

CO-OPERATIVE MARKETING BILL PASSED YESTERDAY; FARM BLOC STEAM ROLLER

Is Working With Great Precision in the Senate Now

GET WHOLE WORKS

ADMINISTRATION SURRENDERS TO MOST POWERFUL LEAGUE IN CONGRESS

(By The Associated Press)
WASHINGTON, Feb. 9.—The house co-operative marketing bill, a measure designed to aid the agricultural interests and passed by the farm bloc was passed by the senate yesterday. Only one vote, that of Senator Gerry, Democrat, Rhode Island, was cast against the measure.

Two other senators, Brandegee, Republican, Connecticut, and King, Democrat, Utah, were paired against the measure and withheld their votes. The vote was 58 to 1 and the senate's action was regarded by some as the most sweeping of the victories yet attained by the farm bloc since, in accepting the house bill, the senate overrode its own judiciary committee which had reported a substitute measure. The substitute was defeated, 50 to 4. The bill now goes to conference for adjustment of differences with the house.

As passed by the senate the bill retains the provisions which relieve the co-operative associations from the application of laws prohibiting trusts or unfair business practices, placing the authority to determine which such acts have been committed with the secretary of agriculture. The senate substitute would have made the associations amendable to the present laws and it was around this point that debate revolved in the week the subject was before the senate.

During the closing hours of debate yesterday, reference was made to the bloc's power. This brought from Senator Norris, Republican, Nebraska, the statement that he had heard the bill had administration support.

"It is the first time in many months that the majority has come over to my side," he added. "It happens so almighty seldom that I feel I must make note of it. Maybe the administration is behind this bill. If that is so then I am glad they have come over into the same wagon with me. Whether they came because of me or in spite of me, I do not know, but I welcome them here."

The most important of the amendments accepted by the senate was one providing "that the associations shall not deal in products of non-members to an amount greater in value than such as are handled by it for members."

This, it was explained, makes it impossible for co-operative associations to be "stolen" by a group of individuals who merely by declining to admit new members resolve themselves into a closed corporation. Without the amendment, the group would be able, according to senators, to engage in competitive trade, buying other farmers' products to an unlimited extent. The amendment limits any association in the handling of the commodities of non-members so that what was described as a throttle of local business could not be obtained.

Other important provisions of the bill prescribe that no member of an association may have its activities, regardless of the amount of stock he holds, nor can any association pay dividends on stock or membership capital in excess of eight per cent a year. With respect to the authority granted the secretary of agriculture to control attempts to monopolize or restrain trade, the bill provides that notice of charges of alleged violations must be served on the offending association and it must be given an opportunity to defend itself. If found guilty of the charges, the secretary of agriculture may order the association to "cease and desist" and in event of its failure to do so, the case then may be referred to the federal courts for enforcement of the order and the filing of such decrees as the courts deem equitable.

Contract has been awarded Geo. A. Miller for the construction of a new building for the Tampa Childrens Home Society costing approximately \$110,000.

GASOLINE CARS FOR RAILROADS ARE SUGGESTED

OCALA BOARD OF TRADE WANTS A. C. L. TRAINS CONTINUED

(By The Associated Press)
OCALA, Feb. 9.—Marion County Board of Trade will be represented at the State Railroad Commission hearing at Gainesville tomorrow on the application of the Atlantic Coast Line to discontinue trains 9 and 10 between Leesburg and Jacksonville, Numbers 2 and 35, Sunny Jim, between Lakeland and Ocala, and trains between Clefland and Ocala. It is understood the railroad claims the trains are being operated at a loss and the Ocala delegation will suggest the commission investigate whether gasoline motor or electric cars can be substituted. This is believed to be the first time in Florida that the Commission has had this suggested as a substitute for the expensive local trains although the Seaboard Air Line has been testing such service on the Leesburg branch and are now operating such cars between Tampa and Lake Wales.

PRISONER KIDNAPPED, RETURNED TO HOME, OTHERS REPORTED FREE

(By The Associated Press)
BELFAST, Feb. 9.—Major Miles, a prisoner taken by raiders of Northern Irish counties yesterday returned home today. Others from his district also reported released.

LEAGUE OF WOMEN VOTERS ACTIVE IN FORT PIERCE

(By The Associated Press)
FORT PIERCE, Feb. 9.—The League of Women Voters of this city plans a house to house canvass to urge the women of Fort Pierce to join the league, pay tax and register in March.

Line of Steel On Ulster Border Presented Today

Five Thousand Armed Men Will Prevent Any More Kidnapping

(By The Associated Press)
LONDON, Feb. 9.—Reports from Ireland indicated up to noon today that none of the Unionists kidnapped by raiding bands in Ulster yesterday morning had been released.

BELFAST, Feb. 9.—Ulster's frontier is a line of steel today as the result of raids yesterday in which many Unionists were kidnapped. It is estimated 5,000 armed men along the border from Portadown, County Armagh, to Belleek on the Fermanagh Donegal border.

STATE DENIES CHURCH STAY OF EXECUTION AT CHICAGO TODAY

(By The Associated Press)
CHICAGO, Feb. 9.—State court today denied Harvey Church stay of execution for murder of two Chicago automobile salesmen. Sentenced to hang February seventeenth.

WANTS MANATTE VEGETABLES IN FROZEN CALIFORNIA

Bradentown, Feb. 9.—Manatee County Growers Association received from Commission House in Los Angeles, California, request for Quotations on Manatee County celery, egg plant, peppers, particularly carload lots celery.

BODY OF J. E. BUSH FOUND IN RUINS RICHMOND FIRE

RICHMOND, Feb. 9.—Discovery of the body of E. J. Bush of Richmond in ruins today brought known dead to five. Head and torso found and identified by letters in pocket.

A receiving Station for Cream has been established at Chipley which will boost the dairy business of that Section.

WEEKS' WEAK ON FORD PLAN GROUNDHOG TALK

VALIANT SECRETARY SCARED OF SHADOW OF HENRY WHICH LOOMS IN THE SUN

(By The Associated Press)
WASHINGTON, Feb. 9.—Opening sessions of the House military committee's investigation of the Ford contract offer for purchase and lease of the government properties at Muscle Shoals, Ala., revolved yesterday principally about the clauses relating to manufacture of fertilizers for the Nation's agricultural needs. Secretary Weeks of the war department, appearing as the first witness, repeatedly declared his doubt as to the whether fertilizers could be manufactured as cheaply at Muscle Shoals, and expressed his belief that amendments to safeguard better the government's interest in the \$106,000,000 investment already made should be incorporated in the offer as it was drafted.

To alter existing government policies regarding the lease of real estate or other properties and permit a 100 year lease of the water power and dams in Alabama, the secretary asserted repeatedly, would be an unwise act and should not be permitted. He advocated a reduction in the time clause from 100 years to 50, in the event congress should decide to accept the offer.

Another often reiterated suggestion involving a change in present language of the offer, the secretary pointed out, would require the operating company Mr. Ford is to create. The secretary said no provision existed in the offer guaranteeing a capitalization which the government might recover in whole or in part in the event the contract was violated. A provision of some sort was advisable, he said, which would permit the government to impose through legal means a penalty or forfeit should the company fail to carry out the terms of the offer.

"If I thought that development of the project by Mr. Ford would effect a material reduction in the cost of fertilizers," he said, "I would vote for his proposition, if I were in congress. But I am so in doubt as to that, I should hesitate to give any advice unless assured of a guarantee."

Asked what the annual consumption of fertilizer was, the secretary said it approximated 78,000,000 tons, and the Muscle Shoals plants could only produce at a maximum of 200,000 tons. That amount, he asserted, would not in his opinion, affect the existing market.

The war secretary previously had told the committee that Mr. Ford had declined to guarantee fertilizer production over a given number of years and had informed him in conversations that he would not manufacture the commodity at a loss.

COMMISSION CREATED BY HARDING

FOR CONVERSION OF 11 BILLION OWED THE UNITED STATES

(By The Associated Press)
WASHINGTON, Feb. 9.—A bill creating a commission and otherwise making provision for the conversion of the 11 billion dollar debt owed the United States by allied powers was signed today by President Harding.

FLORIDA WOMAN DYE CAT BLUE—IT DIES

NEW YORK, Feb. 8.—Miss Margaret Owen, 22, a singer, has her freedom today because she has promised Magistrate Matting, that she will never again dye her cats to harmonize with her house draperies, or the vivid hued clothing she wears. Miss Owen was haled before the magistrate when agents of the Society for the Prevention of Cruelty to Animals testified she had dyed a valuable pet feline blue to match draperies in her home. The animal died, witness testified.

"If I consent to be lenient," said Magistrate Matting, "I want you to go back to Florida, and stop dyeing cats."

The Shriner's of St. Petersburg are planning to build a new building for their use costing approximately \$80,000. The building will be three stories.

CONSTRUCTION OF BATTLESHIPS HAS STOPPED

FOURTEEN CAPITAL SHIPS WILL NOT BE FINISHED SAYS DENBY

(By The Associated Press)
WASHINGTON, Feb. 9.—Construction work on fourteen capital ships was suspended today by order of Secretary Denby under direction of President Harding. The step was taken in anticipation of ratification of the naval limitation treaty which resulted from the Washington conference and under which only three of the vessel involved will be completed as warcraft. The other eleven will be scrapped or converted to merchant ships under the treaty provisions. Secretary Denby acted after Assistant Secretary Roosevelt had discussed with President Harding the terms of the treaty affecting the new ships. Mr. Harding approved the suggestion that work be brought to a standstill immediately on the eight super-dread-naughts and six battle cruisers pending final action on the treaty. In round figures, the building operations thus halted have cost the Government approximately \$5,000,000 a month.

Following ratification of the treaty, contracts for the new ships will be cancelled. The ultimate cost to the Government of this cancellation cannot be determined in advance, but naval officials believe that a considerable saving will be made through today's action.

Only one capital ship under construction was exempted from today's suspension order. She is the Colorado, more than 90 per cent complete, and which will be retained in the permanent fleet.

Ships on which work was stopped included eight first class battlecruisers.

While work on the battleships West Virginia and Washington was ordered stopped, one of these ships will be completed and added to the fleet when finished. Which is to be selected for completion has not been decided, but it has been indicated that the west Virginia probably will be named. It is believed by navy officials that she can be finished more cheaply than the Washington, a sister ship of the post-Jutland class like the Colorado.

LOCAL TELEPHONES TELL STORY OF GROWTH

(By The Associated Press)
ST. PETERSBURG, Feb. 9.—Growth of the permanent population of St. Petersburg is reflected in the increase in the number of telephone now in use. The local company now has 3,150 telephones in service, a gain of 1,127 during the last year. New telephones installed during the month of January 1922 numbered 291.

FOUL PLAY IS SUSPECTED ON STEAMER

NORTHERN PACIFIC THAT WAS BURNED TO WATER EDGE YESTERDAY

(By The Associated Press)
NEWPORT NEWS, Feb. 9.—Survivors of the Northern Pacific are not satisfied that the burning of the vessel yesterday was wholly accidental. Captain Lusti declined this morning to make any statement but members of the crew were not so reticent. They suspect foul play before the ship left port but realizing can prove nothing the decline to make a direct charge or statement. Lusti warned the crew that the shipping board's orders prohibit their telling anything of the accident.

COLUMBIA PHONOGRAPH COMPANY GOES BLOOEY APPLY FOR RECEIVER

(By The Associated Press)
WASHINGTON, Feb. 9.—Application for receivership for a Columbia Graphophone Manufacturing company made today in United States district court. Insolvency alleged.

ORLANDO FAILED TODAY TO FORM NEW CABINET

(By The Associated Press)
LONDON, Feb. 9.—Former Premier Orlando of Italy failed in an attempt to form new cabinet says Rome dispatch.

SPECIAL TAXES NEEDED TO PAY HUGE BONUS---IT WILL RUN INTO THE BILLIONS

REPUBLICANS DO NOTHING REAL STARTLING

THEIR EFFORTS AT PEACE ONLY FOLLOW FOOTSTEPS OF WILSON

TAMPA, Fla., Feb. 9.—Addressing a crowd numbering thousands at the South Florida Fair Grounds this afternoon and tonight as chief speaker to the newspaper men of the state at the annual Rotary Press breakfast, Hon. William Jennings Bryan said "the Democrats should not be backward in giving credit to this (Harding) administration for what has been done" toward assuring the peace of the world through lessening of armaments, "but they would also remember that not a thing has been done at the conference that has not followed the Democratic line of march."

Quoting the Bible: "When the fullness of time has come is it possible to accomplish results," he said that the proper time had not arrived when the Paris conference was held; and that in five years from now the world will be able to accomplish greater things than it can at the present day. "The spirit of peace is abroad in the world. The same spirit will some day scrap the muskets the same as it scrapped the battleships. The world is coming nearer that day when it will be disarmed. If anybody asks you why the Democrats did not do in their administration what has been done at the Paris conference, you tell them that 'the fullness of time' had not then arrived."

A round hundred newspaper men from all parts of the state were guests tonight at the annual Rotary Press breakfast, the Tampa Rotary Club being the host. The "breakfast" was a real banquet served at the Tampa Bay hotel.

Backrow is Held as Material Witness in Confidence Case

Inquiries Continue to Pour Into Authorities at Lauderdale

(By The Associated Press)
FORT LAUDERDALE, Feb. 9.—A charge of frequenting gambling house was made against William Backrow arrested Friday with a gang of alleged confidence men, dismissed but he is regarded as a material witness and was released under \$1,500 bond. Circuit Judge Davis, of West Palm Beach, will attend to habeas corpus writ which defendants attempt to sue out here Friday. Defendants did not attempt to make bond at least until habeas corpus proceedings are disposed of. Inquiries for photographs of prisoners continue to pour in to the local authorities from cities all over the country where the police believe the alleged confidence men might have operated.

INFERIOR BUILDING CAUSE OF COLLAPSE OF KNICKERBOCKER

WASHINGTON, Feb. 9.—A list of twenty-one "evidences of work of an inferior grade for such an important structure" was submitted late today in an exhaustive report on the collapse of the Knickerbocker theatre, by the five army and navy engineers, at the coroner's inquest into the disaster.

The fall of the theatre's roof, with the loss of ninety-eight lives, the report stated, was "a direct result of failure to sufficiently provide for the unusual conditions existing at the junction of the curved Columbia road wall to the stage wall."

The report of the army and navy engineers' investigation was submitted after testimony had been given earlier in the day by Robert Henry Davis engineer in the District of Columbia building inspector's office, to the effect that iron construction intended to support the roof of the theatre was below the requirements of inspector's office.

May Decide to Tax Gasoline One Cent Per Gallon WILL SOAK FLORIDA

SINCE THIS STATE IS NOW BURDENED WITH GASOLINE TAXES

(By The Associated Press)
WASHINGTON, Feb. 9.—A tentative estimate of \$350,000,000 yearly as the amount of special taxes that must be laid to finance the cash feature of the proposed soldiers' bonus legislation was made yesterday at an executive session of majority members of the house ways and means committee. The exact amount that is to be determined upon and the sources from which it must come will be taken up today by a subcommittee headed by Chairman Fordney.

Committeemen said it was not the intention to rely upon any part either of the interest or principal of the British or other foreign debts in connection with the bonus. They said that something around \$350,000,000 a year would take care of the cash payments to be made over the two and one-half years' period beginning January 1, 1923, and that the finding of definite and certain sources from which to obtain this amount was their immediate concern.

The \$350,000,000 estimate, it was explained, was made on the basis of figures presented at public hearings by fiscal officers of the army, navy and marine corps. These figures contemplated 50 per cent of the men who served with the army and 75 per cent of those who served with the navy and marine corps electing to take cash. This figure may be revised as the subcommittee studies the matter.

The first question before the tax subcommittee will be that of deciding whether the total amount of tax revenue is to come from a limited group of sources or whether the total will be spread over a wide field so as to make the burden as light as possible on those who have to pay. It was said there was two schools of thought in the committee on this question. Some members emphasized that it would be the purpose to so arrange the tax program as to interfere as little as possible with the recovery of business.

There was said to be a drift of sentiment in the committee for a tax of possibly one cent a gallon on gasoline and also a levy on the transfer of stocks and bonds. These are only two of a score of suggestions and it was made plain that there had been no decision as to these or any others.

PALATKA IS PUSHING FOR STATE CAPITAL.

(By The Associated Press)
PALATKA, Feb. 9.—Palatka is determined to push the campaign for removal of the state capital from Tallahassee to some point nearer the center of population of Florida and to this end the local Chamber of Commerce has increased the membership of its Capital Removal Committee from five to seven and announced that it is ready to go to work with a vim.

Members of the local organization point out that capital removal, which is expected to be an issue at the next meeting of the legislature, will depend largely upon the personnel of the state law making body, a majority of the members of which will be elected this year, and it is planned to ascertain the viewpoints of expectation that advocates of removal will support candidates in favor of the proposal.

CAPSIZED BOAT FOUND NEAR BIMINI OCCUPANTS LOST

(By The Associated Press)
MIAMI, Feb. 9.—Capsized boat believed to be that in which three men left twelve days ago for Bimini found yesterday near Ragged Key twenty-five miles from Miami. Efforts to be made today to right vessel. Nothing heard of Mamians since they left here January 28th.

Post cards at the Herald office.

LONGWOOD

Miss Annabel Allen spent the week end with her parents, Mr. and Mrs. Bill Allen.

Rev. Longnecker of Penn. was the guest of Mr. and Mrs. J. A. Bistline, while here Rev. Longnecker preached at the Baptist church.

Friends of Miss Etha Harley are glad to see her out again after a case of the grippe.

Mrs. E. D. Beagle left Tuesday for her home in Memphis N. Y. after spending several weeks with her sister Mrs. J. S. Dinkel.

Miss Ellen Fuller left Sunday night for Tallahassee after spending a couple of weeks with her parents, Mr. and Mrs. A. Y. Fuller.

Mr. John Dunbar and Miss Elise were visitors in Sanford Tuesday.

Mrs. Henry Hooker died at her home Monday night after a lingering illness of several months. Mrs. Hooker leaves a husband, two daughters, Mrs. Barnes of Orlando, Mrs. Frain of Longwood, and one son, F. H. Hooker of Orlando.

Friends of Mrs. T. G. Roebuck will be grieved to hear of her death which occurred last week in New York. Mr. and Mrs. Roebuck were called back north three weeks ago due to business conditions and were expecting to return in a few weeks.

Mr. and Mrs. Roy McCracken of Orlando were visiting Mrs. McCracken's sister Mrs. J. T. Williamson Sunday.

F. J. Neimyer returned Sunday from Penn., after spending several weeks with his mother. While away Mr. Neimyer attended a large poultry fair in New York.

Word has been received of the death of Mr. Holway which occurred Jan. 21.

ENTERPRISE

The many friends of Misses Sarah Hughes and Kate Sloc' are glad to welcome them here for the season.

Mr. and Mrs. J. L. Rain left Saturday for a few days with the Bishop family in Orange City before their return to their home in Kentucky.

Mr. L. M. Wright of Lakeland spent the week end with his family here.

Miss Viola Padgett returned home from Delray Saturday.

Mr. Scisson of Kansas City Mo., is on a visit to his daughter Mrs. Fred Murray.

Among the recent arrivals are Mr. and Mrs. G. D. Cross who are at her father's, A. DeBary.

Miss Emma Tucker left a few days ago for Albany Ga., where she will conduct a series of Bible readings.

Services will be held at the Episcopal Church Sunday at 3 p. m.

Mr. H. J. Burns is spending a few days with his parents here.

The people of Enterprise spent last evening very pleasantly at the chapel where they were entertained by some of the guests from the Inn. Dr. McQueen gave a very interesting talk after which the ladies presented a play, "How the story grew." A collection of \$25.38 was taken for the school piano.

On Thursday evening Dr. Peter McQueen will give his travelogue, "The Rebuilding of the World" illustrated by 200 colored slides at the Benson Springs chapel.

EAST SANFORD

Rev. W. L. Raucher was here Sunday from Apopka and preached at the Moores Station Church.

Miss Gladys Dietrick came home from Orlando Saturday where she has been nursing for Dr. McEwin.

Mrs. Raymond Sauner and little daughter have gone home to Fort Pierce after a visit here with her sister Mrs. J. F. McClelland and other friends here.

Joseph Palmer of New Martinsville West Virginia was a visitor at the R. C. Long home last week. Mr. Palmer is touring Florida.

Mrs. Sam Murphy was here from Dunellen calling on friends last week. Mrs. Murphy formally visited here and will be remembered as Miss Winnie Knight.

Miss Hoskins Jones was in Jacksonville on a business trip this week. Mr. and Mrs. William Ppik and Mrs. Polks mother here moved from Celery Ave., to their new bungalow on the Orlando road in the new Allotment, Gandorville.

Mr. and Mrs. Bales and Miss Alma Lohman have moved out to the new allotment on Orlando road and living in a tent while their new home is being built.

T. Kuwabara was here the first of the week to visit his sister Mrs. U. C. Lida of South Cameron Road. Mr.

Kuwabara has an office in the aviation department of the Japanese army and navy and has been in Washington, D. C. since October as a delegate from Japan for the disarming of the Japanese navy. Mr. Kuwabara is leaving San Francisco on Feb. 7th, for Japan. Enroute to California he visited the aviation station in Pensacola.

John Pezall and sons have several acres of peppers set in the field. The frost of Saturday night did not seem to damage them.

The weather man will be the cause of Florida losing the name of "The Sunshine State" unless the clouds roll by pretty soon.

A daughter was born Monday to Mr. and Mrs. Uchida at the Fernald-Laughlin hospital. The little lady has been given the name of Yurie which translated in english means Lilly.

The tract of land corner of Celery and Mellenville Ave's formally owned by Mr. Woodruff of Orlando and sold by him to a company dealing in real estate is being transformed from a cow pasture and place to display sign boards into an attractive new allotment addition to East Sanford. There is said to be 40 acres, there has been three fine, wide streets made running parallel with Mellenville Ave., south to the A. C. L. Railroad track. Large corner monuments have been placed on each corner on Celery Ave. There will be an auction of lots this month conducted by a real estate man from Newark, N. J., who is wintering in Orlando.

LAKE MONROE

The Seminole County Federation of B. Y. P. U. met Friday evening at the Lake Monroe Baptist church. A large crowd was present and a nice program rendered, consisting of songs and talks. The meeting was called to order by Miss Rines, of Sanford, President of the association, after which an invocation was offered by Mr. Esho Swaggerty. The subject of the program, "The Work of the B. Y. P. U., was ably handled under the various sub-heads by the following members:

"What B. Y. P. U. Stands For," Mrs. Bartow Mann.
"The Spiritual Need," Miss Arie Mann.
"The Intellectual" Need, Miss Violet Swaggerty.
"The Social Need," Miss Dora Oglesby.
"Be What You Are," Prof. J. T. Jacobs.

"Courage to do Your Best," Mr. C. H. McKenney.

Voluntary remarks were then made by Dr. George Hymen of Sanford and Mr. Black, President of the Tampa Federation.

After the program an enjoyable social hour was held upon the lawn when delightful sandwiches, cake and coffee were served. Mr. C. H. McKenney donated a large white cake upon which were the letters, B. Y. P. U. Every one attending had a share of this delicious cake.

Although very young the Lake Monroe association has reached an A-1 standard for the year and received many congratulations for their success.

Miss Anna B. Shimmions and Mr. Ernest Lee were quietly married at Sanford Saturday. The bride is a daughter of Robert Shimmions of Detroit, Mich., and is quite a popular young lady. The groom is a son of Henry Lee and is a prosperous young farmer. Mr. and Mrs. Lee have gone to housekeeping on First Street.

A party of young people stormed Mr. Albert Hawkins with a birthday storm party Saturday evening. Delightful refreshments were served and an enjoyable time spent.

Mrs. Millard McClaron continues a guest of her sister, Mrs. Sarah Lyons.

Mrs. Elizabeth Lenaro who has been visiting Mrs. Gegore Cain has returned to her home at Knoxville.

Mrs. R. S. Cain, of Alabama, is visiting her daughter, Mrs. Jordan.

Mrs. Wheeler Marsh, of DeLand, is visiting her mother, Mrs. Albert Hawkins.

Mr. and Mrs. Hertz and Mr. and Mrs. Dorcas are touring the West Coast of this state. Miss Lucille Dorcas is visiting Miss Catherine Lake during her mother's absence.

Little Margaret Bales is confined to her home by illness.

Tanlac is the ideal strengthener and body builder for old folks.—Union Pharmacy.—Adv.

FOR SALE—One horse, one fresh cow and ten swarms of bees. A. L. Potter, Sanford, Fla. 25-1tp

FOR SALE—SELECTED CORN ON THE EAR. NO WEEVILS.—C. M. STOWE, CAMERON AVE. 252tc

OVIEDO

Mr. and Mrs. J. B. Swope, of Wichita, Kans., with Mr. and Mrs. O. P. Swope and baby Oliver, left Tuesday for a motoring trip to Miami and other East Coast points of interest.

C. E. Miller, of Jacksonville, assistant general freight agent of the Seaboard Air Line railway and T. L. Houthwell, commercial agent for the same road, were business visitors to Oviedo Tuesday.

Col. W. M. Bleckley, of Cochran, Ga., is the guest of W. J. Varn and family.

The entertainment given by the Thompsons at the school house Friday night was greatly enjoyed by those present. Owing to the inclemency of the weather there was not as large a crowd out as was expected but those who faced the weather, felt well repaid.

On Friday afternoon, January 27, the members of the Woman's Club, of Oviedo, had the pleasure of having with them Mrs. Johnson of Leesburg, sectional vice-president, and Mrs. Galloway, of Sanford, vice-president-at-large of the Florida Federation of Women's Clubs. These two most charming women not only entertained the Oviedo club with their excellent speeches but gave to them many thoughts to carry home with them. The only other numbers on the program were a vocal solo by Mrs. C. S. Lee and a piano solo by Mrs. T. W. Lawton, both of which were beautifully rendered. The club house was attractively decorated in asparagus ferns, violets and yellow jasmine under the skillful management of Mesdames W. P. Carter, R. L. Murphy, and O. G. Wolcott. At the close of the program strawberries with whipped cream and sunshine cake were served by the hostesses Mesdames B. Slay, C. L. West, J. N. Thompson and B. G. Smith.

Dr. Mason, of Sanford, has opened a dental office just back of the post-office and expects to be permanently located in Oviedo.

W. B. Englett visited Daytona Monday to attend the auto races.

The home of H. G. Smith on Graham avenue is nearing completion and adds greatly to the looks of the street. The house is not only beautiful in appearance but is conveniently and comfortably arranged and the friends of Mr. and Mrs. Smith rejoice with them in the possession of such a nice, comfortable home and hope they will be able to move in within the next ten days.

Mrs. T. W. Lawton's Sunday school class will have a box supper at the Club House Friday night for the purpose of raising money for the completion of the tennis court. The fence around the court is being put up this week and the young people hope to be able to use the court within a short while.

Edward McCall and Frank McLain of Stetson University spent the week end with Mr. and Mrs. H. B. McCall.

Mrs. L. A. Joyner and Miss Jennie Malcolm of Jacksonville, are the guests of their sister, Mrs. L. H. Gore.

GENEVA

Mr. and Mrs. Oscar Nicholson, of Daytona Beach, spent the week end here with relatives.

Mr. and Mrs. H. H. Pattishall were shopping in Sanford Saturday.

Quite a crowd from here attended "A Night in Honolulu" at Sanford last Friday night.

Mr. Allman and J. J. Nicholson, of Osteen, were here Sunday on business.

Mr. and Mrs. Charles Phillips were in Orlando Saturday shopping.

Mr. and Mrs. T. W. Prevatt and Mrs. McFarlane called on Mrs. Georgina Slips Sunday.

Mrs. Eudor Curlett and Mrs. Adams were shopping in Sanford Saturday.

Mrs. Sheldon, of Oviedo, is spending a few days here.

Mrs. Fred Balard, of Lake Harney, spent Monday night with her mother Mrs. George Gieger.

Mr. and Mrs. Edward of New Jersey are spending the winter here occupying Henry Levy's residence.

The Community Club held its monthly meeting at the Hall Monday afternoon. A large number of members and visitors were in attendance and the meeting was voted the most interesting of the regular business was transacted with an interesting report of the T. I. W. C. convention which was held at Winter Park was given by Mrs. H. H. Pattishall and Mrs. P. N. Wakefield who attended the convention. At the close of the meeting dainty refreshments were served by officers of the club.

UPSALA AND GRAPEVILLE

Mr. and Mrs. G. Hrechl and children were guests of Mr. and Mrs. Alfred Ericson for a nice auto ride after service Sunday, to Sorrento and back.

Mr. and Mrs. August Swanson and son Archib and Mr. and Mrs. E. F. Lundquist and children after Sunday school in town enjoyed a picnic lunch with Happy Jack Caves and wife at their tent.

We understand one of the young Mrs. Bridgemans is very ill. Dr. Pulleston having been called out a number of times. Mrs. Hirschi called in to see her on Monday.

Joe Nerose and wife are building on an addition to one of their tenant houses. Last week they ground cane and made themselves some Florida syrup. We are sorry to learn Mrs. Nerose is still feeling poorly.

Forest West has been doing a little fencing of late for Geo. Ballinger, Chas. Cramer and Volle Williams.

Mr. and Mrs. Cramer and Mr. West attended service in Orlando last Saturday and on Sunday after the service they treated Mr. and Mrs. West and Leonard to a visit with friends on Celery avenue.

Mr. and Mrs. Fred Krell and children from Windmore came up Sunday and spent the day at the home of her parents, Mr. and Mrs. T. O. Tynor in honor of the birthday of her sister, Miss Eunice Tynor.

Mr. and Mrs. W. Tynor and baby and Mrs. Brown, of Sanford, Walford Pierson and Mrs. Ballinger were also callers there in remembrance of the day, enjoying some of the birthday cake and coffee.

Bible study night has been changed to Tuesday so that those who work and had other meetings on Wednesday may be able to attend. At our last meeting we had a half hour of singing and prayer before Mr. Clark introduced the lesson to give the late comers a chance to get there. We all enjoyed the service but had had luck getting home although Brother West came back and helped us with the tire trouble.

"Happy Jack" Caves and wife entertained quite a crowd on Thursday night at their tent having a big bon fire and a table and seats near his camp and he gave us one of his interesting talks, telling how he began life for himself at eight years of age on board a sailing vessel, later serving on three boats in Uncle Sam's navy and beginning his pedestrian life in an appeal to the young men to join the navy, although he has since given that up and is now on an endurance test for John Hopkins' University. Since being taken off for a two months rest for being underweight his route has been changed but he has still a thousand miles to travel before June 1st. He says he has used up twelve dogs on this trip but he is expecting Eunice a big Dane, who began the trip with him to arrive soon in hopes of finishing it with her. When it began to raise Mr. and Mrs. Elmer Lundquist asked us all into their house where Happy Jack made some coffee and served us with sandwiches with the ladies help. Over thirty-five out and all had a good time.

Upsala is asked to join with Paola for a union Sunday school institute to be conducted by Rev. G. V. Albertson and Rev. J. S. Clark on the 5th. Rev. Albertson will have charge of the school at 10:00 and Rev. Clark will give us a message at 11 then comes a basket or picnic lunch on the church grounds and Mrs. Albertson will speak for us and a friend of theirs as well as our own Mrs. Ericson. This will give us all a double service. We have a nice little school at present and there is always room for improvement so let's go and learn all we can. All interested in the work in this and other places and in hearing a good sermon, come out and spend the day. You surely will enjoy it. We hope those who have cars will see there is a way for all to get there.

Motion of E. Curlett, seconded by O. P. Swope and carried, Mr. D. E. Hart, is hereby appointed ferryman for the Geneva-Titusville ferry, his service to begin when the ferry is completed, and his appointment to be approved by the Board of County Commissioners of Volusia County, Fla. Fire arm bonds of W. T. Taylor, Ernest G. Dann, L. B. Hollag, W. C. DeCoursey, D. C. Howard and T. H. Buchanan were approved and license ordered issued.

COUNTY COMMISSIONERS PROCEEDINGS FOR JANUARY

(Continued from Page One)
S. F. Doudney, approved by Comr. E. Curlett, for the sum of \$37.50, is hereby rejected, because it is not public business and was contracted without the knowledge and consent of this board.

Motion of E. Curlett, seconded by O. P. Swope and carried, Mr. D. E. Hart, is hereby appointed ferryman for the Geneva-Titusville ferry, his service to begin when the ferry is completed, and his appointment to be approved by the Board of County Commissioners of Volusia County, Fla. Fire arm bonds of W. T. Taylor, Ernest G. Dann, L. B. Hollag, W. C. DeCoursey, D. C. Howard and T. H. Buchanan were approved and license ordered issued.

Motion of C. W. Entzminger, seconded by O. P. Swope and carried, Comr. L. P. Hagan is hereby instructed to investigate the condition of Burrell Jones, with power to act.

G. M. Jacobs addressed the board in reference to road work near Chuluota. On motion of L. P. Hagan, seconded by C. W. Entzminger and carried, Mr. Jacobs is authorized to have 1 1/4 miles of road strowed, and also to have certain bridges repaired.

Motion of L. P. Hagan, seconded by O. P. Swope and carried, E. H. Kilbgo is authorized to repair the Geneva-Titusville road, cost not to exceed \$295.00.

Motion of O. P. Swope, seconded by E. Curlett and carried, this board accepts the proposition of A. D. Zachary to furnish one-half of the lumber for the Geneva bridge, runways to be 30 inches wide and 2 inches thick, cost of same not to exceed \$25 per M.

Comr. E. Curlett offered the following resolution, and moved its adoption same was duly seconded by Comr. C. W. Entzminger and adopted.

Whereas it has been made known to this board that H. H. Pattishall has closed from public travel that certain road in the vicinity of Geneva, known as the Geneva cemetery road.

Therefore, Be It Resolved that the said H. H. Pattishall, be and he hereby is ordered and required to desist from further obstructing said road, and he is hereby ordered to forthwith open said road to public travel.

Comr. L. P. Hagan offered the following resolution, and moved its adoption, same was duly seconded by Comr. O. P. Swope, and adopted.

Whereas, from time to time certain complaints have been made to this board with reference to the enforcement of the game and fish laws of this state, and,

Whereas, under the existing law the sheriffs of the various counties of the state are charged with the responsibility of the proper enforcement of the game and fish laws, and the county commissioners have no duties to perform in this connection.

Therefore, Be It Resolved, that the sheriff of this county, be and he is hereby directed to use his best efforts and endeavor to see that the game and fish laws of this state are properly and rigidly enforced.

Comr. C. W. Entzminger offered the following resolution, and moved its adoption, same was duly seconded by Comr. L. P. Hagan and adopted.

WHEREAS, it is of vital importance to the interests and welfare of the people of the county of Seminole to have as their representative in the legislature of the state of Florida, a man closely identified with the business interests and the people of this county, and thoroughly familiar with their needs and desires, and,

WHEREAS, Honorable Frank P. Forster well and faithfully served the people of this county as their representative in the past session of the

legislature of the State of Florida, and,

WHEREAS, we have always found the Honorable Frank P. Forster to be a patriotic and progressive citizen, and at all times willing at a personal sacrifice to perform any necessary public duty, and,

WHEREAS, in the Democratic primary for the year 1922 it will be necessary to nominate a representative of the county of Seminole for the legislature of the State of Florida,

THEREFORE, BE IT RESOLVED, that it is the sense of this board that the Honorable Frank P. Forster of Sanford, Florida, should be returned to the legislature as the representative of Seminole County in that body, and,

IT IS FURTHER RESOLVED, that the said Honorable Frank P. Forster be, and he is hereby earnestly petitioned, urged and requested to be a candidate in the coming Democratic primary for the office of representative from Seminole County, in the legislature of the State of Florida, and,

BE IT FURTHER RESOLVED, that a copy of this resolution be furnished to the press, and that the clerk of this board is hereby directed to deliver a certified copy of this resolution unto Honorable Frank P. Forster.

The natural, refreshing sleep of a healthy body is enjoyed by those who take Tanlac.—Union Pharmacy.—Adv.

S. W. BRADFORD CHANGES HIS POSITION TODAY—IS NOW WITH CHURCHWELLS

The first of the month has brought one change in the personal of store life. Sam W. Bradford, who has been with the Sanford Shoe & Clothing Co., so many years that he was looked upon as a fixture left that firm to go with the Churchwell Company and took up his new duties today. Mr. Bradford is probably one of the most popular clothing men in the city and numbers his friends by his acquaintances. He recently won the prize for being one of the men in Sanford who always had a pleasant word and a smile all the time and he is certainly a popular young business man. Mr. Bradford will have charge of the men's furnishings with the Churchwell Company and will be glad to see all of his old friends at his new place of business.

NEW PUMPING ENGINE WAS TESTED OUT YESTERDAY ---MET ALL REQUIREMENTS

LaFrance Pump and Hose Cart Recently Purchased by City

GOOD INVESTMENT

MEANS THAT CITY CAN GET WATER AT ANY TIME EITHER BY PLUG OR FROM LAKE

The New LaFrance pump and hose wagon recently purchased by the city will prove a good investment from many angles. It was tested out yesterday on the lake front and also on Sanford Heights and proved to be all that was claimed for it by the manufacturers. The following is the official test:
The following was requirements of Pumper according to Contract:
120 lb. pressure, 750 gallons water per minute.
200 lb. pressure, 375 gallons water per minute.
250 lb. pressure, 250 gallons water per minute.

Capacity named above to be delivered at a normal lift not to exceed ten feet.

Computation of capacity is founded upon Barometric pressure at sea level.

The following is actual test of performance of pumper as demonstrated to the Commissioners:

Pumper was placed on the bulkhead near the Clyde Line Dock having a lift of ten feet.

First test was for capacity used three lines of hose, two lines of which were 100 feet each, and one line of 150 feet.

One 100 ft. line having a nozzle of 1 1/8 inches.

Other 100 ft. line having a nozzle of 1 inch.

Other 150 ft. line having a nozzle of 1 inch.

From this test the pump delivered 783 gallons of water per minute, at a pump pressure of 128 lbs.

A second reading for capacity was taken on the same line of hose with the same nozzle, the pump giving a volume of 845 gallons with a pressure of 124 lbs.

High pressure rating 200 lbs, 375 gallons, pump pressure 210 lbs, volume of water 397 gallons per minute. One line of hose 250 ft. using 1 1/8 inch nozzle.

High pressure rating 250 lbs., 250 gallons water per minute, 255 lbs. pressure, volume of water 310 gallons. One line of hose 250 ft. using 1 inch nozzle.

Test on Sanford Heights: Hydrant located on corner of Central St. and Magnolia Ave., which is the end of 4 inch main extending from Eleventh St.

Pump pressure 70 lbs., nozzle pressure 60 lbs., delivering 229 gallons of water per minute.

A thing that a woman is sure to find—a new hat on the head is worth two on the mind.

CARDUI HELPED REGAIN STRENGTH

Alabama Lady Was Sick For Three Years, Suffering Pain, Nervous and Depressed—Read Her Own Story of Recovery.

Paint Rock, Ala.—Mrs. C. M. Stegall of near here, recently related the following interesting account of her recovery: "I was in a weakened condition. I was sick three years in bed, suffering a great deal of pain, weak, nervous, depressed. I was so weak I couldn't walk across the floor; just had to lay and my little ones do the work. I was almost dead. I tried every thing I heard of, and a number of doctors. Still I didn't get any relief. I couldn't eat, and sleep poorly. I believe if I hadn't heard of and taken Cardui I would have died. I bought six bottles, after a neighbor told me what it did for her.
"I began to eat and sleep, began to gain my strength and am now well and strong. I haven't had any trouble since... I am sure can testify to the good that Cardui did me. I don't think there is a better tonic made and I believe it saved my life."
For over 40 years, thousands of women have used Cardui successfully in the treatment of many women's ailments.
If you suffer as these women did take Cardui. It may help you, too.

SANDS CHARGED WITH MURDER OF MOVIE DIRECTOR

FORMER BUTLER TO TAYLOR THOUGHT TO KNOW SOMETHING OF KILLING.

(By The Associated Press) LOS ANGELES, Feb. 7.—Police today announced no warrant had been issued against Sands.

LOS ANGELES, Feb. 7.—A telegraphic warrant charging Edward Sands, former butler to Williams Desmond Taylor, with Taylor's murder was issued by the police last night and wired to authorities at Carlin, Nevada, according to information received by the Los Angeles Examiner this morning.

STATE SCHOOL MONEY APPORTIONED TO COUNTIES AND AMOUNT TO EACH

(By The Associated Press) TALLAHASSEE, Feb. 7.—W. N. Sheata, State Superintendent of Public Instruction, has announced that the amount of money for the apportionment to schools of the state is \$90,694.01, and based on fifty-five cents a pupil \$93,137.55 of this amount has been apportioned. The fund is derived from interest on the state school fund.

The apportionment by counties follows:

Alachua	\$3,954.50
Baker	643.40
Bay	1,126.40
Bradford	916.85
Brevard	884.95
Broward	549.45
Calhoun	906.95
Charlotte	286.00
Citrus	606.00
Clay	501.05
Columbia	1,839.20
Dade	2,705.00
Desoto	744.15
Dixie	158.05
Duval	8,463.40
Escambia	4,069.45
Flagler	188.10
Franklin	404.25
Gadsden	2,355.10
Glades	182.60
Hamilton	1,087.35
Hardee	1,158.85
Hernando	504.90
Highlands	407.00
Hillsborough	7,970.60
Holmes	1,467.95
Jackson	2,869.00
Jefferson	794.75
Lafayette	579.15
Lake	1,137.60
Lee	1,004.30
Leon	1,763.30
Levy	1,093.40
Liberty	469.90
Madison	1,734.70
Manatee	1,476.20
Marion	2,929.30
Monroe	1,041.15
Nassau	649.55

SOLDIERS BONUS WOULD COST 2 1/2 BILLIONS

ON BASIS OF ESTIMATES PREPARED FOR HOUSE WAYS AND MEANS

(By The Associated Press) WASHINGTON, Feb. 7.—Soldiers' bonus would cost the government approximately two and one-half billion dollars on the basis of estimates prepared for the House Ways and Means Committee by the fiscal officers of the army, navy and marine corps.

POSSIBILITIES OF THE SOUTH INADEQUATELY ADVERTISED

The statement published elsewhere in this issue quoting from Mr. J. E. Ingraham, Vice President of the Florida East Coast Railroad, as expressing his surprise that the Federal Government whether under Democratic or Republican control, has never seemed to appreciate the advantages of Florida and therefore has never taken an active part in reclamation work or in kindred activities which would have enormously developed that State for the good of the entire country, prompts the suggestion that with the exception of the East Coast Railroad the railroads of Florida have never adequately appreciated Florida. If they have done so, they would have spent ten times as much money on making known the advantages of Florida as they have done.

If Canadian railroads or California roads had had tributary to their lines a State such as Florida, with its limitless possibilities as health and pleasure resort, and as a State of vast potentialities for the creation of wealth, for the production of foodstuffs; and for industries of many kinds, they would have spent annually ten times as much money upon publicity work as the railroads entering Florida have ever spent upon making known the resources of that State.

We think that one of the reasons, perchance, that the National Government never paid much attention to Florida's development is that the railroads have never adequately made known Florida's resources. These railroads, which haul out of the State 50,000 carloads or more, of fruits and foodstuffs annually, paying an enormous rate of freight, and which are taxed sometimes to their full facilities for carrying health and pleasure seekers into the State in the winter, and out of the State in the spring, could have doubled and trebled their passenger travel and their freight business by an adequate publicity campaign in behalf of Florida.

Florida is unique among the states of the Union. It is largely populated by Southern born people. There are many from other sections living in Florida, but the large bulk of its population is of people born in the State or born in other Southern States. It has for nearly half a century commanded the attention of men like Sanford, and Plant, and Flagler, and other men of great wealth, who in early days laid the foundation for the prosperity which it now enjoys. But since Plant passed away many years ago his railroad interests went into other hands, they have never adequately joined in the development of the State or in its publicity work.

The Seaboard Air Line has done some good work, worthy of all commendations, as have all the roads. But none of them has spent one-tenth as much upon making known the resources and advantages of Florida as they should have done. Here they have a gold mine indeed; a mine worth more than any gold mine on earth. It is a mine of vast resources from which they can dig freight without end, a gold mine of passenger travel which can be increased in its wealth-making work to an unlimited extent. They have not worked the passenger travel business as a gold mine, nor the resources in soil and climate, as a gold mine, to one-tenth the extent they should have done. A James J. Hill, with his empire building vision, or a Harriman with perhaps an even broader vision than Hill, has been needed for Florida's development. Flagler matched either of them in his vision, in his creative power and in the achievements made for Florida; and the traffic which his road is carrying, and the amazing development along a great stretch of territory which before a great stretch of territory which before his day was almost an unexplored wilderness, its testimony to his achievements. But even his road could today do many things which it is not doing.

We are not unmindful of the financial needs of railroads, but even at the time when the railroads were earning money most of them had throughout Florida stations which were a disgrace even for the sanitary point of view. These roads bring into the State hundreds of thousands of tourists, and at most places they dump them out into the mud if it should happen to be raining, or into stations unfit from every point of view for tourist travel; or, indeed, for any other kind of travel.

It is time for the Florida railroads to wake up; time for them to do a broader work than they have ever done except in the days when Flagler and Plant and Sanford were laying a deep, broad foundation for the work which their successors should be carrying out on a scale as much greater than were able to carry out, as are the wealth and population of America greater than they were in Flagler's day. Indeed though controlling the transportation of an empire in extent, with

greater resources for development work on the face of the earth, the railroads of the whole South have been niggardly, beggarly, penurious and nonprogressive in their publicity and development work as compared with the imperial possibilities of this region.

We do not blame the officials of these roads, but we put the blame where we believe it belongs, upon the owners of the roads because they should have said to the officials, "push out to a development of the South to the limit and will back you financially in the work."

With an aggregate of about 91,000 miles of roads, Southern railroads dominating a section so limitless endowed by nature a section rich beyond the power of words to express in potentialities for the creation of freight and travel and prosperity, annually engaged in the aggregate for publicity work in behalf of the South less money than any one of a dozen or more private business concerns, patent medicine manufacturers, or other individual interests, spent in making their products known. Think of it for a moment. That these individual concerns, each having only one product to advertise, spend money annually in publicity work than all the railroads of the vast area from Maryland to Texas, rich beyond compare in resources, richer in potentialities than any other equal area in the world, spend in the development of the wealth which lies unutilized, undeveloped, and as a New York financier once said with "billions of wealth beneath our feet" not availed of.

Would that these railroads, or the owners of them, had the vision and the power to portray before the world the wealth of Southern opportunities which is possessed by dozens of individual advertisers who make somebody's crackers, or somebody's cigarettes, or somebody's patent medicines, the reason for spending more money in advertising than all the railroads of the South spent for advertising a region having nearly one-third of the total area of the United States, one-third of its population, and far, far more than one-third of its natural resources, all awaiting the touch of increased capital and increased population to become the greatest wealth-creating center of the world.—Manufacturers Record.

NEW CONFERENCE TO BE CONVENED 8 YEARS HENCE

LATE PARLEY LEFT COMMISSIONS TO CARRY ON THE WORK

(By The Associated Press) WASHINGTON, Feb. 7.—When the Washington conference went out of existence yesterday it left a dozen legacies in the form of commissions and other international bodies which again will bring the representatives of the powers together to discuss world problems.

Besides many general agreements to "consult" among themselves when troublesome questions arise, the governments represented here authorized specifically, among other things, a five-power conference eight years hence to again discuss naval armament, a five-power commission to revise the rules of warfare, a "special conference" and a separate "revision commission" to regulate the Chinese tariff, a "board of reference" to consider economic and railway questions in the Far East, and an international commission to inquire into extra territorial rights in China.

GOVERNOR OF MISSISSIPPI CHARGED WITH SEDUCTION, DAMAGE SUIT IS FILED

Said to Have Seduced Former Employee In His Office

JACKSON, Miss., Feb. 6.—(By The Associated Press)—\$100,000 damage suit charging Governor Lee M. Russell, of Mississippi, with seducing Miss Frances C. Birkhead, a former employee in his office, was filed against Russell today in the United States court here. The plaintiff, now a resident of New Orleans, in a bill of particulars, declared her reputation, character and health were ruined as a result of the governor's alleged misconduct.

"I have frequently heard of the scheme to bring a suit of this character against me," Russell declared to a representative of the New Orleans Item last week when asked about the report that a damage suit charging seduction was to be brought against him. "Charges in that connection are damnable lies and an attempt by my enemies to blacken by character" the Governor continued. Since filing the suit today no statement was made by Governor Russell.

NEW ORLEANS, Feb. 6.—Miss Birkhead charged Governor Russell with seduction under promise of marriage according to the bill of particulars filed in the damage suit, says special dispatch received by New Orleans Item from staff representative in Jackson.

the secretarial-general of the expiring conference, and it is the expectation of officials that the secretarial-general's office will wind up these tasks and finally close its doors in the very near future. It has merely to compile and have printed the corrected minutes of the plenary sessions and committee meetings, and to act as a clearing house through which the various nations will inform each other fully as to their existing commitments affecting China. This information is to be filed with the secretary-general for transmission to all conference members "at the earliest convenience" and similar commitments entered into in future are to be dealt with by direct communication between the various foreign offices.

SCHOOL LUNCHEES HAVE BEEN SUCCESS, INTERESTING REPORT

At a meeting of the Woman's Club on Wednesday afternoon, a report of the School Lunch for the first semester was given. The treasurer's books had been submitted to Superintendent Lawton for auditing and his report follows:

After thoroughly auditing of the accounts of the School Lunch Room, as kept and submitted by Mrs. E. P. Morse, I wish to advise that I find them correct and complete, all receipts and disbursements properly entered and the balance on hand in agreement with the balance shown by the statement of the Seminole County Bank, said bank being the depository for the funds of this account. It seems to me unnecessary here to make a report in detail of the items of expenditure, as the ledger showing all receipts and disbursements may be submitted to you along with this report. Great credit is due the management for the following excellent record: (This record does not purport to show funds received and disbursed for the initial construction and equipment of the building, but exclusively funds used for current expenses in the operation of the institution).

Receipts from sale of meals \$1,751.44 Receipts from donation by the Mother's Club 10.00 Total receipts to date \$1,761.44 Disbursements Groceries and help \$1,430.02 Actual profit in current operation 322.42 \$1,761.44 This profit of \$322.42 is accounted for as follows: Expended for painting and extra equipment \$238.71 Balance in bank 83.71 \$322.42

The stock of groceries now on hand is inventoried at about \$40, which is, however, practically off-set by outstanding, unpunched meal tickets.

Free lunches have been given to deserving children during the sixty-six days of operation to the amount of \$2.40. If this sum be added to the profits as indicated above, the total profits would amount to \$114.82.

The above report, in my opinion, reflects great credit on the excellent management of this institution by the ladies promoting and operating it, and on behalf of the school officials of the Sanford schools, I wish to express our sincere appreciation of the time, thought and exertions of the Welfare Department of the Sanford Woman's Club for making possible this most valuable addition to the educational system of our city.

With best wishes for your continued success, and thanking you for your generous co-operation at all times in everything pertaining to the advancement and upbuilding of our schools, I am,

Very respectfully yours, T. W. LAWTON, Supt. Public Instruction.

In presenting this report, Mrs. W. F. Blackman, chairman of education in the Woman's Club, said she regretted the large profit shown, since that amount ought to have gone for milk or cocoa for the children. Unfortunately only a limited quantity of milk can be obtained for the lunches, either in Sanford or in towns within a safe shipping distance; and although the cooking equipment of the kitchen is ample for all requirements the quality the gas provided is so poor, it is impossible to use the full equipment at any one time. When the large baker is being used, the gas pipes are practically out of commission. Thus between 275 and 300 children are almost daily being deprived of a nourishing hot drink with their lunch. The management may have to substitute oil stoves for the gas plates.

It will be observed that this report does not include the \$1,700.00 raised for erecting the lunch pavilion and the initial equipment.

Although many women have given time and thought to this enterprise, Mrs. Blackman spoke in unqualified appreciation and praise of the two women to whom the greatest credit was due for the success of the school lunch. Miss Virginia Smith, as supervisor, has given herself unreservedly to the work in hand, with a devotion to the welfare of the children and a keen recognition of the importance of details that are beyond price. Mrs. E. P. Morse, as treasurer and purchaser of supplies has also given of her time and talents without reservation. She has met with fine co-operation with the merchants of the city, who have, by their special prices for lunch supplies, done much to make the good financial showing possible.

MUNICIPAL OWNERSHIP

Under This Head, Articles Pro and Con Regarding Municipal Ownership Will Be Published in the Herald.

Jacksonville, Fla., Jan. 30, 1922. Mr. R. J. Holly, Sanford, Fla.

Dear Friend:

Confirming my statement to you, while in your office last October "that the net financial results for the year 1920 to the city of Jacksonville from the municipal owned water works and electric light plants was three quarters of a million dollars," I note your article taking cognizance of the electric light plants report for the year 1921, of one-half million dollars surplus; I stated to you then, and am still, an ardent advocate and firm believer in cities owning their own utilities plants, under a commission and city manager (not aldermanic) form of government. Consumers are entitled to and should be provided with necessities for health, comfort and protection at the least possible expense, without profit to a city or company, except it be to provide for a slurred and to pay in a stated limited time, the bonded indebtedness incurred to purchase the utilities. I note you have overlooked the fact that we (consumers) in Jacksonville, pay only 7c per k. w. for electricity; charges for water as near Nil as for electricity. Gas provided by a private corporation is \$1.85 per thousand. I sincerely wish the city owned and operated the gas works and we would, I am sure, get gas for at least \$1.00 per thousand, and yet with the low rate for electricity and not results, no one can refute the fact that Jacksonville is as well provided with public lighting as any city in the country; extravagantly so. Note Henning Park, as light at night, almost as noon-day, so also with all other parks, Springfield, Confederate and Riverside. In conversation with one of your commissioners coming from Sanford to Jacksonville on the train, several weeks ago, he said your citizens would not vote for bonding the city to purchase the utilities. I answered his argument: Why bond the city, bond the utilities. Why not the prosperous Sanford banks do the preliminary financing, when the utility bonds are sold refund their advances.

It is my interest in Sanford and vicinity that I desire to see the city benefited through the profits from the utilities, and twenty, possibly fifteen years will see your city economically administered, owning outright, without any indebtedness, gas, water and electric plants, provided no graft, no high salaries, no extravagant city commission expense be allowed to gas, electric or water commissioners.

One other matter I spoke to you about. I may be a dreamer, an idealist, or a nut, may have hallucinations or night-mare, but nevertheless I cannot get away from the idea, that at your back door you have a nature given source for motor power, a swift running, high embankment, never ending source of water supply stream, which, I believe, if harnessed, would give sufficient power to run turbines that not only Sanford, but Seminole, Orange and Lake counties their highways, trolleys (when inaugurated soon to be) business and private consumers could be abundantly provided at a minimum cost, with electric needs. I refer to what we always thought was a joke on nature, Econocklateche creek, at or near its source, but mark my word, she will some day be the power that will make the Garden of Eden (Old Orange county) blossom as the rose.

With a heart's desire to know of every man, woman and child jointly, cohesively, concretely, concentratedly (lyely), shoulder to shoulder working harmoniously (not defaming any citizen or knocking Sanford in any way) for Sanford's welfare, and 25,000 population in 1930.

With all well wishes to you, as I still consider you the greatest Sanford booster.

Your friend, J. K. M.

The Weekly Sun, of DeLand, is among the new papers in the state and will bear the name of C. A. Allison as manager. The first issue has not come to us as yet and we await the same.

SANFORD'S PRE-COOLING PLANT IS ASSUMING PROPORTIONS

Ice Plant is Being Installed and Will Soon Be Ready

GROWERS CHANCE

TO DEMONSTRATE THE WONDERFUL POSSIBILITIES OF PRE-COOLING, ETC.

The Herald some time ago printed the story about the pre-cooling plant that was to be erected on Beardall avenue by the Farmer's Exchange of this city. Since that time the building has been erected and while the ice plant is now in course of erection a small army of men and women are in the building busy washing and packing celery today and shipping in refrigerator cars until their own plant will be ready to make ice and store the product of the Sanford section.

The building is erected on a ten-acre section on the tracks of the S. & E. branch of the A. C. L. Ry. and on Beardall avenue giving good facilities for loading and shipping. The ice plant is being installed and when finished will have a capacity of thirty-five tons with a storage capacity of from four to five cars of vegetables thus giving storage and pre-cooling to vegetables until cars are available. The celery is put in field crates and brought to the plant where it is washed and packed all under the careful supervision of C. M. Berry, who has made pre-cooling and packing a study and who is one of the first men in this section to advocate a plant of this kind. By this method a guaranteed pack of the finest quality is assured and the celery now being put up in the new plant looks good to the eye and has that clean appearance that brings the better prices in the markets of the north.

Even the culls that were formerly left in the fields are now being used and are put up in double crates and made ready for the hotel tables and bring a good price, a new market having been established for the product that was thrown away in the past. The mammoth plant is a regular bee hive of industry and already shows signs of the great revolution that is taking place in the packing and shipping of celery. The pre-cooled pack as put up by the Farmer's Exchange can be guaranteed to arrive in the market in good condition. The pre-cooling plant is being erected under the direction of J. W. Andrews, formerly with the Department of Agriculture who has made a life study of this phase of the work and who has been in Florida many years with the Citrus Exchange.

The Farmer's Exchange can be congratulated upon the realization of their dreams made possible by the assistance of the Citrus Exchange and this fine plant will be available to the growers of the Sanford section who are members of the Farmers' Exchange and will work wonders in the packing and shipping of Sanford vegetables.

The plant will soon be ready for the making of ice and the work will then start in earnest for all their own ice will be made right in the plant and conveyors will take the products from the washers to the packers and many other innovations for the quick handling of the products will be in operation.

It is a step forward in the right direction and when the plant is ready to operate in all its complete form the Herald will give the readers a complete history of it with cuts showing the operation of the plant in all its branches for it means much to this entire section.

Sanford needs more advertising and this spring and summer is the time to do it. The Chamber of Commerce should receive the support of every citizen of Sanford. It has worked wonders for this city during the past year or more and it is up to you to keep it going strong. The Chamber of Commerce is putting on a strong advertising campaign for the ensuing year and it will bring results in thousands of new people.

ALICE CORNER BROWN

Daughter of Edwin and Bellinda Corner, born in McConnellsville, Ohio, September 28, 1839, died in Orlando, Florida, January 9, 1922.

On June 26 1862, she married Louis W. Brown, of Athens, Ohio, and spent all her married life with him in his native town. Her husband died in 1873 and in 1877 she moved with her family of six children to Orange County, Florida. In the summer of 1880 she went to Columbus, Ohio, to take up her residence there and give her children better educational advantages than could at that time be had in the south. After seven years spent in Columbus she returned to Florida, which she still considered her home, but divided her time between that state and Columbus, making frequent trips back and forth. She spent her last seven years in Orlando, making her home with a married daughter.

Of her six children five survive: E. Corner Brown, of Pittsburg, Pa.; Alice L., wife of Chester W. Goodrich, of Orlando, Fla.; Harriet G. Brown, of Waterbury, Conn.; Paul G. L. Brown, of Bradford, Ohio, and Ruth, wife of Eston R. Whitner, of Tampa, Fla. A daughter Rose, twin to Ruth, died in early childhood.

Few women have lived as abundant a life as Alice Corner Brown. As a wife and mother she met every requirement and from the time her twin babies were eight weeks old she was father to her children as well as mother.

To rear a family wisely is counted a life task well accomplished; but Mrs. Brown's broad intellect and great heart reached out beyond her family circle and sought contact with the life of her time in beneficent activity.

She was a student, talented in music, cultured in literature, active in church, educational and philanthropic movements. In the early years of her married life she put her three children in competent care and spent eight months of strenuous study at the Boston Conservatory of Music. On her return home she shared generously of the knowledge she had acquired by giving instruction in music, and encouraged and developed the musical taste of the community by organizing a music club and assisting to present excellent concerts. At that time she ranked among the best musicians of Southeastern Ohio.

If there was any one thing in which she excelled in, which she went further in devotion and interest, it was in the study of the Bible. Wherever she made her home she found a Sunday school class to teach. In Columbus she had a large class of men in the First Congregational church, and it was said of her by her pastor, Dr. Hutchinson, that as a student of the Bible he knew of none to equal her.

She began writing for publication with William Dean Howells, in the days he was connected with the Ohio State Journal. In the early 70's, while living in Athens, she edited the Athens Messenger for a time, during the absence of the editor. She has been a frequent contributor to the columns of the Columbus Dispatch with book reviews and articles on the literature and art of the day, and in recent years she has written for the Kit Kat Magazine.

She was a leader in educational and benevolent movements; interested herself in many social betterment enterprises, and was largely responsible for the founding of the Woman's Educational and Industrial Union of Columbus, an institution which has made great growth and has been a powerful factor for good in that city.

The cause of temperance was close to her heart. She was one of the band of devoted women who in the early 70's, as Crusaders, made valiant war on the forces of alcohol, and as an ardent worker in the W. C. T. U. she gave freely of her ability and energy to the cause of temperance by writing, and by speaking from the platform.

Her life touched other lives at many points and always in such a way as to inspire to highest things. Her years have been rich in the affection bestowed by many friends and by the love of her children, whose sorrow for her loss is made radiant by their just pride that they can call this rare woman, "Mother."—Athens Ohio News.

Mrs. Brown belonged in Sanford. Her home on Golden Lake, and later at Fort Reed with her daughter, Mrs. Chester Goodrich. The hospitality and genial welcome, which was offered to her many friends, fixes her memory, affectionately in their minds, for all time, as "ours."

Her influence was far-reaching in every branch of service for the betterment of our city and its people. She had ideals, reaching toward the best in literature and music. As president for many years of the Wednesday Club, she was an inspira-

tion to many. Her ideals became theirs and few there were who were who were not encouraged by her intencness as a laborer, and the little nod and word of appreciation that often followed.

K. OF C. CARNIVAL FEBRUARY 21, 22, 23

All the arrangements have been completed for the annual mid-winter carnival and festival of the local Council, Knights of Columbus, and this year it promises to be bigger and better than ever. They have gone to a large expense to make this production if not the very best, at least one of the best ever staged in Sanford, and from the advance dope given to a representative of the Herald it is going to be an affair long to be remembered.

This carnival takes place Tuesday, Wednesday and Thursday, February 21st, 22nd and 23rd, on the vacant lot on First street, next to the postoffice.

One of the main features of this carnival will be a two act musical comedy called "The Boozy Cruisers" with Robert Herndon in the leading roll. Bob is the best character comedian in Sanford and will be supported in this play by an able cast consisting of such men as Clarence Mahoney, Tom Egan, Sid Rive, Reg Holly, Peter Schual, Tom Merolth, Byron Stevens and many others. This show is bound to attract attention for the reason that it is as good, if not better than the usual dollar attractions put on by local talent but will only cost 35c. The show is made for laughing purposes only and the public is promised an hour and a half of real fun and amusement to any nothing of several good musical numbers.

The ladies of the Business and Professional Woman's Club will be given full charge of another one of the attractions and will put on a pageant play that will equal any of its kind before and the price of this attraction will also be within the reach of all. An athletic show and side show will be two more attractions worthy of your consideration.

The regular grind stores, paddle wheels, etc., will be of an entirely different nature, every thing absolutely new and the prices will be the lowest of any carnival ever playing Sanford before. A cafeteria supper will be served every evening of the carnival, the Sanford Band will play each night, there will be many free attractions, and taking it all in all, this promises to be one of the biggest times of the season for all Sanford.

Make no dates that will conflict with the above, make your plans to join the crowds and have one big time.

One of the biggest contracts for advertising ever let to advertise a local affair has been let by the Knights of Columbus and people will know of it for miles around and many visitors will be in town for those days. Full information regarding the different events will be found in the Herald, from now on and if you will watch for these special announcements you will be advised of some big doings. Remember the dates, Feb. 21st, 22nd and 23rd.

The Sanford Herald tells that the new fire engine, pumper and auxiliary chemical combination has arrived in that city and will be tested and worked to show the commissioners its possibilities. "The new engine will pump 750 gallons of water a minute and carries a thirty-five gallon chemical tank and 1,000 feet of hose and is ready to fight fire at any time and in any place," remarks the Herald. The new apparatus is the latest in detail of fire-fighting machines and will undoubtedly be of value to the city. It is a good asset even though there may seldom be need for using it; the feeling of security that comes with ample provision for fighting fires is worth a great deal to citizens.—Times Union.

NOTICE TO TAXPAYERS

As required by section 12, chapter 5590, Laws of Florida, I will be in the following places, on the date and between the hours set after each, for the purpose of receiving tax returns:

- Geneva—February 6th, 10:00 a. m. to 3:00 p. m. Chuluata—February 7th, 10:00 a. m. to 12:00 m. Gabriella, February 7th, 1:00 p. m. to 3:00 p. m. Oviedo—February 8th, 10:00 a. m. to 3:00 p. m. Altamonte—February 9th, 10:00 a. m. to 12:00 m. Longwood—February 9th, 1:00 p. m. to 3:00 p. m. Lake Mary—February 10th, 10:00 a. m. to 12:00 m. Paola—February 10th, 1:00 p. m. to 3:00 p. m. Monroe—February 11th, 10:00 a. m. to 3:00 p. m.

Yours very truly, A. VAUGHN, Tax Assessor.

America's Standard 4-Cycle Marine Motor KERMATH Marine Engines Are the finest high grade Marine Motors made in America today. They are strong and rugged, and will drive a boat continuously at full speed or can be controlled for any speed desired. Wonderful control, easy starting, economical, dependable. The low price is due entirely to quantity production. Used by 70% of world's best boat builders and government life boats. Catalog on request. 4-Cycle Only—3 to 40 H. P.—\$135 to \$1550 KERMATH MANUFACTURING CO., Detroit, Mich.

Orlando has organized a Sunshine Club. They will need it today, also a Moonshine club.

Sanford will soon have the largest Saxophone Band in the South, if not in America. Guess that will hold Orlando for a while.

Ge-Bo-Nah-Gown-Wonce, a Chipewyan Indian chief, supposed to be 137 years old, is dead in Minnesota. We are glad he only did it Wonce. One more like that and our linotype operators would have lockjaw.

President Harding's dog, "Laddie Boy," is now talking for publication. In a series of letters "Laddie Boy" tells of his experiences to another dog. All presidents seem to have some form of communication with the outside world. Look at Joe Tumulty.

Florida girl in New York dyed her cat to conform with the draperies and the cat died. Judge had her up and made her promise to return to Florida and he would let her off. Good sentence. That judge ought to sentence the whole of New York City to Florida for the winter. The idea of a Florida girl in New York in the winter time!

Dispatches say "Poland is gradually becoming self-supporting." Good. If we can just get the Near East, the Far West, Russia, China, India, Africa, Timbuctoo, the Arctic Circle, the Anti-Saloon League and the other leagues as well as the Florida State League self-supporting we can go fishing again as we used to do before the war put all these foolish notions into the heads of so many "drivers."

Tourist asked us the other day why there was such fine fishing on Lake Apopka and why so many fishermen went there in the winter to take advantage of it. The reason is plain enough. Seining is not allowed in Lake Apopka, seining is not allowed in any county in this part of the state. Seminole county is surrounded by counties that are getting the tourists and sportsmen and our county is the only one that allows seining.

SAVING FLORIDA

The Polk County Record has an excellent editorial on "Winter Evangelism," which we take pleasure in republishing:

Florida is having a surfeit and then some of that sort of thing. You cannot sit down in a park without having to listen to some wild-eyed visitor calling on the wayfarer to repent of his sins and throw something in the hat. From all corners of the north we have visitors whose sole purpose, as they solemnly declare, is to show us where we are wrong and collect their pay for no doing.

Frankly, we prefer being let alone with our defects. We'll rock along some way. Up north, where the cold weather, the slippery pavements and the heavy snowdrifts are constant provocatives to sin, they need uplifting more than we do. They would no doubt appreciate open air sermons, lectures on law enforcement, calls to civic, secular and spiritual righteousness and other efforts to improve the condition of their souls, while the persons working for their salvation would not incur the suspicion of being out on the job merely to avoid the winter without incurring any personal expenses."

As the Record remarks, Florida is already pretty well provided with proved and legitimate agencies of that kind. We suggest, however, if any of these itinerant improvers are really in earnest, they wander down here about the 15th of next July and repeat their story.—Lakeland Telegram.

SHIP CITRUS FRUIT BY WATER; CALIFORNIA TO NEW YORK.

The intent of a series of three test shipments of citrus fruit from California to New York by way of the Panama Canal, left San Pedro the middle of January accompanied by a specialist of the Bureau of Markets and Crop Estimates of the United States Department of Agriculture. The tests are being made in co-opera-

tion with the steamship company and the California Fruit Growers' Exchange, which are displaying keen interest in the work, as it is expected to lead the way to larger shipments of western fruit to the east by water.

Problems of ventilation and refrigeration of the fruit while in transit are the chief difficulties encountered in the undertaking. One of the holds of the ship is equipped with a ventilating system devised by the representative of the department, who will obtain data on the condition of the fruit carried at certain temperatures and will test the system of ventilation he has worked out in connection with his studies. The shipment of citrus fruit through the Tropics for the length of time required in water transportation has always been a hazardous undertaking.

The ship, which originally sailed with a cargo of apples from Seattle, put in at San Pedro to pick up a consignment of oranges and lemons. It is expected the trip to New York will require between 18 and 20 days.—Orlando Sentinel.

FLORIDA MERCHANTS AND ADVERTISING SCHEMERS

FLY-BY-NIGHT visitors to Florida, the great majority of whom are on the alert to "make" expenses, likewise easy profits, as they travel from place to place upon advertising as one of their favorite schemes. Advertising is worked to death by this class, because the value of advertising is appreciated by all progressive business men. But any kind of advertising does not get results. There are many things to be taken into consideration, principal of which are quality and circulation.

The business interests of Florida should fight shy of these schemers and patronize only those agencies and mediums whose reputations are established in public confidence and who are above board in their operations, giving a dollar's worth of advertising or more for every dollar entrusted to them, who realize that their futures in the advertising field depends in a large measure upon their present policies.

This is not a bid for greater newspaper advertising; it is good advice although, it might be added, newspapers have proven themselves the best advertising mediums in the world. A few days ago an "advertising," man worked Arcadia, according to the DeSoto County News, and it was later revealed that the "directory" he issued was just directory enough to be classed as legitimate under the law. The man spent seven hours in Arcadia and departed \$35 richer by reason of his gift of gab. Commenting on the incident The News says:

Someday perhaps advertisers will learn that they can always expect to be stung when dealing with strangers with schemes for directories, programs and the like, unless the man is known to represent a firm of standing. Merchants who just can't see the value of advertising when approached on the subject by their local newspapers seem to be the easiest victims of these fly-by-night fakers.

It is not selfishness that prompts Florida newspapers to warn advertisers against advertising schemes, but the newspapers are interested in the welfare of their respective communities and are on guard to protect those who support them.—Jacksonville Metropolitan.

HAS THE PUBLIC BEEN BUNCOED?

When the railroads were returned to their owners after the war there was a loud howl of indignation from the latter about the condition in which their property had been handed over as being sadly demoralized, with freight cars scattered from one end of the country to the other, and many of them unfit for use and badly needing repairs. There was a shortage of locomotives, as the government had made few replacements of those which it had worn out. Worse than that demoralization of the equipment was that of the working force. It had been largely increased, wages had been raised to a point that could not be maintained under private management with any hope of profit and a host of absurd and embarrassing restrictions had been placed on the roads which largely increased their expenses, at the same time reducing their efficiency. It was claimed that the roads could not be handled, as they had been handled by the government with any expectation of returning a profit to their stockholders, and unless relief could be had in the way of increased freight rates, or a visual subsidy from the government, the roads must go into bankruptcy and the whole transportation system of the country would be crippled. As a part of the general manager's justification of his claims for relief, we make the following extracts from a paper issued by the railway executives: On March 1, 1920, federal control ended, leaving as a legacy restrictive

and wasteful national agreements governing the working conditions of several large classes of employes and an insistent demand by all groups of employes for still further wage advances. As a result, in July, 1920, the labor board awarded the greatest single wage increase ever granted to any group of employes and at the same time continued national agreements indefinitely.

In the belief that their demands were justifiable and necessary, the roads were given authority to advance their rates, which were already burdensome to business. But the advance did not produce the hoped-for revenue. It was more than the traffic would bear and business fell off until their last state was worse than their first. At least that was the claim of the roads. Was that claim correct? Some recent developments seem to foster the idea that the sympathy of the public may have been worked upon to a degree that was not warranted by the facts.

Messrs. McAdoo and Hines, who managed the roads while they were under government control have both testified recently that they were returned to the owners in better condition than when they were taken over. Mr. McAdoo, especially, asserts that the government added more than 4,000 locomotives and over 28,000 freight cars to be the equipment of the roads, and that every increase of wages was justified.

As a partial corroboration of the idea that the railroads are not as hard up as they claim to be, we have the claim backed up by the figures for a term of years, made by the Chicago, Burlington and Quincy railroad company that its net earnings for the year 1921 were greater than for any previous year in its history, except 1916. If this is correct, and we have no reason to doubt it, it is evident that the railroads are not suffering from financial paralysis, and there is no reason why freight rates should not be reduced to a living basis. Other interests, agriculture especially, are suffering, even worse than the railroads are claiming to be and if they are not speedily relieved, there will be general distress which will evidently involve the whole country. At any rate the country is entitled to know the exact facts in all their bearings, that it may be able to place the responsibility where it belongs.—Tampa Tribune.

THE FUTURE OF ROAD BUILDING

Country road traffic has increased 1,000 per cent in the last 12 years, say the statisticians, but they also say that in the same time there has been an increase of 3,000 per cent in vehicle mileage, measured by multiplying the number of vehicles by the increase in speed.

The astonishing fact is also made public that there are actually fewer miles of good roads per vehicle mile today than were a dozen years ago. The automobile manufacturers predict that the number of automobiles in use will double within the next decade. The American Good Roads congress has endorsed the Woodruff bill now before congress. It provides for \$100,000,000 of federal aid for good roads per year for the next five years, with the usual provision for matching the amount by each state to which allotments shall be made. If the state accepts it will mean the expenditure of 200 million per year or a round billion in the five year period. It is different to setmate the impetus that will be given to business of all kinds by the expenditure of such an enormous sum. Unemployment with all its problems would disappear, and every man willing to work would have a job awaiting him. And when it was all over we would have the pleasant consciousness of having got something for our money.

THIS IS SMILE WEEK

This is Smile Week and we are reminded of the fact by the Jacksonville Metropolitan in the following editorial: This is Smile Week.

Everybody is supposed to smile. If you can't smile you can at least chuckle to yourself. It's easy; just drop a pleasant thought on our sense of humor and let it dissolve. Smiles will ascend like bubbles from a clay pipe in the hands of a child.

The Republican are figuring out a plan by which ex-service men will be given a bonus without increasing taxes.

Ha! Ha! (Ha! Ha! is the only way you can smile on a typewriter.)

President Harding is indignant because administration critics are claiming he appointed Senator Kenyon to a Federal judgeship in an effort to shatter the agricultural bloc. "How absurd!" Such a thought never entered our best minds.

Ha! Ha! (To be repeated at intervals.)

Senator Lodge, who wore his whiskers to a frazzled defuncting ratification of the Wilson treaties will soon demand that the senators, who bowed to the lash of his political whip

then, ratify the Harding treaties, of which there are several, and all as "entangling" as those agreed upon by the representatives of nations at Versailles.

Just a chuckle here. (Smiles are valuable, therefore they can be wasted—but don't waste one on the venerable senator from Massachusetts.)

Advocates of the Dyer antilynching bill claim it will solve the lynching problem over-night. They think Federal supervision is a cure for all the problems that states are heir to.

Ha! Ha! (Tenors may say Teel Teel)

Administration leaders point out that the expenses of government will be reduced by several billion dollars this year. If taxes are not reduced the blame should be placed upon the extravagance of Democratic officials who, in their zeal to bankrupt the nation, happened to win the war.

Ha! Ha! A smile is the reflection from a sense of humor, and the Creator blessed the American people with the sense of humor that knows no limits, and that improves a thousand-fold on champion contortionist.

Having this sense of humor, we can bear with any old thing and smile until our teeth are sunburned. Compared to us, the Spartan mother was a quitter.

So if you think the government is going on the rocks, just swallow your indignation and smile. When we land on the rocks we will at least have something solid to build on.

Ha! Ha!

ADVERTISING THE CITY

Every city of any commercial importance is continually trying to extend its trade lines and its sphere of usefulness. A successful business man is not content with a stationary business. He wants to progress. No city is content with a stationary population or trade. It wants to grow. Its growth must be from without if it is to make any substantial progress. It is a noteworthy fact that trade associations and merchants associations are annually putting on campaigns to extend the lines of trade for their respective cities. These associations are composed of wide awake business men who realize that a city never stands still. It either goes backward or forward.

To extend trade lines, wholesalers must extend lines a little farther outward each year. The same is true of the retailer. In these days of good roads and automobiles a few miles makes but little difference and people prefer trading in a live town. They will drive a considerable distance to trade at stores that carry a large variety to select, and where real bargains are to be had. There is but one way for the people to know the live town and to know of real bargains. That way is by advertising. There is no other possible means. People follow the advertising columns of a newspaper as closely as any other part of the newspaper. They are looking for quality and the man who

has these is sure to advertise them. The public has come to understand this, and this is why you always find the streets of the city that advertises, well crowded with automobiles and the crowds crowded with people.

Go into any home any evening and see the people reading the paper and the value of advertising will be readily understood. Not the head of the family only, but every member of the family reads the evening paper. Every line, from society to the advertising columns get a reading in the evening when people have time to relax while they look over the social, political and business chart for the day and tomorrow.

A city is judged very largely too, by its newspapers. A newspaper may be over so newswy, editorially strong and artistically made up, but if it is not well filled with advertisements, strangers will either rightly or wrongly judge the town as being dead. Everybody understands that in a live town business men advertise. So that, outside impressions are made up largely by the advertising columns of a newspaper.—Reporter Star.

After 100 or more have been killed in a defective theatre the government is investigating the cause of the disaster and they will probably put the blame on the man who owns the building. He is not the one. The man who designed the building and the building inspector of Washington are to blame. What does the average man who builds a home or a store or a theatre know about the construction. He leaves it to the people who are getting paid for knowing and yet when anything happens it is the owner who gets the full blame.

Miami's new city manager—we believe he is home raised—says mosquitoes live nine months. Gosh! We've been told all the time they lived a short life and a merry one, and couldn't roam or wander from their own rain barrel more than a few hundred yards!—Tampa Tribune.

We don't believe they are so short lived as that. We have seen some on the coast that had long whiskers and we know they were at least fifty years of age.

Secretary Weeks who is very much afraid that Henry Ford's shadow in the sun will eventually blot out the Republican administration says that Henry is not the only pebble on the Shoals—that he has two other buyers. It is a lead pipe cinch that the Republican corporations will outbid Henry if for nothing more than to keep the Shoals from operating at all. It would pay "Big Business" to do this.

We understand that the government is about to issue a booklet on "How to Use the Postoffice." Fine business, this and it will also give the government printing office to get a job. Some time later we intend to get out a booklet entitled "How to Build Post-offices" that we think will be most instructive to the government.

So much talk about the new dollar that we would just like to get hold of a new dollar some time and look at it. Since the war we have been unable to get that much money all at one time, consequently we do not know anything about the new money.

We note by the papers that Italy cannot do without Orlando and have sent for Orlando to come back to Italy. We suppose that means Franklin King and Carl Dann, also.

Those Irish are getting peevish again and trying to start something. Why not send Pussyfoot Johnson over there to talk about prohibition and take their minds off matter.

Roaches were found in a still near DeLand, says the Sanford Herald. Aw shoot! We've found flies in mince pie, too, but we still call for it now and then.—Tampa Tribune.

California produce men are writing to Florida growers asking the price of vegetables. California evidently had a harder blow than the outside world knows anything about.

Man will lecture in Orlando on "Criminology." Suppos he has invited all the Orlando newspaper men to be present at the lecture.

How do you like this springtime weather?

Farmers Own Electric Plant

FARM homes formerly denied electric current can now fully enjoy its power and light with Willys Light.

Bright lights, running water, improved living and working conditions follow the installation of Willys Light.

Let us show you this complete, practical plant with fifty advantages.

HOF-MAC Battery Co.

Cash Prices Must Look Good To The Trade Read This

Thrasher & Garner did \$830.00 more business on a strictly cash basis during the month of January than during January, 1921, on a time basis. This reflects the hearty approval and co-operation of the buying public for which we are grateful. If you pay cash, and have not visited our store, we shall appreciate a call. The fact that we are doing more business selling for cash than we previously did on time, and for cash, is convincing proof that our lower scale of prices is bringing the trade our way.

Pay Cash — Cash Pays

It's the real thrift game, that makes man careful, comfortable and contented. Careful about what he spends and what he gets for what he spends. Comfortable because he pays for what he gets. Contented because he buys at the lowest market price.

Do not miss seeing the Twins on display Saturday in Thrasher & Garner's show window. Go in and take a guess. It won't cost you a penny, and you may be the prize getter.

Don't be alarmed, you do not have to take them if you do not want them.

Thrasher & Garner

UPSALA AND GRAPEVILLE

Emil Magnusson came up with Mr. and Mrs. Fry Saturday from Windermere, spending the night at the home of Mrs. J. E. Lundquist, his sister, and coming out with Mr. and Mrs. Ericson to the meeting at Paola.

Forest West made a trip to Winter Park on Wednesday where he disposed of two of his lots there in the suburbs. Mr. and Mrs. Raymond Butler and son are moving to Miami from Brunswick, Ga. Mrs. Butler and son visited a week at the home of her brother, Mr. Williams and wife and other relatives and friends of her girlhood days.

Mr. and Mrs. V. C. Coller and daughter, Bright, were guests on Sunday at the home of Mr. and Mrs. West on Monday and Tuesday Mrs. Coller spent with her old schoolmate, Mrs. Minnie Westerdick, Mrs. Best bringing her out in her car, her husband being away on business at Jacksonville. Mrs. W. W. Faussett, of Miami, visited at the home of her step-mother, Mrs. George Clark last Wednesday.

Another little daughter came to bless the home of Mr. and Mrs. Jesse Lee on West First street, February 8, 1922, mother and child are doing well with Mrs. Maude Powell as nurse under Dr. Denton.

Barney Beck has lately improved his cottage by having put out a row of oaks in the street and yard for shade. A great comfort in our sunny southland.

A number of our folks have been down with the la grippe, among them being Mrs. E. F. and Mrs. E. W. Lundquist and Mrs. Tyner. Miss Eunice Tyner remained home this week to care for her mother.

We hear that Mr. Derby, who is here on a visit from Pennsylvania regrets he ever sold out his property and home here, being surprised at the business being done in our state, and says times are very dull in the north.

A pleasant time was had by all who attended the party given by Mr. and Mrs. T. O. Tyner last week on Thursday night in honor of their daughter, Miss Eunice Tyner. There were fifty-seven out, mostly from this place, and Engineer Tew and wife and children were out from Sanford. We were all pleased to see Mrs. J. E. Vaughn able to be out. Twelve delicious home-made cakes with coffee were served for refreshments. Preacher Clark and wife also stopped in on their way home.

Mr. and Mrs. Noah Fry and mother, Mrs. Bengston, and Mr. and Mrs. Fred Krell and babies came up from Windermere Saturday night and with Mr. Tyner's family gave a surprise dinner for Harry Caves and wife Sunday at his tent and they went back with them and Elmer Tyner for a few days visit at Windermere. The men folks brought Happy Jack out to Paola to give us a talk. We were pleased with his urging the young folks to stick close to the home nest. He tells us we misunderstood him as his dog's name is Uno.

A number met in the little room Tuesday evening at the church for Bible study and if it is as cold next time we are all invited to come over to Mrs. Hirschi's where we can be more comfortable.

Rev. Albertson and wife were guests over night at the home of Mr. and Mrs. Balingier and Upsala was well represented at the institute on Sunday at Paola. Mr. Hicks, their superintendent, offered the invocation, Rev. Albertson giving us a talk on the model Sunday school; a temperance selection "The Prisoner at the Bar" by Mrs. Albertson and a splendid sermon by Brother Clark, then the noon hour with its bountiful dinner and hot coffee and the chance to get acquainted with "Happy Jack" and each other. For the afternoon service Rev. Clark spoke on the need of education of our church school and our following the positive side of Christianity: "Jesus' command that we love one another as He loves us." Mrs. Edwin Lindquist of Upsala, and Miss Gladys Hake, of Paola, were elected to have charge of this vital part of our work, the cradle roll. Brother Ericson gave us a good message and Geo. Ballinger a few notes on home, mother and God. Mrs. Stafford had charge of the music and we enjoyed the class song by the girls very much. It was a feast of good things. We were pleased to see so many new and old friends: Prof. Pedmore, wife and baby, Mr. and Mrs. Dunn, and family from Lako Mary, Mr. and Mrs. Cameron, late of Wierdale, but now of Sanford; Mr. and Mrs. Young, Mr. and Mrs. Cook, Mr. and Mrs. Purdon and children besides our own and Paola people.

All are invited for the Bible study Thursday night at the home of Minchew, at Paola, led by Rev. J. S. Clark.

More travellers to Blmini have been lost. They don't say how.

OVIEDO

Mrs. S. W. Swope and Mrs. Mary West left Friday for St. Augustine where they will visit for several days Miss Mable Swope.

The whole community was shocked Friday by the sudden death from heart trouble of W. E. Argo, Sr. Mr. Argo had been sick for two or three weeks but seemed to be improving. Friday morning he felt better than usual and went to his store which was just across a vacant lot from his home. He attended to a few small duties at the store but a little after nine o'clock he called to someone to go for the doctor as quickly as possible. Dr. Simmons reached him in a few minutes, his office near by, but too late to help him. His wife and son were summoned and were with him at the last, though he was unable to recognize them. The funeral was held at the Ovidia cemetery Sunday morning at ten o'clock, the services being conducted by Rev. J. N. Thompson. Rev. L. and Mrs. Hickman of Atlanta sang a beautiful solo. Many friends from Sanford, Orlando and Golden Rod were present bringing with them beautiful floral offerings in memory of their lost friend and words of love and sympathy for his bereaved family. Although at a season when few flowers are in bloom, the grave was laden with most beautiful designs from friends of the deceased and his family all over the state. Mr. Argo is survived by his wife and two children, W. E. Argo, Jr., and Miss Palmer Argo, aged eighteen and thirteen respectively. Also by two sisters, Mrs. Barlow of Sanford and Mrs. Polhill of Fernidina, besides several nieces and nephews to whom the people of Oviiedo extend deepest sympathy in their bereavement.

Mrs. Burrender and her son Palmer of Jacksonville, mother and brother of Mrs. W. E. Argo are spending the week in Oviiedo.

Miss Elizabeth Lawton spent the week-end with her parents Mr. and Mrs. W. J. Lawton last week returning to Rollins College Sunday afternoon.

The schedule of trains on the Lake Charm branch of the Seaboard Air Line Ry., changed Tuesday so that the train now comes from Orlando in the afternoon at four o'clock and returns at five. This gives Oviiedo two afternoon and no morning trains.

Lee Conoly of Valdosta, Ga., spent several days this week with his aunt Mrs. J. B. Jones.

Dr Owens of Atlanta, Ga., is conducting a revival meeting at the Baptist church this week, being assisted by Mr. and Mrs. Hickman who furnish beautiful and most inspiring music for the meeting. The services have been well attended and greatly enjoyed by all and it is hoped that much good will result.

Mrs. J. Lee Ensign and children, of Tallahassee arrived Tuesday for a few weeks visit to her sister Mrs. W. E. Argo.

Mr. and Mrs. H. B. McCall and sons, Edward and Warren and Miss Ethel Taylor spent Sunday in Lakeland.

Hal Mogeridge of Selma, Ala., is the guest of his aunt, Miss Napier at Lake Charm Inn.

ENTERPRISE ETCHINGS

Last week was indeed a banner week for the Public School of Enterprise as the guests of Benson Springs Inn proved themselves great friends of the school by entertaining the community and friends on two evenings. On Monday evening the ladies of the Inn gave the play "How the Story Grew" to a large audience, and on Thursday evening Mr. Peter MacQueen F. R. G. S. of the Inn, gave a most wonderful lecture, "The Rebuilding of the World," illustrating the lecture with two hundred colored slides taken by Mr. MacQueen in Japan, Mexico, and Europe, before during, and after the World War. The lecture was given to a full house as this was the third appearance of Mr. MacQueen here this winter and everyone knew what a treat awaited them. The entire proceeds of the two evenings were presented to the Parent-Teachers Association for the piano fund.

Miss Sarah Davis of DeLand spent the week end here with her grandmother, Mrs. S. S. Davis.

Mrs. Henry Murry and guests, Mr. and Mrs. Chas. Watjen, Mrs. Sam C. Toms and Mr. and Mrs. Chas. Cochran returned Saturday after spending several days very pleasantly sight seeing on the East Coast.

Prof J. J. Miles and family are the proud possessors of a new "Baby Overland" purchased of the DeLand Overland Co. on last Saturday.

Mr. Sam C. Toms returned to his home in Montgomery, Ala., on Sunday after several weeks spent with relatives here. Mrs. Toms will remain with her father and family a while longer.

Mrs. Alfred Rider is now with Mrs. Emma Count while her husband is in Lakeland.

Miss Sarah J. Burns left on Friday for Tampa where she will attend the Fair and visit friends for several days.

Mr. and Mrs. William Lache, Jr., are now located in one of Mrs. Brook's apartments.

Mr. and Mrs. E. L. Shotwell of Johnstown N. Y. are again greeting friends here having arrived Sunday.

The Episcopal Rectory is rapidly undergoing needed improvements. Rev. Arthur S. Peck of Sanford conducted services at the Episcopal Church on Sunday afternoon. Mrs. LaKash and sister, Mrs. Taylor, Mrs. Robson, Mrs. Vaughn, Mr. Stone and Mr. Miller accompanied Rev. Peck over from Sanford.

Mr. Hoy J. Burns left on Sunday, returning to school after a week spent with his parents.

Mr. Morrison who has been employed on Dr. Fowle's house on the Boulevard left for DeLand on Monday.

The Parent Teacher's Association will hold their regular monthly meeting at the school building on Thursday evening. A speaker from DeLand is expected to address the Association that evening. All members are urged to be present and all friends are cordially invited to meet with them.

U. S. PROCEEDS TO CARRY OUT EDICTS OF ARMS CONFERENCE

(By The Associated Press) WASHINGTON, Feb. 9.—Executive departments of the government took steps today toward carrying out the edicts of the armament conference without awaiting ratification by the senate of the several treaties resulting from the conference, while the American delegation to the conference worked on their report which will be submitted to President Harding and leaders in the senate before marshaling their forces for the fight on ratification of the several treaties.

Announcement was made during the day that President Harding had ordered discontinued all work on additional fortifications on the island of

Guam and in the Philippine islands, thus taking note of the clause in the naval treaty which fixes a status quo for these Pacific islands.

The president, it was stated, at the white house also would order suspended all work on naval craft now building which are destined for the scrap heap under the five-power treaty with Great Britain, France, Japan and Italy. The final order to discontinue such construction, however, will not be issued until the treaty is ratified, it was said.

Secretary Weeks, in furtherance of the president's order regarding the Philippines cancelled the orders for sending new guns to replace those in the fortifications there. Secretary Denby also announced that some military equipment, including mines, destined from Guam, had been ordered returned.

Discussing his action, Secretary Weeks said the orders had been cancelled as an evidence of the good faith of this country to carry out in spirit and letter the provisions of the naval treaty respecting the fortifications of Pacific islands.

CREW PICKED UP FROM BURNING STEAMER FOUR MEN KILLED

(By The Associated Press) NEW PORT NEWS, Feb. 9.—Captain Lusti of shipping board steamship Northern Pacific was destroyed by fire yesterday off Delaware breakwater this morning declined to make any statement regarding the disaster which cost the lives of four men. The vessel docked here this morning with two survivors picked up from three life boats. Five others of skeleton crew arrived aboard another vessel last night.

OFFICERS HEAD POSSE TO SCENE OF CONFLICT WITH MOONSHINERS

HUNTSVILLE, Feb. 9.—State and federal officers headed a posse today bound for King's Cove, near Newmarket, Ala., where two alleged moonshiners were killed and a federal officer wounded in a battle yesterday.

STATE RAILROAD COMMISSION WILL MEET IN GAINESVILLE

GAINESVILLE, Feb. 9.—The State Railroad Commission has announced that it will meet in Gainesville February 10 to consider a request of the

Atlantic Coast Line that it be permitted to discontinue operation of certain trains in the state. The trains the railroad wishes to discontinue are numbers 9 and 10, between Jacksonville and Leesburg, Numbers 140 and 141 between Chiefland and Ocala and Numbers 32 and 36, the "Sunny Jim", between Lakeland and Ocala. The road also wishes to rearrange its passenger service between Rochelle and Palatka.

Numerous protests have been made by business men and commercial organizations because of the proposal to discontinue the trains and it is expected they will have representative at the hearing.

Ford

THE UNIVERSAL CAR

Special solid or pneumatic tired wheels can be supplied. All prices F. O. B. Detroit

The President of the Ford Motor Co. Mr. Edsel B. Ford, says:—

"We are taking advantage of every known economy in the manufacture of our products in order that we may give them to the public at the lowest possible price, and by so doing we feel that we are doing the one big thing which will help this country into more prosperous times. People are interested in prices, and are buying when prices are right."

The enormous demand for Fords proves that Mr. Ford is right.

For reasonably prompt delivery, place your order now. Terms if desired.

ST. JOHNS IS MATCHLESS IN ITS BEAUTY AND ITS USEFULNESS TO FLORIDA

Those Who Live Within the Shadow of Nature's Great Creation are Last to Appreciate It

By Moses Folsom in Jacksonville Metropolis

It is a common observation that men living in the shadow of some great creation of nature are last to appreciate its wonders.

In this connection it may be well to remind the citizens of Jacksonville, and other cities along the banks of the matchless attributes of the broad St. Johns river flowing past their doors.

This great river, too, gives us opportunity for water trips unequalled anywhere in the country under safe conditions.

The river in places widens out like a lake, five to ten miles wide, and one feels like being at sea.

This la Riviere de Mai of the Frenchman, this Rio de San Juan of the Spaniard, and this St. Johns river of the American is not as wide as the Amazon, as deep in its bed as the Colorado, as shallow as the Platte or Arkansas, as long as the Mississippi, as clear as the Uruguay, as muddy as the Missouri, as mighty as the Niagara, as broken with islands as the St. Lawrence; not frigid as the Red and the Mackenzie; not battle-stained as the Isor or the Tiber; not fed with mountain snows as the Columbia or the Fraser; not dense with population as the Thames and the Seine—yet, for

all that, the St. Johns river cuts something of a figure in the Western Hemisphere, and the possibilities of its development are endless.

The St. Johns is several hundred miles long, and with tributaries gives Jacksonville not less than a thousand miles of inland navigable waters.

It never overflows its banks, and big fish from the sea, which run up our way, with native tribes, contribute to the income of a considerable number of people and supply our tables with most excellent food.

The St. Johns runs northward a greater distance than any other stream on earth except the Red, the Mackenzie and the Nile.

Tributary is a region possible of supporting a million people, with plenty to spare to feed other millions in less favored parts of the earth; but the population is not yet here.

When Ponce de Leon searched its banks for the fountain of perpetual youth, he was convinced that if such a blessing existed anywhere on earth, it must be in this sun-kissed land, the health and salubrity of which have stood the fullest test.

Over it is a sky as blue as that of Italy; at night as bright with stars as the Chaldean plains that gave birth to astronomy.

Under its benign skies every month can be made to provide something for the table from garden, field and grove, nor does it demand heavy clothing and blazing fires for warmth during the winter season.

Along its banks there is room for hundreds of splendid homes, surrounded by orange groves, rose gardens and fields, which provide a good living and delightful surroundings.

This water jaunt can be incorporated in a rail-water journey south to any of the popular resorts, of which there are so many in the south part of the state.

PROBITION AGENTS WILL WORK UNDER COVER SAYS DIRECTOR HAYNES

WASHINGTON, Feb. 6.—Haynes announced today that prohibition agents in the future would work under cover and appointments federal prohibition agents in various States not be announced.

ANNUAL MEETING TO BE HELD IN APRIL

Literary Contests Won't Score But Are Awarded Medals

GAINESVILLE, Feb. 4.—The state high school track meet, one of the biggest athletic events held in the state of Florida, will be staged on Fleming Field, at the University of Florida, April 7 and 8.

Both the Draw and the Knight & Wall cups of Jacksonville and Tampa, respectively, are at stake in this tournament just as the V. E. Jacobs cup is to be played for in the basket ball tournament.

No longer will the declaration and essay contests count for points in the track and field meet. The declaration contests and the essay contest will be held as formerly but they will be separate events.

The actual running of the meet will be handled by a committee consisting of track coaches Ira E. Ryder and J. H. Atkinson, coach W. G. Kline, assistant coach Major J. A. Van Fleet, Dr. R. G. Manchester and Prof. P. L. Reed, Secretary George E. White will answer questions relative to accommodations and eating places.

Little need be said of the eligibility of entries. All schools entered will be members of the Florida High School Athletic Association. If the principal will certify that the entry is eligible according to those rules the entry is accepted.

TAKES NEW NAME

WILL BE POPE PIUS THE XI AND IS PROMINENT IN CHURCH

ROME, Feb. 6.—Cardinal Achille Ratti, Archbishop of Milan, was elected Pope this morning. He has taken the name of Pius the Eleventh.

Cardinal Ratti was born in Italy on March 31, 1857. For many years he was librarian of the Ambrosian Library and archbishop at Milan.

That country was then torn with the estrangements from religion brought about by the Communist propaganda from Soviet Russia and Archbishop Ratti counteracted the spread of radicalism.

Cardinal Ratti as the Archbishop of Milan presides over one of the most important archdioceses in Italy. The city being a great industrial center, one of its main requirements is that the Cardinal shall possess a thorough knowledge of political and social problems.

LONDON, Feb. 6.—Ratti was elected Pope by receiving 38 votes says a Central News Rome dispatch.

ATLANTA GIRL NEICE OF UPSHAW, ANOTHER VICTIM

OF KNICKERBOCKER THEATRE COLLAPSE AT WASHINGTON RECENTLY

WASHINGTON, Feb. 6.—Miss Carloline Uphshaw, of Atlanta, niece of Representative Uphshaw, of Georgia, died today of injuries sustained when the Knickerbocker Theatre collapsed here.

Police Are Working On Clue to Taylor's Identity and Life

Another Scandal in Movie Life in Los Angeles

LOS ANGELES, Feb. 6.—The police today began re-checking Taylor's papers in an effort to obtain a better clue to the identity of his slayer. Tales come to the police of an alleged possession by Taylor of women's silk lingerie, one piece of which was a pink night robe, reported missing since the body was found.

OBENCHAIN TRIAL ON CALENDAR TODAY AT LOS ANGELES

LOS ANGELES, Feb. 6.—Trial of Mrs. Madalyn Obenchain accused of the murder of J. Belton Kennedy, former sweetheart, on calendar superior court today.

STOLE FORD CAR

The Ford car of Mr. and Mrs. Alfred King was stolen from the front of the Baptist Temple last night while the family was attending church services. As they had the key in the car the thieves evidently detached the wires and made away with the car on Park Avenue between eight and nine o'clock.

CORONATION GOWN STOLEN AT TAMPA AT THE TOWNE HOME

POLICE OFFICERS ATTACHED BY INDIANS AT CHAURI, INDIA

LONDON, Feb. 6.—Mob of a Thousand Indian Nationalists Volunteers and villagers attacked police officers at Chauri Saturday and killed entire staff of officers, watchman and eight armed policemen who were sent as reinforcements says cable received today at Indian office.

CONDUCTORS ORGANIZED HERE YESTERDAY

PRESIDENT SHEPPARD MADE INSTALLATION—PROMINENT HEADS OF ORDER PRESENT

Sanford Division No. 682, Order of Railway Conductors, is the newest division of that order—organized here yesterday with seventy charter members.

L. E. Sheppard, of Cedar Rapids, Ia., general president of the O. R. C., installed the new division. President Sheppard was assisted in the installation by S. J. Brooks, of Richmond, Va., general chairman O. R. C. for the Seaboard Air Line Railway; J. A. Dodson, Portsmouth, Va., general chairman O. R. C. for the S. A. L. Portsmouth Division and by G. F. Dickens, general chairman O. R. C. for the Florida East Coast, Miami.

The organization took the better part of the day, each officer of the local division being induced into his office and given the obligation separately, and the way it was handled by President Sheppard and his assistants made the installation very impressive.

At one o'clock the charter members present filed out of their lodge room and down to the Valdez Hotel where Mine Host Campbell had arranged a magnificent spread for the occasion. More than fifty conductors sat down at the table with Commissioner Forest Lake and Judge Schelle Maines, representing the City of Sanford as official visitors.

During the luncheon Commissioner Lake spoke, commending the conductors on their organization and the splendid manhood represented at the luncheon, and dwelt for some moments on the spirit of co-operation, and in closing assured the new division of the backing that it could expect by both the official and unofficial Sanford. Mr. Lake was followed by President Sheppard, who in a few well chosen words expressed his appreciation of the reception accorded him in Sanford, and on behalf of the great Order of Railway Conductors and of the new division thanked the commissioner and the people of Sanford in general for the interest manifested in the organization.

After coffee and cigars the party returned to the lodge room and completed the installation. At the lodge room each of the visitors were heard from in splendid talks and great good was obtained from their discourses. The Division was deemed organized in due form at four o'clock and after a talk from the Chief Conductor, W. J. Wolf of the New Division, and several talks from other officers, the lodge closed and the Conductors attended the band concert in Central Park.

Other visitors, prominent in the organization, present, were W. H. Cowart, R. L. Calhoun and W. R. Garnett, of Tampa, and E. M. Little, A. T. Anders, L. H. Causey, E. K. Anders and J. R. Mathews of New Smyrna.

The New Division at Sanford was deemed advisable because there are more than seventy-five conductors operating out of Sanford, and while most of them are already members of a division, the fact that they lived in Sanford made it well night impossible for them to attend meetings of other divisions without losing time from their regular runs, and with the Division here, at the Railway Division headquarters, the members can keep in close touch with their organization.

SHANTUNG SIGNED ON SATURDAY AND PRESIDENT DECLARED CONFERENCE HAD BROUGHT GREAT GOOD

WASHINGTON, Feb. 6.—The final session of the arms conference called to order just after ten o'clock this morning to hear the farewell address by President Harding and for signing the remaining treaties. The final session brought the largest crowd of conference. Scores sat in aisles and stood around the walls. After the announcement by Secretary Hughes that the Shantung treaty was signed Saturday, delegates began signing other treaties. President Harding arrived shortly after the treaties had been signed. The president declared the conference had wrought great achievement and that "faith plighted here today, kept in national honor, will mark the beginning of a new and better epoch in the human progress."

He spoke at length on the gratification of the United States and personal gratification at work of the conference. The conference adjourned sine die at 11:13 this morning.

In the Circuit Court, Seventh Judicial Circuit, in and for Seminole County, Florida.

IN CHANCERY

F. L. Woodruff, Complainant, vs. C. H. Lindsley, P. Freder and E. J. Close, Defendants.

Witness my hand as Clerk of the aforesaid Court and the Seal thereof this 11th day of January, 1922.

By: A. M. WEEKS, D. C. Clerk.

JOHN G. LEONARDY, Solicitor for Complainant.

PROTECT YOUTH IS WICHITA PROGRAM.

Wichita, Kansas, is one of the cities where the serious misbehavior of the young people has alarmed the older generation, but Wichita, unlike many another town, has not taken its alarm out in talk and complaint. Wichita has gone to work to improve things. The first step was the calling of a mass meeting by the League of Women Voters, with every civic and religious organization of women in the city answering the call. The W. C. T. U., by virtue of its seniority, presented a program of social protective measures, prepared with the aid of Mrs. Martha P. Falconer of the American Social Hygiene association, and it was adopted. The first suggestion of all concerned wholesome recreation which Mrs. Falconer considers indispensable to right living on the part of young people. It called for the use of high school and intermediate school gymnasiums as recreation centers for girls where, under adult supervision, they can romp off their high spirits. This, with mental and physical tests for school children to protect all of them providing women physicians for schools and special teachers for boys and girls in detention homes, was made the part of the board of education in improving conditions. The W. C. T. U. undertook for its part, to plan classes to fit parents to give their children early and proper sex education, and agreed to provide instruction by means of literature, lectures, films and other means, for girls in industry or in school, whose parents have shirked their duty. The Y. W. C. A. took the responsibility of looking after housing conditions by establishing a hotel for working girls and young women, and other organizations agreed to work for a woman's bureau in the police department, for a regulation raising the age limit for girls brought into the juvenile court from 16 to 18, for the patrolling of county roads and the control of road houses and for the securing of women to be "big sisters" to girls who come under the jurisdiction of any court.

"What has been done in Wichita can be done elsewhere," Mrs. Falconer says in discussing the program. "It is necessary to know the local situation first before trying to make plans for the prevention of sex, delinquency among people during that active and difficult period from adolescence to marriage. It is all a community responsibility and successful work must be based on an understanding of the factors involved. No community plan will succeed that does not take into account the need for better education, improved home life and wider provision for the right use of leisure."—Tampa Times.

Cardinal Achille Ratti is the new Pope. Luckily he will now change his name to Pius Eleventh.

Stealing autos should be put in the same category as stealing horses in days gone by. Hanging was the penalty and it stopped horse stealing.

WHERE IS THE TROUBLE?

Newspaper men who are natural-born boosters have a hard time finding the trouble with their towns since they find so many people prone to stand back and knock everything instead of boosting. The newspapers go ahead and publish the stuff free and give away everything except their shirt and never get anywhere while the fellow who does nothing to help his town is usually the one that kicks the most at the Chamber of Commerce and other kindred organizations that are trying to make the town greater and usually make the kicker greater thereby. The newspaper men usually look on with amazement and then hold the bag for most of the fun while they are looking on. The Leesburg Commercial sums it up in the following:

"Somewhere there is a divergence of opinion among the people of Leesburg regarding the proper methods of putting out best foot foremost and to save their lives the fellows who have been shouldering the bulk of the burden are unable to find out where that divergence lies.

"The Commercial may get a little censure for airing the private affairs of the community but it is accustomed to censure and a little more or less will not seriously bother us. The important thing is to locate the thing that lies between willingness to work and the work itself on the part of the great majority of our citizens and if we can get out from under cover that hidden reason or excuse for so many failing to assume their share of civic responsibilities, we will have accomplished a great deal.

"There isn't any lack of desire on the part of our people to see Leesburg go to the front and to have Leesburg stay there, so we can dismiss at once the excuse that the people as a whole are uninterested. The baseball park that is being built proves that so fully that we need go no further, though we might give other recent instances if they were necessary. But it remains just as true that twenty Leesburg men are the sole support this year of the Chamber of Commerce and all the efforts of that twenty have been insufficient to get the others back into harness. Why?

"That 'why' is the puzzle. Honestly and frankly, if those who have 'carried on' in the face of discouragement have made any colossal mistake, they do not know about it. If they have, they should be told what it is. Lacking any information of that character, they can only deplore and plod and the fellow who bears up under such a civic burden as that is not fit for his best work for the good of himself or the community.

"Not very long ago a call for a mass meeting was made and the ledgers declared that a 'strike' was imminent. That was literally true. The bunch that has been doing the civic work wanted to tender its resignation and let others take up the work and see if it could not be done in such a manner as to satisfy those who must be dissatisfied with the present plans and efforts, else they would not withhold themselves and their support in such frigid dignity. But the mass meeting did not materialize. About forty people came to the door downstairs and made inquiries and passed on. Three came upstairs and waited for the crowd to appear.

"Now the Commercial has not been asked to present this case. We are doing it upon our own responsibility for two reasons. One is that the editor happens to be one of the twenty. Another is that this corporation has extended credit to the Chamber of Commerce to rather more than Dunn or Bradstreet would advise was good business. We did this in view of our knowledge last year of the amounts that had been subscribed for the upkeep and maintenance of the body. Many of our citizens who bear good reputations for paying their obligations have failed utterly to come forward with the funds they subscribed. Among others, we are holding the bag and paying 8 per cent interest for the privilege.

"Those who have taken an active part in the work of this civic body have put forth honest effort and they have contributed of their money besides. For instance, notwithstanding the account owing to us, you will find that the Commercial and its editor last year paid in cash their subscription of \$200 for the work of the organization. We are not alone in this but we feel more at liberty to tell our own experience than we do the experiences of our co-workers. Now we feel that it is up to those who have permitted their obligations to stand unfulfilled to first come across with their money and square up the book debts, then to voice their feeling regarding the way they think the organization should be conducted and take their place in the organization and help conduct it that way. We assure these men that they will find the Commercial ready to help them accomplish everything they set out to do for the good of the community.

"We hope this will stir up some ar-

gument. We hope that some one or more of those whose names stand on the unpaid list of last year will come forward, pay up and 'print a piece' in the Commercial setting us right or setting us down, which ever they prefer. Let's get at the bottom of this deadlock and take a fresh start. Let's either clean out the bunch that is running things now and put in some fresh blood or get behind those who are in and push. Leesburg is lagging and for no reason on earth but that there is some difference of opinion that is being hidden under a bushel and nursed in secret."

IN SOME TOWNS MERCHANTS DO NOT ADVERTISE

When we pick up some bright little newspaper and find it bereft of advertisements from the stores of his home town, and wonder why he stays there.

Cobwebs on the windows, dust on the can goods, faded streaks in the self-worn calico and a down-in-the-mouth, set-at-the-elbow merchant standing in his sagging doorway— weeds in the street, cows browsing in the public square—sand ankle deep near the old hitching post.

And the newspaperman boasting, boasting, boasting the sorry place 'e calls his town.—Miami Metropolis.

GRASS AND LEAVES LIFE OF SOIL—DON'T BURN THEM

Have you ever seen a plowman burn off a field of grass or straw? That man didn't stop to consider the value of the grass or straw to the land he was tilling. If he had, the grass would not have been burned, but would have been plowed into the soil, providing that man owned the farm.

Millions of dollars worth of soil humus in the form of grass, straw and beans, a thing terribly and sadly lacking in Florida soils, is burned every year in our state. Investigations show that the farmer who preserves the material which grows on the land and turns it back into the soil, is more wealthy and independent than is the man who carelessly destroys it.

That applies also to the forest and woods. Grass, straw and leaves, especially leaves, should never be burned, since they become the very life and strength of the soil when made a part of it. "The man who burns the woods should be arrested for arson," is the way one old and experienced man of the soil put it.

In discussing this subject the Progressive Farmer said let's remember these two big facts:

- "1. When you burn a ton of forest leaves or a ton of broomstraw, you have done just as much harm as if you have burned or destroyed a ton of horse manure.
- "2. If you have 100 tons of forest leaves in some piece of woods near you, and neglect to put it on your land, it is the same as if you had 100 tons of cow manure or horse manure or 12 tons of 8-2-2 fertilizer out there and neglect to haul it up and use it."

HELPING THE FARMERS

According to the Washington agricultural conference the marketing problem is the most serious one facing the American farmer. Until the farmer has mastered the technique of this phase of the agricultural game, at least as well as he has mastered other phases, marketing will continue as his most baffling problem.

But this is being done. County Agent J. J. Sechrest, of Hamilton County, has reported that the farmers of his county have come seven hundred tons of fertilizers. His report added that about four dollars a ton on the entire order was saved to the farmers. Isn't that solving the farmer's marketing problem?

Again County Agent C. E. Matthews, of Suwannee County, reports the farmers of his county as buying seed potatoes of better varieties in carload quantities. And in another report he states that the farm bureau of Suwannee is ordering the farmers' fertilizers, saving them from \$1.50 to \$6 a ton. Isn't that solving the farmer's marketing problem?

Certainly it is solving the buying end of it. And we confidently believe that county agents like the two referred to above, if given the chance, will come very near to leading their farmers to the correct solution of the other end of the marketing problem—that of selling.

NET PROFITS FROM 11 CITIES WITH MUNICIPAL OWNED PUBLIC UTILITIES

Under municipal ownership and operation the net profits for 1921 in the following cities of Florida and Georgia for the water and electric plants as specified were as follows:

- Lakeland, population 7,062, water and electric plants, \$39,113.
- Savannah, Ga., population 83,252, water plant only, \$85,000.
- Tifton, Ga., population 3,005, water plant, only, \$6,004.

- Tallahassee, Fla., population 5,637, water and electric plants, \$52,987.
- Jacksonville, Fla., population 91,543, electric plant only, \$407,727.
- St. Petersburg, Fla., population 14,237, water plant \$10,570, gas plant, \$11,005.
- Macon, Ga., population 52,555, water plant only, \$170,000 (estimated).
- Fort Myers, Fla., population 3,078, water plant only, profit, but figures await auditors' report.
- Live Oak, Fla., population 3,103, water plant only, \$7,500.
- Thomasville, Ga., population 8,190, water and electric plants, \$18,000. No profit from water plant.
- Fitzgerald, Ga., population 6,870, water and electric plants, profit, but figures incomplete.

These cities have made profits from their municipally owned and operated public utilities plants. If the privately owned Orlando water and electric plants made a net income of \$18,000 in 1921, is there any reason why they cannot continue to show a profit under municipal operation?

Is there less faith in Orlando than in these other cities? Less brains? Less nerve? Less business initiative? Less vision?

Your answer will be awaited on February 21.

Million Packets Of Flower Seeds Free

We believe in flowers around the homes of the South. Flowers brighten up the home surroundings and give pleasure and satisfaction to those who have them.

We have filled more than a million packets of seeds, of beautiful yet easily grown flowers to be given to our customers this spring.

Wouldn't you like to have five packets of beautiful flowers free? YOU CAN GET THEM! Hastings 1922 catalog is a 100-page handsomely illustrated seed book full from cover to cover of truthful descriptions and illustrations of vegetables, flowers and farm crops. It is full of helpful garden, flower and farm information that is needed in every Southern home, and, too, the catalog tells you how to get these flower seeds absolutely free.

Write for our 1922 catalog now. It is the finest, most valuable and beautiful seed book ever published, and you will be mighty glad you've got it. There is no obligation to buy anything. Just ask for the catalog, and it will come by return mail. H. G. HASTINGS CO., SEEDSMEN. ATLANTA, GA.

Sanford's new pump is one of the best that is made. It means better fire protection, cheaper insurance rates and a better sense of security for the business men of Sanford. It is money well spent and The Herald wishes to congratulate our City Commissioners who purchased it.

DELAND MAN IS KILLED FROM AMBUSH

KILLED BY UNKNOWN PERSON AND HIS WIFE WAS WOUNDED

(By The Associated Press)
DELAND, Feb. 7.—William A. Shields, 60, poultry raiser, was instantly killed and his wife wounded late last night three miles east of here by unidentified person hidden beside the road fired on them with a shotgun. They were driving home in a car and stopped on account of obstruction in the road. As Shields stopped from the car part of a load of birdshot struck him in the head and the others struck his wife. Bloodhounds were taken to the scene immediately but failed to pick up the trail but the sheriff said today he had a clue which he believed would lead to the identity of the slayer. Mrs. Shields is in the hospital here.

BRING NEGRO PREACHER OF SOCIAL EQUALITY TO TAMPA FOR HIS SAFETY

LAKELAND, Feb. 7.—F. Jenkins, a negro preacher, was arrested by the local police yesterday afternoon after preaching race equality in a colored church in the colored settlement. When questioned at police station Jenkins admitted he had been waiting upon in Sanford where, he said, he was taken to the woods by a white-gowned mob and badly beaten. Jenkins, who still carries the marks of his flogging, was taken to Tampa for safe-keeping, local authorities fearing that similar action might be meted to the negro here.

Alleged Wire Tappers Are On Trial Today at Fort Lauderdale, Fla.

Ledger Seized in Raid Had Names of Many People

(By The Associated Press)
FORT LAUDERDALE, Feb. 7.—A ledger seized in a raid on the headquarters of an alleged band of confidence men here Friday was introduced as evidence today at the preliminary hearing of a dozen persons under arrest. The ledger contained the names of 105 persons and opposite each amount varying from \$4,000 to \$175,000.

SOUTHERN AGRICULTURIST
NASHVILLE, TENN.
The Giant of the South
Its immense popularity is due not only to the fact that every line in it is written for Southern farm families by men and women who know and appreciate Southern conditions, but to the practically unlimited personal service which is given to subscribers without charge.
Every year we answer thousands of questions on hundreds of different subjects—all without charge. When you become a subscriber this invaluable personal service is yours. That is one reason why we have—
