

Ex-Convict Nabbed As Kidnapers Of 3 Men Whom He Freed

Abductor Was In Gang That Escaped From Texas Prison Farm With Barrow's Aid

ST. JOSEPH, Mo., June 15.—(A.P.)—Three men kidnaped yesterday near Davenport, Iowa, were released here today and their abductor was captured.

The three men, Elmer Schuster, policeman, Al Schultze, baseball man, and Dr. W. H. Fitch, Walcott, Iowa, veterinarian, were released here today and their abductor was captured.

Palmer escaped from a Texas prison farm last February when Major Crowson, a guard, was killed.

Palmer and four others, including Raymond Hamilton, Texas desperado, escaped from the Eastman, Texas, prison farm in a plot allegedly engineered by the late Clyde Barrow.

Hamilton was convicted for killing the guard, and during the trial the police tried to throw blame on Palmer.

Schultze said that Palmer's sole object in kidnaping him and two others was to escape capture and identification.

He made no mention of a ransom, but he took about \$225 from the trio, overhauling \$300 the doctor carried.

Palmer told his prisoners he would get out of St. Joseph and let them take the doctor's car back to Davenport if they were willing.

They agreed, but as soon as Palmer got out of sight they fled and the car was picked up quickly.

Zoo Reptile Seems About To Receive Extensive Publicity

More publicity, the kind that has an international tinge, seems to be in the offing for Sanford's now famous "Komodo dragon."

This was learned at the Chamber of Commerce office late yesterday upon receipt of a telegram from an official weekly news-magazine, "Time."

The telegram read: "Please wire collect box of your Komodo dragon."

The answer read: "Our Komodo dragon is a female about nine years old."

The telegram was addressed to, and the answer was signed by, James Moughtin, superintendent of streets and parks.

With "Time" readers spread all over the world, including the South Pole, the Chamber of Commerce officials believe, is in for a tremendous amount of publicity, all because of a challenge recently sent to the Bronx Zoo by the Chamber of Commerce, that it did not have the "only Komodo dragon in America."

Fortier Found Guilty Of Serious Charge

J. T. Fortier, middle-aged white resident of Sanford, who went on trial yesterday morning in Circuit Court on a statutory charge involving misconduct with a 15-year-old white girl, was found guilty late this afternoon.

HALF CENTURY OLD RAINFALL RECORD ENDS

TVA BEING SUED BY SEVERAL ICE COAL CONCERNS

Groups Seek To Curb
Activity Of Federal
Authority

BERMINGHAM, Ala., June 15.—(A.P.)—The Tennessee Valley Authority yesterday was made defendant in two suits filed in United States district court to curb its activity in electrification of farms and homes on grounds that it had exceeded the authority granted it and had entered competition with private business.

The suit brought in the names of a score of ice manufacturers and nearly a score of coal producers, owners of, as a defendant to prevent completion of a contract with the authority for sale of a part of its distribution system and an agreement on the sale of electric appliances.

"The spear head of the attack," said Forney Johnson, attorney for the plaintiffs, "is the plan of the authority to build hydro-electric plants at these dams (as contemplated by the authority program) and enter into a vast utility program in order to show up the weakness of state regulated utility operation."

The plaintiffs make use of Dr. A. E. Meigh's admission that only \$10,000,000 of the huge program is referable to nitrate and fertilizer production or exportation, and only one-third to navigation and flood control which is regarded by the plaintiffs as an admitted "that," approximately \$10,000,000 is to be used by the three directors in their uncharted discretion to experiment in the valley states with subsidized distribution of electricity."

The suits asked temporary injunctions to restrain the TVA, the electric home and farm authority and the Alabama Power Co., from expending funds in the promotion or sale of electric appliances and motors, and the former from constructing any additional hydro-electric plants.

The petitions set forth allegations that the authority program brings in "ice and coal business and would throw 20,000 coal miners and thousands employed in the ice manufacturing industry out of employment, adding nearly 100,000 persons to relief rolls."

This was indicated upon receipt of a letter today from Attorney General Cary D. Landis who advised that "this office has held since the Act of 1929, that party committees are elected in the first primary by plurality vote, and their names submitted upon the general election ballot."

Until receipt of the letter, official word was lacking as to the outcome of the race in which Mr. Wilkinson was high man with J. E. Preston in second place.

County Clerk V. E. Douglas had gone ahead yesterday and ordered the second primary ballots printed without the names of the two men. He was acting under advice transmitted him by Clarence Gay of the Orange County Clerk of Court who said that Orange county ballots would not contain names of the two men in that county.

Mr. Landis' letter was a copy of one he had sent to the P. G. Court in St. Johns county where a similar situation had arisen.

Barrier To PWA Loan Removed By Courts

MONTGOMERY, Ala., June 15.—Federal courts that have prevented grant of \$20,000,000 PWA loans to Alabama cities were reversed by the state supreme court yesterday in the interpretation of the Carlisle-Haley Act.

The court held that the PWA loans for construction of utility systems were not included in the cities' local indebtedness. It then reversed the lower court which had held that the act applied to the PWA loans.

German Moratorium Ends Stormy Financial Career; Act Held Desperate Move

Self-Proclaimed Half On All Payments Of Foreign Debts Hits U. S. Bond-Holders

BERLIN, June 15.—(A.P.)—Germany's self-proclaimed foreign debt moratorium, estimated to involve \$100,000,000 marks due American bondholders alone during the next six months, climaxed an involved financial history extending back nearly 17 years.

The moratorium came 10 and a half years after Germany had stabilized her currency and found her gold reserves and foreign exchange nearly exhausted. Her stabilization program regarding stoppage of all payments was imperative.

Almost overnight, on Jan. 12, 1923, Germany devalued her currency to a degree unprecedented in history.

On the day before Germany's new gold standard mark became effective, through the joint efforts of the Reichsbank, Schacht, president of the Reichsbank, and Dr. Hans Luther, then finance minister, the American dollar bought the astronomical figure of 12,000,000,000 marks. The next day it would buy four hundred marks with the stabilization of the mark came the appointment of a committee of international experts to take up the question of an economic footing.

The committee adopted the Dawes plan, named for its chairman, Charles G. Dawes, former vice president of the United States and in 1924 floated the Dawes loan of \$200,000,000 gold marks to tide the mark over the last five years' operations.

The sum of 3,000,000,000 marks, known as the Dawes loan, proved more than Germany could pay, and a new conference, known as the Young, American loan, was called.

Meanwhile Germany went through a period of "hyperinflation," which was found to be disastrous. Foreign nations poured loans into the country, and Germany not only stood up on these loans of things, she had gone into since the war but went in for "hyperinflation," and the work with borrowed money.

When the show-up of the prosperity became apparent the new conference was called, meeting at London on Page Two.

Wilkinson Winner Of Race For Seat On State Committee

S. A. B. Wilkinson is this county's new representative on the State Democratic Executive Committee, succeeding attorney W. E. Mallen.

This was indicated upon receipt of a letter today from Attorney General Cary D. Landis who advised that "this office has held since the Act of 1929, that party committees are elected in the first primary by plurality vote, and their names submitted upon the general election ballot."

Until receipt of the letter, official word was lacking as to the outcome of the race in which Mr. Wilkinson was high man with J. E. Preston in second place.

County Clerk V. E. Douglas had gone ahead yesterday and ordered the second primary ballots printed without the names of the two men. He was acting under advice transmitted him by Clarence Gay of the Orange County Clerk of Court who said that Orange county ballots would not contain names of the two men in that county.

Mr. Landis' letter was a copy of one he had sent to the P. G. Court in St. Johns county where a similar situation had arisen.

Ed Henderson Named School Supervisor

Edward B. Henderson of Leesburg, son of Mrs. E. M. Carrall of Leesburg, has just been named as principal of the Cocoa school, succeeding W. L. Goette, resigned. It was learned here today.

Mr. Henderson was born in Illinois, moved here, and lived in Sanford for several years, and is a graduate of Sanford High School, Class of 1923. He holds the degree of bachelor of science and master of science from Boston University, and he attended Presidency College for a single term. He has been principal of Leesburg High School and assistant principal of the Leesburg school system. He was chosen for his new post from over 50 applicants.

GREEN OFFERS PLAN TO END STRIKE THREAT

Labor Leader Suggests Impartial Board Of 3 Men Who Would Adjust Differences

PITTSBURGH, June 15.—(A.P.)—A plan for the settlement of disputes in the steel industry was suggested by a labor leader today at a steel workers' convention called to take action on a proposed nation-wide strike.

The labor leader suggested an "impartial board" of three members to be appointed by the President, to adjust the differences over the steel code, and to mediate other disputes.

Workers shall maintain the right, he said, to organize freely, and the board would have authority to hold elections among employees to choose collective bargaining representatives.

If the plan is acceptable to both sides, the strike should be called off, he told 200 delegates attending a meeting of Amalgamated Iron, Steel, and Tin Workers.

Ignoring all compromise and crying for "recognition," 200 heavy steel workers pressed toward a strike vote yesterday in a convention that threatens to start a walkout in the nation's steel mills, possibly by midnight Friday.

The demand of the union, claiming to represent one-fourth of the workers in the industry, were epitomized by its president, Michael E. Tighe, who indirectly rejected President Roosevelt's latest plan for government supervised elections among the workers as a solution to the dispute.

A Chicago trustee to meet with the union representatives, but don't see any Union recognition there."

Meanwhile, in Washington, the same legislation empowering the President to appoint mediation boards in any labor dispute was challenged by Senate Republicans who expressed dissatisfaction with nearly all its provisions.

It also was attacked by President William Green of the American Federation of Labor as "vague in its provisions, indefinite in character and devoid of clarity in purpose, scope and meaning."

Delegates to the convention openly asserting that only some governmental action giving the union the right to collective bargaining with the steel companies could avert the strike, proceeded to preliminary formalities and expected to reach a vote on the strike "by Friday noon" at the latest.

Governor Sholtz In Capital To Make Ready For Air Tour

WASHINGTON, June 15.—(A.P.)—Governor Sholtz of Florida called at the state department yesterday to arrange details of his proposed South America goodwill trip.

The department, the governor said, will arrange diplomatic courtesies in the various countries.

The trip, to be made in the fall, will have as its purpose the building of trade between Florida and southern republics and encouraging the use of Florida ports for entry of imports.

Sholtz also called upon Secretary of Navy Swanson to discuss the possibility of building cruisers in Florida, under his state's relief situation with Harry Hopkins, relief administrator, and visited the Public Works Administration to urge immediate release of money for Florida projects.

WASHINGTON, June 15.—(A.P.)—The former administration yesterday cited Abbotte J. Smythe and the Silver Springs Company of Ocala, Fla., for alleged violation of the license for Florida citrus fruits.

Charges brought were that the firms joined with the Abbotte Company of Chicago, Ill., in violating terms of the license by shipping fruit without reporting to the Citrus Fruit Control Committee, for applications for quotas.

Wall Street Bankers Regard Action As Attempt To Stop Mark's Depreciation

NEW YORK, June 15.—(A.P.)—The complete moratorium on all German foreign loans ordered by the Reichsbank yesterday was regarded in Wall Street international banking circles as a desperate move to save the mark from depreciation and to regain foreign markets.

With the gold and foreign exchange reserves of the German central bank almost gone, and the German imports of merchandise rising in excess of exports, it has appeared for weeks, on the surface at least, that the Reich would soon lack a medium for effecting foreign payments.

In view of the solemn character of the obligations under the Dawes and Young plan loans, however, sold in several countries to finance the beginnings of the Dawes and Young International agreement on reparations payments, there had been considerable conjecture as to whether the Reich might not make special efforts to keep up the service on these loans.

A hint was seen in the German references to her position in an exchange trade that some concessions might eventually be made toward meeting the interest on these loans, in return for agreements to buy more German goods.

In any case, a serious international controversy seemed imminent, with reports from London and Paris indicating that clearings might be established on foreign exchange transfers with Germany, which would mean that those countries would not permit proceeds from sales of German securities to be transferred to Germany until the interest on the loans was met.

Most of the European creditor countries of Germany, such as England, Holland and Switzerland, as well as France, have been buying more goods from Germany than they have been selling to Germany, so that building up the (Continued on Page Two)

Bench Show Prospects Held As Optimistic

County Clerk Vance E. Douglas, who is president of the Florida Field Trials Association, stated today that plans for the Second Annual Association Bench Show, to be held at the Tropic Hotel, look very bright.

"We already have about 60 dog entries," he said, "and we anticipate fully 100 entries before Show time. It promises to be an event which should attract all lovers of bird dogs, and on behalf of the Association, I invite all friends of dogs to visit the track sometime during the afternoon."

C. H. Cord of Orlando is scheduled to act as judge of a Show which will be featured by a display of some of the finest bird dogs in Florida, including those owned by Mr. Douglas, W. C. Hill, and E. J. Annan of Sanford.

A feature of the Show which is to start at 12:00 o'clock, is a fish fry which will be tendered free to members of the Association and their invited friends.

Hardie Charged With Contempt Of Court

MIAMI, June 15.—(A.P.)—Charged with removing a gas electric fixture and a \$300 gold deer, from his Palm Island residence after a mortgage had been foreclosed on it, Dan Hardie, known as Dan Hardie, has been ordered by Circuit Judge Paul D. Harney to show cause June 21 why he should not be held in contempt of court.

Hardie recently was suspended from office by Governor Sholtz.

2 More Fruit Shippers Charged As Violators

WASHINGTON, June 15.—(A.P.)—The former administration yesterday cited Abbotte J. Smythe and the Silver Springs Company of Ocala, Fla., for alleged violation of the license for Florida citrus fruits.

Charges brought were that the firms joined with the Abbotte Company of Chicago, Ill., in violating terms of the license by shipping fruit without reporting to the Citrus Fruit Control Committee, for applications for quotas.

FINLAND ONLY NATION TO PAY ON WAR DEBTS

European Debtors Fail To Keep Promise To Pay On Accounts Owed U.S. Since War

WASHINGTON, June 15.—(A.P.)—European debtor nations declared a moratorium yesterday on war debt payments to the United States.

Biennial principal and interest payments totaling \$477,848,444 are due from 13 nations, but only Finland—which owes \$166,638—remains.

Italy, Poland, Rumania, Hungary, Estonia and Latvia delivered notes at the state department during the day announcing their impending default, following similar action already taken by Great Britain, France, Belgium and Czechoslovakia.

Latvia, like Great Britain, announced it would have tendered another token payment except for the Johnson Act, which specifies that any nation in default, in whole or in part shall be considered in default and can conduct no financial transactions in this country.

Rumania and Italy—which have also made token payments in the past—likewise explained the provisions of the Johnson Act made meaningless another partial payment by them.

Yugoslavia and Lithuania will deliver their answers to the American debt reminders before the state department closes today. Unless one of these two debtor nations makes a surprise offer of a token payment, the United States will collect only a fraction of one percent of the amount due.

Rumania, \$3,297,500; Poland, \$18,536,200; Belgium, \$1,212,430; Hungary, \$1,472,200; Italy, \$32,456,600; Latvia, \$166,638.

The nations still to be heard from are: Lithuania, \$469,034; and Yugoslavia, \$215,000.

Augusto Rizzo, Italian ambassador, in his government's note linked German reparations and the Italian debt and said Italy found itself unable to continue making even token payments as it had in the past.

Mrs. Dall Takes Up Residence At Reno Maybe For Divorce

RENO, June 15.—(A.P.)—Mrs. Anna Cugill Dall, daughter of President Roosevelt, is establishing a residence here, and it was assumed that divorce proceedings are in progress.

Mrs. Dall has leased a home at Lake Tahoe. She has been separated from her husband for more than a year.

With her two children, "Stetie" and "Bessie," she lived at the White House during the past year. Mrs. Dall was not available here today but it is understood she is en route to the city.

The Dalls were married in June, 1928.

If she wins a divorce she will be the second of the President's children to be divorced since he survived the White House. Elliott, son of the President, dissolved his first marriage more than a year ago and is remarried.

WOMEN OFFER FULL OF HOPE

These contacts the body meets an increasing bombardment of germs, and develops higher powers of resistance. But it becomes so accustomed to fighting off germs that it sometimes mistakes harmless things like dust and pollen for enemies and sets its "protective mechanism" into action against them.

This protective mechanism produces surface irritation, the sign that the "antibody" guards are trying to throw out the irritating substance the same as if it were a deadly disease. The membranes of nose, throat and lungs are especially good at this kind of resistance, and account for the puzzling features of hay fever.

These ill are infections in the tract below the kidneys. They usually clear up unaided after the baby arrives, but have been an annoyance lasting months, and sometimes considered as unavoidable penalties of motherhood.

upon a long and growing list of other puzzling maladies, particularly many skin troubles and digestive disorders.

These ill are infections in the tract below the kidneys. They usually clear up unaided after the baby arrives, but have been an annoyance lasting months, and sometimes considered as unavoidable penalties of motherhood.

They began by doubting a fairly general belief that the infections were due to hormones secreted by dullness glands which were especially active during motherhood.

USE

On your new low electric rates you can protect your eyes with more light without increasing your bill. Use the extra electricity the new rates bring you by checking your lighting with the **Safe Meter**. This service is free and a phone call will bring our representatives to your home or store.

Tempered for NON-SKID

Now the famous U. S. Co-wheel tread—the surest non-skid design known—stands up for many more miles, because the 1934 U. S. Royals are built of heat-resisting Triple TEMPERED RUBBER—the toughest tread ever developed. They are both extra mileage and longer-lasting. **W. D. W.** extra cost.

Come in and see the 1934 Royals

4.75 x 19	Royal	\$8.65
5.25 x 17	Royal	\$10.00
5.25 x 18	Royal	\$10.30

Ocala County Seeks To Aid Fishermen

KISSIMEE, June 15.—A resolution directing that proceedings be instituted immediately to foreclose on all property in the county where taxes are delinquent two years or more was adopted today by the Ocala county commissioners.

The resolution set forth that approximately 65 percent of the taxable value of the county is delinquent and that to permit a continuation of the accumulation of delinquent taxes is unfair to those small taxpayers who have been paying on their homes, places of business, orange groves, farms and cattle.

It pointed out that in many instances the delinquent tax certificates are four and five years old and that the income from the property is being used for the payment of taxes.

THE DRAGON OF QUIN
The adventures of this dragon came from Komodo, Komodo is in the Sunda Islands, south of Indo China and Siam. Get out your maps of Asia. First hunt for China. Now you know our dragon must be covered up in the winter time here. Yes, even put under a blanket.

Of course you know Old Draggie lives in the forest, but he is the largest of his kind in the world. He is about 20 feet long and weighs 200 pounds.

One day he was eating every thing that was left over all over the place. He was in a bad mood and he was in a bad mood. He was in a bad mood and he was in a bad mood.

LEGAL NOTICE

IN THE COURT OF THE COUNTY JUDGE, SEMINOLE COUNTY, STATE OF FLORIDA.

Notice is hereby given that the undersigned will, on the 20th day of July, A. D. 1934, proceed to sell to the County Judge of Seminole County, Florida, all the real, personal and chattel property of WILLIAM BROWN KNIGHT, deceased, and as said time, then and there, make application to the said Judge for final settlement of his administration of said estate, and for an order discharging him as such Administrator.

Dated this 1st day of June, A. D. 1934.

W. E. KNIGHT,
As Administrator of the Estate of William Brown Knight, Deceased.

LEGAL NOTICE
NOTICE TO CREDITORS OF ESTATE OF WILLIAM BROWN KNIGHT, DECEASED.

ALL persons who have claims against the estate of WILLIAM BROWN KNIGHT, deceased, are hereby notified that the undersigned, as Administrator of said estate, will receive and pay the same on or before the 20th day of July, A. D. 1934, at the County Judge's office in Seminole County, Florida.

W. E. KNIGHT,
Administrator.

Baer Knocks Out Carnera To Win World's Heavy-Weight Title After Fierce Fight

NEW YORK, June 15.—(AP)—Primo Carnera, Italian giant who was toppled from his heavy-weight throne last night by Max Baer, went to a hospital this afternoon for an X-ray examination and treatment for a twisted ankle and strained leg ligaments. The injuries are an aftermath of the beating he took last night.

BY EDWARD J. NEIL
RINGSIDE, MADISON SQUARE GARDEN BOWL, NEW YORK, June 15.—(AP)—All the bravado and drama of Jack Dempsey's conquest of Luis Angel Firpo—something the prize ring thought never would be equalled—broke out of the past last night as Max Baer crushed his way to the heavyweight championship over the battered body of huge Primo Carnera.

Eleven times in 11 rounds, the massive Italian, biggest man ever to hold the title, crashed to the floor from Baer's blows, twice in the last round, before Referee Arthur Donovan stepped in and stopped the fight after two minutes, 16 seconds of the eleventh round such chaos and tumult as the ring hasn't seen since Dempsey's most famous triumph in 1921. The twelfth time the giant slid to a floor full-length from foot to ankle in a wild lunge at his foe. Helpless at the end of the tenth round, when Referee Donovan almost stopped the fight in between two knockdowns, Carnera staggered out to finish in the eleventh, bloody, semi-conscious, but as brave as any man who ever went to so certain a fate.

The thrill-swept crowd, losing its woken, hoarse roar after another, that swept in waves across the arena, rose for the "kill."

BABY'S NIPPLE SERVES TO IRK MANAGER RIVE

Cocoa President Tries To Have Fun At Expense Of Fed Pilot

"I'll make him use that thing on his players before this summer is over," said Manager Sid Rive of the youthful Sanford Celery-fed Baseball Club in the Central Florida Baseball League as he gazed at a baby nipple which was in a small box which had been sent to him by Hollis Atkinson, president of the Cocoa Baseball Club on Wednesday.

Receipt of the nipple, taken locally to mean that Rive needs to use it often if he expects his young local players to over-haul the Indians in the first half-pennant race, did one thing which should make the Sanford-Cocoa game here Sunday afternoon a bit more interesting.

Once the sneering Baer half pushed half battered the champion to the floor. Again Carnera went down from a right high to the head.

He came to his feet his tree-like legs barely able to hold him up. Donovan rushed in as Baer set himself for the final smash. Through his crushed and swollen lips the champion whispered as he turned his head to the referee:

"Fin!" he mumbled. "Fin. I am finish."
Donovan wrestled in between them, stayed Baer's finishing hand, pushed him back toward his screaming corner, the new heavyweight champion of the world.

Carnera started to protest and his seconds tore wildly about the ring. Then they threw a robe about his battered, bleeding head and led him down the steps, toward the end of the trail for the monster man of the ring, the peasant from Sequia Italy, eight short years ago, a freak in a circus. He said afterwards that he

near sell-out—it made Rive boil over with indignation which wasn't tempered the least bit by the fact that some of his players and a few fans were on hand when he opened the box.

Manager Rive has been laying for the Indians since the season began. He predicted at the start that they would be the team to best for the pennant, and his predictions have been borne out so far although today the Feds are only one game behind the Indians who are in first place.

Every man on Rive's team, they are trilling the other clubs w laying his part of the general plan to beat Cocoa here Sunday. Not at all worried over the fact that they will be able to take the measure of the Indians and go into a tie for first place.

Pitching duties on Sunday will be in the hands of two of the league's best players. Lefty Joe Sparkman and his fork-handed slitta will throw at the Indians for but one purpose—victory. Speck Kinsey and his so far hard-to-solve right-handed delivery, will be chunked toward the Feds for the same purpose.

That the outcome of the title depends a great deal on the defense around the field is practically certain. If the Feds can overcome a fast disappearing tendency to hobble at a crucial moment, the game may go into extra innings.

hadn't said he had enough, that Donovan shouldn't have stopped it, that he could have contigued, but he spoke from his heart and his courage more than his sense. He was one of the most terribly beaten champions in all heavy-weight history, crushed almost as badly as Jags Willard under Dempsey's iron-thewed fists at Toledo in 1919.

Every time this grinning, derisive, contemptuous Baer, the Livermore ladies' man, threw his cobblestone fists into the great hulk of the Italian, he all but tore him apart. That the challenger fought only in flashes probably accounted for the fact that Carnera lasted as long as he did.

Three times Carnera was on the floor in the first round, and three times more in the second he floundered down, terribly hurt, but dragging Baer down with him as he grabbed his tormenter's arms trying to keep his balance. Again in the third a right to the chin flattened the mammoth.

There were no more knockdowns until the tenth, although Carnera slid full length in his corner in the eighth as his weak legs failed to hold up his lunging body. But in the tenth, this murderous successor to California's earlier champions, Jim Corbett, Jim Jeffries and Dempsey, cut loose all over again.

Here was a round that for chaos, drama, and throat-choking excitement will take rank with some of the most tense in all ring history.

ings, and the outcome may be told with a single run.

Manager Rive, who is satisfied over his club's present position in the race, is at the same time satisfied that the position will be improved and that first place will be occupied by the Feds when the first half ends.

Rive, urging all real fans to attend Sunday's game, promises an exhibition that will leave no doubt as to the capabilities of the several young men who are on the team.

The infield is composed of Cecil Rines, Pete Schirard, Wilson Smith, and Claude Kelly, with Bu Abbott catching, while Roy Britt, Bogus Owens, and Paul Mansfield comprise the outer garden defense.

Rive also announced today that no changes will be made in the team's make-up for the rest of the first half. Under league rules, all managers must turn in a final list of 15 players including the manager, by 3:30 o'clock this afternoon. No players may be used in games for the rest of the first half who are not on the players' list today.

The final roster is as follows: Manager Rive, Rines, Schirard,

UNEQUALED PERFORMANCE RECORDS
FIRESTONE HIGH SPEED TIRES
* For fifteen consecutive years have been set the winning cars in the 500-mile Indianapolis Race.
THIS MEANS BLOWOUT PROTECTION
* For seven consecutive years have been set the winning cars in the Spring Five Peak Club where a slip meant death.
THIS MEANS NON-SKID SAFETY AND TRACTION
* For three consecutive years have been set the 131 laps of the Washington (D. C.) Railway and Electric Company covering 11,557,810 miles without one minute's delay due to tire trouble.
THIS MEANS DEPENDABILITY AND ECONOMY
* Were on the Nelson Motor Ford V-8 Truck that made a new coast-to-coast record of 67 hours, 45 minutes, 30 seconds initial running time.
THIS MEANS ENDURANCE

MAKE THIS TEST YOURSELF
Note how the rubber in a Firestone Tire clings to the high speed road. This greater adhesion and strength is made possible by the Firestone patented process of Gum-Dipping.

Don't Buy the rubber in an ordinary tire. Buy the rubber in a Firestone Tire. This extra margin of safety is built into the Firestone High Speed Tires that you buy from your Firestone Service Dealer or Service Store.

There is greater adhesion between the piles of the Gum-Dipped Cord body and between the body and the tread. As a result of this patented process of Gum-Dipping Firestone engineers have been able to build a wider tread of flatter contour, with more and tougher rubber and deeper non-skid, giving you more than 50% longer non-skid mileage.

Don't delay! Call on the Firestone Service Dealer or Service Store in your community today and equip your car with the new Firestone High Speed Tires for 1934. Drive with security and peace of mind. Choose the Tires that Champions Buy!

RESULTS count...

AND HOW! Whether you're speeding over smooth highways or pounding along tortuous rocky roads you want safety from dangerous blow-outs and tire-trouble. Insure against weak, worn tires. Change to new Kelly-Springfield Fatigue-Proofs—they're 6 times fortified against wear and blow-outs. You get trouble-free service; 20% more mileage; value plus—truly results that count. We aim to please you. Drive in today—We're sure we can save you money.

NOTICE
To Owners Of Dogs
As required by law, all dogs in the City of Sanford, Florida, except those that are kept on the premises of the owner, must be vaccinated for rabies once each year.
Dr. C. W. Baker, Veterinarian, will be at the rear of the City Hall each day from 10:00 A. M. to noon, commencing June 15th and continuing June 22nd, to do this work. After that time, all dogs found running at large and not vaccinated for rabies will be picked up by the police and killed.
The cost of vaccination will be paid by the City from the annual license fee of \$1.00 per dog.
F. A. LAMSON, City Clerk

STRIKE THREAT DISSIPATED BY GREENS PLAN

Labor Leader's Peace Proposal, Accepted By Both Sides, Has Staved Off Trouble

By The Associated Press
WASHINGTON, June 16.—(AP.)—The acceptance of William Green's peace proposal by steel workers has removed any immediate threat of a strike in that important industry.

Although the mediation plan by the Federation of Labor chiefdom was the one which brought the truce, it differed from the measure on which the Houses worked while they were toward adjournment at night sessions.

Green put forward the suggestion for an impartial board to be appointed by the President. The measure which the Administration hurriedly whipped together to head off the strike also proposed Presidential board to investigate and arbitrate disputes but it did not go as far on the controversial employee organization question.

Green urged informally, it was understood, that a strike be deferred until at least June 30 pending developments.

His plan, termed a "counter proposal" was given in four points, briefly, it is:

- 1.—An impartial board of three members to be appointed by the President to adjust all violations of code, mediate and conciliate any disputes; offer service as arbitrators; hear and determine any matter of discrimination or discharge of employes.
- 2.—Insure the right of workers to organize freely; clothing the board with authority to hold elections under the board's suggestion.
- 3.—All grievances or complaints referred to the board for final decision.
- 4.—If accepted by all parties—the workers, the operators and the government—then the strike should be "called off."

Herald Invited To Send Reporter On World's Fair Trip

The Sanford Herald is one of the Florida dailies which has been invited to send one of its reporters to Chicago and the World's Fair next week as the guests of Alfred E. duPont, Jacksonville capitalist and president of the Florida National Advertising Council.

Under the plan proposed to The Herald late yesterday, the reporter would join a party of 37 other reporters and officials of the Florida Exhibit at the Fair in Jacksonville next Friday morning, on a chartered motor bus trip to Chicago.

All expenses of the trip will be paid by Mr. duPont who believes it would be a real service for Floridians to be fully advised by their home town reporter as to the Florida Exhibit at the Fair.

An added incentive, cash prizes aggregating \$200 will be given for the best stories that the servants write about Florida's display at Chicago.

The reporters will attend a special meeting in Jacksonville on Friday morning where Mr. duPont, Governor Healy, and the members of the Florida exhibit and members to discuss ways and means of financing the Florida Exhibit and the remainder of the summer.

Plans now are on hand for the exhibit's maintenance for next 90 days. It was learned last night, Sen. Lawrence A. Wilcox, chairman of the Exhibit Committee, has suggested that the exhibit should have a morning session and other officials on the exhibit may

Suits Filed Seeking To Halt General Election Vote On Homestead Exemption Law

TALLAHASSEE, June 16.—(AP.)—Two suits seeking to prevent a vote, in the November general election on the proposed homestead tax exemption amendment were filed yesterday in Leon county circuit court.

Both claimed the amendment to be unconstitutional and both sought injunctions to prevent Secretary of State Robert A. Gray from publishing it as required by law. Such action, they said, would be an unnecessary expense.

A hearing on the suits has not been set but it probably will be next Friday before Circuit Judge J. B. Johnson.

One action was filed for Francis B. Winthrop and Guy L. Winthrop, of Tallahassee, as owners of property which would not be exempted under the amendment. The other was brought

FATE OF MED-FLY DAMAGE SURVEY BILL IN DOUBT

Measure May Be Lost In Rush Of Adjournment Of Congress

WASHINGTON, June 16.—(AP.)—The fate of two bills of importance to Florida, providing a survey of the damage resulting from the federal fruit fly eradication and extensive improvements to the Pensacola naval air base, was in doubt as Congress prepared to adjourn.

Florida Representatives Peterson and Caldwell, respectively sponsoring the legislation, expressed themselves as still hopeful, however, that sponsor Roy Jones would allow a vote on the bills before the end of this session.

The House today also passed an Administration bill to establish mediation boards to settle collective bargaining disputes. The action was taken without a record vote, and the bill was sent to the Senate.

Enactment is demanded by the Administration before adjournment.

The measure was brought to the floor by Representative Byrnes, Democratic leader, under procedure requiring unanimous consent. Republicans demanded an explanation of the measure, and after a brief discussion, it was put to a vote and passed before some members realized it.

The Republican majority, after a party conference yesterday, proposed three amendments to the labor resolution—which, drafted as an intended compromise, would authorize the President to appoint boards to mediate labor disputes and conduct workers' elections in cases of disputed labor organization jurisdiction.

The Republican Old Guard wanted the activities of the boards restricted to carrying out the purposes of the famous Section 7-A of the National Industrial Recovery Act and asked, too, that the life of the measure be limited to one year.

Senator Robinson of Arkansas, the Democratic leader, carried his suggestions to the White House and returned to renew a (Continued On Page Three)

Attention was divided between a section that some due the United States, already formally declared by all nations except little Finland should not and can not be paid, and equally emphatic declarations to the effect that Germany must be compelled in some way to meet interest payments on her loans.

Both France and Great Britain contemplate setting up a clearing office to handle transactions with Germany through which funds from commercial accounts could be taken for payments to the British and French bondholders.

While other nations were saying "Gibbs are dead," German business and political observers saw in the moratorium a move toward red reparations for all time, and ultimately to abandon the treaty of Versailles.

Possibility of negotiations with Germany were indicated in the home of a London business man in London by Neville Chamberlain, chairman of the committee, who stated that some action will be taken unless a satisfactory arrangement can be made by July 1, the date the moratorium becomes effective.

JOHNSON SEES 1ST YEAR NRA RECORD OKEY

Administrator Says Results Prove That Nations On Way To Economic Recovery

By HUGH S. JOHNSON
WASHINGTON, June 16.—(AP.)—The first year of NRA has demonstrated that we are on the right track—American business, labor and government have all joined in a concerted, intelligent effort to increase production on same lines.

The year, with all its accomplishments, has laid a firm groundwork for execution of the plan which Franklin D. Roosevelt and his supporters in industry and labor started out. We have no time to spend patting ourselves on the back for right now we are in the middle of the task confronting us of consolidating the national laws that have been passed of reforming and perfecting codes and their administration.

But the results of NRA to date show that Americans are taking pride in the program started by the yapping and jabbering of the hand-picked picked press, which have been busy pointing to the "blackboard" of the NRA.

Continuity, all industry has accepted voluntarily the conditions of the enterprise of the NRA and the cooperation of the business world will soon be demonstrated.

Private property, however, has increased in value in some instances, and the Government has a right to regulate the use of property, and to protect the public interest.

The principle, that a working man's contract is entitled to a decent wage, that labor is not a commodity to be purchased at the lowest possible price, has been established, and I firmly believe, for all time.

The abolition of child labor and the protection of the child laborer, which have also been established, the effect which government and public opinion has placed on the NRA plan has been recognized, and the nation will not again see a day when children have to leave their mother's arms to work in the mines and factories to the detriment of their parents.

These are things we can be proud of. (Continued on Page Two)

Circuit Court Term Is Adjourned Until Next Wednesday

Sixth term of Circuit Court was adjourned late yesterday afternoon until 10:00 o'clock Wednesday morning, when White Smith shall preside over the scheduled trial for murder in the first degree.

Adjournment was ordered by Judge Milton B. Smith at the end of the T. E. Fortney trial, and after a luncheon at Fortney had announced that he would seek a new lawyer, his client who had been found guilty of a statutory charge, was released from custody.

During the time the jury was in session, the case, Judge Smith has a number of 13 men who are now in the jury service next week as follows:

George King, C. D. Fortney, H. T. Russell, G. L. Kinnard, and G. L. Kinnard, Jr.; Paul F. Miller, Jr.; Harvey Kelsey; G. A. Wagner; Choluta; J. E. Longwood; and J. I. Longwood.

Special venire: V. A. Williams, W. Wallace, W. R. Rowe, R. J. Little, J. G. Lundquist, H. H. Little, J. K. Kersey, H. J. Chapman, R. B. Chapman, G. G. Hunt, H. C. Whitten, Harry Lee Barnett, Walter Carter, E. L. Wheeler and J. B. Jones, Jr. of Wesley M. B. Linder and S. R. Stoninger; Gabriella; J. A. Redpath, Frank Silver and L. J. Mixson of Osceola; S. J. Pomeroy of Longwood; and N. C. Smith of Chulucota.

MENDIETA INJURED BY BOMB BLAST

2 Men Die As Result Of Explosion. That Occurred During An Official Luncheon

HAVANA, June 16.—(AP.)—Two men died and a number of others were injured as a result of an explosion which occurred during an official luncheon.

The explosion occurred in a room at the Hotel Nacional, Havana, during a luncheon given by the President of the Republic.

The President was not present at the time of the explosion, which occurred while he was on his way to the hotel.

The explosion was caused by a bomb which had been hidden in a room.

The explosion was a result of the carelessness of the hotel staff.

100 Mile Wind Moves Northward Through State Of Louisiana

FLORIDA FLOODED UNDER HEAVIEST RAINS IN YEARS. DAMAGE SLIGHT IN CITY DESPITE UNUSUAL RAINS

Local Shower Forecast Indicates Lifting Of Water-Laden Clouds

By The Associated Press
Florida's sunny week, offset by a sudden deluge of rain, ended brightly at midday today. Friday as the clouds lay low in the heat of the day, a steady drizzle of rain fell, probably the heaviest rainfall in years.

Local showers forecast by the Weather Bureau for Saturday, indicated a lifting of the clouds from about 10:00 a. m. to about 1:00 p. m., but that for the rest of the day heavy rain would fall in most parts of the state.

Heavy rain fell from 10:00 a. m. to 1:00 p. m., but that for the rest of the day heavy rain would fall in most parts of the state.

The rain was a relief to the people who had been suffering from the heat and drought of the past few days.

Tropical Hurricane Of Great Force Strikes Land At Morgan City Near New Orleans

NEW ORLEANS, June 16.—(AP.)—A wind of 75 miles an hour struck Morgan City, 100 miles west of here at 11:00 o'clock this morning, striking trees in the streets, shutting off part of the electric service, and threatening small buildings.

The barometer dropped 28 points during the morning, standing at 29.10 at 11:00 o'clock.

The Weather Bureau here previously had warned Gulf coast points between Vermillion Bay and Morgan City.

The storm was expected to sweep far inland and residents as far north as Opelousas were advised to brace for a blow.

At 11:00 o'clock no damage of consequence had been reported. The sugar cane crop, principal product of the area, was heaviest hit.

At noon the wind was blowing from 75 to 100 miles an hour.

Fishermen in power luggers on their boats into bays for shelter, but the wharves of several had not been located by officers who were making heavy checks.

At Washington, the U. S. Weather Bureau today issued the following storm warning: Advisory at 10:00 A. M. hurricane warnings were ordered on the coast between Grand Island and Louisiana coast between Grand Island and Bay and Northward.

Storm warnings were ordered east of Vermillion in Sabine. A tropical disturbance attended by winds of or near hurricane force, near its center about 100 miles south of Morgan City apparently moving northward. It will cross the coast line between Morgan City and Vermillion Bay this afternoon or early tonight, attended by gales and probably winds of hurricane force over a small area.

East Coastal Louisiana last night was closely following the charting of the current Gulf storm.

The freakish disturbance reported attended probably by winds of hurricane force near center passed over the Yucatan peninsula during the past week, threatened Mexico and loomed around in the Gulf of Mexico into a northeasterly course, according to Dr. E. M. Chas, principal meteorologist of the United States Weather Bureau here.

Thursday the storm was reported traveling slowly northward about 175 miles southwest of New Orleans. Yesterday it was charted traveling in a slow movement, northward and westward and at 3 P. M. was reported to be centering about 300 miles slightly west of south New Orleans.

A warning from the Washington Weather Bureau stated that from present indications the center of the storm would reach the eastern Louisiana coastline Saturday afternoon or tonight. The disturbance was reported to be attended by shifting gales and probably by winds of hurricane force near the center. Caution was issued to vessels in the vicinity.

The Washington advisory ordered northeast storm warnings at 4 P. M. from Prosser's Flat to Morgan City, La., as the tropical disturbance approached.

The Washington warning stated that one ship, the Helfast Maru, a short distance east of the center, reported a wind of 70 miles per hour velocity.

Dr. Chas said he had received (continued on page two)
