Army Orders Increase In Engine Production

FLINT, Mich., Dec. 24.—(AP)—Harlow H. Curice, president of the Buick division of the General Motors Corp., revealed today the Army Air Corps had authorized doubling of Buick's mammoth aircraft engine program.

He said the management intended to put the expansion into effect immediately, and estimated the division would employ between 25,000 and 30,000 workers in airplane engine production when all plants are in full production.

Army Gets Starches In Form Of Bread

ATLANTA, Ga., Dec. 24.—A Japanese soldier goes to war on a handful of rice a day, but Uncle Sam's men in khaki get their starches in a different form—bread.

In order to insure each man's receiving his allotted half pound a day, the Quartermaster Corps has developed a field bakery whose economy and efficiency of operation would put the largest commercial bakery to shame.

For instance, in recent maneuvers in the eight southeastern states, a field bakery under the direction of Brigadier General James L. Frink, Fourth Corps Area Quartermaster, produced nearly 6,000,000 pounds of Army field bread in two months at a cost of less than two cents per pound.

Red Army Attempts To Take Kerch, Lift Siege At Sevastopol As Foe Fights Back

Soviets Claim Leningrad Area British Continue Mopping Up Operations In Bengazi Sector

On the Russian front, the Red army is attempting to storm back into Kerch and lift the siege of Sevastopol. The Soviets claim their troops are driving Axis forces from the Leningrad area.

The German command says the Nazis are attacking the Crimea. The British say the campaign in Africa is continuing. The British say they have been at sea with Bulgaria since Dec. 18. The last organized units of the Axis desert army were trying to make a stand tonight 90 miles south of British-captured Bengazi, from the great are formed by the shores of the Gulf of Sirte.

In London a military commentator conceded that some Axis forces might be able to fight their way outward to temporary shelter, but said that few tanks were likely to reach safety due to their mechanical condition.

Red armies have smashed a new German line thrown up desperately along the Oka river at Adolph Hitler's direction to halt the Soviet offensive before Moscow, and they have routed Nazi remnants from an important rail center closer to the capital, the Russians announced today.

The retreating Germans, fighting stubbornly but vainly, were blasted from a town on the west bank of the Oka, front line dispatches said. The Soviet information bureau announced capture of Narovsk, 35 miles southwest of Moscow.

In taking the Oka river town, the Russians said their troops pushed across the ice by night, flanked the German flanks and took their objective in fierce hand-to-hand street fighting.

Sanford-Orlando Kennel Club Opens 90-day Season Tonight

Starting its 90 day racing season tonight, the Sanford-Orlando Kennel Club opens for its seventh consecutive year at Longwood, 10 miles south of Sanford on the Orlando highway. Posttime for the first race is 8:15 o'clock sharp, rain or shine.

Feature of the 11-race evening will be the inaugural Handicap, a 5-16ths of a mile sprint carded as the ninth event of the night.

The inaugural, featuring the eight top dogs from the 250 kennels quartered at the track, is always the principal event of the night for the hundreds of Central Florida track fans who swarm over the racing plant.

While Hi-Quide, a crack speedster from the Alden, Mass. kennel of Dr. C. M. Hall, is expected to go to the post a favorite in the inaugural, at least four other greyhounds are bound to come in for heavy backing.

Rambling Nora, one of the nation's outstanding distance dogs and track record holder for the 5-16ths mile, will be back for another try at the inaugural. Last season, she finished third behind the winning Grand Man after a very poor break.

Three other dogs are highly rated in the eight-dog starting field. They are Tipster Witchet, from the Los Angeles kennel of R. P. Dickinson; Gliderweave, owned by Mrs. Burt Coleman and trained by R. C. Skelton; City Judge, owned by the Moore Brothers and trained by Frank Pasley.

Darry, Naduro and Mi-Due—the other three entries—are longshot possibilities only, although Mi-Due has shown the ability to finish strong.

The pari-mutuel windows will open early tonight to allow purchase of tickets on the first race and the daily double, which will be held as usual on the results of the second and third races. The eleventh race, a double event, will be held for the first time.

The track has finally beaten weather conditions and is fully prepared to meet any weather eventuality.

The grandstand and the walkways are now open to the public by special arrangement. The new, however, the grandstand ramp and walkways have been resurfaced with new, heavy-duty asphalt and will be ready for use with the first race.

Dutch Airmen Sink Another Jap Destroyer

Suicidal Losses Are Suffered By Japan Against British Singapore Forces

(By Associated Press) Dutch airmen who have been steadily biting chunks out of the Japanese fleet reported late yesterday the sinking of another destroyer or transport off the Borneo coast where Japanese troops secured a foothold at Kuching, capital of Sarawak.

A Dutch submarine crew only the day before reported the destruction of a 2,100-ton Japanese destroyer of the Amagiri class in the gulf light to keep the invaders out of the East Indies.

Thus far Dutch air and sea successes have set a daily average of one Japanese ship sunk or seriously damaged. Big Netherlands bombers have been operating over land as well over British Malaya and the Philippines to help the Allies.

Waves of Japanese storm troops beat with suicidal losses against unyielding Imperial lines 300 miles northwest of Singapore yesterday, authorities reported, but a new push arose from a push down the coast toward the Kemaman area only 225 miles from here.

Two invasion drives on either side of the rugged backbone of the middle Malay peninsula met mounting resistance. The Japanese forces were repulsed, including the Chinese, who were pitilessly wholeheartedly against the Japanese.

Leut. Gen. Sir Henry Pownall has assumed command of the British forces in the Far East, succeeding Air Chief Marshal Sir Robert Brooke-Taylor.

The war office announced from London, said Sir Henry had arrived at Singapore to assume the duties to which he was appointed in November.

Tourists From 14 States Sign Information Booth Registry

Travelers from Ohio, New York, Massachusetts, Washington, D. C., Pennsylvania, Missouri, Montana, Kansas, North Carolina, Georgia, Virginia, Michigan, Kentucky and South Carolina have signed their names in the tourist registry at the Information Booth on Lake Shore Boulevard, Mass. Carlin Palmer, receptionist, reported this morning, adding that of the hundreds who have stopped for information, only about 150 have signed the registry.

Recently, persons who ask information have been inquiring about points of scenic interest in Sanford, about celery and industry in this area, about hotels and suitable apartment and restaurants, while not so many tourists inquire about Miami, West Palm Beach and resorts farther South.

This morning two tourists from New Jersey came into the booth inquiring about the Big Tree and Bok Tower. One of the women asked whether it was permissible to walk through orange groves and pick fruit from trees.

It was the first time either of the travelers had seen oranges or celery growing. They seemed enthusiastic about fruit stands along highways on their way South and also remarked about the pleasant manner in which they were treated. "They even remarked about the proverbial 'southern hospitality,'" Miss Palmer said.

Registration books are open at the office of the supervisor of registration, where any qualified freeholder, may register to vote in the election. Over 50 percent of the freeholders in the County must vote to legalize the election.

Police Make Fast Time In Catching Robbers Of Market

Police made fast time yesterday on the robbery Christmas night of Watson and Company at the State Farmers Market, which was reported yesterday at noon, Chief Williams said today.

Practically all of the contents of the money box that was stolen, containing about \$75 in checks and \$25 in cash, was recovered, two Negro ex-convicts were arrested and confessions were obtained by last night.

The robbers were arrested by Policemen Sam Gardner and Gover Williams near the A. C. L. depot, and they confessed the theft and disclosed the hiding place of the money box in the woods behind the market.

The robbers are Walter Sanders and T. C. Sanders, who, Chief Williams declared, have been watched because of their previous bar record. Mr. Williams stated, "The police department is determined to break up local robberies. We have been doing everything in our power to halt these petty crimes and will continue to do so."

Many Die From Air Attack And Great Fires Are Set

(By Associated Press) A large area of Manila's ancient walled city was a roaring mass of flames tonight as the Japanese air force answered General MacArthur's proclamation that the Philippine capital was an open city with a famously and devastating rain of death and destruction.

While waves after waves of bombers methodically roared over the stricken city, reports reached it that the Japanese, advancing more than 30 miles, had driven down the corridor leading southward from their beachhead at Iloilo toward Manila.

Vichy Rule May Be Restored To Seized Islands

(By Associated Press) Secretary of State Cordell Hull today declared that Japan, in bombing the "open city" of Manila, was practicing the same barbaric methods of cruelty and inhumanity Hitler has been using in Europe.

Nert Silen, N. B. C. correspondent in Manila, reported the casualties were high and still uncounted in the Japanese bombing of Manila the day after it was declared officially an undefended city.

(In his report, broadcast after dark, Mr. Silen asserted "there is little need for a black-out here tonight." A light moon is shining—and its color is tinged with red. All around us great fires are burning.")

The War Department reported that Japanese troops were pouring invasion reinforcements ashore north and south-east of Manila, and "very heavy" fighting is in progress northwest of the Philippine capital.

From Melbourne, Australia, Prime Minister John Curtin asserted that despite Australia's links with Britain her closest partner in the war in the Pacific is the United States. He added the government's policy "is shaped toward obtaining Russian aid and working out with the United States a plan of Pacific strategy along with British, Chinese and Dutch forces."

Defenseless Manila, declared an open city, underwent a savage Jap air raid in which a rain of bombs caused a number of deaths and started fires. The city had been stripped of its defenses and the Japs met no opposition. Gen. Douglas MacArthur said the land situation is unchanged, although invasion pressure is increasing. The Dutch report the sinking of the largest ship in the Jap concentration off Sarawak. The sinking kept up the Dutch ship-day program.

Enemy pressure was reported to be increasing 55 to 75 miles southeast of Manila where the Japanese effected a second landing from the sea.

In the south of Luzon, meantime, mining companies had exploded all magazines and burned many fuel stores and bus lines had decommissioned their vehicles in order to delay the Japanese advance from Legaspi.

United States High Commissioner Francis B. Sayre and President Manuel Quezon prepared to remove their offices and carry on elsewhere, but in seven words Sayre made the pledge and challenge that typified the determination of the defenders:

"We will fight to the last man." The decision to remove the civilian administration and all combatant military installations from Manila was accompanied by assurances from a United States Army spokesman that this would not in any way lessen the power of the counter-blow falling upon the Japanese.

On the contrary, he said, fighting "will continue as vigorously or more vigorously than at present."

Manila's anti-aircraft batteries were dismounted; military stores that could not be removed were destroyed; the last soldier and sailor left the city.

The Army Eats Meat

If it is true that an Army "travels on its stomach," the American Army will travel extremely well. Scientifically balanced meals assuring good nutrition are provided for in menus for field rations supplied troops.

Typical menus, recently made available, show that for breakfasts the Army eats, among other things, chipped beef, creamed beef, pork sausage links, ham omelettes and bacon omelettes.

Dinners—served in the middle of the day in the Army—include in the meat courses roast beef, spareribs, boiled beef, grilled or broiled pork chops (two per man), roast leg of lamb, beefsteak, baked ham, boiled corned beef, pot roast, roast pork, baked fresh ham, beef à la mode, frankfurters and beef loaf.

Suppers find the troops eating spaghetti with rich meat sauce, pork and beans, corned beef hash, cold cuts, beef liver, beef chop suey, hamburger steaks, Irish stew, frankfurters, baked spareribs, lamb stew, beef stew, lamb pot pie, braised beef and pressed ham.

The portions—which go to make up food for the best fed Army in the world—are generous. When bacon along with eggs is on the menu, the Army provides 2 ounces per man—about three slices. For roast beef the Army provides 60 pounds of beef for every 100 men.

A typical field menu for one day follows: Breakfast: Grapefruit, assorted cereals and fresh milk, bacon and eggs, toast, butter, and coffee.

Bulwark Of Brains

Any country's chances to build an invincible army depend not so much on the excellence of its generals, though that is important; not so much even on the profusion and modernity of its equipment, though that is a pressing need; as it does on the initiative and individual ability of its raw soldiers.

In the cotton fields and scrub pine forests of the Carolinas observers at the recent maneuvers found justification for believing that the American defense army has the raw material of which invincible armies are built.

In a "battle" between infantry forces Pvt. Joseph Wood of Waterbury, Conn., a national guardsman assigned to the armored "Red" 14th corps of the "enemy" forces, was captured by the 112th infantry of the 28th division, a Pennsylvania national guard outfit.

The prisoner suddenly reached over and pressed the trigger of his guard's rifle and the sound of that shot brought the Red forces charging into the woods.

U.S. Is At War With All Foes Of Democracy

By MRS. I. D. MARTIN. The United States is at war with Japan. The grim realization has startled the nation. It is given a graver and deeper meaning by events in the Western Pacific and in our own country during the last few days.

Our immediate war is with the Axis Power, but in a larger sense the United States is at war with all foes of freedom and democracy. We are therefore at war with the forces of aggression and the forces of tyranny.

This is a time when citizenship becomes a serious responsibility, a time when patriotic loyalty is the sacred and solemn duty of all. It is a time for giving forthright thought. It is not a time for hasty judgments or opinions.

Justice and right, under Divine Providence, will prevail in this conflict as from time immemorial. The challenge to our freedom and the threat to democracy is being met with determination and unity which indubitably must bring the final triumph.

Of all these nations, our country together in a common cause. Great Britain still is a major bulwark of defense in the Atlantic. The Armed Forces of the British Empire, and the British people, are the main line against the menace of sea-borne invasion.

Whenever the presence of the allied troops is felt, the Axis powers are repulsed. The Axis powers are repulsed. The Axis powers are repulsed.

During this critical period, we must be determined to meet the challenge of the Axis powers. We must be determined to meet the challenge of the Axis powers.

Our country is at war with all foes of democracy. We are therefore at war with the forces of aggression and the forces of tyranny.

Jacksonville Air Station Is One Of Three Large Bases

JACKSONVILLE, Dec. 24.—(Special)—The United States Naval Air Station at Jacksonville is one of the three largest pilot training centers of the Navy.

In addition to training pilots, the station at Jacksonville possesses the largest trade schools in the Navy where thousands of men are being educated to serve the planes of the nation's rapidly expanding two-ocean Navy.

Two fully equipped auxiliary fields are included in the Naval Air Station setup. One of them is Lee Field of 1,000 acres which is near Great Cove Springs, seven miles north of the main station.

The other is Cecil Field of 2,700 acres, 10 miles to the west of the Jacksonville station.

In addition to Lee Field and Cecil Field which have quarters for men and officers, and recreational and administrative facilities, there are 18 outlying fields within 40 miles of Jacksonville which do not possess such facilities but which are used by the fliers.

The personnel of Jacksonville now numbers 11,000 and representatives from every state in the union can be numbered at any time.

About 230,000,000 have already been produced on the island. The largest amount of this type of work and work of this nature will be completed in 1942.

Mr. and Mrs. Dyson Introduce Daughter

Mr. and Mrs. W. R. Dyson introduced their daughter, Gladys, at a tea dance in the Woman's Club yesterday afternoon between the hours of 4:00 o'clock and 7:00 o'clock. Miss Dyson received with her mother and father in the foyer of the club which was banked with palms and numerous baskets of flowers sent by admiring friends. She wore a stunning creation resembling a French Empire formal gown of cream mousseline de sole, with bouffant skirt attached to a rhinestone trimmed puffed bodice. The skirt came to a point in front, and she wore a matching necklace and shortuffed sleeves. She carried an old fashioned bouquet made of pink perfection camel lilies tied with a matching shade of maline and edged with lace. Miss Dyson presented her daughter wearing a dinner gown of powder blue crepe with tulle bodice and a corsage fashioned of pink roses.

MacPhail Declares Brooklyn Will Be Better Next Year

MIAMI BEACH, Dec. 27.—(AP)—General Manager Larry MacPhail thinks Brooklyn's beloved Dodgers will be a tougher baseball club next season, but he said Friday that they'll have to win the National League pennant again.

"If we had stood pat on our 1941 team, I don't believe we could have repeated," he declared, adjusting his dark glasses against the glare of a hot sun beaming down on the beach.

"But with the changes we've made I hope we'll be right up there in the 1942 race."

"We'll be better than last season. We'll have to be. It looks like another tight three or four club scramble."

"There's one thing, though, I believe we helped ourselves more than either the Cardinals or the Reds."

The red-headed, easy-talking MacPhail wore his club and St. Louis as certain first division finishers. He sees the Reds, the Giants and the Pirates in a dog-fight for the other two spots.

"Logically, you have to pick St. Louis to win," he continued.

"They've got a great young team. There are a lot of young fellows on the team who haven't been in on a pennant before, the Cards are the club to beat."

Cincinnati, he said, is sure to be tough. They've got great pitching, and if they've got some hitting they'll be very good."

Program Opens Drive For Sale Of Bonds And Stamps At High School

Beginning a drive for the sale of United States defense bonds and stamps sponsored by the Seminole High Students Council, a program was given Monday, Dec. 16 over the intercommunication system by the students of the Sanford High School. Olla D. King and Mrs. Lucy Smith had charge of the program.

The program opened with a song, "Any Bonds Today?", which was sung by a group from the Glee Club composed of Mildred Gibson, Ann Wiggins, Shirley Cameron, Lucy Ward, Herman Middleton, Oren Farrell, Edward White, Gladys Pippin, Nancy Dighton, and Dorothy Lyons. Miss Dorothy Sanford accompanied the group.

This selection by the Glee Club members was followed by a speech given by Edward Marshall, a senior, on the Bill of Rights. He stated that the Bill of Rights is the wall against the establishment of a dictatorship like that of Nazi Germany or Fascist Italy in this country. He said, "sacrifices are not to be made next year, next month, or next week—but now."

A skit, entitled "Our Bill of Rights" was presented after Edward's speech. Those taking part were as follows:

Mother, Nancy Dighton; Son Bill, Emmet Herndon; Father, Earl Jeter, Jr.; Policeman, Jimmy Ricker; Teacher, Angela Melachi; Mr. Murphy, Defense Worker, Bill Brans; Lawyer, Mack Cleveland, Jr.; Farmer, Edgar Biggers; Newspaper Editor, David Gatchel.

After the skit, Judge James G. Sharon stated that the sale of defense bonds and stamps are necessary for the preservation of the Bill of Rights.

The program was closed by the singing of "My Country 'Tis of Thee" by the Glee Club members.

Tri-Hi-Y Girls Make Plans For Football Banquet

By Lois Caldwell

Members of the Tri-Hi-Y Club met at Sanford High School Monday night to induct Joyce Steele into the club.

After her induction services were rendered by Earline Kelly, a member of the organization, a business meeting was held. Tri-Hi-Y girls have been planning to give the football banquet sometime in January. Joyce Steele was appointed as the hostess for this year's annual banquet.

Panic Spreads Among Germans

Increasing Pressure Is Put On African Foes By English

LONDON, Dec. 29.—(A.P.)—Aviation observers today estimated losses in the campaign against Russia have reduced the German air force to about 65 percent of its peak strength.

LONDON, Dec. 29.—(A.P.)—Eight enemy ships totaling 15,450 tons, oil tankers, ammunition stores and a quilling—owned industrial plant were destroyed in a British raid on the strait islands of Vega, 100 miles north of Bergen, Norway. It was officially announced today.

The British have pushed forward in Libya, striking from the south at the retreating main Axis force in the Agedabia area and bombing Axis troops from the air in the Bardia sector.

The Soviet Information Bureau said 32 towns and villages have been recaptured in the area in the last ten days.

In Cairo, units of the R.A.F. with the aid of five French bombers have struck fresh blows at the Axis Helwan in Libya.
