Holiday Time To Practice Safe Driving

Are you making plans new for a Fourth of July holiday trip?

In 1908 there were 466 fireworks deaths sithe United States. Last year there was ealy one. Quite a record of progress.

Back in 1908 a rather ridiculous looking machine was just sputtering into being. Last year that machine-evolving from the ungainly horseless carriage into the sleek 607 lives during the Fourth of July holiday.

Thus the net gain in our efforts to avoid holiday self-destruction seems to be about

Modern Policemen

In vaudeville days the fat and stupid han was a stock figure whose mention was always good for a laugh. Some of this type may still hang on from earlier days, left teday's policemen are of a different type. They are more likely to be lithe and athletic than everweight and befuddled. A better ches of men is being recruited.

An indication of this is the fact that at this year'scollege commencements 37 police aftieurs from the surburbs of a large city ressived college degrees. New York City, for instance, not long ago reported a ser-general who had just received a doctorate of philosophy from a local university.

The eldtime vaudeville cop could never have mastered the special techniques of erime investigation that are taught to police forces today. The modern policeman is exproted to be intelligent and well informed, and often he is.

and that leads us to say that the motern policeman should be well paid-paid that he can pursue such endeavors as that of a better education, a more complete inswinder of his duties— and that he may live in surroundings commensurate to the importance of his position.

Yes we do have modern policemen t do they receive modern salaries?

The Senford Herold

Page 4 Monday, June 22, 1956

PUBLIT MINE YMRSO Giving thanks always for all the things in ame of our Lord Jesus Christ. Epheas 5:20 Generous laws that provide for the unemployed and aged and the sick characterise Christian lands. We should be grateful for these laws and give credit where

Fireworks deaths on the Fourth have been almost eliminated because thinking persons revolted at such senseless killing. and state by state the sales and use of dangerous fireworks were prohibited.

No one, of course, is advocating that the sale or use of automobiles he banned. But we strongly urge the outlawing of their misuse.

Most people want to use their cars safely. But in every society there is always a minority of reckless and irresponsible drivers who turn a deaf ear to all appeals for prudent and commonsense behavior.

It is for this group that the National Safety Council and the International Association of Chiefs of Police have jointly recommended a rigid law enforcement policy by all police agencies during the Fourth of July celebration.

We strongly support this recommendation. A traffic accident emergency faces this country, with a new all-time high death toll in prospect.

It is time to stop temporising with this problem. The Fourth of July holiday is a good time to start getting tough.

Volunteer Labor

A group of farmers belonging to a rural church were hauling sand recently for the floor of a church in which they planned to hold an annual meeting. They were stopped by the Highway Patrol and informed that they could not use their trucks to haul any person other than the owner of the truck. There could be no donated hauling, not even for their church.

The were for the ruck. They stand at all perfect unison. It was truly the most amazing sight they could not use their trucks to haul any. They see and my hat is they could not use their trucks to haul any. They stand at all perfect unison. It was truly the most amazing sight they could not use their trucks to haul any. They see and my hat is off to Mr. Rediey Edwards, "They sees and my hat is the sance in a families and friends made the trip, only man since Nesh whose largue they could not use their trucks to haul any. They stand at all they could not use their trucks to haul any. They sees and my hat is off to Mr. Rediey Edwards, "They seem and look—the person other than the owner of the truck. You Can Relax

Yes, with a savings account at First Federal you can relax, knowing that you are providing for emergencies, Senny's and Sister's education or the "big vacation" in the future. Whatever your plans for tomorrow, they will be made surer by regular additions to your savings account here.

> Earnings, too, are liberal and increase your account by the dividends that are added twice a year. Make sure you get the dividends (current rate 3% a year) on December 31 by opening an account here today,

Safety is our first consideration for your savings with us. Loans well supported by prime collateral, adequate reserves and insurance by a government instrumentality up to \$10,000 on each acsount make your savings secure.

White AMOCO-GAS Guarantees

mo leac

Lead fouling is a power-robber caused by lead that's used in all gasolines but one-and that one is clear-white Amoco-Gas. Lead in a gasoline doesn't all burn. Crusty lead deposits form and foul up engine operation-and that's true of any leaded gasoline regardless of fancy color, fancy pump or fancy name. These deposits waste octane power. And no additive in the world can remove them, once they form.

Amoco-Gas alone can guarantee no lead fouling . . . it contains no lead, it can never leave a single lead deposit. Amoco is 100% POWER - with all the high octane that any car can use. You'll see the difference when you buy itonly Amoco-Gas is clear white. And you'll see the difference when you use itwatch that mileage record improve!
