ESTADOS UNIDOS

The increase of population during the 1970-80 decade has made the United States the seventh largest Hispanic nation in the world. Of the major groups within the Hispanic community, the Mexican increased most rapidly, accounting for almost 60 percent of the Hispanic total in the 1980 census. While the greatest Hispanic concentrations are in a few states — Texas, California and New York — there is noticeably increased mobility with Midwestern states now counting large resident populations. See story, Page 5A.

Tax Protest

Board To Rule Tonight On Appeals By 300 Seminole Property Owners

The month-long work of the Seminole County Property Appraiser Adjustment Board will end tonight when the board rules on 300 appeals filed in the county.

The board will receive recommendations from special masters, arbitrators who have expertise in tax appraisal cases, and will make their rulings based on the recommendations.

"It's easier for the board," Property Appraiser Bill Suber said today. "They're not vested with the expertise."

Suber said the board hired three special masters to hear the appeals. "They hear the evidence, make a recommendation and then the board can either accept the claim of our office or the recommendation of the special master," Suber said.

He added that the board could choose to set a rate of its own but he doubts whether the board will do that.

Suber said this year's crop of appeals is "larger

than normal but small for a year in which a county-wide reappraisal has been made."

Suber's office reappraised all property in the county earlier this year and while the tax rates approved by county commissioners and school board members went down, the actual amount of tax levied went up.

Number of complaints larger than usual, but fewer than expected after reappraisals.

Appraiser Suber

He said "most of the appeals are from homeowners who do not agree with the reappraisal. "Because of the residential make-up of our community, most of the appeals are for residential property," he said. "But with the shift of tax burden to commercial property we've got a growing

number of those people appealing."

Suber said other appeals were made by people who disagreed with the tax classification they were given.

He cited as an example developer Norman A. Rossman who has appealed the assessment of property which he claims is agricultural but Suber has based the assessment on the property value.

Rossman has asked that a 780-acre parcel in Oviedo, a 20-acre parcel in Altamonte Springs and a 164-acre parcel near Hidden Lake near Sanford be taxed as agricultural property.

Rossman paid \$2.2 million for the Oviedo property in 1981 and the tax bill on the market value is \$25,090. With an agricultural exemption, the tax bill on the property would be \$1,690.

The Altamonte Springs property cost Rossman \$500,000 in 1980 and the property is not zoned for agricultural use.

The Hidden Lake property cost Rossman \$480,000 and is zoned for multi-family and single-family homes.

Police Have 2 Murder Suspects

By TENI YARBOROUGH
Herald Staff Writer

Investigators said today they have located one of two prime suspects in connection with the brutal slaying of two Sanford businessmen in July and that the suspects may be responsible for at least a dozen more murders and armed robberies.

"Authorities in Jackson, Miss., are holding Robert Taylor, 23, of Orlando on two counts of murder in that city," said Orange County Sheriff's Capt. John Guemple. "We believe Taylor, and another man met two homosexual men in that city, befriended them, partied with them and ended up robbing and killing them, according to Jackson police."

"We are looking at those same two men, Taylor and another Orlando man, as prime suspects in the murders of Sanford businessmen John N. Stinson and Edward R. Wise," Guemple said.

The bodies of the two men, who jointly owned the Sanford Quick Print shop at 110 E. Commercial St., were found July 16 in their home at 1231 Henry Back Drive in Orange County, authorities said. Both men had been stabbed and shot numerous times, their car had been stolen, abandoned and burned and their home burglarized, deputies said.

Guemple said the motive behind the Jackson killings "matches the way the two men were killed here. They were of similar backgrounds and had befriended the two suspects."

"We're still looking for the second man and have placed a hold on Taylor so that when Mississippi is through with him, we'll get a shot at him," Guemple said. "With his arrest and the arrest of his partner we could close about a half dozen to a dozen homosexual-related and other murders, a dozen armed robberies and four or five burglaries which have been reported in the central Florida area."

Meanwhile, Seminole County sheriff's deputies have arrested an Orlando man and are expected to issue a warrant for Taylor's arrest in connection with the July 12 armed robbery at the home of John Sobik Jr., 43, of Fern Drive, Longwood. Sobik is the owner of the Sobik's Subs and Sandwich food chain.

"Tuesday night, our investigator got word that Orlando police had picked up James Elliott, 31, of Orlando who we have now charged with armed robbery in connection with the Sobik robbery," said Sheriff's Lt. George Haygood. "We are also in the process of issuing a warrant for the arrest of Taylor, in Jackson, Miss., on armed robbery charges in connection with the Sobik case."

"We also believe that the other man that Orange County is looking for in connection with the murders of the two Sanford businessmen and their other murder cases was in on the Sobik robbery and we are continuing our efforts to find him and charge him," Haygood said.

According to Seminole County deputies, four men entered the Sobik home at about 4:40 p.m. July 13 after one of the suspects, who was known to John Sobik III, 21, asked to use the telephone, saying his vehicle had broken down along Interstate 4 near E.E. Williamson Road. See MURDER Page 5A.

BEING PREPARED

Seminole County Firefighter Walt Bryant uses a hydraulic tool to cut the roof frame of a car in an effort to free an accident "victim" from the wrecked vehicle while training officer Harvey Grant (right of Bryant) and other firefighters look on. About 44 county firefighters and fire personnel from across the state have been meeting at the Sanford Airport this week to learn the latest techniques in extricating people from vehicles in an effort to render first aid as quickly as possible.

At Lake Mary

Candidates Number 12

A twelfth candidate has picked up qualifying papers to run for a city office in Lake Mary's Dec. 7 city elections.

E. Russell Megonegal, 61, of 503 E. Club Boulevard, the Forest, picked up papers Tuesday.

So far only two candidates have qualified — Mayor Walter Sorenson, 40, who will be seeking a fifth term as mayor, and Kenneth King, 42, who is running for a second two-year term on the City Council.

Others who have picked up qualifying papers are: Councilman Vic Olvera, who plans to run for mayor; former councilman Burt Perinckief and Harry Terry, Joseph, Jim and Susan Stern, Bill Durrenberger and Bob Ball Jr., all of whom plan to run for the council, and Councilman Dick Feas, who hasn't decided whether he will seek re-election to the council or run for mayor.

Olvera will be resigning his council office Friday to run for mayor. Councilman Gene McDonald has resigned his office

effective Oct. 30 to accept a position with a Huntsville, Ala. firm.

Thus, four council seats will be on the ballot in the December election. These include Olvera and McDonald's seats for one year terms and the posts held by Feas and King for two year terms.

Three questions on city charter revisions also will be on the ballot.

Those questions ask for voter approval or rejection of a charter revision to: expand the council's and mayor's terms in office from two to four years; create single member districts for four of the five council members with those members elected solely by residents in those districts; and to change city election times from December to September, to elect city officials by plurality rather than majority, and to permit an override of the mayor's veto by four votes rather than three.

—DONNA ESTES

Two Sides Meet

Geneva Folks Seeking Unity To Fight Line

By MICHEAL BEHA
Herald Staff Writer

More than 120 residents of West Geneva are taking steps to ensure that their voices are heard on the route of a proposed Florida Power & Light Co. transmission line through Seminole County.

The people, residents of Mullet Lake, Seminole Woods, Cochran Forest, Geneva Woods and other developments between Lake Jessup and Geneva, want to be sure proponents of a line through their area aren't the only people the state Cabinet will hear from.

The Cabinet told a group of residents from Geneva to plan a route which bypasses their community on the west after about 120 people showed up at an Oct. 6 meeting in Tallahassee to protest the plan to route the twin 500,000-volt lines through their community.

But the Cabinet's direction puts the route in an area which affects more people than the original route, said Bob Cardenas, organizer of the West Geneva residents.

About 120 people signed petitions at the Tuesday meeting at Millie Gilbert's Mullet Lake home protesting the plan to put the corridor between Geneva and Lake Jessup. Another 262 property owners of Seminole Woods have sent a petition to the governor protesting the plan.

Despite their disagreement, Cardenas insists there is no battle between the two groups.

"We want to present a united front," he said. "We want to tell the Cabinet that we don't want it in Geneva or West Geneva."

Cardenas was scheduled to meet with Jere Moore, an aide to Gov. Bob Graham, at 2 p.m. today in Tallahassee to deliver the petitions signed Tuesday night and to go over maps of the area.

Cardenas hopes a united approach by

People Against Power Intrusion, the group headed by Sid Kraftsow that was successful in gaining consideration of a bypass around Geneva, and his group could result in another route being chosen.

But realistically, Cardenas said, "If they look at this route and find that less people will be affected by it, then we'll have to live with it."

He agrees with Kraftsow that an eastern route, either along Interstate 95 in Brevard County or around Lake Harney in Volusia County, would affect fewer people than any Seminole County route.

Since that alternative has been ruled out by the Cabinet, however, Cardenas said he hopes people from both groups can work together with FP&L and Seminole County officials to plot a route through the county that will affect a minimum of people.

"My in-laws live in the proposed corridor (through Geneva) so I sure don't want it there," he said. "But I want to look at it and see where it will affect the least people."

Lee Voorhees, one of the people who was active in PAPI's opposition to the proposed route, echoed Cardenas' hope for a unified stance.

"It's not East Geneva against West Geneva here," he said.

The two men will get the chance to work together Thursday at 10 a.m. when County Attorney Nikkl Clayton and FP&L officials will meet at the Seminole County Agricultural Center at the county's Five Points complex.

Residents of Geneva and other interested people are invited to attend that meeting which will be devoted to discussion of a western bypass around Geneva.

SLIP, SLIDING AWAY

Seminole County divers work to help raise a 1977 Dodge van and boat trailer from Lake Monroe after the unoccupied vehicle apparently slid into the lake at about 11:30 a.m. Tuesday. Anderson Willey Jr., 40, of Orlando, the owner of the van, said he parked the van at the Sanford marina boat

ramp, applied the emergency brake and put a block behind the van's rear tire but "the slick algae along the water line of the ramp caused the van to just slide into the water." Police said Willey's boat was not damaged. It took workers five hours to pull the vehicles from the lake.

NATION IN BRIEF

Police Concentrate Search For Cyanide Suspect In N.Y.

CHICAGO (UPI) — A manhunt for the prime suspect in the cyanide-Tylenol slayings of seven people focused on New York City early today, and Missouri police revealed the fugitive blames Johnson & Johnson for the death of his daughter eight years ago.

New York City police and FBI agents searched New York after employees of the Rutledge Hotel in Manhattan identified pictures of James W. Lewis, and his wife, Leann, as recent guests.

Today's editions of The Commercial Appeal in Memphis, Tenn., quote Carl Junction, Mo., police Sgt. Jake Dyer as saying Lewis blamed the drug company for the death of his daughter, Toni, 5, in 1974. There was no indication he ever took legal action against Johnson & Johnson.

"The little girl was born with a hole in her heart," Dyer said. "She went to the hospital for open-heart surgery and, as I understand it, she came through the surgery OK, but a few days later her heart exploded."

"Jimmy blamed Johnson & Johnson for the death, apparently because of the medication the little girl was taking," he said. The child also suffered from Down's Syndrome.

Lewis was charged in a federal warrant issued last Wednesday with writing an extortion letter to Johnson & Johnson demanding \$1 million "if you want to stop the killings."

Chrysler Risking Strike

DETROIT (UPI) — A strike against Chrysler Corp. would make the United Auto Workers "look like bad guys" and destroy the company's slim chance of posting a profit this year, industry analysts say.

The possibility of a walkout remained strong today after UAW President Douglas Fraser spent a day closeted with seven top union officials seeking advice on how to respond to Chrysler's rejection of the UAW's demand for immediate wage increases.

The union's Chrysler bargaining team was to meet today and the 150-member Chrysler Council will gather Thursday. The Council decides what course the union will take.

Chrysler officials said they are willing to risk a strike by the approximately 50,000 UAW-represented workers, who last week rejected by an overwhelming margin a tentative agreement calling for wage hikes tied to future profits.

Wanna Buy A Missile Base?

SAN FRANCISCO (UPI) — The U.S. General Services Administration is having a clearance sale. It's trying to get rid of a former missile base, complete with silos.

The GSA said Tuesday it was offering the former NIKE Launcher Site 10 near Travis Air Force Base for sale. Included in the offer are three underground silos, a ready room for housing a missile crew, storage and other support structures but no missiles.

Piland Fete Thursday

A continental breakfast honoring Troy Piland, Democratic candidate for the District 34 seat in the Florida House of Representatives will be held at 8 a.m., Thursday, at the Greater Sanford Chamber of Commerce building, 401 E. First St.

Piland, mayor of Winter Springs, is opposed by Carl Selph, R-Casselberry.

WEATHER

NATIONAL REPORT: A wintry blast dumped a foot of snow on the Plains, coating utility lines with ice, knocking out power to thousands, glazing roads and stranding travelers. But forecasters said the first storm is not necessarily the harbinger of a brutal winter. The storm system rocked the nation's midsection with heavy thunderstorms. One-inch hail bombarded Iberia, Mo., and thunderstorms soaked areas from Arkansas to the upper Great Lakes. Forecasters predicted rain for Minnesota, but more than 6 inches of snow fell Tuesday. Instead, in the first snowstorm since April 19. Freeze warnings were posted today as far south as northern Texas as northerly winds swirled colder air south.

AREA READINGS (9 a.m.): temperature: 70; overnight low: 66; Tuesday high: 83; barometric pressure: 30.15; relative humidity: 90 percent; winds: northeast at 7 mph; rain: trace, sunrise 7:29 a.m., sunset 6:52 p.m.

THURSDAY TIDES: DAYTONA BEACH: high, 11:48 a.m., 11:08 p.m.; low, 3:08 a.m., 7:58 p.m.; PORT CANAVERAL: high, 11:40 a.m., 11:50 p.m.; low, 4:50 a.m., 7:49 p.m.; BAYPORT: high 3:30 a.m., 5:35 p.m.; low, 10:46 a.m., 10:30 p.m.

BOATING FORECAST: St. Augustine to Jupiter Inlet, Out 60 miles: A small craft advisory remains in effect. Wind east 15 to 20 knots decreasing to 10 to 15 knots by tonight and continuing through Thursday. Seas 5 to 7 feet decreasing to 3 to 5 feet tonight. Few showers.

AREA FORECAST: Mostly sunny today. Highs in the mid 80s. Wind easterly 10 to 15 mph. Tonight and Thursday partly cloudy. Lows in the mid 60s. Highs in the mid 80s. Light east wind tonight.

EXTENDED FORECAST: Partly sunny days Friday through Sunday. Mostly fair and cool nights. Lows around 50. Highs in the 70s.

STREET REFURBISHING

This stretch of Seminole Boulevard in Sanford is just one of 36 city streets which are being resurfaced over the next month or two. The project, with a pricetag of \$100,000, is undertaken every two years to resurface the roads and fill in cracks, thus extending the life of the pavement.

Housing Starts Climb

United Press International Federal subsidies gave a boost last month to the struggling housing industry while on another economic front personal income edged upwards slightly.

The Commerce Department reported Tuesday new housing starts rose 14.4 percent in September. It was the second flurry of strong building activity in recent months and was caused mainly by federal subsidies.

President Reagan hailed the action as evidence his economic recovery program is beginning to take effect.

"These are days of new hope for housing," Reagan said in designating next week as National Housing Week. "Today's housing

report shows solid progress against record interest rates."

The Commerce Department also reported Tuesday unemployment benefits and savings interest helped offset a drop in factory payrolls last month to increase personal income 0.3 percent.

Personal spending also increased in September and Americans put less of their earnings into savings, the Commerce Department said.

Interest payments and government payments provided two-thirds of the month's modest improvement in personal income, while production payrolls continued slumping because of the recession.

Desperate DeLorean Nailed In \$24 Million Cocaine Bust

LOS ANGELES (UPI) — John DeLorean, who gave up a shot at the presidency of General Motors to build his own futuristic sports car, was in jail today, charged with trying to finance a \$24 million cocaine deal to save his auto company in Northern Ireland from collapse.

The 57-year-old, gray-haired entrepreneur was arrested Tuesday at a hotel near Los Angeles International Airport, only hours after the Northern Ireland government announced in Belfast it would shut down DeLorean's financially troubled auto plant in 10 days.

DeLorean faced arraignment today on charges of conspiracy to distribute cocaine and possession with intent to distribute.

DeLorean was seeking "an investment with a quick return" to salvage his company, said Ted Hunter, head of the Los Angeles office of the federal Drug Enforcement Administration.

Hunter said DeLorean was to serve as the "financier" for the purchase and re-sale in Southern California of 220 pounds of cocaine

with an estimated street value of \$24 million. The former vice president of General Motors Corp., DeLorean was regarded as a future president of the giant corporation until he quit in 1973 to build the \$25,000 DeLorean sportscar.

See related editorial on Page 4A.

the stainless steel car hailed as a revolutionary vehicle.

The Northern Irish government helped set up the DeLorean plant to boost its flagging economy, providing \$126 million in aid, but placed it in receivership in February. Since May, production has all but ceased.

There was no indication the auto builder, who is married to top New York model Christina Ferrare, had been involved in any other drug transaction, Hunter said.

Also arrested were William Morgan Hetrick, 50, of Mojave, Calif., and Stephen Lee Arrington, 34, of San Diego.

American Wins Nobel Prize

STOCKHOLM, Sweden (UPI) — Prof. George J. Stigler of the University of Chicago today won the 1982 Nobel Economics Prize for his research on market processes and the cause and effects of public regulations, the Royal Swedish Academy of Sciences said.

Stigler, 71, has been a professor at the graduate school of business at Chicago since 1958. He is the 11th American to win the economics prize and the third from the University of Chicago.

His research demonstrated how markets have been affected by economic legislation, the Academy said. He is known as a leader in applied research on markets and industrial structure.

This year's prize is worth \$157,000.

AREA DEATH

JAMES C. MICHAEL
James C. Michael, 53, of Canal Street, Oviedo, died Monday at Orlando Regional Medical Center. Born March 7, 1927, in Georgia, he moved to Oviedo from there in 1928. He was a retired supply and fiscal officer with the U.S.

Navy Underwater Sound Laboratory.

Survivors include his wife, Jane S.; three sons, Gilbert Stewart of San Diego, Forest Gray of Orlando, and Wesley James of Oviedo; a daughter, Joannah of Cardiff-By-The-Sea, Calif.; and a sister, Mary Gray Michael Jeffers, of Lake Worth.

Carey Hand Chapel, Orlando, is in charge of arrangements.

Killer Set To Die Friday

United Press International William Thomas Zeigler Jr. has been granted a stay of execution but Daniel Thomas is still scheduled to die in the Florida State Prison electric chair Friday.

U.S. District Judge Susan Black in Jacksonville Tuesday gave Zeigler a stay pending an upcoming 11th U.S. Court of Appeals ruling in Atlanta on the Florida Supreme Court's use of confidential psychiatric reports on many Death Row inmates, including Zeigler.

A lawyer for Thomas, meanwhile, urged the state Supreme Court in Tallahassee to vacate his death sentence and grant him a new trial. The justices did not indicate when they would rule.

Both Death Row inmates had been scheduled to die beginning at 7 a.m. Friday. Zeigler, 33, received two death sentences for the murders on Christmas Eve 1975 of his wife, Eunice, and Charles Mays at his store. He was given two life sentences for the murders of his wife's parents, Perry and Virginia Edwards.

The state said Zeigler committed the murders while faking a robbery in a scheme to collect \$500,000 in insurance he had taken out on his wife six months earlier.

Thomas, 33, alleged to be the leader of the "Ski Mask" gang, was given the death sen-

tence for the New Year's Day 1976 murder of Charles Anderson of rural Polk City.

The Ski Mask gang was accused of breaking into at least 16 central Florida homes, killing two men and raping five women. His lawyer, Douglas Duncan of West Palm Beach, told the Supreme Court that Thomas should have been assigned an outside counsel because he did not trust his public defenders and refused to cooperate with them.

Assistant Attorney General David Weisbrod said that while indigent defendants are entitled to lawyers, they do not necessarily have the right to select a particular one.

He also noted that Thomas remained silent when questioned by the judge prior to his trial about whom he wished to represent him.

The victim's widow, Betty, and son, John, 30, who attended the court hearing, have participated in a petition drive that has collected about 10,000 signatures from people demanding Thomas' execution.

Weisbrod attempted to give the justices petitions with about 4,700 signatures but the court refused to accept them, saying they had no bearing on the legal issues in Thomas' appeal.

About 4,000 signatures previously were turned over to Gov. Bob Graham and the Cabinet.

... Power Line Fight United

Continued From Page 1A

The western bypass was ordered by the Cabinet but is not a certainty. Cabinet members voted to allow Geneva residents to devise an alternative to the proposed route.

But if it cannot be proved an alternative is available that will affect fewer people, the Cabinet could vote to follow the proposed route.

The Geneva plan was supposed to be presented to a state hearing officer in November but the hearing examiner involved in the case has refused to rehear it, throwing the case into a legal quagmire.

Aides to the Cabinet are uncertain what

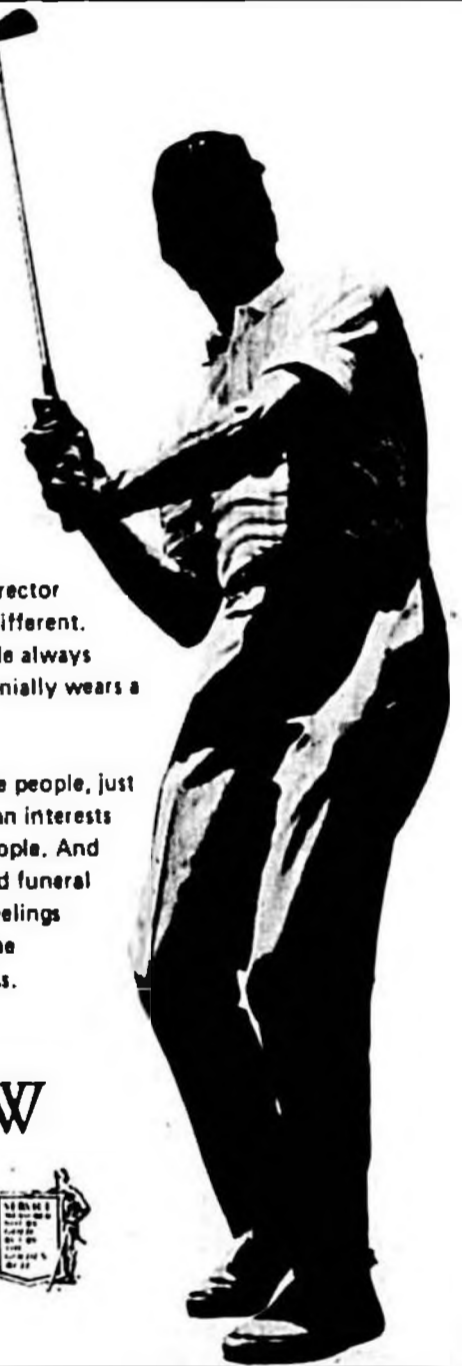

effects hearing examiner Chris Bentley's decision will have. They believe a court case could evolve over Bentley's authority to refuse to hear the case.

Cardenas feels Bentley's action throws the whole matter back into the Cabinet's lap. Cabinet members said they will make a final decision on routing the 35 miles of the corridor in Seminole and Orange counties in January.

The 140 miles of the corridor between Duval and Seminole County was approved by the Cabinet.

The twin transmission lines will transmit electricity from generators in Georgia to the Poinsett substation in Orange County.

Is it wrong for a funeral director to enjoy life?

Through the years, the funeral director has been passed off as someone different. He never smiles or has any fun. He always speaks in hushed tones. He perennially wears a just-pressed black suit.

The truth, of course, is that we're people, just like you. We have the same human interests and habits and faults as other people. And maybe that's what makes us good funeral directors: we understand your feelings in time of loss because we feel the same way in our own time of loss.

In Casselberry On Dec. 7

Paramedic Program Tax To Be Decided By Voters

Casselberry's City Council has agreed to place the Advanced Life Saving ordinance calling for a binding referendum on the proposed paramedic program on the Dec. 7 municipal ballot.

The paramedic program would be funded with a special tax levy of \$1.25 per \$1,000 assessed property valuation for two years. If approved by the voters, the tax will be effective next year.

Action on a site plan for Indian Hills Village Shops on State Road 436 was delayed by the Casselberry Council Monday night at the request of Bill Clarke, who was representing the Indian Hills Homeowners Association.

Clarke said the residents were concerned the shopping center might have an entrance on Kewanee Trail, which is the entrance to Indian Hills subdivision from State Road 436.

He asked for time to check on the minutes of the meeting a year ago when commercial zoning was approved for the

property on which the proposed shops would be located.

The council approved a site plan for Joyce's Crafts store to be built on U.S. Highway 17-92 at Concord Drive. Joyce Roberts, president of Joyce's Crafts, had previously agreed to place funds in escrow with the city to pay for future sidewalks. She agreed to pay \$5 per foot for a 133-foot long, 3-foot wide sidewalk along U.S. 17-92 and \$8 per foot of a 109-foot-long, 6-foot-wide sidewalk on Concord Drive. The total cost will be \$1,319.

Ms. Roberts said she expects the building to be ready for occupancy by January 1983.

Action was postponed on a recommendation by Civil Service Board Chairman Patricia G. Bailey that Edmund S. Barlett, PhD, who practices in Orlando, be designated to perform psychological testing for police officers prior to employment with the city.

The council wanted more information

on what the testing would cost. The city's personnel officer Aida M. D'Ercole, said an immediate need exists for a minimum of eight applicants to be evaluated. Although budgeting for this expense was not included in the 1983 budget, it could be included under professional services in the personnel budget, Ms. D'Ercole explained. However, additional funding might be required at a later date.

The council also tabled action on authorizing an ordinance banning headsets on bicycle riders and joggers on city streets to allow time for more input and a proposed controlled burning ordinance "to see what other cities are doing."

J&M Blinds of 350 N. Highway 17-92, Casselberry, was the low bidder at \$1,200 for supplying and installing vertical blinds in all the windows at the Casselberry Senior Multipurpose Center in Secret Lake Park.

All-Volunteer Success Rules Out Draft

WASHINGTON (UPI) — Increased pay and an improved image are helping fill the ranks of the all-volunteer military, eliminating any need for the draft for at least another five years, defense officials say.

The Military Manpower Task Force has concluded that manpower goals in all branches of the armed forces generally will be met through fiscal year 1987.

The study was presented to Defense Secretary Caspar Weinberger, who discounted earlier suggestions that the recession was a key to the success of the all-volunteer force.

Weinberger said the biggest incentive to join the military is that "it's an honor to wear the uniform again," plus higher pay, not high unemployment.

Defense Department officials have expressed delight in

recent months with the numbers of recruits and re-enlistments as well as with the higher educational quality of enlistees.

The Pentagon's total force objective for fiscal year 1982, the year ended Sept. 30, was 2,108,000. Actual strength as of June 30 was 2,107,000 men and women.

Some Pentagon officials have suggested double-digit unemployment and the recession as reasons for the best recruitment year for the volunteer force since its inception in 1973.

Weinberger, however, told a news conference Monday, "I don't believe that the recession is a major factor. It has an effect on the numbers coming in, but it is not the sole factor."

He said recruitment has been high even in areas of high employment.

Judiciary

Must Help, Too

We'd like to join Gov. Bob Graham in praising President Reagan's announcement that anti-drug task forces are being set up in a dozen major U.S. cities.

The new task forces are similar to the federal task force currently operating in south Florida.

Gov. Graham was co-chairman of a meeting of southern governors last month that called for Reagan to help southern states fight drug smuggling. It is to Graham's credit that party lines were set aside in his complimenting the president for his action in this vital fight to combat drug smuggling.

Reagan's \$200 million plan calls for placing extra law enforcement officials and prosecutors in major cities in addition to Florida—Graham said he has been assured funding of the south Florida task force will continue at its present level.

Well and good.

Drug smuggling has gotten out of hand and is no longer the exclusive pursuit of the underworld. Businessmen and professionals are engaged in drug smuggling because of its big-money rewards and, up until now at least, low risk of discovery.

Federal drug agents are doing a bangup job in south Florida tapping into the drug smuggling operations. So well have they been doing their job, it was recently reported drug smugglers are beginning to select other ports in other states to bring in their goods.

Gov. Graham points out Reagan's action will help rid the nation of illegal drug smuggling activity as the task force has helped Florida reduce its share.

But fighting the forces of the underworld or those who would profit from illegal activity such as drug smuggling doesn't end with long-term investigations—often placing agents in danger of losing their lives—or massive arrests of those involved in drug trafficking.

What comes next is the judicial system through which these criminals must be processed to give the community its pound of flesh. And that requires a cooperative judiciary.

Such was not the case the other day in south Florida when federal agents arrested several suspects in a sting operation dubbed "Operation Swordfish."

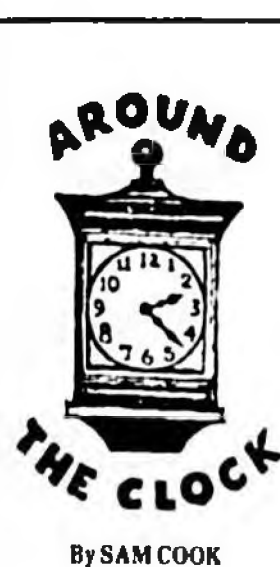

Federal prosecutors asked the magistrate to set bonds high enough to give the government some assurance the defendants would show up for their trials. Apparently drug smuggling has been so lucrative that defendants in previous cases have posted huge bonds, then forfeited them and fled to avoid prosecution. Federal prosecutors are asking judges to impose greater bonds in these cases than they have in the past to make it more difficult for the suspect to come up with the money, or risk losing even larger amounts of bail when they can. When suspects post bonds they do not fear forfeiting, then flee, it costs the government and the taxpayer that much more in dollars and manpower to track them down and bring them in for trial.

Each magistrate or judge must decide when the bail amount imposed is not so excessive as to be unreasonable. But each should also take one hard look before setting bail amounts and stay as close as he can to the recommended bond of federal prosecutors and investigators. They've been working these cases for months and know intimately the drug smugglers they finally bring into the court system.

BERRY'S WORLD

"I know I said, 'Stay the course!' Don't rub it in!"

Area racing fans can catch all the action they want with a short drive to the New Smyrna Speedway Nov. 27-28 to witness the Fifth Annual Cracker 200 Late Model Florida Championships.

The high-banked, half-mile oval is located at the intersection of State Road 44 and State Road 415, 10 miles east of Interstate 4 and five miles west of Interstate 95.

Cash purses amounting to \$18,000 have been posted, with \$3,000 and the state title going to the winner. On Saturday, Nov. 27 at 8 p.m., the speedway's End of the Month Championships for all divisions will include a 50-lapper for the late models, paying \$300 to win, plus lap money.

On Sunday afternoon, Nov. 28, at 2 p.m., Time Trials will precede the "Cracker 200." The thunder-cars, street stocks and four-cylinders are also slated.

Ohio's John "Andy" Anderson and the Draime

Enterprises Camaro won the event in 1978. In 1979, Dick Trickle, driving the Goodyear-shod Prototype-SuperAmerica Firebird, whipped Gary Balough, defending champion John Anderson and Jody Riddle at the finish.

Canada's Driver of the Year Junior Hanley, driving a car built at his Oakville, Ont., shop, won the third annual "Cracker 200." Second to fifth were Harry Gant, Jack Cook and Mike Eddy, Dick Trickle and David Rogers.

Last year, Hanley finished second, but he still won, as a "Made in Canada" Mustang, which he built and owned, made it to the winner's circle, with none other than Gary "Hot Shoe" Balough at the wheel.

The National League Football season may be on hold, but the Tampa Bay Bandits are cranking up for the United States Football

League season which begins in March.

The Bandits will hold a try-out camp at Tampa Jesuit High School this Saturday beginning at 11 a.m. Registration starts at 9 a.m.

Players must not have any college or high school eligibility remaining. They should bring spikes, shorts and a T-shirt. No locker room facilities will be available.

"Many USFL teams have had tryouts around the country and hundreds of potential players have shown up. We are hopeful for a good turnout," said Orlando's Buggy Engleberg, director of football operations for the Bandits.

Engleberg formerly coached at the University of Central Florida. He was instrumental in getting pro tryouts for Tampa Bay quarterback Jerry Golsteyn and Sanford's John Anderson who is on the injured reserve list of the Philadelphia Eagles.

ANTHONY HARRIGAN

Economy: Practical Viewpoint

As the nation agonizes through a prolonged economic slump, community leaders are pondering what can be done to provide jobs and create profits.

One of the most severely affected industrial communities in the nation is Rockford, Ill., a city long known for industrial activity and skilled workmanship.

The Register Star newspaper in Rockford recently asked a number of industrial leaders in the city to comment on the situation and what can be done. Dean A. Olson, president of Rockford Acromatic Products Co. in Rockford and an authentic entrepreneur was one of the leaders who responded. Mr. Olson is a friend of mine, and this space today is devoted to his comments. They are relevant to communities across the nation.

Here are a few of Mr. Olson's observations: "We can talk about pie in the sky, getting an electronics industry and the like, but that isn't too productive given the limitations of the environment we're in, with high labor (wage) rates and people untrained in these new skills.

"There is a general lack of infrastructure in town to assist those type of industries. This infrastructure is awfully important. People don't go to Chip valley because the weather is nice. There is a nest of residual knowledge there.

"If one out of 100 of those (unemployed) people, or say two out of 100, would decide to go it in their own business, hopefully half of those guys would survive downstream. You could improve the infrastructure in town.

"It doesn't take many people to make a town. If 2 percent of the people out of work were desirous of going out and meeting the needs of the economy it could take well for the area.

"I could name 20 places where people could start off in this town and make money," Olson added. "I would do it myself except I don't have the time.

"Some of the places I would go would be like competitive forging, sophisticated heat treating, a newspaper-magazine tobacconist across from the courthouse, phosphating, general machining, industrial painting. If I sat for an hour I am sure I would come up with at least 25 decisions that would lead to a life of entrepreneurship.

"This goes even for non-skilled people, because entrepreneurs must be more dedicated than skilled many times.

"I think the community might make it quicker in the long term if instead of looking over the fence at communities like San Jose, Calif. and Lynne, Mass. we would look at ourselves and find out where we can apply our abilities to the future needs of the country."

This is the voice of American entrepreneurship. Mr. Olson points the way for economically troubled communities throughout America.

JACK ANDERSON

Qaddafi Played Santa To Improve Image

WASHINGTON — Offhand, it's hard to think of anyone more ill-suited to play Santa Claus than Muammar Qaddafi. Somehow the long white beard, red-flannel costume and jolly cries of "Ho! Ho! Ho!" just don't fit Libya's scowling Moslem dictator.

But that's the unlikely role Qaddafi chose to play in Washington when he was riding high during the Carter administration. Retrieved from Justice Department files, the Libyan Embassy's 1979 Christmas-gift list contains the names of prominent government officials, members of Congress and supposedly influential journalists whom Qaddafi wanted to better up.

Like Santa in the kids' song, Qaddafi was "making a list, checking it twice, gonna find out who's naughty or nice." My name was on the list, but was crossed out, presumably after I returned from a visit to Libya that year and wrote some unkind things about

Give Me Your Tired, Your Poor, Your Huddled Masses.

JEFFREY HART

Next New York Governor

Politics is almost always a rough and dirty business, but the voters of New York State enjoy a rare luxury this year in a gubernatorial race with national implications.

They will have to choose between two obviously decent and intelligent men, both high-achievers in different ways, but who embody sharply contrasting conceptions of the good society.

In intelligent terms, this is one of the most interesting elections taking place in the country. In political terms, it almost certainly will be prophetic.

Against all expectation, New York's Lt. Gov. Mario Cuomo gained the Democratic nomination. Against all expectation, businessman and supply-sider Lewis Lehrman gained the Republican nomination. To arrive at the point where he is today, Mario Cuomo had to defeat the formidable mayor of New York City, Ed Koch. In a tortoise-and-hare performance, Cuomo did it. He closed a 20-point poll gap in eight weeks and won 53-47.

This — analyses are not yet in — may have been a political curiosity: Koch losing because a lot of people hated him and a lot of people loved him and wanted him to remain mayor of New York instead of moving to Albany as governor. Koch, a vintage New Yorker, is the most popular mayor since Fiorello LaGuardia, and it appears that many people voted for Cuomo to keep Koch in City Hall. Cuomo's own advertising, curiously enough, exploited Koch's popularity. Keep two good Democrats in office was Cuomo's message.

Mario Cuomo, who has been the lieutenant governor under the retiring Hugh Carey, is a lawyer, a former college professor and a professional baseball player. He is a Catholic, which makes his pro-abortion position a bit peculiar, but he has intellectual integrity. He

is thoughtfully, and at some political risk, against the death penalty — I am reluctantly for it — but Cuomo is not soft on crime. He is so decent that one hopes that, in the heat of the campaign, he does not demagogue the fact that Lew Lehrman until a few years ago lived in Pennsylvania because his company headquarters was located there.

Cuomo is a worthy Democratic candidate, and he frankly believes in a much expanded role for government in our national life. That issue, fundamentally, is the ground on which this election is being fought.

Lewis Lehrman, the son of immigrants, built a small family business into a multi-million dollar drugstore chain. But Lew, with his intense blue gaze and his Lehrman institute, and his comprehensive knowledge of economic theory, is really a businessman-intellectual. The death penalty is a grisly but also proper issue in this campaign, but the essence of Lehrman's platform is a lowering of the stratospheric New York tax rates to bring business back to this beleaguered old Northeastern frost-belt state. The businesses don't relocate to the Southern Sun Belt, Lehrman says, they just moved across the Hudson River to the more favorable tax environment of neighboring New Jersey.

The initial polls show that Cuomo and Lehrman are about even. Cuomo is the better public speaker and debater, but — it seems to me at least — that Lehrman has much the better philosophical case.

I don't want to get sentimental and begin talking about Hamilton and Jefferson and that sort of thing, but Mario Cuomo and Lew Lehrman are good and honest men and they are basically campaigning on enormously important issues.

Rather often, have you noticed, it is a pleasure to be an American.

SCIENCE WORLD

Pelvic Fracture Surgery

By KATHLEEN SILVASSY

PITTSBURGH (UPI) — A broken pelvis is one of the most serious of bone fractures, sometimes leading to life-threatening complications and generally meaning a long painful recovery in a hospital.

But a new twist given to a nearly half-century-old surgical device can cut the time pelvic fracture victims spend recuperating in a hospital by 80 percent and significantly reduced mortality rates.

The device, a metal frame that helps hold the broken pelvis together so it can heal, was originally developed in Switzerland in 1938.

But using computer-age technology, a research team headed by Dr. Dana C. Mears, an orthopedic surgeon at Presbyterian-University Hospital in Pittsburgh, modified and improved the design, naming it the Pittsburgh Triangular Frame.

The frame resembles a 21st century Tinker Toy — a series of metal rods, adjustable connectors and pins. Mears said it was designed to help doctors deal with the special problems a broken pelvis presents.

"If it (the pelvis) fractures, the bladder, spleen and other vital organs are threatened," said Mears. "Many other systems in the body go out of control. The damage done to the pelvis is an index of severity (of other body damage)."

The new surgical tool, implanted through a procedure called pelvic stabilization, gives patients an important edge by reducing the time it takes to deal with the fracture.

"Most patients die within the first 24 hours due to internal bleeding," Mears said. "Our job is to get the patient stabilized and control the bleeding. With the new techniques we can accomplish that more quickly."

A pelvic fracture also can be fatal because most patients spend an average of two-to-four months in a hospital bed, which inhibits normal body functions.

"The patient is flat on his back, sometimes he doesn't move much, so the lungs don't function as well as they should," said Mears.

Pneumonia, infections and other respiratory ailments can result. The slow-healing elderly are particularly vulnerable.

"Now, we routinely get the patient out of bed the first day or so after surgery," he said. "This gives the patient a tremendous psychological advantage."

"He's in pain, but he's sitting up, which produces a sense of well-being."

The surgery involves repairing breaks and fractures in the pelvis by attaching metal bands over the broken areas and securing them in place with screws.

A set of long metal pins is then attached on each side of the body, acting as anchors for the frame resting on top of the pelvis outside the body.

The patient can be discharged in about two weeks still wearing the frame, said Mears, but can move around using crutches.

After six to 12 weeks, the device can be removed through a minor procedure that can be performed at a local hospital.

Dr. Gordon French, 62, a faculty member at the Rutgers University School of Medicine and Dentistry, is a former patient who knows the advantages of the new surgical device. He suffered a broken pelvis in a riding accident Aug. 1, 1981.

French was flown to Presbyterian-University Hospital and underwent pelvic stabilization surgery Aug. 3. He was out of bed and sitting up the first week after surgery and on crutches a few weeks later.

associate Lucette Lagnado they had not kept the cameras, which the law discourages them from doing.

Morris Draper, then as now a key official in the Near East Bureau at Foggy Bottom, was put down on the Libyan list for a Canon camera. Reached in Lebanon, where he is in the thick of the crisis negotiations, Draper said the only gift he could recall receiving from the Libyans was "an ashtray."

The Rev. Timothy Healy, president of Georgetown University, was on the Canon list. In 1977, Georgetown had accepted \$750,000 from Libya to endow a professorial chair in honor of a Libyan hero. The university later returned the money, but kept the professorship anyway. Father Healy said he returned the camera.

On Capitol Hill, the Libyans courted legislators who were either perceived as friends for one reason or another, or who were thought likely to become friends. The

Christmas list included Sen. James McClure, R-Idaho; then-Rep. Steven Symms, R-Idaho; now a senator; Rep. Paul Findley, R-Ill., an outspoken critic of Israel and a congressional champion of Arab causes, and Del. Walker Fauntroy, D-D.C., who had also spoken up in behalf of the Arabs.

The Libyans also put supposed behind-the-scenes movers and shapers of policy on their Christmas list, like columnists and the heads of think tanks. They included Michael Hudson of Georgetown's Center for Contemporary Arab Studies, and Dean Brown of the Middle East Institute.

When queried about the gifts, some of those on the Libyan list said they could not remember whether they ever got anything from the embassy, while others said they had received some inexpensive trinket. A few flatly denied ever having received anything. Many expressed strong disapproval of the Libyans' tactics.

FLORIDA IN BRIEF

Lawsuit Threatened Over Pesticide's Use

ORLANDO (UPI)—An environmental group is asking the U.S. Environmental Protection Agency to take the pesticide Temik, which has contaminated groundwater in Florida and at least five other states, off the market.

Eric Jansson, a lobbyist for the Friends of the Earth, said that Temik is unsafe, and he predicted it might take a lawsuit to get the pesticide banned.

State agricultural officials' test of citrus fruit and orange juice have not revealed traces of the toxic pesticide.

Driver Charged In Crash

TAMPA (UPI)—The driver of a dump truck that slammed into a van carrying senior citizens and handicapped people to medical appointments has been charged with careless driving in the accident that killed five people and injured two.

The truck hauling old tire rims and other salvagable metal struck the van head-on Tuesday when its driver swerved around a car that slowed to make a turn.

Grenade-Toting Man Jailed

ORLANDO (UPI)—A tourist caught toying with a hand grenade near the ticket-sale windows at Disney World is in jail today, charged with improper exhibition of a dangerous weapon, police said.

Justin David Moffitt, 27, of York, Pa., is held in the Orange County Jail on \$2,500 bond, also charged with making, possessing, throwing and placing a destructive device.

The grenade, wrapped in gauze and adhesive bandages, was defused, but bomb experts said it was filled with sodium chloride tablets which would have exploded if a certain chemical had been added.

WORLD IN BRIEF

Politically Touchy Probe Of Refugee Massacre Begun

United Press International

The former head of Israel's No. 2 intelligence agency testified today in the opening hearing of an investigation into the massacre of Palestinian refugees in west Beirut that could threaten Prime Minister Menachem Begin's government.

Israeli troops delayed a pullout from Lebanon's battle-scarred Shouf mountains Tuesday because of fears the Lebanese army could not quell bloody factional fighting.

City Tense For Funeral

NOWA HUTA, Poland (UPI)—Authorities stepped up security for today's funeral of a 20-year-old electrician killed by police in riots over the banning of Solidarity, although the youth's parents made an emotional appeal for calm.

The Communist Party Politburo—meeting for the first time since strikes and riots last week—warned Tuesday more protests could lead to an extension of martial law, already in effect more than 10 months.

In Moscow, the Soviet weekly Literary Gazette today accused the Roman Catholic Church in Poland of inspiring riots against the military government and financing "fascist thugs" working to bring back the Solidarity union.

'Cancer' Doc Soon May Face Prosecution

MARIANNA (UPI)—A state prosecutor says he may decide this week whether to file criminal charges against Dr. Frederick Boody, the controversial "cancer" doctor who stabbed himself twice and set his house on fire.

Acting City Manager H.T. "Sonny" Dean said files on the Boody case had been turned over to State Attorney Jim Appleman, who said he has been interested in the case "from the beginning" and may make a decision by the end of the week.

Despite Appleman's attitude toward the case, law enforcement officials in Marianna and in neighboring Calhoun County said they have no intention of filing charges, saying they are more concerned with Boody's health.

Boody attracted attention earlier this year when he reported what he called a high incidence of cancer in the little Puhonaha town of Altha in Calhoun county. He said pollution of the Chipola River could be a possible cause.

In mid-September he claimed he was attacked by two knife-wielding men who lured him to the river to show him new evidence of pollution. Three days later the utility room area of his house was heavily damaged by fire.

Boody was hospitalized the last week of September after what he said was a second knife attack from a man who called him to his office under the pretext of being a Mormon missionary in need of treatment.

He admitted to police after flunking a lie detector test Oct. 1 that the attacks and the fire were staged. He was released in the care of his wife and medical partner and taken to Charter Woods Hospital, a psychiatric hospital in Dothan, Ala.

Officials never revealed Boody's reasons for staging the three incidents.

In its Tuesday edition, the St. Petersburg Times said it "repeatedly" asked Dean for access to Boody's tape-recorded confession because the case was considered closed and therefore its records are legally public.

Dean twice denied the request, the Times said. Later the Times renewed its request by letter, but Dean said Appleman was considering criminal charges and the case was not closed.

Florida's Hispanic Population Growing

MIAMI (UPI)—Florida's Hispanics, led by Cubans migrating from northern states and South Americans fleeing their countries, have increased in population by nearly 100 percent between 1970 and 1980, a U.S. Census report shows.

There were 858,158 Latinos living in Florida by 1980, up from 451,382 ten years earlier, according to the recently released report. And that figure does not include 99,610 Cubans the report estimates to have stayed in the state after the 1980 Mariel boatlift.

More than 132,000 Cubans came to the U.S. during the "Freedom Flotilla" from the port of Mariel.

Not surprisingly, the bulk of Florida's Hispanics are Cubans. Some 470,250 Cubans made up about 55 percent of the Latin population in Florida. Next came Puerto Ricans, with 94,775, and third were Mexican-Americans, with 79,392.

Another notable population shift was the

dramatic increase among "other Hispanics," including Spaniards, Central Americans and South Americans. That category shot up about 500 percent, from 26,500 to 115,847, the Census Bureau reported.

"The increase makes perfect sense," said Juan Clark, a sociologist at Miami-Dade Community College. "It's a combination of Cubans migrating from the north to Miami and many Latin American immigrants leaving their homelands."

The bureau also reported that Hispanic Floridians are more likely to live in cities or suburbs than in rural areas. They also tend to live in larger households than other segments of the population, and are, on the average, two years younger than other ethnic groups, the bureau reported.

In Dade County, a major population center for Hispanics, their numbers increased 120 percent during the 1970's, from 264,352 to 580,994, the statistics show.

Church-Goers Sue Pastor

ORLANDO (UPI)—Seventeen members of a small church have filed suit to oust their minister, contending he caused "irreparable harm" by abolishing the board of deacons and ejecting dissenting members.

The lawsuit, filed last week in Orange County Circuit Court, follows a five-month power struggle between the Rev. C.J. Jackson and deacons of St. Luke Missionary Baptist Church.

The suit requests a preliminary injunction to prevent Jackson from managing the church or harassing dissenting members. If Diamantis refuses to remove Jackson, the suit asks that he name a special master to supervise voting over the pastor's future.

The suit charges Jackson ejected the 17 plaintiffs from the church and asks that they be reinstated.

Your General Electric Dealer

WALL

1007 S. SANFORD AVE.

Three ways to avoid taking a bath with an inefficient water heater.

One of our three Watt-Wise™ incentives could pay you up to several hundred dollars. Our water heater incentive program applies to customers who replace or modify their current electric water heaters with either 1) a solar water heater, 2) a water heating heat pump or 3) a heat recovery unit. All three are designed to save electricity.

An FPL Home Energy Audit will determine if you qualify and how much you can save. Then we'll help cover the cost of purchase and installation of the new system. Water heaters must meet our standards and be installed by a participating dealer/contractor. In most cases, payment will be in the form of a Watt-Saver™ certificate redeemable with the contractor.

Will everyone benefit from Watt-Wise incentives?
Yes.

These incentives are less costly than the oil necessary to generate the electricity wasted by inefficient homes. Every 600 kilowatt-hours of electricity not used is a barrel of oil *no one* has to pay for. This also helps us postpone the building of expensive power plants. The less oil we use, and the less new building we have to do, the more we can help hold the line of everyone's electric bill.

For more information, or to arrange for a Home Energy Audit, send us the coupon or call the Watt-Wise Line at 1-800-432-6563.

The Watt-Wise Products Program. Another way we're working hard at being the kind of power company you want.

I'd like more information on the following Watt-Wise incentives:

- Water Heating.
- Cooling & Heating.
- Solar-Reflective Film.
- Ceiling Insulation.
- I would like to have an FPL Home Energy Audit.

Rush-Hampton.

Setting the standard for indoor air treatment.

Rush-Hampton, a broad-based research and development company headquartered in Longwood, Florida, pioneered the study of indoor air pollution over 10 years ago. Today Rush-Hampton, one of central Florida's largest employers, manufactures a full line of Ecologizer® air treatment systems to meet home, office, industrial, and automotive air treatment needs.

Ecologizer® systems remove household and tobacco smoke odors, dust, pollen, and harmful gases such as formaldehyde from indoor air continuously.

First in the field. First worldwide.

Ecologizer® air treatment systems are in demand throughout the world. In fact, the Florida Council of International Development presented Rush-Hampton with the 1982 Florida International Trade Award for its dynamic export activity. Scientific expertise, proven products, and inquiry devoted to determining future needs insure Rush-Hampton's position of leadership.

Crime Rate Dropping

MIAMI (UPI) — Officials say part of the credit for a 25 percent drop in Miami's murder rate should go to crime-weary citizens but they also warn that modern-day vigilantes can be dangerous.

FBI statistics released Tuesday show a 25 percent decrease in the number of homicides in the city reported in the first six months of 1982, compared with the same period in 1981. The overall violent crime rate decreased 9.8 percent.

Miami Mayor Maurice Ferré called the drop in homicides "great news" and attributed the decline to added police officers and "citizen participation" in organizations such as Crimewatch.

Police say they enthusiastically in favor of the Crimewatch groups in which citizens band together in the city's neighborhoods to watch for crimes and suspicious intruders. They are less enthusiastic about gun-wielding residents who shoot down their assailants before calling for help.

In 1980 and 1981, there were 25 suspected assailants killed by their intended victims, compared with only four in 1979 and none in 1978. But things can go wrong.

Last month, a Miami cafeteria owner, who said he had been robbed repeatedly, grabbed a gun and ran shooting after three would-be robbers as they fled down a busy street during rush hour.

The only victim was a 17-year old girl who was shot and killed while driving her mother and grandmother to the doctor's office. The suspected robbers were caught by police a few minutes later.

Prosecutors have not decided whether to charge cafeteria owner Severino Perez, 50, with Maria Orge's death.

Anti-crime activists like Howard Rasmussen, executive director of the Citizens Crime Commission of Greater Miami and a former policeman, have called for a "reassessment" of the use of deadly force by citizens after the girl's death.

"If we're going to restrict the policeman who is trained, and has the power of arrest, I am very concerned about the citizens with no training," Rasmussen said.

"I'm concerned about all the people out there who may have guns who are not trained in the use of them."

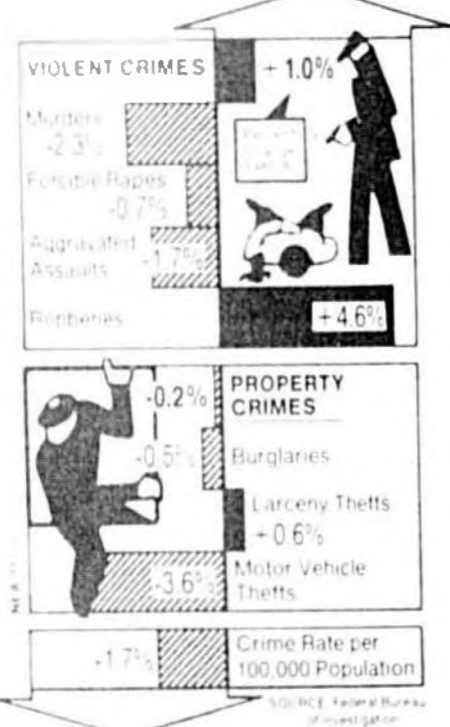

There have been several cases in which defendants accused of gunning down suspected criminals were freed by local juries and praised by their neighbors.

"... the public now has a perception that it's OK to shoot bad guys," said Jeff Swartz, an assistant state attorney.

"That's what happens when you don't apply the legal standards, an innocent bystander gets hurt," he continued. "The community has to realize that."

Prosecutors agree that Florida law allows citizens to use deadly force to protect themselves or others from death or serious bodily harm. They may also use force if it is necessary to prevent an "imminent forcible felony," such as murder, robbery, rape, kidnapping or arson.

But legal authorities say that Florida law

The FBI's latest crime survey shows a change from the steadily rising figures of previous years. The national crime rate actually dropped slightly in 1981 along with most categories of violent and property crimes. Increases were registered in only two major categories — robberies and larceny thefts. The number of crimes — 13.3 million — was virtually unchanged from the previous year. But since the population increased during the period, the effective crime rate per population unit declined. The FBI report is compiled from reports of more than 15,000 local law enforcement agencies.

does not allow a citizen to use deadly force in pursuit of a felon who poses no immediate threat to life.

When Anthony McDonald, a 25-year-old insurance salesman, was brought to trial last summer charged with unnecessarily killing an apparent burglar who fled the home of a woman McDonald was dating, a jury acquitted him in an hour and a half.

Earlier in 1981, jurors took only five minutes to dismiss charges against Jose Pico, an Explorer Scout and would-be policeman, who shot and wounded a hit-and-run driver.

After the Pico and McDonald cases, State Attorney Janet Reno decided that such cases should always be brought before a grand jury to determine whether there was any chance of conviction.

So far the grand juries have decided not to indict.

FSU Professor Reports

Reagan's Economic Policies All Wrong

TALLAHASSEE (UPI) — A Florida State University economist who recently finished a "Global Economic Report" for the United Nations says President Reagan's fiscal policies are dead wrong.

Professor E. Ray Canterbury said Reagan's act "creating a depression to stop inflation is like treating a patient by giving him a virus."

He said the administration's economic policies are like "driving a car off a cliff and hoping momentum will keep it airborne," he said. "The only thing you could get is a crash."

Canterbury proposed a

solution of his own for the nation's economic ills. He suggests a value added tax, a reform in the income tax structure and a "negative income tax" to provide payments directly to the poor.

The value added tax, common in many European countries, would be a financial penalty on large corporations with increases in wages, salaries and profits beyond a certain rate each year, say, 6 percent.

The firms would be prodded into keeping wage payments and management compensation in line with a rate of growth and productivity that would be conducive to a stable economy.

The plan would fight infla-

tion, put a "downward pressure on interest rates" and provide additional federal government revenue to help reduce the budget deficit.

Income tax laws should be amended so that everyone, regardless of income, gets a single exemption for "necessities," say, \$10,000 for a family with an income of \$30,000 a year, and only that exemption.

He then proposes a flat income tax rating system, but a system that rises at higher income levels. The rate could be 10 percent on taxable income of \$20,000 to \$30,000, 15 percent on taxable income of \$31,000 to \$50,000, and 20 to 25 percent on higher taxable

income.

"The maximum tax rate probably wouldn't have to be any higher than 20 percent to still generate as much revenue as we're generating today with all the special loopholes in the tax structure, all the unfair advantages which are given to people in higher income groups," he says.

His "reformed income tax structure would have the benefit of leaving purchasing power in the hands of those who spend their income, mainly the lower and middle income classes. Even the Reagan Administration is now counting on these con-

sumers for any kind of economy recovery."

He also proposes a "negative income tax" — checks from the government to people living substantially below the poverty level.

More Budget Cuts Needed

TALLAHASSEE (UPI) — Gov. Bob Graham may ask the Cabinet to cut another \$191 million from this year's \$10.3 billion budget because of the continuing "revenue shortfall."

Graham and the Cabinet ordered across-the-board agency cuts in August totaling \$109 million, but it is beginning to look like that won't be enough to ensure that the current budget is balanced at the end of the fiscal year next June.

A nearly \$200 million cutback five months into the fiscal year could create problems for some agencies and likely require layoffs or at least a rigid hiring freeze. A freeze has been in effect for months, but it has been only loosely enforced.

The report said tourism will finish the year fairly weak, but should improve significantly during the 1983-84 and 1984-85 budget years.

Youngstown Jobless Rate Tops At 20.9%

WASHINGTON (UPI) — Youngstown, Ohio, has the highest unemployment among the nation's major metropolitan areas at 20.9 percent, Labor Department statistics showed Tuesday, with Michigan and Alabama the hardest hit states.

Three areas in the industrial Midwest were close behind Youngstown in the August data, all above 19 percent unemployment — Decatur, Ill., at 19.9 percent; Duluth-Superior, Minn., at 19.5 percent, and Janesville-Beloit, Wis., at 19.3 percent.

The data reflected unadjusted figures which do not take into account seasonal factors, and compare to a nationwide unadjusted jobless rate for August of 9.6 percent. In September, the national unadjusted rate was 9.7 percent, with the seasonally-adjusted figure at a post-Depression high of 10.1 percent.

Michigan continued its position as the state with highest joblessness, despite declining from 14.7 percent in July to 14.5 percent in August. Alabama was close behind at 14.2 percent, also down from its July rate.

On the other end, Stamford, Conn., retained its honor of having the lowest jobless rate among cities at 3.5 percent, while South Dakota, at 4.5 percent, and North Dakota, at 4.7 percent, had the lowest rates among states.

The department's Bureau of Labor Statistics showed the Youngstown-Warren area increasing in joblessness from 18.2 percent in July to the top 20.9 percent rate for August. In August, 1981, Youngstown had an 11.7 percent unemployment rate.

Other metropolitan areas with the highest 10 unemployment rates, beside Youngstown and the three industrial Midwest areas, were: Lakeland-Winter Haven, Fla. and Rockford, Ill. both at 18.5 percent; Flint, Mich. 17.5 percent; Muskegon-Norton Shores-Muskegon Heights, Mich. 17.4 percent; Kankakee, Ill., 16.3 percent, and Battle Creek and Jackson, Mich. both at 15.5 percent.

Sheik Offers Help To Depressed Town

MIDLAND, Pa. (UPI) — A Saudi Arabian sheik with a habit of spreading his wealth around has pledged \$35,000 to help depressed Midland fill its municipal coffers, and town officials hope to reciprocate with their own gift.

Officials in the Beaver County mill town of 5,300, which recently lost its main employer and revenue source, said a lawyer for Sheik Mohammed al-Fassi told them a certified check would be mailed to the borough today.

The gift from al-Fassi, who lives in Miami and has given money to a number of other troubled American cities, will allow Midland to meet municipal expenses for December, borough Secretary Edward Cilli said.

Cilli said borough officials, who asked al-Fassi for help because the shutdown of the Crucible specialty steel plant has slashed their monthly wage tax revenues, hope to show their appreciation for the sheik's generosity.

Cilli said the town would like to present al-Fassi with a rare 1921 Thompson submachine gun from the borough police department arsenal. Local officials had been considering selling the antique weapon to raise cash.

Cilli said the town solicitor is checking the legality of making the gift.

Town police bought the Tommy gun years ago for department use, Cilli said, and reluctantly decided to try to sell it to ease the community's cash crunch. Midland already has borrowed \$150,000 this year to make ends meet.

All Women Should Consider Themselves Breast-Cancer Risks

NEW YORK (UPI) — Three-fourths of all breast-cancer cases have no traceable cause, therefore all women — particularly those over 35 — should consider themselves at risk of developing the disease, a six-year American Cancer Society study shows.

ACS researchers, in a report Sunday to cancer doctors, said all women should be taught breast self-examination and encouraged to have periodic mammograms, which find tiny cancers before lumps develop.

Breast cancer will cause 37,000 deaths this year and strike 113,000 women for the first time. Breast cancer has been the No. 1 cause of cancer death among American women since the late 1940s.

The ACS researchers said one in 11 women will at some time in their lives be diagnosed with cancer of the breast.

"The fact that three-quarters of all breast cancer cannot yet be attributed to any known specific causes is reason to increase our efforts to identify and quantify risk factors, and to seek effective means of intervention and control," the report said.

The advice to doctors was based on an analysis of known breast-cancer risk factors among more than 365,000 women and comparing them to those of more than 3,000 women in the group who actually developed the disease.

The report in "Ca," a journal for cancer doctors, was authored by Herbert Selzman, Dr. Steven D. Stellman and Margaret H. Mushinski, epidemiologists on the national staff of the ACS.

In their study, the epidemiologists concentrated on 10 factors for high risk of developing cancer of the breast.

They were: —History of breast cancer in mother and/or sister; history of breast surgery for a nonmalignant breast condition; of Jewish extraction; menopause at 40 or older; menarche before age 13; never married; first live birth at 30 or older or no live birth; college graduate (as an indicator of high socio-economic status); daily alcohol consumption, overweight by 10 percent over the average.

The researchers found "only 11 percent of the breast cancers in women, 30 to 44, and 29 percent of those in women, 65 to 84, were attributable to accepted risk factors either singly or in combination."

They said their study shows in the case of breast cancer, the risk factors neither present as great a potential for control nor are as clear-cut as those for lung or cervical cancer.

Reagan: Forces Must Leave Lebanon

WASHINGTON (UPI) — President Reagan and Lebanese President Amin Gemayel declared Wednesday all foreign forces must withdraw from Lebanon promptly to allow restoration of sovereignty and territorial integrity, and Reagan said there has been some progress.

After a two-hour meeting that included a steak and eggs breakfast in the White House living quarters, the two made formal statements outside the Oval Office as Gemayel departed.

Afterwards, Reagan said "I can't pick a date" for when Israeli, Syrian and Palestinian forces will leave Lebanon.

Asked if there had been some progress on the withdrawal question, Reagan said, "Yes."

Gemayel, who was making his first trip to the United States since his election and was later to meet with Defense Secretary Caspar Weinberger, emphasized his determination to closely link his country to the United States in all of his goals.

Reagan said their talks "covered a full range of issues particularly focused on our shared objective of the prompt withdrawal of all foreign forces from Lebanon."

"We also discussed Lebanon's goals in restoring the authority and control of the central government in all parts of the country," he added. "In this regard, I reaffirmed United States support for the sovereignty, unity, territorial integrity and freedom of Lebanon."

"President Gemayel can rely on the help of the United States," Reagan said. Gemayel, in his statement, said the Lebanese people "deeply appreciate and will never forget" Reagan's role in bringing an end to fighting in his nation. The U.S. commitment to his country, said Gemayel, "has been fundamental to the survival of our country."

"We see the U.S. role as the indispensable ingredient to bring peace not only to Lebanon but also to the whole region as well," the Lebanese president said. "We firmly believe President Reagan has created unprecedented opportunities for peace. We in Lebanon intend to be active in the search for peace with all nations."

Help in rebuilding his nation, ravaged for years by civil war and most recently by an Israeli invasion launched against Palestine Liberation Organization troops, was on Gemayel's mind, officials said, adding that he brought a "long shopping list" of Lebanese needs in the areas of reconstruction assistance and arms.

Reagan said certain aid figures were being discussed for Lebanon, but when asked about estimates by U.S. officials rebuilding the nation will cost \$1 billion to \$15 billion, Reagan said, "That's got to come from worldwide sources."

As for American aid, Reagan said "we're looking at that."

Gunman Robs Sanford Convenience Store; Threatens Clerk

By TENI YARBOROUGH
Herald Staff Writer

Police are continuing their search today for a gunman who walked into a Sanford convenience store Tuesday evening and stole \$70 cash.

According to Shop & Go convenience store cashier Billie Vernon Blahop, 45, the gunman entered his store at 1906 Country Club Road at about 9:28 p.m. brandishing a .32-caliber handgun and ordered Blahop to "put the money in a big paper bag and hurry up or I'll blow your brains out."

Police said Blahop filled a bag with about \$70 cash from the store's register and was then ordered to lie on the floor.

"Get down on the floor and don't move," the gunman told Blahop. "If you raise up, I'll blow your brains out."

Blahop told police the thief was wearing a black leather cap, a dark sweater and jacket and light colored pants.

MAN KILLED IN CRASH

A south Seminole County man is dead today following a head-on collision involving his vehicle and a tractor-trailer along State Road 15A in Orange County Tuesday evening.

According to the Florida Highway Patrol, Edson Beatty, 63, of 240 Spring Lake Drive, Maitland, was traveling in his 1980 Chevrolet El Camino northbound along State Road 15A when his vehicle crossed the center line and struck a southbound truck.

The truck was driven by Peter Jacobs, of Orlando, troopers said. Jacobs received minor injuries in the crash and no charges have been filed in connection with the accident, troopers said.

Troopers said the accident, which marks the 109th traffic fatality for Orange County this year, occurred about a quarter-mile south of State Road 50.

DUI ARRESTS

The following people were arrested in Seminole County on the charge of driving under the influence (DUI) of alcoholic beverages:

—Steven A. Winter, 19, of Orlando, arrested 2:07 a.m., Saturday, charged with DUI and failure to maintain a single lane. Winter was arrested by the Florida Highway Patrol along Interstate 4 west of State Road 434.

—Jeffrey Jon Jones, 23, of Orlando, arrested 3:14 a.m., Saturday, charged with DUI and possession of less than 20 grams of marijuana. Jones was arrested by deputies along U.S. Highway 17-92 near Casselberry.

—Nikolas Dukas, 21, of Sanford, arrested at 12:48 a.m. Saturday, charged with DUI, driving with a suspended driver's license and violation of parole. Dukas was arrested by the Florida Highway Patrol along County Road 415 about four miles east of Sanford.

—Kelly Lee Woods, 18, of 123 S. Lake St., Lake Mary, arrested 12:06 a.m., Saturday, charged with DUI and improper start. Woods was arrested by Lake Mary police along County Road 15 at Third St., after police said they observed a vehicle accelerating quickly at the intersection, spinning its tires on the pavement.

—Wade Hueston Perkins Jr., 19, of 103 Temple Drive, Sanford, arrested 1:30 a.m. Saturday, charged with DUI and driving without a valid driver's license. Perkins was arrested by the Florida Highway Patrol along County Road 415.

—Julian John Demora, 26, of 5488 Park Vale, Maitland, arrested 2:27 a.m. Saturday, Demora was arrested by deputies along State Road 436 west of Maitland Boulevard.

—James C. Cruz, 27, of Orlando, arrested 8:53 p.m. Monday, charged with DUI, resisting arrest without violence and failure to maintain a single lane. Cruz was arrested by Casselberry police along Winter Park Drive near Seminole Boulevard.

—Joseph G. Perron, 23, of 108 Valencia Drive, Sanford, and Pedro D. Raposo, 27, of Cocoa, were charged with DUI and racing after police stopped their speeding vehicles about 6:13 a.m. Sunday on State Road 436 west of San Sebastian Square, Altamonte Springs.

—Fred Moaler, 22, of Pine Hills, was arrested at 5:30 p.m. Saturday at Palm Springs Road, Longwood, after he reportedly ran a stop sign.

—Julian Demora, 26, of 5488 Park Vale, Maitland, was stopped at 1:14 p.m. Saturday on State Road 436 west of Maitland Blvd. for failure to maintain a single lane.

SANFORD FIRE CALLS

The Sanford Fire Department responded to the following fire calls:

Friday

- 1:50 a.m., 2300 Orlando Drive, false alarm.

- 3:11 p.m., 2690 Orlando Drive, rescue.
- 4:51 p.m., Fourth St. and Sanford Ave., rescue.

Saturday

- 12:15 a.m., 113 Airport Blvd., rescue.
- 12:30 a.m., Dixie Way and 13th St., brush fire, extinguished.
- 1:50 a.m., 3100 Orlando Drive, false alarm.
- 12:42 p.m., 119 Scott Drive, fire, extinguished.

Sunday

- 12:06 a.m., 1201 Cornwall Road, false alarm.
- 11:54 a.m., Seminole County jail, check alarm system.
- 3:18 p.m., Sanford Landings, State Road 46, fire, extinguished.

Monday

- 18:23 p.m., 2546 Park Ave., rescue.
- 3:00 a.m., Sanford Ave., rescue.
- 12:37 p.m., 110 Country Club Circle, rescue, child ill.
- 1:40 p.m., U.S. Highway 17-92 and State St., auto accident with injuries.
- 1:54 p.m., 1800 French Ave., false alarm.

...Murder Suspect Sought

Continued From Page 1A

Deputies said once the man was in the home, he pulled out a gun, fired a shot between the younger Sobik's legs and ordered him and his brother, Dennis, 17 to lie on the floor while negotiating for the other robbers to enter the home. The men bound the Sobik brothers, then stole 25 guns, an undisclosed amount of jewelry, a coin collection, the Sobiks' 1968 Chevrolet pickup truck and fled, deputies said.

Later, deputies received information from Camden County, Ga., authorities that they had discovered the body of a man, identified as Carl Williams, 23, of 107 Penelope Drive in Longwood lying along Interstate 95 near Woodbine, Ga., July 13. Deputies said Williams was identified by John Sobik III as one of the men who robbed him July 12 and speculated he was probably killed by his co-robbers because he was recognized by Sobik. Williams had been shot five times with a small-caliber weapon, deputies added.

"These guys will probably be facing a murder charge in Georgia for Williams' death too," Guemple said. "No doubt about it, the guys that did these things are bad, bad guys."

Jackson police arrested Taylor at about 9 a.m. Friday on an Orange County warrant charging him with the Oct. 10 robbery of an Orlando steakhouse.

Jackson police added that Taylor, clad only in underwear, was arrested walking along a road near a west Jackson apartment where the bodies of Danny King, 23, of Clearwater, and Earl Peoples, 34, of Jackson, were discovered shortly after Taylor's arrest. Both King and Peoples were wearing only underwear when their bodies were found and both men and been stabbed numerous times with a knife or screwdriver, police said.

After the bodies were discovered, Taylor was charged with two counts of murder, police said.

CARS BURGLARIZED

Sanford was hit by a rash of car break-ins over the weekend with at least four vehicles being burglarized and over \$2,000 worth of property taken.

Sometime late Friday or early Saturday, someone broke into the car of John Barrineau, 33, of Orlando, who had parked his vehicle at 711 Palmetto Ave., police said.

Stolen was a briefcase and tool box. Total value: \$400.

During the same hours, someone unlocked a car belonging to Joseph Stewart, 814 Myrtle Ave., while it was in his carport. An estimated \$300 worth of tools were taken, according to police.

Between 8 p.m. Saturday and 6:45 a.m. Sunday, someone entered a car belonging to Michael Maniscalco, 21, of 107 Mariner's Village, and took radio equipment and tools valued at \$1,253.

David Beehner, 29, of 406 Mariner's Village, told police that between midnight and 9 a.m. Sunday, someone stole a radio-cassette player, tapes, and a knife from his car.

WOMAN TREATED FOR CUTS

A 19-year-old Sanford woman was treated at the Central Florida Regional Hospital in Sanford for glass cuts to her face

after someone apparently shot out the window of the car in which she was riding at about 11 p.m. Monday.

Furnette D. Charles, of 218 Tuskegee St., told sheriff's deputies she was a passenger in a car driven by her aunt, Betty Williams Clark, 39, of the same address, when someone apparently fired a gun at the car, breaking out a window and covering her with shattered glass which cut her on the forehead and near her right eye.

Ms. Charles said she and Ms. Clark were traveling along Airport Boulevard between 22nd and 23rd streets when they observed three young men near a city bus stop. Ms. Charles said one of the young men stood as the vehicle approached, raised his arms in front of him and appeared to be holding a gun.

Ms. Charles told deputies she then heard a loud noise and the window shattered. Deputies said they were unable to find any object which may have caused the window to break.

POWER TOOLS, APPLIANCES TAKEN

A Fern Park man told Seminole County sheriff's deputies that someone broke into his home between 6:10 a.m. and 5:57 p.m. Monday and stole numerous appliances, power tools and other undisclosed items.

Leonard Edwards, 54, of 90 State Road 436, reported the theft of his property.

BROTHERS OUT ON BOND

Two Longwood brothers are free from the Seminole County jail today on \$5,000 bond each, following their arrests Monday on grand theft charges.

Brian William Austing, 20, and Scott Edward Austing, 18, both of 555 Devonshire Blvd., were arrested at 8:04 a.m. and charged with grand theft after a Longwood police officer said

he saw a car travelling along State Road 434 with a red Yamaha motorcycle protruding from the trunk. Police said they stopped the car, occupied by the two brothers, and after determining that the motorcycle had been stolen, arrested the two men.

BOAT STOLEN FROM COMPOUND

A boat, valued at about \$700, was stolen from the Seminole Boat Inc. compound at Building 77, Sanford Airport, between 12:45 p.m. Saturday and 8:10 a.m. Monday.

KNIFE-WIELDING MAN INTRUDES HOME

A 23-year-old Sanford woman told police that a man, carrying a knife, entered her home at about 11:45 a.m. Monday and searched her purse and dresser drawers.

Jacqueline Purvis, of 1012 W. Third St., told police she saw a man with a knife in her living room and fled out the back door, alerting her roommate, Terri Hackney, 22, who called police.

When police arrived, the women entered their home and discovered that the intruder had fled but had apparently searched the purse and dresser drawers, police said. Nothing was reported stolen.

NAKED MAN HAUNTS WOMEN

Two Casselberry sisters told deputies that they heard panting noises and saw a naked man standing in front of their sliding glass doors Sunday night after one of them had received numerous obscene telephone calls from a man who said he had been watching them.

The women told deputies that they saw the naked man at their Sedgefield apartment door at about midnight Sunday. After being seen the man fled.

'Stuper-Induced' Brewers Demolished By Cardinals

ST. LOUIS (UPI) — Though Bud Selig was referring specifically to his Milwaukee Brewers, his comments apply to both clubs playing in tonight's seventh and deciding game of the World Series.

"I suppose it would have been unwise for anyone to assume they would choose a different course of action," the Brewers' owner said Tuesday night while the St. Louis Cardinals were evening the Series at three victories apiece with a 13-1, rain-delayed thrashing of Milwaukee.

Baseball

What Selig meant was, the Brewers have spent most of October working themselves into the corners where they do so well. But the Cardinals followed form too, getting clutch-pitching from rookie John Stuper and playing their ballpark like a violin.

Stuper pitched a four-hitter, Darrell Porter and Keith Hernandez hit two-run homers and Dane Iorg collected three extra-base hits to set up a decider between the Cards' Joaquin Andujar and the Brewers' Pete Vuckovich.

Temperatures for tonight's game are expected to be in the low to mid-50s by gametime.

"Our job was to get ahead early," said Hernandez, who added a two-run single in a game delayed twice by rain for a total of 2 hours and 39 minutes. "That enables us to run, run, run. If we fall behind, it takes that away from us and we're in trouble. Our job was to get ahead and it's the same thing tomorrow. We must get ahead."

Milwaukee's defense, which played so well in Game 5, faltered enough to help St. Louis in its aim. A misplayed fly ball by Ben Oglivie that was scored a double and an error by shortstop Robin Yount, helped give St. Louis a 2-0 lead in the second, and a two-run homer by Porter, a triple by Iorg, and a suicide squeeze bunt by Tom Herr, made it 5-0 in the fourth.

By that time, the Cardinals had their running game going, spraying hits all over the park, and the only question was whether the expected rain would allow the game to reach the official stage. It did, and now for the third time this month the Brewers place their entire season on

seven World Series to go to a seventh game.

"It's what I have been looking forward to my entire life," said Milwaukee catcher Ted Simmons.

Rain Prolongs Milwaukee Pain

ST. LOUIS (UPI) — Don Sutton and Doc Medich had trouble pitching the baseball, Robin Yount and Jim Gantner had trouble catching it, the entire Milwaukee team had trouble hitting it and two rain delays covering 150 minutes prolonged the Brewers' agony in Game 6 of the World Series.

All that had gone right for Milwaukee in building a 3-2 edge in the best-of-seven series against the St. Louis Cardinals went wrong Tuesday night in a 13-1 rout by the St. Louis Cardinals.

Sutton, who has not won in Busch Stadium since 1976, served up home-run balls to Darrell Porter and Keith Hernandez and also was charged with a balk. He allowed seven hits and seven runs in 4 1-3 innings.

"I had good stuff but bad location," Sutton said. "I have no excuse. They (Cardinals) took a page out of our book (home runs). I didn't do my job consistently enough."

Medich almost matched Sutton's numbers in the sixth inning alone when he gave up six runs on five hits, a walk and two wild pitches.

Yount, who has hurt St. Louis during the Series with his bat, hurt his own team with his glove with two errors. The key error came in the second after Dane Iorg stroked a two-out double. Yount let a ground ball by Willie McGee go through his legs to open the door for two unearned runs. Iorg scored on the play for a 1-0 lead and Tom Herr followed with a double to knock in McGee.

Gantner booted ground balls by Lonnie Smith in the third inning and Darrell Porter in the sixth. The misplay on Porter's ball allowed two runs to score.

The Cardinals capitalized on virtually every mistake and Stuper, who lifted the Cardinals' starting rotation with a 9-7 record during the regular season, pitched masterfully despite the rain delays.

"It was a must game for us, that was obvious, and you have to tip your hat to John Stuper," said Hernandez. "He's a 23-year-old rookie and this was probably the biggest game he has ever gonna pitch in his life."

Baseball Commissioner Bowie Kuhn received some criticism for his decision to wait out the rain and finish the game despite the Cardinals big lead. But Milwaukee Manager Harvey Kuenn supported him.

"I think the game is meant to be played nine innings and that's the way it should be," he said. "I would have felt bad, not only if we were behind, but if the shoe would have been on the other foot and they were behind."

Stuper appeared unbothered by the weather, needing only 103 pitches to get the job done and becoming the 20th rookie starting pitcher to win a World Series game. He held a shutout until the ninth.

"I was in the training room with our trainer Gene Gieselmann and he gave me about 10 rubdowns," said Stuper. "...and I went out after them."

This now has become the 28th best-of-

Lyman volleyball coach Karren Newman (front left) points out some strategy with Amy Babcock (left to right) Wynne Wycoff, Lynn Lugerling and Carol Rogers look on. The Greyhounds clinched the Five Star Conference championship Tuesday with two wins to improve their record to a sparkling 14-0. The 'Hounds host the District 4A-9 Tournament on Nov. 3, 4 and 5.

Lyman Wins 5 Star; Seminoles Sweep 2

By SAM COOK
Herald Sports Editor

Lyman's Greyhounds picked up two more victories Tuesday night at Lake Howell to clinch the Five Star Conference volleyball championship with two games to play.

Lyman, 14-0 in the Five Star and 15-1 overall, dropped Lake Howell 13-15, 15-10, 15-8 and Seabreeze 15-6, 15-12.

"Lake Howell was really strong and we made a lot of offensive errors in the first set, but we got it back together in the second set," said second-year Lyman coach Karren Newman. "We were confident in the second set after playing tentatively in the first one."

The 'Hounds' confidence didn't bloom immediately as they trailed 10-6 before senior Lynn Lugerling took over. Lugerling spiked one to get the ball back, then ran off nine straight service points for the victory.

In set three, spikes by Vikki McMurrer, Amy Babcock and Lugerling keyed the victory. Carol Rogers turned in several good dinks. Wynne Wycoff spiked the final point.

Prep Volleyball

Against Seabreeze, Lyman breezed. "It wasn't even a match because we were so emotionally relaxed," said Newman. In the second set, Rogers served out the final 10 points while Babcock added several good spikes.

Lyman concludes the regular season at home Tuesday against Spruce Creek and Apopka before hosting the 4A-9 District on Nov. 3-5.

In other Five Star action, coach Beth Corso's Seminoles ripped Mainland 15-5, 15-7 and Spruce Creek 15-7, 15-5.

"That's more like it," said Corso. "We haven't swept two games in so long, I forgot what it was like."

In set one of the Mainland game, Lisa Morse was the catalyst, making eight nice passes and one solid spike. Gene Stallworth had six good passes and two spikes.

"Gene had one of her best games of the year," said Corso. "In the second game, her serve was excellent too. She has a floater serve which is hard to handle."

has a floater serve which is hard to handle."

In the second set against Mainland, Penny Morris and Traci Gregory combined for six service points and Arlene Jones, Lisa Nelson and Teri Hardy had three slams each for the easy win.

Against Spruce Creek, Stallworth served points 9 through 12 and Jones served out 15 as Morris ended the first set with a nice spike.

In set two, Hardy served the first three points and Morris hit the last three, closing out the game with an ace. Sara Von Herbulis dominated play at the net as did Lisa Morse.

"We really put it together against Spruce Creek," said Corso. "We played our game instead of bump ball."

Seminole, 9-5 in conference and 11-7 overall, hosts Lake Howell and DeLand Tuesday at 6 p.m. to close the regular season.

Lake Howell-Seabreeze — no results reported.
Lake Brantley-Apopka-DeLand — no results reported.

Williams Runs Wild

Barry Williams of Oviedo jumped all the way from seventh to second in the race for the Seminole County rushing title. Williams gained a season high of 204 yards against Leesburg and is looking to take the lead this week as the Lions face the Lake Mary Rams. The leading rusher, Seminole's Rendell Manley, is still out and will probably be for the rest of the season with an injury. Oviedo's Ken Ashe moved into second place in the receiving category while Lake Mary's Bill Caughell moved up a few notches in the defense category.

Jones Leads Panthers Past Lake Howell; Lyman Drops Osceola For Fifth Straight

Football

Crooms halfback Alvin Jones ran for 127 yards and scored three touchdowns Tuesday night as the Panthers demolished Lake Howell, 40-14, in freshman football action at Lake Howell.

Panthers, 3-2 in coach Bill Zeiss' first year, host Oviedo for Panthers Night Tuesday at Seminole High. Kickoff is set for 7:30 p.m. in the Panthers' final game.

Crooms got on the scoreboard first with 7:08 remaining in the first quarter on a one-yard sneak by quarterback Dexter Franklin. Jones tossed a halfback pass to Lewis Brown for the two-point conversion and an 8-0 lead.

On the ensuing kickoff, Lake Howell was trapped for a safety to make it, 10-0, Crooms. Later in the quarter, Jones broke loose for a 45-yard TD run for a 16-0 lead.

In the second quarter, Lake Howell finally scored on a one-yard sneak by quarterback Ron Campbell.

Jones, however, broke the Silver Hawks' backs with a dazzling 75-yard yard jaunt to a touchdown. Mike Wright tossed a two-point conversion to Horace Knight for a 24-6 bulge with three

minutes left in the half.

"Alvin must have ran 150 yards to do it," laughed Zeiss. "He went left, then right, then left and left again. It was a pretty run."

In the third quarter, Franklin lofted a screen pass to Jones and he scampered 55 yards for his third touchdown of the night. Fullback Mike Levant bulled over for the conversion for a 32-6 edge.

Levant added the final score in the fourth quarter on a 15-yard burst. He also ran in the two points for a 40-6 advantage.

Second-string quarterback Victor Navarro scored on a two-yard run later in the period for Lake Howell.

Crooms also had two touchdowns called back—an 80-yard kickoff return by Wright and a 75-yard punt return by Jones—due to clipping.

"The offensive group did a good job," said Zeiss. "And our Orange Crush (demonstration squad) played good defense the second half."

Larry Byrd picked off a pass and had six tackles to lead the defense. Vince Howard collected four tackles.

Franklin hit 4 of 9 passes for 140 yards. Wright gained 87 yards on nine carries and caught two passes for 37 yards. Tight end David Sullins had one grab for 38 yards.

In other frosh action, coach Larry Baker's Lyman Greyhounds reeled off victory number five against no defeats when they tripped Osceola, 21-6.

Brett Molle's 80-yard punt return with 8:30 left in the first quarter got the 'Hounds rolling. The score stood up for a 6-0 halftime lead.

With six minutes to play in the third quarter, Randall Mathis broke loose for a 35-yard TD jaunt. Molle hit Rick Neal for the two-point conversion and a 14-0 lead.

Osceola scored later in the third quarter, but Lyman led the game when Joe Rintharmy bolted 10 yards with 9:35 to play and kicked the point for a 21-6 victory.

Lyman goes to Lake Mary Tuesday at 7:30 p.m. —SAM COOK

Owners Won't Guarantee Money

HUNT VALLEY, Md. (UPI) — As the NFL players' strike goes into its 30th day today, and another weekend of the season has been canceled, it appears league owners and the players' union are no closer in resolving their differences.

The eighth day of negotiations under mediator Sam Kagel ended Tuesday night with a pair of new developments that did nothing to assure the nation's pro football fans the 1983 season would be resumed.

Jack Donlan, chief negotiator for the NFL Management Council, confirmed a published report the owners' offer of \$1.6 billion in salary increases cannot be guaranteed because of losses incurred by postponement of five weekends of games.

The two sides had been at odds over just how the money would be distributed since the proposal was first made last month. The players want the money spread over four years instead of the five favored by management and tied to a central fund instead of with the individual team. Donlan's announcement coupled with the continuing deadlock on the issue as it stood was not good news in the fragile negotiations.

"I guess you could call it a new development," a union source said. "But we certainly didn't expect to take a step backward."

Meanwhile, the NFL Players Association issued a statement rejecting a recommendation purportedly made by management that the players return to work without a contract.

"We have canvassed our player reps and they are unalterably opposed to suggestions we return to work without a contract," the statement said.

In New York, NFL spokesman Jim Heffernan announced Tuesday a fifth weekend of games had been scrubbed.

"Because of the players' strike, no NFL games will be played this weekend, Oct. 24-25," said Heffernan.

NFL Commissioner Pete Rozelle had said earlier in the players' walkout, at least 12 or 13 games needed to be played to constitute a "credible" season. Under that criterion, the NFL season must resume by the weekend of Nov. 7-8.

management that the players return to work without a contract.

"We have canvassed our player reps and they are unalterably opposed to suggestions we return to work without a contract," the statement said.

In New York, NFL spokesman Jim Heffernan announced Tuesday a fifth weekend of games had been scrubbed.

Joyce's Blocked Punt Ignites Jackson Heights

By SAM COOK
 Herald Sports Editor

When Jeff Joyce blocks a punt, he really blocks a punt.
 Jackson Heights vs. Manatee 4 p.m.

Jackson Height's Joyce blocked a punt at the Lakeview Dolphin 25-yard line, then chased it all the way into the end zone and fell on it for a touchdown as the Bobcats dropped Lakeview, 20-6, in Seminole Youth Sports Association football action Saturday at Lake Sylvan Park.

"He really smashed it," said Bobcat coach Tim Hill about Joyce's remarkable play. Joyce followed his play with an extra-point boot to put Jackson Heights up, 8-0, in the first quarter.

In the second quarter, Mark Merchant picked off a Michael Edwards pass and returned it 30 yards for a touchdown and a 14-0 halftime lead.

Lakeview finally got on the board in the third quarter with a six-pointer, but Jackson Heights' John Morrow capped the scoring with a one-yard quarterback sneak for a 20-6 victory to

keep the Bobcats tied for first place with a 4-1 record.

In other Midget League play, Robert Thomas ran for 185 yards and scored four touchdowns as Milwee annihilated Teague, 30-0.

Thomas scored on runs of 30, 40 and 60 yard scampers. He caught a pass from Gib Lundquist for 25 yards and his fourth TD. Lundquist also hit Scott Radcliff for 55 yards for another score.

Linebacker Darren Boston led the defense with nine tackles and six assists.

In Junior Bantam League play, the Silver Lions eked out a 6-0 victory over the Seminole Bulldogs.

Despite the setback, the Bulldogs received some excellent defensive showings. Ira Melton had 10 tackles and seven assists while Mike Prater had nine stops and two assists. David Delfiaco added seven and three.

Robert Culpepper led the Bulldogs with 32 yards on 11 carries. Melton added 17 yards on six totes. Delfiaco

completed 3 of 7 passes for 21 yards. Martallus Williams caught two for 18 yards.

In a junior Midget game, the Jackson Heights Bobcats remained undefeated with a 22-0 whitewash of Rock Lake Red.

Kirk Rozek ran for 81 yards in six carries including a 45-yard romp for a touchdown in the second quarter. Dannie Putnam blocked a punt in the third quarter and 10 plays later went over from the one for the TD.

Robbie King kicked two extra points for four points on the day. The first came after a four-yard run by Putman in the first quarter for a touchdown. The second came after Rozek's score.

Jackson Heights' four quarterbacks—John Pettit, Matt Blanton, Jack Cowart and King—completed 6 of 9 passes for 165 yards.

Tim Whitaker and Pettit led the defense with four and three tackles respectively.

Dan Clem, Craig Jennings, King and Rozek all had interceptions.

Ouch! Roger, Put Down That Knife!

There's no truth to the rumor that Lake Mary Coach Roger Beathard is holding a gun to my head as I write this column. Actually, it's a knife.

Apparently some of the Lake Mary football followers weren't bemused with my line in the Monday Afternoon Quarterback which disputed a relationship between the Rams' schedule maker and the same for the University of Central Florida Knights.

Well, for those of you boosters who didn't realize it, Lake Mary's schedule is too strenuous for a team competing in its first season of varsity football, just as UCF's is too difficult for a team in its first year of Division II football.

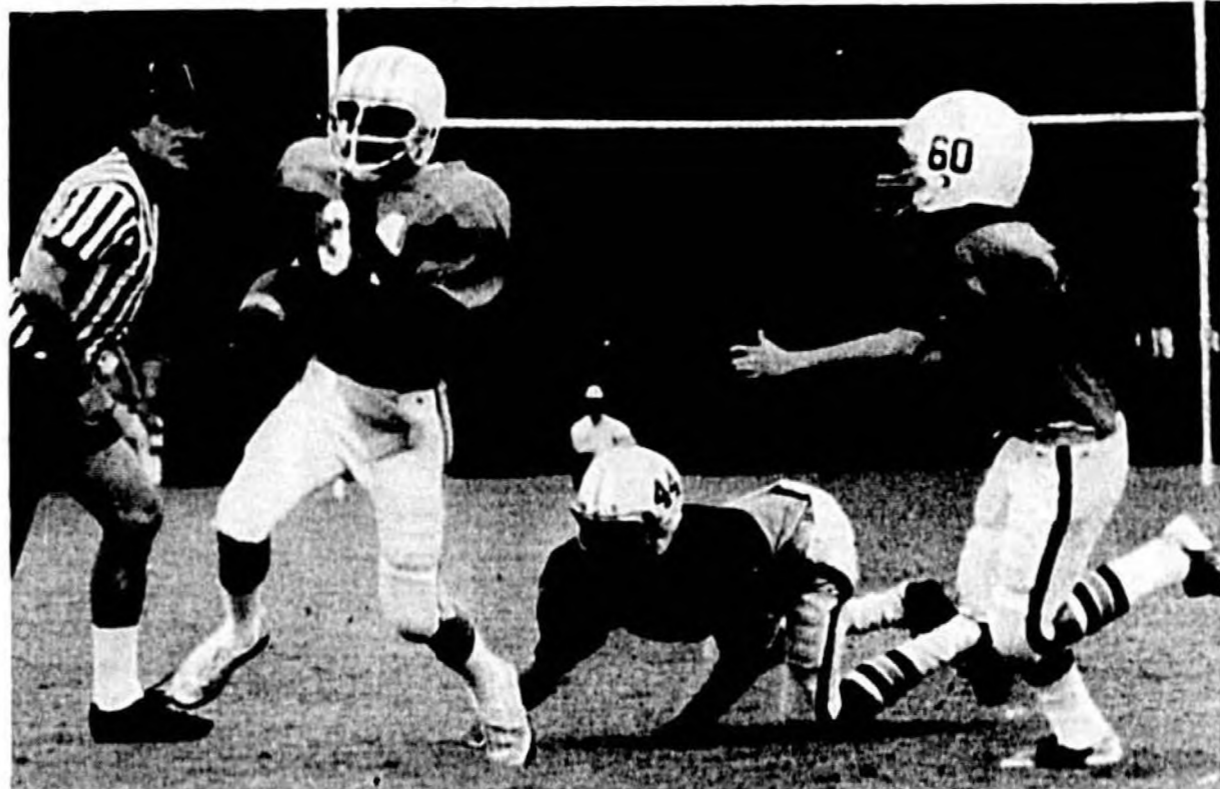

A look at the record will bear this out. UCF is 0-6 and the Rams are 1-4. The schedule makers at UCF just threw the Knights to the wolves, but as head coach Beathard is quick to point out (ouch! watch that blade), Lake Mary had difficulty scheduling people of its caliber.

Five schools first said they would play the yearling Rams, then backed off. All of these, says Beathard, were of the Rams' caliber.

Another difficulty Lake Mary ran into was the fact that most schools on its level were in the second year of a two-year pact with other schools and couldn't break the contract. You know how that home and home stuff works.

So, in essence, Beathard realizes how hard the schedule is, but was not in any position to do much about it. He reasoned it would look better to play "up" to your competition than to schedule several paties.

"I did pass on playing Merritt Island though," Beathard informs. Wise choice, Roger, now put down that knife.

Dwayne Willis, Lakeview Mustang running back, breaks a tackle by Jonathan Boston (on ground) and heads for the goal line as Jackson Heights' David Mitchell pursues.

All-American Rebels Take 3 Of 4 In Debut At Lake Brantley Stadium

The All-American Rebels (Midget Division), won its fourth straight game but had to struggle to get it. The Rebels faced a stiff challenge from the Winter Park Cobras' but held on for a 30-8 victory Saturday at Lake Brantley High Stadium.

The Rebels broke on top first after being on defense for six and a half minutes in the first quarter. The scoring drive went 78 yards with a big chunk of it coming on a Shane Letterio pass to John Kohlmeier that covered 39 yards. Ryan Lisle busted over from five yards out and booted the extra point himself for an 8-0 All-American lead.

The Rebels held the lead at halftime but Winter Park's Leroy Brown broke loose in the second half and scampered 67 yards for the Cobras' first score. The extra point knotted the score at 8-8.

Steve Thurmond galloped 47 yards for the Rebels' second TD and two late

Football

fourth quarter scores sewed up the win for the Rebels.

The Rebels, by virtue of their 4-0 record, are in sole possession of first place within their Pop Warner Conference Apopka in second with a record of 3-0-1.

In other All-American action, halfback Johnnie Griffin ran for a touchdown and passed to Todd Fuggi for another score to lead the Junior Midget Rebels over Union Park, 14-0.

The defense was led by Hugh Graham with 10 tackles, Scott Allen with nine and Fuggi with seven. Shane Lunford and Fuggi also intercepted passes.

In the Jr. Pee Wee Division, Dusty McDougald carried 25 times for 153 yards

to lead the Rebels past the Winter Garden Panthers, 19-12.

McDougald TDs Keep Pee Wees Perfect

The Jr. Pee Wee's remained unbeaten with a 4-0 record. McDougald scored two touchdowns and Chris Koepeke scored one TD to lead a Rebels' offensive attack that rolled up 281 total yards.

In the Pee Wee Division, the Rebels dropped their third straight game, a 6-0 loss at the hands of the Winter Park Wolverines.

With just 30 seconds remaining in the game, the Rebels turned the ball over to Winter Park with the score still tied at 0-0. Winter Park's Robert Harris scored the winning TD moments later to drop the Rebels' record to 1-3.

SPORTS IN BRIEF

F.C. United 040 Shuts Out Winter Park 020, 2-0

F.C. United 040 (under 10 age division) shutout its opponent for the second straight week en route to a 2-0 victory over Winter Park 020. Brad Hoppman and Marvin Turcotte scored a goal each for F.C. United and Chad Bowersox made some key saves as goalie.

Jeff Schicker scored three goals and Jim Morrissey added a pair to lift F.C. United 040 (under 16 age division) to a 7-3 rout of Matland 081.

Morrissey scored the first goal on a breakaway and F.C. United breezed to the win with Schicker getting his hattrick by scoring F.C. United's last goal.

Vance Guthrie turned in a good performance as goalie and David Dempsey led the defense.

F.C. United had their best week of the year winning 13, losing four and tying one. Of the 13 wins, 10 were shutouts and F.C. United outscored its opponents with 100 goals to 20.

Club Totals: WINS 13 LOSSES 4 TIES 1

Bossy Leads Islanders, 4-3

New York Islander right winger Mike Bossy knew he couldn't do anything about the Vancouver Canucks' rugged, bumping and holding style of hockey.

But he did know he could do something about Vancouver's overcoming a three-goal deficit on New York's home ice.

Bossy rectified that situation Tuesday night by scoring the game-winning goal on a power play with 74 seconds remaining, giving the Islanders a 4-3 victory at Unionsdale, N.Y., extending their unbeaten home-ice streak to 26 games.

The victory was New York's second this season over the Canucks, who fell to the Islanders in the 1981-82 Stanley Cup finals. It also upped the Islanders' winning streak to six games and was the Canucks' sixth straight loss.

Cook's Corners Barn On 5-Run Binge

The Barn couldn't match Cook's Corner's one big inning Tuesday night as Cook's rallied for five runs in the third and held on for a 6-3 victory to remain unbeaten in Sanford Men's Softball League play at Pinehurst Field.

Cook's Corner took a 1-0 lead in the second inning when Zeke Washington drew a walk and later scored on an RBI groundout by Ned Raines.

Cook's increased its lead to 6-0 with a five-run, third-inning rally. With one out, Sam Raines singled and Levi Raines followed with a triple to knock in one run. One out later, Eddie Jackson singled in Levi Raines, Washington followed with a single and Don Causeaux singled in another run. John Boggs followed with the fourth consecutive hit to put Cook's in control, 6-0.

The Barn came back with a rally of its own in the fourth inning but stranded two men on with the tying run at the plate. With one out, John Whigham singled and Keith Grover reached on an error. Mike Throne singled in one run and Ted Miller delivered a two-run double to cut the Corner's lead to 6-3.

But The Barn could get no closer. In its

Men's Softball

last three times at bat, The Barn did not get a baserunner as far as second base. It was the 11th straight win for Cook's who now lead The Barn by three games in the league's standings. Tommy Gracey picked up the win and Tom Szabo was the loser.

In other action, Cardinal Industries avenged a Monday loss to Mobilite by pasting a 10-0 drubbing on Session Time.

Billy Griffith's two-run homer gave Cardinal a 2-0 lead in the first inning and never looked back.

Session Time stayed within striking distance until Cardinal erupted for four runs in the fifth after taking a 4-0 lead into that inning. Kip Grant led off with a single and scored on Griffith's double. Griffith came across on Handy "Bulldog" Merthie's single and another run scored on John Westbrook's sacrifice fly. The fourth run of the inning came across on a double by Lonnie Tucker.

Session Time had seven hits but did not manage to get a baserunner as far as

third base. Larry Pressley shut out Session Time on seven hits. Steve Scribner was the loser.

The victory put Cardinal in sole possession of second place, two games behind Cook's Corner.

S&H Fabricating and Jaycees battled in a wild game with S&H Fabricating coming out on top, 9-8 in eight innings.

RBI singles by Don Waterman and Dean Krick put S&H in the lead, 2-0 after one inning of play.

Jaycees scored once in the second and S&H answered with a run in the bottom of the second. Blair Kitner's run-scoring triple brought the Jaycees to within one run in the third inning.

Jaycees took a 4-3 lead in the fourth on a sacrifice fly by Les Baylough and an RBI double by Jay Payne. Jaycees increased its lead to 5-3 with a run in the top of the fifth.

S&H Fabricating tied it at 5-5 in the fifth on the strength of Krick's RBI double and Jim Black's run-scoring single.

Each team scored three runs in the seventh frame to tie the score at 8-8 and send it into extra innings.

Jaycees got its leadoff man in the eighth but he was quickly erased as Jaycees came empty.

In the bottom of the eighth, Steve Machesney drew a walk and moved up on Andy Fennel's single. A fielder's choice put Machesney at third with one out and he scored the winning run on Kevin Lemon's sacrifice fly. —CHRIS FISTER

Billy Griffith just beats tag from Session Time catcher Jeff Taft.

PEOPLE

Evening Herald, Sanford, FL. Wednesday, Oct. 20, 1982--18

HOLY CROSS BAZAAR

Children's clothing and aprons are two of the items made by Norina S. Bordenkircher (left) and Mildred Nicholas and other members of the Holy Cross Episcopal Church Women for the annual Fall Festival bazaar to be held Thursday in the parish hall at Fourth Street and Magnolia Avenue, Sanford from 11 a.m. to 1 p.m. Luncheon will be served 11 a.m. to 2 p.m.

Father Stubborn Over Daughter's Party

DEAR ABBY: I want to have a party in the family room of our house next spring. My problem is my father. He said I can't have it there because that's where he likes to sit and relax during the evening.

My father said that when he was my age (I'll be 14 in March) he had parties in the basement, garage or outside. He gave me those choices for my party, but we have no basement, our garage is too small, and there would be a problem with mosquitoes if I had it outside.

How can I persuade my father to let me have the family room for just three hours — from 8 p.m. until 11 p.m.?

NEEDS YOUR HELP
DEAR NEEDS: You need more help than my help — you need an ally in your camp. You don't mention your mother; if you have one, draft her!

Perhaps if your father knew more about your plans — how many kids, the games you'll play, what refreshments you plan to serve, etc. — he'd be more cooperative. Your father, like most people, probably fears the unknown, and is therefore negative. If you ask for his help in planning the party, it might improve your chances. You sound like a good kid. Good luck!

DEAR ABBY: I recently had a visit from an old

Dear Abby

classmate I had not seen for over 30 years. She is over 50, divorced and was reared in a respectable home.

The night before she was to arrive, she phoned to say she was bringing her "boyfriend" — a nice widower her age. I told her I'd be delighted to put him up, too, as we had two guest rooms. She said, "That won't be necessary — one bedroom is enough for us."

I was shocked and annoyed because we have two grown sons living at home, and they know that I disapprove of couples sleeping together before marriage — especially under my roof.

When my friend arrived, I put her in one bedroom and her gentleman friend in the other, but it was obvious the next morning that they had gotten together during the night because only one bedroom had been used. (They even laughed at breakfast about how they had "put one over on me.")

I know I can't change the morals of the world, but I do think I should have control over what goes on in my own home, don't you?

How should I have handled

it?

BURNED UP
DEAR BURNED: When your friend told you that she was bringing her "boyfriend," and one bedroom would be enough, you should have told her that you would be happy to make reservations for them at a nearby hotel.

DEAR ABBY: To the man who couldn't stand the sound

of birds singing in his yard:

For shame! Robert Frost said it so much better than I could ever say it in his poem, "A Minor Bird":

"I have wished a bird would fly away,

"And not sing by my house all day;

"Have clapped my hands at him from the door

"When it seemed as if I could bear no more.

"The fault must partly have been in me

"The bird was not to blame for his key.

"And of course there must be something wrong

"In wanting to silence any song."

Chirp, chirp!

Zeta Xi Reunion On Anniversary

Zeta Xi Chapter of Beta Sigma Phi will celebrate its 25th Anniversary Saturday. The festivities will be held at the Skyport Restaurant, Sanford Airport, from 7 to 11 p.m. The theme for the reunion for all present and former Beta Sigma Phi members will be that of a Western Hoedown highlighted by a "Best Dressed" Western outfit contest. A Western buffet and dancing by Joey Fondale along with a cash bar will be provided. The cost for those wishing to attend is \$15.00 per couple. For reservations call 323-5168 between 9 a.m. and 5 p.m. or 323-7543 after 6 p.m. no later than Thursday evening.

Make Child's First Cooking Experience Fun And Safe

Learning to cook can be great fun for boys and girls. It's also an important "life skill" they will need to know eventually, and age 8 or 9 isn't too young to start teaching them. If children are at least in the third grade, they already have a keen interest in food, and they'll love the grown-up independence and sense of accomplishment that comes from preparing food. As with other new experiences, they'll need an adult "coach" to help teach them the rules.

Children learn with amazing speed when they're participating in an activity, so provide careful guidance using simple, nutritious recipes that yield quick results. Your beginners will feel good about their first attempts at cooking, and will look forward to the next "lesson."

Teaching children to use the range top is a good way to begin. Make your child's first cooking experiences fun and safe by following these safety pointers for the Kraft Kitchens:

- Stress the importance of having adult approval before beginning to cook.
 - Teach children to wash and dry their hands well before beginning to cook.
 - Provide a sturdy step stool so "short order" cooks can see all the action.
 - Select a wooden spoon with a long handle for stirring foods on top of the range. Metal spoons can heat and burn small fingers.
- "KIDS COOKING — A Guide For Beginning Cooks" is a new 36-page booklet from the Kraft Kitchens. It's a great way for children to learn a variety of cooking skills, nutrition and safety tips, and simple meal planning. Line drawings accompany each of 12 "cooking adventures," and recipes have step-by-step directions that make them easy to follow.

To receive a copy of this booklet, send your name, address, zip code, and 25 cents (no stamps), to cover postage and handling, to: KRAFT Kids Cooking Booklet Offer, P.O. Box 814, Department R, South Holland, Ill. 60473.

Cheesy Grilled Sandwiches is a recipe your junior cook can "custom tailor" to as many servings as are needed. The sandwiches are "grilled" or fried on top of the range. The key ingredient, pasteurized process cheese spread, has a pleasing mild flavor children will love, and it melts smoothly and easily, making it ideal for beginning cooks. Show children how to keep the range heat at low to medium when cooking these products. When the cheese spread is melted, it's "done."

Teach junior cooks these range top safety guidelines as you work together in the kitchen:

- Select the correct size utensil for the amount of food being cooked. Use a small skillet for 1 sandwich, a griddle or large skillet for 3 or 4 sandwiches.
- Select the correct burner size for a cooking utensil; large burners under small saucepans or skillets can be a hazard.
- Keep saucepan and skillet handles turned away from the edge of the range so they will not be knocked off or spilled.

BLUSHING MAC SALAD

- You will need:
- 6 cups water
 - 1 7-1/2-ounce package macaroni and cheese dinner
 - 1 teaspoon salt
 - 1/4 cup margarine
 - 1/4 cup milk
 - 1-1/2 cups chopped cooked chicken, ham or salami
 - 1/4 cup chopped celery
 - 1/4 cup chopped sweet pickle salad dressing
- 1 tomato, cut into wedges
- Take out:
- 3-quart saucepan
 - measuring spoons
 - wooden spoon
 - colander
 - glass and metal measuring cups
 - large bowl
 - cutting board and small sharp knife
 - plastic wrap, foil or bowl cover
1. Pour water into saucepan and bring to a rapid boil. Add macaroni and salt. Stir with wooden spoon. Boil rapidly, stirring occasionally, 7 to 10 minutes or

to desired tenderness.
2. Drain macaroni into colander in sink.

3. Return macaroni to saucepan. Add margarine, milk and

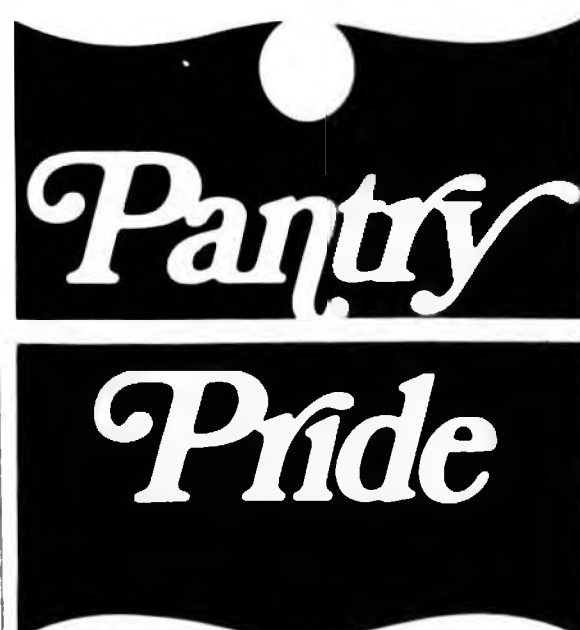

the Cheese Sauce Mix. Mix well. Transfer to large bowl.

4. Add chicken, celery, pickle and enough salad dressing to moisten, mixing

lightly. Cover bowl with plastic wrap, foil or bowl cover and

chill. Add additional salad dressing before serving, if

desired. Garnish with tomato wedges.

Broil A Steak — Italian-Style

Ask anyone what his favorite meal is; the answer is likely to be steak. Good restaurants feature it and it is most often served at home when there's something to celebrate.

Celebrating or not, think steak, affordable steak! Chuck and round steaks can be just as delicious as the expensive kind when you know how to cook them. Broil or pan broil until nicely browned on each side, but still rare inside. This is important — long cooking at this point can toughen the meat. Then, carve in thin diagonal slices.

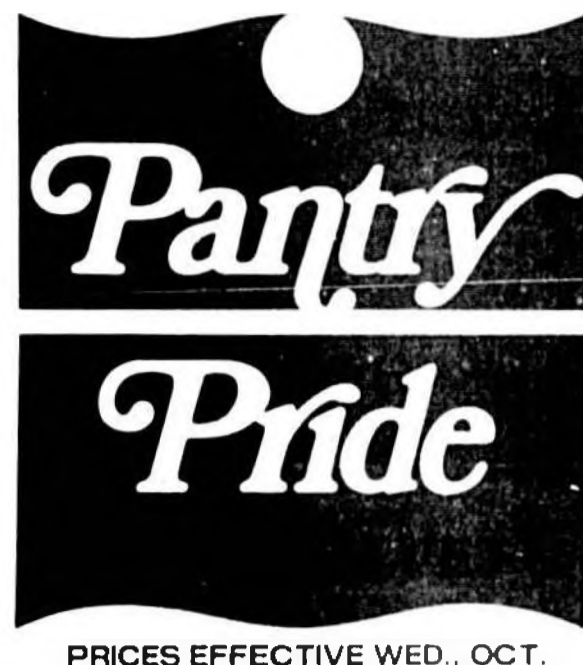

STEAK, ITALIAN-STYLE
2 lb. chuck steak, 1 1/2-in. thick
Lemon juice
Olive or salad oil
Salt, cracked black pepper
Chopped parsley
Place steak on rack in broiler pan. Mix 1/4 cup lemon juice and 1/4 cup olive oil. Brush top of steak with some of mixture.

Evening Herald, Sanford, Fl. Wednesday, Oct. 20, 1982—J8

Sprinkle lightly with salt and a few turns of the pepper mill. Broil 3 to 3 1/2 inches from heat 15 minutes. Turn steak; brush with olive oil mixture; sprinkle with salt and pepper. Broil 12 to 15 minutes for rare. Place on hot platter; spoon on any leftover oil mixture, sprinkle with chopped parsley. Slice thinly on the diagonal with sharp carving knife. Serves 6. For well done steak, sprinkle each side with unseasoned instant meat tenderizer following package directions; broil as above.

Bread Junk Food?

By GAYNOR MADDOX
A loaf of white bread, a bottle of milk and a jar of peanut butter — that was what my mother laid out for me and my friends for an after-school snack. Today some would call this junk food. However, though my mother might not have been aware of it, she was choosing the most nutritious of all breads.

Nutritionists, as quoted in a September, 1982, issue of Consumer Reports, say that bread provides a lot of desirable nutrients for the number of calories it contains. Bread is a good source of complex carbohydrates, plant protein, and several vitamins and minerals. Whole grain bread is also a good source of dietary fiber. These generalities about bread's nutritional value are about all you need to know if you eat moderate amounts of a variety of nutritious foods.

However, in their tests, Consumer Reports said that protein quality may explain why white breads, as a group, did better than wheat breads and rye breads in their tests. Eggs, milk and whey solids are often used to improve the delicate flavor of white bread while the others contain fewer or none of these ingredients.

According to the article, "Consumption of white bread in the United States has declined by more than 30 percent since the days when Wonder Bread was busy building strong bodies 12 ways." White bread is still more popular than other kinds but its heyday is over. Why the decline? There are fewer children and more dieters these days. Children are the big eaters of white breads and many dieters avoid all bread, incorrectly believing it to be fattening. Also, bread eaters in search of more interesting tastes or some special nutritional benefit are turning to other kinds of bread — whole wheat, rye, pumpernickel, sourdough, wheat germ, oat-meal or cracked wheat.

If you are concerned about the nutritional quality of white bread for sandwiches, look at the list of ingredients before buying a loaf. If it is high in eggs, milk, whey and soy-whey, no need to worry. Meanwhile, if you want to make some homemade bread, one cookbook suggestion is "The World of Breads" by Dolores Casella, published by David White Company, New York.

Beans And Almonds

When purchasing green beans, look for straight pods, free from scars, which snap when broken. Store beans in the refrigerator in a covered container or plastic wrap. Use as soon as possible. Remember that one pound of fresh green beans will give you three cups of cooked beans.

GREEN BEANS WITH ALMONDS AND MUSHROOMS
2 pounds Florida green beans (8 cups)
3 tablespoons butter
1-3rd cup alivered almonds
1 cup fresh Florida mushrooms, sliced
1/4 teaspoon salt
1/4 teaspoon summer savory
1 teaspoon lemon juice
Break green beans into 2-inch pieces and cook in boiling salted water 20 minutes or until tender-crisp; drain. Melt butter; add almonds and saute over medium-high heat until just golden. Add mushrooms and stir until mushrooms are warm. Add mushrooms and remaining ingredients to beans and serve. Serves 8. (Source: Florida Department of Agriculture)

Harvest Moon Calls For Festive Dinner

Festivals of thanksgiving for a bountiful harvest are international affairs. In China, the harvest celebration is combined with the birthday of the moon in the gala Harvest Moon Festival.

The date of the festival varies each year — according to the phases of the moon — but usually is celebrated in late September or early October with poetry, music, dancing and good foods.

Food served during the Moon Festival traditionally is round, imitating the moon. If you'd like to join in the fun, serve a festive dinner featuring moon-shaped pork which combines the Oriental flavors of soy sauce, ginger and water chestnuts. Serve with bottled Chinese hot mustard and sweet and sour sauce for dipping.

HARVEST MOON PARK (4 Servings)

- 1 cup short grain rice
- 1 pound lean ground pork
- 1 can (8 oz.) water chestnuts, drained, chopped fine
- 1/4 cup grated carrot
- 1 1/2 tablespoons minced green onion
- 1 tablespoon minced fresh ginger
- 2 tablespoons cornstarch

- 4 tablespoons soy sauce
- 1 tablespoon sherry
- 1 teaspoon Oriental sesame oil or cooking oil
- Salt and pepper to taste

Rinse rice in sieve under cold running water until water runs clear. Place rice in bowl; cover with cold water and let soak 1 hour. Drain thoroughly.

Combine pork and water chestnuts, carrot, green onion and ginger, mixing well. Combine cornstarch, soy sauce, sherry and sesame oil; add to pork mixture and blend thoroughly.

Spread drained rice on plate. Make balls about 3/4-inch in diameter from pork mixture; roll each ball in rice until well coated. Arrange balls about 1/4-inch apart on bamboo steamer tray lined with waxed paper. Steam, covered, 45 minutes.

Note: A vegetable steamer also may be used to cook Harvest Moon Pork; or a steamer can be improvised by placing a greased plate on a metal rack or inverted custard cups over about 1-inch of simmering water in a large, covered saucepan.

HARVEST MOON VEGETABLE SALAD (4-6 Servings)

- 1 small head cauliflower (about 1 pound), broken into florets

- 1 pkg. (10 oz.) frozen Chinese pea pods, thawed and drained
- 4 carrots, cut into julienne strips
- 1 tablespoon minced green onion.

Dressing:

- two-thirds cup salad oil
- 1/4 cup fresh lemon juice
- 1/4 teaspoon dry mustard
- 1/4 teaspoon crumbled tarragon
- Salt to taste

Garnish:

- Cherry tomatoes, halved
- one-third cup lightly crushed La Choy Chow Mein Noodles

Cook cauliflower in boiling salted water until tender-crisp, 5 to 7 minutes. Drain; rinse under cold running water to stop cooking; drain again. Cook beans in boiling salted water until tender-crisp, 1 to 2 minutes. Drain; rinse under cold running water; drain again.

Combine dressing ingredients in bowl or covered jar; beat well or shake to blend. Pour over salad and toss. Garnish with cherry tomatoes; sprinkle with chow mein noodles.

Ada Reynolds shares her recipe for a "real grandchild pleaser."

Herald Photo By Lou Childers

Cook Of The Week

Nurse A Great Cook, A Great Grandmother And A Great Artist

By LOU CHILDERS
Herald Correspondent

Ada Reynolds of Geneva says she's not retired, and she's not a "senior citizen". She is a great cook as well as a great grandmother. Ada was born in Pope, Miss., "in the house my father was born in", and she quips, "Our family was sort of like the Kennedys — our homes lit up the whole town. We just didn't have the money they did!"

After receiving her B.S. from the University of Tennessee, Ada graduated from Vanderbilt with a bachelor degree in Nursing Education and went on to spend 25 years working in public health nursing.

Oil painting, once a hobby for Ada, has now become her parttime business. She recently converted a guest bedroom into a "starving artist's studio" where she spends many hours with her oils and canvas, creating still life scenes.

It gives Ada a thrill, she says, to think that each of her seven grandchildren has several of her original paintings, and she adds, "One of the oil paintings in my living room was purchased years ago, and although it is now over 100 years old, it is still in good shape. I know the paintings I've given to my family will last that long, too."

Ada's busy life includes working a few hours a week at the Orangewood Feed and Tack in Oviedo, owned by her daughter and son-in-law, Pat and Wayne Johnson. Jean and Jack Kidder, Ada's other daughter and son-in-law, live in Rupert, Idaho, but that doesn't stop her from "dropping in for a visit".

Ada loves to travel, and is actively involved in her church, teaching a "seniors Sunday school class". This summer Ada's involvement at the Aloma Baptist Church and her love of traveling merged, and Ada found herself on a missionary journey to Haiti.

For 20 days in August, Ada assisted a Haitian clinic nurse, sharing as much of her American medical knowledge as she could in that length of time. While Ada was busy nursing, 21 other companions were involved in building projects and church training sessions.

Believe it or not, Ada still finds time in the kitchen to "satisfy a sweet tooth" or to whip up a family favorite such as Texas Beans. She says, Texas Beans, really chili, becomes a complete meal when you serve a tossed salad.

A real grandchild pleaser, according to Ada, is Easy Jello Parfait. The bright yellow, green and red jello layered in a clear parfait glass intermingled with whipped topping makes a colorful "festive dessert", the perfect ending for the heavier fall and winter meals.

Another classic recipe that Ada loves is Puerto Rican Pudding. It is in a tie for first place in the dessert category, second only to Ada's Fresh Apple Cake.

TEXAS BEANS

Soak a 12 ounce package of dry pinto beans several hours and pour off water. Cover beans with water, add 1 teaspoon salt and bring to boil. Reduce heat and simmer several hours until beans are tender.

Saute 1 large onion, chopped, in 1 tablespoon cooking oil. Add 1 1/4 pounds lean ground beef and cook until meat is brown. Add 1 package chili seasoning mix and 1 no. 2 can of tomato sauce. Simmer a few minutes and pour meat

mixture into beans. Mix well and simmer Texas Beans at least 30 additional minutes, or until cooked down.

EASY JELLO PARFAIT

Make 1 small box each lime, lemon and cherry jello according to box directions and allow to set until firm. Cut each flavor into small cubes. Layer into glass parfait dishes, lime first, cherry second, and lemon third, separating each flavor with non-dairy topping. Crown each parfait with a dollop of topping and a marachino cherry.

PUERTO RICAN PUDDING

- 2 cups flour
- 1 1/2 cups sugar
- 1 teaspoon baking soda
- 2 cups fruit cocktail (1 can)
- 2 eggs, beaten
- Sift flour, soda and sugar together. Add fruit cocktail with juice and the 2 beaten eggs. Pour into a greased and floured 9 x 13-inch pan and bake in a 325 degree oven 45 minutes to 1 hour. While still warm, cut cake into squares and pour icing over cake.

ICING

- 1 1/2 cups sugar
- 1 stick margarine
- 1/2 teaspoon salt
- 1/4 teaspoon cinnamon
- 1 cup undiluted canned milk

Mix all ingredients together in a pan and bring to boil. Cook for 2 minutes, stirring constantly. Pour immediately on Puerto Rican Pudding cake.

FRESH APPLE CAKE

- 1 1/2 cups salad oil
- 2 cups sugar
- 2 eggs
- 1 teaspoon salt
- 1 teaspoon baking soda
- 2 teaspoons baking powder
- 2 1/2 cups flour
- 1 teaspoon vanilla
- 1 cup chopped pecans
- 3 cups apples
- 1 teaspoon cinnamon
- 1/2 teaspoon allspice

Chop peeled apples and set aside. Measure salad oil into large mixing bowl, add vanilla, eggs, and sugar. Beat on low speed with electric mixer. Sift all purpose flour, measure and sift again with salt, soda, baking powder, cinnamon and allspice. Add small amount of flour mixture at a time to creamed mixture, and beat well after each addition. When all flour has been added, remove mixer and fold in raw apples and chopped pecans.

Pour into a well greased, lightly floured tube pan. Bake in a moderate oven (350 degrees) for 1 1/4 hours. (Turn oven down slightly if cake seems to be browning too fast.)

FRENCH COCONUT PIE

- 3 eggs
- 1 1/4 cups sugar
- 1 stick margarine
- 1 cup coconut
- 1 tablespoon vinegar
- 1 teaspoon vanilla
- pinch of salt

Cream margarine and sugar together. Stir in beaten eggs, coconut, vinegar, vanilla and salt. Pour into an uncooked pie shell and bake in a 325 degree oven for 1 hour.

Topping Off Falltime, Funtime With Caramel Apples

Falltime is also funtime when you bring together two alltime favorites — crisp and juicy apples and wonderfully delicious caramels. And the fun soon becomes a family affair when both the experienced and beginning cook make Caramel Apples at home.

PICKING THE APPLE OF YOUR EYE

Crisp and crunchy apples such as McIntosh and Jonathans are perfect for Caramel Apples — especially in the Fall when they reach their flavor peak.

When making Caramel Apples remember that beauty is more than skin deep. Choose apples with a smooth skin without any soft spots, which can end up as brown spots inside the apple.

Once you've selected the apple of your eye, handle with care to avoid adding any dents.

Apples like it real cool. Store them in the refrigerator or in another cool, dry place.

Wash apples before eating them. Dry apples carefully for Caramel Apples, so the melted caramel will stick.

HINTS FOR A PERFECT CARAMEL APPLE

Use low heat. Caramels and other sweet treats can scorch easily if heat is too high.

Cover the saucepan as the caramels melt. Uncover to stir, and once caramels begin to melt, stir often to prevent scorching.

Watch the caramels carefully. They will be slow to start melting, but once they start, they melt quickly and should be stirred constantly.

Stir caramels gently with a wooden spoon to keep air bubbles from forming.

Choose a deep 1-1/4 qt. saucepan to assist in dipping apples. Humidity can cause caramel to slip off apples. Choose a dry place to store completed caramel apples. Do not store more than a day or two.

Topping off the Fall with Caramel Apples is a simple and easy do-it-yourself way to enjoy a wholesome snack. Keeping a few tips in mind will help ensure a perfect treat everytime.

So what's keeping you from making Caramel Apples?

You will need:

- 1 14-ounce bag caramels
- 2 tablespoons water
- 4 or 5 medium size apples
- 4 or 5 wooden sticks

Take out:

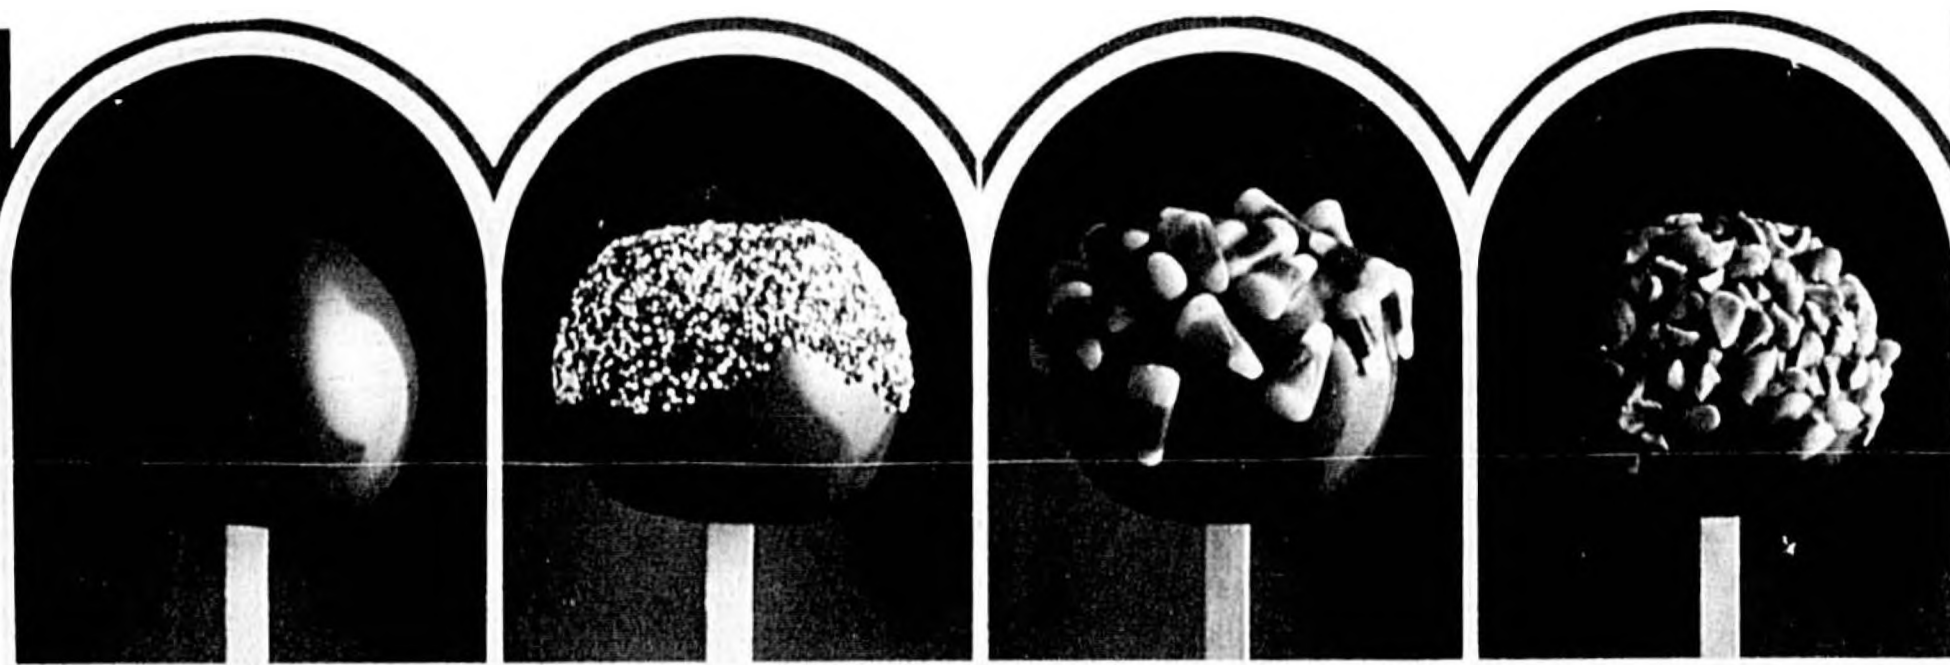

- Saucepan
- Spatula
- shortening
- wooden spoon
- wax paper
- cookie sheet

RECIPE FOR THE BASIC CARAMEL APPLE

1. Unwrap caramels. Place caramels and water in heavy 1-1/4 qt saucepan. Cover. Cook over low heat, stirring frequently until caramels are melted and sauce is smooth.
2. Place sheet of wax paper on cookie sheet. Lightly grease wax paper. Wash and dry apples. Insert wood stick into stem end of each apple.
3. Holding stick, dip apples, one at a time, into hot caramel sauce, turning until well coated. Scrape off extra sauce from bottom of apple with spatula. Place apples on greased wax paper.
4. Cool until caramel sets.

TOPPING OFF FALL VARIATIONS

To make a truly Fall Spectacular Caramel Apple, dip the coated apple in chopped nuts, candy corn or decorative candies before chilling. Don't hold back — express yourself through the topping you choose to add.

Marshmallow Ghosts Top Cake Squares

Trick or treat time is upon us once again! Treat your family or Halloween party guests to Chocolate-Peanut Butter Cake or Pumpkin Crumb Cake Squares. By using dessert mixes as the base for these recipes, the tricks have been removed from the baking task, and the ease of preparation gives you extra time for carving the jack-o'-lantern or greeting the evening's ghosts and goblins.

This month's baking tip from the Betty Crocker Kitchens explains the reason for turning down the sides of the paper-board cake pan, which accompanies some dessert mixes. The pan is strengthened once the sides are turned down, improving the height of the cake.

CHOCOLATE-PEANUT BUTTER CAKE

Prepare 1 package stir 'n frost devil's food cake mix as directed except — stir 1-3rd cup peanut butter chips into batter. Bake as directed; cool. Stir 1 tablespoon creamy peanut butter into frosting; frost cake. Top each serving with Marshmallow Ghost (below) if desired. 8 servings.

Marshmallow Ghosts: Cut 3 large marshmallows horizontally into halves; dip into sugar. Flatten with rolling pin; shape into ghost. Make eyes for ghosts by cutting small pieces of black shoestring licorice or use the chocolate frosting.

PUMPKIN CRUMB CAKE SQUARES

- 1 package Big Batch chocolate chip cookie mix
- Crumb Topping (below)
- 1 can (16 ounces) pumpkin
- 2 eggs
- 2 tablespoons orange juice
- 2 teaspoons pumpkin pie spice

Heat oven to 350 degrees. Grease and flour rectangular pan, 13x9x2 inches. Knead Flavor Packets about 10 seconds. Reserve 1 cup cookie mix (dry) and 2 teaspoons contents of 1 Flavor Packet. Prepare Crumb Topping. Mix remaining Flavor Packets, remaining cookie mix, the pumpkin, eggs, orange juice and pumpkin pie spice.

Spread half of the mixture in pan; sprinkle with half of the Crumb Topping. Spread remaining mixture over Crumb Topping. Sprinkle with remaining Crumb Topping. Bake until golden brown and wooden pick inserted in center comes out clean, 25 to 40 minutes. Cut into about 3-inch squares. 24 squares.

CRUMB TOPPING

- Reserve 1 cup chocolate chip cookie mix
 - 1 cup packed brown sugar
 - 2 tablespoons grated orange peel
 - Reserved 2 teaspoons Flavor Packet
- Mix all ingredients in small bowl with fork until moist and crumbly.

Microwave Magic

Baked Bread A Treat For Halloween

Baking and reheating of breads and rolls in the microwave oven is difficult for many people to understand and oft time is unsuccessful.

For instance; a roll can be heated in 15 seconds, and if heated 20-25 seconds, it may become tough and hard when it cools.

Time is crucial. Breads are porous and cook very fast in the microwave. The standing time is an important part of the cooking time as foods finish cooking during this time.

Concern about browning of breads may discourage some from using the microwave for this purpose. Breads do not brown similar to conventional cooking.

Because breads cook and heat so quickly, there is no time to allow for browning. To give color, coat with cinnamon, cinnamon and sugar, cocoa etc. Naturally colored dough presents no problem. Cook most breads uncovered.

If covered, they may become soggy. Cool on a rack and remove from the baking container as soon as possible. Grease the baking container sparingly.

If you haven't yet tried baking in the microwave, this Halloween Bread is a good choice. It cooks in one-fourth the conventional time and has good flavor and color.

HALLOWEEN BREAD
(1 loaf)

Midge Mycuff
Home Economist
Seminole Community College

- 1 1/2 cups sugar
- 2 eggs, beaten
- 1/2 cup veg. oil
- 3/4 teaspoon salt
- 1/2 teaspoon ground nutmeg
- 1/2 teaspoon ground cloves
- 1 teaspoon ground cinnamon
- 1 teaspoon soda
- 1 3/4 cups flour
- 1 cup pumpkin
- 1-3rd cup hot water
- Chopped pecans (optional)

Mix sugar, eggs, oil. Sift dry ingredients together and gradually add to egg mixture. Add pumpkin and water and stir until combined. Pour into a 1 1/2 quart glass loaf pan and cook in microwave for 8-10 mins. turn a quarter turn every 3 mins. Clean toothpick test.

Roast pork, acorn squash and chiffon pie combine for a festive dinner.

Go Festive With A Cozy Fall Dinner

On a cool day this season, invite some friends over and warm their spirits with a festive dinner. Take some classic recipes, but make them special with a few different ingredients and spices. (They won't make the preparation more difficult, just more tasty.) Set an elegant table, and a fall day suddenly becomes cozy.

Begin with a pork roast, glazed with an orange marmalade-ginger sauce. It will please the palates of even the most "light"-hearted eaters, since a 3 oz. serving of cooked, lean pork has only 206 calories. (And it's a great source of thiamin, as well as iron, zinc, protein and B vitamins.)

Baked acorn squash, adorned with apples, Smucker's high quality, fresh-tasting apple jelly and crumbled bacon bits, is a delicious side dish to your party pork roast.

Finish the feast with a scrumptious, easy-to-make strawberry chiffon pie. You'll send your guests away with a meal they'll remember for many cold days to come!

ROAST PORK WITH ORANGE GLAZE

- 4 to 5 pound boneless double loin roast, rolled and tied
- 1 cup Smucker's Sweet Orange Marmalade
- 1 clove garlic
- 1 piece (1 inch) whole ginger root or 1/2 teaspoon ground ginger

Fresh or canned fruit for garnishing, optional
Watercress or parsley sprigs for garnishing, optional

Place roast, lean side down, on rack in open roasting pan. Insert meat thermometer so bulb is in thickest part of roast, not touching fat. Bake at 325 degrees F. for 2 to 3 hours or until meat thermometer reaches an internal temperature of 170 degrees F. While roast is cooking, prepare glaze. Combine marmalade, garlic and ginger in a saucepan. Cook over low heat, stirring constantly, until mixture bubbles. Remove garlic and ginger root. Brush glaze over roast 2 or 3 times during the last 30 minutes of roasting. Serve any leftover glaze with roast, if you wish. Place roast on platter; garnish with fruit and watercress or parsley, if desired.

BAKED ACORN SQUASH

- 4 medium-size acorn squash
 - 8 slices bacon
 - 3/4 cup Smucker's Apple Jelly
 - 4 tart red cooking apples, cored and diced
- Cut squash in half lengthwise; scoop out seeds and discard. Place squash, cut side up, in a large baking pan. Pour about 1 cup of boiling water in the bottom of pan around squash. Cover pan with foil. Bake in a 325 degree F. oven for 1 hour. While squash is baking, cook bacon in a large skillet until crisp; drain on paper towels; cut or crumble bacon into bits. Discard all but about 2 tablespoons bacon drippings from skillet. Heat apple jelly in skillet with drippings until melted. Remove from heat; stir in apples. Uncover squash; fill cavities with apple mixture. Continue to bake 15 minutes or until squash is fork-tender. Sprinkle with bacon bits just before serving.

STRAWBERRY CHIFFON PIE

(Makes 8 servings)

- 1 envelope unflavored gelatin
 - 2 tablespoons cold water
 - 1 1/2 cups Smucker's Strawberry Preserves (16-ounce jar)
 - 3 tablespoons lemon juice
 - 1/2 teaspoon salt
 - 3 egg whites, at room temperature
 - 1 cup heavy cream
 - 1 baked and cooled 9-inch pastry shell
- Whipped cream and mint sprigs for garnishing, optional
- In a small sauce pan, sprinkle gelatin over cold water; let stand 5 minutes to soften. Dissolve over very low heat, stirring often. Remove from heat; stir in preserves, lemon juice and salt. Refrigerate until mixture mounds slightly, about 30 minutes. Beat whites in a small bowl until stiff; fold in strawberry mixture. Whip cream in a large bowl; fold in strawberry-egg white mixture. Chill mixture until it mounds slightly, about 15 minutes. Spoon mixture into pastry shell. Refrigerate until filling is very firm. Garnish with whipped cream and mint sprigs, if desired.

SEAFOOD GUMBO—CAJUN STYLE

- 1 pound skinned, boneless fish fillets, fresh or frozen
 - 3 cups water
 - 2 teaspoons salt
 - 1 clove garlic, minced
 - 1 large onion, chopped
 - 1 large green pepper, diced
 - 2 tablespoons margarine
 - 1 can (16 ounces) tomatoes
 - 1 package (10 1/2 ounces) frozen cut okra
 - 1/4 teaspoon liquid hot pepper sauce
 - 1/2 teaspoon sugar
 - 2 teaspoons chopped parsley
 - 1 bottle (8 ounces) clam juice
- Cooked rice or crusty bread
- Thaw fillets if frozen. Cut fish into 2-inch cubes. Place fish in a large pot; add water and salt. Bring to boil and simmer 10 minutes. Drain and remove fish, reserving stock. In pot add garlic, onion, celery, and green pepper to margarine and saute until tender. Add tomatoes, okra, and reserved fish stock to sauteed vegetables. Simmer covered 30 minutes. Add pepper sauce, sugar, parsley, clam juice and fish cubes; simmer covered 3 to 5 minutes. Serve over rice or with crusty bread. Makes 4 to 6 servings. For additional free recipes, write: Seafood—DNR, 3900 Commonwealth Blvd., Tallahassee, FL 32303.

HOROSCOPE

By BERNICE BEDE OSOL

For Thursday, October 21, 1982

YOUR BIRTHDAY
October 21, 1982
This coming year is likely to be an extremely busy one for you because of the many new and exciting interests in which you will become involved. Much travel is also indicated.

LIBRA (Sept. 23-Oct. 23)
This is one of those days where the more you have to do, the better you are likely to perform. Set up a busy schedule and you'll stick to it. Available: the new Astro-Graph Matchmaker wheel and booklet which reveals romantic combinations, compatibilities for all signs, tells how to get along with others, finds rising signs, hidden qualities, plus more. Mail \$2 to Astro-Graph, Dept. M, Box 489, Radio City Station, N.Y. 10019.

SCORPIO (Oct. 24-Nov. 22)
Lady Luck tends to favor you today indirectly, rather than openly. In fact, some good things may happen that you'll not be aware of now.

SAGITTARIUS (Nov. 23-Dec. 21)
You're a bit of a dreamer today, but that which you envision has practical possibilities and ways can be found to bring your imaginings into being.

CAPRICORN (Dec. 22-Jan. 19)
You must do what you feel intuitively to be best for yourself and those you care for today, instead of doing the obvious — which might fail.

AQUARIUS (Jan. 20-Feb. 18)
Today is a day which offers great promise for you, provided you act in accordance with your highest ideals at all times.

PISCES (Feb. 20-March 20)
Continue to focus your efforts on meaningful goals, regardless of how difficult you may feel they will be to achieve. You could be pleasantly surprised.

ARIES (March 21-April 19)
Involvements requiring a team effort or partner hold more promise for you than things which call for independent actions.

TAURUS (April 20-May 20)
Take pride in your work and be willing to do more than asked of you today. Your efforts and contributions won't go unnoticed or unrewarded.

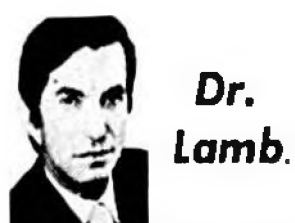

GEMINI (May 21-June 20)
Your self-interests can be substantially advanced today if you think in terms of "we," not "me." It's to your advantage to be a team player under all conditions.

CANCER (June 21-July 22)
You're a good starter today. You're also a strong finisher who has the wherewithal to complete several projects if you choose to.

LEO (July 23-Aug. 22)
Things won't be dull or slow-paced today where you desire to make your presence felt. The action starts when you arrive.

VIRGO (Aug. 23-Sept. 22)
Continue to stay on top of matters important to you materially. It is in these areas where you could be luckier than usual.

Injuries Often Cause Seizures

Dr. Lamb.

DEAR DR. LAMB — I wanted to comment about my seizures after having read your column about injuries. I'm 46 years old, female, and have been married 26 years. When I was 18 and a senior in high school I received a head injury and was hospitalized for nine days. A week later I experienced seizures. I had all the tests and doctors agreed the seizures were due to the head injury and that it was a form of epilepsy. I was put on medications to control the seizures. I had many seizures for 19 years. Then I became seizure free and for nine years I have had none, even though I take no medications.

In fact some of our most famous people have been epileptics, such as Julius Caesar. You'll appreciate this more when you read The Health Letter number 10-8, Epilepsy: You Can Have It, Too, which I am sending you. Others who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

My parents' and fiancée's attitude made it possible for me to cope and accept my condition. God granted me two births and both were healthy. My husband and children made me strong by not overprotecting me and by showing no pity. I have always felt that I am a normal person. With the help from loved ones I acquired this outlook.

DEAR DR. LAMB — My wife and I have been taking vitamin C for quite some time and I have been bothered about as long with stomach acid. We were taking 500 mg every other day. Recently when I was shopping the store was out of 500 mg tablets so I got 800 mg tablets. Soon my problems with stomach acid seemed worse and I had to keep taking antacids.

DEAR READER — Thank you for sharing your experience with others. Your letter points up again that injuries can be a cause of seizures. Epilepsy is often caused by brain damage, which can be from birth, automobile accidents or brain damage from strokes.

We decided to stop taking the vitamin C for a while and now neither my wife nor I is bothered with acid stomach.

Your story also shows that seizures may not be a permanent way of life. However, no person with seizures should ever stop medicines on his own. Doctors sometimes try to cut down the dose of medicines and gradually withdraw in cases where that seems possible. It doesn't always work.

A vitamin C tablet left in the mouth for an instant or two before being swallowed leaves a burning acid feeling on the tongue. I'm quite sure the vitamin C was at least part of our problem. Since a lot of people have stomach acid I thought you might want to mention this.

DEAR READER — Thank you for your comment. Yes, vitamin C is an acid. And taking large amounts of it may cause burning in the stomach in some people — not all. The same is true of many citrus fruits. A good approach is to have your citrus fruits and juices with or just before your meal so its acid contents will be diluted with the rest of your meal.

DEAR READER — Thank you for your comment. Yes, vitamin C is an acid. And taking large amounts of it may cause burning in the stomach in some people — not all. The same is true of many citrus fruits. A good approach is to have your citrus fruits and juices with or just before your meal so its acid contents will be diluted with the rest of your meal.

WIN AT BRIDGE

spade bid. Not that it isn't a good contract in theory, but rather that I know all missing aces are right in back of my kings."

After that thought, South might well find a way to get his 10 tricks. He starts by playing a second trump. Both opponents follow and things are looking up. Now South goes after diamonds. West wins the second diamond and leads the suit back. South wins in his own hand and things look a lot better. In fact, South really expects to make one of his four losers disappear.

He leads his deuce of clubs. If West takes his ace, South will get to discard one heart loser on dummy's club queen, so West ducks.

South is in dummy with the queen. He comes to his hand with a trump, plays his last diamond and discards a low club from dummy. Then he leads his king of clubs.

West takes his ace. It is his turn to wish he had his life to live over, since he must either lend a heart to establish South's king or a club to give South a ruff and discard.

Malignant Melanoma More Deadly In Blacks

CHICAGO (UPI) — Whites are more likely to contract the form of skin cancer known as malignant melanoma, but the disease attacks blacks in a more "vicious" manner and causes a higher death rate, a new study shows.

Malignant melanoma, a cancer of the pigment-producing cells of the skin, accounts for 1 to 3 percent of all cancers. It is the only form of skin cancer of great consequence to the rest of the body because it starts in the skin and spreads into internal organs.

Dr. Hilliard F. Seigler, a surgery professor at Duke University School of Medicine, reports in this week's edition of the Journal of the American Medical Association, malignant melanoma 20 times more frequent in the American white than black population.

"But once it occurs in blacks, it's more vicious, more aggressive, has a higher death rate. But no one knows why," he said.

Seigler, Dr. Douglas S. Reintgen and colleagues conducted a study from 1972 to 1982 of 2,581 patients with malignant melanoma.

When first seen by physicians, 31 black patients identified in the study had more advanced stages of disease and more deeply invasive tumors than white patients.

Five years after diagnosis, only 23 percent of the black patients were still alive compared to more than 50 percent of the white patients.

When statistics were controlled for variables such as sex, age, site of the tumor and stage of disease at diagnosis, survival rates for blacks still remained significantly lower than for whites.

"Tumors may behave differently in different races," said Dr. Edwin B. Cox, co-author of the article.

"One theory has been that for some reason, black patients just have less adequate defense mechanisms" to protect the body against cancer — such as white blood cells and antibodies, he said. That also is true in other types of cancer, such as prostate cancer.

In blacks, malignant melanoma occurs only on certain parts of the body.

"The other curious thing is that in blacks it tends to occur under the fingernails and the soles of the feet. Those are areas not protected by pigment in the blacks," Cox said.

In whites, the disease is not limited to certain parts of the body but most commonly occurs on the legs of females and on the chest and back of males.

The cancer begins in the pigment-producing cells known as melanocytes.

"And obviously, we don't have as many of those cells in our body as the blacks do. And we're trying to see why it should be of so low frequency in blacks, as compared to whites and ... if we can detect why it's so much more aggressive in blacks than whites."

"We're just not able to distinguish why."

Aye, Aye... Ma'am?

CLEARWATER BEACH (UPI) — Rosalie Stribling gave up a career as an executive secretary 12 years ago to become one of the first female charter boat fishing captains working out of Clearwater Beach.

Now one of the most successful — male or female — at the marina, she has been joined by three other women charter boat captains.

But Rosalie runs her boat 'Li' Tiger alone, using just a deck hand for crew.

The other three licensed women captains work boats with their husbands, who are also captains, but two of them do on occasion take their boats out with only a deck hand.

Terri Howard was a student from Ohio State vacationing at Clearwater Beach 10 years ago when she met her husband, Richard. He was working as a deck hand on a charter boat on which she hitched a ride. Five weeks later they were married and now they operate their own boat, Southern Star.

Further down the row of boat slips, Lin McNuff captains the Gypsy along with her husband Russ, while Sue Foster captains the Gulfstream with her husband Max.

"It's not unusual to find women on charter boats now," Rosalie said. "There are some working now as deck hands, too, and one is a captain of a charter sailboat here."

Rosalie and Terri both report charter boat business doing well this summer, although some of the other boats have been reporting a decrease because of the hot weather and possibly reflecting the economy.

"It's been good for us, although basically it has been slow," Terri said. "The fishing has been really good, but at certain times there don't seem to be many people around."

"My business has been great," said Rosalie. "I have repeat customers."

"The key is not always producing (fish)," she said. "The key is how you treat the people on the boat. If they feel comfortable or at home they have a good time."

"Even if we fail to catch very many fish, I want my customers to have pleasant memories of the trip," she said.

"We want our customers to have fun," Terri said. "We're not out to compete with the commercial fishermen. We want the people to enjoy themselves. That's what

sports fishing is all about." Most charter boats operating out of the Clearwater Beach Marina charge \$225 for a half day or \$350 for a full day for up to six people. For that price all the customer has to do is bring his own food and drink. The captains provide the ice, fishing gear and bait, and help land the fish.

"Once in a while someone will tell us that some boat down the line will take them out for less money but I just tell them to remember that cheaper doesn't mean better," Terri said. "If they drop the price, they're not going to take you out as far."

When Richard is driving the Southern Star, Terri is on deck telling the customers — many of whom are making their first deep sea fishing trip — how to hook up the special bait that holds the rod, what to look for when the fish strikes and how to reat.

After bailing up the hooks, or attaching artificial lures, she casts them out, then hands the rod to the fisherman and steps back.

Once he hooks onto a fish, she shouts encouragement and advice and stands by to gaff the fish and haul it on deck.

Back at the dock she works at cleaning the boat while Richard dresses the fish for the customer.

"I haven't found a lot of prejudice against women captains," Terri said.

Legal Notice

INVITATION TO BID

Sealed bids will be received in the City Manager's Office, City Hall, Sanford, Florida for: 1. Sewer Force Main Construction Materials 2. Water Distribution Materials 3. 6" Well Point System — Less Pump 4. Diaphragm, Trash and Centrifugal Pumps 5. Tapping Machine 6. Hydraulic Rot Cutter with Saw 7. Chlorine Analyzer with Auto-Gas Chlorine Feed Detailed specifications are available in the City Manager's office, City Hall, Sanford, Florida. The sealed bids will be received in the City Manager's office, Room 203, City Hall, Sanford, Florida not later than 1:30 P.M., Wednesday, November 3, 1982. The sealed bids will be publicly opened later that same date at 2:00 P.M. in the City Commission Chambers, Room 117, City Hall, Sanford, Florida.

The City of Sanford reserves the right to accept or reject any and all bids or any portion thereof in the best interest of the City. The City of Sanford further reserves the right to award bids on a per category basis within an individual bid request, when practical.

Steven D. Harriott Acting City Manager CITY OF SANFORD, FLORIDA Publish: Oct. 20, 1982 DEA 77

Legal Notice

THE BOARD OF COUNTY COMMISSIONERS THE COUNTY OF SEMINOLE Separate sealed proposals for RFP No. 18, for furnishing one (1) micro computer word processing system, will be received in the Office of the Purchasing Director, Seminole County Services Building, 2nd Floor, Corner of 1st Street and Park Avenue, Sanford, FL 32771, until 2:00 P.M., local time, November 3, 1982, at which time proposals will be opened and read aloud.

Specifications are available in the Office of Purchasing at no charge. Proposals will be sent to vendors of record.

Only those proposals following the criteria as outlined in the RFP package will be considered.

The County reserves the right to reject any or all bids with or without cause, to waive technicalities, or to accept the bid which in its judgment best serves the interest of the County. Cost of preparation of this bid is considered an operational cost of the bidder and shall not be passed on to or borne by the County.

Persons are advised that, if they decide to appeal any decision made at this hearing, they will need a record of the proceedings, and, for such purpose, they may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

Diaphragm May Aid Growth Of Deadly Toxic Shock Bacteria

BUFFALO, N.Y. (UPI) — Prolonged retention of a diaphragm may increase a woman's risk of toxic shock syndrome, the sometimes-fatal illness previously linked to tampons, a new study says.

The study, headed by Dr. Elizabeth Baehler of the State University of New York at Buffalo, found that wearing the diaphragm for a long period of time increased growth in the cervix and vagina of staphylococcus aureus, the bacteria implicated in toxic shock.

"It is recommended by manufacturers of diaphragms they be worn at least six hours following sexual intercourse, and no longer than 24 hours," said Dr. William Dillon, the co-author of the study and an assistant professor of obstetrics and gynecology.

Dillon said to be on the safe side, until additional research clarifies the situation, women should remove the device within 12 to 8 hours.

Despite the bacteria growth, none of the women in the study developed toxic-shock symptoms, the researchers said.

Previous studies have shown super-absorbent tampons, when retained for prolonged periods, increase the risk of toxic-shock syndrome. Some doctors have suggested diaphragms may be linked to the disease, but the study provides the first known evidence linking toxic-shock bacteria to the birth-control device.

Dillon said researchers believe toxic-shock syndrome is caused by toxins produced by certain strains of staphylococcus aureus. The toxins normally are removed from the lower genital tract by menstrual and other vaginal secretions.

Tampons, as well as the diaphragm, block their exit and enable the poisons to enter the blood supply through breaks or ruptures in the mucous membrane.

WEDNESDAY SPECIAL.

GOOD ALL DAY

Jerry and Margurette Sullivan, owners of Famous Recipe, proudly announce the opening of the new Famous Recipe next door at 1905 S. French Avenue, Wednesday, October 20, 1982. The site was selected for the convenience of our good and faithful customers over the past ten years.

Famous Recipe of Sanford was opened May 2, 1972, the first Famous Recipe in Florida and the south. It was billed as "The Taste That Made The South Love Chicken." Within eight months after opening, the taste was liked so much that the Sanford restaurant was pushed to No. 4 in a chain of 110 units. During the past ten years the Sullivans have received top line awards for service and sales. Then in 1980 the unit was No. 6 out of 224.

During his nearly 15 years with Famous Recipe, Jerry has been directly involved in the opening of 11 Famous Recipe units and feels this No. 72 is the most fun so far. This is the sixth restaurant Jerry and Margurette have opened for operations themselves.

The parent company, Shoney's, Inc. of Nashville, Tenn., recently changed the building image to capture the country farm house effect. A new concept for chicken fast food restaurants. The large dining room will seat 56 customers in cool comfort and the large parking lot with Tak-A-Way window will be more convenient for our many customers and allow the police person, who assisted for safety, to be home with his family during our Wednesday special.

Jerry and Margurette wish to thank the loyal employees for all their help in making this new building a reality and the customers for their continued support in making a dream come true.
