

AMERICAN SUB CHASERS ARRIVE IN BRITISH WATERS WILL GET RESULTS SOON

APPEARANCE OF AMERICAN FLOTTILLA CAUSE REJOICING IN ENGLAND

Queenstown, May 16.—A squadron of American torpedo boat destroyers has safely crossed the Atlantic and is patrolling the seas in war service.

The American Navy's actual entry into the war zone has already been productive of a brush between a destroyer and a German underwater boat, according to an announcement by the British Admiralty, but the result of it has not been made public.

The destroyer squadron arrived in Queenstown after an uneventful voyage across the Atlantic, but almost immediately after a formal exchange of greetings with the British fleet, they set to sea in search of the work that is before them.

A crowd of several hundred persons, some of them carrying the American flag, lined the waterfront and cheered the destroyers from the moment they first sighted the flotilla until it reached the dock. The crowd cheered again when a few moments later the American destroyers were seen to arrive.

Washington, May 16.—Formal announcement that American destroyers manned by picked crews have carried the flag into the war zones of Europe and are operating against German submarines with British and French war vessels was made tonight by Secretary Daniels after the news had come from London. The number and names of the vessels were not disclosed. It was made clear, however, that the fighting power of the nation was to be exerted to its utmost to stamp out the U-boat menace.

The secretary's statement in part follows: "United States naval vessels have been operating with the allied naval forces in European waters since May 4th. A number of destroyers sailed from American ports in the latter part of April and all arrived at their destination without accident or delay of any kind.

"The United States vessels are under command of Rear-Admiral Sims, who went to England and France several weeks ago to arrange for active cooperation between the naval forces of the United States and those of the other nations at war with Germany. Plans formulated after reports from Rear-Admiral Sims, made as a result of his conferences with the British and French Admiralties, are now being effectuated.

"It has been the purpose of the United States navy to give the largest measure of assistance to the other countries at war with Germany that is consistent with the full and complete protection of our own coasts and territorial waters."

Washington, May 16.—The British Admiralty's announcement that an American squadron had arrived in British waters was received by the Navy Department here today, which officially confirmed the report that American destroyers were in the war zone, but made public no information. The destroyers are in command of Rear-Admiral Sims, who is directing their operations in conference with the heads of the British and French navies.

War News Summary
The physical participation of the United States in the war is a reality. American torpedo boat destroyers, well groomed for their task and their officers and men enthusiastic in their quest are patrolling the Eastern Asiatic searching for German submarines which have wrought such disaster to shipping and been the cause, in their nefarious practice of sinking boats unwarned, of sending hundreds of Americans to their death.

Between Gavrelle and the Scarpe river in France, the German forces have made much extraordinary counter attacks against positions taken from them recently by Field Marshal Haig's men, but when the British inflicted a crushing loss on them, they had their ground. At one point by numerically superior forces, the Germans made the British take back, returning the fray, the British immediately repulsed the Germans and captured the line terrain.

Likewise on the Aisne sector held by the French the Germans threw in large forces in an endeavor to push back the line. At several places the French line bent, under the pressure of the German attack, but they were able to hold the line.

launched brilliant counter attacks and drove the Germans back to their original positions. The British, in their turn, have been successful in capturing several strategic points, including the village of Zagona and Zagonilla and many other small villages.

Both in Mesopotamia and in Macedonia successes for the Entente Allies are recorded. In the latter theatre the British in the Lake Doiran region have captured 5,000 yards of enemy trenches to a depth of 500 yards and in the Struma sectors, another front of trenches 3,000 yards.

Washington, May 16.—Reorganization of the Russian cabinet was regarded here both as increasing the power of the radicals and as looking forward to a great degree of unity. It is generally felt that the coming into power of the radical party is more desirable than a situation where the power was divided between radicals and moderates with both powerless practically to act.

The resignation of Foreign Minister Miliukof is demanded as the price demanded by the radicals as the price demanded by the government for their cooperation with the government. M. Miliukof incurred much unpopularity when he pledged Russia, without consulting the radicals, not to make a separate peace. He has also been unpopular in some quarters for his vigorous insistence that Russia be given Constantinople, which was regarded in conflict with the non-annexation pronouncement.

The resignation of many military officers is regarded as vastly more dangerous than the political shifting of power, as the whole discipline and morale of the army may be affected.

Regret was expressed that former Minister Guchkoff was not retained in the new government as he is considered one of Russia's strongest men who had resigned merely to force the issue.

TO THE SANFORD SCHOOLS

An Invitation to Attend the First Methodist Church on Next Sunday Evening

The First Methodist church of this city desires the pleasure of the presence of the Sanford Schools, their faculties and students with their parents in the evening service, Sunday, May 20th, 1917.

The pastor, Rev. F. E. Steinmeyer has prepared a sermon talk for the graduates of the Grammar and High School for this year. The subject of this is "The Value of a Good Beginning."

A specially prepared musical number will be rendered.

All friends of the graduates and the schools are cordially invited to be present.

The hour for the service is 7:30.

FIRST SHOT OF THE WAR HOW FIRED

LEUTENANT WARE TELLS OF EXPERIENCE WITH SUBMARINE

New York, N.Y., May 17.—Capt. W. H. Ware, U.S.N., of the United States Navy, who has an epaulettes of gold which had an encounter with a German U-boat, following the declaration of war between the United States and Germany, was the guest of honor at a banquet here last night. Lt. Bruce R. Ware, Jr., commander of the United States naval gunners' school, presided. The story of how the Monitor fired the first shot of the war for the United States was told by Lt. Ware.

"I joined the crew of the monitor in my transmitter for the gun crew to man No. 3 gun and train on the starboard quarter. The answer came back from the gun crew: 'We sight her water, contact, I shouted and then I gave the range 1,000 yards, order 50.' "We saw the thin smoky oil coming to the surface in slow bubbles and suddenly a periscope appeared."

"Fire at will," I cried, and suddenly the darkened six inch shell hurled forth from the muzzle of the six inch gun preceded by a puff of smoke and struck the water six inches from the periscope.

"I saw that shell plow through the water six inches from the periscope and shatter that slim object. End over and hurled the periscope, the smoke rising to the surface while the gun crew jumped up and down shouting, 'Hurrah! We've got her!'"

"Again came the cry through my transmitter, 'we sighted her again, shall we fire?'"

"I shouted, 'No, it's all over.'"

Opens Auto Salesrooms.

W. A. Stringfellow, the popular salesman for the Overland and Willys-Knight and Chandler cars has opened a salesroom in the store on First and Oak formerly occupied by the Hill Hardware Co., and will keep a supply of new cars and auto accessories on hand at all times. Will Stringfellow has made an enviable reputation in the automobile business and the fact that he will have headquarters here and a salesroom is good news to his many friends. The Overland cars are very popular in this territory and a personal representative will cover the territory as it should be covered.

Fred Williams Accepted

On April 19 and 20, I was examined for a commission in Engineer Officers' Reserve Corps. I have received word from Washington that I have been recommended for a commission as First Lieutenant and requested to report at Ft. McPherson not later than May 13th.

I leave tomorrow and in leaving am turning my engineer work over to Mr. A. H. Stone who will continue the work under my name until I return.

I am lame unfortunately at this time and what disposition will be made of me at Ft. McPherson remains to be seen. However, think the lameness only temporary.

Your issue of May 8 (Sanford Herald) stated that I had gone to Ft. Oglethorpe. In reference to same will state that I first received orders to report at Ft. Oglethorpe on the 8th and said orders were changed to report at Ft. McPherson not later than the 13th.

Yours very truly,
Fred T. Williams.

REGISTRATION CONSCRIPTION BEGINS SOON

BILL ADOPTED BY HOUSE GIVES MORE MONEY TO SOLDIERS

Washington, May 15.—The congressional bill on the war army bill was adopted by the house without a record vote late today, after Representative Deat had announced that the senate conference committee had agreed to the house proposal increasing the pay of listed men. Final action must be taken by the senate.

The section regarding pay agreed to provides that all officers and enlisted men of the forces to be raised by conscription shall have the same pay, allowances and privileges as the regular army.

Plans for beginning registration of these subject to draft have been completed by the War Department, and it was announced tonight that immediately upon signature of the bill by the President, the Department will outline the procedure to be followed in bringing the National Guard into the Federal service. Secretary of War Baker said the state regiments would not be ordered to disband or army concentration camps except where a state division exists, until all preparations are made at the camp sites for their reception.

Guard regiments now in the Federal service may be retained temporarily at their present local camps and other units also may be sent to state or local camps for a time, but eventually the force will be gathered in big camps where divisional or even army camp training can proceed.

Estimates are being prepared and tentative contracts made for the supplying of approximately 600,000 men in this first force to be composed of regulars and National Guard. The estimates are based on a three-month period, however, subject to extension as the force increases. All of these preparations must be completed and the armies be well advanced in training before the first 500,000 men selected under the draft bill are called to the colors.

BIG MILL DESTROYED

Overstreet Crate Co. at Lockhart Goes Up In Smoke

Set by a fire fiend the Overstreet Crate Co., one of central Florida's leading industry was wiped out at an early hour Sunday morning, causing a damage of at least \$150,000, and is still burning, the ravaging flames threatening to lick from the map the dwellings on the south side of the highway.

The fire was discovered by a night watchman in the northeast corner of the mill proper. The hose from the water tank had no pressure and the wind fanned the fire into a raging torrent, the flames leaping hundreds of feet into the air.

No lives were lost. No one was injured. The town was owned practically by the company composed of M. O. Overstreet, Benj. Drew, Judge Warlow and Mr. Entzinger, all of Orlando, with a few small stockholders. About one third is covered by insurance. If the fire spreads the

RUSSIAN CRISIS IS OVER ARMY WILL GET BUSY WITH A PEOPLE UNITED NOW

NEW MINISTER OF WAR SAID TO BE POPULAR WITH ARMY

The Russian people as a whole seem to have patched up their differences and while Germany still has hopes of keeping them from crowding the eastern front, the entente allies believe that the Russian people will demand the army start a great offensive that will bring Germans from the Hindenburg line and relieve the pressure in the west from the English and French lines. The entente allies also believe that the American delegation that will soon leave for Russia will have great influence with the people of that country and it is felt that they will do much to bring about a peace settlement.

The normal working force of the mill is 250, but for the last few days only 150 had been employed owing to lack of fuel. The population of the town is estimated at about four hundred.

It was a great relief to see the blaze in the east of mill. I hope the fire department rushed to the scene with a new engine and drew water from a nearby lake which will probably save the warehouse, dry goods and part of the saw mill. Thousands of dollars worth of finished boxes and crates awaiting the market went up in smoke. Even the water tank burned. There were hundreds of refugees mostly negroes, although thirty families are white and may need the help of the public.

The fire department rushed to the scene with a new engine and drew water from a nearby lake which will probably save the warehouse, dry goods and part of the saw mill.

Oliver Vickery, in police court this morning, inasmuch as Daisy had forfeited her bond and could not appear, owing to other matters more important, the name Daisy Jones went on the blotter and the \$5.00 bond went into the city treasury.

Kissimmee Class Visits

The Wesley Brotherhood Class of the M. E. church were honored on Sunday, the 6th, by a visit by the entire membership of the Baraca class from Kissimmee, headed by Paul Weaver as teacher and A. W. Gustus as president, both well known here.

The visitors to the number of twenty-three came up by automobiles, returning in the afternoon. They expressed themselves as delighted with the visit and the class and especially the excellent manner in which Dr. L. R. Phillips, the teacher handles his class and the Scripture lessons.

The Kissimmee boys extended an invitation to the Sanford Class to visit them at an early date, which invitation will doubtless be accepted.

Those coming up from Kissimmee were: Paul K. Weaver, A. W. Gustus, Stanley Bullock, Bert Wells, Ralph Turner, Chas. L. Persons, W. J. Lancaster, Prator Gilbert, Elmo Griffin, C. Bronson, W. M. Tiller, C. L. Payne, Earl Cowger, W. C. Bass, Jr., Dewey Sumner, Wm. Arnold, Murray Overstreet, G. P. Garrett, C. Lester, J. Oliver, John Graham, Ted Eaty and H. Woodal.

Improving DeForest Property

Mrs. DeForest is making extensive improvements in her First street business property. The three store rooms occupied by Crowder, Irwin and the vacant store room between are being improved by the tearing out of the old awning and a new one of the latest swing type will be built. This will prove of great value not only in appearance but in the added light to the stores. The vacant store will also have a new floor new front and many other repairs made on the interior. Mrs. DeForest has also made many improvements on her Sanford avenue business property building three new and up to date stores and tearing out all the small houses on Second street between Sanford and Palmetto avenues which is one of the greatest improvements that could be made in that part of the city.

Among The Theatres

"The Shine Girl"
 Kathryn Adams, who plays in support of Gladys Hulette in the Pathe Gold Rooster Play, "The Shine Girl", which Manager Lane of the Lyric Theatre will present, on Wednesday was born in St. Louis and educated in that city. She came to New York to take vocal training. Her first stage experience was in "Louisiana Lou," a musical comedy in which she toured the south.

Her first film appearance was as "the lady that's known as Lou" in Metro's "Shooting of Dan McGrew." She also was with Fox, World, Famous Players, Terra and Solax, before she joined Thanhouser.

Miss Adams is 5 feet 7 inches tall, weighs 130 pounds and has blonde hair. She has a splendid voice and was on the road to a successful musical career when she decided she wanted to become a motion picture star. She is an expert chauffeur and horsewoman. On her vacation recently she drove a trolley for twenty miles through the Catskill mountains. Miss Adams has an important part in "The Shine Girl."

Really remarkable snow scenes are one of the beauty features of the newest World Picture Brady Made which bears the title of the "Page Mystery." It is not surprising that the snow scenes are remarkably beautiful for they were filmed in the Adirondacks where the company went especially for the purpose. "The Page Mystery" will be the great attraction at the Lyric Theatre on Friday.

Board of Trade
 At a special meeting of the governors of the Board of Trade, the Bryan Bill, No. 461, was brought to the attention of County Agent, Berry and has to do with a law that will give the buyer a better class of fertilizer and insecticides and at less money. The meeting resulted in the following telegrams:

Sanford, Fla., May 11, 1917
 Hon. Geo. W. Crawford,
 Hon. E. L. Woodruff,
 Tallahassee.

We respectfully urge your influ-

State of Florida, County of Seminole: I, A. R. Key, Cashier of the above-named Bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.

Witness my hand and the Seal of said Bank at Sanford, Fla. this 11th day of May, 1917.

A. R. KEY, Cashier

T. W. L. Lake, N. H. Gosner, Directors

Subscribed and sworn to before me this 11th day of May 1917.

C. L. Hitt, Notary Public
 My commission expires Oct. 9, 1918

ence in the passage of Bryan Bill, No. 461. The passage of this bill means much indeed to the users of fertilizers and insecticides. Producers solicit your help through this organization.

Sanford Board of Trade.

A seventy thousand dollar post-office.
 A modern seventy room hotel.
 An up to date apartment house.
 A boat building industry and boat yard.

All to occupy the attention of Sanford and be constructed this summer. There will be work for every one and several thousand dollars in circulation to offset the usual dull summer.

Knock the man that knocks Sanford. His Honor, Mayor Davison says that if ever a man appears in his court charged with knocking his home town, it's ninety years in Siberia.

Tampa Truisms, edited by Secretary Dickie, of the Board of Trade, advocates "keep business normal." From the way Tampa is forging ahead of late, the admonition cannot be lived up to because normal business has been outstripped by bustling progressiveness in Tampa already.

Commanding Officer Herring of the Home Guard has finally selected his non-coms and everything is lined up for drill work. To our surprise some of what we would call the leading lights and who we expected would shine elaborate in shoulder straps or at least non-coms have been prominently selected to a pair on the commanding officer's roster labelled "Ivory Squad" and according to the files we mean the captain, the following fifth class privates will not be safe to turn loose on the innocent public for at least eleven years:

- Miserably Private—R. J. Holly
- Ordinarily Private—J. D. Davison
- Decidably Private—P. M. Elder
- Unmistakably Private—Norris Lewis
- Hopelessly Private—E. F. Dutton
- Futifully Private—C. E. Henry
- Woefully Private—Forrest Lake
- Surprisingly Private—W. M. Haynes
- Awkwardly Private—B. F. Whitner
- Naturally Private—C. R. Walker
- Emphatically Private—A. P. Connelly
- Unfortunately Private—A. R. Key
- Elegantly Private—R. W. Herndon
- Ignorantly Private—R. C. Bower
- Tearfully Private—Geo. Hyman
- Exquisitely Private—J. J. Dickerson
- Souffly Private—J. D. Jenkins
- Fearfully Private—H. R. Stevens
- R gettfully Private—C. L. Goodhue
- Simply Private—D. C. Marlowe

The company consists of seventy-five officers and the above twenty privates. Outside of the capt in the lowest office is brigadier colonel and there are nine of these. It is sad to think that the famous Ivory Squad will have to pack their kit and hooks' loads, every time big officers like Foster, Taylor, McCuller, Teshum, Linger, Chamber, Duns, Rat H. Perkins, Turner, D-Cotter, Powers, You'll, of every call a halt so the captain general can set his bunch of big browns up to bone dry pinhead sundries. Germany, you better dig out.

Respectfully submitted,
 Schelle Malina,
 Commanding Kumquat I V.,
 C. O. D. P. H. D., S. O. S., D. V. D

More tourists from Michigan arrived Sunday and will be in Sanford a few days.

Mr. and Mrs. T. S. Huff have decided to stay in Sanford the year 'round. Good news.

A free bridge across the river at Osteen Ferry is being advocated by the Board of Trade, and the movement has the support of all progressive citizens. The county commissioners, through a committee are now investigating. Make all roads lead to Sanford.

It is to your advantage to become a member of the Board of Trade. The organization is a commercial union, planned and operated to benefit you and your interest. Bring more business and more money to your county, enhance the value of your holdings and your city and county in the progressive rank of such places as Miami, St. Petersburg, Ft. Myers, Orlando. Say what you will, but we must tip our hats to these places. Ask them how it happens that they are what they are and unhesitatingly they answer, through our Board of Trade.

 Office: In Herald Building Telephone No. 149

We hope the country people will attend the market in Sanford, especially upon Saturdays and bring in their produce and sell it from the wagon. This market is for the farmers.

Seminole county demands of Senator Trammell, Congressman Sears and Senator Fletcher the assurance that they will lend their efforts and support toward government control of food prices and if these gentlemen do not get busy on this question they will hear from this county and every other county in the state.

Sanford needs a milk inspection ordinance, an ordinance to make cars use dimmers on the glaring headlights, an ordinance causing all dogs that roam the streets to wear muzzles, an enforcement of the dog tax, a crusade on the English sparrow and a crusade on the mosquito. All these measures are needed at once before the summer is upon us.

The Herald does not mind making the government an increased percentage rate for war taxes. We are willing to do our bit and if the rate is increased we expect the public to do their bit by paying up promptly in subscriptions and the advertiser doing more advertising. If we can get the business the tax will not be felt.

And while the newspapers are paying an increased tax into the government, the government must not neglect the newspaper. The newspaper wants space in the Herald for assisting in recruiting and in any other way the government can see fit. The regular advertising rates which will help the Herald to pay the increased rate.

The Herald says that Sanford needs a cannery. "Starke" people thought the same thing and they built a cannery and used it to preserve their surplus beans and peas. We understand the cannery is not in operation. Other towns have similar machinery that might have proved profitable had the producers of vegetables been willing to sell their crops at a price the cannery could afford to pay. Apalachicola operates four canneries and the owners know from experience that they must meet Baltimore prices if they find a market for their products. Let Sanford profit from the experience of others.—Apalachicola Times.

Congressman Clark voted against the President's selective draft bill, and Congressman Sears, an usual voted likewise. A careful perusal of the record of Congressman Sears leads to the belief that the same result would be obtained by giving Congressman Clark two votes and saving Congressman Sears' salary.—Daytona Journal.

Well, we will forgive both of them if they will represent the people and vote for government food control and against the trusts who are trying to corner the food market. This question will decide who represents the people and who the trusts.

The Sanford Herald is receiving well deserved compliments over the turning out of an illustrated folder advertising Sanford and Seminole county. The text matter is convincing and well prepared and the illustrations back up just what the word pictures reveal about this favored region of sunny Florida. The issuing of such a valuable booklet ought to bring to Seminole a desirable class of settlers and the consequent increasing of the acreage in celery and other crops for which Sanford is famous.—St. Augustine Record.

AFTER JOE SEARS
 Already the candidates are thinking of running for congress in the Fourth and J. Fred DeBerry expects to shy his castor in the ring first. Fred was in Sanford this week and made the announcement that he expected to make his future home in Miami and would be in the race for congress from the fourth and expected to make an active campaign this summer. Fred is some campaigner and he knows how to get over the district as he has been a candidate in the First District for congress and knows the ropes. We cannot give Fred or any other candidate support until we find out about our home candidates as it is almost certain that Sanford will have a candidate for congress and that he will win if he goes into the race.

FLAG DISPLAY
 In order to show patriotism of thought and to incite the hearty support of the President in his course in this great world war, the American flag is being displayed liberally throughout our city. Our flag, however, is more than a piece of hunting. It is an emblem of our Government and its principles, and as such an emblem our flag should be treated with reverence.

1. Our flag should never be used as a cover for a table or a desk, or as a pocket square. 2. It should not be used to shade windows. 3. It should be so placed that the speakers or those occupying the platform would be above the flag. If used about a platform it should be hung above the platform so that it would be above those occupying the platform. The flag must be above the speaker.

3. Our flag should never be draped or festooned, however attractively the colors may lend themselves to such effect. If draping or festooning effects are desired they should be made with red, white and blue hunting. When using hunting the red should be on top, the white should follow, and the blue should be below.

4. Of course, every one knows that, in flying our flag the union should be up. If our flag is not down from a mast or staff it should be so hung that the union is to the north or east as the case may be; the union should not be to the west or south.

WHAT SELECTIVE MEANS

The Boston Transcript, in a recent edition, published a most interesting letter written by President Woodrow Wilson to Representative Helvering of Kansas, in which he explained very fully and clearly what is meant by the selective draft. It is true that comparatively few people have a very definite idea of what is meant by the draft system as outlined by the President, and which forms a most important clause in the Army Bill recently adopted by congress and which is now receiving consideration as to the settlement of minor details by conferees from the senate and house of representatives. President Wilson's own words on the subject are well worth careful reading, and for that reason they are reproduced herewith:

letter of April 19, because I have realized the truth of what you say from my own observations, namely, that what is meant to be understood by the selective draft is not generally understood throughout the country.

"The process of the draft is, I think, very clearly set forth in the bill drafted by the War Department and which I so earnestly hope the congress will adopt, but it is worth while to state the idea which underlies the bill a little more fully. I took occasion the other day in an address to the people of the country to point out the many forms of patriotic service that were open to them and to emphasize the fact that the military part of the service was by means the only part, and perhaps, all things considered, not the most vital part. Our object is a mobilization of all the productive and active forces of the nation and their development to the highest point of co-operation and efficiency and the idea of the selective draft is that those should be chosen for service in the army who can be most readily spared from the prosecution of the other activities which the country must devote a great deal of its best energy and capacity.

"The volunteer system does not do this. When men choose themselves, they sometimes choose without due regard to their other responsibilities. Men may come from the farms or from the mines or from the factories or centers of business who ought not to come, but ought to stand back of the armies in the field and see that they get everything they need and that the people of the country are sustained in the meantime.

"The principle of the selective draft, in short, has at its heart this idea, that there is a universal obligation to serve and that a public authority should choose those upon whom the obligation of military service shall rest and also in a sense choose those who shall do the rest of the nation's work. The bill, if adopted, will do more, I believe, than any other single instrumentality to create the impression of universal service in the army and out of it, and properly administered will be a great stimulation. Those who feel that we are turning away altogether from the voluntary principle seem to forget that some 600,000 men will be needed to fill the ranks of the Regular Army and the National Guard and that a very great part of that total must come from the ranks of those who are not in the service.

MACK EXONERATED

Continued from page 1
 Mack's resignation was the only one discussed and the real facts in the case laid before the house, the members of Mack's party had to lead the journal gently back where they put it. The Times' action is likewise billed for a new little retraction as a good still liked suit, if rumors are well founded.

The facts in the case are that the members of the legislature who voted to cut off Mack's pay because he was absent, adjourned the legislature last Friday to attend a picnic at Waukuilla Springs Saturday and did not convene again until Monday afternoon. It would be interesting to know how many of them refused to draw their pay for this time during which they rendered no service to the state. Some of the legislators were very indignant because a man holding a petty clerkship was absent without leave for a day, notwithstanding Mack had appointed a substitute to take his place and discharge his duties for him. These blatant champions of the down trodden taxpayers should refuse pay for time they waste in useless wind jamming and pleasure junketing if they would be consistent.

Bryan Mack labored Sunday and until after midnight Sunday night getting the committee work in shape to be absent Monday. Having secured a competent substitute to attend to any matters that might arise during his absence, he left his work that night and caught a train to Jacksonville there to offer his services in defense of his country and take a military examination. The latter delayed him until Tuesday, but he wired the fact to his committee, and returned in due time with his certificate of examination. Imagine his chagrin when he learned of his dismissal without inquiry as to the cause of his absence.
 "Be it said to the credit of the house of representatives that it was quick to rescind its action and repair the injury done, when the facts in the case were done before it. Those responsible for Mr. Mack's

WAR SITUATION
VERY CRITICAL
 Continued from page 1

allies, it might be "that no blow would seem to (go) to Germany as if one of her big allies were detached from the fight."
 On the front in France, the British, after days of fierce fighting, have taken in its entirety from the Germans the village of Reoux, to the east of Arras and north of Gavrelle, and have pushed their line forward. No infantry engagements have taken place between the French and the Germans, but their artilleries are still roaring in the great duels which always are the forerunners of attacks.

For Whooping Cough.
 The painful attacks which mark this disease can often be relieved by breathing the fumes of turpentine and carbolic acid.

One Experience Convinced Me of its Value

"One of our salesmen demonstrated the value of the Long Distance Telephone to us. He was at Huntsville, Ala., and upon his own responsibility put in Long Distance calls for fifteen merchants within a radius of several hundred miles."

"In less than one hour he had sold 2100 barrels of flour at a total cost to us of less than six dollars."

"Since then we have applied the Long Distance Bell Telephone to every feature of our business with most profitable results. The service is fine, the rates are reasonable and there is more satisfaction in one Long Distance Telephone talk than in half a dozen letters."

Every Bell Telephone is a Long Distance Station

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY

Since he drilled a school boy' army
In a truly martial style.
But now he's a man, a soldier,
And we lend him listening ear,
For his heart is a heart all loyal,
Unscourged by the curses of fear.
His dad, when we told him, shud-
dered,
His mother—God bless her—cried:
Yet, blest with a mother nature,
She wept with a mother-pride.
But he, who old soldiers straightened
Was Grandad—for memory ran
To years when he, too, a boy
Was changed by the flag to a
man!
—W. M. Henschell, in Indianapolis
News.

No, Pauline, L. P. McCuller did
not get married to escape conscrip-
tion: He is too old to be conscripted
but Mac is a member of the Home
Guard and will go if the war lasts
long enough. And by the way, Mac
would make a good commissary
sergeant for Uncle Sam.

I knew it would happen in Tam-
pa. See by the papers that a young
lady fell down there and broke her
ukelele.

Well, if the worst comes to
weinerworst we can eat English
sparrows. I just know that Rung
will take delight in killing them
and Buch will can them.

There is no need for the young
men to be afraid of the selective
conscription in Seminole county.
This county will be called upon to
furnish about seventy five on the
first call and the names will be pulled
from the list just as jurymen are
chosen. If they have a reasonable
excuse they will not have to serve.

Well, if I wait long enough all
things will come to me and just
when it looked like Sanford would
never wake up to the roof of a
cigar, the idea is brought out
and so you see this week we will
give it a trial. Of course it takes
time to make a decision, the farmer
and his vegetable dealer,
Mr. Farmer bring your vegetables
to town on these days and Mr. City
Man, go down to the market on
market days and get your vegeta-
bles. This is one way to cut down
the high cost of living, minimize
waste and make Sanford a trading
center.

The State Board of Health has
sent out a warning that rabies exist
in Florida and every city in the
state is preparing or has already
passed an ordinance forbidding owners
of dogs to muzzle the same. The
police of Jacksonville are shooting
all the dogs that are running at
large on the streets and other places
are locking after the welfare of the
citizens. All but Sanford and this
city has mere dogs loose on the
streets to the square inch than any
other city in the state. The dogs
here seem to be favored by the city
officials and when one of the dogs
gets the rabies which they are bound
to do and bite some of the children
it will be too late to talk of killing
the dogs or muzzling them. No dog
should be allowed upon the streets
during the summer months without
a muzzle, especially right now when
rabies are prevalent. Our city
council should get busy on this
question at once and make the own-
ers of dogs either muzzle them or
keep them shut up at home where
they really belong.

I am glad that all of our churches
observed Mother's Day last Sun-
day. If any of us forgot the ob-
servance the churches assisted in
calling our attention to the obse-
rvance and all of the people were al-
lowed to participate. There is no
day that signifies quite so much to
all the world as Mother's Day, and
this day of all days should be ob-
served in the proper manner. We
owe everything to mother and while
we are apt to neglect her at times
we can always remember her on
Mother's Day and wear the flower
as a loving tribute to the best friend
we have, have had or ever will have
in this world.

Since Florida has practically en-
tered the "bone dry" column some
of our citizens are renewing their
acquaintance with Mr. Aqua Pure,
and many will doubtless appreciate
the following tribute paid to the
neglected friend by Mr. Geo. K.

Edward's of McLeansville, Illinois:
Pure, cold water, sparkling,
water! It relieves pain; it quenches
the fevered thirst; it is life giving
without it nothing could live.
"As it gracefully flows along the
river to the sea, it furnishes power
which is utilized in promoting our
commercial enterprises; when heated
into steam it turns the wheels that
move the world along in its mad
rush for wealth; and it is (of itself)
the great broad highway upon which
the world's traffic is transported."
"In the geysers water seethes,
boils, hisses, spouts and plays many
parts. In the glaciers, icebergs and
snowy peaks of the mountains it is
wonderfully beautiful. It halbes the
moon; it paints the hues of the rain
bow and the sunsets, and forms the
beauties of the mystic cloud land.
With the frost crystals it draws fan-
tastic pictures on the window panes,
and its frozen dewdrops sparkle like
diamonds in the sight of the early
morning. Aided by the south wind
and the sunshine, it makes the grass
to grow, and flowers to bloom, the
trees to bud and bear fruit. With
the north wind it covers the trees
with silvery coats of ice; and with
the snow crystals it weaves a new
mother earth a new white dress, in
which she appears pure and inno-
cent (although she has drunk the
blood of many of her sons in battle);
and it furnishes skating and sleigh-
ing for those who delight in out
door recreations.

"It is the emblem of purity
"Water is ever changing; it is the
"poetry of motion." it nestens to
the sea, but the sea cannot retain
it; it floats in the clouds and falls to
the earth again in refreshing showers.
To him that hath eyes and ears it
speaks a various language. It patters
on the roof; it bubbles in the
spring; it splashes in the pool; it
sings in the mountain brook; it
dances in the cascades; it laughs in
the cataract; it ripples in the lake;
it weeps in the storm, surges in the
sea and roars in the ocean. It has
been the world's music since the
down of creation, and will be until
the end of time on the earth."

Are you one of the Endeavorers
who has not a regular income? Then
why not try to earn some money for
Tithing Week for Missions May 20
to 27th
Margaret McLvaine, Press Supt.
Tavares, Fla., May 13, 1917
Card of Thanks
To our many friends, for their

kindly care and assistance and for
the beautiful floral offering and
expressions of love and sympathy
during the brief illness and death of
my beloved husband I wish to
thank you from the depths of my
heart.
Mrs. W. R. Buchanan.

Let Us Help You Decide

as to the best way in which to spend your vacation. THERE ARE REASONS why it would be to your advantage to arrange to enter this school the earliest date possible. Call or write and we will be glad to give them to you.

Whether you enter the school or not you owe it to yourself to do this much. Let us show you what a course would mean to you, then use your own good judgment.
