The Auto Strike

If any one thing stands out in the bloody struggle be-tween the rebels and loyalists in Spain, if any one thing more than another has been demonstrated by the fierce Civil War which already has developed into a little World War with Spain merely providing the local battlefield, it is the futility of trying to settle political differences, of trying to prove economic philosophies, by means of vio-

After six months of fighting the reliefs have not shown to the satisfaction of anyone who did not already agree with them that they are competent to preside over the political destinies of Spain. Nor have the loyalists proved that the socialistic doctrines and the anti-Christian beliefs which the government has fostered could make a better or a happier country. The issues are still unsolved and will remain unsolved as long as the fighting con-

All that the resort to violence has succeeded in doing is completely laying waste to a large section of a beautiful country, almost totally destroying many fine cities, and utterly demolishing magnificent huildings in many of which were housed priceless collections of paintings, tapestries, and other art treasures, and the wholesale slaughter of countless men, women and children.

This seeme is in decided contrast to the peaceful manner in which nearly fifty million Americans went to the polls last November and re-elected President Roosevelt deciding issues almost as involved and almost as wide as those which are causing all the trouble in Spain. It was the American way, just as people are saying today

WAY EVERLASTING: that this bloody fight in Spain is "an old Spanish cus-

in, O Ged, and know my tom."

Let us hope that the difference between management and see if there be any and labor in the automobile industry, can also be settled to any insues which are in the American way. There too are issues which are hardly less complicated and bitter than those which afflict the people of Spain, but if the leaders of the opposing factions take a lesson from abroad, they will realise that nothing can be accomplished by violence.

As long as the strike continues the public will suffer. not only from the inability to get ears, or from the loss of direct purchasing power among the employees, but also from a hundred other indirect ways. And as long as the strike continues there is the ever present danger that hot heads on one side or the other will be seeking in the biggest fist or the largest number of machine guns.

Both capital and labor should lay aside their prejudices and agree to arbitrate. That is the only way the basic issues can be settled.

Oxen Rule The Roads

Time was when the ox was one of the most common fare it has two distinct aspects- sober Britons and rebel Germans

Time was when the ox was one of the most common beasts of burden doing chores around the farm, hauling loads between cities or from country homes into town that no other samual cauld, but nowadays a yoke of oses with heavy burden is an extremely rare sight.

Nova Scotia, it seems, is one of the few places in the world where the ox still has the right of way on public highways; not only the right of way, but almost the only way. Visitors there are often amused at the sight of single- and double-yoked oxen drawing carts along the well flocked into Spain to shape her taking over a whole war for gle- and double-yoked oxen drawing carts along the well flocked into Spain to shape her taking over a whole war for paved highways, and sometimes erroniously conclude that fate in the white heat of their own, and when before has

"The truth of the matter is," says Our Dumb Animals, "that Canada's easternmost province is among the most progressive of neighborhoods in its legislation regarding dumb animals. In questions of traffic dispute or accident, 'right-of-way' is granted the relation of the state of the relation of the state of the relation of the fullest parallel one must go back to a terrible, one—the Thirty Years' war, that laid Europe waste thinks. Spain herself has been the state of th cident, 'right-of-way' is granted the plodding workers used shot over, plundered and burned three centuries ago. by the French Acadians for vehicular transportation and in the course of other people's It grew and festered in the

haulage.

"Well-trained oxen are sturdy enough to stand work that would kill a horse in no time at all. They have great attempts and endurance can have been appropriation and in the course of other people's lit grew and festered in the quarrels since the time of the same combination of nationalistic political ambition with a bitter parallel to the strange form of clash of religious idealism. It governmental intervention and the course of the same combination of nationalistic political ambition with a bitter parallel to the strange form of clash of religious idealism. It r. There must be strength and endurance, can haul heavy loads of logs, and -most important—are sure-footed enough to labor in the roughest kind of country day after day.

"In Nova Scotia the ox-yoke fits around the horns, The French then recognized such armies, as strangely assorted rather than the neck of the beast. This has been demonall the taxes collected by strated to relieve the strain on the animal's shoulders, thus government in 1936 in leaving it comparatively rested at the end of a day's la-

"An interesting side-light on Nova Scotia's interest in of New York paid \$783- the well-being of its beasts of burden is brought to light in the records of the provincial government's discussion of traffic during the way days—just before Noya Scotia abandoned the English "drive to the left" traffic rule and adopted the American style of right-hand driving.

"An earnest plea was brought forth by the member from Lunenburg county, on the picturesque South Shore, and who have captured from Lunenburg county, on the picturesque South Shore, phanes alive, and have that no change he made in the prevailing custom. 'For these experiences in the years,' he told his fellows, 'our oxen have been accustomed of the jungles without a to taking the left-hand side of the road. A change now were injured on a trip would disturb their set habits and create an unnecessary hardship on these valuable beasts of burden.

HONOLULU, Jan. 14;-(P)-With regard for those who prefer their archaeology mixed with thrills, Dr. Alfred Metraux, French scientist now here, "regreefully" says myth-ridden Easter Island, off the Chile coast, no longer is mysterious.

But that, he adds, does not pre vent its natives from supporting themselves by sellling "13th century" idols made to order.

After five months' residence on the island and a year's additional research at the Bishop Museum here, Dr. Metraux says Easter is a not unusual volcanic island, where early Polynesian settlers turned to atone carving in adapting themselves to their bleak environment. Today each visiting ship is me by outrigger canoes packed with foot-high idols, wooden and stone,

which are reproductions of the is-land's early methods reminiscent of modern factory efficiency and haste, the scientist said. This adaptiveness, he said, has destroyed much of the island's early culture, for the natives have overthrown ancient customs in abandoning peganism and canna-

VISUAL NEWS of the WORLD IN PICTURES

DIZZY DEAN'S KINSMAN SLAIN

Pland Devine, manager of a bue company at Guifpert, Mice., and a breiter-in-law of Dizzy Dean, the baseball pitcher, was shot to death and Me wife was fired upon in that city but she escaped harm. Police severed Robert Tinaley, 45, a former employe of the bue company who was reported diagrantical over his recent discharge. Devine and his wife are shown above. (Aspeciated Press Photo)

FOOTPRINT CLUE IN KIDNAPING

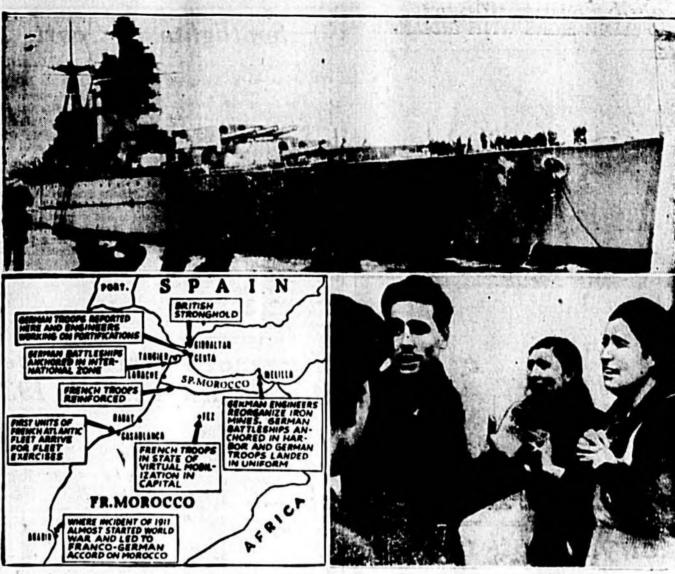

This feetprint, believed to be that of the man who kidnape, and filled Charles Matteon, was found in the snow near the fresen and battered body of the 10-year-old boy. The tracks led from a read of slump of bushes near Everett, Wash., In which the body was found by a boy hunting rabbits. (Associated Prese Phote)

FREE 20 YEARS, FUGITIVE GIVES UP

into police headquarters at Birmingham. Als., strolled James Maler (right) who teld Desk Bergeant M. E. Wiseman (left) that he escaped from the Tennessee penitentiary in 1918 but has grown weary of design the law with no work to be found. "I suddenly made up the head of the whole business—and here I am," said the dishile fugitive who reported he was under a 15-year sentence for burglary. (Associated Press Photo)

NAZI ARMY IN MOROCCO ALARMS ENGLAND AND FRANCE

Europe's dark war clouds took on an even darker hue with a great concentration of German troops reported in Spanish Morocco as a part of Chancellor Hitler's plan to aid Spanish insurgents. Fe arful of a German menace to Great Britain's naval base at Gibral'ar and to the tranquility of French Morocco, England and France rushed mighty fleets of warships to the Mediterranean in preparation for any eventuality. Among the 94 British ships is the mighty Rodney (top), one of John Bull's greatest dreadnaughts. The map illustrates the danger spets in Europe's lates, threat for a general war. Meanwhile, Fascist planes continued to shower bombs on Madrid. Their faces reflecting their horror, relatives at the bombs' victors shown searching ruins for their loved ones. This sociated Press Photo)

SCENES IN BATHTUB SLAYING

Here are the bloody scenes of Mrs. Mary Robinson Case's mysterious death in her New York apartment. Beaten and partially clad, her bedy was found in the bathtub shown at the top. Below, an investigator is shown inspecting for shoes in her blood-smeare. kitches (Associated Press Photos)

MUSIC DISLIKED, PIANIST SLAIN

Francis Parker, jazz planist in a Chicago night club, was shot to death because a patron didn't like his music. Police accused Harold Rambert, a chauffeur, who is shown (left) telling Prosecutor Morris Meyers he did the shooting but didn't "know why." "Listen, Buddy. I don't like you or your music." witnesses quoted Rambert as saying to Parker a moment before he snatched a pistel and started firing. (Associated Press Photo)

Inaugural Medal

AUTO STRIKERS BATTLE POLICE AMID TEAR GAS

This picture shows both sides of the special medal that will be struck in semmemoration of President Rosseveit's and Vice President Garner's inauguration for a second term. Two will be struck in gold and presented to them and 1,000 in bronze will be sold to the public. (Associated Press Photo)

Automobile strikers are shown throwing missiles at police during a tear gas attack at Flint, Mich. Fourteen men were shot and a score injured etherwise in the riot at the Fisher Body Corporation's No. 2 plant, a General Motors subsidiary. (Associated Press Photo)

SECURITY FOR SECURITY NUMBER

Leon Roofener (above), theatre employe of Memphis, Tenn., would lose his left arm before he would lose his Secial Security number.

And we're not speaking figuratively either. Leon had the number settooed above his left elbow—just in case he should ever less his sard.

(Associated Press Photo)

TALMADGE'S SUCCESSOR DEMANDS PURGE

Coincident with his inauguration as governor of Georgia to succeed Eugene Talmadge, E. D. Rivere, 41-year-old attorney, demanded a purge of Talmadge-controlled departments in the state government. "There is no place under Georgia's constitution for a dictatorship," declared Rivers in his inaugural address on the capitol grounds in Atlanta. The new governor (left) is shown saying goodbys to Talmadge whose critics have accused him of resorting to dictatorial methods as governor. On the extreme right stands John Spivey, new president of the state senate, who presided ever the inauguration. (Associated Press Photo)

YOUNG HOUSEWIFE FOUND SLAIN IN BATHTUB

Stranged and heally heaten, the budy of Mrs. Mary Robinson Gase, 25, use found it the bathtub in her New York apartment by her husband, Frank (right), who said he herried home in starm at her failure to answer his telephone call. Bloodetoine in the kitchen gave evidence that the highted violently with her acquires. Peleconen are shown removing the body from the apartment. (Associated From Photos)

Resolution Banning Group Of Motor Officers Adopted

Authorizing Unit

Organization Instituted By Sholtz For 'Protection'

TALLAHASSEE, Jan. 15. Highway Commission today abolished the State Road Patrol, ordering it out of existence Jan. 30 "in secordance with the Governor's wish." Board members estimated the move would save

about \$150,000 annually.
There was no discussion at the Commission's hearing. A. S. Brooks Bateman, member from Pahokee, offered the abolishing resolution and it was adopted unanimously.

Automobiles, motorcycles and other equipment used by 52 men in the patrol will be concentrated "at some place" Chairman A. B. Hale said, until a decision la renched on the disposition of It. it may be stored, he said, to

await possible artion by the lowislature next April to establish a patrol by legislative enactment. Governor Sholtz, who preceded Cone established the highway ana means of protecting highways by preventing overloaded motor vehicles.

Members of the patrol were assigned by Governor Sholts for two winter seasons to State bor-Her stations to turn back jobless transients who sought to enter the State. He said the border was necessary to protect Florida residents and winter vist-

Cone criticized the patrol in his inaugural address, saying he was proud of it but that it should he authorized by the Legislature (funtimed the Page Three)
