

TEMPLE GIRLS CLUB READY BY SEPT. 30

Meeting of Stockholders Last Night for Organization

HOME FOR GIRLS

WILL BE GREATEST MOVE EVER STARTED IN SANFORD—HOME FOR THE BOYS NEXT

The Temple Institutions, Inc., had a meeting of the stockholders last night at the office of Judge Schelle Maines for the purpose of organization and election of officers and taking up the many matters of importance that confront the institution on the eve of the opening of the Temple Girls Club.

The Temple Institutions, Inc., have undertaken one of the noblest and grandest works ever attempted in Sanford—that of building a home for the women at the corner of Park avenue and Third street, the building being now almost completed and building a home for the boys on Magnolia avenue that will be started as soon as the girls club is finished.

Dr. George Hyman, the presiding genius of this great plan recently returned from the Northfield Conference filled with a great vision of work along this line, presided at the meeting and it was decided to open the Temple Girls Club on September 30th at which time the public will be invited to inspect the home and refreshments will be served. The Stevens home was recently purchased by the incorporation and has been entirely remodeled for the Girls Club and the work is being pushed to completion in order to be ready for the teachers who want rooms as soon as school opens.

The dining room will be open to the public and anyone desiring meals will be served but the rooms will be open to women only as the object of the Temple Girls Club is to furnish home-like accommodations to the girls who are making their living here and who have not in the past been able to get this service in Sanford. Moulded along the lines of the Y. W. C. A. in the big cities and fostered by the Baptist Temple and the pastor, Dr. Hyman, the Girls' Club and the Boys' Club will be non-sectarian and the stockholders are men of all denominations—men who have the interests of the girls and boys at heart and have invested their money with the object of getting dividends in the good work accomplished more than in dollars and cents.

Lack of space today forbids giving a detailed statement of this great work and this article is penned only as a news item and to let the public know that the Temple Girls' Club will soon be ready for occupancy. Any of them desiring rooms and board or table board can get the rates by addressing the Temple Girls' Club as the home will be all ready for occupancy by September 30th.

SEARCHING THE RUINS FOR BODIES

OF THOSE WHO PERISHED IN HOTEL FIRE AT MACON

(By The Associated Press) MACON, Aug. 23.—City and county convicts today began digging into the ruins of the Brown House here where it is believed at least twelve persons lost their lives in the fire that destroyed the building early yesterday. The ruins had cooled considerably and the search was proceeding so rapidly that it is believed by late today the exact life toll will be determined. At the hospital where eight injured persons were being treated it was said today that all will recover. The list of known dead still stood at four at 10 o'clock this morning.

Expediting the Ocean Mails at New York

Under the eyes of Postmaster General Hays, Postmaster E. M. Morgan of New York, and other high officials, a new method of transferring ocean mails at New York was put into operation. The plan expedites foreign and coastwise mails from 24 to 36 hours. In the past such mails have been held up until the passengers had been landed, frequently meaning delay of a day or more. Under the new system the New York Central railroad will operate special mail boats to which the mails will be delivered as soon as the vessels arrive at quarantine. The mail boats will rush the matter to the New York post office and to outgoing trains.

FINAL INSTRUCTIONS RECEIVED ON GERMAN PEACE TREATY AND AWAITS SIGNATURE

By German Government in the New Few Days

(By The Associated Press) BERLIN, Aug. 23.—Final instruction relative to the peace treaty between the United States and Germany were received from Secretary of State Hughes by Ellis Drexel, United States Commissioner here, and the treaty now awaits the signature by the German government. It is expected the document will be signed within the next few days at a special meeting of the cabinet which will be attended by President Ebert.

St. Augustine Woman Loses Bunch of Jewels at Jacksonville Hotel

(By The Associated Press) JACKSONVILLE, Aug. 23.—Mrs. L. C. Voegle, of St. Augustine, reported to the police today the theft of several thousand dollars worth of jewelry from her room in a local hotel some time last night. The missing articles included two diamond rings and several diamond set pins, brooches and laveller.

LAKELAND DOCTOR DIES SUDDENLY.

LAKELAND, Aug. 23.—Dr. G. F. Theel, eighty-two years old, well-known physician here and Philadelphia, died suddenly at his home last night from heart failure. Dr. Theel was prominent in Masonic circles of Philadelphia, where he practised his profession for fifty-two years before coming to Lakeland four years ago. He served two terms as mayor of Ambler, Pa., a suburb of Philadelphia.

RAILROADS NOT SATISFIED WITH DECISIONS

OF COMMERCE COMMISSION REGARDING RATES ON FRUITS AND VEGETABLES

(By The Associated Press) WASHINGTON, Aug. 23.—Railroads of Florida filed a petition with the Interstate Commerce Commission today asking for a rehearing of the case in which the commission held certain rates and charges on fruits and vegetables under refrigeration from that state were unreasonable.

SHIPPING BOARD DEFICIENCY BILL PASSES SENATE

Carries Appropriation of 48 Millions and No Restrictions

(By The Associated Press) WASHINGTON, Aug. 23.—The Shipping Board deficiency appropriation bill carrying forty-eight million, five hundred thousand dollars for the use by the board this year and with the elimination of all restrictions as to what salaries might be paid officers and counsel, was passed today by the senate.

Another Race Riot Started in Indiana, Same Old Story

Negroes Attempt Assault and Jail is Stormed

(By The Associated Press) JEFFERSONVILLE, Ind., Aug. 23.—Officers from Sullivan, Indiana, reached the state reformatory here today with three negroes whom they rescued from a mob at Sullivan last night. The prisoners are charged with attempting to assault three white women.

PANAMA'S REPLY TO NOTE SENT BY UNITED STATES TO BE DELIVERED TOMORROW

American Diplomatic Circles Reticent Concerning Incident

(By The Associated Press) PANAMA, Aug. 23.—Panama's reply to the latest note of Secretary Hughes in which Panama was told that the disputed territory along the Costa Rican frontier would be placed under the jurisdiction of Costa Rica is being considered by the Panamanian cabinet and will possibly be delivered Wednesday. American diplomatic officials here are reticent regarding the situation but it is known that Panama's reply has not yet been forwarded to Washington.

WASHINGTON, Aug. 23.—The State Department's note sent to Panama yesterday stated emphatically the United States would not permit any hostilities growing out of the occupation of Coto region by Costa Rica. The American note, it developed today, was in response to a communication from Panama indicating if Costa Rica should attempt to re-occupy the disputed territory, force would be used in resisting unless the United States made it clear that the American government would prevent it.

ROTARY CLUB MET TODAY

The Rotary Club held their regular weekly meeting at the Valdez hotel today Vice President G. W. Knight presiding in the absence of President H. R. Stevens. Many matters of interest to the community were taken up during the dinner hour and much good work accomplished. A very ambitious program has been mapped out by the Rotarians for the coming winter.

POWERS WILL ATTEND DISARMAMENT PROCEEDINGS ALL SEND ACCEPTANCE

DIRIGIBLE ZR-2 HAD TRIAL TRIP AT HOWDEN TODAY

(By The Associated Press) HOWDEN, Eng., Aug. 23.—The dirigible ZR-2, purchased from Great Britain by the United States, commenced a trial trip this morning with British and American aerial officers in charge. It is intended that today's flight would be the final test of the great airship before the American crew formally takes charge.

WILL INDICT STEPHENSON FOR MURDER

OF PRIEST AT BIRMINGHAM TO PREVENT PRELIMINARY EXAMINATION

(By The Associated Press) BIRMINGHAM, Aug. 23.—Prosecuting Attorneys in the case of the Reverend Edwin Stephenson, charged with murder in connection with the death of Father James Coyle, Catholic priest, made no effort today to conceal the plans of the state to obtain an indictment by the grand jury before two p. m., the hour set for the preliminary hearing. The grand jury started an inquiry at 9 o'clock. An indictment would automatically prevent preliminary examinations.

CLARA SMITH HAMON MARRIES DIRECTOR.

LOS ANGELES, Cal., Aug. 23.—Clara Smith Hamon acquitted in Ardmore, Okla., several months ago when tried for the murder of Jake L. Hamon, was remarried here yesterday to John W. Gorman, a motion picture director.

Mr. Gorman announced he and his wife would make this their home. Mrs. Gorman has been engaged since last April in making a film under his direction.

Considerable Progress Said to Have Been Made

ON PREPARATION

OF PLANS AND DATA FOR AMERICAN COMMISSIONERS ON VARIOUS PROBLEMS

WASHINGTON, Aug. 23.—While diplomatic formalities of the disarmament conference move forward with customary deliberation the American government is quietly at work defining the principles and collecting the information which will guide its representatives at the council table.

By these efforts, about which officials will say nothing, considerable progress is understood to have been made both toward preparation of plans and data for the American commissioners and toward a canvass of the diplomatic field to determine what international problems are considered within the scope of the conference. Both the army and the navy have taken an extensive part in the government's preparations.

Meantime, although the conference has become an assured fact through the informal acquiescence of all the invited powers, the perfunctory story of formal diplomatic exchanges on the subject continues to hold the center of the stage so far as actual surface developments are concerned, and to be the theme of all available comment of officials. The formal acceptance of Great Britain reached the state department today and was made public with many expressions of satisfaction. Formal acceptances from Japan, Italy and France are yet to come.

Because of opposition of Senator Lodge, one of the delegates to the disarmament conference, Senator Harrison, Democrat, of Mississippi, today withdrew his amendment directing the American delegation to demand open sessions. Harrison declared, however, he would bring up the matter again in separate resolutions.

KEY WEST CARPENTERS CUT SCALE OF WAGES.

KEY WEST, Aug. 23.—M. M. Russell, secretary of the Carpenters' and Joiners' Union, No. 655, has issued a statement that in the future the members of this union will work on a wage scale of 80 cents an hour. The scale of wages heretofore has been \$1 an hour. This reduction in wages was voluntary on the part of the members of this local in order to encourage building operations.

SHALL WOMEN PAY ALIMONY IS QUESTION

EQUAL SUFFRAGE BRINGS ON QUESTION OF SUPPORT BY WIFE

(By The Associated Press) MINNEAPOLIS, Aug. 23.—The question of whether gaining the vote makes a woman liable to pay alimony is under consideration by Judge Jolley in the county district court here today in connection with a suit bro't by Benjamin Liss against his wife for support and alimony. Liss and his wife accumulated considerable property. He was stricken with paralysis two years ago. He said his wife sold their common property and refused to support him from the proceeds.

ST. AUGUSTINE DOCTOR NAMED STATE HEAD OF CANCER CONTROL BODY

ST. AUGUSTINE, Aug. 23.—Dr. Edgar S. Estes, chief surgeon of Flagler Hospital, has been appointed by the American Society for the Control of Cancer, chairman for the state of Florida. Leading surgeons, physicians and well known workers for the good of humanity in the United States and Canada comprise the leaders in this society.

The last week in October is to be "Cancer Week" and Dr. Estes is planning for a special state-wide campaign of publicity.

KAYNEE Pajamettes are the really comfy sleeping togs for the youngsters. No belt line to press—they're all in one piece. You'll like the color-fast materials, too, and the well finished seams.

Sanford Shoe & Clothing Co.

COMPANY D WINS NEW LAURELS AT CAMP JOHNSTON

WON SILVER CUP FOR THE BEST SHOOTING IN MACHINE GUN COMPANIES

Company D came home yesterday full of pep and looked like winners and they were winners. They carried off the first prize in shooting among all the machine gun companies and Private First Class Michaels was top man. The scores are given in another place in this issue and the Herald just wanted to add that Company D and all the officers and men made a name for themselves while at Camp Johnston. And they were complimented for being men first and real gentlemen also and when you can be a good soldier and a gentleman you have won the India rubber safety razor donated by the Herald Printing Co.

Congratulations are pouring in today to the boys and their officers and Sanford and Seminole county are proud of their soldier boys. We knew they would give a good account of themselves for they took up their work with that determination. Company D is entitled to all the praise and all the assistance that the people of Seminole county can give them.

ORLANDO HAD MINIATURE HURRICANE.

A miniature hurricane came sweeping over Orlando shortly after noon yesterday to drive away one of the worst torrid spells experienced by the citizens of Orlando in a long time. Wind and rain, as it beat down with terrific force, seemed to be sounding wonderful music to the parched inhabitants of the city. The rainfall was 1.42 inches according to the local weather bureau.

Slight damage is reported over the city due to the velocity of the wind. A large water oak was blown down in front of the home of Seth Woodruff on Lake Lucerne and as the tree plunged to the ground a number of electric wires and a pole in the vicinity were damaged. A crew from the Orlando Water & Light Co., repaired the damage here however in short order. A large oak in the A. G. Brantley yard, also along the shore of Lake Lucerne, and a tree on the Bumby property, South Orange avenue, were uprooted.

The center of the "twister" was along the south and southeastern shores of Lake Lucerne where the two large trees were uprooted, a number of branches broken, and park benches tossed into the center of the streets. Several White Way lamps were crushed by the fury of the wind.

Park Commissioner E. J. Fuller got on the job immediately with his gang of men and cleared away the debris from the streets in record time. —Orlando Sentinel.

PELLAGRA KILLS MORE NEGROES THAN WHITES.

JACKSONVILLE, Aug. 22.—D. W. W. McDonnell, city health officer, has issued for the benefit of citizens of Jacksonville a statement which includes all the information scientists have been able to learn of pellagra. The statement also includes statistics on the disease in Jacksonville during the last ten years, which shows that the ratio of deaths was five whites to nine negroes.

"Case histories show that the victims usually eat a starchy diet, corn bread, baker's bread, grits, white rice and occasionally white bacon," said the statement. "Sweetened tea and sweetened coffee are the usual drinks. It goes without saying that the disease is usually found among those who are in destitute circumstances.

"To avoid pellagra and allied troubles drink milk, at least one pint, but better still, a quart. Use whole wheat flour. Eat plenty of green vegetables, cabbages, spinach, mustard and turnip greens, carrots. Florida oranges will prevent scurvy, one or two a day, pulp and all for adults, give the children the juice. Eat potatoes, skin and all. White rice should be taboo. Millions live on unpolished rice in India. Peas and beans contain food elements that will overcome pellagra. Meats should be used sparingly. Fat bacon as a steady diet without other balances, is wrong. Drink plenty of water."

ONE MAN POSTS 1,000 ROAD SIGNS FOR HIS CITY, ST. PETERSBURG.

ST. PETERSBURG, Aug. 22.—Dr. W. J. Turner has returned to St. Petersburg after an automobile trip of approximately 4,000 miles during which he posted on the highways nearly 1,000 road signs advertising St. Petersburg and bearing a road map. The trip was in the interest of the city and the Chamber of Commerce. Signs were posted at intervals of not greater than 10 nor less than three miles. Dr. Turner's route was up the west coast of Florida through Georgia, North and South Carolina, Virginia and West Virginia, Washington, D. C., Wheeling, W. Va., to Cincinnati, to Louisville, Ky., to Nashville; then through Alabama and to Atlanta and from there to Lincoln, Perry and Douglas, Ga., and through Waycross to Jacksonville. The only road traversed twice was between Lincoln and Perry, Ga., about 30 miles.

As evidence that there is, after all, something new under the sun, this advertisement appears in the Orlando Sentinel: "Cats fed while you are away for the summer. We will throw ten cents worth of the best cat meat over your back fence every day for 85 cents a week. The Ed. Wernick and Lew Davis Cat Feeding Co."

FLORIDA FRUITS AND VEGETABLES CAN BE SHIPPED BY WATER ROUTE IF THE GROWER WILL GET BUSY ON THIS MOVEMENT

(From Florida Grower)

A meeting of fruit growers of South and West Florida was held in Tampa on Friday, August 12. There was an earnestness about the various discussions that indicated a singleness of purpose. "The railroads and the country-at-large must be made to realize that this matter of transportation has developed into a serious thing, and means nothing more or less than the salvation or practical extinction of fruit and vegetable growing in Florida," said one man, and he voiced just about the opinion of the entire assemblage, which consisted of growers in all lines, business men and representatives of steamship lines. Fruit growing interests were not so greatly represented, for many were not able to be present, or even be informed of the meeting, owing to absence from the state.

Dr. Mark Sample, of Haines City, was chosen as chairman of the meeting, and Josiah Varn, of Bradentown, was appointed secretary. L. C. Edwards, of Thonotosassa, stated that the average rail rate on fruit now is \$1.25 per box and that there is no prospect of relief from the railroads. He said that California is shipping fruit 10,000 miles by water to the eastern markets at seventy cents a box, while it is only about 2,000 miles, or one-fifth the distance, from Tampa. At this rate the Florida grower will grow poorer and poorer, he said, and the only relief is for the citrus growers to a man to join with other shipping interests for water transportation.

Chairman Sample added that in any case, if the railroads could not carry the fruit on account of a strike or other trouble, the railroad is the only present outlet and the packing houses would have to close, so another outlet by water would be necessary.

During a general discussion by various men present the idea of transporting fruit by truck from as far east as Polk county would be entirely feasible for all shipments through the port of Tampa. With Tampa as the logical concentrating point, it was suggested that steamer lines might also touch at Boca Grande, to serve Lee County, Charlotte county and other southern territory. Fruit would be brought to the docks by truck or by barges or small steamers of light draft.

Josiah Varn, of Bradentown, quoted a few figures that were startlingly true, as the fruit growers have found out to their cost. "With 400 boxes per acre as a fair average," Mr. Varn said, "this is about our position—and I think all fruit growers will agree with me. There has been added fifty cents per box in costs in the last two years, he said, or \$200 per acre tax, equal to 10 per cent interest on a \$2,000 mortgage, and he asked what farmer would stand up under that perpetual mortgage on every acre.

"Fate helps those who help themselves," he said, "and we are lucky to be between two oceans, with an available port at frequent intervals." He mentioned that it is only about seventy days until the season's movement of fruit begins. "With the present high costs culture of groves, spraying and fertilizing will be neglected, a fourth of the growers going practically out of business each year until nothing much will remain in four years, unless they seize the remedy now within reach," said Mr. Varn. "The club of water competition is our only hope," he added.

Phillip Shore, of the Tampa Inter-Ocean Steamship Co., said that shipping conditions today are not normal, and it is hard to give close figures on what would be the cost of transportation, but it could be given approximately, estimating the running expenses of a steamship and its cargo capacity. He said the charge would be perhaps fifty cents per box, but could not promise that definitely, though he was confident that there would be a considerable saving from the present rates of about \$1.25 per box.

Ships are easy to get at low prices, as the shipping board has plenty to sell. Mr. Shore said that just what the new members of the shipping board will do is uncertain, but boats could probably be bought for 25 per cent down, with terms of ten years, or perhaps better than that. He said that a ship of about 3,000 tons, carrying about 30,000 boxes of fruit, might be bought for a total of \$160,000. He said that in two or three months before the season opens, a steamship or two could be purchased and fitted up for carrying fruit.

Mr. Shore mentioned that while in New York recently he saw a shipload of 30,000 boxes of oranges arrive from California, the trip having taken twenty-five days on account of engine trouble. Although twice as long as usual,

the oranges were in almost perfect condition and the lemons had only 5 per cent decay. From Tampa to the eastern markets by water is only five or six days, according to the speed of ship used.

"The Tampa Inter-Ocean Steamship Company directors and stockholders, being local men, are interested in the welfare of the Florida citrus industry, will be glad to co-operate and are here to serve," said Mr. Shore.

It was suggested that the Middle West uses many grapefruit, and that by shipping by water to New Orleans or Mobile, equitable rail rates may be arranged with railroads from those points to the destinations, as more business goes southward to the ports and the roads would be glad to get northbound traffic.

Mr. Swann, when asked about Tampa terminal facilities, said that question will take care of itself automatically, and that it will be no trouble to get men to furnish facilities if the fruit is going to be delivered. He said there should be difficulty in getting railroads, outside of this state, to help in shipping.

Mr. Varn added that from November to February, four months, ventilation only, and not refrigeration, equipment would be needed on steamships.

Mr. Edwards suggested that a cargo of thirty or forty thousand boxes of fruit sent at once to one market might break the market enough to offset the saving in freight, and he proposed running small boats, more often, to more markets.

Mr. Perry, of Fort Myers, said that it costs thirty-three cents to send a box of fruit from Fort Myers only to Jacksonville. He spoke at some length on the preferential rail rates given transcontinental trunk lines, east and west, and said that to keep up the port of Tampa shipping both to and from Tampa must be built up.

Burks L. Hamner suggested that ships should be purchased, as Mr. Shore said they might be, at \$15,000 down and \$5,000 a year, and that loss be turned over to the Inter-Ocean Company to operate. He believed that Tampa merchants would take as much stock in the enterprise as would the citrus men, and the necessary \$15,000 per boat could be raised in a short time.

Mr. Williams, of Manatee county, represented the vegetable growers, and said they would join with the citrus growers in shipping by water. He said the expect 600 cars of celery alone the coming season, besides other truck in that county. He was confident that the Norfolk and Western and the C. & O. railroads would give good rates inland from Baltimore. He told of the fight the vegetable men are still putting up against the rail rates here, and said they are ready to turn to steamships.

ST. PETE BOOSTER FUND RAISED FOR ALL PURPOSES ELIMINATES ALL DRIVES.

ST. PETERSBURG, Aug. 22.—Municipal authorities and officials of commercial organizations throughout the State who are discussing proposals to tax citizens in order that a "booster" fund might be raised, thus eliminating "drives" by local Chambers of Commerce, will be interested in the methods of this city. It is maintained here that every citizen derives benefit from the work of the Chamber of Commerce and that all should assist in supporting it financially rather than leave the burden to a few public spirited individuals.

The budget of the Library and Advertising Board, as approved by the City Commissioners, at its meeting this week, provides \$66,447 for work during the coming fiscal year. The amount to be raised by taxation, however, will be only \$63,129 as the Board has a balance left from last year's fund. The tax levy for advertising and library purposes this year will be 2-1-8 mills.

The amount apportioned to the library in the budget is \$8,000 divided as follows: Books, \$2,700; general expense, \$955; salaries, \$3,885; repairs, \$460.

The Chamber of Commerce requirements approved totaled \$37,787, and the appropriation is divided as follows: Booklets, \$14,475; freight, postage and express, \$1,800; winter advertising, \$10,000; summer advertising, \$3,000; Blue Book advertising, \$500; Ask Mr. Foster service, \$800; tourist register bureau, \$1,000; publicity bureau, \$2,500; advertising extension bureau, \$2,000; information bureau, \$720; art posters, \$500.

budget, was included the appropriation to employ a band for twelve weeks during the mid-winter season at an expense of \$1,080 per week, a total of \$20,160.

KEEPING A WATER BASING RATE.

Tampa is making strenuous efforts to hold its water basing freight rates. With one of the finest harbors on the gulf coast, and on which the government has already expended millions, of dollars, Tampa is threatened with loss of these basing rates because coastwise shipping lines, which it is claimed are owned by the railroads, or at least controlled by them, have taken off their boats.

It was, undoubtedly, cheaper for the railroads to buy controlling interests in the boat lines and discontinue them in order to get advances in rail rates than it was to operate the boats in competition with rail. Tampa's case is very similar to that of Palatka, with the exception that the boats have not yet been taken off the river run.

Some time ago application was made by the Clyde line for permission to increase its rates to Palatka. This petition was denied. But prior to the hearing, and anticipating that the Clyde line might desire to take off its boats to force a raise in rates or a return to straight rail rates, local capitalists purchased and put in operation a boat between here and Jacksonville. Unfortunately, local merchants were not insistent enough that their freight be routed by the Palatka line and the company, suffering several accidents to its equipment, has not been able to declare a dividend.

At a dinner given officials of the Clyde line by the Sanford Chamber of Commerce Friday, Agent White, of the Clyde line, declared that the river boats were losing money. Frankly, we do not believe it, whether it makes any difference to Mr. White or not. If such were the case there is no excuse for operating the Clyde boats, for the minute they are taken off the independent line will be able to make handsome returns on its investment. If the Clyde line is controlled by the railroads, which has been charged and has never been denied, it certainly would be to the interests of the roads to take them off—if they were not afraid that some independent lines, with machinery all ready, would step in and get the business.

That's the situation in Palatka. It's the situation in Sanford. It's the situation in DeLand and Astor, and the problem now is to secure a sufficient number of shippers to guarantee enough business to warrant the putting on of boats of sufficient speed and tonnage to handle the passenger as well as the freight traffic.

As long as the present situation exists Palatka will be continually threatened with freight rate disaster for equalizing of the rate to this city with that of interior points would be little short of disaster.—Palatka News.

KNOXVILLE CALM AS SMOKE OF JAIL RIOTS PASSES AWAY.

KNOXVILLE, Aug. 22.—Calm prevailed in Knoxville today. Two blocks from the jail and court house where on Friday night twenty-eight persons were wounded by officers defending the jail from a threatened attack, the usual Sabbath program proceeded quietly.

Closer to the jail scores of blue and khaki uniforms and the shining badges of special deputies testified to the continued vigilance of the authorities.

The heavy guard at the jail will be continued indefinitely, it is announced, but no further trouble is expected. The grand jury has been called to convene in special session Thursday to consider the case of Frank Martin, a negro, held as a suspect in a case of assault upon a county school teacher and whose identification by the victim Friday led to the attack at the jail that night.

Of the twenty-one wounded who remained in hospitals are all improving and it is now thought there will be no clash.

Rod and Gun Club Will Start Building On Lot at Once

Decided at Meeting Last Night of the Stockholders

At a meeting of the Rod and Gun Club last night in the office of Judge Housholder it was decided to go ahead and build a club house with the money on hand. This will mean a cutting down of the original plans but will also mean an early resumption of the work and the better feeling that it will entail once the real work is started. It was thought best to retain the original plans for the future building of a club house that would take care of the future growth of Sanford and that it is more than probable that no elaborate plans will be drawn for the building that is now contemplated.

While the building as now figured will not be as large or as beautiful as the first one it will be convenient and comfortable and will give the Rod and Gun Club a home for this winter, a place where they can shoot clay pigeons, a place where they can have boats and keep all the hunting and fishing equipment and a place where the tourists can pass away the time.

And it was the consensus of opinion last night that they way to proceed was to proceed and that when the building was started would be the time to inform the public about what the Rod and Gun Club intended to do in the way of obtaining tourists. This is certainly a step in the right direction and if the Club is intending to receive any encouragement the best plan is to start something.

There are so many improvements, so many different ideas of what is really needed in Sanford that the Rod and Gun Club has languished during the past two months although a few have stuck to the original idea of building a club house and now that they have decided to go ahead it is more than likely that the entire membership will become enthusiastic advocates of a building to be erected at once.

Drys Renew Effort to Dam Flood of "Medicinal" Beer

WASHINGTON, Aug. 23.—Their own ranks divided, drys today resumed efforts to strengthen the dam that is holding back a flood of "medicinal" beer.

They have only two days for the job, for unless a bill prohibiting beer as medicine is passed within that time the treasury probably will issue regulations allowing its manufacture, which was held legal by Attorney General Palmer.

The fight over the beer bill resumed today stood like this:

The senate insists on the Stanley amendment which would impose drastic penalties on prohibition agents who search property without a warrant.

House drys insist on modifying the amendment so that agents could search automobiles, which they declare are used by bootleggers.

Both sides insist on their position, declaring they will give up the congressional recess due Wednesday rather than yield.

The beer bill today appeared to be the sole obstacle in the way of a recess. Many other bills are awaiting final action but leaders believe they can dispose of these although night sessions of both house and senate may be necessary.

The per capita debt of the United States is \$224.81. It's enough to make us proud of being able to get credit or else to keep us humble for being in debt.

SANFORD TRADE EXTENSION COMMITTEE

WILL GO TO OVIEDO THURSDAY AFTERNOON AND GENEVA FRIDAY NIGHT

The Trade Extension Committee of the Sanford Chamber of Commerce was called together by Chairman Arthur Yowell at the Valdez Hotel yesterday afternoon at three o'clock and the majority of the members were present. It was decided to hold the next meeting at Oviedo and on account of the majority of the business men being at the gun club shoot the members of the Trade Extension will visit the Oviedo folks at the gun club shoot next Thursday afternoon.

On Monday night next at eight o'clock the Trade Extension committee will visit with the people of Geneva at the town hall at which time there will be a few informal talks by business men of Sanford and the Geneva folks will also give them an outline of what they would like to accomplish for Seminole county in keeping that part of the state on the map.

These meetings are very helpful to the men who are making the trips and those whom they visit as it establishes a mutual understanding between the merchants and the people of the county. The trips, while intended primarily for the purpose of establishing better trade relations are really a clearing house for mutual information giving the Sanford people a better insight into the conditions of roads, schools, etc., and the people of other towns a chance to tell the Sanford people the needs along certain lines. It establishes a better feeling with all those who visit and those who are visited and gets the people of the whole county together into a big family who are really working for the upbuilding of the county and for the benefit of the people who inhabit this county.

Remember the dates, Oviedo Gun Club Thursday afternoon. Geneva on the night of Monday, August 23rd.

PUBLIC LOOTERS SHOULD BE BROUGHT TO PUBLIC JUSTICE

WASHINGTON, Aug. 23.—Charges that operators to whom the shipping board had allocated part of its fleet had deliberately "preyed upon the board and the public" were made in the senate today with a demand that their names be obtained and published.

Senator McCormick, republican, Illinois, declared it "was a notorious fact" that a certain operator had ordered a ship, proceeding from the Philippines to this country to turn back to Manila after covering 1,600 miles of the voyage to take on coal on which he made a profit and at a cost to the shipping board of \$12,000.

Insisting that the names of "such offenders" be obtained, Senator Borah, republican, Idaho, said he assumed most of them would escape punishment. "But they ought not to escape," Senator Borah declared. "They ought to be put in a public place to be pilloried for all time."

Senator King, democrat, Utah, asserted that 25 per cent. of the companies receiving contracts from the board got them through favoritism and that the board had refused to sell ships when it had the chance in order that they might be allocated to more of the favorites.

"Chairman Lasker ought to cancel all of these contracts, even if it ties up all shipping, because they are vicious and corrupt," said Senator King.

The organizers of the United States Mail Steamship company "rivalled Morse and even Ponzi himself," Senator McCormick declared. He read from records of the board to show that the company "had never been able to finance contracts it had undertaken."

OLDSMAR—The fact that a new oil heater manufactured here for orange groves and truck farms, can be sold against the strongest competition, is proved by the announcement of the manager of the concern that he has received an order for twenty thousand heaters from California for delivery October 1.

FOR MYERS—A crew of four carpenters here building a residence is believed to have established a speed record for south Florida on day last week. The structure is 20 by 48 feet and the four men cut studdings and framework for doors and windows to dimension, raised the framework and framed the windows and doors in four hours. When the men arrived on the job material for the frame was on the ground. Four hours later the entire frame of the house had been erected.

Daily Fashion Hints

A BRAIDED LINEN

Heavy linen, in the charming hydrangea shade, fashions this lovely one-piece frock, tho one can visualize it quite as effectively in serge and sou-tache. The wide sash is of hydrangea organza and holds in the fulness at the waist but slightly. The square neck is collarless and the one-piece sleeves close fitting. Medium size requires 4 3/4 yards 36-inch linen, with 1 yard 36-inch organza and 2 bunches of braid.

Pictorial Review Dress No. 8408. Sizes, 34 to 44 inches bust. Price, 25 cents. Embroidery No. T2425. Transfer, blue or yellow. Price, 75 cents.

INES TO A CONFEDERATE BILL

A Poem Written on the Back of a \$500 Confederate Bill Just After the War—Reproduced by Request.

The Herald has been requested to reproduce the following lines which were found on the back of a five hundred dollar Confederate note and printed in the Petersburg Express shortly after the war:

Too good to be lost,
Representing nothing on God's earth now,
And naught in the water below it,
As a pledge of the nation that's dead and gone,
Keep it dear friend, and show it—
show it to those who will lend a ear
To the tale this paper can tell
Of Liberty born, of the patriot's dream,
Of the storm-craddled nation that fell.

Too poor to possess th' precious ores
And too much of a stranger to borrow,
We issued today our promise to pay,
And here to redeem on the morrow.

The days rolled on, and weeks became years,
But our coffers were empty still;
Coin was so rare that the Treasury quaked,
If a dollar should drop in the till.

But the faith that was in us was strong indeed,
And our poverty well discerned;
And these little checks represented the pay
That our suffering volunteers earned.

We know it had hardly a value in gold,
Yet as gold our soldiers received it;
It gazed in our eyes with a promise to pay,
And each patriot soldier believed it.

But our boys thought little of pay,
Or if bills that were overdue,
We knew if 't bought us bread today
It was the best our old country could do.

Keep it, it tells our history over,
From the birth of its dream to the last,
Modest and born of the angel hope,
Like the hope of success it passed.

OCALA.—The Marion County Creamery Co., will be the name of a new concern here which will establish a creamery in Ocala and develop the dairy industry in Marion county. At a recent meeting temporary directors were elected and authorized to make the necessary preliminary arrangements to get the creamery started as soon as possible. Notice of the intention to apply for a charter will be published immediately and the concern will be capitalized at \$15,000. Temporary officers were chosen by the directors and permanent officers and directors will be elected at the first meeting of the stockholders. The temporary directors are Dr. H. W. Henry, W. T. Gary, Miss Catherine Pyles, and H. L. Shearer. The directors named the following temporary officers: Dr. Henry, president; Miss Pyles, vice president, and Mr. Shearer, secretary-treasurer.

Moonlight persuades the dog to voice his woes, says a story writer, Moonshine has a similar effect on men.

New Solution of an Old Problem

All transactions in a retail grocery business are divided into three groups, requiring three kinds of service. First, charge and delivery, this transaction is the most expensive both for the merchant and the customer, requiring as it does, telephone, bookkeeper, gas and upkeep of the truck. Second, is the customer who comes to the store, has his merchandise charged but carries his goods home with him, eliminating a part of the expense. Third, is the customer who pays cash and carries his goods home with him, thus eliminating all expense of charge and delivery.

It is self-evident that there should be some distinction between the three classes of service. Recognizing this fact I have adopted the following plan without changing prices:

FIRST:

All goods priced on a charge and delivery basis.

SECOND:

Customers charging goods but delivering same will be discounted 2%.

THIRD:

Customers paying cash for goods and delivering same will be discounted 5%.

THIS APPLIES TO ALL ORDERS OF \$1.00 OR MORE

EFFECTIVE MONDAY, AUGUST 22

DEATHS

DEATH OF MRS. A. R. STILES
The many friends of Mrs. A. R. Stiles will regret to learn of her death at the home of her parents, Mr. and Mrs. L. J. Hartley, at Longwood, Fla., at nine o'clock Sunday night, August 21st.

There was everything possible done for her comfort and care and many friends and loved ones gathered at her bedside together with her husband, parents, four brothers and two sisters, during the last hours of her illness.

Mrs. Stiles was a member of the First Baptist Church at Longwood, and a beautiful christlike life she has sought and it was the hand of Almighty God who sent the angel from heaven to lay her sweetly to rest and to take her soul to God who giveth it.

Mrs. Stiles leaves to mourn her loss her husband and three small children, also both parents, her brothers J. L. Hartley, of Jacksonville; H. C. and W. J. Hartley, of Groveland, A. C. L. Agent and banker respectively, John E. Hartley, A. C. L. Operator, of Orlando and her two sisters, Ethel Hartley formerly assistant cashier of the Bank of Groveland and Mrs. Nancy E. New, connected with the Orange Title Guaranty and Abstract Company of Orlando.

The funeral services were conducted at the home of the deceased's parents in Longwood at three o'clock p. m., Monday, August 22, Drs. Hyman and Barr of Sanford and Winter Park officiating.

A special male quartette from the Baptist Church here accompanied Dr. Hyman.

Undertaker Miller had charge of the interment.

LAKELAND.—According to statistics compiled by the postmaster here, Lakeland is well on the way to become a postoffice of the first class by the end of the present year. Postal revenues of the office, exclusive of money orders and parcel post, for the first six months of the year, were \$2,023.38 more than than the first six months of 1920 and at the present rate of increase, if it continues through the last six months of 1921, the office should attain first class rank by the first of next year.

FASHION YOUTHFUL AND GROWN-UP

It is presumed that the little gentleman whose suit is under consideration is attracted for some "best" occasion. The suit is carried out in pongee silk and consists of Eton jacket and trousers. The blouse is fashioned of soft barbat. Medium size requires 1 1/2 yard 32-inch material for Eton jacket and trousers.

White silk crepe de Chine trimmed with embroidered collar and cuffs of self-material, is used for the attractive blouse with the skirt of black and white plaid flannel. The blouse is tucked at the shoulders and has the back extended over the shoulders to form a yoke effect. The skirt closes at the left side-back under a plait. Medium size requires, for blouse, 3/4 yards 36-inch material. For the skirt, 2 1/2 yards 42-inch material. Pictorial Review Boys' Suit No. 9401. Sizes, 3 to 8 years. Price, 30 cents.

Second Model: Blouse No. 9403. Sizes, 34 to 46 inches bust. Price, 30 cents. Skirt No. 9442. Sizes, 24 to 34 inches waist. Price, 30 cents.

FOR MEADE—The Fort Meade Leader has had the new press installed in its new building and it is expected the plant will be ready for occupancy within the near future. The building is of stucco construction, is somewhat like a bungalow in appearance and is regarded as one of the most handsome as well as most unique newspaper plants in the state.

STATE NEWS

WEST PALM BEACH—Dr. W. E. ... received painful burns about his face and ears recently when a green celluloid eye shade he was wearing caught fire when he attempted to light a cigar. The entire shade flashed into flame almost instantaneously. Dr. Rounds closed his eyes and mouth tightly, thus preventing any injury to his light or swallowing any of the flames.

JACKSONVILLE—T. W. Haney, chief of the local fire department, is now seeking authority to equip the city's recently acquired fire fighting unit with a wireless telephone apparatus. The boat, in the form of a sub-chaser No. 45, recently arrived from Key West, where it had been purchased from the government. It will be remodelled and equipped for her new service. A crew of eight men has already been authorized by chief Haney asserts this number will be insufficient, and hopes to be permitted to add more men. Wireless telephone equipment is desirable, he says, in order that the activities of the boat can be directed from fire department headquarters. The cost of converting the sub-chaser into a fire fighting craft is estimated at approximately \$65,000.

MIAMI—Verbal outbursts are unnecessary to citizens of Miami who have their comeliest bias disturbed by nocturnal nuisances, according to Col. C. S. Coe, city manager, and when such outbursts are directed towards him they are so much misspent labor. Rather they should consult the city's charter and learn the means they have of initiating effective counter ordinances. The colonel's views were embodied in an answer to an irate citizen recently, who aggrieved to the point of seeking vocal outlet by the ill-timed crowing of roosters in his neighborhood, sought the city manager and expatiated vociferously for thirty minutes of municipal time. The colonel suggested that the next time the citizen was so awakened he spend the lost time of sleep in studying the city charter.

FORT PIERCE—What is believed to have been an attempt to smuggle a number of Chinese into the country several nights ago was frustrated by officials here. A schooner reported as having a number of Chinese aboard, was said to have anchored off shore opposite Fort Pierce inlet, preparatory to sending them ashore in small boats. Lieut. J. M. Framme and Sgt. N. A. Clark, of the police force of the Florida East Coast railroad, heard of it and set out to investigate. They obtained a boat and proceeded toward the schooner but as they approached the vessel put to sea and disappeared in the darkness.

JENSEN—To be capitalized at \$50,000, application will be made shortly for incorporation of the Jensen ice works, to be located here and financed chiefly by Jensen capital. Preliminary organization already has been effected and as soon as the charter is obtained it is proposed to proceed with construction of a building and installation of ice-making machinery. Jensen is one of the largest fish and produce shipping points in the county and since facilities for obtaining ice in the past have been rather unsatisfactory, according to shippers, promoters of the new en-

terprise expect the demand for ice from the beginning will equal the production of the plant.

MOONSHINERS SHOOT UP TOWN

JACKSONVILLE, Aug. 23.—MacClenny, county seat of Baker county, west of here, was "shot up" late Saturday night, but so far as is known, there were no casualties, according to travelers arriving here today. The fronts of two stores on the main thoroughfare of the little town were destroyed by gunfire, it was said. The cause of the shooting up of the town was not known here, but persons who brought the report said "bad feeling" was evident in that section because of the activities of Sheriff Rowe, newly appointed to office, who is waging a relentless warfare on moonshiners. The sheriff some time ago let it be known that it was his intention to clean up the county regardless of consequences.

You can see the American troops in actual action and in every part of the great World War in Flashes of Action, at the Princess Theatre Wednesday afternoon and night. 128-11c

Notice is hereby given that I, as Special Master in the above styled cause, will, under and by authority of that certain final decree issuing out of the above styled Court dated June 20th, 1921, offer for sale and sell at the front door of the Court House in Sanford, Florida, on Monday, the 5th day of September, 1921, during the legal hours of sale, the following described property, to-wit:

Fifty head stock cattle marked crop split under bit one ear swallow fork the other, branded H. J. Sale to be made to the highest bidder for cash in hand, purchaser to pay for bill of sale.

E. F. HOUSHOLDER, Special Master.
Note: The above described cattle now on range of Wm. Jacobs, near Chuluota, Florida, and may be viewed there at any time. 8-2-o.a.w.-51c

DAVENPORT RELEASED BECAUSE "TOO GOOD"

Opposing Teams Would Not Play Against Big Hurler.

Almost Won Pennant Single-Handed for St. Louis Club of Federal League—Couldn't Behave in Big League.

Released from two American league teams because he was "too bad," Dave Davenport, former mammoth hurler of the St. Louis Browns and Washington Senators, was released by the Ogden team of the Northern Utah league because he was "too good."

Big Dave pitched seven games for Ogden. He won them all. He pitched one no-hit game, one one-hit game and one three-hit game. He averaged 10 men per game by the strike-out route.

Then the other teams rose in revolt. If Davenport continued to pitch for Ogden they'd bust up the circuit, they said. He was too good and was released.

Davenport calls it tough luck, but says he will report to the Casper (Wyo.) team of the Midwest league. Back in 1914 and 1915 Davenport was a Federal league star. In the latter year he almost won a pennant for St. Louis single-handed. He pitched in 40 games, winning 22. Then he

Dave Davenport.

went with the Browns, but couldn't behave, was suspended half a dozen times, and finally given up because he was "too bad."

The last big league manager to try him was Clark Griffith. But he couldn't be good there, and finally Griffith let him go.

Now he is so good he has had to move on once more to other fields.

BASEBALL FUTURE SAFE

There are about 28,000,000 boys and girls in the United States between the ages of five and eighteen. That fact alone would seem to insure baseball team owners that there is no danger of a shortage of ball players in the years to come. Make it a fifty-fifty break and half of the 28,000,000 are boys. About ten kids out of ten take a crack at backyard and sandlot baseball in early life. Rest assured that a share of them—enough to keep the big and little leagues going—will stick to the outdoor pastime.

Sporting Squibs of All Kinds

David J. Crawford, a clever all-round athlete, is West Point's first track captain.

William D. Fletcher, '11, has been appointed manager of athletics of Stanford university.

Florence Briscoe of New York won the national junior fancy diving championship at New York.

France was eliminated from this year's Davis cup lawn tennis competition in the match with India.

Earl Goheen of White Bear, Minn., has been accepted as the new athletic coach and director at Valparaiso university.

C. E. Norwood of Boston took first place in the amateur tournament of the American Chess congress at Atlantic City.

Of course, if France can keep Carpenter fighting in this country he may be able eventually to completely restore France's stock of gold.

One of the big inter-sectional football matches of the fall will be the visit of the University of Chicago at Princeton Saturday, October 22.

R. M. Lewis of the Greenwich Country club won the Connecticut state amateur championship, defeating W. P. Seelye, the Brookhaven star, in the final round of the tournament, 3 to 2.

CHILL REBUKES RUTH

Everybody may not approve of Ollie Chill's work as an umpire, but some people will like him better after this story.

Chill was having trouble with the Yankees in St. Louis. He had chased Carl Mays out of the game, driven Fewster off the bench and was fingering his watch on Miller Huggins. Babe Ruth had come in from center field to take part in the melee. "Why don't you call one right now and then just to see how it feels?" he then told the Babe at the little umpire.

"Why don't you hit one out of the infield once and see how it would feel?" answered back the umpire.

The point: Babe hadn't made a hit in 15 times at bat.

BARBER PROVING HIS WORTH

Until This Season Outfielder Had Been Used Only Against Right-Handed Pitching.

Turner Barber cost the Chicago Cubs \$12,000 four years ago. Until this year he has generally figured as a bust.

Before this year he was used only against right-handers.

Johnny Evers notified him this spring he would have to face both

Turner Barber.

styles of pitching this year and that it was up to him to make good.

And Barber is proving he is worth every nickel of that purchase price, which seemed like a lot of money when it was forked over.

SCOTTISH TEAM SUCCESSFUL

All-Star Soccer Team Won Twenty-Four Consecutive Games—One Contest Is Tied.

The Scottish all-star soccer team which toured Canada and the United States won 24 consecutive games and tied one.

That was a wonderful record. The team was their last, being played at Fall River, Mass.

These Scots are the best representatives of soccer ever gotten together.

They came to America for the purpose of stimulating interest in their game.

They succeeded.

Seeing finished players in action in any sport is a boost for the sport it represents.

HAVE DARK HAIR AND LOOK YOUNG

NOBODY CAN TELL WHEN YOU DARKEN GRAY, FADED HAIR WITH SAGE TEA

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.—Adv.

James Fitzgerald, an experienced poultryman from Philadelphia, is to establish an extensive poultry farm at Moore Haven. Writing of this new enterprise, the Moore Haven Times says: "We are told that Mr. Fitzgerald will ship over 5,000 White Leghorn hens to this city from Philadelphia this fall with which to stock his farm. We need only about 100 more men of this kind to permanently establish a poultry marketing center here and make Moore Haven the biggest, busiest and best town in the interior of Florida."

In the beginning, the eternal triangle was formed of a man, a woman and the serpent. And times haven't changed a great deal.

Don't let the weather affect your advertising.

You are apt to want to take a siesta about this time of the year.

Now is the time to stir up the atmosphere and put on special drives and stimulate the people into buying the summer bargains.

We note that newspapers are consolidating instead of spreading out and it looks like there will be less newspapers in Florida this winter than ever before.

The Temple Girls Club will offer a fine home to the girls who are making their way in the world and our girls will have better accommodations this season than ever before.

The Trade Extension Committee of the Chamber of Commerce is working overtime in order to make the rounds of the adjacent territory before the first of October.

The big day and night here next Friday promises to bring the people to town. Get ready for them. Advertise your special sales.

PUBLISHING THE WEATHER.

So many folks wonder why a newspaper in Florida publishes the daily weather report. If they knew how many inquiries we receive every week from folks in the north about our weather, they would know why we publish the daily report.

Why, asks a DeLand man, do you publish the local weather, when we are all here and know what the weather is without you telling us? But we are not all here, brother.

CONGRATULATIONS TO THE NEWS.

The DeLand News Publishing Co., has purchased the DeLand Record, and will operate both plants in the future. They will make the Record plant the job plant, and continue to publish the Record as the weekly paper.

fractional fights for the benefit of a few who enjoy such petty stuff but will not be of any benefit to the city. Times are changing and business men want a real newspaper and not a political organ.

THE FOLLY OF IT ALL

The battleship Georgia was launched in 1901. At that time it represented the very last word in battleship construction. We have not the exact figures it cost but we have the word of a correspondent of the Atlanta Constitution who says that it with its armament cost more than the state of Georgia had paid for the education of its children, including all the public school appropriations, as well as those for the state university and its several branches, since the civil war.

But battleships are vastly more expensive than they were when the Georgia was first set afloat. In those days three million dollars was the extreme limit of cost, but now 40 millions is none too much. The same correspondent tells us: The cost of a modern battleship, as any one may find, would pay the bonded indebtedness of Georgia, build a new state house and governor's mansion, put a \$50,000 high school in every county in the state and create a three million dollar endowment fund for the state university.

And yet, in face of all these facts and talking all the time encouragingly about disarmament, England is buying down four capital ships, Japan is said to be building in secret the greatest submersible ever known, and the United States is carrying out the program formulated in 1916, when war was imminent.

SPEED KILLING MORE THAN WAR.

Thirty thousand persons are accidentally killed or injured every day in the United States. Every minute five persons meet a accidental death. The figures are those of the war risk insurance department. A large proportion of these deaths occur in auto accidents.

Suppose thirty persons were killed today in a railroad accident and that tomorrow about the same number should be killed in another rail smashup, and the day following as many more persons should be killed in still another rail crash. Every newspaper in the land would be featuring the fast on the first page and there would be speeches in Congress calling for an investigation and for emergency legislation.

CHARACTER! IT MAY BE MANIFESTED ANYWHERE.

In the Byways column of the Louisville Courier-Journal, appears this short skit:

"There is a woman who sells newspapers on the city streets. Men raise their hats to her after they have traded their coppers for what she has to offer them. Character may be manifested anywhere."

Indeed, character may be manifested anywhere! It is that strange force which burns within and radiates out from us, always present, something with convincing voice, but which needs not words to convey its messages. In a more or less psychic sense the halo of sainthood may be found today; the brand of Cain manifested itself in ways other than physical.

Character impresses itself. One "feels" the presence of it, be it either

good or bad; for, in its real analysis, character is a mental state and its "vibrations" are transmitted to other mental states, afterwards displaying itself in material things.

Cynics may doubt, but when one stands in the presence of a good man or woman a thought comes which is not without reverence because reverence accompanies respect—and the natural instinct is to respect that we consider noble. The world loves honor as much as it despises hypocrisy.

All good characters are not positive. They do not protrude themselves and must be sought. But strikingly positive characters, which are found in evil as well as in good, make definite impressions upon those who come in contact with them, and particularly those who do this day after day, and these impressions are strangely similar in the minds of the masses.

"SNAP INTO IT" IS THE NEEDED COMMAND.

Ask almost any young man what "Snap into it!" means and he will tell you.

It means: Quit loafing, catch the step, throw your head back and execute the order quickly.

"Snap into it!" is a sort of rebuke, for when a man or a company is alert and on toes the command is not heard.

It is a pity that there is not some power to order the world to "snap into it." Too many people and too many businesses have gone to sleep in ranks. Everybody is afraid to quicken the pace. Even the pivots are forgetting to cut the corners short. We'll never get anywhere this way.

Optimism is a good thing, but carried to an extreme its influence is lost; and pessimism has no place in the great order of things.

Holding back, waiting for times to get better, hoarding—these are business curses and individual handicaps. When every man is waiting on every other man to "snap into it" nobody snaps into it. Following your leader is at right as a business game as long as it does not destroy personal initiative. But there is no need of slackening the pace just because a few are slow. In the front ranks are leading their "band. The band to do is to press them until they fall by the wayside or "snap into it" again.

Depression is as much a state of mind as anything else. Of course certain conditions cause it, and these conditions are mental as well as material. A great deal of it is caused by general reticence. The man who plays too close later pays for his own folly. The waiters lose while the players win. This is no Utopia; it is a world of facts, and if everything was "just right," there would be no need to try to succeed. The one who "gets there" first is the one who "snaps into it" first. There are no living sacrifices in the world of good business.—Jacksonville Metropolis.

SIDNEY J. CATTS CITED TO APPEAR IN COURT IN GEORGIA.

ATLANTA, Aug. 23.—Sidney J. Catts, former governor of Florida, F. L. Jeter and the American Purchasing company are cited to appear at the September term of the Fulton superior court here to answer an attachment filed in court by J. H. Hogue, of Villa Rica, Ga., to recover money said to have been lost by Hogue in an alleged fraudulent business scheme.

Hogue charges he was induced to pay \$150 to secure a position as manager of a store in a chain said to have been owned and operated by the American Purchasing Co., of which Mr. Catts is said to have been president. He never obtained the position, Hogue charges, and he never has been convinced of the existence of any stores owned by the company.

We know of no news that will please a greater number of our readers than the information that the "stis Lake bulkhead bonds have been sold," declares the Eustis Lake Region. The sale of the bonds was at 98, which is recognized as excellent. They were bought by the First State Bank of Eustis. The contract for the very essential and desirable work was awarded some time ago and can be started at once, the money being available to pay for it. Bulkheading is regarded as highly important and the people of Eustis will rejoice to see the project begun and finished.

If you can't give your friend a drink, brag about him a little. He will get the same exhilarating effect.

Post cards—local views—1c each at the Herald office.

New Jersey Pastors Will Fight Pugilism Six Points on Subject

Will Organize to Ban Prize Fighting in New Jersey

OCEAN GROVE, N. J., Aug. 23.—About 2,000 persons attending the joint conference of the New Jersey State Federation of Churches and the International Reform Bureau, voted last night in the Temple to follow a program of six points in the organization's war on prize fighting. They also adopted a resolution asking President Harding to see that William Jennings Bryan got into the world's disarmament congress to be held in Washington.

While the churchmen were laying their plans to cross prize fighting off the sports calendar, prominent members of the exclusive Spring Lake colony were issuing announcements that a bout would be the feature of the benefit to be held August 26th to raise funds for the Ann May Memorial hospital. According to the announcements, Harry Ertle, who referred the Dempsey-Carpenter bout, will officiate at the benefit; Jack Dempsey has been invited to display his wares and Governor Edwards is listed as Honorary Chairman of the benefit.

The six points of the Ocean Grove conference were:

- 1.—Intensive efforts to prevent fights on Labor day, Columbus day and other holidays of the near future. 2.—Institution of legal proceedings to prohibit the blocking of streets near any fight arenas. 3.—Application to the chancery court of New Jersey for an injunction against prize fighting, the application to be based on the precedent of the Arkansas injunction issued in 1896, which blocked the Fitzsimmons-Corbett fight. 4.—Institution of legal proceedings against Tex Rickard and others "for conspiracy." 5.—A plea to New Jersey voters to support only those candidates pledged to a revision of the state's boxing laws. 6.—A campaign to increase the membership of the New Jersey State Federation of Churches, so as to include representatives of all denominations.

Dr. Robert Watson, New York pastor, criticized Governor Edwards and Dempsey. Dr. Watson said he was an amateur boxing champion himself in the days when he was an undergraduate at the University of New Brunswick, Canada. He was described as one who "packed a pretty good punch." The preacher told the meeting that "Dempsey-Carpenter fight was the most brutal since 1860 and Governor Edwards, the man who promoted it, was worse than the slacker, Dempsey."

The Montverde Industrial School Opens Sept. 6th

MONTVERDE, Fla., Aug. 23.—The Montverde Industrial School will open on Tuesday, Sept. 6, with the largest enrollment and the strongest faculty and executive staff that this growing institution has ever had.

Two hundred and fifty students have been enrolled and as many more turned away for lack of accommodations. This school has never advertised for a student and has never been able to build fast enough to care for the young people who desire to take advantage of the privileges it offers. The students this year already enrolled come from every section of Florida and from six other states.

President and Mrs. H. P. Carpenter, founders of the school, remain at the head of the institution. They came to Montverde nine years ago after a successful career teaching and in connection with the administrative work of one of the largest universities in Kentucky.

Associated with President Carpenter in the administrative end of the institution will be:

Karl Lehmann, vice-president; O. E. Fulghum, of Richmond, Ind., comes as the new business manager. Mrs. Fulghum will be associated with him in the work of this new department.

Prof. J. L. Reynerson, of Kentucky, returns as dean of the school and head of the teaching staff. W. D. Walker, graduate of the Berry School, at Rome, Ga., returns as head of the department of manual training and mechanics. B. K. Wheeler, of University of Florida and Tennessee, will remain in charge of the department of vocational agriculture. J. E. Dudley is farm foreman, working with Prof. Wheeler in the agricultural department. This is Mr. Dudley's third year with the school in this important place.

One Born Every Fourth Minute

A lady who had a family of three children didn't want any more because she had heard that every fourth child born in the world was a Chinaman.

A ludicrous, perhaps, as an old misconception some skeptical folks used to have about advertising.

There was a time, when some advertisements had to be taken with a grain of salt. A few misguided advertisers thought they could sell their goods better by misrepresenting them. Those advertisers have long since gone out of business or mended their ways. Hard experience taught them that untruthful advertising didn't pay.

Other advertisers proved that the only way to advertise successfully, make regular customers, and build up good will was to TELL THE ABSOLUTE TRUTH about their goods in their advertisements.

You can depend on the merchant or manufacturer who advertises. The concern that tells you frankly what it is doing is a good concern with which to do business. The store that advertises is a progressive store that has something really worth while to say to you. And companies that advertise their products or their service have confidence in them. You can safely share their confidence.

Inferior merchandise cannot masquerade in the quality clothes of advertising.

OFFICE SUPPLIES AT HERALD OFFICE

Little Happenings Mention of Matters in Brief Personal Items of Interest In and About The City Summary of the Floating Small Talks Succinctly Arranged for Herald Readers

THE WEATHER

For Florida: Partly cloudy with probably showers in extreme South portion Wednesday, local showers.

H. J. Starling went to Jacksonville yesterday on business.

Libby's special Loganberries, No. 2 per can, 23c.—L. P. McCuller, 129-3tc

N. C. Pike, of Mulberry, Fla., was in the city yesterday transacting business.

See our boys in their war experiences in Flashes of Action, at the Princess Theatre Wednesday afternoon and night. 128-1tc.

Buick Roadster for sale. New tires and is in first class mechanical condition.—B. & O. Motor Co. 129-1tc

John W. Haines, representing the American Type Foundry Co., with headquarters in Atlanta was calling on the printers here today.

Flashes of Action at the Princess Theatre Wednesday afternoon and night. 128-1tc.

Jimmy Thornton, the popular representative of the S. P. Richards Co., of Atlanta, was calling on the local stationery and printing trade today.

Granulated sugar, 13 lbs for \$1.00.—L. P. McCuller. 129-3tp

R. W. Pearman, the efficient secretary of the Sanford Chamber of Commerce, left last night for Jacksonville, where he will spend today on business.

LEXINGTON, 5 passenger, 1920 model for sale. New tires, looks good and runs good. We are offering this car for \$3900.00 less than list price.—B. & O. Motor Co. 129-1tc

The greatest war picture ever shown—actual battle scenes—at the Princess Theatre Wednesday afternoon and night. 128-1tc

Mrs. T. C. Vincent, of Vero, is in the city, the guest of her sister, Mrs. R. J. Holly. Mrs. Vincent has been visiting relatives in Tampa and will go to Vero Saturday for a few days, returning here to spend some time.

CLEAN OLD NEWSPAPERS for sale at Joe's Smokehouse. 129-5tc

Don't tell everything you know or you won't be able to come back for the cure.

See our boys in their war experiences in Flashes of Action, at the Princess Theatre Wednesday afternoon and night. 128-1tc.

When the doughboy came home, the boy look was gone; but he is still looking for the dough.

You can see the American troops in actual action and in every part of the great World War in Flashes of Action, at the Princess Theatre Wednesday afternoon and night. 128-1tc

SANFORD'S TEMPERATURE

Going up. But that dandy little shower came last night to cool the atmosphere and also the moonshine stills and make everything better as it were. If we could have a shower every day until September there would be no more rising of the temperature and it would be like old times again. However, we can't have Paradise down here all the time. But those excursionists from the North say that Sanford is much cooler than where they came from so we should worry. As you were, until next week: 5:40 A. M. AUGUST 23RD

1,000 Rouch Killer, 35c and 65c pkgs.—L. P. McCuller, 129-3tc

The Slav's mind may be convinced that the new doctrine is a wonder, but his stomach isn't.

Flashes of Action at the Princess Theatre Wednesday afternoon and night. 128-1tc.

Get a repaired tire to use as extra. Ford tires for \$3.00.—S. A. Huston. 116-26tc

Many a business slacker who pretends to be doing his best is merely doing his best friends.

Red Speed Wagon for sale. Slightly used and is a bargain for the price we are asking. If you need a truck, see us at once.—B. & O. Motor Co. 129-1tc

Got a repaired tire to use as extra. Ford tires for \$3.00.—S. A. Huston. 116-26tc

It isn't piety that urges men to make an end of wars. Necessity is the mother of prevention.

Haircut 40c at new barber shop, Second street, new DeForest Building. We specialize in children's hair-cutting.—Albert Gramling, Manager. 128-1tp

If it wasn't for ill manners, some people would have no way to show the world how important they are.

Be at the Princess Theatre Wednesday afternoon or night, and see that great war picture, "Flashes of Action." 128-1tc.

The best way to teach boys the decimal and percentage system is to let 'em figure baseball averages.

BANKRUPT SALE—The stock, fixtures and lease on store of S. Benjamin, bankrupt, will be for sale next week. Inquire of C. O. Mahoney, this city or H. P. Bays, Tampa, Fla. 127-5tc

Keep your eye open for the wedding and street dance Friday night of this week in front of the court house. Something doing, yassum.

The only thing that has fewer friends than a wart is the man who brags that he is a knock-out with the ladies.

The greatest war picture ever shown—actual battle scenes—at the Princess Theatre Wednesday afternoon and night. 128-1tc

Send your old mattress to Bradley factory. Make them like new, for \$5.00. 50 lb. new cotton mattress only \$8.00. Guaranteed. 500 W. South St., Orlando, Fla. 122-24tc

People are never so happy as when giving out information—that's why there is so much misinformation.

Be at the Princess Theatre Wednesday afternoon or night, and see that great war picture, "Flashes of Action." 128-1tc.

We have at present in stock one slightly used Hupmobile that we are offering for sale at a reasonable price. If you want the best for your money, see us at once.—B. & O. Motor Co. 129-1tc

A NUMBER of crate mill and saw mill laborers can get permanent employment under first class working conditions at fair wages at our new mill near Bartow, Fla.—Roux Crute Co., Bartow, Fla. 129-6tc

The Merchants Grocery Co., have moved to the new DeForest building on Second street near Sanford avenue. The room formerly occupied by the Merchants is being remodelled and placed in fine shape for the new store of A. Raffeld.

The many friends of Harry P. Driver, are glad to see him in the city again after an absence of many years. Mr. Driver was manager of the Sanford House here for many years, and he and Mrs. Driver and daughter, Martha, have a large circle of friends here. They are living at Atlanta at present, where Mr. Driver is with the Atlanta Hotel Supply Co. He may make Sanford his headquarters in the near future for the state of Florida.

From all reports coming in about the Flashes of Action to be shown at the Princess Theatre tomorrow night it is certainly a fine picture. It was taken from the actual battle fields of France and shows the boys in real action. It will carry the boys and their parents back to the dark days of the World War and one can enjoy it all now that it is over and you watch it from a comfortable theatre seat. Be sure and see this wonderful picture tomorrow afternoon and night.

Mr. and Mrs. Sam Baunel have purchased the new bungalow recently erected by E. J. A. Douglass at the corner of Sanford avenue and Hughes street. Mr. Baunel recently purchased a lot in that same locality but thought it good business to buy a house already for occupancy, and move right in. They will go to house keeping at once as soon as their furniture can be shipped from their former home in Brunswick. Mr. and Mrs. Baunel are the owners of the Specialty Shop and are now not only identified with the business of the city, but are bonafide Sanford residents and property owners.

WILL POST SIGNS IN SEMINOLE. J. A. Seals, advertising manager of the Florida State Auto Association, is in the city in the interest of the organization. The officials in the immediate future, will sign post Volusia and Seminole counties. Mr. Seals has also joined hands with J. S. Silvin and Dr. Guy Bailey, secretary of the Daytona Beach Racing Association to help bring about a means of securing racing prizes, also publish a magazine which will spread the good news of big racing classics on Daytona Beach this fall such as run in Indianapolis and Los Angeles, both for stock and racing cars.

NOTICE! We have moved our grocery store from opposite the postoffice to the new DeForest building on Second St. between Sanford avenue and Palmetto street, rear of the Sanford Dry Goods Co. We will be pleased to see all our old customers and also new ones.—Merchants Grocery Co. 129-2tp

Massachusetts seems to be staging a few scenes of mob lawlessness; but notwithstanding it no longer has Governor Coolidge, we "Have Faith in Massachusetts."

Those who are saying the constitution bars Lodge from the disarmament conference, forget that it also barged Knox from the Taft cabinet; but it didn't.

To Our Out Of Town Friends

Next Friday is the big day in Sanford and we know that you will be in town that day. Bargains will be found at every store on that day and especially the real bargains at our place.

And To Our Sanford Friends

as well as our out-of-town friends we want you to make Sanford's leading Gents store your headquarters all day. You can bring your packages to us and check them. We will take care of them for you. In making engagements with your friends on that day tell them you will meet them at—

MAY COOL HOMES IN SUMMER

Hungarian Engineer Has Designed Evaporation Scheme to Regulate Temperature.

Americans may soon be living in "ice houses." The houses will not be the kind in which ice is stored, but a new type of dwelling designed by Leopold Pollak, an engineer and constructor, of Budapest, Hungary. He is contemplating building a house manufacturing plant in Philadelphia so that the public will have a place to escape the scorching heat without trekking shoreward or northward.

Mr. Pollak said that the houses will be made of infusorial earth and covered with porous bricks. In appearance they will be similar to those used by the natives of South America, who use "monkey jugs," or water but their made of pottery, to cool their homes.

The South American natives place in each corner of a room a water jug and in a few moments the room is cooled by evaporation. Mr. Pollak does not go into detail about his new plan, but states that he can regulate the cooling of a house in summer in a similar manner as that of heating the same building in winter. He said he can make a home as cool as an ice cellar in the hottest day in the year at a cost of approximately 10 cents a day.—Philadelphia Public Ledger.

Reached for Hip Pockets.

Making of moving pictures is rather a novelty in Arizona, and Bisbee residents have difficulty in getting used to seeing gaudily dressed western "bad men" rushing around with artillery strapped on their belts.

Some of the real old time westerners are apt to jump to the wrong conclusion when a "movie eye" comes on the warpath. For this reason a moving picture company, planning to stage a holdup scene at the depot at Osborn, eight miles south of here, had the train crew warn passengers no less than ten times before reaching the station that a "movie train robbery" would be staged. In spite of this several oldtimers on the train reached for their hips when the "bandits" appeared and had to be convinced by fellow passengers that the holdup was not the real thing.—Los Angeles Times.

Explosion.

Volentile explosions are commonly regarded as the release of stores of energy kept confined by external pressure, and later explosions and geyser eruptions are typical of this class of outbursts. An expert of the United States geological laboratory finds that another class of explosions, that of explosive mixtures like gunpowder, are not likely to occur in volcanoes. But a third class, that of explosive compounds brought into contact with oxygen or water, is more probably the usual source of volentile explosions, and is illustrated by aluminum sesquioxide—finely divided—brought into such relation with water in the electric furnace that mechanical detonation causes violent explosion. The dust of Mont Pelée may have been analogous to the aluminum sesquioxide.

Coaxing It.

"Is Mr. Dubuque's golf game improving?" "It doesn't show much improvement, but he certainly is in earnest." "How is that?" "He talks to a golf ball as if he were addressing a pair of dice."—Birmingham Age-Herald.

The Times-Union philosopher says: "He laughs best who got into the theatre for nothing." Our observation is, he is the most unreasonable kicker.
