### Defente Tested By Angolan War

The tragedy of Angola is not only the bloody civil war that escalated when Portugal withdrew precipitately, but also the prospect that things will get much worse before they get better.

As things stand, three distinct guerrilla forces are engaged in a showdown fight over who rules Angola. The Popular Movement for the Liberation of Angola, a Communist group with ties to Russia, controls the capital, Luanda and the enclave of Cabinda. Two other indigenous groups have joined forces and mounted an all out war to evict the Communists.

If only the native armies competed for the control of Angola, the Communists would lose. Unfortunately, the Soviet Union is pouring millions of dollars worth of sophisticated arms to the Communist guerrillas. Additionally, Castro has sent more than 3,000 of his regular soldiers to Luanda, also to assist the Communists. As a result the war will be long, bloody and indecisive for some time.

The goal of the Soviet Union is plain. All of the present Soviet alliances in Africa were formed after the Third World nations emerged. Such alliances often are fragile, as Zaire and Uganda, which have broken relations with the Soviet Union, remind us.

If the Popular Movement becomes obligated to the Soviet Union and conquers Angola, and if it continues to be dependent upon Moscow to retain its power, Russia will have its first permanent puppet on the Dark Continent.

China is responding to the Soviet threat in Africa by giving direct military assistance to the two guerrilla groups opposing the Popular Movement — and also to Zaire which supports them. The United States is providing limited assistance to Zaire.

Additionally, Secretary of State Henry Kissinger reminded the Soviet Union, in a press conference recently, that it is not living up to the spirit of detente when it furnishes modern weapons to a revolutionary group in Angola which represents only 14 per cent of the people. Nor, for that matter, is the Soviet Union living up to the letter or the spirit of the Helsinki agreement which forbids intervention into the affairs of another state.

It is a theme that the United States should continue to pound home even as we take all of the other steps that we can to assure peace and self determination in Angola.

### Good, Bad News

The nation's immediate hope for eased energy pressures has for the last few years centered on the untapped oil fields on Alaska's North Slope.

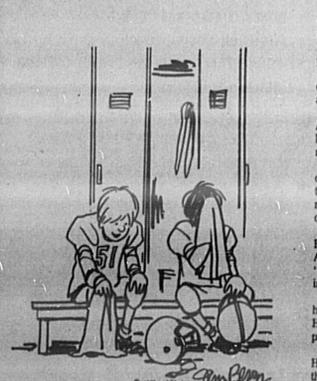

And now, according to an article in U.S. News & World Report, new rich strikes indicate potential production of double the proved reserves of 10 billion barrels of North Slope oil. In addition, there are staggering amounts of natural gas.

But the flow of oil to begin in mid-1977 and increase to two million barrels a day within a decade will carry a price tag in the same range as that of the Arab oil on which we currently are dependent.

Alaska's vast energy resources will go far toward freeing America from the clutches of oil-rich nations abroad — but not all the way. And there is little indication of relief from the pain of spiraling energy costs.

The benefits of Alaskan oil should exceed even the bright promise of the North Slope fields and the pipeline project, but the search for other sources and energy alternatives cannot be abandoned.

### BERRY'S WORLD

"Whew! Well, that wraps up another season. Now I know how George Bernard Shaw feels!"

### Around

### The Clock

Want to know which are the fastest growing cities in the U.S.?

Maybe you didn't necessarily want to know, or at least hadn't given it much thought, but we figured you'd be interested to know that Fort Myers, Sarasota, Orlando and Fort Lauderdale — all in Florida — are ranked in that order to lead the nation in population growth from now through 1979.

A survey released by "Sales Management" magazine said that by the end of this decade, Fort Myers will have grown 30 per cent and will boast a population of 192,700 while Sarasota will jump 28 per cent to 138,100.

The Greater Orlando area is expected to gain about 26 per cent to reach 745,100 and Fort Lauderdale-Hollywood will increase about 25 per cent and go over the one million mark.

Other Florida cities ranked among the top 20 in the nation in expected growth include West Palm Beach-Boca Raton 8th; Tampa-St. Petersburg 9th; Tallahassee 14th; Gainesville 15th and Daytona Beach 16th.

Statewide projections show Florida to be the second fastest growing state in the nation at a rate of 19 per cent in comparison to Arizona's 21.3 per cent.

Too, the word from the Florida Chamber of Commerce has it that Florida had over 2.9 million head of cattle at the beginning of the year, which is 600,000 more than at the start of 1974.

However, the market value dropped 41 per cent in a year's time — with an estimated value of \$427,750,000.

Floridians rank 17th in the nation in total cattle and calves, 15th in milk cows and 9th in beef cows. Interesting huh?

Did you know that the first Thanksgiving was celebrated in this country in the fall of 1621?

However, contrary to popular belief, only a few of the separatists from the Church of England who settled Plymouth Colony, actually attended the first Thanksgiving — primarily because the last of the Pilgrims didn't arrive in the New World until nearly 10 years later.

Over 100 Pilgrims migrated from England to Leyden, Holland, in 1607. Their congregation numbered nearly 300 by 1617, but only 35 of the

Leyden Pilgrims, with 67 Londoners, came to the New World aboard the Mayflower in 1620.

In the spring of 1621, Gov. John Carver and Massasoit, grand sachem of the tribes of Pokanoket, signed a peace treaty which was faithfully kept for half a century. The Pilgrims learned from the Indians how to plant corn and how to catch fish to use as fertilizer.

By autumn of 1621, the village of Plymouth consisted of seven houses and four public buildings.

For many years the Pilgrims gave thanks for their good fortune, celebrating the first Thanksgiving. These interesting facts, and many more, are found in a little booklet, "The Story of the Pilgrims," published by Hunt Hancock Mutual Life Insurance Co. to which we are grateful for the foregoing information.

—Bill Currie

### DON OAKLEY Progress Or Doomsday By 2000?

Is mankind headed toward one bang-up catastrophe by the end of the century?

While some of us are predicting a more naive era, they are realistically based on current state-of-the-art and research in a dozen basic fields involving 141 industrial firms and government agencies, from medicine to textiles, electronics to railroads, aerospace to plastics.

No, say the scientists and technicians — or at least those included in the third "Survey of Technological Breakthroughs and Widespread Applications," who cite another host of trends expected to improve the quality of life in the 21st Century. The survey is conducted every third year by McGraw-Hill Publications.

While some of us are predicting a more naive era, they are realistically based on current state-of-the-art and research in a dozen basic fields involving 141 industrial firms and government agencies, from medicine to textiles, electronics to railroads, aerospace to plastics.

In health care, for example, a cure for cancer will be found by 1995 and will be generally available in the early 21st Century.

Closer to the present, it's felt that within two years doctors should be able to detect most genetic defects before birth and be able to prevent them by the 1990s.

A more ominous note: The same timetable applies to changing a baby's sex before birth, if anyone should want to. And a little further along, the first quarter of the coming century will see the chemical control of hereditary characteristics through molecular engineering, chemical control of aging and chemical improvement of intelligence.

In transportation, an all plastic car, except for engine and drive train, will be common by 1980. So will the electric car. The service-free, accident-proof automobile is expected to be in widespread use by the year 2000.

Also by 1995, aerospace experts predict an economic alternative to petroleum fuel and full use of it by 2010.

Elementary synthesis of plastics, "the ultimate answer" to shortages of primary materials, will be technically possible in 2000 and common procedure in 2100. Edible, nutritious plastics will be developed in the last decade of this century.

Advances in land mining techniques will increase yields from presently inaccessible or low-grade deposits. Lasers, ultrasonic beams and high-frequency currents to drill, crush and grind rock will be in the works by 1985, economically feasible by 1992 and common by 2000.

The mind, to coin a phrase, boggles, and this is only a sampling. The survey does, however, acknowledge current popular doubts about man's science may be leading us.

### JACK ANDERSON

## Anti-Crime Czar Fizzles As TV Star

Richard W. Velde, the federal anti-crime czar, has bombed out as a television performer. His debut was so bad that the embarrassed Velde hasn't released his taped messages for public viewing.

For the taxpayers, therefore, the abortive debut has been a waste of about \$175,200. Here are the incredible details:

The 43-year-old chief of the Law Enforcement Assistance Administration (LEAA) faced the killer lights to record some crime-prevention messages.

Velde was so eager to appear on TV that he discarded the spots his predecessor, Don Santarelli, had already taped. To re-record the messages with the droll Velde as the star may cost as much as \$21,600.

He was backed up by such Hollywood stars as Bob Hope, Telly Savalas, Carol Burnett and Angie Dickinson. They plugged the theme: "Fighting crime is everybody's business. Get involved."

With such a star-studded cast, the messages had to be a hit. But Velde wanted to be certain. He hired Porter, Novelli and Associates, Inc., a private firm, to evaluate the spots.

They were duly aired last summer in Houston, Tex., and Fort Lauderdale, and their rave reviews. The firm's 86-page report, intended for official eyes only, declared ecstatically that the anti-crime messages "rank among the highest in the media's perceived

relevance to their audience."

Only one performance received a bad review. Velde's introductory message was a "unexciting" bummer. A star, unhappily, was not born.

In all candor, therefore, the research firm advised: "The introductory Administrator Velde message... is largely rejected by the media. The message is likely, therefore, to receive infrequent scheduling and thus would not be an efficient investment of LEAA funds."

Nevertheless, the firm recommended that the other spots be given "a comprehensive, well-planned distribution." They would receive \$1.5 million worth of free radio-TV time nationally in one month, the firm estimated.

But Richard Velde is a sensitive soul, proud of his physical fitness. He has boasted to skeptics that he has the body of a 25-year-old. After his poor TV rating from the Porter, Novelli firm, the proud Velde apparently lost all interest in the radio-TV venture.

Result: The crime-prevention spots, which were supposed to be aired months ago, are gathering dust on an LEAA shelf. Moldering with the unused messages are \$175,200 of the taxpayers' hard-earned money, not counting the free services donated by the stars.

Footnote: A spokesman told our associate Bob Owens that the LEAA was still "in the process of evaluating" the spots. The low opinion

of Velde's performance, the spokesman insisted, "has nothing to do with the delay." LEAA will conduct negotiations on the still-unpaid \$1,320 bill for Velde's tapings.

Washington whirl: Harper's Magazine had learned that responsible journalism is not always good business. An October article by "Leah Morris," a missionary who was tortured in Brazil, brought the cancellation of Varig Airline's advertising in Harper's. Varig is a Brazilian company.

The Navy's fastest nuclear aircraft carrier, the USS Nimitz, dumped a stream of garbage, cardboard boxes, tin cans and scrap cloth over the stern during its sea trial earlier this year. A Navy spokesman said Navy regulations permit the dumping of trash 12 miles beyond the coast.

The U.S. marshals, produced by Judge John Sirica, have opened a belated investigation of two marshals who brought their wives to a picnic for the sequestered Watergate jurors on July 4, 1974.

Washington commuters were miffed the other morning to see a military person in a white Corvette go buzzing down lanes reserved for buses and car pools. It was Congressman Ted Risenhoover, D-Okla., heading for a Democratic caucus bus. Risenhoover told us he believes that the Constitution allows him to bypass other drivers caught in the commuter crunch. It says that Congressmen and Senators

### JOHN CUNIFF Forecast: Economy OK Through '76

NEW YORK (AP) — It is often said that in an election year the economy moves ahead, not just because of some cyclical accident but in response to efforts by the administration to make itself look good.

A month or so ago you would have found widespread support for the view the President Ford had obtained a head start on his particular program of making the economy look good. There is probably less support today.

All in all, the consensus of forecasters still is that the economy will move ahead through much of 1976, probably at an annual rate of about 7 per cent. But the public reaction to all this might be another matter.

That is, the indicators might show that the economy is improving, but that doesn't necessarily convince the people that this is so. The phenomenon has been demonstrated in the past — even today.

More mysterious also is the fact that the Gross National Product can grow, but unemployment and prices can rise and consumer confidence, partially as a result, can decline.

In other words, the real world of the voter might tend to be better or worse than the world as interpreted by the leading indicators and the other statistical measurements, no matter how refined they may be.

A month or more ago a good many people subscribed to the belief that the economy was rebounding strongly from the recession. But it seems a lot of other people didn't believe it, because the confidence measurements declined.

More recent statistical information shows that maybe they had reason to be disbelievers. The indicators don't look nearly as robust as they did, and the recovery has settled back into a mixture of weakness and strength.

There is good news, make no mistake about it; the harvest is good. Housing starts, although very low, have recovered a bit. Automobile sales, though relatively low, have improved somewhat.

The U.S. payments balance reached nearly \$3 billion in the third quarter, after a deficit of \$1.62 billion in the quarter before. Retail sales have recovered somewhat, although they are not vigorous. And interest rates are falling.

But there are some very disturbing reports also, and if the consumer surveys are correct, the public is quite aware of them. The good news, they observe, is not without question marks. And the bad news often is grim.

In statistical terms the economy will enter 1976 with a great deal of promise. Production is rising. There is more economic activity. The big-name economists are mildly confident.

But in many of those areas that touch people very personally, the picture is disturbing news. They understand their pocketbook far better than they understand the statistics.

S.B. "Jim" Crawford Sanford

## WORLD IN BRIEF

### Spanish Terrorists Kill

### Mayor As Fighting Resumes

MADRID, Spain (AP) — Basque terrorists have resumed their assassination campaign after a month's lull during Generalissimo Franco's last illness.

Two men armed with submachine guns knocked Monday at the door of the mayor of the village of Oyazun, 12 miles from San Sebastian, the Basque capital. They opened fire on the mayor, a 33-year-old widower named Antonio Echeverria, opened the door. The killers escaped in a waiting car, and the mayor died in a hospital.

Police said the gunmen were members of ETA, the underground movement fighting for independence for the three Basque provinces in northwest Spain. The getaway car was found abandoned in a nearby town, and the police closed the border between the Spanish and French Basque provinces.

### Moynihan To Stay On Job

UNITED NATIONS, N.Y. (AP) — Armed with a White House declaration of support, Daniel Patrick Moynihan says he will stay on the job as the chief U.S. delegate to the United Nations and will continue talking back to critics of the United States.

"I have no plans to leave," the 48-year-old Harvard professor said Monday after a 40-minute talk with President Ford in Washington. Their meeting followed Ford's announcement last week of resigning from the job.

The White House said Moynihan has Ford's complete confidence and both the President and Secretary of State Henry A. Kissinger want him to continue "speaking out candidly and forcefully on major issues."

### Palestinians Shell Christians

BEIRUT, Lebanon (AP) — Palestinians in the Tal Zaatar refugee camp in eastern Beirut lowered the muzzles of their Soviet anti-aircraft guns and shelled the Christian enclave of Ashrafia during the night, police reported.

It was the second time in Lebanon's eight-month-old civil war that the guerrillas have tipped down their big guns and turned them on Christian areas of Beirut. Both times they claimed it was to silence mortar and rocket fire against their huts.

Fighting also raged on the edge of the financial district, in the eastern residential neighborhoods and in the villages of Kfar Shima and Lailaki, south of the city, police said.

### Surinam Gains Independence

PARAMARIBO, Surinam (AP) — Thousands of cheering Surinamese greeted their country's first moments as an independent republic early today with a midnight flag-raising ceremony at Paramaribo's sports stadium.

The program included folk rituals and music by a visiting police band from Barbados.

Premier Henk Arron and included Peking's recognition of the Surinamese government.

### Paratroopers Occupy Bases

LISBOA, Portugal (AP) — Leftist paratroopers occupied three air force bases early today in what appeared to be a concerted left-wing rebellion against moderate leaders of the armed forces.

Unconfirmed reports said militant leftists of a light artillery regiment stationed at Beiratos, in the Lisbon area, had begun handing out arms to civilian leftists.

An air force officer said paratroopers from the Tancos base, 35 miles up the Tagus river from Lisbon, occupied the Monte Real air base 60 miles north of the capital, the Montijo base just across the Tagus from Lisbon and the Monsanto base in Lisbon, which is the air force's regional headquarters and communication center.

### Bureau Probes Coin Firm

REGINA (AP) — An official of the federal consumer affairs department says the department is checking complaints that a Regina firm is slow in filling orders for Olympic coins and medallions.

Consumer consultant Merle Kennedy said Monday that the firm, Western Coin Distributing Ltd., may have been hampered by the nationwide postal strike.

### Soviets Watch Ships Collide

NAPLES, Italy (AP) — A Soviet warship was within camera range when the aircraft carrier John F. Kennedy and the missile cruiser Belknap collided in the Mediterranean, a U.S. Navy source said today.

The Soviet vessel, a destroyer of the Kotlin class, may have photographed the collision last Saturday, the ensigning fire and the entire rescue operation, the source said.

"If I were there, I would have done the same myself," he added.

### Canada Checking Warranties

OTTAWA (AP) — Consumer Affairs Minister Andre Ouellet says his department is looking into secret auto warranties offered by major manufacturers.

Documents revealed several months ago showed that Ford Motor Co. paid for some or all of the costs of repairing certain models which corroded easily.

### AREA DEATH

MRS. SARAH MCKELVEY — Mrs. Sarah E. McKelvey, 90, of Zanesville, Ohio died Nov. 18 in Good Samaritan Medical Center, Zanesville. She was the mother of Allen O. McKelvey of 415 Lake Blvd., Sanford.

Surviving are one daughter, Mrs. Virginia L. McKelvey, and two sons, seven grandchildren and two great-grandchildren.

Burial was at Hillcrest Memorial Park, Bedford Heights, Ohio.

### Government Joins Fight

## Open Drug Prices Sought

WASHINGTON (AP) — The Justice Department has joined a fight to do away with the pharmaceutical profession's ban on advertising prices for prescription drugs.

The department filed suit Monday in U.S. District Court in Grand Rapids, Mich., to force the American Pharmaceutical Association and its Michigan affiliate to abandon a restriction prohibiting member pharmacists from advertising drug prices.

But the issue may be settled first in the U.S. Supreme Court, which is expected to rule soon on a case challenging a Virginia law prohibiting advertising of prescription drug prices.

Or it could be settled by the Federal Trade Commission, which last June proposed regulations overturning all state laws and professional restrictions on such advertising.

The FTC invited public comment on the proposal and has not yet announced a final decision.

The FTC estimated that consumers could save over \$30 million a year through the comparison shopping that advertising would make possible.

An Associated Press survey in 12 cities last April showed that the prices of three often-used prescription drugs vary considerably within a city.

In Chicago, for example, a Darvon prescription sold for \$1.90 at a cut-rate midtown drugstore, \$3 at a drugstore in a low-income area and \$3.90 at a suburban pharmacy.

The government lawsuit alleged that the 50,000-member national pharmacists association and the 3,400-member Michigan State Pharmaceutical Association violate federal antitrust law by including an anti-advertising clause in their code of ethics.

The APA spokesman said members are expected to approve the change in mail balloting now in progress.

In other business, council: — Instructed Mayor James R. Lortman to have signs removed which threaten vehicles parking on the road shoulder of Seminole Boulevard near the Sanford-Orlando Kennel Club will be towed away, removed and replaced by simple "no parking" signs. It was noted the city has no authority to have vehicles towed away.

Sheriff's investigators said today that a 79-year-old Fern Park grandmother whose body was found Monday floating in a water-filled ditch in a field near a south Seminole shopping center died of a heart attack.

Capt. L. J. Kriz said an autopsy today by county medical examiner Dr. G. V. Gary indicated Mrs. Rubie V. Wallis, 79, St. Johns Village, 250 Oxford Road, died of a heart attack.

Investigators said Mrs. Wallis had been missing since Nov. 14.

Kriz said Mrs. Wallis lived alone. Her bifocal and jewelry were found with the body, along with a bag of groceries.

Kriz said detective Carol Jacques and other officers began looking for Mrs. Wallis Friday after her grandson, Todd Freeman of Orlando, reported that she was missing.

Kriz said Mrs. Wallis was last seen alive on Nov. 14 at the K-Mart Shopping Center, Fern Park.

Detective L. M. Ford discovered the body while officers were searching a large grassy field east of the shopping center.

Kriz said investigators believe the elderly woman took

## Optimist Club Honors Youth

During Youth Appreciation Week, the Sanford Optimist Club, under the leadership of President Dale Coppel, presented citations and trophies to outstanding students at Seminole High School.

Awards were separated into categories of leadership, scholastics, athletics and music. Criteria set for selecting recipients was for upholding the dignity of youth, for a sincere devotion to community's welfare and for generous and unselfish contributions to the community.

Leadership awards went to Allison Dupree, first place; Holly Malcolm, second place; Margaret Newman, third place; and Wayne Gager, fourth place.

Chosen for scholastic awards were Kathy Woodruff, first place; Janie Paul, second; and Ellen Brooks, third.

Winners of athletic awards were Willie Calloway, first place; Michael Gao, second and Ned Raines, third.

Honored in the music category were Bryan Harden, first place; Joyce Nathan, second; and Carrie Roland, third.

Youth week chairman was Tom Fay.

## Take Guard Against Butt-In Mom-In-Law

By ABIGAIL VAN BUREN

DEAR ABBY: Can you stand one more mother-in-law letter? I hope so, because that's my problem. My mother-in-law lives quite close to me and is always popping in, which I don't mind because she never stays long. But when she gets home, she phones me, and here is a partial list of her comments and questions:

"Are you sure Albert (he's my husband) is feeling all right? He looks constipated to me."

"I think you are keeping your house too warm. The kids get overheated and might catch cold when they go outside."

"I noticed that your plants are dry. Aren't you watering them regularly?"

"I saw nationally advertised brand canned goods in your cupboard. Why don't you buy the off-brand products? They are just as good and much cheaper."

"Don't you think you should tell Johnny (my son) to turn down his stereo? I read that today's teenagers will wear hearing aids by the time they are 40 because they wear their records so loud they're going deaf."

"Why do you let June (my 17-year-old daughter) wear so much makeup? She looks like a cheapie."

"I've asked my husband to please tell his mother to quit trying to live my life. He says he's tried, but it's hopeless. Have YOU any suggestions? She has already given me ulcers."

ULCERS IN ST. LOUIS DEAR ULCERS: Learn to use her list of comments, compliments and questions. Throw in a few of your own.

Dear Abby

DEAR ABBY: I am a lonely, retired widow, and I am dating a man of the same status. On several occasions he has lost control of his temper and has broken a few things. Also, when he drinks too much, he becomes very loud and insulting. Then, too, he has purposely tried to make me jealous by being overly attentive to other women.

I love this man, but would I be taking a chance on marrying him?

NEEDS COMPANIONSHIP DEAR NEEDS: Yes, a big chance. Only you can decide whether his "companionship" would compensate for his faults. Me? I'd rather be single.

DEAR ABBY: Because I am a faithful reader of your column, three members of my family have become card-carrying kidney donors.

We would now like to know to whom we should write for information about how to donate our eyes after death.

DEAR COLUMBUS, OHIO local Lions Club can help you. So can any eye doctor. And three cheers for all three of you!

# Light, Color Bring Needlepoint To Life

Have you ever been disappointed in a finished piece of embroidery because the colors that looked so delectable as a handful of yarn skeins, didn't do as well on the needlepoint canvas? I think it's because one often forgets that needlepoint is not a flat pattern of unchanging colors. Colors combined with other colors may look different in a new juxtaposition as one color "influences" another. This is illustrated in four panels, identical in subject, which appear in my book, "Creative Canvas Work."

In each panel a simple wild rose with a stem, bud and leaves is worked in shades of coral, pinks, greens and yellow accents. In the first panel the rose, embroidered against a solid white background, has the effect of a water color done on white paper. The same flower, worked against a background of unrelieved black, makes the colors of both flower and leaves appear darker. The deeper greens of the leaves almost disappear into the dark background.

In the third and fourth panels, the shades themselves are counted and stitched above and to the right of the rose instead of below it. Since both natural and artificial light usually come from above, these shadows tend to give a confusing impression. The moral is: always remember to consider the source of light when you want to dramatize a simple needlepoint motif with shadows.

Dear Elisa, Is embroidery or needlepoint interesting experiment embroidery a needlepoint mat around your picture. Use a contrasting band in a textured stitch such as the Parisian. Accomplished needlewoman Ellen Rae Kaufman stitched a white border around a small white border around a small picture of a tomato and leaves. The background of the picture was dark and she achieved an unusual and distinctive effect by stitching one or two of the shades right out over the white border.

W. E. W. I've asked my husband to please tell his mother to quit trying to live my life. He says he's tried, but it's hopeless. Have YOU any suggestions? She has already given me ulcers.

ULCERS IN ST. LOUIS DEAR ULCERS: Learn to use her list of comments, compliments and questions. Throw in a few of your own.

# Seminar Slated For Seniors On Medicare Claim Filing

A Medicare Part B claim filing seminar for Sanford senior citizens to teach them how to file their Part B claims for faster processing will be conducted at 2 p.m., Dec. 2, at the Sanford Civic Center. The presentation is being sponsored jointly by the Sanford Chamber of Commerce and the Bay Area Home Health Service, Inc., Sanford.

Medicare Part B is that part of the federal government's overall Medicare program designed to help pay senior citizens' doctor and medical bills. Representatives from Blue Shield of Florida, Jacksonville, which administers the Part B program for most of Florida, will present the seminar.

The seminar will outline steps the senior citizen himself can take to assure prompt and accurate claim services under the Part B program. Approximately 60,000 claims monthly throughout Florida are being received by the processing centers in Jacksonville which can't be processed because of insufficient information on the claim form. The results are often long delays for Florida's elderly in getting their claim paid while the required information is sought.

Because of Florida's rapid population growth and its popularity as a retirement area, the Part B health care program is expected to reach a statewide volume of 4 1/2 million claims this year. In 1974, Part B claim payments in Seminole County amounted to \$1.1 million for the county's estimated 13,000 senior citizens.

# Shower Honors Susan Swain, Bride-Elect Of John Durham

A bridal shower honoring Susan Swain, bride-elect of John Durham, was hosted by Miss Mabel Chapman and Mrs. Rupert Anza at Miss Chapman's Lake Reservoir home on Nov. 18. Miss Swain will be married Dec. 30 at the First United Methodist Church.

On a table highlighted with pink and white floral centerpieces and lapers, punch was served by Mrs. L.M. Swain, Sr., Mrs. Lee Roberts; Mary Ann Grover; Becca Carman; Dede Boyd; Debbie Pharis; Debbie Shoemaker; Lisa Hollingsworth; Mary McWhorter; Debbie Graham; Sherri Greene; Holly Kurimai; Kim Roberts; Leslie Wiltner; Tracy Wallace; Wendy Williams; Monica J. Howe; Sylvia Smith; Judy Swain; Alison Swain and Lori Swain. Also, Mrs. John G. Dum; Mrs. Lloyd Swain, mother of the bride; Mrs. Naomi Durham, mother of the bride-to-be; Mrs. Mary Joyce Bateman, aunt of the bride; Mrs. A.B. Stevens and Mrs. L.M. Swain, grandmothers of the bride.

Bridal games and a treasure hunt were enjoyed by the honoree and her guests; Misses Jackie and Lisa Greene; Debbie and Linda Wheelchel; Sara Lee Roberts; Mary Ann Grover; Becca Carman; Dede Boyd; Debbie Pharis; Debbie

# Club Notes

## Audubon Society Hears Talks On Birds Of Prey

The Seminole Chapter of the Florida Audubon Society met Nov. 20, on the grounds of Audubon House in Maitland. Mrs. Dora Mager, of the Audubon Society, presided. Mrs. Mager pointed out the distinguishing characteristics of birds of prey, such as heavy, sharp, hooked bill and long, strong curved talons. The hawks, particularly, are great rodent and insect hunters. Mrs. Mager, who nursed them through their injuries, with valuable lesson material as she appears before interested groups of adults and school children.

Miss Eva Hunt, president, announced that Bird Study

# Happy Seniors

The Happy Senior Citizens Club will hold its next regular meeting on Dec. 5, at the American Legion Home 183, Prairie Lake, Fern Park. This will be a Christmas party with covered dish luncheon at 11:30 p.m. for members who should bring their own table service.

Mrs. Rose Ferro is in charge of the entertainment which will follow. There will be a New Year's Eve Party at New Smyrna Beach, Dec. 29 - Jan. 1.

# Good News, Bad On Longevity

Modern medicine has provided near-miracles in extending people's lives, but the blessings are not entirely untroubled. Average life expectancy has increased from 47 years in 1800 to 73.5 today, according to the December Reader's Digest.

That's the good news. The bad: we may be living longer, but we're not necessarily enjoying the extra time. Thirty-eight per cent of our over-65s suffer some kind of chronic condition that limits their activities.

Among topics to be discussed will be fund raising activities and campaign strategy for supporting anti-ERA candidates. Mrs. Edwina Alestra, chairman of NEVER (No Equality Via Equal Rights), will preside. Representatives from various stop-ERA organizations will be in attendance.

# Finally: Bucks Top Poll

By The Associated Press  
Ohio State, which slipped past Michigan on a wing and a prayer 21-14 Saturday, was a near unanimous choice as the nation's top-ranked college football team in this week's Associated Press poll.

The Buckeyes, 11-0, were thoroughly handled by the Wolverines throughout most of Saturday's game and trailed 14-7 in the fourth quarter. But quarterback Cornelius Greene got a hot hand and passed Ohio State into position for the tying TD and then safety Ray Griffin intercepted a pass to set up the winning score.

Tallahassee (AP) — Florida State, which opens its basketball season at home Friday night against Athletics in Action, has its top eight players back from last season and three talented newcomers.

Although the Seminoles will display the same faces, headed by leading scorer Larry Warren, they will have a new look in the 2-3 offense after years in the 1-3-1.

Coach Hugh Durham said he switched to give more maneuvering room to forwards Zach Perkins and Harry Davis so they can take advantage of their speed and quickness.

Although at 6-foot-11 can play the pivot, they are at a disadvantage when they have to go inside against slower 6-9 or 6-10 opponents, Durham said.

He added that the 1-3-1 requires three centers and Florida State has only one true center, 6-9 Greg Grady, who is entering his fourth season of regular play. Grady was the team's second leading scorer last season with a 13.3 average. Warren, who averaged 16 points a game last season, and Perkins, who averaged 11.6, are the only other seniors on the squad.

A trio of speedy juniors — 6-2 Wayne Smalls, 6-foot Eugene Harris and 5-8 Carlton Byrd — who have been at 100 percent each of the past three years, not quite good enough for a postseason tournament invitation, which is the goal toward which an independent must work.

"We're probably the most consistent team in the country, but we're carrying consistency too far," Durham said.

The pattern is certain to be broken this year since the Seminoles will play 27 games.

Coach Hugh Durham says the schedule is not an easy one, pointing to games in the Big Sun Tournament at St. Petersburg, and Far West Classic at Portland, Ore., followed by Western Kentucky, Jacksonville and Memphis State in December and January.

# FSU Adds 1-3-1 Offense

DAVIDSON (AP) — The South Carolina Gamecocks have accepted a bid to play in the Tangerine Bowl Dec. 20 against Miami of Ohio.

The Gamecocks enjoyed their most productive offensive season ever, rolling up 4,746 yards, a school record, and achieving a 7-4 season record.

OHLANDO (AP) — The South Carolina Gamecocks have accepted a bid to play in the Tangerine Bowl Dec. 20 against Miami of Ohio.

The Gamecocks enjoyed their most productive offensive season ever, rolling up 4,746 yards, a school record, and achieving a 7-4 season record.

# Speaking Course Adds Humor

Effective Speaking For Supervisors is a new course being offered by the Adult Occupational Educational Services at Seminole Community College.

Fred E. Ebel, who has won national honors for his humorous industrial speeches, will teach the class. Ebel served as a special correspondent for the Milwaukee Journal, the Electronic Design Magazine, and the Machine Design Journal while employed with Cutler-Hammer Inc., of Milwaukee, Wis. He believes that humor is the surest way for a supervisor or business person to win an audience. He knows that one well-told piece of humor can lift an otherwise so-so speech from the doldrums.

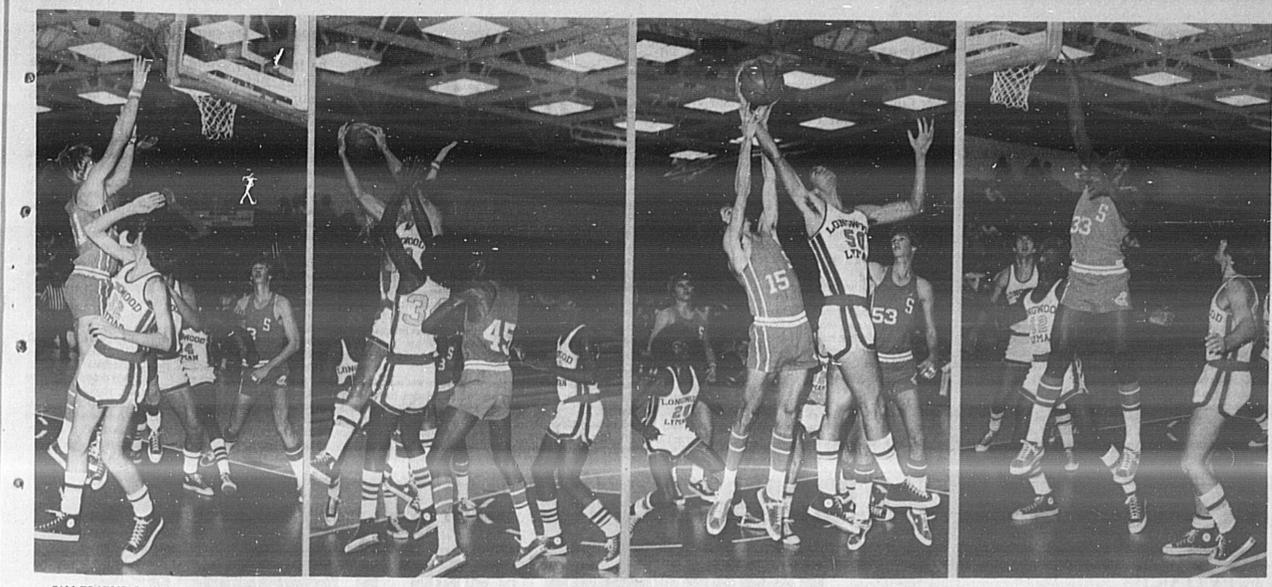

Because humor is such a powerful tool and a need exists to teach effective speaking techniques, one-liners and humorous stories, where to find them, how to create them, how

# Prep Cagers Get Feet Wet

SEMINOLE (AP) — Seminole High School's basketball team is in action tonight at 7 p.m. in the Lyman High School gymnasium.

The team is coached by Coach Hugh Durham. The team is currently 11-0.

The team is currently 11-0.

# Stetson: Smaller, Smarter

DELAND (AP) — Unable to recruit another big man to replace 6-foot-8 Otis Johnson, Stetson basketball Coach Glenn Wilkes knew he had to come up with a new strategy for the 1975-76 season.

His solution: Play smaller and smarter.

But Wilkes admitted that the new game plan represents more of a decision of necessity than one of design.

"We lost three of our top six players, and we will be 'much smaller,'" said Wilkes. "How well we box out on the boards and play smart, forcing our opponents into errors, will play a role in our record."

Returning to lead the Hatters' offense will be Dave Stowers, a 6-foot-7 senior who averaged 16.7 points a game last year from a forward slot. But Stowers will be back at his more familiar center position this season, where Wilkes said he can better utilize his quick moves to the basket.

Also returning from last year's squad will be point guard Suzzey O'Connell, a 5-foot-9 junior, and Paul Morris, the 6-foot-4 hero of last season's victory over Florida State.

New faces on the Stetson team include Pete Nordhorn, a 6-foot-7 reserve last year, and two junior college transfers, 6-foot-5 Curt Forrester and 6-foot-6 Mike Lay.

Wilkes said he's also looking for a good showing from Isaac Coats, a 6-foot-4 forward who comes to Stetson from Miami-Dade South Junior College, where he averaged 29.7 points a game.

Wilkes called the Hatters' seasonal schedule "not as tough or attractive as last year at home, but much tougher on the road."

Stetson will play Rutgers and Jacksonville at home, where the Hatters went 14-0 last year.

The away schedule includes games against Florida State, a 6-foot-7 reserve last year, and two junior college transfers, 6-foot-5 Curt Forrester and 6-foot-6 Mike Lay.

Wilkes said he's also looking

# SCC, I. River Tangle Tonight

Indian River is the defending state champion and would have been a final 16 entry at the national tournament in March at Hatcher, Kan., except that it was upset by a Georgia team in the regional.

What concerns Seminole coach Joe Sterling so much about tonight's game is that Indian River offers such a multitude of options on offense.

"We'll just have to adjust to whatever they throw at us," said Sterling. "The boys have been playing pretty good ball, and if we continue, we should be alright. Of course, Indian River can play tough. I just hope we can keep it close."

# Prep Cagers Get Feet Wet

SEMINOLE (AP) — Seminole High School's basketball team is in action tonight at 7 p.m. in the Lyman High School gymnasium.

The team is coached by Coach Hugh Durham. The team is currently 11-0.

The team is currently 11-0.

# Stetson: Smaller, Smarter

DELAND (AP) — Unable to recruit another big man to replace 6-foot-8 Otis Johnson, Stetson basketball Coach Glenn Wilkes knew he had to come up with a new strategy for the 1975-76 season.

His solution: Play smaller and smarter.

But Wilkes admitted that the new game plan represents more of a decision of necessity than one of design.

"We lost three of our top six players, and we will be 'much smaller,'" said Wilkes. "How well we box out on the boards and play smart, forcing our opponents into errors, will play a role in our record."

Returning to lead the Hatters' offense will be Dave Stowers, a 6-foot-7 senior who averaged 16.7 points a game last year from a forward slot. But Stowers will be back at his more familiar center position this season, where Wilkes said he can better utilize his quick moves to the basket.

Also returning from last year's squad will be point guard Suzzey O'Connell, a 5-foot-9 junior, and Paul Morris, the 6-foot-4 hero of last season's victory over Florida State.

New faces on the Stetson team include Pete Nordhorn, a 6-foot-7 reserve last year, and two junior college transfers, 6-foot-5 Curt Forrester and 6-foot-6 Mike Lay.

Wilkes said he's also looking

# SCC, I. River Tangle Tonight

Indian River is the defending state champion and would have been a final 16 entry at the national tournament in March at Hatcher, Kan., except that it was upset by a Georgia team in the regional.

What concerns Seminole coach Joe Sterling so much about tonight's game is that Indian River offers such a multitude of options on offense.

"We'll just have to adjust to whatever they throw at us," said Sterling. "The boys have been playing pretty good ball, and if we continue, we should be alright. Of course, Indian River can play tough. I just hope we can keep it close."

Indian River is the defending state champion and would have been a final 16 entry at the national tournament in March at Hatcher, Kan., except that it was upset by a Georgia team in the regional.

What concerns Seminole coach Joe Sterling so much about tonight's game is that Indian River offers such a multitude of options on offense.

"We'll just have to adjust to whatever they throw at us," said Sterling. "The boys have been playing pretty good ball, and if we continue, we should be alright. Of course, Indian River can play tough. I just hope we can keep it close."

# T-Bowl Selects South Carolina

OHLANDO (AP) — The South Carolina Gamecocks have accepted a bid to play in the Tangerine Bowl Dec. 20 against Miami of Ohio.

The Gamecocks enjoyed their most productive offensive season ever, rolling up 4,746 yards, a school record, and achieving a 7-4 season record.

# Seminole Eyes Satellite; Playoff Teams Set

While Seminole High School's football team eyes Saturday night's Rotary Bowl, 31 of the state's best teams prepare for this weekend's state playoffs.

Seminole meets Satellite in the Rotary Bowl Friday at 8 p.m. in the Lyman High Stadium.

The Florida High School Activities Association on Monday listed these games among contenders in the four classifications. Unless otherwise specified, the games will be played in the home stadium of the first team listed. All games, except Fort Lauderdale Dillard vs. Key West, 8 p.m. Saturday, will be played at 8 p.m. local time Friday.

# Steelers:

HOUSTON (AP)—The Houston Oilers, sworn to "hold the rope," came unraveled on national television Monday night under the aerial assault of pressure-proof Terry Bradshaw and Pittsburgh's Steve Curtin defense.

Bradshaw flawlessly threaded 10 passes through the porous Houston Oilers defense to lift the Steelers to a 35-7 victory and give Pittsburgh a one-game lead over Cincinnati in the American Football Conference's Central Division.

Coach Chuck Noll was so impressed with his Steelers' handwork that he reorganized them in a 3-3-4 defense, a move he said was "our offense is where it was at the end of last season, moving the ball well and taking the pressure off the defense."

Noll said after Bradshaw whipped the Steelers to two touchdowns in a 1:28 span of the second quarter for a commanding 15-3 halftime lead.

"When you get the protection and the blocking from the offensive line that we did tonight, you're bound to move the ball," Noll said.

Despite the motto of "hold the rope" and 49,847 fans cheering them on, the Oilers wilted under the pinpoint passing of Bradshaw and the undeniable runs of Franco Harris, who gained 148 yards and scored two touchdowns.

The Oilers, who dropped to a 7-3 record and third place in the AFC's Central Division, took a 32-yard lead in the second quarter on a 27-yard field goal by Skip Butler but Bradshaw had the

with four straight completions, the last one 18 yards to Swann for a touchdown and the 15-3 halftime lead.

The Steelers got a safety in the first quarter when Houston quarterback Dan Pastorini was tackled in the end zone after losing the ball from a shotgun formation.

Bradshaw keyed the first two touchdowns runs by Harris with passes of 18 and 10 yards to Lynn Swann in the second quarter. Harris, the first runner to gain 100 yards against Houston's defense this season, returned an interception 11 yards for a touchdown and then hit him for a 27-yard field goal.

Cornerback J. T. Thomas returned an interception 11 yards on Houston's next series and Bradshaw again went to the air

# Namath:

NEW YORK (AP)—Joe Namath is a crowd man. He is loaded. He has people standing in line bidding for his services in television, the movies and public relations.

He has been playing football on match-stick knees with a tired, 38-year-old throwing arm this season, not because he gets \$450,000 a year—the highest salary of any football player in history—but because he thought it would be fun to play with a winner one more year.

The 1975 season has been neither. It hasn't been fun. It hasn't been a winner for the New York Jets. It has been a disaster.

Bradshaw Joe doesn't need to go down with a disaster. So, between today and sometime next

summer, he will suit up with "Jet" President Phil Ilesin. Odds are Joe will retire after the 1975 season. Ilesin can offer him \$450,000 for next year—all of it.

Joe can't afford to commit himself now. The Jets have four more games to play and he wouldn't pull the rug from under his teammates like that. But he does say, "There will be some heavy thinking about it in my part and on management's part before next season."

He adds: "Anything can happen. The Jets provided that promise when they completed the 1974 season with six straight victories and whipped teams such as the Washington Redskins and Minnesota Vikings in preseason exhibitions. But it hasn't been fun since.

The Jets are not only lost games—seven in a row—but they have been humiliated. Most of the blame has to be aimed at the porous defense. But Namath himself has failed to produce the posed, pinpoint passing of other years. In last Sunday's game against St. Louis, he was subjected to the greatest hurt of all—he was yanked in the third period for a sub, J. J. Jones, after hitting only eight of 21 passes.

One New York newspaper headlined: "The Jets Need New Quarterback."

Namath is depressed. He has suffered physically. The biggest pain has been in his right. "I don't want to discuss it," he said of 1975. "I'm thinking of next week."

# SPORTS IN BRIEF

## \$1.5 Million Suit Vs. Barnes Expected Goes To Jury Today

PROVIDENCE, R.I. (AP)—A former Providence College basketball player's \$1.5 million lawsuit pro star and former teammate Marvin Barnes heard a jury today, the sixth day of trial in U.S. District Court.

The defense rested Monday, but counsel for the plaintiff, Lawrence Ketrivitis, had one more witness to call. Closing arguments were expected to follow the judge charged the jury.

Ketrivitis alleged in his suit that Barnes struck him in the face with a tire iron in 1977, several hours after the two players collided during a Providence College practice session.

Barnes, a 6-foot-9 former All-American now with the American Basketball Association's Spirits of St. Louis, contended he struck Ketrivitis with his fist. Barnes said he hit Ketrivitis outside a college cafeteria because he thought the 6-11 teammate was going to strike him.

## ABA In Court, Not On Court

NEW YORK (AP)—The American Basketball Association players' union is going to court—instead of to the court—next Monday.

The players organization and their attorneys are headed for Southern District Court in New York. In front of Judge Robert Carter, where they will present a seven-count case against the National Basketball Association, the NBA club and John Y. Brown, ABA president.

The Players Association, stirred by recent job losses by several of its members because of the folding of the Baltimore and San Diego franchises, and with its Virginia and Utah teams in wobbly financial straits, announced Monday it had filed an application to intervene in a pending suit between the ABA and the NBA.

## Petty Crowned Champion

DAYTONA BEACH (AP)—Richard Petty won an unprecedented sixth Grand National championship despite finishing 18th in Sunday's 500-mile stock car race at Daytona, Calif.

## Solomon In African Finals

JOHANNESBURG, South Africa—Harold Solomon, seeded No. 5, defeated West Germany's Karl Meiler 6-3, 6-4, 6-6 to reach the finals of the South African Open tennis championship against fellow American Brian Gottfried.

**We'll Be Happy To Explain Value and Economy For Your Tire Dollars.**

These days we all like to make sure we're getting the most for our money. That's why we'd like you to know the facts about why we believe the Michelin "X" is the best tire buy.

Every Michelin "X" tire is backed by a 40,000 mile warranty for tread wear on domestic cars. That's just about twice the mileage you'd expect from a conventional tire under the same driving conditions.

Also, because of its radial design the Michelin "X" tire gives you all the distinctive radial tire advantages over conventional bias ply tires: smoother ride, easier handling, better traction and longer road life. And, they add up to a lot of comfort and safety.

Think radial... and look to the leader

Putting the final touches on the 35 foot tall gold Christmas tree in Sanford Plaza parking lot in preparation for Santa's arrival Friday are Herman Heale (left) of HIS Store, vice president of Sanford Plaza Merchants, and Chris Elisea, manager of Penney's and member of the promotion committee. (Herald Photo by Bill Vincent Jr.)

Santa Arriving Friday

The Christmas shopping season will officially open Friday at Sanford Plaza with the 3 p.m. arrival of Santa Claus by fire truck, complete with police escort.

Alternatives Proposed For 'Courtesy Busing'

Four alternatives to costly courtesy busing of pupils who live within a two-mile radius of their school for which no state funds are received.

By JOE ASKERN Herald Staff Writer. Courtesy buses are transportation for pupils who live within a two-mile radius of their school for which no state funds are received.

By BILL CURRIE Herald Managing Editor. Presidential Gerald Ford doesn't stand much of a chance to be the Republican Party's presidential nominee in 1976 if a recent poll conducted by the Florida Federation of Young Republicans (FFYR) is indicative of the thinking of nominating convention delegates.

Attorney Gives Explanation Freeman's Fees Challenged

By ED PRICKETT Herald Staff Writer. Seminole County Commissioners have asked County Attorney Tom Freeman to explain why his law firm has charged the county with 13 hours of legal fees on an appeal that was fought by Mack Cleveland Jr.

Casselberry Complaints Discussed

By ED PRICKETT Herald Staff Writer. On the strength of complaints from County Commissioner John Kimbrough, county officials have met with Casselberry Utility Director John Lane over numerous complaints from citizens from citizens about billing problems.

Schools, Offices Closed

Seminole County's 31,120 public school children and 1,332 teachers will have a four-day Thanksgiving holiday after classes end today.

By BILL CURRIE Herald Managing Editor. Presidential Gerald Ford doesn't stand much of a chance to be the Republican Party's presidential nominee in 1976 if a recent poll conducted by the Florida Federation of Young Republicans (FFYR) is indicative of the thinking of nominating convention delegates.
