

HUMAN TORCH DISCOVERED ON HERSEY ROAD

Body Of Woman With Head Smashed And Face Partly Burnt Found Still Warm

Driver Of Bread Wagon Has Clues

Presence Of Jewels Eliminates Theory Murder Was Motive

SANFORD, N. J., Feb. 22.—(INS)—The body of a woman, her head crushed in and clothing saturated with gasoline, was found here today. John Boyle, wagon driver, was making his early morning deliveries of bread when he came upon the body. It was still warm, Boyle reported to the police.

County physician Charles A. Brown and police chief James Kennedy, with county detective John A. Guilman, started an investigation. They located the driver of another baker's wagon, who had been over the same spot a few days before Boyle passed it. The man was positive that the body was a woman and that she was near where the body was found. The victim is about 35 years old, five feet tall, and weighed about 115 pounds, and was well dressed. She was attractive. That was not the motive was evident by the presence on her hands of two diamond rings and a wedding ring. The police were hopeful that they might trace her identity through the rings.

The face and shoulders of the victim were slightly charred, according to the police, a haste at apparently having been burned to burn her body. The police believe that the approach of the victim's wagon frightened the killer.

The woman was found in the best residential section of Sanford. Police recalled that three days more than a year ago, Mrs. Margaret Brown, 28, old wife of a truck driver, was found lying on her back, her head crushed in, and her body was never caught.

Wife Confesses To Kidnaping Child Of California Family

SAN FRANCISCO, Feb. 22.—(INS)—Abandoning her weeping four-year-old Doris Murphy came into her room, Mrs. Edna Sharp, 28, old wife of a truck driver, admitted today that she abducted child.

Rewards totaling \$5,000 have been offered for the child's return. Police have launched one of the most intensive searches in the history of the state before the child's whereabouts became known.

Sharp, 39, San Francisco, Cal., the woman declared she decided to return the child after a man had stopped her on the street and told her the baby with her hand like the kidnaped girl.

When Mrs. Sharp began to try to figure a way out of her predicament, she had told her husband that Doris was their own child. She had been playing with relatives in Los Angeles. Her first trip to police recounted how she was returned over to her at San Jose, Cal., by a man she did not know.

Then police found discrepancies in her story. She told them that the child was given to her at the city building here by John W. Hart, already under arrest as a kidnaper.

She then, too, collapsed. Mrs. Sharp confessed that the child was in her home directly in Jefferson Square. She said any child playing and that told her story with her. Mrs. Sharp has assumed all the blame for the abduction. Doris was released in any way while with the child. Mrs. Sharp purchased her clothes and the child's long hair was cut as to make identification more difficult.

PASTOR IS INJURED

PORT WORTH, Tex., Feb. 22.—(INS)—Dr. J. Frank Harris, pastor of the First Baptist Church, was injured here today when he was struck down by an automobile. He was taken to a hospital emergency treatment.

Lindbergh's Marriage To Anne Morrow Will End His Long Distance Hops

Fiancee And Family Have Requested Flier To Abandon Hazardous Flights After Nuptial Ceremony

MEXICO CITY, Feb. 22.—(INS)—News of the marriage of Charles A. Lindbergh to Anne Morrow, a wealthy American, was greeted with surprise here today.

From a source familiar with the couple, it was learned that the marriage was a surprise to the public. The couple had been together for some time, but the marriage was not announced until recently.

The source said that the couple had been together for some time, but the marriage was not announced until recently. The source said that the couple had been together for some time, but the marriage was not announced until recently.

FINAL RITES ARE TAXIMAN STOPS HELD FRIDAY FOR CROOK AND GETS PROMINENT MAN LODGED IN JAIL

Joseph G. Ball Laid To Rest As Friends Pay Last Respects

SANFORD, Feb. 22.—(INS)—A final tribute was paid today to one of the best known and most beloved citizens. With grief-stricken relatives and sorrowing friends assembled as a last exercise of the esteem with which the town of Sanford held the man, the funeral services for Joseph G. Ball, merchant and business man who died suddenly Thursday morning, were held at the Episcopal Church.

The services at the church were brief but impressive as were the rites at the cemetery. Between a sad and a solemn mood, the business houses were closed out of respect to him, who played such a prominent part in the business and civic life of the community. The church was filled, many of those present being out-of-town friends and acquaintances.

The casket was borne to the cemetery down an aisle that was lined with floral tributes. It was placed within its shroud and followed by pallbearers, who were chosen from among Mr. Ball's closest friends, the casket moved as part of the funeral procession that entered the church to the soft strains of organ music. The Rev. Mortimer Glover and the Rev. W. P. Buchanan were the officiating ministers. Music was furnished by vested choir.

Honorary pallbearers included Frank P. Foster, H. H. Stevens, E. A. Douglas, A. T. Kossler, T. J. Miller, C. E. Henry, W. M. Scott, A. P. Connelly, B. F. Whiner, J. E. D. Moberg, and Judge James G. Sharon. Active pallbearers were John W. Kelsch, H. E. Squire, Judge Wallace W. Wright, P. J. Feister, R. J. Holly, F. E. Dutton, L. A. Brunley, and L. W. Lawton.

Besides his widow, Mr. Ball is survived by two daughters, Mrs. W. J. Steed of Kissimmee, and Mrs. Dick Brown of Sanford and three sons, Henry C. of Miami and J. Hodgson and William of Sanford. (Continued On Page Four)

Jim Spencer Wins Invitation Tourney At Sanford Course

JIM SPENCER with a card of 79-90 won the invitation tournament which was staged Friday at the Sanford Country Club. E. C. Hart of Chicago and C. E. Myers of Sanford tied for second place, each with a net 71. Mr. Hart won second prize in the drawing. Each had a card of 66-71.

Thirty-two players entered the meet, which was featured by spirited competition. Mr. Spencer was awarded a dozen Gold Circle balls. Mr. Hart received a dozen Blue balls and a dozen Hi-balls were presented to Mr. Myers.

Qualifying rounds for the club championship will begin Sunday and continue until next Friday. The first 16 players will compete the championship tournament while the next group of sixteen will play in the second flight. A blind bogey tournament will also be staged as a feature of tomorrow's play, according to an announcement by Elmer Carlson, local professional.

Monday will be ladies' day with a two-ball foursome as the feature. This championship for women will be staged Mar. 4.

Negro Charged With Slaying Gets Bond

HENRY ROSE, negro, who was arrested Wednesday in connection with the fatal shooting of Albert Murray, was released Friday under \$1,000 bond after a preliminary hearing. He was bound over awaiting action of the grand jury.

The negro is charged with having shot the woman twice in a family row at their home in Sanford. The shooting occurred Sunday night. Rose was arrested Monday and placed under \$1,000 bond. The woman died Wednesday and the negro was released.

FINE CARS DESERVE FINE OIL

People who know their way about in the world, and whose lives prove it, have very simple solutions for motor-ing problems. They instinctively trust the leadership built by quality.

The clean, clear, golden Texaco is as natural a motor oil for them as the good lines of the cars they drive or the clothes they wear. By itself they might not give more than a passing thought to the color, but with a world-known name shining through it—they are content.

On the Road, or on the Avenue, they naturally roll up to the Texaco Red Star and Green T for lubrication service.

MINE EXPLOSION IS RE-ENACTED IN ENGINEER TESTS

Safety Study Is Conducted By Bureau To Analyze Detonation

BRUCCTON, Pa., Feb. 23.—(INS)—The wall of rubble of a recent explosion at the mine of the United States Bureau of Mines experimental mine here. For above us the detonations were being analyzed by electrical devices.

Into the pitmouth, our small party, led by H. C. Howarth, mine superintendent. Next came J. J. Forbes, supervising engineer of the Federal mine bureau, followed by this writer and G. M. Kintz, assistant mining engineer. Electrical lamps, attached to our caps, stilled the darkness for a few feet and far back of us came a faint glimmer of light from the pitmouth.

Soon our feet were beating small spirals of grey dust from the mine floor as we passed through a stretch of rock dust, considered the most effective check in mine explosions. We passed under a heavy board barrier, laden with two thousand pounds of limestone dust, then through 120 feet of coal dust, a highly explosive mixture.

Thirteen hundred feet from the pitmouth we came upon a smaller passage, and at the far end of the entry a small cannon was mounted on a cement base. Here 2 1/2 pounds of black powder had been tamped into the muzzle of the gun, and sealed with a pound of clay stemming. Before that cannon, on a cement ramp, 120 pounds of explosive coal dust was scattered.

As the small party wended its way out of the danger zone, we passed minute timing and photographic devices, electrically wired to register the force of the explosion and the velocity of flame and smoke at specified distances throughout the mine. Silent miners joined our group as we filed out of the mine, and sought the safety of a nearby clearing.

Warned by blasts Three sharp blasts from a siren warned stragglers out of the mine. A last warning, and then the mine superintendent signalled for our attention. There was a burst of smoke and a streak of smoke shot out of the pitmouth and went rolling out over the valley to the hills beyond. The very earth seemed to tremble at the impact as dense clouds of smoke rolled out of the mine, enveloping the watchers, and sliding, and then again pouring forth in a heavy bill.

A strong stench of oil, followed the deadly mine fume. After, within the mine the heavy timber barrier was a shambles, and the landscape beyond filled with nearly 1,000 pounds of limestone dust had failed to check the belching flames.

Examination of the apparatus revealed that despite hundreds of pounds of the potent rock dust and two sets of limestone barriers, the flames had penetrated 550 feet down the entry and 425 feet down another. No human life could have survived the terrible impact, as being blown away in runways could have withstood the heavy fumes which followed.

It was a perfect re-enactment of the blast which took nearly two hundred lives at Muller, Pa., last year, and preceding one in which two hundred of human bodies in a mass of charred flesh.

Back in the apparatus room, perched on a hill top in the center of the 77 acre experimental mine field, instruments had registered every detail of the blast. Huge charts were prepared, and by close study at this date, mining hazards are rapidly lessened, and the danger of major mine disaster minimized.

SEMINOLE PARK

After A. R. Barnett returned from a two-day trip through the North, he was met by a large crowd of people at the Seminole Motor Co. booth at the Central Automobile Show. This is greatly enhanced by the large amount of publicity.

Final Rites Are Held Friday For Prominent Man

(Continue From Page One)

He also leaves five sisters, The Misses Mattie, Ruby and Sarah Hall of Quincy, Mrs. Howard Sylvester of Quincy, and Mrs. Walter Love of Tallahassee, and three brothers, W. L. and T. J. of Thomasville, Ga., and Sam Hall of San Francisco, Cal.

Mr. Ball died Thursday morning, following an illness of two weeks. Death was due to toxic poisoning. He had been in poor health for a year and was stricken Feb. 9.

Born Mar. 18, 1867 at Quincy, Mr. Ball was nearly 62 years old. After spending his earlier years in that city, he moved to Tampa, where he was stationed during the Spanish-American War as a member of the quartermasters corps of the United States Army. Returning to West Florida in 1901, Mr. Ball entered the coal business, giving that up in 1907 to engage in the hardware business at Quincy.

Mr. Ball came to Sanford in 1917, reorganizing the Fernald Hardware Company into the Ball Hardware Company, two years later. He was the first president of the Chamber of Commerce and a member of the board of governors of that body when he died. He was also one of the earliest boosters for the development of the St. Johns River into a more navigable stream and early advocated a cross-state canal linking that stream with the Indian River.

Funeral services were held at the home of Mrs. Gordon Barnett, who was a guest for the past few weeks, Mrs. Barnett's sister, Mrs. Carter Harbury of Raleigh, North Carolina.

Great interest is being shown in the tennis court being constructed by the Fern Park Tennis Club. It will be one of the best courts in the vicinity and is a lovely location at the corner of Concord Drive and Cypress Street.

The Florida Foliage, Inc., was visited last week by a leader of the florist industry, C. C. Poll, of Milwaukee, head of the whole sale distributors of flowers and supplies, and a director of the F. T. D. Association. Mr. Poll, who has been purchasing from the Florida Foliage, Inc., for several years, Mrs. James McMillin has been confined to her home for the past week, but is now showing daily improvement.

Misses Muriel Taylor and Gladys Barnett gave a high appreciated concert at Hotel Alhambra last week. Captain Hallett's histrionic talent has also been in frequent demand this winter.

District Sales Conference At Jax Is Attended By Chevrolet Dealers

More than four hundred Chev-Managers.

Sanford, Fla., Feb. 23.—(INS)—More than four hundred Chevrolet Dealers, sales managers and bankers from Florida and southern Georgia were guests at an elaborate sales meeting and banquet given by the Chevrolet Motor Company in Jacksonville at the George Washington Hotel a few days ago. Following the banquet, an "excellent vaudeville" show was provided for the visitors.

M. D. Douglas, Assistant General Sales Manager of the Company, was the main speaker. The principal speaker was Mr. Ray D. Wilson, the Jacksonville Zone Sales Manager. The Jacksonville Zone is a large measure in the success of the company this year.

"In Jacksonville Zone it may be truthfully said that when the automobile business is on a sound basis, other industries also show progress," said Mr. Wilson. "It is in this region that we have the great fruit belt and the finest climate in the world all year round," concluded this Zone Manager of Show Productions.

THE BOOSTER NEWS

Volume 1 February 23, 1929 Number 31

Published in the interest of the people of Sanford and Seminole County by the Kent Motor Co. Harry Kent, Editor

March 1st is one event when the banks work overtime instead of taking a holiday.

Sold! Another Chandler Eight Sedan! This car is proving its popularity daily by its wonderful performance. Not much of a job for us to sell them, they sell themselves, just like the one we sold today.

There are 201 parts to a telephone, the most complicated one being to get the right number.

We've got some mighty good values in used cars waiting for you folks who

are looking for snaps. These cars are in tip top shape, look good and run good. We feel sure just the car you want is among those we have for sale. Buy now and save.

When a sweet young thing begins to roll her eyes at a dumb young thing, bet your money on the sweet young thing.

Nowadays the shortest distance between two points is the width of the trousers seat.

Co'ery is truly "King" in Sanford now. The activity in the fields and shipping centers are attracting many tourists and visitors who are amazed at the fertility of our soil.

Smiling is an art—not difficult to cultivate and soon becomes a habit.

No one is square in an eternal triangle.

Kent Motor Co. 201 Commercial Phone 17

Hudson Will Spend Million In Month On Advertising Plan

DETROIT, Mich., Feb. 23.—The Hudson Motor Car Company, manufacturers of Hudson and Essex cars, will spend one million dollars in newspaper advertising during the months of March and April, it is announced by Courtney Johnson, general sales manager of the company.

Hudson, largest manufacturer of six cylinder cars in 1928, is experiencing the greatest year in its history and this extensive campaign, the largest ever undertaken by the company, is designed to bring about even greater success to a sensational, successful line.

The feature of the campaign will be a national "Essex Challenge Week" which commences March 1st. During the week Essex cars will undertake every kind of test to prove their right to the militant "Challenge" slogan, says the announcement.
