## BOND AMENDMENT IS DEFEATED BY A BIG VOTE 23,057 AGAINST BONDING

### Democrats Won Out In State With Few Exceptions

### COX RAN LOW MAN

#### THE REGULAR TICKET AND STATE CANDIDATES WERE AHEAD OF HIM

The defeat of the constitutional amendment providing that the legislature be empowered to issue bonds for good roads has been defeated by a state majority of 23,057 votes against the proposition, according to the Tampa Times' tabulation of the vote of the entire state, based on returns from 652 precincts out of 977, which allows of a fairly accurate compilation of the entire vote. The 652 precinct returns gave a total of 22,578 votes in favor of the amendment, and 35,855 against, or a majority of 13,277 votes against the amendment, giving an average of 23.6 "no" majority to each of the 977 precincts, or 23,057 for the entire state.

In many counties the vote was about two to one against the proposition, but in Escambia, the stronghold of advocates of passage of the bonding amendment, the measure received an affirmative vote of more than eight to one, with 3,200 for it, and only 400 against it. But the amendment was swamped by the overwhelming "no" majorities in such counties as Suwanee, which piled up 1,535 votes against the proposition with only 90 in favor of it; Seminole, with 1,462 against, and only 170 for the amendment; Sumter, 66 for and 793 against; Volusia, 342 for and 2,237 against, and the big mass of counties which piled up two to one votes against the measure.

The defeat of the road bond measure seemed a certainty as soon as the returns started coming in. With the exception of a few communities in which Republican or independent candidates rolled up a surprising vote, enough to elect them, in a few instances, the state of Florida, stood steadfast for its Democratic principles by a decisive vote. It was to be noted, however, that Gov. Cox ran far behind the state (Continued on page eight)

### FRENCH AND BRITISH WOULD HELP WRANGLE IN RUSSIAN CAMPAIGN

(By The Associated Press.)  
CONSTANTINOPLE, Nov. 6.—The French and British representatives here asked their governments if their warships in the Black Sea should support General Wrangel at Percep and Salkova where the Soviet forces are pressing on Crimean peninsula. Meanwhile fresh supplies of rifles and cartridges are being hurried to Sebastopol.

### PRESIDENT WILSON WILL NOT PARDON EUGENE V. DEBS

(By The Associated Press.)  
WASHINGTON, Nov. 6.—President Wilson is understood to have no intention of pardoning Eugene V. Debs, who is serving a ten year sentence in the Atlanta penitentiary for violating the Espionage act. Those professing to know say the president believes the executive clemency set had precedent and would encourage others to oppose the government in the event of another war.

### NO REPORT MISSION IN RUSSIAN WAR ZONE

(By The Associated Press.)  
WASHINGTON, Nov. 6.—The State and War Department officials said they had no knowledge of any official American mission in the war zone of Southern Russia and had no report of a mission falling into the Soviet hands.

### WOMAN TAKES OFFICE

LONDON, Nov. 6.—Mrs. Florence Bramwell Booth, wife of General Bramwell Booth, of the Salvation Army, has taken oath as a justice of the peace for London.

### Still Count G. O. P. Returns In States

#### THREE CONGRESSIONAL DISTRICTS TO BE HEARD FROM TO GET RIGHT FIGURES

(By The Associated Press.)  
NEW YORK, Nov. 6.—Results of the election of three of the nation's 435 congressional district remain undetermined as the fifth day of tabulating the tremendous Republican sweep began. The 28th New York, 8th Minnesota and 5th Missouri are missing. The Republicans are assured of 290 members to 138 for the Democrats.

### REP. BLANTON PROTESTS AGAINST PLEASURE CRUISES

(By The Associated Press.)  
WASHINGTON, Nov. 6.—Representative Blanton, of Texas, addressed an open letter to Secretary Daniels protesting against the announced cruise of the Atlantic and Pacific fleets to South America, Africa, Australia, New Zealand next summer, because he said it would require greatly increased amounts of coal and oil.

### JAPAN OBTAINS MANDATORY RIGHTS

(By The Associated Press.)  
TOKIO, Nov. 6.—The 700 islands of varying size in the South Sea group for which Japan obtained mandatory rights at the peace conference will have a Japanese governor and a thorough system of administration.

The governor at present will remain under the direction of the navy which has been in control of the islands since their acquisition five years ago. It is possible that later all connections between the navy and the islands will be severed.

The League of Nations Council in November is expected to work out a detailed scheme for the application of the principle of trusteeship by which Japan retains her controls.

The idea involved in enlarging the scope of civil administration is to establish three distinct administrative sections—of domestic affairs, colonial affairs and police affairs.

### WILLYS-OVERLAND FACTORY AT TOLEDO CLOSED INDEFINITELY

(By The Associated Press.)  
TOLEDO, Nov. 5.—The Willys-Overland automobile plant, employing around 15,000 was closed today for inventory and will remain closed for an indefinite period.

### POOR BREAD CAUSES DISEASE

(By The Associated Press.)  
VIENNA, Nov. 6.—The poor quality of the bread which the people have at present to eat is stated to be the cause of extraordinary increase of intestinal affections in the last weeks, and over which the medical faculty here is very much concerned.

A peculiar feature of the epidemic is that it is accompanied by skin eruptions similar to those caused by pellagra.

Pellagra is generally believed to be caused by eating a poor grade of corn and the bread as baked at present in Vienna, contains 40 per cent corn flour and 20 per cent potato flour.

### GOMPERS FINDS HOPE FOR LABORING MEN IN NEXT CONGRESS

(By The Associated Press.)  
WASHINGTON, Nov. 5.—Samuel Gompers issued a statement today on the election that "every forward looking man and woman must feel some deep regret because of the great plunge toward reaction. But democracy will right itself at the proper time. A tabulation of the next congress results shows definite gain for all that makes progress. The next congress shows an increased number of men holding union cards." He said the non-partisan policy of the Federation was more justified than ever.

## Sanford An Up and Coming City

Splendid Article Appearing in The Wilmore (Ky.) Enterprise

The following article on Sanford appeared in the last issue of the Wilmore (Kentucky) Enterprise. Mr. L. S. Fitzhugh, the editor of the Enterprise has made several visits to Sanford and is here at present the guest of Mr. and Mrs. Geo. A. DeCottes and is well known here and elsewhere in Florida:

In the heart of the truck growing district of Central Florida, the great garden around Sanford is said

to be the most intensively cultivated area of any section of the state. Here one rides through miles of lettuce, celery, cabbage and, to a lesser extent, cauliflower, peas, etc. These are the winter crops. In spring come the tomatoes, egg plant and cucumbers. It is a really beautiful sight, the great fields of healthy, growing green. Land cleared, irrigated and ready for cultivation, is valued at a thousand dollars an acre. Naturally

this requires, and is given, the intense cultivation and rotation of market gardening. No weed is seen in these closely planted fields and every foot is utilized in growing crops. Thousands of car loads of vegetables are sent from Sanford to the northern market in the winter and spring. Of these, celery probably ranks at the top in quantity and value. Sanford has long borne the title of "Cel-

(Continued on page Seven)

### INDEMNITY OF GERMANY TO BE FIXED

#### AGREEMENT BETWEEN ALLIES WILL BE REACHED AS MINOR DETAILS ARE SETTLED

(By The Associated Press.)  
PARIS, Nov. 6.—The Matin says it is believed the agreement concerning the roles to be played by the Reparation Commission and the Allied government in determining the amount of German indemnity can be easily reached and that Great Britain and France differ only in minor details.

### PRESIDENT-ELECT SPEEDING SOUTH STARTS TO WORK

(By The Associated Press.)  
ON BOARD HARDING'S SPECIAL TRAIN, Nov. 6.—President-elect Harding began his month's vacation trip to Southern Texas and Panama. The president-elect's mind is already at work on preliminary details for his plan for the new association of nations, but he don't intend to let it interfere with his outfit. Cabinet appointments he announced would not be given consideration during his vacation.

### CLASHES OF SOCIALISTS AND LIBERALS IN YUCATAN

(By The Associated Press.)  
MEXICO CITY, Nov. 6.—Further clashes of the Socialists and Liberals in Yucatan arising from the state election campaign was reported yesterday from Merida. It is stated several are dead and scores wounded as a result of a pitched battle Thursday night. Federal troops were rushed to several villages.

### WEALTHY PEACH GROWER DIED SUSPICIOUSLY

(By The Associated Press.)  
FORT VALLEY, Ga., Nov. 6.—Solicitor General Garrett arrived here today to hold an inquest over the death of Fred D. Shepard, a wealthy peach grower. The body will be disinterred if necessary. Judge Matthews of the Superior court ordered the inquest. He left a \$300,000 estate.

### SEABOARD TRAIN DERAILED AND PASSENGERS HURT

(By The Associated Press.)  
RALEIGH, Nov. 6.—Five passengers and the express messenger were injured in the derailment of a Seaboard Air Line train at Apex, N. C., today. Five express cars left the rails.

Try a Herald Want Ad.—It pays.

### Affidavits Against Japanese Consul

#### BEING PREPARED IN LOS ANGELES FOR PARTICIPATING IN CAMPAIGN TUESDAY

(By The Associated Press.)  
LOS ANGELES, Nov. 6.—Officials of the Los Angeles County Anti-Asiatic Association announced today that affidavits are being prepared for presentation to the State Department supporting charges that Oyama, the Japanese consul of Los Angeles, participated in the campaign to defeat the California alien land bill.

### SOUTHERN BANKERS GATHER FOR MEET AT NEW ORLEANS

(By The Associated Press.)  
NEW ORLEANS, Nov. 6.—Bankers from all over the South are here today to plan the organization of a \$12,000,000 foreign trading corporation to establish banking facilities. They will market the agricultural products of the South in Europe.

### FRENCH GOVERNMENT READY FOR NEW PLAN OF LEAGUE OF NATIONS

(By The Associated Press.)  
PARIS, Nov. 6.—The view expressed in official circles of the French government was that the government was ready to co-operate with the Washington authorities in formulating something different from the League of Nations covenant as drawn at Versailles.

### IRREGULARITIES IN COMPTROLLER'S OFFICE IN NEW YORK

(By The Associated Press.)  
NEW YORK, Nov. 6.—State Comptroller Travis was ordered held to the grand jury by Justice Kernochan, who presided at the inquiry into alleged irregularities in the comptroller's office.

### PRESIDENT WILSON OFFERS BATTLESHIP TO NEW PRESIDENT

(By The Associated Press.)  
WASHINGTON, Nov. 5.—President Wilson directed Secretary Daniels to offer Senator Harding a battleship for his Panama trip and the presidential yacht Mayflower for his trip to Hampton Roads to board the battleship.

### D'ANNUNZIO BREAKS INTO PRINT AGAIN

(By The Associated Press.)  
TRIESTE, Nov. 6.—Gabriele D'Annunzio has occupied Promontory of San Marco as a protest against alleged firing by Serbian coast guards on an Italian steamer. D'Annunzio's troops are now facing the Jugo-Slav frontiers.

### SANFORD HIGH WINS AND LOSES AT PARISH HOUSE

In one of the most exciting and surprising games ever played at the Parish House, the S. H. S. girls decisively defeated the Eustis girls by the overwhelming score of 40 to 5, in the first game of the local basketball season.

The S. H. S. "Midgets," were outclassed physically, both in weight and in height, but they outclassed their opponents in team work, speed and pep. From the very first they began with a rush and before the surprised Eustis girls came too, they were on the short end of a 12 to 0 score, with the first half just begun, but to cheer them up, the S. H. S. girls allowed them to score once, and then they began again, and when the first half was over the score stood 29 to 3 in favor of the S. H. S.

However, in the second half, the Eustis girls settled down and played just a little harder and faster, with the result that the S. H. S. only scored 11 points against 2 for Eustis, which made the final score 40 to 5 for the S. H. S.

The surprise of the evening was the brilliant playing of Maude Lake and Emma Spencer, the two star forwards, for S. H. S. who showed that age and height, have a little to do when one wants to really play and be in the game. These two girls did the scoring for Sanford, and over half of the points are credited to Miss Lake, who scored 28 of the 40. Miss Spencer contributed the other 12. Another star player was Sarah Easterby, who kept the ball on the right end of the court and always was in the right place at the right time. Time and time again she started plays which contributed to the scoring, and much credit is due her for her work. Maude Carraway and Sarah Wheelless were also very much in the game, especially Miss Carraway, who completely outclassed her opponent in every way.

As a whole, the S. H. S. team is going to prove to be a winner, if the results of last night's game can be counted, and under the direction of Coach Ogilvie, they are going to set the fans of Central Florida to do some thinking as to who are the champs.

The second game, played between the S. H. S. boys and the Eustis High School boys, ended in the defeat of the locals, by the score of 31 to 23.

The second game was one of the roughest and hardest fought games played in some time, and the chief reason of the defeat of the locals was the numerous fouls which were credited to them. They seemed to have the game for themselves at the

(Continued on page eight)

## BASEBALL AND COSTUME BALL ARMISTICE DAY PROGRAM

Owing to unforeseen circumstances, it will be impossible to stage the game between the Baptist and Methodist girls, but the Legionnaires have advertised a baseball game at 4:30 p. m. and they are not going to disappoint the public by cutting out that part of the program.

A real game is being arranged between the Army and Navy, and with such efficient management as C. F. Chapman for the Army and Frank Roper for the Navy, the local fans are promised a fine exhibition of the National Pastime. The batteries and line-up of the respective teams will be announced later. The game will be called at 4:00 p. m. at the Holden Park, the small sum of two bits entitling you to witness a real 7-inning battle.

**Band Concert at Night**  
The Kissimmee Band will appear in concert, two hours previous to the Costume Ball, playing from 7:00 till 9:00. It has been decided to hold the concert on the Court House steps, since the vacant lots about the building offer the best place in town for the crowd to congregate.

**Legionnaires to Pay Homage to Soldier Dead**  
Amidst the festivities of the day we must not forget the true patriots of this county who rest "at the foot of the Rainbow."

A flag-draped float, bearing a wreath and under military escort will appear in the parade and the line of march of the column will be so arranged that the dispersing point will be near the monument to our soldier dead on Park avenue. It is requested that everyone remain quiet while Captain Herring pays tribute in the name of the Legion to the honored dead.

**Signing of Armistice to be Celebrated**  
The "zero hour" of the day will fall at precisely 11:10 a. m., at which time it is requested that everyone within hearing distance of the shop windows uncover and remain at attention in honor of such an historic event.

### NAVY RECRUITING PROGRESSES RAPIDLY SHIPS WELL MANNED

(By The Associated Press.)  
WASHINGTON, Nov. 5.—Recruiting for the navy is progressing so satisfactorily that navy officials believe it will soon be possible to send a large number of vessels of all classes now tied up in the navy yards for lack of crews. Recruits are entering at the rate of 2,300 a week.

### SPANISH BOY SCOUTS ENCOURAGE EDUCATION

(By The Associated Press.)  
MADRID, Nov. 6.—Former Boy Scouts in Spain have decided to inaugurate a campaign throughout the country to combat the prevalent illiteracy. The resolution founding a society just formed for that purpose says: "We consider the existence in Spain of 60 per cent of the population who can neither read nor write constitutes a veritable scandal for the nation. After carefully analyzing the problem, we have reached the conclusion that a modicum of goodwill on the part of the governing classes would be sufficient to solve it."

The society resolved to form free classes in every big city where boys will be given instruction in the elements of reading, writing and arithmetic. Later similar classes are to be started for adults of both sexes. The teachers will be chosen from well-unters among educated people and the society hopes to enlist the services also of professional teachers from the national schools to give instruction in the evening.

### AMERICAN MISSION IN SOVIET HANDS

(By The Associated Press.)  
LONDON, Nov. 6.—American mission in South Russia has fallen into Soviet hands the Moscow paper, Pravda says according to a wireless dispatch. Mission paper says it was headed by "General Moral."

Member of the Associated Press

Next big day is Armistice day.

And after that comes Thanksgiving Day.

And then Christmas and New Years and then March Fourth.

But this reminds us that holiday season is at hand and the stores are getting ready for the biggest business of their lives.

We have not been able to get cheap newsprint paper under a Democratic administration and maybe with a newspaper man for president we will be able to get the price down low enough to operate a newspaper with a small percentage of profit.

And with cheaper paper and cheaper materials of all kinds we can give the people of Seminole county a twelve page daily paper that will be second to none in the state. And in the making of a real daily the progressive men of Sanford will do their share.

We predict that cooler weather will give Sanford the best lettuce crop in many years and with good prices this city should put on a holiday boom that will outclass any holiday period in our existence. Let us all get together and give the old town a big push now that election is over and we can all get together for this purpose. Let all the merchants start a big advertising campaign and put on sales that will bring people here for miles around. Sanford is the natural trading center for South Central Florida and it is up to all of us to get busy and let the people know about our city.

**TWAS EVER THUS**

The foreign papers, English and French, favor Harding according to press dispatches. 'Twas ever thus. President Wilson going over to help the foreign countries gets the blame for trying to foist his opinions on them and now that the Democratic party—the sponsors of the League of Nations—is defeated, the foreigners who we tried to help are against the league and all that follow it. Perhaps the League was wrong after all if that is the way France and England feel about it and we should stay on our own little celery patch and let them fight it out. Anyhow we will never go to war again regardless of who wins—and we have all made up our minds on that score.

**PICAYUNISH POLICY.**

It is sure and certain that many a business man in the South who was a dyed-in-the-wool Democrat voted the Republican ticket because he had become good and tired of the picayunish spirit of the Democratic party in collecting the little taxes here and there on every article that was ever manufactured or ever thought of being manufactured. When this tax was placed as an additional burden on the people on account of the war nothing much was thought about it but when it was continued long after the war and is still being levied and the spirit in which it is being collected made the business man and the buyer sore clear through. Just why this tax is levied on articles that are a necessity is more than the average man can understand and we never

*J. P. says* "THOSE WHO HAVE ACCUMULATED MEANS AND HAVE CULTIVATED THE HABIT OF INVESTING AND DEVELOPED THE ART OF DISCRIMINATION BETWEEN SAFE AND SPECULATIVE INVESTMENTS, KNOW WHAT A SPLENDID OFFER THE SOUTHERN UTILITIES COMPANY HAS MADE TO ITS CUSTOMERS IN PRESENTING THE 8 PER CENT CUMULATIVE PREFERRED STOCK, AND ARE RAPIDLY TAKING ADVANTAGE OF IT. THERE'S NONE BETTER."

will understand it. Right now a man comes along and grabs up a merchant on something that the merchant has never heard about and sticks him for a tax that is entirely foreign to him. And then every time you buy a cold drink, or a pair of stockings or a pair of shoes over a certain price you get a bill for the war tax until we are sick and tired and sore about the war tax and if the Republican party will eliminate this war tax when they go into office it will make Republicans out of many people even in the "solid South." It is such picayunish pickings that changes people from loyal patriotic citizens to Bolsheviks. Utellum."

**AUTO CAMP SITES**

This city has been contemplating two auto camp sites for some time. The one on Sanford Heights is only a temporary affair and has already been condemned by the inhabitants as being unsanitary and too close to the residence section of the city. The city commissioners and the Board of Trade should get together on some proposition and make a regular city camp somewhere within a mile or two of the city where the campers would not bother anyone and where they would have real sanitary conditions. Other cities are having their troubles over camp sites as the following from the Orlando Sentinel would indicate:

At the Board of Trade meeting yesterday J. Adrian Epping forcefully advanced many sound reasons why Orlando should have a high class, permanent camping grounds for tourists, and Secretary Cox equally produced as many reasons why Orlando should abandon the make-believe camping grounds on the east shore of Lake Ivanhoe. Mr. Epping cited many instances of money left in Orlando by campers, of genuine investments which those campers had made, and estimated that Orlando merchants would receive a 200 per cent benefit and additional business from every dollar they spend in equipping a suitable place for the campers and motoring parties. Other cities in Florida are awakening to the fact that camping grounds pay, and pay big returns. These cities are going ahead with the grounds and giving the campers sanitary environments and adequate quarters where they may live and enjoy to the fullest the mild Florida winters. Ultimately a large per cent of these campers become investors, many of them are well-to-do people who prefer to motor and pitch their tents on Mother Earth. This problem has been agitated long enough. If Orlando is going to take care of the campers, do it and do it right, or quit. Why start something, talk about it, and then pursue a do nothing policy? Transients cannot be accommodated in Florida this year. That is a certainty. Therefore resort must be made to take care of as many people as possible by giving them camping grounds. Contemplate the manner in which St. Petersburg has handled the situation. Support of a camping site will mean large, additional revenue for the grocers, real estate men, automobile dealers, dry goods houses and other lines of business. The question is in the hands of the Board of Trade committee which has been requested to procure full details, financial pledges, and then place the matter before the Board before final contracts are awarded.

**BOND AMENDMENT DEFEATED BADLY**

With returns on the constitutional amendment to allow the legislature to issue bonds to 5 per cent of the state's assessed valuation for the purpose of building a state system of highways, indications are that the amendment was defeated in Tuesday's election by one and a half or two votes to one.

Owing to the overshadowing interest in the national election figures, it has been difficult to get returns on the bonding amendment, and the vote is canvassed by the state board. A tabulation of returns received by The Tampa Tribune up to last night from thirty-five out of the fifty-four counties, with only four counties complete, gave 13,354 in favor of the amendment and 21,625 against.

In Hillsborough county (incomplete) the vote was 938 for, 2,191 against. A majority of the counties heard from, in all sections of the state, have given a majority against the amendment. Escambia county espoused the amendment to the greatest degree, and other counties which carried for it are Hernando, Duval, Lee, St. Johns and Dade. Hillsborough has voted perhaps four to one against, while Polk seems to have given ten to one or better against. Pinellas, Suwanee, Lake, Madison, Putnam, Alachua and Marion are among the many counties giving decisive majorities against the amendment.

**WEATHER AND CROP CONDITIONS IN FLORIDA**

Temperature: The temperature was generally moderate during the week, being below the seasonal during the latter part, especially on the 29-30th, when light frost formed over the extreme north and west.

Precipitation: Rain is needed over most of the peninsula east of the Suwanee river, except that moderate showers fell in some localities. As a rule, however, the week was exceptionally dry in most of the central and southern divisions. And the month, in much of the state, was one of the driest of record for October. The total rainfall at Jacksonville for the month was 0.11 of an inch—surpassed in 1874 and 1909, when 0.10 and 0.08 inch, respectively, were recorded.

Condition of Crops: Moderate rains west of the Suwanee river and in counties adjacent to that line, and locally in the peninsula to the south improved the condition of the soil, and the seeding of oats and rye made some progress, but work is backward over most of the section. The dry weather was favorable for the harvesting of cane, which is being done to a considerable extent; much is being made into syrup. Truck is backward, except on low lands. Celery is doing well in Manatee county. The cool weather benefited citrus fruits; shipments are active.

According to a statement made by Colonel Cedric Fauntleroy, of McGehee, Arkansas, founder and commander of the famous Fosclusko squadron, the unit of United States aviators

 2nd Floor

20 to 50 per cent saved on everything you buy at this Sale

MISS KATHRYN WILKEY, Editor. Phone 428

Mrs. H. M. Galloway and Mrs. Hal Wight were in Eustis Friday.

Mr. and Mrs. Clifford Bell are at the Valdez until their new home is finished on Celery Ave.

C. E. Chenert, of Toledo, Ohio, is with his son for a few days before he goes to Daytona for the winter.

Master L. P. McCuller, Jr., is home from the hospital and is doing splendidly, having had his tonsils removed.

The many friends of Mr. and Mrs. A. H. Moses are welcoming them home after a pleasant summer in the east.

**SPENDTHRIFT CLUB**

The Spendthrift Club was very charmingly entertained Friday afternoon by Mrs. E. F. Housholder. The prize for high score, a jar of Hubigants powder, was won by Mrs. Britt.

Mrs. Leggett and Miss Wilkey were guests of the club for the afternoon.

At the conclusion of the game a delicious ice course was served.

**T. N. T.**

The T. N. T. enjoyed their usual good time as the guests of Mrs. Robert Herndon Friday. After a pleasant afternoon spent in sewing, delicious refreshments were served.

**PARCEL POST SALE**

Circle B of the Presbyterian Church with Mrs. Samuel Puleston as their chairman, was hostess of a Parcel Post Sale at the home of Mrs. Puleston on Magnolia avenue. The house was most artistically decorated in yellow elder and purple wild flowers.

Quite a large number of guests were received at the rate of a "penny an inch" for their waist measure.

At a booth arranged as a Post Office the little Misses Puleston sold about one hundred fifty parcel post packages, which caused a great deal of pleasure and fun when they were opened.

An ice course was served late in the evening.

The sale was most successful as the two fold purpose of a very pleasant evening and quite a neat sum, was realized.

**NEW CROP OF ADVERTOURISTS HERE AND WARNING SOUNDED**

The Jacksonville Times-Union says: During the last few days, according to members of the merchants protective committee of the Chamber of Commerce, a number of "advertourists" have come into the city and are endeavoring to foist questionable advertising schemes upon the public. Several of these workers have been detected in their operations which have been curbed. Others are said to be working regardless of the fact that their propositions have not the sanction of the local censorship body which has as its object the protection of merchants and others from worthless scheme advertising.

Major H. L. Covington, Jr., chairman of this committee, is requesting all business men who are solicited to purchase space or advertising in mediums of unknown merit, to refuse to do so until the propositions are properly submitted for examination.

This committee in seasons past has saved thousands of dollars for local people by curbing the activities of solicitors for worthless schemes and it expects this season to greatly amplify its efforts.

Now is the time when the "advertourists" begin their annual pilgrimage to Florida and the state is literally flooded, and will be for several months, with schemes of every kind designed to pay the expenses of members of the "floaters" class during the winter. All proposals brought before the committee are carefully considered and those of merit receive the body's official sanction. The others are not approved and every effort is made to prevent worthless schemes being offered the advertising purchasing public.

God has not promised us a gay and happy life always with out a shadow of pain.

Try a Herald Want Ad.—It pays.

**PLAYING THE BIG GAME**

**GEORGE HYMAN'S LECTURE**

This Lecture will be given as an Armistice Day Message. Chaplain Hyman was over there.

AT THE BAPTIST TEMPLE, SUNDAY NIGHT, NOVEMBER 7TH, 7:30  
"We've Saved a Place For You."

years ago of wagon loads of building material that went in the front door of the structure, soon after came out the back door and then disappeared. Charges were made that marble was paid for but concrete was used for part of the construction, and other accusations of graft were aired. It was then that the newspapers began to call it "The Palace of Gold."

**SPECULATION AS TO FLORIDA APPOINTMENTS UNDER NEW RULE**

Republicans of the State Will Come in For Some Fat Jobs to Be Handed Out

When it was freely predicted that the Republicans would win in the national election weeks ago speculation began as to how patronage would be distributed in Florida, as well as other states, there being several fat federal offices to be apportioned among those who preserve their party loyalty in the hope that some day they will receive one of the plums that drop.

George Bevan, of Tampa, will split the pie this time without the interference of Joe Lee, deceased. Mr. Bevan is national committeeman from Florida, and has been chairman of the national campaign bureau of Republican activities among traveling men. If Mr. Bevan isn't given a job in Washington, or in some federal department, he will, undoubtedly succeed J. F. C. Griggs as collector of customs. The position pays \$8,000 per year with traveling expenses liberally allowed.

Judge John M. Cheney, of Orlando, would come in for a fat appointment if he wants it, but probably will not accept one. The next man in republican ranks entitled to appointment is George Gay of Palatka and the office which is next to that of collector of customs is collector of internal revenue. Mr. Gay will, in all probability, be given this appointment if he wishes it.—Palatka News.

**Six Kinds of Safety**

Have you every paused to consider the safety of the bank where you deposit your money?

The first consideration is the capital, which should be ample to meet the requirements of the community the bank is to serve.

The next question to consider is the officers in charge. They should be men of experience, high character and successful. Without men of ability no institution can succeed.

Then there is the question of confidence. The public should have confidence in the officers and in the bank.

These three principles determine the success of a bank.

We adopted these principles in the outset of our career and we expect to live up to this high standard and increase our usefulness to the community as the years go by.

**We Offer You:**

- 1ST: LARGE CAPITAL AND WORKING RESERVE.
- 2ND: TRAINED MEN IN CHARGE—MEN OF SEVERAL YEARS EXPERIENCE.
- 3RD: THE CONFIDENCE OF THE PUBLIC, WHICH IS PROVEN BY THE DAILY ADDITION TO OUR LINE OF DEPOSITORS.
- 4TH: PROTECTION BY TWO EXAMINATIONS EACH YEAR BY THE STATE BANKING DEPARTMENT, TWO AUDITS EACH YEAR BY AN INDEPENDENT RECOGNIZED PUBLIC AUDIT COMPANY AND TWO SWORN STATEMENTS SUBMITTED TO THE STATE COMPTROLLER BY THE CASHIER, GIVING THE BANK'S CONDITION IN DETAIL, ALL OF WHICH INSURES REGULAR, SYSTEMATIC AND THOROUGH OPERATION OF THE BANK.
- 5TH: THE ADVICE OF A COMPETENT BOARD OF DIRECTORS, WHO MEET WITH THE OFFICERS REGULARLY EACH MONTH AND ADVISE THEM AS TO THE OPERATION OF THE BANK.
- 6TH: INSURANCE OF ALL DEPOSITS EVERY DAY OF THE YEAR, THIS IS A PROTECTION NOT COMMONLY FOUND IN BANKS AND IS AN ABSOLUTE PROTECTION FOR YOUR FUNDS, IN ADDITION TO ALL THE OTHER USUAL SAFEGUARDS.

THESE ARE REASONS WHY YOU SHOULD DO BUSINESS WITH US, AND WE BELIEVE THAT NO BANK CAN OFFER BETTER INDUCEMENTS.

**WEATHER REPORT**  
For Florida: Fair tonight and probably Sunday.

Kenneth Murrell is in the city for the week end from a trip on the road selling the Armaledder trucks.

One of the events of Armistice Day will be a baseball game between the army and navy to see who really won the war.

Remember that the Confederate Veterans hold their annual reunion at Orlando this year beginning next Wednesday, Nov. 10.

J. O. Welch, a prominent citizen of the Apopka section, and his daughter, Lena Mae, are in the city today the guests of relatives and friends.

Albert Dorner will lease or rent the Carter property for fertilizer ware house in the near future which was vacated by Chase & Co.

C. E. Kellerman, of Tampa, representing the Dalton Adding machine, was in the city yesterday afternoon enroute to points on the East coast.

The Moline Tractor will be shown at the Star Theatre tonight and those who are interested in tractors will have a chance to see this wonderful tractor in operation performing all kinds of stunts.

The Daily Herald is proving very popular in the city and on the rural routes and gives the people first hand information on everything that is going on here and elsewhere. Have it keep it at eight.

Dr. Brownlee has just returned from a trip to West Florida that carried him as far as Pensacola. On his way home he stopped at Tallahassee and had luncheon with the Sanford girls at the Woman's College.

The buyers are coming in every day now getting ready to take the succulent celery and lettuce and other wipier vegetables that make the Sanford section famous throughout the world.

The Cozy Cafe has an advertisement in the Daily Herald calling attention to the change in prices of coffee and sandwiches. The Cozy Cafe is in the Princess Theatre building and serves quick lunches at all times of the day and part of the night. See the advertisement in the Daily.

Deane Treadwell, the presiding genius of the press room of the Herald Printing Co., is now the possessor of a Ford speedster and we look for him to show up in some of the road races that are being pulled off every night on the country roads and we also hope he will not show up in police court for fast driving.

The Hill Implement & Supply Co. are offering you an opportunity to get a one- or two-horse wagon at a real bargain. They are closing out their entire stock to make room for implements and fencing and you should take advantage of their offer. See their ad today for prices.

Sanford is a busy city all the year round and Saturday is the biggest day of the week. With the many

sales going on the city is thronged with buyers today and they are here from all parts of this county and adjoining counties.

Miss A. D. Mitchell, of Oviedo, is among the visitors to the city today. Miss Mitchell is the efficient agent for the Seaboard at Oviedo and is also the correspondent for the Herald and a good one.

The Daily Herald comes to you today in eight pages filled with advertising and good reading matter. The publishers will try and make the Herald an eight page paper several days in each week and eventually keep it at eight.

Now is the time for the street cleaning department to get busy and keep all the streets clean and nice. The strangers are in our midst and the streets and yards are the first thing that catches their eyes. We note a disposition on the part of some to allow a lot of trash to remain on their premises and some of the streets are not as tidy as they should be. We should all co-operate with the city officials in keeping Sanford clean all the time.

**CONGRESSMAN DRANE HERE**  
Congressman Herbert C. Drane was in the city today calling on friends. Mr. Drane is congressman from the First Florida district and makes his home in Lakeland but has numerous friends all over the state. He was formerly state senator from Lakeland and was president of the senate before becoming a candidate for congress from the first district.

**FRANKLIN HAS HIS TERRITORY EXTENDED**  
A. Franklin, the handsome and smiling roadmaster of the A. C. L.'s Leesburg and Tribby branches, has had his territory extended to include the main line to Palatka. This is in recognition of his long and faithful service.

**DEMONSTRATING THE IDEAL FIRELESS COOKER**  
A large number of the ladies of Sanford and vicinity have taken advantage of the opportunity offered by the Hill Hardware Company to learn of the many labor-saving qualities of the Ideal Fireless cooker, a real household necessity. As tomorrow is the last day of the demonstration it is expected a large crowd will be in evidence, and Miss Byrd Cochran is making extensive preparations for their entertainment.

**REAL ESTATE IS MOVING FAST**  
A. P. Connelly and Geo. A. DeCottes recently purchased the Check houses on Fifth street, four in number and have sold all of them to the following parties:  
J. M. Wallace, Mack Moye, W. I. Hughey and J. M. Telford.

The Heaton houses on Park avenue between 8th and 9th streets were recently purchased by Mr. DeCottes and through the A. P. Connelly Real Estate Co., has sold one of them at the corner of Ninth and Park avenue to T. L. Dumas, superintendent of the A. C. L. Railway, who has been occupying the residence since he has been living in Sanford. Mr. DeCottes expects to fix up the other three houses and put them in first class condition for sale or rent.

**SATURDAY AT PRINCESS**  
Harry Carey in "SUNDOWN SLIM"  
Also "Vanishing Dagger"

**SUNDAY AT THE CHURCHES**

**BAPTIST CHURCH**  
Sunday, Nov. 7th. Sunday school 9:30. A picture will be made of the entire school at this session.  
Address by Mr. Arthur Flake, of Nashville, Tenn., at 11 a. m.  
In the evening Chaplain Geo. Hyman will deliver his lecture "Playing the Big Game" as an Armistice Day message. All ex-soldiers, sailors, marines and loved ones of the same are invited to this service. "We've Saved a Place for You."

**CONGREGATIONAL CHURCH**  
Tomorrow morning, Communion at 11 o'clock. In the evening the subject will be "The God of all Comfort."

**HOLY CROSS CHURCH**  
Services for Sunday, Nov. 7th, (23rd Sunday after Trinity) will be: Sunday School, 9:45 a. m. Choral Celebration, 11 a. m. Vespers and Address, 7:30 p. m. The Rector goes to Christ Church, Longwood for the Early Celebration.

**CHRISTIAN SCIENCE CHURCH**  
Services FOR SUNDAY, NOV. 7TH  
Subject: "Adam and Fallen Man"

**COUNTY WILL PUT ON MOTOR COP**  
On account of the speed fiends using the country roads for showing how fast they can run, the county commissioners have decided to put on a motor cop who will look after these speed demons and arrest them when caught exceeding the speed limits. Celery avenue is a favorite speed center for these fast drivers and Celery avenue being filled with vehicles of all kinds and people walking there is always danger to life and limb by those people using it for a speedway. There are other roads where they hit them up and in a few days there will be some sadder but wiser boys when they are pulled up and fined. The county will co-operate with the city in respect to the motor cop and thereby save something for city and county and also break up this habit.

**NOTICE, FARMERS**—I am offering about 300 yards of seed bed covers 9 feet wide, any length wanted in fine condition, used only one season; price one-half of present cost of cloth.—J. R. Davis Farms, Bartow, Fla. 177-8tp

**LONDON WOMEN NOW SMOKE PIPES**  
LONDON, Nov. 6.—Pipe smoking seems to be on the increase among London women and fashionable cigar stores display dainty small briars, some set with precious stones. It is said there is a growing demand for these.  
At one West London theatre where smoking is permitted, two smartly dressed women were seen the other evening in a box puffing at their jewelled pipes, and soon an old Irish woman in the gallery followed suit. Her's was a clay "cutty."  
In a first-class railroad car between Horsham and London, a quarrel arose the other day between a number of non-smoking women and another woman who refused to put out her cigarette at her sister traveler's behest. It ended in one of the anti-smokers seizing the offending cigarette, gold mounted tortoiseshell holder and all, and flinging it out of the window.  
"Two guineas costs will meet the case," said the magistrate.

**The Logical Treatment "ENERGIZER" For Many Human Ills.**  
There IS such a thing as "ARTERIAL AREA" and Arterial "Elasticity" in each person and after the body stops growing—at about 21—there is a natural depreciation or loss in both area and elasticity, just as there is in an auto tire or a field that is not plowed and "cultivated."  
It is "Arterial Hardening" that finally causes death—preceded by "High Blood Pressure"—and the ONLY real way of this condition being put-off is by getting better circulation.  
And the ONLY real way of improving Circulation is the "ENERGIZER" process, which furnishes "ACTIVITY" WITHOUT EXHAUSTION or work.  
It is YOUR OPPORTUNITY. Give YOURSELF some care.

L. C. CAMERON  
Box 399 Sanford, Fla. Phone 184

**ARMY EXHIBIT**

An array of German Souvenirs and War Material will be on exhibition all day Armistice Day. Lieut. Bivins, will also be here bringing with him a flying machine from Carlstrom Field to thrill the crowds with some dare-devil stunts. There are so many features connected with this day that it just can't help being the biggest day in Sanford yet.

**ON EXHIBITION**

at our place all the time is one of the nicest arrays of Men's Clothing and Furnishings, so many nice things in fact, that it would take a whole page to tell you about a part of them. And we are selling them all at prices you'll like.

## MORE CABLES NEEDED FOR FOREIGN TRADE

Look of Reliable Communications Handicaps Our Merchant Marine, Says Bank.

AMERICA NOW DEPENDS ON COMMERCIAL RIVALS

Must Extend Own System to Hold Present High Standing in Commercial World.

An adequate American system of cable communications with foreign countries must be developed if the United States is to maintain its present standing in international trade, according to the National Bank of Commerce in New York. American shippers are handicapped, the bank declares, by being compelled to depend on a system largely owned and operated by this country's commercial rivals, British interests alone controlling more than half the cables now in use.

"Until some effective international agreement for the neutralization of the world's cable system has been reached, the pressing need of American commerce is the extension of American cable facilities," the bank says. "Without such a system American foreign trade is faced with the difficulties inseparable from doing business over a system largely owned and managed by the commercial rivals of the United States."

"British interests own and operate more than half of the cables now in use. At the present time, too, Great Britain possesses a practical monopoly of cable manufacture, which is strengthened by British control of the gutta percha market. Although far behind the British system in the point of mileage, the American owned cables are second in importance and connect all the American possessions as well as the Canal Zone and the naval base at Guantanamo, Cuba, with the continental United States, thus providing the nucleus of a comprehensive American system."

"The present system of international communications, largely cable, while comprehensive and efficient, has been built primarily on the basis of connecting the commercial world with the old world centers of finance, commerce and industry. National interests and prestige, competitive enterprise and local influence have governed location, extensions and combinations so that these facilities have not been in all cases arranged to be productive of the maximum efficiency or economy."

Must Become World Center.

"The United States is connected with this world's system, but as a contributing field to be reached and exploited and not primarily as a center. If the United States is to maintain the position which it has won in the trade of the world, it must become the focus of a world system of electrical inter-communication. It must become one of the most important centers of communication, perhaps the most important, as it has become in many respects the center of the world's trade and finance. Without quick, reliable communication, independent of other national interests, the vast sums we have lavished in our new merchant marine and our organizations for foreign commerce will never yield full value on the investment."

"The entire cost of an American cable system which would give us direct communication with the principal commercial nations of Europe, South America and the Far East, would be a comparatively small sum compared with the cost of the newly built American merchant marine. It would give the commerce of the United States what it needs and what the commerce of the older countries already has. The spending of thousands of millions on means of transportation for American trade is a doubtful prospect as long as this country has no proper facilities for the agents who spread that trade and as long as the ships which carry it can communicate only with the consent of foreign nations or through foreign owned agencies."

Would Relieve Congestion.

"In certain regions present cable facilities are so congested that, apart from national considerations, new American cables would serve a pressing international need. The most acute need for additional cable facilities at the present time is in the Pacific ocean. While over the north Atlantic cables traffic has practically quadrupled since 1913, in the same period Pacific cable traffic has increased nearly nine fold. Proposals for the laying of a new Pacific cable have been considered tentatively. The cost of the new Pacific cable is a large sum of money, but the \$40,000,000 which it is estimated Japan and the United States will expend upon each of their newest battle cruisers, would probably suffice to duplicate the entire existing plant."

"The experience of the last five years has conclusively demonstrated that the amount of business which is available for the cables is limited only by the physical capacity of the lines and the ability of the operating companies to keep rates at a point which will attract business."

## WOMEN IN RACE BY THE SCORES

All Over the United States Feminine Voters Seek Various Offices

All over the United States this year, excepting some southern districts, women have been running for office.

The positions sought include everything from mayor of some small town—or down—to United States senator. Many women aspired to places in state legislatures, or on state tickets for such positions as secretary of state and superintendent of public instruction. Several women already hold the latter position, and in numerous cases women are county school superintendents.

Unique, perhaps, was the candidacy of Miss Florence E. Allen, a capable Cleveland lawyer, for common pleas judge.

Women candidates showed as much diversity as men in the party tickets they chose to run upon—Democratic, Republican, prohibition, socialist, farmer-labor and independent.

Among those seeking more important offices were:

U. S. Senate: Miss Anne Martin, farmer-labor, Nevada; Miss Rose Schneiderman, labor, New York; Dr. Ella A. Boole, prohibition, New York; Mrs. Culla J. Vayhinger, prohibition, Indiana; Mrs. Leah Cobb Marion, prohibition, Pennsylvania.

Congress: Miss Alice M. Robertson, Republican, Oklahoma; Mrs. Marie Weekes, farmer-labor, Nebraska; Mrs. Helen C. Statler, Republican, Michigan; Dr. Esther Pohl Lovejoy, Democrat, Oregon; Dr. Jennie Sharp, prohibition, New Jersey; Mrs. Nell K. Irlon, Democrat, Idaho; Mrs. Lydia Wickliffe Holmes, Louisiana; Mrs. Vivian F. Teller, prohibition, Michigan; Mrs. Olga S. Von Tallan, farmer-labor, Michigan; Mrs. Marion C. Rhoades, Republican, Michigan.

State offices: Miss Helen Binning, Democrat, for secretary of state, Rhode Island; Mrs. Fanny Dixon Welch, Democrat, for secretary of state, Connecticut; Mrs. Alice E. Cram, Democrat, for state auditor, Massachusetts; Mrs. Nellie A. Hayward, Democrat, for secretary of state, Arizona; Miss Harriet May Mills, Democrat, for secretary of state, New York; Miss Alfhild Alfsen, farmer-labor, for secretary of state, North Dakota; Miss Minnie J. Nielson, Democrat, for state superintendent of public instruction, North Dakota; Miss Catherine Durand, Democrat, for state treasurer, Michigan.

## ORLANDO PRECINCT GOES REPUBLICAN

With precinct No. 1 missing, Orlando precinct No. 2 went Republican. The vote: Democratic, Carabello, 435; Carr, 469; Jones, 457; Knott, 466; Sharon, 456, and Wells, 462. Republican: Chubb, 502; Archibald, 484; Bradford, 467; Pope, 490; Smith, 457, and Wentworth, 497. For United States senator: J. H. Cheney, 482; D. U. Fletcher, 441. The other officers were Democratic. The bond amendment was defeated 225 to 196. St. Petersburg claims to be the only city in Florida going Republican. St. Cloud, however, has not been heard from.—Sentinel.

Daytona G. O. P.

DAYTONA, Nov. 4.—Sen. Harding received a majority of votes in Daytona over Governor Cox, returns showed today. The Republican president-elect is well known here as a result of several visits during the winter.

## FLORIDA PACK ON ORANGES THREATENED

BIG MEETING IN ORLANDO TO PROTEST AGAINST DECREE OF RAILROAD

An interesting, if not to say somewhat warm, meeting is scheduled to be held in Orlando at 10 a. m. next Wednesday morning when citrus growers from all over the state will rally to save the well known "bulge" pack for oranges and grapefruit, to which the railroads now make objection on the ground it is difficult to handle without damage.

One well known citrus man in commenting upon the call for the meeting said: "The breakage of packages of which control should be exercised by the railroads instead of the shippers, which complaint is made can readily be proven to be due to things over it is ridiculous to attribute any good portion of it to the bulge pack; and railway traffic officials should be made to prove their statements."

The meeting comes about through notice sent shippers by the American Railroad Association through James Menzies, freight traffic manager of the Atlantic Coast Line railroad, as follows:

"A great deal of loss occurred in the handling of citrus fruits last season because of the 'bulge pack.' In many cases the 'bulge' forced the tops loose at the ends and the fruit spilled on the floor of the car. Apparently it will be necessary for us to prohibit the use of the 'bulge pack' altogether or else require the strapping of the boxes at the ends. For the purpose of giving consideration to this question, a meeting is hereby called at Orlando, W. Wednesday, November 10, 1920, at 10 a. m. I trust that it will be convenient for you to be present."

Concerning the meeting and the importance to growers of retaining the bulge pack, C. E. Stewart, Jr., business manager of the Florida Citrus Exchange, said:

"In order to compete with California the continuation of the 'bulge pack' on the Florida fruit is absolutely necessary; the trade want it, and in fact, demand it, and to dis-

continue it of Florida fruit will result in discounting the value of the Florida box and a consequent loss to the Florida growers."

It is reported the meeting at Orlando will be largely attended by growers and shippers from all over the citrus area of the state; and that they may be expected to show as united a front as did the growers and shippers who met in Tampa last year to successfully oppose the order of the Railroad Administration which required 432 boxes to be loaded to the car. On that occasion Exchange men and independents stood solidly together, and worked closely for the good of the industry. It is said they are prepared to fight just as hard for the retention of the "bulge" pack; and growers everywhere are being urged to attend the meeting to lend strength of numbers to the effort.

As an example of the rapid growth of the East Coast of Florida it has been ascertained that one-third of the population of the state is along this strip of sea coast.

### The Facts of the Telephone Situation in Florida

By J. EPPS BROWN, President.  
SOUTHERN BELL TELEPHONE & TELEGRAPH CO.

#### The Solution of the Problem

To furnish the telephone service which will be needed in the state of Florida during 1921, additional facilities must be constructed.

To build these facilities will cost \$959,156.00.

The Company has no money with which to construct these facilities.

All new construction must be paid for out of the capital account of the Company; all of the Company's present capital is invested in the plant and facilities now used by you.

This money can be had in only one way; it must be invested in the Company's business.

This money can be had from only one source; from the investing public, people who have surplus money to invest.

Part of the investing public of this country live in Florida.

These facilities are needed to serve the people of Florida.

Will the investing public of Florida furnish this money?

Every dollar the public of Florida will invest in the Company will be used to construct plant facilities in the state of Florida for the use of the people of Florida.

If the investing public living in Florida will not invest their surplus money in the Company's business, the Company must get the money needed to serve you from the investing public in other states; from strangers.

Can you expect strangers to invest their money in a business located in Florida in which the people of Florida will not invest their money?

The facilities now used by you were paid for by money furnished by strangers. They know what they are earning in Florida while serving you just as you know.

Can you ask or expect them to furnish more money for your use in Florida under present conditions?

If the people of Florida will not supply the money needed to serve themselves they must induce strangers to furnish it.

This can be done by allowing the stranger to earn a fair and just profit upon his money now invested in Florida serving you, and upon all additional money required to furnish you service.

This can be done in but one way; by paying fair and just rates.

When the Company is legally authorized to charge a rate which will yield a fair and just profit over and above the cost of furnishing you service in the state of Florida, it can secure from strangers living in other states the money needed to furnish service to the state of Florida.

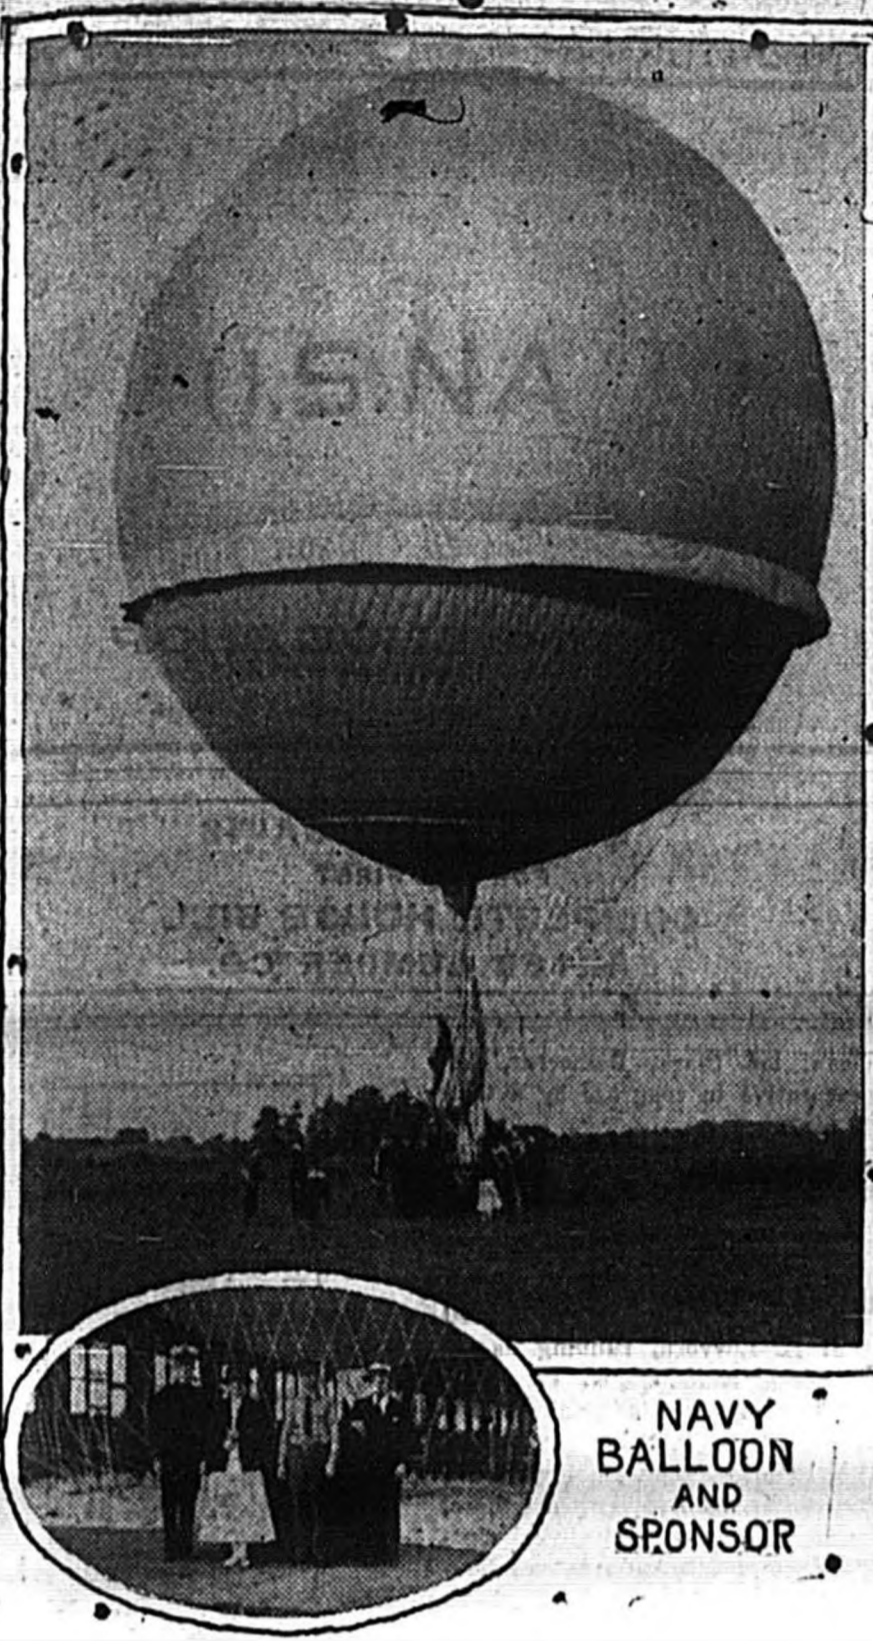

The Company must have this right before it can get the money.

The people of Florida must act first.

To have telephone service you must either invest your own money in the Company's business, or permit the Company to earn such a profit upon its present and future investment as will induce strangers to invest their money in the state of Florida to serve you.

The next advertisement will tell what profit the Company asks to earn.

NAVY BALLOON AND SPONSOR

#### BALLOON "U. S. NAVY" WHICH COMPETED IN THE INTERNATIONAL RACES

Trial flights for the spherical balloon "U. S. Navy," which was entered in the International Races held at Birmingham, Alabama, October 23, 1920, proved to the satisfaction of Lieutenant Raffe Emerson, U. S. Navy, its pilot that the Navy has an excellent opportunity of winning the balloon classic this year. The balloon did everything expected of it during the test flights which were held September 4th at Akron, Ohio.

Previous to the test flights the bal-

loon was christened in regular Navy style by Mrs. L. B. Mangold, Chief Yeoman (F.) who served at the Navy office in Akron during the World War.

There are many new and novel features incorporated in this balloon; of particular interest being the apron of fabric around the ship designed to keep rain from the crew in the basket. The apron serves as an umbrella and assures increased comfort to the crew during the flight.

The photographs show the balloon ready for a trial flight, and reading from left to right, Reserve Lieutenant R. A. D. Preston, Mrs. Mangold, and Lieutenant Raffe Emerson, standing at the base of the balloon.

#### SANFORD AN UP AND COMING CITY

(Continued from page one)  
cry City." It is the pioneer and still the leader in Florida in the growing and marketing of this succulent grass.

In addition to its preeminence in market gardening for the nation, it is a large shipper of oranges and grapefruit. The city is surrounded by fine groves of both. It is a busy district from November until May.

The reason for Sanford's preeminence as a center of truck growing is artesian water and the most perfect system of irrigation in the world, that it makes possible. Water from bored wells flows out over the top. There is no pumping necessary. All it needs to be utilized is to be guided and distributed. The method of this guiding and distributing is such that the fields are kept moist, and the roots fed in dry weather, by an ingenious system of underground tiling which also acts as a drain. In seasons of excessive rainfall, to take off the surplus water and prevent the fields from being flooded. The regulation of moisture to the proper degree for growing plants is as nearly perfect as man can make it. Under the system neither drought nor flood can damage the fields and the only uncertainty to the farmer is the price he will get for his crop after it is matured. Of course, a light sandy soil that both absorbs and drains water readily, is one of the es-

entials of this method of irrigation. A complete success here, it would be a failure in our heavy clay soils in Kentucky. Moreover it requires, like all irrigation schemes, a nearly level surface with a slight incline for drainage. This condition is met here perfectly.

It costs from five to seven hundred dollars an acre to install this system but, once in, it is perpetual. It will not be surprising therefore to learn that a "farm" here averages about five acres; but the value taken from an acre will make a tobacco field appear like a piker as a revenue producer.

Sanford is a busy city of about 6,000 inhabitants. It is well built, with exceptionally fine paved streets and good business houses. Row after row of well constructed, attractive looking homes front her residence streets. While there are no exceptionally great houses, as one may see in some of the millinaire winter

Beauty in Every Jar

homes on the East Coast, they rank much higher in the general comfort, cost and appearance of the homes in these resorts. There are no millionaires in Sanford and, by the same token there are no paupers. Wealth is very evenly divided and by the number and quality of the automobiles one sees on the streets, it would seem that the division is from a large aggregate. I have noticed fewer Fords here than any town in Florida I have been in—and I have been in a good many. Judging from the number one sees on the streets, I would hazard a guess that there are enough, owned in town, to give nearly every resident in it a ride if they all went out at the same time and crowded up a bit.

Speaking of automobiles naturally brings up the question of roads. When there are many machines one may look for good highways. In all my observation of Florida generally, in whatsoever part I go into, nothing has so impressed me as the wonderful improvement in her roads. Not longer than ten years ago, travel on them from one town to another was a hazardous and vexatious undertaking. Sand and slough and aimless wandering was their predominant characteristic. A fence rail and a jack were more needed than an extra tire. One reached his destination by the Grace of God and much tribulation. Forty miles was a long and hard day's journey.

Today the state is gridded, lengthwise and crossways, with finely constructed and splendidly paved roads of brick, asphalt, concrete and shell. Hundreds of miles of these permanent roads have been built within the past five years. Other hundreds are under construction. In the more populous parts of the state one can go all day from town to town and district to district on roads that are a delight to travel over. Millions of dollars are being spent yearly on them. The evidence of this extensive and expensive construction is a revelation to old timers who knew Florida twenty-five years ago. It is a state growing rapidly in wealth and population and nowhere is the showing of this more impressive than in her splendid road system, and the number of machines that travel over them.

Fifteen years ago I wrote a letter from Florida for publication and the burden of that letter was—sand. In it I said the first thing which struck the corner into the state, the one thing that abode with him constantly while there, and the last thing to bid him good-bye on leaving was—sand. It was his constant companion in his downittings and his uprisings. It got into his food, his pocket, his shoes and his hair. At night, on retiring, he could shake about a quart from his clothes and out of his ears and eyes. A railroad train, going from Jacksonville to Miami, would drag about its own weight and bulk clear through the trip and leave it at its terminous. It was only that the same train brought the same load back, on its return trip, that one end of Florida had not been hauled completely away and dumped at the other end. Traveling on this train, you couldn't see from one end of the car to the other for the dust.

If one walked abroad he got nowhere for he slipped back in the dry floury, stuff about as far as he stopped forward. If he forsook the unstable highway and took to the wooded path alongside he got full of sand spurs, which stuck into him and made their presence known even more clamorously than the sand itself. He just couldn't get away from it except, when he was in bed, and even there he was apt to carry enough to make him feel like a fish dipped in meal and ready to fry.

That was then. Now, while there is as much sand in Florida as there ever was, it has been curbed and restrained so that instead of being the pervasive element of life it is only an incident. The roads have been curbed and restrained so that instead of being the pervasive element of life it is only an incident. The roads have been paved, as I have said, and the railroads ballasted with clean

gravel, until they are no more dusty than the best types of our own ballasted railways. You can go all day without stepping into it if you want to and you don't shake more than a teaspoonful out of yourself at night. Instead of being an enemy it has become an ally, for it furnishes the firm foundation on which the excellent highways and railways rest. People view it tolerantly and say it looks clean—which it does—but of course I prefer blue grass as a general covering for the earth. Nevertheless it makes Florida a wonderfully clean state and, now that you don't have to buddy with it so closely, it adds to her attraction.
