Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here The Readers Will Find a Brief Historical Sprig Flowing For Hurried Readers

Word has gone out to veterans of both armies all over the country not to bring their tattered battle flags to Gettysburg next week for the celebration of the fiftieth anniversary of the battle, for they cannot be flown to the breezes in the encampment. Every precaution will be taken to prevent the stirring up of animosities and feeling on the part of the soldiers and this is one of the precautions considered necessary.

Radical changes in the income tax plan of the Underwood tariff bill and redrafting of the administrative features of the measure to overcome most of the objections raised by foreign governments, were agreed upon in a tentative way today by the Democratic members of the senate finance committee. The income tax under the new plan would apply to incomes over \$3,000, but would make important exemptions for individuals, municipalities, civic bodies and mutual insurance bodies.

An adequate American navy means a fleet second only to that of Great Britain in "inadequacy is an invitation to war," in the opinion of Admiral Dewey, ranking naval officer of the United States. "I believe it is the duty of each generation to pay its own insurance and not to thrust its burdens on the generations that come after, and the insurance for peace is a navy strong enough to compel it," says the Admiral in an article written for the program for navy day at Newport, R. I., July 21 made public today.

In the United States district court at Charleston Judge Henry A. M. Smith decided that a modern Syrian of Asiatic birth is entitled to naturalization as a citizen of the United States. The decision was rendered in the case of Farris Shahid who was born fifty-nine years ago in Zehle, Asia, a miner, who desired to bring his wife and several children to this country. "What is the race or color of the inhabitants of Syria, it is impossible to say, said Judge Smith. "No geographical area of the world has been more mixed since history began. One Syrian may be of pure or almost pure Jewish, Turkish or Greek blood and another the pure blooded descendant of an Egyptian, an Abyss, an Indian or a Sudanese."

Old Made Good as New
I have a first class harpess maker now and we can do anything in this line while you wait. Give us a trial and be convinced.
W. H. UNDERWOOD.

Making All Happy.
"What I deem an appropriate present is a book, and that I must choose for myself," writes a correspondent of the London Chronicle. "To leave the selection to friends would be a catastrophe. Every year, therefore, on behalf of those generously minded individuals who have kindly thoughts toward me, I buy books for myself, tell them, and get the money refunded. And in the messenger's hands, they remember me, I likewise remember them—in any article of their own choosing. And we are all happy."

Stevenson's Criticism.
Robert Louis Stevenson once went to hear Charles Halle play the piano at the Queen's hall. After the performance Stevenson, in his black shirt, walked in silence out Regent street to Oxford circus. He stopped at Oxford circus and, in a slow, meditative voice, pronounced this excellent criticism on the English musician he had heard: "The manner of the elderly statesman at the piano was somewhat austere and chilling."

Good Cleanser.
For cleaning glassware, clocks, mirrors, or tinware, take Spanish whiting and wet with cold water to make a thick paste; wet only what you intend to use at the time. Rub this over the article to be cleaned, then let dry; then go over it with another cloth, dry and polish well. The dirt will come off with the whiting and the polish will be very brilliant. This is fine for window glass, as no water is used, and the hands are not wet.

Why Snow is Warm.
Snow is warm by virtue of its light and woolly texture. But it is also warm on account of its whiteness. Had snow been black it would have absorbed the heat of the sun and melted quickly. Instead, it reflects heat, and the reflected heat falls upon bodies above the snow, while the warmth of the earth is preserved beneath it.

For a Rubber Plant.
When the leaves turn yellow and fall off the plant is dying. Feed it a tablespoonful of olive oil every two weeks. Also wash the plant once a week with warm soap suds, letting the warm suds moisten the earth thoroughly. Sprinkle every other day. This same treatment should be used on ferns.

Practical Ventilating Hint.
The house should be ventilated in winter as well as in summer if the family is to be kept in good health. Bedrooms, especially, should be provided with a free circulation of fresh air. One way to get fresh air in a bedroom without having a draft is to tack strips of cheesecloth across the top and the bottom of the window so that when it is opened in both places the fresh air will enter the room and

yet, should there be a strong wind, its force will be broken by the cloth.
Had No Time.
Miss Specs—"Charles, did you ever allow your mind to pierce the secrets of the universe, to reason that this dull, cold world is but the sepulchre of ages past, that man in all his glory is but the soil we tread, which every breeze wafts to an overabundant maze of atoms and matter an infinity of particles—the dust of centuries, reunited and dissolved as long as time shall endure?" Charles—"No, I can't say I have. You see, I've had to earn my own living."—Stray Stories.

So Thoughtful of Him.
Bridgroom (two days after wedding)—"I haven't seen anything yet of that \$5,000 check from your father." Bride—"Well, you see, dear, papa heard that your father had already given us one, and he knew we shouldn't care to have duplicate presents."

Really a Good Sign.
Never let us be discouraged with ourselves. It is not when we are conscious of our faults that we are most wicked; on the contrary, we are less so. We see by a brighter light, and let us remember, for our consolation, that we never perceive our sins till we begin to cure them.—Fenelon.

Great Plebe of Luck.
An English laboring man took a mesquite into Christie's art rooms in London the other day and was astonished to be told that it was worth \$1,785. It was the "Children Bathing" of J. Ward, a famous eighteenth-century engraver and painter.

SEMINOLE COUNTY Will Soon Be Managing Her Own Affairs

SANFORD being the County Seat, men from all parts of the County will be coming to Sanford, drawn here by matters of public or private business; many will wish to do some banking.

THIS IS JUST A REMINDER, that the Strong Bank Helps the business man. In banking, more than any other business, you want THE BEST.

The First National Bank of Sanford

Has been in business at the same place under the same officers for MORE THAN A QUARTER OF A CENTURY; has grown stronger year by year in spite of blizzards, crop failures and financial panics, until it has attained the distinction of being ONE OF THE SIX ROLL OF HONOR BANKS OF FLORIDA.

Press Gang Leaves Hospitable Tampa

Most Successful Meeting Of Press Association

Fl. Myers Captures Editors For Next Meeting And Will Have To Go Some

With all due respect to the various cities of Florida that at one time or another have extended their hospitality to the members of the Florida Press Association, those who attended the meeting at Tampa last Thursday, Friday and Saturday were ready to admit that never before had they witnessed such hospitality and entertainment upon so large a scale.

The opening day was replete with the bon homie that exists between newspaper men and printers the world over and the program rendered from day to day was full of good thoughts not only for members of the craft but the laymen as well and all the meetings were largely attended by visitors who were anxious to see the editors in action and the meetings demonstrated as never before that the Press Association of Florida is away above the average.

The banquet given the members of the press and their friends by Col. W. F. Stovall and the Tampa Tribune was undoubtedly one of the greatest events ever pulled off in that city famed for its gastronomic feasts in the entertainment line.

There were fourteen courses counted and after that no one kept count and the menu was printed on a long strip of paper made up to resemble a proof sheet the entries being in Spanish, interpreted in English and embellished with printing office symbolical lore that was Greek to others outside of the craft but bringing broad smiles to the faces of the printers.

After the elegant menu Tampa editors were passed and between puffs came the oratorical puffs and editors and common citizens roasted each other to their hearts' content and toasts and roasts and songs made the occasion a most merry one until the midnight hour.

The gang arose with some difficulty the next morning to take the early boat for Pass-a-Grille and the trip over to this famous resort was a most pleasant one, every comfort and convenience being arranged for the party. Arrived there many took advantage of the fine bathing and excellent beach to take a plunge and after inspecting the life saving station (?) a fish dinner was served at Joe Lizotte's famous hotel.

Arrived at Tampa the party were the guests of the Pafuchi-Gypsans Co., where a good newspaper play was produced for their special benefit. Early Friday morning they were forced to battle their weary frames for a business meeting at 8 o'clock at which a good talk was given by Mr. Burroughs of Pensacola on the post system and this important matter was fully discussed and it was decided to call a meeting in September in

Ocala to form a Typothetae and endeavor to induce every printer in Florida to join and adopt a uniform system of prices and get part of the money that is coming to him. This matter will be left to the committee consisting of Harry Brown of St. Augustine, R. J. Holly of Sanford and E. S. Burroughs of Pensacola.

The election of officers was the next in order and Vice President W. E. Russell of Palatka was promoted to this high position, R. J. Holly of Sanford was made vice president, J. W. White of Jacksonville treasurer, Thos. Appleyard of Tallahassee, secretary and Joseph Humphries of Bradentown, delegate to the national convention.

Retiring President Frank L. Mayes, President Russell and Vice President Holly made short addresses as the time was growing late and Willis Powell of the Board of Trade was growing restless under the restraint.

The subject of the next meeting place brought on a warm argument as there were many cities vying for the honor of entertaining the Association next year and had their delegations on the ground.

Countless telegrams were read from various cities, the following being candidates:

DeLand, Orlando, Key West, Miami, West Palm Beach and Ft. Myers.

One speech to each city was allowed and the vote was as follows:

Ft. Myers, 37; Miami, 11; DeLand, 2; West Palm Beach, 1; Key West, 2.

Fl. Myers will be the next meeting place and the good people down there have already started the program of good things for the entertainment of the press gang next year.

The meeting then adjourned sine die and the party was taken on a trip over Tampa on the street cars with a grand finale at the plant of the Florida Brewing Co., where mine host Ybor had prepared a sumptuous banquet at which the principal feature was Key West crabs, flanked by all the good things that Tamaffords. At the brewery, and while the banquet was in progress a moving picture film company was busy taking the pictures of the editors in action and when these pictures are shown at the different theatres of the state these editors who were unattended by their wives will have to do some tall explaining. Mr. Ybor was toasted and the officers of the association made speeches before the moving picture machine and the whole party then made the trip through Tampa in the big auto trucks of the brewing company.

The program stated that the responsibility of the people of Tampa ceased at 3 o'clock but the good people of that town took the bunch out to the ball game and never ceased in their hospitality until the last newspaper man had waved farewell from the trains.

The meeting at Tampa was one of the greatest and best that has ever been held in the south. The press gang owe a debt of gratitude to the fine people who contributed to their pleasure that can never be repaid. Especially to Willis Powell, the indefatigable secretary of the Tampa Board of Trade and former editor and his good wife, Col. Stovall and every member of the Tribune staff, Mayor and Editor McKay and every member of the Times staff, Glenn Reagan Co., the job printers of Tampa and Hewitt Hill of the Tampa Tribune printing department, the good ladies and gentlemen of Tampa and hotel men and all who made our stay so pleasant, to Mr. Ybor of the Tampa Brewing Co., and the Board of Trade.

Also to Editors Straub of the St. Petersburg Times and Law Brown of the Independent and the good people of St. Petersburg who assisted in the trip to Pass-a-Grille and the Peninsula.

The bond that formerly cemented us to South Florida and Tampa in particular has been strengthened and we hope to show our appreciation of their hospitality in the future at any time that Tampa should need friends.

We shall tie to Tampa.

We Have the Goods Seminole county discovers it is too much of an infant in arms and already hankers for larger growth. The latest proposition is to take in a slice of Volusia and Lake counties and Sanford as the county seat. All we have to say is, if they want it, and put up as good fight as the last time, they will tangle along with it in good season.—Orlando Citizen.

Agriculture Department Warns Against Bordeaux

Defines Proper Method Of Spraying The Celery

Celery Last Season Contained Slight Amount Of Copper Said To Be Unhealthy

Department of Agriculture issues order to celery growers prescribing method of spraying plants with Bordeaux mixture, and recommends that housewives be particularly careful in washing all celery before use. Celery leaves should not be eaten.

The Department of Agriculture, acting on the complaint of Dr. W. C. Woodward, Health Officer of the District of Columbia and the health officers of other states, has found by careful analysis that a great deal of table celery which came to market during the last season contained slight amounts of copper in the form of dried Bordeaux mixture (lime and copper sulphate) which farmers have to use to spray celery plants to prevent the destruction of the crop by blight. Celery not sprayed with Bordeaux mixture during its growth, according to the Government specialists, is liable to reach the market in a state of partial decay.

The use of sales of copper in food products was deemed by the referee board to be deleterious to health. Under food inspection decisions 148 and 149, the importation of carrots, beans and canned vegetables greened with copper has been stopped. This is parallel to the laws of France, where the use of copper vessels is forbidden in packing food products.

The proof of the presence of copper in raw celery was obtained by analysis of samples of celery offered for sale in the markets of the District of Columbia and other cities. Analysis of four different samples of celery showed that before washing the edible part of the outside stalks contained from 9.1 to 29.2 parts of copper per million, or less than one-sixth to one-half grain of copper per 2 1/2 lbs. of celery. The copper in the inside of stalks was much smaller in amount, and ranged from 3.3 to 10.3 parts per million. In the leaves of the celery, however, which are the parts of the plant especially sprayed with Bordeaux mixture, there were found from 157.6 to 288.4 parts of copper per million parts. The chemist found that most of the copper in the outer and outer stalks disappeared in washing. After washing by hand or with a brush, there was only from 3.9 to 9 parts per million in the outside stalks, and from 1.4 to 3 parts per million in the inside stalks of heart. These quantities are infinitesimal and mean that a person would have to eat from 9 to 15 lbs. of celery daily to reach the amount of copper which, if daily consumed, would according to experts, have a direct effect on health.

As soon as the presence of copper on celery was determined, investigations were at once begun to find its source, and to determine ways of avoiding it. The copper, it was found, resulted from improper methods of using Bordeaux mixture on the part of celery growers. At the same time, it was found that the use of Bordeaux mixture, according to the investigations of the Bureau of Plant Industry, is absolutely essential to the growing of celery in many sections of the country, especially in Florida. The Department, however, found that the spraying apparatus used by many celery growers does not operate at a sufficiently high pressure to make a fine spray or mist. As a result of this faulty apparatus, the Bordeaux mixture is applied in a number of fine streams instead of a mist, and these instead of merely settling on the leaves and killing the insects, run down between the stalks. As a result the mixture accumulates at the base of the plants, and is not washed off by the rain. This sometimes gives a green appearance to celery, which causes many people to think the color results from Paris green, whereas the green tint is simply a copper-stained lime.

The Department of Agriculture has issued a circular requesting that all spraying of celery plants with Bordeaux mixture be done with efficient apparatus working under high pressure—one hundred pounds or more. Spraying should be stopped when the leaves are covered with fine drops, and before these begin to run down the stalks and accumulate in the base of the plant.

The Department of Agriculture at the same time has issued a warning to consumers to break bunches of celery open and wash and scrub the stalks thoroughly before they are eaten. It also has warned the public against eating the leaves of celery upon which the dried

Bordeaux mixture clings. According to the chemical experts who made the analysis a careful washing of celery would remove practically all of the copper resulting from dried Bordeaux mixture, or reduce the amount present to such a small quantity as to be entirely negligible.

Pleasant Afternoon

Dr. and Mrs. H. T. Gaines were the pleasant host and hostess at a very enjoyable musicale Thursday afternoon complimentary to the young ladies of Mrs. Marshall's Sunday school class. Dr. Gaines entertained the young ladies with a pleasant little talk explanatory of one of the objects of the entertainment, which was the promotion of a social and literary interest among the young people of the church, in the organization of a social and study circle, which would hold two meetings monthly, one at which all necessary business would be attended to and the other for study and social pleasure.

Several concert solos were delightfully rendered by Miss Jessie Stumon, Miss Mary Gaines sang several vocal solos charmingly. The hostess was assisted by Miss Nellie Evans and Miss Mary Gaines in serving delicious pineapple sherbet and cake. The guests who enjoyed the pleasant afternoon were Mrs. Marshall, Mrs. Brown, Miss Sarah Williams, Douglas Abernathy, Mary McKim, Julia Brown, Jess Stumon, Susie Brown, Elizabeth Musson, Mabel Cowan, Annie May Pope, Mrs. Bryan, Beattie Zachary, Joie Stumon, Miss Brown, Junnie Stumon, Gene Pope, Nellie Evans, Mary Gaines.

Hospital Contributions

Mr. H. E. T. Glover, who owns a farm on Celery avenue and who is now at home in England, 37 Chester Terrace, Regents Park, London, and who has many friends in Sanford, has sent his check for \$25.00 as a contribution to the Sanford Hospital Association. This is a very generous donation and entitles him to a life membership in the association. It is highly appreciated by the officers of the association who are having a hard struggle to get in money enough to keep up the payments on the Building & Loan stock of \$30.00 per month. The regular annual membership dues of one dollar if everybody promptly would keep up the payments, but a large majority of the members either do not think to remit the dollar to the treasurer, Geo. H. Fernald, or they are waiting for some one to call and collect the payment. Of course every member is just as much interested in building a hospital as is every other member, and there is no good reason why some one should spend their time collecting members to pay membership dues. I hope every one will see the importance of paying these dues without being asked personally to do so and will do accordingly. The hospital is going to be built as soon as funds are available and we are getting every month.

Every dollar contributed to the Hospital Fund, is credited on the Hospital ledger to the contributor by name, and will be available to pay for the services of the Hospital at any time in the future that the contributor may have use for it for himself or family. The Hospital is needed very much, and if members could pay \$5 a year, instead of \$1, we could get the Hospital very much sooner. I hope all the members will respond promptly to this suggestion and pay all they can and as soon as they can, and thus boost it along.

Pipe of Peace

The Seminole Braves of Sanford town, gorged to the full with gore and glory held out the Pipe of Peace to the pale faces of Orlando through an invitation to city council to attend their glorification and campfire dance on July 4th, a fitting time to celebrate Seminole independence.

Through the vanishing smoke of battle let us smoke the pipe of peace.—Orlando Citizen.

Sanford Editor Honored

R. J. Holly, editor of The Sanford Herald was honored by the Florida Press Association at a meeting in Tampa by being made vice president. Among so many big men in the Florida Press Gang, the editor feels that he has received a high honor and one that is appreciated at its full worth. Thus again in Sanford The Herald recognized by the people and the press as being upon the map in red ink.

Dr. J. C. Davis, the well known optician expects to be at the Robbins Next soon. Watch for his date ad. 87-U

Welfare Department Interesting Meeting

Honored Guests From Orlando In Attendance

Mrs. Warlow And Mrs. Fuller Gave Entertaining And Interesting Talks On Welfare

At their regular meeting Thursday afternoon last the Welfare Department of the Woman's Club entertained as their guests, Mrs. T. Picton Warlow and Mrs. F. T. Fuller of Orlando. Mrs. Warlow is the chairman of the Department of Civics of the State Federation of Women's Clubs and Mrs. Fuller is the President of the Civic League of Orlando. These ladies had kindly responded to the request of the president of the Woman's Club and chairman of the Welfare Department of the club to meet with the Welfare Department of the recently organized Woman's Club of Sanford and initiate that department into the full activities of all the working branches, embraced under the civic department.

As a large number of those present had had the pleasure of meeting the charming visitors before the meeting was called to order, Mrs. Terheun, chairman of the Welfare Department, in opening the meeting and after a brief introduction of the visitors stated that Mrs. Warlow in her official capacity as chairman of the Civic Department of the State Federation of Women's Clubs had come to instruct the Welfare Department in all the lines of local work and the many subdivisions embraced in the generic term welfare, as applied to the general and special needs of a community. Mrs. Warlow's fine talk was a comprehensive outline of every branch of departmental activity within the province of state and local civics. She told the home department that the work done the line of work mapped out by the state federation, when they were preparing to insist upon the attention of the authorities and merchant in the recognition and observance of better sanitary laws, as to cleanliness, and the of for to screen out flies and all other objectionable insects, that the disposition of garbage, should be closely investigated. Also that the railway stations should be kept clean and beautified in every way possible. The federation specially stresses activity along all educational lines. Mrs. Warlow said they were advocating that morals and citizenship be taught in other words, truthfulness and honesty should be carefully taught in all the schools, and that medical examinations of all pupils would be the outcome of the efforts, being made by the women's clubs in behalf of the children, whose health, interest, mental and moral welfare they were seeking to make it possible to conserve. Mrs. Warlow had with her to show to the club, both the physical and dental records which have been prepared for use in the schools. She also exhibited a list of suggestions "How to Keep Well," which were to be posted in the children's school books. The clubs are encouraging and furnishing the seeds when necessary for children to plant small flower and vegetable gardens, either at their homes, around their schools or in larger public plots, furnished either by cities or interested parties. Mrs. Warlow had also with her for inspection a milk can, made of paper, which will be an improvement over the milk bottles now in use, and which can also be used by merchants. The club was instructed where to write for information and secure, with the cooperation of the proprietors of the local moving picture shows a better and educational class of moving pictures. The suggestion of a sanitizing Junior Civic leagues was also noted.

Mrs. Warlow is well equipped for the important office she holds. She is prepared with data from headquarters and information with which to answer all questions, necessarily asked by chairman and members of newly organized Civic Departments. She made many valuable suggestions and gave addresses and names of books, where further and larger information could be gained along all civic lines. When this work is carried out faithfully and earnestly by every local club in the state as mapped out by the State Civic Department, there indeed will civic righteousness prevail all over this fair state, and municipal housekeeping will be a "thing of beauty and a joy forever."

Mrs. Warlow's evident interest and enthusiasm in her work, coupled with her kindly, gracious manner made her fine talk enjoyed and appreciated by every one, whose pleasure and profit it was to hear her. Mrs. Terheun, in expressing her pleasure and appreciation, and also of all

present for the instruction imparted by Mrs. Warlow, regretted that every member of the Woman's Club was not present to receive their share of the good things given so acceptably.

Mrs. Terheun then requested Mrs. Fuller, president of the Civic League of Orlando to tell the club of the good work and its progress and success, undertaken by the members of the Civic League, for the betterment of any and all, if they existed, undesirable conditions in their handsome little city of Orlando.

Mrs. Fuller responded in a charming manner, quite captivating her listeners by her enthusiasm and pleasing personality, and easily instilled in each and every one an inspiring conception of the duty and the beauty of a broader and larger perspective, in which individual and united effort is made for the betterment and uplift of the many. In a very entertaining way Mrs. Fuller gave a graphic synopsis of the various departmental lines, embraced in the work of her local civic league, stressing with pleasure the many successes which have crowned their efforts and deprecating and explaining causes for their few failures in initial efforts; kindly suggesting ways to be followed by other clubs, and pointing out the means for discovering the hidden shoals and quicksands, surrounding the goal which the Women's clubs in all the land are striving to attain.

In her talk Mrs. Fuller cleverly and skillfully covered the entire work of her home league, and closed with a cordial invitation to every member of the Woman's Club of Sanford to attend the annual meeting of the State Federation of Clubs, which is to be the guest of the Civic League and Clubs of Orlando in November.

Mrs. Terheun then made a graceful acknowledgement of the pleasure afforded herself and the club by Mrs. Fuller's interesting talk, information along similar lines of activity and kindly suggestions made for the benefit of the Sanford club and workers. These remarks concluded the meeting and a committee composed of Mrs. L. G. Stringfellow, Mrs. May Dickins and Mrs. R. L. Peck, assisted by Miss Mabel Bowler served dainty sandwiches, olives, wafers and iced tea, while the club enjoyed a social hour with their charming guests.

In Honor of Rev. and Mrs. F. P. Strong Mrs. Henry Wight was the charming hostess of an informal but very pleasant reception to the congregation and members of the Congregational church Friday afternoon in honor of the new pastor of the church and his wife, Rev. and Mrs. F. P. Strong. The pretty rooms were made very attractive by the beauty of exquisite crimson and purple dahlias. The opportunity afforded the netre membership of the church to meet the new pastor and his wife, under such delightful auspices was very much enjoyed, as was also Mr. Strong's interesting and instructive talk on "The Conservation of Our Young People, as Opposed to Their Reclamation."

Mrs. Wight was assisted in caring for her guests by Misses Margaret Wight and Ethel Moughton, who served the delicious ice cream and cake.

Junior Boys' Class Picnic

The Junior Boys' Sunday school class of the Congregational church will give a basket picnic at Woodland Park Tuesday, July 8th. Tickets will be twenty-five cents including boat, admission to park and privilege of the pool. The "Colonie" will leave the city dock at 8 o'clock and again at 9, making two return trips also from the park at 5 and 6 o'clock. Buy a ticket and let the boys have a good time. Tickets can be secured from members of the class and Mrs. R. A. Terheun, their teacher.

Fancy Work Circle

Mrs. L. G. Stringfellow very pleasantly entertained the Fancy Work Circle Wednesday afternoon last. The members of the circle and visitors enjoyed the hours socially while engaged with their pretty fancy work. Delicious sherbet and cake were served by the hostess, and guests were Mrs. J. D. Roberts, Mrs. J. J. Purdon, Mrs. W. L. Miteer, Mrs. C. H. Leffer, Mrs. R. W. Hines, Mrs. N. H. Garner, Mrs. H. Lilja.

Rest Room

The attention of the members of the Woman's Club is again called to the needs of the rest room that will establish for the comfort of the ladies and children, July Fourth.

The committee in charge will be grateful for the loan of such articles that will make the room attractive and comfortable.

Office in Herald Building Telephone No. 148

Tie to Tampa.

Tampa is the most hospitable city in the south.

Tampa is the Panama Canal City and deserves the title.

Tampa is the most up to date city in the state and will soon be the largest.

There is only one Stovall in the state and he lives in Tampa. There will never be another such banquet given the Press Gang.

The editor of The Herald was honored by the election to the vice presidency of the Florida Press Association. An honor that is appreciated by the editor and his friends.

If anyone thinks that South Florida is not booming these days they should take a trip to Tampa and the boat to St. Petersburg. The peninsula country is certainly going some.

The eagle will scream in Sanford on the Fourth. Life seems to be one round of pleasure these days. After the Fourth the new county will open and there will be something doing all the time.

Orlando was ably represented at the Press Association by Dr. Stagg and Hon. B. Beacham. The newspaper men of that city must have been afraid to trust themselves in the large city of Tampa.

Seminole county is going to celebrate—or, should we say, celerbrate, its birth on the Fourth with a big time for the residents and visitors. Neat invitations have been issued to the press Jacksonville Journal.

The first meeting of the county commissioners and other county officers made a good impression and it is the general opinion that in our new officers Seminole county will be well taken care of and the interests of the people will not suffer.

Seminole county will hold, on July 4, a celebration commemorating the birth of the new county. The committee consists of Bob Holly and other business men, which is a guarantee that the visitors will be treated right. DeLand will be well represented at the celebration.—DeLand News.

Sanford has issued such cordial invitations to the Fourth of July celebration commemorating the birth of Seminole county that it would seem that every other town within a day's journey of the Celery City should forego the holding of a local jollification and travel in to Sanford.—Miami Herald.

"Bob" Holly, the man that made Sanford's new county, runs a good paper—and clips from my column voluminously without credit. Several items last week went over from my dope column to his—and Bob never even mentioned this paper nor said "Thank you." There are lots of things I like about the Herald—but I'm blamed sure that this isn't one of them.—Palm Beach County.

Charge it up to the meeting of the Press Association, Thorn, and let it go at that.

One reason why the smaller towns like to break away from the larger towns and establish a county seat of their own in Florida is because the big towns hog everything from the county offices down to the expenditure of the tax money. Considerable tax money was paid into Dade county treasury by the residents of Ft. Lauderdale and vicinity, and very little of it found its way back again. Miami wanted it all. The same thing prevailed in Orange county. It was almost impossible for Sanford citizens to get any benefit from the county at all; Orlando wanted it all. A word to the wise is sufficient.—Stuart Times.

Sanford Elks have bought a fine lot and propose erecting a new and elegant home in the Celery City. The Elks are always good citizens and when they build it is for the good of their city as well as themselves. The Elks' home in Sanford will be a most commodious brick structure of handsome design, modernly equipped and up-to-date in every particular and Elks and their families and friends and visitors to Sanford will all have reason to be glad and will be the gainers by this enterprise on the part of the lodge. The new Elks' home in Sanford is to cost about \$10,000 and will have a swimming pool in the basement, billiard and bowling rooms and an assembly hall 50x50 feet, which can be used for many other purposes than meetings.—Times-Union.

TIE TO TAMPA

The recent meeting of the Florida Press Association at Tampa has engendered a feeling among the boys of the press that Tampa is just about the best city in the state and that like other cities of South Florida has never had a square deal either in politics or in mercantile and traffic rates and matters.

Three days spent in Tampa and a survey of her resources and docks and transportation facilities has convinced the visitors that the closest city to the Panama Canal is destined to take her chosen place among the cities of the south and despite the chains that have hung around the necks of most of the cities of Florida by the wholesale interests backed by the railroads, Tampa cannot be held back any longer and all the other South Florida cities will tie to Tampa and assist her in every way. Tampa has wholesale interests of every kind that should be fostered and encouraged by South Florida people. Tampa manufactures every article that can be manufactured in Florida. Tampa has two of the best newspapers in the south, the Morning Tribune and the Evening Times. South Florida people can best be served by South Florida papers.

All of our interests are identical and all else being equal we shall endeavor to tie to Tampa upon all occasions. They are our friends and we should reciprocate. South Florida is the backbone of the state and should stand together.

TO THE PRESS GANG

You're here, Be of good cheer, For tomorrow You'll be gone Let her rip, Bing and zip! Swap the zingbat Turn a flipdip The old town's yours Great Scot! Forget 'tis hot Shed the collar, Begin to holler Hip, hip, hurrah! Do your dandest Dance the Tango, Paint the town, A dingy brown It's badly painted anyhow, Gee whizz! Forget your biz Who cares for bills? Avant the ills, 'Tis a merry old world, Vox Populi be dingd. Old Sub be banged Who's running this earth? I'd like to know— Let her run herself, Say, boys, 'tis great, Let us again elate— Here and here and here— Waiter, where's that beer? Gosh, but you're slow! Note—Had to use beer to make it rhyme, but it is due the newspaper men to say they never use it, except as a basis for an editorial on the immortality of the soul.—Tampa Tribune.

THE BLUE SKY LAW

After the first day of July next, a law, passed by the last legislature, relating to investment companies will go into effect. This is the law which is popularly known as the "blue sky law."

Briefly, the new law divides corporations doing business in the state into two classes, domestic and foreign. Those holding charters from the state of Florida are domestic corporations and all others are foreign.

Every corporation, other than municipal corporations, state and national banks, trust companies, public utility corporations, corporations under the jurisdiction of the railroad commission and corporations organized not for profit come under the supervision of this new law.

All such corporations shall, before commencing business in this state, file with the state comptroller a statement of its purpose to transact business, copies of all stock or bonds which it purposes to sell, a statement showing its financial

condition, all of which must be furnished under oath.

Foreign corporations, in addition to filing statements as are required from domestic corporations must also file with the comptroller an agreement that actions may be commenced against them in this state, and that service on the comptroller will be considered service on the corporation in any action that may be commenced by residents of this state.

If it is thought desirable the comptroller may, in his discretion, require the domestic or foreign corporation doing business in this state, the expense of such examination being borne by the corporation examined.

Agents may be appointed to sell the securities of corporations, but those agents must be registered, and they may be required by the comptroller to give bond for the proper discharge of their duties.

The new law has been passed for the purpose of protecting, as far as possible the people of this state from the activities of wild cat corporations and agents who sell stocks or bonds that have fictitious values.

Domestic corporations that sell stock only in the counties in which their principal offices are located, are exempt from the provisions of this law.—Miami Herald.

OUR "PARTING GUESTS"

The Florida State Press Association concluded its convention in Tampa yesterday and adjourned to meet in Ft. Myers next year. The charms of this section had been so thoroughly impressed upon the members of the association that they would not listen to the proposition to go to another section, and they picked the town nearest to Tampa among those which invited them for next year's convention.

The session in Tampa was a pleasant one from every standpoint, enjoyed by the guests and equally enjoyed by their hosts, for it was a pleasure to the newspaper men and publishers of this city to entertain so enlightened and congenial a gathering. If any detail that could have added to the pleasure of the visitors was omitted it was an error of head, not of heart, for Tampa has never had visitors to whose entertainment it felt more devoted.

The association, with all its pleasure-seeking, had opportunity to attend to much of the serious business of the meeting and, among other things, took steps toward putting the publishing business in the state on a more solid and business like foundation.

The retiring president of the association, Frank L. Mayes of Pensacola, who has endeared himself to the brethren of the press during his incumbency of the office, was given the just tribute of a rising vote of thanks. No man in the state enjoys a more liberal measure of esteem not only from the members of his own profession, but from the general public of Florida, and it was an especial pleasure to Tampanians to have him as a visitor and to show him the resources and attractions of our city.

The association did well in its selection of new officers, Editor W. A. Russell of Palatka as president, Editor R. J. Holly of Sanford as vice president, and the re-election of those veterans, Secretary T. J. Applayard of Tallahassee, and Treasurer J. W. White of Jacksonville.

These gentlemen all stand high in the regard of the press of the state and the honors bestowed upon them are thoroughly merited.

Tampa, having become more closely acquainted with the newspaper men and women of Florida, hopes to continue in more intimate touch with them and expects to again have the pleasure of entertaining them before many years pass.—Tampa Tribune.

Decorate for the Fourth

Every one is reminded that the committees who are working up the entertainment for the visitors to be with us on the Fourth are expecting the cooperation of every citizen in the town, in assisting them to make the celebration a success in every particular.

Let each and every home be as attractively decorated as they can be made. If the street force here have left poorly cleaned up places and badly cut grass on sidewalks and streets it will be far better to send them back to do it over than to have shabby or careless work for the eyes of strangers to see and comment on. By all means all boxes, barrels and broken boxes should be removed from the rear of all stores.

Mettinger-Morgan

Cupid has again stolen a march on the many friends of the family and the contracting parties, in the quiet and unheralded marriage of Miss Elizabeth Mettinger and Mr. Walter L. Morgan, which occurred at the home of the bride's parents, Mr. and Mrs. J. K. Mettinger Sunday, June 29th at 1 o'clock. The marriage was solemnized by Dr. H. T. Gaines, pastor of the Methodist church in the presence only of the immediate family.

The charming bride was attired in a lovely white coat suit of Bedford cord, which was exchanged later for a handsome blue traveling suit.

After a dainty wedding lunch Mr. and Mrs. Morgan left on the 2:30 train for Jacksonville, from where they sailed Monday afternoon on the Atlapaloo of the Clyde Line for New York and Philadelphia, where they will remain and at

other points several weeks. On their return Mr. and Mrs. Morgan will be accompanied by the bride's sister, Miss Ruth Mettinger, who is in Philadelphia and who will spend several weeks with her parents and friends in this city. When they return to the city Mr. and Mrs. Morgan will be "At Home" at the residence of Mr. and Mrs. J. K. Mettinger for the present.

Miss Mettinger is well known in Sanford, where she has lived all of her life, and she has many friends. Mr. Morgan came to Sanford from Baltimore several years ago, and has been connected with the business interests of the town in several capacities; as prescription clerk in L. R. Phillips' drug store, where he later became a partner in the business. At the present time he is the proprietor of a prosperous hardware business and is also traveling in the interests of a Philadelphia drug house.

The young couple's many friends unite in wishing them much joy and prosperity, and many years in which to enjoy a happy voyage on life's ocean.

Sends Regrets

Tampa, Fla., June 30, 1913. Committee on Celebration, Sanford, Fla. Gentlemen—You will please accept my thanks for the invitation to be present at the celebration on July 4th of the birth of the county of Seminole. I appreciate your thoughtful kindness and much regret that I shall not have the pleasure of accepting and enjoying your hospitality on that gala occasion, as arrangements for that day have been made so as to preclude my being present.

I sincerely trust that nothing will detract from the pleasure of the day, but that everything will contribute to the celebration in honor of the birth of such a lusty youngster, and feel sure that our mutual friend, Forrest Lake, will occupy a high seat at the feast, he deserves such honored position. He presided at the birth, and no political physician ever officiated with greater dignity and precision, and his joy at the event was so deep and sincere that it was contagious, and soon the whole legislature, with the exception of one or two, were rejoicing with its happy god father.

With every good wish for a bright, glorious and great Fourth and future for the kid, and expressing again my inability to rejoice with you on next Friday, I am,

Yours very truly, W. T. MARTIN

The Lakes Return

Hon. Earrest Lake, Mrs. Lake and their two little daughters, Sereta and Maude have returned home after spending almost three months in their travels, part of which were spent at Tallahassee and other western Florida cities. Their many friends are glad to welcome them back home and to know that no other city looks as good to them as Sanford.

McWilliams Will Speak

Hon. W. A. McWilliams of St. Johns county will make the address here on July Fourth. He is one of the foremost men of the state and an orator of ability.

Aye! Aye!

"So Madge is going to marry that young oculist. Is he wealthy?" "Not now, but there's a good deal of money in sight for him."

NOTICE

Notice is hereby given to all creditors, legatees, distributees and all persons having claims or demands against the estate of Frank Franklin, deceased, to present them within two years.

LIZZIE GRIFIN, Administrator. Mar. 4th, 1913. Legal 2-7, 4-4, 5-2, 6-6, 7-4, 8-1

In Court of the County Judge, State of Florida in re Estate of J. K. Rankin, Orange County.

To all Creditors, Legatees, Distributees and all Persons having Claims or Demands against said Estate:

You, and each of you, are hereby notified and required to present any claims and demands which you, or either of you, may have against the estate of J. K. Rankin, deceased, late of Orange county, Florida, to the undersigned administrator of said estate, within two years from the date hereof.

Dated May 12th, 1913. E. G. HUTCHINSON, 16-Tues-Sp

Do You Know How Money Is Insured?

If you are a depositor of the Peoples Bank of Sanford you have doubtless learned a great deal about the way WE INSURE YOUR DEPOSITS.

Some twenty years ago, our plan of insurance was worked out in the brain of our financial agent, Mr. W. S. Witham.

IT IS SIMPLY A SYSTEM OF CO-OPERATION. A number of Banks have associated together under a common policy of upbuilding the community in which they are located and at any time a bank has funds not necessary for their own operation, these funds are used by some other bank and in this way the greatest economy of capital is realized.

There is absolutely no chain principle in the banks members of this plan, as each bank is controlled ABSOLUTELY by the local Board of Directors.

When Mr. Bryan some years ago advocated a Federal guarantee of Bank deposits, on investigation it was found that Mr. Witham's plan was the only good plan and was characterized as "so sound that no sane person would dispute the value of it for one instant."

THE BANKS ARE BACKED BY OVER THREE MILLION DOLLARS OF THEIR OWN CAPITAL.

THEY ARE AUDITED SEVERAL TIMES EACH YEAR BY THEIR OWN PRIVATE EXAMINERS and are required to MAKE A STATEMENT TWICE EACH WEEK SHOWING THEIR CONDITION.

NO DEPOSITOR EVER LOST A CENT IN ONE OF OUR BANKS.

Sweet Indirect.
 Mandy—What foh yo ben gotn' to do postoffice so reglar? Are yo' correspondin' wif some other female? Hastus—'Nope; but since ah been a-readin' in de papers 'bout dese 'conscience funds ah kind of thought ah might possibly git a lettah from dat ministah what married us.—Life.

Also, the Cracker.
 The pasteboard boxes that crackers come in are fine to keep doughnuts or cookies in, as they will not dry up. I also use them to bake fruit cake in, as the oiled paper and stiff outside keep the cake from burning, which fruit cake is very apt to do.—The change.

Error of Intellect.
 Through the ordinary course of mortal failure and misfortune, in the career of nations no less than of men, the error of their intellect and the hardening of their hearts may be accurately measured by their denial of spiritual power.—Ruskin.

Bracelets Worn by the Insane.
 Bracelets have been worn from time immemorial, but few wearers of the golden bands of the present day know that they were once used to distinguish the insane. Before lunatics were confined to asylums they wore an armlet for distinction.

Guides to Success.
 Buy your overcoats in summer and your linen dusters in winter, that is seize opportunity when it comes, don't wait until it must be sought. The foundation of success is mental discipline.—A. C. Bartlett.

Polite Query.
 A Viennese anthropologist has discovered that nature intended woman to be man's superior. Well—who accuses nature of failure?—Cleveland Plain Dealer.

Why Some Are Silly.
 It is only because they are unused to the taste of what is excellent that the generality of people take delight in silly or insipid things.

Wife's Privilege.
 "That is the wife's privilege," remarked the West Ham Clerk to a man who complained that his wife nagged him.—London Globe.

Sum of Duty.
 Do naught to other which, if done to thee, would cause thee pain; this is the sum of duty.—Mahabharata.

Here's the Chance.
 You can make yourself rich by cashing in your experiences at half what they cost you.

Work.
 The work that a man likes to do is too often done by somebody else.

Old Conundrum With New Answer.
 Why does a chicken cross the road? Because an auto is coming.—Judge's Library.

Luck.
 Fortune unaided prevails over the plans of one hundred learned men.—Plautus.

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain

Tampa's new city hall will be built on the same site the old one occupies.

Ten dollars in gold has been offered as the chamber of commerce prize for the best St. Augustine slogan.

In many parts of Florida there are girls' and boys' tomato and corn clubs.

A new record for Gulf ports was established in Pensacola Wednesday when the British steamer Iowa steamed down the harbor unassisted by any tugs and out through the channel drawing nearly thirty-two feet of water.

Secretary of War Garrison has transmitted to Congress the report of the Engineer Board, recommending that improvement of the harbor at Cedar Key be not undertaken.

Herald, which makes it way to my desk twice a week, and is very much appreciated by us all, and can hardly wait till the time comes for us to move to Sanford and become permanent citizens of that good little city.

Woodland Park Notes

Last Thursday Woodland Park presented a gay scene when the boys of the A. C. L. shops had their picnic.

A pre-eating contest, at which some of the little boys who were brought up to fletcherize and horrified at the thought of bolting food, bolted with it instead and ate it more leisurely.

Sunday the Mamie and Nettie brought parties. Engineer Hutchinson with family party of ten spent all day to make up for missing the railroad picnic.

Appreciates Fire Company

The following letter was received by Chief W. H. Underwood of the Sanford Fire Department from Mrs. DeForest enclosing check for \$25.00:

Mr. W. H. Underwood, Chief Fire Department Sanford, Fla.: My Dear Sir - I am enclosing my check for the fire department. As it is now a paid department, I do not know what use you can make of it, but would like it in some way used for the comfort or pleasure of the men.

I certainly do appreciate their efforts to save my building in the recent fire.

Very truly yours, ANNA M. DeFOREST. Chief Underwood replied as follows: Mrs. Anna M. DeForest, Derby, Conn. My Dear Madam - Your highly appreciated letter to hand with check for \$25.00 which I, in behalf of the Sanford Fire Department, want to extend to you our many thanks.

Yours respectfully, W. H. UNDERWOOD, Chief

"Logging Engineering." A chair of "logging engineering" has queer sound, but out in Washington the lumbermen insist that they need it in the state university in their business.

The oriental capacity for finding out another tongue with strange twists of unconscious humor is well known, but few examples are equal to this delicious sign on a Japanese baker's shop: "A Karina, Biggest Loafers in Tokyo." - Oriental Review.

His Case Exceptional. "Who's the thin little man with the melancholy expression? That's Homer, the poet, who wrote the beautiful verses with the refrain, 'Life is what you make it - you can make it glad.' He suffers from chronic dyspepsia." - Cleveland Plain Dealer.

Simple Headache Remedy. A nervous headache may frequently be cured by several sponges of lemon juice on a strong tea and a bilious headache is almost invariably put to rest by a tablespoonful of lemon juice in a cup of black coffee.

Daily Thought. Be sure you give men the best of your wares, though they be poor enough; and the gods will help you to lay by a better store for the future. - Henry D. Thoreau.

Man Who is Ruined. The man who permits himself to be ruined by property probably would have been ruined by something else if property had not come along first.

Sensible Ambition. Ambition's reason is best exemplified by an earnest effort to prepare for the position higher up before being willing to accept it.

IN AND ABOUT THE CITY

Little Happenings—Mention of Matters in Brief

PERSONAL ITEMS OF INTEREST

Summary Of The Floating Small Talks
Succinctly Arranged For Hurdled Herald Readers

A cordial welcome at the Welfare Rest Room.

Call at the Rest Room July 4th and have a comfortable rest.

Go on the Junior Boys' class picnic to Woodland Park July 8th.

Rest Room on First street comfort talk and easy. No charge.

Mrs. Miklred Vorse of Monroe was a visitor in the city last week.

Huning Windhorst of Tampa is the guest of his cousin, Mrs. Al. Lilja.

Let all the little folks who have Indian suits wear them on the Fourth.

Bathing will be free Thursday at Woodland Park. 90-11c

Mrs. A. M. Gilbert of Wilmington, N. C., is visiting her sister, Mrs. J. H. Hickman.

If you want to see Charley Dungee get mad just ask him how much it costs to try to scare a dog.

Hon. E. A. Douglass of Ovidio and Clerk of Court of Seminole county was in the city yesterday.

All the children in Sanford who have Indian suits are requested to wear them on the Fourth of July.

Mrs. Al. Lilja has returned home from a pleasant visit to friends and relatives in Lakeland and Tampa.

Mrs. C. M. Williams and daughter, Miss Edna left today for a visit with relatives in Thibodaux and Savannah, Ga.

County Commissioners Woodruff, Clark, Hagan, Entaminger and McLain were in the city yesterday on official business.

Mrs. A. C. Williams returned yesterday from Cordele, Georgia, where she was recently called by the sudden death of her father.

Miss Pollie Pilkington returned to her home in Richmond, Va. after a pleasant visit to her brother, Harry Pilkington on Palmtoe avenue.

Mrs. E. G. Everette of Rockingham, N. C., has arrived in the city to be with

her brother, G. W. Spencer, who is ill at his home on the Heights.

Charles Wing has returned home from Tampa, where he attended the meeting of the Florida Press Association and thoroughly enjoyed himself.

Tilden Jacobs, member of the county school board and A. W. Tanner were in the city yesterday enroute to their home in Chubota from Sorrento.

The sidewalk crew in the employ of the city authorities is very busy these days in laying long stretches of cement walks. Dozens of blocks are being installed.

The regular meeting of the West Side Improvement Association will be held at the Robbins Nest Thursday afternoon at 3 o'clock. Members are requested to attend.

A fight is to be made in Sanford and Seminole for the exterminating of the mosquito. A definite plan will be followed and this active insect will be put out of commission.

Visitors and strangers in the city will certainly enjoy the special musical service at the Congregational church next Sabbath eve. All will be welcomed by pastor and people.

Sanford is to make a bond issue of \$50,000. The money will be used in retiring certain outstanding bonds and taking up some current obligations, thus placing the affairs of the city upon a cash basis.

The city fathers are much in favor of putting brick on all the cross streets. Brick has been ordered for French avenue and it is believed that the residents of the better streets in the city will demand that they be paved.

Mr. and Mrs. Bell, Mr. and Mrs. Brumley and Mr. and Mrs. Herby, all of Celery avenue leave today for Charlotte, N. C., where they will spend the summer in the mountains. Sanford celery growers made good this season.

Clarence E. Woods, editor of the Eustis Lake Region, and the most finished orator of the Press Association was in the city yesterday enroute home from Tampa. Mr. Woods left the Herald office bearing a beautiful young lady in his arms.

Raymond L. Johnson passed through the city on Saturday night on his return to Baltimore to resume his hospital duties, after a short visit to the home folks at Fort Myers. His limited time did not even allow a short stop over with his many friends in the city.

Mr. and Mrs. R. J. Holly and Reginald Holly have returned from Tampa where they attended the Press Association meeting and were the recipients of lavish hospitality of the Tampa people. Little Robert Holly remained in Tampa the guest of his grandmother, Mrs. E. G. Tyler.

Mr. Ben Fish was over from his Sanford celery farm the last of the week on his way north, where he will take a six weeks vacation. Ben and his brother, Judge Bert Fish, own one of the finest celery farms in the Sanford section. They had eight acres in celery the past season, the crop was good and sold at good prices. DeLand Record.

Mrs. A. L. Williams, accompanied by Mrs. James Fisher and her little son, Willie, of Tampa, who have been visiting Mr. and Mrs. N. A. Fry of 908 Elm avenue left Wednesday last for Arkansas. They will visit friends and relatives in Jacksonville, Atlanta, Birmingham and points in Tennessee. Mrs. Fisher is a sister of Mrs. Fry.

There are rumors of a bank and trust company being started in Sanford. The two banks now operating here at this time are carrying about \$700,000 in deposits. It is believed that a bank and trust company will be able to do a good business here as there is no concern here

at this time that makes a practice of loaning money on real estate.

One of the attractions in Sanford on the glorious Fourth will be a ball game between Sanford and Loughman.

Mr. Gertrude Keady her mother Mr. Curtis, and Mrs. Geo. Fox Jr. spent Friday in Enterprise, the guests of Mrs. A. W. Brown.

The Elks of Sanford have acquired a building site on the lake front and have applied for a license to erect the remains of the most imposing club houses in the state.

F. S. Parker has rented the building recently occupied by McCuller's grocery and will put in a complete line of bicycles and motorcycles with ample line of accessories and supplies.

The Atlantic Coast Line has let contracts for the paving with brick of that area lying between the union passenger station and Ninth street. This is a much needed improvement.

Mr. and Mrs. William Wight and three children from Cairo, Ga., spent part of this week in Sanford, the guests of their brother, Henry Wight and family. Mr. Wight is much pleased with Sanford and may locate here.

The store in the DeForest building, formerly occupied by W. L. Morgan has been fitted up and a new cement floor laid and is now occupied by the new grocery firm of Irwin & Gilman. Both are well known and success is assured.

Sanford's strenuous mayor, G. W. Spencer, who has been on the sick list for several days, is reported to be getting along nicely and will soon be back at his old place in the mayor's court, sending the boys to the road gang as usual.

The celebration to be held here on the Fourth of July for the purpose of starting Seminole county off with the proper eclat, promises to be a most interesting event. The committees are making arrangements to take care of 5,000 visitors and have advised that many notables will be in attendance.

The hard road from the north side of Monroe landing to the main road running from Enterprise to DeLand, is being shelled and put in good traveling condition. This is a very popular route from South Florida to the East Coast, and the ferryman at Monroe puts across as many as six automobiles a day when the travel is heavy.

At the Congregational church next Sunday evening there will be a special service, consisting largely of good music. The church will be assisted by 100 vocalists and a really fine program of devotional vocal and instrumental selections will be given. The pastor will make a brief address in keeping with the nature of the praise and worship of the hour.

The Columbia Crown Paper Company, which has set up a factory here for the purpose of furnishing fruit and vegetable wrappers, is receiving large quantities of paper which will be printed and cut to proper size here and distributed throughout the vegetable fruit and shipping regions. This concern gives employment to a large number of skilled workmen.

The Brotherhood class at the Presbyterian church is one of the most popular events now held weekly in the city. The class numbers some forty persons, both young and old, and is taught by Hon. D. L. Thrasher, with Thomas K. Bates as assistant teacher. It is surprising the amount of interest that is being manifested in the Bible studies. The Brotherhood is organized and has its proper quota of officials and handles its affairs in a very businesslike manner. Times-Union.

The Southern Utilities Company, which owns the two Sanford ice plants, water works, gas and electric light plant is preparing to make some \$40,000 worth of physical betterments to its properties here. The large ice plant which is located at Rand's siding is used for the purpose of furnishing ice to refrigerate vegetable and fruit cars and has a capacity of 100 tons per twenty-four hours. This plant was recently acquired by its present owners, thus giving them control of the ice supply in Sanford.

The brick paving within the city limits has been completed and is one of the most potential improvements to the already extensive system of modern conveniences that has so far been made. Sanford now has as much or more brick paved streets as any city of its size in the south. A visitor to Sanford, who resides in a village of 4,000 inhabitants in York state, says that his town is 175 years old, but he was sure Sanford could make "circles around it in the matter of progress and civic developments.

Card of Thanks

We wish to express our heartfelt appreciation for the many acts of kindness and expressions of sympathy to us in our recent sad bereavement; also for the many beautiful floral offerings. May God in His infinite goodness bless each and every one.

MR. and MRS. J. A. SHEPHERD and Family.

Old Made Good as New

I have a first class harness maker now and we can do anything in this line while you wait. Give us a trial and be convinced.

W. H. UNDERWOOD.

Ovidio Bank's Good Showing

The Bank of Ovidio held the semi annual meeting last night and declared a 4 per cent semi annual dividend and placed \$500 to surplus and \$300 to undivided profits. The Bank of Ovidio has been operating but twelve months and this good showing speaks well for the community and bank's officers.

Lookout Committee Welfare Dept

A member of the Welfare Dept. in the city is appointed a member of the Lookout Committee to care for the strangers within our gates. Please look out for them and direct their attention to the rest room.

MRS. R. A. TERHEUN,
Chairman.

A Florida Prodigy

Huning Windhorst, of Tampa, aged twelve is a Florida musical prodigy. Huning can scarcely touch the floor with his feet while playing the piano and yet he can take the most difficult music and play it like one of the old masters. He has never played much in public and is a little chap of modest demeanor but he has consented to render a few numbers for the minstrel show at the Imperial Theatre next Friday night and the sight of this little fellow performing at the piano is well worth the price of admission. Florida is proud of Huning Windhorst, the twelve year old master of the piano. He is the guest of his cousin, Mrs. Al. Lilja while in the city.

Smith college in Northampton, Mass., one of the later colleges established exclusively for the education of women, received a million dollar addition to its endowment.

There is no lessening of the tide that is running in favor of colleges for women. The idea of co-education is less popular than it was not many years ago and does not appear to be working out the best results in the judgment of leading educators, and it is easy to understand why that should be so.

The new endowment of Smith puts it in the class of well to do institutions of its kind and is a source of thanksgiving to those who are interested in that very high class college. Wellesley was rich from the beginning. So was Vassar. Smith had an endowment but not equal to either of the others named though much greater than was ever the fortune of Elmira, which was the first institution for the higher education of women that was chartered to accord the regular collegiate degrees and lived up to the terms of its charter.

It is getting to be a complaint that the girls of today are better educated than the boys, and the women better trained and better read than the men, and there is a degree of truth in it. Perhaps the hard experience of grinding out of a living equalizes things before the boys and girls of a particular time have grown into middle age.

A great deal of money in the United States goes into education. The state of New York invests every year nearly twice the sum appropriated in the entire Russian empire. We do not know any fact more impressive than that.

It is said that Germany is full of very highly educated persons who can barely earn a living, because of their earnings making competition keen in comparison with the opportunities open to educate men, but we are very far from being in that position in this country.

It will be long before we need fear a standard of education that is too high for the average citizen.

William Allen White, the Kansas editor who won fame years ago by his ringing article on "What's the matter with Kansas?" is now trying to tell the people what is the matter with the schools. He says: "In schools pupils should be taught by every mechanism of the system that good work pays better than poor work. As it stands it takes the tolerably bad student and the excellent student the same number of years to go through the grades into the high school and through college into life. Aside from the injustice of this plan, consider how it propagates laziness by rewarding it. Does not the system of counting equally for promotion every grade except absolute failure, instill in youth the belief that life is a lottery? Suppose that the student who does excellent work—perfect work—in every branch might be graduated from the grades into the high school, and from the high school into college, and from college into life two or three years ahead of his easy going fellows—all accomplished from the system of grades based

not upon the temperament of teachers, of snap or hard courses, but upon the law of human averages; would there not be an immense gain in the moral sense of that youth?"

Dr. Frank Crane of Chicago, too, has been saying things about the school system. He is always vigorous, and what he says has at least the merit of novelty. Here are a few of his notions about schools and the school system:

"Our schools are malodorous with the dregs of class notions.

"The system is a Procrustean bed. If the young one is too short, stretch him; if too long lop off his hands and feet. The main thing is the bed; it ought to be the child.

"The child of today learns more in the school yard than in the schoolroom. Let him play; he learns the principles of Democracy and citizenship. His life should be all play, and the true teacher teaches him to make work play.

"Our educational idea is to make a boy an exceptional man, it ought to make him a well trained common man. It is calculated to bring a child to a certain standard; it ought to bring out what is in the child.

"Grades, examinations and civil service are three arrant humbugs, and the examination is the supreme one. The teacher that needs an examination to ascertain a child's qualifications ought to be plowing corn. Writing about man is a mere trick, and is no sign of a practical knowledge of the thing.

"There is many a girl in our modern schools, who can prattle about the square of a right angle triangle and knows nothing of the flowers that brush her pretty ankles as she walks to school. She knows nothing of the stars at which she gazes when she talks to her beau. She knows nothing about the life sustaining plants growing in the ground on which she walks, she has no understanding of parental domestic problems, not of the care of her body and goes forth into the world totally unfit to be a wife or mother."

NEW SEMINOLE COUNTY

Preliminary Meeting of County Officials Yesterday

Seminole county is a fact!

An unofficial meeting of the county commissioners took place in the city hall yesterday and many matters of interest were discussed and while all the proceedings were unofficial the coming together and discussions were for the best interests of the new county and these preliminaries can best be disposed of now before the real work begins. The matter of bonds for officials and the supplies for the different officials and other matters were taken up and the way the commissioners buckled down to the work demonstrates that they will lose no time when the first official meeting is called the first Tuesday in August.

There is a general good feeling all over Seminole county that the new officials will give the people service and that the new county will start off under most auspicious circumstances.

That the new officers will have much hard work ahead of them is agreed by every one and the general feeling seems to be to uphold their hands and help them in their great undertaking of starting a new county and starting it right.

The full board was present yesterday as follows:

F. L. Woodruff, J. T. McLain, J. A. Clark, C. W. Entzinger and L. P. Hagan.

County Treasurer Jones, Sheriff Hand, County Judge Whitner, Clerk of Circuit Court Douglas, Assessor Bates, Superintendent of Public Instruction Thrasher,

and Member School Board Jacobs were also present and took a deep interest in the meeting.

All the local feeling that was engendered by county division and afterward by the division of offices has been obliterated and the people of Seminole county are a unit for the best county in the states and being a small county there will be a closer bond between city and country and the tax payers will get a square deal. The officials especially will be on their good behavior for they hold office for a short period only and they will be anxious to serve the people to the best of their ability at all times. All in all Seminole will start housekeeping in August under most auspicious circumstances.

New Boat Line at Sanford

It is reported on reliable authority that Sanford citizens will organize a stock company for the purpose of operating a boat line between Sanford and Jacksonville. In competition to the Clyde line which by a recent arrangement operates in conjunction with the Atlantic Coast line and takes away the competition which Sanford has enjoyed for many years. Sanford is justified in this move. The efforts of railroad corporations to smother competition in transportation, and the only way to prevent this is for citizens to cooperate and form their own transportation company. Sanford is happily so situated that at no great outlay a local transportation company can operate opposition boats and not only benefit producers in that locality, but earn good dividends for the company.

The fact that railroad corporations pay higher salaries, to a larger official force than any institutions of America, and pay rich dividends besides takes away the force of their claims of need of protection in freight rates. If Sanford is so situated financially that she can install a line of boats it will prove of great value to the entire public.—Orlando Citizens.

The Gate City House has brought down the high cost of living. Only \$4.00 per week for the finest table board in the city. See Parker. 28-11

DAYTONA BEACH

THE NEW HOTEL NEPTUNE

will open July 5, under the management of Mr. and Mrs. DeSpain, formerly owners of Hotel DeSpain. Daytona's finest and largest hotel. This gives a guarantee that the cuisine service will be first class. Rooms with private baths. Every room has an ocean view. Be situated on the bluff on a corner lot. You will meet your friends there.

RIVERVIEW LOTS

JACKSONVILLE, FLA.

\$10.00 DOWN AND \$5.00 PER MONTH

NO INTEREST OR TAXES FOR 2 YEARS FROM DATE OF YOUR CONTRACT

It is only a matter of a few years but what all this Riverview property will be a repetition of Riverside and Springfield.

We have the Bell telephone service which all know is the finest in the land, and our motor car service which gives Riverview people a 5c fare to the business centre of Jacksonville, is a far better service than is rendered in many other parts of Jacksonville and its suburbs. To those who desire to make a small modest investment of only a few dollars every month, with a positive and absolute certainty of making big money on their investment, Riverview offers this opportunity.

We lie right out beyond Springfield, one mile beyond North Jacksonville. We have a fine brick and macadam street leading from the Post Office in Jacksonville to and through Riverview. We already have 40 homes, mercantile houses and varied industries. We have 14 miles of streets, all of which are set out in shade trees. We have free public docks, boat and bath houses, an 8 grade grammar school, and new developments rapidly taking place.

Now is a good time to buy your lots. Our prices range for inside lots \$350 to 450 the lot. Corners \$450 to 550. Terms the same on all. \$10 down and 5 per month.

We will make special terms on 4 lots, but not more than 4 lots sold to any one person. No lots sold to colored people.

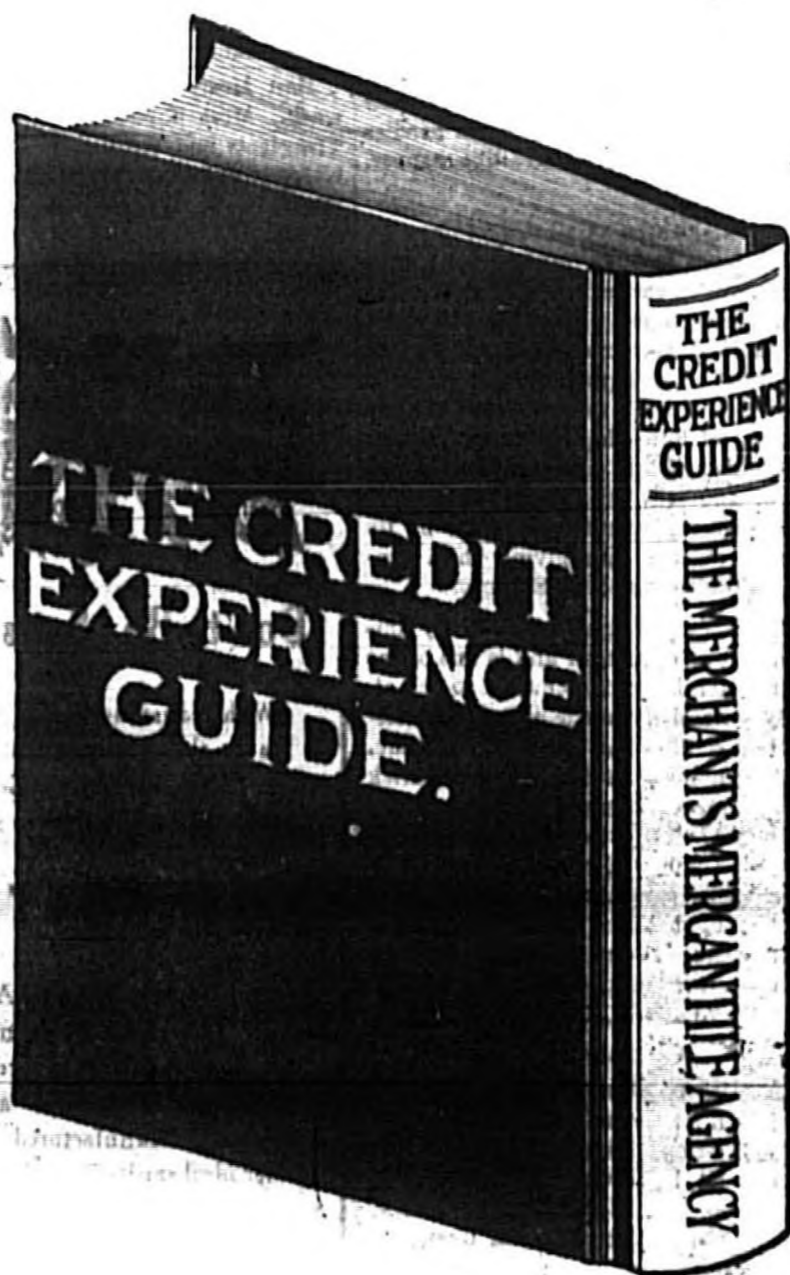

For further information and literature write direct to the owner.

Dr. E. H. ARMSTRONG

111-112 Heard Nat'l. Bank Bldg.

JACKSONVILLE, FLA.

Prompt Pay, Fair Pay, Slow Pay or No Pay. How Will You Be Rated?

As every man's credit is of utmost importance to him, we wish to give every citizen ample notice that they are being rated—prompt pay, fair pay, slow pay, no pay, according to the way they pay their doctor, dentist, grocer, butcher, baker, ice man, milk man and everyone who extends them credit. As this book is used by all business and professional men of Sanford as their guide in extending credit, we trust you will find it to your best interest to call on anyone to whom you owe money and pay up. If you can't pay all, pay as much as possible so they can give you a good rating.

"Tells How You Pay"

HOUSES GETTING SCARCE

Difficult Matter To Obtain A House In Sanford

CITY IS FILLING WITH PEOPLE

More New Houses Being Built But Crows Of New People Are Coming

Where are the people coming from? This question is asked every day by the citizens of Sanford, and it is agitated by the constant demand for more houses.

The only solution of this dearth of houses lies in the fact that there are more people coming to Sanford and renting houses than ever before at this season of the year.

County division has been resumed in a measure for the better business new affairs and the credit to the city.

Notes From The Concert

The publisher of The Herald being away attending the Press Association meeting and no one handling in anything relative to the concert given at the Congregational Church Friday evening last.

Public entertainments under similar auspices always draw a full house of the music lovers of our city.

To Stop Shipping Cattle

The United States Department of Agriculture, Bureau of Animal Industry, has set July 9 as the day for a conference of business men, federal and state officers to be held in Montgomery.

A shipment of 40 carloads of cattle was recently made from Ocala county, Florida in one day. They were shipped to Kansas, via Oklahoma City.

Some people of the south seem glad that these cattle are shipped out, as the number of scrub cattle is being reduced and the south will get better cattle as a result.

The south is especially adapted to raising cattle, because of the long grazing season, the enormous areas of cheap land, much of which is now lying idle.

Nothing will be free Thursday at Woodland Park.

SANFORD WELCOMES YOU

This Is The Day We Celebrate And City Is Yours

PROGRAM PUBLISHED IN HERALD

The Day Replete With Good Things And Visitors Should Enjoy Every Minute.

The old town will be split wide open today and every visitor can carry away a piece of it for a souvenir. From early light to electric light there will be something doing for those who want it.

The general program is published in this paper and souvenir programs can be had for the asking at all the book stores and stationery stands.

This is the day we celebrate and Sanford people want the visitors to get every thing that is coming to them. Don't go away at night for the best part of the program will occur at the Imperial Theatre.

Sizing Up The Editors

One of our other towns took long and agonizing at the premises of the Florida newspaper men in Tampa Friday evening and then gave us his opinion as follows, but he was not personally acquainted with any of them, and therefore is liable to be dead wrong.

The one who would be best to see for anything" man of the crowd is E. P. Hall of the Key West Advertiser. The most distinguished looking one is P. E. Louwengood of the Ocala Banner.

The one who I would trust with a matter of other editor's correspondence is Wm. A. Russell of the Punta News. The one with the most interesting program is W. Walton of the East Coast Advocate.

The man who looks as though he felt his responsibility as a moulder of public opinion, is A. P. Jordan of the Punta Gorda Herald. The one I would choose for a brother-in-law is M. B. Darnell of the Key West Citizen.

The man who would draw first prize in a "Homeliest Man's contest is A. B. Brown of the Ft. Pierce News. The one I would not like to meet in a back alley on a dark night is A. M. C. Russell of the Palmette News—Orlando Sentinel.

A great deal has been written about Mr. P. J. Holles and his purchase of lands in the Florida Everglades, and there has been more or less scandal connected with it.

It now looks as if his entire purchase is to revert back to the state for the non-payment of taxes.

In the publication of the delinquent tax list for Palm Beach county the Holles' description of lands occupy nine hundred and twelve lines, and the taxes and costs foot up the sum of \$49,078.28.

Geneva Invites You Who is too old to enjoy a moonlight ride, especially to Geneva July 8, 7:45 p. m. An entertainment to be given by the M. M. S. Society. Music by the Geneva Orchestra.

Copyright, 1913, by American Press Association. By O. B. BREUER. WE'll, here we are, good people. With our pretty flags arrayed Like true and loyal patriots To see the big parade.

Program Of Today's Grand Celebration Of Seminole County

Table with 2 columns: Time and Description of events. Includes 9:30 O'clock Grand Industrial, Civic, Automobile and Hunkidori Parade; 10:30 O'clock Parade will disband at the Sanford House Park; 11 O'clock Oration by Hon. W. A. McWilliams; 11:30 O'clock Presentation speeches and General Felicitations; 12 High Noon Adjournment to the Sanford House Park; 1:30 O'clock Band Concert; 7:30 O'clock Grand display of Fireworks; 8 O'clock The Lucky Sanford Minstrel.

(Continued on Page Eight)
