The Proposed Amendments

While the battle rages flercely over the Homestead Exemption Amendment and the "big guns" are busy shelling the woods with everything they have from "lour point sevens" to BB shots, other important hanges which, it is proposed, should be made in our State

Constitution are apt to get lost in the barrage.

Voters should bear in mind that there is not just one amendment upon which they will be called to vote on November 6, but seven of them. Also on the ballot they will find a "proposition" for determining by referendum whether are alcoholic beverages shall be legally sold in Seminole County. Each of these amendents appears twice; once, where those in favor may vote "Yea"; and once where where those in favor may vote "Yes"; and once, where those anginst may vote "No."

The first amendment on the ballot has to do with judicial circuits. It is proposed in this Amendment that "There Shall Be No More Than Fifteen Judicial Circuits Of The State Of Florida. . . it already has.

Amendment "No. Two" on the ballot is the all-impor-tant Homestead Exemption Amendment, about which everyone is more or less familiar. It provides "that There ATURDAY, OCTOBER 27, 1934 Shall Be Exempted From All Taxation, Other Than Special Assessments for Benefits, To Every Head Of A. Family Who is a Citizen of and Resides in the State of Florida, the Homesteads as Defined in Article X of the Constitution of the State of Florida, Up to the Valuation of Five Thousand Dollars; Provided, However, that the Title to Said Home-stead May be Vested in such Head of the Family, or in his lawful wife residing upon such Homestead, or in "Both."

The third amendment repeals the State constitutional amendment prohibiting the manufacture and sale of alcoin holic beverages in the State of Florida and providing for county local option elections to determine whether such liquor shall be sold in the individual counties of the state. Amendment "No. Four" has to do with grand juries, all along the line.

Amendment presentments. It provides that "No Per- The Federal Housing Adminisindictments, and presentments. It provides that "No Person Shall Be Tried for a Capital Crime Unless on Present-

The sixth amendment has to do with the exemption of the motion picture industry in Florida, if any, from taxation. It provides that "For a Period of Fifteen Years from the Beginning of Operation, Motion Pictures Studios and Plants Established in This State on or after July 1. 1933, Including Lands, Buildings, and Chattels Utilized in Connection Therewith, and All Raw Materials Going Into the Finished Products of such Studios, Plants and Films, Shall be Exempt from all Ad Volorem Taxation. . . .
