Twenty-Third PSALM

THE

You've got to have your arms around a warm, wooly, wobbly lamb before the real meaning of the Twenty-third Psalm grips Jou.

You begin to realize how awkward, bewildered, helpless a lamb really is.

David wasn't merely singing of the Lord's faithfulness. He was confessing his own helpless-Doss!

The key to religious faith is not simply the discovery of God's power. It is the discovery of our own need.

The Lord is OUR Shepherd.

#### 1 The Lord is my shepherd, I shall not want;

for thou art with me; thy rob and the staff, they comfort me.

Always for them-Duty-Homer Country; always their blood and sweat and tears as we sought the way and the light and the truth.

And 20 years after, on the other side of the globe, again the filth of murky fishcaes, the stench of ghostly trenches, the slime of dripping dugsuts; those boiling sums of relatives heat; these issrential raiss of devastating storms; the leneliness and utter desolation of jungle trails, the bitterness of long separation from those they loved and cherished, the deadly pastilence of iropical disease. the horror of stricken areas of war; their resolute and determined defense, their wift and sure stack, their indomitable purpose, their complete and decisive victory—always victory.

Always through the bloody haze of their last reverberating shot, the vision of gaunt, ghastly men reverently following your password of Duty-Hunor-Country.

ever premulgated for the uplift of mankind. Its requirements are for the things that are right, and its restraints are from the things that are wrong. The soldier, above all other men, if required to practice the greatest act of religious training—sacrifice. Is pattle and in the face of danger and death, he discloses those divine attributes which his Maker gave when he created man in his own image. No physical courage and no brute instinct can take the place of the Divine help which alone can sustain him. However horrible the incidents of war may be, the soldier who is called upon to offer and to give his life for his country is the pohlest development of mankind.

You now face a new wurld—a warld of change. The thrust at into outer space of the untillite, spheres and minifies marked the heginning of another epoch in the long story of manhind the chapter of the space age. In the five or more billions of years the scientists tell us it has taken to form the earth, in the three or more billion years of development of the human face, there has never been a greater, a more always or staggering evolution. We dest now not with things of this world alone, but with the illingtable distances and as yet unfathomed mysteries of the unithe primary larget in war, no longer limited to the armed when of all among, but instead to include his civil populations, of all make conflict between a united human race and the sinister forect of some other planetary galaxy; of such dreams and fastance to make here the most exciting of all time.

A ND THROUGH all this weiter of change and development, your mission remains fixed, determined, inviolable—it is to win our ward. Everything else in your professional career is but corollary to this vital dedication. All other public purposes, all other public projects all other public needs, great or small, will find other for their accomplishment; but you are the ones who are trained to fight; your is the profession of arms—the will to win, the sare knowledge that in war there is no substitute for victory; that it you lose, the notion will be destroyed; that the very obsession of your petitie solytim must be Duky—Honor—Country. Others will be destroyed the contraversial issues, national and international, which divide men's minds; but serenc, caim, aloof, you stand as the nation's warguardian, as its lifeguard from the raging tides of international conflict, as its gladiator in the arena of battle.

For a century and a half you have defended, guarded and the feetbal its fiallowed traditions of liberty and freedom. It is that is a justice. Let civilian voices argue the merits or demerita of ear processes of government; whether our strength is being sapped by defielt financing, indulged in too long, by federal paternalises grown is mighty, by power groups grown too arrogant, by guiltice grown the borrest, by crime grown too campant, by morals grown is show, by taxes grown too high, by extremists grown too violent? Whether our personal liberties are as thorough and complete as they would be.

These great national problems are not for your professional participation or military solution. Your guidepost stands on the tan-fold Beacon in the night-Duty-Hener-Country.

You are the leaven which binds together the entire fabrie of our national system of defense. From your ranks come the great captains who hold the nation's destiny in their hands the moment the war togeth sounds. The Long Gray Line has never falles as Wars you to do so, a million ghosts in olive drab, in brown that, in blue and gray, would rise from their white crosses thundering those magic words-Duty-Honor-Country.

those magic words-Daty-Honor-Country. This does not mean that you are war mongers. On the costing, the soldier, above all other people, prays for peace, for he reads matter and bear the deepest wounds and scars of war. But always to our ears ring the solinous words of Plato, that wisset of sill philoophers, "Only the dead have seen the end of war."

THE SHADOWS are lengthening for me. The twilight is bary for ays of old have vanished tone and tint; they have going planmering through the dreams of things that were.

Their memory is one of wondrous beauty, watered by team, and sound and circussed by the smiles of yesterday. I lister value, for the sitching melody of faint bugies blowing reveiles as Successful busting the long roll. In my dreams I hear again the small commit the rattle of musicity, the strange, mournful mutter of the battletield.

## About 40 Days To Graduation

Memo to county high school students:

Give or take a few days, you have 40 days and nights in which to assure your graduation this June. Time's fleeting.

By the first of June you'll know, probably without being formally notified, that you've made it. Or haven't.

Graduation in county high schools this year is set for June 8; with baccalaureate exercises the night before. With good luck, there'll be 336 of Seminole County's youth getting their diplomas this year. That compares with 414 for last year.

Seminole High School Banford leads the field in total number of students. There, 262 hopefuls are on the list of prospective graduates. Last year 215 made it, an increase of 47 this year, ¥. . .

Lyman High School in Longwood is running second with 159 tentative graduates. This figure is 45 more than the 114 who made it in 1963.

Forest Lake Academy will have diplomas ready for 87 prospective graduates this year compared with 55 who received them last year. Oviedo High School has

printed 28 diplomas for this year's hopefuls, compared with 30 for 1963, a drop of two.

NEARING THE END of a long reign in Sanford's history is the Palms Hotel on West First Street. Workers are down to the second floor in razing the structure, condemned by the city and long considered an eyesore to the community. Most of the windows have been removed as crews salvage as much material as possible for resale.

Word from Tallahassee has it that Florida's non-farm employment shot to a new record of 1,514,500 in February, Commission Chairman Worley Brown said the February total topped the previous alltime high in December by 5,-400 workers. Brown adds that while employment was rising. unemployment was falling more than 25 per cent in February from a year ago. He attributes the employment buildup to "an exceptionally good tourist season which is

continuing." Notice how busy the Mu-

nicipal Zoo was Sunday. Bright sunshine, warm temperatures and the always colorful attractions at the zoo proved the right combination, for hundreds and hundreds of visitors. And Lake Monroe was peppered with boats of all sizes. Boat marinas were jammed from early morning to late at night.

. . . Things will begin to pick up at the Sanford Armory as Scouts get ready for the Scoutorama to be held there Friday and Saturday. The youngsters will display their handiwork and aptitudes from 7 to 9 p.m. Friday and from 2 to 4 and 7 to 9 Saturday. It's well worth your time to ace how the Cubs, Scouts and Explorers are getting along. They're mighty proud of the exhibits. You'll be equally proud when you take a few minutes to inspect them.
