Clothes That Satisfy

GETTING Ready for Thanksgiving is one of the pleasant things now just at hand, You may confidently come here for everything that refers to the correct clothes; and that's really a very important part of the preparations.

Hart, Schaffner & Marx

clothes are the best made; they grace any occasion where they appear; perfect style and tailoring, correct fit. Grays, browns, tans, blues, and many mixtures of color, in many new and effective weaves and patterns

SUITS \$15.00 TO \$30.00

Fine line of Gents Furnishings, Shirts, Hose, Ties, Underwear, Hats, Etc. If you buy it here it is right.

The only Exclusive Clothing and Furnishing Store in Sanford.

Copyright 1912
Clark, Fennell & Co.

There's nothing smarter in the way of a collar. Nothing that improves a man's appearance so much as a close-fitting collar that will not gape open, sag down or pinch.

ARROW COLLARS

embody these essentials. They sit in close about the top, yet there's ample room to tie the wide, modish cravat.

Having the "Notch," these collars are easy to put on, easier to take off, stay closed in front, and have no buttonhole to rip out.

WEATHER STATION HERE

Government Has Consented To Recognize Sanford

WIRE OF CONGRESSMAN CLARK

Bears Intelligence That Is Brief But Very Much To The Point

Thanks to the untiring efforts of Hon. J. N. Whitner Sanford will have a first class, well equipped weather bureau and another big improvement that is needed and has long been needed in this, the greatest vegetable section in the world. There has been no weather bureau here for many years. Several attempts have been made to display signals and give the growers warning of cold snaps in time to take precautions that would save the tender vegetables. But nothing in the nature of a complete equipment has been in Sanford in later years and the news that such a station is to be established comes to us in the nature of a telegram to Mr. Whitner from Congressman Clark as follows:

"The Department has consented to establish a cooperative weather station at Sanford at once. Will write."

We await Mr. Clark's letter when full particulars will be given to the public.

Rosseter on County Division
Messrs. A. T. Rosseter and Charlie Hand of Sanford were in town today, and Mr. Rosseter had something to say of considerable interest about county division. Asked by a reporter if Sanford people were really out for county division he replied: "We're out to make a ripple in that direction anyway."

He said that the Commercial Club of Sanford had appointed a committee of ten men on county division, which committee held a meeting last night. He really came to Orlando today, he said, to have something to say officially about the matter, but after arriving here he received a telephone communication from the committee asking him to say nothing.

coming south, and leave Orlando three. In other words, in round figures, Sanford would get by such division twelve miles by thirty-six miles of territory, while Orlando would have eighteen miles by thirty-six miles."

Mr. Rosseter said that he, nor any of his friends, favored county division, in fact, the matter was never thought of there, until the past election.—Reporter-Star.

Announces for Treasurer
In this issue appears the announcement of A. A. Preston for the position of Treasurer and Collector. Mr. Preston has been a resident of this city for several years being connected with the Imperial Theatre as business manager and has also been engaged as bookkeeper with a number of firms. He has a thorough knowledge of bookkeeping and office work and assures the public that if elected the business of the city will be carefully attended to and will receive his undivided attention. Mr. Preston has become a candidate for the office at the solicitation of his many friends and will make a canvass of the city and endeavor to see every voter and lay his case pro bono publico before election day.

Notice to Telephone Subscribers
On December 1st, 1912, the following rates will take effect, applying to all telephones in the city limits only:
Business private line per month \$2.50
Residence private line per month 2.00
Business party line per month 3.50
Residence party line per month 1.50
Desk set instrument 25c per month extra
Extension sets wall type 1.00 per month extra.
Extension sets desk type 1.25 per month extra.
Installation charge made on every new phone installed 3.00.
This amount is deducted at the end of the year, provided the phone is not discontinued within that time.
A special rate of four winter services of four months will be made as follows: Business phone, \$12.00 in advance; residence phone, \$10.00 in advance.
These rates represent an advance over the present ones of only 50 cents per month. This company has been furnishing telephone service at a lower rate than any company in Florida. On account of the necessary heavy expenditures of installing underground cables and making our system metallic this

advance is absolutely necessary to meet our operating expenses.

Our subscribers are now receiving the use of nearly 500 phones and the rate charged in other cities of the size of Sanford is usually \$4.00 for business and \$2.50 for residences.

The new rate still gives a \$1.50 rebate to those who will use a two party line.

Any subscriber desiring to change their service from private to party are requested to notify us at once so that arrangements can be made.

THE PARAMOUNT ISSUE

County Division. Now Occupies Center of Stage

EAST ORANGE IS FAVORABLE

Other Portions of New County Will Fall Into Line In A Few Days

County division now occupies the center of the stage at present, and at a most enthusiastic meeting of the Commercial Club last night all other questions were sidetracked to make way for the latest move toward a new county.

In the absence of President Lake, Vice President F. P. Forster presided with his usual vigor and the little talks that he made and interspersed the other speeches during the evening were met with applause and ready response.

Among the out of town visitors to the meeting were E. A. Douglas, B. G. Smith and T. B. Jones, all prominent business men of Oviedo and while they could not promise the opinions of the entire Oviedo section they approved most heartily of the plans that were being discussed by the Commercial Club. All of them were called upon for remarks and Mr. Douglas gave a most interesting talk upon East Orange and her needs and gave it as his candid opinion that if his section of the county could be promised good roads that all of them would most heartily endorse the idea of a new county.

J. T. McLain, one of the most prominent citizens of the Geneva section was present and gave the club an account of the needs of his section for better roads, and that the people of his section were most friendly toward Sanford for the many good turns done them in the past and while the county situation was new for an opinion from Mr. McLain, he could assure the club that his people would favor any movement for the betterment of East Orange and the northern half of the county generally.

Since Sanford has gone on record in every road election as being in favor of good roads, and since this section has lately voted in a special election to make it a special road district and voted \$200,000 worth of bonds for the construction of brick roads there is no need of assurance to be given the people of the new county that our roads will not be neglected. As a double assurance those present at the meeting might pledge themselves to construct and maintain the roads before any other improvements would be made, and the people living in the outlying districts will have good roads first. The brick roads around Sanford will obviate any work being done on the roads here for many years to come and all the road work can be done on the country roads, thus assuring them the best of roads wherever they are needed.

There is no doubt about the various precincts in the northern half of Orange county being heartily in favor of county division. It means less taxes and better results and more improvements and they are investigating the matter fully and every day sees new converts to the idea of separation.

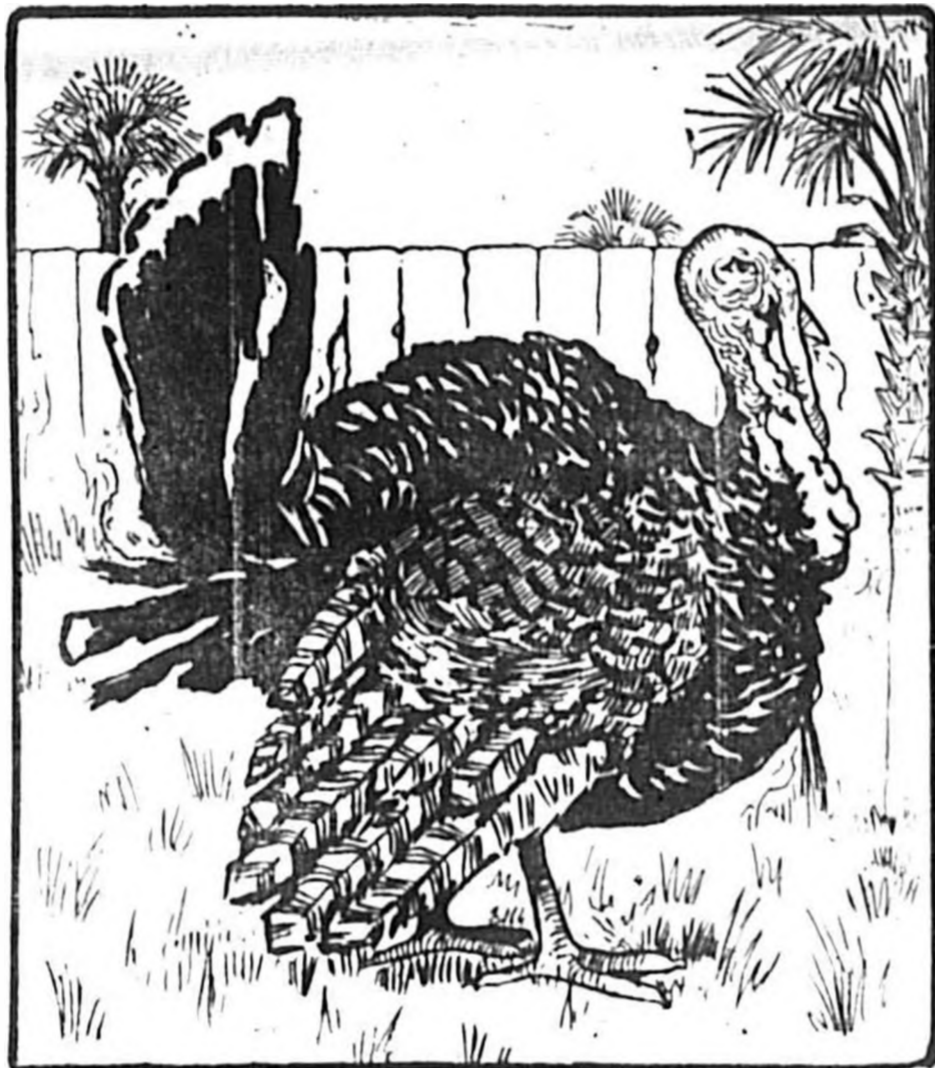

In a few days there will be pamphlets printed setting forth facts and figures about the taxes, new territory and every point in connection with the county division and this matter will be disseminated over the new territory, in order that the people can gain an idea of the scope of the territory and the reasons for division.

The meeting last night demonstrated most clearly that the division will be made and the only question now is the extent of the division. A committee of 125 members has been appointed to take the matter in charge and also a committee of 25 to take an active part and be an executive committee. The names of the committees will appear in the next issue of The Herald.

Royal Arch Masons
There will be a regular convocation of Monroe Chapter, No. 15, held at 7 o'clock Thursday evening, November 28th, 1912. Important business is to come before the chapter and work in the Past Master degree. Members are expected to attend and visiting companions are invited to be present.

H. E. TOLAR,
Acting High Priest.

THANKSGIVING DAY

PROCLAMATION

To the World at Large

There are moments in the life of individuals and of communities when it becomes necessary to throw off the yoke of temporary business depression and a wholesome respect for the welfare of mankind requires that a feeling of expression of thanks be given the determination

Whereas, The American people by their suffrage have elected a chief executive after spending sixteen years in the wilderness and under Woodrow Wilson a new era of prosperity will be inaugurated insuring a postoffice for every applicant and general satisfaction for every malcontent, and

Whereas, It is believed that even those who differed from us politically will aid in promoting the public welfare by giving them aid and assistance in every reform for public good, especially in reducing the high cost of living so that every poor man will be able to have a turkey next Thanksgiving Day without mortgaging his home, and

Whereas, There has never been a time in the history of our country when the financial horizon looked so rosy, and the banks seemed so willing to loan money at good security for 8 per cent interest, and

Whereas, Sanford has long been recognized as the greatest center in the world for the growing and shipping of winter vegetables and consigning them to the tender mercies of the man farther north and

Whereas, Sanford and the Sanford section and the northern part of Orange county has long been recognized as the greatest and best part of the county and has paid the larger share of the taxes and has long been content with a small share of the emoluments and benefits thereof and having become wise in our generation and strong and vigorous, Therefore be it

Resolved, That the vegetable growers sell all their products here in Sanford, and let the good and kind middleman who has over looked after our welfare heretofore and only charged ten cents per crate for so doing now come forward and show his generosity and benevolence and love for mankind by buying our products at a nominal figure and making a fair profit on the same; also be it

Resolved, That inasmuch as the good people of Sanford and the northern half of Orange county has contributed for so many years toward the upbuilding of the whole county that we now proceed to apply for a divorce from the dear parent that has fostered us so long, and from this time and henceforth paddle our own canoe on the broad and placid bosom of Lake Monroe and Lake Jessup. And in this day of Thanksgiving and praise that we pause to drop a tear at the parting and in the midst of the sorrow at separation we can turn aside to give praise at the thought that we are large enough and strong enough to leave the parental roof of the Orlando court house and take up an abode of our own.

Wherefore, All of these many blessings in disguise falling to our lot on this the glad Thanksgiving Day, 1912, that Sanford should bear in mind the old adage: "All things come to those who wait" and at last we are coming into our own.

Sanford, Florida

Happenings Of Interest Culled From Various Sources For Busy World Readers

It is understood that about twenty-five acres of cabbage will be raised in Ruskin this winter.

The new water works at Winter Park will soon be an accomplished fact as the pipes are nearly laid and other arrangements are under way.

All the packing houses in DeLand are now running at full blast and cars of oranges are being sent out every day. The crop is said to be the finest ever sent from there.

The total acreage estimated to be planted in potatoes alone at Hastings will be 9,000 acres. It is predicted that fully 300,000 barrels, 825,000 bushels of potatoes will be the crop of 1913.

The bond election held at Green Cove Springs on Tuesday to issue bonds in the sum of \$20,000 for the purpose of paving the main street, improving the water and light plant, and laying a main sewer in the main part of the town was carried by a substantial majority.

Clara Morris, the former actress, who has written many interesting articles on stage life is totally blind, but will continue her literary work, hoping to complete soon two books upon which she is at work. The talented woman is sixty-five years old and her long public life has given her many pleasant reminiscences.

Will Thomas, a negro, accused of assaulting Spurgeon Johnson, a white farmer several weeks ago, was taken from a magistrate's constable Saturday night by a party of masked men, chained to a tree and his body riddled with bullets. The lynching occurred about fourteen miles from Newberg, S. C., and while the negro was being brought to jail.

Frank Hardy, a Romney negro, who, with another negro, boldly attempted to rob Lee Inskip, a well to do farmer living near Romney, W. Va., was shot by Inskip today. The other negro escaped to the mountains and was pursued all day by a posse. Inskip was badly wounded in a duel with the negro while he was making a getaway. Inskip and a servant, Mary Heath, who were attacked by the negro, while calling for help, also were injured.

On a federal indictment returned at Fort Scott, Kansas, against Eugene V. Debs, Socialist candidate for President, editor of the Appeal to Reason, a Socialist paper published at Girard, Kas., and J. I. Shepperd, Warren's attorney, Warren and Shepperd were arrested here today by a deputy marshal. The indictment charges "obstruction of justice by inducing witnesses to leave the country."

County Commissioners Indicted
Indicting two members of the board of county commissioners on the general charge of using their positions to promote their private enterprises and scoring the entire board for willfully ignoring and violating the law by issuing time warrants, the grand jury Friday afternoon presented the most important document that has been handed down by a similar body in Hillsboro county in years.

Commissioner W. B. Moody is charged with being a stockholder in the Tampa Sand and Shell Company and selling the products to the county through the board Commissioner E. J. Devane of Plant City is charged with using his own teams on county work. The grand jury report stated that Devane was not much to blame, but he had violated the law. As to the time warrants, it asked that the people generally request the senator-elect and representatives from this county not to ask the next legislature to validate such warrants as was done two years ago as the holder, the Exchange National bank knew the warrants could not be legally issued.

CURBSTONE GLEANINGS

A Budget of Opinion "Just Between You and Me"

EVEN THE GATE POST NOT IN IT

A Chief is Among Ye Taking Notes and Faith, He'll Prent "Em"— So Says Saunterer.

I see by the papers that Mr. Preston is a candidate for the position of treasurer of Sanford. I am glad to see the candidates coming out in force. It will make the election lively and demonstrate that our people think enough about the offices to make a race for them. As yet there is no one but Mr. Abernathy announced for council and it looks like he will have a walkover.

In sanity seizes upon the bachelor with greater ease than upon the benedict, despite the worry the latter is supposed to undergo, according to the report of the government hospital for the insane just submitted to Secretary of the Interior Fisher.

Some hard hearted bachelor may suggest that the training the married man receives each day prepares them for any mental ordeal that they may be called upon to go through.

There will be no more prospects for city council this week in the Curbstone column. Some of my friends have been laying for me ever since last week and I was forced to leave home and look up the new Orange county line near Apopka until the storm blew over. Just why they think so much of me that they would come after me is more than I know. For the time being and because I want to spend Thanksgiving at home I will desist for this week and forget to mention some of the real aldermanic timber.

The automobile industry has developed one of the most peculiar commercial situations known in history. Year after year production figures have jumped by leaps and bounds contrary to the predictions of some of the brightest business men of this country. When the limit will be reached is hard to forecast, for each year sees a healthy increase in sales. Moreover, there is a scarcity of secondhand cars, as any one who has looked for one will testify. With about 750,000 cars in everyday use and a total population of approximately 95,000,000, the per cent of car owners is about one car to every 127 people. Taking the average of five persons to a family, data shows one motor car to every twenty-five families in the United States. Just where all these cars go and to what extent this country will continue to absorb the tremendous output of American factories is an economic problem which only time will solve.

Elks Memorial
Sanford Lodge No. 1241 Benevolent and Protective Order of Elks, cordially invite their friends and the public to attend their annual memorial service at Imperial Theatre Sunday afternoon, December 1st, 1912, at 2:30 p. m. A very interesting program has been prepared and all who wish to celebrate this beautiful service with us will be most cordially welcome.

All visiting Elks invited to participate in ceremonies.

Following is the program to be rendered:

- Voluntary, Piano Solo Miss Madge M. Ward
- Ritual Work Lodge
- Male Quartet Messrs. Polk, Woodruff, Moore and Murrell.
- Ritual Work Lodge
- Solo, Recessional (DeKoven) Mrs. E. L. Robinson
- Prayer Rev. J. D. Langley
- Duet, Fraternity Song (Cover) Messrs. Polk and Woodruff.
- Thanatopsis Mrs. J. W. Barnes
- Mixed Quartette, No Shadows Yonder Miss Stumon, Mrs. Robinson, Messrs. C. L. Polk, K. R. Murrell.
- Eulogy, Our Absent Brothers Geo. A. DeCottes.
- Music, Bless be the tie that binds. Audience assisting.
- Address, Elksdom Hon. Cromwell Gibbons.
- Male Quartet, Where the sun will never go down (Jones) Messrs. Polk, Woodruff, Moore, Murrell.
- Ritual Work Lodge
- Auld Lang Syne Audience assisting
- Benediction.

Lakeland is Growing
Lakeland is growing in more ways than one. In fact, an election held a few days ago will provide for its growth in four directions. The people decided by a large majority vote to take in territory adjacent to the extent of one-fourth of a mile on the north, east and west and half a mile on the south. Lakeland is a fine town and has every prospect of prosperity and increase in importance for years to come. The new boundaries will add many people to the list of residents and much valuable property will be placed on the tax books.

Beck Hammock Briefs
Harry and Anna Fekula, son and daughter of Charles Fekula, arrived in the city Thursday of last week from Prineedale, Pa. They intend spending the winter with relatives here and will return to their home in Prineedale in the early spring.
Mrs. Napp, who has been sick for some time is now able to be out, although very weak yet.
Mr. Walker has just finished setting

every user of a vehicle and a deadly threat to every pedestrian in town on country. It is high time that aroused public opinion should make him a pariah under the law.

This movement to make an outcast of the reckless driver has the support of the great automobile manufacturing companies and the backing of powerful insurance companies. The aid of the associations of automobile owners and the police throughout the country is practically assured for the rigid enforcement and strengthening of the laws against the speed maniac and the reckless driver.

It is a fact, I believe, that the general intelligence of a community, or a state, or a nation for that matter may be estimated more or less accurately by the class of reading matter in demand. Of course this is a rule, if it is entitled to that designation, that has many variations. But still the ideals of our people are reflected fairly accurately by their choice of reading matter—likewise their intelligence. By this standard the discriminating ability of readers of newspapers especially appears to be at a distressingly low ebb. Take for example, the sort of "news" sent out by some associated press correspondents during the past week, obtained from some "doctor" from a remote end of the country, proclaiming a "cure for appendicitis without an operation," meaning surgical operation. The paragraph says "the discovery was made by pressing on a certain vertebrae (meaning more than one bone, where only one was doubtless intended) which had the effect of straightening the sigmoid flexure, a loop in the large intestine." Sensational statements, like this, however untrue and grossly unscientific, are intended for the gullible, ignorant reader. These statements measured by the science of anatomy and physiology are grossly inaccurate, untrue, and unscientific and are unworthy of publication anywhere. Why do respectable newspapers admit such statements to their columns? The per cent of cranks in the medical profession are probably as numerous as in any other professions or in other avocations. If a medical crank wishes to obtain some cheap advertising or notoriety he immediately hunts up a newspaper correspondent in order to obtain it and too often palms off some of his sensational theories and statements in technical terms as news! Is it not time for real respectable newspapers to place a discriminating standard on so-called scientific copy intended for their columns? The newspaper ought to be an educator to a good extent, and not a mouthpiece to any extent of pretenders, self-styled "professors," in plain language fakes if you please.

FACTS ABOUT ELECTION

Figures Compiled Show Some Interesting Data on Returns

The most recent tabulation of the popular vote, compared with the vote of four years ago, shows that there has been a general increase of something near a million votes, the total of all votes cast four years ago being about 14,750,000, while the vote for the recent election totals about 15,600,000. The total of President Taft's vote four years ago was over 7,600,000, and that of Bryan something over 6,400,000, with a plurality in favor of Taft of over 1,200,000. The Prohibition vote four years ago was 250,000; this year it is about 280,000, an increase of only about 30,000. The Socialist vote of four years ago was a trifle over 431,000, while this year it is about 750,000, an increase of nearly 350,000. The vote for the Progressive ticket this year is over 4,300,000, and that of President Taft a little over 3,750,000, the combined vote of Taft and Roosevelt being slightly over 8,000,000, leaving Wilson lacking 2,500,000 of a majority over all, as against 500,000 lacking by Taft in 1908. The combined Republican and Progressive vote this year is, therefore, but 400,000 over the Taft vote of 1908, while the vote of Wilson over Bryan is less than 100,000 increase. From these figures it will be seen the increase in the popular vote is only about the normal increase between each four year election, and that the percentage of gain is with the Socialists and Progressives. President Taft got nearly 4,000,000 fewer votes this year than he got four years ago, a reversal of sentiment never before recorded in the history of the country. Viewed by states the vote presents some even more interesting results than it does as a whole. In Kentucky for instance Wilson got more than 50,000 fewer than Bryan got in 1908. Roosevelt and Taft combined got almost exactly 50,000 fewer votes than Taft got in 1908 and the total vote of Kentucky is about 100,000 less than it was four years ago. Bryan got a plurality over Taft of about 9,000, while Taft gets a plurality over Roosevelt and Taft of about 6,000, and lacks 5,000 of having a majority over all. In New York Wilson got about 20,000 less than Bryan, in Ohio 50,000 less than Bryan, in Illinois 45,000 less than Bryan, in Indiana 70,000 less than Bryan, in Kansas 45,000 less than Bryan, in Nebraska 20,000 less than Bryan, in New Jersey 15,000 less than Bryan. So close is the vote between Roosevelt and Wilson in the states of California, Illinois, Iowa, Maine, Kansas, Nevada, New Mexico, Oregon and perhaps a few others, that fewer than 100,000 votes could have been so distributed that Roosevelt's electoral vote would have been increased about 100 and Wilson's diminished by a like number. In many of the states Wilson ran quite ahead of the Bryan vote of four years ago. If the combined vote of Taft and Roosevelt had been cast for one man, thirty states that cast their electoral vote for Wilson would have cast decided majorities against him and 196 for him, as compared to 321 for Taft and 162 for Bryan.

Bootee Party

The Bootee Party given by the Helping Hand Society of the Baptist church at the parsonage Friday evening was not only a very enjoyable entertainment to all who were present but added a neat little sum of money to the treasury of the society. The invitation which the guests accepted contained also the suggestion that the size of the shoe worn by the recipient of the invitation should be multiplied by four and the amount in money be brought to the bootee party Friday evening. The instructions were of course carried out by each guest who on arrival deposited the right amount, obtained by individual multiplication with the treasurer for the occasion at the door. Games, recitations, music, etc., were the pleasant entertainment. The rooms were very tastefully decorated. A large shoe, suspended from the ceiling, in the center of the room was the unique reminder that it was a bootee party. Dainty little cakes in the shape of shoes were served with tea and coffee. Each guest also received an express package of dainties, brought by a boy in the employ of the private express company managed by the Helping Hand Society, and operated for that evening only, for the pleasure of their guests.

PROTECT THE BIRDS

Young Boys Are Thoughtless In Shooting Songsters

OFFICIALS SHOULD BE VIGILANT

President Blackman Gives Good Advice To Parents And Children About Birds

Complaint has reached me, as president of the Audubon Society of Florida, from various parts of the state, that boys both white and colored are shooting mocking birds and other birds which are protected by the laws of Florida with air guns and other weapons, and that parents often seem indifferent to this infraction of law on the part of their children, as do game wardens and sheriffs.

Section 8679 of the general statutes of the state of Florida contains the following words: "No person shall within the state of Florida kill, or catch, or have in his possession, living or dead, any wild bird other than game birds, nor shall purchase, offer or expose for sale any such wild bird if it has been killed or caught."

No person shall within the state of Florida take or needlessly destroy the nests or eggs of any wild bird, nor shall have the nests or eggs in his or her possession. Any person violating the provisions of this section shall be liable to a fine of \$5 for each offence, and an additional fine of \$5 for each bird, living dead, or part of bird, or nest and eggs possessed in violation of this section, or to imprisonment for ten days."

I beg parents throughout the state, and the teachers in the public schools, to bring this law forcibly to the attention of the boys in their charge, to explain the reasons for this law, and to exert themselves in every way possible to see that this beneficent statute is observed. And I particularly urge the sheriffs and deputy sheriffs of the various counties, and other public officials, to see that the infraction of this statute is suitably punished.

For the most part, the shooting of birds by young lads is due to thoughtlessness and to the budding instincts of the sportsman within them. Most boys can easily be made to see the reasonableness and the importance, from every point of view, of protecting our song birds, and particularly those which by devouring vast quantities of harmful insects are the best friends of the horticulturist. The state of Florida has no body of workers which are so numerous, so industrious and tireless, so cheap to maintain, and so attractive to look at as are the birds, it is beyond all description shameful that these are being slaughtered in such numbers.

What we need is an aroused public sentiment which will insist upon the enforcement of such laws for the protection of our bird life as are now upon the statute books, and upon the enacting of one or two other needed laws as, for ample, one giving protection to the robin. There ought also to be a state warden, and a force of county and local wardens, operating under his direction whose business it would be to protect forests, game whether mammals, birds, or fish—and all song and plumage birds.

"SUPERBA"

Is Superb in Beauty and Interest at The Imperial Theatre

Superba is really and truly superb. The Imperial is indeed fortunate in being able to secure this beautiful act of refinement to appear in Sanford. Mr. Karnatz has been negotiating for the past sixty days to secure this act and his untiring efforts have been crowned with success. Manager Karnatz considers "Superba" to be the best of all good things that are at present in the south in the way of a vaudeville act.

The act that "Superba" presents is the highest priced act that it is likely Sanford people will have the pleasure of witnessing this season and to present the act Thanksgiving Day and the two following days a bonus had to be paid in order to secure a release of the parties from its contract with another house in Florida.

"Superba" presents the prettiest, most spectacular act in vaudeville. The electrical effects in colors are startling in their varied beauty; the gracefulness of the "silent" act soothes and delights; the charm of the rhythm and "music in motion" is as new and pretty as it is effective. There are no sylph-like graceful words in delicate colors that can describe it in type. It must be seen by those who never go regularly to the moving picture show, because they have a prejudice against it. They do not know what sort of attractions they are likely to see. They do not realize that the

pictures are artistic productions, well acted, with splendid themes for stories, pictures that delight the eye, satisfy the brain, and amuse and interest the people.

The chief function of the moving picture is to amuse and interest, not to educate, not to act as a means of religious instruction, but as often as possible pictures of special educational and religious interest are presented at the Imperial. Every one can visit the show at the Imperial and find food for thought.

Remember that some little heart will be made happy in securing the beautiful bicycle to be given away Xmas Eve and you should help your little favorite to win. Each five cents carries a vote. Be sure you get yours.

The standing of the girls still in the race is as follows:

Helen Gonzales	566
Helen Peck	503
Annie May Bruton	486
Margaret Berner	393
Mamie Kate Williams	326
Fannie Reba Munson	205
Clara Hand	197
Kitty Dubose	134
Gertrude Runge	113
Edna Tullugh	112
Elizabeth Stafford	112
Addie Marshall	110
Weima Graves	106

Those girls having less than fifty votes can get their standing by inquiring of the manager. Better hurry, girls.

Knocking the Orange

Each of the various "citrus exchanges" and "associations" seem to be striving to see which can do the state of Florida the greatest amount of harm in a given period.

No association has a good word to say of any of its contemporaries; the plans of each group of members and their methods of shipment are condemned by all the remainder while the few independent growers and shippers curse the whole conglomeration.

California oranges are being held up because they are being colored artificially while Florida fruit is being held up, theoretically, because the shippers cannot agree upon when it is ripe, or the day of the month, or how many nails to put into a crate, or which end of the crate should have the label affixed.

Consequence is people of the north fear to buy any fruit fretting about poison from the western fruit and colic from the southern and the honest grower and shipper gets the left end of the horse shoe every time.

Yet there is no deterrent among those who desire to put out new citrus groves those who can properly care for them once the trees are started. They realize that before long the people to the northward will become censors as to what is and what is not ripe—and once having become experts their choice will always be in favor of the Florida product—all the knocking associations to the contrary notwithstanding.—Palm Beach County.

Talk About Robin

A great deal of newspaper talk is now apparent on the matter of protection of the robin. Some of the papers think that Cock Robin, who is a winter visitor to the south, should be secure from the pot-hunters. Others fail to see any reason for giving him immunity and believe he should take a chance, along with wild duck and other migratory birds. The argument that the robin destroys insects in the tomato fields is met by those in the strawberry sections, who claim that Mr. Redbreast is more pleased to eat nice, ripe berries than bugs and worms. "This puts the robin in the tariff class," says the Lakeland Telegram, "or, going further back, links him with that ancient problem of the farmer, the lawyer and the gored ox."—Times-Union.

To Elect Postmaster

Hopkinsville, Ky., Nov. 26.—Marion, the home town of Senator-elect James is probably the first town to arrange for the election of a postmaster.

James announces that he will endorse the man receiving the majority. Many candidates for the office, of course limited to Democrats, are already in the field, and there will be a hot race on election day, January 18.

WEEK OF PRAYER

Churches Of Sanford Observed Occasion By Splendid Program

The following program was observed by the Presbyterian church and Missionary Society during the week of prayer.

The morning sermon for November 17th, "Our Country's Debt to Christ," and for the evening service "Units in Making our Country God's Country" were preparatory to the program to be observed by the society for their daily services during the week.

The Monday afternoon program was in charge of Mrs. D. C. Robb, the subject considered being "American Indians, Africans and Asiatics." Papers on each subject were read.

Tuesday's program was a study of "The Frontier and Island Possessions" and was led by Mrs. H. C. Dubose.

No program or meeting was announced for Wednesday afternoon, as it was the intention to use the program, the subject of which, was "Immigrants" at the prayer meeting service in the evening.

Thursday afternoon's program, "The Rural Religions and the Cities," was in charge of Mrs. A. T. Rossetter, but the inclement weather prevented the meeting.

Friday afternoon the study of "The American Social Problems" was conducted by Mrs. J. N. Whitner.

At the Methodist Church The Monday afternoon program beginning the week of prayer observance was conducted by Mrs. H. H. Chappell. Leaflets on the subject considered, "The American Indians, Africans and Asiatics" were read by different ladies present. Mrs. J. K. Mettinger sang the suggestive song, "Does God Need Me."

The Tuesday afternoon program was in charge of Mrs. H. V. Berry. The subject, "The Frontier and Island Possessions" was clearly defined in articles read by Mrs. H. H. Chappell on the schools maintained by the missionary society at Key West, Ylor City, Cuba and Mexico. Mrs. J. D. Parker, the "Ruth Hargrove Institute at Key West" Mrs. J. K. Mettinger, the "Orientals" on the Pacific Coast. Mrs. T. A. Newton sang "Saved to Serve." Mrs. A. E. Philips read several extracts from a book on Mormonism.

Mrs. W. H. Williams led the Wednesday afternoon study of the "Immigrants." The "Who and Why of Immigration" was explained in an interesting article read by Mrs. Marshall. "A Visit to the Immigrants' Home at Galveston, Texas" was read by Mrs. Styron. A poem entitled "Save Them for the Nation" was read by Mrs. M. Moye. Mrs. J. K. Mettinger and Mrs. Claude Herndon sang as a duet, "There is no Love like the Love of Jesus."

Thursday the rain prevented the meeting of the missionary society and study of the program.

Friday afternoon Mrs. Albert Seigh led the meeting. "Foreign Missions" was the subject of study and prayer. A leaflet on "Your Trust" was read by Mrs. M. Moye. Mrs. R. M. Mason read an interesting article on the work in Mexico. A report from the Mary Keener Institute in New Mexico City" was read by Mrs. W. H. Williams. After the thank offering for Foreign Missions the meeting adjourned.

In the Congregational Church—Only by appropriate sermons on Missions was the object for which the week of prayer was set apart observed by the Congregational church last week, owing to the absence of the pastor, Rev. J. D. Langley. The week of prayer was postponed to be observed later.

Cold Weather Predicted

Washington, Nov. 26.—Generally fair weather with temperatures below the seasonable except local showers Monday in the great lakes region and in northern New England, will prevail throughout the country during the next several days, according to the weather bureau.

"The next disturbance to cross the country," says the bureau's weekly bulletin, "will appear in the far west Wednesday or Thursday, prevail over the middle west Friday or Saturday, and the eastern states near the close of the week. This disturbance will be preceded by a general rise in temperature, be attended by rains in southern and rains and snows in northern districts and be followed by decidedly cold weather, which will make its appearance in the northwest Thursday or Friday."

Notice to Dog Owners

On and after November 25th, 1912 all dogs running at large on the streets of Sanford that do not carry the legal license tag shall be shot according to law. G. W. SPENCER, Mayor.

Subscription Price, \$2.00 a Year in Advance

Delivered in the City by carrier \$2.00 per year in advance or 20c per month.

Payments in advance must be made at office.
Entered as second-class mail matter August 22nd 1908, at the Postoffice at Sanford, Florida, under Act of March 3rd, 1879.

Office in Herald Building Telephone No. 148

Would it be within the law to say that invaders are making Greece spots of the Turk? What?

New item in the Gainesville Sun states that man named Freeze has purchased property in Citrus county. Hope there is nothing in a name.

It's an ill wind that cools nobody's dome! We'll get ahead on the rug account if the war will only keep the peddlers away long enough.

Gene Matthews of the Starke Telegraph is a candidate for the position of Receiver in the Land Office and says that he does not want any one to bother the job. They won't.

Speaking of approaching dissolution: Banker Morse, lately released from prison so he might dip under his own roof, is gradually sinking, he being in London floating the stock for a new steamship line from Liverpool to San Francisco via the Panama Canal.

The West Florida Press Association was not well attended at the last meeting. Our suggestion to those bad boys over there is to save up their money and attend the real Press Association and take in the side trip to Panama. What's the use of foolin'?

The next step in economics though we do suggest it who have no special right to—is to discourage the prevailing custom of countries going to war who haven't enough money to pay their own Red Cross societies. Also if the state of Florida can't afford to send troops to Jacksonville, don't do it.

Editor Holly, of the Sanford Herald has given the Orlando postoffice to Editor Howard, of the Citizen. It is now up to this editor to give the Sanford office to the talented Celery City "agitator."—Orlando Sentinel.

If he does we will believe him, which is more than any one ever attributed to talented and "old reliable" editor of the Sentinel.

From now until the Legislature meets in April county division will be the live topic in the northern half of Orange county. We expect to gain our point and the separation will occur. Sanford expects to confer with the people in the other sections of the proposed new county and a big barbecue will be arranged by the Commercial Club at some future date when a general conference will be called and the many questions thoroughly threshed out.

The Orlando Sentinel is making a fight on county division on the principle that it will make taxes higher in Orange county. Since this end of the county will not be able to help pay the taxes of Orange county any longer there is no doubt about their taxes going higher. But our taxes in the new county need not be any higher than they are now. In fact, we should be able to lower them for they are certainly high enough for the benefits accruing therefrom at the present time. The people of this section are willing to pay taxes as long as said taxes are paid nearer home.

The lettuce growers this season started to shipping lettuce at least one month earlier than usual. That they received anything at all for their stuff is remarkable. The lettuce was not headed up and the northern markets were supplied by the home growers. And yet in the face of all these difficulties the Sanford growers did very well. In the next few weeks the lettuce will be much better in quality and carry better. The lettuce north of here will be frozen out and our growers have a much better chance to make good. The crop coming in is said to be the finest ever grown in Florida and buyers are already making offers in the field for the crop.

Louisville's most exclusive society is threatened with civil war. Wine room dances, spiked punch and late hours are causing trouble. Mothers, debutante daughters and many of the beaux are about to enter the lists in the cause of decorum. A group of serious young men who have sisters and sweethearts at stake have gone forth to do battle

against the things they declare are undermining local society. They have enlisted the aid of many girls and mothers. The plan is to put a ban on the turkey trot and many others kindred dances; to exclude from future social activities those youths who persist in bringing intoxicants to parties and balls; to clean out free and easy manners, and, in short, to replace decorum on the pedestal from which it has fallen.

TOO MANY "ORIGINALS"
Since the announcement that under the Wilson administration the appointment of postmasters will be left entirely to the congressmen in the respective districts, we may expect a host of "original Frank Clark men" to appear in Palatka. Some of those who have fought Mr. Clark bitterly and persistently for the last eight years will now doubtless have the "nerve" to pose as old-time, loyal friends of the Gainesville man.—Palatka Times-Herald.

TOO LATE! TOO LATE!
The Sentinel rises to formally announce the name of Hon. Forrest Lake of Sanford, for Speaker of the House of Representatives of the State of Florida. Mr. Lake possesses all of the qualifications peculiar to that important position and should his colleagues honor him by elevating him to that responsible post of duty, no member of the House will ever have cause to regret it.

Having been closely associated with him in early boyhood from the time we walked proudly forth in long trousers, to Commencement day in the university of business, sharing with him during that period in all the feats and frolics of a pair of athletic, mischief-loving boys, full of ambition, we feel we know something of the excellent wool that was woven into his young life that afterward widened into great usefulness as he developed into manhood, and we know that he possesses the metal of true manliness and uprighteousness of character. In this year of great Democratic triumph, let us prove ourselves proud by putting Hon. Forrest Lake at the head of our law making body.
Too late! too late! dear Sentinel. Your generous offer will not stem the county division tide. Had you offered Hon. Forrest Lake the Speakership before you printed those election tickets all would have been well. But now we cannot take it! Too late! too late!

A PITY TO SPOIL IT
It is really a pity to spoil the pipe-dream that is enfolding the senses of our contemporary of Orlando in fantastic imaginings, but the interests of truth that are omnipotent compel it to be done. Our friend of the Reporter-Star while walking in his sleep the other day said that "No more bracing news could be told to our people than the fact that the Florida Citrus Exchange is to make its headquarters in Orlando."
Isn't it sad to have to wake him up? We almost hate to do it. It would indeed be bracing, friend, if it was true, but it isn't.

We have the authority of Mr. Temple himself for stating that the headquarters of the Exchange will not be moved from Tampa, and further, that no change in location has ever been considered. It is true that Mr. Temple personally has bought a lot in Orlando—as several other people have—but the purchase was not made for the purpose of building thereon a headquarters for the Exchange. We have been informed, therefore we will not vouch for the accuracy of that information, that it is the purpose to erect on the lot a building to be occupied by the sub-exchange for that district.

There is no question that Orlando would be able to take "care of the business." But the assertion that that city is situated "near the geographical center of the orange belt" is laughingly amusing. Tampa is more accessible to two-thirds of the orange belt than is Orlando. Four-fifths of the orange growing territory of the state lies south of the latter place.

But it is needless to argue a matter that is not up for discussion. We would just whisper to our Orlando friend a word of advice—don't be so cocksure the next time, and don't indulge again in the disappointing pastime of jumping at conclusions.—Tampa Times.

Missionary Society Meeting
The Missionary Society of the Baptist church held their regular monthly meeting in the church Monday evening. The meeting and devotional exercises were conducted by Mrs. Edgar Biggers. "City Churches" was the subject of the program considered.

A number of the members of the society had invested a dime, which they multiplied in as many ways as they found to be possible, for the benefit of the "Chimley Memorial" and they told in rhyme the results of their business enterprise. The practical genius of the dime financiers was as much enjoyed as their financial success was satisfactory, as a nice sum was realized.

After the program and business of the meeting was concluded a "social tea" was enjoyed by the society and friends who were present. About fifty attended the pleasant meeting.

TOO MUCH LETTUCE COMING

New York State is Still Sending Forward Heavy Supplies

New York, November 22.—The upstate lettuce is more prolonged this year than common as there have been few heavy frosts. While the weather during October and November has been quite favorable most of the time, yet it was too cool to allow the lettuce to head up so that most of the arrivals now show cool heads and during last week there has been much inferior stock on the market. As a whole, however, the western New York lettuce deal has been unusually satisfactory this season. While some growers will net back \$1, a great many of them will average 85c or better. Last year the season ended about Nov. 13, when last shipments sold at \$2.50 a crate. This year on the same date the market was \$1 to \$1.25, owing largely to free offerings of ordinary stock. Any shipper of western New York lettuce who packed fancy or good grades got excellent money on his shipments. Poor lettuce has sold uniformly all season at uniformly low prices. In addition to quite liberal shipments from western New York there was plenty from nearby points and most of the time sales dragged. Total receipts for the season will run heavier than last year. A. C. Martin, who represents a large number of shippers in western New York and who handles the bulk of the fancy lettuce coming, will close the season with 60 to 70 cars more than last year. Other houses report more business than last year.

The New Orleans lettuce market has been sadly neglected and shipments have hardly been bringing freight. The week's offering will be close to 12 cars. On account of poor returns, shippers will forward less stock to this market until nearby lettuce is cleared. Barrels ranged \$1 to \$1.75 and baskets 20 to 50c. Some of the lettuce was fine and much superior to that on the market recently from nearby points. Dealers considered it a shame to sell such excellent lettuce at such low prices.

This was the first week of moderate receipts of Sanford lettuce. The season there is starting quite early as growers were compelled to cut their lettuce for fear it would all go to seed. In consequence most Sanford lettuce is poor. There is an excellent demand for good lettuce and the best is taken quickly. There are four or five cars coming daily and the demand is so good that, if this were fancy, it would be quickly taken at \$2.25 to \$2.50. As it is, \$2 is top and there is only a small quantity of it good enough to bring that. The bulk of it is selling \$1 to \$1.50 with some extremely poor stock going down at 50 to 75c. The transportation charges on the lettuce is 68 1/2c a basket, so stock that is selling at these figures is not bringing freight. Sanford is shipping quite heavily now and much heavier arrivals are expected next week. Sanford remains has been making some severe losses for receivers. It has been selling 75c to \$1 and not cleaning up even at this low price. Produce News

"The Play's The Thing"
Some of Sanford's most prominent people are very busy now rehearsing "The Union Depot for a Day," a farce-comedy employing fifty people, which is to be staged very soon under the direction of Mrs. J. W. Barnes for the benefit of the High School and Public Libraries.

It is seldom that a comedy used by professionals so bristles with screamingly funny situations as does this, and so well are the parts being interpreted by the casts as to warrant an evening of amusement and interest excelled by few if any that have ever been enjoyed by a Sanford audience, whether given by professionals or otherwise.

The play will be given Tuesday, Dec. 10th, in the High School Auditorium.

Look Out For Counterfeit
Washington, Nov. 26.—Three new counterfeit notes have been unearthed by the United States secret service and Chief Wilkie today issued a warning to the public. The counterfeiters are a ten-dollar national bank note on the First National Bank of Ashley, Pa., a ten-dollar certificate and a twenty-dollar gold certificate.

The national bank counterfeit is said not to be unusually deceptive and its portrait of Mr. McKinley has a smeared appearance. The ten-dollar certificate counterfeit is a fair production on good quality paper, although the imprint of the seal is rather faint and ragged, and the lathe work is poor, while the twenty-dollar counterfeit is a reissue with slight changes of a spurious note discovered last April.

Thanksgiving Day
Our offices, stores and shops will be closed all day Thursday, Nov. 28th, 1912.

"SUPERBA"

THURSDAY, 28 :: FRIDAY, 29 :: SATURDAY, 30

PRICE TEN CENTS

LET US SOLVE YOUR CLIPPER PROBLEM

By furnishing you with a sample pair of the famous "TUTTLE CLIPPERS," now in use by 75 per cent of the citrus growers in California, and by scores of the big fruit companies in Florida, who have bought heavily of them the past month.

We claim that the TUTTLE CLIPPER will pick all varieties of citrus fruits WITHOUT INJURY and that it renders clipper-cutting ABSOLUTELY IMPOSSIBLE.

It will do as perfect work in the dark as in the day light, and can be operated by a child as well as by the most experienced orange grower. Each pair is a marvel of mechanical expertness and comes in a separate box, with half a dozen extra springs and a slip of emery paper to keep the blades in good condition.

These are a few strong points in its favor. YOU WILL FIND OTHERS EVERY DAY THAT YOU USE IT.

Write for prices and booklet to

E. O. PAINTER FERTILIZER COMPANY

Room 1152, Florida Life Building

JACKSONVILLE, FLORIDA

SOME UNDERPRICED OFFERINGS

FLORIDA REALTY CO.

CITY PROPERTY

- Two Nice Residences—One with nine rooms, \$3,000, the other fourteen rooms, \$3,500, must be sold, therefore we are asking about half the value of these desirable dwelling locations. Brick streets within one block. Paved sidewalks. Good flowing water. Terms

- Forty Room Tourist Hotel in a thriving little Florida town. Just remodeled and furnished throughout. The furnishings alone are worth more than we are asking for the entire property. Terms \$10,000.00
- Eight Room Dwelling, located on the Heights. Four good building lots go with this property. Good water. The four lots promise a fine proposition to hold as an investment as this is bound to be Sanford's future suburban residence section. We offer the entire holding on good terms for \$1650.00
- Seven Room Residence on Palmetto avenue. Bargain \$2000.00 Terms if wanted.
- Two Small Hotels for sale at a big bargain, cash or terms. Both these hotels are located in live small Florida towns. See us for prices and location.

SUBURBAN FARMS

- Eight and a half Acre Truck Farm, crop well under way, looks good All tiled. Five acres in lettuce and celery, balance ready for crop, best location, best soil. Will sell cheap. Looks now as if crop will pay for the land this season. Tools, team all go in. Quick sale.
- Nine Room House, suitable for rooming house. First street. Everything new and up-to-date. Toilet, bath and all modern conveniences. Price way down.
- Fifteen Acres, five cleared and tiled. Two fine wells. Two small outbuildings. All under Pittsburg wire fence. Quarter mile loading station. This place will only be on the market for a few days for quick sale \$2500.00
- Thirty-five Acres in two miles Sanford. Good double story house which cost \$2500.00 to build. Good barn for 12 or 15 head stock. No better dairy proposition in the state. Terms We offer this at \$3500.00

ORANGE GROVES

Two Fine Orange Groves, one of 14 acres, with fine crop of bright fruit right on St. Johns river, also the A. C. L. R. R. Will sell at a bargain. The other five miles from Sanford, over one thousand trees in bearing. Fine location on lake front. This grove contains some of the famous Bahai Naval Oranges, together with a liberal assortment of all the best varieties such as St. Michael Blood, Parson Brown, etc.

TIMBER AND CUT OVER LAND

- Ten Thousand Acres in Lake county, a fine sub division proposition. Can be sold in five or ten acre tracts from \$10 to \$50 per acre. Flowing wells can be had on about 2,000 acres. This is good trucking land and will grow anything. Some fine groves adjoin it for quick sale \$3.00 acre
- If interested in round timber we have 193,878 acres for sale. It's not in one body, or any one locality, but we have it at the right price, figure with us.
- 3,000 Acres cut over land, adjoining the celery delta of Sanford. Scattered through the tract is some of the finest citrus fruit lands in Florida. We offer this at \$3.00 acre
- It will be our policy never to offer anything for sale unless we can say conscientiously we are giving you your money's worth.
- See the many bargains we are offering in all kinds of real estate both city and farm. Timber and all kinds of good bargains.

FLORIDA REALTY CO.

Suite 9-10 G. & W. Building Sanford, Florida

PURELY PERSONAL

For your Thanksgiving dinner look at the Market Place in this issue of The Herald.

Get your supper at the Welaka Club tonight. Oysters will be served in every style.

H. R. Stevens will take in the game of foot ball in Richmond, Virginia, on Thanksgiving.

Mrs. M. L. O'Berry of Gainesville was the guest for a few days of her cousin, Miss Bessie Long.

Mrs. M. M. Stewart left today for Plant City, where she will be the guest of her sister, Mrs. I. J. Sims.

A ladies' quartet will be among the musical numbers at the Congregational church Sunday evening next.

R. G. Snow, traveling salesman for John Nix & Co., produce merchants, was a recent visitor to the city.

Chas. Hand, A. D. Smith and Felix Frank left today for Ocala by automobile to attend the fair at that place this week.

Miss Bessie Long left Monday for Winter Garden, where she will be the guest of Mrs. Albert Jones for a few days.

Miss Jessie Stumon will contribute a cornet solo to the special order of service at the Congregational church next Sunday evening.

Mr. and Mrs. Jno. Goodwine and daughter of Wichita, Kan., are in the city this week. They will spend the winter in Florida.

Thomas H. McCarthey of Stewart, Fla., has come back to Mr. C. H. Dingee. Mr. McCarthey was employed by Mr. Dingee for some years.

Among the prominent visitors to the city last night were B. G. Smith, T. B. Jones and E. A. Douglass of Oviedo and J. T. McLain of Gepeva.

Miss L. Josephine Dameron will sing at the Cecilia Music Club which will meet at Mrs. Munson's studio Saturday afternoon, Nov. 30th, at 3 o'clock.

C. T. Smith of Cincinnati is in the city, the guest of his daughter, Mrs. Nowlin of Sanford Heights. His many Sanford friends are glad to see him again.

It is rumored that a bride and groom from Sanford will leave on train for Richmond, Virginia, to witness the game of football there on Thanksgiving.

Mrs. L. E. White of Pensacola has arrived in the city and is the guest of her daughter, Mrs. J. W. Barnes. Mrs. White will spend the winter with Mrs. Barnes.

Dave Adams claims that C. C. Woodruff has an amphibious automobile. He was out with Charlie the other day and the machine actually swam across several streams.

Mr. and Mrs. Frank Brusie and the three Breezy Brusie sisters are in the city again, much to the delight of their many friends. The girls are on the bill at the Star Theatre.

The Herald will issue on December 17th one of the finest and most complete Christmas editions that ever came from the press. Our solicitor will call later to see you about your advertisement.

A large congregation enjoyed the new order of service at the Congregational church last Sabbath night. Both the musical program and sermon will be inspiring and uplifting next Lord's day.

Mrs. George Speer has returned to the city after a month's visit in Jacksonville. Mr. and Mrs. Speer will have apartments in the Bishop Block, where Mrs. Speer expects to do public stenography.

Strangers in the city and those not attending church elsewhere are invited to come to the Congregational church next Sunday at 7 p. m. and enjoy the fine music and fifteen minutes Gospel sermon.

Mrs. J. H. Roumillat and son, Karl, will leave on the midnight train for Richmond, Virginia, where they go to witness the great Thanksgiving game of football to be played in Richmond between Virginia and Carolina.

W. A. Rom and party of friends, consisting of Dr. O. P. Likins, S. H. Barnum and F. X. Schuller went to Sanford this afternoon and will drive back in Mr. Rom's big new "Locomotive," which has just arrived at that place from New York.—Reporter-Star.

Mr. and Mrs. S. M. Schwartz and Wm. Brinkman of Chicago arrived in the city today. Mr. and Mrs. Schwartz will spend the winter at the beautiful home on Sylvan Lake and Mr. Brinkman, who is a prominent contractor in Chicago will be their guest for a few weeks.

Mrs. Mrs. Wickenberg of Jacksonville, who was the guest of Mrs. C. O. McLaughlin last week has returned to her home. Mrs. Wickenberg's charming voice and personality won many friends in Sanford who will always welcome her return to the city.

The Market Place

In another part of today's Herald is a page called the Market Place and here you will find a list of the enterprising caterers of the city, who in this manner have placed their Thanksgiving specials before you in such a manner that you can't help looking them up and giving your order. The price of Turkeys may be too high for your pocket book but this time of all times in the year is set aside for the eating of a Turkey and you might strain a point or two and get one for the children. If you have none of your own invite in one of the neighbors. You may not want to mortgage your home to buy a turkey, and then comes the full line of choice meats that will fill the place left vacant by the absence of the Great American Bird. There is nothing finer than a good Pork or Beef or Mutton or Veal Roast and then just think of the Chickens and Oysters. The Sanford Meat Markets are alive to your every want and in the Grocery line, well, just take a slant at the Market Place and read the many good things that the Sanford grocers, the Live Wire Merchants, have to offer you and having it to offer have paid for a special space to give you a list of the many good things that you will need for Thursday's dinner.

Look for the Market place and buy your Groceries and Meats from the Live Merchants of Sanford.

Every Week Bridge Club

The Every Week Bridge Club was entertained by Mrs. G. F. Smith Monday afternoon. Two tables of bridge were played. The prize, a dainty Haviland china jolly dish was won by Mrs. Forrest Lake, who made the highest score. When the games of cards were concluded delicious stuffed pimientos, olives, sandwiches, crackers and salted almonds were served. Mrs. Smith's guests were Mrs. C. M. Vorce, Mrs. W. R. Anno, Mrs. L. P. Hughes, Mrs. C. O. McLaughlin, Mrs. O. W. Brady, Mrs. Forrest Lake, Mrs. Cruse Barnes.

Paying the Soldiers

An interesting tangle has arisen in regard to the payment of the state troops who were ordered to Jacksonville to do duty during the recent strike.

Twenty-one companies were ordered to Jacksonville and were kept there fifteen days. The pay roll for this service amounts to a large sum.

The Governor has notified the mayor of Jacksonville that there is no money in the state treasury to meet this demand. He has asked the city of Jacksonville to lend the state the necessary money, and the mayor of Jacksonville on the advice of the city attorney, has replied that it is not up to Jacksonville to loan the money.—Tampa Tribune.

Plucky Merchant

Struck with a heavy piece of iron with such force that he fell backward through a screen in such a manner that enabled him to grasp a revolver he had kept for the protection of himself, A. L. Dyer, a restaurant keeper of Highway, a suburb of Jacksonville drew the weapon and fired upon Stephen and Sam Williams Saturday night, killing them instantly. The dead men are brothers and for some time have been at enmity with Dyer. Stephen Williams was an ex-convict of the Florida state prison. The claim of self defense is set up by Dyer. All are white men.

Lakeland Growers' Union

A number of farmers assembled on Saturday at the First National bank and organized a Potato and Vegetable Growers' Association by electing Mr. D. K. Turner as chairman, and Mr. Eugene Finn as secretary. Mr. B. H. Gray was elected as a committeeman to perfect further arrangements.

The constitution and by-laws will be modeled after those of the Florida Citrus Exchange.

A second meeting for the purpose of finally perfecting the organization at the First National Bank at 10 o'clock next Saturday morning.—Lakeland Telegram.

Called Meeting

A called meeting of the Sanford Library Association will be held in the room Monday, December 2nd. Chairmen of committees appointed previous meetings requested to report.

C. R. WALKER, President.

MANATEE CELERY CROP

Will be Late but the Growers Expect To Have Good Returns

For the past month or two there has been much said about the probable shortage in the celery crop on account of excessive rains, but viewing things as there now are, one must conclude that there will be but little if any shortage.

The greatest fear was that there would not be enough plants to go around, but we have yet to find a grower who has been unable to secure all the plants he wanted. Of course, there may be a few instances where the acreage has been cut down on account of shortage of plants, but as stated before we have not heard of such.

There is no doubt but what the plants were seriously damaged by excessive rains, and the present crop of celery will be a little late thereby; but after all this will not amount to much; and it is generally believed that the high grade of the celery will more than offset the lateness of the crop.

For years the Manatee celery has been recognized as the standard and has brought everywhere from 50 to 75 cents in all the markets, and this season it will set an even higher standard and bring better prices.

Already a large acreage has been transplanted and in some instances the plants are nearly half grown, while the work of setting is being rushed every day, and within a short time the entire crop will be in the fields, and it is reasonable to presume that the shipping of this toothsome vegetable will commence within a few days of the usual time.—Manatee Record.

WANTS

All Local Advertisements Under This Heading. Three Cents a Line Each Issue

For Rent—Tiled land on shares, eight acres at loading station, one-fourth of crops l. o. b. as land rent. J. W. Powell owner. Inquire of Walter Haynes, Herald Office. 28-1f

Sick Stranger Taking Orders In Florida

WILL BE IN SANFORD SOON

Selling Goods From Photographs And Working The People Right Along

The Tampa Retail Dealers' Association has called the attention of Tampans to the smooth tongue, clever and gentlemanly traveling salesman who sells to consumers direct, often getting higher prices than local stores would charge for goods of the same quality, and always taking the money out of town.

The letter follows: "During the past thirty days there have been in Tampa six traveling salesmen who have taken from our home merchants thousands of dollars for merchandise which could have been bought in Tampa for less money, and there is a reason for it. When these travelers appear before you with a catalogue full of attractive pictures, an oily tongue to explain their wares, and a house back of them with a large amount of capital, it is hard to refuse them. They are men of experience and know how to talk. Salesmanship is their business and they know it well. They will take up any line that offers them an attractive commission and sell it, regardless of merit.

"We want to call particular attention to the six above mentioned. First, there was and is a furniture salesman, who has beautiful blue prints and photos, and they look attractive and the price looks right, and he has just what you want. Look at the description of grained oak furniture, what does it mean? It is not quarter sawed, it is grained with a graining machine and varnished over and in a photo looks just as good as the real article on paper. Is your eye trained to the difference between varnished and hand rubbed finish? Another feature of the furniture business: Suppose that furniture should arrive broken or damaged by the railroads and the damage is slight? What will you do? Say nothing, of course, for if you should put in a small claim with the railroads the time that it takes to adjust the claim will be worth more to you than the article you bought.

"There was a grocery salesman who sold canned goods on order. Now, you know there is a world of difference in canned goods. This man represented to be selling this stuff at less than the jobber can sell in car lots. Think a little. If that were true, our jobbers would buy everything he had to offer and beg for more.

"There was a gilly tongued salesman offering ladies' cloaks at bargain prices. Actually he sold cloaks in Tampa for \$35 that any dry goods store will sell you for \$20. If our home people would ask such prices you would throw up your hands in horror.

"There was a clothing salesman who sold clothes to good people, men of affairs, and with a descriptive song, so to speak, sang them into signing an order for clothing at \$45 per suit that can be bought in Tampa for \$25 for identically the same pattern and those who bought admitted it after they had been shown the product handled in Tampa.

"A shirt salesman sold shirts at just double what they were actually worth, supposed to be made to order, and when they arrived they did not fit. He will never sell these people again, but he will sell others; simply because he knows the art of convincing.

"There was a linen salesman who sold linen by the bolt from samples. He made sales at a figure less than real linen could have been manufactured and when the bolt was opened and made up it was proven not to be linen at all. It was a fabric which had been starched with a colored starch and ironed on a mangel and made to look like the real article.

"What business are you in? What business is your son in? Suppose we should all refuse to trade with him, send all your orders to some northern concern, what would he do?

"If local commercialism does not build cities, what does? There is a host of salesmen who come to Tampa every winter to enjoy a few months of our climate, swindle a few of our people and return in the spring. When you trade with a local merchant if he mistreats you he will soon have to go out of business. If he is honest he will make good.

"Now, serious, don't drop the thought yet. Say to yourself, what would I do if the people of Tampa sent orders for everything they buy to some other city? What would be the population of the city?

"Are you a banker? Where would you be. If you are a doctor, where would you be practicing? Do you run

a newspaper? Who would be your subscribers? Are you a lawyer? Who would you sue? Are you in the real estate business? What would Giddens corner be worth? What would Franklin street property be worth per foot?"

"There would be no Tampa."

The Federation Meeting
The Sanford delegates representing the Welaka Club and the Wednesday Club have returned home greatly charmed by their visit to hospitable Miami. The Miami Metropolis has the following regarding the Federation meeting:

The social feature of the big convention was the beautiful part of it. To say that a body of women in convention cannot preserve harmony for any length of time is a statement untrue, as even the men who attended these sessions can testify. Parliamentary laws are familiar to them and the rules strictly observed, yet there is no stiffness visible.

Those from Miami and Coconut Grove who returned yesterday are bubbling over with happiness, and are enthusiastic over the cordial way in which the hostess club received all her guests. The hospitality and courtesy shown the visitors was beautiful to behold. Miami has cause to be proud of the part she played from beginning to end of the program. Mrs. A. D. Frederick, president of the state federation has done noble work through out her term of office, and her wonderful poise and graceful manner of presiding over each meeting was much commented upon. Mrs. Dimick, president of the Entre Nous Club of Palm Beach, the hostess of the occasion, at the first meeting, Tuesday morning, gave a beautiful address of welcome, which was responded to in a like happy vein by Mrs. Frederick in her opening of the convention speech.

Mrs. Kirk Monroe's paper on Forestry was one of the finest things of the convention. Mrs. Monroe's interest along this line is keen, and her subject exhaustive. She knows her subject thoroughly, and therefore could handle it with ease.

Wednesday reports from all the clubs were given, and it is simply marvelous what has already been accomplished in the way of sanitation, street building, civic improvement, etc.

Then the reception! That was magnificent! This was held at the pariah house joining the church, and was a most brilliantly dazzling scene. The gowns and jewels worn on this occasion were indeed notable, and it is seldom that so much wit and beauty are gathered together. Wonderful music, too, added much to the success of the evening.

Dr. Cope's address, Women on the School Board, was a masterly effort. It emphasized strongly women's rights, and Dr. Cope's argument was strong and logical.

Mrs. H. H. Kirkpatrick of Little River, made a great hit on the program with her paper, The New Woman in China. She spoke of the old Chinese custom of foot binding, that being typical of the real bondage of the Chinese women—bound hand and foot, body and soul, simply a slave to her husband and of the influence of western civilization in setting those little yellow women free. This was one of the choicest bits of the program.

Keen regret was felt throughout the assemblage when it was learned that Mr. Kirk Monroe, who was to give a talk on the Seminoles could not be present. Mrs. Monroe read a telegram from him saying it would be impossible for him to come at once. Then in her own inimitable way, just as if she were entertaining guests around her tea table Mrs. Munroe proceeded to give some of her personal experiences with the Seminole women. She laughingly said that they were suffragettes and don't know it. That the money they make is truly their own and they have to account to no man for the manner in which they spend it.

Mrs. Grace Manlove of Coconut Grove, read the prize essay on the subject, "How to judge a picture." This one was chosen from sixteen submitted to the chairman of the General Federation Committee on Art. The prize essay was written by Mrs. Charles Harper of Boynton.

After the election of new officers, Mrs. Frank Jennings of Jacksonville paid a glowing tribute to the retiring president, Mrs. Frederick, which was received with applause. All in all, it was a grand success, from beginning to end, and everybody left Palm Beach with the feeling of good fellowship toward every one else, and the greatest gratitude to the hostess club.

Thanksgiving Exercises
On Wednesday morning at ten o'clock the pupils of the first grade of the Primary Department of the Grammar School will hold their annual Thanksgiving exercises. The small admission fee of five cents will be charged to help defray the expenses of the piano recently purchased for this department. Parents of the school and the parents especially are urged to be present at the exercises.

SPREAD TERROR IN ALASKA

Earthquake Shocks. Though Little Damage is Reported, Were Cause of Intense Alarm.

The most violent upheavals of the earth's surface since the terrible earthquake which destroyed San Francisco are those which took place in Alaska on July 6. The earth rocked continuously for 40 seconds, and although the disturbance is not reported to have caused much loss of life, it has filled the people with terror.

Following so quickly after the eruption of Mt. Katmai, in the Kadiak island, which covered the whole island with a foot of volcanic ash, the earthquake is supposed to have been the result, and damage and ruin of the most far-reaching nature are among the dread forebodings.

The bottom of the sea is also reported to have been considerably elevated, seriously affecting the climate of the Alaskan coast through shifting the warm ocean currents, and also creating new fishing banks which may become of incalculable value.

Some geological experts believe that the eventual closing of the Bering straits is among the possibilities. After this, perhaps, one may travel all rail from Halifax, N. S., to Lisbon, Portugal, by way of Canada, Alaska, Siberia, Germany, Spain, etc.

Japanese Using More Milk.

The habit of using milk has greatly increased among the Japanese in recent years, yet the average amount of milk consumed by each Japanese is still far below that of the European or American. The total amount of milk produced in Tokyo Prefecture during the year 1911 was 46,438 koku and the total amount of daily consumption was over 137 koku, which means that each person consumed on an average only 0.1 go a day, which will hardly bear comparison with the four or five go of the average daily consumption per person in Europe or America.

Much Money for Explosives.
In mining and similar operations in the Transvaal of South Africa great quantities of high explosives are used. It is estimated that \$7,000,000 are invested in such explosives every year.

IMPARTING FRAGRANCE TO TEA

Species of Jasmine Flower Used by the Chinese to Give Beverage the Desired Aroma.

It is estimated that the Chinese consume annually five pounds of tea for each member of the population. It grows in small patches around the homesteads, plantations being practically unknown. The leaves are picked by members of the family and dried in the sun, being subsequently handed over to the middlemen, who subject them to the process of firing. In the case of green tea the leaves are roasted almost immediately after they are gathered, and dried off quickly after being rolled into balls by hand and squeezed. There are usually three pickings—early in April, when the leaves are covered with a whitish down (a limited output known as pekoe); toward the middle of May and again in August. Brick tea is made by pressing the damp tea in a mold in the form of a brick, 8 to 12 inches long and about one inch thick. The fragrance of all scented tea is not natural, but imparted by firing the leaf with a sort of jasmine flower, called by the Chinese "mok-lee." In inferior teas the scented flower is strewn over the top of the tea when packed and removed after a day or two. Flowery pekoes are white, velvety tipped teas with no fragrance and are unfermented.

Chief Users of Pig Iron.
About one-third of the world's product of pig iron is accounted for in the United Kingdom, United States and Germany.

Must Vote in Argentina.
A law of the Argentine Republic makes it compulsory for citizens to vote.

FEW POLITICAL JOBS

Less Than One Hundred Real Positions In Florida

NO NEED FOR RUSH ON PIE PLATE

Appointments By President Will Be Scattered Over Four Years

Much has been said by the press, and a great deal more by people who are likely to become candidates for appointment to political positions under President elect Wilson, as to the positions in the state of Florida to be filled. It might be well therefore for the public generally to know just what positions are likely to become vacant during the four years following March 4, 1913, says the Jacksonville Metropolis.

There are in the state of Florida 1,093 postoffices. Of this number there are only seventy-eight presidential offices. That is, first, second and third class offices. This leaves a little over a thousand fourth class offices. These fourth class offices were recently placed under civil service rules and no person therein can be removed except for cause, but even if this were not the case, it goes without saying that from a political standpoint there would be very little desire to have these postmasters replaced by others, for the reason that, most of them are Democrats and always have been, and were ardent supporters of President elect Wilson.

At the seventy-eight presidential postoffices quite a large number of postmasters are already Democrats, those of Fernandina being among this number. Both of them having been recently appointed.

The other political positions to be filled in the state of Florida by the President are not numerous. The following are most important:

Collector of internal revenue, Jacksonville

Collector of customs at Jacksonville, Tampa, Pensacola, Apalachicola, Key West, St. Augustine, Fernandina and a few other less important places.

Registrar of the land office and receiver of public moneys at Gainesville.

United States district judge and United States district attorney for the southern district of Florida in case the incumbents, who have received no interim appointments, should fail of confirmation by the present senate.

The positions of assistant postmaster, postoffice clerks and carriers and deputies in other departments are all under civil service and can only be removed for cause. There will, therefore, be few vacancies in any of these departments.

From the above it is apparent that less than one hundred positions in the state of Florida are to be filled by appointment of the president, and the filling of these will extend over practically the entire term of four years.

Joy Bell.

A deaf woman used to tell this story on herself: At a reunion of Confederate veterans where she was officiating as hostess a man was brought up to her and reintroduced as a Mr. Blank, a former resident of her town, and one whom she had not seen for fifty years. He was so little changed by the touch of time and so free from any of the lines that care and anxiety set upon the face that she presently asked, "Mr. Blank, did you ever marry?" She thought she heard him say, "I married forty-five years ago." What he really said was, "My wife died five years ago." Then she, in view of his free, unabashed of fate look, said, "You don't look much subdued by the experience." Since then it has become her habit to hesitate for a significant second after the first syllable whenever she speaks of her damaged ears.

Ungrateful Brute.

It was a very hot day and a picnic had been arranged by the United Society of Lady Vegetarians.

They were comfortably seated, and waiting for the kettle to boil, when, horror of horrors! a savage bull appeared on the scene.

Immediately a wild rush was made for safety, while the raging creature pounded after one lady who, unfortunately, had a red parasol. By great good fortune she got over the stile before it could reach her. Then, retaining her breath, she turned round.

"Oh, you ungrateful creature!" she exclaimed. "Here have I been a vegetarian all my life. There's gratitude for you!"

Premature Burial.

M. Tholnot, professor of forensic medicine to the Paris Academie de Medicine, has been lecturing upon premature burial, an accident the fear of which is, perhaps, not so prevalent as it was in the days of Edgar Poe. He gave an interesting description of

the many inventions devised for the avoidance of this, including the insertion of a breathing tube in the mouth of the corpse, which is brought through the lid of the coffin and projected from the grave. But he declared that no precaution was so satisfactory as that of delaying the burial until the signs of putrefaction are apparent. The provisions of the code Napoleon, which ordain that no burial shall take place until twenty-four hours after death and inspection by the medical authority of the district, are he said, entirely adequate on this point, and if they are carried out to the full, no one need have any fear of being buried alive.

Homesickness Spills Photographs.

Aunt Maria thought, and so did her relatives in the big city, that the photographer was unpardonably discourteous. For three successive days he refused to take Aunt Maria's photograph. On the fourth day he told why.

"In justice to her," he said, "I do not want to take her pictures now. She is too homesick. Most out-of-town people want to be photographed while in the city. If they are longing for home I put them off with one excuse or another until the homesickness wears off.

"If you want your aunt's pictures to turn out well, just hunt up some one from her home town who happens to be visiting here at present and bring him here so she will meet him unexpectedly. The meeting will put sparkle and animation into her face, and neither she nor I will be disappointed with the photographs."

Finding the Drowned.

Occasionally one reads that, when human bodies are thought to be in rivers and cannot be found, "a loaf of bread has been floated down the stream." But very few people have the least idea what connection there is between bread and the finding of bodies. When the river has been dragged without result, a loaf of bread is cut in two, a piece hollowed out in the middle, and a quantity of quick silver inserted. The two halves of the loaf are then fastened together again, and the bread is thrown into the water in the place where the body is supposed to be. Without fail the loaf floats along until it reaches the vicinity of the body, and then revolves quickly, hovering over the spot.

Peculiar Case of Poisoning.

Metal poisoning from handling copper coins was the curious cause for death recently assigned at West Ham, England. The deceased, age twenty-seven, had been employed to collect coins from penny in the slot gas meters, and his physician testified that the coins were often green with verdigris, which remained on the collector's hands and was absorbed through his habit of curling his mustache with his finger.

POULTRY NOTES

Rape makes a good crop for late green food.

Poultry is extremely profitable if properly handled.

Poultry, fruit and bees form a combination hard to beat.

Frogs have no sense of smell. They have nostrils, but not noses.

A cement floor in the laying pen and roosting closet is advisable.

Don't let lice "get away" with your chicks, while you wonder what ails them.

Keep the males separated from the growing pullets. Both will develop better.

Ducklings generally begin molting when eleven weeks old and continue for about six weeks.

Don't forget that wet and leaky coops do not tend to produce healthy chickens, but early death.

It is a good plan to let all the breeding stock out of the yards to enjoy free range during the summer.

Don't try to breed from poor stock. It takes too long and good stock is cheap enough for you to start right.

Free ranges for the flock greatly simplify the feeding problem, because the fowls can balance their ration, to a large extent, with the food they pick up.

One of His Few Joys.

The printer sets type and sometimes hatches a lot of trouble.

When Not Overdone.

Ordinary hard work is the thing that keeps men alive.

If It's Only a Small Thing.

It is an excellent thing for everybody to learn to do something well.

Today's Winners.

It's the way of the world to show keener interest in the man who is making good, rather than in the man who has made good.

BEST TO AVOID MUSHROOMS

Really Have Little Value as Sustenance and There is Always Danger of Poison.

There are in this country more than one hundred edible species of mushrooms. The popular distinction between mushroom and toadstool is one of name only. Many of the supposedly inferior specimens have proved on careful examination to be harmless, whereas some of those which bear an extremely close family resemblance to favored articles of diet are the carriers of danger in the form of exceedingly powerful poisons. Let him, therefore, who lacks the training requisite for the unfailing detection and identification of species carefully refrain from excursions into a field of uncertainty so fraught with danger.

Mushrooms form an unusually nutritious and sustaining diet. A well-known botanist says that mushrooms might properly be called vegetable meat and used as a substitute for animal food.

It is doubtful, however, if this is true.

The more we learn of mushrooms the more it becomes apparent that they are scarcely different as regards dietary virtues from the general run of the green vegetables which have never achieved the distinction of any unique or superior nutritive properties. They belong rather to that large group of food materials which we consume for reasons quite apart from the body. —Journal of the American Medical Association.

HONEYED WORDS IN TUBES

How the Modern Spanish Swain Finds a Way to Overcome Serious Obstacle.

In Spain, as is well known, a vigorous etiquette governs the business of love-making. A young man cannot interview his sweetheart without her parents' consent, and, indeed, all conversation openly carried on between the couple must be in the presence of the fair one's mother.

Many subterfuges are adopted by the lovers to overcome this difficulty, and the "reja," the ornamental iron-work on the windows of Spanish houses—has become one of the favorite trysting places. Modern life, however, has imposed fresh barriers. If a young man's sweetheart lives on the third floor of a city building he cannot very well meet her at the "reja."

In this, as in other spheres of life, necessity is the mother of invention. London Answers remarks, and some ardent lovers have brought speaking tubes to their assistance. The senorita, at the appointed hour, lowers this to her lover, and they are thus able to carry on their love affairs with the assurance that they are not overheard by the people on the intervening flats, as would be the case if the conversation were carried on without such aid.

The Route.

"Washington seems to have finally made a conquest of that Scadmore girl. Wonder how it all came about." "The first time she saw him she gave him her eye, the next time they met she gave him her arm, it wasn't long before he was holding both of her hands soon after that he won her heart and she lost her head and gave herself to him completely." Judge.

Why Not Try a Hammer?

What a depth of tragedy lies beneath the following heart cry, which rings out in an evening paper: Constant Reader—Can anyone tell me what will certainly remove the glass stopper in a decanter containing whiskey? Several methods have been tried, but the stopper seems absolutely fixed. —London Globe.

Nature Thought.

Alert and healthy natures remember that the sun rose clear. . . . No way of thinking or doing, however ancient, can be trusted without proof.

What is the nature of the luxury which enervates and destroys nations? Are we sure that there is none of it in our own lives?—Thoreau.

Ought to Be Valuable.

Cauliflower is said to contain the largest percentage of phosphorus of any of the common vegetables. If its valuable constituent is in any degree comparable with its pungent odor when being cooked, it is worthy of a place in the front ranks of foodstuffs.

Most Abundant of Substances.

Oxygen constitutes one-third of the solid earth, nine-tenths of water and one-fifth of the atmosphere, and is the most abundant of all substances.

Why Opinions Differ.

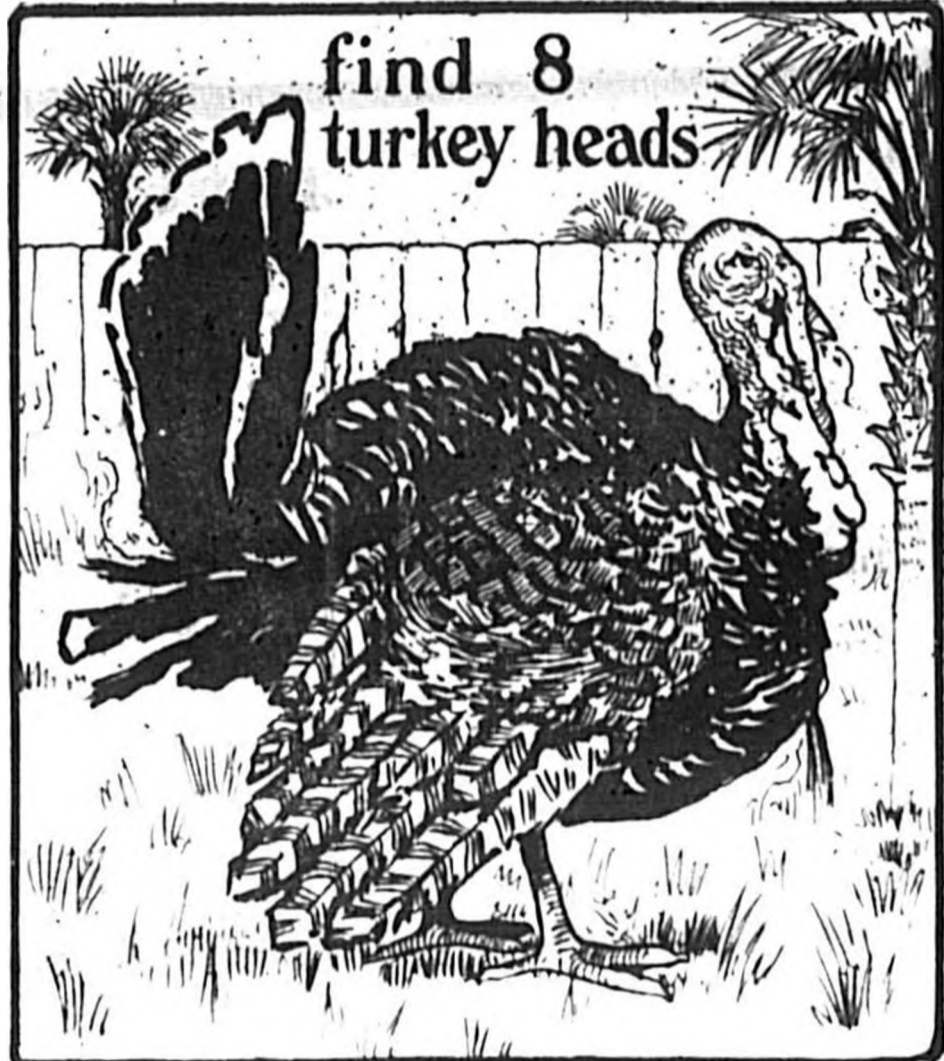

It were not best that we should all think alike; it is difference of opinion that makes horse races.—Pudd'nhead Wilson.

PHILIPPINES HAS TYPHOON

Kills Hundreds Of People In The Archipelago

THREE ISLANDS STORM SWEEP

Steamships Are Sunk, Many Villages Are Destroyed and Devastation Is Overwhelming

Hundreds of lives were lost during a severe typhoon which occurred yesterday in the Philippine Islands. Immense property damage was reported. The storm crossed the islands of Samar Leyte and North Panay, leaving ruin in its path. The town of Tacloban, the capital of Leyte, was practically destroyed. Two steamers were wrecked in Tacloban harbor.

How many persons were killed by falling houses, flying debris and by drowning is not known, but the loss of life is reported to have been great, and the damage is estimated at several million pesos.

Another typhoon of unusual severity is predicted by the weather bureau along the west coast of Mindanao.

It was impossible to obtain a complete list of the dead and injured.

The Wednesday Club

The Wednesday Club held its regular meeting at the home of the secretary, Mrs. S. C. Chase, Wednesday afternoon, with a good attendance of the club and three visitors present.

The program was opened in the usual delightful way, with music. Miss L. Josephine Dameron, accompanied by Mrs. D. L. Thrasher sang two charming selections, "O Dry, These Tears" by Theresa Del Rago, and "Shower Song" by Jessie L. Fratt, which the club enjoyed very much.

The minutes were next read by the secretary, Mrs. Chase, and after a few remarks by the president, relations to Spain and its connection with the club program, Mrs. A. E. Phillips very delightfully lifted the curtain of the past and gave the club some exceedingly interesting and charming glimpses of Castilian character and life in her imitable "Flashlights of Spain of the Sixteenth Century."

Miss Lillie Fuchs, then read a paper of Mrs. F. W. D. Dameron, concerning "Study of Spanish Characters" prepared by Mrs. Dunn.

The "Drill on Spanish Pronunciation" was postponed for a later meeting, when the ladies hope to have Mrs. Forrest Lake, who is conversant with Spanish language give them a few suggestions.

The roll was called by the secretary and a large number of the members responded with Spanish prayers.

The club was very much interested in the report of the convention of the State Federation of the Women's Clubs at West Palm Beach last week, which was given by Mrs. G. B. Waldron, the club's delegate to the convention.

After arranging satisfactory a matter of business brought before the club the meeting adjourned.

Program for December 4th Music. Map Study, Miss Tetherly. Climate and Vegetation, Miss Gould. Animal Life, Miss Farnsworth. Selected Reading. Roll Call, Lakes.

The Sanford Postoffice

From publications and opinions given out it is highly probable that postmasters generally will hold on to the end of their commission. Under this ruling more than three years will have elapsed before a change in the Sanford office can be made. It looks, then, like folly, and is certainly cheeky to be placing or seeking to place bonds on a people for so long a time ahead. The over-anxious and greedy spirit shown ought to condemn the applicant and his cold storage petition.

Turn him down.

CITIZEN.

Bazaar and Supper

The Ladies' Guild of the Episcopal church will hold their annual bazaar and supper, Thursday afternoon and evening, December 6th, 1912, in J. A. Harold's old store on Park avenue, to which the public are cordially invited.

A SANFORD BUSINESS COLLEGE

Well Known Educator Will Open Institution Here This Week

Prof. C. E. Garrett, of the Southern Schools of Correspondence, Atlanta, Ga., is in Sanford for the purpose of opening a business college.

The school will offer thorough instruction in bookkeeping, shorthand, typewriting, penmanship, commercial law, arithmetic, letter writing and business methods.

Experienced teachers will be in charge of each department and only first class bookkeepers and stenographers will be permitted to receive diplomas from the school. The prices are very reasonable and the school should receive the patronage of the people of this section.

For prices or terms call on or address I. E. Garrett, St. Johns Hotel, Sanford, Florida.

Thanksgiving Dance

The boys were hosts at a very delightful Thanksgiving dance given by them Thursday evening at the Sanford House, which was very attractively decorated with handsome palms, green vines, palm branches and red berries, making a lovely color motif of green and red. The rich green of the palms and vines brought out with pleasing effect the bright red berries, with which they were so perfectly blended.

The ladies were charming in their handsome and elegant gowns to which the simplicity of the conventional dress of the entertainers was an effective foil.

A splendid four piece orchestra furnished the beautiful music. At nine o'clock the grand march was led by Mr. and Mrs. DeWittes. The dancing was enjoyed by 1230. Deliberate punch was served during the evening. It was a very pretty and enjoyable dance and the boys, as always, were ideal hosts.

Among the ladies present were Mrs. C. M. Vester, elegantly gowned in black crepe de chene. Mrs. H. I. DeForest, in gray messaline. Mrs. C. O. McLaughlin, in black spangled net. Mrs. O. W. Brady, black crepe de chene. Mrs. B. W. Herndon, white embroidered lace over black messaline. Mrs. Samuel Puleston, black embroidered net over yellow messaline. Mrs. C. G. Butt, pink messaline with pink chiffon overdress. Mrs. Henderson of Daytona, black satin. Mrs. Geo. A. DeWittes, black messaline with grayish trimmings. Miss Irene Brady, white net with pink messaline overdress. Miss Peachey Lefler, blue satin draped with white net. Miss Anne Higgins, yellow messaline with gold bead trimmings. Miss Louise Shepherd, pink messaline with pink chiffon overdress. Miss Linda Lether, blue satin and blue marquisette overdress. Miss Veda Ward, black grenadine over white crepe de chene with lace and cord trimmings. Miss Mabel Bowler, pink messaline draped with pink chiffon. Miss F. E. Hand, yellow messaline with crepe de chene drapery. Miss Rosina Jacobs of Orlando, gold spangled net over green messaline. Miss Hendricks of Daytona, blue satin. Miss Alice Jacobs of Orlando, white messaline with white net overdress. Miss Vorce, blue silk with blue trimmings. Miss Shields of Daytona, white net with pink broadcated velvet.

The gentlemen in attendance were Archie Betts, Clyde Emerson, W. J. Thigpen, George F. Atkins of Daytona, Hal Beardall of Orlando, W. E. Watson, M. L. Raines, B. F. Perkins, J. D. Roberts, F. E. Roumillat, Walter Hibbard, W. A. Lefler.

C. C. Woodruff a Candidate

The announcement in this issue of C. C. Woodruff as alderman will be a surprise to his many friends in this city. This new Richmond in the field, while not a dark horse in the race is a new candidate for municipal honors and as he states in his announcement has never sought public honors before. Mr. Woodruff needs no introduction to Sanford people having been a resident of this city for the past twenty years. He is a well known commission man of business ability, is progressive and public spirited and if elected should make Sanford a first class alderman.

C. C. Woodruff and W. W. Abernathy are the only aspirants in the race.

Miss Irene Brady and Mabel Bowler, accompanied by Messrs. Will Watson and W. J. Thigpen motored to DeLand Thursday afternoon to witness the football game between Gordon Military Institute of Georgia and Stetson.

AGED WOMAN KILLED

Nancy Shortridge Caught On Trestle By Train

CURVED MID WOMAN FROM VIEW

Being Of Advanced Years And Deaf She Did Not Hear The Approaching Train

The A. C. L. train from Sanford to Oviedo, conductor Smith in charge, struck an aged lady named Nancy Shortridge last Wednesday about 3 o'clock and she was instantaneously killed. The accident happened on a stretch of trestle about one half mile from Rutledge and the same distance from the public road. The trestle is hidden by a curve approaching from the Sanford side and the engineer could not see the lady until the train was upon her. She was evidently deaf or entirely oblivious to her surroundings and made no effort to get off the trestle which was only four feet high. The engineer applied the air brakes and did all in his power to stop the train, but could not entirely slacken speed in such a short distance and the pilot of the engine knocked the lady from the track. The train was stopped as soon as possible and the crew rushed back to render aid but when they reached her life was extinct.

The news was telephoned to the city and a coroner's jury impaneled and after viewing the remains and taking testimony gave their verdict.

No blame can be attached to the train crew as the accident could not have been avoided.

The remains were interred in Lakeview cemetery yesterday.

TURKEYS CHEAP IN NEW YORK

American Birds Shipped North Brought 17 Cents Per Pound

New York, Nov. 28. The observance of Thanksgiving Day in New York City began at 1 o'clock this morning. At that hour the Bowery missions' bread line formed for the first time this winter and 500 baskets of food were distributed. Other charitable and philanthropic organizations throughout the city followed suit during the morning hours and it was estimated that more than 60,000 charity dinners were provided for the poor of the city through the various agencies.

The city government spent \$4,500 for a sumptuous repast for the 4,500 prisoners in city institutions and the United States government furnished dollar dinners for its 2,000 guests at Ellis Island.

The big hotels adopted their annual attempt to resurrect as far as possible the historic dinners and customs of the day. One Broadway manager purchasing 7,000 pounds of turkey, the largest order of the kind on record.

According to the downtown market men, greater New York's Thanksgiving dinners cost approximately \$3,750,000, the items including 750,000 turkeys, worth \$1,875,000; 1,700,000 pies worth \$340,000; 300,000 bottles of wine; 600,000 quarts of cranberries; 200,000 plum puddings; 150,000 gallons of cider; 150,000 puddings; 150,000 gallons of cider and \$300,000 worth of vegetables.

For the first time in many years the supply of turkeys exceeded the demand and prices sagged. The best birds were quoted at 20 cents a pound. A huge shipment of live southern turkeys went begging at 17 cents, and cold storage and western birds could be bought at 7 cents a pound.

Army Officer Injured

Sergeant W. P. Dennis, who has been in Orlando for a month or two drilling the local military men, met with a painful accident this week, which cost him the loss of two fingers, and only good luck saved a much more serious accident or instant death.

Mr. Dennis was in his room at the Arcade Hotel shortly after noon and was practicing with his rifle preparatory to the military manoeuvres.

In some unknown way the cartridge in the rifle was exploded, the bullet injuring his left hand to such an extent that at Dr. Evans' sanitarium the physician removed the second and third fingers.

After going through the hand the bullet cut an iron rod in two in the bedstead and was imbedded in the wall.

BUMPED SANFORD LADS

Hillsborough High School Ramped Home With the Bacon

Hillsborough High School 53, Sanford High School 6. That was the result of this morning's football game at the Tampa Bay Athletic grounds and the score practically tells the whole story of the game.

If further particulars are desired it may be stated that the pastime was little more than a workout for our noble athletes, who scored at pleasure and romped all over the prostrate forms of their opponents at their own sweet will. Chief among the aforesaid rompers was Mr. Zimmermann, who carried the ball over for four touchdowns, made a seventy five yard and fifty yard run, besides taking part in a number of minor affairs. Capt. Asp also did his share towards boosting the score, placing the ball twice behind the enemies goal post and Henderson and Sparkman each added one.

Sanford solitary score was made on an intercepted forward pass by Woodruff, who ran through a broken field some forty yards for the touchdown. The kick was at a very difficult angle and the attempt at goal failed.

During the third period Hillsborough was using four substitutes. Spencer, Bushnell, Farror and Ramsdell all being taken out, but as long as the faithful Jimmy was left to do business it appeared to be all that was necessary. Sparkman was taken out early in the game with a cut under the eye, but came back in the fourth period and made his touchdown.

The gentle zephyrs fresh from Greenland's icy mountains, which also took part in the general romping over the field were probably responsible for the poor attendance, which was pitifully small for a holiday.

Following was the line up: Hillsborough Ramsdell, Perry, right end; Conley, right tackle; Farror, Borelev, right guard; Robles, center; Hutton, left guard; Bushnell, Clark, Turner, left tackle; Henderson, left end; Lowery, quarter back; Sparkman, Bushnell, right half back; Asp, captain, fullback; Zimmermann, left half back.

Sanford Woodruff, right end; McLaughlin, right tackle; Merrill, right guard; Gilbert, center; Thurston, left guard; Allen, left tackle; Rough, left end; Herndon, captain, quarterback; Chattanooga, right half back; Rayner, fullback; Fields, right half back.

Referee, Kloss, umpire, Hopkins, timekeepers, Fields and Barrett; head linesman, George Holtsinger. Time of each period, fifteen minutes. Tampa Times.

Thanksgiving Exercises

The children of the first grade in the primary department under the direction of their teachers, Misses Earnsworth and Lefler gave a very interesting exhibition and Thanksgiving exercises Wednesday morning. A piano has recently been purchased for the primary department, and it is the intention of the teachers to have a series of juvenile entertainments by this first grade, for which they will ask a very small admission, for the purpose of raising money for the payments on their piano. The public are cordially invited to come and see how well the children can entertain all who honor them with their presence and interest, as well as help to pay for their piano.

Cameo Bridge Club

Mrs. A. P. Connelly was hostess of the Cameo Bridge Club Wednesday morning. Two tables of bridge were played. Mrs. Robert Newman won the highest score and will have the pleasure of wearing the lovely brooch another week. Mrs. Connelly's guests were Mrs. C. M. Vorce, Mrs. L. P. Hughes, Mrs. C. O. McLaughlin, Mrs. O. W. Brady, Mrs. G. F. Smith, Mrs. B. W. Herndon, Mrs. Robert Newman.

More Phosphate Found

Phosphate has been discovered on the small farm north of St. Petersburg, owned by F. H. Richardson, a local electrical contractor, and he has refused an offer of \$3,000 cash for the eleven acre tract for which he paid \$250 a few years ago. Mr. Richardson has refused to put a price on the property, although urged to do so by a man who has investigated the find. It is said that the phosphate is especially fine and that there is plenty of it in sight.

FOR THE SPECIAL SESSION

Jacksonville Puts Up Dough For Legislators' Expense

TWO DAYS COST A TIDY SUM

Amendment To The City Charter Was Expensive But Worth The Money To City

Tallahassee, Nov. 27.—State Treasurer J. C. Luning has today received from the board of trade of the city of Jacksonville and turned into the general revenue fund of the state treasury the sum of \$7,242.40, being payment in full of every cent of expense which the state incurred for the special session of the Legislature held October 1st to 3rd, to enact amendments to the Jacksonville city charter which would enable that city to acquire municipal docks and terminals.

The Jacksonville board of trade has thus fully and promptly kept its pledge that the special session called at its request should cost the state of Florida nothing.

It is understood that the expenses incurred by several of the counties for holding special elections to fill vacancies in the Legislature will also be fully refunded to the counties by the board of trade.

Walton county has just let the contract for the construction of seventy miles of hard roads.

The first annual meeting of the Woman's Democratic League of Duval county was held in Jacksonville Monday afternoon.

The Tilden packing house at Tildenville is running and the machinery is being turned by juice manufactured at Winter Garden. They do say that it is the prettiest packing house anywhere. Winter Garden Times.

A Miami dispatch says Clifford H. Brown, a business man of this city, committed suicide today by shooting himself three times. Either shot would have proved fatal. Mr. Brown, in a note, gave business reasons as the reason for his rash act. He left a note to his mother and uncle, a will and a statement. He leaves a wife and three children.

The best crop and the best grade of fruit the Flagler grove ever had, they are gathering this season. For pine land fruit the thin skins and bright fruit is hard to beat. Mr. Rowley, the manager of the grove expects to get about 4,000 boxes. Dry racks, washing machines, etc. have been added this season to their packing house equipment. San Mateo Item.

The county commissioners of Walton county have just entered into a contract with the Wetumpka Construction Company of Wetumpka, Ala., to build seventy miles of sandclay roads for that county at \$190 per mile. The work is to be paid for out of the money realized from the bond issue authorized last year. Thus the work of improvement and progress goes on in all sections of Florida.

Money cannot be spent to better purpose in boosting a locality or a section than by putting it into advertising. The people of Miami and vicinity appreciate the truth of this and have gotten together and appointed a committee, which is now at work, for the purpose of raising a fund of \$100,000, which will be expended in making the outside world acquainted with the attractions and advantages of Dade county.

When Mr. and Mrs. William J. Bryan arrived in Miami Saturday they were given a most hearty welcome. They were met at the station by about 1,500 people, and as they stepped from the train the Second Regiment Band played Dixie. A beautifully decorated automobile draped in the national colors conveyed the great Commoner and his wife to their winter home. Several speeches of welcome were made by prominent citizens and the Woman's Club presented Mr. Bryan with a huge bouquet of chrysanthemums.
