

Police Capture Crime Syndicate In Jacksonville

JACKSONVILLE, Dec. 3.—An anti-police said today they had smashed a newly-formed "crime syndicate" of dues-paying members with the arrest of nine men and one woman.

Thirty-six shotguns and rifles, a stolen week ago in a \$2,150 burglary of a furniture hardware store, were recovered in a neat, two-story brick residence in the Springfield section which police said had been rented by the gang as headquarters.

The investigation started when three men set off a burglar alarm Sunday on the roof of Kent Warren Company, a downtown men's clothing store.

Detectives R. L. Starratt and Gibson Davis, Patrolmen J. L. Webb and W. M. Scherer said they trapped the trio in the building where they had started to open their safe.

Det. Sgt. G. H. Houston listed the three as John Greig, alias Samuel Daniel Parker, 21; Barry Blue Godwin, 20; and Charles Frank McCarty, 29, all of Jacksonville.

Houston and Sgt. J. M. Parker said the trio gave false addresses but enough information was obtained from an informer to lead them to the house.

"In the rear of the house we found a rubbish pile where trash had been burned," Houston said. "At one side was a label from a Winchester 30-30 carbine carton. That was enough evidence for us to get a search warrant."

Houston said one of the prisoners, however, agreed to open the house. In addition to the guns, police found a loose-leaf notebook that contained bylaws of the "club" and a record of dues and expenditures.

Internal Revenue

Mitchell testified the case began in February, 1946, when a fraud investigation was begun. He said he was referred to him in 1948 with a recommendation from revenue agents for prosecution. Mitchell was principal trial attorney in the Justice Department criminal division.

"Mr. Caudle had cautioned me to be very careful of this case and indicated he wanted to discuss with me each stage of the proceedings," Mitchell said.

The Justice Department attorney said he was "convinced of the guilt of these individuals," and after reviewing the case arranged to go to Birmingham and Mobile for conferences with federal agents and the United States Attorney.

Mitchell said he was "very surprised" then to get a call from Boykin's secretary saying Boykin expected him to be his guest while in Mobile.

Mitchell testified he refused, and told Caudle of the invitation and his refusal.

Rotary Club

(Continued from Page One) donations to assist a member of the club whose wife is ill. Clarence Redding and Howard McGee were named to a committee for handling the Salvation Army drive boards.

Mr. Remis pointed out that the Stock Exchange is big business, that on an average 2,000,000 shares a day, more than 50,000 telephone calls are received, that commissions generally run about 1 or 1 1/2 percent with a minimum of \$0.

Tracing the history of the association, he said that it was begun shortly after the Revolutionary War, but was not organized in its present form until 1871. Its purpose is to create a convenient marketplace where buyers and sellers of corporation stocks can meet for the purpose of doing business with each other.

Declaring that members of the exchange are proud of their business ethics, he said that millions of dollars frequently change hands without written agreement, merely by the nod of a head. Recalling the disastrous collapse of 1929, he said that much has been done since that time to improve conditions in the exchange.

In 1933 the "Truth in Securities Act" was passed setting up rules for the establishment of new companies in an endeavor to protect the public from fraudulent claims, and the following year there was enacted the Securities Exchange Act regulating trading on the Stock Exchange. This was designed to curb speculation, he said.

Visitors introduced by Charles Harrison were Roy Thompson of New York, Charles Wagner of New York, N. Y., G. C. Womble of Ocala, and D. G. Anderson of Ocala.

Supreme Court

(Continued from Page One) formation about the bonds suggested to top Communist leaders convicted of plotting to teach violent overthrow of the U. S. government.

On other two, Arthur Dashiell Belmont and Abraham W. Hanson, will complete their sentences Sunday, but Field will not get out of jail until March.

Field said that state courts were wiser out "quickly" divorce cases in other states without considering carefully as to the details of the divorce. Specifically, he said that it must be determined whether the divorce was in fact a "divorce" or a "sham" divorce that spouse made an agreement to share in the property of the other spouse.

Candidates For Governor Show Small Expenses

TALLAHASSEE, Dec. 3.—(AP)—Florida's gubernatorial campaign moved slowly on the financial front last week.

The weekly financial reports filed with the Secretary of State's office today gave no indication of an intensive drive for votes by any of the candidates.

Alto Adams reported expenditures of \$1,478.21 and contributions of \$3,285. However, the expenditures included salary checks of \$500 for campaign manager Ed Straughn, \$200 each for secretaries Idelle Murray and Alben Sinclair and \$110 for headquarters from William Meyer.

The \$500 represented Straughn's monthly salary. He left a \$500 a month post as administrative assistant to controller C. M. Gay to manage the Adams campaign. Meyer's fee as the Adams' payroll at \$300 a month.

Adams contribution report showed all the money he has collected since announcing his candidacy and included \$1,000 of his own money.

The Adams' report included contributions of \$500 each from Cecil Barber of Perrine and Joe E. Hutchinson of Panama City, \$200 from A. E. Shivers of Ft. Pierce and \$100 each from George J. Martin, Jack W. Simmons and Sid Ryegeyman, all of Tallahassee, and N. W. Carleton, W. W. Carleton, Stuart Siegel, Rudolph Matson and L. W. Scott, all of Ft. Pierce.

Dan McCarty's report listed expenditures of \$113.95, chiefly for electrical work, and a \$50 contribution from B. D. Cole, Inc., of West Palm Beach.

Bralley Odham reported \$365.63 spent, mostly for campaign workers' salaries, and \$665 contributed. A \$200 contribution from B. F. Wheeler of Ocala was listed along with \$100 each from Kenneth Chase of Sanford, Wellborn C. Phillips Jr. and Walter Menges Jr., both of Orlando, and Mrs. Arantza Odham Tucker of Brunswick, Ga. Mrs. Tucker is Odham's aunt.

Dale E. Spencer of Kissimmee listed \$400 spent and nothing contributed. Bruce Stevens of Tampa reported no expenses and no contributions.

Russia Admits

(Continued from Page One) tioned in Hungary on the strength of Article 22 of the (Hungarian) peace treaty," forced the plane down near the Hungarian town of Paps. The crew was turned over to Hungarian authorities.

Tass identified the crewmen as Capt. Henderson, commander (pilot); Capt. Swift, second pilot; Sgt. Dan, air mechanic; and Sgt. James Albert Illiam, radio man.

The Air Force in Washington has listed the crewmen as Capt. John J. Swift, Okla.; Capt. Dave H. Henderson, Shawnee, Okla.; Sgt. James A. Elam, Kingsland, Ark.; and Tech. Sgt. Jess A. Huff, Spokane, Wash.

The Russian account continued: "A study of the route of the flight and the presence of a skilled crew shows that in this case there was a deliberate violation of the Romanian and Hungarian frontiers . . . for a definite purpose."

This purpose, Tass claimed, was to pick up spies and saboteurs in Yugoslavia and drop them on territory of the Soviet Union and her allies.

This, the account said, was borne out by the presence aboard the plane of operational military maps of "the most important areas of the U.S.S.R., including the Ukrainian Soviet Socialist Republic and the Volga area as well as maps of Czechoslovakia, Rumania and Hungary."

An further evidence the Tass report said:

1. A portable radio on board the plane was "set in soft packing" and with a device for dropping it down with a parachute and designed for use not on board the plane but in field conditions.
2. Six parachutes aboard the plane were, "as shown by their place and number, . . . not meant to be used by members of the crew but for other purposes."
3. Several packs found aboard contained "twenty warm blankets" to be dropped from the plane.

Tass continued that it was "completely obvious that the above named objects were not necessary to a plane carrying out a normal flight. Their presence becomes understandable if the plane was carrying out a flight with criminal intent, for purposes of dropping spies and diversions of the American intelligence service and for supplying them."

The Soviet report scouted U. S. speculation the pilot had lost his way, saying the plane had navigational equipment in good working order, means of communication and apparatus which would allow the pilot to handle the plane in complex weather conditions as well as at night.

Apparently the four crewmen landed safely. At one point the account quoted them as saying they were to Yugoslavia was included in the route assigned to them.

Altamonte

(Continued from Page One) the proposed project of being benefited by the municipality of the Town of Altamonte Springs, and "that to remain in fact incorporated town would violate the constitutional rights of the Co-relators."

The Town of Altamonte Springs is hereby ousted of all jurisdiction and municipal authority over the property herein described, the project and all other matters connected therewith.

An appointment as chairman of a committee to investigate the project and to report thereon to the Board of Supervisors of the Town of Altamonte Springs, Florida, is hereby made.

Blues In The News

By BOB ANTHONY

The Orange City Hotel was filled with music, chatter, dancing and gaiety Saturday night as the Navy held its third station dance there. There was an overflowing crowd to enjoy dancing to the music of Jack Holt. Acting as waiters were Fred Wood, Ken Jones and Wayne Bakken, all of NAAS, while Eddie Doris, also NAAS, was bartending. During the intermission, Ray Becker, FABRON 821, sat down at the piano and, with the accompaniment of Jim White, NAAS at the drums, entertained the crowd with some superb finger work on the "m".

FABRON 821, ray Becker, became a proud papa recently as his wife Jo Ann gave birth to a four pound, 12 ounce baby, Donna Ruth, Jo Ann and the baby are home in Arkansas and both are doing fine. When in Sanford, the Crozier's reside at 124 1/2 Palmetto Avenue.

Wedding bells have chimed for Nellie Ruth Carr of Orlando and J. Fringle of FABRON 821, originally from Mobile, Ala. Mr. and Mrs. Fringle are now living at 1132 Myrtle here in Sanford but are planning to move to Orlando in the near future.

Lt. Sullivan will be working harder than ever this week to get the finishing touches on the Varsity Basketball Team as they get ready for their opening game against Orlando Junior College on Wednesday night. The team will play at the Davis Armory in Orlando so let's all turn out for the game and give the team a little support.

Don't forget about the semester of English literature scheduled to begin Jan. 10. This is an extension course from Rollins College and will carry full college credit. Anyone interested should get in touch with the E & K Office either today or tomorrow.

The next weekend found six NAAS men returning from leaves spent at home. The men and the cities in which they spent their leave are: Joe Byrd, Bereh Bluff, Tennessee; Harry Smith, Elizabethton, North Carolina; Buddy Mock, Sanford, Fla.; Leo Hricak, Alexandria, Virginia; John Dowson, Chicago, Illinois; and Guy Sapp, Sanford, Fla. Welcome back aboard, men.

It seems hard to find Jim Meyers, FABRON 821, on the station any more since he bought that '48 Chevy while home on leave in New Orleans. I haven't seen the car yet so I called Jim the other day to ask him about it. Said Jim, "It's a two-door sedan—fine—couldn't be better. It's a beauty inside and out." Glad you like it Jim, but it sure is going to be difficult to keep you on the station long enough to write "Blues in the News" now, isn't it?

Truman's FEPC

(Continued from Page One) as another phase of the fight over civil rights proposals.

"For nearly two years it has been mandatory to include in such contracts (government contracts and subcontracts) a clause obligating the contractor to practice non-discrimination in the performance of his contract," Mr. Truman said in a statement.

"The clause specifically forbids discrimination on account of race, creed, color or national origin, relates to various aspects of employment; and extends to subcontracts as well as to original contracts.

"This non-discrimination clause in government contracts has been helpful in reducing the practice of discrimination. In the past, however, compliance has not been secured by any system of uniform regulation, or inspection, common to all the contracting agencies of the federal government, and widely understood by contractors and their employees."

Plantation Estates

By BESS PATTERSON

Some 22 people from here, attending the meeting of the DeLand Tourist Club had the pleasure of hearing the DeLand High School Band give an hour's concert. The music was remarkable, comparable to concerts given by the professionals.

Many of us, because of the fact that all over this wonderful country of ours, there are still many high schools with high standards training groups of fine, clean cut American boys and girls like these at DeLand, who will work as those children must have done, to produce such music for themselves and us.

For the entire hour the audience paid them the greatest compliment of complete silence and rapt attention except for the thunder of applause that greeted the completion of each number. No great concert musician could have held their audience to a more complete absorption. I for one felt very happy that my son had graduated from a school that could produce that group of children. The concert was conducted by John J. Heney, who participated in a xylophone duet.

Program:

1. Semiramida — Rosalyn, Manhattan Beach, Ga. Golup.
2. From the shores of the Mighty Pacific — Bobby Gould, Elena Polka — Gould and Chandler.
3. The Skaters, Juka Hoz.
4. Dance Hongroise, Saxophonist — Phil Hartling.
5. Comedian's Galop.
6. Carnival of Venice, Yuba —

Plantation Estates

By BESS PATTERSON

Mr. and Mrs. J. J. Heney celebrated their 35th wedding anniversary. Among those present were Mr. and Mrs. Paul Frotzinger, Mr. and Mrs. Milford Leonard, Mr. and Mrs. Caesar Robello, Mr. and Mrs. Gus King and Mrs. Bess Patterson.

Over 30 turned out for last week's Saturday Nite Dance Club. Mrs. Carol Blackburn was hostess and the refreshments were delicious apple cake and coffee, cake baked by Veronica Kellner. They celebrated Mae Leonard's birthday. The hostess for the previous week had been Mrs. Aaron Dungan. This week there will be movies again.

The Clee Club met on Wednesday night with its usual good attendance.

Our last letter from Jackie German from the Korean front was dated Nov. 17. He had started to receive the Sanford Herald and said it was wonderful to read about his beloved Florida in the midst of all that desolation. He was behind the lines for a three days rest and his fingers were so cold he could hardly hold the pencil but he said they had plenty of warm clothing.

The hardest thing we have had to do in a long time was to phone the news of Clarice Kink's death to the paper on Tuesday morning. I hope we may all try to help even in a small way to alleviate Herbert's grief.

On Wednesday afternoon the Very Reverend Lansing C. Putnam, Pastor in residence of the All Saints Episcopal Church of Enterprise, had a tea at the Plantation Estates Gallery for songs for members of his parish. He gave us a very interesting talk about the way he conducted his church, impressing upon us that the church was not a poor relation and should not be treated as such. The question of a heating system came up and it was agreed by the majority that the gas system offered by Mr. Henkel of Greens Fuel in DeLand seemed to be the most desirable. Pledges were immediately made for more than the down payment needed. This church was the church of the DeBary family and many of the new DeBarys attend it.

Mr. and Mrs. William G. Lutz have been made very happy by a visit from their daughter.

Mrs. Frederick W. Payne tells me that her daughter, Mrs. Richard R. Frey of Mt. Vernon will arrive here on Tuesday by train to spend the month of December and her husband will fly down on the 23 to join them all for Christmas. Mr. Payne just returned from a visit to them in the north.

The Plantation Estates Property Owner's meeting will be held on Tuesday, Dec. 4 at the Club Rooms. This meeting will feature the election of officers for the coming year. The Board of Directors met on Thursday night. Our assessor, Mr. Smith will give a talk at this meeting on taxation.

The men's Club of the Methodist Church of Enterprise held a supper meeting on Tuesday night which a number of DeBary men attended. Chili and pie was made was served. Mrs. Russell Cooper, president of the Women's Society of Christian Service, tells me a number of their members attended a meeting of the state WSCS at the First Methodist Church in Orlando.

One of the most interesting pieces of news we gathered today was the arrival by plane at

Two Automobile Accidents Reported

By BOB ANTHONY

Two automobile collisions, neither involving injuries, were reported by police over the weekend.

Miss Elise Hutchinson, an employee with the State Welfare Board, narrowly escaped injury in an automobile collision Saturday morning shortly after 10:00 o'clock at Celery and Summerlin Avenue.

Police reported that damage to Miss Hutchinson's 1947 Plymouth Coupe amounted to \$350. Preston P. Harrell, driver of a 1948 Plymouth sedan that collided with Miss Hutchinson's car, in a head-on collision on Celery Avenue, is charged with driving while drunk. Damage to Harrell's Plymouth was estimated at \$250.

At 6:20 o'clock Saturday morning a 1950 Chevrolet Sedan, driven by K. E. Allman on Park Avenue, was reported to have collided with a parked 1950 Dodge sedan, the property of Frank R. Bauer, Bradford, Pa. Allman is charged with careless and negligent driving and failure to report an accident. Damage to the Dodge was put at \$175.

Because of the influx of money and excitement into oil-rich Saudi Arabia, this primitive nomadic country is making a jump of centuries of technical progress in a few years.

Malik Insists German Voting Is Outside UN

East Germany Not To Take Part In Talks; U. S. Again Refuses Red Dismembering Plan

PARIS, Dec. 4—(AP)—Soviet Foreign Minister Andrei G. Malenkov insisted today on an unconditional prohibition of the atomic bomb. He branded as a "boycott" the refusal of the United States and other Western nations to admit inspectors after A-bombs were banned.

By STANLEY JOHNSON
PARIS, Dec. 4—(AP)—Russia's Jacob A. Malik said today that the question of German elections was none of the United Nations' business and therefore the Soviet Union could not vote to invite representatives of East and West Germany to take part in discussions.

Malik's rejection of the resolution submitted by Pakistan to extend the invitation made it almost inevitable that representatives of Soviet-occupied East Germany would refuse to appear here, the United Nations special political committee to express their views on all German elections.

The West German government in Bonn said it had a declaration ready to leave for Paris as soon as an invitation should be received.

Pakistan delegate Ahmed S. Bokhari formally proposed the invitation after British minister of state Selwyn Lloyd suggested that the presence of the German representatives would help the committee's work.

French delegate Maurice Schumann and U. S. delegate John Sherman Cooper backed up Lloyd's view and supported Pakistan's move.

Malik charged that the Western proposal was not actually aimed at reunifying divided Germany, but was directed toward consolidation of the split in Germany which they initiated three years ago.

"By raising the German issue in the United Nations, the three powers hope to prevent the creation of a peace-loving, independent Germany," he said.

In the disarmament talks the United States refused to accept any decision requiring Washington to accept on good faith alone the prohibition of atomic bombs and (Continued On Page Two)

Ruling Is Made By Supreme Court On Billboard Suit

Tallahassee, Dec. 4—(AP)—A billboard which keeps prospective customers from seeing a certain place of business is grounds for filing a damage suit, the Florida Supreme Court said today.

It upheld a ruling of the Palm Beach county circuit court which said the Midway Restaurant was entitled to have its rent reduced after its landlord, Edward M. Clonky, put a large sign on an adjoining property which he also owned.

The court said the record showed the sign cut off the view of the restaurant building and its advertising signs from passersby on the highway. The restaurant owners claimed the sign "had been erected out of spite and solely for the purpose of damaging their business and had actually damaged their business materially."

The circuit court found the sign had hurt the restaurant's business but it would be inequitable to require the sign to be destroyed or removed. It ordered the rent reduced in place.

The court also agreed with the Dade county circuit court in dismissing a charge of unlawful possession of gambling devices against El Isadore Rosoway.

The court in an opinion by Justice Glenn T. Smith, said the coin-operated machines were out of order and couldn't be used for gambling unless they were repaired.

"Criminal statutes do not condemn instrumentalities that may be brought into the picture in the future," the court said. "An act which attempts to prevent a crime on future acts or contingencies on the taking place of some future event cannot be upheld."

KIWANIS DINNER
The Kiwanis Club will celebrate its 25th anniversary with a Ladies Night dinner tonight at 7:30 o'clock at McKinley Hall. All new residents of the club will receive certificates of appreciation, said Joel Field, club president. There will be a large dinner given by members of the club.

First Prize Winner In Christmas Parade

Little Cynthia Roumillat, first prize winner in the float division in the big Christmas parade Wednesday, attracted all eyes with her outstanding portrayal of the "Blue Boy" painting by Ginepro. The float decorations, including the frame in blue and white, were made by her mother, Mrs. P. E. Roumillat, Jr. Cynthia first appeared as the "Blue Boy" in the recent art exhibit at the Sanford Grammar School. Judges for the parade were the Rev. H. L. Zimmerman, Earl Higginbotham and Earl Faust.

State Can Buy Building Near Capitol's Site

Private Concern Is Willing To Sell For Costs Only

TALLAHASSEE, Dec. 4—(AP)—The Florida cabinet took the first step today toward construction of a big new office building here after the Beverage Department cancelled a controversial 10-year lease it made for space in a new private building. Tentative plans for the new office building would call for enough space to serve the needs of all state agencies in Tallahassee for at least five years.

The State of Florida today was offered an opportunity to gain title to a controversial office building being constructed by private interests on a plot which lies within the long-range capitol center plan here.

T. T. Turnbull, president of Southern Syndicate which is erecting the building across West Pensacola Street from the Supreme Court building, in a letter to Governor Warren proposed three plans by which the State could obtain the structure.

One of the plans would credit the State with the building's cost.

Clp. Billy Bryant Returns From Korea

Clp. Billy Bryant, 19-year-old son of Mrs. S. Puleston of Orlando and nephew of Mrs. H. B. Pope of Sanford was among some 4,000 veterans of the Korean war who landed in the United States yesterday under the army rotation plan.

A graduate of Seminole High School, class of '49, Clp. Bryant has served a year of a three year enlistment with the Infantry.

He will go to Camp Jackson, S.C. for processing and then will come to Orlando on a 30 day furlough, Mrs. Pope said. He came back from his year in the war sans without a scratch, she added.

Municipalities Elect G. C. White As New President

ORLANDO, Dec. 4—(AP)—Mayor George C. White of Tallahassee this morning assumed presidency of the Florida League of Municipalities succeeding St. Petersburg's Mayor Samuel Johnson.

Other officers taking over with White are:

City Atty. E. Harris Drew, First Vice President, West Palm Beach; Commissioner Robert L. Williams, Second Vice President, Orlando; and Director, Commissioner W. Keith Phillips, Coral Gables; Mayor Haydon Burns, Jacksonville; City Manager Oliver J. Semmes, Pensacola; City Atorney George L. Patton, Starke; Mayor Sterling Hall, Bradenton; and Mayor Curtis Hixon, Tampa.

This morning the League heard House Speaker Designate C. Francis Bryant of Ocala call for "common solution of common problems" by State, County and Municipality.

He said only through cooperative research at all levels of government in the State can Florida bring efficiency of government and cut out numerous overlapping functions of government.

"The problem of government is becoming so complex that unless we insure ourselves the maximum benefits from tax monies, I can see no answer for the future of Florida," the Marion legislator said.

Bryant said he has pledged his "support and efforts" to creation of a central organization for study of governmental functions at levels in Florida.

Three Sanford officials yesterday attended the meeting of the Florida League of Municipalities yesterday at the Orange Court Hotel, Orlando. They were Clifford McKibbin, city manager; H. N. Saver, city clerk; and A. Edwin Shindler, city attorney.

Evans Cray, state senator from Stuart, talked to the manager on "looking ahead as the 1955 state session" and suggested that cities give special bills to legislative delegations in advance of the session so that there will be sufficient time to study them, said (Continued on Page Eight)

Volcano Erupts In Philippines Killing Hundreds

Aid Being Rushed To Small Island After Atomic-Like Blast

MANILA, Dec. 4—(AP)—Hibok Hibok volcano in the Central Philippines erupted today, killing at least 141 villagers. Rescue workers, clashing frantically in smoldering ash, which covered half a dozen settlements, expressed fear the casualty toll would reach several hundred.

MANILA, Dec. 4—(AP)—Hibok Hibok volcano on Camiguin Island erupted today in an atomic-like explosion and an unverified report said "several hundred" persons were killed.

A Weather Bureau meteorologist on the island said "several hundred" persons were buried under the rain of red hot ashes or caught in streams of flowing lava.

He said rescue workers began digging into the outer fringes of the ash and lava area tonight. Heat and noxious fumes hampered (Continued on Page Two)

Gov. Talmadge Starts Flow Of South's Largest Oil Pipe Line

BREMEN, Ga., Dec. 4—(AP)—A button was pressed today and petroleum products for defense and Southern industry flowed into the new, 700 mile tube of Plantation Pipe Line Company.

The gesture by the distinguished finger of Georgia's Gov. Herman Talmadge put all but the finishing touches on the \$22,000,000 pumping station 65 miles from

gives Plantation Pipe Line 1,087 miles of main and branch lines connecting the petroleum fields of Louisiana and Texas to the Southeast through 18 terminals and 18 pumping stations.

The line carries the production of 14 oil marketing companies and is made of 18 inch and 14 inch line.

If you are interested in figures the lines work seven days a week and at any given moment contains 63,000,000 gallons of petroleum products which are fed in at the rate of 25,000 barrels of 42 gallons each.

Plantation presently is working on the addition of 10 storage tanks of 50,000 barrels each at Baton Rouge and eight here. When completed they will give Plantation a storage capacity of 180,000,000 gallons.

Plans from the scene were the hard rock workmen and the special bridge crews who labored to cross 10 major rivers and to plant the line two feet underground.

The addition of the new line

Reds Demand 4 Limitations On Supervision

UN Delegation Quickly Rejects All 4; Commando Attack Takes Heavy Toll

MUNSAN, Korea, Dec. 4—(AP)—Communist negotiators insisted today on four limitations to supervision of a truce in Korea. The Allies objected to all four.

The Reds may have other restrictions the Allies don't like. But those four came out in response to lengthy questioning by United Nations delegates in a newly created subcommittee.

1. The Reds would be free to build air fields during an armistice in the south of the N. Command. But the Allies have plenty and the Reds haven't a single usable field in Korea.

2. Neutral inspection would be limited to strictly military. The Allies want inspection teams free to go anywhere in Korea.

3. A ban on troop rotation. That would mean an end to American veterans coming home after a year of service.

4. No interference with or inspection of any reconstruction in Korea. Communist newsmen at Panmunjon said such construction work in North Korea is underground and the Reds don't want the Allies to know where it is.

Questioning Allied subcommittee members were trying to find out if the Reds mean in a compromise proposal they offered Monday.

"They seemed puzzled when they asked a U. N. spokesman said. The new subcommittee—two men from each side—was created today in an effort to heat a 1952 \$7 deadline. A previous subcommittee drew a cease-fire line across the front to become effective if an armistice is signed by Dec. 25. That first subcommittee took more than three months.

Vice Adm. C. Turner Joy, head of the five-man U. N. Command negotiating team, tried to get more speed into negotiations. He proposed to the subcommittee to create a six-week trial of a clause for exchanging prisoners.

A U. N. communiqué said the Reds promised to deliver answers by Dec. 25. That first subcommittee took more than three months.

Lions Told Lack Of Funds Holding Up Fire Control

A fire control unit for Seminole county has been delayed because of lack of funds in the State Forest Service budget, E. C. Molpus, district forest officer, told a group of Lions today at their weekly luncheon at the Yacht Club.

Before the forest speaker made his talk on State forest fire problems, Lions Club Bank Chairman Harry Robson informed the group that there are no open dates for the blood drive before the first of January. He said he has a blood drive in January he said, pointing out that the present drive was for soldiers in Korea and should not be confused with the Lions' bank which citizens of Seminole County.

Nearly half of the State's unprotected forest land burns over every year. Mr. Molpus said the gathering and he estimated that between 25 and 10 percent of the (Continued on Page Eight)

Immokalee Market Stages Inaugural Auction Dec. 5th

WINTER HAVEN, Dec. 2—(Special)—The newest market in Florida's system of State Farmers' Markets offered its services to the farmers when the Immokalee State Farmers' Market, still under construction, held its first auction sale at 2:00 P. M. Wednesday, November 28. A light movement of squash, pepper and tomatoes were auctioned. Construction of this market began early in September of this year and every effort has been made to fulfill the promise of Nathan Mayo, Commissioner of Agriculture, to do everything possible to get this market open for the fall vegetable crop.

Mr. Mayo said, "Immokalee is developing into a real vegetable center and we want to lend every effort to assist those farmers in marketing their produce." We expect this market to become one of our best markets," William L. Wilson, Director of Florida State Farmers' Markets said in his weekly news summary.

The Palmetto State Market moved 2,391 packages of tomatoes, beans, peppers, and eggplant for gross receipts of \$14,619.80. No. 1 tomatoes brought \$8.10 to \$11.50 per bushel, pole beans averaged \$3.36, fancy squash \$7.75 pepper \$13.51 and eggplant \$3.94.

The fall cucumber deal came to a close during the past week on the Wauchula State Farmers' Market with cucumbers bringing as high as \$21.00 per bushel. During the past week 4,482 bushels were sold from \$4.00 to \$21.00 with the average price amounting to \$9.33. A light movement of pepper sold from \$9.00 to \$11.50, eggplant from \$1.50 to \$4.05, tomatoes from \$4.50 to \$9.95 while yellow squash averaged \$7.33, white squash \$5.44, beans \$5.11 and blackeye peas \$1.55. A total of 8,440 packages brought farm-

ers gross returns of \$69,872.00. Pepper, eggplant and tomatoes are expected to increase in volume, though cold weather has had a tendency to keep volume down. Quality has been good and the prices the best that market has enjoyed for a long time.

Tomato volume was somewhat less than anticipated due to bad weather of November 10th and 17th. Quality is improving and prices continue good. Approximately 71,828 crates of tomatoes brought price ranges for No. 1 green, field crates, field run, culls out, from \$4.10 to \$10.00. No. 2 90c to \$4.70 and pinks \$1.00 to \$9.00. Cucumbers brought from \$6.00 to \$12.70 for the best bushel; loose packinghouse pack, with approximately 1,100 baskets moving.

The Sanford State Farmers' Market reports bean, cucumber and eggplant volume diminishing in the Sanford section, though light supplies are anticipated throughout the current week. Celery volume is increasing in both Golden and Pascal varieties with the quality reported good to excellent. The quality of oranges, grapefruit and tangerines are improving daily and demand on all produce exceeds supplies.

Crops are reported looking fine in the Pahokee State Farmers' Market with planting continuing daily. Leafy vegetables, celery and cabbage expected to begin moving soon. A fair supply of beans brought \$2.00 to \$3.00, a light supply of corn sold for \$2.50 to \$3.00 and radishes from \$1.25

to \$3.00 and radishes from \$1.25

Draw Pearson, popular news columnist and radio commentator, is featured in Twentieth Century-Fox's science-fiction thriller, "The Day The Earth Stood Still," showing Tuesday and Wednesday at the Dix Theatre. Pearson held a picture of a strange space visitor.

Red Cross Set To Aid Captured U. S. Troops At Truce

Despite the uncertainty of the status of American prisoners-of-war in Korea, the American Red Cross has announced completion of a program to provide prompt emergency food and medicines to these prisoners if agreement on such help can be reached with the enemy.

The Rev. H. Lyttleton Zimmerman, chairman of the Seminole County Red Cross Chapter, said today that he had just received information from Red Cross President E. Roland Harriman that the project, a traditional Red Cross service to prisoners-of-war, is being carried out in cooperation with the Defense Department.

The Rev. Zimmerman pointed out that arrangements relating to prisoners-of-war of both sides is the fourth point on the agenda of the current armistice talks in Korea. He stressed the fact that the Red Cross objective is to be prepared with emergency supplies if agreement is reached in the talks or if arrangements should be completed through the International Red Cross Committee in Geneva.

Quoting Mr. Harriman, Chairman Zimmerman went on to say that the International Committee has repeatedly tried to get such an agreement with the enemy since shortly after the outbreak of the Korean conflict, but that the efforts have thus far been futile.

Principal item in the current aid program is 5,000 food packages which Red Cross volunteers in Washington assembled last sea shells is big business with 13,426,392 tons carried on the inland waterways of the United States in 1950 in greater volume than any other commodity, Chester C. Thompson, president of The American Waterways Operators, Inc., reported today on the basis of a preliminary tabulation by the Corps of Engineers, Department of the Army.

The volume of petroleum and petroleum products which moved during the year over the inland waterways was 90,407,214 tons. Coal and coke ranked second with 66,054,514 tons and sand and gravel came third with 43,808,284 tons.

Thompson said people are wrong in assuming that the logging days are over for our rivers. Last year 20,290,266 tons of logs were rafted down the rivers. Recovering and transporting to \$1.50.

Good crop conditions are reported in the Pompano State Farmers' Market area with fair supplies of fair quality beans, great quality eggplant and squash moving and an anticipated increase in volume in all three commodities. Demand is reported good on all items including peppers, field peas, okra, lima and cucumbers.

The Corps of Engineers reported 170 different commodities in inland waterway commerce during the year.

'Old Fashioned' Resourcefulness Saves Families

By MORTIMER ROE
Associated Press Women's Editor

Uncle Sam's one best hedge against inflation is his hard-working wife, Aunt Samantha.

Who goes to see the Aunt Samanthas who has cut corners, and who's got dollars in double duty. She's the one who is expected to feed the family well on the meager budget, keep the children looking neat and well-dressed and put her own best foot forward when Sam brings the boss home to dinner.

Aunt Samantha, of course, is the average American woman—the kind who has learned thrift from her mother and her grandmother and was taught to sew and cook and clean before she reached her teens.

In times of great prosperity she sometimes is inclined to forget these skills, but when the pinch comes she always has them ready.

She knows how to stretch the pot roast to make three meals, how to make over Mary's party dress and cut down her husband's linen jacket so junior can go to the high school prom.

She's an expert at saving pennies—and that's what she's having to do right now, despite the fact that the family's dollar income probably is greater than it ever has been before.

Aunt Samantha has found that the cost of clothing, for instance, has almost doubled since 1940, and so she has hunted out the old family sewing machine.

Nowadays she turns out an average of 27 garments annually, making it possible to dress her family on the same clothing budget as formerly. She makes cloth for the children, and herself, as well as turning out such things as the covers and draperies at a fraction of the cost.

A recent survey showed 30 million women are making all or part of their clothes today. Of this number, 10 million women spend an average of 28 hours per week at the sewing machine, single women 54 hours per week.

The same survey asked the women what they considered the chief advantage in making their own clothes and household decorations, and 76 per cent replied money saving was the main consideration. The home dressmaker said week and which are now being loaded at a West Coast port for shipment to Japan. In addition, approximately 1,200 special food parcels for those prisoners who may be ill or undernourished have been assembled and packed in Japan and are ready for distribution. Also, approximately 2,000 standard 1940 food packages, which Red Cross had previously shipped to Japan, are available for prisoners should circumstances permit, the Rev. Zimmerman said.

Two jumps ahead of the sheriff! Robert Cummings (left) is starred with Jerry Colonna and Terry Moore as con man, gun man and ladies' man supreme in Columbia Pictures' "The Barefoot Mailman," showing now through Dec. 7 at Prairie Lake Drive-In Theatre in Superintecola.

SMILING Paul J. Neil (above), who was fired from the presidency of the Missouri Pacific Railroad by Board Chairman C. E. C. Day, is shown in Washington after a hearing this afternoon on charges that he had lost his job. Neil, Executive Vice President of the railroad, had been fired for alleged mismanagement of the company.

 common or unclean.—Ac. 16:16.

**WHEN GOD A BABE DID
 CHOOSE TO BE**
 (From Spirit)

When God a babe did choose to be,
 The stars with wonder shook,
 For never had such Majesty
 Assumed as mild a look.
 Then, angels blossomed in the
 skies,
 As bright as daffodils,
 And shepherds shielled dizzled
 eyes,
 That midnight in the hills.

When God a babe did choose to be,
 All power from heaven came down
 To show us erring men how we
 Might wear a thorny crown,
 Might choose a cross—with no re-
 treat—
 That truth should still live on,
 And rise with nail-holes in her feet
 To walk across the desert.

—Margery Mansfield

United Nations casualties have
 now reached a total of 127,000,
 not including 212,000 suffered
 by the South Koreans. For a
 "police action" that's a lot of
 killed, wounded and missing.

Only about 1200 gamblers in
 the United States are reported
 to have applied for the new
 federal gambling stamp tax. The
 rest are evidently planning to
 break the law.

Streamlining of household work
 can save much energy and shoe
 leather, says an exchange. Proper
 placement of dishes alone, it says
 here, can save more than 65
 miles of walking in one year.

An editorial in the Tampa
 Tribune indicates that General
 Somochoy, who has spent
 some 35 years in the armed forces
 of the United States is about to
 retire after a distinguished career
 which took him from the Mexican
 border trouble in 1916 through
 the second World War.

Florida is leading the South
 in the solution of its racial
 problems, says Prof. Jesse Wal-
 lace Dees, Jr. of Bethune
 Bookman College in talk last
 week at the Florida Academy
 of Sciences at the University of
 Tampa. Just leave Florida alone,
 don't get in a hurry, and this
 problem will be solved, as a
 guide to other states how to do
 it.

The homestead exemption
 amendment has created a tax
 problem for Florida cities, the
 League of Municipalities meeting
 in Orlando is told. By eliminating
 the homesteaders from the tax-
 payers a big source of revenue
 was cut off. But that didn't re-
 duce the expenses or the demands
 for better service. If the people
 want new sewers, new streets,
 better lighting, better recreation,
 they have got to find some way
 to pay for them.

We hope everybody is reading
 the results of the investigations
 into the tax scandals. We like a
 good many others have been com-
 plaining for many years about
 higher and higher taxation. It
 seemed bad enough to us to have
 to sacrifice one-fourth of our
 earnings to the federal govern-
 ment even when we thought
 others were doing it too. Now
 we learn that if you were smart,
 you know the right people were
 willing to pay for special considera-
 tion, you got it, thus making
 our taxes higher than ever. And
 the same goes for you, if you
 said your tax.

President Truman, unable to
 secure passage of such a law by
 the people's representatives, is
 using a decree. He orders us and
 what is called "discrimination
 because of race, religion or na-
 tional origin" on defense jobs.
 Other words, if a white man
 has a better chance for the same
 job as a Negro man, he will get
 it.

Working Wives

A survey conducted by the American Association of University Women seems to indicate that more women are continuing to hold jobs after they marry. Among five hundred women questioned, all of whom had held full-time jobs before marriage, 233 continued to work full or part time after they were married.

There are still many persons who believe that married women should not work unless the step is dictated by financial necessity. But the importance of married women in the field of employment cannot be discounted.

Labor-saving devices in smaller houses, the trend to smaller families and the greater number of opportunities available to women in the business and professional fields are the major factors leading to more frequent desire of women to work even after they have become homemakers. For many families the earnings of a working wife make possible a higher standard of living and a greater sense of security.

The often-heard objections to wives working may be valid in certain instances, but in many cases the ability of a wife to earn may contribute vitally to the success of a marriage. Whether she works or not the knowledge that she can find employment if she wants to do so helps many a woman to regard her marriage as a partnership in fact, rather than in mere theory.

Truce Security

For a day or so it seemed that the report of a lull in fighting on the battlefields of Korea was the best news Americans had received in almost a year and a half. But the uneasy quality of the lull, even before the official disclaimers began to pour out of Tokyo and Washington, could not be missed. It provided the best possible explanation of the reasons for United Nations insistence on certain guarantees of good faith and durability in any truce agreement.

The lull along the battleline was immediately heavy with questioning. Was it real, or just a trick? Would it last, or would the enemy come sweeping across the line in a surprise attack? Did it really mean a mutual desire to stop fighting, or only a chance to breathe and gather strength?

Perhaps no one could ever be sure of the worth of assurances of good faith until enough time had passed to test them. But as a matter of fact, the assurances must be set down in the agreement for a truce. We want the blessed chance to relax from the strains of warfare and to feel that at least our men are secure from guns and bombs. But we wouldn't get that chance from a mere "gentlemen's agreement" to shoot only if shot at. A truce would be useless and perilous without specific assurances that both sides were in earnest.

The Common Scold

Stories of the Middle Ages are recalled by the news that in Camden, New Jersey, a woman has been charged in the municipal court with being a common scold. She received a 30-day sentence for shouting at officials in the county relief offices and abusing a policeman. Apparently she was a figure familiar in the courts for the excessive use of her tongue.

Centuries ago people took no nonsense from scolding women, or thought so. Sometimes a scold was fastened to a long plank, which was dipped into a stream or pond. The slang term was not in use, then, or the punishers might appropriately have told her to "dry up."

Now we have progressed beyond such brutal customs. As far as daily living is concerned these are gentler times. It has been decided that it is not necessary, as a matter of general policy, to keep women quiet. They have the last word on the subject.

THE WORLD TODAY

WASHINGTON, Dec. 4.—(AP)—In 1941, before we got into the war, President Roosevelt issued an order creating an FEPC—Fair Employment Practices Commission. It lasted through the war. Then it died because Congress wouldn't vote money to keep it going.

The purpose of the FEPC was to see that no one employed in a defense industry, or looking for a job in one, was discriminated against because of his color, race or religion. But it had no real power of its own. It lacked teeth.

It had to depend mostly on its ability to persuade an employer to stop discriminating. It could order him to stop, but it couldn't force him to and have its orders enforced.

In a showdown all it could do was appeal to the president. He had the power to seize a plant where the FEPC said the employer was discriminating. That was a weapon not pleasant to use.

Yesterday in Key West President Truman resurrected the FEPC with an order creating what he called a committee on government contract compliance. That's the old FEPC under another name.

And, like the FEPC of Roosevelt, it has no teeth. It can't compel anyone to do anything by itself. It doesn't even cover as wide a field as the old FEPC.

The old one, when it heard of discrimination in employment, could step in not only where there was a defense plant but into an industry supporting the defense effort, like a street car line which carried workers.

The jurisdiction of the new FEPC is limited entirely to those plants which have a contract with the government or are doing work for the government.

Every company getting a government contract must sign an agreement saying it won't discriminate against people in the company or looking for a job because of race, color or religion.

So the new FEPC is supposed to police these contracts, to see that the companies are doing what they can do. If it finds an employer is discriminating, nothing on its own. It can't order him to stop.

Too Late To Classify
 by RUSSELL KAY

Supporting your favorite state candidate with cash contributions, complimentary advertisements or boasts on the radio won't be officially recorded and you must place an actual value on it and file this information with the campaign manager, who in turn must pass the information on to the Secretary of State, and you can be pretty certain that the newspapers will tell the world about it when the statement is filed.

The fellow who grasps the hand of the winner after election and starts that old song and dance about how hard he worked, how much money he spent and how helpful his services were during the campaign will be laying himself wide open, for if what he is saying is true, there should be a detailed record of all his activities on behalf of said candidate on file in the Secretary of State's office.

The next governor will be in a lot better position when it comes to knowing just who did or didn't support him for he will have a very complete and interesting record available, and can step across the hall and check it for himself.

Of course the law doesn't say that you can't contribute or that you can't work for a candidate, but it does say that if you do you better make darn sure that it is on record and has been officially reported. If it hasn't, and an opposing candidate finds it out, you are going to be in plenty of trouble because the new law has teeth in it and you can go to jail or pay a sizeable fine if found guilty.

The law was so confusing that the Florida Press Association called upon Attorney General Dick Ervin for clarification as to how newspapers stood. Some editors, after reading the law, feared that they might be prevented from supporting a candidate in an editorial.

The Attorney General ruled, however, that since an editorial was not a thing of value, it didn't count. That ruling is a terrible blow to the editor who always contended that the most valuable thing a candidate could have was his editorial endorsement.

The Blue Nile River flows down from Ethiopia's Lake Tana carrying millions of tons of silt for the rich food plains of Egypt and the Sudan.

Although auroras, or "northern lights", sometimes give the illusion of touching the ground, none has been measured at a height of less than 35 miles above the earth's surface.

Value Of Factory Goods In South Up 400 Percent

ATLANTA, Dec. 4.—(AP)—Value of manufactured goods in the southeast rose by nearly 400 per cent last year over a comparable period in 1950, the U. S. Department of Commerce announced today.

The department said the estimated "value added by manufacture" for seven southeastern states in 1950 was \$6,807,545,000, as against \$1,768,318,000 in 1950.

Merrill C. Lofton, regional director of the Commerce Department, explained that "value added by manufacture" means the value of the goods less the cost of materials, supplies, fuel, electric energy and contract work.

The production figures are based on reports from manufacturers obtained during the 1950 census.

The rate of increase in Georgia, Alabama, Florida, Mississippi, North Carolina, South Carolina and Tennessee was greater than that for the nation as a whole.

In the United States, the figures were \$22,074,770,000 last year and \$4,632,918,000 in 1950. Salaries and wages paid in manufacturing plants in the southeast last year were estimated at \$3,491,129,000, which compared with \$885,290,000 in 1950 and the number of employees increased from 1,010,993 in 1950 to 1,469,509 in 1950.

Among the individual states, North Carolina led in all departments. That state showed a gain of 403 per cent in value added by manufacture of the goods produced last year as compared with 1950, or from \$548,962,200 to \$1,858,240,000.

The total manufacturing payroll last year was estimated at \$245,078,000 compared with \$240,834,500 in 1950, and the number of its manufacturing employees rose from 294,314 to 402,631 in the 11 years.

Georgia was second in value of the goods produced, total salaries and wages paid and in number of employees and a close third was Tennessee. Following were the figures for the other states with comparisons with 1950:

Value added by manufacturing, Alabama, \$247,383,600 in 1950 and \$1,034,231,000 in 1950; Florida, \$118,015,000 and \$439,650,000; Georgia, \$281,310,100 and \$1,227,442,000; Mississippi, \$73,462,000 and Tennessee, \$320,341,000 and \$1,172,271,000.

Total salaries and wages paid, Alabama, \$26,851,100 in 1950 and \$118,015,000 in 1950; Florida, \$50,011,200 and \$216,328,000; Georgia, \$144,549,100 and \$438,809,000; Mississippi, \$36,010,700

Miss Faye Johnson Weds Buddy Mock

Miss Faye Johnson, daughter of Mr. and Mrs. R. L. Johnson, became the bride of Buddy Mock, son of Mr. and Mrs. Gaylord Mock of Winfield, Kan. on Nov. 26 at the First Baptist Church, the Rev. W. P. Brooks, Jr., officiating.
 The bride had as her maid of honor, her sister, Miss Dorothy Johnson, and Richard Walker acted as best man.
 A lace gown of ice blue over taffeta was chosen by the bride, and a small blue veil and matching shoes completed her ensemble. Her bouquet was of sweetheart roses and tube roses. The maid of honor wore powder blue taffeta and carried a bouquet of pastel colored gerbera daisies.
 Mrs. Johnson, mother of the bride, was dressed in navy blue crepe with pink trim and a corsage of pink roses. Mrs. Mock, a light blue falls with which she wore a corsage of yellow and tallman roses.
 A reception was given immediately following the ceremony at 1004 Palmetto Avenue.

 Mr. and Mrs. Bluford Carrol and

Miss Barbara Pearce Is Guest Of Honor

Miss Barbara Pearce, bride-elect, was honor guest recently at two parties, one given by the Ladies of Khenet Court Oriental Shrine Club, and the other by the Rainbow Girls, of which Miss Pearce is past worthy advisor.
 The ladies of Khenet Court entertained at the home of Mrs. Brodie Williams on Friday evening. A gift of pieces in her chosen china was presented to the bride by the hostesses, and the ladies of the Daytona Beach Oriental Shrine Club presented Miss Pearce with a lovely Quaker lace cover.
 Prizes for games played were won by Mrs. Harry D. Gilmore, Homer E. Kilpatrick, Jr., and Mrs. John J. Carver.
 Flowers of yellow and white chrysanthemums were used as decoration and in the dining room a two layer wedding cake with love birds and miniature bride and bridegroom centered the table, which was overlaid with a lovely white cutwork cover.
 Refreshments of cake, coffee, and nuts were served the following guests: Mrs. W. W. C. Smith, Mrs. A. F. Ramsey, Mrs. Williams, Mrs. P. A. Rowland, Mrs. H. C. Moore, Mrs. J. A. Howard, Mrs. John J. Carver, Mrs. E. G. Kilpatrick, Jr., Mrs. S. C. Graham, Mrs. H. M. Pearce, mother of the bride-elect, Mrs. J. B. Robbins, Mrs. J. A. Howard, Mrs. Harry D. Gilmore, Daytona Beach.

The Rainbow Girls' party which was a miscellaneous shower was given at the Masonic Hall recently. Refreshments of dainty white cakes with yellow roses and silver leaves, nuts, and Coca-Cola were served by the hostesses.
 Those present were Miss Ethel Geisler, Winter Park, Miss Miriam Moxe, Miss Jane Davis, Miss Ada Adams, Miss Carolyn Hudson, Miss Phyllis Wyatt, Miss Jean Wilson, Miss Ann Whitaker, Miss Barbara Mattair, Miss Kay Hartzel, Miss Jane Ford, Miss Shirley Thomas, Miss Betty Cagle, Mrs. H. M. Pearce, Mrs. Joe Carver, Mrs. P. A. Rowland, and Mrs. J. P. Hartzel.

These present were Miss Ethel Geisler, Winter Park, Miss Miriam Moxe, Miss Jane Davis, Miss Ada Adams, Miss Carolyn Hudson, Miss Phyllis Wyatt, Miss Jean Wilson, Miss Ann Whitaker, Miss Barbara Mattair, Miss Kay Hartzel, Miss Jane Ford, Miss Shirley Thomas, Miss Betty Cagle, Mrs. H. M. Pearce, Mrs. Joe Carver, Mrs. P. A. Rowland, and Mrs. J. P. Hartzel.

Class Is Entertained By Mrs. V. M. Green

Mrs. Victor M. Greene was hostess on Monday evening to the Christmas party and regular meeting of the Philathon Sunday School Class of the First Presbyterian Church. A covered dish supper was enjoyed and gifts were exchanged.
 Mrs. Greene's home was decorated for the occasion with Brazilian peppers, and other greenery, and with many artistic Christmas arrangements.
 A program was presented during the evening with a talk on "The Christmas Spirit" being given by Mrs. P. B. Stephenson, and a Christmas story being told by Mrs. Mrs. Mrs. A. G. McInnis. In prayer, and the group sang "Silent Night" and "Joy to the World."
 Those present were Mrs. Robert C. Mize, Mrs. F. Farley, Mrs. W. G. Graham, Mrs. W. F. Holleyhead, Mrs. J. N. Gillon family who are living with Mrs. Carrolls parents, Mr. and Mrs. William Mattair while their new home is being completed in Sanford, spent Thursday with his brother, R. C. Carroll and family in Daytona Beach.
 A farewell dinner was tendered Corporal Al Pell on Sunday by his parents, Mr. and Mrs. Joe Masters. Many friends dropped in to say goodbye to Al before his departure.
 Mr. and Mrs. Levi Van Elten spent Tuesday in DeLand.
 Mr. and Mrs. Jim Brown of Sanford were guests Sunday of Mr. and Mrs. F. George.

Canasta Party Given By B. & P. W. Club

A delectable bridge and canasta party was given by the Business and Professional Women's Club at the Woman's Club on Friday evening. Many prizes, donations of Sanford merchants, were offered for the evening's games.
 The committee in charge of the party were Mrs. Eric Vihlen, Mrs. Gertrude Gilbert, and Mrs. Ed Little. Refreshments were donated by club members, and gladioli for decorations by Mrs. J. G. Haderer.
 Prizes were won as follows: Mrs. B. C. Schultz, women's high canasta; J. G. Haderer, men's high canasta; and Mrs. Luis Smiley, low canasta; high bridge; Mrs. Roy Tillis, low bridge; Mrs. W. P. Fields; and four prizes, Mrs. E. True, H. H. Coleman, Mrs. G. P. Herndon, and Mrs. D. E. Chapman.

Mighty Tennessee Ends Season As Nation's Top Football Team

By JOHN CHANDLER
NEW YORK, Dec. 4.—(AP)—The University of Tennessee, picked in a pre-season Associated Press poll as the most likely college football team to succeed, did just that and wound up today as the nation's No. 1 club for 1941. It was the first time Tennessee won the rating since the poll was inaugurated in 1936.

In the tenth and final AP poll, Tennessee received 188 first-place votes out of 307 cast by the nation's sports writers and sportsmen.

Tennessee, which meets Maryland in the Sugar Bowl game Jan. 1 at New Orleans, racked up a total of 9,706 points to beat out Michigan State, which was ranked No. 2 with 1,048 first-place votes and 8,899 points. Michigan State had been tabbed as the No. 1 team in the pre-season poll.

Dabenton, Maryland, which will be Tennessee's Sugar Bowl foe, received only 18 first-place votes, and placed up sufficient second-place votes to gain the No. 3 ranking with 8,899 points.

Tennessee, which rolled over 10 foes without a loss, never had a higher than No. 9 in the poll. The Vols were voted the No. 1 club behind Texas Christian in 1936, and behind Texas A & M in 1939. There last year, No. 4 in 1940, and again last year when Oklahoma was No. 1.

The same teams which were in the top 10 a week ago, when most schools ended their schedules, were there this week with a couple of minor changes. Georgia Tech, sixth last week, moved into fifth, dropping Princeton down a peg. Wisconsin, ranked from No. 7 to No. 8, and Stanford moved up a notch to No. 7. Illinois, which meets Stanford in the Rose Bowl at Pasadena New Year's Day, held on to the No. 8 place. Baylor, Georgia Tech's foe in the Orange Bowl at Miami Jan. 1, remained No. 9, and Oklahoma retained the No. 10 place, in a close finish with Texas Christian. Southwest Conference champs, T.C.U., No. 11, meets Kentucky, No. 15, in the Jan. 1 Cotton Bowl at Dallas.

The No. 1 ranking for Tennessee gives the Vols the Rev. J. Hugh O'Donnell memorial trophy, emblematic of the national football championship. Parlier O'Donnell, after whom the trophy was named, was president of Notre Dame from 1940 to 1948. The trophy will become the permanent possession of the school winning it three times. Michigan, Notre Dame and Oklahoma are now Tennessee have a leg on the trophy.

During the season just ended, Tennessee was voted No. 1 in 11 of the ten weeks in which the poll was conducted.

The top ten, with first-place votes and season's records in parentheses:

Rank	Team	Points
1	Tennessee (189) (10-0)	9,706
2	Michigan (104) (9-0)	8,899
3	Michigan State (104) (9-0)	8,899
4	Illinois (10) (8-1)	1,918
5	Georgia Tech (8) (10-0-1)	1,555
6	Princeton (81) (9-1)	1,428
7	Stanford (31) (9-1)	1,098
8	Wisconsin (10) (7-1-1)	958
9	Baylor (7-3)	637
10	Oklahoma (4) (8-3)	441

Others receiving votes: Notre Dame, Bucknell, U.C. Michigan, Texas, Louisiana State, Boston College, Purdue, Colorado, Alabama, Xavier (Ohio), Tulsa, Cincinnati, Mississippi, Miami, Wyoming.

Station Basketmen Play Sanford Team

DCLAND, Dec. 4.—(Special)—The Station Hi-Batters will play a practice basketball game today in the airport arena with the Sanford Auxiliary Air Station team. Coach Jay Patton said today that the game will give the Station basket ball players an opportunity to see the Hi-Batters in action before the opening of the season Saturday at the University of Florida.

Patton said that he would like to see the Hi-Batters start their season with a win over the Sanford team. He said that the Hi-Batters are a very good team and that he would like to see them play well.

Patton said that he would like to see the Hi-Batters play well and that he would like to see them play well.

Patton said that he would like to see the Hi-Batters play well and that he would like to see them play well.

The Sports Register

By KENT CHETLAIN

With the announcement of the Florida State League's acceptance of Jacksonville Beach as the only 10-inning Class D circuit in organized baseball. This addition of Jacksonville Beach came only after a thorough survey by the league officials and was taken rather reluctantly.

The real story behind the League's acceptance is that they actually didn't want the Beach entry. Instead the FSL wanted to have Ocala join to make up the tenth team. The reason is quite obvious. Ocala would have been more centrally located than Jacksonville Beach and would thus afford cheaper transportation and shorter distances for the more distant clubs.

Why didn't Ocala come in then instead of the Beach team. The answer lies in the fact the sufficient money necessary to join the FSL was not available in Ocala while Jacksonville Beach had the ready cash. There was no question as to where Jacksonville stood, but Ocala was a shot at the moon. Possibly Ocala will be in a position next year and if a shake up is in the offing you may be sure Ocala will receive preference over any club not centrally located.

The curtain has rung down for all intents and purposes on football and the infant basketball season has commenced. Scanning some AP copy recently we noticed the predominance of high scoring games. Baton Rouge amassed 103 points in beating Arnold. Arnold scored 65. In all 168 points were tallied in that game. This is almost 4 points per minute rate of scoring. Buffalo rang up 100 or nearly 3 points a minute for one team. This amazing scoring rate can be attributed to change in basketball tactics.

In years gone by a team that scored 55 points such as Arnold would have had enough to win easily. In those days the accent was on defense and a slow set game style with caution used to set up scoring. Today the so-called "fast break" is in vogue. This type of play is more interesting to watch from the fan's standpoint but requires less skill and manifests itself in the form of sloppy play.

Another contributing factor for the high scoring is laid to the emphasis on basketball in grade and high schools the nation over. This necessarily has brought about training of players into specialists and the recruiting of high caliber players. Americans are growing biter with caution used to set up scoring. Today the so-called "fast break" is in vogue. This type of play is more interesting to watch from the fan's standpoint but requires less skill and manifests itself in the form of sloppy play.

All in all you may list the reasons for our unusually high scoring games to the following factors: 1. Increased physical stature of players. 2. Increased number of competing players and greater competition producing better players. 3. Early emphasis on playing basketball. 4. Change in brand of ball played or fast break.

Alabama Outposts Sewanee Hoopsters

TUSCALOOSA, Ala., Dec. 4.—(AP)—Alabama showed speed and accurate shooting last night in swamping Sewanee, 63-40, in its opening basketball game of the season.

Alabama moved out to a 11-1 lead after about five minutes of play and was ahead by 22-4 at the end of the first quarter. Sewanee rallied slightly to trail by 48-18 at the half.

The margin was 61-31 at the end of the third quarter.

CHICAGO, Dec. 4.—(AP)—Phil Ojavorita, manager and long-time player for the Chicago Cubs, has won the J. Louis Comiskey Memorial trophy for long and meritorious service to baseball.

The trophy, named in honor of the late owner of the Chicago White Sox, will be presented at the annual dinner Jan. 1 at the Waldorf-Astoria Hotel.

Four minutes remained. Vanderbilt led 11-0. Tennessee trailed 11-0. Vanderbilt was leading 11-0. Tennessee trailed 11-0.

Parilli Elected Most Valuable In Conference

Kentucky's T Formation Quarterback Honored 2nd Time

By HENNING SLAPPEY
ATLANTA, Dec. 4.—(AP)—If Babe Parilli had another year in college he might make a habit of this.

Parilli today was elected "the most valuable football player" in the Southern Conference. Parilli ranks with Coach Bear Bryant and Adolph Rupp as Kentucky's three great men of sports but for the Kentucky Babe this year's valuable player designation almost on top of reputation.

The Babe winds up his college football career in the Cotton Bowl New Year's Day, another year in Parilli's record book. As a sophomore in 1940 Parilli chased Auburn's great Travis Tidwell to the last yard to see Tidwell pick up the necessary yardage to win the game.

As a junior last fall Parilli easily was first choice of coaches, scouts, sports writers and sportsmen for the individual honor given an SEC player—most valuable in the poll conducted by the Associated Press.

This fall, playing on a team which lost four games, the Babe again took the honor without a serious challenge. He accumulated 46 voting units to 26 for Hank Lauricelli, Tennessee's ace tailback.

Third man in voting was Bill Wade of Vanderbilt, like Parilli a "T" formation quarterback. The Birmingham Quarterback Club has named Georgia Tech's Ray Beck as the most valuable lineman in the conference and today Beck topped the poll among linemen for the AP honor.

Other players receiving votes in the most valuable race were Zeko Bratkovski, Georgia; Bart Reichler, Tennessee; Marlon Campbell, Georgia; Bob Werckle, Vanderbilt; Darrell Crawford, Tech; and Bobby Marlow, Alabama.

All of those players except Bratkovski were elected Saturday to the only all-southern team which goes into official records. Bratkovski won a second team job.

Parilli's record of winning the most valuable title twice and placing second in the race for the honor as a sophomore, justifies all the effort football Coach Bear Bryant has spent on the Rochester, N. Y., junior.

Together with Bryant, Parilli is one of the main reasons for making Kentucky a school with outstanding records in two major sports—football and basketball. Heoforo Bryant and later Parilli, arrived at Kentucky, the Wildcats of Coach Adolph Rupp made the big Lexington school far better known in 3,000 fans in a basketball headquarters.

MELBOURNE, Australia, Dec. 4.—(AP)—Dick Savitt of Orange, N. J., and Vic Seixas of Philadelphia, two of Uncle Sam's main hopes of recovering the Davis Cup—slashed their way into the semi-finals of the Victorian tennis championships today.

Savitt, fighting like a tiger, battled back to overcome Australia's Mervyn Rose, 6-1, 2-6, 4-6, 7-5. In a bitter two-hour battle that had 100 fans in the Kooyong Club stadium tense at the edges of their seats.

Striking along the sideline, Navy's John Raster (49) is clear and away on his spectacular 101 run for a touchdown against Army. It happened early in the first period of the 52nd annual classic, played at Philadelphia. Navy won easily 42 to 7. (International)

Sports Roundup

NEW YORK, Dec. 4.—(AP)—Ned Irish argues that the trouble with no basketball attendance is that the season starts too early and lasts too long—for New York and Boston, at least. The other NBA clubs, he says, have different ideas. And for college games at the Garden, Ned figures they're just dropping back to pre-war levels, when 12,000 was considered a pretty good crowd.

The Army-Navy game apparently proved that the NCAA television committee might as well go out of business. There's no competition. Any time you hear an announcer describing the Notre Dame box formation as a "wing-T" he'll go to the stadium to see what's going on. Falling in line with U. S. Golf Association regulations, the Junior Chamber of Commerce has reduced the age limit for its junior golf tournament to 18 years.

Southern California will play in the Dixie basketball classic at Raleigh, N.C., Dec. 27-29. They must have put rubber in the M.-son-Dixon line to stretch it that far.

Winning Coach At the Lehigh U. football banquet, Athletic Director Percy Leachler presented each player and member of the varsity coaching staff a gold tie clasp inscribed with the score of the Lehigh victory over Lafayette, 32-0. After he finished handing out the trophies, Leachler remarked that he hoped the recipients appreciated the tokens because their purchase had cut deeply into the athletic budget.

One-Minute Sports Page Five of the first 15 players on Slat's Gill's Oregon State basketball squad are 17-year-olds. A recent reservation indicates a preference for the 1952 American Bowling Congress tournament at the Madison Square Garden.

Rolland Logan, noted purveyor of "kikapoo joy juice" and other internal and external aids to athletic performance, is expected to arrive in New York today.

Paul Sullivan, 6-foot, 8-inch center prospect at 30 points, leading prospect in 30 points, leading prospect in 30 points, leading prospect in 30 points.

Move Is On To Restore Olympic Medals To Great Indian Athlete

By ORLO ROBERTSON
NEW YORK, Dec. 4.—(AP)—Proposals to restore to Jim Thorpe the medals won by the nation's greatest all-around athlete at the 1912 Olympic Games in Stockholm have been received with mixed reactions in both this country and Europe.

The medals, together with the trophies presented to the Sac and Fox Indian by the Czar of Russia and the King of Sweden, were taken from Thorpe when he was ruled a professional for having played minor league baseball prior to the 1912 Olympics. He was a student at Carlisle Indian Institute in Pennsylvania at the time.

The 63-year-old Indian, in need of financial aid, recently underwent an operation for the removal of a skin cancer on his hip. At present he is living in New York and hopes to organize an all-Indian song and dance troupe.

As part of a campaign to put Big Jim back on his feet, a group of prominent sportsmen and businessmen have organized a "Fair Play for Thorpe Committee." The return of the medals is the chief objective. The committee also plans a testimonial fund raising dinner.

The Deception medal won by Thorpe at Stockholm was awarded to runner-up Hugo Wislander of Sweden by the International Olympic Committee. The Pentathlon medal was given to Ferdinand Bie of Norway, second in five-event competition.

Wislander handed over the medal to the Swedish sports museum last Thursday, only a few hours before he learned of the new move by Thorpe's friends.

Major Fredrik Rude, head of the sports museum, told the Associated Press in Stockholm: "The medal is firmly anchored here and will continue to be so long as I have a say in the matter."

From Kristianund in southern Norway, Bie, who is 63 and practicing medical doctor, told the Oslo Bureau of the Associated Press: "I am glad to let Jim Thorpe have the medal."

The Norwegian doctor said Thorpe was a great sportsman and that he deserved the medal. "I'm sorry they took it away from him," he said.

From Lausanne, Switzerland, headquarters of the International Olympic Committee, Otto Mayer, the IOC chancellor, said he has no knowledge of the whereabouts of any of the trophies given Thorpe, including the huge awards presented by the Czar and King Gustav V, who died recently. On making the award the Swedish King said:

"You, sir, are the greatest athlete in the world. Thirty-eight years later Thorpe was voted the top athlete of the century in a poll of sportswriters and broadcasters conducted by the Associated Press."

Jim's friends haven't received much encouragement from Avery Brundage, vice president of the IOC, or the Amateur Athletic Union.

"I would be happy to subscribe to a fund to help Jim Thorpe," Brundage said in Chicago. "But I don't think it would be possible to restore his medals to him or to give him copies of them. I don't think the medals themselves would help Jim. He needs cash."

3 Team Deal For Baseball Talent Brews At Meeting

COLUMBUS, O., Dec. 4.—(AP)—A three-team player trade involving Brooklyn, Cincinnati and Philadelphia Phillies is brewing at the Minor League Convention today and may be consummated during the big league meeting in New York over the weekend.

The transaction represents more than \$750,000 worth of playing talent. If the deal can be worked out—and only one player stands in the way—here is what will happen. The Phils will get slugger First Baseman Gil Hodges, who is the No. 1 man in their want list, and Rookie Shortstop Bobby Morgan of Brooklyn. They will give up outfielders Del Ennis, Dick Sleser, First Baseman Eddie Walkus and the choice of Pitcher Bubba Church or Russ Meyer. The Dodgers will send Ennis and Pitcher Ralph Branca to the Reds for Pitcher Herman Wehmer and Outfielder Johnny Wyrostek.

Here is what is holding up the deal. The Phils have offered Catcher Andy Seminick instead of Ennis. The Dodgers insist on Ennis because he is the man the Reds want for one of their star hurlers.

While the big leaguers were trying to cook up some deals, the minors methodically went about their business drafting players of lower classification. In all, 56 players were selected by the nine triple A, double A and single A leagues at a cost of \$224,000. Last year 77 players were drafted. The class B and C leagues were to wind up the draft this morning.

The actual opening of the golden jubilee convention follows the close of the draft session. Arrangements up for discussion included the elimination of the 24-hour rule, the high school rule, the wiping out of restrictions on radio and television, and the return of the old bonus law.

The first phonograph company was the Edison Speaking Phonograph Co., formed April 24, 1878.

Sanford Being Considered For Defense Exhibit

Sanford may become the Florida headquarters for a permanent exhibit showing items on which Florida business men bid for defense contracts, the Seminole County Chamber of Commerce has been informed by Capt. R. S. Hetherington, small business specialist of the Florida military district.

Roughly 50 by 100 feet of floor space would be needed for the exhibit which would have to be staffed and financed locally, according to Chamber of Commerce Manager Forrest Breckenridge.

The display is part of an government program to aid small business men to get defense contracts and would feature models, plans and specifications, diagrams and information on items currently being purchased under the national defense program which it is possible to procure in Florida, according to a letter to the Chamber of Commerce from Capt. Hetherington.

The exhibit with its change in displays would make Sanford a place for Florida business men, Capt. Hetherington suggested. He said Sanford is being considered as a possible location for the exhibit because of its central location in the Florida peninsula.

Volle Williams, Sr. has been appointed chairman of a committee to work out details making it possible for Sanford to secure the exhibit.

Senator Byrd Hits FEPC Decree Of President Truman

WASHINGTON, Dec. 4.—(AP)—Senator Byrd (D-Va.) today denounced President Truman's new Civil Rights order as a step in a program aimed at "destroying all the authority of the states."

Byrd's criticism was directed at yesterday's presidential executive order creating a committee to eliminate any racial or religious discrimination in defense production under government contract.

The Virginia senator already on record against another term for Mr. Truman told reporters the new order is "an additional reason for the opposition of those who want to preserve our form of government."

The executive order, Byrd said, is "right in line with what the President has been trying to do through legislation." He added: "Having been unable to get his Civil Rights bills passed by Congress, he now has gone as far as could be by executive order."

A leader of the Southern opposition to the President's Civil Rights program, Byrd said he has little chance for enactment of the legislation at the next session of Congress convening in January.

"But if the President should be re-elected, that is a mandate for Civil Rights in 1952," Byrd declared.

He said the South's opposition to Mr. Truman's program is "a matter of Civil Rights," but a matter of destroying all the authority of the states." He added that the controversy "transcends the racial issue."

Senator Fulbright (D-Ark.) said earlier that if the FEPC order is used by Mr. Truman is enforced "in a political way" it may interfere with defense production.

Citrus Wages

(Continued from Page One)
of 45 cents per field box for tangerine pickers.

The scale proposed for lemons is 1/2 cent per field box. Proposed pay for truck drivers is \$1.05 an hour with no overtime.

A scale of 95 cents an hour was proposed for walking-line-time spent by pickers or piece work employees at the grove but not in picking.

For both orange and grapefruit pickers, the committee recommended a three cent differential for clipping.

Concurring with Roberts in the majority report were C. B. Nichols and Evidy, both industry members. Dissenting were Paul Chapman of the AFL and S. E. Sims of the CIO. Roberts served as public representative on the committee.

The majority report followed the recommendations of industry representatives in two instances. Recommendations of industry and public representatives were ignored. All of labor's recommendations were ignored.

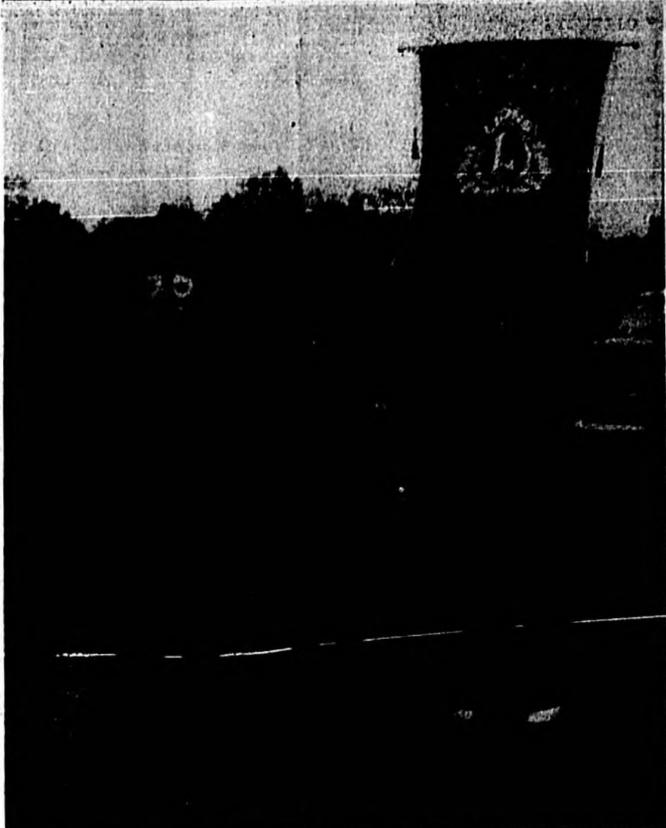

Evidence submitted at a recent hearing in Lakeland, Fla., was not adequate to determine a permanent pattern, according to the committee.

Hearings to be held in Sarasota and Orlando, Fla., to study wage and cost-of-living differences in those areas.

The labor representatives in the hearing report seem to be satisfied with the committee's findings. They are, however, dissatisfied with the committee's recommendation that the government should not be involved in the dispute.

"Amplification" being made in a hearing is being built up on a basis of a few cents difference between the State and

Lions On Parade

Plenty of fun was provided for onlookers at the Christmas parade last Wednesday by a Lions Club Trio which included a "real live lion, in the person of Jack Stemper, grocer, at left, a real Sanford beauty "modeled" by Al Skinner, produce merchant and a gr. '50s' banner carrier, right, who was none other than John Ivey, merchant and city commissioner.

British-Egyptian Riots Flare Up. Report 20 Killed

CAIRO, Egypt, Dec. 4.—(AP)—British troops clashed with Egyptian police and civilians today in the second day of bloody fighting in the Suez Canal zone. A British communique said there were unconfirmed reports that 20 Egyptians were killed. An Egyptian official said eight Egyptians were killed and eight were wounded.

The British version of today's fighting said three British Bren gun carriers were attacked by noise and armed civilians at the edge of the city near a filtration plant. One British officer and a non-com were wounded.

A spokesman for the Egyptian governor of Suez, Ibrahim Zaki El Khouli, said eight Egyptians were killed and eight wounded in a one-hour battle that ended about 4 P.M.

The governor said all was quiet after the battle and that strenuous efforts were being made to restore order.

Today's fighting came on the heels of yesterday's flare-up in which 50 persons were killed, according to the Cairo newspaper Al Balagh. Both Egyptian and British sources said the day provided the highest casualties since the Anglo-Egyptian rift of Oct. 15 but differed on the total of dead and wounded.

Al Balagh quoted the Egyptian governor of Suez as saying a total of 16 dead yesterday. These included four Egyptians, eight British-led Mauritian troops, two British troopers and a British major missing and "presumably dead."

American Plane

(Continued from Page One)
blankets and maps which both the Soviet news agency Tass and a Hungarian note claimed were to be dropped to underground groups inside the Soviet Union and her East European allies.

All such planes have to carry five heavy blankets per person, parachutes for each member of the crew, plus two additional ones which can be dropped for use and a portable radio transmitter in sending BOB signals in case of an accident, Abbott said.

Abbott was reluctant to say whether he expected the U. S. request to be fulfilled by the Hungarian government. Some diplomatic sources believe the four Americans will be set free in a relatively short time. They based their opinion on the fact that the Hungarian charges did not accuse the crew members themselves of subversive aims.

The Hungarian note charged that the plane was to land at Belgrade, Yugoslavia, and then was to be used with the "criminal aim of helping spies to come to Hungarian territory."

The plane disappeared while on a flight from Erling, Germany, to Belgrade.

Lions Meeting

(Continued from Page One)
forest land in Seminole County burns over each year.

The district forester pointed out that lack of fire control costs between 5 and 10 million dollars a year in timber damage. In addition, he said, the fires take off valuable cover that protects wildlife and aids in the preservation of underground streams.

Seminole County will get a fire tower and fire fighting equipment consisting of a tank truck, fire suppression plow, tractor and transport as soon as State funds are available, he said. The County has already approved an agreement with the State Forest Service to shoulder what will amount to about a third of the cost by having three cents per acre per year for protection of Seminole's 125,000 acres of timber land, according to Mr. Molpus.

Mr. Molpus said it was doubtful funds would be available from the appropriation in the State Forest Service before the next session of the Legislature in April of 1952 for the inauguration of a fire control unit in Seminole County.

Applications For Gambling Stamps Dwindle To Six

JACKSONVILLE, Dec. 4.—(AP)—Applications for the 25¢ gambling occupational tax dwindled to six today after yesterday's deluge of more than a hundred, the Collector of Internal Revenue reported today.

Officials said 25 to 30 incomplete applications had been returned to the collector but would probably be filed later.

Officials said they had received 100 applications for the tax, but only six were complete enough to be accepted.

Officials said they had received 100 applications for the tax, but only six were complete enough to be accepted.

Georgia Welfare Rolls Are Closed Again To Public

ATLANTA, Dec. 4.—(AP)—Georgia welfare rolls, open to the public since Oct. 23, are confidential again until state laws meet the requirements of federal legislation.

State Welfare Director Ann Kemper, who ordered the rolls opened to the public, yesterday had them closed because Georgia laws do not specifically prohibit use of the lists for political or commercial purposes. Kemper said the Federal Security Agency failed to approve his regulation opening the rolls for this reason.

"We must postpone the opening of the rolls to the public until our state law can be amended by the General Assembly," Kemper said.

A Georgia law of 1937 requires county welfare offices to keep lists of all relief recipients available for public inspection.

The lists were made secret by federal law after the late Gov. Eugene Talmadge of Georgia and other governors began publishing the lists.

Georgia's 1951 legislature asked Congress to repeal the Secrecy

Shippers Ask For Grove-Runs Over Florida Borders

LAKELAND, Dec. 4.—(AP)—About 170 small independent citrus growers swamped a federal control committee meeting here today to ask permission to truck "grove-run" fruit across the state line.

The committee did not take immediate action on the request, presented by Barney J. Cohen of Orlando, President of the Florida Independent Growers Association. The meeting continued this afternoon.

The federal citrus marketing agreement which the committee administer requires fruit going into interstate commerce to be graded and sized.

Cohen said his group would move only ripe fruit that met all quality requirements, but wanted to truck it direct from the grove without the expense of separating it by grade and size. Cohen's group has been trying for several years to get approval for interstate trucking of this "grove-run" fruit.

Cohen said many members of the association have been selling oranges at 40 to 70 cents a box. He quoted the average on northern auction markets yesterday as \$2.52 a box, which includes packing, handling and shipping costs.

He produced letters from several truckers who said they would be willing to pay \$1.50 a box for oranges on the tree if they could truck them directly from the grove. Cohen said between 600 and 1,000 truckers were ready to move if the restrictions were lifted.

"We will start now with Wall Street moving into the Florida picture," Cohen said. "We are being treated like rats and are looking for a rat hole to crawl into."

The appearance of the crowd of small growers caused the committee to transfer their meeting from the Florida Citrus Commission to the larger city auditorium.

Korean War

(Continued from Page One)
would allow the subcommittee two hours to study the Red replies before their second meeting opens.

SEOUL, Korea, Dec. 4.—(AP)—British and American Marines ripped through Red defenses 130 miles behind the front in the most powerful hit-and-run commando raid of the Korean War, the Allies announced.

The Anglo-American force stormed ashore on the east coast Sunday night under cover of heavy naval gunfire. The troops shot up Communist communications and transport midway between the Soviet frontier and the front.

The announcement was withheld until, presumably, the raiders had withdrawn. U. N. Naval headquarters listed two British Commandos as wounded. No U. S. Marine casualties were reported.

The surprise assault on the beaches near Tanchon, 170 miles north of the 38th Parallel, broke through heavy Red machinegun fire and carried the raiders astride Communist coastal transport lines.

Another Denver Area Air Crash Claims 3 Lives

DERBY, Colo., Dec. 4.—(AP)—A United Air Lines DC-3 training plane crashed on the Federal Reservation of the Rocky Mountain Arsenal today, killing all three men aboard.

They were a pilot-captain and two student pilots receiving training. The plane had taken off from Stapleton Municipal Airport at Denver about 8:30 A. M., EST, and crashed an hour later.

This was only 20 hours after a B-29 bomber from Lowry Air Force base plunged into an exclusive Denver residential area, killing eight airmen.

Today's crash was about five miles northeast of Denver. The weather was clear and mild.

United Air Lines identified the victims as J. D. Koehler, the instructor; Lawrence G. Wilson, 28, of Boulder, Colo., and Wayne C. Moon, El Cerrito, Calif. No address for Koehler was immediately available.

The plane was one of several which the air line sends off at hourly intervals for training of future pilots and co-pilots.

Generating Plant On Flat Car Aids Power Company

A new and unique generating plant, mounted on a railroad flat-car, was christened and started on its first assignment by Florida Power & Light Company last week. It is one of two such plants designed by Florida Power & Light engineers for emergency and seasonal use wherever needed on its state-wide system.

Augmenting the utility's fleet of nine smaller generating units mounted on highway trailers, the railway plants can also be quickly moved into an area as an emergency source of power.

Designed for continuous operation if necessary, they will normally supplement power supply facilities wherever they can be used to best advantage on the Company's system.

Mounted on special 74-foot flat-cars, the railway plants are nearly twice as long as the standard 40-foot boxcar. Each contains a 1700-horsepower Diesel engine and a 700-kilowatt generator.

They are completely self-contained, including transformers, switchboards, fuel tanks and even living quarters for the plant crew.

The silver sides of the car (called FP&L's familiar Reddy Kilo-watt) figure with the lightning-stroke arms and electric lamp nose as saying, "I'm Reddy."

Egypt Revokes Ban Of AP Cairo Chief

CAIRO, Egypt, Dec. 4.—(AP)—The Egyptian government ruled last night that Associated Press Correspondent Fred Buzay may continue his work in Egypt, reversing its earlier decision to expel him.

Dr. Abdel Basset El Hagragi, director of the Interior Ministry's Press Department, telephoned the decision to Buzay.

An order to reinstate his residence permit was signed by Interior Minister Fouad Sorag El Din Pasha.

No official explanation was given in Cairo for the decision to expel him nor the reversal of that decision. The latter action, however, followed a telephone call to

Senator El Din From Egypt's Ambassador In Washington, Kamel Abdel Bahim Bay

U.S. Ambassador Jefferson Caffery had protested the incident as a "most unfortunate consequence."

Cairo press reports had accused Buzay of "bad faith" and of sending pro-British dispatches.

The capybara, a native of South America, is the largest of all living rodent animals, being in excess of 3 feet in length.

U.S. Budget Calls For 143 Unit Air Wing

Defense Secretary Lovett Discloses 53 Air Force Unit Increase For 1952

WASHINGTON, Dec. 5.—(AP)—Defense Secretary Robert Lovett said today the budget plans for next year call for an air force of 143 wings. The present force is about 90 wings.

Of the new force, 120 would be combat units (bombers, fighters, reconnaissance and other types) and 17 troop carrier wings for airlifting ground combat and paratroop units.

In answer to news conference questions, Lovett said that purely as a basis for preliminary estimates, the National Security Council and the Defense Department had used a \$45,000,000,000 figure as a starting point for working on the 1953 fiscal year budget.

But he emphasized that actually there is yet no fixed floor or ceiling on the military budget request to Congress which still must have final approval by the White House and budget bureau.

In answer to other questions, Lovett said:

1. At the home meeting of the North Atlantic Treaty Organization (NATO) nations, which he attended, it was decided to defer the much-debated question of raising a supreme commander for the North Atlantic Ocean until the next session in Lisbon in February.

2. Most of the shipments to Europe so far have been out of stocks and are being sent in to maintain the European defense force of the NATO countries.

3. Asked whether Western European forces would be given equipment priority in troops in the United States, he said that depends on allocations decided on by the joint chiefs of staff. But, he added, to accelerate Eisenhower's force in 1952 there will be an exercise of allocation controls.

4. The bite on the civilian economy by the military requirements is not being felt now to the extent it will be by the middle of 1953. (Continued on Page Eight)

Tax Paying Time

Photo By Essex Studio
One of the largest tax-payment checks received by Seminole County in payment of 1951 county ad valorem taxes on property owned by the tax collector from the Southern Bell Telephone and Telegraph Company. The payment totaled \$12,113.22 and was delivered by Sanford Bell Manager E. V. Turner to County Tax Collector John L. Galloway.

Sanford Kiwanis Club Celebrates 38th Anniversary Of Its Founding

The Kiwanis Club celebrated its 38th birthday in Sanford with a ball and supper and entertainment last night at McKinley Hall, and certificates of appreciation were presented to past presidents, officers and representatives by Joel Field, club president, who served as toastmaster.

Letters of congratulation to the club from Claude B. Hillman, president, and Pete Peterson, secretary of Kiwanis International, were read by Ralph A. Smith, immediate past president of the club.

The 38 candles on the big three-layered cake, baked especially for the occasion by Mrs. M. D. Gatchel, were lit by 11-year-old Albert Pinkney Connelly, III, grandson of the late A. P. Connelly, first president of the Sanford Kiwanis Club. Albert's father, A. P. Connelly II, assisted Edward F. Lane, a charter member of the club, to cut the first piece of the cake.

Following the dinner, served cafeteria style by Mrs. Gatchel, to the Kiwanians, their wives and guests, new members of the club were called upon to serve the cake. These included Forrest E. Breckenridge, Ted Williams, John Pierson, J. C. Davis, Ralph A. Cowan and D. L. Harper.

President Field, in presenting certificates of appreciation to past presidents of the club, pointed out that it had been organized on Dec. 5, 1913, in appreciation of the work of the initial president of the club, A. P. Connelly, Mr. Field presented a certificate of appreciation to the grandsons.

"We shall always respect his memory," said Mr. Field, as he told of the achievements of Mr. Connelly, and pointed out that he was wearing the Kiwanis president's pin which had been worn by Mr. Connelly and other presidents of the club.

Judge James G. Sharon was the first past president to receive the certificate personally. G. V. Horace, Rotarian and Atlantic Coast Line superintendent, was presented the certificate of the late T. E. Dumas, president of Sanford Kiwanis in 1921, and former A.C.L. superintendent.

The next certificate for the Rev. E. D. Brownie, president of the club in 1923, who was unable to be present, was received by Dr. H. L. McCaslin.

Edward F. Lane, club president in 1929, and a past lieutenant governor, declared that it had indeed been a great honor to have been a charter member.

T. W. Lawton, president of the club from 1931 to 1932, was also presented a certificate. (Continued on Page Two)

Commies List Five Neutrals "Acceptable"

Truce Talks Stalled As Reds Continue Silence To Other U. N. Questions

MUNSAN, Korea, Dec. 5.—(AP)—Allied negotiators asked questions for two hours and a half at an Alice-in-Wonderland sort of Korean truce session today—and got the answer to but one question.

The Reds defined what they meant by neutral countries and gave examples: Communist Czechoslovakia and Poland, or non-Communist Switzerland, Sweden and Denmark.

But the communists and U.N. Spokesman, Col. Howard Levitt, cautioned that no country was selected this was just an exploratory phase.

The Allies have not accepted the Reds' neutral supervision idea. The U.N. Command wants free-roving Allied-Red joint teams.

The Communist subcommittee members named only Poland, Czechoslovakia and Denmark. Under questioning from the U.N. they agreed Switzerland, Sweden and Denmark were all right, too.

But the Allied questioning on other points was not successful. The communists repeatedly gave evasive answers or refused to answer.

The communists' own neutral teams to supervise the truce reached and only at "ports of entry."

Ally subcommittee members at Panmunjom asked 30 times what the Reds meant by "ports of entry." They did not get an answer; the Reds said they already had answered clearly.

Subcommittee members scheduled another meeting for 11 A.M. Thursday (10 P.M. Washington, EST) to try again. It will be their third such session. Their jobs so far work out means of making a cease-fire effective and supervising an armistice.

Remove Dead From B-29 Crash In Denver

Rescue workers remove the body of the plane's pilot from a B-29 Superfort that crashed in a residential section of Denver, Colo. Approaching for a landing, the plane ripped through a number of houses. First reports stated that 11 of the 15 crewmen aboard were killed. Two bodies were reported to have been trapped in houses set afire by the burning Superfort. (International Sun-Photograph)

Nathan Denies Tax Talk With Lamar Caude

Many Approached Him On Tax Matters, He Says. Were Told To Hire A Lawyer

WASHINGTON, Dec. 5.—(AP)—Charles A. Oliphant resigned today as chief counsel of the scandal-hit Internal Revenue Bureau, announcing his resignation, Oliphant made public a letter to President Truman in which he said he had been the target of attacks, vilification, rumor and innuendo beyond the point of human endurance.

Oliphant told reporters his resignation was voluntary and had been accepted by the White House effective immediately.

Frank Nathan, assistant of an example, said "tax tax" was the only word he used to describe the tax talks with Lamar Caude. But he said he was "pretty positive" he never talked with the now-deposed Assistant Attorney General about tax matters.

"Lots of people" however, approached him about tax matters, Nathan declared. He added: "I told them to hire a lawyer."

Nathan, who says his main business is "bookkeeping," spent for two hours with members of a House Ways and Means Committee about his finances.

The group requested for lunch until 2:15 P. M. EST, without asking him about the sensational story told by Abraham Fort, a Chicago lawyer.

Tetelbaum, who has big real estate holdings, and has sometimes represented Caude's interests in legal matters, told the subcommittee yesterday that Nathan and Bert K. Nester, a Hollywood, Fla., business man, sought \$500,000 from him. They mentioned that figure, Tetelbaum said, under threat he would have "tax troubles" and might go to jail if he did not return their services.

Tetelbaum said Nathan and Nester represented themselves as connected with a Washington "scheme" which looked for "soft touches."

At the opening of today's hearings, Chairman King (D-Calif.) read a statement saying there was no evidence that such government officials took part in an attempted "shakedown."

"Lacking such testimony, we assume they did not," King said.

All the officials named have made denials.

Rep. Byrnes (R-Mo.) and King spoke for himself and not for the full committee. Byrnes and King (Continued on Page Eight)

State Patrolman Is Back On Duty After Big Raucous

GAINESVILLE, Dec. 5.—(AP)—The Florida Highway Patrol's Frank Sexton, two county commissioner and a group of Alachua county political leaders apparently had come to an end today. Patrol Sgt. W. W. (Doc) Townsend was taken on duty here.

Townsend reported for duty under Lieut. C. M. Hancock today and said that "All I know is, I'm here." He received orders in Gainesville yesterday to report for work here this morning and to get off his working day with a 6:30 A.M. accident investigation.

The Corporal, who had made his home here for more than nine years, became the center of a controversy between the county group and Patrol Director H. N. Kirkman when Kirkman issued orders to transfer Townsend to the state weights section in Jacksonville.

The group, including State Attorney T. E. Duncan, Sheriff Frank Sexton, two county commissioners and a group of Alachua county political leaders, demanded first of Kirkman that Townsend be returned and, that failing, went to the State Capitol to secure a reversal of the order.

The controversy reached a climax here last Monday when Kirkman went on "the carpet" before the group in the Alachua county courthouse. Subjected there to an intensive inquiry by Duncan, he finally walked out in a huff.

Kirkman later returned to the courtroom where the group awaited him. However, two hours later and, following a further session from which newsmen were barred, the group announced that they had been able to reach a compromise with him.

Townsend's return here presumably is a result of the compromise.

500 More Bodies Are Discovered In Wake Of Volcano

MANILA, Dec. 5.—(AP)—The Philippine navy yesterday found and recovered more than 500 bodies from the ash-strewn slopes of Mount Hibok-Hibok volcano on Camiguin Island in the Southern Philippines.

The volcano erupted twice yesterday. It still spouted smoke and flames today.

Gov. Paolencio Yaquina of Eastern Mindanao province, who came from nearby Mindanao Island to take charge of rescue and evacuation, estimated that 2,000 may have died in yesterday's first eruption, which witnesses have called an atomic-like blast.

Neither the Governor's estimate nor the news service's figure had confirmation.

Red Cross headquarters in Manila said tonight the Philippine army had recovered in the bodies.

A Red Cross director of disaster relief, Dr. Joaquin Canuto, radioed headquarters that the dead were being cremated or buried as fast as they were found.

He said injured were being sent from the stricken northern section of Camiguin to Mambino on the southern coast of the island for treatment for scalds and burns.

Volcanic heat began subiding and rescue workers were able to retrieve deeper into the ash and lava area.

The Philippine Navy Service said 10,000 of Camiguin's 45,000 residents had been evacuated to safer areas.

Constabulary and volunteers stood guard in the hard hit area to maintain order and prevent looting.

Manila Times correspondent Benigno Aquino quoted Philippine air force Capt. Pedro Lopez, 29, as saying that rescue work from houses and gray soil in a nine square mile area on the volcano slopes.

"Coastlines were still as nearly normal as the area," the officer (Continued on Page Four)

Charge Against Danbury Doctor Is Dismissed

Court Holds Misuse Of Drugs Was Not Proved By State

BRIDGEPORT, Conn., Dec. 5.—(AP)—Superior Court Judge Kenneth Wayne today dismissed the manslaughter charge against Dr. Donald E. Gibson, Danbury, physician.

Judge Wayne agreed with a defense contention that the state had failed to produce proof of a guilty connection between the doctor, 50-year-old Dr. Gibson and the death of a 7-year-old child, Elizabeth M. Ayres, 7-year-old spinner, whose case he inherited.

Gibson had been charged by a grand jury with causing Miss Ayres' death by the "reckless and negligent" administration of drugs.

"If the charges against the state's contention as to how Miss Ayres died," said Judge Wayne at sentencing dismissal of the charges, "this would not be a case of manslaughter but a case of murder."

David Goldstein, Gibson's counsel, moved for dismissal of the charges as soon as the final state witness, a Yale pharmacologist, had testified to the testimony of certain drugs allegedly administered to Miss Ayres by Dr. Gibson during her illness.

He contended that much of the case had been built on "speculation."

Ruled the court: "Speculation is not proof."

The court added that it is "second" that under the law cases must be proved on testimony of witnesses and "not on the speculation."

J. L. Hobby Offers Candidacy For County Sheriff

J. L. (Luther) Hobby of Lake Mary today announced his candidacy for the office of Sheriff of Seminole County subject to the approval of the primary of next year.

Mr. Hobby was born on a farm near Ashburn, Ga., and is a graduate of the Ashburn High School in 1911.

Mr. Hobby had entered Middle Georgia College on a football scholarship and played tackle on the Southeastern State's football team for small colleges.

Mr. Hobby also played center on the basketball team which won the conference championship in 1936 and was chosen center of the "All Tournament Team."

He later attended North Georgia Military College where he received military training in the Southeastern States' Training Corps and postwar training to establish the regime of Premier Marshal Tito.

The 33-year-old Ashburn had spent the five years on a small farm near Lake Mary, Fla., and was later promoted to locomotive engineer which is his present occupation.

Married in the former Miss Grace Hunkins of Lake Mary, Mr. Hobby owns his home in Lake Mary and has one daughter, Mary Grace.

Mr. Hobby stated today that "he has been deeply disturbed during the past few years by many deplorable conditions existing in Seminole County." He asserted: "I elected to the high office of Sheriff. I will enforce the laws regardless of my personal opinion and regardless of the persons involved. If the people do not like the laws, it is up to them to have them changed by their duly elected representatives."

Stepinac Given Freedom After 5 Years In Prison

BEGRAD, Yugoslavia, Dec. 5.—(AP)—Communist Yugoslavia today gave Miroslav Stepinac his conditional freedom, making it clear he could not work without approval of the government.

The official news agency Tanjug announced the spiritual leader of Yugoslavia's seven million Catholics would live in a parish house at his native village of Krasko, near the Croatian capital of Zagreb.

Mgr. Stepinac was sentenced five years ago to 10 years in prison for the charges of wartime collaboration with the Axis and postwar plotting to overthrow the regime of Premier Marshal Tito.

The 53-year-old Archbishop had spent the five years in a small two-room cell in Croatia's Lepoglava Prison.

The official statement referred to him as the "former archbishop."

Miroslav Stepinac, former Archbishop of the Catholic Church in Yugoslavia, has been conditionally released.

"That decision has been taken by the Croatian minister of the interior, Ivan Kuznjak, and was based on Articles 47 and 48 of the law on punishment, security and educational correctional measures."

"Stepinac will reside in his native town, Krasko, near Zagreb. He has been living in his residence in the local parish house."

At his trial, the Archbishop reportedly told the three-man Communist court.

State Official Lauds Sanford Safety Record

SANFORD, Dec. 5.—(AP)—State Highway Safety Council officials today lauded the safety record of Sanford, Fla., as a model for other communities.

The council, headed by Governor T. W. Lanier, is a state-wide organization of highway safety advocates.

Sanford's record, they said, is a result of the city's strict enforcement of traffic laws and the use of modern traffic control devices.

The council praised the city's traffic department for its efficient handling of traffic problems and its use of modern traffic control devices.

The council also praised the city's strict enforcement of traffic laws and the use of modern traffic control devices.

Attorney General To Keep Close Tab On Racket Phones

TALLAHASSEE, Dec. 5.—(AP)—Attorney General Richard E. Vinson today said he will maintain a close and constant check on the use of telephones by all Floridians who buy the new \$50 federal gambling stamps.

"The fact that 176 have come out boldly and registered is at least support for the conclusion many of us hold that the gamblers will try to open up during the year," Vinson said. "It is a warning to all law enforcement officers in the state to be on the alert."

Although state law permits the removal of telephones used for illegal purposes, Vinson said the purchase of a gambling tax stamp under the new federal law could not be regarded as prima facie evidence that a person's telephone was being used illegally.

"But, telephone service is vital to the operations of an illegal gambler and the fact a person has registered with the federal government as a gambler will make his use of telephone service subject to close investigation. A person doesn't pay out \$50 for nothing," Vinson said.

The only law enforcement authority the Florida Attorney General has is to prevent use of telephones for gambling purposes.

Fatty Substances Might Not Be Cause Of High Blood Pressure

LOS ANGELES, Dec. 5.—(AP)—Tests indicating that a fatty substance long suspected of causing arterial hardening may not be guilty after all were reported today in the American Medical Association.

The substance is cholesterol. It is present in animal fats, egg yolk, cream and many other fatty foods.

A three-year study of 211 persons having abnormal amounts of fat in their blood was made by Dr. Rex M. Alvord, of Tooele, Utah. He reported that when they were fed high amounts of fat and cholesterol, the cholesterol and fat content of their blood dropped sharply.

When they were fed diets low in cholesterol and fat, the percentage of fat in their blood increased to abnormal proportions.

This is exactly opposite what other researchers have been finding. The other researchers have been restricting cholesterol in the diet to lower the blood cholesterol level, because cholesterol is supposed to figure in the makeup of a substance that accumulates on the inside walls of arteries and later hardens to reduce arterial capacity. This reduction of capacity presumably increases blood pressure because more is needed to pump blood through them.

Another surprising feature of the tests, Dr. Alvord, said, was that although the 211 persons came from families in which 100 individuals had died from arterial disease, only two of them were found to have that kind of blood vessel trouble and only one had high blood pressure.

Another puzzling angle was that when nine persons were given choline, the amount of fat in their blood increased. Two of the nine before being given this substance had normal amounts of cholesterol in their blood. Since then their cholesterol level has remained high, Dr. Alvord said.

The peculiar thing about this is that choline is one of the B vitamins and frequently is recommended to increase blood pressure because more is needed.

Investigation May Be Launched Into Peculiar Deaths

EXETER, N. H., Dec. 5.—(AP)—County Sheriff John M. Grant says that "if competent medical authority recommends it," he will examine the bodies of wealthy Mrs. Sarah A. Rollins, 61, and her nurse, Mrs. Irene Copeland, 41, in an investigation of their deaths.

Grant made that statement in a news conference yesterday shortly after Lloyd H. Skilling, 49, longtime Somerset estate lawyer, pleaded innocent of homicide and other charges resulting in a \$243,000 fine in Mrs. Rollins' estate.

Mrs. Copeland, a Somerset district nurse, was found dead in a "lovers' lane" in Dover, Mass. in 1950. Gaze from her medical kit had been scattered over the ground. A half-filled bottle of whiskey was nearby. Medical officials attributed her death to excessive intake of alcohol and some derivatives of barbiturates. They said death was accidental.

Authorities said Mrs. Copeland was a friend of Mrs. Rollins and would have been an important witness in the case.

Red Cross Meeting

An organizational meeting to make plans for the Armed Forces Blood Donor Program of the Red Cross here, will be held tonight at 8:00 o'clock at the St. Johns Realty Co. office. It was announced this morning by Thomas Peterson, committee chairman in charge of the program.

The Red Cross has signed a contract with the Central Florida Blood Bank for the use of their facilities and mobile unit, in securing the blood donations, he stated. The date of the program will be determined tonight.
