House Committee Approves Increase On Income, Gas Tax

Program Would Also Make Corporate Dividends Subject To Income Tax Rates

WASHINGTON, May 22.—(A.P.)—On a quick 3 to 2 vote, the House today approved a program increasing income and gasoline taxes and making corporate dividends subject to the income rates.

Devised to finance the \$300,000,000 public works employment bond issue, it would lift normal income tax rates from four to six percent on incomes of \$4,000 net and less and from eight to ten percent on all above \$4,000—estimated to yield \$48,000,000; subject dividends from corporate stocks to income tax rates, estimated to yield \$83,000,000 and levy an additional tax of three-fourths of one cent a gallon on gasoline to bring in \$92,000,000 for a total of \$223,000,000.

In deciding upon this program the committee rejected the proposed general manufacturers excise tax of one and one-fifth percent which was estimated would net \$228,000,000.

The committee also rejected the so-called breakfast tax and proposed to lower exemptions on existing amusements admission tax.

First Detachment Of Forestry Army Arrives In Ocala

OCALA, May 22.—The first detachment of Civilian Conservation Corps workers assigned to the Ocala national forest camp, east of Ocala, arrived here Saturday and immediately prepared to erect shelter and lay out the camp. The men, about 180 in number, came here from Fort Benning, Ga., near Columbus.

The camp site is on the east bank of Milliam Lake on the Daytona Highway, 18 miles east of here. It is on the edge of the national forest, on property leased to the government by individuals at a dollar a year.

Capt. J. N. Groves of the Eighth Regiment, U. S. Army, came here from Fort Scriven, Ga., near Savannah, early this week to make arrangements for establishing the camp. He has been assisted by E. W. Hadley, forest supervisor, of Lake City, and M. G. Howard, principal forester of the Ocala national forest.

Eventually it is expected that there will be 228 men stationed at the camp here.

The detachment consisted of three infantry officers, a medical officer, four regular Army enlisted men and 144 forestry workers. In charge of the group was Capt. E. J. Roth, of the Twenty-Ninth Infantry of Fort Benning, Ga. Other officers are Capt. Tracy Davis, Lieut. Frank G. Marshall and Lieut. C. P. Ward, medical officer.

\$12,250 COLLECTED FROM TAX

A total of \$12,250 has been collected at the City Hall from nine local persons selling beer and light wines within the City limits. It was stated today by Tax Collector E. H. Hester that a further drive will be made on all establishments now doing business without a license, and that arrests will follow if necessary to drive licensees to collect.

WRITER NOT WAITER

MEMPHIS, Tenn., May 22.—(A.P.)—Gene Travis, Memphis newspaper man, appears in the city directory as a "waiter," not a "writer," as he is told an agent. Now the publishing company is endeavoring to employ all over town, but in a correction in every directory.

IL DUCE PEACE PACT O. K'D BY FOUR NATIONS

New Agreement Would Give Europe 10-Year Minimum Of Peace; Germany Approves

ROME, May 22.—(A.P.)—Mussolini's four-power pact, designed to give Europe a minimum of 10 years peace, was informally agreed upon yesterday by France, England, Germany and Italy.

Initiating of the pact may be done today at Geneva by the British foreign secretary, Foreign Minister Paul-Boncour, of France, Rolf Nadelny, German delegate, and Baron Aloisi, representative of the Italian government.

The formal signing of the agreement would take place later at Rome. The British ambassador, Sir Ronald Graham, and the French ambassador, Henry de Jouvenel, after long audiences with the duce yesterday telegraphed the first text of the pact to their governments.

The honor of making the formal announcement of the agreement will fall to the duce as author of the plan. The announcement will probably take the form of a solemn statement to the world either immediately after the meeting of the Fascist grand council Monday night or in the chamber of deputies later in the week.

Thus has a rapid series of events set in motion by President Roosevelt's initiative Tuesday brought Europe in less than a week into an understanding which according to Premier Mussolini may lead to world peace and reconstruction.

Yesterday's agreement, in the view of Italian authorities, will clear the atmosphere for the world economic conference allowing the nations to consider economic cures with their feet on solid ground politically for the first time in years.

It is "felt in diplomatic circles" that the four-power agreement will greatly increase the chances in favor of the success of the London conference and may mark the beginning of a new era of European progress.

Agreement on the Mussolini pact was reached after two months of negotiations, as it was Mar. 21 when Prime Minister MacDonald left Rome after two days conversations with the duce on the subject.

The latest stumbling block to agreement was a German objection to French armaments, but the Germans have withdrawn.

Sanford Celery Is On Menu At Big Banquet

Sanford celery occupied a prominent place on the menu of choice Florida foods set before Governor and Mrs. Davis Shultz and scores of Florida's legislators and newspapermen who were guests of Robert Kleoppe, Jacksonville hotel proprietor, at a banquet on the roof garden of the Mayflower Hotel last Saturday night.

City Commissioner and Mrs. H. J. Lehman, Representative and Mrs. R. J. Holly, and Mr. and Mrs. George W. McRory, all of Sanford, were among the guests at the affair, and each couple today exhibited a souvenir booklet that Mr. McRory said would remain as an interesting remembrance of an outstanding occasion. More than 400 persons enjoyed the banquet, entertainment, and dance which Mr. Kleoppe provided together with a generous quantity of choice imported light wines and beer.

WALTON EXECUTIVE DINE

SIOUX FALLS, S. D., May 22.—John B. Bradford, vice president of the Bank of America, died at his home last night, following a short illness.

United States Abandons Policy Of National Isolation In Dealing With Foreign Nations On World Affairs

GENERAL SALES TAX APPEARS AS CERTAINTY IN '35

Measures Passed By Legislature Leave No Other Way Out

TALLAHASSEE, May 22.—Passage of bills now before the Legislature and the adoption of a homestead exemption constitutional amendment by the people will force the 1935 Legislature to vote a general sales tax, Governor Shultz admitted yesterday.

The measures may believe will tear down the tax structure of the state and counties and so curtail tax revenue as to make a sales tax inevitable two years hence as follows:

A constitutional amendment, approved by the House and Senate, that exempts from all taxation homesteads assessed at \$5000 or less.

A Senate bill that repeals the enforcement sections of virtually all tax collection laws, now on the House calendar.

A Senate bill allowing delinquent taxpayers five years at only five percent penalty to pay all delinquent taxes and an additional 15 years, at the end of that time, in which to remain on the delinquent list.

A series of bills extracting the teeth from many of the tax certificate laws.

"What will be the effect of bills of this type?" the Governor was asked.

"You are correct in assuming that such measures will eventually force a sales tax in Florida," he replied. "The bills, plus the constitutional amendment that is certain of adoption by the people, will make it impossible to collect such taxes from real estate to finance the government and the schools."

In spite of his feelings regarding the bills, Governor Shultz was not wavering in his determination to avoid a sales tax at this session of the Legislature.

"I am opposed to a sales tax," he said, "because I am convinced that the process would be dumped into the sinkhole that now gets so much governmental expenditures. It would be an additional burden and not a form of relief."

NOMINATION APPROVED

WASHINGTON, May 20.—(A.P.)—The nomination of Harry L. Hopkins of New York to be federal relief administrator under the recently enacted \$500,000,000 unemployment aid program was approved today by the Senate banking committee.

Sanford Refutes Story Kissimmee Has Largest Zoo In Whole State

"Kissimmee may have one of the finest zoos in Florida but by no means does it have the largest," said Superintendent of Parks James Moughton today in answer to news stories carried in Florida papers recently to the effect that the Kissimmee zoo is both the largest and finest in Florida.

Trade body officials called Mr. Moughton's attention to this story, and he at once began checking up with the result that Sanford has by actual count a zoo that has nearly twice as many animals, birds, and reptiles as the zoo at Kissimmee.

Where Kissimmee has 123 animals of various kinds, Sanford has 127. Kissimmee reports 21 reptiles while Sanford has 62. Kissimmee is proud of 62 birds of varied plumage, Sanford is privileged to see 170 birds on display in its zoo. Further, Sanford has a special display of 18 large gold fish where Kissimmee reports no fish.

Whimsical Measures Are Introduced And Passed By Many State Legislatures

CHICAGO, May 22.—(A.P.)—While state legislatures this year generally were occupied with emergency measures dealing with the economic situation, some more whimsical statutes were written on the law books.

The machinery of the Arizona Legislature was required to change the spelling of the state's official flower from "Saguaro" to "Saguaros."

Minnesota legalized the use of artificial light in sparing fish. North Dakota's legislature approved a resolution calling for a second laying of the cornerstone of the new state house containing the first laying, at which former Vice President Charles Curtis presided, was "defunctual."

Pennsylvania legislators passed a bill making it lawful for their constituents to fish on Sunday in the Delaware River, where the

Plans To Be Made For All-Day Flag Regatta June 15

When members of the Seminole County Chamber of Commerce's Special Events and Celebrations Committee met at the City Hall tomorrow afternoon at 1:45 o'clock they will enter a discussion of plans for the staging of an all-day celebration, here on Thursday, June 15. The day will be known as Flag Day, and the features will include a water regatta and base ball game at Municipal Park.

Under a tentative plan, the regatta opens at 12:30 o'clock when decorated yachts and other craft pass in review before Municipal Pier. At 3:00 o'clock H. M. Parworth is scheduled to present the City with a large American flag.

At 1:15 o'clock the new motor freighter "M. S. Orlando" will be dedicated by members of the Orlando Junior Chamber of Commerce. At 1:45 o'clock, there will be aquaplane and water ski races to be followed by speedboat races in one of six speedsters, Class "A," "B," and "C" outboard races, and sail boat and rowboat races, including races between various Boy Scout troops.

At 4:00 o'clock Sanford will meet New Smyrna in a regularly scheduled Central Florida Baseball League game at Municipal Park.

The plans as outlined are only tentative. They may be augmented, trade body officials state, for there are 31 members of the committee, and valuable suggestions are expected to be forthcoming.

Lake Mary Scouts To Stage 3-Act Comedy

Troop No. 1, Boy Scouts of America at Lake Mary will stage a three-act comedy, "Coming Clean," at the Lake Mary Chamber of Commerce building tomorrow night at 8:00 o'clock. It was announced today.

The play is directed by Dick Skewes who is a member of the cast together with Harry Darrow, Barto Hutchison, Raymond Anderson, James Cochran, Floyd Toeh-stons, Roy Howell, and Miss Oris Saunders, who is the only girl in the play. Proceeds will be used for the improvement of Scouting conditions at Lake Mary.

STEPS BEGUN BY LEGISLATURE ON BOND PROBLEMS

Senate Takes Up Consideration Of Debt Relief Legislation

WASHINGTON, May 22.—(A.P.)—Representative Wilson told newspapermen today that he has been advised that President Roosevelt would not object to the enactment of his municipal bankruptcy bill.

TALLAHASSEE, May 22.—(A.P.)—The Senate today began the consideration of legislation designed to enable Florida cities, counties, and districts to adjust their \$800,000,000 public bond debt—a matter which Governor Shultz termed the most important issue before the Legislature.

The Senate gave its first attention to its committee substitute for the original administration debt funding bill placing the measure ahead of the Beacham bill which embodied the plan of the Florida League of Municipalities and had prior position on the calendar.

The House continued its study of a bill to fix the compensation of county officials and the Senate amended and passed the House substitute for the original Senate bill reducing state officials' salaries some 20 percent.

Before resuming after the weekend recess, the House sent its rules committee to the Governor to advise him it will give prompt attention to major legislative measures which he called to the Legislature's attention in last Friday's message.

Police Seek Queer Pair Who Tried To Kidnap Little Girl

DENVER, May 22.—(A.P.)—Police today were searching for a woman who, half-clad and accompanied by a nude man, attempted to abduct Betty Lee (Dell), 8, from her bed early yesterday morning.

Grabbing the girl by the neck and muffling her cries with one hand, her weird assailant, described by Betty as having long black hair falling to her waist, dragged the little girl through the back door of the home of her parents, Mr. and Mrs. R. L. O'Dell, to the back yard where the naked man stood waiting.

Sudden screams of the girl's brother, Elwood, 14, who witnessed the abduction, caused the couple to drop Betty and flee.

Except for another small girl, a friend of Betty and a seven-month-old baby, the children were alone in the house while their parents attended a party.

Elwood said he was awakened by the sound of the woman tearing a screen from a living room window. He peered down the hall, he said, and saw the woman—wearing only a pair of bloomers and bearing a flashlight—enter the girl's room.

The boy said he followed as she carried his sister through the kitchen. When he saw the man, entirely unclothed, waiting in the back yard, he screamed. The couple dropped Betty and ran down an alley, he said.

Officers were summoned by neighbors who heard the boy scream in the back yard they found several bare foot marks.

LEGION WILL MEET

W. H. Shepherd, commander of Campbell-Lanning Post of the American Legion today announced that there will be a Legion meeting at the Legion Hut tonight at 8:00 o'clock. The meet will be featured by a full report on the recent state Legion convention in Havana, and Commander Shepherd promises some interesting and illuminating slide-light on conditions in the Cuban capital as he saw them.

Rights Of Neutrality During Aggressive Foreign War Would Not Be Insisted On

GENEVA, May 22.—(A.P.)—President Roosevelt's peace message was translated into a program of action at the disarmament conference today when the United States virtually offered to abandon its traditional policy of isolation.

Norman H. Davis, American ambassador at large, told the nations of the world that his government would consult with them when peace is menaced.

If the United States agrees with the other countries concerning the identity of an aggressor nation, he promised Washington will refrain from any action of a nature to hinder collective efforts to restore peace.

This doctrine, considered by the League of Nations as an abandonment of America's traditional policy of isolation, was announced in an eagerly awaited speech this afternoon.

The doctrine is taken to mean that when nations take punitive measures against an aggressor the United States, if it agrees to the identity of the aggressor, will not insist upon rights of neutrality.

Davis also announced that the United States advocates a system of control and supervision of armaments and said American readiness to participate in measures for this control would be effective, automatic and permanent.

Inferentially opposing a frank revision of treaties, the American ambassador-at-large urged maintenance of a territorial status quo. He revealed that his country declines an aggressor as one whose armed forces are found upon foreign territory in violation of treaties.

He also announced that the United States is opposed to the disarmament of any nation and declared in favor of the abolition of offensive arms.

Turning to the Versailles treaty and its consequences, Davis expressed the conviction that there is a contractual obligation for armed nations to reduce their armaments to the defensive level which would be comparable to the level to which vanquished powers were obliged to reduce their armaments by peace treaties.

Circuit Court Spring Term Opens Tuesday

Spring term of Circuit Court lected shortly after Court opens, will convene at the Court House here tomorrow morning at 10:00 o'clock when Judge Millard B. Smith, of Titusville, will swear in a grand jury that is to be sworn.

A total of 20 cases of alleged law violation that appear to be serious enough for grand jury action are ready for presentation by States Attorney L. P. Boyle. Nine of the cases are against white persons, and crimes range from murder to cutting fences and otherwise destroying public property.

The following persons have been called for jury duty: H. H. Patti-hall, T. J. Bratty, R. C. Strong, H. C. Parker, S. C. Richie, W. H. Pope, C. A. Whidden, D. B. Levy, W. W. Wilson, Roy Symes, Percy G. Dodd, G. M. Shipp, J. B. Little, T. B. Rumbley, J. S. Early, W. J. Lawton, T. L. Lingo, P. C. Mac-Mabon, O. M. Parker, M. L. Long, J. N. Thompson, W. H. McCasaba, Joe Tuck, Harry Weeks, R. A. Wilson, Edward Toffley, Albert Buch, Ralph King, P. B. Dooley, James Wilson, P. A. Mora, B. F. Wheeler, and M. O. Johnson.

Emil Yde, Former Pirate, To Hurl Against Feds Here At Municipal Park Tomorrow

Emil Yde, former Pittsburgh Pirate and Detroit Tiger hurling ace, will pitch against the Sanford Coteriffs for his Leesburg Bruins at Municipal Park here tomorrow at 3:30 o'clock.

Realizing that his team, now in fifth place, must snap out of a slump if it is to get started on the road to the first half pennant, Manager Yde will essay the role of spark plug for a machine that combines plenty of potential power at bat and in the field. Despite the fact that he lost his first start against Orlando some day ago, Yde, who has been working out twice daily since, now believes himself in shape for a full nine-inning game against the best club in the league, the Feds.

The Leesburg team that comes here tomorrow is far and away different from that which opened the season. In the addition of Charlie Pope of Lakeland, Skeeter Dull, formerly of DeLand, and Edison Hayes, recently of Ocala, the Bruins have taken on three competent sluggers to add to hitters like F. Pennington, Medlin, Chamberlain, and Ivey.

The club pounded out 16 hits at Cocoa on Thursday to indicate that there is danger in every bat, and, with Yde on the mound, hurling from the left side against the Feds, local fans may expect action and excitement from the word go.

The Feds enter tomorrow's game as winners of six straight games and league leaders by a full game over the Islanders. The club continues in second place in team batting and first place as fielders, while three of its players are slugging the ball at better than .300. Some of the Feds would much rather bat against right-handers, but since they've seen so many left-handers in recent weeks, they are rapidly getting used to fork-handed slants.

The game, and those between New Smyrna at Orlando and Cocoa at Daytona, will bring to an end the first month of play in the league. The Feds and Islanders are easily the stand-out teams, with the Tigers and Bruins among the dangerous outfits. Little in the way of additional strength is expected from Cocoa or New Smyrna during the first half, so it is reasonable that they may be battling it out for last places.

After tomorrow's games, managers must use the pruning knife and cut their players' list down to 15 men, including the manager. Among the 15 may be four professionals. One week from tomorrow night no club will be permitted to employ any new players for the remainder of the first half, so, experimentation days are about over.

That the local club is "set", and has been since the opening game, is indicated in the fact that only four changes have been made in the line-up since the season began. The Feds have signed Bonner, Maxwell, Curry, and a new infielder named Bob Ovarstreet. They have released John Higgins, Eddie Moore, Shorty Malby, Peter Schirard, Homer Tillis and Jim Torrible, so that the list today is down to 15 men.

Changes around the league since Thursday are as follows: New Smyrna has released Shacklett and Allen and signed Goodrich and Crues; Daytona has released Crues, Maddox and Bower, and signed Eddie Holton; Cocoa has released Casey and signed Bob Hopkins.

Cracker Graham, Daytona's best catcher, still remains as the league's batting-leader despite the fact that he went hitless at New Smyrna Thursday. Asa Wall of Cocoa is in second place, with Raleigh Part of Daytona back in third place after securing three hits in four tries.

Charlie Abbott of Sanford boosted his average to .391 by cracking out a pair of hits in four tries. Maxwell is handicapped at bat because of a weak ankle that is giving him an end of trouble.

Roy Harrison and Paul Bonner are the other Feds in the favored circle. Since Thursday, Bill O'Brien of Daytona and Fernie Pennington of Leesburg have pounded their way into the .300 class.

In the second match the League leading Ne-Hi team took 2 out of 3 from the Randall Electric team in a hard fought match. J. L. Stephens of the Randall's was high with a 209 single and 555 total.

An exceptional game of duck pins was rolled by L. Tharp this week when he scored a 241 game establishing a new record on these alleys and one of the best ever rolled in the state.

Sunday at 2 P. M. the special matches with Leesburg bowlers will be played on the Sanford Bowling Club alleys.

Ball Fans To Ask For Free Use Of Municipal Park

Because they feel that the time has come when Municipal Park should be freed of a \$10 per month rental charge asked of all persons using the property, officials of the Sanford Baseball Club will go before the City Commission on Monday night to ask that this charge be dropped during the summer. They invite all fans interested in the matter to join them, and they stated that Judge J. G. Sharon will be asked to speak for them.

The park is now under the care and custody of H. M. Papworth and James Moughton. Early last summer, the Commission decided that it no longer could appropriate money for the upkeep of the property, particularly the stands which were rotting away. Mr. Papworth offered to act as caretaker and see that the property was well maintained, and he and Mr. Moughton were appointed as custodians.

Since then, a \$5 per game levy has been made upon all persons, white or colored, using the park for any purpose. The money was used to repair the stands, the fences, and made necessary changes including the erection of a shower bath system.

The rental had been reduced to \$10 per month to the baseball club early this year, but club backers say that it should be eliminated entirely as the park is now in good shape and there is a balance reported as remaining in Mr. Papworth's accounts.

"BOWLING NOTES"

In the Sanford Bowling League Friday night the Forrest Gatchel team took 3 in a row from the United Lumber Co. team although to games were in the 800 class. The Gatchel's were lucky. L. Tharp of this team copped high honors with 522 for a 3 game total.

In the second match the League leading Ne-Hi team took 2 out of 3 from the Randall Electric team in a hard fought match. J. L. Stephens of the Randall's was high with a 209 single and 555 total.

An exceptional game of duck pins was rolled by L. Tharp this week when he scored a 241 game establishing a new record on these alleys and one of the best ever rolled in the state.

Sunday at 2 P. M. the special matches with Leesburg bowlers will be played on the Sanford Bowling Club alleys.

CHUCKY

WIDE POWERS VOTED SHOLTZ IN SENATE BILL

(Continued From Page One)

Senator Buchanan of West Palm Beach urging its approval. Senator Whitaker, Tampa, and English, Lake City, opposed it.

English said it was another of a series of sales tax bills in disguise and declared this measure and others recently passed by the Senate would halt a tax payments and eventually force a sales tax upon the state.

After first refusing to consider Senate communications yesterday the House later accepted its rules committee recommendation that Senate bills be sent to House committees or placed on the House calendar without reference to committee. It disposed of more than 100 Senate bills in this fashion, clearing the files of a week's accumulation.

The House placed the beauty culture bill and the chain store tax bill on its calendar without reference. Both measures were passed by the Senate and approved by the House with amendments but the Senate declined to accept the amendments and returned the bills to the House.

Drane Appointed By President To Power Commission

TAMPA, May 20.—(AP)—Herbert J. Drane, of Lakeland, former congressman from the Tampa district, was named yesterday by President Roosevelt as a member of the federal power commission.

News of his appointment to that job was received with some surprise here, as Drane had been rated as one of the contenders for the office of collector of customs, sought by Perry G. Wall, W. E. Stovall and others.

The main fight for the collectorship was being made months ago by Wall and Stovall when it be-

Fairyland Flares in Light Chicago World's Fair Fantasy

Lighting plan for a Century of Progress call for the use of more than 15,000 incandescent lamps, ranging in size from 10 to 3,000 watts. For exterior illumination alone, it is possible only to guess the number that will be used within the great exposition buildings and by concessions. A single battery of twenty-four arc searchlights will have a total light output of 1,500,000,000 candlepower for one spectacular effect. Thousands of feet of neon and mercury vapor tubes will add their soft glow to building exteriors.

It is estimated that 2,100 kilowatts of electrical energy will be required for the outdoor lighting effects.

Three electric fountains are being installed in the lagoon. Just off the east shore and north of the Twenty-third Street bridge. With 507 water jets, sprays and nozzles in each, it will take 3,000 gallons of water per minute to produce the eight distinct water displays of which each fountain is capable. A 75-second period is required for each water effect, and a complete cycle that included the many combinations will take ten minutes. At the climax of the demonstration cycle, water will be spouted eighty feet in the air.

In the center fountain, harmonious gradations of colored light, including soft pastel shades, will be provided by seventy special flood-lighting projectors equipped with red, green, blue and amber lenses. Each of the two outer fountains will employ thirty-six floodlights with clear lenses.

Searchlight Displays

The searchlight will be located on the shore of Lake Michigan south of the Travel and Transport Building. With a railroad track located nearby, two gigantic locomotives can be run in to generate steam and shoot clouds of it high in the air. The brilliant, colored lights, operated by a squad of specially trained men, will be played on the steam and clouds of smoke exploded high in the air by smoke bombs.

Brilliantly colored fans and displays of light will be thrown hundreds of feet into the sky, and a fiery battle of serpents will be symbolized in the nightly displays. In their lateral positions, the searchlights will form an intensely bright arena over the entire area.

BUDDY LAKE HAS GOOD BEGINNING AS BALL PITCHER

Sanford Youth Hurlers First Game in Professional Circles

Just a week ago today, Buddy Lake, young Sanford boy, made his first start as a pitcher in professional baseball when he hurled an 11-inning game against the Binghampton team of the N. Y. Penn League for the Harrisburg team which is one of the Boston Braves farms.

Despite the fact that Lake was defeated after toiling 11 long innings in what was to have been a seven-inning second game of a double header, press reports indicate that he made a good showing against a team of veteran professionals. The score was 7 to 5, and the game was won with two runs in the 11th.

Lake was touched for 13 hits and walked seven during the game, and he struck out three men. The Harrisburg team maintained its league lead despite the defeat, for it won the first game by an 8 to 5 score.

The youngster went North with the Braves after several weeks of training at St. Petersburg. He remained as a batting practice hurler for the Braves until May 9 when he was sent to Harrisburg for some real seasoning. It is understood that he signed a Harrisburg contract on May 10 and that he is receiving a remarkably large salary considering the fact that it is his first year in organized baseball.

Local friends of Jack Sanford, Red Martin, Stuffy McCrone, and L. B. Jones, may be interested to learn that they are doing almost as good as is young Lake in professional baseball. Sanford, Martin, and Jones all were members of the "Fed" team last year with Lake.

Sanford has been playing for Wilmington, N. C., in the Piedmont League. He bats second, and he is hitting around the 300 mark plays at either short or second and his fielding is a sensation of the club.

Martin is playing center field for Beckley, W. Va., in the Mid-Atlantic League.

Jones is pitching for the Jackson, Miss., team of the Dixie League which includes Texas, in Mississippi, Louisiana, Texas, and Arkansas.

McCrone has landed the first base position with Charleston, W. Va., in the Mid-Atlantic League, where his fine fielding is again in evidence.

NEW CHAPTER IN FLYING WRITTEN BY STEAM PLANE

New Type Of Propulsion Engine Works Okey In Test Flight

BERKELEY, Calif.—A new page in aviation history was written here recently when a young engineer climbed into the cockpit of his steam-propelled airplane and opened up the throttle.

The plane left the ground in five seconds, it circled above the municipal airport for about 10 minutes, and then landed, stopping within less than 20 feet afterouching earth.

Such was the first public performance of what is said to be the first successful heavier-than-air craft to be propelled by a steam engine. The power plant was installed in a standard bi-plane, formerly powered by a gasoline engine. The steam engine was designed and built by William and George Besler, who came here as Princeton engineering graduates three years ago to develop their "plant."

Except for two cylinders which projected a few inches above the hood there is nothing unusual-looking about the plane. Those two cylinders develop 90 horsepower under ordinary conditions in the air and 150 horsepower in "lock tests." A pressure of 1500 pounds per square inch is maintained in the boiler, which is contained in 500 feet of coil. The heat to generate the steam is applied by burners using "stove" oil, which is lighter than oil used in furnaces.

It took less than 60 seconds for Mr. William Besler, who piloted the plane, to get up steam. This was because there are only two gallons of water in the 500 feet of coil. As soon as the plane landed to the field and took off another advantage was noted—the plane made little noise. Mr. Besler flew within 100 feet of a battery of photographers and his shout of "hello" was plainly heard. The only noise was a slight "whishing" of the propeller.

When he landed, another advantage was shown. He reversed the engine, which checks the movement of the plane. Lack of vibration, greater efficiency at high altitudes and reduction of fire hazard are also claimed for the new steam plane. It is estimated it will fly 400 miles on 40 gallons of fuel oil. Little water is needed as the steam is condensed and used again. The cost of operation, according to the builders, is about one-fifth of that of a gasoline motor of the same power.

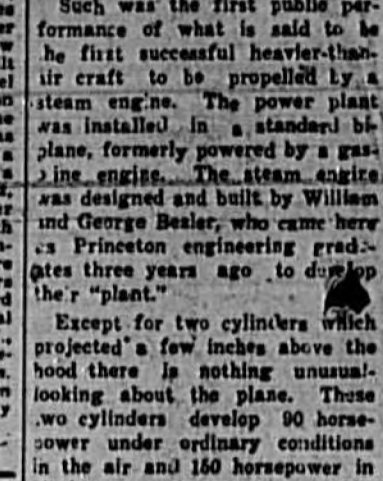

Both Besler brothers hesitated to make what they termed "extravagant predictions" for the future of steam in aviation. They made it plain that their steam plane was one of several experiments they are making with their light-weight, high-pressure system. At present they are more intent on applying their ideas to railroads and are developing an engine to propel an car.

Officials of the National Aeronautics Association and other experts who witnessed the flight, however, declared that the performance convinced them that the young engineers had made a significant contribution to achievement in the air.

broader organics and eyelid batteries.

Cotton net is ideal for a summer dance frock. It can be packed in a suit case and come out none the worse. There are now some cotton-lacy materials in sky blue, pale rosy pink, soft yellow, and a silvery green that will make effective evening gowns.

Pique is still one of fashion's darlings and there are whole counters of clever gingham gowns.

Cotton Week Being Observed In Retail Stores Of Chicago

By RUTH COWAN

CHICAGO, May 20.—(AP)—Chicago merchants are observing cotton week and the cotton yard goods section are spreading themselves.

"Seussucker is taking high honors, but organdie is after its thunder, for the crinkliness of seersucker, in copied in puckered organdie. In return seersucker has taken onto itself dots, plaids, stripes and even floral patterns generally found in lawn, dimities and muslins.

One of the new cottons is organel, filmy and fragile. It comes in stripes reminiscent of candy sticks and barber poles. It will be much in evidence in summer evening frocks.

Then there are delightfully soft oriented muslins, covered with floral patterns, and plain and blistered organdies in delicious colors.

Dotting Swiss is a big number. It will be about by day or evening, informal or formal. Some of the smartest colors are dark blue, white, brown, green and deep green, covered with all sizes of white dots.

Quite smart and very cool and summery looking are the emerald and blue stripes.

Now that the art institute, during the world's fair, is best to many of the world's masterpieces, with guards doubled and insurance running into big figures, a recent "work out" was given "Princes" and "Peggy" just to be sure they hadn't gone stale on the job.

A stranger was hidden in a chest for his own safety—and the danger brought in.

Insipid officials rub their heads with satisfaction, as they recount the savage display of barking, snarling, bared teeth that ensued.

By day "Princes" and "Peggy" are kept in the basement and their own runway, and because they are themselves so valuable, are under guard.

Two Police Dogs Will Guard Rich Treasures Of Art

CHICAGO, May 20.—(AP)—Upon the tawny shoulders of two police dogs rests part of the responsibility of guarding the most valuable collection of paintings ever assembled in history—the \$75,000,000 Century of Progress fine arts exposition, housed in the Chicago art institute.

The business of these two "Princes" and "Peggy", is to scent out anyone attempting to hide in the building at night for purposes other than peaceful contemplation of art.

And for that purpose these two pedigreed dogs make 14 periodical tours of the galleries during the night accompanied by their trainer, Charles Kerr, and armed guards with their trigger fingers ready for action.

But that's all in the job to "Princes" and "Peggy". They have been earning their meals this way ever since the art institute was built.

Drane was representative from the first Florida district for 18 years. He was defeated in the runoff primary last summer by J. Hardin Peterson, of Lakeland, neither having received a majority in the first primary in which B. L. Lowry, Sr. of Tampa, also was a candidate. Thereafter Drane filed a protest in court, charging election irregularities in several counties. It was thrown out. He joined the home sick colony at the pension in December. Popular with House members, he received strong support for a place on the party committee.

Ruth Bryan Owen, who turned up as a Florida issue duck in the same election with Drane, got a much better job—minister in Duval.

Not Tax Relief

The tactical maneuvers of our law makers at Tallahassee seem to be driving the Legislature closer and closer to the enactment of some general sales tax measure.

The very probable enactment of a constitutional amendment exempting homesteads assessed as \$5000 or less from all taxation will cut a tremendous hole in the ad valorem revenues of cities and counties.

And if this were not enough, there is the Senate bill to repeal virtually all enforcement sections of our tax collection laws.

These bills, it should be remembered, are not designed to reduce expenses or to settle bond debts.

Finally a special session of the Legislature would be called and then after much debate pro and con, it would be decided that the only way out is the sales tax route.

Our legislators have not submitted to the people of this state the frank and honest proposition, "Shall we abolish this ad valorem real estate tax and enact a sales tax?"

This is neither the courageous nor the common sense way to approach the problems of this state.

These are simply possibilities which have occurred to us in watching the trend of events at Tallahassee during the past few weeks.

Proof of this has been widely publicized during recent days when the Governor of New York and a party of friends spent a short vacation at Boca Grande where a total of 21 tarpons were landed.

He is not the first public figure to broadcast the fame of Florida fishing. Presidents have long had a habit of coming to this state to enjoy this sport furnished by our rivers, and streams, and open sea.

IL DUCE PEACE PACT O. K'D BY FOUR NATIONS

(Continued From Page One)

The pact as it now stands consists of five articles instead of the original six. It is somewhat longer than the original form since the most points, such as revision of treaties, needed ampler statement so as to produce no mistaken interpretation.

The present pact begins with a preamble stating its purpose as collaboration among the four great western European powers to maintain peace. It states that it is based on the Briand-Kellogg pact and the non-resort to force agreement signed at Geneva last December, and the covenant of the League of Nations.

The pact introduces a new element as a desirable necessity but mentions it only generally. The pact in its present form is very general in its phrasing, not entering into details.

Second, it is very careful not to mention either the necessity or the desirability of revision of treaties although admitting the possibility of revision.

On the difficult point of revision of treaties the pact states definitely the possibility of accomplishing this but only through the machinery of the League of Nations.

General Sales Tax Appears As Certainty In '35

(Continued From Page One)

There is no one talking about new sources of revenue for the state to be paid until we get our bond problem solved.

The all-repeating virtually all tax foreclosure laws was fought in the Senate by Gillis, of DeFuniak Springs; Holland, of Bartow; and Whitaker, of Tampa, on the ground that it limited the taxpayer to quit paying and saved the way for reducing the government and the school by

shutting off all tax collections. But the Senate, sensing the popularity of the bill among the great mass of the people, sent it to the House with a big vote.

Back of all of these bills and constitutional amendments, according to well-informed observers, is a shrewdly conceived plan by the sales tax lobby to gain their objective at the next session by tearing down the present tax structure and paralyzing enforcement of collection laws.

As further proof of the breakdown in tax collections the comptroller's report shows only 57 percent of the 1932 roll collected. This resulted in the passage early in the session in a bill extending the time for payment from April to June and a Senate bill, by Rose, of Orlando, prohibiting the sale of state or county tax certificates until after the legislative adjourns.

Latest reports from the comptroller also show that the 1931 roll is only 85 percent collected although it has been delinquent more than a year.

House approval of the Senate foreclosure repeal bill, in the opinion of many city and county officials, will mean that owners of most of the other half of Florida's taxable real estate will stop paying taxes, that the burden will be concentrated on business property, industrial plants and homes assessed at more than \$5000 and that the state and the schools, as well as the counties and cities, will be forced to turn to new sources of revenue to survive.

Organ And Expression Recital To Be Given

The Young People's Division of the Methodist Episcopal Church of this city, will present Miss Helen Gordy and Miss Virginia Jenkins in an organ and expression recital on Tuesday evening at 8:00 o'clock in the church auditorium with Miss Clifford Shinholser, pianist, and John Dighton, baritone, as assistant talent.

Miss Gordy is a graduate of the Conservatory of Brenau College, Gainesville, Ga. where she received her Bachelor of Music degree in pipe organ with certificates in public school music and piano. She has had teaching experience in the public schools of Monroe, Ga. and in private work. During her college career she spent one summer season as pianist in a trio of violin, cello, and piano, in an exclusive resort hotel in Ocean City, N. J. She has appeared in a number of radio broadcasts in Orlando. Following her graduation from Brenau she served as organist in the First Methodist Church in Kissimmee and is now filling that place in the First Methodist Church of this city. She is a member of Alpha Xi Delta social fraternity and of Phi Epsilon, honorary music fraternity.

Miss Jenkins is a graduate of Southern College, Lakeland, and has had graduate work at Scarritt College, Nashville, Tenn. For an year she held the position of Assistant Dramatic Director of Southern College and took active part in presenting such plays as "Journey's End." She was a member of the Vagabonds, Southern College's thespian organization, and held the office of state tournament director. Miss Jenkins is a member of the Phi Delta social fraternity and Pi Gamma Mu, national honorary fraternity.

The program for the evening will be given as follows: Organ, "Prelude from Act III of Lohengrin," Wagner—Miss Gordy; "The Last Word," Henry Van Dyke—Miss Jenkins; Organ, "Moment Musical," Schubert, "Verdian Love Song," and "Spring Song," Mendelssohn—Miss Gordy; Solos, "Kashmir Song," Amy Woodford-Finden, and "Sunshine in Rainbow Valley," Bernard Hombler—John Dighton, accompanied by Miss Shinholser; "Home" and "Seeds," Edgar A. Guest—Miss Jenkins; Organ, "Air in G," Rattiste—Miss Gordy; Musical Reading, "The Origin of Beethoven's Moonlight Sonata"—Miss Jenkins and Miss Gordy.

The program for the evening will be given as follows: Organ, "Prelude from Act III of Lohengrin," Wagner—Miss Gordy; "The Last Word," Henry Van Dyke—Miss Jenkins; Organ, "Moment Musical," Schubert, "Verdian Love Song," and "Spring Song," Mendelssohn—Miss Gordy; Solos, "Kashmir Song," Amy Woodford-Finden, and "Sunshine in Rainbow Valley," Bernard Hombler—John Dighton, accompanied by Miss Shinholser; "Home" and "Seeds," Edgar A. Guest—Miss Jenkins; Organ, "Air in G," Rattiste—Miss Gordy; Musical Reading, "The Origin of Beethoven's Moonlight Sonata"—Miss Jenkins and Miss Gordy.

Kindergarten School Has Special Program

A special program by the Jack and Jill Kindergarten School and graduation exercises for pupils of the school will be given Wednesday morning at 9:00 o'clock at the South Side Primary School auditorium with Mrs. Trevaie M. Hamill serving as director and Mrs. B. R. Steele as pianist. Mrs. Stella P. Arrington, principal of South Side School, will award the diplomas.

The program will be given as follows: "Smiles"—Sylvia Mersch; Song, "The Shoemaker"—Class; "The Mouse's Dream"—atlin Taylor; "Tired Shoes"—Ralph Cowan; Song, "The Rag Man"—Class; "Fishing"—Sonny Halborn; Song, "Prep Said the Little Bird"—Class; "The Zoo"—Patayo Abaranthy; Song, "The Owl"—Class; "The Windmill"—Margaret Stearnstrom; Song, "The First Bouquet"—Class; Band Numbers, "Peppermint Soldiers" and "Soldier Boy"—Class; "Silly Kitten"—Billy Chapman; "The Land of Nod"—Marian Pearson; Song, "Clock"—Class; "Chicks"—Joe Wathen; Dance, "Partner Come and Dance With Me"—Class; Song, "Hello Mister Blacksmith"—Class; "The Little Boy's Wish"—Walter Steele; "The Postman"—Doris Dunn and Pauline McCelland; Song, "Sing, Happy Children"

Social Calendar

MONDAY

The East Side Primary P. T. A. will have its last meeting of the year in the form of "Fathers' Night" at 8:00 P. M. at the school auditorium.

The Dependable Class of the First Methodist Church will have its regular meeting at the home of Mrs. W. S. Thornton, West First Street, at 7:30 P. M.

TUESDAY

An important meeting of the Little Theater will take place at 8:00 P. M. in the council room at the City Hall.

The Young People's Department of the First Methodist Church will present Miss Virginia Jenkins, reader, and Miss Helen Gordy, organist, in a recital at 8:00 P. M. at the church. The public is invited.

Mrs. J. Turnbull's Kindergarten Class will stage a program at South Side Primary School auditorium at 9:00 o'clock.

WEDNESDAY

A benefit breakfast bridge party, sponsored by the Social Department of the Woman's Club, will be given at the club house at 9:15 A. M. with Mrs. S. D. Highleyman as chairman. Reservations must be made with Mrs. H. W. Rucker by Tuesday at noon.

The Jack and Jill Kindergarten Class will hold its program at the South Side Primary School auditorium at 9:00 o'clock.

FRIDAY

N. de V. Howard Chapter of the U. D. C. will entertain with a tea from 1:00 P. M. to 4:00 P. M. at the home of Mrs. M. S. Wiggins, with Mrs. Wiggins and Mrs. B. L. Perkins as hostesses.

Sensational Picture Appearing At Milane

Undoubtedly the most sensational story ever written about Washington, "Gabriel Over the White House" opened last night at the Milane Theater to provide a talkie drama thrilling from its very opening reel to its startling conclusion. Walter Huston triumphs with a great performance as President J. D. Hammond and in a series of scenes as realistic as newsreels forces Congress to give him the powers of a dictator, solves the unemployment problem, ends race-hating and brings foreign debt uncertainty to a close. Brilliantly directed by Gregory La Cava, it will undoubtedly stir up a world of controversy and talk wherever it is shown. Huston has never had a more stirring role and an excellent supporting cast includes Karen Morley as the mysterious woman in the White House, Franchot Tone, Arthur Byron, Dickie Moore, C. Henry Gordon, David Landau, Samuel Hindle, William Pawley, Jean Parker and Claire Dubrey.

Group, "Cookies"—Evelyn Matthews; "Goodbye Song"—Class.

At the conclusion of the special program the following graduation exercises will take place: "Welcome to Our Parents"—Doris Dunn; Eassy—Marian Pearson; "Best Wishes to Graduates"—Walter Steele and Joe Wathen; Motto—Evelyn Matthews; Class Oration—Pauline McCelland; Class Poem—Sylvia Mersch; Vell Lender—Ben Austin.

Officers of the class are: Sonny Halborn, president; Lutzey Abaranthy, vice-president; Ralph Cowan, secretary; and Margaret Stearnstrom, treasurer.

REMEMBER—
WE clean your radiator without removing from your car—guarantee circulation.
WE have TABOR SCIENTIFIC MICROMETER WHEEL ALIGNER. Stops shimmy, cupping, wandering and etc.

Proposed Income Value Of Florida Tax Increase Hits Real Estate Shows Considerable Drop

WASHINGTON, May 22.—Increased income tax rates suggested to the House Ways and Means committee by Lewis W. Douglas, director of the budget, as a means of raising revenue needed to finance President Roosevelt's public works and employment programs would add 50 to 100 percent to the amount of tax now paid by persons of moderate incomes.

Under the present law, the tax is 4 percent on the first \$4,000 of normal income and 8 percent above that amount with a tax starting at \$6,000. Under the suggestions of Douglas the rate would be 6 percent or 8 percent on the first \$1,000 of normal income and 10 percent or 12 percent on amounts above that.

With the exceptions now allowed remaining the same, \$1,000 for a single person and \$2,000 for a married person and \$500 for each dependent and the 1933 rates remaining the same, the tax paid by a single person and by a married person with one dependent under the present law \$1,000 for the Douglas proposal would be:

Income	Present Law	Proposed Law
\$1,000	\$40	\$240
\$2,000	\$160	\$480
\$3,000	\$320	\$720
\$4,000	\$480	\$960
\$5,000	\$640	\$1,200
\$6,000	\$800	\$1,440
\$7,000	\$960	\$1,680
\$8,000	\$1,120	\$1,920
\$9,000	\$1,280	\$2,160
\$10,000	\$1,440	\$2,400
\$11,000	\$1,600	\$2,640
\$12,000	\$1,760	\$2,880
\$13,000	\$1,920	\$3,120
\$14,000	\$2,080	\$3,360
\$15,000	\$2,240	\$3,600
\$16,000	\$2,400	\$3,840
\$17,000	\$2,560	\$4,080
\$18,000	\$2,720	\$4,320
\$19,000	\$2,880	\$4,560
\$20,000	\$3,040	\$4,800

Actual values of real estate in the major portion of Florida's bonded cities have dropped from three billion dollars in 1926 to less than one billion in 1933, while the principal debt has dropped from \$222,000,000 to \$20,000,000 in 103 cities, according to figures issued by the office of Governor Sholtz, supplementing the data already issued on actual debt conditions.

Governor Sholtz recently gave the Legislature its first bond issue showing that 150 out of 181 cities are now in default either on principal or interest, or both.

The outstanding example of this decrease in property values of Florida municipalities is cited by this compilation to be Safety Harbor in Pinellas county. In 1926 Safety Harbor had a debt of \$25 for every \$1,000 of actual property value. In 1933 the value of 1926 property has decreased to \$1.25 for every \$1,000 of assessable value. The bond issue of 1926 was \$124 for every \$1,000 of actual value.

Another classic among Florida's debtor cities is Bellair, in Pinellas county, where the bond issue today amounts to \$5.20 for every \$1,000 of actual property value. In 1926 the bond issue was \$124 for every \$1,000 of actual value.

Mrs. Hazel Coleman spent the week-end in Jacksonville.

IN MEMORIAM ROBERT O. MERIWETHER

Drafted by the Omnipotent Hand, This lapsing life of mortal man Seems a very prodigious plan Far, far too deep to understand, The precious babe at mother's breast, Fed of spirit, and Nature's breath, Bereft of earth's wisdom and jest, Is born of Love's own soul, and blest. Some vanish ere the break of dawn, You, life is here and then is gone! Some pass away in early morn— Before they know that they are born. Some slay to see the day a-glow, And, lo, it is their time to go. Some reach the rest of high-twelv—noon. Alas, they pass away too soon. Some tarry till the setting sun, Then fall asleep when tid is done. Some linger till the night is done A far beyond their three-score year. Some drag and drag till low-twelv—night. With eyes too dim to see the light. Yet, in the Grand Eternal way, Each one has lived another day. —By Mrs. Gen. Lewis Hanson. Adv.

Value Of Florida Real Estate Shows Considerable Drop

PALM BEACH, May 22.—

Actual values of real estate in the major portion of Florida's bonded cities have dropped from three billion dollars in 1926 to less than one billion in 1933, while the principal debt has dropped from \$222,000,000 to \$20,000,000 in 103 cities, according to figures issued by the office of Governor Sholtz, supplementing the data already issued on actual debt conditions.

Governor Sholtz recently gave the Legislature its first bond issue showing that 150 out of 181 cities are now in default either on principal or interest, or both.

The outstanding example of this decrease in property values of Florida municipalities is cited by this compilation to be Safety Harbor in Pinellas county. In 1926 Safety Harbor had a debt of \$25 for every \$1,000 of actual property value. In 1933 the value of 1926 property has decreased to \$1.25 for every \$1,000 of assessable value. The bond issue of 1926 was \$124 for every \$1,000 of actual value.

Another classic among Florida's debtor cities is Bellair, in Pinellas county, where the bond issue today amounts to \$5.20 for every \$1,000 of actual property value. In 1926 the bond issue was \$124 for every \$1,000 of actual value.

Sanford Refutes Story Kissimmee Has Larger Zoo

(Continued On Page Three)

This compilation was made with the assistance of the Florida League of Municipalities, which is attempting to have this Legislature vote to heavily bonded cities. Mayor R. B. Garter, of Kissimmee, in the Legislature's committee for the League. K. P. Owen, Jr., Jacksonville is secretary of the league.

The compilation gives full information from 103 cities whose debt comprises most of the municipal obligations of the State. The average shows that in 1926 cities of Florida owed \$7 on each \$1,000 worth of property while in 1933, owing to the shrinkage in values and lack of any material change in the outstanding debt, the burden has exactly doubled, now being \$10 per thousand, as a statewide average.

TWO FAMILIES

THE ARENS FAMILY, 7125 N. PAULINA ST., CHICAGO, ILL.

THE ARENS are looking up for the new car. Mr. Arens' new car is selling fast. And out at the curb is the new Standard Plymouth.

Is there a thrill in that? The boys and Mrs. Arens are both keen as they can be about it.

Standard Plymouth Six, Four-Door Sedan, 106-inch wheelbase, \$1010.00.

THE OAKES FAMILY, 9 W. MELROSE ST., CHEVY CHASE, MD.

MARGARET OAKES is learning to drive. She'll want Plymouth. The heavy car makes Mrs. Oakes nervous. She likes Plymouth, too. But Mr. Oakes gets him around faster and easier.

Question: Who gets the car? It doesn't take long to convert a "heavy car" owner to the Deluxe Plymouth. It's the biggest six in the low priced field.

Deluxe Plymouth Six, Four-Door Sedan, 112-inch wheelbase, \$875.00.
