Lindberghs End Hop Over Bering Sea On Journey To Japan

Complete 1000-Mile Flight From Safety Harbor At Rate Of 100 Miles An Hour

SEATTLE, Aug. 12. (A.P.)—Colonel and Mrs. Charles Lindbergh, aerial vaudeville artists, today completed the thousand-mile flight across the Bering Sea from Safety Harbor near Nome, leaving American waters with 500 gallons of gasoline in the engine compartment in 10 hours, 48 minutes at an average speed of approximately 100 miles an hour. Part of the trip was made over fog.

Radio messages received by the naval radio station here from Mrs. Lindbergh said the fliers departed from Karagin Island on the eastern coast of Siberia today completing the thousand-mile flight across the Bering Sea from Safety Harbor near Nome, leaving American waters with 500 gallons of gasoline in the engine compartment in 10 hours, 48 minutes at an average speed of approximately 100 miles an hour. Part of the trip was made over fog.

OH YEAH?

As luck would have it, the Feders went over to DeLand and lost the only game played in central Florida circles yesterday. The score was 7 to 1, and the diamond, ball and players were as wet as the Atlantic ocean, mud everywhere, and skies seeming not to want to clear up.

Bobbie Burke, that skinny legged boy who chucked a no-hit, no-run game against the Red Sox last week, found the going rather tough in his start against the White Sox, who knocked him from the hill in the second, continued their assault against three other hurlers, and won a 10 to 8 game from the Senators.

A six run batting rally in the third inning of the Red Sox Browns game proved to be the margin of victory by which the Browns beat the Sox 9 to 6 in a free-hitting game as has been played this year. The Sox got 13, the Browns 16 hits, with Goslin, and Tom Jenkins, a pinch-batter getting homers. Hal Rhyne got four hits for five tries, and the Gooses got three for five. It looked like a Boston victory from the start, but the Browns played back with Wiley Moore in the third drove him off, beat the tar out of Jack Russell, and finished the inning on Morris.

Realizing that only a savage attack against French in the second game of their double header with the Pirates would put them in second place, the Giants combined 10 solid hits for a 6 to 1 victory in that game, and grabbed second place as the Cubs fell before the Philadelphia attack. The first game was a 7 to 5 victory for the Pirates, who scored four runs off Fitzsimmons in the first inning, and managed to go the route although he was touched for a dozen blows. Verges, Fitzsimmons and Grace hit homers in that affair. The second game was won by giant hitting and fielding more than by giant pitching. Clarence Mitchell was on the hill for the Giants, and gave up 10 hits, but fast fielding held 11 Pirates on the neck. Mel Ott hit his 21st homer of the year in the first inning, with one on.

Sparky Adams and Frankie Frisch conspired to bring about Darry Vance's removal from the Card-Robin game, and as a result, the Cards made it three straight, winning by an 8 to 5 score. Sparky got four singles and a double in five tries, while Frisch hit a homer with two on in the third. Loose fielding was against Vance, but he was hit plenty hard before leaving the game in the seventh.

Phil Collins not only pitched, but batted, the Phillies to a 4 to 2 decision over the Cubs in the third game of the series. His single through left field scored the winning run in the seventh, after Mack Wilson's homer with two on and tied the score. Hack was pinch-hitting too, can you imagine?

The Boston Braves tried hard, but couldn't overcome that line which finds them losing ball games every time they play the Reds. Both Gehlbach and Zachary were the victims of defeat yesterday. Gehlbach was shelled from the mound in the first game of a double bill which finally ended in a 17 to 2 verdict for the vicious Reds who got 25 hits, including four doubles, a triple and two homers. Tony Cuccinelli was the big man in the Reds who in that game when he was hit in the knee, including a double and a triple. He ran in the seventh game when the Reds hit for a 2 to 1 win over the Braves. Two were on

SANFORD DROPS GAME TO DELAND IN FIELD OF MUD

Celery Feders Baffled By Pitching Losing By Seven To One Score

By E. H. CULLUM
Playing on a field ankle deep in mud after a hard rain had delayed the game for one hour and 45 minutes, Deland defeated the Celery Feders 7 to 1 yesterday afternoon in DeLand.

McCormick was on the mound for Deland and allowed Sanford only five hits, no two coming in the same inning. Roy Harrison was the only Sanford player that came through with more than one hit, securing two singles out of three times up.

DeLand pulled a triple play in the seventh. Peters hit a grounder to third which he beat out; Harrison singled to right field; Wilkes threw wild to get Harrison, who kept on to second, Peters going to third. Britt hit a high fly to left field which Q. K. Roberts got. Peters started home before the ball was caught, as did Harrison to third. Roberts threw the ball to third to get Peters. Robertson relayed the ball to McCormick, who threw the ball to Buck at second to get Harrison.

Manager Chapman protested the game in the early innings on account of Deland playing Roberts and his k, who, it was alleged, were ineligible under the association rules to play in this game.

Mayor Of Atlanta Suggests Vote On Prohibition Issue

CHATTANOOGA, Tenn., Aug. 14.—(A.P.)—Mayor James L. Key, of Atlanta, in an address before the Chattanooga Rotary club, suggested yesterday that the prohibition question be referred to a popular vote, "not of the country as a whole, but sovereign state by sovereign state."

"Turn the people loose and they would rid the country of this law overnight," Mayor Key said. "The Atlanta mayor said 'prohibition is rank nonsense and the time has come to put an end to it.'"

"The prohibition law is a beautiful piece of legislation," he said, "which in the present situation is corrupting the morals of the people and the government that should be abolished."

3 Florida Golfers Still Remaining In Biltmore Tourney

ASHEVILLE, N. C., Aug. 14.—(A.P.)—It is squarely up to young Joe Adams of Asheville, to keep the Biltmore Forest Country club's annual invitation tournament from becoming an all-Florida affair.

Of the more than 200 players who took off in the qualifying round early this week, only four were left last night and three of these represent clubs in the Peninsula state.

Entering the semi-finals with Adams today are Jack Toomer and Al Ulmer, of Jacksonville, and G. W. Spencer, of Sanford, Fla.

This quartette advanced yesterday at the expense of entries from North Carolina, Tennessee and Florida.

Toomer, whose play has been one of the bright spots of the tournament since he topped the lumber qualifying field to win the medal, eliminated Alan Smith, of Asheville, 1 up.

Toomer and Spencer and Adams and Ulmer won by the same scores.

Finals are scheduled for Saturday.

MEXICO CITY, Aug. 14.—(A.P.)—A dispatch from Tampico said that sixteen villages, averaging 500 in population, have been inundated along the River Panuco by a cloudburst. The loss of life was unknown, but was believed to be great.

Dry Cleaners And Truck Growers To Play Ball Tonight

By E. H. CULLUM
Being under the impression that the diamond would be too wet to play on, the Orlando diamond ball team failed to show up last night for the game scheduled between them and the Seminole Dry Cleaners.

However, a game was staged between two teams made up of players already on the ground, the team being designated as the Cardinals under the management of the writer, the other being known as the Athletics, handled by Mr. Edwards. Both teams were very evenly matched and a good game was played, the Athletics winning out in the last inning, 8 to 7.

The batteries for the Cardinals were Bryan (of Maitland) and W. Kinlaw; Athletics, Stoddard and Schirard.

Tonight the Seminole Dry Cleaners and the Sanford-Oviedo Truck Growers hook up. The batteries for this game will probably be Seminoles, Kinlaw and Schirard; Truck Growers, Hodge and Rutledge.

TWO AIR LINES LINKED
NEW YORK, Aug. 14.—(A.P.)—Pan-American always announced yesterday an agreement with Sparta air lines, in Columbia, South America, whereby the 2,500 miles of Colombian air routes will be linked in operation with the 19,000 miles operated in the United States, Canada, Cuba, Mexico, West Indies, Central and South America, by the Pan-American system.

'BO' MCCLELLAN SLATED TO STAR ON GATOR TEAM

By FRANK S. WRIGHT
GAINESVILLE, Aug. 14.—Unless the signs try misleading, Broward "Bo" McClellan is destined to kick up a lot of football dust for the Florida Gators this fall. A year or so ago Broward shelved his given name, and is known everywhere by the appellation of "Bo", and it may be that his 1931 gridiron antics will recall vividly the days of the old Centre football immortal, "Bo" McClellan.

From the western hills of Florida, young McClellan came to the state university in 1927, and when he won a varsity "F" in football the following year, he was the second athlete from Calhoun county, Florida, to attain sports promi-

ness at the University of Florida. His production among wearers of the football "F" was Captain Everett M. Yen, football and baseball star of nearly two decades ago, and until a relatively short time past, director of athletics at his Alma Mater.

One reason why "Bo" loomed brightly on the football horizon is because he has been tossing footballs all summer with either hand, and says he can flip the pigskin into a barrel with driving momentum at 15 and 20 yards. Such ambidexterous lads are always handy in a football camp, particularly when they pack as much enthusiasm and determination as "Bo". It would be good to see another Crabtree in action this fall, and if the deeds of the "Canonball" can be emulated, "Bo" hopes to be the one to do them. Of all the boys who report to Coach Bachman next month, none will try harder, or possess more sheer aggressiveness, and spirit, than McClellan.

Three high schools look with pride upon McClellan's prowess at the University, Madison, Calhoun county and Lees High. At Calhoun he won letters in four sports, and at Tallahassee in 1927 he received 25 out of 44 votes for all-star quarterback.

Attending a coaching school at the University of Alabama, McClellan almost decided to cast his football fortunes in the "Hoosier" with the Calhoun Tide, but Calhoun Florida and played with the "Gators" in 1927, totaling only 100 yards, considerably less than that of any of his team-mates. Breaking into varsity play as a sub in 1928, McClellan signally his ability on several occasions, notably in the Seawane game when he scored on a 48-yard pass from Cawthon, and in the Washington and Lee game when he directed a last quarter attack that continued the rout of the Generals.

TIRE VALUES versus TIRE DEFINITIONS

WE KNOW that car owners are interested in real TIRE VALUES, but are not particularly interested in tire definitions which manufacturers and distributors of special-brand mail-order tires had the National Better Business Bureau adopt that they could use to their advantage in their advertising.

BIBLE VERSE FOR TODAY

Prayer—Father, help us to start the walk of the day together... The best way to bring back prosperity is to quit thinking about hard times.

And the tax is seven cents a gallon whether it's good gasoline or watered.

She sued him for breach of promise and he wished he'd gone on and made her life miserable.

The Orlando Sentinel suggests "grits and bacon" as Florida's favorite dish.

Governor Carlton urges various county commissioners to cut expenses.

Never give advice. Anyone who is fool enough to think that anyone would take it couldn't give advice worth taking anyway.

The corn crop has been materially reduced, proving, we suppose that prohibition has been a success.

It is getting so the people in England can almost see the ocean at Daytona, as a result of the depression.

Mahatma Gandhi has decided not to visit London for the Indian conference.

We are expecting any minute to hear some nervous individual who has been following the movements of that hurricane heading toward the Florida coast.

All they need in Cuba to put an end to that revolution is a good brewer hurricane to blow down a lot of buildings and give employment to a bunch of idle men.

O. G. MacIntyre says a restaurant operator tells him folks are getting so fastidious in London they insist upon "deodorized onions and double breasted chickens."

The huge sum of \$1,045,000,000 of American capital is invested in the island of Cuba.

Very likely every man in Florida who is out of a job will be running for some office next year.

Hard times must be causing a dearth of suicides in Chicago.

Three-Union points out that a housing house near the stock exchange has at least posted this sign: "Who who desire to appropriate themselves will please turn off their gas when they get through."

The Timesville Star-Advocate says that "Florida is suffering from the land hunger."

The Tampa Tribune explains that the "north degree" is a far more important matter to citizens than the "south degree."

"Alfalfa Bill"

Interesting antics on the part of Oklahoma's demagogic "Alfalfa Bill" governor since last January...

Murray was elected governor of Oklahoma because he lived in a house without a bathtub and, in reality, seldom sensed the importance of bathing at all.

The campaign of 1930 was not "Alfalfa Bill's" first venture into politics. In 1906 he was of such prominence that he was detailed as one of three to write the constitution of the state of Oklahoma.

Murray made two other fights for the gubernatorial honors of his native state. But fortunately for him both times he was defeated.

After his second defeat for governor in 1918 he decided to abandon politics for exploration and colonization.

He made the race for governor on a forty dollar loan, and had to borrow \$250 more for the inauguration.

His battle to make the Texas bridge free to Oklahomans was won by a cannon cracker, and his edict to close 3,016 prorated oil wells, has substantially raised the price of oil, at least in Texas.

"Alfalfa, Cocklebur, Bolivia, Crude Oil Bill" is a picturesque figure in Oklahoma politics.

The reason why the United States Steel Corporation cut its dividends instead of reducing wages is explained by the Christian Science Monitor.

Wages vs. Dividends

The importance of whatever the United States Steel Corporation does is illustrated by the Monitor with a quotation from a Japanese industrial leader.

The details of business policy as unfolded in the Kysant case in London show the anxiety with which corporations build up reserves to maintain dividends in times of adversity.

In connection with the publication of property offered by Lake County and the State of Florida for tax delinquents, it is possible that some readers of this paper are not informed what the process of buying real estate for taxes consists of.

Under provision of the law the owner of property which is delinquent for taxes may pay same at any time prior to the sale or at the sale of same without penalty other than that shown in the advertisement.

CANDLE LIGHT

By Nina Oliver Dean

"I cannot rest from travel. I will drink life to the lees." I saw Mrs. Walter Cooper yesterday just back from Europe and still trailing clouds of glory.

The Coopers spent a day at the Colonial Exposition, and as they rode along in a bus full of Americans down the streets lined with the queer fantastic buildings representing different types of architecture from the farthest corners of the earth.

In Paris, Mrs. Cooper was much interested in the Trocadero, the theater in which anyone can act in street clothes and the cheapest seat costs eleven cents.

A larger and more formal garden visited by Mrs. Cooper was the one at Warwick Castle where the rhododendrons grow to such prodigious size and the peacocks preen themselves upon the terraces.

Mrs. Cooper said that although she found the Italian gardens interesting she missed the color used so generously in the English and Scotch ones.

"What city appealed to you most," I asked in my most professional interviewer's manner, is any?

"Home," answered Mrs. Cooper with a glow of enthusiasm that one felt was genuine.

"What art gallery?" I pursued. "The Vatican," was the prompt answer. Rather consistent. Still true to the Romans!

In Paris, the Coopers stopped at the Hotel de Louvre, and at seven o'clock one morning, Mrs. Cooper looked out of the window to see the Avenue de l'Opera through with people who milled around in the gayest of moods.

THE MENACE OF THE DOLE

NEW YORK HERALD TRIBUNE

No one whose opinion any great proportion of our people really respect can think of the dole with anything but foreboding.

The champions of the dole try to give the impression that if it is not done now, the country will be ruined.

There is no one who can think of the dole with anything but foreboding.

There is no one who can think of the dole with anything but foreboding.

There is no one who can think of the dole with anything but foreboding.

There is no one who can think of the dole with anything but foreboding.

Navy Kids Army As Bombs Fail To Sink Target

(Continued from Page One) Hurley saying the naval pilots would be glad to help the Army men out. Col. Bey Kirtland, commandant of the Army taught the Navy how to bomb ships and that with any sort of visibility the target would be located. The nine bombers, under the command of Maj. Henry A. Dargue, their bomb racks loaded with high explosives, found the vessel a little before noon and set to work upon their task of destruction. Circling overhead they released their 100-pound bombs one at a time, passed on, wheeled and returned for another try. One of the first half dozen projectiles nearly found its mark. It fell into the sea a few feet from the Mount Shasta's prow. Later, the direct hits were made, but the identity of the pilots from whose plane they were dropped could not be learned. A light rain was falling when the fliers left Norfolk but the weather cleared as they made their way to sea. It began raining again, however, while the bombing was in progress and after an hour the attack was discontinued.

Menocal's Capture Is Believed End Of Cuba's Revolution

(Continued From Page One) ficial figures, 50 persons have been killed. Leaders of the so-called intellectual wing of the opposition however, have declared they will not make peace unless President Machado resigns. The party of insurgent leaders was first sighted yesterday afternoon by a member of the crew of the Frigate Albatros near the banks of the River Verde in the extreme western part of Pinar del Rio province. Troops surrounded the insurgents, forcing them to the river banks. According to information reaching Havana, the surrender was effected with resistance. Among those captured were Representatives Miguel Angel Aguilar and Martinez Fraga, long-standing opponents of the Machado policies, and Menocal's son, Dr. Ramon Menocal. Menocal who was president of Cuba from 1912 to 1921, himself led a revolution movement in 1917 about as quickly as the Machado government has moved against the present uprising. Mendota, his chief aide, is a veteran of Cuba's war of independence against Spain in 1898. Reports reaching the navy here said the party of insurgents had been without food for many hours and were worn out from the flight that had led them through the hill and lake region of western Cuba. In accord with President Machado's order that they receive all courtesies they were guests at luncheon with the officers of the gunboat that captured them as soon as they mentioned their hunger. News of the surrender spread rapidly through Havana and excited groups of rebel and government sympathizers gathered on street corners in business and residential districts to talk about it. It was a big night for newsboys selling editions in which details of the capitulation were carried. According to Col. Fernandez Quesvedo, naval chief of staff, for whom the gunboat on which the insurgents are being brought to Havana was named, the other prisoners aboard are: Col. Alfredo Lima, veteran of the war for independence; Eugenio Sardinias, Juan L. Rodriguez, Rodriguez Pinzudo, Alvarez Pazio, Julio Cadenas, owner of the yacht El Hurtado, Saldia Pereda and...

Modern Women

Women Demand Avowals of Love After Marriage As Well as Before

By MARIAN MATS MARTIN "I can't help but be jealous," his universal attraction until his wife brought it to his attention. You see, she prided herself on being up-to-date in every way, and she was a very sensible woman. Like you, Y. B., she believed in being prepared for any and every emergency. So she sat down one night and proceeded to tell her husband that she realized their love couldn't last forever—that she knew the appeal he held for other women would come between them some day—and other foolish things like that. And you know, she got poor Frank so tangled up, he wanted to believe her after a while, even though every time he glanced in the mirror, he should have known better. But seeing himself through her eyes, he began to believe that every woman like her, he should have picked her when there was the whole universe waiting for his call. So, as Florence had impressed him with the fact that jealousy was old fashioned, he didn't even consider that he might be hurting her feelings when he started on a life of gallantry. She had told him that it was foolish to expect love to last for more than a few years, so he thought he was quite justified in his actions. And there was another good home shot to pieces. It's all right to prepare for emergencies, Y. B., but it's unsafe to expect that they're just around the corner. Moreover, don't believe what everyone tells you about love's swift and sure exit. Give it a chance to live and the results might surprise you. Whoever you're on the lookout for something to happen, nine times out of ten, it does. Well, that would be all right if your state of mind didn't affect the present circumstances and bring about the very change you're dreading. This reminds me of Florence. She was in such the same situation you're in, Y. B. That is, she had only been married a little while when she became jealous. Her husband could hardly claim descent from Apollo. He was a little above for my taste. Yet in Florence's eyes he attained the ultimate in manly beauty and perfection. Naturally, she thought every woman was out to get him. Poor Frank was totally unaware of Coral, aboard which the party set sail a week ago to start their rebellion. Only one important insurgent leader remains unaccounted for, naval officials say last night. He is Miguel Mariano Gomez, former mayor of Havana. Reports current here, during the last few days have been that he is hiding in Havana, ready to head the insurgent movement when it came out into the open. NEW YORK, Aug. 13.—(A.P.)—Dr. Domingo Munder Capelo, delegate general of the Cuban rebels, said today the uprising would continue despite the capture and does not depend on successes of chieftains," he said.

Workmen Upon Gas Pipe Line Project Shot From Ambush

WILLIAMSON, W. Va., Aug. 13.—(A.P.)—Workmen on a Columbia Gas & Electric company pipe line project were fired upon from ambush on Beech Creek near Thacker, yesterday. One man, Bernard Hobas, was wounded by three rifle bullets fired from a hillside above. Members of the construction crew estimated 50 shots were fired at them. Theodore Hedrick, assistant superintendent of the pipe line construction company, went in pursuit of the attackers and disappeared. State police and county officers began a search for Hedrick and the party that attacked the men. Officers said they believed the shooting resulted from ill feeling among Beech Creek residents because workmen were brought in to the Beech Creek section from other districts. The pipe line is being constructed to convey gas from the Kentucky fields to a Columbia Gas & Electric plant at Baltimore.

Job Printing

Job Printing

Distinctive Job Printing reflects your own individual business—if it presents a sorry appearance or lacks proper quality so also is your own business reflected. Think it over. The Herald Job Printing Department turns out nothing but distinctive printing . . . we know how . . . we have the equipment (all new); all necessary stocks on which to print and best of all at prices defying any and all competition. This latter statement takes in a lot of territory, we will admit, but call our hand-on that. Just give us a ring and a representative will call at once.

Outlook Shows Bright Poultry Situation

The poultry situation looks bright, according to the summer outlook just issued by the U. S. Department of Agriculture. July 1 the number of hens on farms in the United States was 5 percent less than a year ago; the number of young chickens was 10 percent less. Cold storage stocks of poultry were about 40 percent less than the same date a year ago, and 25 percent less than the average for the last five years. Fresh egg stocks were 2 percent below the 1929 mark, but above the five-year average; the quantity was stored has increased rapidly during recent years.

Professor W. A. Thomas of the North Carolina Department of Agriculture Speaks Monday Night

John C. Crickler, Secretary of the Florida Poultry Association, was the subject for discussion on Monday evening at the Gainesville meeting of the Florida Citrus Growers Association. Professor W. A. Thomas will be the speaker for the discussion on the possibility of mole cricket control in Seminoles county.

OVIDEO NEWS

By Mrs. S. R. Wabnitz.

William Brasser of Jacksonville enjoyed a very delightful visit with his friend George Crawford of Titusville, during his recent vacation at St. College Cantonville, Baltimore, Md., with his mother, Mrs. K. Crawford and grandmother, Mrs. M. K. King in Ovidio.

Mr. Brasser and his family will spend two or three weeks at Ovidio. He is accompanied by his wife and two children. They are staying at the Ovidio Hotel.
