforts and to make an exchange of ideas and experiences between Junior Chambers possible, a complete awards program is conducted each year. Local Jaycees prepare a digest or scrapbook of the year's activity and submit it to the annual National convention. There, a national awards committee spends some 4,500 man-hours judging the entries for more than 350 awards in five population divisions. Awards also are presented outstanding state presidents, national directors, national chairman international directors and outstanding new Jaycees.

J. Bralley Odham, of Sanford, was state Jaycee president 1950-51.

Mayor Proclaims 'Jaycee Week'

THIS YOUNG LADY, wet and bedraggled, clutching a wet shoe which came off in her dunking, was taking part in the last Jaycee youngsters' fishing rodeo. Only, instead of catching fish, she, herself, fell into the drink. Herald's Bill Vincent Jr. took this very interesting human interest photo.

WHEREAS, the civic bodies and service organizations of our community and the departments of the local government recognize the great service rendered to this community by the Sanford-Seminole County Junior Chamber of Commerce; and WHEREAS, the United States Junior Chamber of Commerce and its affiliated state and local organizations have set aside the week of January 19-25, 1964, to observe the founding of the Junior Chamber of Commerce and to commemorate such founding by the selection of an outstanding young man in this commu-

nity as the recipient of the Distinguished Service Award; and WHEREAS, this organization of young men has contributed materially to the betterment of this community throughout the year; NOW, THEREFORE, I, A. L. Wilson, Mayor of the City of Sanford, Florida, do hereby proclaim the week of January 19-25, 1964, as JAYCEE WEEK and urge all citizens of our community to give full consideration to the future services of the Junior Chamber of Commerce.

A. L. Wilson, Mayor

Junior Chamber International

Through the opportunity of meeting together to discuss common problems on a basis of good will, the 350,000 members of Junior Chamber International in 4,395 chapters in 89 countries are making a vital contribution to world understanding. The Junior Chamber of Commerce first assumed world proportions with the founding of Junior Chamber International in Mexico City in 1944. From the World Secretariat and Secretary General of JCI, headquarters in Miami Beach, Fla., flow coordinated plans to establish international scholarships, support for self-help programs in under-

developed areas, promotion of world trade and other programs that will encourage the betterment of health conditions, education, and brother-

OPERATION F. L. O. W.

The power of a letter from a child in the U.S. to one in any foreign nation can do much to increase understanding among nations. But more than letter writing, FLOW (Future Leaders of the World) fosters greater understanding between people of all nations and creates greater student interest in geography, social sciences, and other areas of education.

hood throughout the world. By joining hands with foreign nations in common unity, the Jaycees are making a lasting contribution toward friendlier relations between nations, and thus to the cause of world peace.

RELIGION IN AMERICAN LIFE

This program is designed and conducted in cooperation with Religion in American Life, Inc. It is aimed at building church attendance, strengthening the influence of religious institutions, and emphasizing the importance of religion in the life of a community and its people.

SEVEN FIRE DEPARTMENTS battled the blaze which early this morning destroyed the Dearborn Electronics Laboratories on Highway 17-92...

... causing an estimated loss of \$1 million. Firemen from the Sanford Naval Air Station (above) joined in fighting the blaze...

... believed to have started shortly after midnight this morning. Cause of the fire is unknown but it is believed it was faulty wiring.

The university site. When the news of the selection flashed throughout Seminole last Friday morning an air of almost disbelief descended upon the county.

Dozens upon dozens of callers on the other end of the telephone line asked with amazement, "Is the report I hear true?" Others inquired, "How could they?"

Many questioned us about the vote on Lake Ada. When we advised them there was no vote taken on Ada there was usually a quiet period of mental calculation and meditation. Some responded with a belated "Oh" and some finally asked, "Well, what kind of a deal was that? If they left Lake Ada under consideration at the Tallahassee meeting the least they could have done was to have voted on it!"

We conferred with numerous persons attending the Jay-Cees awards banquet Saturday night and discovered that while the chances are remote very few of our citizens are willing to call it quits. Quite a few pointed to the drainage problem at the Adamucci site. Some reminded others that soil tests may not prove satisfactory and that this is an important factor since problems are reported to have arisen at the site chosen for South Florida University near Tampa. Yet others talked of directing appeals to the Board of Education (the governor and his cabinet) for further consideration of a site more accessible to Lake County and Volusia County people.

We'll buy it! As long as there's a speck of a chance to get the school in Seminole County we're for continuing the fight. We've fought much too hard and too long to stop now! The cost will be minute and there's nothing to lose.

Regarding that meeting of the board of directors of the Chamber of Commerce, slated for 7:30 Thursday night at the Civic Center, President Karlisle Housholder wants every director on hand since an amended budget for 1964 is on the agenda. There are also some by-law changes to be considered.

We understand that when the City Commission meets tonight it will officially adopt a resolution endorsing the metropolitan telephone system. We trust many individuals also will indicate their approval.

Remember 12-year-old Mike Sulplizio, the lad who recently lost his little, bowlegged Beagle? Mike called in to thank us for our efforts to help locate this pup. "No, sir," Mike replied when asked if he had found his dog, "but I want to thank The Herald for everything it did for me." Then Mike added, "I would appreciate one more favor. Sure thing, Mike! Please put a little notice in the Clock asking that whoever has my dog please take good care of him. I raised him from a little, tiny pup and I wouldn't want anybody to be mean to him."

The Sanford Herald

VOL. 66 United Press Leased Wire Established 1908 MON., JANUARY 27, 1964 SANFORD, FLORIDA NO. 112

EDITORIAL COMMENT

We Stand United

If the Board of Control had chosen a site within Seminole County for the proposed university it would have meant a tremendous boost to this county's economy. However, landing the school was not a matter of life and death. The county is not doomed because an Orange County location was chosen.

The citizens of Seminole wanted the university. But perhaps it should be considered fortunate that the school — if the Board of Education accepts the Control group's recommendation — will be as close to the county as it could be. It will mean much to Seminole's young people who will attend the university. Also it will mean a great deal to our sister community, Oviedo, which is only slightly more than five miles from the site.

From the beginning of this county's effort to get the university Seminole's leaders, agencies and its citizens were solidly united—perhaps for the first time in the county's 51-year history. Before the university situation arose many people were doubtful whether Seminole could ever be completely united in any given project. But the people learned a lesson. They found that they could be totally united.

If Seminole can be united in one effort, it can be united in others. The county still faces a most promising future. In the months and years ahead numerous major projects — several of which are now in progress—can be brought to fruition if the people will remain united.

As the county progresses so will all of its municipalities and their outlying sections. This is no time for dependency. It is a time for renewed determination. And we must remain united.

The Herald is proud of the battle waged for the university by all of our people. Particularly commendable is the work of the Chamber's site committee, the Sanford city commission, the Seminole Commission and the leaders in all of the county's incorporated areas. Their efforts can be adequately measured by the fact that if it had to be done over again there probably is no one who would suggest a single change in procedure.

North Orlando Books Open

Voter registration books for the Village of North Orlando are open at the Village Office on Mondays, Tuesdays and Wednesdays from 9 a.m. until noon and on Thursdays and Fridays from 1 until 5 p.m. In addition they will be open on Saturdays, Feb. 8, 15 and 22 from 10 a.m. until 3 p.m. and on Mondays, Feb. 11 and 24, from 7 until 9 p.m.

Books will close at 4 p.m. Feb. 28 and remain closed until March 23.

All Village citizens, who have been residents of Florida for one year and of North Orlando for six months, are urged to register so that they may vote in the North Orlando general elections to be held on March 17.

Five Seminole Countians Get Annual Jaycee Awards

Five Seminole County citizens were singled out by the Sanford-Seminole Junior Chamber of Commerce for outstanding service during 1963 at Saturday night's Jay-Cee awards banquet which climaxed the junior trade body's observance of National Jay-Cees Week.

John R. Alexander, youthful member of the Board of County Commissioners and a local real estate and insurance executive, was named the winner of the distinguished service award. The presentation was made by Jim Smith, Jaycee president.

Also honored was Miss Marlene Sherrod of Altamonte Springs who was selected as the county's outstanding young teacher. James L. Duhom of the Sanford Naval Air Station was chosen for the outstanding young sailor award. Billy S. Plesian of Oviedo was named the outstanding young farmer and Gen. J. C. Hutchison chairman of the

County Commission for the past three years was selected to receive the annual gold government award.

Asserting that Florida must prepare for the coming population explosion, State Sen. Scott Kelly, a member of the Lakeland Jay-Cees, called for preparations to be made now. He pointed to the fact that the U. S. population is expected to double within the next 40 years but that Florida's population will double within the next 15 years. "This is because Florida will not only increase its own population," Kelly declared, "but also because of migration."

"Florida must prepare by providing jobs. The problem is as simple as this: if there are 100 jobs and 120 people needing work there still will be 20 people seeking jobs. More welfare," he said "is not the answer."

Kelly called for an industrial revolution in the state. He proposed that county commissions be given blanket approval by the Legislature to establish industrial parks and permit the counties to vie for new industrial enterprises. He said that some people have called for Florida to "hold the line." But he added, "Florida cannot succeed if it only holds the line. It must go on the offensive." He called for all levels of government to unite in providing the needed leadership.

University Site Choice Goes To Board Tuesday

Acceptance of a recommendation that the proposed East Central Florida university be placed on the Adamucci site in Orange County, was to be considered Tuesday by the State Board of Education.

Attorney General James W. Kynes advised United Press International at Tallahassee he will present the recommendation of the State Board of Education to the State Board of Education Tuesday.

The State Board of Control, hopelessly deadlocked between the Lake Ada site south of Sanford city limits and the Bluestone site 12 miles south of Orlando, compromised last Friday and selected the Adamucci site.

The north boundary of the Adamucci 1,000-acre site is on the Seminole - Orange County line, less than five miles south of Oviedo.

Chairman Baya Harrison, after Friday's decision, informed The Herald the Board of Control expects Seminole County to improve its roads in the vicinity of the university site.

Douglas Stenstrom, chairman of the university site selection committee of the Seminole County Chamber of Commerce said today that the group will convene tonight at 7:30 to discuss the action of the Board of Control last Friday in Orlando.

Sanford Firm Gets Charter

Interstate Groves Corporation, of 228 North Elm Avenue, Sanford, dealing in the citrus business, was granted a charter today, according to Secretary of State Tom Adams.

Adams authorized the sale of 200 shares of common stock at \$100 per share. Incorporators are J. M. Feinberg, Carl H. Pennington Jr. and Annie S. McAdoo, all of Tallahassee.

Swofford In Race For County Board

Announcement of his candidacy for County Commissioner from District 3 was made today by Mayor Lawrence Swofford, of Altamonte Springs. He aspires to the post now held by James P. Avery Jr.

Born in Spartanburg, S. C., Swofford moved to Altamonte Springs in 1934. He is married and the father of four children. He has had seven years experience in road construction and 12 years as a building contractor.

He first entered politics in 1951 as a town councilman in Altamonte Springs. After serving several terms as town councilman he was elected mayor of Altamonte. He was recently elected for his sixth term as mayor by the greatest majority of votes ever given a candidate for public office in Altamonte Springs. He feels this is an endorsement of both his ability and willingness to serve the people.

Shortly after being elected mayor in 1962, Swofford began a progressive program in Altamonte Springs that resulted in the expenditure of over \$400,000 in 1963. A \$350,000 water system has been completed and will go into operation Feb. 1. The program included expansion of recreational facilities and other city improvements including a planning report for streets and storm drainage now under way.

Shortly it is planned to start a planning report for a sewer system. He feels that his experience in preparing budgets and directing financial affairs of the Town of Altamonte Springs will be helpful in the future planning of Seminole County. He has served one term as County Commissioner from District 3. If elected, he said he would cooperate with other County officials, municipal officials and the School Board in preparing Seminole County for its future growth.

Congolese Kill U. S. Woman

LEOPOLDVILLE, The Congo (UPI)—Seven American refugees from Kwilu Province, where an American woman missionary was killed by a Congolese poison arrow, said today they escaped death because "the Lord kept his hand over us."

The first American known to be slain in the new outbreak of terrorism was Miss Irene Ferrel, 42, a Baptist missionary. A co-worker, Miss Ruth Hege, 48, Wellington, Ohio, reportedly had a hand hacked off by the terrorists and was in serious condition.

Mets Proposal Possible Use by the New York Mets' farm baseball teams of the Sanford Municipal Stadium will be discussed at tonight's meeting of the City Commission. Parent team officials have directed inquiries to a number of Florida cities for a training facility for their farm teams.

Commission also will discuss disposition of the old library building at Fifth and Oak Streets, possibly as a city cultural center.

Correction

The Herald extends a most sincere apology to the Catholic Women's Club of the Church of the Nativity and to their reporter, Mrs. Joana Estes, for the unfortunate error which occurred in Friday's report announcing the Feb. 16 Communion Sunday for the women.

Let us assure that this error was in no way intentional. The error was made in our offices and is no reflection upon the capabilities of Mrs. Estes as a news reporter.

Electronics Plant Destroyed By Fire

Members of seven area fire departments this morning battled for eight hours the blaze which destroyed the plant of Dearborn Electronics Laboratories on Highway 17-92 south of Sanford.

Loss was tentatively estimated at \$1 million but may prove to be higher when an investigation is completed. More than 130 employees were thrown out of work by the fire.

Fire investigators were searching the ruins in an effort to determine how the blaze started. It was believed it may have been faulty wiring in the ceiling of the one-story concrete block structure. The flames were discovered at about 1 a. m. by the night watchman, Walter Ware. An electric clock in the plant had stopped at 12:01 a. m.

Firemen were hampered in their fight by lack of water. Florida Forestry Service tank trucks hauled water from Casselberry. Interior of the building was gutted, the roof collapsed and firemen said the plant was a complete loss.

Dearborn supervisory personnel reported for work this morning but all the other employees were advised to remain away.

Sheriff's Deputy J. Q. Galoway reported he did not recall a fire in Seminole County causing such damage as the Dearborn blaze.

Joining in the battle fighting the fire were members of fire departments from the Naval Air Station, Altamonte Springs, Lake Mary, Longwood, Casselberry, Midway Volunteers and the Forestry Service.

Dearborn officials this morning set up temporary offices at the neighboring Dynatronics plant. They said they could give no statement to the press until later in the day. The Herald had sought a statement whether Dearborn would rebuild this plant, since there were reports the company was contemplating moving to California.

Secretary of State Tom Adams said today he would oppose use of funds from the new recreational bond program to buy right-of-way for the cross-state barge canal.

Adams said he would oppose use of this program to buy right-of-way for any such project which has its own authority and can raise such funds through district taxes as is true with the barge canal and the Sanford-Titusville Canal and other such projects.

He conceded it would be possible under the law setting up the bond program to buy recreational lands to divert some of the money to right-of-way for the barge canal.

But he said it has not been discussed for a long time and he does not believe it will be proposed.

Adams is a member of the state cabinet which must approve any purchase or other expenditure out of the bond funds, which still are a long way from being available. The money to support the bonds, a five per cent wholesale tax on sporting goods, is being attacked in circuit court and no action to get the bonds ready for market will be taken until that is settled. That means the tax will be settled, if it approves the tax source, the recreation bonds still would have to go through court proceedings on its own.

Adams Opposes Any Recreations Fund Transfer

TALLAHASSEE (UPI)—Secretary of State Tom Adams said today he would oppose use of funds from the new recreational bond program to buy right-of-way for the cross-state barge canal.

Adams said he would oppose use of this program to buy right-of-way for any such project which has its own authority and can raise such funds through district taxes as is true with the barge canal and the Sanford-Titusville Canal and other such projects.

He conceded it would be possible under the law setting up the bond program to buy recreational lands to divert some of the money to right-of-way for the barge canal.

But he said it has not been discussed for a long time and he does not believe it will be proposed.

Adams is a member of the state cabinet which must approve any purchase or other expenditure out of the bond funds, which still are a long way from being available.

The money to support the bonds, a five per cent wholesale tax on sporting goods, is being attacked in circuit court and no action to get the bonds ready for market will be taken until that is settled. That means the tax will be settled, if it approves the tax source, the recreation bonds still would have to go through court proceedings on its own.

Sen. John Mathews, Jacksonville, a candidate for governor, said he's heard reports a pitch would be made to channel some of the recreation bond money to the barge canal right-of-way.

Gov. Farris Bryant said he knew of no such plan. The law setting up the program provides for its use for multiple-use projects, including water conservation, game management, flood control and the like.

New Telephone Books Mailed

Sixteen thousand new telephone directories for Sanford, DeBary, Geneva and Oviedo are in the mills for distribution to subscribers, Robert Shadden, local Southern Bell manager, said today.

The Sanford directory also includes Lake Mary, Lake Monroe, North Orlando, Osteen and Paola. The DeBary listing also includes Enterprise and Deltona. Oviedo numbers also include Chuluota and Slavia.

Tag Stolen

John W. Anderson, 702 Hickory, reported to Sanford Police that his 1964 auto tag and registration papers were stolen from the front seat of his auto. The tag number is 1W-3434.

First Phase Of Paving Finished

The City of Sanford today will complete the initial phase of a \$19,000 street-resurfacing program.

The City is completing the resurfacing of some 19 miles of streets, using a new process known as asphalt slurry. City Manager Pete Knowles said that the new mixture has been brought to the attention of engineers from both Orlando and Winter Park who have visited Sanford and investigated the materials used.

Some of the same streets will soon receive a cover coating of identical materials. Others, however, such as Second St. from Sanford to Oak avenues, will receive a final asphalt-concrete cover treatment.

Youth Arrested On Theft Count

Sanford police picked up a 14-year old youth for allegedly snatching keys from four autos Sunday. The youngster is reported to have taken keys from parked cars at the Sanford Motor Co., 800 French Ave., Wagner's Amoco Service at Ninth and French, Bill Memphis Motors at First and Myrtle and a car parked at First and Oak.

The youth, arrested by Officers Joe Dodson and Donovon Tucker, was placed in the detention home.

Sunday Fun

Three youths climbed atop the third floor of the old Florida Hotel Sunday and Sanford Police reported that the six and seven-year-old youngsters were tossing rocks around the area. The building is now being razed and the area will be converted into a parking lot for Sanford Atlantic National Bank customers.

Try Breakin

Sanford police today reported an attempted breaking and entering at Ted Williams Hardware, 203 E. 25th St. Police reported that entry was attempted at a window on the east side of the building.

Board To Meet

The Casselberry Board of Aldermen will meet in continuation session at 7:30 p. m. today in the Municipal Building. No formal agenda has been announced for the meeting.

JOHN R. ALEXANDER, Seminole County Commissioner, is presented the Sanford-Seminole County Junior Chamber of Commerce award for distinguished service at Saturday night's annual Jaycee awards banquet.
