JOSEPHUS DANIELS IN STATE FEUD WITH THE GOVERNOR.

(By The Associated Press) RALEIGH, N. C., Aug. 19.—The first open break between Josephus Daniels, former secretary of the navy and Governor Cameron Morrison, occurred today when the governor is called upon in an editorial in the News and Observer, Mr. Daniels' paper here, to "come home and take the helm."

FAMINE STILL RAGES IN VOLGA DISTRICT OF RED RUSSIA.

(By The Associated Press) LONDON, Aug. 19.—Famine still rages in the Volga district of Russia, but there has been a decrease in the cholera epidemic there, says a Moscow correspondent of the Herald.

YEGGMEN HAD PEOPLE SCARED LAST NIGHT

IN AND AROUND TAMPA BY THE THEFT OF AN ACETYLENE TORCH.

Theft of a powerful acetylene torch outfit of the kind that can cut its way through iron or steel much as a knife will cut butter, had the authorities in this city and a number of South Florida counties on "tenterhooks" for thirty-six hours, the tension only being relaxed when news came over the wires from Lake Hamilton in Polk county yesterday, that the outfit had been "captured" there after an unredeemed effort of yeggs to break into the vault of the First National Bank of Lake Hamilton with it.

Their failure to cut their way into the vault by use of the acetylene torch was probably due to the fact that the bank had a modern burglar alarm appliance which was set in motion by contact of the torch with the outer door of the vault. When the bell clanged and the ringing became continuous the robbers fled. None had been captured. They left their burglarizing outfit behind them in making their getaway and it is safely stored in the court house at Bartow, where it will be held until the owners, the Gary Garage, No. 3203 Seventh avenue, this city, can prove their claim to it.—Tampa Tribune.

GENERAL WOOD BE GOVERNOR OF PHILIPPINES

(By The Associated Press) WASHINGTON, Aug. 19.—The administration bill designed to authorize Major General Leonard Wood to become governor general of the Philippines without retiring as an active officer of the army was laid on the table today by the house military committee without a record vote. Committee members were said to have held it would be a dangerous precedent to establish.

LABOR WANTS DELEGATE AT DISARMAMENT.

WASHINGTON, Aug. 19.—A demand by organized labor for representation at the international disarmament conference probably will feature the meeting of the American Federation of Labor executive committee, which opens at Atlantic City, August 22. This prediction is based on: 1. Organized labor asked for representation at the Versailles peace conference, which was refused. 2. Samuel Gompers, president of the Federation, has conferred with President Harding on the disarmament program. 3. The Federation's 1921 Denver convention suggested that the United States take the lead in an international disarmament movement. Organized labor the world over has stood firmly behind every previous disarmament move. The International Federation of Trade Unions before the world war sought to set onfoot an international disarmament movement. 1. Means of giving aid to the Kansas State Federation of Labor in its fight to repeal of the Kansas industrial relations act. 2. A nationwide investigation of public school text books giving false interpretations of economic questions. 3. A joint bill now under consideration in both houses of congress to permit importation of Chinese labor for Hawaiian sugar plantations.

Roumanian Trophy Is Presented

In the presence of Prince Bihesco, minister from Roumania, General Pershing placed in the custody of the National Rifle association the Roumanian trophy won by a team representing the United States army in the interallied games at Paris in 1910. It was presented by Roumania as a testimonial of appreciation of Roumanian officers of courtesies shown them at the interallied competition. Princess Bihesco is shown standing between General Pershing and Prince Bihesco.

DIXIE HIGHWAY TRIP DEFINITELY PLANNED.

(By The Associated Press) JACKSONVILLE, Aug. 19.—Florida's delegation of motorists to the meeting of the Dixie Highway association, at Cincinnati, September 9 and 10, will be divided into two sections which will unite at Macon, Ga., September 6, thence to travel in the "first division" under the lead of Jacksonville, according to information available here. Delegations from the east coast of this state will assemble here in time to leave for Macon on the morning of September 5. The trip will be made by way of Waycross. The parties from the west coast and central Florida will meet in Gainesville, preparatory to leaving on the same date for Macon.

Green Cove Springs is to have a new hotel. It will be ready to open by the first of January with eighty rooms or more.

SHIP BY WATER SLOGAN WILL SOON BE SOUNDED BY CHAMBER OF COMMERCE

Have Been Promised Active Cooperation of Clyde Line

Messrs. Scroble, of the traffic department, and A. G. White, agent at Jacksonville, of the Clyde Line, were dinner guests of the Sanford Chamber of Commerce today and told the members present about the plans of the Clyde Line toward putting on a daily service as soon as the traffic would warrant it and also that the Clyde Line stood willing and ready to help the Sanford Chamber in their ship-by-water campaign to be inaugurated soon. President Knight, after outlining the position taken by the Chamber of Commerce, called upon both Mr. White and Mr. Scroble to state just what the Clyde Line was ready to do in the matter of assistance to the Chamber of Commerce in their fight for cheaper transportation. Mr. White said that the Clyde Line had lost money on the river boat as it went back empty usually as far as freight was concerned and the daily boats would be put on as soon as business picked up sufficiently. Mr. Scroble was also enthusiastic about the campaign and promised to assist in every way. The Sanford Chamber of Commerce intends to wage an active campaign for the Ship-by-Water and by truck and expect to have all the orange shippers and many of the truckers ship all their stuff by water this season thus giving the Clyde Line a nice bit of business for the return trips. The rates and other interesting data will be given in tomorrow's issue and this meeting and the campaign to be put on are only another instance of what the Chamber of Commerce is doing for the merchants and the growers of this section of Florida. PITTSBURGH HAS FINE GRIP ON PENNANT NEW YORK, Aug. 19.—Pittsburgh today had a firm grip on first place in the National League. Winning two games from Philadelphia yesterday while New York lost to Cincinnati. The Pirates now hold a lead of sixty-one points over the Giants. If Pittsburgh does no better than break even in the forty-two games remaining on its schedule, New York must win 26 of its thirty-nine games to tie the Pirates. Give the Puritans a few more active years and there won't be anything left to make good resolutions about. Post cards—local views—1c each at the Herald office.

SENATE TODAY REDUCED AMOUNT FEDERAL AID

FOR GOOD ROADS FROM 100 MILLIONS TO SEVENTY-FIVE MILLIONS

(By The Associated Press) WASHINGTON, Aug. 19.—By a vote of twenty-eight to twenty-two the senate today adopted an amendment to the Federal Aid Road Bill reducing from one hundred million to seventy-five million dollars the amount available for construction in the next year. The senate a few minutes later passed the road bill, one-third of the seventy-five million appropriation would become available immediately.

GOVERNOR OF PUEBLO CALLED TO CAPITOL ON SERIOUS CHARGES.

(By The Associated Press) MEXICO CITY, Aug. 19.—General Jose Sanchez, governor of the State of Pueblo, has been called to Mexico City, according to a newspaper, in connection with a rumor that five men of the city of Pueblo, said to be his political enemies, were shot while endeavoring to escape from the guards.

TWO DEPUTIES KILLED TODAY IN SHINE RAID

NORTH CAROLINA MOONSHINERS GAVE BATTLE TO OFFICERS

(By The Associated Press) MURPHY, N. C., Aug. 19.—Two deputy sheriff's were killed, another seriously wounded in a battle with blockaders at Kesselburg bridge on Nolva river near here last night. Menger details have been received here which said the officers were attempting to arrest the moonshiners when the latter opened fire with rifles. The moonshiners escaped. KLANSMAN MADE PRESIDENT OF LANIER COLLEGE ATLANTA, Aug. 19.—Col. Wm. Simmons, imperial wizard of the Ku Klux Klan, has been made president of Lanier University here. The supposition is it will be operated by the organization, headed by Simmons. Trustees have tendered their resignation, effective to Simmons' discretion. It is understood the Klan will make the school a national university. The university was founded by a Missionary Baptist church charter, limiting the membership of the board of trustees to that church. It is said this will be beaunted. Architects plan new buildings duplicating the homes of Robert E. Lee, George Washington and other famous buildings. ASHURST BOLTS SESSIONS. WASHINGTON, Aug. 19.—Senator Ashurst, democrat, Arizona, announced today that he had refused to participate in further conferences on the anti-beer bill "because of an evident intention on the part of the conferees to weaken and destroy the effect of the Stanley amendment, adopted unanimously by the senate." "Find Choice Rum in Spurgin's Bank"—headline. That makes his fight all the more mysterious and difficult to explain.—Roanoke Times.

CURZON SAYS GOVERNMENT HAS OFFERED ALL THAT CAN BE GIVEN

(By The Associated Press) LONDON, Aug. 19.—The British government, declared Premier Lloyd George today in making its settlement proposals to Ireland had decided on putting the whole of its terms into a letter to DeValera without keeping anything back, and the sequel had proved, he said, it was right in adopting that course. Lord Curzon, secretary for foreign affairs, speaking in the house of Lords today on the Irish negotiation said the government had offered all that could be given without compromising the safety of the realm, sovereignty of the crown and dignity of the empire.

BERGDOLL IS SCARED, FLEES SWITZERLAND

(By The Associated Press) GENEVA, Aug. 19.—Grover Bergdoll, says newspapers here today, arrived in Constance from Munich three days ago and is now stopping at a hotel there. Bergdoll came from Germany to avoid extradition to the United States, newspaper asserts. He has American passport, it adds, and now is perfectly safe from extradition.

BERNE, Aug. 19.—Agents of the American legation here and the Swiss police are unable to locate Grover Bergdoll, the American draft evader who it is reported has fled to Switzerland from Germany.

ROADS MUST CUT RATES OR CARRY FARMERS DOWN.

WASHINGTON, Aug. 19.—Railroads must share with the farmers and others the burden of the present economic situation by reducing freight rates, Secretary of Agriculture Wallace said today, before the Interstate Commerce Commission which is investigating rates on grain and hay. High freight rates practically have stopped production, the secretary said, adding that if the present situation continued production from the farms would be reduced materially. "We cannot afford to let our agriculture be destroyed," he declared. "In attempting to relieve the distress of the farmers, we are dealing with great economic forces. All our people ought to share the burden of the present depression." The farmer now was bearing more than his share of the economic load, power of farm products was below the average of other commodities. He presented figures to show that in Iowa the purchasing power of oats was 48 per cent of what it was from 1900 to 1914. Reductions in freight on the commodities under investigation, especially on hay, the secretary said, would be reflected on a larger volume of traffic and therefore on the greater revenues for the railroads. The prosperity of the railroads he added, depended in a large measure upon the prosperity of the farmers. Many young farmers, purchasing land at high prices during time of abnormal prices were foreclosed when the depression came, the witness pointed out, causing a situation which should be a matter of public concern because of reduced production. In reply to questions by attorneys for the railroads, the secretary said that wheat from Argentina could be laid down at Atlantic ports and in foreign ports at less than the price American raised wheat must bring, under present conditions.

RESIDENCE LOT GIVEN TO BRIDE FRIDAY, AUG. 26

E. A. DOUGLASS HAS DONATED CITY LOT TO WINSOME BRIDE

As a stimulus to the young bride who would brave the vast throng in front of the court house here on Friday night, August 26th and be wedded to the man of her choice and his choice, Hon. E. A. Douglass has given the promised bride a fine lot in Sanford Heights Sub-Division opposite beautiful Rose Court and here it is presumed the happy couple will spend their life amid the scenes of—well, you know.

It takes nerve to agree to being married at a big public outdoor wedding and the prospective bride and groom who come from the most prominent families in Seminole county certainly have the nerve to go through with the public ceremony on the night of August 26th. While the court house steps ought to be as sacred as the home or the church when it is used for a wedding a young bride would certainly feel squeamish about facing such a crowd and going thru with a wedding ceremony but this beautiful society queen has promised to face the music for the benefit of the School Lunch Fund and to make the wedding a success. Bride and groom are deeply interested in school matters and they want the affair to be successful and when called upon to do their part, after much persuasion decided that no sacrifice was too great to make for the school children hence their consent to go through with the wedding.

Aside from the fact that it will be a public wedding in every respect and that the people will have to pay to see it the entire wedding ceremony will probably be one of the most gorgeous in the history of the city as the ranks of society in Sanford and Seminole county have been combed for flower girls, attendants, etc., and the ceremony will be the most elaborate ever witnessed here or elsewhere and will bring many friends and admirers of the bride and groom for many miles around.

Remember the date, Friday night, August 26th.

STRAWBERRY GROWERS WILL HOLD MEETING

OLDSMAR, Aug. 18.—The strawberry growers of this district have been invited to attend the state meeting at which representatives from all of the strawberry districts of Florida will be present. There are many problems confronting the growers this year, including express rates on pony refrigerator boxes for carrying berries to the distant markets. It is considered necessary for the growers to get together and discuss conditions, among themselves, and try to solve some of the problems. R. M. Anderson, manager of the Plant City Growers' Association, has taken the lead in this matter and his plan has been approved by the Oldsmar growers, many of whom will attend the meeting, including J. T. Thompson, W. E. Bolles and F. H. Coleman.

CLEARWATER CLUBS ARE PUSHING DRIVE FOR EARLY CLOSING.

CLEARWATER, August 17.—The water W. C. T. U., a few days ago began a campaign to rearlier closing of the stores on Saturday nights. At present trading is kept up until such a late hour as to seriously interfere with attendance at Sunday school and church on Sundays. The plan as outlined is for the women of Clearwater to make their purchases early in the day, leaving the night trade open for those who get their pay checks Saturday afternoon and emergency cases. The Woman's

Club has joined the W. C. T. U., in the movement and also the Woman's Auxiliary of the American Legion. Merchants and clerks are pleased at the idea and the stores are expected to close under the new arrangements between 9 and 10 o'clock Saturday nights. All other days they close at 6 o'clock except Thursday when they close at noon.

CROP PROSPECTS THROUGHOUT STATE VERY SATISFACTORY.

GAINESVILLE, Aug. 16.—Crop prospects in Florida are reported as generally satisfactory by the Federal Bureau of Crop Estimates in its weekly review of crop conditions in this state for the week ending Saturday.

Harvesting of corn has started on a small scale from early plantings, the review said. Cotton is getting too much rain and opening slow. Prospects continue favorable for rice.

Planting of sweet potatoes is about finished. Yields from early plantings is described as fair to good. Rains are interfering with the harvesting of hay, according to the Bureau. Late crops are said to be good.

Condition of citrus fruits is improving, the bureau says, except on the lower east coast where rain is needed badly.

Condition of hogs is reported good and that of cattle better than usual. Truckers are busy preparing seed beds and the land, according to the review. Seed beds are extensive in anticipation of improved acreages.

EAST SANFORD

Mr. and Mrs. J. E. Worthington, were guests at the Ellsworth home on Beardall avenue Monday. Mr. and Mrs. Worthington were enroute to their home in Lake Wales, after being in DeLand and Daytona at the Florida dailies association meeting Saturday and Sunday. Mr. Worthington is owner and editor of the Lake Wales Highlander.

Mr. and Mrs. Ashley Purvis are at Green Springs to remain for some time. Mrs. Purvis has been very ill with rheumatism and is taking the baths at the springs in hopes of benefit. They will visit in Tampa before returning home.

Mrs. Stiles, Mrs. McMahon and little folks were guests from town Sunday at the Zernovian home.

East Sanford mail man, F. L. Green, is having his mid-year vacation and C. J. Cranston, from the west side, is substituting for him.

Mr. and Mrs. R. L. Dorton from near Charlotte, N. C., are new comers here. They are living on one of the Joe Cameron farms. There are three interesting children, Margie, Eunice and Ned.

Mr. and Mrs. Fred Cowan, Sr., and two little girls, are at home from a two months' visit in Blairesville, Ga.

Mrs. W. W. Dresser and children reached Watertown, N. Y., safely and found her mother, Mrs. Paige, very ill without much chance of recovery, as she is 89 years old and has not been in good health for some time.

Word comes from Zelma, Mo., that Leoti, wife of Charles Kink, died very suddenly on August 5th. Mr. and Mrs. King were quite well known here, having lived here about two years. Mr. King was here some months ago and bought the J. R. Hayden place on Beardall avenue, and they were expecting to come here soon to reside. Mr. King has the sympathy of many friends here.

Payton Fortson died Monday at the home of his brother at Beck Hammock. Mr. Fortson came here a short time ago from Brunswick, Ga., his wife reached here a short time before he passed away. Besides his wife there are two children and several other relatives to mourn his passing on. They have the sympathy of every one.

Senate Committee Asked to Establish Protective Tariff

WASHINGTON, Aug. 18.—Tariff rates which would equalize American and foreign production costs and legislation to aid in the establishment of an American dye industry were urged before the senate finance committee today by representatives of the North Carolina division of Southern Tariff Association. They also asked that the embargo in the emergency tariff law against dye importations be continued.

Those appearing included E. P. Wharton and A. B. High of Greensboro, N. C., and J. A. Arnold, of Fort Worth, Texas, secretary of the Southern Tariff Association and Chairman Penrose assured them the committee was glad they had come for it "cheers us up to know that the South has grasped the benefits to come from a protective tariff program."

Proposed duties on vegetable oil, and fats was the basis around which much of the day's discussion centered. Users of the oils protested against high rates, declaring there was an exportable surplus of the commodities in this country. Dairy interests joined with some of the oil producers, on the other hand, in urging the tariff, declaring that their business was being run at a loss. The dairy industry continually feels the competition of butter substitutes. A. M. Loomis, secretary of the dairy union, said in asking for schedules of rates which some members of the committee declared would amount to an embargo when based on American valuation.

Chairman Penrose announced during the day that the committee would continue consideration of the tariff bill through next week regardless of passage by the house of the tax bill, scheduled for Saturday. Whether the tax bill would precede the tariff on the floor of the senate, he added, had not been determined.

STAY AT HOME CLUB.

About fifteen couples attended the Stay at Home Club meeting at the home of Frank Brown on Banana Lake last night and after a swim in the lake and a fine luncheon of fried chicken and all that goes with it they adjourned to the house and danced for awhile. They also enjoyed the beautiful moonlight on Banana Lake while sitting on the dock before returning home. The evening was a most pleasant one and the party returned to town imbued with the idea that the Stay at Homes always have a good time at their meetings held twice each month and not even the hot weather prevents their meetings. The next meeting will probably be held at Palm Springs.

COMPANY D, OF SANFORD, ALL RIGHT

BOYS ARE MAKING FINE RECORD AT JACKSONVILLE

Jacksonville, Fla., Aug. 19, 1921.

Mr. Holly, Dear Sir:

As camp is about over and the men are all up in the air about getting back home again, things begin to look worth while. Every man that has been on duty has done his very best to show that Sanford is not only a business town but that there is good material in the men that represent it as soldier boys, as last night the men for the first time mounted guard on the big parade grounds, knowing that all eyes were on them. They done better than the best, for there has been some sorry guards put on up till late and our boys made up their minds that they would show the camp that this company is just a full length of the field ahead of the others. The commandant of the camp congratulated the men on their wonderful appearance and also on the marked improvement over the others on mounting guard. His approval being passed on has led to the talk in general that our men will lead the guard on governor's day parade. This is indeed an honor to the company as every unit in camp have done their best to make this guard mount and as it is evident our men are showing up fine.

There will be at least five or six men remain here to duty in the gun pits for the record shooting match that will be held next week on the big range. The following will remain: Corporals M. D. Tarbell, J. T. Brady, S. P. Dutton, G. F. Baker and Privates E. C. Woodcock, W. Sears, R. A. Terhuen, Jr. These men will be telephone men and target scorers.

Ralph Wight, of the Wight Tire Co., will have a few things to tell when he gets back to the home town as Ralph was present at the guard mount tonight and saw a little of the army life. Ralph doesn't need any primers on that score though as he is an ex-service man himself. We sure were glad to see Ralph as it was something new to see some one that we could talk to for a few minutes about the little old town that is famous not only for celery but for the snappiest bunch of soldiers that have been to this camp in a long time, and we say three cheers for Ralph and the home town. Let's go!

There will be a clean up squad that will tour the state to take care of the disabled men of the world war, who have not had the proper medical attention. This squad will be in Orlando on or about the 15th and 19th of September to take care of disabled veterans from Orange, Osceola and Seminole counties. All men interested get together and meet this squad that will do all they can to assist in the adjustment of claims made to them in the quickest and surest manner that it can be looked after. Bring all your service papers and all papers that will be of any service to this squad, and if they have filed a claim or do so while there, their meals, lodgings and return transportation will be furnished them. Post this in the American Legion Hall and any other place where it will be available to the men that are looking for such information, and now buddies let's get together and get what is coming to us. This means that there is a chance for the fellow that is down and is trying to get up. So Uncle Sam means well to all of you after all. Step out and get your bit.

Well, there's more fun than chasing moonshiners if you step out and look for it. If you can't get any, down there come on up to camp for one day and look over some of the stock that is here on exhibition, as there is plenty of sport and enough to spare in this line up in this company alone. Sgt. Mero steps out with a pair of Mississippi marbles and takes the rubber bath tub away with him. Sgt. Roy Chittenden was there for a time with the colored dominos till Percy heard of a new way to gallop them over the boards and now he has them all writing home to ma and pa for the necessary cash to see them through. Boys he's there. Those African golf balls can ramble into a fit and hold it till Percy says the word to stand to attention and they drop over in a dead position with a big seven on the front. Percy has a taking way that makes them all squawk and look to the floor to see the next position of the spotted Oulfa blocks. He steps out and does a toddle to the tune of Dixie and says some thing in a new language and there you are, 11 right, shoot it all.

Sgt. Egan is on the war path for a razorback and is not satisfied with letting them alone even in camp, as the boys have to eat, the sergeant looks over everything that has a morsel on it that would look good in the pan. If anyone has been missing chickens in Sanford the sergeant might enlighten them to their whereabouts on a cross explanation.

Bugler Musson has sure put the old pop into the calls around camp and he is no small town guy on the bugle

either as he can blow any call that they ask with the pop of a regular army man's ambish. He's there, we say, 'at a boy Musson, you toll 'em bugle you make 'em answer your calls.

In conclusion we might add that Chas. H. McCann will be in charge of the clean-up squad and he will be glad to answer and attend to any complaints that the boys may care to put before him. Hurrah for Mr. McCann we say and good old Uncle Sam.

We almost overlooked the fact that Sgt. Don Whitcomb is the boy on supplies. As we are leading in that branch for efficiency, Don has sure got a lot to do but he has time to write a letter a day just the same and as it is a well known fact that Don is to slip into the matrimonial harness this fall we feel that it is a fair duty to Don not to work him too hard as he is trying to keep his clothes clean and look nice for the coming event. It won't be a military affair as Don is through with the army rations but we are not so sure that Eagan won't try to get a job in the family and put Don back on the old rations and make him at least feel at home as a forword to the lady-to-be we might suggest that he have corned beef three times a day and a couple of pine boards to sleep on.

MENNONITES GOING TO MEXICO TO SETTLE.

The colony of Mennonites in Saskatchewan, Canada, which originally planned to settle in the southern part of Florida, is to locate in Durango, and Chihuahua, Mexico, according to the Chihuahua Times, an English newspaper of Chihuahua City, received in Jacksonville.

The religious sect numbers 200,000 people and efforts are being made, the newspaper says, by the Mexican Central railway, to route them through El Paso, Texas, on account of the freight congestion at Laredo and other points. The Mexican Central is to give the Mennonites free transportation from the border to their new homes.

From the Canadian border to all other Texas points the railroad rate is \$4.25 less than to El Paso, but an attempt is being made to equalize the rates.

Plans for the Mennonites to come to Florida were changed after a protest made by the American Legion.

BANKER ASSOCIATION TO ISSUE 30 MILLIONS IN "FARM AID" BONDS.

CHICAGO, Aug. 19.—An issue of \$30,000,000 worth of 5-1-2 per cent bonds is to be floated at once as a result of action taken here at a meeting of the American Association of Joint Stock Land banks yesterday. The proceeds will be loaned to farmers to help ease the tight financial situation now prevailing in many rural communities. This issue with others to be floated before December 1, will make a total of about \$150,000,000 loaned to farmers by banks this year, reports of the association say.

New Solution of an Old Problem

All transactions in a retail grocery business are divided into three groups, requiring three kinds of service. First, charge and delivery, this transaction is the most expensive both for the merchant and the customer, requiring as it does, telephone, bookkeeper, gas and upkeep of the truck. Second, is the customer who comes to the store, has his merchandise charged but carries his goods home with him, eliminating a part of the expense: Third, is the customer who pays cash and carries his goods home with him, thus eliminating all expense of charge and delivery.

It is self-evident that there should be some distinction between the three classes of service. Recognizing this fact I have adopted the following plan without changing prices:

FIRST:

All goods priced on a charge and delivery basis.

SECOND:

Customers charging goods but delivering same will be discounted 2%.

THIRD:

Customers paying cash for goods and delivering same will be discounted 5%.

KINFOLKS NUMEROUS IN GEORGIA COUNTY.

STATESBORO, Ga., Aug. 19.—When the case of Ed Lane, Tom Johnson and Dora Williams, charged with kidnapping a 13-year-old girl, who, it is alleged, was later assaulted by the men, was called for trial and an unusual situation arose.

A fun had been raised to prosecute the defendants. The judge ruled that every one related to the contributors was disqualified to sit as a juror. Judge H. B. Strange was himself disqualified because a kinsman had contributed to the fund.

Judge W. W. Sheppard of the Atlantic circuit is to try the case when a jury is secured. Only 134 men of a jury list of 700 could be found eligible for the jury duties. They have been subpoenaed to appear today.

RECEIVES BRUTAL BITE ON CHEEK

Bill Simpkins, a substantial farmer living in South Georgia, near the Florida line, was brutally bitten on the cheek last Saturday night by an anopheles mosquito. This bite inflamed one side of his face and almost closed one of his eyes. The mosquito was not overtaken until next day when it was found resting quietly on the bed post. A barrage of Torment was shot into him and he fell lifeless on the floor. Torment does not bluff, frighten or scare them; it kills them and does it now. Bill Simpkins says he wants a barrel of it. Won't ever keep house without it. Sold by all merchants.—Advt.

WEST PALM BEACH.—Wireless communication throughout the Everglades is not beyond the realm of practicability, according to Judge Rufus M. Robles, of this city, who in an interview in the South Florida Developer, points out how citizens of that section could install amateur wireless sets at a virtually nominal cost. The citizens have been urged to give the question consideration with a view to discussing it at the various community councils. The

federal department of agriculture, has been requested to establish a wireless station in this section for the purpose of expediting weather bulletins to agriculturists. Several such stations are now in operation by the department, it is set forth. Judge Robles has been an amateur operator for several years and says he has been able to communicate with operators throughout the country by means of his apparatus.

ALEXANDER NEARING END OF HIS CAREER

Explanation of Great Flinger's Failure to Shine.

Worked Too Hard in Endeavor to Win Opening Game From St. Louis Cardinals—Case of Nap Rucker is Recalled.

Grover Cleveland Alexander, the great right-hander of the Cubs, may be near the end of his rope. It has been published in the East how Alexander had his arm injured by a spectator bumping into the arm as Alex was pulling back to deliver the ball in his warm-up before the opening game on April 13, but those familiar with his case offer another explanation of Alex's failure to shine this year as he did last, when he won ten straight early in the campaign.

The explanation is that Alexander was all to the good on the opening day, or thought he was, and injured himself by trying too hard. He had not won an opening game for three years, which was rather a sore subject with him.

It was after losing the opener last year that he went ahead and won the ten straight. He made it a matter of professional ethics with himself to win the opener this season from the St. Louis Cardinals in St. Louis on the first day of the campaign.

Those who saw the game say Alex whistled the ball to the plate with every ounce of strength he possessed for seven innings, or until something went wrong with his arm and he had to retire. Alex Freeman finished for him, and Chicago won, 5 to 2, but it was a costly victory.

Alexander started again when the Cubs reached Philadelphia and, while

Grover Cleveland Alexander.

the Cubs won and he got credit for the winning, he did not finish, Freeman again finished for him.

Warm weather and careful treatment of the arm may bring Alexander around to his old form, but then they may not.

The fans who remember how suddenly Nap Rucker went on the shelf, and from a big winner in many games he dropped to occasional appearances for a few innings, will have to be shown that a pitcher who has been starring as Alex has since he went to the Phillies from Syracuse in 1911, and won 28 and lost 13 that year, is able to come back after injuring his wing.

GIBSON SAYS HE HAS GOOD FIGHTING TEAM

Pirate Leader Thinks It Is Jinx to Make Predictions.

Not Claiming Any Pennants, but Has Hope of Winning Out—Right Now It Looks Like Giants Are Ones They Have to Beat.

In discussing the chances of his team to win the National league pennant Manager George Gibson of the Pittsburgh Pirates said the other day that his players never knew when they were beaten.

"I've never won any pennants and I never make predictions. Think it's a jinx," Gibson continued. "I'm not claiming any pennant now. All we have is hope, and I think a good chance. If everything goes well with us maybe we'll be in there battling for the world's championship next October. I hope so."

"My ball club has been going mighty good. It's a good road club and it has been playing bang-up ball at home. If we can do as well on this trip East as we did the first time we ought to be pretty well fixed to hold our own. Of course, a lot depends on the pitchers. Our young pitchers, like Gilzner and Yellowhorse, have been doing fine. The rest of the twirlers have done their share and 'Rabbit' Maranville has been a great help. But the pitching is all important. It'll have a big lot to do with whether we finally land."

"Looks like the Giants are the ones Pittsburgh will have to beat out," it was suggested to Gibson.

"Right now it looks that way," he replied; "but you can't tell. Look what the Braves did in 1914. And

Manager George Gibson.

say, there's a ball club down in the second division that don't belong there. That's the Reds. They've beaten us six times, more than any other club. If Moran only had some pitching, he wouldn't be in seventh place.

"McGraw, of course, can generally be depended on to give everybody a battle. He has a good club, and as long as he has a good club he will be up there fighting."

Gibson added that the schedule suits him fine. "The Pirates will practically finish the season playing a month at Forbes field, and if they are still ending the league at that stage of the race they will be as easy to stop as a runaway freight train in the Rocky mountains."

PALATKA.—Palatka's community voice will henceforth be known as the Chamber of Commerce, as a result of action taken at a recent meeting of business men when it was decided to abandon the name "Business Men's Association." New by-laws were adopted and the initiation fee reduced from \$25 to \$10, and the annual membership dues lowered from \$30 to \$12. Under the new plan the organization will divide its membership into two classes, the active and inactive. The latter will serve primarily towards financing the organization. A secretary will be employed to devote his entire time to the organization. It was also decided that fewer meetings of the body should be called in the future and to this end the board of governors was vested with broader powers.

That Lakeland banker who gave bananas to all the widows and children down there yesterday must be a regular guy.

We understand the Ku Klux were riding last night in Sanford. Well, there are several things they can regulate in this city and county.

Man named John Dies in Massachusetts jail charged with assault is threatened by mob. They evidently want to make him true to name.

Grover Cleveland Bergdoll, the draft dodger, is writing a book in Germany about his escape from this country. If he will only come back to America, we will write his obituary with great pleasure.

Twelve thousand Ku Klux Klansmen in Chicago saw 2,000 more initiated one night this week and yet they say it is a southern proposition but the north seems to need it as well as the south.

The order has gone out in Sing Sing prison that those who have silk shirts can wear them. If we were in Sing Sing it is doubtful if we would worry much about silk shirts. Anyhow, they are going out of fashion.

Orlando is making arrangements to buy the private owned waterworks, gas and electric lights and maybe the ice factory. This is certainly a step in the right direction and the only way to get cheap rates and lower taxation.

The War Department has "discovered" a company of American soldiers in Cuba sent there during the Spanish-American war and never recalled. They were probably bound hand and foot with red tape and could not leave.

The Fernald-Laughton Hospital rendered a good report for the nineteen months operation at their meeting the other night and if all the members of the association would take an interest in the hospital for the ensuing year, we could have even better results.

The probation officer of Tampa says that the woman's clubs have not been active enough in juvenile affairs and in helping to keep the children off the streets and out of trouble. Our Woman's Club here has always been active in juvenile affairs and just now in the middle of the summer and hot weather are putting on a big affair for the benefit of the kiddies' hot lunches at school.

The city commissioners do not have anything to do with the selling of ice in this city but they could demand that the present company selling ice from the wagons should give full weight. It is all right to say that the drivers are instructed to give full weight but they do not give it and no housewife wants to chew the rag for an hour with the driver of the ice wagon over the short weight.

That fashionable wedding that will take place in front of the court house next Friday night has the people all agog over the event, and many conjectures are being made as to who the bride and groom will be, and the Herald office has been besieged by inquiries. We know, of course, but cannot tell. Be there promptly, and you will witness the ceremony, and then you will know.

The State Road Department say they will only start real roads across the State now and stay on the job until they are finished. This is the right kind of work, and at this rate, we suppose that the roads coming this way will be finished after we are all dead and gone. For some reason or other, the State Road Department has never seen fit to even gaze at Sanford except when Forest Lake was chairman.

The subscription list of the Sanford Herald is growing in both the Daily and Weekly. It demonstrates that staying on the job and giving the people what they want will win in the end. The Herald will get bigger and better every week and we intend to give the people a daily this winter that will be as good as any in the state for the size of the place. All we want is the same good support that we have been receiving for the newspaper winter and summer.

If the party who mailed a letter yesterday to the DeLand Daily News office, with the intention of pulling a hoax on a popular young man and woman of DeLand, will call at the News office, we will tell him or her something that may keep him or her out of United States penitentiary a little later. There is a law imposing a severe penalty for the furnishing of absolute misstatements to newspapers—and there is also a law against the use of the mails for such purposes.—DeLand News.

The newspapers of Florida, daily and weekly, spend more money in boosting and helping to develop their home city and county than all other interests combined, and many of them do much more than is warranted by the advertising patronage accorded to them.—Times-Union. And in many instances the advertising accorded is contributed as an act of charity rather than an investment, for there are a few merchants to be found in every community who are so antiquated in their methods of doing business that they have not awakened to the fact that advertising is a business proposition.—Eustis Lake Region.

We are just crazy about those post cards coming in every day, showing snow-capped mountains and people wading around in the snow and all of that stuff, and a few lines below saying, "How we wish you were here." That's a darn lie. They don't wish anything of the kind. If they wanted us up there they would send the railroad fare or buy us a car or even give us some business when they are home so we could make enough money to go as far as Enterprise for an hour's vacation. A fellow the other day sent us a card from France showing the people sitting in front of those dandy little cafes on the sidewalk and drinking vin rouge, (which means red ink), and he said, "you know" and just for that, if he ever comes back to America, we will have him pinched for noble contendere or habeas corpus or something as bad that will give him at least twenty years in the pen and then he can send us a card from "there" and say, "how I wish you were here."

TENTS WHILE HOUSES ARE SCARCE.
 This time last year an auto camp was a novelty. As soon as the tourist season was well under way every city, town and hamlet in Florida boasted of its free auto camp. As the season went on, the boasts died down, and the next thing we knew St. Petersburg spoke up and called its camp a menace to public health. Many of the towns are now seriously trying to decide whether to have a camp this year.
 Lakeland has an auto camp, though it was not established by the city. Already tourists are enjoying its privileges, and we have heard no protests against it. It is true that some campers here, as elsewhere, have been careless and selfish, and that some have been "hogfish" or have misunderstood the intent of the founders, which was to provide a camping place for motoring transients.
 However, the fact that stares us in the face is that there is a shortage of rooms in Lakeland during the tourist season. The people who stay at the camp, speaking of the number, are people who could not get rooms if they tried. In other words, without the camp, many tourists would have no chance to get acquainted with the attractions of Lakeland.
 When we can house our tourists through the busy season, we can discuss dispensing with the tourist camp. In the meantime, we may consider the matter settled so far as this city is concerned.—Lakeland Telegram.

The Leesburg Commercial says that "W. A. Marsh, a winter resident of Tavarees, is now in the East perfecting plans for the establishment at some point in Lake county a plant, which will employ forty to fifty people, to make parts for a battery temperature controller." The Commercial gives an interesting description of the invention and speaks somewhat of the inventor, and later declares that the company which will make the parts will have a factory somewhere in Lake county and is not offering stock for sale.

FLORIDA MATERIAL FOR STATE ROADS.

The Tribune notices, with approval, the apparent movement everywhere to minimize the cost of excessive freight charges by using material as near home as possible. There is a great difference between doing this and demanding that a community shall use nothing but what is manufactured there. For instance, the Tribune might look over the news and book stands of Tampa and finding a large number of popular papers and magazines from other cities being sold, might ask the board of trade, the Rotary and the Kiwanis clubs to resolve that no papers or magazines save those made in Tampa be bought by Tampa men and women. Tastes differ. Not every man and woman in Tampa, even, may be satisfied, or suited, by the papers and magazines made in Tampa. They have a right to buy what suits them, regardless of where it is made. But the great majority of Tampanians, men and women, will buy their home papers and magazines first, because of their worth, second, because of the patriotism and loyalty that is in the people.

The freight on road material and on building materials is exorbitant. The man who sells the sand for building a Tampa church now in process of construction says he pays fifty cents a ton for the sand in Marion county, and more than three times that a ton to the railroads to haul it to Tampa.

Counting the freight on the brick from Birmingham or Augusta the state highway department announces it will cost \$40,000 a mile to build the road of brick between Jacksonville and Lake City. Entirely too much! It is the freight charges that runs it up. Because of this condition which confronts the department—a condition which requires two dollars for freight to every dollar for material f. o. b. the point of purchase—the department is seeking permission from the federal government to use material which is abundant in this state, and thus save the expensive freight haul of brick and other road material brought from a distance. The federal government is invoked because it has appropriated a large sum of federal money for the building of these state roads in connection with the states.

From every standpoint it would appear that the answer of the federal government must be "Certainly; buy where you can get it the cheapest."
 If Hillsborough county had been forced to pay rail freight rates on all the Tampa manufactured road paving block it has used in its fine roads, Hillsborough county would have fewer miles than it has by more than half. It was through the ability of this county to get its road paving material at home and without paying the railroads the high transportation cost for moving it, that this county today stands with more miles of completed roads to its credit for the money than any other county in the South.

Properly made and laid, there is no better paving material for Florida roads than the material made from the raw ingredients shipped here by schooner and steamer in bulk, and made into the finished product, in Tampa, and in other parts of the state.
 The secret of Florida's keeping ahead in the road building program from now on will lie in Florida using its own road material, and in Florida making its own paving surface as near to the place where it is to be laid as possible. The advance in rail rates coming, means a heavy toll to be taken from the road building funds of state and federal government for this state. It behooves Florida's state highway department to buy material at home, and to use home made material as much as possible.—Tampa Tribune.

SOONER OR LATER—WHY NOT NOW?

How about Florida in the summer time?
 Thousands will tell you that Florida is a glorious place to live all the year around.
 Others will tell you it is hot and a good place to be away from during the summer months.
 There is only one way to prove the proposition, which is discussed pro and con—stay a summer and try it!
 Surely it will not kill you. No one ever dies from sun strokes in Florida. No one ever gets sun struck. In fact, it is seldom that anyone ever dies at all in Florida—so it seems.
 So, after assuring you that you can live through the summer in the semi-tropics, perhaps you will try it.
 That is all, dear one. Try a summer. You'll stay another and another and—Oh! but we said that is all, dear one.—Tourist News.

POST CARDS AT THE HERALD OFFICE
 CLEARWATER.—To ascertain whether the pelican is a destroyer of food fish T. Gilbert Pearson has just completed an examination of all pelican nests between Tampa and Key West. Pearson reports that he found 3,371 fish in the nests and that of this total only 28 were edible, the most valuable of which were eight mullet. He declares the decrease in fish along the Gulf coast is due to the destructive methods of Florida commercial fishermen.

BLOUNTSTOWN.—The case of the yacht, Curlew, of New Orleans, and her cargo of liquor, seized near Port St. Joe a month ago when the vessel en route from the Bahamas to New Orleans sought shelter after being battered by rough weather in the gulf, is closed, so far as the yacht and liquor are concerned. Sheriff Clark, of Calhoun county, after there was no more use for the liquor as evidence, has poured the intoxicants into the ditches about the jail yard here and the Curlew was sold last week to persons from Apalachicola.

REAL BOAT BUSINESS FOR MOUNT DORA.

A boat building and renting industry of the highest class is assured for Mount Dora this season, with the arrival of Mr. and Mrs. R. A. Slocum of Rochester, N. Y., who reached here last Tuesday and are domiciled in the J. S. Morgan apartment on Fourth avenue for the season.

Mr. Slocum has a thorough knowledge of all things nautical, he comes from a family of high class boat builders and has traveled extensively on the water, having made a number of trips around the world and had interesting experience. For several years he has held an important position with the Eastman Kodak Co., but is anxious to be more in the open than his work with them permitted. In coming here he expects to carry on a high class business in boats, not only building boats of different kind for sale, but also keeping boats of all kinds for rent. He will probably take over the City of Mt. Dora, which will insure its being handled in the best manner. Mr. and Mrs. Slocum will be an addition socially, as well as in business, for they are very delightful people. The yacht club will be the gainer, for Mr. Slocum is already planning to help make a good season there. He will personally train the war canoe teams and others, for entrance in racing events at next season's regatta.—Mt. Dora Topics.

TRADE EXTENSION CHAMBER OF COMMERCE CITY OF SANFORD.

Yes, have Osceola, Little Sister, come to see us. But first, let us put our own house in due order for the reception. Your fellow citizens approve of and are ever ready to lend a helping hand to Trade Extension, but not to TRADE EXTINCTION. Gentlemen, Chamber of Commerce, City Commissioners, City Manager, do get busy; make it your first move to close the gap on Sanford avenue from Fifth to Tenth streets, completing the city's system of brick roads, healing a grievous wound that has done on diverting trade and values for eleven years and more, and, in thus doing, practice what you preach. Yours to help, C. H. LEFFLER.

TROOPS RUSHED TO SMASH SMUGGLING RING IN MICHIGAN.

DETROIT, Mich., Aug. 16.—Every available state trooper, deputy sheriff and policeman in Macomb county was today swung into the border defense against the liquor flood pouring in from Canada. The river front near Detroit fairly bristles with guns, and more troops, drawn from all over Michigan, are being rushed to smash the smuggling ring. Armored motor boats patrol the river, while armed forces capable of repelling an actual invasion by a hostile army, line the American shore. State and federal authorities are determined to stop the traffic in liquor, which was given fresh impetus by the decision of a Canadian court that liquor exportation to the United States is legal. "Exportation may be legal, but there will be no importation as long as we have a man left to fight," state safety department officials said. Checked at this point by troopers, liquor smugglers are spreading out, shipping boat loads of beer down the river as far as Toledo and up to Port Huron, mushrooming their activities as the defense stiffens. Along the American shore the defending lines are being lengthened to meet this move.

TALLAHASSEE.—Lightning recently wrought havoc to a herd of cows at the dairy farm of George Lamb, four miles from here. The cows, thirty in number, had been electrical storm came up shortly afterwards, nine of them huddled together beneath a large oak tree. A bolt of lightning hit the tree and killed the nine cows instantly. The monetary loss was placed at approximately \$1,000.
