Tax Equalization Stresses Need For City Revenue

Continued From Page One
 had cut off another 200,000 in valuation. He also called attention to the fact that while the County gets two cents of the seven-cent gasoline tax, the City derives no revenue from this source.

In reply to questions by Mr. Housholder, City Manager H. N. Sager said that a million-dollar increase in property assessments would result from the new appraisals, and that the millage levy now at a maximum, could not be raised. Mayor Gut stated that on a present \$3,000 valuation basis, which would include about 95 percent of the homes in the city, the increase in tax to home owners from the new appraisal would be but \$19.00 a year or 75 cents a month.

Mr. Housholder protested that the public did not know what the extra money was needed for, and he urged the city to increase its tax rate.

Another factor in the growth of the Sanforcity is the fact that the City is getting additional revenue to meet expenses, but not by increasing appraisals.

Supreme Court, at a ceremony held in the Rose Garden of the White House. Holding the bible is Lex Biddle (right), Secretary of the Senate. (International Soundphoto)

Rural Common Sense
 by Spuds Johnson

WORLD FRIENDSHIP AND PEACE BEING PROMOTED BY 4-H CLUB MEMBERS

The idea of world citizenship and loyalty as a means of promoting world friendship and peace was emphasized by 165 4-H club members from 11 states at the National 4-H Club Camp in Washington recently. They believe that a sense of world citizenship will be an important step toward world peace.

Through the years 4-H club members have been pledging their heads, hearts, hands and health to their clubs, their communities and their country. But at the Washington camp the delegates, four from nearly every state, voted to pledge their loyalties also to the world.

"The world today is beset with many problems," says the report of the camp, "and the people of various countries in regarding themselves solely as citizens of their country and not as world citizens; second, the jealousy and suspicion which exist so strongly between nations today; third, the economic instability of the whole world; and finally, the world-wide rivalry which leads to misunderstandings between nations."

To promote international good will, the boys and girls recommended discussions in local 4-H clubs on understanding parents, "since the foundations of a stable government depend upon peace in the home," study by 4-H clubs of the United Nations; 4-H gifts of clothing and food for needy people in evacuated countries; and 4-H scholarships for foreign students.

In an impressive ceremony including 21-year-olds into citizenship, 49 boys and girls declared "We recognize that mankind today is forced to take the path of wisdom or be destroyed by the forces of physical science. And we know that wisdom lies in living together in harmony and cooperation. By strengthening our homes, improving the science and business of agriculture, teaching our children values in rural life, and making Christian principles our code of ethics for everyday living, we are confident that we may do our part to our goal of peace for the world."

charged from the United States Navy, according to information received today from the Jacksonville Naval Personnel Separation Center.

Not one piece of the 62,029 square feet of tile in the New York Public Library has worn out in 35 years of usage.

MANY NEVER SUSPECT CAUSE OF BACKACHES
 This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and wastes out of the blood. They help most people pass about 3 pints a day. When disease of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, aching up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or steady passages with aching and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic used successfully by millions for over 40 years. Doan's gives happy relief and will help the 18 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

New Oviedo Bank Reports Deposits Totaled \$704,117

Officials Of Institution Congratulated By Visiting Bankers Attending Opening

Deposits of \$704,117 and total resources of \$779,117 were reported Tuesday at the newly opened Citizens Bank of Oviedo by Charles G. Shaffer, cashier. The bank opened Monday morning, and was beautifully decorated with floral gifts. B. F. Wheeler, president of the bank, C. R. Clontz, vice president, and other officers and directors of the bank were congratulated by many visiting bankers, both at the bank and at the big barbecue celebration given at the Oviedo School gymnasium in celebration of the event. Among the visitors to the bank were J. L. Ingley, president of the Sanford Atlantic National Bank, and E. G. Kipatrick, vice president of the Florida State Bank of Sanford.

Present also were representative business men and bankers from Sanford, Orlando, Okeechobee, Melbourne, Kissimmee, Winter Park, New Smyrna, DeLand, Jacksonville, Punta Gorda and other Florida communities.

Among those present at the barbecue from Sanford were Edward Higgins, manager, and H. H. Coleman, president, of the Seminole County Chamber of Commerce, State Senator Lloyd F. Boyle, State Representative M. B. Smith and Representative Elt. H. H. Odham.

T. W. Lawton, resident of Oviedo and superintendent of Seminole County Schools, presided at the microphone and introduced the following bankers: Frank Murphy, C. H. McNulty of Melbourne, Linton Allen, Jack Campbell, G. Earnest Wilford of Orlando, and R. V. Lipscombe of Jacksonville.

The metal covered school gymnasium sheltered an estimated 1,200 men, women and children as the whole community and many visitors turned out for the free barbecue on which J. H. Lee and his 25 assistants and staff served the morning meal. Choice of a sheltered space with chairs and benches to sit upon proved to have been fortunate as there was a heavy shower during the early afternoon.

The meat was provided by S. F. Long, C. S. Lee, W. G. Kilgus and Andrew Durla, whose generosity in providing 2,500 pounds of pork and beef made such a thing as a barbecue possible in these days of meat shortage. The school kitchen staff assisted in serving the food, which included potato salad, bread and pickles. Coca Cola and coffee were served as drinks.

Following the luncheon, Supt. T. W. Lawton presided at the microphone and introduced J. E. McAlexander, Supt. Lawton lauded the founders of the bank as men who were interested not in making any more money out of it as they already had made money, but as men who were civic minded, patriotic and loved their fellow men, and were men who at every opportunity had contributed to the building of the community.

Robert Clements Is Awarded Medals At Naval Academy

Lieut. Com. Robert Emmett Clements, USN, was presented the Vice Admiral Aubrey W. Dick, USN, superintendent of the U. S. Naval Academy, with two Gold Star Awards in lieu of the second and third air medals awarded by the commander of carrier division number five.

The presentation took place during ceremonies, June 13, at the U. S. Naval Academy, in Annapolis, Md. Clements was born at Buena Vista, Ga., but has made his home at 600 Park Avenue. He is currently on duty at the Naval Academy. Postgraduate School and also holds the Air Medal, distinguished flying cross, gold star in lieu of the second. The citation read as follows: "For distinguishing himself by meritorious acts while participating in aerial flights in operation against the enemy in the vicinity of Formosa, Indo-China and Nansai Shoto. As pilot of a carrier based fighter plane during the period 8 January 1945 to 22 January 1945 he participated in ten strikes against enemy shipping, airfields and installations, inflicting extensive damage. His skill and courage were at all times leading and in keeping with the highest traditions of the United States Naval Service."

Palestine And Trieste Full Of Allied Soldiers

Death Penalties Given Jews Are Commuted To Life Sentences

By Associated Press—American and British troops are swarming through two of the world's hot-spots—Trieste and Palestine. American and British forces are swarming through two of the world's hot-spots—Trieste and Palestine. American and British forces are swarming through two of the world's hot-spots—Trieste and Palestine.

The situation in Trieste and its neighboring territory still is a puzzle. Part of this is due to its location from Paris. The Venetian Giulia area will be taken away from Italy by the Big Four. There are rumors that Premier de Gasperi may interrupt negotiations in Rome on a new cabinet to go to Paris in an effort to intercede at the Foreign Ministers Conference. It would seem that it would be too late in any event, because the Foreign Ministers apparently have made up their minds on the penalties to be included in the Italian peace treaty.

In Jerusalem General Sir Alan Cunningham, the Palestine High Commissioner, has commuted to life imprisonment the death sentences imposed on two Jews who fired on British soldiers. The Jewish underground organization, Irgun Zvai Leumi, had demanded that the prisoners be spared. The Irgun has been holding three kidnapped British officers as hostages.

Salary Scales At State Schools Hit By Gov. Caldwell

TALAHASSEE, July 3.—(AP)—The difference in salaries paid to faculty members at the University of Florida and the Florida State College for Women "does not make for harmonious relations," this question came from Governor Millard Caldwell today and was made when the cabinet approved a University of Florida budget.

The budget calls for an average overall 16 percent salary increase for the faculty at the Gainesville institution. Although exact figures are not available for salary increases at the Florida State College, the state budget director says "off-hand" he doesn't think state college boosts equal those at the University.

Other budgets receiving the approval of the cabinet included one for more than \$1,000,000 for the State Agricultural Experiment Station and a budget exceeding \$200,000 for radio station WRUF at the university. However, the state-contract station will provide its own funds through commercial operations.

Bilbo Has Majority Over Four Opponents

JACKSON, Miss., July 3.—(AP)—Unofficial returns are in from 1,475 out of Mississippi's 1,713 precincts. In the race for nomination to the U. S. Senate, incumbent Theodore Bilbo has 92,085—a majority of 2,955. The figures for his four opponents are: Tom Miller 55,608; Ross Collins 17,663; Nelson Lovings 14,516 and Frank Harper 1,383.

ATTENDS SCHOOL

Sam Marlin, who recently has become associated with the Heller Motor Sales, local Chevrolet, Oldsmobile and Cadillac dealer, as Paris Manager spent last week in Jacksonville attending a school of intensive training in automotive parts merchandising.

EXAMS SATURDAY

All school teachers who for the first time are applying for certification will take an examination Saturday afternoon at 2:00 o'clock at the office of R. T. W. Lawton. The examination will be in regard to the constitution of the United States.

PERMITS ISSUED

Building permits issued by the city during June totaled \$14,823, according to Miss Helen Boy, the June 1946 total was \$9,970.

War-Free Fourth Of July Blesses Land Again

Rev. McKinley Winner Of Quiz At Kiwanis Meet

Baseball Quiz Conducted By Morris; Others Win Prizes

High prize winner of the July baseball quiz conducted by the Sanford team was Rev. J. P. McKinley.

For the first time in months the church guests of afternoon dinners had lunch, smoked, beer, and coffee—practically everything. At one big New York City retail market, there was a line of more than 70 persons waiting when the doors opened. Throughout the country, shoppers found that meat prices varied from OPA ceilings to considerably above.

Former Sanford Man Dies In Fort Worth

James E. Abernathy, former Sanford resident and employer for 15 years at the Florida Power and Light Plant, who served in the Navy during the war, died Monday at Fort Worth, Texas, according to word received today by Frank L. Miller, secretary of Sanford Lodge 62, F. and A. M. of which Mr. Abernathy was a member.

COMPENSATION PAID

Unemployment compensation payments in Seminole County during the week ending June 22 amounted to \$277.50 and were made to 17 persons, Carl H. Smith, chairman of the Florida Industrial Commission reported. Payments of \$98,855.50 were made throughout the state, he said, to 8,550 men and 2,670 women. During the previous week, \$94,130 was paid in compensation.

YEARBOOK READY

Seminole High School's annual year book, Salamagundi, will be ready for distribution Friday at from 9:00 to 12:00 A. M. and from 1:00 to 3:30 P. M. It was announced by Miss Rebecca Stevens of the faculty.

Sales Increase Of 28 Percent At Market Reported For Fiscal Year

Housewives Find Better Supply Of Butter And Meat

Housewives reported the supply of meat better than it has been in a long time.

The market reported the total sales of Florida and other state fruits and vegetables sold from July 1, 1945 to June 30, 1946 at the Sanford State Fair. Market sales reported a total of \$1,200,000, compared with \$940,000 for the same period last year.

APRONN PRESENTED

Aprons were presented last evening to 18 Masons at Sanford Lodge 62, F. and A. M. The presentation was made by Frank L. Miller, past master.

The layer of atmosphere in which man exists is called the troposphere.

In the northern hemisphere a cyclone rotates in a counterclockwise direction and clockwise in the southern hemisphere.

Johnson Explains Farm Training For Veterans

Program Outlined To Build Farms Under Good Supervision

The program is being organized and will be directed by the Vocational Agricultural Department at Tallahassee.

Mr. Johnson explained that the program is being organized and will be directed by the Vocational Agricultural Department at Tallahassee. He added that farm specialists will visit the trainees' farms to give advice on various farming subjects. The trainee will be required to work 30 hours per week on his farm and must spend three hours per week on class work. The latter portion of the training will probably be held at the Seminole High School farm where facilities for repair work, soil analysis and shop work will be available.

TO INACTIVE DUTY

Lieut. A. R. Rossetter, Jr., Celery Avenue, has been placed on inactive duty in the United States Naval Reserve, according to information received today from the U. S. Naval Air Station in Jacksonville.

Other major vegetable sales were: tomatoes, \$101,680; potatoes, \$90,329; iceberg lettuce, \$88,058; peppers, \$86,813; cucumbers, \$49,224; cauliflower, \$43,301; corn, \$24,141; English peas, \$26,770; yellow squash, \$20,051 and escarole at \$20,394. In the \$10,000 class or near this amount were turnips, green onions, cucumbers, eggplant, lima beans. In the \$5,000 to \$8,000 groups were beets, collards, Boston lettuce, lug tomatoes.

In the \$3,000 to \$5,000 class were: beets, field peas, pineapples, (Cuban), radishes, strawberries, coccolite squash.

Two More Bills To Revive O.P.A. Sent To Banking Group

A Bomb Vessels Might Be Ruled Safe Tomorrow

Some Ships Continue Sending Off Deadly Radioactive Rays

WASHINGTON, July 3.—(AP)—Two identical measures to revive peacetime controls have reached the Senate Banking Committee. One has been passed by the House and the other introduced in the Senate by the Banking Committee chairman, Robert Wagner.

The Navy's latest report on damage done at Bikini lagoon says that 19 of the 23 large ships showed the effects of the atomic blast. The report is to be published. The title of the bill is being withheld to avoid disclosure of the Navy's findings.

The bill would require that all ships carrying atomic materials be inspected by the Navy. It also would require that all ships carrying atomic materials be inspected by the Navy. It also would require that all ships carrying atomic materials be inspected by the Navy.

Texas Senator Ends Use Of Blocking Tactics To Stall Price Legislation

WASHINGTON, July 3.—(AP)—Two identical measures to revive peacetime controls have reached the Senate Banking Committee.

The bill would require that all ships carrying atomic materials be inspected by the Navy. It also would require that all ships carrying atomic materials be inspected by the Navy. It also would require that all ships carrying atomic materials be inspected by the Navy.

The bill would require that all ships carrying atomic materials be inspected by the Navy. It also would require that all ships carrying atomic materials be inspected by the Navy. It also would require that all ships carrying atomic materials be inspected by the Navy.

John H. Patterson Discharged From U.S. Naval Service

WASHINGTON, July 3.—(AP)—John H. Patterson, former U.S. Naval aviator, was discharged from the service today.

Patterson was discharged from the service today. He was discharged from the service today. He was discharged from the service today.

Patterson was discharged from the service today. He was discharged from the service today. He was discharged from the service today.

MAY ANSWERS CHARGES

Representative Alvin May has answered charges that he intervened with the War Department on behalf of the Batista Metal plant.

ABOVE STRIKE

Operations of Northwest Airlines are held up from coast to coast today by a strike of machinists and mechanics workers. The union, the International Brotherhood of Mechanical Engineers, is picketing the Seattle offices and hangars of the airline at 8:00 A. M. Eastern Daylight Time.

NO LARGE ONES

"I am not going to try to catch the biggest bass in the lake, the middle sized ones will suit me," said C. C. Collins, railway express conductor and prominent Woodman lodge leader, as he applied for a new fishing license today at the office of County Judge R. W. Ware.

DEBATE POSTPONED

WASHINGTON, July 3.—(AP)—House debate on the proposed loan to Britain has been postponed until Monday. House leader John McCormack said the postponement was needed because many members indicated they would be away from Washington over the holiday week-end. The debate had been scheduled to start on Friday.

MAJORITY

The majority of retail stores, the banks and municipal and county offices will close Thursday for the Fourth of July celebration.

WEDNESDAY, JULY 3, 1946

BIBLE VERSE FOR TODAY

THE GOOD LIFE PERMITS
 AN AMAZING VARIETY OF
 EXPRESSION, BUT NO DEFI-
 LIENT: Ye have been called unto
 liberty; only use not liberty for
 an occasion to the flesh.—Gal.
 5:13.

Property tax assessments in
 Dade county have recently been
 increased on the average by 31
 percent.

It is interesting to note that
 among the chief mourners at the
 funeral of the OPA, were the
 Black Marketeers.

Mob Stones U. S. Troops at
 Trieste — headline. Poor Uncle
 Sam! As popular in Europe as
 he was after the last war.

Governor Arnall, Georgia's out-
 standing liberal is being accused
 of having been a member of the
 Ku Klux Klan. But that's no-
 thing! So was Justice Hugo Black.

We have been delighted with
 the prospects of a tennis tour-
 nament in Sanford, but we have
 been wondering where they were
 going to play.

It is estimated there will be at
 least five hundred people killed
 in accidents during the Fourth of
 July holiday. Will you be one
 of them?

Now that the atom bomb has
 turned out to be such a dud—or
 has it?—there will be no excuse
 whatever for not having the third
 world war.

Even though the atomic bomb
 didn't wipe out the entire fleet
 at Operations Crossroads, think
 of what would have happened if
 two or three such bombs had been
 dropped, or a couple of thousand.

Perhaps the United Nations
 Atomic Energy Commission, which
 is having such a difficult time
 trying to find some means of
 controlling atomic energy should
 consult with those goats on the
 good ship Pennsylvania which de-
 fied the blast at Bikini.

In Cincinnati the other day
 a baseball fan was hit on the head
 with a beer bottle when another
 fan, in an upper tier, tried to
 throw a sock the umpire. The
 practice of tossing beer and other
 bottles at baseball and football
 games should be discouraged.
 Some day someone is going to get
 hurt.

There were at least a dozen
 people who protested against in-
 creasing tax assessment at the
 City Commission meeting the
 other night. The several thousand
 or more citizens who want better
 parks and playgrounds, street and
 sidewalk improvements, sewers,
 fire and police protection, garbage
 collection, not to mention spray-
 ing with DDT, were not there.

We suspect that any merchant,
 or any landlord, who seeks to
 gouge the public at this particular
 time, when price ceilings are off,
 demand great and supply low, will
 be remembered in the years to
 come. He may make a little
 extra profit by such practices
 now, but he will be remembered
 by the long-suffering public when
 supplies are more plentiful and
 demand perhaps not quite so great.
 The sun doesn't shine on the
 same dog's tail all the time.
 Those who act fairly and decently
 now will be rewarded later.

The biggest mistake which land-
 lords in Florida could make is to
 raise rents, assuming they can.
 If OPA rent control is not re-
 stored, in the first place, drastic
 rent increases will certainly
 bring about a return of the OPA,
 which is something that no prop-
 erty owner wants. In the sec-
 ond place, high rents in Florida
 will keep many tourists from re-
 turning to the state next winter
 and that is the biggest cash crop
 Florida has. If rents are raised
 and the OPA is not restored, then
 Governor Caldwell should assume
 a special session of the Legisla-
 ture for the purpose of control-
 ling rents by legislative action.

Their Eighteen Months

By the compromise legislation that extends selective service until March 31, 1947, Congress has merely put a troublesome problem on the shelf for a few months. In the meantime, whatever happens after the 1947 date, a goodly number of 19-year-old youths must give 18 months of their lives to their country.

Such a period will interrupt college and trade school training, and for those not in school, wage earning. But it will not be lost time. They will learn not only something about whatever services they are in, but will have excellent physical training and a chance to see other countries. Their contribution will be the practical one of keeping the peace.

The war was dearly won. It will be necessary for an indeterminate number of years to see that militaristic nations do not again get the opportunity to develop armaments. An international police force, like a domestic one, is needed to keep order. The 19-year-olds will be paying a small price for the privilege of living in a peaceful world and having the promise of a peaceful world for their own future families.

Efficiency Needed

A new international food agency is at work attempting to make short supplies go as far as possible. This is called the New International Emergency Food Control. It plans to take over within the next few days the work of the American-Canadian-British food board. Its membership now numbers 19 countries.

Other nations will be admitted whether UN members or not provided they meet the council's conditions. The United Nations food and agriculture organization will support the food council which was formed at its recommendation. The executive will be Dennis Fitzgerald, food expert of the U. S. Department of Agriculture, while Holland's A. H. Peters will be president and a Belgian, J. Charles Van Esche is vice president.

America, which cannot manage its own domestic food supplies, will, it is hoped, have leaders on this new organization who can help get food in the quantity needed, and promptly, to the starving victims of war.

Funds Well Used

An experiment in checking tooth decay is going on simultaneously among school children in Newburg, N. Y., Grand Rapids, Mich., and a county in southeastern Ohio. Children between seven and 15 are having half of their teeth treated with fluoride in a six-month study conducted by the United States Public Health Service under Dr. D. J. Galagan, dental surgeon.

As an outgrowth of war-time tests on service men, it was discovered that fluoroine, administered in limited amounts, prevented tooth decay, particularly in immature teeth. This study attempts to confirm such experiments.

Public funds spent in such programs as this of the Public Health Service are money well spent and too little advertised. War can always get attention and financial backing, but legislators hesitate to vote appropriations for peace time living.

President May Pressure Jackson Into Resigning | Congress Gives Truman Worst Beating of OPA

Special to Central Press
 WASHINGTON—Political observers expect no resignations on the supreme court for months to come, if then, despite the now famous feud between Justices Robert H. Jackson and Hugo L. Black.

In the first place, the high bench is in recess for the summer—which may prove a cooling-off period in more ways than one. In the second place, who is to resign—Jackson, Black or both?

Informed sources are convinced that President Truman would be pleased if both bowed out and cleared the atmosphere for Chief Justice Vinson when he takes office.

But Jackson, winding up his job as chief United States war crimes prosecutor at Nuremberg, has shown a determination to see things through to the bitter end.

Naturally, observers explain, Black is not going to step down unless Jackson does, and perhaps not then. The Alabamian, a tough and tart-tongued veteran of Senate battles, feels that his honor is at stake.

The possibility arises that the president may put pressure on Jackson when he returns, but that is as far as the president can go. There is nothing in the Jackson charges against Black, as House and Senate judiciary committees have pointed out, that justifies proceedings against the Alabama justice.

Thus the feud, as sizzling as a midsummer day in Washington, promises to crackle through the summer and beyond.

WASHINGTON REPORTERS were startled—momentarily—by a war department release on the subject of food for world famine areas. The release carried a heading which read: "Fifteen ordinance plants to manufacture fertilizers for starving countries."

The text, however, quieted fears by saying that the plants will be diverted from explosives to turn out nitrogen fertilizers for shipment overseas to aid growing of food.

WASHINGTON DIPLOMATS BELIEVE there is a long story of palace intrigue behind the death of young King Anidol of Siam, found with a bullet hole in his head a few days before he was to leave for a White House visit in this nation's capital.

Stories reaching Washington are vague and distorted, but generally the verdict of those persons holding a few facts and who are familiar with the Orient is that it was not a suicide and perhaps not an accident.

Official versions out of Bangkok list only those two alternatives. One report from Siam said the king was shot through the forehead, a bullet between his eyes. But, said the same report, there were no powder burns between his eyes and it is argued that a man could not thus shoot himself without showing some burns.

The United States is interested in Siam since it is the only independent small power in the Far East.

SOME CONCERN IS FELT among state department big-wigs over the failure of any appointment of war-time holdovers among the diplomatic corps. Such topflight wielders of diplomacy as Cordell Hull, who worked himself almost to death, and Joseph C. Grew, who lingered almost a year in Jap confinement when caught as ambassador to Tokyo on Pearl Harbor day, have been overlooked for such decoration as the Distinguished Service Medal.

Along with Grew and Hull is William Phillips, ambassador to Rome, who was absent from his post when war broke. Phillips later performed several secret missions for President Roosevelt and, after retirement, was United States representative on the Anglo-American Palestine commission.

TWO DOWN—ONE TO GO!

Eight signers of the Declaration of Independence were foreigners, to help restore shrunken stools, rinse them in soapy water, instead of clear water.

Rigged in his own parachute, "Fritzy" is pictured with his master before a test flight. (International Soundphoto)

Charles Hurt Given Regular Army Rank

Capt. Charles C. Hurt of Sanford received notice Friday from the War Department of his appointment as an officer in the regular Army Air Force with rank of captain.

During the war, Capt. Hurt served about four years in the Army Air Force and participated in action in Europe.

Following this he had six months of foreign service in the Air Transport Command. During the past six months he has been doing accounting and Federal taxation work. His offices are in the Woodruff Building.

He is married to the former Elizabeth Stewart of Essex, England. They have two children, a boy of four and a girl one year old. At present, he is awaiting further orders from the War Department before moving. He is the son of Mr. and Mrs. J. L. Hurt of 1011 Oak Avenue.

The first cows were brought to the American colonies in 1634 by Governor Winthrop.

The first corn beans sent to the United States came from Africa in 1891.

The grapefruit was brought to Florida by the Spaniards in the 6th century.

Nationwide Survey Of Medical Services Begins Here In Florida

JACKSONVILLE, July 3. (Special)—The American Academy of Pediatrics wants to know just what medical services are available to small Americans and has launched a nationwide study to find the facts. The program is undertaken on a state level and Florida is one of the first ten states to get the survey underway.

It was stressed that this is the first major study on medical and hospital services ever attempted by an organized group of physicians.

Miss Stella Lackey, state executive secretary with headquarters in the Maternal and Child Health Bureau of the State Board of Health said that the Academy is interested in knowing what the weak spots in child care ARE and where they ARE.

The study is a highly cooperative moment and the Academy of Pediatrics has enlisted the assistance of the State Health Department, the Children's Bureau, U. S. Public Health Service, National Foundation of Infantile Paralysis, the Tuberculosis Association, Medical and Dental Societies and Hospital Association.

The Florida State Board of Health is aiding with both personnel and money and the Florida Chapters of Infantile Paralysis are assisting financially.

Miss Lackey said that the study was undertaken primarily because of Bills now before Congress proposing legislation for maternal and child care, and that if the Academy is to be in position to make recommendations on the basis of factual data, the study is essential at this time.

When the nationwide facts are compiled they will be used to form systematic plans. To make available to all mothers and children in the U. S. A. all essential preventive, diagnostic and curative medical services of a type which are used in cooperation with other services for children and will make this country an ideal place for children to grow into responsible citizens.

Questionnaires have been sent to all county and city health departments, private physicians and dentists and hospitals in the State asking varied questions designed to give a picture of Florida's current facilities for child care. Where are child health clinics located and what is the usual attendance? How many children are receiving immunization and from whom. Their private physician or the local health department? What hospital facilities are available? Physicians are also asked to indicate the percentage of their small patients hospitalized.

charge and that he will apply to the Honorable J. W. WADE, County Judge of Seminole County, Florida, on the 12th day of July, 1946, for approval of same and for final discharge as Administrator of the estate of GILBERT STOKES, deceased, on this 11th day of June, 1946.

Blow Is Aimed At OPA Pocketbook In Senate By Bridges

Attempts to Keep Appropriation Group From Even Discussing Bill for Agency

WASHINGTON, July 5. (AP)—Republican Senator Styles Bridges aimed a blow at the pocketbook of the OPA today in an attempt to keep it dead. Bridges tried to keep the Senate Appropriations Committee from even discussing a \$106,000,000 appropriation bill for the agency. The New Hampshire senator declared the OPA was "really dead" and therefore the committee could not even hear testimony by price chief Paul Porter on the money bill.

Porter has asked Congress to make further changes in the OPA compromise extension measure approved yesterday by the Senate Banking Committee. He maintains that the committee does not go far enough, and the bill contains undesirable features.

The price administrator emphasized that his favorable comment after the Senate committee meeting yesterday applied only to the Barkley amendment. That's the provision that was substituted for the amendment sponsored by Senator Robert Taft of Ohio.

Porter said today that his comment did not represent blanket approval of the entire bill as it was reported out by the banking committee. Said Porter: "I still hope that Congress will pass a bill that will conform to the President's recommendations in his veto message."

The OPA director did not specify just what provisions of the bill he considers undesirable. It is understood that they include the amendment that would outline the OPA rule to force production of low-cost clothing, and another provision for a special market for cotton and woolen textiles. Porter also is said to oppose clauses that would restore the pre-war profit margin for dealers in automobiles and household appliances, transfer control of food prices to the Secretary of Agriculture, and set up new machinery for removal of price controls.

Veterans Housing Problems Will Be Discussed Monday

Commander Bradley Odham of Seminole County Post No. 3282 of the Veterans of Foreign Wars today extended an invitation to all veterans of this area to attend a meeting next Monday evening at 8:00 o'clock which will be open to all citizens for a discussion of veteran's housing problems in Seminole County.

Comdr. Odham stated that invitations to attend the meeting have been issued in realtors, attorneys, contractors, bankers, and officials of various veteran and service bureaus.

"This will not be an official V. F. W. meeting," Mr. Odham declared. "It is open to the public, particularly to all members of the American Legion and the V. F. W. and we hope to formulate plans to ease the housing situation here in Seminole County for the returning service personnel."

Miller Williams Is Awarded Navy Wings

Miller Williams, son of Mr. and Mrs. Volie A. Williams, 609 Macaulay Avenue, received the gold wings of a Navy pilot at the Naval Air Station, Pensacola recently.

Having completed primary and basic flight training, he was designated a naval aviator. Members of his class who elect to remain in the Navy will proceed to advanced training.

He is currently spending a few days with his parents, Mr. and Mrs. Volie A. Williams.

ALAMOSA, Colo. (AP)—A rural mail route of 100.8 miles, believed to be the longest in the nation, has been approved from Antonio west to the Conchos River Canyon. It was authorized largely to serve construction workers and vacationists.

COMMISSIONERS MEET

City Commissioners were today scheduled to meet at 3:00 P. M. at an equalization board.

Gen. Campbell Says Pressure Put On By May

Accuses Congressman Of Being Unfair In Activities On Behalf Of Metal Firms

WASHINGTON, July 5. (AP)—Major General L. H. Campbell, Jr. told the Senate War Investigating Committee today that he got "a good deal of the pressure put on him by Representative Andrew May for an Illinois munitions maker. The munitions maker now is under congressional inquiry."

Campbell, who formerly was chief of Army Ordnance, said May was only in his activities in behalf of May's firm, the only fact of which he was aware. He said it was all right with him when citizens sent protest letters to him, but he was not at all into the potential factors of needed war material. Also heard it was perfectly right when he was introduced and when he became insistent in the case of Campbell, that was something else again.

Campbell also testified that Secretary of War Patterson, when he was under secretary, did not speak to him about obtaining contracts for the Batavia and Erie High metal products corporation. These firms were one of the 2 closely linked Illinois firms for inquiry.

Previously Campbell told the committee that May had indicated by telephone to General Patterson that he had been approached by an attorney as the behind-the-scenes manager of the 2 Illinois munitions companies who were profits are being investigated.

Jenkins Says All Tax Certificates Were Sold Monday

All county tax certificates for 1945 were sold Monday to individuals. The county collector stated that the sale included 111 certificates and amounted to \$2,200.

This means that nearly all the county funds are covered. The \$15 taxes are paid in full and date for the reason the amount received for individual county tax certificates is disbursed in the manner as funds received in tax receipts.

This also means that Jenkins said that two years ago more are will be sold in the county than in any other year.

An unusual feature of the sale was much competitive bidding. On a number of occasions as many as seven persons bid on "no interest" for the 4-year. Where there is no competitive bidding the purchaser receives interest at the rate of 5 per cent on the first year and 10 per cent on the balance.

Two years from the date of a tax certificate, which is not being redeemed, the bidder apply to the Clerk of the Court for a tax deed to a property described on the certificate.

This is the general consecutive sale of all county tax certificates which have been sold to individuals, Mr. Jenkins stated.

Summer Playground Program To Open Monday Morning With Pet Show

Goose Kettles, city recreation director, announced today that children's division of the current summer recreation program will begin activities Monday morning at the Grammar School playground with a pet show.

Mr. Kettles said that all children are requested to be present and bring their pets. He added that prizes will be awarded for the cutest, oddest, smallest and largest pet entered in the show.

The recreation director also said this morning that movies will begin next Thursday at 10:00 A. M. at the Sanford Junior High School auditorium.

Other activities slated for next week include the organization of the Boys Catholic Club. Members joining the club will be admitted free to the home games of the Sanford Celery Peds. Kettles said, after completing arrangements with President Joseph Field of the Sanford Baseball Association. All members of the boys baseball school are eligible members and membership cards will be issued Tuesday morning.

George Touby Is Main Speaker At Lions Club Meet

Compares Conditions Today With Those 170 Years Ago

Speaking in commemoration of the nation's birth on July 4, 1776, George Touby in a talk to members of the Lions club at their meeting today compared national conditions of the present with those of 170 years ago.

The first speech upon the risk involved in the momentous decision made by the small group of patriots who formulated and signed the Declaration of Independence. They knew, he said, that framing would be a major hazard, and that they faced great political risks.

In this connection he quoted John Adams on the Declaration: "If to the pleasure of Heaven that my country shall require the most offering of my life, the offering shall be ready. But while I live, I will have a country in at least the hope of a country and the love of a country."

When the Declaration will be signed, he said, the country will stand and will not be a mere shadow of the present. The thought of the present is the thought of the future, he said, and the thought of the future is the thought of the present.

He said that the Declaration will be signed, he said, the country will stand and will not be a mere shadow of the present. The thought of the present is the thought of the future, he said, and the thought of the future is the thought of the present.

July 25 Set As 21st Annual Encampment At Lake Winona To Get Underway Monday

Adm. Blandy Declares 70 Foot Tidal Wave Can Be Expected

Admiral Blandy, U.S. Navy, today declared that a 70-foot tidal wave could be expected to strike the coast of Florida in the event of a nuclear explosion in the Atlantic Ocean.

He said that the tidal wave would be caused by the displacement of water by the explosion, and that it would travel at a speed of 500 miles per hour.

Admiral Blandy said that the tidal wave would be a major hazard to the coast of Florida, and that it would cause widespread destruction.

He said that the tidal wave would be a major hazard to the coast of Florida, and that it would cause widespread destruction.

July 25 Set As 21st Annual Encampment At Lake Winona To Get Underway Monday

Adm. Blandy Declares 70 Foot Tidal Wave Can Be Expected

Admiral Blandy, U.S. Navy, today declared that a 70-foot tidal wave could be expected to strike the coast of Florida in the event of a nuclear explosion in the Atlantic Ocean.

He said that the tidal wave would be caused by the displacement of water by the explosion, and that it would travel at a speed of 500 miles per hour.

Admiral Blandy said that the tidal wave would be a major hazard to the coast of Florida, and that it would cause widespread destruction.
