Coal Strike Is Called Insult By Tom Clark

Lewis' Action Hit By Attorney General; Justices Asked To Impose Penalties

WASHINGTON, Jan. 14 (AP)—Attorney General Tom Clark branded last fall's soft coal stoppage as "an insult to the United States itself" in the argument before the Supreme Court today on the soft coal case. He argued that the government sought only to maintain its functions when it halted the strike.

The attorney general also asked the high tribunal to uphold the \$3,510,000 in contempt fines imposed upon John L. Lewis and his United Mine Workers.

Clark asserted that when Lewis disregarded that order it was a contempt that was an insult to the country and one that compromises all law and invites mob rule.

Clark told the justices that in this case the government is not seeking to infringe on any rights of labor or on the freedoms guaranteed to all citizens by the constitution.

The soft coal case is expected to set far-reaching precedents in interpretation of laws applying to organized labor. One of those laws is the Norris-LaGuardia Act which bars injunctions in strikes to the government as well.

Lewis will not be on hand at the Supreme Court. He is somewhere in Florida and he has expressed the opinion that he is not needed in Washington today resulting from the soft coal strike.

F.W. Inducts 25 New Members At Dinner Meeting

Twenty-five new members of Seminole County Post 3282 V. F. W. were inducted last evening at a dinner meeting held at the Legion Hut at which more than 100 were in attendance, according to John Scott, local adjutant.

The man inducted were: Talmedge E. Smith, Raymond Lundquist, Clifford Proctor, Jr., C. E. Gormly II and C. E. Gormly III, Don Meyers, James Stewart, Jess Bennett, Samuel Marlin, Jr., Sam James Pearson and J. A. Wright, Wilbur R. Keeling, James E. Pearson, Douglas Brothie, Roy Britt, Clarence Milsted, Gerald Walthall, Victor McCalland, Ed Walthall, George Hazen, Guy Allen, J. T. Brown, F. P. Buxley and James Pearson.

The post, said Saul, heartily endorses the action taken by the Seminole County Junior Chamber of Commerce in sponsoring a soaring meet to be held March 1 and 2 at the Municipal Airport, and a committee headed by P. D. Scott, local merchant, was appointed to volunteer assistance on the project.

Carl Eisenhower, secretary of the Sanford Tourist Club, was notified that the post had endorsed the tourist program and would sponsor a program for the children of the Legion Hut, where at 1:00 P. M. all delegates will have dinner. Delegates will then be taken on a boat trip aboard Sub Chaser 670 to Blue Springs. Each delegate, at the end of the convention, will be presented with a certificate.

This shapes up as the liveliest VFW convention ever planned for this district, said Saul.

State Postmasters Will Convene Here

The Florida Chapter of the National Association of Postmasters will hold its annual convention in Sanford on Apr. 24, 25 and 26, according to Postmaster Joel B. Field, who has been largely instrumental in bringing the convention here.

Stalin Poses With Monty

RUSSIA'S NO. 1 MAN, Josef V. Stalin (right) dressed as a marshal, poses with Field Marshal Bernard Montgomery, Chief of the British Imperial General Staff, during the latter's visit to the Soviet capital of Moscow. Stalin appears to be in the best of health. (International Radiophoto)

More Workmen Stage Sympathy Strike In London

Mass Meeting Held In Protest Against Troops Being Used

LONDON, Jan. 14 (AP)—London's growing strike of union laborers was threatened with more serious complications today. A mass meeting of London dock workers voted to join with the 20,000 unionists already on strike in protest over the government's use of troops to move food supplies. It is said the decision may affect all of London's organized dock workers.

The sympathy walkout was voted at a noon hour meeting of between 1200 and 1400 dock workmen who ignored appeals of union leaders that they remain on the job.

The strike began originally as a wildcat move by an estimated 15,000 London truck drivers. The truckmen also ignored official union advice that they remain at work.

With food distribution throughout England threatened by the growing walkouts, all parties concerned are speedily laboring to negotiate a satisfactory settlement.

Meanwhile, more than 2,000 soldiers have begun their second day of moving foodstuffs to retail shops serving 10,000,000 residents of the greater London area.

Caldwell Says New Taxes Unnecessary

JACKSONVILLE, Jan. 14 (AP)—In Governor Caldwell's monthly radio report, which he devoted to a review of the first half of his administration, the Governor stated last night that no new taxes will be needed to finance greatly expanded school, health and institutional programs, if state funds are not used for other purposes, and the sum total of current levies is not reduced.

Looking generally at prospects for the remaining two years, the chief executive told a statewide radio audience that Florida has a fund balance which can be depended upon to see it through emergencies, if it weren't diverted. He didn't refer specifically to any proposed diversion of state funds, but in the past he has been outspokenly opposed to demands of financially strapped cities for a share of taxes collected by the state.

Giant Waves, Severe Winds Lash Atlantic

Ships Enroute From Europe Are Making Port Days Late; Fishing Boat Lost

NEW YORK, Jan. 14 (AP)—Giant waves and hurricane winds still are disrupting passenger travel on the storm-lashed Atlantic today. Ships from Europe are arriving in New York harbor from one to six days late. The luxury line America, flagship of the United States Lines, docked last night two and a half days behind schedule. The skipper, Commodore Harry Manning, said she has been delayed by one of the worst storms he had encountered in 23 years at sea. He said he had to steer a zig-zag course through the waves that were 50 to 60 feet high and that he had to take the huge vessel like a sailboat. Three storm-battered ships made port this morning, one from Norway, one from Sweden and one from Italy. Each was a day late.

Meanwhile, the Coast Guard prepared to renew its efforts to locate the fishing trawler Belle of Boston, which has not been heard from since she last reported engine trouble five days ago.

The tanker Williamsburg is still aground on Senwick Shoal, near Lewis, Del. The Norwegian American Line ship, Drammen, of Boston, which has not been heard from since she last reported engine trouble five days ago.

The sharp contrast was the experience of the British liner Queen Elizabeth. Her owner line, Cunard, announced she would arrive on schedule this Thursday, storm or no storm.

\$1,000 Needed To Continue Work Of TB, Health Group

An appeal to generous and sympathetic-hearted citizens for \$1,000 in additional funds with which to carry on vitally needed work by the Seminole County Tuberculosis and Health Association was made today by Roy Holler, chairman of the Large Gifts Committee for the Christmas Sale.

"I feel a strong responsibility to solicit our Seminole County Tuberculosis and Health Association raise sufficient funds with which to carry on its vitally important work. Knowing of their endeavors, I was elated of the opportunity to serve as chairman of the Large Gifts Committee."

"As you know, we have devoted our proceeds a full time to the work of the association, and we are now in need of funds to carry on our work. We are sure that you will be glad to contribute to this cause."

Peter Bukur Will Resume Active Duty

Peter Bukur, Jr., M 3/e USN, home on leave for a visit of several weeks with his parents, Mr. and Mrs. Peter Bukur, 2006 Cedar Avenue will return to active duty at Long Beach, Calif. in two weeks. He has cruised to many Asiatic ports as a member of a 16 piece Navy dance band aboard the light cruiser Topeka.

Peter, who was the clarinet playing sensation of Seminole High School, from which he graduated in 1945, comes naturally by his musical talent. His father, prior to coming to Florida in 1941, was a skilled musician and instrument maker in Cleveland, O.

Where 18 Died In Virginia Plane Crash

AWED SPECTATORS and a State Trooper (left) at the tall section of the Detroit-Miami airliner which crashed during a fog outside of Galax, Va., close to the highest Blue Ridge mountain peak. The plane burst into flames, and the ship itself was ripped and crushed as though by giant hands before it burst into flames. The crew of three and 15 of the sixteen passengers were instantly killed. Lone survivor was William Elias Keys of Boynton, Fla.

Umpire School To Open Jan. 15 At City Airport

George Barr, National League Arbitrator, Will Train 90 Men

The George Barr Umpire School will open tomorrow at the Municipal Airport with approximately 90 men attending, according to George Barr, National League arbitrator.

The school opened its doors in 1935 in Hot Springs, Ark., and moved to Orlando in 1942. The 1943 session was held in Orlando and was interrupted during the war years.

Barr states that Sanford has the best arrangements for a school of this type that he has seen thus far. "I am greatly impressed by the hospitality that Sanford is showing me and my school," Barr adds. He also says that the facilities at the airport are ideal for this type of training. The men will be quartered at a unit and classroom and mess accommodations are as good as any one would desire. "I am sure we will have a successful year."

The National League umpire has received communications from Chattanooga baseball officials and it is said that the two schools will work in co-operation. Barr is substituting the umpires for games and Chattanooga the players.

George Barr was born in Seaman, Kan., and has lived in Tulsa, Okla. since 1915. He started umpiring in Oklahoma Semi-professional League where he worked only seven games before his services were requested by the Western Association.

He umpired in the Western Association in 1924-25 and moved to the Texas League in 1926 where he spent five years. In 1931 Barr received an appointment as a National League arbitrator where he is now in his 16th year.

Fed Cagers To Meet Mt. Dora Tonight

The twice defeated Seminole High School Celery Feds will open their basketball campaign on the local court tonight in a twin bill with Mt. Dora. The Feds have suffered defeat by the umpires for games and strikes in the 19 inning contest between Brooklyn and Cincinnati last year, the longest contest on record in Major League history.

County Fishing Tournament To Start Tomorrow

Two Tennis Courts At Airport Are Opened For Public Use

A Seminole County fishing contest to be sponsored by the Sanford Junior Chamber of Commerce and merchants of Sanford will open tomorrow it was announced today by Jack Ratigan, president of the junior trade body.

The fish, bass or speckled perch, may be caught in Seminole County or the waters adjacent thereto. Both banks of the Wekiva River are included and both banks of the St. Johns River from Buncombe Branch to the mouth of the Wekiva are also included. Streams and creeks entering on the Lake, Volusia and Brevard sides of the St. Johns and Wekiva may also be used.

The contest will run from Jan. 15 to Mar. 1 and prizes will be awarded within 15 days after the close of the contest.

No person will be awarded more than one prize in each class. In the event of two or more fish of the same weight being entered, the first fish that is submitted will be declared the winner.

Places where fish may be entered are Everybody's Hardware Company, Hill Hardware Company, Hill Implement Company, Sanford Hardware, Silver Fleet Cab Stand and Stanley Rogers Hardware Company.

Prizes will be identical for both the bass and the speckled perch division. First prize will be an Akron Reel, second prize will include a tackle box and the third prize is \$500 worth of fishing equipment.

A second contest is scheduled to get underway on May 1.

Maj. L. J. Wright Is Given Bronze Star

Major Lewis J. Wright son of Mrs. C. F. Robson, 2033 Maple Avenue, was awarded the Bronze Star by his commanding officer, Lt. Col. Jess R. Guthrie in a ceremony held at Kelly Field, Texas, January 8.

Major Wright was cited for his meritorious service from November 1944 to May 1945, as operations officer of the 62nd AACGS Group, when he was responsible for the effective operation of airways communications facilities and radio aids to aerial navigation in Northeastern India and Burma.

Truman Bids For Harmony With G.O.P.

President Announces G.O.P. Leaders Are Welcome To White House Conferences

WASHINGTON, Jan. 14 (AP)—President Truman made a new gesture of friendly cooperation toward the Republican majority in Congress today when he let it be known that Republican leaders in the House and Senate will be welcome guests at the White House.

Mr. Truman's decision was announced by Democratic Minority Leader Sam Rayburn, former Speaker in the House of Representatives. Rayburn said Mr. Truman decided to invite both Republican and Democratic congressional leaders to the White House for frequent consultations. No date has been set for the first bipartisan conference, Rayburn added.

Last year, the President had regular Monday morning talks with the Democratic leaders of the House and Senate, but this time he is trying a new approach. The idea, said Rayburn, is to get the Republicans up to the White House every time some legislative matter comes up that has a chance of bipartisan backing.

Republicans to whom such invitations would be extended include Michigan's Senator Arthur Vandenberg, president pro-tempore of the Senate; Senator majority leader Wallace White of Maine; House Speaker Joe Martin of Massachusetts and House majority leader Charles Halleck of Indiana. The Democrats would be represented by House minority leader Rayburn, and Senator Alben Barkley of Kentucky, minority leader in the upper chamber.

Rayburn said he discussed the plan of bipartisan White House conferences with President Truman this morning.

Boys In Junior Naval Reserve Learn Specialties

The Junior Naval Reserve, members of which had a cruise Sunday aboard Submarine Chaser No. 679, was organized by a group of Sanford to give boys of 15 to 17 an active outdoor program combined with a Naval Reserve training program.

Active in promoting the program are William J. Toll, J. A. Meisner, A. W. Lee, Andrew Carr, Harry Lee, Alex H. Johnson and the U. S. 7th District Naval Reserve director and his entire staff.

The boys are educated in specialties, deck seamanship, marlinpike, nautical rules, navigation aids, shipboard bearings, signal signaling, machine shop practice, radio procedure, communication shop practice, radar, first aid, pharmacy, military training and etiquette. Valuable information on electronics and advanced sciences, such as will be of great advantage in starting a career, will be given.

Thousands of dollars worth of equipment to assist the Junior Naval Reserve units is being furnished by the U. S. Naval Reserve at no cost to the boys or their parents. Sub Chaser 679, fully manned by a crew of experienced Naval personnel, is available to the boys for training in seamanship, diesel engines and navigation. A 25 foot whaler in rescue work, rowing and physical education. Other equipment is to be added.

City Commission Adopts Extensive Safety Ordinance

Two Tennis Courts At Airport Are Opened For Public Use

An ordinance providing for safety of life in public places of assembly, including schools, churches, and hotels, and covering provisions relating to new construction of such places, was adopted by the City Commission at its meeting Monday evening.

City Manager H. N. Sayer reported this morning. Fire Chief M. N. Cleveland was instructed to enforce provisions of the ordinance relating to old construction.

It was reported to Commissioners that the War Assets Administration had agreed to allow use by the City to a baseball diamond and turned over to the George Barr school headquarters building at the Municipal Airport. Those facilities near the enlisted men's headquarters have been turned over to Fellowship College. The public facilities include two tennis courts, volleyball and basketball courts, shower and dressing room facilities.

A ball diamond, formerly used by the Navy for softball, has been converted by the City to a baseball diamond and turned over to the George Barr school for umpires. The City has also constructed a practice field for use by the Chattanooga Baseball School east of the laundry building and this will be used, said Mr. Sayer, for letting games, sliding and other heavy practice work. Intersquad games will be played at the Municipal Ball Park.

Commissioners were notified of the receipt of a check for \$6,835 from the War Assets Administration for final payment for preparation by Smith and Gillespie of Jacksonville of plans and specifications to rehabilitate the City's sanitary sewer system.

The following City electrical examiners were appointed: E. C. Harper, master electrician; Donald Young, journeyman electrician and Grady Duncan, electrical inspector. On the plumbing board were appointed the following: Harry Lee, master plumber; Roy Wall, journeyman plumber and Grady Duncan, inspector.

A letter from the War Assets Administration offering the transfer to the City of the Navy built Osceola Air Field was read. Commissioners expressed no interest in the offer, as the City already has a fine airport. The Civic Aeronautical Administration in a letter, offered the City \$5,500, or half of the estimated cost, for a seaplane base in Lake Monroe.

The City has been able to purchase an attractive, 1 1/2 chain fence with rail at a cost of \$999 to be used at the cemetery, said Mr. Sayer. A petition, protesting erection of this fence and signed by 25 persons, was read. Chief objection to the fence was having to walk additional distance to entrances from parked automobiles, said Mr. Sayer. The Commissioners will visit the cemetery before making any decision on the matter.

Secondary Roads To Receive Federal Aid

WASHINGTON, Jan. 14 (AP)—Nearly 30,000 miles of secondary roads in Alabama, Florida, Georgia, Louisiana and Mississippi were approved today by the Public Roads Administration for federal aid.

Florida tops the list of five southeastern states with 6,515 miles approved. Georgia is not far behind with 6,273. The others are—Alabama, 5,550; Louisiana, 5,565 and Mississippi has 3,190 miles of secondary federal-aid roads approved.

Meanwhile the State Road Department adopted a tentative yearly operating budget of over \$33,000,000, approximately the same as the 1946 figure. That will give the department a total of nearly 64,000,000 counting a \$20,500,000 carryover.

Just one of many uses for FLORIDA PEANUTS

PRODUCTS FROM PEANUTS

PEANUTS ARE BIG BUSINESS

People, circus elephants and domestic animals ate most of the \$85,000,000 worth of peanuts produced in 1944 in Florida and neighboring states.

But part of this mountain of "goobers" was utilized in ways you seldom hear about — in soap, in shaving cream, massage oil, fuel. And research is proving that peanuts can be used in textiles, insecticides, cosmetics, bristles, plastics — literally hundreds of other useful products.

Florida, "next door" to the expanding Latin-American market, is the ideal location for peanut processing plants—especially when you consider the near-perfect living and working conditions produced by equable climate and other favorable factors.

Mutuel Returns At Kennel Club High Last Night

Returns from the mutuels ran high at the Sanford-Orlando Kennel Club last evening as the daily double combination of Betty Orchid and Fool Proof turned in a 2-8 event to pay \$191 in the largest returns this year.

The first quinella race, won by Masked Andrew and More Pennies, a 2-4 combination, netted a \$176 payoff while a 1-5 pair consisting of Double Feature and Mr. Faddles in the seventh paid \$141.

Tonight's entries are: First Race—Future; (Quinella Race) Dandy Squawk, Brood Crin, Dandy Candy, My Never Fall, Pottsville Express, Jabby Jack, Blue Topper, Blue Jamboree.

Second Race—Future; (First Half Daily Double) Silver Betty, Lucky Frank, Star-drift, Lord Cashoo, Lucky Tim, True Girl, Dan Hall, Buck Up Pal, Thrift.

Third Race—2/16 Mile; (Quinella Race) Lasting Lulu, Paul Captain, Lan-ka Judge, Squonky Grace, Dark Shade, Little Glee, Rural Mark, Jovial.

Fourth Race—Future; (Quinella Race) Missor K, Bigwig, Midget, Sparky, Stron, Breeding Lad, Hook Island, Fancy Penny, Chans Little Horse.

Fifth Race—3/16 Mile; (Quinella Race) Rural Bumper, Lucky Lee, Show Girl, Jov Sprinter, Ethel, Bee Lov Lee, Larry Boy, Switchman, Peti.

Sixth Race—2/16 Mile; (Quinella Race) By George, Amazing, Chans First, Never Fear, Pover, Marble Fawn, Seventh Race—Future; (Quinella Race) North Flag, Gray Lark, Pine Dust, Ima Dima, Cassino, Big Buy, Bluechick.

Eighth Race—Future; (Quinella Race) Flashy, Kit O'Flaherty, Little Lark, Dark Thought, Spanish Matron, Deal Me In.

Ninth Race—Future; (Quinella Race) Tredy, White Flirt, Black Larry, Bonadur, Strak O'Black, Faka Luck.

Tenth Race—3/16 Mile; (Quinella Race) Sas Ferdinand, King Jungle, Miss Secretary, Gray Dust, Sally Spray, Susie Kuddles, Patsy Orchid, Won By One.

City Commission Adopts Extensive Safety Ordinance

Continued from Page One
finance placing of 27 new piles under its headquarters building on the waterfront, provided the City furnishes the carpenter work.

Numerous complaints from residents that the South Atlantic Gas Company has failed to put in new installations even on requests made last summer, were reviewed by the Commission. City Manager Sayer was directed to write the company to take action on these complaints in accordance with their franchise with the City.

Terms of the lease of the old City Airport at Ginderville to Alex R. Johnson and Forrest Gatchel for penning stock were discussed. Action was deferred pending further consideration.

W. O. W. Gains 22,720 New Members in 1946

OMAHA, Neb., Jan. 14. (Special)—A net gain of 22,720 members, the largest membership growth since 1919, was made by the Woodmen of the World Life Insurance Society in 1946. President Farrar Newberry announced here today. The society's membership now totals more than 386,000 men and boys.

Reports received in the society's 1946 Service Center contest, in which 10 camps will receive awards for the most outstanding service, are being tabulated. Service projects carried on by the camps last year cover a wide range. They include the presentation of flags to more than 900 public schools and placing historic markers, such as those placed on the former home of the late William Jennings Bryan in Lincoln, Neb., and on the first home site in Omaha.

CALDWELL NAMED CHAIRMAN
TALLAHASSEE, Jan. 14.—(AP)—Governor Millard Caldwell announced today he had accepted appointment as chairman of the Freight Rate Committee of the Southern Governor's Conference. The Florida chief executive succeeds Governor Chauncey Sparks of Alabama. Caldwell has been a member of the committee since he became Governor of Florida.

D. E. Lilienthal Nominated As Atomic Head

Senator Capehart Declares Tax Cuts Must Be Delayed Because Of Suits

WASHINGTON, Jan. 15 (AP)—President Truman today nominated David E. Lilienthal to be chairman of the United States Atomic Energy Commission. News men are writing to see if it brings strong opposition from Senator Kenneth McKellar of Tennessee. McKellar is an old enemy of the former TVA chairman.

Aubrey Clapp was nominated several days ago to succeed Lilienthal as TVA head, but McKellar said he is going to try to block that appointment, too.

WASHINGTON, Jan. 15, (AP)—Senator Homer Capehart expressed the belief today that planned Republican tax cuts must be delayed temporarily because of the large-scale portal-to-portal pay suits. The Indiana lawmaker made his statement today before a Senate Judiciary committee. He declared that the potential loss to the Treasury in view of the portal pay claims is so great as to make it necessary that tax-cutting be postponed until a "remedy" is found.

Senator Capehart pointed out that the claims already total more than \$4,000,000,000, and he said this threatens the very existence of thousands of businesses and industrial units. Capehart appeared as the first witness at a hearing on separate bills which he and Senator Alexander Wiley of Wisconsin have written to outlaw, or curb, paying as well as future portal suits.

The Indiana legislator is an industrialist himself and he warned that "We are facing a national problem which, if not promptly solved may have disastrous consequences on production and commerce."

Capehart suggested that the subcommittee request the testimony of the Secretaries of Commerce, War, and the Navy, as well as other top federal officials. He said that they should "tell how these suits might bear on the fiscal aspects of their departments."

Senator Capehart said that if the pending suits are successful even in a minor degree there would be an inevitable loss of tremendous sums of money in federal revenues. He declared that the portal-to-portal suits impel immediate action on the part of Congress.

Summer Weather Worries Growers Of Citrus, Celery

Summerlike weather, a joy to the tourists and a sorrow to celery and citrus growers, continues right on in January and on the 15th, 16th and 17th of the month the thermometer went clear up to 85, according to B. F. Whitner, weatherman.

Here are the maximum temperatures recorded in Sanford from the first to the 14th inclusive: 83, 82, 85, 84, 79, 85, 76, 85, 71, 75, 76, 84 and 82 degrees. This makes an average maximum temperature of 81.

Aside from Jan. 10, when the early morning temperatures dipped down to 47, the minimum temperatures were in the fifties and sixties and averaged 58 degrees.

The hot weather is causing celery to mature too quickly and it is feared that the supply of the best grade will be cut down at least one-third, according to shippers. Citrus fruits reported to be dropping from the trees. Old timers here fear that a sudden freeze might cause a big disaster to groves and during the late nineties when a similar condition of warmth prevailed during the early part of the winter.

License Applicants Rush Tax Collector

The office of County Tax Collector Joe D. Jinkins was jammed this morning with applicants for auto tags on this, the final day for obtaining same.

Italian Premier Greet Cardinal

AFTER BRINO MAILED at a Pontifical Mass in St. Patrick's Cathedral in New York as a defender of Christianity, Premier Alcide de Gasperi (left) is shown shaking hands with Francis Cardinal Spellman, who presided over the Mass. De Gasperi was guest of honor at an official city dinner, attended by 1,800 dignitaries. (International)

British Object To Soviet Claim To Arctic Island

LONDON, Jan. 15 (AP)—The British today challenged a new Soviet claim to the Arctic island of Medvezh in the Spitzbergen Archipelago.

The Soviet News Agency Tass declared that authoritative Russian circles feel that Medvezh actually is a Russian island. Tass announced that Moscow had agreed with Norway on the necessity of joint defense in the area.

Today the British Foreign Office declared that Russia is bound by the 1920 international treaty which demilitarized the islands.

The Russians already have claimed that the 1920 treaty could not remain in force because its signatories included nations which fought against the allies in World War Two—that is, Italy and Japan.

But the British Foreign Office rejects that view. One spokesman remarked that many existing treaties bear the signatures of ex-enemy states, including the Nontruce Convention and the Hague Convention. He added: "It has never hitherto been suggested that these agreements be renegotiated because of this fact."

Public Hearing Held On Channel Project

A public hearing on provision for a channel at Rice Creek, a tributary of the St. Johns River and about four miles downstream from Palatka, was conducted by the United States Engineer office of Jacksonville at 1:00 P. M. today at the Putnam county court house in Palatka.

The existing project for the St. Johns River, Jacksonville to Lake Harney to which the Rice Creek project would be a tributary, provides for a channel 13 feet deep and 200 feet wide from the Florida East Coast Railway bridge at Jacksonville to Palatka, and thence 12 feet deep and 100 feet wide to Sanford.

City Hasn't Acquired Title To Property

No city title has yet been acquired for the tennis, basketball and volleyball courts made available at the Sanford Municipal Airport for public use by the Sanford Municipal Airport for public use by the War Assets Administration, City Manager, R. N. Sayre said this morning.

For this reason, no repairs or improvements to the facilities will be made by the City until the title is hoped to acquire is secured, he declared. Shower and dressing rooms are among the facilities made available to public use.

Sanford was regarded by the British as the most important objective in the American revolution.

Recaptured Prison Evader Gains Release

57 Year Old Man Enjoyed 31 Years Of Freedom Prior To His Apprehension

TALLAHASSEE, Jan. 15, (AP)—Fifty-seven year old C. A. Boyett, who enjoyed freedom from a life sentence for murder for 31 years, is going to be free again it was announced today. But this time he won't have the prison sentence hanging over him.

For 31 years, Boyett evaded police who sought him to serve a life term for the second degree murder of John Cayson, a friend during a brawl in 1914. A year ago, Boyett was recaptured and sent to the Florida State Prison. However, on Jan. 28, Boyett will get his freedom and will return to the Unton town, Pa. barber's job he held for 18 years under an assumed name.

Numerous petitions for his release were filed from friends in Unton town. The man who lived for 18 years under the alias of S. H. Powers will be back on his job cutting hair, and will also be under the supervision of the Pennsylvania parole officials.

With him, will go his second wife, mother of his 24 year old daughter. She has been living near the state prison since the previous bigamous marriage was cleared from the record by a precedent making prison wedding last May.

Boyett did his duty during the war. He served in the Army under the name of Powers.

Record Number Attend Meeting Of Tourist Club

More than 175 winter visitors attended the Tuesday evening meeting, supper and recreation program of the Tourist Club at the Tourist Center, and E. M. Armitage, tourist director, today termed the affair an "enormous success," and said it broke the record for tourist program attendance here.

There was much praise, he said, for the chicken plau prepared by Mrs. Pearl Hansell, and the visitors augmented this with food they had brought including pie, cakes, salads and pickles. Many extra chairs and tables had to be used to accommodate the visitors.

After a brief business meeting a short movie of tarpon fishing off the keys was shown. This was followed by the showing of the feature picture, "Keys of the Kingdom." The projector and sound recorder which enabled the club to present the movie was loaned by Mr. Norman Morris.

Monday evening at the Tourist Center will be Ohio night, and a program of entertainment will be put on starting at 8:00 o'clock. Mr. Armitage said today that he is trying to arrange plans for the proposed outing on Saturday, Jan. 23 of the tourists at the Florida Methodist Home at Enterprise.

Canfield Cook Speaks At Pilot Club; Plans Made To Hold Lyceum Series

Canfield Cook, author and lecturer, who is presenting the Lyceum Series in Orlando, spoke to members of the Pilot Club at their regular meeting in the Tourist Center last night. Mr. Cook was accompanied by Mrs. Nona Farley, president of the Orlando Pilot Club, co-sponsors of the series with the Sorosis Club of Orlando.

Following Mr. Cook's talk, members voted to sponsor a series in Sanford which will consist of four lectures including Miss Sue Reed, who broadcasts seven times a week over Station WOP, New York City. The second lecture will be given by Robert Parker, author of "Headquarters Budapest," a well known journalist-commentator, recently returned from Europe. The third lecture will be given by Harrison Wood, feature commentator on the Don Lee - Mutual Network.

He will show color motion pictures of the Russian scene, the first, it is believed, to be shown on the American platform. The fourth lecture in the series will be given by Tom Scott, widely known as "The American Trou-

Arnall And Talmadge Battle It Out For Office Of Governor

Legislature Selects Talmadge But Arnall Won't Quit; Near Riot Ensues

ATLANTA, GA. Jan. 15 (AP)—The Government of Georgia is in a state of unprecedented confusion today as two rival claimants for the governorship wage a dramatic battle for power in separate offices in the state capitol, just a few yards apart.

The two claimants are Herman Talmadge, who was elected by the Georgia General Assembly in a tumultuous session early today, and Ellis Arnall, who has been governor for the past four years and refuses to relinquish the office to Talmadge.

As both men begin maneuvering in their separate offices today, apparently each is trying to seize control of the military department. As his first act when he arrived in the office, Arnall named R. W. Collins, commander of the State Guard, as adjutant general of the state. Then the four-year governor telephoned Secretary of War Patterson in Washington and asked federal recognition of Collins as a brigadier general and as the state's adjutant general. Arnall declined to say what Patterson answered, but when he hung up, he turned to newsmen and said, "This is the adjutant general."

At the same time, Herman Talmadge appointed Marvin Griffin as the adjutant general of his administration. Griffin is working closely with Talmadge in the Talmadge offices, in an attempt to control the governor's office.

When Talmadge heard of Arnall's call to the Secretary of War, he told his executive secretary, Benton Odum, to block all communications. Then Talmadge put in a telephone call for United States Senator Richard Russell in Washington.

Just a few minutes ago, Talmadge took another step to control the military and government forces in the state. He wrote in Charles Redwine of Fayetteville as commissioner of revenue and State Highway Patrol Lieutenant J. Paul Smith as director of public safety.

There was a near riot in the legislature's office last night. It started at 2:15 o'clock this morning, 15 minutes after the legislature had named young Talmadge to the four-year term which his father didn't live to serve.

Talmadge, accompanied by a committee of 25 legislators and a band of his followers, who were whooping it up, pushed into Arnall's office.

"I presume," Talmadge said, "that you have been informed that I have been elected as Governor by the General Assembly of Georgia."

To which Arnall replied: "I understand the General Assembly allegedly has elected you, but the General Assembly cannot elect a governor. Accordingly, I respectfully but firmly refuse to yield the office to you, whom I consider a pretender."

They argued for a few minutes, and then Talmadge walked out. But a group of supporters, who were following their way into Arnall's private office, and for a few minutes there was a lot of yelling and shoving around. This was ended only after officers of the Georgia National Guard cleared the outer chamber. Later Arnall was escorted from the Capitol building by officers and friends.

This morning, Talmadge was back in the Capitol before Governor Arnall. He was ushered into a room off the Governor's reception room where Adjutant General Marvin Griffin had set up his office. But the Arnall forces remained entrenched.

College President Praises High School

Commendation for the scholastic training given to Richard Singletary at Seminole High School has been given in a letter received by Principal Herman E. Morris from W. T. Bodenhamer, president of Norman Park Junior College of Norman Park, Ga., where Richard is now a student.

"I am happy to be president of an institution where fine young people like Richard are students," he wrote. "You and your faculty are to be commended for the preparation given to this young man before he entered college."

At Norman we endeavor to give a lot of individual attention to our students. Great good is done in such cases as Richard's. Young people like him are worth of every advantage afforded by colleges. We shall be happy for you to recommend other students to our school."

THE TRUCKING STRIKE in the British capital has tied up the shipment of supplies. Here hundreds of huge bags of food at the Kings Cross station in London, are tied up as a result of the strike. Despite the threats of a warehousemen, porters and bus drivers to withhold sympathy with the striking truckmen, the Government ordered Army, Navy and Air Force units to begin hauling essential foodstuffs. (International)

Report Shows Improvement In Orange Market

LAKELAND, Jan. 15 (AP)—With few exceptions, weekly reports of the Florida Citrus Commission's dealer service men reflect somewhat better acceptance for Florida oranges, continued popularity of Florida grapefruit, and an unsatisfactory situation in regard to tangerines.

It also was noted in most of the reports, which covered the week ending Jan. 8, that reduced retail prices on canned juice are resulting in heavy movement of this item, but that some wholesalers are hesitating to buy new stocks until the market becomes more stabilized.

Several reports pointed out that the unusually low prices on the canned products are resulting in competition with fresh fruit.

Some retailers still are trying to sell both fresh and canned citrus with exorbitant markups, it was indicated, but other recent offenders in this line have dropped their prices, in order to get back into competition with the large outlets which have kept their prices at a level to reflect market conditions.

One of the most optimistic reports came from Boston and several other New England markets in Maine and Vermont. It said in part:

"Leading northern handlers of Florida citrus report that 1946 closed with citrus activity at highest level. Tremendous sales increases have been experienced and a continuation of upward rise in demand and acceptance is predicted for 1947. The effect of the shipping holiday became more apparent with the result of a greater demand for Florida citrus and stronger prices. There is a very general feeling that the holiday has made it possible for the market to adjust itself and the primary purpose was a success to the industry."

A similar story came from Montreal, where the citrus commission's man found that "the picture looks bright for Florida citrus fruits at the time of this writing. Stocks of oranges have mostly all been disposed of during the shipping holiday—most receivers claim at a loss—but high hopes are formulated by the trade in general regarding incoming shipments. The first carloads of oranges have arrived and the compliments heard reflected the satisfaction of the trade. Quick sales at a good price have confirmed this general enthusiasm."

College President Praises High School

Commendation for the scholastic training given to Richard Singletary at Seminole High School has been given in a letter received by Principal Herman E. Morris from W. T. Bodenhamer, president of Norman Park Junior College of Norman Park, Ga., where Richard is now a student.

"I am happy to be president of an institution where fine young people like Richard are students," he wrote. "You and your faculty are to be commended for the preparation given to this young man before he entered college."

This was ended only after officers of the Georgia National Guard cleared the outer chamber. Later Arnall was escorted from the Capitol building by officers and friends.

Lease Is Signed For Radio Station Studio

A lease was signed yesterday with the Storer interests of Leesburg for the third floor of the Puleston-Bramley Building at Park Avenue and First Street where a new radio station will be installed. It was announced here today by James River, operator of the Southeastern Broadcasting System.

The local station will be on a national hook-up. Mr. Rivers stated, but he added that he is not sure liberty yet to discuss which one. He is leaving today for Washington where he will confer with FCC officials regarding the permit for the station.
