TUESDAY, FEBRUARY 16, 1932

SINGLE VERSE FOR TODAY

THE SUPREME RULER:—Exult ye, O Lord our God, and worship at his footstool; for he is holy.—Psalm 99:5.

IN PRAISE OF STONES

Stones shall live longest,
Which lie still,
And never are tired
Of standing still.

But, since they have no feet to travel,
Held their ground till they wear to gravel.

They have no hunger,
Being mouthless;
They know no languor,
Being growthless.

No increment of waxing older
Can raise a pebble to a boulder;
But, to increase
Lacking desire,
They know no waste
Of vital fire.

And, peaceful dying
In slow attrition,
Have story, offspring by division.

The wind at last
Shall hush its hum;

Stones shall live longest,
Being dumb.

When the world
Lies quenchless and strifeless
Stones shall live longest
Being
Littlers.

Marie Elsworth.

It is only natural that aviators should look down on pay cuts.

If Shanghai is the Belgium of the World War, who's going to be England?

If this weather continues, Sanford farmers will have to take the sell-out of celery.

People no longer take life as seriously as they used to, but they take it more often.

"Dry-rot," a drunk explained to us the other day, is Anti-Saloon League propaganda.

It's going to be a long hard summer for some of these candidates who are running for office.

An income tax specialist is in Sanford to help folks with their income taxes. A sort of vacation as it were.

The back to nature movement on some of our beaches this winter is suffering from heat prostration.

It may be necessary before this time is over for the Democrats to nominate Will Rogers in order to win the election.

The fight between Roosevelt and Smith is a farce, those who are very careful about politics are saying.

These Henry announces that he is coming out with a new book, as a part of President Hoover's campaign to stop hoarding.

Constitution seems to feel that a little use in balancing the budget by the time they get it passed, it won't cut in another year.

The United States and France are more than three quarters of the way to the world. They are the example in this anti-hoarding movement.

From the list of federal construction in Florida, it is in every town in the state. There is no kind of new building in Sanford. When the building is done, Sanford is a better place than it is now.

The Skeleton In The Closet

Jean Valjean lived again. It was disclosed recently, when Lamont Signor of Pine Hill, New Jersey, a distinguished and reputable citizen, was discovered to be an escaped convict.

In 1916 Signor was living in Akron, Ohio, when one day, under the press of circumstances, he stole a suitcase in a railroad station. For this crime he was later convicted and sentenced to seven years in prison.

After serving a few months at an Ohio prison farm, he made his escape and moved to Pine Hill, New Jersey. There he began life over, and determined to atone for his previous mistakes.

When the war broke out he enlisted, and served over seas. For valor in action he was awarded a Distinguished Service Medal.

Returning to Pine Hill after the Armistice he engaged in the paper hanging business and established a widely recognized reputation for honesty and square dealing.

Then one day he decided to go into politics. His friends urged him to run for the Pine Hill School Board. Bitterly opposed by a reactionary element, the campaign waxed warm.

Another candidate for the same office began to probe among the records. At the crest of the campaign he revealed his discoveries.

Lamont Signor, candidate for election to the School Board, was an escaped convict, under sentence for grand larceny.

Signor was disgraced. He immediately withdrew his candidacy. The skeleton rattled too loudly in his closet to be ignored.

Then his friends got busy. They appealed to Gov. White of Ohio. A petition of over two thousand names was presented. In recognition of his war record, and his years as a worthy citizen of Pine Hill, he was granted a pardon.

His friends are said to be planning to write his name in on the ballot when election day arrives. But whether he is elected to the school board or not, we dare say his conscience will rest more easily now that the skeleton has been removed.

Russia Not Ready Yet

With a highly trained army variously estimated at between 800,000 and a million men, equipped with every kind of modern fighting equipment, with a system of reserves that would provide an additional five million partly trained soldiers, with an air force that ranks with the best, and with its citizens suffering from war psychosis which ever keeps the country susceptible to combat, Russia is surprising the rest of the world by its attitude in the Far East crisis.

Why do the Soviets stand by placidly and watch their interests in Manchuria being jeopardized by Japanese aggression? Why have they, as has been reported, made a treaty with the Tokyo government to allow it a free hand in Manchuria? Why do they not dispatch their trained troops to the scene of action and give them some real seasoning in a campaign against the forces of the Mikado with the result, if victorious, of establishing prestige abroad and promoting patriotism at home?

The answer is not because of any weakness in the army but because of the inadequacy of its industrial system. Russia, despite its great progress as a result of the five-year plan, is still an infant, industrially, it lacks efficiency in its factories and there are not enough of them. Its railroads are so poorly run that even in peace times certain sections suffer starvation because the transportation agencies cannot properly distribute food supplies.

A modern war to be a success must have efficient factories, must have adequate railroads, in short, must be industrially well organized. Wars today are not won by man power but by machines. And Russia with an abundance of man power realizes this, realizes that she must wait until her railroads cover the nation in a network and run on time, until her factories can turn out rifles, guns, gas masks, and airplanes in enormous quantity and with dispatch. Then she will be ready, if she is still so inclined, to show her power.

It may be against Japan, it may be against Poland or Germany, but more than likely, as Soviet leaders have hinted, against the rest of the world, capitalism versus communism.

SANFORD, TWENTY YEARS AGO

The young people enjoyed a very delightful dance in the hall several nights ago. Music was furnished by the Imperial orchestra. Those participating in the pleasure of the evening were: Misses Margaret Davis, Essie Purdon, Helen Rowland, Clarissa Starling, Charlotte Hand, Lillian Higgins, Linda Connelly, Renie Merrill, Sidie Glade, Martha Miller, Kate Underwood, Irene Thurston, Hoskins Jones, Louise Shepherd, Douglas Abernathy, Gladys Morris and Ernest Bettit, Karl Roumillat, Ralph E. Wight, George McLaughlin, Frank Shelley, Paul Jones, Frank Woodruff, Harold Long, Paul Pugh, Volle Williams, Hugh Tillis, Henry Purdon, Bob Taylor, and Pepe Wicker. Chaperones were: Mr. and Mrs. R. L. Peck, Mrs. Purdon and Mrs. Parrish.

The Sanford Traction Company has been enabled to start the regular schedule and the car recently repaired and painted is making regular trips to Cameron City and return. The engine was overhauled and the entire car cleaned and painted and is better than ever. It is rumored that one of the General Electric cars will be purchased to take the place of that recently burned. This car will cost 100 people and will prove a valuable adjunct to the service.

It seems that Sanford is full of timber for legislative honors and today George Fox, Jr., announced his candidacy for Legislature. Mr. Fox is well known in this section, having been here at Lake Chautauque, Ovid, and spent his early years in this city.

It's all right to talk about the good old days until someone points out that stocks and bonds are down to their 1921 level.

As one inmate psychiatrist said to another, Hank, I had no dreams. I was sane, and sane.

The following names were taken from the Democrat, of Hastings, Minn.: "Theodore Schaal and family left yesterday morning for Sanford, Fla., to take up residence, accompanied by the best wishes of their Hastings friends for success and happiness in their new home. Mr. Schaal has been engaged in the jewelry business here during the past 10 years and will doubtless continue in Sanford. Mr. Schaal is ex-mayor of Hastings and he and his wife are regarded highly by their friends. Osborn Herndon and Kenneth Murrell returned to their homes here from the University of Florida to enjoy the pleasures of the Field Day celebration. Fred Hausholder, of Plant City, is the guest of his brother, Dr. Hausholder, and family, this week.

Striking Pilots Being Replaced By Other Fliers

CHICAGO, Feb. 16.—(A.P.)—While the 23 former pilots of the Century Air Lines continued their passive resistance strike, officials of the company yesterday announced the required quota of fliers was nearly filled and expected to resume normal operations soon.

The former pilots, members of a recently formed union, say they were locked out Tuesday morning when they refused to take a 40 percent wage reduction.

The company has maintained service on the Chicago-St. Louis leg of its lines on a reduced scale. Saturday, partial service was resumed from Chicago to Detroit. So far the Chicago-Cleveland leg has been idle.

Officials yesterday said they had far more applicants for the vacated positions than they could use. A special force of department of commerce inspectors has been busy at the municipal airport the past few days examining applicants while the new pilots were acquainting themselves with the rules of the airport.

Spokesmen for the former pilots declared they doubted the company would be able to hire sufficient trained men for some time.

Aerial picketing has been resorted to by the former Century fliers. As Century planes, piloted by new pilots, arrive and leave the airport they are accompanied for a short distance by a plane on which is a banner inscribed "Century is unfair to pilots."

Restrictions Lifted On California Fruit

TALLAHASSEE, Feb. 16.—(A.P.)—The State Plant Board today directed Plant Commissioner Wilmon Newell to take immediate steps to allow the shipment of California lemons and oranges into Florida under certain restrictions.

The movement of California citrus into Florida heretofore was prohibited altogether, Newell said. The ban was a protective measure against the brown rot disease. However, in view of the marked progress in recent years in controlling the disease and improved conditions of sanitation in California packing houses, the ban has been partially lifted.

Permits will be issued for admitting fruit in carload lots but all shipments will be inspected by California officials. Oranges will be sent only from May 1 to Oct. 1 and lemons all year.

BURIED IN AVALANCHE

KELLOGG, Idaho, Feb. 16.—(A.P.)—Scores of men tunneled into a giant snowdrift yesterday hoping to rescue two miners buried in an avalanche. Carl Anderson and Henry Lund, living on property of the Silver Dale Mining company, were overwhelmed by a slide which toppled over a bluff Saturday night and hit their little cabin.

Shanghai Is Shaken By Bombardment Of Japs' Artillery

(Continued from Page One)

were put in the line, and the infantrymen strengthened their secondary defenses. Extra supplies of ammunition were issued to machine gun detachments.

At the same time approximately 10,000 men of the foreign garrison—including the Americans, British and French—improved the defenses they have raised around the International Settlement and the French concession.

Indications that the United States authorities feared disorders in other parts of China were seen in an announcement that Americans living along the lower Yangtze valley had been advised to evacuate. Other foreigners also were reported to be getting out of the interior.

The American consulate said it had advised evacuation of interior cities of China within 100 miles of Shanghai. The 100 United States citizens living in Soochow were told it would be better to move, and about 85 Americans living in Wush, Changchow, Kiangyin and Changchu received the same advice. These persons were informed they would be safer within the Shanghai International Settlement.

The Japanese consul general apologized to United States Consul General Edwin S. Cunningham for an attack last week on Arthur Ringwalt, American vice consul, and Mrs. L. Young, an American citizen.

Mrs. Young, a Chinese woman born in Los Angeles, and Mr. Ringwalt, whose home is in Omaha, Neb., were set upon by a mob of Japanese when they entered the Hongkew section to get Mrs. Young's baby from a family of her kindfolk.

The Japanese consul general assured Mr. Cunningham that the attackers would be punished and promised that in the future authorized foreigners would be permitted in the Hongkew district without molestation.

The deluge of incoming Japanese troops during the last few days has provided a menacing spectacle for the Chinese residents of Shanghai. Thousands of Chinese have lined the streets, staring in awe-struck bewilderment as unit after unit marched off the troopships. The streets have been well protected by Japanese sentries who saw to it that order was reserved in the crowds.

Numerous Red Cross and hospital units and machine gun companies have been unloading. There also were eight heavy field guns, each drawn by six horses.

In the expectation the Japanese would concentrate their efforts in the vicinity of Kiangwan, to the north of Shanghai, the Chinese assigned most of their new troops to this area.

The American, French and British ministers to China postponed their return to Nanking—a development interpreted as meaning they had not abandoned all hope of peaceful settlement.

Giving a Girl a Ring

—thrills her to pieces, but Mister—you should see the Big Kick your car would get out of a whole New Set of Spark Plugs.

When your motor's sluggish, lacks power and pick-up, it probably needs new Spark Plugs. We've made many a "gas-eater" and "oil-burner" into a peppery, powerful, zippy motor by installing new plugs. Why not see us at once? We will test your plugs FREE.

Plans Are Being Laid For Tree Planting

Announcement was made yesterday by the American Legion Auxiliary that all those wishing to cooperate in the tree planting to take place on Feb. 22 may communicate with Mrs. J. H. Hintermiller or Mrs. Morris Spencer, of the American Legion Auxiliary.

A meeting, which will be open to anyone interested in tree planting will be held tonight at 7:30 o'clock at the home of Mrs. J. H. Hintermiller, San Lane.

In order to encourage tree planting as a way of celebrating the George Washington Bi-Centennial, Governor Doyle E. Carlton has issued the following proclamation:

Whereas, Feb. 22, 1932, will mark the two-hundredth anniversary of the birth of George Washington; and

Whereas, Washington is commonly planted trees at Mt. Vernon, but was so imbued with an appreciation of their benefits that he distributed seedlings among his friends; and

Whereas, These trees, gracing earth with their shade and beauty, have been changeless and unfading friends to the multitudes who have walked and ridden beneath their spreading crowns and have served as living monuments to the generous and kind Father of Our Country; and

Whereas, It would be most fitting for the people of the State of Florida to show their love and devotion to Washington by planting trees in his memory and thereby carry on the tree-planting practice begun by him;

Now, Therefore, I, Doyle E. Carlton, Governor of the State of Florida, do hereby designate and proclaim Nov. 14, 1931, as Commemorative Day, which inaugurates the season for the planting of George Washington Bi-Centennial Memorial trees, as season ending Feb. 29, 1932.

Commemorative Day is designated in order that all individuals and organizations may make fitting arrangements for the planting of trees to commemorate the birth of George Washington. During the season that follows, I urge the civic, patriotic, women's juvenile and all other organizations to cooperate with the American Tree Association and the Florida Forestry Service in planting George Washington Bi-Centennial Memorial trees to beautify roads and grounds; and I also recommend to landowners that they restock at least some of their idle forest lands by establishing commercial tree plantations. I particularly urge the school teachers to lead their boys and girls in beautifying the school grounds by planting trees and in teaching lessons in forest conservation.

The cooperation thus extended in tree planting, not only will preserve the memory of a great man and enhance the native beauty of Florida, but will also safeguard a natural resource essential to the industrial prosperity of our people. Given under my hand and the Seal of the Commonwealth of Florida, this seventeenth day of October, in the year of Our Lord, nineteen hundred and thirty-one.

DOYLE E. CARLTON,
Governor.
R. A. GRAY,
Secretary of State.

CHRISTIAN SCIENCE CHURCHES

"Soul" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday February 14.

The Golden Text was from Lamentations 3:25, 26, "The Lord is good unto them that wait for him, to the soul that seeketh him. It is good that a man should both hope and quietly wait for the salvation of the Lord."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "My soul, wait thou only upon God; for my expectation is from him. In God is my salvation and my glory; the rock of my strength, and my refuge, is in God" (Psalms 62:5, 7).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "We cannot deny that Life is self-sustained, and we should never deny the everlasting harmony of Soul, simply because, to the mortal senses, there is seeming discord. It is our ignorance of God, the divine Principle, which produces apparent discord, and the right understanding of Him restores harmony" (p. 290).

JACKSONVILLE — Market Basket Groceries opened for business at Northwest corner of State and Julia Streets.

Personals

Mr. and Mrs. T. H. Eckerson left Sunday for Hackensack, N. J., where they will spend a week.

Mrs. Lulu Clay, of Jacksonville, was here for the week-end with her sister, Mrs. Frank L. Miller, Palmetto Avenue.

Mr. and Mrs. Louis Rietter, of Melbourne, were the guests Sunday of the latter's parents, Mr. and Mrs. W. R. Edenfield.

Mrs. W. R. Edenfield left Sunday for Melbourne to spend a short time there with her daughter, Mrs. Louis Rietter.

Mr. and Mrs. C. M. Boyd and children, who have been residing at Indian Mound Village, have moved to 601 Magnolia Avenue.

Mr. and Mrs. J. C. Mitchell and guests, Mr. and Mrs. J. H. Stewart, of Yatesville, Ga., motored to New Smyrna Sunday for the day.

Mr. and Mrs. John Register, of Jacksonville, were the week-end guests of Mr. and Mrs. James P. Ridge at their home on Elliott Avenue, Mayfair.

Mr. and Mrs. J. S. Dinkle and Miss Olive Dinkle arrived here yesterday from Orlando to make their home. They are residing on Laurel Avenue.

Mrs. Henry Wight, Mrs. Ralph B. Wight and Mrs. Walter S. Coleman motored to Williston today where they will spend the day with Mrs. Lucius McLeod.

Mr. and Mrs. J. C. Hutchison and family, who have been residing on Magnolia Avenue, have moved to their home at Indian Mound Village.

Mrs. Phil Moore, of Chester, Nova Scotia, arrived today to spend a short time here as the guest of Mr. and Mrs. John L. Galloway, at their home in Mayfair.

Mr. and Mrs. D. Hillman, of Orlando, entertained a few friends with a dance recently in honor of Mrs. Hillman's sister-in-law, Mrs. M. H. Block, of Oklahoma, who is visiting her parents here.

Mr. and Mrs. J. K. Mettinger, of Jacksonville, are here for a short time visiting their daughter, Mrs. Walter L. Morgan, 230 West Eighteenth Street. Mr. Mettinger is confined to his room with a slight illness.

Mr. and Mrs. A. S. Peterson, of Prince Albert, Sask., Canada, arrived Sunday to spend some time here as the guests of Mr. and Mrs. E. Compton, 221 West Nineteenth Street.

The many friends here of Miss Shirley Donnell and Shelby G. Gaskin, both of Orlando, will be interested to learn that their engagement was announced Sunday. The marriage will take place the latter part of March.

Mr. and Mrs. J. C. Ellsworth had as their guests Sunday at their home on Beardsall Avenue, Mr. and Mrs. C. C. Briggs and guests, Mr. and Mrs. Walter Briggs, of Kalamazoo, Mich.

Mr. and Mrs. H. B. Odham have as their guests for several days at their home, 2404 Park Avenue, Mrs. J. W. Wilson and two daughters, Mary Caroline and Joan, of Radburn, N. J., and Mr. and Mrs. L. D. Odham, of Brunswick, Ga.

Philip Bach, of Flushing, L. I., A. R. Fisher, of Freshford, N. J., and Robert L. M. Ast, of Bloomfield, N. J., left today for points on the East Coast and the southern part of the state to spend a short time.

Mrs. Horace Edward Walker and daughter, Nancy Mae, of Danville, Va., arrived yesterday to spend some time here with the former's parents, Mr. and Mrs. H. J. Holly, at their home on Oak Avenue. She was accompanied by Mr. and Mrs. Ross F. Walker, of Akron, Ohio, who are at Deland and will tour the state from there.

CUBA REMEMBERS MAINE

HAVANA, Feb. 16. (A.P.)—Cuba remembered the Maine yesterday at memorial services attended by President Machado, United States Ambassador Guggenheim, and other notable. The ceremony was held at the base of the monument raised in memory of the men who lost their lives when the battleship was sunk in Havana harbor 34 years ago yesterday.

HYDE IS OPPOSED TO OWEN BILL ON FRUIT FLY LOSS

Measure Is Seeking To Have Federal Board Determine Losses

WASHINGTON, Feb. 16. — (A.P.)—Secretary Hyde is opposed to the Owen bill for a survey of losses suffered by Florida farmers in the eradication of the Mediterranean fruit fly but Chairman Jones of the agriculture committee said yesterday that by no means meant the measure was dead.

The legislation as introduced by Representative Ruth Bryan Owen (D. Fla.), would, among other things, authorize the establishment of a federal board to ascertain actual losses suffered by the destruction of citrus trees and vegetable crops to the pest. A similar measure is sponsored by Senator Trammell (D. Fla.).

"We have promised Mrs. Owen a hearing on her bill," Jones said. "The report from the Secretary of Agriculture will not prevent those hearings. Of course, I don't know what effect the general economy drive will have on the prospects of the bill."

Secretary Hyde objected to the measure on the ground that creating a federal board to make the survey would imply the federal government alone was responsible for the losses.

The State of Florida, he wrote the agricultural committee, is equally liable. At the same time he insisted the measure should differentiate between tangible and intangible and direct and indirect losses.

HOWEY IN THE HILLS, Feb. 16.—The following pointed letter from Representative Ruth Bryan Owen was sent to the Hon. W. L. Howe, putting squarely upon him the responsibility of getting the cooperation of the Republicans in the cabinet and in Congress in the matter of the fruit fly removal.

"On the formation of your cabinet, I offered you my entire cooperation in your independent effort which you proposed to make on behalf of reimbursement, and when you came to Washington with your committee, I accepted without amendment the form of bill which you suggested for introduction."

"Under these circumstances, I feel justified in putting up to you personally the responsibility of securing the approval of Secretary Hyde, which is the first step to ward favorable action."

"Very sincerely yours,"
RUTH BRYAN OWEN.

Jointly by Senator Trammell and myself at the instance of your committee.

"I will recall that my own bill, H. R. 1006, introduced in the last session, 'providing for a survey of the loss sustained by Florida farmers and fruit growers in the Mediterranean fruit fly eradication campaign,' was approved by Secretary Hyde and by the Agricultural Committee of the House, and that Honorable Will Wood, Chairman of the Appropriations Committee of the House, approved it as being, in his judgment, the form of bill which was most likely to pass Congress."

"While this bill was receiving the foregoing favorable consideration and should have had the unanimous backing of the people of Florida in order to secure its passage before the close of the session, the formation of your committee to make a Florida survey raised a strong doubt in the public mind about the feasibility of a federal survey. I received many letters suggesting that I should delay action on my survey bill in view of the fact that this form of bill was the only one which had any likelihood of enactment."

"Whether or not the lack of unanimity in Florida support can be held responsible, the fact remains that my measure, which I believed and still believe, best calculated to aid Florida growers, was defeated by Republican opposition in the House, the specific objection being made by Representative Snow of Maine."

"On the formation of your cabinet, I offered you my entire cooperation in your independent effort which you proposed to make on behalf of reimbursement, and when you came to Washington with your committee, I accepted without amendment the form of bill which you suggested for introduction."

"Under these circumstances, I feel justified in putting up to you personally the responsibility of securing the approval of Secretary Hyde, which is the first step to ward favorable action."

"Very sincerely yours,"
RUTH BRYAN OWEN.

Jointly by Senator Trammell and myself at the instance of your committee.

"I will recall that my own bill, H. R. 1006, introduced in the last session, 'providing for a survey of the loss sustained by Florida farmers and fruit growers in the Mediterranean fruit fly eradication campaign,' was approved by Secretary Hyde and by the Agricultural Committee of the House, and that Honorable Will Wood, Chairman of the Appropriations Committee of the House, approved it as being, in his judgment, the form of bill which was most likely to pass Congress."

"While this bill was receiving the foregoing favorable consideration and should have had the unanimous backing of the people of Florida in order to secure its passage before the close of the session, the formation of your committee to make a Florida survey raised a strong doubt in the public mind about the feasibility of a federal survey. I received many letters suggesting that I should delay action on my survey bill in view of the fact that this form of bill was the only one which had any likelihood of enactment."

"Whether or not the lack of unanimity in Florida support can be held responsible, the fact remains that my measure, which I believed and still believe, best calculated to aid Florida growers, was defeated by Republican opposition in the House, the specific objection being made by Representative Snow of Maine."

"On the formation of your cabinet, I offered you my entire cooperation in your independent effort which you proposed to make on behalf of reimbursement, and when you came to Washington with your committee, I accepted without amendment the form of bill which you suggested for introduction."

"Under these circumstances, I feel justified in putting up to you personally the responsibility of securing the approval of Secretary Hyde, which is the first step to ward favorable action."

"Very sincerely yours,"
RUTH BRYAN OWEN.

Jointly by Senator Trammell and myself at the instance of your committee.

"I will recall that my own bill, H. R. 1006, introduced in the last session, 'providing for a survey of the loss sustained by Florida farmers and fruit growers in the Mediterranean fruit fly eradication campaign,' was approved by Secretary Hyde and by the Agricultural Committee of the House, and that Honorable Will Wood, Chairman of the Appropriations Committee of the House, approved it as being, in his judgment, the form of bill which was most likely to pass Congress."
