

### Bureau Of Love Is Suggested For Rich Widows And Lonely Lovers

NEW YORK —(AP)— Should the American government have a department of romance? Do we need a U. S. Bureau of Love? There are millions of single people living in this country, and what is Congress doing about getting them together? Nothing.

It doesn't even pay a bounty to people who want to get married. Yet if government is going to enter every other branch of human activity, shouldn't it do something about love? Isn't love the biggest welfare project of all?

The suggestion for a federal matrimonial bureau comes from a reader, George Durst of Jamaica, N. Y. He believes it might be one of the few branches of government able to pay its own way.

For a reasonable fee of \$5.50, including the romance tax," Durst wrote, "it could register all sincere, marriage-minded men and women and publish their descriptions in a monthly federal matrimonial bulletin."

Durst says the U. S. Government Printing Office already sells bulletins "on such vital topics as the love life of polar bears." And if it is willing to help single polar bears, he feels it should extend the same courtesy to single people, particularly wealthy spinsters.

"Such a plan would inspire the older girls—mature women—to realize that they can't take it with them, so why let the income tax man grab it?" Durst added.

"Many of these mature women can afford to own a husband today, and use him as a practical income tax deduction as well as a utility mascot around the house."

His idea has much to recommend it, and certainly sounds like a real bonanza to the Treasury. Naturally, however, a U. S. Bureau of Love wouldn't merely halt at printing an index of matrimonial prospects. It would have to do the job right. It would have to arrange gay little parties at which the wife-seekers and the husband-hunters could be properly introduced to each other in an informal atmosphere.

And you know how government bureaus tend to grow. Soon it would be having branch offices in night clubs and restaurants, and who would want to work for the Department of State then, if he could wangle a post in the Bureau of Love and spend his working hours having cocktails with shy taxpayers seeking matehood?

And how about dishonesty in office? Wouldn't the unmarried employees of the bureau grab off the rich widows and widowers for themselves and cheat the dues-paying public? It wouldn't do any good to insist that all the employees be married. For a million-dollar property, half of them would ditch their own wives and husbands.

There is another reason why Congress probably never will create a federal matrimonial bureau. You can blame your congressman today for every single thing wrong with your life except a bad marriage. You could hold him responsible for that, too, if the government entered the wedding business.

That is one field the wise politician will want to stay out of. It is unlikely that we will have bureaucratic love or romance in red tape in our time.

### Celery Deal

(Continued From Page One) eral-State Market News Service at the Sanford State Farmer's Market.

With but 3,335 acres planted, Seminole County produced 5,291 cars of celery for shipment. During the previous season with but 10 less acres planted, the total shipments totalled 4,502. In 1949 with 3,420 acres, the yield was 3,541 cars or little more than a car an acre.

Palm Beach County, with 4,185 acres planted, shipped but 3,085 cars or about three quarters of a car per acre. Total Florida acreage was 10,770 with 10,363 cars shipped, or about a car to the acre.

From the first of January the report stated, until Feb. 29, prices ranged from \$2.25 to \$3.00 mostly \$2.75 to \$2.75. F.O.B. while Golden sold at \$2.00 to \$4.00, mostly \$2.25 to \$2.75.

From Mar. 1 to the latter part of May the volume was generally heavy. Prices were often \$2.00 or lower for Pascal and Golden, fanned and lumpy. Small sizes of Pascal ranged from \$1.75 to \$2.75 while Golden brought \$1.75 to \$4.00, but mostly \$2.25 to \$2.75.

During latter May and early this month, Florida celery volume has remained fairly heavy and combined with liberal supplies from California, brought about glutted markets. Low F.O.B. prices were recorded this month, dropping to below \$1.50 on the larger sizes.

Quality of the winter crop was described as very good. Due to low winter temperatures, however, seed stalks developed during latter March and early April. During the spring season, that acreage planted after Jan. 1, quality was described as fair to generally good.

Even with high yields, an F.O.B. price of \$1.75 to \$2.00 for Pascal, and \$2.00 to \$2.25 for Golden was considered by most farmers as the minimum price to break even and possibly make a small profit, considering time and labor, the report stated.

### Truman Declares Auto Accident Is Form Of Sabotage

Fatalities May Exceed 35 Thousand In Present Year

By ERNEST B. VACCARO  
WASHINGTON, June 13—(AP)— President Truman told safety officials today that "a highway accident does just as much damage to the defense effort as a deliberate act of sabotage by hostile agents."

At a time when the United States and its Allies face a "great danger," he said, highway accidents "strike directly at our national strength."

The President made the statement in a speech prepared for the annual Highway Safety Conference in Constitution Hall. He cautioned that skyrocketing motor travel has raised the prospect that automobile fatalities this year may exceed the 35,000 of 1950.

Mr. Truman paid tribute to Maj. General Philip B. Fleming, newly appointed ambassador to Costa Rica, and chairman of the conference since its beginning in 1946. Fleming was absent because of illness. Secretary of Commerce Sawyer presided.

The President told the conference of nearly 4,000 gathered from all over the country that the defense program depends upon efficient transportation. Observers from foreign nations were also present. Others included representatives of farm youth and women's organizations.

"Traffic accidents slow down production and weaken our whole economy," Mr. Truman said. "They are a sheer economic waste."

He said the country must improve its highway system. "Much of our main road mileage is worn out and obsolete," he declared, "and the replacement program has not kept pace."

Mr. Truman added: "Perhaps we can understand the scope of our problem better if we remember that some time in this year 1961, the number of traffic deaths since 1900 will pass the million mark."

"Nearly as many Americans have been killed in automobile accidents since 1900 as in all the wars of our history, beginning 175 years ago with the cattle and packing interests do not stop their pressure threats to avoid price controls."

Although DiSalle told reporters increased stockyard receipt made him happy, he said the upturn was not "a leak in the situation." He has insisted since ordering a ten per cent live beef price rollback that any shortage would be temporary. But, he said, yesterday the situation will not clear overnight.

On the clothing order, DiSalle only said the rollback will provide a base pricing period of three months in the pre-Korean period. "Manufacturers will be allowed to select the three consecutive months on that basis and will be granted markups for rises in materials and labor costs," the price boss said in an interview shortly after arriving in Denver by plane.

Rep. Celler (D-NY) suggested, meanwhile, that consumers "strike" against eating beef "if

**MINISTER'S WIFE TELLS HOW HADACOL WAS SO HELPFUL**

**HADACOL Helps Folks With Weak, Run-Down Conditions, Poor Appetite, When Caused by Deficiencies of Vitamins B1, B2, Niacin and Iron**

A weak, run-down condition can make life mighty drab for folks who feel that way. Imagine not having a good appetite. Loss of weight and energy oftentimes accompany this condition. When Mrs. Ardena Longaker, a minister's wife, who lives at Rt. 5, Meadowbrook Rd., North Kansas City, Mo., began feeling that way she began taking HADACOL. She had heard how it was helping people with weak, run-down conditions and poor appetite, when due to a deficiency of Vitamins B1, B2, Niacin and Iron. Now, Mrs. Longaker says she feels good and is recommending HADACOL to her friends.

Here is what she says: "I am a minister's wife and am 39 years old. I was run-down, lost weight, and listless, and had no appetite at all. I'm on my fifth bottle now, and am amazed at the results. I want to eat all the time now. Most of all, I'm glad to say, I've gained several pounds. HADACOL is so economical, I believe almost anyone can afford it, and I do recommend it to my friends."

HADACOL now makes it possible to actually relieve the REAL CAUSE of weak, run-down conditions, stomach distress, nervousness, poor appetite and nagging aches and pains when due to the lack of Vitamins B1, B2, Niacin and Iron in the system.

AND LISTEN TO THIS! Continued use of this great HADACOL not only gives continuous complete relief but helps keep such painful distress from returning when caused by such deficiencies. Now that's the kind of product you have been waiting for. That's the kind you should buy and start taking at once.

And HADACOL'S wonderful Vitamins and Minerals come in special pleasant liquid form so they are easily absorbed and assimilated in the blood, ready to go to work at once.

**HADACOL IS SO EFFECTIVE**  
Because HADACOL helps build up the hemoglobin content of

### Pilots Club

(Continued from Page One)

Rome which originally had a seating capacity of 57,000 spectators. She described the Roman architecture as being outstanding and lovely. Germany, she said, at that time, 1949, was still in the process of rehabilitation.

Mrs. Knox described Switzerland as being "smooth, streamlined and prosperous and unbelievably beautiful and serene" and Venice as the romantically beautiful city that she had always pictured it to be with its gondolas and lovely buildings and courts.

Arriving in Paris, France on the anniversary of the Day of Liberation, the whole town was naturally in a lively and uproarious mood, she said. When asked what the most outstanding event of the trip was, she quickly exclaimed, "the drive on the Riviera, which is simply beautiful and out of this world."

Mrs. Knox showed bits of handmade Brussels lace and rose point and gold glass which were unusual and beautiful.

Mrs. Ruth Scott, program chairman, introduced the speaker. Hostesses for the dinner which preceded the talk, were Mrs. E. B. Randall, Jr., Mrs. R. T. Humphrey and Mrs. Sue Stevenson. Mrs. V. C. Messenger presided and welcomed Miss Ruth Mitchell into the club as a new member.

Miss Ellen Driggers was selected by the group to represent the Sanford Pilot Club at Girls State in Tallahassee in July. Miss Jean Wilson was selected to serve as alternate.

### Russians Seize On Propaganda Paper With Great Glee

WASHINGTON, June 13—(AP)— Moscow has seized on a document Secretary of State Acheson asked the MacArthur inquiry panel to keep secret as evidence the U. S. is playing a "dirty game" in Asia.

It is the guidance sent out by the State Department to officials abroad on Dec. 23, 1949. It told U. S. officials to play down the strategic importance of Formosa, Chinese Nationalist island refuge then threatened with Communist capture. Over the secretary's objections, the Senate Foreign Relations and Armed Services committees voted 15-9 on June 1 to make the document public. The committees' sitting together, are investigating Far East policy and the dismissal of General commander.

Acheson contended Russia could use the document to discredit the "Voice of America" and other U. S. government overseas information agencies.

It was put out, Acheson said, considered it best, in the face of possible difficulty to adopt a "chin up—this doesn't matter attitude." He said that in fact the department a few years ago considered Formosa of great strategic value.

Moscow broadcasts, reported today by U. S. government monitors, gave a Soviet-slanted summary of the directive and said it showed that the U. S. is "pursuing a false and dishonest policy" against Formosa and Communist China, and

also in Korea. "At the end of 1949, Moscow said, "the State Department maintained that the establishment of American military bases on Formosa and the dispatch of U. S. ground forces to the island would lead either to a serious impasse to open war."

The Russian broadcast continued, the monitor reported: "Now the same actions are exposed as the apex of political and military sagacity, and the U. S. pursues an open policy or brazen provocations and direct acts of aggression with respect to the (Communist) Chinese People's Republic, a policy whose sole purpose is to provoke a world war in Asia."

"So now you see why Acheson did not want the contents of the Dec. 23, 1949, memorandum made public. Once you learn about the memorandum the dirty game the U. S. imperialists are playing becomes perfectly clear."

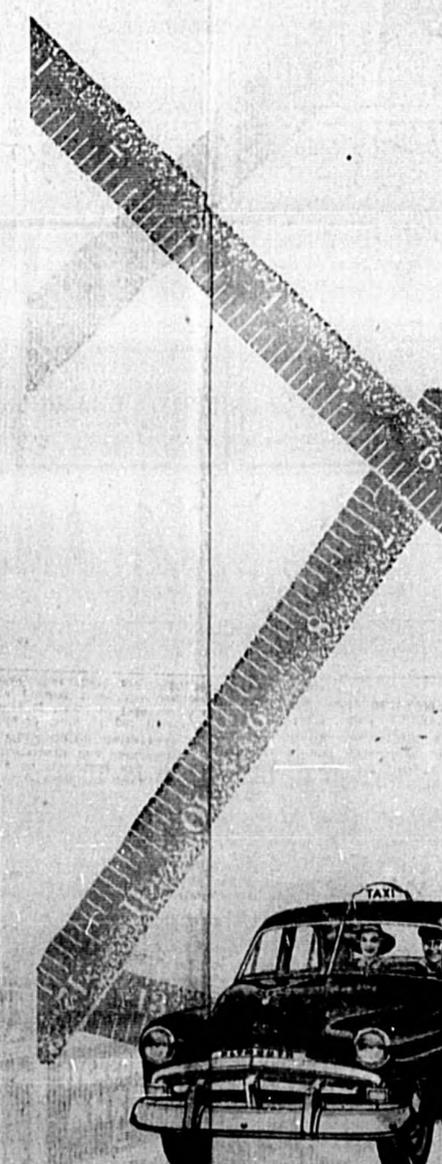

The government monitors reported also on a Moscow broadcast to Hungary. This broadcast said the Formosa directive meant that "official instructions were given to the Voice of America to disseminate false information about U. S. policy." It said Acheson violently opposed publication of the document because it would "reveal certain mendacities of the 'Voice.'"

Two broadcasts, given in English by a commentator identified as Iliak Sunday and Monday evenings Mikhail Marinin and beamed to North America, were recorded here.

Until now Moscow mostly kept aloof from the testimony of the MacArthur inquiry, making few references to it in the Soviet press or radio.

Can you beat this measure of car value?

Of standard-built cars used as taxicabs, there are far more Plymouths than any other make...in fact, there are more Plymouths than all other makes combined!

Those who own taxicabs are experts on car value. They have to be! Their very living depends on their judgment in selecting the right car.

This selection is not made on "hunch" or "sentiment" or loyalty to any make.

In the cold light of fact, taxicab owners test all makes of cars for everything—roominess, riding comfort, handling ease, braking action, maintenance cost, day-and-night dependability—everything!

As the result of these continuous tests, the overwhelming majority of taxicab owners say: "The car for our money is Plymouth!"

Isn't this pretty convincing proof that Plymouth is the car for your money, too? But you don't have to take somebody else's word for it. Your Plymouth dealer will gladly arrange a demonstration now. Then you can put the Plymouth through your own tests and see for yourself.

Equipment and item subject to probability of materials

Where value is the yardstick

Plymouth is the rule!

## Allied Tank Columns Roam At Will In Red Iron Triangle Region

### Chinese Fight Back In Eastern Areas; Two Allied Planes Are Downed By Reds

TOKYO, June 14—(AP)—Allied tank columns roamed at will over the length of the Red's shattered Iron Triangle in Korea today. But on the eastern front Communists turned and fought.

United Nations patrols probed through intense artillery fire to outskirts of the new Red defense line north of Yangu and Inje on the east central front.

In some sectors the Allies were kept busy Thursday beating off a series of North Korean counterattacks. The U. S. Eighth Army reported only one advance of as much as a mile.

The picture along the east was marked contrast to the situation in the west. Giant tanks, literally covered with riflemen, rumbled the length of the triangle Wednesday to Pyongyang. They were almost unopposed.

The two big columns of more than 100 tanks returned at night after sweeping beyond the bomb shattered city.

Tank forces and infantrymen again made "little or no contact" with the Chinese in the Triangle area Thursday, the Eighth Army reported.

Farther west U. N. patrols fought with small groups of Communists, leaving one Allied officer in captivity.

"The Reds haven't left us yet, but they are cringing."

North Koreans faded before most patrols in the Yangu-Inje sector, AP correspondent George A. McArthur reported. But they dug in and fought vigorously to defend key terrain.

His command dispatch reported patrols were changing into Red territory again, but the Communists' new defense line.

Despite heavy losses and wholesale withdrawal reports from the (Continued on Page Three)

## Air Force Head Is Enthusiastic Over Forces In Europe

PARIS, June 14—(AP)—General Hoyt H. Winder, U. S. chief of staff, said today that if Russia should attack Western Europe now, "what we have would give a good account of itself."

He added, however, that "the air defense of the area is in my opinion not as strong as it should be."

The purpose of last week's meeting of the air chiefs of Great Britain, France, the United States and Canada, Vandenberg said, was to straighten out some of the problems in building up Europe's air potential. He said he was pleased with the results of the meeting, which included representatives of the air forces of the other eight North Atlantic treaty powers.

Vandenberg, in a news conference before leaving for Luxembourg on a survey of U. S. air installations, said that the tactical air strength of Western Europe was "inadequate" and that one of the purposes of the meeting was to rectify this situation.

He said he was anxious to build up in Europe the strongest air force possible.

"I feel," he said, "that we must increase it until we have a strong enough air power to act as a deterrent to war."

Asked whether he favored inclusion of Spain and Turkey in the North Atlantic Pact as a means of bolstering the air power of Europe, he replied: "The more air bases we have the better. The more we can get to fight on our side the better. But it is a problem completely out of my sphere. It is political."

Vandenberg, commenting on recent press reports that there was discussion among the U. S. chiefs of staff, said emphatically, "any contention that the Pentagon is liable to fall apart with discussion is unrealistic. There has been the utmost cooperation between the chiefs of staff and with the Secretary of Defense."

## SUNNY CALIFORNIA

LOS ANGELES, June 14—(AP)—Sanford and actress Emily Sanchez, a New York girl, stormed into the University Division Police Station and declared: "I don't like Lee. Anybody anything can happen here!"

In her case, "anything" happened to be the theft of \$900 worth of clothing from her auto—including her shoes.

## Two Found Guilty Of Brutal Murder; Four Are Innocent

### Jury Deliberates For Twenty Hours Over Fate Of 6 Negroes

TRENTON, N. J., June 14—(AP)—A Mercer county court jury today found four members of the Trenton six innocent and two guilty of the 1948 murder of an elderly shopkeeper.

The jury of six men and six women recommended mercy for the two defendants found guilty. This means life imprisonment.

The jury found Ralph Cooper and Collins English guilty of first degree murder with a recommendation of life imprisonment at hard labor.

They found McKinley Forrest, John McKie, Horace Wilson and James Thorne innocent.

The jury, appearing worn and haggard, returned to the courtroom after nearly 20 hours of deliberation. Shortly before the jurors filed into the court, a detail of Trenton police were stationed throughout the courthouse as a guard against possible disorder.

A dozen relatives of the defendants were in an ante-room. The court had ruled earlier that they could not be in the courtroom when the verdict was announced.

The jurors received the much-publicized case at 11:45 P. M. yesterday. They deliberated continuously except for two brief breaks for sandwiches.

Some 70 spectators kept an all night vigil in the small Mercer county court room—just 50 feet from the bolted door of the jury room.

The jury had a choice of three verdicts:

Acquittal; guilty of first degree murder meaning death in the electric chair; or guilty of first degree murder with a recommendation of mercy. In New Jersey this verdict means life imprisonment.

Mercer county prosecutor Marie Volpe asked the jury to send the Negroes to the electric chair.

Defense lawyers, contending police forced five of the defendants to sign false confessions, called for acquittal. A sixth defendant signed a statement.

The lengthy deliberations, in keeping with the history of the celebrated case—branded "lynching northern style" by the Civil Rights Congress, described by the government as subversive.

This was the third trial of the six Negroes and the longest in New Jersey history.

It dragged through nearly 15 weeks and 11,000 pages of testimony.

The defense and prosecution introduced 136 exhibits.

Through it all, the six defendants (Continued on Page Two)

## Tennessee Valley Authority Says Need For Gas Pipeline Is Urgent

WASHINGTON, June 14—(AP)—The Tennessee Valley Authority said today it "urgently" needs natural gas as a dual fuel supply for a huge steam-electric power plant now being constructed at New Johnsonville, Tenn.

J. Marshall Johnson, assistant chief of the power production branch of TVA, in testimony prepared for a power commission hearing, said use of gas as a supplementary fuel supply in the Tennessee plant would not reduce TVA's use of coal.

Johnson, testifying in support of an application by Texas Gas Transmission Corp. for approval of a \$45,000,000 pipeline expansion project, said TVA's new steam plants will need fuel in huge quantities.

At an earlier hearing, Rep. Perkins (D-Ky.) and others opposed use of gas in the New Johnsonville plant or any other TVA installation. Perkins said coal is the best fuel for producing power and represents an inexhaustible supply while gas is exhaustible.

Johnson said TVA's interests at New Johnsonville would be "best served by a dual fuel supply because of advantages such as insurance against fuel interruptions from mine and transportation strikes, fuel-handling equipment failures and higher availability of the generating equipment because of less maintenance when burning gas.

## Senate Releases Sordid Story Of Dope Addiction

### Young Women Become Prostitutes To Supply Dope Need

NEW YORK, June 14—(AP)—A young, successful woman musician today told state investigators that she had turned to prostitution to supplement her regular \$245 weekly income in order to buy dope.

The testimony of the 25-year-old arranger and composer, who attended Oberlin conservatory in Ohio and Boston Emanuel college for women, was presented in a recorded interview. Her name was not disclosed.

She said she spent on the average of about \$200 a week for narcotics. To get extra money for drugs, she said, she did "nauseating things, thievery and prostitution" and occasionally peddled drugs herself.

WASHINGTON, June 14—(AP)—Senate crime investigators today made public testimony describing drug addicts' parties in the nation's capital and relating that "dope" could be bought here "as easy as a soft drink."

The testimony was taken from recollections of the House of Representatives of the House of Representatives of the House of Representatives.

Most of the witnesses said narcotics are cheaper in Washington than in Baltimore, but readily available for adults and teenagers in both cities.

Names of the witnesses, questioned at the two institutions May 29 and June 7, were withheld.

A 23-year old Washington woman told of earning money through prostitution to buy dope.

The report quoted her as saying she "went as girls" out on the street to get needed funds.

"She said that quite a few of the girls she knew had to do that to take care of their habit," the report added.

A Baltimore woman, 20 years old, the report said, "sold of going to heroin parties in Baltimore and Washington at which as many as 30 or 40 people were present and using drugs."

"Addicts at a party," the report quoted her, "would not dance but would listen to music—classical and pop."

The woman, the report said, has been an addict since the age of 13 but wants to break the habit because "you lose everything—your pride, respect, and everything else when you use dope."

(She considered the parties in (Continued on Page Two)

## 11 Changes In Constitution Are Proposed

### State Supreme Court Would Be Enlarged To Ten Justices; Home Rule Asked

TALLAHASSEE, June 14—(AP)—Eleven proposals to amend the Florida constitution will appear on the 1952 general election ballot, an Associated Press check showed today.

The 11 proposals the voters of the State will be asked to ratify or reject in next year's general election were all that survived of 40 proposals to alter the Constitution introduced in the recent legislative session.

Although voters of the entire state must pass on the 11 proposed amendments only three of them have direct application.

These three would increase membership of the Supreme Court from seven to 10 justices, would grant home rule to the counties, and would earmark for a 30-year period a portion of the revenues from motor vehicle licensees against which the counties could borrow for construction of schools.

The objective of the proposal to add three justices to the Supreme Court is to reduce the heavy load on the present six-justice court and to speed adjudication of litigation.

The proposed amendment, in addition to enlarging the court, provides that a majority decision of a three-judge division will stand as the judgment of the court and that Supreme Court justices and circuit and criminal court judges must be residents and citizens of Florida and attorneys licensed to practice in the state.

The Constitution now provides that a majority decision of a three-judge division must be concurred in by the Chief Justice to stand as the judgment of the court and requires only that judges be at least 25 years old and lawyers.

The court enlarging amendment (Continued on Page Two)

## Saunders Reveals Mounting Interest In State's Produce

### Produce Receivers Visited In 31 Cities From Milwaukee, Wis. To Boston, Mass.

Produce receivers visited in 31 cities from Milwaukee, Wis. to Boston, Mass., have expressed surprise upon learning of the magnitude of farming activities in Florida and in the amount of produce grown in this section.

Chas. Saunders, representative of Chase and Co., stated, following a recent trip north.

The report said, "The produce market is good toward Florida produce, he declared.

Asked if there are any new trends in the celery deal he stated that the market is definitely swinging toward Florida celery in preference to the golden variety.

The Florida sweet corn deal which got its initial start several years ago in the Sanford-Zellwood area, and which supplies northern markets from April through June is gaining fast, he reported. The sale of Florida cabbage is also growing heavier.

Mr. Saunders made the visits to the produce merchants during frequent trips in a 29-wheeler truck.

## John L. George Died Yesterday Afternoon

John L. George, father of Mr. George Touby, died in an Orlando hospital yesterday afternoon following a brief illness.

Mr. Alderson came to Sanford from Alderson, W. Va., about a year ago with Mrs. George and they resided at 120 West Twenty-sixth Street. He was a member and elder of the Alderson W. Va. Presbyterian Church.

He is survived by one son, James George of Delray Beach and one grandson, Jimmy Touby of Sanford.

Funeral services and interment will take place at a later date in Alderson.

## FISHING LICENSES

New 1951 fishing licenses are now on sale at the office of County Judge Douglas Stenstrom. Residential licenses will be valid beginning, June 15. The old licenses do not expire until June 30.

## SURE METHOD SOMEWHERE IN KOREA

June 13—(Delayed)—(AP)—A patrol leader on a reconnaissance mission told his men he knew a sure way to tell a North Korean from a South Korean.

Just then a Korean came down the road.

## State Department Over-Ruled Formosan Military Mission, Johnson Informs Committee

### U. S. And Britain Reach Agreement On Peace Treaty

DULLES AND MORRISON Formulate Plan For Japanese Peace

LONDON, June 14—(AP)—United States and British leaders announced today they had reached "full agreement" on the draft of a Japanese peace treaty.

A communique was issued here by President Truman's representative, John Foster Dulles, and British Foreign Secretary Herbert Morrison. It said the British-American accord on the Japanese treaty still is subject to approval of the two governments.

Dulles and Morrison did not disclose how they prepared to settle the knotty problems of Chinese participation in the Japanese settlement and the future of Formosa.

Informed sources said the British and Americans had agreed to let the Japanese decide for themselves whether to sign a treaty with the Chinese Communists or the Chinese Nationalists, or to sign with neither.

Neither the Chinese Nationalist nor the Chinese Communist government will be invited to join in the peace settlement, the informants said. While Japan would be free to enter or not to enter into a separate pact with any government she chose, she would be bound not to give national parity to such an agreement greater privileges than she grants to those signing the original peace treaty.

This treaty would bind Japan to give up all claim to Formosa, but the question of the island's future—whether it would be Communist, Chinese Nationalist (Continued on Page Two)

## Appeal Is Made For Donations To Lion's Blood Bank

Ben F. Wade, chairman of the Seminole County Blood Drive, and head of the Lions Club Blood Bank committee, today appealed to the people of our community to make a good donation to the bank.

This blood drive is being sponsored by the Sanford Lions Club. He pointed out "Our blood bank is getting very low, and we hope that all of the people of our community will realize just how important this blood bank is, and that they will take an active interest in this drive."

"During this campaign," he added, "all of our citizens who are eligible to donate blood have the opportunity and privilege to have a part in helping someone who might have an accident or need blood due to some other cause."

All of the people of our community would enter into this blood drive with that cooperative spirit which has made our country great, then it certainly would be a huge success.

"We of the Lions Club," said Mr. Wade, "are all most appreciative if the leaders in all the churches here would bring this drive to the attention of members at services Sunday. Those interested may call the Welfare Office on Palmto Avenue near to the Fire Station, Phone 404."

## Veterans Class Is Invited On Picnic

The Seminole County Farm Bureau has invited the Veterans of the Farm Training Class and the Seminole County Veterans Farm Co-operative to a family-basket picnic Saturday afternoon from 2:00 to 6:00 o'clock, John Pierson, veterans teacher and Farm Bureau president, announced today.

Permission has been granted by the City Commission for use of facilities, including the swimming pool, playgrounds, and shuffleboard courts.

John Ford, executive vice-president of the Florida Cattle Raisers Bureau, will tell the growers what the recent State Legislature has done for the farmer, and will outline plans for the state convention at the "V.I.P." Park headquarters this year.

John Krober, president of the Florida State Beekeepers Association, will give the beekeepers a talk on what the farmer has done for the beekeeper, and will outline plans for the state convention at the "V.I.P." Park headquarters this year.

## Bathing Beauties From New Smyrna Open Sanford Eyes

More than 100 bathing beauties came to Sanford this morning on a motorcade and after a trip in downtown streets were officially greeted in front of the Chamber of Commerce Building by Mayor Fred Dyeon, City Manager Clifford McKibbin and Ed Whitney, Chamber of Commerce Manager.

One of the girls presented Mayor Dyeon with a large red, high shaped balloon, and left two in their marks on his right cheek while Mayor Dyeon of New Smyrna looked on and grinned.

Among the beauties was A. R. Ivey, manager of the New Smyrna Chamber of Commerce, and Miss Hannah Brunitt, a city commissioner.

The motorcade of beauties had a Highway patrol escort, and Lieutenant Max Bass conveyed the motorcade through city streets while the girls displayed their charms in open air. Jerry Wells was one of the highway patrol men in the motorcade.

## C. Of C. Commends Activity In Getting City Hospital Funds

The Board of Directors of the Seminole County Chamber of Commerce met Tuesday night at the City Hall, and reviewed the hospital situation in detail, Mayor Ed Whitney stated today.

They directed that individual letters of commendation be sent to local trustees of the Fish Estate, Fred R. Wilson, W. A. Jeffers, and Ernest Galloway, for their outstanding efforts in securing an allocation of funds of \$50,000 for a hospital project.

T. E. Tucker was authorized to set up a hospital committee to work with the trustees.

Tom Latta, chairman of the County Roads and Bridges Committee, submitted a report outlining his group's recommendations for new highway construction during the coming year.

## Beauty Contest Will Be Decided Tonight

The finals of the Miss Sanford 1951 beauty contest will be held tonight at 8:00 o'clock at the City Theatre.

Chorus of four girls, quartet and duet singing, and the Miss Sanford 1951 Beauty Contest will be the featured attraction.

Entertainment will include Duette Williams in a tap number. At the picnic, the Miss Sanford will play bridge and chess.

Miss M. C. Stone will play the incidental music during the contest, which is sponsored by the Sanford Business and Professional Women's Club.

## Wedemeyer Urges Break With Reds

John Ford, executive vice-president of the Florida Cattle Raisers Bureau, will tell the growers what the recent State Legislature has done for the farmer, and will outline plans for the state convention at the "V.I.P." Park headquarters this year.

John Krober, president of the Florida State Beekeepers Association, will give the beekeepers a talk on what the farmer has done for the beekeeper, and will outline plans for the state convention at the "V.I.P." Park headquarters this year.

## Former Secretary Of Defense Says State Department Shifted Stand After Korea

WASHINGTON, June 14—(AP)—Tom Johnson, former secretary of Defense, testified today he wanted to send a U. S. military mission to Formosa in December, 1949, but President Truman overruled him because of "political" protests from the State Department.

Testifying at the Senate's MacArthur inquiry, Johnson said it was only after the fighting began in Korea that the State Department shifted its position and no longer proposed doing things to keep Formosa from falling into unfriendly hands.

Formosa is the big island off the China coast where Chiang Kai-shek's Chinese Nationalist government took refuge when driven from the mainland by the Communists.

The question of its importance strategically to the United States has figured repeatedly in the hearings by the Senate Armed Services and Foreign Relations Committees on the dismissal of General Douglas MacArthur.

Johnson, who left the Truman cabinet last September, said the decision to send the Seventh Fleet to guard Formosa—after the outbreak of the Korean war—was taken after the President and others listened to a "brilliant" memo on the subject by MacArthur.

Johnson told the committee that there had been a difference of opinion between the State and (Continued on Page Two)

## Recreation Plans Are Announced By Thomas Stringer

Thomas M. Stringer, city recreation director, today announced that an interesting program of summer recreation for youth from 6 to 12 will be started Monday morning, and will be sponsored by the City.

The program will be continued to Sept. 7 and will include supervised play, including all kinds of games and swimming instruction for two days a week.

Headquarters for the program will be at the Shuffboard Court where the youth and children are invited to meet at 8 o'clock Monday morning for games. All park and playground equipment will be used in the program.

The City, said Mr. Stringer, has provided considerable new equipment, including that for basketball, tennis, softball and baseball. Ball games will be played at the Softball Park on the Lakefront and at the Ninth Street Park.

In addition, there will be interesting instruction in hand-craft work by Mr. Stringer, who recently completed a course of several weeks in recreation work. The course was held in Orlando and was sponsored by the National Recreation Association. He holds a Red Cross rating in life saving, and is a graduate of Seminole High School.

He announced also that on June 21, a program for Negro children and young people will be started at both the Hopper and Cosmos Academies. This will be supervised by Lucien Fabiano and Thelma Shepard. Swimming activities will be at Roy Smith Lake at Maikham on two days a week.

FLAG DAY OBSERVED  
Flags were flown today on downtown streets and the large flag fluttered in the breeze on the Municipal Flag Pole in observance of Flag Day. Last night the Elks Club had a special program devoted to this day in honor of the Flag.

Gifts He gave me a cucumber and she gave me a rose... All because I stopped and asked which way the highway goes.

LYDIA WALKER

Cut Alfalfa Clean green odor of alfalfa, Yellow mix of sun; Green, new cut. Summer heat. Blended one. Still blue of sky with round disc high and fixed; straight down rays piercing cut fields—green-yellow mixed. We, under a noon tree breathe poulture.

GERTRUDE MAY LUTZ

In Austin, Texas yesterday General Douglas MacArthur "laid it on the line," to use Mr. Truman's favorite campaign expression.

No rationing is foreseen in the United States even if Iran oil is lost. Not as long as Congress is in session where there is such a sufficiency the whole world need not worry.

According to the American Medical Association milk offers a cheap, pain-relieving treatment for A-bomb burns. In case Russia "goes off its nut" we are heading for the cow barn.

Strange things are happening in the current price war in New York. One big department store advertised cigars reduced by 28 to 68 percent. In the same ad, store advertised a book entitled "How to Stop Smoking."

Today is Flag Day and however badly you may think the affairs of the nation are being handled, remember that our flag is always to be honored, that it stands for the highest ideals we all feel for our country.

With the price of newspaper going up many publishers are increasing the price of their subscriptions and advertising rates. The reason for the increased cost of newspaper goes back to that old law of supply and demand. The supply is greater than ever but the demand is even greater.

General Omar Bradley acknowledges a serious mistake in the Battle of the Bulge. He says repeatedly in his new book, "A Soldier's Story," that he greatly underestimated the likelihood of a great German attack, and remarks that his misjudgment was shared by General Dwight Eisenhower and Sir Bernard Montgomery, the British field marshal. It takes a big man to acknowledge publicly an error in so vital a matter.

Great Britain is greatly concerned about its two missing Foreign Office officials and is conducting one of the biggest manhunt in history in order to locate them. Why not let them go on to Russia where they probably belong. The Soviets probably had not anything they already knew about our top view of the fact that our State Department has atomic plants, industrial plants and military planning.

Return To Ruritania

Ruritania, the mythical European kingdom of romance and adventure, has become part of our literary heritage, like George B. McCutcheon's Graustark. Hollywood evidently believes that the exploits of a daring Englishman in Ruritania still have power to stir the blood, for it announces the third filming, the first since 1937, of the story in which Anthony Hope introduced the country, "Prisoner of Zenda."

This novel, appearing in 1894, was the work of an English barrister, Anthony Hope Hawkins, who used his first and middle names as a pen-name. He first showed a talent for sparkling conversation in "The Dolly Dialogues," sprightly stories of London society, and then turned to tales of adventure, with high success. Soon after 1900 for some reason his zest failed. His stories became character studies instead of adventurous yarns, and finally ceased altogether. He had not published a new work for many years before his death in 1933.

Anthony Hope will be remembered as having started the demand for romantic fiction as opposed to realistic, which prevailed in the United States down to World War I. Notable examples were "Richard Carvel" by New Hampshire's Winston Churchill, and "When Knighthood Was In Flower" by Charles Major of Indiana. In the first years of this century every library table had one of these, and probably "Prisoner of Zenda" too. These were enduring works.

Uses Of Austria

There used to be a maxim among diplomats that if the Austro-Hungarian state did not exist it would be necessary to invent it. The saying arose from the fact that the empire was a useful place to deposit for small states and minor nationalities in Central Europe, keeping them out of both German and Russian hands. The destruction of Austria-Hungary in World War I, and the direful fate of the small powers which replaced it, go far to prove the truth of the diplomatic adage.

This is brought to mind by Robert A. Kann, a British professor, who has written a history of Austria, "The Multinational Empire." Actually it was a supranational empire. The Hapsburg dynasty was above the nationalities which made up its subjects, and looked after its own interests instead of theirs. That was why the empire finally fell apart. No nationality was interested in continuing it. The Austrian Germans mostly wished to join Germany, the Slavs and the Hungarians hoped to establish independent states of their own.

Yet the idea of a third Central European state which could prevent this region from being absorbed into either Russia or Germany was sound. The two states, Italy and Yugoslavia, which did the most to destroy Austria must now wish they hadn't. All they have gained is to have Russia for a neighbor.

The Family Doctor

A prominent physician speaking at a medical school graduation advised the young doctors to strive for the old-family-doctor relationship with their patients. The understanding between patient and physician that a respected family doctor can promote must be one of the most satisfying things about the profession of medicine.

Young doctors have a great tradition to live up to in America. This is the country where doctors traveled on horseback for miles to unlock log cabins to fight a plague, take out an appendix or deliver a baby. Americans have an admiration for doctors which has its basis in confidence in their skill and respect for their devotion to their work.

A doctor can be paid compliments by his fellow physicians. He can gain wealth and position if he is very lucky. Acceptance in a community by people who think of him as their family doctor is not the least of his rewards.

Johnson Testifies

Defense Department late in 1949 about Formosa. He said the Joint Chiefs recommended in December of that year that a military mission be sent to Formosa to aid Chiang Kai-Shek's troops there but Secretary of State Acheson objected.

A military mission was actually sent a few months ago. Johnson also gave the senators their first intimate story of the top-level conferences here at the time the Korean War broke out.

He said the decision to intervene militarily in Korea was made at a White House meeting on motion of Acheson.

The next day, Monday, June 25, the military and other leaders met with the President.

"At that time the decision, on motion of Secretary Acheson, was made to send the Navy and the Air Force into that situation, the United Nations having met at 9:00 o'clock on the previous Sunday afternoon and declared North Korea an aggressor," Johnson said.

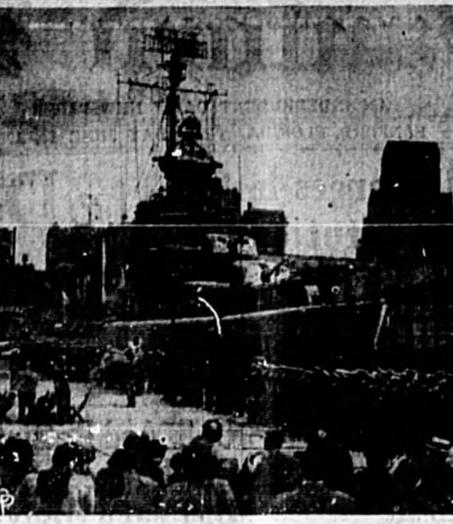

Chairman Russell (D-Ga) asked if there was any mention made of sending the Navy and the Air Force into that situation, or was it pursuant to the resolution of the United Nations?

"It was taken for granted on Sunday evening—and I think it was brought up by Admiral (Forrest P.) Sherman—that whatever was necessary to be done to evacuate Americans would be done," Johnson replied. "It wasn't in the nature of a motion or a decision, it was just an assumption of what under such circumstances would be done any time in a like condition."

Johnson said on Tuesday morning, June 27, the group met with a number of members of Congress and the announcement was made of the position of the United States in relation to the Navy and the Air Force.

"Just before the conference broke up I said to the conference that unless the President objected I was putting General MacArthur in charge," Johnson said, adding: "Prior to that time, because of the secrecy of the situation, General MacArthur had not been communicated with officially, nor so far as I know, personally, nor had his opinion been asked."

Johnson said he was not consulted prior to the decision to intervene in Korea, but that he thought the decision was the correct one. Johnson was the sixth witness at hearings by the Senate Armed

THE ITALIAN NAVY formally receives two destroyers from the U. S. in a ceremony at New York City. Ambassador Dr. Albert Tarchiani accepted the ships for his government from Rear Admiral Walter S. DeLany, Commandant of the 3rd Naval District. The World War II destroyers are the Nicholson and the Woodworth, which will be renamed the Aviere and the Artigliere as they start their Italian service. (International)

Chinese Admit Underground Is Causing Losses

By STANLEY RICH HONG KONG, June 14—The Chinese Reds, in an amazing published report, concede that underground armed forces have created a critical situation in the vast and vital East China area. The admission was in the form of a warning to the East China Military and Administrative Commission by its public security chief, Li Shih-Ying, at a meeting in Shanghai Mar. 10-16. It was published Mar. 18 in the Shanghai newspaper Hsin Wen Jih Pao, received here today.

Li said political assassinations were increasing, the situation was "critical and widespread" and "the losses incurred by the people can hardly be estimated." He called for stronger anti-counter-revolutionary measures.

The Chinese Nationalist defense ministry charged the Reds have executed more than 1,000 Chinese in reprisal. As a startling admission, Li's statement revealed the February report of Peng Chen, mayor of Beijing and member of the Central People's Government Council. Li Peng said South China bandits had killed thousands of Communist workers. That report spurred the Reds' purge to even greater intensity.

Li's warning listed trouble in Fukien, Chekiang and Anhwei provinces. Highlights included: 1. "Several thousand... bandits have infiltrated into our interior." 2. They are "organizing so-called 'underground armed forces' and attempting to develop and formulate a separate movement 'underground gangs' and 'underground administrative power.'" 3. Assisted by such "American imperialist" agencies as the "Far East Joint Intelligence Services," these forces have trained agents in "a hot line," assassination, espionage and intelligence. The agents work with "reactionary sects, unscrupulous landlords and despots."

Li said "approximately 80,000 bandits" were eliminated by the Reds ending last February. Nevertheless, he said, there still are "critical" districts and some areas where the number of "bandits" had increased. In Fukien province alone, in 1949, he said, 1,062 Communist workers and "progressive elements" were killed.

Constitution Changes

(Continued From Page One) ment, if ratified, will become effective July 1, 1953. The Governor will appoint the three extra judges to serve until successors have been elected in the 1954 general election. One will be elected then for a two-year term, one for a four-year term and one for a six-year term. Thereafter, all justices will be elected for six-year terms.

The county home rule amendment, if approved by the people, will empower the legislature to grant to any county a charter under which it may regulate and govern itself. Each charter will have to be ratified by voters of the county.

A county charter may regulate the powers, duties and jurisdiction of all county officers and designate their classes, terms and jurisdiction and provide the manner of their selection and compensation. As the Constitution now stands, counties have no governing powers except those granted by the Legislature through specific acts as a result, each Legislature is forced to consider hundreds of so-called local bills, which affect only a single county.

The amendment to set up a county capital outlay and debt service school fund, if accepted by the people, will earmark a portion of the receipts from auto tax sales from Jan. 1, 1953, to Jan. 1, 1963 to a fund which will be distributed to the counties on the basis of \$400 for each instructional unit under the Minimum Foundation school program in the various counties.

The state board of education, at the request of a county, will have authority to issue bonds or revenue certificates against anticipated auto tax money for the purpose of building, renovating and equipping schools in that county. The other eight proposed constitutional amendments to be voted upon by the people in the

ing a series of appeals spearheaded by a battery of lawyers hired by the CRC. It began last February but ended before any testimony could be taken when prosecutor Volpe underwent an emergency appendectomy. The present trial got underway last March 5.

Murder Trial

(Continued from Page One) ante, published as the Trenton six by the CRC, have maintained their innocence. They said they were working on nearby farms or at home when 72-year-old William Horner, a second-hand furniture dealer, was beaten to death during a robbery on Jan. 27, 1948.

The defendants were arrested several days after the slaying. They are McKinley Forrest, 38; Collis English, 26; Ralph Cooper, 26; James Thorpe, 21; John McKenzie, 28; and Horace Wilson, 33. Wilson is the only one who never signed a statement implicating himself in the crime. They went on trial a few months later and were convicted because of legal errors, the New Jersey State Supreme Court ordered a second trial after hear-

Dope Addiction

(Continued from Page One) Washington were better than in Baltimore," the report said. "At times she went to New York to get dope and had no trouble getting it."

The report that "dope" was as easy to buy as a soft drink in Washington came from a former musician with a well-known band. He told of becoming an addict at the age of 17 as a high school student. "More than 100 boys he knew in high school were smoking 'reefers' (Marijuana) the committee summary said.

Release of the report coincided with a demand by Fairfax county supervisors in nearby Virginia for a state law providing mandatory life imprisonment without parole for persons convicted of peddling dope to minors.

Dial Boyle Given American Legion Graduation Award

History is repeating itself in the Lloyd F. Boyle family. Four years ago at Seminole High School graduation, their oldest daughter Lillian, class valedictorian, received both the Mobley award and the American Legion award.

Monday night, Miss Dial Boyle also received both the Mobley and American Legion awards, and was salutatorian of her class. Karlyle Housholder, commander of the Sanford Post No. 63, in making the Legion award, whimsically referred to the time when he was a small boy and Senator Boyle gave him a toy rifle. This brought a loud chuckle from Mr. Boyle who was seated with Mrs. Boyle in the front row.

Miss Lillian Boyle, who is spending the week with her parents, will return Saturday to Duke University from which she graduated on June 4 to assume her new duties as assistant in the office of the dean of women.

1952 general election would provide that the Monroe county tax assessor assess property for the purpose of levying state county, school and municipal taxes.

Create an additional circuit judgeship in the second judicial circuit embracing Tallahassee to assist in the disposition of the large volume of litigation involving the states and its officers. Create a senatorial district for Bay and Washington counties. Create a senatorial district for Monroe county.

Abolish the court of record in Escambia county and vest all its powers in the circuit court and provide an additional circuit judge. Provide that all fees, revenue and other charges collected by Escambia county officers be turned into the county general fund with the Legislature to fix salaries and compensation for Escambia county officers. Provide that the Lee county tax assessor assess the property of the county for the purpose of levying state, county, school and municipal taxes levied by the state, county, county school board,

Jap Treaty

(Continued from Page One) Chinese or independent—was left open. The 1943 Cairo declaration signed by the U. S. and Britain promised the return of Formosa to "The Republic of China." The U. S. now holds that the Chinese Communist government is not the Republic of China.

Talks begun here last week ironed out differences which had caused a British-American deadlock. The communiqué said the agreement "emphasizes again the deep essential unity of purpose of the two countries." It expressed hope that Russia would make up her mind to sign the Japanese treaty, but affirmed that the treaty should be prepared "on a wide basis of consultation" with the powers which helped beat Japan, and not simply as Russia insisted, on the basis of discussion by the foreign ministers of the United States, Britain, the Soviet Union and China. Russia means Communist China.

Informed sources said Britain "as deferred her contention that Japan should be bound to pay reparations, but has reserved the right to file claims against Japan when and if the Japanese are in a position to meet them. Britain has wanted \$200,000,000 worth of Japanese gold bullion plus most of Japan's frozen foreign assets issued into a general reparations kitty.

Britain also provisionally accepted the American view that no restrictions should be placed on Japanese industries, particularly shipbuilding and textiles, whose competition the British fear.

school districts, special tax school districts, port districts, draining districts and other taxing districts, including municipalities that request by ordinance their taxes be so collected and levied, and that the county tax collector collect and distribute all these taxes.

Provide that after July 1, 1953, the state attorney in Dale county be prosecuting attorney in courts having criminal jurisdiction in his circuit, except justice of the peace courts, and abolish the office of county solicitor.

Net income of U. S. farmers in 1950 was about \$13 billion—27 per cent below the postwar peak in 1947.

## Faculty Entertained By Mrs. W. D. Stine

Mrs. W. D. Stine entertained the Junior High School faculty, of which she is a member, with a Coca Cola party Wednesday afternoon at her home on Palmetto Avenue.

Those enjoying the afternoon were Mrs. Raymond Hall, Mrs. Jack Burney, Mrs. Lester Guthrie, Mrs. W. G. Fleming, Mrs. Horace Cochran, Mrs. Robert Rumbley, Mrs. Lee Semuels, Miss Georgena Hart, Miss Adelaide Richter and Mr. and Mrs. Stine.

## Allied Columns

(Continued From Page One)  
Triangle area eastward. McArthur said the Reds apparently are not short of manpower.

The main Red force is still definitely "close in," an Allied officer on the east central sector said. "They apparently have plenty of men. Not enough for a sustained offensive, but they may attack anyway."

The Eighth Army reported the Reds threw a series of probing attacks at the U. N. lines in the area northwest of Yangju.

The Allied line was under artillery fire all day. An intensive barrage fell north of Yangju. Patrols moving out well ahead of the lines were hit by heavy mortar fire.

The only Allied advance was north of Uju. McArthur reported Allied troops fought off day-long mortar fire to move forward about a mile.

Near Kaesong on the east coast South Koreans beat back two Red attacks—one by a battalion and the other in regimental strength.

Through most of the eastern area the Reds have been fighting small delaying actions to cover the retreat of their comrades. Reds have been reported streaming north to escape being cut off by the fall of their vital "Iron Triangle" and scrambling out of the Triangle itself.

Two U. N. tank columns found the Triangle virtually deserted Wednesday as they tumbled to its northern apex at Pyongyang.

They met little opposition anywhere along their sweeps from Chchon and Kumhwa up the valley roads which form the sides of the Triangle.

More than 100 tanks were in the column.

Infantrymen clung to the sides of the tanks as they lumbered awkwardly into Pyongyang, 25 miles north of the 38th Parallel.

Not a building was left standing in the once bustling road junction. Infantrymen searched it for Chinese.

Then the tank patrols swept out over the flatlands to the north, under cover of self-propelled artillery.

Only a position was from a few pockets of Chinese south of Pyongyang. They were wiped out.

U. S. officers said they were amazed at the complete Chinese withdrawal.

Intelligence observers said

## HOLLYWOOD By BOB THOMAS

**HOLLYWOOD, June 13—(AP)—**  
"Why," exclaimed Oliver Hardy, "it's just like the old days!"

Hardy, the man mountain, member of the comedy team of Laurel and Hardy, was speaking of their new-found popularity. Their old comedies have been running on television and have created a wholly new audience for them.

"It's hard to believe," said Hardy. "When Mrs. Hardy and I used to go shopping, I might run into a few friends who would say 'Hi, Babe!' and that was all. But now I go in the grocery store and I notice the kids staring at me. Then their parents come and say, 'Mr. Hardy, my children would like to meet you.'"

"Right now we're getting more fan mail than we ever got in the old days. And it's all due to television."

Their TV popularity has brought them a variety of movie offers, including a possible deal with director Billy Wilder. And there are numerous offers for TV. But the boys are not rushing into anything.

"In the first place, we can't do anything for two months or so, because Stan has had an operation," said Hardy. "And we're busy anyway. We want to find the right thing before we jump into TV."

"Lots of my friends come over to the house and tell me they have just the right formula for a Laurel and Hardy TV show. I try to pin them down as to why they say, 'don't worry about that.' But I do worry about it. We quit making pictures in Hollywood because the studios didn't think we needed stories for our comedies."

Unfortunately for them, Laurel and Hardy have no rights in their films now being shown on TV. They were owned by Hal Roach, who sold them and his other films to a distribution company.

"I understand the price was \$750,000," said Hardy, "and I have heard that the films have already brought back three times that amount. I wish I had known that Roach was going to sell them. I could have raised enough money to buy them."

Our comedies are ideal for television. We always wore the same old costumes, and the pictures aren't dated by the clothes. And the foreign potential is tremendous. When we were in Europe, we saw theaters that would take three of our old comedies and run them together as a feature. In Italy they were releasing one of our pictures for the 12th time."

Laurel and Hardy recently returned from France, where they made their first picture together in several years, "Atoll K." They planned to stay in films but they remained 11 months due to Laurel's illness.

"Atoll K" is a fantasy about a mythical island. It was filmed largely on the Riviera and Laurel and Hardy were the only Americans in the cast. The other actors spoke French and Italian.

## Miss Hutchison Is Honored With Party

Mr. and Mrs. W. C. Hutchison honored their daughter, Penrose, with a graduation party Friday afternoon at Sanlando Springs.

After the guests swam during the afternoon, supper was served from the picnic tables. Later in the evening the guests participated in dancing.

Those enjoying the occasion with Miss Hutchison were Miss Digi Boyle, Miss Carolyn Patrick, Miss Sue Collum, Miss Donna Lou Harper, Miss Suzie Bivins, Miss Penny Wallace, Miss Betty Lou Parlin, Miss Jeanette Wolfes and Miss Marion Cushing.

Also Buddy Bass, Allan Hetzel, Ronnie Garner, Clarence Clause, John Fite, Luther David, Billy Tison, Randy Whitney and Aubrey Moran.

## Mrs. Welsh Elected To Head Story Group

Mrs. C. C. Welsh was elected president of the Sanford Story League at the final meeting of the season which met in McKinley Hall Tuesday evening.

Other officers elected were Mrs. William Roche, first vice-president; Miss Mary McMahon, second vice-president; Mrs. R. W. French, recording secretary; Mrs. Lottie Nix, treasurer; and Mrs. E. Long, historian.

Mrs. S. J. Nix presided over the meeting and reports were given on the benefit programs given during the year. The programs given during the year, the proceeds will send delegates to the National Convention in West Virginia June 20 to 24. Mrs. Fred Roth will be delegate and Mrs. Welsh, alternate.

Mrs. Roth gave a human dialogue and Mrs. E. C. Williams spoke on "How To Tell A Story". A survey was shown on the increase of the use of books from the schools and the public library by the children since the Story League has been sponsoring radio broadcasts and book reviews.

Mrs. Roche closed the meeting with a short story and refreshments of punch, cakes, nuts and mints were served to the guests.

## LONGWOOD By MRS. J. H. MENICK

The class of Lyman School 1951 sent out the following: president Clyde Walker, Dorothy Fonzara and Joan Dunstan were Salutatorians.

Presentations of diplomas was made by Principal R. T. Milwee.

Members of the class were Hugh Ansley, Gordon Bunnell, Gladys Griff, Richard Joy, Joan Mattinger, Autha Warner, Winkle Arthur, Mrs. C. E. Thurman and Dr. Marshall Dandy, Pastor of First Presbyterian Church of Orlando addressed the graduates. County president of Education made the introduction.

At the last session of the Town Council a list of subscribers decided to ask the Greyhound buses to stop in Longwood.

The Bandits had a special musical vice Sunday night, the Junior choir under direction of Mrs. Flora Williams gave a most creditable program.

The past week was noted for last of the season meetings. The Home Demonstration Club had a luncheon in Sunnyside Park when palm weaving was done.

Teachers will soon leave for vacations.

The Episcopal Church has service every Sunday a four afternoon.

Longwood Hotel is practically closed until early October.

John Lawford has returned from a hardware business tour to southeast states.

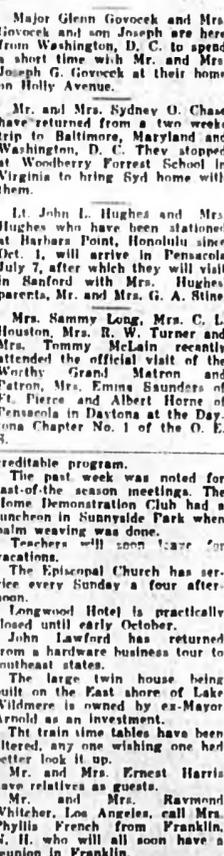

The large twin house being built on the East shore of Lake Wildmere is owned by ex-Mayor Arnold as an investment.

The train time tables have been altered, any one wishing one had better look it up.

Mr. and Mrs. Ernest Harris have relatives as guests.

Mr. and Mrs. Raymond Whitcher, Los Angeles, call Mrs. Phyllis French from Franklin, N. H. who will soon have a reunion in Franklin.

# Ninth Inning Triple By McBride Edges DeLand Hats 4-3

### Big Swede Swiderski Embalms Red Hot DeLand On Six Hits; Klaus Steals Home

By ED HARPER  
The score was tied in the bottom of the ninth inning and two men were out last night when Mickey McBride laid the wood to a fast breaking curve ball and rode it to the right center field fence pushing in Max Pfeiffer with the game winning run as Sanford took DeLand 4 to 3.

Big Swede Swiderski effectively emblamed the Red Hats until the seventh inning when the league leaders jumped on the offense on Mickey McBride's lead and three runs to take a one-run lead. Until that inning Swiderski had given up but one hit and only one man had reached second base.

Sanford Manager Richie Klaus gave the Giants a one-run lead in the third inning by executing a superb steal coming in under the pitch to catch both pitcher and backstop flatfooted.

The Giants tallied again the fourth on singles by Frank Therna and Fred Petty plus a walk to Don Bailey. But the ever dangerous Red Hats came alive in the seventh aided by some sloppy fielding on the part of Sanford.

Four straight singles combined with a miscue to give the Hats the lead, but the Giants were not to be denied last night.

Frank Therna drove in the game-winning run in the 9th after Fred Petty doubled and Don Bailey leapt out a sacrifice bunt to first. Therna lofted a high fly to right field for his second run-batted-in of the night.

Swiderski settled down in the top of the ninth getting the first three men and the Giants came into the sudden death half of the ninth with four of its heaviest hitters on deck—Klaus, Parise, Pfeiffer and McBride.

Mike Warnitsky got Richie on a ground ball to the shortstop and Joe Parise, who had a double and a single for the night, lofted a pop fly to Don Allen on first. Max Pfeiffer kept the Giants hopes alive with a single and Mickey McBride brought home the bacon with his towering triple—his first hit of the evening.

Mickey McBride not only drove in the game winning run but played a sparkling game field last night making a brilliant back hand stop on a "Myrtle Pirtle's line drive to third.

Richie Klaus fouled the Hats completely on his steal of home in the third louncing carelessly off third base until the perfect moment as the pitcher started his winding arm chipping in like a scarlet ghost. Frank Therna, playing his usual quietly effective game, handled eight chances without a lull and drove in two crucial runs—Fred Petty showed evidence of shaking off his hitting slump lashing out a single and doubling in three trips. Joe Parise also looked like his early season self with two for four. Don Bailey, presently a rock like target behind the plate, again showed himself the superior of any catcher in the league on his pop outs. He apparently doesn't even have to look up finding the ball by some sort of instinct.

## Straight from the Horse's Mouth

By ED HARPER  
Leonard McBride, better known as Mickey, made four errors in his first game with the Giants but the memory of that first night fiasco has long since been wiped out by the whistling left field drives of the Sanford third baseman which have now pushed him into the team batting lead with a blistering .319.

Mickey isn't unaccustomed to leading his squad—in 1950 the whip-cracked but corner expert hit .465 for the Freeman High School team. Previously he had shared the ball at respectable averages such as .325 and .310, but as a senior the Los Angeles flash really came into his own.

He started his baseball career with the Los Angeles Midget Association and led the league in hitting, beginning a habit he was to continue.

His obvious skill gained him a chance to play with the biggest kids in the Senior League where he held down a spot in the outfield for most of the time. It wasn't until his senior year at Freeman that he was shifted to third base, a position at which he has been gaining confidence lately in spite of not having a complete mastery of all the techniques.

Like Tom Dolan, Mickey has all the prerequisites of a great ball player—speed, a strong arm and remarkable power at the plate. With the exception of Ed Levy and Dayton Beach, there isn't another hitter in the league who displays as much raw power as Mickey with a bat in his hands. The ball literally flies off the wood with a flat, low trajectory which leaves the infielders flat footed and makes the outfielders feel the shock when they handle the drives.

Mickey's fielding probably isn't the best in the league but lately he has been coming up with gems on slow rollers which previously went for hits. His arm—which is certainly as good as any in the league—makes up for a certain lack of finesse. But all Mickey needs is experience. He's got the guts for the tough third base spot and he has the physical equipment.

Like most good ball players Mickey is an all-around athlete and was for three seasons T-formation quarterback of the Freeman High football team.

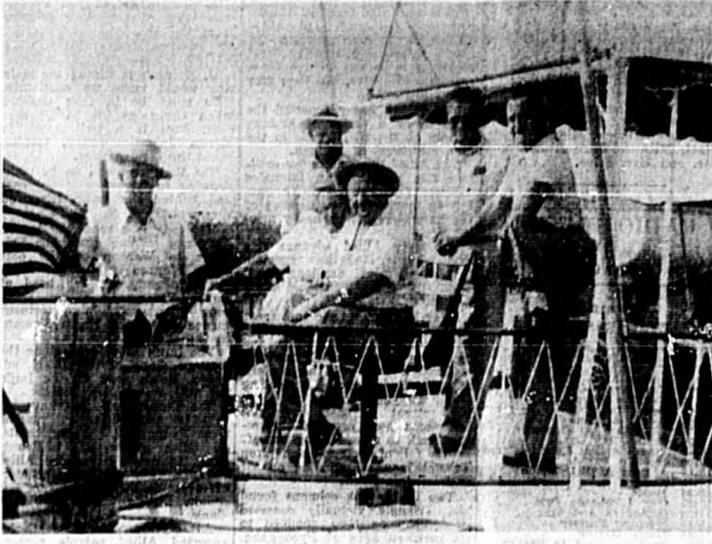

He was picked on the All-League All-Stars one year and on the city team in one—and there are 32 high schools in Los Angeles from which to take the first eleven. His team won the city championships all three years—something which would in no small way be laid to McBride whose arm is as good at throwing footballs as baseballs.

In baseball Mickey was all-city in the outfield one year and in his awesome senior semester he made All-League easily at third base. His greatest thrill in baseball so far came on a freak play when Freeman was playing Wilson High for the championship. A man was on first base and the hit and run sign was on. But the pitch came inside and Mickey, with no possibility of hitting behind the runner, put the ball over the stands for a home run.

Mickey's favorite uniform, flannel with third base sometimes gets him in hot water. Takes the situation at Daytona Beach for example. With two out and men on second and third, Mickey handled a slow roller, forgetting that if the man who hit the ball reached first base safely and the man on third scored before the putout was made Mickey took the most obvious way to get an out and ran the man down from second. Luckily the tag was made, but Mickey swears that a homer he'll never pull again—which is the reason he's down here, to learn.

Mickey came to Sanford from the Class C Idaho Falls club where he played in only six games. He's almost a certainty to go up next year, being a superb prospect.

Looking over the league Mickey is convinced that Daytona Beach is the roughest team to beat—and Copeck the hardest pitcher. For a guy batting .319 none of them could be too frightening.

Five local sportsmen and one angler from St. Augustine enjoyed a recent fishing trip to Dry Tortugas in the Florida Keys. Aboard "The Tramp" left to right are Sheriff P. A. Mero, Clyde Ramsey, (seated) Fred Pope, Clarence Welsh, Ray Herron, all of Sanford, and Bill Wilburn of St. Augustine.

## Local Sportsmen Catch More Than 1,000 Pounds Of Fish In Key West

By WILLARD CONNELLY  
Five men from Sanford and one from St. Augustine recently returned from a fishing expedition in the fabulous fishing areas between Key West and Dry Tortugas where Ft. Jefferson is located.

According to Clarence Welsh, local sportsman and tire dealer, the fishing was wonderful, and more than 1,000 pounds of edible fish had to be thrown back into the water, due to lack of facilities to store them. He reported catching a 40 pound king fish.

Sheriff P. A. Mero, who is noted here for his fishing ability, had some fine catches, including a 30 pound barracuda. Another member of the party, Clyde Ramsey, also landed a big barracuda among other catches so numerous that he reported that he had lost count of them.

Large catches were also made by Fred Pope, farmer; Ray Herron, citrus grower, and William Wilburn of St. Augustine. The men, of course, ate plenty of fish, and enjoyed the cooking of

## Jacksonville Tars Blow Opportunity To Take Sally Lead

By VERNON BUTLER  
Associated Press Sports Writer  
Jacksonville's Tars blew a chance last night to take over the Sally League lead from the idle Savannah Indians.

The sailors lost to Columbus, 7-4, and had plenty of trouble with the slants of left-hander Jack Frisinger. They solved him in the sixth and seventh, when they blanked on four hits during the other seven frames.

Dave Johnson sparked the Cardinals hitters with a single, a double and a home run. The Columbus outfielder scored three runs. Lou Kahn, Carl backstop, collected three singles in four times at bat.

Elsewhere in the circuit, Augusta stopped the Charleston Heels, 6-2, and the Macon Peaches blanked Columbia, 2-0. Savannah and Montgomery were idle because of wet grounds at the Alabama capital.

The Augusta Tigers got only half as many hits as Charleston but they totaled the Rebel run output. The Howards blasted Charleston starter Howard DeCamp for five runs in the first inning. Joe Beber hurled all the way for Augusta, effectively scattering Charleston's 10 safeties.

Max's Mack Stewart and Joe Pierce yielded eight blows to the Columbia Reds but were tough in the clutches. The losers stranded 13 runners. It was the third triumph in succession for the Peaches. Hy Prock rapped three singles for the best batting show of the evening. Vito Devita and Jim Pruitt collected two hits apiece for the winners.

Agar Upsets Teagle In Tennis Tourney  
MONTGOMERY, Ala. June 14—(AP)—One upset marked the path to the quarterfinals as four netmen reached the round of eight in the third annual Blue and Gray Tennis Tournament.

Bud Agr of Black Mountain, N. C., provided the upset when he ousted fifth seeded Jack Teagle of Atlanta, 6-2, 6-3 in the third round yesterday.

Agar was joined in the quarterfinals by Jack Tuero of New Orleans. Don Floyd of Atlanta and Don Kaiser of Louisville. The trio all seeded past third round foes without too much trouble.

The women completed their first round of play with seeded entries coming through as expected.

NEW YORK June 14—(AP)—No deal has been made for the DeWitt's stock in the Horwits declared President Bill DeWitt of the St. Louis American League club.

The Browns president, however, declined yesterday specific comment on reports Bill Veech, former owner of the Cleveland Indians, is negotiating for the purchase of the club.

"We are not being forced to sell or negotiate or being forced to talk to anybody because of any debts and we did not borrow \$600,000 recently from a bank," he said in commenting on a story by Joe L. Reichler of the Associated Press.

Reichler said negotiations for sale of the Browns to Veech have been completed.

round of play with seeded entries coming through as expected.

## Hogan Names Sam Snead As Man To Beat In National Open Tournament

By JERRY LISKA  
BIRMINGHAM, Mich., June 14—(AP)—Golf's greatest show, the United States Open, began its 51st annual performance today with a field of 162 shooters.

From defending champion Ben Hogan down, the array of 134 professionals and 28 amateurs complained that the par-70, 6,927-yard layout at the Oakland Hills Country Club is strictly a series of snags and delusions.

The 72-hole medal play test with a hiked \$15,000 prize list calls for 18 holes today and tomorrow with the 50 low scorers coming grips in Saturday's closing 36-hole grind.

The sponsoring U. S. Golf Association yesterday raised the prize money from \$12,000 to \$15,000. The winner now will get \$4,000 instead of \$2,000. The Open crown visiting guest value is said to be worth about \$125,000 to the champion in testimonial and The runnerup grabs \$2,000 instead of \$1,500 and third place gets \$1,000 instead of \$750. Only the first three places were booked.

Hogan seeks his third open title in four years and the first two-straight feat since Ralph Guldahl's 1937-38 sweep, but he readily names Sammy Snead the winner or this one "by a mile."

Bobby Locke, British Open champion, ranked with Hogan and Snead as a top favorite.

Men 10; Asaoka 9  
PALATKA, June 14—(AP)—The Gainesville G-Men outlasted the Palatka A-1s, 10-9 to break a seven-game losing streak here tonight.

The tilt was a see-saw affair, Myrl Hoag finally gaining the win and reliever Cecil Hutson the loser.

Stan Abernathy rapped a triple and three singles to lead the 15-hit barrage of the G's while Pete Pielan with a home run, double and a single and Mike Kausman with a double and two singles led the 13 hit Palatka attack. Manager Charlie Brewster and Buck Parise each homered for the G's.

### Forecasters Hit U. S. Population Figures On Nose

By ROBERT E. GUGER  
AP Newsfeatures Writer

WASHINGTON—U. S. census experts now can estimate the nation's population month by month so accurately that the top population forecaster, Jacob Siegel, without peering at the figures the nose counters were gathering, estimated within 10,000 people of what the 1950 official census would total.

In a population of 150,697,361 people, the 1950 census total, this was an error of less than 1/10 of one per cent. For most census purposes this can be considered virtually perfect.

The United States constitution instructed officials to count noses every ten years and report the total to Congress. The main purpose was to establish the number of representatives each state should have in Congress. Representation is based on population.

But many other reasons have arisen why the country needs to know, more frequently than once in 10 years, how many people it contains.

A WINNER from Gainesville, Fla., Mary Godwin, '51 Miss Florida of 1951, poses a few pointers from an expert on the proper way to wear a crown. She is Yolande Helbert of Alabama who became 'Miss America of 1950' at the Atlantic City Beauty Pageant last September. Miss Godwin, 19, is five feet, 8 1/2 inches tall. (Internationally)

They keep close track of birth statistics. They have to estimate these in some states because of incomplete records. But most states now keep fairly accurate records.

They subtract the number of deaths from the total births. There always have been more births than deaths in the United States.

Then the experts study statistics on people who come into this country from foreign nations and those who left the United States to live elsewhere. This shows the net gain or loss from migration.

All these figures are compiled on a month-to-month basis. Starting in the month following each 10 year census, the monthly gain is added to the 10-year census total, considered accurate because it is an actual count of noses.

This last April, 120 months had elapsed since the previous census count. Siegel, making his April estimate, said there were around 149,778,000 people in the United States, oversteering by 60,000.

It is easier to estimate total U. S. population than a state's population.

The states do not keep records on persons who move from one state to another. But the U. S. government keeps accurate records on people who cross its international boundaries—at hops.

The only ones not counted are spies and a few other aliens who may be smuggled in, officials say.

### Austria Has Become Important Asset

AP Newsfeatures  
VIENNA—Vast dollar investments in Austria since 1945 have made the country's industry an important asset for either Russia for the West in the event of war.

Austria cannot exist alone. But geared to either economic sphere, it can provide steel, iron ore, crude and refined oil and electric power for large areas of Europe.

Since 1945, through either direct aid or the Marshall plan \$740,000,000 have gone into rebuilding the country's industries. Two great steel plants in the U. S. and British zones can turn out almost 1,000,000 tons of crude steel a year. Power production has been raised from the 1937 figure of 1,819 million kilowatt

### Jaycees Meet

Continued From Page Three  
Texas candidate, and the Florida delegation pressed the Miami Edison High School hand into service to aid Reed's candidacy, Mr. Odham said.

President-elect John Kader described the progress of the paper drive and noted that between 30 and 35 tons of paper had been collected. He asked the club to take under advisement a plan to make the drive an annual affair.

On the motion of Gordon Bradley the club voted to instruct the club president to ask the County Commission and the Fish estate to include a Jaycee representative on the proposed Hospital Committee.

### Another Tip Top Super Value

Mr. Kader also reported on the progress of the membership drive pointing out that approximately 175 members had now been enrolled.

Reggie Moffett, newly elected president of the Orlando Jaycees invited the Sanford club to participate in the golf tournament being staged there.

Murphy Kirkland, official escort for Miss Florida, was also a guest at the meeting.

Next week's meeting will be devoted to a discussion of the problems of recreation for the complement of the Naval Auxiliary Air Station here at the suggestion of Mr. Odham.

The U. S. leads the world in lead production.

### Hebert Reports View Of A-Bomb Blast Is Like Look Into Hell

NEW ORLEANS, June 14—(AP)—The mightiest atomic explosion yet seen by congressional observers vaporized the steel tower on which the bomb was mounted and blasted everything except a few charred palm tree stumps from an Eniwetok atoll island.

This picture of the power of a new series of A-bombs was presented today by Rep. F. Edward Hebert (pronounced "A-B-E-R-I") (D-La.), recently returned from the Eniwetok experiments. He attended as an official observer for the House Armed Services Committee. "I had a feeling I was standing at the gates of hell looking into eternity."

He gave a graphic account of the test in the first of a series of articles he wrote for the New Orleans states and which that paper made available to the Associated Press. The Congress member wrote guardedly that the bomb he saw detonated was "several times the power of the bomb dropped on Hiroshima."

There was some question whether Hebert saw the last and possibly biggest test blast set off at Eniwetok. He and other congressional observers returned to the United States about May 12. Ten days later there were official reports in Washington that still another explosion was to occur, and it was not until May 25 that the government announced the conclusion of the mid-Pacific experiments. That announcement included a hint that some type of hydrogen bomb—perhaps on a small scale for an H-bomb but on a mammoth scale for a convention A-bomb—was tested.

There has been speculation that the magnitude of the final explosion was perhaps ten or more times that of the first atomic bombs. These have been described roughly as having energy equivalent to 20,000 tons of TNT. Hebert in Washington declined to go beyond what he had written. That material was cleared by the Atomic Energy Commission.

Hebert said that on some of the "shot" islands where tests are conducted actual buildings, shelters, "factories" and other structures had been built for measuring the effect of atomic weapons on such construction. The results of these tests will be made available by the Atomic Energy Commission and the military to American building engineers.

Hebert did not say whether the bomb he saw exploded was tested against these replicas of bomb-proof houses and factories. However, he mentioned elsewhere of seeing on some of the "shot" islands "the effects of previous experiments."

But whatever had been standing on the island chosen for the test Hebert witnessed, the picture was this as described by the congressman after a slight over the scene: "There was nothing on the island left standing except the charred remains of a few palm tree stumps."

The huge steel tower, equal in height to a multi-storied modern office building, from which the bomb had been detonated, was nowhere to be seen. The thousands of tons of steel had been vaporized by the terrific heat of the explosion.

Of the explosion itself Hebert wrote: "Blackness" (because of dense, dark green glasses.) Suddenly all was bright. Through the glasses where I had seen the sun as a tiny speck a few minutes before there was a brilliance the like of which I had never seen before. "It was only a minute later but it seemed much longer than that when there came a terrific rumble through the loudspeaker."

### Truman Welfare Plan Is Endorsed By Ford Motor Co.

DETROIT, June 14—(AP)—The Ford Motor Co. yesterday endorsed the Truman Administration's theory that the national welfare requires continual controls over wages, prices and critical materials.

But the company recommended major amendments in price and material control proposals. The Ford case was expressed in a letter to Senator Max Baucus (D-S.D.), banking and currency committee chairman. The letter was released in Washington.

The Detroit News said the letter marked a departure from the late Henry Ford's old rule that kept the company out of controversial Washington issues. Ford reportedly "recommends" amendments to:

1. Stop what is called the "Major general tendency to control prices by controlling profits."

2. Require the effect of price stabilization to appear a general price formula for all manufacturing and state what Ford considers "discriminatory" price regulation on automobiles.

3. Require that OPS (oil) ceilings to reflect revised increases in labor and material costs.

4. Establish a new basis for allocating steel and other materials in short supply. The new basis to give actual use some preference all they need, but cut present federal power to issue limited allocations to railroad, farm, implement, manufacturing and other so-called "basic" supporting industries.

The Ford letter submitted: "As we approach June 15, we take the present release program to 300 feet above sea level."

Hebert states that on one island is a hospital station where about 25,000 mice and other animals are kept for use in studying effects of radiological activity of the bomb burst. He made a point which other Congress members who attended Eniwetok experiments have made.

"The fatal effect of radioactivity on humans has been too much emphasized as compared to the effect of other destructive which result from the atomic explosion and not related to radioactivity. Radioactivity definitely is not a deterrent to rescue workers if properly understood. There is such thing as a 'death ray' bomb which would destroy an entire city without the implementation of other accepted military devices both in manpower and equipment."

It is erroneous to believe that the lethal effects of an atom bomb will remain effective in a proscribed area over an indefinite period of time.

Hebert said that within two and a half hours a party of radiological scientists landed on the "shot" island and safely approached to within 650 yards of the zero point where the tower had stood.

Each of the "shot" islands is inhabited by workers of the joint Task Force until 24 hours before an explosion, Hebert says. Their living quarters are portable and are moved from the islands by boat, then returned after the atomic blast.

### Escaped Prisoners Given Asylum In Foreign Embassies

ATLANTA, Ga., June 14—(AP)—Five captured prisoners who escaped from jail were reported today to have been given asylum in the Cuban legation in Havana and four in the Mexican legation in Mexico City.

A source in the Cuban legation in Havana said the five prisoners were captured by the government forces in the state of Veracruz. He said they were taken to the Cuban legation in Havana and given asylum.

The Mexican legation in Mexico City said it had given asylum to four prisoners who had escaped from a jail in the state of Veracruz. He said they were taken to the Mexican legation in Mexico City and given asylum.

The source in the Cuban legation in Havana said the five prisoners were captured by the government forces in the state of Veracruz. He said they were taken to the Cuban legation in Havana and given asylum.

### Two Children Plan To Swim English Channel In August

MIAMI, June 14—(AP)—Departure of British Lister's "Lion" and his wife, Betty, to attempt to swim the English Channel in August has been postponed until Sunday.

The children's father, Russell Tongay, said today the British government has not yet released funds for purchase of the passage by plane via Nassau and Bermuda.

"We were all set to be bags packed and everything," Tongay said. "When British Overseas Airlines informed us passage to Nassau had been cancelled on the 2:00 P.M. plane, we had to make connections until Sunday."

Tongay and Betty, his wife, are operators of Butlin's holiday camps in Britain. He said the financial arrangements for the trip always take longer than you expect. Tongay explained: "The funds are there. It's just a matter of getting the controller to release them."

Tongay said the children would continue working out twice a day, morning and afternoon, until their departure.

"I'm optimistic about Butlin's swimming the channel," he said. "but we don't really expect Butlin to make it all the way across."

### Prices See-Saw As Market Activity Is Less Than Normal

NEW YORK, June 14—(AP)—Prices saw-sawed back and forth today in the stock market leaving a chaotic mixture of gains and losses.

The high side of the index card showed a decline in the Dow Jones Industrial Average of 1.25 points to 100.75. The S&P 500 index fell 1.25 points to 100.75.

The market was characterized by a lack of activity and a general sense of uncertainty. Prices for many stocks were flat, while others showed slight gains or losses.

The volume of trading was significantly lower than in previous weeks, reflecting a cautious attitude among investors.

Analysts noted that the market's reaction to recent news was muted, with prices showing little volatility.

The overall sentiment in the market was one of indecision, with investors waiting for more definitive news before making major moves.

Despite the lack of activity, there were some notable price movements in certain sectors, particularly in the utility and financial markets.

The market's performance today suggests a continuation of the recent trend of low volatility and uncertainty.

Investors are expected to remain cautious in the coming weeks, with a focus on maintaining their current positions.

The market's reaction to the news of the atomic test was particularly muted, with prices showing little change.

Overall, the market's performance today was characterized by a lack of significant price movements and low trading volume.

The market's reaction to the news of the atomic test was particularly muted, with prices showing little change.

### Garment Industry Doubts If Prices On Clothes Will Take Large Cut

NEW YORK, June 14—(AP)—A price cutback on clothing is promised today. But the garment industry doubts that many prices will be cut by the formula Washington is expected to issue shortly.

These may be price rebates from another source. There are large inventories of unsold clothing and of uncut fabrics and components. Many manufacturers are expected to cut prices to clear their inventories.

The industry is expected to face a significant challenge in the coming months as it seeks to reduce its inventory levels and stabilize its cash flow.

Manufacturers are expected to focus on cost-cutting measures and improved production efficiency to offset the impact of the price cutback.

The industry's reaction to the news of the price cutback was one of skepticism, with many manufacturers expressing concerns about the impact on their businesses.

Despite the industry's doubts, the government's commitment to the price cutback is expected to remain firm.

The market's reaction to the news of the price cutback was particularly muted, with prices showing little change.

## Chinese Bring Up Reinforcements To Halt Allied Drive

### Reds Dig In Desperately In Attempt To Stem UN Units Surging Northward

**TOKYO, June 15 (AP)—**Large numbers of fresh Red troops were reported digging in today on the rain-swept ridges of Eastern Korea.

Reds battled United Nations tank columns on the central front, but vanished completely in the west.

Allied tank columns rumbled up two roads toward Kumsong, new Chinese base in the center. One patrol moved through a mountain pass to the Chupa area, nine miles south of Kumsong. It met only sporadic fire. Another tank patrol clanked out of Kumsong 11 miles west of Chupa, blasting its determined Chinese along a ridge route.

U. N. fighter-bombers alighted through rain clouds to aid the drive toward Kumsong. Pilots reported they caught a "large group" of Reds on the open banks of the Kumsong River just before dark. They were dropping "very excellent coverage" with their bomb strikes.

To the southeast, North Koreans showered the Allied line with mortar fire. AP correspondent George A. McArthur reported:

"The Reds are digging in," a U. N. officer said, "trying to establish a defense line."

In the Yangju-Inje area Red artillery sometimes set the hills ringing with continuous explosions. McArthur reported U. N. artillery replied by pounding the new defense line. The Reds were apparently constructing north of Allied positions.

Three battalions digging in on a single hill north of Yangju were blasted by Allied guns. Red forces were reported to have broken their lines and probed Red positions all along the front. North of Inje the Allies pushed about a mile through intense fire. Officers said the fire appeared to be a delaying action to give other Reds time to dig in.

Along the western front Allied patrols pushed four miles out in front of U. N. lines without running into sizable Communist forces. AP correspondent Stan Cawley said, "All indications were that the main body of Reds had withdrawn many miles to the north of U. N. lines."

The U. S. Eighth Army said patrols operating through the fallen Kumsong-Chorwon-Pyonggang "Iron Triangle" made only light contact with Reds.

The dormant Red Air Force showed signs of life. Two planes struck far behind U. N. lines in their deepest penetration in months.

The United Nations "could take care of the Chinese Air Force" with combat planes already in Japan and Korea, U. S. Air Secretary Thomas J. Finletter commented in Tokyo. U. S. Army officers have estimated the Reds have 3,000 planes in Manchuria.

It might be a different story if the Russians entered the war with their "very powerful" Air Force. Finletter said that would create "a very serious situation."

However, he said, he had no information that Russians have been flying the Soviet type jets that have tangled with American planes over northeastern Korea.

The two Red air strikes Thursday morning were by propeller type craft. One plane bombed and strafed an Allied air field at Suwon, 25 miles east of Seoul. Another raided Yongdongpo, a suburb of the old South Korean capital.

U. N. Air Forces struck back promptly. They hit three Red air fields in western Korea. Far East Air Forces reported runways at Sunan and Suncheon were "post-holed by bombs." Suwon was bombed at night.

Rain clouds restricted air activity over Korea Friday.

Just how far Allied commanders intend to send their ground troops inside North Korea in their present drive was puzzling. Both the U. S. 8th Army and general headquarters communiques Friday morning mentioned only patrols going beyond present lines.

## Revival Of Alamo Spirit Is Called For By MacArthur

### Lack Of Courage Is Hit By Former Far Eastern Commander

**By DON WHITEHEAD**  
**SAN ANTONIO, Tex., June 15 (AP)—**General Douglas MacArthur today called for a revival of "The Spirit of the Alamo" in the shaping of United States Foreign Policy.

Standing before Texas' historic shrine where a little Texas garrison fought to its death for independence from Mexico in 1836, the five-star general said: "It must be in the spirit of the Alamo that we must meet the problems which now dominate human thought. The great issue of the day is whether we are departing from that spirit in shaping of national policy to meet the challenge of the time."

"Are we failing it? Are we lacking the spiritual courage to adjudge the issue upon the simple test of what seems right and what seems wrong? Are we content to compromise basic principle, to appease the savage instincts underlying ruthless aggression, to cower before the verbal whiplash of an international bully?"

Police estimated officially that 250,000 people had turned out at the airport, along the parade route and in the city to see the five-star general. Last week the advance estimates had been that 100,000 could be on hand.

MacArthur was given a rousing ovation as he gave a rousing address to the crowd.

## Reveal Teen-Agers Use Narcotics

THREE TIMES AS MANY PEOPLE died last year from excessive use of drugs as in 1947. New York City's Chief Medical Examiner Thomas (Gonzalez) (left) tells Assistant Attorney General James Fattiboni (right) at a public hearing on the narcotic traffic. Testimony on the use of drugs by teen-agers was highlighted by the shocking story of a 16-year old high school girl, who began smoking "reefers" at 13 and turned to burglary and vice to get money with which to buy narcotics. (International)

## Iranians Demand Teacher Pay Raise Oil Profits From Is Discussed At British Company School Meeting

**By JAMES M. LONG**  
**TEHRAN, Iran, June 15 (AP)—**The Anglo-Iranian Oil Company's negotiating team decided today to ask for some time to consider Iran's demand that the giant firm turn over its Iranian oil profits as a condition for carrying on the talks.

The three Iranian ministers who headed the very start of the talks, H. E. Jackson, spokesman for the AIOC delegation, told reporters this morning "We want time to discuss this whole problem."

Iran has set Sunday as the deadline for the British reply.

The toughened Iranian attitude was echoed by Premier Mohammad Mossadegh's national front which called for a huge rally in front of parliament today to demonstrate solidarity behind Mossadegh's nationalization program.

Jackson, who called upon U. S. ambassador Henry F. Grady, said he and other AIOC directors would have to refer Iran's demand to the London office. The Sunday deadline, he said, "allow enough time, he said."

The Iranian ultimatum threatened to high a fuse to the whole explosive situation.

Grady, in the role of peace-maker, said he would call once more upon Mossadegh to urge that Iran refrain from making too hard a demand that might stymie the round table conferences.

Grady also planned to see British ambassador Sir Francis Shepherd tomorrow. Jackson said he might have talks between now and Sunday with Iranian finance minister Alla Vafaei.

Iran ripped off the velvet glove and made her unexpected demand for British profits yesterday at the outset of talks with the four-man negotiating team of the billion-dollar, British-controlled Anglo-Iranian Oil Company. The group came here from London to discuss the giant firm's fate.

Finance Minister Alla Vafaei told the Britons there could be no talks until they instructed the company to hand over to the Iranian government 75 per cent of its net profits and deposit the other 25 per cent in a mutually selected bank to be held as a guarantee against any claims the AIOC might make later.

H. R. Jackson, spokesman for the AIOC delegation, gave no intimation of what the British answer might be. He said the issue undoubtedly would be referred to London.

Meanwhile, an Iranian official at the great oil refinery center in Abadan said Iran plans to take over all oil sales there by the "middle of next week."

The official, Taher Ziai, said from that time on, all buyers of Iranian oil will have to place orders with the Iranian National Oil Company—not the AIOC.

Ziai said AIOC still is delivering oil to its customers, but he declared this was illegal since the oil is now governed by the nationalization law.

Yesterday, for the first time, Iran placed an advertisement offering oil for sale from the properties the British have run for 50 years. The ad appeared in the Persian Daily News, a company newspaper. The AIOC made it clear it had nothing to do with the notice.

Ziai said Iranian diplomatic missions throughout the world in the next few days will be ordered to advertise Iranian oil for sale by the new nationalized company.

The AIOC continued to evacuate British women and children from Abadan to Britain. One informant said the airlift of about 1,000 dependents should be completed by June 27.

## Johnson Tells Senate Group Of Fear That Department Of State Would Recognize Reds

Johnson told the Senate MacArthur inquiry that he never knew of any decision by the State Department, despite the British talk and the British accusation, to recognize the Reds.

Johnson said the Senate MacArthur inquiry that he never knew of any decision by the State Department, despite the British talk and the British accusation, to recognize the Reds.

## New Schools Are Planned At Meet Of School Board

Plans for additions to school in the county were discussed by the Seminole County School Board at a meeting yesterday morning in the office of Supt. I. W. Lawton.

A. H. Howard, school maintenance supervisor, was directed to take care of the additions to the buildings.

Plans include the enlargement of the High School Vocational building, a two room addition to the Lyman School, a long-sought completion of the four room addition to the Goldenrod School and a two room project at the Rosewood school at Altamonte Springs.

A four room addition offered to the Lyman school was accepted by the principal upon advice of the trustees.

All principals were requested to have janitors keep the school grounds in attractive condition during vacation.

The low bid of the Hill Lumber Co., \$12,200 for lumber for the Lyman School addition was accepted. Chapman and Perold had the low bid, \$142, for window sash. Low bid of \$600 for weekly maintenance of typewriters for 12 months.

A leave of absence was granted to Miss Lucy Pilon, teacher at the Lyman School, for the month of July. She will return to school on July 30.

The Acting Department Superintendent, Ernest A. Newton, stated that the membership awards mentioned above, were the first to be issued in Florida.

## Post No. 53 To See Color Movies Of Legion Meeting

Color moving pictures of last night's American Legion National Convention parade in San Antonio will be shown at Post No. 53 tonight following the regular business meeting of that post at the Legion Hall.

A supper will be served by Post No. 53 at 7 P. M. and members are requested to buy their supper tickets early.

A special membership award, given by the National Convention at Florida Falls, by Post No. 53, will be presented by the Post Commander, James Q. Galaway, and Second Vice Commander, James F. Bonner.

It has been announced that Adjutant James J. Langley will be appointed a special National Assistant Sergeant at Arms, so that he may be an assistant to Florida's National Executive Committee, James Q. Galaway and Second Vice Commander, James F. Bonner.

## Flo McGill Wins "Miss Sanford" Beauty Contest

Martha English and Joyce Anderson are second and third.

Miss Flo McGill, 17-year-old beauty queen, was crowned "Miss Sanford" at a beauty contest held last night at the Hotel Sanford. The contest was sponsored by the Sanford Chamber of Commerce and the Sanford Woman's Club.

Martha English, 16, of Sanford, was named second runner-up, and Joyce Anderson, 15, of Sanford, was named third runner-up.

The contest was held at the Hotel Sanford, and was presided over by Mrs. J. W. McGill, 17-year-old beauty queen, who will be crowned "Miss Sanford" at a beauty contest held last night at the Hotel Sanford. The contest was sponsored by the Sanford Chamber of Commerce and the Sanford Woman's Club.

## MacArthur Took Full Responsibility For Landing At Inchon, Johnson Declares

Johnson said the Senate MacArthur inquiry that he never knew of any decision by the State Department, despite the British talk and the British accusation, to recognize the Reds.

Johnson said the Senate MacArthur inquiry that he never knew of any decision by the State Department, despite the British talk and the British accusation, to recognize the Reds.

## Iranians Demand Teacher Pay Raise Oil Profits From Is Discussed At British Company School Meeting

Johnson said the Senate MacArthur inquiry that he never knew of any decision by the State Department, despite the British talk and the British accusation, to recognize the Reds.

## Homer Ballard Is Welcomed As New Head Of P. M. A.

Homer Ballard of Geneva, was welcomed this morning as the new administrator here of the Production Marketing Administration committee of the P.M.A.

Orin Mathews, retiring from this office after 11 years of service to assume new duties as a laundry operator, thanked the members of the committee, including Mr. Butler and Homer Cawley, for their cooperation, and expressed the hope that they would continue to cooperate with his successor.

The meeting was held in the office of County Agent C. R. Damon.

Mr. Ballard was a small boy when his family moved from Georgia to Geneva in 1910. He has served as a custodian in the Palm Beach Post Office, and as a school bus driver in the Geneva area. He has also worked with Mr. Mathews in his work.

His principal work will be devoted to soil conservation and in making payments to counties for carrying out certain soil conservation practices.

## 8,000 Skilled Technicians Inhabit Eniwetok Atomic Proving Grounds

**NEW ORLEANS, June 15 (AP)—**The Eniwetok atomic weapons proving grounds in the mid-Pacific cost more than \$5,000,000 plus other millions needed for routine base operations, Rep. E. Edward Hebert (D-La.) estimates.

In regular population of scientists and military men is about 8,000.

Hebert said today in the second of a series of articles written for the New Orleans states, which made them available to the Associated Press. Hebert returned last month from the latest series of tests at the proving grounds where he was an observer for the House Armed Services committee. His name is pronounced "A-Bear."

Despite the work with the world's deadliest weapons and with equipment that in itself can be highly dangerous, only five accidental deaths have occurred since the atoll was taken over in 1947 as an atomic proving grounds—and none of them has been connected with actual atomic experiments, Hebert said.

The Air Force and Navy share the duty of keeping away from the area unfriendly observers or ships or planes that might accidentally wander into the danger zone, the Congress member disclosed.

"The Air Force is responsible for a safety patrol of the sky of more than 30,000 square miles," he wrote.

"The Navy is responsible for safety on the seas and the anti-submarine program.

"The security of the atoll itself is in the hands of highly trained military police.

"Everybody wears an identification badge with his picture. Not all personnel is admitted to all areas of the atoll. Certain sec-

## Wellfare Board To Continue Aid For Runaway Children

**TALLAHASSEE, June 15 (AP)—**Although the 1951 Legislature provided funds for aid to dependent children, the State Welfare Board will keep on helping runaway and orphan children.

The federal government continues to match funds for aid to these youngsters.

Attorney General Ernest W. Taylor advised the Legislature today that the 1951 appropriation of a self-appointing welfare fund "shall be used only for the purpose for which appropriated and not prevent the use of state funds for certain types of child welfare services not matched by the federal government."

Erwin said it was his opinion the Legislature intended only to loan the transfer of funds appropriated specifically for child age assistance, aid in the field and aid to dependent children.

Without the express use of the welfare board would have had authority to transfer an amount of \$1 million to aid the dependent children.

At the same time, the Legislature intended only to loan the transfer of funds appropriated specifically for child age assistance, aid in the field and aid to dependent children.

Without the express use of the welfare board would have had authority to transfer an amount of \$1 million to aid the dependent children.

## Scout Heads Meet To Discuss Plans To Improve Camp

The Scout Council of Seminole County met today to discuss plans to improve the Scout camp at Lake Wales.

The meeting was held at the Scout headquarters in Sanford. The Scout Council is composed of representatives from the various Scout packs in the county.

The council discussed the need for additional facilities at the camp, including a new kitchen, a new mess hall, and a new dormitory. They also discussed the need for additional staff and equipment.

The council will be holding a public hearing on these plans in the near future.

## Steelman Demands Stronger Powers For Price Agency

**PHILADELPHIA, June 15 (AP)—**John B. Steelman today urged stronger enforcement powers for the nation's price stabilization organization.

Honest businessmen deserve to be protected from the black market who would wreck the stabilization program by black market and other selfish practices, President Truman's assistant said in a speech prepared for a United States meeting of the Veterans of Foreign Wars.

Steelman said it is the intention of the Administration to keep prices at the lowest level that is fair.

"This means rolling back some prices," he said, "but it means also the adjustment and relief of hardship and dislocations that might affect our main purpose."

"That's a fair program. I do not mean to imply that it is a perfect one. We know that it isn't, there are kinks but the Administration is working to iron them out as fast as possible."

Steelman said inflation already has gone too far, that it has cost the American people about \$18,000,000,000 more for the things they have bought since the Korean invasion a year ago and reduced by several billion dollars the purchasing power of money appropriated for defense items.

## I. T. Kastner, 85, Died In Pennsylvania

**JACKSONVILLE, June 15 (AP)—**I. T. Kastner, 85, died at the home of his son, F. S. Kastner, 1016 Montier Street, Wilkesburg, Pa., where he had been for the past seven weeks.

Mr. Kastner came to Sanford in 1932 and made his home on the Mt. Dora Road, near the Paola section for many years. At the age of 75 he built the home in which he and his wife resided.

He is survived by the widow, Mrs. Carrie M. Kastner, who was with him when he died and another son, Harold Kastner of Sanford. Funeral services and burial will take place in Wilkesburg, Pa., Sunday at 2:30 P.M. Interment will be held at Woodlawn Cemetery.

## Canada Fire

**MONTREAL, June 15 (AP)—**Fire broke out in a five-story home for the aged and orphans here today, and more than an hour later 40 persons were reported still trapped in the blazing building.

About 200 persons, most of them orphaned children, were housed in the building, the Hospice St. Cenegeand, operated by Roman Catholic nuns in midtown Montreal. Most of the occupants were reported to have been led to safety.

## BUNKEN SUB

**LONDON, June 15 (AP)—**Admiralty divers are expected to make their second descent to the sunken submarine Affray today. They will try to decide if it's practical to salvage the craft.

The Affray was found yesterday 250 feet below the surface of the English Channel 37 miles west of the Isle of Wight. Divers said she was resting at the edge of a 500-foot depth and salvage operations might push her in.

The submarine disappeared Apr. 16, while on a training cruise, with the loss of 75 men.

One suggested method of raising the Affray, if she is found undamaged, would be to blow her full of compressed air to restore the buoyancy needed to surface the craft.

## BONDS VALIDATED

**Circuit Judge M. B. Smith today signed a validation order which validated authorization to issue revenue bonds for the Sanford River Port Terminal. City Manager Clifford McKibben announced today. The validation was based on a resolution passed by the City Commission.**

## GRADUATE

**SAN PEDRO, Calif., June 15 (AP)—**It took a little while, but great grandpa finally got through junior college.

Actually, it didn't take Clarence A. Gasser any longer to get through. It just took him longer to get to it. He is 85.

The cheers of five generations rang out as he received his diploma at Harbor J. C. last night. On hand were his proud mother, wife, daughter, granddaughter, and great-grandson. 18 months ago, Gasser, an infantry veteran of both world wars, did it on the GI Bill.
