U.S. Adds Nuclear Power For Israel

JERUSALEM (AP) — The United States today promised Israel the same help in developing nuclear power that it plans to give Egypt. President Nixon, in a joint communique with Premier Yitzhak Rabin, also reaffirmed America's commitment to longterm arms shipments to the Jewish state.

Nixon and Rabin said their two governments "will negotiate an agreement on cooperation in the field of nuclear energy, technology and the supply of fuel from the United States under agreed safeguards.

"This agreement will in particular take into account the intention of the government of Israel to purchase power reactors from the United States" to provide electricity for Israel's rapidly growing economy, the communique said.

Israel has had an agreement with the United States covering joint nuclear research for the past 15 years, and the communique said a provisional agreement would be made this month "on the further sale of nuclear fuel to

The wording of the communique paralleled that of one three days ago in which Nixon announced in Cairo the United States would supply nuclear reactors and fuel to Egypt for peaceful

Convicted Killer

COEUR D'ALENE, Idaho (AP) - A convicted killer who left prison last month on a four-hour social pass was shot and captured after police say he seized three vehicles and five persons. Carl C. Bowles, 33, was shot in the stomach by a policeman as he stood kneedeep in the Spokane River near this northern Idaho town. He was in critical condition today after undergoing 512 hours of surgery. He had been sought since he left the Oregon State Penitentiary May 17 under a temporary leave program for inmates and visited a woman at a motel in Salem, Ore.

Garbage Dump

MT. MCKINLEY NATIONAL PARK, Alaska (AP) -Mountaineers returning from climbing Mt. McKinley say it's the highest garbage dump on the North American continent. Peter Blewett, a novice Anchorage climber, returned recently from his first assault on the peak and said he saw a rolled-up mattress in the snow with an empty beer can perched on top: "It does ruin the aesthetic experience." A team of Swiss climbers returned two weeks ago with similar complaints. The problem stems from the strenuous work of climbing at higher altitudes. Mountaineers lighten their loads by discarding what they no longer need. Cleanup crews say they find gas cans, food, paper, boots, skis, rope, snowshoes and tents.

Black Moderator

LOUISVILLE, Ky. (AP) - A black Georgia pastor is the new southern Presbyterian moderator, the first of his race to win the top post in the denomination's 113-year history. The Rev. Dr. Lawrence Wendell Bottoms was elected Sunday night in a three-way contest with two white clergymen at the start of the annual governing assembly of the Presbyterian Church in the U.S. A mainly white body, it emerged from the slavery issues of the Civil War. It has about 900,000 members in 16 southern and border states of whom only about 7,000 are black. Dr. Bottoms, 66, of Atlanta, called his election "a breakthrough ... in a changing South."

Second Anniversary

WASHINGTON (AP) - Two years ago, on June 17, 1972, five men were arrested inside Democratic party headquarters in what was initially described as a "thirdrate burglary." By now, the Watergate scandal has grown to involve charges against 32 men, many of them top aides on President Nixon's White House staff or re-election committee. Some have been imprisoned, two have been acquitted and others still face trial.

Quarrelling Politicians

PHNOM PENH, Cambodia (AP) - Cambodia's quarreling politicians settled down to a new government today after a face-saving compromise was forged between Prime Minister Long Boret and the Republican party. The premier named a new cabinet of independents and members of President Lon Nol's Social-Republican party. The Republicans will be represented on an enlarged Executive Council, the general policy group headed by the president, which will give them a say in the determination of policy without having to answer to the National Assembly, made up exclusively of members of the president's party.

VERO BEACH, Fla. (AP) - George Washington Churchill never thought when he ran a stop sign he would wind up sharpening all the scissors in city hall. But that's what Churchill, 74, ended up doing after he told a judge he didn't have the \$17 for the traffic fine. "I'm absolutely broke," said Churchill, showing Judge

George Collins a checkbook with a \$1.82 balance. Collins agreed to let Churchill, who makes his living sharpening scissors, ply his trade for two days at the Vero Beach city hall. Churchill says it may have been fate that made him run

the stop sign. He says the city's scissors were awfully dull.

Vandyke Painting Stolen

JACKSONVILLE, Fla. (AP) - An 8-by-11 inch painting by 17th Century Flemish artist Anthony Vandyke painting has been stolen from the Cummer Gallery of Art here,

Gallery officials declined to place a value on the painting, an oil on wood portrait of the artist's teacher, Hendrik van Balen.

It was stolen Saturday during visiting hours during which about 60 persons signed a gallery guest book... Another picture about 15 feet from the Vandyke, Peter Paul Rubens' "Entombment of Christ," had been disturbed but was not harmed, a gallery spokesman said. The painting's original frame, said to be as valuable as the painting itself, was left on the wall. Vandyke, who lived from 1599-1641, was noted for his portraits of European noblemen.

Used Car Warranties Urged

SILVER SPRINGS, Fla. (AP) - Floridians purchasing used cars should be protected from faulty merchandise, directors of the state's Independent Automobile Dealers Association say.

Meeting here Sunday, the association board passed a resolution calling on dealers to develop and use adequate warranties to meet consumer needs.

"We talked about developing a standard warranty but decided on each dealer formulating his own," said Ned Brown of Orlando, an IADA spokesman. Brown said the board expressed disappointment that

the Florida Legislature failed to pass an IADA-supported bill requiring dealers to guarantee an auto's drive train consisting of its engine, transmission, shaft and rear axle. The bill which passed the Florida House but died on the Senate calendar would have established two warranty ratings, depending on the age and price of the car. One would have covered the vehicle for 60 days or 2,000 miles and the other for 30 days or 1,000 miles.
