## Richards Found Guilty

By BOB LLOYD Herald Staff Writer

A circuit court jury has found John Thomas Richards, 27, Longwood, guilty of buying, receiving and concealing a color television, knowing it to have been stolen.

Richards was adjudicated guilty by circuit judge David U. Strawn after the verdict Wednesday in the two-day trial and was allowed to remain free on bond pending completion of a court-ordered pre-sentence investigation. He could receive a maximum five-year prison sentence.

The case was the first trial of 13 persons arrested after raids by sheriff's agents Aug. 15 that police said broke up a million-dollar-a-year "steal-a-cop" theft ring operating in five central Florida counties.

Richards testified he didn't know the television had been stolen when he paid \$125 to James Arthur Onie, of Orlando. He said he thought Onie was unemployed and leaving the area and needed the money.

Onie, who earlier pleaded guilty to burglary and turned state's evidence in the theft ring cases, testified he sold the television to Richards several hours after he was another member of the four-man burglary ring broke into a house near Lake Mary and hauled away the TV on a flatbed truck.

Onie admitted that he was involved in approximately 20 burglaries by the theft ring in a six-to-eight month period. The state dropped other charges against Onie when he pleaded guilty to one burglary.

Onie, one-time roommate, Calvin C. Yates Jr., also testified for the state. Yates has been identified as a member of the theft ring who admits to 50 to 100 burglaries. He has not been prosecuted because he spent two months with police in central Florida pointing out locations burglarized by the "steal-a-cop" ring.

Yates has been termed the key state witness in cases against the 13 defendants in connection with the theft ring. He says on numerous occasions he wore an electronic "body bag" while agents tape recorded conversations about stolen merchandise with suspects.

**ATTEND SEMINAR**  
Officials of several Seminole County organizations presided at Wednesday's Seminar on Health Care for senior citizens. From left: Mary McPherson, president, American Association of Retired Persons; Bob Daehn, Seminole County Mental Health Association representative; Art Harris, president, Nursing Home Association of Florida; and Edith Harrison, president, Sanford Senior Citizens.

## Traffic Court Requirement Also Sought

# CALNO Urges Changes In Zoning, Annex Laws

Legislation to require county judges to hold court within the cities eliminating municipal courts, becomes effective in 1977, Hattaway warned there is little support among the people for retaining city courts.

Hattaway said an advertising campaign he conducted, soliciting responses from people in various areas of concern, received only 30 replies and of these none supported the municipal court system.

Casselberry Council Chairman Edith Duerr and Altamonte Springs Mayor Norman Floyd, at the CALNO meeting at the Sanford City Hall, said when the municipal courts are abolished, some action must be taken to hold court sessions in the city.

Although Oviedo Mayor Leon Olliff said the only way the cities can make up lost revenue after the abolition of municipal courts is to raise other taxes, Floyd said the matter is one of justice rather than revenue.

Mrs. Duerr said her concern is that the county court will not be able to handle the increased caseload from all the cities and the county jurisdiction as well.

"It is not merely the cost in dollars," she said, "or that the city police officers will be up here (Sanford) all day waiting for court. The concern is the lack of enforcement of local ordinances."

—Casselberry Chairman Edith Duerr

## Evening Herald Appoints Long To Editor's Post

Richard Long, an editor of The New York Times for the past 14 years, today was appointed editor of the Evening Herald.

Long, 44, has been a newsroom and wire service editor for more than 20 years. He started his journalism career as a reporter and photographer on the Muskogee Daily Phoenix, the daily newspaper in his native Muskogee, Okla.

For nine years, Long was associated with a group of daily newspapers in New England headed by the Manchester (N.H.) Union-Leader. He was instrumental in launching a daily for the group in Haverhill, Mass.

He joined The Times as an

**RICHARD LONG**  
editor of its West Coast edition. Two years later he was appointed assistant manager of The New York Times News Service, a wire service that distributes dispatches from The New York Times to 400 newspapers in 42 countries.

## Veneral Disease Education Films Meet Some Opposition

Some parental opposition was voiced against state-approved films on veneral disease education for grades six through 12 shown to Seminole County School officials here Wednesday night.

Board members set the second half of the viewing for 5 p.m. Monday at the board's Commercial St. meeting room.

Wess Hyrons, an Altamonte Springs parent of a sixth grader, said he objected to the "permissive attitude" presentation and the idea of "condoning sexual contact because everybody's doing it Friday. Winds stronger and gusty near thunderstorms. Rain probability 20 per cent through Friday.

Complete details and times are on Page 5-A.

## Beckwith Hopes To End 'Foulup' Over Paychecks

By ED PRICKETT Herald Staff Writer

Circuit Court Clerk Art Beckwith Jr. said today he will write a memo to the county commission suggesting a method of eliminating shortened paychecks for county employees at the end of each fiscal year.

Beckwith's memo is in response to statements that a "foulup" in the clerk's office shortened paychecks for about 39 administrators.

Officials estimated it would take \$13,000 to insure that all of the 39 county workers receive a full paycheck this week — the last week in the 1974-75 fiscal year.

Beckwith said he's suggesting the county revert to the old method of paying administrators by the month. Or, he said he will ask that an employee's yearly salary be divided by 52 weeks and the difference — if there is any — be paid by the county to insure administrators receive 52 equal paychecks.

(Art) Beckwith said the county would have to "make up the difference" in an administrator's pay at year's end if the total salary is divided by 52 weeks.

"The simple way is to go back to monthly salaries," Beckwith said. "That's the way to do it."

The "foulup" was brought to the attention of the commission on Tuesday by Sig Pearson, the county's director of the Office of Management Analysis and

## 35 Hurt As Train Derails

PULASKI, Tenn.—An Amtrak train, scheduled to arrive in Sanford at 6:30 a.m. today, was derailed Wednesday on a mountain ridge near here, injuring 35 persons, one seriously.

There were no Seminole County passengers among the injured.

A spokesman for the Sanford Seaboard Coast Line trainmaster's office said today that no local employees of Amtrak were on the derailed train.

The derailment occurred shortly after noon while many of the passengers were eating lunch in the dining car, one of 10 cars which went off the track.

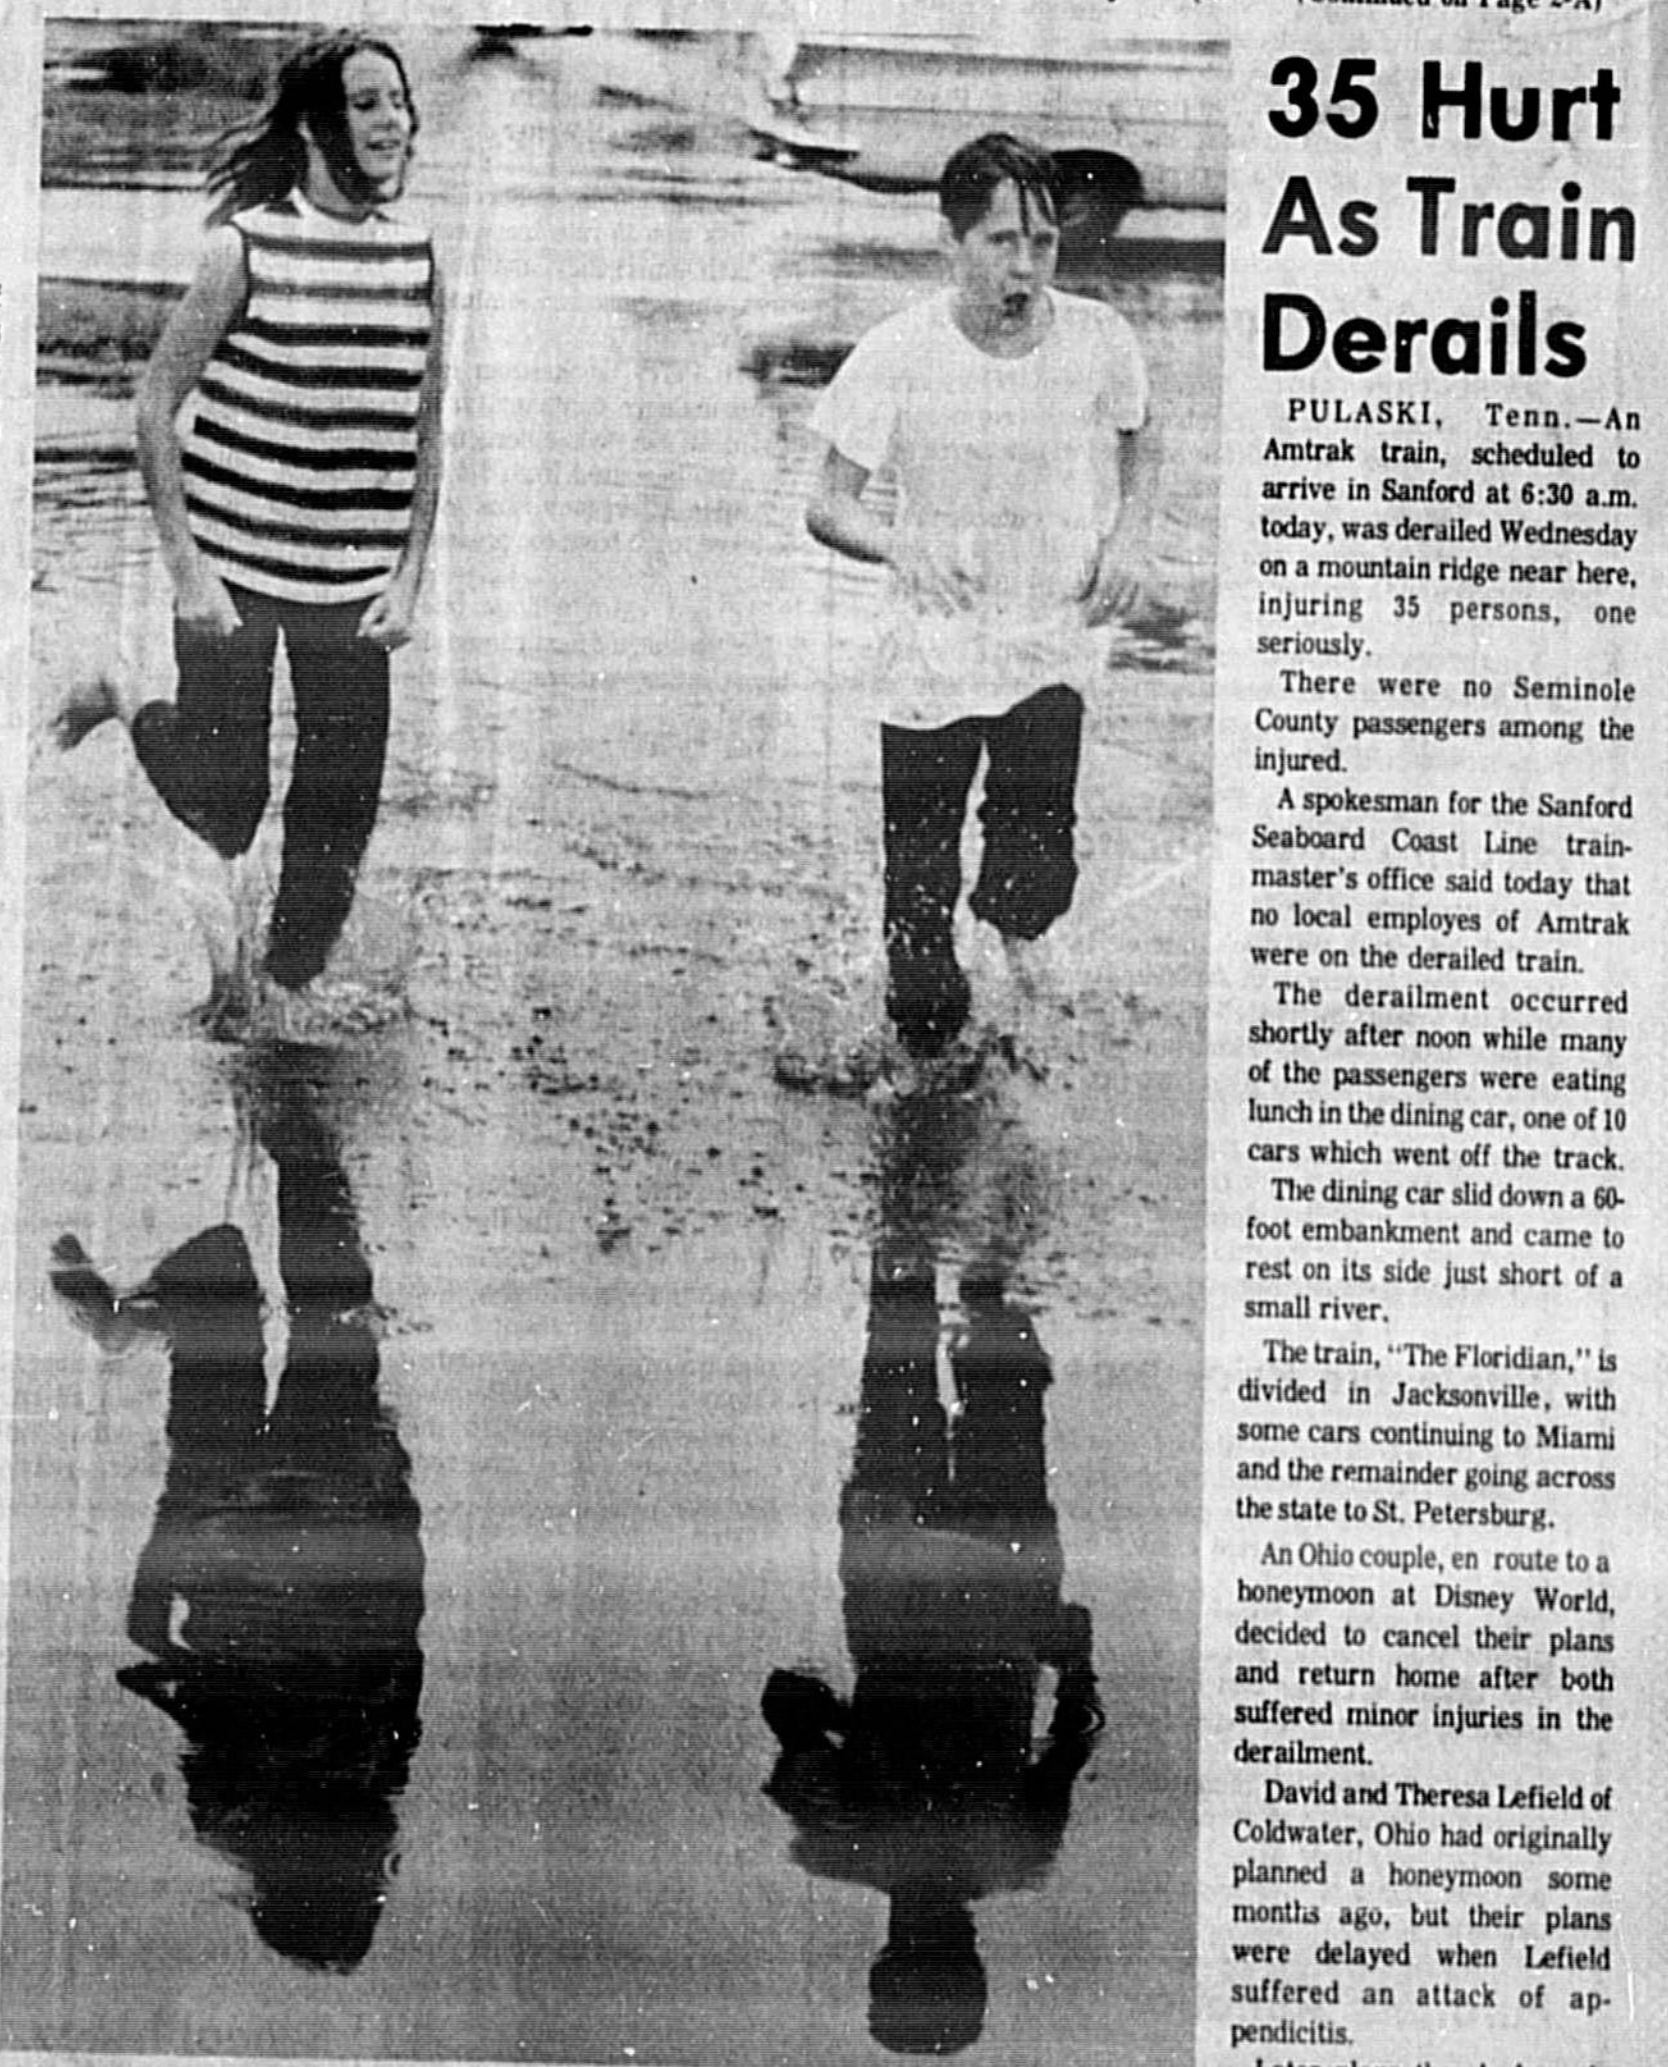

The dining car slid down a 60-foot embankment and came to rest on its side just short of a small river.

The train, "The Floridian," is divided in Jacksonville, with some cars continuing to Miami and the remainder going across the state to St. Petersburg.

An Ohio couple, en route to a honeymoon at Disney World, decided to cancel their plans and return home after both suffered minor injuries in the derailment.

David and Theresa Lefield of Coldwater, Ohio had originally planned a honeymoon some months ago, but their plans were delayed when Lefield suffered an attack of appendicitis.

Later plans they had made for a New Orleans trip ran afoul of Hurricane Eloise, then Wednesday's derailment caused them to decide to return home.

**RAINY DAYS FUN DAYS, TOO**  
Flooded streets resulting from recent heavy rains may be a headache for motorists, but for the younger generation it is just an opportunity to take off their shoes and have fun. Determined to make a splash were Diana Duseau, 13, and her brother, David, 11. (Herald Photo by Bill Vincent)

# Convicted In Van Burning Man Given Jail Term, Probation

By BOB LLOYD  
Herald Staff Writer

## In Brief Hostages Released Unharmed After Talk Calms Inmates

ENGLEWOOD, Colo. (AP) — Two federal reformatory inmates, with the help of a girl friend who allegedly snuggled them pistols, held three persons hostage for two hours before surrendering and releasing their prisoners unharmed.

Warden Tim Keshane said the inmates were talked out of their bid for release from the Federal Youth Center by "a steady effort on our part that nobody was going to beat them up."

Paul Ortiz, a counselor at the reformatory who participated in the negotiations, said, "We convinced them there was no way out."

The inmates' bid for release from the center, a correctional facility for youthful offenders located about 15 miles southwest of Denver, began shortly after noon Wednesday when the woman arrived to visit the inmates. Authorities said the lack of a search procedure for visitors enabled her to bring in three guns concealed in her purse.

## Patty Linked To Fatal Holdup

SAN FRANCISCO (AP) — Patricia Hearst has been identified as the woman who rented a garage for a getaway car used by bank robbers who killed a woman customer during a holdup, the San Francisco Chronicle reported today.

The newspaper report came after federal prosecutors revealed that the newspaper heiress and two Symbionese Liberation Army comrades may be charged with new, more serious charges related to events after Miss Hearst joined her kidnappers.

Asked Wednesday if there was a possibility that Miss Hearst would be charged with murder, the U.S. attorney from Sacramento, Dwayne Ruder replied, "It's under investigation. If they find sufficient evidence, yes. If they don't, no."

## FBI Mail Check Led To Arrest

PHILADELPHIA (AP) — The break that led to the capture of Patricia Hearst came because the FBI checked the mail addressed to the father of Stephen and Kathleen Soliah, the Philadelphia Inquirer said today.

Soliah has been identified as the man who rented the San Francisco apartment where the daughter of newspaper executive Randolph A. Hearst was captured two weeks ago. Soliah has been charged with harboring a fugitive.

The inquirer said the mail check began after Soliah's fingerprints appeared on a getaway car found two miles from the scene of a Carmichael, Calif., bank robbery last April in which a customer was killed. Authorities have said they are investigating possible links between Miss Hearst and that robbery.

## Judgment Error Claimed

WASHINGTON (AP) — The chairman of the Senate panel investigating the Secret Service says the agency's decision that Sara Jane Moore was not a threat to President Ford resulted from an error of human judgment.

But the Secret Service agents responsible for the decision, Gary Yaeger and Martin Haskell, say they would not make the same decision again.

Sen. Joseph M. Montoya, D-N.M., told the agents they did "a good, thorough job," in their handling of Ford's visit to San Francisco last week. But, closing two days of hearings on the agency's performance, he said Wednesday, "What did happen proved to be erroneous human judgment."

## Crime Fight Said Hampered

WASHINGTON (AP) — More and more states are forming strike forces to combat driving crime syndicates, but many state officials say they're hampered by a shortage of money and talent.

About 400 federal, state and local law enforcement officials are sharing their experiences at a National Conference on Organized Crime sponsored by the Justice Department today through Saturday.

A major part of the discussion centers on strike forces, the special teams of investigators and prosecutors used to build cases against syndicate gambling, drug trafficking, loansharking and fraud schemes.

## Hirohito Cites Harmony

WASHINGTON (AP) — Japan's Emperor Hirohito formally opened a two-week state visit today by hailing the complete turnaround in Japanese-American relations since the "tragic interlude" of World War II.

The emperor was accorded full military honors at a White House ceremony that signified a new level of harmony between the two Pacific allies.

"Our people withstood the challenges of one tragic interlude, when the Pacific Ocean, symbol of tranquility, was instead a rough and stormy sea, and have built today unchanging ties of friendship and goodwill," the emperor said in prepared remarks.

## Wholesale Price Index Up

WASHINGTON (AP) — Rising prices for farm products and industrial goods pushed the nation's wholesale price index up six-tenths of one per cent in September, the Labor Department reported today.

The September increase in wholesale prices was slightly below the August gain of eight-tenths of one per cent, despite a 4.3 per cent increase in prices for farm products, especially for vegetables, milk and livestock.

Prices of industrial commodities in September increased seven-tenths of one per cent, the largest increase since last November when they rose eight-tenths of one per cent. Prices of fuels and metals led the increase in industrial goods.

DUBLIN, N.H. (AP) — The 184th edition of the Old Farmer's Almanac, out today, predicts an early winter and a drought next summer.

The Weatherwise, a pseudonym, in the magazine's weather research, says the winter will start out wild and then settle down to be mild through January.

found nearly destroyed by fire. Defense attorney Allan Dickey revealed at the sentencing that Faller, on probation and parole, investigators during a presentence investigation "finally what happened the night he took the van and set it afire."

Assistant State Atty. Bill Heffernan asked Judge Strawn to sentence Faller to the maximum, 10 years in prison, on the convictions, saying the people of Seminole County "can't tolerate this type activity."

Judge Strawn would not reveal details of Faller's confession to investigators during the presentence investigation but said, "He was acting out some pretty hostile feelings toward people and trying to hurt them."

Strawn noted that Faller "has been kicking the dragon's tail since 1971" with a series of

arrests and said "there were serious consequences when the dragon woke up." He noted that Faller had been serving weekends on a sentence at the Oviedo city jail prior to the van theft and arson and that Faller, a carpenter, rebuilt cabinets in the van during that time.

"Some of the life's blood of Oviedo citizens went up in smoke with the van," Heffernan said, urging Faller to be given the maximum sentence. However, Strawn said he believes the sentence meted out "was appropriate, regardless, considering the presentence investigation report, the defendant's age and the evidence in the case."

In other sentences Wednesday Judge Strawn sentenced:

— Nancy L. Anthony, 27, of Altamonte Springs, to five years probation on a guilty plea to obtaining a controlled substance (amphetamines) by

# Blaze Damages Longwood Home

A fire that investigators believe started when a man was left on a kitchen range did \$28,000 to \$30,000 worth of damage to a Longwood residence early today.

The blaze broke out around 5 a.m., according to Longwood Fire Department Investigator Don Farnum. The owners of the house at 109 Pineapple Court, Longwood Groves, reportedly had left about three hours earlier on a trip to North Carolina, Farnum said.

The names of the owners were not available. Officials were attempting to contact them today.

Police said firemen received the first report at 5:45 a.m. Farnum said the residence was fully involved in flames when firefighters arrived. He said the residence and two autos in a garage were destroyed.

Investigators from the Seminole County Fire Department and the Sheriff's

Department are assisting Longwood firemen in the search for the origin and cause of the blaze, Farnum said.

He said firemen were able to contain the blaze and kept it from spreading to other nearby homes in the newly developed residential neighborhood.

Sheriff's deputies today reported a 15-year-old south Seminole juvenile boy was arrested Wednesday night after Casseberry police stopped a new station wagon on traffic charges.

Deputy John Thorpe reported officers contacted the registered owner of the vehicle who then discovered the auto was missing from his home.

In other reports, sheriff's deputies said burglars forced their way into a storage building at Red Lion Apartments, Red Lion Square, south Seminole, and made off with power tools valued at \$200.

KING-SIZED PEARS GROWN

Mr. Gary Miles of Lake Monroe proudly displays home grown pears as the compare normal size, which run around six ounces, to super pears weighing a pound-and-a-half and are approximately 1 1/2 inches in diameter. (Herald Photo by Bill Vincent Jr.)

# Ambulance Rate Hikes Approved By Commission

By ED PRICKETT  
Herald Staff Writer

Herdon Ambulance Service, Inc. has won \$4 rate increases for both emergency and non-emergency runs in Seminole County.

Herb Perry, spokesman for the ambulance company, said that fees for non-emergency runs will be raised from \$25 to \$30 while emergency runs will be hiked to \$35 from the present \$30.

The new rates will go into effect "within the next couple of days" when the contract is signed.

The higher rates were approved at Tuesday's county commission meeting after weeks of parrying back and forth between Herndon and county officials.

Commission Chairman Sid Vilhen Jr. called the increases "minimal" and said Herndon had not had an increase all year even though the price of gasoline and other costs have been on the rise.

The raises were contained in Herndon's contract for the 1975-76 fiscal year. Commissioners okayed the raises after Bob Ellis, the commission's administrative assistant, ordered a study to determine if Herndon ambulances remain in the county as the contract specifies.

Gary Kaiser, the county's director of public safety, said a study conducted by his office shows Herndon ambulances "provide adequate service 90 per cent of the time."

Kaiser said "no adequate records" are kept which would show if ambulances remain in the county all year as spelled out in the contract.

However, Kaiser also told the commission an ambulance was moved from Florida Hospital North closer to the Oviedo area. "In no way did I authorize the moving of an ambulance. And neither did the board," remarked Vilhen. The chairman instructed Kaiser to set up a meeting with Herndon officials to find out where an-

# Zoning Change Sought

Queries by the county began at the insistence of Commissioner John Kimbrough, absent from Tuesday's session.

Herdon has the exclusive franchise for ambulance operations in Seminole County. Also, the firm receives a yearly subsidy, in addition to fees from ambulance runs.

The land planning act, sponsored by the county commission, requires the cities and the county to complete comprehensive land planning by 1977.

A statewide planning law was passed early this year with a later deadline and the Seminole cities have been told they must comply with both the local bill and the statewide law.

Concerning the local planning act, which requires the cities to submit their comprehensive plans to the Seminole County Commission for approval, Hattaway said he has been informed the county has refused approval of Sanford's plan.

Sanford is the first city to complete its plan. Hattaway said the "county cannot rule the cities" and that lines of communication must be opened among the various governmental bodies.

Sanford City Manager W. E. "Pete" Kiczales, noting he spent a great deal of time in Tallahassee during the last legislative session, called the week's leaner paychecks, requested some sort of action to remedy the situation.

When said the commission just "hope" to return to the issue before the meeting ended Tuesday's meeting was the last for the commission in this fiscal year.

On Tuesday, county commissioners considered methods of equalizing paychecks for the entire year, but decided instead to have Pearson contact Beckwith's office to insure a similar situation doesn't occur again.

Commission Chairman Sid Vilhen Jr. blamed the clerk's office.

"It's a mistake, and it's unfortunate. Some people are getting only 20 or 30 cents because of a mistake in the clerk's office," Vilhen said.

And Commissioner Dick Williams, saying some employees "might be hurt" by the week's leaner paychecks, requested some sort of action to remedy the situation.

When said the commission just "hope" to return to the issue before the meeting ended Tuesday's meeting was the last for the commission in this fiscal year.

# FLORIDA IN BRIEF

Gulf To Abandon Dry Well  
Off West Florida Coast

PENSACOLA (AP) — Oil exploration off Florida's Gulf Coast has come to a standstill, with the Gulf Oil Co. saying it will plug and abandon an unproductive well south of this Florida Panhandle city.

"We have decided to release the rig for work elsewhere," a company spokesman said Wednesday. "We have no further plans for drilling off Florida."

Gulf's failure to discover any quantities of oil and gas is the last in a string of failures that the oil industry has called "the worst disappointment in 20 years of federal leasing in the Gulf."

The firm's rig was the 15th successive dry hole drilled off the Florida coast in the last 16 months.

Radiation Threat Minimized  
TALLAHASSEE (AP) — Gov. Reubin Askew and federal officials are minimizing the danger from radiation in houses built on reclaimed phosphate mines.

"Whenever there is a danger of increase in lung cancer, we want to act, but people could help themselves a lot better by not smoking," Askew told federal and state officials at a meeting Tuesday to examine findings of the Environmental Protection Agency.

Askew and Jack Raven of Atlanta, EPA administrator for the southeast, emphasized that the study in Folk and Hillsborough counties was in very early stages and no firm conclusions could be found.

Supreme Court Upholds Law  
TALLAHASSEE (AP) — A law that doubles the eventual cost when documentary and surtax stamps are omitted from real-estate transfers is constitutional, the state Supreme Court says.

Commonwealth Land and Title Insurance Co. of Miami had contended that a penalty equal to the cost of the stamps was unconstitutional because it provided a fine "so great as to shock conscience of reasonable men."

The Revenue Department fined Commonwealth \$21,230 when it discovered the firm had failed to affix stamps on the deed for a \$5.9 million real-estate sale when the deed was recorded.

Special Tax Rule Eased  
TALLAHASSEE (AP) — A new opinion by Atty. Gen. Robert Shevin eases the way for county commissions to create special districts and impose taxes to provide services such as street lights and fire protection.

Commissioners can create the districts in unincorporated areas and assess taxes up to 10 mills without a referendum, Shevin said in an opinion Wednesday.

The opinion for Betty Lynn Lee, Broward County general counsel in Tallahassee, is in a series of special taxing units, each changed as a result of legislative changes of the law.

Disaster Area Expanded  
FORT WALTON BEACH (AP) — Gulf County has been added to the hurricane-ravaged disaster area declared in the Florida Panhandle.

The county was included in the disaster area Wednesday by President Ford, whose action brings to six the number of Panhandle counties in which residents will be eligible for federal aid due to Hurricane Eloise.

Meanwhile in Tallahassee, Treasurer Philip Ashler issued a news release stating that banks in counties hit by last week's hurricane will receive special consideration in the deposit of state funds.

Ex-Convict Denied License  
MIAMI (AP) — A novel rehabilitation program taught prison inmate Alvin Minor how to fly. But now that he has been released, the Federal Aviation Administration won't give him a license because of his criminal record.

"My record in prison was good enough that the warden and others who knew me personally let me go out of prison every day to fly an airplane," said Minor, who was released in March 1974 after serving three years for bank robbery.

"But these guys in Washington, looking at a piece of paper, say I'm not capable of flying."

Askew To Appoint Woman  
TALLAHASSEE (AP) — Gov. Reubin Askew says he will appoint a woman to the Board of Regents when former chairman Burke Kibler's term expires Jan. 1, 1976.

"And that's fine with Kibler, who said Wednesday that 'I would not be interested in having another term at this time.'"

He said that appointment of women to key positions "seems to be politically popular and expedient."

# Board Expels Lyman Student

Leaving the "door open" for possible readmittance to the Seminole County school system following mental health treatment, the school board Wednesday night expelled a ninth grader — the first expulsion of the year.

In a 4-1 vote, the board agreed to expel a 15-year-old, first year pupil at Lyman High School for hostile behavior which Principal Carlton Henley termed "a threat to others."

Only board member Allan Keith opposed the successful motion made by board member David Sims. The motion also urged the non-working mother of the boy to "follow through" a rehabilitative program outlined by the board. The motion included a review by the board of any behavioral changes in the boy at the end of the 1975-76 school year.

Louise Crawford, a Civil Rights officer speaking for the pupil and mother, told board members the "black culture didn't teach the boy" about not hitting a girl.

"I have never heard of that," said Laver who said he totally disagreed with Mrs. Crawford. Both Mrs. Crawford and Keith questioned the school's guidance procedures and "red letter" communication between schools and communication with parents regarding potential problem cases.

Superintendent William P. "Bud" Laver recommended the expulsion of the boy to be pulled off the floor after a fight over a second-hand report of a "racial slur."

Weeping, the boy's mother promised to take him for prescribed medical treatment,

# Seminole Firm Wins \$1-Million Army Contract

WASHINGTON, D.C. — Congressman Richard Kelly (R-Holiday) has announced that Fourdee Inc., 410 Plummer Drive, Casselberry, has been awarded an U.S. Army modification contract for \$1,188,463.

Kelly confirmed approval of the contract with Ronald L. Warwick, president of Fourdee.

Under the contract, Fourdee will be manufacturing 608,617 firing devices as major components for the Claymore Security System.

Lake Mary  
Authorizes  
5th Policeman

LAKE MARY — City council Tuesday night authorized the hiring of a new police officer to be a full time five-member strength.

Authorized to be hired was Samuel D. Lee, who is a Sanford resident, sergeant in the Sanford Police Department auxiliary, and currently enrolled in the basic recruit 320-hour course at Seminole Community College.

# Industrial 25 Appoints New Steering Committee

A new steering committee was appointed at today's meeting of the Industrial 25 Committee of the Greater Sanford Chamber of Commerce.

Chairman John Krider appointed the nine members who represent several different facets of industry, including labor, utilities, transportation, technical training, finance, construction, industrial sites and city representatives.

The function of the steering committee will be to develop new ideas and new programs to encourage more businesses to move to the Sanford area.

Appointed to the committee were: Ralph Prescott, Tom Hunt, Jim Ryan, Russell Moncrief, Clifford McKibbin, Billy Brumley, W. Garnett White, J. S. "Red" Cleveland.

Krider expressed disappointment that after 10 months of promotional efforts, the Committee had not succeeded in luring one sizeable business to the area. Krider pointed out that Central Florida's high unemployment rate was one factor and another was the large amount of time and money being spent by neighboring cities to lure the same business to their areas.

Krider said the Committee had received several inquiries from small business employing 10-20 people, and some com-

panies had already come to Sanford. Sanford, as well as most of Florida, would be restricted under the new EPA provisions. One committee member said, "It's getting so bad that if my aunt wants to come visit me from Leesburg, she'll have to wait till somebody leaves town before she can come in."

J. S. "Red" Cleveland quipped, "When somebody comes out to the airport, waiting to tell them to come back in six months — I'll take me that long to complete the paper work."

Sanford, as well as most of Florida, would be restricted under the new EPA provisions. One committee member said, "It's getting so bad that if my aunt wants to come visit me from Leesburg, she'll have to wait till somebody leaves town before she can come in."

Around

The Clock

Good news. Former Sanford Mayor Bill Stemper of Stemper Realty is recovering nicely at the Texas Heart Institute following surgery on Tuesday.

While on the subject of area people hospitalized, we must note that Robert Michael King, 1968 graduate of Seminole High, was critically injured in an automobile accident last Friday and is in Jacksonville Memorial Hospital.

RAY CROMLEY

Campaign Law May Be Worse

Dear Federal Election Commission: "May newspaper subscriptions be paid out of the campaign fund?"

The Congressional Record recently carried 23 pages in the print on questions about, and advisory opinions and notices by, the new Federal Election Commission — one of a continuing series of such "informatives" on policies and guidelines.

"Can a wife in a single-income family make a contribution to a candidate if the husband has contributed \$1,000?"

"Can a partner, officer or member of a corporation or business holding a federal contract make a personal contribution?"

"The confusion is so general. Sen. Lee Metcalf (D-Mont.) was moved to note 'the complexities of the Act suggest that the least of the worries of those seeking political office should be defeat at the polls.'"

"An office holder mails out newsletters during regular intervals under a franking privilege, but the printing expenses of the newsletters are paid for by a committee. . . Are such expenditures permissible. . . ?"

"Are expenses such as lunches in Washington for constituents 'ordinary and necessary expenses incurred in connection with his duties as a federal office holder?'"

"Are the costs of voter opinion surveys conducted against the campaign expenditures of an incumbent senator?"

"Are expenses incurred by a candidate for legal and accounting fees paid for the purpose of complying with the Federal Election Campaign Act. . . expenditures for the purpose of a candidate's campaign expenditures limited?"

"May a member of Congress be reimbursed for travel expenses he incurs in connection with his political appearances in his congressional district?"

He is in critical condition, suffering from head and internal injuries. Persons who can be urged to report to the Seminole Memorial Hospital Blood Bank and donate a pint of the life-preserving fluid. Make sure, however, that you specify the blood is to be credited to the account of young Robert and that he's in Jax Memorial.

This might be filed under the heading Too Late To Classify, but we'll file it worthy enough to tell you about today.

WDBQ-TV, Channel 6, called late yesterday to inform us that it would be changing its schedule around tonight in order to provide its viewers with the CBS Thursday Night Movie, which in this case is reportedly one of the best.

The movie is Fear On Trial and deals with the trials and tribulation of newsman John Henry Faulk, who had been 'blacklisted' in broadcasting during the McCarthy era.

That of course, is not the purpose of this presently strenuous — and controversial — busing efforts. But if anyone hopes that a greater respect of students for each other, if not friendship, will result from integration, recent research does not support that hope.

According to Dr. Robert J. Wuthnow, assistant professor of sociology at the University of Arizona, a study of 4,500 high school students in three eastern communities suggests that prejudicial attitudes are actually more prevalent in schools with a greater ethnic mix than in those with virtually no minority group members.

The results of the study have been published in a new book, "Adolescent Prejudice," co-authored by Wuthnow and three other researchers.

"Instead of backing up the current belief that prejudice is lessened if there are minorities present in a school to get to know, we found that just the opposite was the case," says Wuthnow.

Because it was funded by the Anti-Defamation League of B'nai B'rith, the study focused primarily on anti-Semitism, but its findings would seem to be universally applicable.

The proportion of Jewish students was 50 per cent in one school, 25 per cent in the second and none in the third, while about 15 per cent of each school's enrollment were black children.

Genile students in the school with the highest Jewish enrollment were most inclined to demonstrate jealousy about Jews' academic successfulness and to hold stereotyped ideas about Jews.

Evidence was found that throughout the high school years, both majority and minority parents put increasing pressure on their children to date within their own groups. Similarly, the boys' dating preferences of their closest friends showed few cross-cultural associations.

In each of the schools, however, it was the better students — "those more intellectually advanced" — who expressed a better understanding of the roots of prejudice.

"If we are to overcome prejudice," says Wuthnow, "our pitch to the schools should be more than physical integration, because the kids just don't seem to get along very well."

The key, he says, seems to be in explaining why there are cultural differences. We can't deny that there are differences, so schools should teach the social and historical reasons for the differences.

Tonight's movie dramatizes those times and the libel suit Faulk, won against Awake, Vincent Hatnett, a self-described consultant on Communism, and the late Laurence Johnson, a retired super market worker who complained to sponsors about Faulk.

George C. Scott portrays lawyer Louis Nizer, who argued Faulk's case so well in 1962 the jury gave Faulk a \$3.5 million judgment which was later reduced to \$500,000 on appeal.

William Devane, who played the late President Kennedy in "Missiles of October," portrays Faulk in tonight's movie.

Air time is 9 p.m. It should be worth watching. —Bill Currie

DON OAKLEY

Mix Fails To Make Friends

You can lead kids of different racial or ethnic backgrounds to the same school but you can't make them drink of the cup of fellowship.

That of course, is not the purpose of this presently strenuous — and controversial — busing efforts.

According to Dr. Robert J. Wuthnow, assistant professor of sociology at the University of Arizona, a study of 4,500 high school students in three eastern communities suggests that prejudicial attitudes are actually more prevalent in schools with a greater ethnic mix than in those with virtually no minority group members.

WORLD IN BRIEF

Moslems, Christians Exchange Fire In Beirut Streets

BEIRUT, Lebanon (AP) — Christians and Moslems exchanged fire for the second night in a row in the Beirut suburb of Ein Rummaneh and Chiyah, and there was sporadic sniper fire in other areas of the Lebanese capital, the government radio reported today.

Interior Minister Camille Chamoun scheduled another meeting with leaders of Palestinian guerrilla organizations in an attempt to reach a new cease-fire between Christian militiamen of the Phalange party and leftist Moslem Lebanese and radical Palestinian guerrillas.

Chamoun was trying to end a bitter feud between the two suburbs — Ein Rummaneh Christian and Chiyah is Moslem — by replacing the combatants at the barricades with policemen and moderate Palestinians from Yasir Arafat's Palestine Liberation Organization, which has stayed out of the fighting.

Explosion Shuts Down Plant

BELOEIL, Canada (AP) — Canadian Industries Ltd. shut down production at its big McMaistryville explosives plant following a huge explosion in which eight men were killed and seven others hospitalized.

The blast Wednesday night blew out windows for a radius of five miles of the plant located in Quebec Province.

Pound Drops To Record Low

LONDON (AP) — The British pound dropped to a record low against the Western European major currencies today, and foreign exchange dealers said a rate of 82 was imminent.

The rate against the dollar dropped from \$2.0140 at the close of trading Wednesday to \$2.0295 at the opening of the market today, slightly above the record low of \$2.0275 reached temporarily during trading Wednesday.

Hurricane Packs 140 Mile Per Hour Winds

GLADYS Shifts Away From U.S. Mainland

CAPE HATTERAS, N.C. (AP) — Hurricane Gladys, said to be the strongest storm to reach this far north in the westward Atlantic in 15 years, shifted its 140-mile-per-hour winds away from North Carolina's Outer Banks early today.

After Gladys changed course to the north-north east, the National Weather Service lifted a hurricane watch that had been set for the string of sandy islands from Cape Lookout to Kitty Hawk.

Gladys, a minimal hurricane until its sudden intensification Monday, was throwing out gale winds 125 miles from its center, which at 6 a.m. EDT, when the watch was lifted, was at latitude 34.0 north, longitude 71.5 west — or about 260 miles east-southeast of Cape Hatteras.

Gladys was moving north-northwest at about 23 miles per hour. Forecasters warned shipping interests to avoid the intense storm. They also said rough seas and heavy swells could cause beach erosion and that coastal tides will run two to three feet above normal today.

"We don't expect to have any real problem with it," said Dave Spivey, area civil preparedness coordinator for the northern Outer Banks. "There will be some flooding and beach erosion but we hope nothing serious."

Moanville, scores of fishermen, campers and vacationers streamed off the Outer Banks for the mainland when the storm hit.

Extreme right-wing youths beat up one photographer, a Spaniard working for a foreign agency, and told him the foreign press was responsible for Franco's present wave of terrorism.

Long lines of mourners filed through the night past the policemen's bodies in the chapel of Gen. Francisco Franco last week in sparing the lives of six convicted terrorists, including two women.

"This is the price we are paying for allowing foreign tourists into the country," others cried. A number of foreign tourists were manhandled in Madrid Wednesday during a mass rally honoring the 39th anniversary of Franco's rise to power.

The latest police killings brought the number slain by terrorist bombs and bullets since January 1974 to 22 security officers and 14 civilians.

Officials said telegrams from Spanish civil war veterans' groups poured into Madrid supporting the 82-year-old Franco, Europe's last right-wing dictator.

Spain's state-run radio suspended its weekly broadcast called "The Word of the Pope," a summary of the activities and speeches of Pope Paul VI, who had denounced "murderous repression" in Spain.

Partly cloudy to cloudy at times through Friday. Chance of rain and thundershowers. Breezy through Friday. Highs mostly in the mid to upper 80s. Winds in the upper 60s. Winds variable around 10 mph, becoming north to northeast by Friday. Winds stronger and gusty near thundershowers. Rain probability 30 per cent through Friday.

Extended Forecast: Partly cloudy north considerable cloudiness south portion. Scattered showers mainly over the extreme south portion. Mild days and cool nights north portion. Continued warm and humid south portion. Days mostly in the mid to upper 80s. Interior extreme north to mid 70s southeast portion. Highs near 80s extreme south. Days mostly in the mid to upper 80s. Beach tides: high 6:38 a.m., 7:03 p.m. Port Canaveral: high 6:24 a.m., 6:46 p.m.; low 12:08 a.m., 12:38 p.m.

Premier Booped By Irate Police

MADRID, Spain (AP) — Irate policemen at the funeral of three colleagues slain by terrorists booped Spanish Premier Carlos Arias Navarro today and demanded his resignation.

"We demand justice and not clemency," they shouted, apparently referring to the action of Gen. Francisco Franco last week in sparing the lives of six convicted terrorists, including two women.

"This is the price we are paying for allowing foreign tourists into the country," others cried. A number of foreign tourists were manhandled in Madrid Wednesday during a mass rally honoring the 39th anniversary of Franco's rise to power.

Let someone you can trust deposit your social security check: Uncle Sam

Your check is deposited whether you're at home or away!

What happens when your Social Security Check comes and you're out of town? Or home in bed with an illness and can't deposit it? Nothing! At least, it's not earning you any interest. Well, now Uncle Sam will send your check direct from the U.S. Treasury to your savings account at First Federal of Seminole where it starts earning interest immediately.

With Uncle Sam making the deposits, you have one less stop to make each month. And you'll enjoy the convenience of automatic savings growth.

In a First Federal of Seminole passbook account, your money grows at the annual rate of 5 1/4% interest, compounded daily. And the interest is paid from the day of deposit to the day of withdrawal.

Direct Deposit prevents loss or theft. For more information on Direct Deposit, call of drop by your nearest First Federal of Seminole office. It's an easier, safer and more profitable way of depositing your Social Security Check. Because Uncle Sam and First Federal of Seminole do it for you — two of the most dependable friends you could have.

Give us a call at 322-1242 or mail in the coupon.

Postal Service Twists In Wind

We suppose we should be grateful that the U.S. Postal Service says it will put off until after Christmas an increase in the first-class postage rate to 13 cents. That at least will encourage Americans to send out as many Christmas cards as usual. And it will avoid a cut in postal revenues that the service can't afford.

It is difficult to argue with a move to delay yet another price increase that exercises such hardship on low income and fixed income groups. Such a delay, however, will put off the goal of break-even mail delivery adopted by the U.S. Postal Service upon its creation as a semi-private agency four years ago.

Postmaster General Benjamin Bailar had predicted that the additional income of three cents from each first-class letter would wipe out the \$850 million deficit for fiscal 1975 and balance the \$2 billion boost in annual operating costs linked to a new contract with postal unions.

The average increase in pay and benefits for each postal worker of \$2,800 over three years is restrained in comparison with labor pacts negotiated in the private sector. It totaled \$2 billion over three years for 700,000 workers.

An increase from 10 to 13 cents would mark the fifth such boost since 1958 when the price of a 3-cent stamp went up a penny after remaining steady at 3 cents since 1932.

The old bugaboo inflation is blamed for the need to increase the price of mailing a first class letter. Inflation has beset postal service with higher costs of carrying the mail. And by increasing the price of postage to keep up with rising costs, mail volume declined 2 per cent in fiscal 1975, with resultant loss of revenues.

The Postal Rate Commission, established to deliberate rate adjustments, moved constructively to cope with postal deficit problems recently when it in effect rejected a recommendation by administrative law Judge Seymour Wenner to reduce first class rates to 8 cents. The judge wanted to make up the lost revenue by raising second, third and fourth class mail rates by more than 100 per cent.

The judge's plan would have created hardship on magazine publishers, already hurting from rate revisions in the recent past. Postal Service officials also feared it would drive fourth-class parcel mailers to independent services, further complicating the unhappy fiscal picture.

Meanwhile, the Postal Service — under criticism from workers and patrons — implements a wage scale it lacks revenues to pay and postpones service improvements it cannot afford.

The off-maligned agency's woes are not entirely of its own making.

A British company is coming out with what it claims to be the ultimate in biodegradable plastic. By adding starch to the manufacturing formula, the plastic becomes rapidly, making plastic bags, cups and other items candidates for compost heaps and eventual use as humus in the garden.

That sounds like a breakthrough in the waste-disposal problem, but no telling what may come up when we start planting seeds in plastic soil. As it is now, some of the tomatoes and other fruits on the market have as much flavor as a plastic cup. Too much tinkering with nature and we may not be able to taste the difference between produce and the material it comes wrapped in.

Even if Jerry backed me right now for V. President in '76, I don't know if I could get to sleep in this thing!

RAY CROMLEY

Campaign Law May Be Worse

Dear Federal Election Commission: "May newspaper subscriptions be paid out of the campaign fund?"

The Congressional Record recently carried 23 pages in the print on questions about, and advisory opinions and notices by, the new Federal Election Commission — one of a continuing series of such "informatives" on policies and guidelines.

"Can a wife in a single-income family make a contribution to a candidate if the husband has contributed \$1,000?"

"Can a partner, officer or member of a corporation or business holding a federal contract make a personal contribution?"

"The confusion is so general. Sen. Lee Metcalf (D-Mont.) was moved to note 'the complexities of the Act suggest that the least of the worries of those seeking political office should be defeat at the polls.'"

"An office holder mails out newsletters during regular intervals under a franking privilege, but the printing expenses of the newsletters are paid for by a committee. . . Are such expenditures permissible. . . ?"

"Are expenses such as lunches in Washington for constituents 'ordinary and necessary expenses incurred in connection with his duties as a federal office holder?'"

"Are the costs of voter opinion surveys conducted against the campaign expenditures of an incumbent senator?"

"Are expenses incurred by a candidate for legal and accounting fees paid for the purpose of complying with the Federal Election Campaign Act. . . expenditures for the purpose of a candidate's campaign expenditures limited?"

"May a member of Congress be reimbursed for travel expenses he incurs in connection with his political appearances in his congressional district?"

"Brother, can somebody spare a dime?"

Florida Gains Statehood

It was a blazing day in Tallahassee and no time to be out in the middle sun. Yet high noon was precisely the hour that William D. Moseley mounted the platform to take office as Florida's first elected governor.

The date was June 23, 1845, just three months after the formal proclamation of statehood. In that brief time the machinery of self government had been set up, officials and a legislature elected and Florida was about to take off on its own sovereign course.

Tallahassee was bursting with pride. A tremendous crowd had gathered for the occasion, the local newspaper reported. "The elegant Capitol, spotless white within and without, is no unfit emblem of the as yet unwritten book of our political history."

Whether it was the 100-degree temperature or the excitement of the moment, the new governor was moved to soaring flights of declamation.

As a canon signalled the birth of the new government, he called on the citizens "to give Florida a permanent and enviable rank in the number of a confederacy whose brilliant career and proud preeminence in all that is great and useful, in the simplicity and purity of its civil institution, the martial accomplishment of its heroes, the fervid eloquence of its orators and the practical wisdom of its statesmen, challenge the honor and admiration of Christendom."

How the crowd roared! Applause and cheers rang through the heated air. The band broke into a spirited rendition of "Yankee Doodle."

"Then occurred a series of bizarre incidents that, according to the Tallahassee newspaper, sent a chill of foreboding through the spectators. The signal was given to raise the national flag. As the crowd waited for the climactic moment to reach again, the standard struck at half staff. It could not be moved up or down.

### Deltona Doings

By FANNETTE EDWARDS  
Herald Correspondent

The Deltona Business and Professional Women's Club will sponsor a flea market, Saturday from 9 a.m. to 4 p.m. at the Southeast Bank parking lot. Donations are still accepted and will be gladly accepted. Simply contact Ms. Helen Lunderback, 1099 Deltona Blvd. or bring them to the bank that morning.

On Oct. 10, the club will hold a dessert card party in the Deltona Community Center with Ms. Edwina Baudry, general chairman. The public is cordially invited to attend and enjoy an evening amid good friends. Party starts at 7:30 p.m. Both projects help to swell the Scholarship Fund, for the Deltona BPW Club gives two deserving women each a \$250 scholarship each year. This year the scholarships were awarded to: Margaret Torrey, a freshman at Daytona Beach Community College and Karen Lampher, who is furthering her studies in the field of therapy. The awards were made at last month's meeting.

The American Legion and Auxiliary 255 of Deltona have now changed their monthly meetings to the first Wednesday of each month. The post meets in the main hall and the auxiliary in the small one (or porch), of the Deltona Community Center. Speaker of the evening this month is Mrs. Roy Hodges of the social security office in Deland, who will address a joint meeting of both post and unit, at 7:30 p.m., in the main hall. A question and answer period will follow, after which the auxiliary will retire to their meeting in their hall.

Mrs. Joan Loutsenizer, president, announced a rummage sale will be conducted jointly by post and unit on Oct. 11 in the parking lot of the Southeast Bank of Deltona, at 9 a.m. and will continue until all items are sold. The unit's monthly Friday night dance is Oct. 3, at the Woman's Clubhouse. On Nov. 1, the post is sponsoring a Halloween Masked Ball at the Deltona Woman's Club House on Normandy Blvd. On Nov. 5, the post and unit will hold their annual Early Bird Dinner for those members whose 1976 dues are paid by Nov. 1, 1975.

On Oct. 12, is the Northern Area Conference of American Legion Posts and Auxiliaries. Both Commanders Betty Leonard and President Joan Loutsenizer and their officers will attend the meeting to be held in Jacksonville, at Post 137 headquarters. The host post will entertain those attending at a social gathering the evening before.

The Junior Auxiliary 255 conducted a car wash last Saturday and earned \$12 for its service fund. They wash the fourth Wednesday of each month at the home of Mrs. Peggy Thomas, Junior Activities chairman.

Deltona is preparing for its Bicentennial celebration, to take place next July 3 and 4, 1976. This two day Independence Day rally will take place in a Bicentennial Village, to be erected at the Deltona Plaza, according to Mrs. Paul Thomas, general chairman. In addition, the sporting events and games will be held in the various park areas of Deltona; family picnics will be held on the community center grounds; there will be street dancing and a huge parade is in the planning stage. All this will be executed by the willing workers of her committee, which includes: Dr. and Mrs. Fred Weigand; Dr. and Mrs. Jack Spencer; Mrs. Carl Posey; Mrs. Mario Grasse; Mrs. Harry Durand; Mrs. Wilhelm Stuhrenberg and Mrs. Richard Blair. Others will be added as the need arises, and the Deltona Civic Association has offered its assistance.

Anyone wishing to contribute financially or physically are asked to contact Mrs. Thomas at 1188 Briarwood; Mrs. Grasso, 2411 Hawthorn; or Mrs. Posey at 1461 Helena Ct. Deltona, or send donations direct to the Deltona Civic Association, P.O. Box 63, Deltona 32763.

Don't forget the Bahia Temple's Shrine Circus, Oct. 3, 4 and 5 at Tibber Field in Orlando. General admission, \$2.50. Reserved seats, \$3.50. For tickets, call Orlando, 422-2296 or write to Bahia Circus office at P.O. Box 1888, 60 West Gore Ave., Orlando, 32822.

## Detention Facility Studied Orange County Delegation Visits Center.

The Seminole Regional Juvenile Detention Center, located in Sanford, was visited by the Auxiliary Board of the Orange County Detention Center recently.

Seminole Center Director Thomas Fay said the group toured the facility and asked questions about the programs offered here.

"We are more fortunate than the Center in Orlando," Fay said. "We have only 12-15 people in our facility, while they have a population of 60 in a facility designed for 28 people."

Fay said the group was impressed by the Seminole Center's many programs, particularly the diagnostic testing program, which provides complete testing for

every child that passes through the Center.

Fay said the testing, which is made available through the Seminole County school system, is very helpful for both

the child and the community. Another program at the Seminole Center is the Token Economy program initiated with the help of the Sanford Optimist Club.

The Token Economy plan allows children to earn points during the day for good behavior. The points are then traded for refreshments.

Fay said the Seminole Center has benefited greatly from the efforts of its Auxiliary Board, which is made up by Gene Eiselein; Bob Markey; Jack Cado; Mary Giardini; Don Van Dalen; Bob Howe; Dan Scinto; and Terry Ackert.

Besides helping to initiate the diagnostic testing program, the Board was instrumental in arranging one 11 medical and dental care, Fay said.

During the two years ended June 30, AFL-CIO expenditures increased nearly 20 per cent, to \$3.9 billion, according to the federation's financial statement.

Political action, the largest of the AFL-CIO headquarters' activities, cost nearly \$3.8 million in 1974-75, compared with \$3.5 million in 1972-73.

Inflation has caused the fed-

eration to slip into the red in recent months, but the dues increase will pour about \$5 million more into its coffers. Money it can also use in the 1976 elections.

To help gain the muscle it needs to carry out its goal, the 14.1 million-member labor federation is seeking its first dues increase in six years. The convention delegates will be asked to raise dues from the current 10 cents per member per month to 13 cents.

When the county adopted its ordinance attempting to control the expansion and operation of municipally-owned utilities elected city officials protested vigorously.

The Florida Public Service Commission (PSC) has been signed and forwarded to Tallahassee, Woolfolk said.

The attorney said another ordinance, setting a five per cent use tax on municipally-owned utilities operating in unincorporated areas has become "moot."

County Utility Director Bill Dale said the county, since relinquishing the control cannot collect the franchise fee for the use of rights of way for installation of city-owned utility lines in unincorporated areas.

Sanford City Manager W. E. "Pete" Knowles said, however, the ordinance as adopted by the county violated state law and was unenforceable before control was relinquished to the PSC.

## Woolfolk Says Utility Ordinance Void

An effort by the Seminole County Commission to control the expansion and operation of privately-owned utilities in unincorporated areas has been rendered void by subsequent county action, County Utility Attorney Ned Woolfolk said Wednesday night.

Woolfolk, asked to appear at the CALCO Council of Local Governments meeting, said

that when county commissioners relinquished control of privately-owned utilities operating in unincorporated areas last week, its utility ordinance "in essence fell by the wayside."

A resolution adopted in open session by the county commission, relinquishing control of the operation of privately-owned utilities in the county

the Florida Public Service Commission (PSC) has been signed and forwarded to Tallahassee, Woolfolk said.

## Biennial Labor Convention Opens

SAN FRANCISCO (AP) — The AFL-CIO opens its biennial convention today, determined to throw labor's full weight into an effort to change White House economic policies that its leaders believe have caused record unemployment.

To help gain the muscle it needs to carry out its goal, the 14.1 million-member labor federation is seeking its first dues increase in six years. The convention delegates will be asked to raise dues from the current 10 cents per member per month to 13 cents.

Political action, the largest of the AFL-CIO headquarters' activities, cost nearly \$3.8 million in 1974-75, compared with \$3.5 million in 1972-73.

## More Than 24,000 Pupils Face Teacher Walkouts

By The Associated Press

More than 24,000 pupils faced walkouts by teachers today in Billings, Mont., and Cahokia, Ill., the latest public school systems to be hit by teachers' strikes.

In Billings, state factfinders had recommended a contract package including a \$1,000 across-the-board wage increase — 5.6 per cent to 12.5 per cent of current salaries.

The Billings Education Association accepted, but the school board did not. School officials said they would keep schools open with substitutes in the face

of a teachers' decision to start picketing today. The system has about 900 teachers in 31 schools serving 17,000 pupils. More talks were scheduled for Friday.

In Cahokia, where 375 teachers instruct 7,500 pupils, the local Federation of Teachers voted 286-19 Wednesday night to start a strike today. A spokesman said the teachers were asking a 3 per cent pay raise and fringe improvements.

In the Wilmington strike, under way since school began Sept. 3, closed-door talks which broke off last weekend resumed Wednesday under a blackout on news about progress, and were to continue today. Classes remain open part-time, but on Wednesday only about 44 per cent of the system's 14,200 pupils showed up.

The 700 striking teachers, about two-thirds of them reported out of class, want a three year contract with an 8 per cent pay hike this year and 7.5 per cent in the second and third years.

In New Bedford, 16 striking teachers were ordered to teach school or "bring your tooth-brushes" to court today, while six union officers remained in county jails. The order was from Bristol County Superior Court Judge Francis W. Keating, who on Wednesday jailed six New Bedford Educators Association officers for six months.

Union officials estimate Keating has already imposed a total of just under \$1 million in fines — \$5,000 daily on the association and two days' pay for each day out on teachers. The central issue is wages.

## Lake Destiny Zoning Approved

ALAMONTE SPRINGS — maximum of \$1,500 toward the City commissioners Tuesday night approved zoning for the Lake Destiny Road property annexed two weeks ago.

Zoning for the tract, requested neighborhood commercial by the owners, was delayed after commissioners two weeks ago split on the issue.

Commissioner Helen Keyser was out of town, due to a death in the family, and thus was not available to break the tie.

Mrs. Keyser joined with Mayor Norman Floyd and Commissioner Sandra Glenn Tuesday night to approve the neighborhood commercial zoning.

Commissioners George Perkins and Cal DeVoney opposed the zoning designation. "In other business, the commission..."

Authorized Mayor Floyd to negotiate with the county on the proposed paving of the Lake Orienta School entranceway with the city willing to pay a

Church — Franklin Street and Geneva Hwy. — Ovides — 3rd Monday of the Month at 4 p.m. Lively Socialites Club — meet at Highlands Club House — 575 Shepard Road — Winter Springs — 4th Friday of the Month at 10:30 a.m. NARFE Club — (National Association of Retired Federal Employees) — meet at the First Federal of Seminole Sanford — 1st Friday of the Month — 1:00 p.m.

# Square Dancing Group Changes Its Schedule

Organized a little over a year ago, "The Foresters," a swinging square dance group, is changing its schedule. Beginning Oct. 1, the group will dance on the second and fourth Friday of each month from 8:30-10 p.m. at the Forest Clubhouse, Lake Mary. The new caller is Ed Newton.

**DORIS DIETRICH**  
Correspondent  
DIAL 322-4823

Officers are Mary Ellen and Bob Strait, presidents; Lilly Ann and Earl Hartwell, vice presidents; Sophie and Ken Chapman, secretaries; and Nellie and Bob Michaels, treasurers.

Sanford-Seminole Jaycees honored Sherry Golden, Oct. 4, bride-elect of Blair Kitter, at a luncheon Saturday at the Sheraton.

Recent visitors of Mary and Jim Hay at their Little Venice home were Lilly and Tommy McLaughlin from Ireland.

En route to visit his mother, Mrs. Jennie King at Greenberg, Kan., near Dodge City, Rev. and Mrs. Leo (Ruby) King spent four days visiting friends and relatives at Chipley, Jackson, Miss., and Ft. Smith, Ark.

Delores and Jim Lash and children, Angelina and Barry of Lake Mary, drove their motor home to her horse state, Pennsylvania, for a vacation.

Employees of McCrory's downtown Sanford store surprised their manager Vernon Phillips with a retirement dinner Saturday at the Sheraton Inn.

Director Risa Demenberg commented at a news conference on the center's suit, filed Tuesday in federal court and alleging the seven doctors of anti-trust violations by conspiring to withhold medical services from the center's abortion clinic.

Do plan to come in and browse around soon. Boys & Girls Fashions for infants through size 14.

## Club Notes

### Lively Socialites

The Lively Socialites, Winter Springs senior citizen group held its first meeting of the year on Sept. 28.

Guest speaker for the evening was Mrs. Martha Downman, who informed those present of the many services now offered to senior citizens in the Seminole County area.

The next meeting of the club will feature a pot luck supper. The members have found that this is one way to guarantee a large attendance.

If you would like to become a member of this active group and are 55 years of age or older, drop by one of the meetings and sign up.

The club meetings are held every fourth Friday at 11 a.m. at the Highlands Club house on Shepherd Road.

**Junior Police**  
The Winter Springs Junior Police held a meeting on Sept. 23.

A Fashion Show will be held Oct. 16 at 7:30 p.m. at the Dickinson Memorial Hall in Orange City.

The club will observe National EPW Week, Oct. 19-25 by attending Presbyterian Church of DeBary Oct. 19 in a group for the 10 a.m. service.

**DeBary BPW Club**  
DeBary Business and Professional Women's Club will hold a dinner meeting Oct. 7, with a happy hour at 6:30 p.m., and dinner at 7, at Green Lantern Restaurant, DeBary.

For reservations call Joe Peck or Thesia Frison by Saturday deadline. This will be the official visit of Elizabeth Jarrett Parsell, District IV director.

A Fashion Show will be held Oct. 16 at 7:30 p.m. at the Dickinson Memorial Hall in Orange City.

The club will observe National EPW Week, Oct. 19-25 by attending Presbyterian Church of DeBary Oct. 19 in a group for the 10 a.m. service.

**DeBary BPW Club**  
DeBary Business and Professional Women's Club will hold a dinner meeting Oct. 7, with a happy hour at 6:30 p.m., and dinner at 7, at Green Lantern Restaurant, DeBary.

For reservations call Joe Peck or Thesia Frison by Saturday deadline. This will be the official visit of Elizabeth Jarrett Parsell, District IV director.

A Fashion Show will be held Oct. 16 at 7:30 p.m. at the Dickinson Memorial Hall in Orange City.

The club will observe National EPW Week, Oct. 19-25 by attending Presbyterian Church of DeBary Oct. 19 in a group for the 10 a.m. service.

**DeBary BPW Club**  
DeBary Business and Professional Women's Club will hold a dinner meeting Oct. 7, with a happy hour at 6:30 p.m., and dinner at 7, at Green Lantern Restaurant, DeBary.

For reservations call Joe Peck or Thesia Frison by Saturday deadline. This will be the official visit of Elizabeth Jarrett Parsell, District IV director.

# What Happens If Someone Does Object At Wedding?

By ABIGAIL VAN BUREN  
DEAR ABBY: An item in your column brought up this question: During a marriage ceremony, when the person who officiates says, "If anyone is present who knows a reason why this couple should not be wed, let him speak now or hereafter hold his peace," what would happen if someone were to speak up with a reason? Would the wedding take place? Or would it be stopped right then and there?

Has anyone ever attended a wedding when someone voiced an objection?

D.N. and J.C. at BSU DEAR D. AND J.: I've seen it only in "B" movies, but if such an incident has actually occurred, I'm sure that someone out there will write in.

DEAR ABBY: Thank God I've got you to talk to because I couldn't tell this to anyone else. I am scared half out of my mind. I think there must be something terribly wrong with me. I am afraid I am going crazy.

I'm afraid of being around people anymore, because when someone says something to me, I wonder why they said it. What I mean is, I have this feeling that people say one thing to me and really mean something else.

I have a dull headache over one eye all the time. Sometimes it throbs and throbs. My teachers think I'm faking, and my mother is sick of hearing me gripe about it, so I just keep quiet. I shake a lot and cry when I'm alone.

Now that I've told you, I feel better, but I know it's going to happen again. Please help me. I am 15.

AFRAID DEAR AFRAID: Show your mother this column and ask her to please take you to a doctor. If she refuses, take it to your teacher, your principal or school nurse. You need professional help. Write again soon, dear, and please include your name and address. I care.

DEAR ABBY: My husband and I have been married almost five years. We bought matching wedding bands, which we both wore at the time.

I noticed a few months ago that he has been leaving his band at home. He does office work, so it can't be that it's a hazard at work.

I mentioned it once or twice, and he said the band gives him a little rash. I know that the rash goes away in a day or two because my ring sometimes did the same to me.

My question is: Do I have cause to feel hurt? And should I mention it to him again, or should I just take mine off, too, and see how he likes it?

HURT DEAR HURT: The word from here is: Don't feel hurt, don't mention it to him again.

Dear Abby: An item in your column brought up this question: During a marriage ceremony, when the person who officiates says, "If anyone is present who knows a reason why this couple should not be wed, let him speak now or hereafter hold his peace," what would happen if someone were to speak up with a reason? Would the wedding take place? Or would it be stopped right then and there?

Has anyone ever attended a wedding when someone voiced an objection?

# Clothing Romance Revived

Little girls' clothes are showing evidence of a revived interest in the romantic looks of days past.

The manufacturer of Brig-A-Doon Knits for children, which appropriately enough is named for the imaginary, romantic land of folklore, reports that their business in dressy clothes of easy-care knits for young girls is booming this year.

The Brig-A-Doon collection consists of "Trevira" polyester knit dresses and fancy knit skirts, slacks and sweaters outfits in infant-through-teenage sizes.

Although jeans remain the staple of every child's closet, the sloppy look so prevalent in recent years has practically disappeared. Fashions for the very young set usually follow adult trends, and the recent demise of sloppy fashions for adults is more than likely responsible for the new, dressed-up children's attire.

A few years ago you couldn't put a little girl in a dress or even in a fancy sweater and slacks ensemble. Now, according to Brig-A-Doon executives, the daintiest and most feminine items on the line are suddenly the best sellers.

And children and their mothers are taking a new interest in choosing the right accessories — hats, scarves and shoes — to achieve a very put-together effect.

Color-coordinated slacks and sweater outfit for the young set is proving to be a big favorite with young children who are growing tired of the jeans "uniform" look. Business in soft and feminine outfits for little girls is reportedly picking up tremendously this year.

**Boys Ranch To Celebrate**  
LIVE OAK — The Florida Sheriff's Boys Ranch — largest and oldest institution of its kind — is going to celebrate its 18th anniversary Oct. 4 and 5, and the public is invited.  
"We are expecting hundreds of visitors," said Executive Director Harry Weaver, "and they will find the Ranch looking better than ever."  
"We are going to show them newly-paved streets, new tennis courts, and plans for a new education center," he said, "and we are also going to entertain them with a colorful horse show, an open house tour and a free Suwannee River barbecue, all scheduled for Saturday."  
Weaver said a memorial service on Sunday morning, Oct. 5, will give special recognition to the late A.W. "Bud" Smith, whose generous bequest provided financing for the extensive street paving and curb and gutter work which has just been completed.  
Smith, for more than 25 years prior to his retirement in 1963, was president and publisher of The Lakeland Ledger.  
The tennis courts were financed through proceeds from benefit wrestling matches sponsored by the Live Oak Jaycees in cooperation with Boys Ranch Trustee Eddie Graham and Championship Wrestling from Florida, Inc.  
These show participants will start arriving Friday night, Oct. 3, to camp near the horse show arena, share a big pot of chicken pilau (purr-lo), and participate in a moonlight trail ride.  
Two days of horse show events will begin at 9:45 a.m., Oct. 4. The barbecue is scheduled for 1 p.m.  
Sponsored by the Florida Sheriff's Association, the Boys Ranch today covers 3,000 acres of income-producing farm and timber land and represents an investment of over \$3 million — all from voluntary contributions. It has given a helping hand to over 400 boys in its 18-year history.  
A sister project to the Ranch is the Florida Sheriff's Girls Villa, in operation since August of 1972, near Bartow. The Villa is now caring for 16 girls and will have 24 in care before the end of this year.  
A group of Villa girls will be on hand to join in the Boys Ranch anniversary celebration.

**United Daughters Hold First Meet**  
Fourteen members of the Norman de Vere Howard Chapter of the United Daughters of the Confederacy (U.D.C.) met at the home of Mrs. F. D. Houmilt Sept. 28 for first meeting of the season.  
The U.D.C. "National Founder's Day" being observed in September, the program chairman, Mrs. Troy Ray Sr. gave a review of the organization, its founder, and for its purpose for establishing a war veterans' hospital in the United States.  
In keeping with the local U.D.C. Founder's Day, Mrs. Ray introduced guest speaker, Miss Martha Fox whose subject was "Do You Remember?"  
With audience participation, she discussed Charter members of the U.D.C. and early settlers of Sanford.  
The framed Charter, formed April 13, 1921, was prominently displayed containing the names of charter members on this treasured and cherished document, some of whom are still living. The present U.D.C. Chapter is very proud of its past leaders and members of the Sanford chapter for their patriotic influence and outstanding zeal and achievements.  
The president, Mrs. W. B. Wallace, announced the State U.D.C. annual convention will be held in Orlando at the Kahler Plaza Oct. 13-14-15-16. Besides the speaker, another guest attending was Mrs. Edith Sewell of DeBary.  
Delightful refreshments were served by the hostesses.

# Singing Program Slated

By SHIRLEY A. WENTWORTH  
Herald Correspondent

Today Mr. and Mrs. Harold Spinks of Shirley Lake in Bear Lake will present a singing program at the United Methodist Church in Lockhart. The Spinks, well-known in the area for their vocal arrangements, will present a program for the entire congregation of the Church. This evening of harmony will be sponsored by the Women's Group of the Church.

Also planned by the Methodist Church is a Rummage Sale to be held on the Church grounds on Oct. 25 starting at 8 a.m. The Faith Circle of the Church will be in charge.

Sweetwater Oak residents Mr. and Mrs. Wirt Cook have just returned from a week's vacation at Pompano Beach. The couple new residents of the area reside on Sweetwater Blvd. South.

A morning coffee was held at the Everett Huskey home, Oak Grove, 500 Sweetwater Club Blvd., this morning. Hostess Mrs. Huskey welcomed all women of the Sweetwater Oaks area into her home from 10 until noon.

Just returned from Detroit, Michigan are Mr. and Mrs.

### Larry MacPhail To Be Buried In Michigan Friday

By THE ASSOCIATED PRESS

Larry MacPhail, a baseball innovator who revolutionized the game, will be buried Friday in the small Michigan town of Cass City, where he was born and raised.

MacPhail, who installed the first lights in a major league baseball park, thereby allowing night games, and who began Old Timers' Day, died Wednesday morning in a Miami, Fla., nursing home. He was 65.

"Larry MacPhail was dynamic, bombastic and smart," said Gabe Paul, president of the New York Yankees. "He made many contributions to baseball and I have a special place in my heart and my memories for him."

The first club president to fly his team to all road games and who tapped the Caribbean as a fertile ground for exhibitions and training camps, MacPhail built pennant winners of the Cincinnati Reds, the Brooklyn Dodgers and the Yankees. He retired from baseball after his 1947 Yankees won the World Series.

"I'm finished," he said following the Yanks' victory over the Dodgers. "I promised my wife I'd retire when a team of mine won a World Series."

MacPhail, who came to be known as the "Baron of Baseball," entered the sport in 1890 when he purchased the Columbus, Ohio, Senators of the American Association for \$100,000. He rebuilt the team's park, adding lights, and quickly turned the club into a pennant winner. Then he sold it to Sam Breadon of the St. Louis Cardinals for a profit.

He then took over the Cincinnati Reds in 1933, a last-place team that was in debt. MacPhail installed lights there and got his friend, President Franklin D. Roosevelt, to switch them on.

Before long, MacPhail built a winner and the Reds won the National League pennant in 1939 and 1940, just after MacPhail retired from baseball for the first time.

He returned to baseball to do a similar rescue operation on the Dodgers. In Brooklyn's first night game after MacPhail installed lights, Johnny Vander Meer of Cincinnati pitched his second consecutive no-hit game.

But the Dodgers won the National League flag in 1941 and finished second in 1942 before MacPhail left the game once more, this time to join an Army unit during World War II.

After the war, he purchased the Yankees and returned them to power while introducing Old Timers' Day to Yankee Stadium.

In 1958, when the Braves were still in Milwaukee and the A's in Kansas City, MacPhail proposed a four-divisional setup for baseball—close to what exists today—with teams in Seattle, Denver, Dallas, Houston, New Orleans, Atlanta, Toronto, Montreal, Mexico City and Havana. He also suggested second teams be located in New York, Los Angeles, San Francisco and either Detroit or Philadelphia.

His survivors include his widow, Jean; two sons, Lee, president of the American League, and William, former vice president of CBS; and two daughters, Jeanie and Marian.

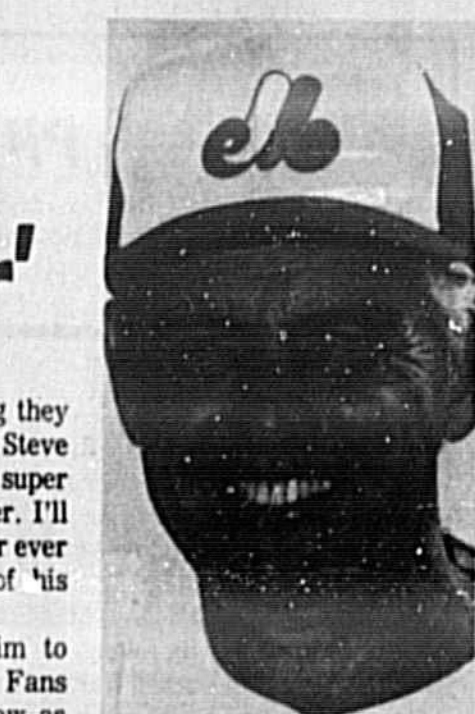

### Expos Fire Mauch; Said 'Fine Manager'

MONTREAL (AP) — Last Wednesday night, as Gene Mauch stroled to a position near second base at Jarry Park, a deep-throated chorus of boos rose from the crowd.

"It was fine," Mauch said. "I was fired because he will no longer be introducing Expos players to Montreal baseball fans."

A week after his hostile reception from Montreal's baseball fans, Mauch's career with the seven-year-old Expos is history. Mauch, 49, was fired Wednesday along with all of his coaches—pitching coach Cal McLish, third-base coach Dave Bristol, first-base coach Walt Hrinak, bullpen coach Jerry Zimmerman and part-time hitting instructor Duke Snider.

"Any way, I don't mind what I

GENE MAUCH

### Year Of The Character Rollicking Reds Are Ready

CINCINNATI (AP) — If 1974 was a character-building season for the Cincinnati Reds, 1975 has been the Year of the Character.

The rollicking Reds, a happy-go-lucky band that thrived on locker room ribbing, may have set a National League record for laughs en route to a division title. The only thing they took seriously was baseball.

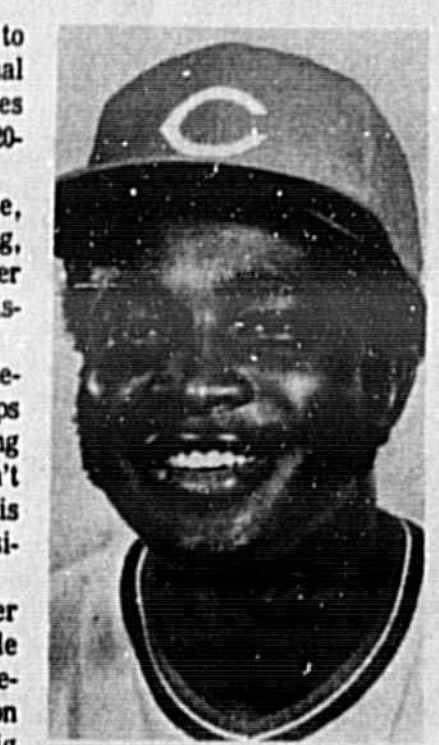

They heard the raps and laughed up their critics' sleeves. They had a manager considered "too nice," some superstars who might be getting "too old," and a pitching staff pronounced "too thin."

But Cincinnati's collection of levity-loving "hit-men" made life miserable for opposing pitchers, winning the most games since 1909 on the way to burying the defending National League champion Los Angeles Dodgers by an unthinkable 20-game margin.

Tough-minded Pete Rose, ever-ready to start something, was a chief agitator—either with his bat or his nothing-is-sacred needling.

He had company from sidekick Joe Morgan, whose quips were as quick as his blazing bat. Morgan, when he doesn't have a hand in the hilarity, is busy demoralizing the opposition with his many talents.

Morgan, a prime contender for the league's Most Valuable Player award, has been described by the Dodgers' Don Sutton as "the wheels of the Big Red Machine."

JOE MORGAN

### Oviedo, Lake Howell Clash For First Wins

What's all the hullabaloo about Seminole playing DeLand?

The game of the week is in Oviedo. Lake Howell is the opponent, and never mind looking at the win-loss records.

This game isn't for all the marbles. It's for all the sticks. And, in the realm of football rivalries, this one is going to be a free-for-all.

It's the type game in which a win could negate an 8-10 season. Don't get the idea students from the neighboring schools don't care about the other nine games on the schedule.

In many cases, seniors at Oviedo have younger brothers or sisters attending Lake Howell, which doesn't have a 12th grade class.

Just picture the games played at the breakfast table. First and 10, pass the biscuits.

This is simply THE game, the rest lower case "the" games.

To say both coaches are chinpin' at the bit is an understatement. Neither team is as big as its 9-3 record implies. Oviedo will be favored. Home field. Speed, depth and experience.

So, on with the predictions and trying to improve on a woeful 12-5 seasonal average:

Oviedo 21, Lake Howell 13 — The possibility of dual passing games by both teams could give fans a tennis neck from looking back and forth. Experience makes its toll and Lake Howell hears the sad chimes.

Winter Park 28, Lyman 14 — The Greyhounds are playing Dr. Jekyll and Mr. Hyde with predictors, showing themselves to be a sound football team at one moment and virtually ineffective another. Still, even with a good effort, Winter Park should be a bit much for the fastest 'Hounds.

Lake Brantley 14, Seabreeze 6 — This is the week the Patriots reach back and do everything right. It's like the defense to bive its shining hour and even score one of the touchdowns.

Trinity Prep 34, Admiral Farragut 14 — The Saints clobber somebody for the second week in a row. And it's a daytime game, so Trinity players will want to be certain to smile as they cross the goal line. You see, a major advantage to daytime games is n.c.m. dad and the girl friend

### Haynes' Hunches

By JIM HAYNES

Meet Frank Whigham, Sanford attorney and older brother of Seminole quarterback and reigning player of the week Mark Whigham.

Frank, too, was a quarterback in his playing days, leading the Tribe during some of its most successful years back in the mid-60's.

In joining the Herald list of guests, Frank has a formidable task in trying to improve on the composite guest standings of 41-17-4, tied for third in the standings. Bob Brazier, pro at Mayfair Country Club, picked 15-4-3 last week, topping all of the regulars except Biff Corrigan, who sailed out of last place with a 16-3-3 week.

Topping the standings as he has all season is Jim Haynes at 44-14-4. Haynes was 14-2-2 last week as was Anthony Hayes. Louis Sapsis and Rick Pantridge were 13-4-4, while Lynne Smith slipped to 12-7-2 and last place.

For the second straight week, nobody was able to top Jack Horner's opening 17-3 mark, though Corrigan came close and might have done better if it hadn't been for the two ties.

Many of the Herald stable of prophets were moaning all week about how tough the games are getting, but another good showing by the guest should put an end to all that talk from the so-called experts.

Vanderbilt over Tulane — just a guess

### Evening Herald's Fearless Football Forecast

## United Way Goal Hits 24 Per Cent

By AUDIE MURPHY Herald Staff Writer

The United Way of Seminole County, Inc., held its first report dinner last night at the LaFiesta restaurant on State Highway 436.

The Casselberry Lions Club hosted the event. United Way Gene Eiselein, in charge of public relations for the campaign, reported a new total of \$33,370.95, up from the kickoff total of \$17,831.95.

The United Way of Seminole's goal this year is \$154,500.

Eiselein said the new total represents 24 per cent of the campaign's goal.

"We are very pleased with what's been accomplished so far and we are hopeful that we can reach our goal by the time the campaign ends Oct. 23," he said.

Eiselein said the report dinner was highlighted by a \$13,000 contribution from Sears Roebuck and Co., in the Altamonte Mall. The company's "fair share" employ program contributed \$8,892, and the company's gift was \$4,000.

Eckerd Drugs, which operates an automatic payroll deduction program, contributed \$983 from employees and \$384 from the corporation.

Eiselein said the campaign's next report will come at a luncheon to be held at noon, Monday, Oct. 6 in the Sanford Civic Center.

Thanks To You, It's Working

## City Property Exemptions Down Taxpayers' Burden Eased

By JOE ASKREN Herald Staff Writer

The burden of Sanford's property owners is being eased because the percentage of tax exempt property is dropping faster than the increase in dollar value of exemptions, the city manager said today.

City Manager Warren E. "Pete" Knowles said the city is "gaining ground to the good," which is the net result of a 16 per cent drop in assessed property exempted from taxes since 1972.

Knowles explained the total assessed value has increased which means an automatic percentage drop in the ratio of exemptions to the total value.

Bill Suber, assistant county property appraiser said today the 16 per cent drop in assessed property exempted from taxes since 1972 means the tax roll is "working in the right direction."

Suber said the proportion of Sanford's taxable property and that portion exempt from taxes is "no different than any other city" of comparable size.

The latest figures from the county show 36 per cent of the total \$213,889,665 assessed property value in Sanford is exempted from taxation, Suber said. This means \$126,711,960 is "taxable for operating purposes," he added.

The city's exempted amount was 48 per cent last year, 50 per cent in 1973, 52 per cent in 1972, but it was only 39 per cent in 1971, said Suber.

The city's exempted property includes the many churches, schools, hospital, governmental buildings, homestead and widows exemptions, and elderly and veterans' property exemptions, which Knowles said "is startling," in number.

Knowles said the State Legislature has granted many tax exemptions in the past, which meant taxpayers had to pick up more of the difference.

Suber said the declining percentage of property exempt from the tax roll in the city since 1972 may be due to the slow down in construction and "not as many governmental buildings being built."

He said the reason for the jump in the amount of exemptions between 1971 and 1972 was because of a population increase, more homestead and elderly exemptions, and the completion of the \$4 million county courthouse here.

The increased amount of city property on the tax roll means the tax base is broadened, Knowles said. "This is one of the purposes of the new reappraisal — to get an equalized tax roll," said Suber.

He said the state ordered reappraisal for fair market value increased the city's total assessed valuation 15 per cent of \$28,237,755 which includes \$10 million in new construction.

Suber explained the reappraisal increased the city's taxable value by 40 per cent.

## Ventilators Delay Inspection November Goal For Jail

By ED PRICKEIT Herald Staff Writer

Seminole County officials are aiming towards the first week in November to reopen the county jail, County Commission Chairman Sid Vilhen Jr. said today.

Jail doors closed June 9 after a fire swept through the facility, leaving 10 inmates and a jailer dead in its wake.

Since the fire, the county has paid out an estimated \$1,000 per day to house Seminole County inmates in jails in surrounding counties.

Vilhen said he has written state officials asking for a November inspection in hopes of reopening the jail to cut out the \$1,000-a-day "premium" paid other counties.

Vilhen's letter follows county commission approval Tuesday of an additional \$1,245 for installation of five ventilators.

The \$1,245 payment brought total costs for installation of safety features after a letter from Jail Administrator George Prooffoot.

Asked if November is a realistic opening date, Prooffoot replied, "I think if the work is completed — and we have reason to believe it will be — the jail can open by Nov. 1," he said.

He also said total costs of safety features is running about \$12,000 more than officials previously estimated.

When said the jail could have reopened by Oct. 10 if it hadn't been for the ventilator fans, which he says will require special manufacture.

"It's just a shame to have the job completed and have to wait a whole month on some very sophisticated fans," the chairman noted.

To combat that, Vilhen said he is attempting to rush completion of the ventilation system, but he said today the earliest due date he can get thus far is the latter part of this month.

Safety features include a smoke injection system, sprinklers, exhaust fans, as well as complicated fire and smoke detection equipment.

The commission on Sept. 9 approved bids for installation of safety features after a letter from Olin Greene, director of the state fire marshal's office, assured county officials installation of the safety features would insure a "reasonable degree of safety" at the jail.

A number of lawsuits have been filed as a result of the fire. All the suits name Sheriff John Polk defendant. All the suits seek damages.

## Qualifying Deadline Nears Six Candidates File In Lake Mary

By DONNA ESTES Herald Staff Writer

A wealth of candidates have surfaced for the three city council seats open in the Dec. 2 Lake Mary city elections.

While six candidates have indicated an interest in running for election, only one — incumbent Martin Bacon Sr. — had filed qualifying papers by this morning.

According to City Clerk Kay Samsman, five others have picked up qualifying papers, including incumbent Councilman Harry Terry and Suzanne Savage, Pat Jarrell, Jennifer Saunders and Henderson Ferguson. Incumbent Virginia Mercer has not indicated whether she will seek re-election.

Mrs. Savage said today she is considering vying with Bacon for his city council spot.

Bacon is completing one year of a split term created by a resignation last year.

Mrs. Savage, Mrs. Jarrell and Mrs. Saunders are making their maiden forays into the political arena.

Mrs. Savage is a licensed insurance agent, while Mrs. Jarrell is currently serving as secretary in the planning and zoning board and Mrs. Saunders is active with the Volunteer Fire Department's Women's Auxiliary. Ferguson is a maintenance superintendent with the county.

Lake Mary has 991 eligible voters.

A special voter registration will be held by Seminole Elections Supervisor Camilla Bruce and her staff at the Lake Mary Post Office Saturday from 8:30 to 2 p.m. Voter registration books close Oct. 17. The candidate qualification period in Lake Mary will close Oct. 24.

In Altamonte Springs the voter registration books have already closed for the Nov. 4 city elections and the candidate qualification period will close Saturday.

Candidates for the mayor's office are incumbent Norman Floyd Sr. and Lawrence Swofford. City Commissioner Helen Keyser is being opposed in her bid for a fourth two-year term in office by political newcomer Glen Buschman while no opposition has surfaced to City Commissioner Cal

## CETA Jobs Available In County

A total of 10 federally-funded jobs remain unfilled in Seminole County out of 230 positions created by the Comprehensive Employment and Training Act (CETA), an official said today.

CETA Coordinator Lois Martin said persons seeking any of the positions must have been unemployed for a minimum of 90 days.

Unfilled positions include a recreation technician, a mapping technician, a supervisor for retarded adults, an instructor in air conditioning and automotive mechanics, others, according to Miss Martin.

Persons seeking jobs may apply at the nearest state employment office, or at the CETA office in Seminole Plaza at SR 436 and U.S. 17-92.

The Seminole County Commission in March was designated the prime sponsor for an estimated three million dollars in CETA funds earmarked to provide jobs for Seminole County residents.

Since March, Miss Martin said her office has placed 220 unemployed workers in all the county's cities. Seminole Community College (SCC) and in positions in county government.

Jim Bedsole, a CETA planner, said he is now seeking the hard-core unemployed in hopes of placing them in government or industry-related jobs.

"We're not getting the underprivileged minorities, and we want to get more of these," Bedsole said.

To qualify, an applicant must fill out an application form at the CETA office, or at one of the two state employment offices located in Sanford and Altamonte Springs.

Then, the applicant is interviewed, and, based on his qualifications, sent out for an interview with a prospective employer.

CETA workers presently employed in the county earn from \$2.10 an hour to \$10,000 a year.

"The employer is getting a worker free, but the hope is that employer will continue to pay for the worker once CETA funds run out," Bedsole said.

## Lake Mary To Celebrate As Bicentennial City

LAKE MARY — This city will officially become a Bicentennial community with special ceremonies at 10 a.m. Monday at the Lake Mary Elementary School.

Seminole County Bicentennial Chairman Jack Horner will present the city's Bicentennial flag to Mayor Walter Sorenson.

Rev. A.F. Stevens, pastor of the Lake Mary United Presbyterian Church, will give the invocation while the Boy Scouts will lead the pledge of allegiance and raise the new Bicentennial flag over the students of the school to be invited to attend.

Guest speaker, former Congressman Bill Gunter, will be introduced by former Mayor Don Jackson.

Rev. A.F. Stevens, pastor of the Lake Mary United Presbyterian Church, will give the invocation while the Boy Scouts will lead the pledge of allegiance and raise the new Bicentennial flag over the students of the school to be invited to attend.

## Goats Eat Way Right Into 'Jail'

Two goats were munching different fare today at the Seminole County Animal Control shelter.

Officer Richard Willett "arrested" the goats Thursday after Mrs. Donald Brewer reported they were eating the wren off her clothes line at her Mullet Lake Park Road residence.

The clothes-eating goats joined three horses, 20 dogs and five cats at the county's shelter off U.S. 17-92 near Seminole Community College. All the animals have been impounded recently by animal control officers in connection with violations of the county's animal control ordinance.

## Ford Vetoes Lunch Plan

WASHINGTON (AP) — President Ford vetoed the National School Lunch and Child Nutrition Act today, saying it would provide subsidies for non-needy children and "is worse than the programs we now have."

Ford suggested that Congress either extend present school lunch programs or act favorably on his proposal to provide aid for all children from families below the poverty level.

Exercising his 38th veto, the President said, "By extending aid to families not in need, this bill would add \$1.3 billion to my budget proposals for the current year."

"I cannot accept such fiscal irresponsibility when we face the real danger that the budget deficit could reach \$70 billion instead of the already high limit of \$50 billion I set earlier this year."

Complete details and news are on Page 5-A.

## Inside Sunday

Tribe Takes On Deland

Seminole High takes on tough Deland tonight in a football game that will go a long way toward deciding whether the Tribe can make it to the playoffs. See the Evening Herald Sunday sports section for blanket coverage of all prep games in the area.

THURSDAY'S HIGH 86. OVERNIGHT LOW 69. RAINFALL WAS .04 INCHES.

Fair to partly cloudy through Saturday. Highs mostly in the mid 80s. Lows near 70. Winds northeasterly 10 to 15 mph, decreasing at night.

Complete details and news are on Page 5-A.

## WORK BEGINS ON ZOO ROAD

Preliminary grading work began this morning in preparation for paving the entrance road to the Central Florida Zoo by the Central Florida Road Builders Association. Rainy weather has held up work on the roadway. (Herald Photo by Tom Vincent)

**KNOTHOLE GANG**  
Surprised at what they see through their own private peep hole are Billy Burke, 4, of Sorrento; David Morganieri, 5, of 206 E. 19th Street and Peter Simon, 4, of 108 Wilkins Circle, members of "the knothole gang" at Happy Acres Kindergarten.
