TALMADGE ONLY NEW DEAL FOE ON COMMITTEE

When the Democratic National committee met in Washington to lay plans for the forthcoming presidential campaign, Gov. Eugene Talmadge, a committeeman from Georgia, cast the only vote against a resolution approving the Roosevelt administration. Defiantly chewing away on a cigar, he is shown (left) as other committeemen shouted their support of the New Deal. Hoffman Says He Followed Conscience

"If Impeachment Is Price I Am Ready To Pay," Declares Jersey Governor

Condon Declines To Make Comment

Enigmatic 'Jafie' Is Viewing Panama Canal Zone Sights

WASHINGTON, Jan. 17. — Governor Harold G. Hoffman in a formal statement today said that "if impeachment is the price that must be paid for daring to follow the dictates of my own conscience I am ready to pay it."

He said he did not question the "truthfulness and moral competency" of some of the chief witnesses for the case. He said that the crime could have been committed by any one man, and that he was not sure of the competence of some of the law enforcement agencies to bring about the depth of the case. He said he had no apology for granting a reprieve in this case. He said he was not sure of the competence of some of the law enforcement agencies to bring about the depth of the case. At the same time, Hoffman said he was not sure of the competence of some of the law enforcement agencies to bring about the depth of the case. He said he had no apology for granting a reprieve in this case.

Meanwhile, Paul C. Clancy, editor of a magazine on American astrology, announced he had appointed a committee to investigate Hoffman's case. He said the committee would be made up of "leading" astrologers.

Under the terms of the reprieve, Hoffman was to be held in the state prison at Jacksonville. He was to be held in the state prison at Jacksonville. He was to be held in the state prison at Jacksonville.

For Senator

Frank Woodruff, Sr., former legislator, commissioner, councilman and mayor, who today announced his candidacy for the State Senate from this district.

Frank Woodruff To Be Candidate For State Senate

Leader In District He Was Born In Gasts Hat In Ring

Frank L. Woodruff, former mayor of Sanford, former Seminole County Commissioner and former legislator, today announced his candidacy for the State Senate from the 7th senatorial district, now represented by J. J. Parrish of Titusville. He was born in Sanford, though as a matter of fact there was no Sanford and no Seminole County then. Old Fort Reid was his birthplace, and this section was a part of Orange County.

Mr. Woodruff served as a member of the Sanford City Council in 1897, was mayor of the city in 1907, and was commissioner of the Orange and Seminole Counties. He served on the Orange County Commission for three years and then, when Seminole County was created in 1913, he was appointed a commissioner of the County and served as chairman of the board. In 1918 he was elected to the State Legislature and was re-elected for two consecutive terms. He was for 10 years secretary of the Orange County Democratic Committee, before Seminole County was organized.

Mr. Woodruff was born in Sanford, Feb. 26, 1871 and has lived here ever since. He attended the Orange county public schools but moved to Duane West, S. C. for a short time and studied at the high school in that city. Later he became a student in Erskine College.

He belongs to the Masons, the Elks and is a Kappa Alpha. He is also a member of the First Presbyterian Church, and resides at his home, 520 Oak Avenue. He married the former Miss Minnie Devlin and has four sons, Frank Woodruff, Jr., J. D. Woodruff, Dr. Ralph G. Woodruff, Englestown, N. J., and Dr. Harry S. Woodruff.

With the arrival today of a contingent of American Legion members from the Sanford area will be held at the local W.P.A. office and will be held at the local W.P.A. office and will be held at the local W.P.A. office.

Loss By Fire Per Capita Is Only 54 Cents

Annual Report Shows Total Cost Of 105 Blazes In Sanford In Year Was \$5912

Efficiency of the Sanford Fire Department kept the fire loss in this city last year to 54 1/2 cents per capita, it is shown by the annual report of Chief M. N. Cleveland. There were 105 fires during the year with a total loss of \$5,912.87, though property to the value of \$475,978.00 was involved.

The report for 1935 is contrasted with that of 1934 when there were 145 fires with a total loss of \$6,829.12, or 87 cents per capita. The year before there were only 100 fires which lowered the per capita cost of 33 cents as the total loss that year was \$3,378.

Losses in 1935 and 1931 were much greater. Property to the value of \$38,523 was destroyed in 1932 with a per capita loss of \$3.91, and in 1931 property worth \$29,897 was destroyed with a per capita loss of \$3.57.

In fighting fires last year the department used 30 gallons of chemicals, laid 5,100 feet of hose and erected 312 feet of ladders.

Chief Cleveland's report contains the following table showing the number of fires and the loss sustained each year dating back to 1917:

Year	Loss	No. of Fires
1917	\$ 3,280.00	16
1918	21,978.00	24
1919	5,412.00	28
1920	15,778.00	29
1921	8,488.00	25
1922	5,298.00	28
1923	24,778.00	42
1924	30,700.00	33
1925	4,788.00	23
1926	15,240.00	33
1927	26,300.00	44
1928	22,500.00	48
1929	17,000.00	72

Ethiopia Denies Great Victory As Claimed By Italy

(By The Associated Press) The Italian command in Africa claimed today that 4,000 Ethiopians were slaughtered in a great battle on the southern front, but official Ethiopian sources ridiculed these claims. Marshal Pietro Badoglio, the Italian commander, announced the engagement ended in a "complete victory" with Fascist troops chasing the fleeing troops of Ras Desta Demtu. In Addis Ababa, however, officials said the major battle was impossible because the Ethiopians were arranged in scattered positions.

Tampa Cigar Firms Sue For Return Of

TALLAHASSEE, Jan. 17.—(AP) For the return of impounded processing stamps held during the last six weeks were filed in federal court yesterday on behalf of 15 Tampa cigar manufacturers.

The manufacturers, which cited the recent Supreme Court decision holding the AAA unconstitutional, also sought to make permanent injunctive relief against J. Edwin L. Pogue, collector of internal taxes for the Florida district, and to bring him from collecting tobacco processing stamps.

Potato Act Still In Force Despite Outlawing Of AAA, County Agent Is Informed

The lowly spud is still under control, despite the Supreme Court's decision that the AAA is unconstitutional. County Agent C. R. Dawson has been advised by the powers that be that the "Warren Potato Act" is a separate law and is in no way connected with the Agricultural Adjustment Act and that the Supreme Court's decision, "does not change the Warren Potato Act in any particular."

Under telegraphic instructions from Wilmon Newell, director of agricultural extension services in Florida, the day after the Supreme Court knocked out the AAA, Mr. Dawson suspended activities on all control programs. He was also instructed to cease all government properties used in such programs. He is now informed, however, that the spot control regulation is still in force.

Fewer Accidents Are Reported By Sanford Hospital

Lawton Again Chosen For Another Year To Head The Board

Expenses made for the annual meeting last evening of the Sanford Hospital Board of Directors showed a reduction in the number of accidents taken handled at the institution in 1935 as compared to 1934. There were only 41 accidents cases of various kinds reported during the year while the year before there were 52.

Report also showed that the daily average cost of operating the hospital last year was \$41.33, a saving of 44 cents per day from the cost of the preceding year. The total cost for the year was \$15,000, a saving of \$1,000 over the cost of the preceding year.

Members of the Seminole County Board of Commissioners have been advised that the dates of Mar. 12 and 21 have been selected for the past annual convention of the Florida Association of County Commissioners. The meeting will be held in Fort Pierce.

Youth Was Forced To 'Take The Rap' Says His Counsel

Attorney Hopeful Of Getting New Trial For Virgil Gracy

Virgil Gracy, 18, sentenced last month to a term of five years in the State Reformatory at Marianna, was forced by his parents to "take the rap" for his father, C. C. Gracy, with whom he was jointly indicted by the Grand Jury for murder. This statement was made today by Garland W. Spencer, attorney appointed by the Court to represent the Gracy.

Virgil pleaded guilty to manslaughter at the December term of court with the expectation that the case against his father would be quashed, Mr. Spencer said. The attorney endeavored to prevent the boy from entering such a plea, saying that grand juries could continue to indict the father until he died irrespective of whether the boy took the blame for the deed.

Mr. Gilliland stated that he also plans to attend and that it is his hope and the hope of the other towns in the new league that there will be a large attendance at tonight's meeting and that it will result in Sanford's decision to place a team in the new North Florida League of organized baseball.

Recuers Find Ellsworth In Little America

Noted Explorer And Flying Companion Alive And Well On Ice Locked Waste

Missing Since Last Nov. 23

LONDON, Jan. 17.—(AP)—The British colonial office announced today that Lincoln Ellsworth, American explorer, and Herbert Hollick-Kenyon, his British companion, missing since Nov. 23 when they started their daring Antarctic flight, have been found alive in the frozen wastes of Little America.

A message from the rescue ship Discovery II said "Ellsworth and Kenyon are both alive and well." After piercing the ice locking Bay of Whales the British royal research ship located the men comfortably camped on an ice barrier where they ran out of fuel on a daring attempt to fly across the South Polar regions. The explorer's long silence was due to a damaged radio transmitter, the colonial office announced. This message described the discovery:

Cow Killing Railroad Boycotted By Farmer

WASHINGTON, Jan. 17.—(AP) The Bellevue & Cascade Railroad of Iowa—charged with cattle killing—has given up the ghost because angry farmers refused to ship any more livestock to its rickety cars. Keeping Out Of War

The overwhelming sentiment in favor of keeping out of war is adequately shown in a poll recently conducted by the publications owned by Senator Capper of Kansas. The poll was taken primarily among the Middle Western readers of the Capper publications and all in all more than 1 hundred thousand votes were tabulated. The final returns as printed in the Topeka Daily Capital, were as follows:

1. Should the United States keep out of all foreign wars? Yes, 90,746; No, 964.
2. Do you favor giving the people a vote on the question before going to war? Yes, 87,714; No, 2,542.
3. Do you favor taking the profit out of war by drafting industry and wealth as well as men in case of war? Yes, 89,838; No, 2,444.
4. Do you favor world disarmament? Yes, 81,422; No, 7,990.
5. Do you favor the manufacture of munitions at government plants instead of at private plants? Yes, 82,095; No, 8,067.
6. Do you favor the United States or any of its citizens or institutions lending money to foreign nations to be used for war purposes? Yes, 2,047; No, 89,558.
7. Do you favor the people of the United States selling supplies to warring nations? Yes, 8,588; No, 87,046.
8. Do you favor compulsory military training in colleges? Yes, 12,077; No, 78,397.

The results of this poll leave little doubt in the minds of anyone as to what the people of this country really want. All that remains is to know how to do it. It is oftentimes easy enough to find out what a person wants. It is not always easy to get it for him. Some of the questions in this poll sound almost as if a questionaire had asked, "Do you believe in prosperity for the United States?" and a hundred thousand replies had brought in a 99 percent affirmative answer. But how to get it?

More than 90,000 persons vote that the United States should keep out of all foreign wars; only 964 take the opposite view. But how to do it? They do not say. More than 81,000 persons favor world disarmament; only 7,990 are against it. But how can those in this country who favor disarmament get nations like Italy, Germany, Russia, or Japan to disarm?

This poll amounts to nothing more than a pious hope. Of course, we do not want war. But what is the best way to avoid war in a world fraught with enmity, jealousy, selfishness, hatred and greed? We might make ourselves so strong and powerful that no one would dare to attack us. And yet those very people who vote against war also vote in favor of disarmament against military training. Ethiopia, relatively, was disarmed, had little military training. So was China. And look at what happened to them.

A Prosperity Prediction

Advising business men to keep worrying and to "go safely and resolutely ahead with wealth production, followed by wealth-sharing through high wages and low prices," Henry Ford looks forward today to a future of "sounder prosperity than we have ever dreamed of in the past," provided "we keep our heads."

Disagreeing with those who anticipate permanent unemployment, he insists that industry can absorb all who can work among the unemployed. Great development lies ahead for the automobile; a vast job of modernization must be accomplished in America replacing heavy materials with lighter articles; industry should be "decentralized," and school children must be "fully prepared to push on eagerly along new lines." Mr. Ford declares in a signed article appearing in The American Magazine.

Mr. Ford distinguished between two kinds of prosperity in the article. One is expressed, he says, by "booming stock markets, crowded night clubs and spectacular riches for the few." Sound prosperity he describes as "an ever-widening distribution of useful goods and services. If we keep our heads we may expect to see in the future a greater measure of this sound kind of prosperity than we have ever dreamed of in the past."

"Whether America is doomed to another cycle of boom and collapse does not depend on the government which can neither help nor hinder much. It depends upon the intelligence, decency and self-control of American business men." Mr. Ford states he himself is absolutely uninterested in political office and scores business men for hobnobbing with politicians and the stock market. He believes he can be "much more useful" tending to his own business.

"In my opinion," Mr. Ford continues, "there is no more sound work in this country to be done than we should be able to see every citizen's portion for a long time to come. Production has never been so high as it should be. We have never had overproduction, only maldistribution. What we need is a smart customer who will see to it that the money system is made capable of handling the load of the widest popular consumption."

"The thing is certain: there is great development ahead for the automobile. It really has not started yet. People wanted them so quickly and in such large numbers that we are only now getting down to the job of development."

"While many business men have stagnated, the big new car, which has continued to march ahead, has shown that there is a vast job of modernization to be done in America."

"With such a period of change and progress ahead, it is foolish to complain that there is not more work to do."

Cuban Soldiers Kill 3 Kidnap Suspects

GUANAJAY, Cuba, Jan. 17.—(AP)—Cuban Army agents, whose fingers are trigger-keen in dealing with kidnapers, shot three suspected kidnapers Tuesday and all but cleaned up the latest in a wave of abductions in the island Republic.

The three were killed in a running gun battle with soldiers shortly after they had abandoned Fulgencio Gutierrez, 23-year-old son of an attorney, manufacturer, Congressman, was seized in a Havana suburb early yesterday and held for \$50,000 ransom, half of which was reported to have been paid.

Eight suspects were arrested and the army then bagged all but one of its quarry. One was shot during the shooting and was sought last night in case fields.

But then, we had the thrill of a kidnaping flying the nest, the home of a Will Rogers over the air, the challenge to reach the fugitive was by the spread of plenty "Lila," said Theodore Roosevelt, "is a great adventure. We should live it happily, gladly and bravely." The Machine Age is life—a great adventure. It is here—now. The home and luxury are just a moment. Lays which do not keep pace with the age will also become just a memory, for the Machine Age is here to stay.

U. S. Judge Ritter Faces New Charges Filed By Florida

WASHINGTON, Jan. 17.—(AP)—Removal of Federal Judge Harold L. Ritter of the Southern District of Florida, on charges of "invidious, oppression and judicial misconduct" was demanded in the House yesterday by Representative E. A. Green, (D. Fla.).

A petition submitted to the House, Green cited nine articles of impeachment.

The petition said Ritter "is abused the powers of his high office."

In language giving Congress "power to regulate commerce among the several states" is just as clear as that giving "power to coin money, regulate the value thereof, and fix the standard of weights and measures."

In interpreting the latter the Supreme Court has favored the fullest exercise of power by the federal government. But as in the commerce clause, it has narrowed the meaning as to preserve States Rights. Certainly people living in 1936 could not have thought of commerce as just "transportation."

In fact, the full meaning of the authority granted by the commerce clause did not appear until 1824, and it was 180 years after the adoption of the Constitution before Congress began to exercise its authority to regulate, affirmatively, and negatively, the states. On the other hand, Congress assumed responsibility and authority to power over money.

That day the Supreme Court interpreted the meaning of commerce to be interstate and foreign and gave power to the states to regulate the commerce of the states. The plan of protection has remained of that

One of the causes of jumpy eyes is the eye-tiring contrast between light and dark in your home.

The next time you read under a bright light when the rest of the room is almost dark, ask someone to notice the pupils in your eyes. Every time you look up from your reading your pupils will become noticeably larger as they attempt to adjust

themselves to the quick change. This repeated adjusting strains your eyes.

When reading, some of the light should be used to light up the general surroundings. Have your home lighting tested and be sure of light for safe seeing and beauty. Call our nearest office for this free service.

GROWTH

SANFORD TWENTY YEARS AGO

Sanford, Florida, twenty years ago. The town was a small settlement of about 100 people. It was a typical frontier town of the time, with a few stores and a general store. The population was growing rapidly, and the town was becoming more established. The economy was based on agriculture, and the town was a center of commerce for the surrounding area. Free Chiropractic Clinic Is To Be Held In Sanford

Free Chiropractic Clinic Is To Be Held In Sanford

Sanford is to have a free educational Chiropractic clinic according to Dr. J. F. Dunn, of Washington, Pa., special representative of the National Educational Chiropractic Clinic organization who was in town recently. Dr. L. T. Deas of Sanford was appointed to have charge of arrangements locally.

This is a national movement sponsored by the profession. Dr. R. L. Larson of Sioux City, Ia., chief of staff clinic organization and an X-ray technician will have charge of the clinic. This is the first of a series of such periodic health features to be conducted here according to Dr. Dunn.

The patients will make a complete Chiropractic analysis of cases attending the clinic. A complete X-ray unit will be included in their clinical examining equipment.

Show Them No Mercy Exposes Crime Terror

From the 20th Century-Fox showstages of Darryl F. Zanuck, satiate producer of sensational and unusual film dramas, comes "Show Them No Mercy!" the anti-crime picture which exposes the force and violence of the new underworld terror in exciting fashion.

The picture, now at the Milano Theater, was adapted from the story by Kubec Glasmon, nationally famous for his stories of gangsterdom.

Action in "Show Them No Mercy!" centers about the plight of a young couple trapped in the cabin of desperadoes, while the entire nation mobilizes for the manhunt to stamp out these ruthless criminals.

At The Mayfair

Guests at the hotel Wednesday were: W. L. Molloy of Grand Rapids, Mich., Ralph M. Nops of Toledo, Ohio, F. L. Johnson of Gainesville, J. A. Mook, Jr. of Jacksonville, and Sigmund Ball, Jr. of Jacksonville.

Artists To Be On Milane Stage Sunday Shows

**Major Bowes Sending
10 Of Best Acts On
A Tour Of Florida**

Nineteen artists chosen by Major Bowes as outstanding performers in their line will appear on the stage of the Milane Theater in Sanford next Sunday afternoon and night. They compose Unit No. 2 and are a part of the larger circuit of Florida, coming here from Jacksonville. Manager Joell Marentette of the Milane is especially glad that a city the size of Sanford is able to get these artists on Sunday, as generally they are booked in much larger cities on weekdays.

The Major Bowes amateurs will appear in 10 numbers. They are: Thelma Gaskin, former Orange school teacher, coloratura soprano; Joseph Rogato, the "garage" tenor; Rufus Wilson, the "smoked ham" baritone; Rhoda Chase, orphan girl, mezzo contralto; Meyer Goldberg, whistler; Bob Hammill, pianist; Harvey Kearns, who plays a variety of instruments; Jackie Billings, former Jersey Happy Range, who plays melodeon; and the University of Missouri campus quartet. Eddie Volga will be master of ceremonies.

Increased traffic has made necessary the installation of traffic lights at Ocala.

U. S. Tax Statistics Disclose American Incomes Higher In 1934 Than Any Since 1928

WASHINGTON, Jan. 17.—A trend toward "redistribution of wealth" in 1934 as compared with 1933 is seen in a preliminary compilation of statistics of income by the Bureau of Internal Revenue, which also disclosed that the proportion of American incomes which went into the federal till rose in that year to the highest figure since 1928.

The number of incomes of \$50,000 or more, indicative roughly of the number of individual fortunes of \$1,000,000 or more, amounted to only 7,964 in 1934, as compared with 8,073 in 1933, according to returns filed up to the end of August in 1933 and 1934, respectively. The number of taxable incomes under \$5,000 on the other hand, rose from 2,339,602 in 1933 to 2,568,788 in 1934, on the basis of the returns filed during the same periods of succeeding years. The number of taxable incomes in excess of \$1,000,000 dropped from fifty to thirty-two.

The 1934 incomes, with tax increases in effect, yielded from a total of 3,988,269 returns a gross net income of \$12,456,282,000, on which \$506,481,000 was paid in taxes during the 1933 period, or at an average rate of \$4.07 on each \$100 of net income. This compared with an average of \$3.44 on each \$100 of net income from 3,732,553 returns on 1933 income and \$4.26 a \$100 on 4,070,851 returns for 1928. Moreover, the tax burden on small incomes declined between the years. The 1934 net incomes under \$5,000 amounted to 60.09 percent of the total on which returns were filed but paid only 54.2 percent of the total of income-tax collections, whereas in the preceding year such returns amounted to 62.82 percent of the number filed and paid 10.64 percent of the amount collected.

The report showed that only 1,760,543 of the returns of individuals reporting income for 1934 were taxable, as compared with 2,337,426 which were taxable, with an increase of 9 percent in the total number filed and 14.9 percent of \$1,610,808,959, in the total net income shown, while the tax liability increased 35.8 percent over \$5,000 to \$133,513,262. The average net income for all returns was \$3,127, with the average amount of tax liability for all returns \$126.99, but for the taxable returns \$289.23. The average for all returns was 4.1 percent.

In the letter officially transmitting the report to Henry Morgenthau, Jr., secretary of the treasury, Guy H. Helvering, commissioner of internal revenue, explained the difference in conditions under which the 1934 incomes were taxed.

Many Vets Expected At Ocala Gathering

OCALA, Fla., Jan. 17.—Six "40 & 8" locomotives and box cars will "steam" into Ocala Saturday for the mid-winter conference of the Florida Department of the American Legion.

Upwards of 300 Legionnaires and members of the American Legion Auxiliary are expected to attend the annual conference, Saturday and Sunday.

Commander Carper said the locomotives would come from Fort Myers, Miami, Palm Beach, Lakeland, St. Petersburg and Daytonaville. He added that engines might come from Orlando, Pensacola, Sanford and Tallahassee.

A parade of the locomotives is planned for Saturday night.

ROCKEFELLER IN PUBLIC AGAIN

John D. Rockefeller, 87, the aged oil millionaire, made one of his rare public appearances while motoring on the famous racing strand at Daytona Beach, Fla., and good naturedly halted his car for an Associated Press photographer to make this picture. The drive from his home at Ormond Beach was the longest he had taken this winter. (Associated Press Photo)

How's Your Health

COLD PREVENTION: Under this general title we propose to treat of the prevention of respiratory diseases. With cold weather, the risk of suffering disease in the nose, throat and lungs increases markedly. The increase is first noted during the month of October, reaches its peak in February, and usually declines to reach a low level in June.

Two essential factors are involved in respiratory diseases. First is the specific infectious agent, whatever its nature, as, for example, the influenza virus of the common cold, or the pneumonia germ in pneumonia; second, the non-specific resistance which the body can show against infection.

In a measure we can control both of these factors, the second one possibly better than the first. We contract respiratory diseases from others. Germs may be brought to us in floating globules of sputum and mucus, projected into the air by coughing, sneezing, shouting, laughing or loud talking. Or again, germs may come to us on dust particles.

In infection, dosage is significant. A casual "in passing" contact with a person who has a cold is not nearly as liable to prove dangerous as a sustained visit, or a full day's association with a coughing, sneezing fellow worker in an office.

The prevention of respiratory infections can therefore be furthered by avoiding, to the extent possible, all persons with evident disease of the respiratory tract.

In connection with this it should be noted that so-called precautionary measures which call for "sterilizing" the nose or mouth are worthless, if not positively injurious. There is no method known by which one can sterilize the upper respiratory tract. While mouth hygiene is desirable it is valuable in this respect only as a part of general cleanliness.

However, one preventive measure which is unquestionably valuable is washing the hands with soap and hot running water before eating.

Kentucky Sales Tax Repeal Act Approved

FRANKFORT, Ky., Jan. 17.—Gov. Albert B. Chandler has signed an act of the state legislature repealing Kentucky's 3 percent sales tax, making the measure effective at once.

Repeal of the sales tax was a major plank in Governor Chandler's campaign platform, on which he rode to victory by a 95,000 majority two months ago.

Chandler's Democrats, in control of the legislature, plan to consider revenue legislation at a special session in the spring. Governor Chandler has denied a 1 percent state income tax was under consideration to replace the sales tax.

WPA Aviation Course Is To Begin Jan. 27

Persons wishing to avail themselves of the nine-week ground school course in aviation instruction are advised to call at the WPA office in Room No. 3, Brumley-Puleston Building, on Saturday of this week. The course is to open on Jan. 18. It will be under the supervision of Major A. B. McMullen, aviation director for the Works Progress Administration.

To qualify, men should be on WPA rolls. Forty men will be selected from the state to take this course. Seminole County may select three candidates, one of which will be chosen by C. R. Coachman to go to Gainesville. The graduates will be given instruction in ground work on completion of the course.

C. R. Coachman, state superintendent of air education, is making a tour of the state interviewing prospective applicants. He was in Sanford this week, and left instructions as to selecting of candidates.

Convicts Strike In Taylor County Camp

TALLAHASSEE, Jan. 17.—(AP)—The prison bureau was informed Wednesday that 16 white convicts were "on strike" at a road camp south of Perry in Taylor county. They were armed with axes, pick handles and other improvised weapons, but there was no report of any person being injured.

Capt. Charles McClellan informed the prison bureau the prisoners were striking for "more shoes, more clothes, more food and less work." Operation of road camps is supervised by the State Road Department, but the prison bureau of the Department of Agriculture maintains actual control of the convicts' camps.

There have been several strikes at road camps in past years, but usually they have been ended by refusing food to the strikers.

Predigested Bills May Ease Work Of Present Congress

Digest Of Measures Was Authorized By The Last Session

By HERBERT PLUMMER
WASHINGTON, Jan. 17.—(AP)—Members of Congress, the press galleries and others on Capitol Hill will find the going a great deal easier during the present Congress

thanks to a "trick" attached to the legislative appropriation bill last session. The sum of \$10,000 was set aside to provide a digest of the bills of general public interest before Congress.

One of the most troublesome and vexing problems which confronts these gentlemen when Congress is in session, is to keep track of the literally thousands of bills introduced.

It is nothing unusual for upwards of 20,000 bills to be introduced in both Houses during a Congress. An actual count in two recent sessions shows that in one 17,415 bills and joint resolutions were introduced in the House and 6,007

in the Senate, in the 67th, 17,769 in the House and 6,127 in the Senate.

Most of these bills never see their way to the floor after their introduction. In many cases they have served their purpose without further action. They have advertised the member and the project.

A vast number of these measures, however, are of general public interest. There are, for example, some 6,000 in this category which were brought over from the last session and are now pending. Hundreds of others will be added as the session progresses.

The task of even so much as examining these measures is tremendous. Anything like a careful study of them by individual members of Congress is out of the question. House members make an effort now to study the merits of minor pieces of legislation. The majority and minority leaders each session designate certain individuals to wade through the mass of minor and private bills, select the good from the bad, and prepare themselves to go to the floor ready for action. These groups are known as the "wrecking crews" and the number of pet measures they prevent from being passed makes this description particularly apt.

At best, however, the activity of the "wrecking crews" is limited and does not touch the really important legislation.

A serious attempt to acquaint individual members with the type of legislation they must consider is to be made at this session. The aid

of the library of Congress through its legislative reference bureau has been utilized.

For the past several months a corps of workers has been at work reducing to simple and concise language, in around 50 words, a digest of each of the 6,000 or more pending measures brought over from the last session. On the opening day more than 1,400 such bills had been completed and ready for study by senators and representatives. The digest will appear weekly.

The convenience and time saved to members by this innovation is incalculable. The wonder of it is that something like it had not been in use long before now.

health, many women, at certain times, will do well to take Cardui. It may relieve some of the nagging symptoms that are so anxious to get rid of.

Mrs. F. T. Foster of Greerburg, Ky., writes that she has "derived great benefit" from Cardui. "Before taking Cardui, I was weak and extremely nervous, and suffered from sleeplessness. This made me tired and worn all day long. My back ached continually. Being an active woman, I did not want to continue in this condition. Having heard a great deal about Cardui, I bought a few bottles. I was much relieved. I continued taking Cardui and was so much helped."

Of course, if Cardui does not benefit you, consult a physician.

Sweden Sends Italy Protest On Bombing Ambulance In Africa

STOCKHOLM, Jan. 17.—(AP)—The Swedish government, in a note handed to the Italian minister Tuesday, protested against the Italian bombing of a Swedish ambulance unit in Ethiopia, in which it said one Swedish subject was killed and another wounded.

The note said a statement by Italian military authorities that the bombing was in reprisal for an

Ethiopian violation of war laws could not be regarded as an excuse for an attack on an ambulance.

The Swedish unit, the government

stated, had been allowed international treaty under the Red Cross is guaranteed protection in war time.

VISUAL NEWS of the WORLD in PICTURES

DOUG'S AND MARY'S DIVORCE FINAL

While Mary Pickford and Douglas Fairbanks chatted together at a business conference of Hollywood studio officials, a Los Angeles judge formally dissolved their 15-year "ideal marriage." Mary (left) was apparently unconcerned over Doug's return to Hollywood and the granting of her final divorce decree when she danced with Leslie Howard, British actor, at a recent Pickfair party. Doug is shown (right) as he came back to Hollywood preparatory to starting work on a new picture. With him are his brother, Robert (left), and Clarence E. Erickson, business manager. Another New Deal project, the Tennessee Valley Authority and its \$34,000,000 dam at Norris, Tenn., were placed in the balance as the Supreme Court prepared to consider the question whether the government has the right to sell electricity from the plant. Upper left shows the accounting room in TVA headquarters at Knoxville with its army of clerks whose jobs may be affected by the court's decision. Upper right is a view of workers toiling high above the river in putting the finishing touches on the dam. A "bird's-eye" view of the dam is shown at lower left and at the right are TVA workers whiling away leisure time in their quarters. (Associated Press Photos)

MOVIE DIRECTOR NEW SPEED KING

Flying from Burbank, Calif., to Newark, N. J., in nine hours, 24 minutes and 10 seconds, Howard Hughes, Hollywood film director, smashed the trans-continental record by more than half an hour. He is shown (left) receiving congratulatory telephone calls in a New York hotel shortly after landing. With him is Richard Tryon, Associated Press reporter. (Associated Press Photo)

CUBAN RESCUED FROM KIDNAPERS

Shortly after he was rescued from kidnapers at Guanajay, Cuba, Paulino Gorostiza, Jr. (in civilian clothes) is shown with Police Sergeant Abelardo Caro, who led the rescue squad. Three suspected kidnapers were slain in a running gun battle with 700 soldiers, sailors and policemen. Eight others were arrested, and only one of the gang, reported to have collected \$25,000 of the \$60,000 ransom demanded, escaped. (Associated Press Photo)

MAYBE 'T' WAS A NEW DEAL RADIO

Henry F. Fisher, national Republican chairman, put all other engagements to bear "Liberty of the Greenwood" G.O.P.'s anti-New Deal dramatic play, broadcast from an University of Chicago station after the two large radio chains refused to carry on their programs. But the chairman's loud speaker talked—and all he heard was some drivel mumbled punctuated by static. He is shown vainly trying to tune in at his home in Washington. (Associated Press Photo)

Russians Ordered To Produce More In '36

MOSCOW, Jan. 17.—A 20 percent increase in the productivity of labor, a reduction by 8.2 percent, and an increase of more than 7,000,000,000 rubles in the total wage fund of Soviet Russia, all as a result of the introduction of the so-called Stakhanov (speedup) movement in industry, are laid down in the Soviet economic plan for 1936. The total number of Russian workers and employees will be increased this year to 25,000,000 persons, Mathlank said, an increase of 2,745,000 last year. As a result of the Stakhanov movement, which has made it possible to revise upward the amount of productivity, workers who in 1935 with the speed-up campaign had increased their production 10 percent by higher salaries, and for this purpose the wage fund had to be increased by 1,000,000,000 rubles, this year it will be increased by 2,745,000,000 rubles.

Store Robbers Escape Police In Wild Ride

Slot Machines Found On Side Road Later; Had Not Been Robbed Of Big Sum

Orlando Police Holds Suspects

Three Men Picked Up For Trying To Rob Orlando Drugstore

Extinguishing the lights of their car and turning off into an alley, three men who robbed the Angel barbecue stand on Sanford Avenue early this morning succeeded in eluding the police after a wild ride through the city streets. The police changed them at 70 miles an hour and were rapidly gaining on the trio when they lost track of the robbers in the darkness.

However, they evidently feared they had not eluded the officers as they dumped out on a little used side road leading off State Road No. 2 the two slot machines they had stolen at Angel's place and which they did not take time to rob. The machines contained large sums of money. Chief Williams stated:

It was at 2:40 o'clock this morning that E. D. Price, living across the street from the Angel stand, was awakened by the sound of breaking glass and saw two men entering the barbecue place. He ran to Mr. Angel's home and notified him, but they got back to the barbecue place in time to see the men load the slot machines in their car and drive away.

The police had been notified in the meantime and Officers Roy Tills and E. C. Wilcox arrived a few minutes after the two-armed bandits escaped with the one-armed bandit. Then the chase began. With the siren wide open, the police car followed the robbers and they drove toward the City on Sanford Avenue, speeding at 70 miles an hour. Despite several turns off on to side streets the police gradually gained on the robbers and were close behind them in Sanford Heights when the bandits switched off their lights and turned into an alley.

Kiwanis Club To Furnish Room In Sanford Hospital

Decision to furnish a room in the Fernand-Langbein Memorial Hospital in Sanford was made at a meeting of officers and committee chairman Thursday evening in the home of the club's new president, Walter Coleman. The sum of \$500 was allocated for the purpose. A committee composed of Drs. Scott, Smith, Curwell and Woodruff was appointed. A similar room in the hospital was furnished some time ago by the Campbell-Lessing Post of the American Legion.

Committee on "Church and Spiritual Aims" and on safety were appointed. Fred E. Furr, Salvation Army organist, is the chairman of the church committee, with T. L. Dunne, E. B. Randall, Jr., David Dennis and E. E. Anderson. Mayor Dunne is chairman of the safety committee, with Howard Overlin, E. W. Ware and W. B. Sashley.

Another Big Time Being Planned By American Legion

'Gabby' Knowles And Others To Attend Feed Monday Night

The 150 members of Campbell-Lessing Post of the American Legion are assured by Commander L. F. Boyle of another big time next Monday night when there'll be eats and entertainment and "big guns" of the Legion at a meeting in the Hut on Lake Front Boulevard. The feed (and it is going to be something different, the commander said) will begin promptly at 7 o'clock. More than 100 reservations have already been made.

'Gabby' Knowles of Bradenton, former commander of the State department, and Bill Comer, of Orlando, who wants to be the next department commander, have promised to attend, as well as Commander J. J. Jackson of the Cocoa post; Col. N. B. Hut of Cocoa, Broward county representative in the State Legislature; and Judge M. B. Smith of the Ninth Judicial Circuit. It was hoped that the State Commander could be present, but he has postponed his visit to the Sanford post of the Legion until a later time.

Future Farmers Of Oviedo Addressed By State Superintendent Of Schools

Future Farmers of America of the Oviedo section, had as their guest speaker at a fathers' and sons' banquet last night State Superintendent of Public Instruction W. B. Cavibon. J. F. Williams, state superintendent of vocational training, also addressed the group, as did T. W. Lawton, county superintendent of schools, Fred T. Williams, chairman of the County board of education, and I. E. Jordan, member of the board, were also present.

In his address to the group State Superintendent Cavibon endorsed the vocational educational movement, stressed vocational agricultural training, and advised the boys to work with their fathers and thereby grow up to have a better respect for rural life.

Seminole Fair Opens Tuesday For 5-Day Run

Women's Clubs Again Sponsor Big Event; Carnival Show Will Be One Attraction

The annual Seminole County Fair will hold the center of the stage next week. It is to open Tuesday noon and will continue for the remainder of the week. Women's Clubs of the County are again sponsoring the event, offering valuable prizes in a number of departments.

Fruit and vegetable exhibits will be in a huge tent, while canned goods, air craft, needlework, etc., will be displayed in five vacant stores in the Arcade building. The exhibition tent is to be erected near the Arcade building. The carnival shows, important adjuncts of the fair, will be adjacent.

While creditable displays of citrus fruits, celery, strawberries and vegetables of various kinds are promised, the focus, devoted to canned goods and other women's crafts is expected to be a leading feature of the annual exhibition. The amusement zone at the fair will be furnished again this year by the Krause Greater Shows, an outfit that has been, on the road for 27 seasons. Manager S. D. Highleyman of the exposition said that "no amusement company could live that long unless its attractions were of merit and its business relations with the public were satisfactory. Manager Krause has assembled ten high class sensational riding devices and twelve out-of-the-ordinary shows for this season's tour, and it goes without saying that each and every attraction is of outstanding appeal to the amusement seeker and well worthy of patronage. Every show or attraction is one that can be visited by women and children at all times as there will be nothing said or done of the Krause midway to offend any person."

Public Against AAA Tax Refund, Wallace Thinks

WASHINGTON, Jan. 18.—(AP)—Secretary Wallace said today he believed "public opinion would not tolerate" refund to manufacturers of one billion dollars paid in AAA processing taxes. In his first press conference since the Supreme Court killed the AAA, Wallace said that processing taxes have been passed on to the consumer. He added that \$2,000,000,000 imponded in AAA processing taxes was in the same status as the \$1,000,000 paid into the treasury so far as consumers are concerned. The important thing necessary to proceed with the farm program now, Wallace said, is to expand the definition of the soil conservation act to include specifically soil conservation and preservation of fertility.

Future Farmers Of Oviedo Addressed By State Superintendent Of Schools

Those in the chorus were Agnes Fleming, Virginia Helgeson, Martha Talbot, Naomi McCullay, Russell Hunt, Deryl Brown, and Joe Beasley.

Frank Wheeler, vice president of the club, presided in the absence of Pete Aulis, the president, who is ill. He introduced R. F. Cooper, principal of the school, and George Talbot and F. W. Talbot who delivered addresses of welcome.

Frost Warning Is Issued By County Agent

Mercury On Monday May Go Down And Endanger Fruit As Well As Truck

Advice from E. S. Ellison, meteorologist at Lakeland, received this afternoon caused County Agent C. B. Dawson to issue warnings of possible frost damage early Monday and the following two days.

Meteorologist Ellison wired a warning of "a serious frost situation" with much cooler weather Sunday night. He said that "temperatures probably will be low enough Monday morning to endanger central Florida truck, and both citrus and truck will be endangered Tuesday and Wednesday. Florida for the next few days will be at the edge of a cold wave which is sweeping over the country."

The United States Weather Bureau at Jacksonville today issued the following forecast: "partly cloudy with showers Sunday and in north portion tonight. Rudyard Kipling, Author Of Note, Died Early Today

Emergency Operation Fails To Save Life Of British Writer

LONDON, Jan. 18.—(AP)—Rudyard Kipling, British author, died at 12:10 A. M. this morning after an illness which followed an operation for a perforated stomach ulcer.

The famed author was taken suddenly ill Jan. 13, on the eve of his scheduled departure for South France, and was rushed to Middlesex Hospital where an emergency operation was performed.

The grand old man of English letters died without official recognition from the empire he created. The title as laureate of the empire, the dearest dream of a poet's heart, never became his.

King George V was his great admirer, but the intransigent attitude of the crown in popular belief was based on Kipling's reference many years ago to Queen Victoria in one of his "Tommy" poems as the "widder of Windsor."

Officials Study Reprive Reasons Of Gov. Hofmann

TRENTON, Jan. 18.—(AP)—Attorney General David T. Wilentz and Colonel H. Norman Schwarzkopf, two leading figures in the Lindbergh case, conferred today to study the statement by Governor Hoffman defending his revieve of Richard Hauptmann. Close friends said they decided not to enter a controversy with the governor. Wilentz and the head of the state police made no comment.

Reports of a break in Hauptmann counsel were denied by C. Lloyd Fisher and Egbert Rosenbaum, another defense attorney, denied making any statement that he believed Hauptmann guilty. William Conklin, press aide to Governor Hoffman, said he had no knowledge of any letters threatening Hoffman's life, that no police guard had been asked for the Governor's home, that he knew nothing of confidential letters being sent police in Midwestern cities asking the arrest of a man in the Lindbergh case, and that so far no request had been made to the New Jersey police asking them to continue investigations of the case.

Florida Canal Appropriation May Be Fought

Commerce Committee Chairman Foresees "Battle Royal" In Halls Of Congress

WASHINGTON, Jan. 18.—(AP)—A "battle royal" over the Florida Gulf Atlantic canal is predicted by Senator Vandenberg (R-Mich.) and U. S. V. when Congress is called upon to act on a regular appropriation for continuation of the project.

Captain, chairman of the Senate Commerce Committee, expressed doubt, however, that "any good" could come of an investigation as proposed by Senator Vandenberg (R-Mich.).

The Michigan senator questioned the economic feasibility of the \$143,000,000 waterway today as a Senate Commerce Sub-Committee, headed by Vandenberg, opened hearings on Vandenberg's resolution.

Captain said Secretary Lakes Public Works administration would be invited to appear before the subcommittee next week. Maj. Gen. E. M. Markham, chief of Army engineers, was the only witness today.

Discussing his own views on the waterway last night, Captain said: "I have several questions on my mind of the economic justification of the canal and the detrimental effect of the canal on ground waters of Florida. I am not satisfied on either point. I have very great apprehension about the ground water."

"As to the proposed investigation, I doubt whether it would accomplish any good. If when the canal comes to Congress there'll be a battle royal. Then the interested parties will be entitled to be heard."

Vandenberg questioned General Markham in detail on the canal's economic and geological phases which he said, found that serious effect on fresh water might result from the deep excavation of a sea level canal.

King George V Of England Is Seriously Ill

Bulletin Indicates Fear For Life Of 70-Year-Old Ruler Of British Empire

In Poor Health For Seven Years

King Nearly Died In 1928; Heart Attack Suffered Today

SANDRINGHAM, England, Jan. 18.—(AP)—Seventy-year-old King George V. ill with a bronchial ailment, suffered further symptoms of a heart attack this afternoon, increasing anxiety over his condition. A bulletin posted by royal physicians said "His Majesty, the King, has had some hours of restful sleep. The cardiac weakness and embarrassment of circulation has slightly increased and gives cause for anxiety." The conservative wording of the bulletin indicated fear for the King's life. The Prince of Wales, Princess Mary and other relatives have arrived here.

King George has been in delicate health since he almost died in 1928 from a severe case of pneumonia. At that time, two operations were performed to drain his lungs and his doctors said it credited them with his recovery. The King's heart was exceptionally strong until after his illness of 1928. His strong heart and excellent constitution were credited them with his recovery from an illness so serious that for a time a council of state acted in the King's stead and his death was expected momentarily.

The Prince of Wales, then abroad, hurried home. The sovereign's health has been delicate and has been mostly closely guarded since the severe illness of eight years ago, which lasted many weeks, the King's heart weakened and gave considerable concern.

A strong police force was stationed about the palace grounds and all unauthorized persons were forbidden to enter. A crowd gathered in the drive near the gates asking for information of the King's condition. Guards, as well as officials at the palace lodge, refused to answer questions.

It was believed that activities of Jubilee Year, celebrating the quarter-century mark of King George's reign, had weakened him and induced his present illness, in spite of extreme care taken to guard his failing health.
