

F.D.A. Auctions 10,578 Cases Of Eggs In Capital

Purchased For Government Use And Then Not Needed

NEW YORK CITY, Oct. 20. (AP) The New York Office of the Food Distribution Administration announced recently that 10,578 cases of eggs, once bought for government use and later declared to be not needed, were sold at auction yesterday by the F.D.A. in Washington. Bids will be taken soon on 5,021 unsold cases, the F.D.A. said.

All sales were for the rolling prices for the various grades, ranging from 13 cents a dozen for No. 1 standards to 31 cents

a dozen for No. 2 extras. Of the 8,921 unsold cases, about 1,000 are in the New York-New Jersey area, the F.D.A. said.

An estimated cut in per capita civilian butter consumption from the pre-war level of sixteen pounds to between ten and eleven pounds in the next year, was predicted yesterday by Dr. Tom G. Stitts, chief of the Dairy and Poultry Branch of the F.D.A., who earlier in the week had presented a "butter program" to Midwest creamery interests.

The latest F.D.A. report on government butter holdings showed the total supply throughout the country on Oct. 1 to be 232,436,000 pounds, compared with 123,599,000 a year ago and an average of 163,988,000 for the five-year period, 1938 to 1942 inclusive.

Dr. Stitts estimated that in the twelve months beginning Oct. 1 the armed forces would require about 300,000,000 pounds of butter, the Veterans Administration and other war services, an additional 2,000,000 pounds, and the

Chicago Opens First Subway After 30 Years

Road Has 10-Ct. Fare And Varied Colors To Identify Stations

CHICAGO, Oct. 20. (AP) Chicago after 30 years of work now has in actual operation its long-awaited and much discussed subway.

Tape-breaking ceremonies were held last Saturday, but Chicago citizens, who for years had been patiently packed into streetcars and buses, or hustled onto clattering elevated cars, couldn't buy rides on the swift underground system until the witching hour Sunday morning.

Subway Commissioner Philip Harrington handed Mayor Edward J. Kelly a motorman's control lever, which the Mayor turned over to Bernard J. Fallon, trustee of the Chicago Rapid Transit Company, which has been excavated from the

pany in exchange for scissors. Then he cut a ribbon across the tracks under State and Madison Streets.

The public rode down to inspect the subway platforms on the most modern accident-proof escalators, breathed the air-conditioning air, blinked at the fluorescent "daylight" illumination, and pronounced the whole works good.

Known as "Route No. 1," the 4.9 miles of completed track have cost \$24,000,000. Fifty additional miles of tubes are planned when construction and labor difficulties are eased. Fares will be 10 cents.

There are innovations in the subway commanding the highest respect of engineers. It's the first subway in the world to use fluorescent lighting, giving uniform intensity of illumination and reducing shadows and glare.

Each of the 16 stations has its own identifying color scheme, with rotation of primary colors—blue, red, green and brown. A passenger who doesn't know how to read station signs ought to be able to get off at the right color. Side walls of the stations are finished in gray structure glass, a non-scratchable material that will prevent any one who likes to write in public places from drawing pictures or scrawling "Johnny loves Mary" in the subway.

Accident-proof reversible escalators connect the mezzanine stations with train platforms. The latest in automatic train control will stop a train if the operator runs past a red signal and will keep a train within its proper maximum speed. Operating noises are reduced on resilient pad inserts in the tie-plates.

Chicago's first public transportation system, the horse cars, developed in 1859. Cable cars ap-

RATIONING CALENDAR

Sanford rationing board hours—9:00 A.M. to 4:00 P.M. Close Saturdays afternoons.

MEATS, CHEESE, BUTTER, OILS AND CANNED MILK
Rationed at 16 points a week in red stamps.

Brown stamps, in new book: C, D, E, F valid to Oct. 30. **FRUITS AND VEGETABLES**

SHOES
Good now—Stamp No. 18 valid indefinitely. Stamp 1 on airplane sheet Book 3 valid Nov. 1.

GASOLINE
Good now—No. 8 stamp in A book until Nov. 8. Get applications for new A books at any filling station.

TIRE
March 31 is deadline for second inspection by A book holders. Oct. 31 for B, Nov. 30 will be C deadline.

FUEL OIL
Period 1 coupons of new ration valid for 10 gallons. Cooling coupon good any time.

"Cruel Man" Visits Friends In Jail Here

"Cruel Man" diminutive negro, is back again.

There is no place like home to Henry Napoleon White, alias "Cruel Man", and that home is either the City or County Jail. When away too long, that homesick feeling "gits him". Hence after working in Jacksonville a month for J.E. Creech, state jail inspector, "Cruel" visited his cronies, here yesterday and later in the evening, J.E. Rogers, county jailer.

"Cruel", not being a prisoner now, was really a guest for the County Tuesday evening. Yesterday morning, a bit thinner than formerly, but at perfect peace with the world, his feet encased in boots and on his head at a jaunty angle a large brimmed hat given him by Sheriff Charles Hand, "Cruel Man" happily set to work mowing the Court House lawn.

Setfast the Paint that Renews and Preserves CANVAS

Here is a remarkable paint which leaves the fabric pliable and will not crack, fade, bleed, shrink, stretch, wash, bleach, fade, or discolor. It is made of the finest materials and is easy to apply. Simply brush on 15-20¢ a can.

Coal Miners In Kentucky Out On Strike

Rail Brotherhoods Prepare For Strike Vote In 10-Month Wage Hike Fight

WASHINGTON, Oct. 22. (AP)—President Roosevelt is suffering from a head cold. All appointments were cancelled today, but purely as a precautionary measure, physicians said, since the President has no temperature.

HARLAN, Ky., Oct. 22. (AP)—Approximately 3,840 miners quit work at the mines of two coal companies in Harlan County and one in Floyd County today to bring about 7,700 idle in the Kentucky coal fields. The majority of Alabama's 22,000 union miners also remained away from the pits.

In Chicago representatives of 350,000 members of five operating Railroad Brotherhoods meeting here today declared a strike vote imminent to bring to a head their ten-month fight for higher wages. One of them said, "Railroad workers won't be satisfied with any more hearings."

WASHINGTON, Oct. 22. (AP)—Top leaders of organized labor assailed the Little Steel wage formula at a conference with President Roosevelt yesterday and got a promise that a committee would be set up to determine whether the Government's figures on living costs are adequate.

After the conference, President William Green of the American Federation of Labor voiced strong objections to the formula exercised by the Office of Economic Stabilization, asserting there ought to be "a better method and better way" of accomplishing stabilization.

He said he was not objecting to stabilization, but that it should be done on a temporary basis. He asserted there should be no such office "when you have to go through a court or tribunal such as this."

CITY BRIEFS

The restaurant at the Sanford State Farmers' Market is being put in readiness for opening on Monday, Nov. 1, according to C.R. Lowmilk, manager.

Some shipments of locally grown English peas and beans were expected to be on hand next week at the Sanford State Farmer's Market.

There will be a supper meeting of the Episcopal Men's Club at 7:00 o'clock next Monday night. A special program has been arranged.

Harry E. Robson son of Dr. and Mrs. J.N. Robson, has been promoted from the rank of corporal to sergeant. His address is 204111st, Medical Detachment, 124th Infantry, A.P.O. 312, Fort Jackson, Columbia, S.C.

An examination on the Constitution of the United States will be held at 2:00 o'clock on Saturday afternoon, Nov. 6, at the office of the County Superintendent in the Court House. All teachers seeking certificates must take this examination. Sept. T.W. Lawson stated.

The Sanford Board of City Commissioners will hold their regular meeting Monday evening at the City Hall.

Sheriff Charles Hand predicted Thursday that Henry Kappelon (Columbus) will be arrested.

Numerous Selectees Leave For Training

A large group of selectees numbering nearly 100, will be leaving for training at the Army Air Corps base at Tuskegee Army Airfield, near Montgomery, Ala., today. The selectees are being sent to the base to receive their training in the use of the airplane.

Naples Time-Bomb Blast Scene

The Germans are gone from Naples, Italy, but there is still Nazi treachery there in the form of mines and "booby traps." Allied soldiers extinguish flames in the cellar of a building used by the 5th Army as barracks. The fire in the Naples building was caused by the explosion of a time bomb planted by the Nazis before they fled the Italian city. U.S. Signal Corps Radiophoto. (International Soundphoto)

Volunteers Are Needed At Once At Ration Board

Peterson And Staff Are Swamped With Rationing Program

The Seminole County Price and Rationing Board is so swamped with work that they had to close the door to visitors yesterday afternoon in order to catch up. Volunteer workers are needed at once to help with four programs now going on according to A.B. Peterson, secretary.

These programs are: Checking on registrations on No. 4, war ration books, now taking place in schools in the county; setting the new gasoline A books; making allotments to restaurants and renewing kerosene ration books.

Holdings of a gas books are reminded that in order to secure new books they must bring their tire inspection record. The 1942 license should be put on the applications. Tire serial numbers should be listed in the same order as before if possible. If there has been a change, new numbers should be recorded.

Kerosene heating stamps for cooking and lighting, which were to have expired Oct. 1, may instead be used until all stamps in the book are gone, said Mrs. Mary McKinney, who is in charge of this department. Her telephone number is 973.

Other telephone numbers of the Rationing Board are: 970, Mr. Peterson, Mrs. Mary McCaulley, and Miss Betty Wathen, the latter having charge of processed food, shoe, bicycle programs and Ration Books 2, 3, and 4.

To inquire about tires, telephone Mrs. Dorothy Lawson, at 971. For passenger car gasoline, contact gas and rubber book rationing. Telephone Mrs. Virginia Speer or Miss Beale Zachary, notary public, at 973.

Calling the correct number at the Board, will save much time, Mr. Peterson said today.

Old Age Assistance Increased In Florida

Increasing the average old age assistance grant from \$14.82 as of June, to approximately \$18.50 when the distribution of new revenues provided by the cigarette tax is completed, will give Florida a good position among Southern States in the payment of this form of public assistance.

Officials here of the Social Security Board for June the latest available show that Florida leads all Southern States in the number of recipients in proportion to population and is second to Texas in the size of the grant, according to Leland W. Clark, State welfare commissioner.

Florida which had cash grants to 412,412 recipients was exceeded in the number of recipients only by the more populous States of Georgia, Texas, and Virginia with 1,784,412 recipients.

California which has the largest number of recipients, has 2,122,412 recipients. The next highest is New York with 1,784,412 recipients.

Celery Crop Is Expected To Be Short

Damage To Seed Beds From Heavy Rains Is Given As Reason For Reduction

Celery acreage in Seminole County will be somewhat short of that planted in previous years due to damage to seed beds by rains of the past month, it was predicted yesterday by W.A. Lefler, manager of Chase and Company.

Approximate acreage devoted to celery will be revealed Nov. 1, by the annual survey made by the Fruit Growers Express, which makes these surveys in order to determine the number of refrigerator cars to supply for the celery shipments, he stated.

The celery report of last November showed that 1,770 acres were at that time devoted to celery planting in the county. Of that acreage plantings on the west side of Sanford were 223 acres and on the west side, 575 acres. Other county acreages were: Mecca Hamrick, south of Sanford, 132 acres; Wagner, 12 acres; Duval, 196 acres and Alvin, 127 acres.

The November survey also showed 28 acres of Boston and 83 acres of iceberg lettuce planted in the county. Other plantings were: eggplant, 212 acres; tomato, 30 acres; cabbage, 235 acres; cauliflower, 12 acres; pepper, 10 acres; beans, 115 acres; eggplant, four acres; and other vegetables such as peas, carrots and beets, 25 acres.

The state situation "is still tight" according to Mr. Lefler, but he said that he believed there would be enough to supply later demands.

Heavy demand for oranges of the early Hamlin variety is reported by H.A. Lehman, manager of the Sanford State Farmers' Market, and truck shipments are expected to be in the neighborhood of 100,000 boxes a week.

Funeral Services Are Held For Mrs. D.A. Caldwell

Mrs. Wideman Caldwell, widow of the late David A. Caldwell, died at her home on 119 East Seventh Street yesterday at 12:20 p.m. following an illness of several years.

Born Oct. 24, 1905 in Sumter, S.C. Mrs. Caldwell would have been 38 years old had she lived until Sunday. She was married to David A. Caldwell in 1928. They have three children: Mrs. J. W. Adams, Mrs. J. W. Adams, and Mrs. J. W. Adams.

Funeral services were held this afternoon at 3:30 o'clock in the Presbyterian Church with the Rev. J. W. Adams officiating. Pallbearers were W. A. Lefler, Robert W. Deane, O. P. Herndon, E. F. Lane, H. E. Whitner, Jr. and J. W. Adams.

Maj. Julian Adams, Jr. Is Awarded D. S. C.

Maj. Julian R. Adams, Jr. son of Mr. and Mrs. J. R. Adams, has been awarded the Distinguished Service Cross for outstanding performance of his duties as a combat pilot in the Army Air Corps in North Africa.

The cross was presented to Maj. Adams on Aug. 24 by his general with the following citation: "For outstanding performance of his duties as a combat pilot in leading his squadron against the enemy in the battle for Tunisia and the battle for Sicily. His actions played an important part in the liberation of North Africa and the defeat of the enemy."

In addition to the Distinguished Service Cross, Maj. Adams also holds an Air Medal and two Oak Leaf Clusters.

Attention Called To Fire Wood Ceiling

A ceiling made of fire wood has been set up by Seminole and Orange counties and persons who have been having trouble buying wood at the ceiling prices may wish to try it. It is being set up in the N. Bay, city square, and city authorities will enforce the O.P.A. order. A. B. Peterson, rationing executive, announced.

U. S. Fighters Cross The Voltorno River

American soldiers jumped into a rubber boat and crossed the Voltorno River. The river is a major obstacle to the Allies' advance on Rome.

New Industry Is Seen For Florida In Local Hybrids

What is needed supplies of cork from Europe and Cuba wood from South America, used in making life preservers have been cut off by the war. Even cut cork used in swimming have been cut off.

Mr. Jennings pointed out that the wood of the cork oak, which grows in Florida, is 10 to 15 times as light as cork and tests had proved it had a tensile strength five times greater than balsam wood. It is a native of this state.

Banana Boys Get Their Music In Groove

The Banana Boys, who put on a smooth dance music with a Paul Robeson touch in long hours at jam sessions getting their music in the groove for the high school boys at the school cafeteria.

Another hot drummer in the band is Jake Brothie. Hugh Wheeler, football star, will play on his alto sax. Ed White will amaze out harmony on his trombone.

The 12th Infantry, known as the "Gable" Regiment is rich in tradition, its origin dating back 378 years to the days of Don Pedro Menendez establishment of the first military garrison at St. Augustine, Florida.

Celeryfeds Hold Hard Scrimmage Preparing For Ocala Game Tonight

The Seminole High School griders, far from under-estimating a tough, fast Ocala team of Wildcats, put in hard scrimmages Tuesday and Wednesday, light drill and passing on Thursday and shall practice today in preparation for their first homecoming game at 8:00 o'clock tonight.

The Celeryfeds have, so far, won games against East and DeLand, and lost to Ocala and Daytona. The Wildcats lost their season opener 18 to 6 to Tallahassee, but came back to whip Live Oak, 31 to 0, Palatka, 47 to 13, and Lady City 18-7.

Average line weight of Coach J.C. Bates's Wildcats is 165, and of the Feds, according to Coach Bower, 90.

The Feds will be without the services of their speedy back, O. D. Landress, who was injured in a scrimmage Wednesday. Bobby Powell, who has been out since the start, but will replace him at right half. Gord Sander, who has been out since the start, but will replace him at left half.

District Governor To Visit Rotary Club

Harry M. Smith, District Governor, will visit the Rotary Club in Sanford.

The Rotary Club of Sanford, Fla., will honor the District Governor, Harry M. Smith, at a luncheon at the Hotel Hamilton in Sanford, Fla., on Friday night at 7:30 o'clock.

Ration Book 4 Is Distributed By Local Schools

Book 4 of the War Ration Book is being distributed by the local schools in Sanford, Fla., today.

Book 4 is a new book which will be used for the purpose of rationing kerosene for cooking and lighting.

Prosecutor Shows DeMarigny Near at Time Of Murder

MASSAU, Bahamas, Oct. 22.—In his first direct move to link Alfred de Marigny with the murder of Sir Harry Oakes, the Crown's prosecutor brought out testimony yesterday to place the handsome defendant near his father-in-law's estate last July about the time the millionaire was beaten and burned to death.

And from a native constable he produced a statement that de Marigny appeared a few hours later, looking "stunned and mad" and with "wild look" in his eyes.

But while de Marigny smiled and nodded in the barred prison cage where he must stay during the trial in the Bahamas Supreme Court, his attorney scored points in the give and take of an interesting session.

Attorney General Eric Hallman played his cards carefully to drive home to the jury the significance of his disclosures.

"First, he drew from Nassau," prosecutor, Dr. L. W. Fitzmaurice, "the estimate that Oakes was among the 11 guests of the Bahamas, his seaside estate, between 1:30 and 1:50 A. M. 'Four to six hours after the completion of his last meal'."

Then from the pretty wife of an RAF flier, he brought out testimony that de Marigny had left her and a friend at their home, two doors from Westbourne, shortly after 1 A. M.

Mrs. Dorothy Clark said that she and Mrs. Jean Alpiné were among the 11 guests of the Bahamas at dinner the night of July 2, and that he drove them to the cottage they share.

Cross examining Mrs. Clark, Chief Defense Counsel Geoffrey Higgins sought to explain burned hair which investigators told of finding on de Marigny's hands and arms after the slaying. The prosecution has contended that hairs in the room at the time of the attack would have singed lamps.

De Marigny stood by his arms resting atop the cage, while Higgins asked Mrs. Clark whether she had exhibited and lighted hurricane lamps during the dinner party.

"Did the accused light the candle through the top of this?" And Higgins demonstrated with one of the lamps.

"Were there more than one of these glass chimneys?"

"Did you hear the accused complain of a burned hand when lighted one of them?"

"Yes."

"Yes."

UNDER CHARGE of Lieut. John Douglas, assistant superintendent of police, Count Alfred de Marigny leaves the Central Police Station at Nassau, Bahamas, on his way into court to face trial for murder. The British Crown charges that DeMarigny killed Sir Harry Oakes, his multimillionaire father-in-law, at "Westbourne," the seaside home of the slain man. (International Soundphoto)

American 5th Army Seizes 2 More Towns

From the Kremenchuk River threatened today to trap German forces in the Dnieper River bend and the Crimea in advance which Reuters said carried them within 18 miles of Kiev. The great river and rail center which is the key to victory.

Lieut. Gen. Mark Clark's Fifth Army has won a behind the scenes victory of transportation and supply. In a race with Winter, but crisscrossed by many handiaps, including enemy fire, the Fifth Army's supply men have kept supplies flowing steadily into Italy.

The greatest achievement came when they shifted the supply route from across the Gulf of Salerno into the devastated Port of Naples, a few days after the army reached Naples, a liberty ship had staked its way in and unloaded its cargo.

ALLIED HEADQUARTERS, Algiers, Oct. 22, (AP)—Hopes of a quick Allied conquest of Rome faded last night as Lieut. Gen. Mark Clark's Fifth Army slowed forward at a slackened pace through muddy terrain a little more than 21 miles north of Naples, just 21 days after entering that important port.

New Industry Is Seen For Florida In Local Hibiscus

(Continued From Page One) plant grow near Lake Monroe, he stated, and it may be cultivated and planted on muck land. The War Department, the State Department of Agriculture, and many private concerns whose cork supplies have been cut off, are greatly interested in this light wood, which seems to grow only in the State of Florida, Mr. Jernigan said.

For the past 30 years, he added, jewelers have been using small disks of this wood to clean jewelry and watch parts. M. J. Tucker, Jacksonville jeweler, was the first to discover this use of the wood, he said.

At the time that Mr. Jernigan's daughter, Lieut. Margaret L. Jernigan, was embarking for North Africa, her father was concerned about the life preservers being provided, and the fact that they remained afloat only a certain length of time. While using the hibiscus wood for cleaning jewelry, it occurred to him that it might prove just the material needed for life preservers, provided enough supplies could be secured. Texas has shown it remains buoyant indefinitely, he added.

Mr. Jernigan says he has succeeded in interesting northern capital in adapting this wood to commercial use, and is making a survey of the state to determine possible supplies. The wood can be harvested yearly in the fall when it is dry. It may prove to be a valuable new industry for Seminole County, as it can be processed into a material commonly used for insulation, he stated.

Celery Crop Is Expected To Be Short

(Continued From Page One) averaging about 400 crates a day. According to H. Tooke of the Sanford Fruit Company, quality of these oranges is exceptionally good and the crop is unusually early, they are satisfying sweet and edible, and have plenty of juice.

An active movement in vegetables is looked for at the market for at least another month, according to Mr. Loufan. The present outlook for early vegetables is not encouraging, due to damage by the rains, he stated, but added that he believed heavy planting would result in a usual amount of vegetable trade in a month's time.

Damon and Pythias Found At Blanding

CAMP GORDON JOHNSTON, Oct. 22.—(Special)—Damon and Pythias had nothing on Pyta. Reeves and James Roff got out of their cell here today, the saga of these two GI buddies from the day they were born.

The boys were both born in February, 1924, at Blanding, N. J., where they lived across the street from each other. They attended grammar school together and later the boys courted a sister of the town's loveliest lassies.

On the same date, Nov. 10, 1942, the boys, their fates still undecided, were drafted into the army. Reeves and Roff were inducted together at Ft. Dix, N. J., where they were given army serial numbers in rotation and then went to sleep in the same tent.

The boys stayed in the same basic training camp and were transferred together to Camp Rucker, Alabama and then to Camp Gordon Johnston.

To complete their twinning, the Privates had intended to marry two girls from New Jersey, the girls being cousins, in a double wedding, but the marriage of Reeves and Roff was cancelled because of technicalities. In short, the boys can't seem to get their furloughs at the same time.

Reeves and Roff were transferred together to Camp Rucker, Alabama and then to Camp Gordon Johnston.

Ration Book 4 Is Distributed By Local Schools

(Continued From Page One) distributed to all persons, except members of the Armed Forces, or who are members of an officers mess; persons confined to institutions; and persons residing 40 days or less in the United States, or personnel eating in organized messes.

Applicants are requested to bring Book No. 3 already issued to them or to members of their family, and will receive an application form with space enough to list members of the family.

Men of the Sanford Naval Air Station, who have families living in town may secure No. 4 books at the Station, or their families may in turn secure their books at the school.

The green stamps of Book No. 1 will be used to buy canned fruits and vegetables beginning Nov. 1. The first series of green stamps, A, B, and C will be valid from Nov. 1, through Nov. 22. The blue stamps of Book 2, X, Y, and Z, also will be good during the period.

The value of the green stamps will be the same as the blue, with each group containing four stamps worth 8 1/2¢ and 1 point.

The green stamps will be used for unprocessed foods only, until the "token" system goes into effect early next year, according to A. B. Peterson, secretary of the State and Federal Food Administration. The blue and red stamps of Book 4 will be used for processed foods and meat in conjunction with red and blue change tokens.

After suffering wounds Aug. 3 between Enna and Messina, he said his position on a hill was surrounded by Germans, and he was wounded by a mortar.

"The Germans first took me to Messina and then to Naples, later to a hospital camp near Munich. We were the only Americans there and had two English prisoners for comrades but were prohibited from talking with anyone else for the two months we were held there, except the Serbian doctor and a French interpreter."

These religious leaders, headed by Chief of Chaplains, Brigadier General William R. Arnold, veteran of 30 years, get the full backing of the War Department. They wanted Bibles for every man in the service. They got them. They wanted money to build chapels in every Army camp in America. They received \$13,000,000, and almost overnight, chapels, each seating 400 sprang up.

The chapels are like the typical small churches of rural America. There is one for every regiment, in big cantonments, as many as fifteen or twenty have risen among tents and barracks. All are equipped with electrical organs and ecclesiastical furniture, so designed that they can be rolled away in cupboards or rolled behind panels when and where needed. They are ready to start.

To kill is one of the severest violations of the Ten Commandments, but chaplains explain their charges that killing in this war is not murder but self preservation.

Army Chaplains In This War Suffer Heavy Casualties

NEW YORK CITY, Oct. 22, (Special)—"God's Bred Men," as our chaplains are respectfully called, have had more of their number killed in action thus far in this war, reports Eleanor Early writing for a well known magazine, than were lost in the entire first World War.

Representing 27 religious denominations, the chaplains actually minister to 281 different beliefs in our fighting forces. Though their chief job is to armor the faith of our servicemen, they do other things, too. They write letters home for sick boys. They comfort and advise on personal problems. They talk soldiers into out of lousy marriages. Their favorite maxim for a love-bitten rookie is the Old Testament proverb, "He that rusheth his own affair is greater than he who taketh a city." One of the biggest problems is the expectant father, who wants to get home.

These religious leaders, headed by Chief of Chaplains, Brigadier General William R. Arnold, veteran of 30 years, get the full backing of the War Department. They wanted Bibles for every man in the service. They got them. They wanted money to build chapels in every Army camp in America. They received \$13,000,000, and almost overnight, chapels, each seating 400 sprang up.

The chapels are like the typical small churches of rural America. There is one for every regiment, in big cantonments, as many as fifteen or twenty have risen among tents and barracks. All are equipped with electrical organs and ecclesiastical furniture, so designed that they can be rolled away in cupboards or rolled behind panels when and where needed. They are ready to start.

To kill is one of the severest violations of the Ten Commandments, but chaplains explain their charges that killing in this war is not murder but self preservation.

An instructor at one of the Army Chaplain schools outlines it this way to his student chaplains: "Men will come to you after a battle and say, 'I killed a man today. I jabbed him with a bayonet. I saw him fall. I can't sleep.' Then as Ambassadors of the Most High, you must tell these boys how to live with their new liberty and freedom, and how the enemy has imperiled that God-given freedom."

Tell them what was done to avoid this war. Point out our efforts to appease the enemy and thus secure permanent peace without bloodshed. Show them how the war could not be avoided. Tell them they are fighting to defend their homes, and that life for them is a matter of kill or get killed.

Tell them too that they should respect the men they kill, to the enemy is also loyal to his cause, and all men believe in that for which they die. This war must be won without hate, if we are to have a decent world when it is over. Nothing good can come of hating.

Aerial Gunner Says U. S. Fliers Shot Down Were Mobbed

GOTHENBURG, Sweden, Oct. 22, (AP)—An American Flying Fortress gunner, brought here in chains, said enraged German civilians tried to mob American fliers shot down near Hamburg three months ago, and that they had been reliably that two Americans were lynched at Hamburg.

Sgt. Benny Springer, 22, Denver, Colo., was gunner on Flying Fortress shot down after a raid on Hamburg July 25, was safe on the exchange ship Atlantis when he told his story Wednesday night, but he probably would have been killed if the German civilians had caught him.

Aerial Gunner Says U. S. Fliers Shot Down Were Mobbed

GOTHENBURG, Sweden, Oct. 22, (AP)—An American Flying Fortress gunner, brought here in chains, said enraged German civilians tried to mob American fliers shot down near Hamburg three months ago, and that they had been reliably that two Americans were lynched at Hamburg.

Sgt. Benny Springer, 22, Denver, Colo., was gunner on Flying Fortress shot down after a raid on Hamburg July 25, was safe on the exchange ship Atlantis when he told his story Wednesday night, but he probably would have been killed if the German civilians had caught him.

German military guards rushed to the station and dragged him to safety.

Confirm Story British prisoners confirmed his story at a detention camp and said civilians sometimes reached downed airmen and mistreated them before German soldiers arrived.

A similar second-hand report on the alleged lynching was given by others of those exchanged.

All exchangers emphasized that they had seen no evidence of mistreatment of civilians, and said German soldiers apparently took every possible measure to safeguard prisoners.

ATTENTION FARMERS

USE **SPRA - KAST**

For **BIGGER CROPS and BETTER CROPS!**
The Multiple Insecticide Made From the **CASTOR PLANT**

A few of the many crop insects controlled with SPRA-KAST 2-A are:

- BEANS: Mexican Bean Beetle . . . Aphids . . . Leaf Rollers
- BRETS: Flea Beetles . . . Worms
- CABBAGE: Imported Cabbage Worms . . . Cabbage Loopers
- CELERY: Tyra Worm
- CUCUMBERS: Melon Aphids . . . Melon Worms . . . Beetles
- POTATOES: Aphids . . . Beetles . . . Leaf Hoppers . . . Leaf Rollers and Flea Beetles
- SPINACH: Flea Beetles . . . Aphids . . . Cabbage Loopers . . . Worms
- TOMATOES: Fruit Worms . . . Flea Beetles
- MELONS and SQUASH: Beetles . . . Squash Bugs
- LETTUCE: Worms
- FRUIT: Aphids . . . Weevils

In addition to those above, SPRA-KAST 2-A can be used for the control of many other insects.

SPRA-KAST is compatible with Copper (neutral) and Wettable Sulfur. It is safe for beneficial insects and does not cause stinging or burning of plants. It is completely safe for domestic animals and human beings.

FRIDAY, OCTOBER 22, 1943

BIBLE VERSE FOR TODAY: KEEP THE TEMPLE CLEAN AND WORSHIP OF ITS DEIFIED IDOLS. Ye are the temple of the living God. —I Cor. 6:16

The Ocala Star Banner is on a mission that we will soon know which side our bread is buttered on. Neither!

They say there will be some good hunting in the woods this Fall. Not much of it, but what there is will be mighty good.

Mayor LaGuardia seems to think things are looking pretty dark for New York. They have quite a black market up there.

The Germans have a new name for it. When they turn tail and run like hell, they say they are "strategically reversing the fighting directions."

We see where we will be able to buy a new car six months after the war is over. The only question is whether our present bus will continue to operate until six months after the war.

Vice President Wallace says Wall Street plunderers are trying to get control of the nation's transportation systems by "illegal manipulations." Why doesn't the government prosecute them then?

The Atlantic National Bank of Jacksonville now has \$114,746,912 on deposit. As we recall it its peak of deposits during the boom in 1929 was about \$80,000,000. There is a lot of money in Florida these days.

John D. Rockefeller is disposing of \$25,000,000 worth of his oil stocks in order to increase his holdings of U.S. government securities. And when a Rockefeller buys anything, you can be sure it is a good investment.

Challenged as to where he got his information that Churchill had said he wanted Roosevelt re-elected, Senator Nye gave Drew Pearson as his source. That makes it chronic—Fort Myers News Press. He might at least have given an authoritative source.

Big Dnieper Dam Again Destroyed—headline. The Russians destroyed it first when they retreated from the Dnieper River, and it was rebuilt by the Germans who destroyed it themselves before their retreat the other day. The first thing you know there won't be a dam thing left of it.

Heavy northwest winds of the past two weeks played havoc with the causeways across the Indian and Banana Rivers. Those causeways should be protected more with breakwaters as security against the time when stronger winds might blow and rip them out—Cocoa Tribune. An ounce of prevention.

The Herald regrets it cannot publish letters to the Editor which are not signed no matter how thoughtful and well written they may be, as it is contrary to the policy of this paper to print anonymous communications. Letters which are properly signed receive immediate consideration regarding content.

The General War Right: The R.P.'s were stopped by a while carrying their steaming kettles out of the mess kitchen. "Get me a spoon," ordered the general. He inspected the contents of the mess kitchen. "No air, was it?" "No air, was it?" "We're going to empty it!" Winter Haven Herald.

Florida did right well in the recent Third War Loan drive. Though it was no national champion, it has secured a commendable amount of money to help the government in its fight against the Axis.

Our Over-Crowded Hospital

Mrs. Endor Curlett recently called to the attention of the Chamber of Commerce the plight of the Fernald-Laughton Memorial Hospital in a strong appeal for the immediate construction of an addition to provide further accommodations until such time as a new and larger hospital can be built on the proposed hospital site at First Street and Melville Avenue.

The need for a better hospital in this community has long been known to The Herald and to the public generally. As long ago as 1926 the people of Sanford voted a bond issue of \$250,000 for the construction of a new hospital, but the hospital was never built and the money was lost in the banks that failed a short time afterward.

The Herald campaigned repeatedly for a new hospital throughout the early days of the WPA and the PWA and all the other alphabetical agencies devised by our government for the purpose of providing work when the New Deal was in its infancy. This campaign finally reached the stage where it was submitted to a vote of the people and though it was approved by a vote of ten to one, not enough people voted in the election to make it legal.

And so another campaign was waged and another election was held and this time the required number of freeholders took the trouble to go to the polls and again a new hospital proved to be the overwhelming desire of the people. A County bond issue of \$70,000 was approved, providing it was matched with a similar amount by the federal government. And this time, unfortunately, the federal government failed to put up a like amount.

And so Sanford and Seminole County with hundreds of new families living here as a result of the location here of the Naval Air Station, and with many more people seeking hospital facilities as private pocketbooks expand and the general knowledge of the value of hospitalization increases, today find themselves with a hospital wholly inadequate to meet present day emergencies.

It is not necessary for us to repeat here the lack of facilities and equipment which prevails at the local hospital. How emergency cases are repeatedly kept waiting, sometimes for hours, because the operating room is already being used, and there is no emergency operating room, how accident victims are laid out on the floor in the halls because no beds are available, how dangerously ill patients are crowded into wards because all private rooms are occupied, are all too well known to require discussion here.

Throughout the years Sanford has played into the hands of luck that no widespread epidemic, no major catastrophe, has occurred in this vicinity to suddenly incapacitate a hundred or more victims. What we would do under such circumstances is not pleasant to contemplate. The possibility is simply appalling. The congestion and lack of accommodations which we have known for years have resulted entirely from perfectly normal conditions.

There is no more potent need in this community today than additional hospital facilities. There is no more glaring reflection upon the good name of Sanford and Seminole County than that we have thus far failed to do anything about it. There is no local project to which we can turn our attention, our energies and our money with more worthwhile results than the construction of this hospital. It cannot be postponed until after the war.

Doing Without

As the war settles down into what seems like a last, long, grip slugging match, and Americans really begin to pass the ammunition, Washington gives warning of still more curtailment of unnecessary driving. There will be less gasoline for civilians, and the gas itself will be of poorer quality, giving less mileage.

By this time the public is learning to "take it," so that every new shock in the form of privation, or less of luxuries, tends to be regarded as "just another of those things."

Fortunate are the people who can look at the matter so philosophically. This fat and pampered nation has hardly made a real beginning yet in the matter of war sacrifice. By the standard of any nation in the Old World, and of many also in the New, the American people are still reveling in luxury.

It will be time to growl about privation when the average American can no longer have eggs, steaks, tropical fruits, white bread, cake, pie, warm clothing, new shoes, and many other desirable things unattainable by an immense majority of the people in this world.

How To Get On In Life

"Toll me how to get on in life," said the kettle. "Take pans," said the window. "Never be led," said the pencil. "Do a driving business," said the hammer. "Aspire to grate things," said the nutmeg grater. "Make light of everything," said the fire. "Make much of small things," said the microscope. "Never do anything offhand," said the glove. "Reflect," said the mirror. "Do the work you are scooted for," said the chimney. "Be sharp," said the knife. "Find a good thing and stick to it," said the glue. "Try to make a good impression," said the sealing wax. And that's why the kettle sings as she works, and works as she sings—Rays of Sunshine.

In one of the closest games that has ever been played on the local field, the local ball lost to Sanford Saturday afternoon. A good crowd turned out to see the game and Sanford won by a score of 2-1. The game was played at the Sanford Field Saturday afternoon. A good crowd turned out to see the game and Sanford won by a score of 2-1. The game was played at the Sanford Field Saturday afternoon.

HATCHING SNAKE EGGS!

WEEKLY NEWS COLUMN BY JOE HENDRICKS

MORE POACHING: There recently have been some moves made on the part of some of the government bureaus to take over control of insurance companies throughout the country. I do not know what these moves are but there have been bills introduced recently to carry out the intent of the Supreme Court in a decision which was made in Virginia many years ago, saying that the states should control insurance companies. Since these bills were introduced I have received numerous letters from all over the State asking that I support these bills. Naturally I do not want the Federal Government taking over any more state functions. I will of course want to read the bills carefully and hear the debate before making an actual decision; but I think it is reasonable to assume that some bill of that nature will pass.

SAFE FOR A WHILE: When the German submarines began to sink tankers in the Gulf of Mexico and it was necessary to transport petroleum by tank car instead of by ocean tanker, the Office of Defense Transportation arranged with the Reconstruction Finance Corporation to subsidize the oil companies to the extent of the difference between the cost of transporting by ocean tanker and tank car. That difference was substantial, amounting to over \$250,000,000 a year. Later the Office of Defense Transportation thought we were going to have a shortage of railroad tank cars in the State of Florida and they issued an order for all public utilities to haul their petroleum fuels by truck instead of tank cars. This would result in still an additional cost. The Office of Defense Transportation said they could not subsidize the companies for this additional cost. There is no justice in this contention. The additional cost to haul by truck tank above what it would cost to haul by tank was brought on no less by the war than the additional cost to haul by tank car above ocean tanker. Therefore the Office of Defense Transportation should pay that subsidy. In any event, they decided to permit the utilities to use the tank car for the time being, which will not require additional cost. If they have to revert to the truck tank we shall put up a strong argument to see that the subsidy is paid. SOCIALIZED MEDICINE: The medical profession of the country is becoming alarmed again at some moves toward socialized medicine. Of course they may have grounds for this alarm but I do not think so. I do not believe that Congress will ever pass a bill completely socializing medicine. I believe that the members of Congress all feel that we should give every aid possible toward providing adequate hospitals and facilities, but so far as I am concerned, I shall never support a move to permit the government to staff these hospitals or have control of the operation of them. The relationship between a physician and his patient should be a personal relationship. This relationship has a great deal to do with the effectiveness of the physician. The moment that a hospital is staffed by government employees or doctors directed and paid by the government that personal relationship between physician and patient is lost. The patient should always be permitted to select his own physician. CIVIL SERVICE EMPLOYMENT—Economist, \$3200, a year plus overtime; Guard \$1500.00 a year plus overtime.

Social Calendar

Mrs. Appleby Hostess To Dependable Class

FRIDAY
A "School Dance" will be given at the Young People's Club from 8:00 to 11:00 P.M. and all students attending grammar school, high school and Junior high school are invited. Souvenirs and music will be furnished.

MONDAY
The Trustees' Class of the First Methodist Church will meet in the annex at 3:00 P.M. for a social and business meeting.
The Junior Y.W.A. will meet at the First Baptist Church annex at 7:30 P.M. with Miss Shirley Echols as hostess.

TUESDAY
Surgical Dressing Room will be open from 10:00 A.M. until 4:30 P.M.

The Wesleyan Service Guild of the First Methodist Church will meet with Mrs. Nancy Brock, 418 Grandview Drive, at 8:00 P.M. A "white elephant" sale will be conducted.

The R.A.'s will meet in the Baptist Church annex at 6:00 P.M.
There will be a combined meeting of the Junior High and Grammar School P.T.A.'s at 3:30 P.M. in the grammar school, preceded by a combined board meeting at 3:00 P.M.

There will be a board meeting of the Pilot Club at 7:30 P.M. at the Vocational School, followed by the regular meeting at 8:00 P.M.

THURSDAY
The Senior W.W.A. of the First Baptist Church will meet at the home of Mrs. Walter Feiler, Twentieth Street at 7:30 P.M.
There will be a Halloween Festival at the Parish House at 7:30 P.M. Sponsored by the Y.P.S.L. Prizes will be awarded for the best costume.

Mrs. Brock Hostess To Service Guild

Mrs. E.J. Nease Jr. reported on the District meeting held in Orlando at the Methodist Wesleyan Service Guild meeting Thursday evening at the home of Mrs. Brock. Mrs. Jack Burney presided over the meeting.

Plans were made for a covered dish supper and joint meeting with the Business and Professional Women's Circle of the Presbyterian Church to be held in the annex on Nov. 8. A program was planned on Christian Social Relations for the Wednesday night and week prayer service.

Arrangements were made to place flowers in the church for the next two Sundays by the following committee: Mrs. A.K. Shoemaker, Mrs. O.K. Goff and Mrs. Walter Carter.

Present were Mrs. Nelson, Mrs. Blaine, Mrs. Guff, Mrs. Carter, Mrs. Brock, Mrs. Jack Burney, Mrs. M.B. Smith and Miss Ethel Ivesel.

Personals

Mrs. Jack McCallum is spending this week in Orlando with relatives.

Mrs. John H. Ivey and her daughter, Sally Kay have gone to Elkton, Ky. to visit relatives.

Mrs. Frank Kurka and her children, Nancy and Karen, have moved to Tampa to join Mr. Kurka.

Laurel H. H. Coleman is expected to arrive from New York City tomorrow to join his wife and spend a short leave here.

Mrs. E. J. Kountz left today to return to her home in Hattiesburg, Miss. after visiting Mrs. J. Ross Adams for a short time.

Sgt. L.M. Telford, U.S. Marine Corps, left by plane from Orlando yesterday to report for duty at the Marine Base, San Diego, Calif.

Friends of Lottie Lansing will regret to learn he is recuperating in hospital from a recent operation.

Mrs. William Brown has been removed from Fernald-Laughton Memorial Hospital to her home on West Third Street.

Earl Jeter, Jr. who is an aviation cadet at the University of Miami, arrived today to spend a seven-day leave with his parents.

First Sgt. James Culbert of Fort Benning, Ga. is visiting relatives while he is awaiting orders to report for Army Aviation cadet training.

Mrs. C.E. Ward has as her guest her nephew, Richard W. Ward, second class petty officer, U.S. Coast Guard, stationed at St. Petersburg.

C.J. Willis, U.S. Army and Mrs. Willis of Titusville and E.M. Combs of Mount Dora are expected to arrive today to spend a short time as the guests of Mr. and Mrs. M.W. Dearion.

Max Bradbury visited his mother, Mrs. C.H. Bradbury and his brother, Carl Bradbury, and family for a short time last week. He resides in Jacksonville, where he is with the federal bank examiners.

Mrs. Ned Smith and daughter Joyce have returned to their home in Hollywood, Fla. after spending several months here with Mrs. Smith's parents, Mr. and Mrs. W.F. Garner. Mr. and Mrs. Garner accompanied them home for a short visit.

Pvt. Charles Bradbury was home last week on delayed travel time between Fort Meade, Md. and Camp Wheeler, Ga. Pvt. Bradbury took truck mechanics and basic training at Camp Wheeler and he and another soldier tied for the highest rating in a class of 60.

Capt. Charles Betts, who has been visiting his parents here, has returned to Fayetteville, N.C. accompanied by his mother, Mrs. A. L. Betts and his aunt, Mrs. H. S. Llover. Mrs. Betts will visit Capt. Betts in some time and Mrs. Llover will return to her home in Wakulla Springs.

A Kent Rosseter, Jr. who has been undergoing Navy officer's training at Emory University will arrive Sunday to spend a few days with his parents, Mr. and Mrs. A.K. Rosseter at their home on Celery Avenue before leaving for Norfolk, Va. and then to Harvard University preparatory to receiving a commission in the Navy.

Mrs. J. C. Bills Talks To Local Clubwomen

Club located in Fort Mellon Park at Sanford Avenue

Mrs. J. C. Bills, president of the Sanford Club, addressed the members of the Sanford Club Wednesday evening at the club luncheon.

Mrs. Bills told the members of the club that she had visited more than 200 of the 250 clubs in the United States.

She said that she had found that the clubwomen of the United States were doing a great deal of good for their communities.

Boxing Coach Now Uses Hard Right To Pen Letters

AP Features
STATE COLLEGE, Pa.—Leo Houck, boxing coach at Penn State for 21 years, still packs a wallop in his good right hand—his writing letters to the boys in the service.

Every day, Houck, 55, pens three to ten letters to his two sons in the Army Air Corps and scores of Penn State boys now fighting for Uncle Sam.

"The boys," Houck says of his self-imposed chore taken on shortly after Pearl Harbor, "like to hear about their old friends on the campus."

Some Good Ones
 Doing most of his writing in his office in a far corner of Penn State's recreation hall, Houck counts such former NHL hockey stars as Steve Hamas—conqueror of Max Schmeling—and Billy Soose among his correspondents as well as a number of former freshmen.

Col. Harry Wilson, former Penn State and Army star who is now with the air corps in the South Pacific, hears regularly from Houck.

Father of a family of seven, Houck makes it a point to get off at least two letters a week to each of the two sons in service. Leo, Jr., is a flight officer in the glider command at Bowman Field, Louisville, and Eddie is at Providence College, Providence, R. I.

Helps Trainees
 Houck's time these days, when he isn't writing letters, with his family or talking to friends, is taken up from dawn to dusk helping put 2,200 Army, Navy and Marine trainees at the college into fighting trim.

The veteran coach came to Penn State in 1922 after fighting 200 professional bouts between 1906 and 1923 against such boxers as Gene Tunney, Gunboat Smith, Harry Greb and others.

Under his coaching, Penn State boxing teams have won seven Eastern titles since 1924 and more than 40 of his proteges took individual titles, four of them going on to capture national crowns.

Ralph Warner Is Expert Grid Dopster

Ralph Warner of The Brandon Herald and formerly of The Sanford Herald has been named among the 13 expert football prognosticators, who out of 114 football experts were able to name the 10 winning teams in the Associated Press third weekly poll to determine the country's outstanding eleven.

Right of the thirteen, including Mr. Warner, tied for the best record by placing four teams in the exact spot in which they won in tabulation. The other seven experts are Gene Kessler of Chicago Times; Bert McNamee of The Moines Register; P. C. Tillery of The Petersburg, Va., Review-Index; Bill Barrett of The Rocky, W. Va., Raleigh Register; Arnold Finerock of The Florida Times Union; Hy Test of The St. Petersburg Times and Otto Hüllberg of The Philadelphia Record.

Ralph Warner, it is stated, has been a student of football with an uncanny ability to rate teams and a memory that enables him report the results of all major games after just one glance at the returns. He has covered Brandon games for The Brandon Herald this season.

We Suggest That You BUY NOW
 And Save Before The Threatened **10% SALES TAX** Goes Into Effect

10 PERCENT SALES TAX IS PROPOSED TO CONGRESS
 Treasury Plan is Virtually Scrapped

Read This

WASHINGTON, Oct. 22 (AP)—The 10 percent sales tax proposed by the House of Representatives, which would take effect on Jan. 1, 1944, is being scrapped by the Treasury department, it was learned today.

The House plan, which would have raised the tax on all merchandise, is being replaced by a plan which would raise the tax on only a few items, such as automobiles, radios, and other luxury goods.

The Treasury department's new plan is being considered by the Senate, and it is expected that it will be passed in the next few days.

It seems evident that it will be necessary for Congress to pass a 10% Sales Tax on all merchandise, in order to raise necessary additional revenue. As shown in the clipping at right, which appeared in the newspapers on Tuesday, Oct. 5, many Congressional leaders favor this 10% Sales Tax.

REPAIR YOUR Electric APPLIANCES

NOW When They're Needed Most

Appliances which are working improperly or not working at all are wasteful... and waste is one of our biggest wartime enemies.

Take such appliances— including used and broken parts — to your repair shop. These appliances need not be discarded. It's more important than ever to keep them operating efficiently. They'll work better — last longer.

Production Goals On Florida Farms Adopted At Meet

GAINESVILLE, Oct. 20. (Special) Food production goals for 1944 which call for higher acreage of food and feed crops and smaller numbers of hogs and broilers on Florida farms were adopted at a meeting of leading farmers and representatives of all Florida agriculture agencies and the War Food Administration in Gainesville Oct. 14-18.

Principal increases are being asked in tomatoes, snap beans for fresh market and processing, cabbage, peonies, oats and hay, and flue-cured tobacco. Smaller increases are requested in corn, Irish and sweet potatoes, hogs and pullets, cattle and calves, lima beans, cucumbers, eggplant, eggplants, watermelons, carrots, iceberg lettuce and peppers.

Average devoted to shade trees and production of eggs, sheep and naval stores are expected to be practically identical with 1943 increases are anticipated.

Employers Warned To File Tax Facts Before October 31

JACKSONVILLE, Oct. 20. (Special) John I. Fabs, Collector of Internal Revenue for the District of Florida, has today called attention to the fact that employers are required to file their withholding tax returns on Forms W-1 for the period from July 1, 1943, through Sept. 30, 1943, during the month of October 1943. He calls attention to the fact that because the money deducted from the employees is in the nature of a trust fund, Congress has imposed substantial penalties for failure to file the returns on time and to pay the tax on time.

There is a minimum penalty of \$10 for failure to file the return on time and a minimum penalty of \$10 for failure to pay the tax on time, in other words, the tax on time and to pay the tax on time.

There is a minimum penalty of \$10 for failure to file the return on time and a minimum penalty of \$10 for failure to pay the tax on time, in other words, the tax on time and to pay the tax on time.

The Sittany Lions from Penn State put up a terrific fight in a tank by the Navy, 11 to 6 at Annapolis, Md. Typical of Penn State's performance was the shooting of Brown (11) as he was being captured by the enemy. (The picture is a friendly parody on the movie 'The Fighting 69th'.)

Tank Gunners Are Taught Shooting By New Devices

AP Features. FORT KNOX, Ky. Tank gunners in monitory guns that don't shoot, and other novel training devices have been originated by the 785th Tank Battalion to teach gunners and tank commanders deadly accuracy in

armored warfare. This American invention, developed by Maj. F. M. Smith, is being used at Fort Knox, Ky., in training tank gunners and commanders in the use of the new devices. The training device is a small model of the big tank gun, with elevating and traversing hand wheels and the reference between life and death.

Capt. W. S. Westfall, battalion gunnery officer, introduced the device to the tank gunners. The device is a small model of the big tank gun, with elevating and traversing hand wheels and the reference between life and death.

marked in the lens of his field glasses, and tell rapidly the distance to the target. The use of a simple formula enables him to send his first shot close to the objective. In armored warfare, split seconds can mean the difference between life and death.

Capt. W. S. Westfall, battalion gunnery officer, introduced the device to the tank gunners. The device is a small model of the big tank gun, with elevating and traversing hand wheels and the reference between life and death.

Will Rogers Said:

That one of his neighbor's wives took other wives—one for the operation and the other to keep her from talking about it. It will take a triple shot of ether to keep a man from telling you that no merchandising is any better than the dealer who sells it. Our business has steadily increased by meeting our customers on the level and treating them on the square.

Debate On U.S. Foreign Plans Is Launched

AFL and CIO Demand Congress Outlaw Poll Tax In States; Coal Strike Grows

NEW YORK, Oct. 25. — The Missouri state and federal governments have today launched a debate on U.S. foreign plans. Opening one of the Senate's most important debates in this generation on his own resolution, Senator Tom Connally of Texas declared today that the hour has struck for America to show its great might will be dedicated to world peace and against aggression henceforth.

The powerful AFL and CIO unions demanded that Congress outlaw the collection of the poll tax by which they said "10,000,000 American citizens are now disfranchised." Their demand defied the constitutionality of the bill passed by the House in May before the Senate committee.

The soft coal problem was complicated by reports that the W. I. L. is cool to a proposed plan, a contract with the Illinois operators, as miners strike spread in West Virginia and grow in Kentucky. Six big Alabama mines producing industrial fuel resumed production with less than normal crews.

Meanwhile Chester Bowles, general OPA manager, was nominated by President Roosevelt to succeed President Hiram Bingham as OPA administrator.

NEW YORK, Oct. 25 (AP) — A continued rise in the cost of living and of earnings was reported today by the National Industrial Conference Board.

The private research organization estimated that living costs were up 1.4 percent with wages up 1.4 percent from the same 1941 month and that weekly earnings, adjusted for retail price increases, averaged 12.8 percent above January, 1941.

During September, the board said, living expenses went up 1.6 of 48 cities surveyed, declined in 16 and held steady in seven. Compared with September, 1942, the board said living costs were up 1.4 percent with wages up 1.4 percent, the greatest increase, 8.3 percent, and New Haven, Conn., the smallest, 2.1 percent.

Average hourly earnings in August were estimated at \$1.02, while weekly earnings touched a new peak of \$48.21. These figures were 8.6 percent and 13.1 percent, respectively, above August of 1942.

CITY BRIEFS

The Kilgore Seed Company, Jennings Seed Company, and Russell Seed Store will close Wednesday afternoon, it was announced.

Application blanks for the hunting season are now available at the office of County Judge R. W. Ware.

The Sanford City Commissioners will hold their regular semi-monthly meeting tonight at the City Hall.

The regular weekly drill of Co. C, Florida State Guard, will be held at the Army tonight at 8:00 o'clock instead of Thursday night as has been the custom.

There was no Rotary luncheon today. Tomorrow night at 7:30 o'clock the Rotarians will attend a supper at the Mayfair Hotel in honor of District Governor Harry M. Smith.

The Men's Club of the Episcopal Church will hold a supper meeting tonight in the Parish House.

Sgt. Dick Brown, who is a paratrooper and qualified as a rifle expert recently in attending a seven-day course with relatives from Camp McCoy, E. C.

R. L. Perkins, hardware dealer, has a good supply of supply but boxes of stiff cardboard that would be best for the packing Christmas presents by 25 cents that he would be glad to give them away. The boxes are large and round and have electrical designs on the top of the United States.

Red Trap Closing On Nazi Army

SOVIET TROOPS are pushing a deep wedge into the German lines south of Kremenchug (1) in an attempt to encircle a Nazi army. They are within 31 miles of Krivoy Rog, iron center Melitopol (2), the other end of the pincers, it is reported that Hitler has ordered a last man defense to protect the evacuation of soldiers from the Crimea. The Reds continue to advance at Kiev (3). (International)
