## Shortfall Seen In Meeting Public Needs

# Commission To Hear Of Population Boom's Impact

By JOE DeSANTIS  
Herald Staff Writer

The Seminole County Commission will get a detailed look at just what kind of impact the population boom in the county has had over the last decade at a workshop session today.

County Administrator Roger Neiswender will present the board with the county's Comprehensive Management Program, which will illustrate what impact growth has had on public services in the county, including roads, water and sewage systems, and police and fire protection.

"I don't know of any other county that has done as complete a study on the impact of growth as Seminole has," Assistant County Administrator Jim Easton said today.

According to 1980 Census Bureau figures, Seminole County ranks second only to Pasco County, on the Gulf coast, in terms

of increased population over the last 10 years for counties with populations exceeding 100,000.

The Comprehensive Management Program report is a two-year effort by the county staff which Easton says is "a bottom-line look at what effect growth has had on us."

"The report will give a dollar-figure-impact effect," said Easton, "of what current deficits are, relative to meeting the needs of the county in terms of public services, especially areas such as roads and intersections."

"No other county except Pasco," said Easton, "has grown faster in the last decade."

"The report will show that the county didn't keep up with the growth, and it will detail in dollars what it will cost just for us to catch up with the growth," he said.

Easton called the report a key document in future policy decision making for the county.

"This will give the commission some help in formulating strategy to catch up and maintain county services with the growth," he said.

"It's no secret that Seminole County's population has been growing at a hot and heavy pace," he added.

"A lot of work has gone into the management program, and it should make for a very interesting workshop," Easton said.

County Administrator Roger Neiswender is expected to go over in detail with the commission each aspect of the report to give the commissioners details of growth impact in all areas of county services.

One area of growth that has been a headache for the com-

mission is office space for county staffs. In a busy week the commission will get a look at the Sobel Space Study, six months in the works, as to what the county's present and future needs are to house all phases of county government.

Office space has been a critical issue for the commission. Earlier this year Public Defender James Russo filed suit against the commission for an alleged lack of adequate office space for him and his staff.

Initial phases of the Sobel Space Study have indicated that if Seminole continues to grow at its present pace, all the county-owned and county-rented office facilities could be consumed just by the judiciary by the year 2000.

The commission will hear the results of the space study at workshop sessions Tuesday and Wednesday.

## Surgery?

### Detective Nance May Require Operation To Remove Shotgun Pellets

By TENI YARBOROUGH  
Herald Staff Writer

Although it was hoped surgery would not be necessary, an operation may be inevitable to remove shotgun pellets from Sanford Police Officer Ron Nance's left eye.

Nance, shot Wednesday night by suspected armed robbers, is listed in satisfactory condition today at Shands Teaching Hospital in Gainesville.

"I just talked to Ron's wife, and it appears they may have to operate because they can't get the bleeding stopped," said Herb Shea, assistant to Sanford Police Chief Ben Butler. Doctors have been treating Nance's injured eye with drugs to reduce swelling and stop the bleeding, and although the swelling has reduced, the lodged pellets continue to cause the eye to bleed, Shea said.

"At this point, it looks like he may be at Shands for a while," Shea added.

Detective Nance, 37, a nine-year veteran of the Police Department, was shot while trying to stop two masked men, one armed with a shotgun, who reportedly held up George's Tavern, 1011 S. French Ave., at about 10 p.m. Wednesday, police said. Nance had been involved in an unrelated undercover drug investigation when the shooting occurred.

Shea said his department's investigators have some "very strong leads" concerning the late-night shooting and that their probe is continuing.

Police say they discovered a shotgun, believed to have been used in the armed robbery and the assault on Nance, along with a mask and shotgun shells.

Also, Shea said he will begin today to investigate allegations that a Sanford police officer on that same night opened fire on an off-duty sheriff's deputy he reportedly mistook for one of the suspected robbers at the scene.

Earlier reports indicated that Officer

Gordon Reid fired about five shots at Deputy Charles Reynolds, who had responded to the scene to offer assistance.

Reynolds reportedly "hit the dirt" when the shots were fired and escaped injury, police said.

In addition, an incident reported by a Sanford resident Wednesday night that someone fired a shot into his home has been resolved.

After checking a bullet fired into the living-room window of H.C. McSwain's home at 1317 S. Park Ave., police have determined that the pellet was shot from Nance's revolver during the shoot-out with the suspected robbers, police said.

Police said Nance returned fire on his attackers but failed to hit them. Nance, an expert marksman and winner of numerous trophies and awards for his shooting skills, fired his weapon "instinctively" at the gunmen but was unable to hit them "because it was dark and he was wounded," police said.

"Mr. McSwain told us, 'If it was a police bullet, then let's drop the whole thing,'" Shea said.

"The community support for Ron has been great," Shea said. "In fact, we've had so many people calling to offer money as a reward for information leading to the arrest and conviction of the gunmen that we've opened an account at the Atlantic Bank in Sanford, called the Ron Nance Reward Fund."

Shea said anyone wishing to donate directly to the account may do so or "just give the Police Department a call and we'll come out and collect it for you."

"We've also had a lot of calls from people who just want to offer money to Ron and his family during his time in the hospital," he added. "So we've opened a Ron Nance Family Fund at the Atlantic Bank, and donations are welcomed there too."

**SEMINOLE CHAMPION**

Tony Hardy became the first state champion in Seminole High School history Saturday at the 4A State Track Meet at Showalter Field in Winter Park when she soared 19 feet, 3/4 inches in the long jump. Miss Hardy, a senior, will compete in the State Pentathlon on Friday at Showalter Field. See Sports, Page 5A.

## Sanford Charter Again On Agenda

The Sanford City Commission and the city's Charter Revision Committee will meet again today to continue discussions on proposed changes in the city charter.

This afternoon's meeting at City Hall, 300 N. Park Ave., is the fourth meeting between the commission and the Charter Revision Committee to discuss the five proposed changes in the city charter, which include a shift in control of the uniformed services (police and fire departments) to the city manager, changing city election times from December to September, requiring city commissioners to run from and live in designated geographical areas while being elected at large, changing the City Commission's name to City Council, and extending Mayor Lee P. Moore's term in office from 1984 to 1985.

The commission also will discuss officially abolishing the municipal court, which ceased to operate under state law since the county court system took over municipal court cases several years ago. The Charter Revision Committee, which has been working on changes in the city charter for the last 13 months, delivered its proposed changes to the commission in late March.

If the commission adopts one of three versions of a new charter, the revised charter may be on the ballot in December.

On May 5 the commission discussed transferring administrative control of the uniformed services to City Manager W.E. "Pete" Knowles.

Police Chief Ben Butler and Fire Chief William Gailey have expressed their approval of the idea at a previous meeting.

In 1973 the commission placed the uniformed services under its direct control out of respect for the department heads. Prior to then both departments were under the administrative control of the city manager.

Gailey has put the commission on notice that he is eligible for retirement and will retire in 1984, while Butler, a veteran of more than 30 years with the Police Department, also is eligible for retirement in 1984. —JOE DeSANTIS

## Youth's Neck Broken When He Dives In Lake

A 17-year-old Sanford youth is listed in stable condition today at an Orlando hospital after he fractured his neck when he dived into Lake Jeap "on a bet," Seminole County sheriff's deputies said.

Danlan I. Linticum, 2519 Poinsettia Ave., reportedly dived into the lake near the boat ramp area at about 10:15 p.m. Friday after a friend bet him he couldn't swim across the lake, deputies said.

When the youth did not surface after diving into the shallow water, friends rescued him and called for help, deputies said.

Herndon Ambulance workers responded to the scene and began administering oxygen to the youth, who they say, "nearly drowned." Upon closer inspection, rescue workers said it appeared his neck may have been injured in the incident and transported him to Seminole Memorial Hospital, Sanford.

Following an X-ray examination of his neck at the hospital, which confirmed a neck fracture, he was transferred to Lucerne General Hospital's intensive-care unit in Orlando, officials said.

## About Longwood Psychiatric Hospital

# They'll Be Asking Some Questions

It isn't an agenda item for tonight's City Commission meeting in Longwood, but city officials are bracing for expected questions from residents about the Hospital Corporation of America's (HCA) announcement last week that the company plans to build an 80-bed psychiatric hospital in Longwood.

City officials already have approved the company's request to construct a 150-bed general-care hospital and related medical facilities on a 28-acre parcel bounded by State Road 434, West Lake Street, Warren Avenue and an adjacent industrial complex. The request was approved with a conditional-use permit.

City Clerk Donald Terry said the commission granted the request with the understanding that the hospital would possibly include a psychiatric wing if the company could obtain state approval for the facility.

HCA is still seeking that approval, and is currently involved in an appeal to

grant more bed space to Florida Hospital-Altamonte.

Hearings on that appeal are scheduled to begin June 8 in Orlando.

"The psychiatric hospital plans are new to us," said Terry following last week's announcement by HCA.

—JOE DeSANTIS

## Sanford Man Killed By Hit-Run Driver

Police are still searching today for a motorist who struck and killed a Sanford man early Sunday and then left the scene of the accident.

According to the Florida Highway Patrol, Willie James Jenkins, 619 Palmetto Ave., was walking in the roadway along State Road 46 just east of Sanford at about 2:15 a.m. when he was struck by an unidentified vehicle.

At least three other eastbound vehicles, two cars and a pickup truck, ran over Jenkins' body while it was lying in the roadway, troopers said. The drivers of the vehicles notified police of

the accident.

Troopers said no charges have been filed against the unidentified drivers who reported the accident. However, charges may be filed when the identity of the driver who first hit Jenkins is learned, troopers added.

The hit-and-run vehicle being sought by police will have extensive damage to its front grille, troopers said.

Jenkins, who would have been 37 today, is the 13th traffic fatality in Seminole County this year, troopers said.

## Florida's Jobless Rate Highest Since '75; 402,000 Seek Work

United Press International

With 402,000 Floridians walking the unemployment line, the Sunshine State's jobless rate is the highest since the 1975 recession, federal government statistics show.

While a record 4,243,000 are employed in the state, the number of people without jobs has grown seven times as quickly as the number of new jobs since April 1980.

The number of employed people in Florida increased by 225,000, or 6 percent, from April 1980 to April 1982. However, the number of unemployed people rose by 163,000, or 61.3 percent, officials say.

Of the 388,000 people added to Florida's available work force from April 1980 to April 1982, 43 percent are unemployed.

State unemployment is steadily nearing its previous record of 423,000 jobless people, reached in May 1975. In fact, the old mark may already have been topped, but government statistics for May won't be ready until next month.

Generally, Florida employment increases by 30,000 to 50,000 during March and April when tourists flock to the state from the cold North. This year, however, Florida only managed to cut unemployment by 5,000 jobs between those months.

Federal figures show the state's unemployment rate dropped from 8.9 percent in March to 8.7 percent in April, but the mild improvement may not mean the worst is over.

"We still think that the second quarter unemployment rate will show an average higher than the first quarter for the three months included in that period," said Gary Cooper, state economist for Gov. Bob Graham.

"We're looking for unemployment to increase somewhere around mid-year and then to decrease. Picking a month that it will be the highest is like picking something in the stock market."

Yet the state unemployment rate compared favorably in April with the national rate, which skyrocketed to 9.4 percent.

Sorry, Arthritis Not Cured By Diet

DEAR DR. LAMB — My mother and husband read an article about a diet cure for arthritis, called the nightshade diet. It recommended avoiding white potatoes and tomatoes, eggplant, peppers and foods that contained these as well as avoiding spices. It also stated you should eat red meats and eggs, fresh fruit but no fatty foods.

My husband now sees his doctor at least once a week and has spinal arthritis. Muscles tightened near the vertebrae until they locked his back for three weeks in the hospital. Now he takes physical therapy twice a week.

Both my mother and my husband are going wild on this nightshade diet. Both were told to avoid red meat. Which is the best way for them? While meat and milk or no seasoning or white potatoes or what? I am thoroughly confused.

DEAR READER — First of all you need to know that the Arthritis Foundation and qualified authorities on arthritis say there is NO special diet that cures arthritis and recommend only dietary measures to avoid obesity or to manage other separate medical problems that may exist independent of arthritis.

Now, that applies only to arthritis. Some people confuse osteoporosis (dissolving bones) with arthritis, which it is not. It is helped by increasing calcium consumption, or at least being sure to avoid a calcium deficiency.

You also need to know that ripping off the public with multiple quack cures for arthritis is a multimillion dollar business. It is disgraceful. Some cures by unscrupulous clinics, such as those beyond the jurisdiction of the United States, provide medicines to patients that are actually harmful.

There is no validity to the so-called nightshade diet as a cure for osteoarthritis or rheumatoid arthritis or any other form of arthritis.

HOROSCOPE

By BERNICE BEDESOL

For Wednesday, May 19, 1982

YOUR BIRTHDAY

May 18, 1982

From time to time this coming year you may be privy to some confidential information that could be profitable to you. Even if the returns might not be large, they'll still be worth considering.

TAURUS (April 20-May 20) Duties and responsibilities must be efficiently scheduled today, or you could end up working very hard with little to show for your efforts.

PREDICTIONS OF WHAT'S IN STORE FOR YOU IN EACH SEASON following your birth date and where your luck and opportunities lie are in your Astro-Graph, Mail \$1 for each to Astro-Graph, Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth date.

GEMINI (May 21-June 20) You'll be in a sociable mood today, but you must be selective of the group you'll be involved with. A clique containing a soursop might spoil your day.

CANCER (June 21-July 22) Situations where you use both your logic and charm will be carried off successfully today. In areas where emotions govern your actions, setbacks are likely.

LEO (July 23-Aug. 22) You'll treat friends in accord with your views and opinions amicably today. However, you might come down too hard on those who disagree with you.

VIRGO (Aug. 23-Sept. 22) A joint venture you're involved in might not be the blessing you first thought, because its disadvantages could outweigh its benefits.

LIBRA (Sept. 23-Oct. 23) If you have problems with others on a one-to-one basis today, the fault may not be entirely theirs. Ask yourself honestly if you're being too hard to please.

SCORPIO (Oct. 24-Nov. 22) Important responsibilities should be attended to first today, while you are fresh and energetic. Tackling difficult situations when you're tired could lead to making serious mistakes.

SAGITTARIUS (Nov. 23-Dec. 21) Even though you will know what best serves your self-interests, there is a possibility you might yield to peer pressure today and do things against your better judgment.

CAPRICORN (Dec. 22-Jan. 19) Although you will be capable of holding your own in any given situation today, there is a chance you may assess things negatively and view yourself as the underdog.

AQUARIUS (Jan. 20-Feb. 19) Be on guard today if you are participating in a friendly competitive game. The one you may go against might be someone who can't handle losing.

PISCES (Feb. 20-March 20) Your financial prospects look encouraging at this time, provided you don't do any deficit spending. Think twice before taking on new long-term obligations.

ARIES (March 21-April 19) Unless you select companions today who are as enthusiastic about the same things that interest you, they'll put a damper on your progress.

Scotchgard  
 CARPET PROTECTOR

Member Sanford Chamber of Commerce

Dr. Thomas F. Yandell, chiropractor, and owner of Sanford Pain Control Clinic, points to common spot for back problems.

# Get To Headache Cause At Sanford Pain Clinic

Of all the so-called triumphs of the pharmaceutical industry, said Dr. Thomas F. Yandell, Sanford chiropractor, "The 'headache remedy' is the most dangerous to life and health."

"This is not to say that headache remedies are virulent poisons, in themselves dangerous to life — although our government at times had to prohibit distribution of certain types for that precise reason," he added.

"The real trouble is that the less toxic and the more apparently 'effective' a headache remedy is, the more dangerous it becomes," he said. "A headache remedy other than aspirin or acetaminophen is, in itself, a warning signal that the symptom, remains to progress in gravity, often until a serious condition develops."

Pain of any sort is the alarm bell which nature employs, to signal trouble. Remember this when a headache occurs, you flirt with tragedy when you treat a headache rather than its cause.

Some headaches have a simple explanation, such as those of the "morning after" — an evening of overindulgence in drink or food. Any other headache, particularly if chronic or recurring, is a warning signal which will send any careful person to his doctor of chiropractic.

Intermediate causes of headache are many. They may include digestive, eliminative, kidney and heart troubles, eye troubles (chiefly eyestrain), infected tonsils, nerve pressure from spinal conditions and sometimes, though very rarely, brain trouble itself. In women, disorders of the reproductive system often are the cause of headaches.

Dr. Yandell provides a primary service to prevent, diagnose and treat health problems for the whole family through chiropractic at his Sanford Pain Control Clinic at 2017 S. French Ave., Sanford.

Determining the basic cause of an illness and effecting its correction without the use of dangerous drugs are the special skills of Dr. Yandell.

So when a headache troubles you call for an appointment at 323-5763.

"Do not delude yourself that your trouble is a simple one which can be easily corrected with an 89-cent package of 'Pain Killers,'" Yandell said.

Headaches can, of course, result from many conditions. But research has revealed that a common cause of headaches can be traced to the area of the cervical vertebrae (spinal bones of the neck). Because the neck is extremely mobile, there is constant danger of displacement of one or more of these vertebrae, which may compress and irritate the cervical nerves.

Migraine headache is particularly distressing. It has been determined that it is usually caused by irritation of the upper cervical nerves which affects the cranial nerve fibers and results in the throbbing pain associated with a migraine, and which later becomes a steady, dull pain in the "temple" area.

Through reflex action, this condition also may result in stomach or liver pains, nausea, vomiting, fast heart beat and other upsets of internal organs.

Certain activities and vocations may cause unusual stress in the neck. Athletes, mechanics, homemakers, office workers, farmers and others who must twist or maintain unnatural positions for any length of time at their work are especially susceptible to cervical nerve irritation.

The first problem a headache presents is determination of the condition developing under its cover. Correction of the cause must follow. When you seek chiropractic care for headaches, you will be utilizing the most advanced methods available.

Remember, heeding the headache warning can avert serious complications. For safe, quick, and effective headache treatment come to Sanford Pain Control Clinic first.

Dr. Yandell specializes in acupuncture, weight control, pain control and nutritional counseling.

## No Job Too Big Or Small For Jenkins Mechanics

At Jenkins Industrial Mechanics, 3201 Highway 17-92, Sanford, (just south of Airport Boulevard) no job is too big or too small when it comes to metal work.

Jenkins builds truck racks, utility trailers, stairs, piping, conveyors, equipment and all kinds of fabrications, and does welding work.

They have some standard trailers in stock from \$320 or will custom build to your specifications. If your old trailer needs repair they can rebuild it for you.

If you are looking forward to many fishing trips this summer Jenkins can overhaul and repair your boat trailer for you.

Owner Donald Jenkins has been in business in the Sanford area for five years and has been at the present location since January. His wife, Linda, is the bookkeeper and secretary. There are five mechanics and welders employed in the shop.

Donald Jenkins (right), owner of Jenkins Industrial Mechanics and his wife, Linda, bookkeeper and secretary.

They are open 8:30 a.m. to 4:30 p.m., Monday through Friday and 8:30 a.m. to noon on Saturday.

They offer fast quality service at low prices. There are many standard items in stock or they can usually deliver custom items in two to three days.

For a free estimate call 323-5658 or stop by and see Don. — ADV.

**HEARING TESTS SET FOR SANFORD/CASSELBERRY AREA**

Electronic hearing tests will be given free at the Orange Hearing Aid Ctrs., 3701 So. Orlando Dr., Sanford (Monday only), and 120 S. Hwy. 17-92 Casselberry Monday - Friday this week. N. Powers and S. Fisher, certified by the National Hearing Aid Society will be at these offices to perform the tests.

Anyone who has trouble hearing or understanding is welcome to have a test using the latest electronic equipment to determine his or her particular loss.

Everyone should have a hearing test at least once a year if there is any trouble at all hearing clearly. Even people now wearing a hearing aid or those who "have been told nothing could be done for them" can find out about the latest methods of hearing corrections.

The free hearing test will be given Monday thru Friday - this week at the Casselberry office and Monday at the Sanford location. Call the number below and arrange for an appointment, or drop in at your convenience.

# SPORTS IN BRIEF

## Hogan Hammers Kiwanis; Medco Outlasts Brier, 16-12

Cindy Hogan homered and tripled Monday night as Bowl America knocked off Kiwanis, 11-4, in Junior League action at Ft. Mellon Park.

Hogan allowed six hits in picking up the victory as America used a four-run third inning and a three-run seventh inning to put the game out of reach.

Katy Barbour slugged a two-run homer for BA, while Cecilia Lockhart ripped two singles for Kiwanis. Revonda Wallace was the losing pitcher.

In the second game, Medco Pharmacy broke loose for 15 hits to outlast Brier Construction, 16-12.

Barb Davidson, Tammie Fisher and Daphne Williams each collected three hits for Medco. One of Williams' blows was a home run. Selena Thompson and Pam Morgan had two safeties. Angela Carpenter was the winning pitcher.

Vernese Chapman led Brier with a homer and a single. Blondie McKinney and Regina Bell had two hits apiece. Dawn Morgan was the losing hurler.

## Turner Leads Oviedo Sweep

Coach Howard Mabee's Oviedo Big League team successfully opened the 1982 season Sunday with a pair of victories over Pine Hills, 11-0 and 5-3, at Oviedo.

Dave Butterfield and Pat Burkhardt silenced the Pine Hills' bats in the opening game as Oviedo pushed across two runs on a bunt to win by the slaughter rule.

Todd Duncan's perfect suicide squeeze bunt scored Phil Robinson from third base and when the pitcher threw to first to get Duncan, speedy Eddie Turner trucked home from second base.

Turner was the Lions hitting hero for the day with three base hits and three walks. Thurman Granville contributed a key double in the second game and Greg Thayer rapped two doubles and Terry Griffin added one two-bagger.

In game two, Burkhardt started but gave way to Darrin Reichle in the third inning. Reichle notched the victory with some excellent relief work by Greg Myers, who picked up a save.

Oviedo, 3-0, travels to Ocoee today.

## O-Twins Subdue Memphis

Orlando Twins' reliever Larry May put out a ninth-inning Memphis outburst to give the Twins a 10-9 Southern League victory over the Chicks Monday night at Memphis.

Dave Meier ripped a homer for the O-Twins, while former Florida State star Mike Fuentes clubbed his 16th and 17th for Memphis.

Orlando plays at Columbus tonight.

## Sutton Bunts Longwood; Flath Twirls No-Hitter

By JOHN REICHL  
Herald Sports Writer

Carl Turner's "Big T" Tire troops squeaked by Longwood I, 1-0, in a lightly-fought Pony battle at Five Points. "Big T's" Jeff Greasing and Longwood's Joe Schalte kept the opposing hitters subdued, giving up two and four hits, respectively.

T.J. Sutton laid down a bunt to drive across Donny Gorman for the sole run of the day. Tommy Wilkes ripped a pair of

## Five Points

singles for the top effort of the day.

"Big T" Tire then ran by Winter Springs I, 4-0, on the power of eight hits and a subdued Winter Springs offense due to a sparkling mound performance by Troy Turner and Tom Wilkes, who surrendered only two hits. Greasing and Sutton each rapped two singles to lead all hitters.

In Bronco action, Casselberry I topped Winter Springs I, 6-4. Casselberry pitcher, John Flath, pitched no-hit baseball, while Casselberry I accumulated six hits for their offensive punch. The top hitter was Flath, who turned in a single and double.

In Pinto action, Longwood II slipped by Lake Mary II, 11-10. Five runs in both the second and fourth innings was the major scoring drives for Longwood. Michael Peltz and Matthew Stanton each knocked in a single and a double to fuel Longwood's offense.

Kyle Scott's heroics led Casselberry II past Sanford, 6-4, as he relieved in the third inning and slapped a pair of hits. Scott saved the game with a tremendous relief job.

In Mustang softball, Casselberry II defeated Winter Springs II, 11-8, as Bobby Osborne and Jill Krutson each ripped a pair of singles. Nine runs in the first two innings would have been enough to decide the final outcome.

Casselberry I scored 18 runs on 18 hits to run by Winter Springs, 18-1. Tamara Lewis (four hits), Jennifer Thomas and Jordon Jonas, with three singles, were the leading hitters for Casselberry.

Rinker Materials skunked Forest City I, 9-0, collecting all of its runs in the first three innings. Dawn Gebhart turned in a tremendous mound performance, allowing only two hits. Gina Basmile, Gebhart, and Shannon Kennedy each rapped two hits apiece to pace Rinker Materials.

Betsy Chavis' Salvaggio's girls played good, solid baseball to down Winter Springs II, 9-0. Julie Welsh and Lomicia Whitaker each turned in three-hit afternoons to fuel Salvaggio's offense.

Kim Miner tossed a one-hitter to lift Winter Springs II past Forest City I, 7-3. Fine defensive plays by Miner, first baseman Laurie Bird, leftfielder Jamie Honeycutt and shortstop Kim Soles kept Forest City in check. Krist Burns knocked two singles with two RBI to lead all hitters.

Forest City III massacred Longwood, 23-0, on the strength of 15 hits and Longwood's Niki Burke's gift of 14 walks. Susan Harris collected four singles and Gina Basmile five for Forest City.

In a lightly-fought slugfest, Forest City II squeezed by City III, 12-11. Although being out-hit, 12-12.

Lake Mary downed Forest City III, 7-3, to win their second game of the second round. Lake Mary ripped seven hits, led by Ginger Collins who turned in two hits, including a homerun.

Lake Mary scored three in the seventh-inning to pull the victory from the grips of Forest City II, 16-9. Rhonda Gorman and Gina Collins led the attack with a pair of singles and a home run, respectively.

Winter Springs I won a slugfest over Forest City II, 13-4. Terri Blodose and Lomicia Whitaker played "Home Run Derby" with each other as Blodose popped three HRs out, and Whitaker managed one. Julie Welsh offered other offensive support with three singles.

## IN BRIEF

### Miami Hoping To Host The 1992 World's Fair

MIAMI (UPI) — Though the Knoxville World's Fair has only just begun and attendance figures have been less than overwhelming, Miami business leaders say a 1992 fair in south Florida could have a \$3 billion impact on the state's economy.

The fair would mark the 500th anniversary of Christopher Columbus' voyage to the New World and officials say they want to celebrate it in Miami.

### Shuttle Undergoes Repairs

CAPE CANAVERAL (UPI) — Spaceport workers have hit another snag in readying the Columbia for its fourth and final test flight, but NASA says the latest delay should not keep the ship from blasting off on time June 27.

Mark Hess, a spokesman for NASA, said technicians fell behind schedule Monday when a welded valve "flunked the X-ray test." The valve part of a gaseous oxygen line on one of the main engines of the orbiter, had to be cut and re-welded when a flaw showed up during the X-ray test.

### Gunter Wants Pay Upgraded

TALLAHASSEE (UPI) — Insurance Commissioner Bill Gunter doesn't want to wait on a Board of Regents study to determine the extent of salary discrimination in the university system.

He is certain some faculty or staff aren't being paid fairly because of their sex or race and he wants that eliminated now.

He intends to propose a resolution establishing as official state policy the elimination of on-going discrimination immediately that may have taken place in the past as soon as funds become available.

Herald Photo by Tom Vincent

### SWEET TREAT AT GOP MEET

Following the example of President Reagan, Jerry Keeth, president of the Sanford Republican Women's Club, offers a jellybean to the guest speaker at Saturday's club luncheon meeting.

Casselberry City Councilman James R. Lavigne, Lavigne is a candidate for the state House of Representatives.

## June Economic Upturn Predicted

United Press International

American factories operated at less than three-quarter capacity last month, but Commerce Secretary Malcolm Baldrige says by next month they should be gearing up with signs of economic recovery.

"I think in the month of June, we will

see enough differences in the economic figures, we will be able to discern ... the economy is in fact beginning to recover," Baldrige said Monday.

His comments came in response to figures Monday that showed the nation's factories worked at just 71.1 percent of capacity last month.

The Federal Reserve Board said the percentage of factory capacity dropped 0.4 percent in April, returning to its January level when bad weather and recession cut back production.

Treasury Secretary Donald Regan told a news briefing any recovery could be stifled if interest rates stay high.

# WORLD

## IN BRIEF

### Brezhnev Offers Immediate Freeze On Nuclear Arms

MOSCOW (UPI) — President Leonid Brezhnev offered today to halt deployment of all new nuclear weapons if the United States would do the same.

Brezhnev, who looked healthy and alert in his first speech in public in nearly two months, made his first direct response to President Reagan's recent call for the two superpowers to begin new arms reduction talks.

### 'Ignore U.S. Congress'

SAN SALVADOR, El Salvador (UPI) — The chief of staff of the armed forces told Salvador's new government to ignore calls by the U.S. Congress for talks with the guerrillas.

Col. Rafael Flores Lima, second only to Defense Minister Gen. Jose Guillermo Garcia in the army command, was rejecting last week's Senate Foreign Relations Committee resolution urging "negotiations" and a House Foreign Affairs Committee vote supporting a "dialogue" between the government and guerrillas.

### Florida's Haves And Have Nots

GAINESVILLE (UPI) — Palm Beach County has the highest per capita income of Florida's 67 counties while rural Union County has the lowest, the University of Florida's Bureau of Economic and Business Research said Monday.

In a preview of its May newsletter, "Economic Leaflets," the bureau said the latest data from the U.S. Commerce Department shows each Palm Beach County resident earned an average of \$11,554 in 1980, or 128.5 percent of the state average of \$8,993.

Union County residents, on the other hand, earned a per capita income that year of \$4,338, or 48.2 percent of the state average.

Other counties with high per capita incomes in 1980 were: Sarasota (\$11,287); Broward (\$10,737); Collier (\$10,569); Indian River (\$9,917); Hendry (\$9,149); Duval (\$9,141); Lee (\$9,086); and Brevard (\$8,998).

Wage and salary earnings in Florida in 1980 outpaced inflation that year by 15.5 percent to 13.5 percent, which was the annual average of the Consumer Price Index, the bureau said.

Counties where total income increased more than the state average were: (in order of rank) Martin, St. Lucie, Citrus, Osceola, Palm Beach, Pasco, Brevard, Charlotte, Hernando, Broward, Lee, and Seminole.

### Fine Arts Week Set At Spring Lake School

Spring Lake Elementary School, in Altamonte Springs, will observe "Fine Arts Week" May 24-28.

The week will be highlighted by the unveiling of a mural depicting the educational life progression of a child.

Also featured will be an exhibit of art work provided by the Ringling Museum of Art from Sarasota.

The musical play "Mary Poppins" will be performed at 7:30 p.m. on May 27 and 28. Tickets will be \$1.50 for adults and 50 cents for children.

An open house will be held 7-8:30 p.m. May 24 and 26.

### Nuke Freeze On Ballot

SACRAMENTO, Calif. (UPI) — California has become the first state to put a nuclear weapons freeze initiative on its general election ballot, giving voters a chance to "speak out" in the Nov. 2 voting.

The measure received 547,516 valid signatures, far more than the 345,119 required.

"With the qualification of the nuclear weapons initiative, California joins the movement sweeping our nation to speak out on nuclear weapon control," Secretary of State March Fong Eu said Monday, announcing the measure's qualification for the ballot.

The initiative directs the governor to write the president, urging he propose a bilateral agreement with the Soviet Union to halt "testing, production and further deployment of all nuclear weapons, missiles and delivery systems in a way that can be checked and verified by both sides."
