## Jacobson: Decision Premature

# City Hall Site Plan Rapped

By JOE ASKREN  
Herald Staff Writer

Sanford's Downtown Development Steering Committee has taken issue with the Sanford City Commission on the decision to relocate City Hall.

A spokesman for the committee said the decision, made Monday at a city commission meeting, is "premature" and notes that committee members were not asked for their "input" into the decision.

In a 3-2 vote the commission designated that a new city hall be built on a city-owned 13.7 acre lakefront site at French Ave. and Seminole Blvd.

The tract will also include a \$225,000 public works center and motor pool area project which was approved in Monday's regular meeting.

The 50-year-old city hall building is presently across the street from the Seminole County Courthouse, four blocks away from the lakefront tract.

"The committee is pleased with the degree that the City Fathers are involved with the improvement of the downtown area and we appreciate their discussions of the relocation of City Hall," downtown committee executive director Sara Jacobson said.

"We lament the fact that the Downtown Development Committee was not invited to com-

"The committee is spearheading an in-depth study of the redevelopment of downtown Sanford and could have offered a meaningful input at that meeting."

—Executive Director Sara Jacobson

ment at Monday's meeting at which this major decision was made. The committee is spearheading an in-depth study of the redevelopment of downtown Sanford and could have offered a meaningful input at the meeting," Jacobson said.

She continued: "We feel that any decision of this type is premature when considering the overall downtown development program. The committee has made no plans for a shopping center on the lakefront and our discussions for the promotion of professional offices has been restricted, thus far, to the upper level spaces in the immediate downtown center."

City Commissioner Julian Stenstrom said Monday the geographical separation of a new City Hall building away from the courthouse would tend to enhance and improve the property in between, which may invite construction of a shopping center

and professional offices. "It would help beautify the whole lakefront area," he said.

Jacobson said the committee has continued its full-time effort to study the problems of downtown Sanford and has made every effort possible to coordinate its activities with those of other "progressive" groups.

She said the committee has participated, for example, in discussion with the Bankers' Committee of the Greater Sanford Chamber of Commerce for a Performing Arts Theatre.

"The committee is still heavily engaged in a preliminary planning phase. We cannot endorse at this time the decision made by the city fathers. We will make certain that our surveys and studies will explore all aspects concerning the relocation of city hall. It might become necessary for us to disagree with this decision for relocating city hall," Jacobson said.

City Manager Warren E. "Pete" Knowles had emphasized that only the map "location" for a new city hall has been approved by the commission. No plans have been drawn yet.

"If our surveys prove that the new city hall should be relocated, then we would support that movement," Jacobson added.

At Monday's meeting, Mayor Lee Moore and Commissioner John Morris who opposed the relocation, said they thought it was premature to designate a site for the new city hall at this time.

## Action To Seek 'Reasonable Funds'

# Herring Says He'll Sue Commission To Restore Cut

By ED PRICKETT  
Herald Staff Writer

The Seminole-Brevard state attorney's office will sue the Seminole County Commission next week over an additional \$14,000 cut from this year's budget, State Attorney Abbott Herring said today. Herring said his office is "in the process of preparing a suit" which will seek "reasonable funds" to operate the state attorney's office in the areas required by law.

Contacted at his home, County Commissioner John Kimbrough's response was to "let him file if he thinks we're wrong. If we are, it will come out. If

we aren't, that will come out, too.

"If he (Herring) needs to borrow a good lawyer maybe we can find him one," Kimbrough added.

Herring's action comes after county commissioners on Tuesday turned down his bid for a minimum of \$18,000 to operate his offices in Seminole County. Instead, the commission gave the chief prosecutor \$4,000—a sum he says he "can't live with."

"The county commission has got a vendetta against the state because the commissioners claim the state passed some laws against the county."

"I understand the commission is talking it out on the state attorney and public defender's office.

"If he (Herring) needs to borrow a good lawyer, maybe we can find him one."

—Commissioner John Kimbrough

"We'll file a suit, hopefully, by Monday or Tuesday of next week," Herring said.

The issue centers on the commission's responsibility, by law, to fund seven services for the state attorney. The seven areas include office space,

utilities, telephones, library services, transportation and communication.

On Tuesday, the commission—despite a plea to the contrary from Commission Chairman Sid Vihlen Jr.—voted to fund Herring's office at the 1972-73 level. Apparently, some commissioners interpreted the law to mean funding should only be provided at the 1972-73 level, or about \$4,000.

Vihlen warned commissioners Tuesday that providing only \$4,000 "may get us in trouble—I think we are subject to challenge."

Herring said the commission's action is a classic case of "being near-sighted" because not providing

a small amount of money could leave the commission open for "millions of dollars in claims."

In a letter to the commission, Herring referred to the jail situation as an example. In that situation the commission rejected Sheriff John Polk's request for money for jail repairs, the jail caught fire, 11 persons died in the inferno, and now Polk is faced with millions of dollars worth of lawsuits.

Kimbrough called Herring's reference to pending jail litigation a "cheap shot."

"That jail situation is a cheap shot. It doesn't have anything to do with what we're talking about now," Kimbrough said.

## Connell Claims Records Of Meeting Not Correct

By DONNA ESTES  
Herald Staff Photo

LONGWOOD—Councilman Gerard Connell, in his first year in public office, punctuated his continuing battle with colleagues and City Clerk Onnie Shomate this week by announcing he is taking complaints concerning the city's public records to State Attorney Abbott Herring.

The latest disagreement involves the official minutes of an Aug. 21 budget workshop which claim Connell was not present while City Auditor Harold Hartsock was.

The council approved the minutes Monday night over objections leveled by the freshman councilman during the past two regular meetings.

Connell on Monday night, as

he did the week before, attempted to refresh his colleagues' memories by pointing to newspaper reports of the Aug. 21 meeting which included comments made by him and his fellow council members on a variety of subjects. He told council member June Lormann that he had arrived at 7:53 p.m. for the 7:30 p.m. scheduled meeting and that she had asked about his son's health.

Connell said he was late for the meeting because he had to take his son to the doctor for a football physical and had called Mrs. Shomate to notify her that he would be late.

Connell insisted that Hartsock had not been at the meeting. Councilman H.A. Scott, Monday night said Hartsock left before 7:30 p.m., which brought a response from Connell that if Hartsock left before 7:30 he was not at the meeting which began at 7:30.

City Attorney Ned Julian Jr., who had been requested by Connell the week before to ask Hartsock if he claimed he was present for the Aug. 21 meeting, reported Hartsock said he was there.

The councilman raised Mrs. Lormann's ire later during Monday night's meeting when

he voted against paying the bills approved by her and Scott. Connell some months ago walked out of a meeting rather than vote on paying the bills, saying they were not made available to him for examination. After eliciting an opinion from City Attorney Ned Julian Jr. that councilmen are personally responsible and must repay city funds if they approve an improper expenditure, Connell insisted on examining the bills before he votes approval.

His problems continued through the Monday meeting when Mrs. Shomate refused to make available to him a copy of the agenda, saying she had placed a copy in his box in the council chambers. When he said he had been out of state on business since the meeting of the week before, Lormann gave Connell his copy of the agenda.

"Maybe God took it," Mrs. Shomate answered to Connell's complaint that he had no opportunity to get anything out of his box.

He offered to show his airplane ticket to prove he left town the week before and arrived back at McCoy Airport little more than an hour prior to

(Continued On Page 9-A)

## UNITED WAY UNDER WAY

United Way of Seminole County held an informal get-together at Barnett Bank in Altamonte Springs yesterday. Pictured above are Barnett Bank President and host George Foster; Jim Rasa, chairman of the 1975-76 United Way Campaign; and Tom Hunt, president-elect of the organization. (Herald Photo by Bill Vincent Jr.)

## Kiley Trial To Jury

By BOB LLOYD  
Herald Staff Writer

The fate of Mrs. Betty Jean Kiley—41-year-old Sanford mother of four children—was in the hands of an eight-woman, four-man circuit court jury today as deliberations began at noon, ending her three-day trial for first-degree murder.

Mrs. Kiley is accused of slaying her husband, Thomas R. Kiley, 46, on June 7 as he lay on a couch in the living room of their 3114 Rudder Circle home.

Prosecutor James Figgatt, in closing arguments, contended that Mrs. Kiley shot her husband from almost point-blank range while he was sleeping.

He said there were powder burns on the victim's face and the death bullet was mutilated so badly that "we can only say it came from a gun like this."

The state contends the murder weapon was a .22 caliber weapon Mrs. Kiley told police was in a bedroom closet.

Officers testified earlier that Mrs. Kiley told them she killed her husband.

Figgatt asked the jury for a guilty verdict of first-degree murder or a lesser charge. This could include second-degree murder or manslaughter.

"Don't let her leave this courtroom unpunished for the death of her husband," Figgatt told the jurors.

In closing, defense attorney David Porter argued that the state's evidence leaves reasonable doubt as to the guilt of his client.

Wednesday the defense presented witnesses—including Mrs. Kiley's 11-year-old daughter—in apparent efforts to indicate the shooting was in

Complete details and tides are on Page 5-A.

By AUDIE MURPHY  
Herald Staff Writer  
(First of a series)

A snowstorm is sweeping Central Florida—an invisible, paper snowstorm that costs citizens every time they visit the corner drug store or go shopping for groceries.

Yet, it is a storm of which few people are aware.

The problem of bad checks is almost invisible. But it affects

every citizen—and it is growing.

Earl Phelps, manager of Meat World in Oviedo, is one of the lucky ones.

"We don't have much of a problem with bad checks here," he says. "It's a small town and people know each other. Besides, we have a card system that allows us to obtain a large amount of information about people before we take their checks—name, address, driver's license number, the

usual things. We call the bank and it gives us the rating as far as a person's checking account goes."

But other merchants aren't so lucky, especially the large ones. J. C. Penney's in the Sanford Plaza, for instance, has limited check-cashing to those who live in Seminole County. And it requires two pieces of identification before Penney's accepts a check.

But, the ripoffs continue. Store manager Elmer C. Elsea

says losses due to bad checks are up 25 per cent over last year and he says 1974 was much worse than the year before.

All this spells higher prices for consumers. Not immediately, but sooner or later businesses have to take these losses into consideration when establishing prices. And that leaves the average, honest consumer caught in the middle.

Fortunately, a number of local agencies are intensely concerned with the problem of

bad checks. These agencies, which include local chambers of commerce and various law enforcement groups, provide educational information for businesses and citizens—how to guard against receiving bad checks and what to do if a bad check gets past the safeguards.

Of special interest to businessmen is a new Florida law which becomes effective Oct. 1. The new law requires that businesses establish the check writer's intent to defraud

and obtain minimum information about the check writer before a bad check can be prosecuted.

The law has tremendous effects for both merchants and consumers, because it requires drastic revisions in check handling procedures.

Under the identity provision, for instance, the law requires the recipient of a check to obtain, either on the check itself,

# NATION IN BRIEF

## Texas Town Forms Pledge To Capture Pair Of Robbers

CADDIS MILLS, Tex. (AP) — Citizens of this small Northeast Texas town don't take kindly to persons robbing their only bank, especially when they kidnap the banker's daughter.

A posse of about 25 townspeople — the mayor, barber, farmers, storekeepers — gave chase in cars Wednesday and nabbed two men about eight miles from town after the Caddis Mills State National Bank was robbed and Sherril Johnson, 19, was taken hostage.

To top it off, the two charged with aggravated robbery were identified as former Texas state troopers, George P. Marshall, 30, of Garland and Tommy Lee Deal, 28, of Houston were held on \$100,000 bond each in the Hunt County Jail at Greenville.

## Teachers Return To Class

CHICAGO (AP) — Teachers who struck Chicago public schools Sept. 3 return to the classrooms today under the terms of a tentative new contract which will cost the taxpayers millions of dollars.

Just how much it will cost was in dispute. The Chicago Teachers Union put the price tag at \$59.3 million; school officials said the package would cost \$78.6 million.

With the return of the teachers, summer vacation ends for the 330,000 pupils in the system.

## Zarb Sees Oil Price Hikes

WASHINGTON (AP) — Federal Energy Administrator Frank G. Zarb says oil companies might start raising prices by November if Congress has not reimposed price controls before then.

The companies so far are resisting the urge to increase prices freed of federal controls more than two weeks ago. But Zarb said in an interview that the companies would not hold out indefinitely.

"If, by Nov. 1, it has not cleared up, the likelihood of having a prolonged period of uncertainty is pretty good," Zarb said. "I think that 60 days from the time controls went off is ample time to have a resolution of the issue, if we're going to have one."

## Russians Agree On Shipping

WASHINGTON (AP) — A Russian agreement to pay higher shipping rates will mean that American tankers can be pulled out of mothballs to carry U.S. grain to the Soviet Union.

Trustee John Daniels, State Rep. Vince Fechtel, Carolyn Stenstrom, chairman of the board of trustees, Rep. Robert Hattaway and Trustee Wendell Agree (from left) participate in groundbreaking ceremony Wednesday for Phase III construction at the Seminole Community College, which includes a \$1.93 million fine arts building. (Herald Photo by Joe Askren)

## Phase III Under Way

# Hundreds Pack College

## To View Ground-Breaking

By JOE ASKREN  
Herald Staff Writer

"We've come a long, long way, baby," Dorothy Morrison, a pioneer faculty member of Seminole Community College, told a crowd of several hundred students, state and local officials Wednesday during a formal ground-breaking ceremony for the \$1.93 million Phase III construction project at SCC.

Ms. Morrison, chairman of the humanities division and a 33-year county resident, was referring to the "homemade easels . . . borrowed auditoriums . . . and a scraggle-toothed planer" used earlier at the nine-year-old college.

Construction of the Phase III project, begun last Tuesday, is expected to be completed by October of 1976, said SCC's Assistant President Ray Milwee. Student enrollment is up about 2 per cent this year, he said.

The new project addition on the sprawling 170 acre campus off U.S. 17-92 will include a 38,000 square foot fine arts building to accommodate some 400 students in drama, art and music classes. The project also includes 18,000 square feet of vocational shops in distributive education, clothing and upholstery work, plus 120-space parking lot Milwee said.

State Rep. Robert Hattaway said the House voted \$33 million

for statewide education, kindergarten through junior college, in April during the last legislative session.

Hattaway said the new addition to SCC will be a "great asset" to the county.

"Mr. Milwee was my first high school principal here," he added.

"We realize we're in a recession," Hattaway said, adding the House cut \$170 million from the \$4.149 billion state budget.

State Rep. Vince Fechtel told the spectators, exposed to the heat of the morning sun, that some of their representatives "don't always make light, but your legislators make the heat."

Fechtel said the college's Phase III construction project will be built at a cost of \$18 a square foot.

Milwee said construction of SCC's new \$1.93 million addition is funded by state monies except for \$287,000 in federal funds.

Patrick Quinn, president of the Student Government Association, said the student body will "appreciate the new facilities more than the portables we've used in the past."

Roger Jarand, president of the faculty senate and a drama instructor of SCC, said the new fine arts building "will put Seminole Community College on the map . . . and bring more joy and sunshine into the leisure hours of all citizens in the county."

Jarand said today's society is on the verge of the "age of the four-day work week and six-hour day and early retirement."

"We must learn how to manage this more leisure time and that's why the fine arts are needed in this new 'Age of the Elegant Leader,'" said Jarand.

He said the mark of an "educated person" is true appreciation for the fine arts.

Jack Horner, executive director of the Greater Sanford Chamber of Commerce, called the project "another milestone in the college's development."

Horner said the community college "takes a back seat to nobody," mainly because of the efforts of its President, Dr. Earl Weldon.

Mack Blythe, chairman of the business division of SCC, said many have availed the Phase III construction. He said the

new vocational shops will allow a better opportunity to serve county residents interested in retailing, hotel-motel management, insurance, and interior and fashion design.

"We are most proud of the quality of our students here . . . The new buildings are only 'aides' to them," said Carolyn Stenstrom, chairman of the board of trustees.

"The future looks great, don't you think?" asked Ms. Morrison.

She said a fitting tribute to all creative people involved with SCC's growth is captured in a poem of a 19th century poet Arthur William Edgar O'Shaughnessy which she quoted in part:

"We are the music makers, dreamers of dreams . . . We are the movers and shapers of the world, it seems."

Also attending the ground-breaking ceremony was Lake Mary Councilman Bert Perinich (an SCC music instructor) and Harry Terry; Winter Springs Mayor Troy Piliand; Sanford City Commissioner Gordon Meyer; Altamonte Springs City Attorney and former SCC Trustee Joseph Davis; Seminole County School Board Member Pat Tolson; Wayne Albert, Sanford Chamber president.

# FLORIDA IN BRIEF

## Florida High Court Upholds Death Penalty For Rapist

TALLAHASSEE (AP) — A man who once indignantly told police "I am a rapist, not a thief" should die in the electric chair for murdering three women in Tampa, the Florida Supreme Court says.

In a 5-1 opinion Wednesday, the court upheld the death sentence for Gary Eldon Alvord, 28, convicted of strangling Georgia Tully; her daughter Ann Herman and her granddaughter Lynn Herman with a rope.

The bodies were found in the women's home June 18, 1973. Miss Herman, 18, apparently had been raped, authorities said.

Alvord, arrested three weeks later in Lansing, Mich., made the "I am a rapist" statement to police when questioned about a local burglary. He was later connected to the Tampa slayings.

## Coast Guard Tracks Polluters

MIAMI (AP) — Coast Guard officials say they have four prime suspects and hope to identify within the next two weeks the ship that caused a massive oil spill off the Florida Keys in July.

Spokesmen said Environmental Protection Agency chemists at Athens, Ga., eliminated about 45 suspects through tests of crude-oil samples taken from ships that passed through the Florida Straits last July 17.

Four ships remain, officials said Wednesday.

## Bar Owner Favorite Target

TAMPA (AP) — Police are hunting for two men who shot at bar owner Cesar Rodriguez with a sawed-off shotgun as he "froze along a heavily traveled boulevard."

In the past two months, Rodriguez has been the target of a bombing attack, an arson attempt, telephoned bomb threats and an alleged murder plot, police said after Wednesday's incident.

Rodriguez insists he has no idea who is behind all of it.

# Natural Gas Price Decontrol Sought

ORLANDO (AP) — Seeking a proposal "that just won't be tossed in the waste basket" by Congress, Southern governors have called for a five-year suspension of price controls on natural gas.

The 41st annual Southern Governors' Conference issued the call Wednesday after defeating a hard-line stand proposed by Gov. Dolph Briscoe of Texas to "get the federal government completely out of the energy business."

## Committee: Cut Frills In Prisons

TALLAHASSEE (AP) — Prison officials who are building new institutions at up to \$33,400 per inmate should cut the frills and concentrate on easing overcrowded conditions, a Senate committee says.

New buildings could be put up on prison softball fields and beds could be double-decked in new prisons, the committee said in a report, approved Wednesday.

"I don't think there should be any frills in the prisons during this crisis period," Committee Chairman Tom Galien, D-Bradenton, told a news conference.

"For rehabilitation, they (prisoners) ought to work rather than have classroom counseling," Galien added. "A lot of money is being spent on classrooms, which is adding to the problem."

## Major Provision in a Revision of the Southern Governors' Standing Energy Policy Statement, the Resolution Asked Congress to Grant the Moratorium and Then Review its Effects at the End of Five Years.

The committee also cited "game rooms, band practice areas including soundproof rooms, indoor gymnasiums, climate controlled single-unit housing and self-contained prison areas" in a "condominium-type environment" planned for five new prisons.

### Shortage Of Jobs Hurts College Grads

The shortage of jobs for college graduates this summer has come to many of them as a cruel disillusionment with higher education. College has been overvalued in the years since World War II as an avenue to social and material advancement.

Upwardly mobile minorities continue to use the universities as stepping stones to higher income. Some professionals, bent on graduate school, go through college only to qualify for career training. But something has been lost that should be central to the concept and ideal of higher education — that is, knowledge for its own sake, the light of learning, and truth. Instead students have been encouraged to believe that higher education is a path to power.

Much of the blame must attach to college administrators who have been more interested in power for themselves than any higher ideal. They paid lip service to the ideal of liberal education. Meanwhile they eagerly promoted college as career education, essential for success in today's society.

Thus they attracted more students, including many who didn't want anything out of college except a validated ticket to the job market.

This is a time of retrenchment and reassessment in our society. It is a time to examine our institutions of higher education, which have grown so rapidly, and to inquire whether growth has become an end in itself, replacing excellence as a goal.

Bigger is not necessarily better on campus or anywhere else. And perhaps in their headlong pursuit of growth these institutions have momentarily lost their bearings.

It was Robert Maynard Hutchins who suggested years ago that every American boy and girl should be awarded a bachelor's degree at birth, as a benefit of his citizenship. They only those interested in learning would be required to attend college.

The proposal still has merit.

### Candidate-President

As a result of Watergate, we are more aware of the ways in which an incumbent president can use the vast powers of his office to promote his reelection.

Thus the inquiry into the financing of some of President Ford's political trips this summer is proper. Some of the expenses have been charged to the Republican National Committee. This seems harmless enough, since the apparatus involved were to benefit Republican candidates and organizations.

But the President himself is an announced candidate for the nomination next year. He may have opposition within the Republican party. The Republican National Committee should remain neutral until after the nominating convention.

Moreover, there is now a legal limit on presidential campaign spending. A president with access to party funds could evade that limit.

No incumbent president has been defeated for reelection since Herbert Hoover. The imperial presidency has burgeoned in this period.

Incumbent presidents, starting with Franklin D. Roosevelt, have campaigned for reelection by wrapping themselves in all the awesome panoply of their office. Frequently taxpayer funds have financed trips that were almost purely political in purpose and that came during the height of a political campaign.

Some of this sort of thing is unavoidable and is inherent in the power of the office. But it should be avoided if possible.

A decent respect for the opinions of the people dictates a scrupulous observance of the limits placed on the great powers of our chief magistrate by our laws, our Constitution and our sense of fair play.

### RAY CROMLEY Time, Luck Only Cure For Inflation

Federal Reserve Board Chairman Arthur Burns and Agriculture Secretary Earl Butz are not being completely frank in assessing the effects of major Russian grain purchases on the price we pay for food. Technically, they're correct. On paper, the Russian purchases, as seen here, would add around 2.5 per cent to the grain price. But that's only the beginning. For one, that 2.5 per cent is on top of a probable 5.5 to 6 per cent rise which seems to be in the works — making a total gain we can expect of 8 to 8.5 per cent. Then there's the ripple effect of price rises. So count on sizable increases in what you pay at the grocery store.

The economists I talk to have other bad news in store. They see an inflation rate of 8.5 per cent for the rest of this year. In 1976, at best, they predict 7 per cent to 7.5 per cent — assuming the best of conditions.

If all goes well, by 1977 or 1978 inflation could be cut to 5 per cent. That is, if everyone does the right thing. But it is unlikely that we'll get below that 5 per cent figure, at least in the foreseeable future. And even 5 per cent may not be realized in practice.

One source, whose economic forecasts have been far more accurate than those of his fellows over the past 20 years, is now convinced, in fact, that no one knows how to prevent inflation. "Once you're caught in this cycle," he says, "I don't know anything that can break it." Except time, if we're lucky.

The primary pressure in 1976 on prices is expected to come from industry — from the producers of steel, non-ferrous metals, machinery and other basic products, as demand begins to grow, forcing production rates up from today's dreary 68 per cent to 70 per cent of capacity.

Secondly, wage earners, whose incomes have not kept pace with the cost of living, will demand their share. When and if unemployment goes down to somewhere around 5 per cent, my economist friends believe that working men will, of necessity, press hard for more money. These demands will, of course, affect prices. The economic analysts I've talked to are surprised that wage increases to date have been so restrained overall. The average is so modest, compared with price rises, they've not been inflationary. As we all know from studying our pocketbooks after visiting the grocery store and the gas station, it's the cost of food and energy that's fueling inflation, not wages.

A hefty rebuilding of inventories, after the drastic cutback they've gone through, will stimulate demand in 1976.

At the same time, expect too, a substantial increase in requests for bank loans and an expansion of commercial paper. The U.S. Treasury will be in the market practically every month for money. The combination will most assuredly drive interest rates up, with the prime rate most probably hitting 9 per cent.

Will all of those who are still gainfully employed in this county please pull the noose around your livelihood a little tighter for these dedicated public servants? Send them a bundle to get by on. And, as for the 12.7 per cent of you that are now on temporary unemployment checks ranging from \$19 to \$82 per week, we know it will be easier for you to pay your new larger tax bills due in November or your higher rents due to higher taxes, because it will help out our worthy leaders. You too must sacrifice for your leaders. Send your bundles right away. They desperately need them. Remember always how hard they worked to cut corners on the new county budget because they realized we the people were already suffering under a weakened economy and we were already overburdened.

Mrs. J. G. Brinkle (Donna) P.O. Box 1832 Sanford, Fla. 32771

Letters to the editor are welcome. All letters must be signed with a mailing address and, when possible, a telephone number so the identity of the writer may be verified. The Evening Herald will respect the wishes of writers who do not want their names to appear in print.

#### Pay Hikes Scored

County commissioners are in dire need of help to support their families. Will the people of Seminole County kindly open their hearts and send the commissioners bundles of clothing, food, and shoes? The address is County Commission, Seminole County Courthouse, Sanford, Fla., 32771.

These dedicated servants of the people are all involved in their other businesses and they just voted themselves as commissioners new raises from \$12,960 to \$15,062 because it would seem inflation is prohibiting them retaining their standards of living. The State of Florida passed a law allowing county commissioners to receive a maximum pay of \$15,062 and of course they just had to have this maximum pay. They couldn't make ends meet without it. The sheriff was also having difficulty managing on \$24,984 and understanding his dilemma, they raised his salary to \$28,516. The county attorney gets \$25 per hour up to \$85,000 next year. With all they were paid it just wasn't enough.

Will all of those who are still gainfully em-

### DON OAKLEY Paperwork Deters Social Progress

The power to tax may also be the power to destroy, as Chief Justice John Marshall observed long ago, but it is the government's power to regulate their every activity; and to inquire into the minutest aspects of their lives that can drive Americans to distraction.

In a recent statement to the Senate Public Works Committee, for example, one major automaker complained that testing requirements for complying with federal auto pollution standards are becoming a "bureaucratic nightmare."

If all the paperwork generated for emissions certification of its 1975 models were placed in a single pile, it would reach about 200 feet high, the company said. It also cost \$24 million, required 284 test cars, nearly a million and a quarter man-hours and 5.2 million miles of test driving. Certification requirements for 1976 are even more complex and costly.

In a totally unrelated field, the Department of Health, Education and Welfare is erecting another mountain of paperwork.

A new directive from HEW to the chief school administrators of the 50 states requires that school districts containing children who speak little or no English "must, at a minimum, determine the language spoken in the student's home, regardless of the language spoken by the student, the language most often spoken by the student in the home and the language spoken by the student in the social setting (by observation)."

Just in case they have any time left over after all that, HEW has also told the nation's 16,000 public school systems that they must begin keeping detailed discipline records to help the government determine if minority students are being punished more often than white students.

Like the fight against automobile pollution, it's all in a good cause, of course, as part of a study being conducted by HEW to determine if school districts with national minority children are violating the 1964 Civil Rights Act, which prohibits federal funds for discriminatory programs or activities.

But it would seem that if non-English-speaking children are having problems in school — and undoubtedly many of them are — it would make more sense to encourage special English language courses for them than to require harassed administrators to observe the language spoken by a student in the "social setting" and to investigate and report on the language spoken in a student's home — "regardless of the language spoken by the student."

Fortunately, the order does not apply, at least for this school year, to schools faced with an influx of refugee Vietnamese children, nor is it retroactive to those millions of people who came off the boats in the 19th century and early decades of the 20th century speaking no English.

Have also been called back for additional questioning. The assassination report may not be ready, therefore, until the end of the month.

However, there are the committee's preliminary findings:

— In 1960, the CIA plotted to do away with the troublesome Congolese leader, Patrice Lumumba. One method that was explored was poisoning. An official announcement claimed he was slain on Feb. 12, 1961 by Congolese tribesmen after his escape from prison. But according to one bizarre, unconfirmed account, he was given only whiskey to drink and died of alcoholic poisoning. In any event, CIA witnesses denied that the agency had anything to do with his final demise.

— In late 1960, the CIA recruited two Mafia mobsters to knock off Cuba's Premier Fidel Castro. The attempts on Castro's life continued until the spring of 1963. Castro not only was aware of the attempts to kill him, the draft report notes, but also threatened to retaliate against U.S. leaders. The report offers no evidence, however, that Castro had anything to do with the subsequent assassination of President Kennedy a few weeks later.

— The Dominican Republic's late dictator, Rafael Trujillo, was censured by the Organization of American States in 1960 for

## Weakened Eloise Lashes At Cuba's Coast

By The Associated Press  
Hurricane Eloise weakly and lashed eastern Cuba early today, leaving in its wake at least 28 dead and 100,000 people in a very substantial way among the same target groups, Ms. Johnson says.

The current membership drive in the CIA is aimed at a productive membership to tell the story of success in future planning and carrying out those plans to make the efforts more rewarding and community living more enjoyable, according to Ms. Johnson.

Chalk up one good deed for State Insurance Commissioner Phil Ashler, who recently turned down a rate increase for Florida Blue Cross-Blue Shield.

## PEOPLE

### Fromme Was On Welfare Prior To Ford Incident

SACRAMENTO, Calif. (AP) — Lynette A. Fromme, accused of attempting to assassinate President Ford, received \$1,194.74 in welfare payments during a 13-month period ending in September 1974, officials say. Sandra Good, Miss Fromme's roommate and also a disciple of convicted mass murderer Charles Manson, received \$150.84 in welfare in July and August 1974, Richard Winsor, Sacramento County's assistant welfare director, also said Wednesday. He said that the reasons Miss Fromme, 28, and Miss Good, 30, stopped receiving the general assistance payments were confidential. Miss Fromme is accused of pointing a semiautomatic pistol at Ford during a visit here Sept. 5. Authorities said there were four rounds in the magazine of the gun, but none in the firing chamber. Manson is serving a life term at San Quentin Prison for the 1969 murder of actress Sharon Tate and six others in Los Angeles.

### Hughes Fails To Show

NEW YORK (AP) — An attorney says a legal attempt to have Howard Hughes declared dead smacks of black mail, and the billionaire reclusive did not show up as ordered by a judge. "Inference is plain that the plaintiffs believe if they make enough of a nuisance of themselves, someone will pay them to go away," lawyer Chester Davis told State Supreme Court Justice Thomas Hughes on Wednesday. His comments came in support of a move to dismiss a suit filed by Victor and Ellen Kurtz of New York City, shareholders in Air Liquidation, formerly known as Air West, Inc., an airline taken over by Hughes in 1969. Judge Hughes had ordered the financier to appear in court Wednesday to prove he is alive. The judge reserved decision on Davis' dismissal motion. In Los Angeles, a spokesman for Summa said the billionaire is alive, but Davis did not touch on that question in his arguments for dismissal.

### Mrs. Chiang Kai-shek Arrives

NEW YORK (AP) — Mrs. Chiang Kai-shek has arrived here, reportedly to undergo medical treatment. The widow of the late Nationalist Chinese leader was met by Taiwan's ambassador to the United States, James Shen Chien-bung, when she arrived at New York's Kennedy Airport on Wednesday night. She then was driven to the home of friends at Locust Valley, on Long Island. On her last visit here, Mrs. Chiang was an outpatient at the Columbia Presbyterian Medical Center.

### Miss America Snubs Grits

AUGUSTA, Ga. (AP) — "What are grits? It sounds so awful," said the reigning Miss America in turning down the Southern breakfast staple. "It looked good with butter on it, but I couldn't bring myself to — I looked at it and smelled it," Tawny Elaine Godin said after the incident Wednesday during a visit to this east Georgia city. "Oh, that's harmless," the Yonkers, N.Y., resident said after she was advised that grits are made of ground corn.

### New Teacher Organization

#### Firms In Seminole County

A new labor organization for present contract, under which to challenge the existing Seminole County teachers must Sem in ole Education Association (SEA) in next year's collective bargaining election. Larry Hess, organizing chairman for the United Teachers of Seminole (UTS), is the best contract which could be negotiated," Hess said. UTS, a minority organization of about 50 teachers in the county, was organized this recently signed master contract between SEA and the Seminole County School Board "is ambiguous and leaves many input" into the educational items open to interpretation." process.

# Casselberry Drops Tax

By AUDIE MURPHY  
Herald Staff Writer

CASSELBERRY — A controversial ad valorem property tax proposed by the city council in the 1975-76 budget was eliminated Wednesday in a marathon work session.

The proposed 1.75 mill tax, which would have amounted to \$1.75 for \$1,000 of appraised property value, was scrapped when the council made cuts in some departments and discovered different sources of revenue, according to council chairman Edith L. Duerr.

"It was a hard-working session," Duerr said. "Council went over the budget item by item to find ways to avoid initiating the tax. I think the council should be commended for the hard work they put in."

Duerr said the council discovered \$60,000 in a cigarette tax bonus which had not been included in the tax revenue. She reported that the council saved an additional \$10,000 plus benefits by eliminating a police patrolman's position. She reported there would be no change in the number of patrolmen, however, because the position had been funded by a federal grant and would continue in a different form.

Duerr also said the council eliminated such items as the Lake Weir project, proposed mini-parks and lights for a baseball field.

"We sensed a lot of the frustration shown by the citizens was resentment against big government in general," Duerr said. "I think the council reacted very responsibly."

At the end of the session the council received a round of applause.

# Bad Check Epidemic Hits Central Florida

(Continued From Page 1A)

or on a check-cashing card, the following information: full name, residence address, home phone number, place of employment, sex, date of birth, height and race.

The other provision of the new law, which establishes criteria the recipient must follow to establish intent to defraud, requires the businessman to send a registered letter to the last known address of the check writer, demanding payment and a service charge of \$5 or (\$5) per cent of the check, whichever is greater.

The check writer then has 20 days to pay the bill.

If these provisions are followed and payment is not made, it is then up to the state attorney's office to begin prosecution.

It is the prosecution phase of the bad check problem that many merchants find so frustrating. Businessmen point out that the time lag between receiving the checks and discovering they are worthless gives the check passers time to flee the area, making prosecution difficult, if not impossible.

Another complaint frequently voiced by merchants is that even if the worthless check passer is identified and brought to trial, the court system is too sluggish to administer swift and effective punishment.

But the fact of America as a check-oriented society seems unlikely to change. And, as checks proliferate, more and more sophisticated devices and procedures are created to insure the checks are worth taking.

All this is part of the growing paper snowstorm in Central Florida.

(Next) — The Investigation Procedures used in worthless check cases.

## Turlington At Stetson

DeLAND — Ralph Turlington, Florida Commissioner of Education, was the featured speaker at the nearly 1,200 students, faculty members and visitors to the 93rd academic year of Stetson University.

Citing a crisis in education, Turlington scored Pre-ident education budgets for the state Ford for his veto of education appropriations while increasing the military budget. The Florida education chief also called the attention of the nearly 1,200 students, faculty members and visitors to the efforts by one prominent state legislator seeking to cut education budgets for the state public schools.

## Rezoning Hearing Slated

The rezoning of 16 annexed lots south of Santa Barbara, between Iroquois Ave. and Mohawk Rd. is up for a public hearing at 8 p.m. today before the Sanford Planning and Zoning Commission.

Also on the agenda is a request from John Amos for a conditional use for a church occupancy at 1016 Fern Ave.

Reports are expected from City Planner David Farr, Zoning Official John Steffens, and Business Reports from the Planning Commission.

Mrs. Shomate said that the other four members — Council Chairman J.R. Grant, Scott Mrs. Lormann and Councilman Don Schreiner had given her permission to grant the raise.

During the past few months, the council passed a motion to

## Connell Claims Minutes Wrong

(Continued from page 1A)

charge city officials 15 cents per sheet for copies of public documents, other than those given to council members at meetings.

The board pointed to Connell as the major offender, saying he made copies of documents at city expense available to the public.

He said he was refused the right to include statements explaining his votes in the official minutes of meetings, until Julian ruled that a councilman does have that right.

"You'd almost think it is a conspiracy," Connell said today. "I just cannot go along with falsifying public records and State Attorney Abbott Herring seems to be the only place I can go help."

He questioned a pay raise given a city employee when it had not been brought up at an official council meeting, noting the board agreed early in the year that pay increases would be approved by the entire council.

Mrs. Shomate said that the other four members — Council Chairman J.R. Grant, Scott Mrs. Lormann and Councilman Don Schreiner had given her permission to grant the raise.

During the past few months, the council passed a motion to

## Kiley Trial To Jury

(Continued From Page 1A)

self-defense.

Karen Kiley testified that "about a week" before the death of her father during a fight with his wife he said to Mrs. Kiley, "I'm going to kill you."

James E. Kiley, 14, testified that he had seen his father hit his mother "when they were arguing... a lot."

He said the week before his father's death his mother had gone to a hospital for treatment and had returned home with facial bruises. "She looked like she was 'beat up' and she was crying," he testified.

Mrs. Kiley didn't testify for the defense, as is her constitutional right.

Circuit Court Judge J. William Woodson ruled as "immaterial in this case" testimony proffered by the defense, out of the presence of the jury, from Mrs. Kiley's aunt, Mrs. Willie Mae Hannah, of Sanford, Mrs. Hannah testified that "about a year ago" Mrs. Kiley had come to her home and stayed three weeks after being beaten by her husband.

Mrs. Hannah described an incident in which Kiley came to the Hannah residence "after his wife" and "dragged her out of the back door by the hair of her head."

Seminole County Medical Examiner Dr. G. V. Garay, who earlier testified that Kiley died from a single bullet wound in the right temple, returned to the witness stand Wednesday and said blood tests on the deceased showed his blood alcohol content at death was 10 per cent — the level state law defines as intoxicated.

## Woman Raped In Field Near Apartment Complex

By BOB LLOYD Herald Staff Writer

Sheriff's detectives are investigating the rape Wednesday of a 23-year-old Fern Park woman in a field near an apartment complex.

The woman told deputies that she was walking about midnight when an unidentified man approached her, grabbed her arm and dragged her into a nearby field, where he threatened her life, ripped off her clothing and raped her.

The woman's hands were tied behind her back with her undergarments during the attack in which the assailant choked her, deputies said.

The woman ran to a nearby apartment complex after the rape and residents there called deputies.

Deputy C.R. Brown reported some of the woman's clothing and her shoes were found in the field.

### Action Reports

**Courts**

Charles Miller, 23, 214 Newberryport Ave., Altamonte Springs, on a circuit court warrant charging possession of a controlled substance. Bond for Miller was set at \$5,000.

Sanford police reported Harold Earl Moore, 21, of 1407 Bell Ave., Sanford, was arrested early today on charges of auto theft and aggravated assault after an incident at 16th Street and Mangrove Avenue in which a woman motorist and a girl were assaulted with fists and a wine bottle and their 1970 model sedan taken.

**Station Robbed**

Sanford police reported a black male armed with a revolver robbed the Bay Service Station, 1315 West First St., Wednesday, and escaped on foot with an undisclosed amount of money after forcing the station attendant to lie face down on the office floor.

Winter Springs police and Sheriff's investigators today were probing the arson of a stolen auto.

Deputies reported a 1966 Oldsmobile sedan owned by Norma D. Ferris, of Casselberry, was reported stolen early today from the parking lot at the Fiesta Lounge, U.S. 17-92, Longwood.

About 2 a.m. the auto was seen being pushed by another car north on Sheehy Boulevard, Winter Springs. A few minutes later the Oldsmobile sedan was found near a tennis court area in flames.

Winter Springs fireman extinguished the blaze, believed started in the front seat, but deputies said the car was a total loss.

**Lumber Stolen**

Jerry Crews Inc., Altamonte Springs, reported 400 pieces of lumber, mostly 2x4's, valued at \$600, were stolen from a construction site on Markham Woods Road, north of E.E. Williamson Road, Deputy R.E. Pritchard said a forklift is believed to have been used to remove the lumber from the construction site.

**Escape Charged**

A 23-year-old woman was being held in county jail today on an escape charge after being arrested Wednesday night by sheriff's deputies at the parking lot of Florida Hospital North, Altamonte Springs.

Jail records identified the woman as Kathie Lynne Ethridge, 22, no address available. Deputies said she was listed as an escapee from the Lantana Correctional Center, Palm Beach County. Officials said Palm Beach authorities were expected to take custody of the prisoner today.

John Henry Wimberly, 21, of 1515 W. 17th St., Sanford, was being held in county jail today without bond on a probation violation charge. Wimberly was also charged with shoplifting when arrested by Sanford police at the Payless Shoe Store, French Avenue and 25th Street. Bond on the shoplifting charge was set at \$100.

**Mower Stolen**

In other reports, deputies said Leonard J. Perkins, 2778 Ridgewood Ave., Sanford, reported a \$100 riding lawnmower was stolen from a rental house on Vilen Road west of Sanford.

William St. John 618 Archibald St., Altamonte Springs, reported burglars took a \$199 citizens band radio from a motor home at his residence. Deputies said the St. John residence was also entered and \$400 in cash was reported missing.

A citizens band radio and auto parts were reported stolen in vehicle break-ins at two residences on Hillcrest Avenue, Altamonte Springs, deputies reported.

Claud Conley, 101 Hillcrest Ave., reported auto parts valued at \$318 were taken when burglars entered a car by smashing a vent window.

Robert Pope, 101 Hillcrest Ave., told deputies a \$150 citizens band radio was taken when burglars entered a car parked at his residence.

Berry Bernard Wright, 33, of Orlando, was being held without bond at county jail today on a probation violation charge.

GOVERNOR'S HIGHWAY SAFETY COMMISSION

## Man To Await Sentencing In Robbery Case

David Allen Redmon, 21, of Winter Park, faces a possible life term in prison after pleading guilty in circuit court to the June 22 shotgun holdup of a drive-in grocery store at 3650 Howell Branch Road, in south Seminole.

As a result of plea bargaining with State Atty. Abbott Herring's office, Redmon entered the guilty plea Wednesday before Circuit Court Judge J. William Woodson. Woodson indicated sentence in the case, after completion of a pre-sentence investigation, would be 10 years or more in prison.

As part of the negotiated plea, Assistant State Atty. Claude Van Hook dropped a pending misdemeanor marijuana possession case against Redmon and agreed not to file a robbery charge in connection with the June 11 holdup of the L.J. Champ Food Store, Bear Lake Road and SR-436.

Judge Woodson ordered Redmon held in jail pending sentencing on the robbery plea. Van Hook sought information in court from Redmon as to the identity of the "wheel man" who drove a red van in the June 22 holdup and indicated the state wants to prosecute that person for robbery in the case. Redmon admitted going to the store in the van and using a .418 gauge shotgun to rob the clerk, but refused to identify the van's driver. He did reveal the driver wasn't the registered owner of the vehicle.

"I planned the robbery and talked the driver into taking me there," Redmon told the court, "but I can't see two people going to jail for something I did."

Redmon said he was robbing the store when an unidentified customer entered. Redmon said he ordered the clerk to put the money back into the cash registers and waited until the customer made a purchase and left the store before ordering the clerk at gunpoint to again remove the money so he could make his getaway.

In another case docketed for trial this week, Judge Woodson ordered a pre-sentence investigation and allowed James Randolph Tabor, 21, 900 Rosedale Ave., Longwood, to remain free on bond pending sentencing.

Tabor had been charged with larceny of a motor vehicle in connection with the July 22 theft of an auto in Casselberry. He entered a negotiated plea of guilty to unauthorized use of a motor vehicle, punishable by a maximum of one year in county jail.

Tabor admitted accompanying a juvenile who stole the auto. Tabor maintained he knew the felony was being committed but went along only as a passenger in the auto.

Assistant State Atty. Ralph Erickson told the court that an auto theft case is pending against the juvenile in the circuit court's juvenile division.

**Relative's Money  
A Private Matter**

By ABIGAIL VAN BUREN

DEAR ABBY: I have a relative who is quite old but by no means senile. She has mentioned several times that she has me in her will for a sizable amount of money. Frankly, I doubt that she is worth that much.

Dear Abby

Is there some place I can write to find out exactly how much money she is really worth? I want my inquiry to be absolutely confidential. Please don't use my name, initials or location. Thank you.

DEAR ANONYMOUS: You want (and shouldn't) know what the will is probably. Meanwhile, I suggest you respect your relative's right to privacy.

DEAR ABBY: My daughter Prissy had been going steady with Jonathan, a charming young man she met at college. I expected her to come home with a diamond any time.

A young lady suddenly reappeared in Jonathan's life—his high school sweetheart who had married someone else. Her marriage was being dissolved, and she needed someone to "talk to" and help straighten out her life.

She contacted Jonathan, and

he started seeing her. Prissy became resentful, and Jonathan asked her to please be more understanding. Prissy said, "I'm sorry, but that girl was talking to a marriage counselor or a clergyman. It's not your place to straighten out her life."

Jonathan resented Prissy's attitude, and they had words. It's been three months since Prissy has heard from him, and she is benevolent. Now she wonders if perhaps she should have been more understanding.

What are your views? PRISSY'S MOM

DEAR MOM: Even if Prissy had been more understanding, I think the high school sweetheart would have won out. If Jonathan truly cared for Prissy, when his old flame returned, he would have told her that he was seriously involved with someone else. Instead, he played the month. Prissy could be the lucky one.

**SCARC Benefit Set**

The second Theater Benefit for the Seminole County Association for Retarded Children (SCARC) will be held at the Annie Russell Theatre on the Rollins College Campus on Oct. 22 at 7:30 p.m. The studded entertainment will be "The Music Man" with music and lyrics by Meredith Wilson. This classical tribute to rural America at the turn of the century features the shenanigans of Professor Harold Hill as he tries to hoodwink the townspeople of River City, Iowa, and gets hooked in the process. Some of the song hits are "Trombones," "Lida Rose," and "Till There Was You."

Tickets can be purchased from Streep's Ticket Agency in Orlando or by mail to the SCARC, P.O. Box 1086, Sanford 32771.

**Boosters To Meet**

Mrs. Lil Balsom, acting president of the TAFETA Booster Club, announced that the first fall meeting will be on Tuesday 8 p.m. at the TAFETA XXchange, 207 South Magnolia Ave., Sanford. All friends and parents of TAFETA members are invited to attend to make final decisions on election of officers and club objectives for the year.

The purpose of the TAFETA Booster Club is to support the SCARC's TAFETA Program which serves the adult retardates of Seminole County. The concept of TAFETA is to

retarded children who are residents of Seminole County. The LRSH provides year-round training in communications, physical development and practical skills. The stimulation from studded entertainment will reach his maximum intellectual potential as well as deal with any handicaps in his physical development.

TAFETA is a two-part program for retarded adult residents of Seminole County. The Basic TAFETA provides training in communication, physical development and practical skills with vocational objectives in mind. An adjacent organization, TAFETA-2, finds suitable community jobs and aids the adult in employer and job adjustment.

The ultimate goal of the Special Olympics Program is to create opportunities for sports training and athletic competition for all retarded children from age 8.

Anyone wanting more information please call Lil Balsom or Christine Jones at TAFETA's office in Sanford. Everyone attending the meeting is encouraged to bring items for resale in the TAFETA XXchange as well as their old newspapers and magazines.

Margaret Koger wears crown of Florida State Citizen Band Radio Association Queen.

**C.B. Queen Crowned  
Club Wins State Honors**

The Tri-County Roadrunners CB Club in Sanford returned from a state convention Sept. 13 and 14 with two trophies and a Queen.

The Florida State Citizen Band Radio Assn. (FSCBRA) met at River Ranch Acres where it has convened since 1968. However, next year, the state convention will be held at the Sheraton Inn, Sanford, hosted by the local chapter.

Margaret Koger was named 1975 FSCBRA Queen. The wife of J. L. Koger of 1903 Marshall Ave., Sanford, will preside at all jamborees, travel the state visiting chapters and preside at next year's convention. Anita Williamson received a trophy and was named CB Woman of the Year for 1975 and the group also received a trophy for the club having the most members attending.

**Service Groups Sponsor Health Day**

The Maitland-South Seminole Chamber of Commerce, in conjunction with The Maitland Lions Club and other service groups, is sponsoring a Maitland Health Day, Saturday from 10 a.m. to 4 p.m., at the Maitland Civic Center. There will be a glaucoma (eye pressure) screening, a blood pressure check, and a hearing test. The Central Florida Blood Bank will have a mobile unit there for those who wish to donate blood to the Chamber's Blood Bank or to a beneficiary of their choice.

All of these health checks will be provided as a Community Service by the Maitland-South Seminole Chamber of Commerce, The Maitland Lions Club, The Central Florida Blood Bank, The Central Florida Optometric Society, and The Easter Seal Speech and Hearing Center.

The Central Florida Blood Bank has a continual need for blood. Because blood is living, human tissue, it must be transfused within 21 days, and Blood Donors are needed every day of the year. Giving Blood is safe and simple. Please take time to give.

The Lions will also accept any old eye glasses which are no longer needed. These are used to supply people who cannot afford needed glasses. Eye wills will also be solicited. After death, corneas from adults can be used to bring sight to the blind. Donation of eyes is not affected by previous surgery or wearing glasses. Ask any Lion about this gift that only you can give.

**SCC Features Women In 'Practical Politics' Seminar**

Decisions that affect all citizens are made at the political level, but many women are hesitant to become involved. Equal sharing and equal opportunity in one's government are worth while goals for every woman as a responsible citizen. To help you meet these goals, the Metro-Orlando Women's Political Caucus and Project 21st Century Woman have planned a "Practical Politics for Women" workshop-seminar and luncheon which will be held Oct. 11, in the Student Center on Campus at Seminole Community College from 9:30 a.m. to 3 p.m.

Reservations for the program and luncheon must be returned before Oct. 6. For information, reservations, contact June Gordon, Seminole Community College.

**Mavis Molina lost 66 lbs.**

Here's Mavis Molina at 204 lbs. What a difference the Ayds plan—and getting down to 138 lbs.—has made for Mavis.

"I'm English, married to an American Air Force man," says Mavis Molina. "When we came to the States, we hoped to go to Florida, because I love the sun. But they ended up in North Dakota, where snowbirds separated the 18 houses on the base. Instead of ploughing out, Mavis stayed inside, eating from December till June—and wound up at 204 pounds. That's when she decided to try the Ayds plan. Taken as directed, Ayds® Reducing Plan Candy helps satisfy your appetite. On the Ayds plan, you eat less because you want less. So you lose weight naturally and sensibly.

"Those Ayds really helped satisfy my appetite, and soon the weight started coming off. Then we moved to Florida, and that gave me even more incentive to reduce. You see, I couldn't stand the idea of being a fat blob on a beach of bikini-clim women." But the Ayds plan worked beautifully for Mavis. She lost 66 pounds on it and a lot of sunshine came into her life.

Ayds contains vitamins and minerals, but no drugs. And it comes in four delicious flavors: chewy vanilla caramel, plain chocolate fudge, chocolate mint fudge and butterscotch fudge. Try the Ayds plan.

## Delegates To Meet With Patriots

# NFL Players' Union Agrees To End Strike

NEW YORK (AP) — The National Football League and its rebellious players' union reached agreement today following a marathon 13-hour negotiation session in an effort to put five striking clubs back to work and insure that this week-end's opening games are played.

W. J. Usery Jr., director of the Federal Mediation and Conciliation Service and the man who ran the all-night sessions, announced a "memorandum of agreement" between the NFL Management Council and the players' union at 9 a.m. and a delegation of four persons headed for Boston. There, they were to try and convince the striking New England Patriots to accept the offer.

Details of the agreement were not announced. But one part of it guarantees a full offer from management on a new labor contract by next Monday.

In the delegation going to Boston were Sargent Karch, executive director of the Management Council; players' union head Ed Garvey, and player representatives Doug Van Horn, of the New York Giants and Richard Neal of the New York Jets.

Sources said Neal and Van Horn were ready to recommend the agreement to their teammates, who form two of the striking clubs. The key to ending the six-day-old strike that threatens the regular NFL season was the Patriots.

The Boston Globe reported this morning that the Patriots, meeting in a four-hour session that broke up at 1 a.m. this morning, had rejected a management proposal that would have put them back to work.

But that offer, the Globe said, was a new contract proposal from management by Monday.

However, both sides seemed optimistic that the latest labor problem might be nearly solved.

"In light of the commitments made by both sides, I urge all NFL players to resume their regularly scheduled activities so that the American public can see and enjoy the coming season at its exciting best," Usery said as he emerged from the all-night meeting.

Usery said the agreement affects all 26 clubs. In addition to the Giants, Jets and Patriots, the other striking clubs are the Washington Redskins and Detroit Lions.

The negotiations began just before 8 p.m. Wednesday night, after the strike had spread to five clubs and moved the league dangerously close to cancellation of up to five of its first weekend's games.

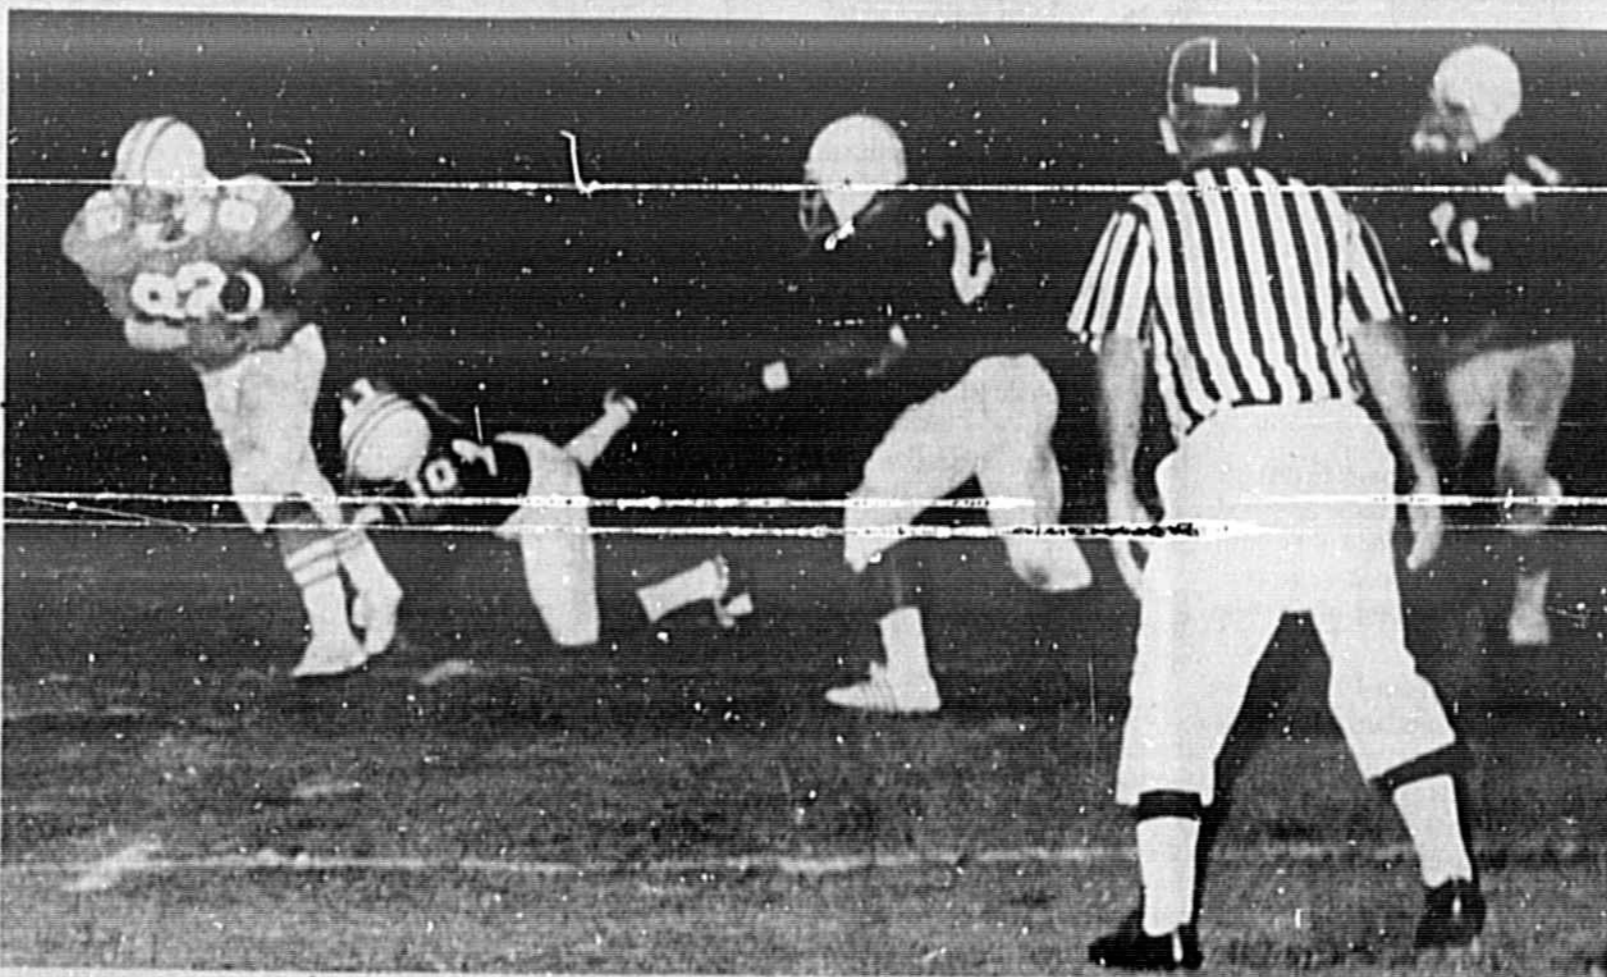

Television networks met throughout the day Wednesday to determine what games, if any, they might show this weekend and the NFL slipped closer to chaos as a result of the mushrooming strike, called because the owners and players' union have not been able to make a contract agreement in the past 19½ months.

Even clubs voted not to strike and some of them strongly criticized Garvey. The future of the union was clearly on the line and all the while the nation's football fans were left on a limb, not knowing what would happen but still expected to pay high ticket prices if games were made a contract agreement in the past 19½ months.

Seminole's Mike Good (82) carries on an end around last Friday night against Oviedo. Trying to catch him are Charlie Lewis (10), Henry Finny (22), and Frank Procell (41). Oviedo hopes to turn things around this week against New Smyrna Beach. (Herald Photo by Bill Vincent Jr.)

## Baltimore 4 1/2 Games Behind Bosox

# Time Creeps Up On Birds

By THE ASSOCIATED PRESS

Father time, the newest member of the Boston Red Sox lineup, keeps moving up in the batting order.

He turned a 1-1 split in the important Boston-Baltimore series into the Red Sox' gain and the Orioles' loss. And he seems to now have overtaken the Red Sox as the Orioles' real opponent.

"We sent them out of here the way they came in but now they have less time to try to make up," said Boston Manager Darrell Johnson after the Orioles beat the Red Sox 5-2 in the regular season finale between the two American League East powers.

Baltimore's victory pulled the Orioles to within 4½ games of the Red Sox, the same position they were in before they landed in Boston. The Red Sox have 10 games left; the Orioles 11.

Boston's magic number remained at seven. Any combination of Boston victories and Baltimore losses totaling seven will give the Red Sox the division title.

"It's gonna be hard," said Baltimore's Mike Torrez, who gained his 19th victory with eight-inning relief help. "We know we have to win every game."

Tommy Davis contributed a home run and two singles while Brooks Robinson pitched in with three singles in the Orioles' 13th attack.

Twins 2, Royals 1

The Kansas City is another team which seems to be running an inevitable losing race with the Royals.

The Royals lost to the Twins on Dave Goltz' seven-hitter and are eight games behind Oakland in the AL West with 11 games left.

White Sox 3, A's 2

Wilbur Wood slowed Oakland's drive towards another divisional title. Wood, who gave up three, including Claudell Washington's ninth-inning single, gave way to reliever Steve Hamilton.

Sal Bando then walked and was erased in a double play before Gene Tenace smacked his 27th homer of the year for the final margin.

Stennett collected three hits to give him 10 for two games, breaking the old record of nine held by many. The second baseman had seven hits in Tuesday's 2-0 rout of the Chicago Cubs.

The Pirates topped Philadelphia starter Tom Underwood, 14-12, for four runs on five singles in the third inning to take a 4-1 lead. It was more than enough for Bruce Kison, 11-11.

In the other National League games, the Cubs defeated the New York Mets 5-2; the Montreal Expos turned back the St. Louis Cardinals 6-3; the Cincinnati Reds routed the Houston Astros 10-1; the Los Angeles Dodgers beat the Cincinnati Reds 7-1 and the San Francisco Giants downed the Atlanta Braves 4-1.

Cubs 5, Mets 2

Ray Burris stopped New York on six hits and Don Kessinger contributed three singles and three runs batted in as Chicago beat the Mets.

Expos 6, Cardinals 3

Rookie Gary Carter powered a two-run homer and two-run single in his first two times at bat, leading Montreal over St. Louis. Both blows were of the season, Jerry Remy's bunt into rightfield allowing two runs to score in California's victory over Texas.

Angels 3, Rangers 2

## Ozark: It Would Take Miracle To Catch Bucs

By THE ASSOCIATED PRESS

It was a concession of sorts from Danny Ozark.

"It would take a miracle now," said the Philadelphia Phillies' manager.

He was talking about the pennant race in the National League East — or rather, the lack of one.

The Pittsburgh Pirates all but sewed up that division Wednesday night with a 9-1 victory over the Phillies behind hit-happy Hennie Stennett.

"We've got to win 11, and they've got to lose seven, just for us to get a tie," said Ozark, whose runnerup Phillies dropped seven games behind the East's front-runners.

"They've got a hot hand going. I can see us winning 11, but them losing seven ... well, I don't know."

The Pirates reduced their "magic" number to five for clinching the division title. Any combination of Pirate victories or Philadelphia defeats adding up to five will bring the Eastern championship to Pittsburgh.

"We came into Philadelphia and did what we had to do," said Stennett, who broke a

modern major league record with his hitting exploits.

Stennett collected three hits to give him 10 for two games, breaking the old record of nine held by many. The second baseman had seven hits in Tuesday's 2-0 rout of the Chicago Cubs.

The Pirates topped Philadelphia starter Tom Underwood, 14-12, for four runs on five singles in the third inning to take a 4-1 lead. It was more than enough for Bruce Kison, 11-11.

Rookie Gary Carter powered a two-run homer and two-run single in his first two times at bat, leading Montreal over St. Louis. Both blows were of the season, Jerry Remy's bunt into rightfield allowing two runs to score in California's victory over Texas.

## Picking The Winners

# Game Ball Up For Grabs

The game ball caused something of a controversy last week at Lake Howell High School's football game against Eustis.

Poor communications caused the misunderstanding, which sent many fans home grumbling, not so much about the loss to Eustis, but the fact they had been ripped out of a chance to win the pigskin.

They weren't.

The Lake Howell Booster Club raffles off the game ball each week at home games (50 cents a throw or three for a buck) as a money-making venture.

Confusion reigned when fans heard of the drawing and thought game tickets — all of which had been collected — were to be used to determine the lucky winner.

Not so, indicate booster club members. Separate tickets are sold, and in no way conflict with the price of admission.

Joe Clark, whose son plays on the Lake Howell Junior varsity, won the ball last week. This Saturday, it's a new ball game.

Hopefully, it will be a new ball game on the field, too.

Lake Howell sorely needs the victory — not so much for appearances in the win column, but for morale purposes.

Bishop Moore isn't a tiger on the prowl, but was denied victory also last week and the feeling here is that a little experience will go a long way, hinting that the visiting Hornets have a slight edge.

The Hawks should break into the scoring column, a couple times, in fact. But Bishop Moore's quarterback goes one better.

Elsewhere, the outlook is for Lyman and Oviedo fans to smile as they read accounts of their teams exploits, for Seminole to take a cakewalk Saturday night, but for Trinity Prep to stumble again.

Lyman might need some convincing after Oak Ridge wiped its feet on the Greyhounds, but has a sound football team. Proof will be in the pudding Friday night, and as always, there is one big "if." This is it spelled Mark Hutshell, and he's a pitcher. He takes the mound for Boone and will give the Hounds a stiff test in the secondary, if his blocking holds

up.

They say the way to stop the pass is get him before he throws. I don't know if Lyman can sack him enough to disrupt matters completely, but even if he does hit 10 completions, Lyman's offense will have to be reckoned with, too.

And of Seminole? Confidently, Mainland doesn't have a prayer, unless it is during the invocation just prior to the Star Spangled Banner.

Oviedo's fortunes are ready for a quick turn, and don't let that 53-6 score fool you. That was the result of a chain of reaction. The Lions were still in shock in the final quarter, but the numbness has worn off and the team is NOW ready to start

Trinity Prep will not like playing in Jacksonville.

Not against the Episcopal team. Cheer up Saints, your march toward the shining light begins next week at Tampa.

For the specifics:

Lyman 27, Boone 13 — A touch of irony in scoring 27 points.

Bishop Moore 19, Lake Howell 12 — Last afternoon game, parents, so bring your camera.

Seminole 28, Mainland 7 — As long as old man fumble doesn't stumble into the Seminole backfield.

Oviedo 20, New Smyrna Beach 14 — Lions control the ball and lead all the way.

Jax Episcopal 34, Trinity Prep 14 — Defense a big problem.

Dolphins Lack Receivers, Linemen

MIAMI (AP) — Miami Dolphins Coach Don Shula doesn't have to worry about a players strike. But he heads into the National Football League season with a critical shortage of receivers and defensive linemen.

Shula left himself with only three wide receivers when he cut rookie Morris Owens along with offensive tackle Tom

Wickert to get down to the 43-player limit Tuesday. While he worried about his receiving corps and injuries to the defensive line, he was cheered by a team vote not to engage in any NFL strike action.

"We voted not to strike in sympathy with the New England Patriots," said Ed Newman, taking over the duties of

Players, Owners Agree

(Continued From Page 1-B) played. "Assurances given me by the official representatives of the NFL Management Council have convinced me that they will on Monday, Sept. 22, present the players with not only a complete and total proposal but one that will be worthy of receiving every consideration for acceptance."

Shula decided to keep three tight ends, one more than usual, and leave rookie Freddie Solomon as the only reserve wide receiver despite the fact Shula admits Solomon isn't ready to help the team. "When it gets down to it, you want to keep your best football players," Shula explained of the decision to cut Owens. "I (tight ends) Jim McFarland and Jim

U.S. Ryder Cup Squad Said To Be Strongest Ever

LIGONIER, Pa. (AP) — America's Ryder Cup team, a 12-man squad that may be the strongest ever assembled, is an overwhelming choice to continue its domination in the biennial Ryder Cup golf matches against the best of Great Britain and Ireland this weekend.

injured player-representative Dick Anderson. "Miami voted to accept management council's six-point proposal and we disagree with Ed Garvey's objections to the proposal at this time."

Shula decided to keep three tight ends, one more than usual, and leave rookie Freddie Solomon as the only reserve wide receiver despite the fact Shula admits Solomon isn't ready to help the team. "When it gets down to it, you want to keep your best football players," Shula explained of the decision to cut Owens. "I (tight ends) Jim McFarland and Jim

SPORTS IN BRIEF

Florida Coach Says Experience Will Pay Off

TALLAHASSEE (AP) — Second-year Florida A&M Coach Hubbard says the main difference between this season and last should be a little more understanding.

Boosters Hilt to Indiana

BLOOMINGTON, Ind. (AP) — Six Indiana University football boosters will leave today on a 640-mile hitchhiking trip to Lincoln, Neb., for Saturday's game between the Hoosiers and Nebraska.

Arizona To Play In Madrid

MADRID (AP) — Arizona State University's basketball team will compete in Madrid's 1975 Christmas tournament, Dec. 24-26, it has been announced by officials of the Real Madrid team.

Youngsters 8-13, Prepare to Win!

Improve your chances of winning in the 1975 PPAK Pass & Kick Clinic by attending our free clinic. You'll get important "how to" tips from experienced football coaches. Get into PPAK, just bring your parent or guardian in and sign up. It's free. You'll get a free Tip Book and you can attend the clinic free. Sign up now!

Jai-Alai Play Resumes Tonight

FERN PARK — The Orlando-Seminole Jai Alai frontiersman launches a new season tonight with a 7:30 performance kicking off a 20-week campaign of pelota bouncing and quiniela picking.

Last year's win champion is back — Santi, the libe front-courier who started the season as an early games player, but took the top spot in feature competition.

There was little reason to believe that strong pro-strike action would be taken by the remaining 10 teams. The Ballis strike. Coach Bud Grant said he had excused them from practice. "I have respect for their feelings and will continue to have long and open communication," said Grant.

Other top favorites include Sala, Eddy, Yza, Apri, Javi, Erdoza, Mencha and Alana. Performances will be staged nightly at 7:30 except Sunday and Saturday.

### HOROSCOPE For Friday, September 19, 1975

**By BERNICE BEDEOSOL**

**ARIES** (March 21-April 19) An annoying situation is developing. It will cause you to smolder inwardly. Keep it cool. You can't do anything about it for a few days.

**TAURUS** (April 20-May 20) You tend to be most liberal with your purse among friends only today. The big spender role will net you neither respect nor dividends.

**GEMINI** (May 21-June 20) It's far better to complete one project before you move on to another day. Skipping around will make it tough for you and accomplish very little.

**CANCER** (June 21-July 21) Not everyone will dance to your tune today. Trying to force your friends among others will only increase their resistance.

**LEO** (July 22-Aug. 22) You can turn people off today by insisting upon that extra nickel or dime that really won't mean much. Give a little, gain a lot.

**VIRGO** (Aug. 23-Sept. 22) Steer clear of aggressive, dominating associates today. They'll try your patience to the point where you'll lash out at them—and later be sorry.

**LIBRA** (Sept. 23-Oct. 23) Anyone who tries to alter your routine will be in for tough sledding today. You'll not take kindly to change or criticism.

**SCORPIO** (Oct. 24-Nov. 22) Don't try to mastermind social activities. People are engaged in lighter divisions to have fun. You are just a bit too much the organizer today.

**SAGITTARIUS** (Nov. 23-Dec. 21) Keep an open mind. Yield a bit to a family member on how to handle a ticklish situation. His ideas have merit, too.

**CAPRICORN** (Dec. 22-Jan. 19) Your inherent tenacity is stifled today. You're too easily angered if what you're attempting doesn't succeed on the first try.

**AQUARIUS** (Jan. 20-Feb. 19) If it's your roker night, keep the stakes at a penny ante level. You're likely to stay in the pot with hands you should have thrown away.

**PISCES** (Feb. 20-March 20) Frustration is the order of the day for you. You'll do well to keep a low profile, take adversity in stride and rev up for tomorrow.

### WIN AT BRIDGE

**By OSWALD AND JAMES JACOBY**

**NORTH** 18  
 ♠ K 10 4 3  
 ♥ K Q  
 ♦ J 8  
 ♣ A 8 7 5

**EAST** 15  
 ♠ A J 6 5  
 ♥ 8 4 2  
 ♦ 7 3 2  
 ♣ K Q 10 9

**SOUTH** 7  
 ♠ A J 10 9 7 6  
 ♥ A 5 4  
 ♦ 2  
 ♣ 7 3

Neither vulnerable

West North East South  
 Pass 1 ♠ Pass 1 ♥  
 Pass 1 ♠ Pass 2 ♠  
 Pass 2 ♥ Pass 3 ♠  
 Pass 4 ♥ Pass Pass  
 Pass  
 Opening lead—K ♠

ruffed a diamond, ruffed another club and played two more rounds of trumps. South was down to one trump, one diamond and two spades. The simple play to make the hand would be to lead a spade toward dummy. But after considerable star gazing, South came to the conclusion that West held the last club and East the last diamond. In that case it didn't matter who held the ace of spades. South just led his last diamond. East had to win and lead a spade up to dummy's king.

A Virginian writes: "You are vulnerable and hold: ♠A ♠AKJ85 ♦K543 ♦A73 ♣A73. The bidding has gone one spade-pass-two spades. What do you do?"

We bid three hearts and got ready to duck if we get doubled. The hand is too strong for us to sit back and let our opponents play at two spades. You never get hurt if you never take a chance, but you never get anywhere if you don't.

### Ask the Jacobsys

**By Oswald & James Jacoby**

"Well," said North, "my overbid paid off."  
 "Deleted, deleted," said West. "If I had opened a trump it wouldn't have. In addition your partner had to really play the hand well."  
 South had given the hand a fine play. He took dummy's ace of clubs, led the jack of diamonds and let East hold the trick with the queen. East shifted to a trump. South won in dummy, ruffed a club, cashed the ace of diamonds.

## Extensive Manhunt Comes To A Close

### Hearsts Reunited; Patty 'Wants To Go Home'

**SAN FRANCISCO (AP)**—Her long and violent journey into the underground at an end, Patricia Hearst was reunited today with the parents she had renounced as pigs. Her father said she was ready to come home.

"She was happy... she really wants to come home," Randolph A. Hearst said after he and his wife visited their daughter at a county jail in Redwood City where she is being held on bank robbery and other charges.

"We told her we loved her and hugged her and kissed her," Catherine Hearst told newsmen at the jail. "We just said we loved each other."

The most celebrated fugitive hunt in the nation's history came to a swift conclusion Thursday with the capture of Miss Hearst and three fellow radicals. It had been 19 months since she had seen the parents she reviled for their wealth.

Asked if he would put the money to free his 21-year-old daughter, who is held on more than \$1 million bail, Hearst replied, "I think so."

Terrence Hallinan, attorney for the newspaper heiress who was kidnaped by members of the terrorist Symbionese Liberation Army on Feb. 4, 1974, said he would seek reduction of the bail at a hearing today.

An FBI official said, meanwhile, that the sudden and dramatic capture of the heiress-turned-terrorist came by accident when police went to a house here seeking someone else. Miss Hearst and her comrades were arrested without resistance, officers said.

"Don't shoot, I'll go with you," San Francisco police officer Tim Casey quoted Miss Hearst as saying when he and another officer entered her hideout in a house in a middle-class residential section of the city.

"We said, 'Don't move.' Patty said, 'All right' and we placed her under arrest," Casey said. "I asked her if she was glad it was over, and she just didn't say a word."

At the San Mateo County Jail, 35 miles south of here, where Miss Hearst and William and Emily Harris were taken following arraignment, another inmate said the newspaper heiress answered a question as to how she was caught by saying, "I wish to hell I knew."

"I said, 'It's been a long time since we've seen you,'" Evelyn Broussard said. "And she said, 'I wish it had been longer.'"

"We were just sitting there and two policemen just came through the door," Mrs. Broussard quoted Miss Hearst as saying. Mrs. Broussard, 23, who was being released on bail on a parole violation charge, said she talked with Miss Hearst while the latter was being booked.

Earlier, Miss Hearst, who faces both state and federal charges, smiled broadly and waved at reporters as she left the San Francisco federal courthouse in a tightly guarded caravan.

Mrs. Harris gave a clenched fist salute as the car pulled away.

The Harris were arrested about an hour before Miss Hearst and Berkeley artist Wendy Yoshimura, who was turned over to Alameda County, Calif., authorities to face a charge of possession of explosives.

## Storm Drenches Seminole; Rain Reaches 5.7 Inches

**By JANE CASSELLBERRY Herald Staff Writer**

A heavy thunderstorm drenched Seminole County Thursday night, dumping as much as 5.7 inches of rain, causing lightning and wind damage and leaving many areas in the dark.

The Sheriff's Department received reports of tornadoes touching down about 7:30 p.m. in the Geneva and Ovidio area with no known damage.

Zayre, Department Store in Fern Park was cleared of customers after a bolt of lightning burned a hole the size of a cup in the roof at 7 p.m., causing a deluge of rain water in the store. Manager Jim Christian said today repairs were being made on the roof and estimates cost of the damage will be minimal.

He said the opening was over the apparel department, but employees were able to get merchandise out of the way in time to prevent further damage. The County Fire Department was on the scene to help with flooding of streets in most sections. Douglas Avenue from SR 46 to North Street was reported flooded as was Academy Drive in Forest City. There was a washout at Lake and Lake in Sanford and Lake Mary Fire Department reported Canal Street in Park Ridge was under water.

Florida Power Corp. reported scattered power outages including the Wekiva Springs-Beechwater Oaks area, where power was off for four hours, and Longwood and half power was off for an hour-and-a-half.

Florida Power and Light in Sanford reported no serious outages although a transformer at Sandra's Fashions and two lateral fuses in other areas were knocked out by lightning.

## Low Cost Housing Plan Offered By Contractor

**By JOE ASKREN Herald Staff Writer**

A local building contractor Thursday night offered the Sanford Planning and Zoning Commission a plan to meet the need for lower cost housing in the area.

Paul D. Jarvis, chairman of the Builders' Forum, told commissioners the city's "zoning codes should be as flexible as the economic conditions dictate."

After more than an hour of discussion, the commission agreed to instruct City Planner Dave Farr to draw an ordinance up for the Oct. 16 meeting which would provide for two "new residential zoning districts."

The special districts would allow "lower to moderate" cost housing with construction of both multiple and single family unit developments.

"We're mostly concerned with the housing needs of working class people in Sanford with \$5,000 to \$12,000 annual incomes," said Jarvis. He estimated 80 per cent of the family population in the city are within this income bracket, and cannot afford homes of their own.

Jarvis said building permits issued for new apartments and homes in the city have dropped off about 37 per cent since 1973.

City Building Official Bill Braceland said today the total permits are down about 65 per cent.

"Housing should be made available to all people, not just the upper 15 per cent... In Sanford the lowest vacancy rate is our furnished efficiency apartments. The next would be the one bedroom houses," said Jarvis.

Jarvis, who is vice president of Cardinal Industries Inc., Sanford, blamed high land and construction costs, high interest rates and zoning laws "geared to the upper 15 per cent of residents" for the lack of available lower cost housing in the area.

"The housing market has deteriorated. Tenants are doubling up. There is a need for smaller homes and lower fixed costs. We need to return to basics," Jarvis explained.

Under these conditions, Jarvis said the reduction of square footage requirements is justified to provide needed lower cost housing.

Commission Chairman Arthur Hays said the city's minimum requirement is 700 square feet for a single family residence or for each side of a duplex.

"We should do away with our 'snob-type' zoning laws," said Jarvis.

Farr said the two new special residential districts to be drawn with different standards must be "carefully applied" to the city's existing zoning pattern in order to preserve existing property values.

He warned the needs of existing homeowners and (Continued On Page 2-A)

## Zoo Park Completion Deadline Nears

**By ED PRICKETT Herald Staff Writer**

County officials, at a meeting with a state official Thursday, decided \$12,000 in hard cash and a host of positive "ifs" are needed to complete the Central Florida Zoological Park by its December deadline.

Richard W. Froemke, the director of the state's Division of Recreation and Parks, informed county officials that the \$200,000 hard deadline expires Dec. 31.

Froemke and county officials estimated—with cuts outlined in Thursday's session—that the park project could be completed per grant specifications—but only if the federal government okays certain deletions, he said.

Also, the Zoological Society must make good its promise to pave the entrance road to the Central Florida Zoo. Plus, the county must provide about 200 parking spaces—the exact locations to be decided at a later date by county and society officials.

The successful completion of the project hinges on a lot of "ifs," according to Commissioner Harry Kwiatkowski.

Reduce the cost of entrance sign from \$2,100 to \$200.

Delete elevated walkways at a savings of \$7,140.

Delete a part of the \$17,000 sum budgeted for perimeter fencing by reducing the area to be fenced.

"It's just not practical to fence the whole area," Kwiatkowski noted.

Froemke warned that if some action had not been taken by the county by December, he would have "deactivated" the project and recalled the funds.

Though only \$18,000 of the \$200,000 grant remains, he indicated the county could have been held responsible for the entire \$200,000 expenditure—plus cost overruns.

However, he said that would happen only "over my dead body."

In closing arguments to the jury on Thursday, defense attorney David Porter argued that the state's evidence left reasonable doubts as to the guilt of his client.

Mrs. Kiley didn't testify but two of her four children did take the witness stand to tell the jury that Kiley, in weeks before the slaying, had beaten his wife and threatened to kill her.

During the early morning hours of June 7 Sanford Police received a telephone call from a woman who said she'd just shot her husband. Officers rushed to the Rudder Circle, Sanford (Continued On Page 2-A)

## Prosecutor Warns Businessmen Eager Merchants Can Become Bad Check Victims

**By AUDIE MURPHY Herald Staff Writer (Second of a Series)**

Actually, there are two different kinds of bad checks, according to Heffernan. Worthless checks are those that are written without enough money in the account. The criminal penalty for worthless checks under \$50 is up to a year in jail; for those over \$50 the penalty is up to five years.

The other kind of bad check is forged. In these instances the writer signs his name and cashes the check or receives property for the check.

"We recommend that businessmen get as much identification as possible," said Heffernan. "We've even recommended a fingerprint kit to obtain the person's thumb print on the check."

One of the problems in prosecuting bad checks cases, Heffernan said, is that usually merchants are interested only in getting their money back.

Another problem Heffernan cites is created when banks mutilate a check to prevent the computer from accepting it when it is returned repeatedly for payment. The banks sometimes, punch out the checks account number to accomplish this and Heffernan said this creates serious problems for prosecutors who must tie the check with the check writer.

Another factor the state attorney's office must take into account after Oct. 1 is a new law which gives added protection to the person who "mistakenly" writes a worthless check.

The law requires strict identification procedures at the time a check is taken and notification by registered letter if the check is returned for insufficient funds. The new law gives the check writer 20 days after receiving the letter to settle the matter.

Orange-Osceola State Attorney Robert Eagan says the 20-day waiting period will give professional "paperhangers" a chance to slip town.

"A lot of these people are transients," he said. "By the time we can issue a warrant for them they will be long gone."

Eagan said bad checks are on the increase and his office only sees 35 to 40 per cent of the bad checks that are being passed. He added that it might be wise for some merchants to get back to cash-only sales.

Assistant State Attorney Mathew Lear, who works with Eagan, said people often drive past half a dozen banks on their way to the grocery store, where they will pay by check.

He said grocery stores have become small banks, where people cash checks up to \$50 and sometimes payroll checks up to \$200. Lear said some check offenses occur when people write checks with the intention of putting money into their account at a later time. Then they neglect to put money into the account, and get into trouble.

A random sampling of Sanford banks revealed the banks usually bend over backward to help the individual who mistakenly writes a worthless check.

The banks will often call the person in for a conference, and one bank will even write to the merchant to explain the situation.

But all the banks polled revealed no sympathy for the habitual writer of bad checks.

The usual procedure in such cases is to notify the individual his account is being closed.

### WEATHER

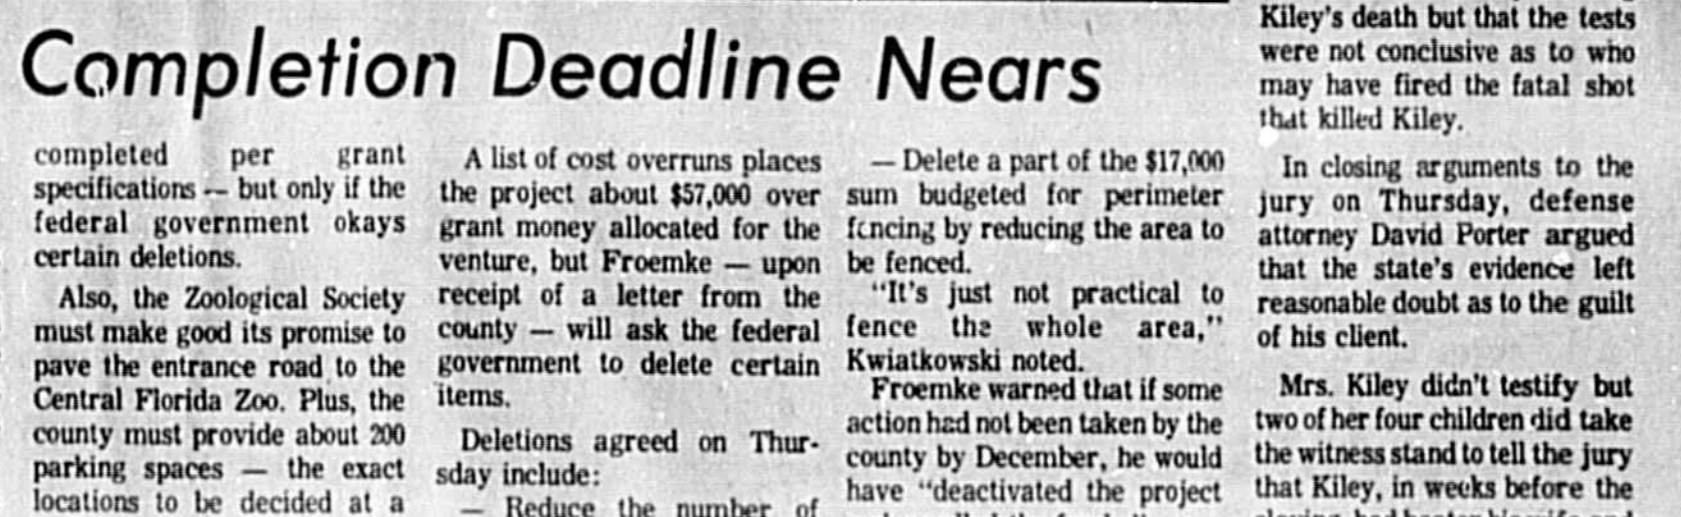

Thursday's high 91. Overnight low 66. Rainfall is 4.22 inches.

Partly cloudy to occasionally cloudy through Saturday. Thunderstorms likely, mostly during the afternoon and evening hours. Highs near 95. Lows in the low 70s. Southeast and south winds 10 to 15 mph, decreasing at night. Winds gusty near thunderstorms. Rain probability 50 to 60 per cent except 20 per cent at night.

Complete details and tides are on Page 5-A.

County firemen extinguished a fire during Thursday night's heavy rainstorm at the Upsala Road garbage transfer station west of Sanford. Public Works Department head J.C. Lavender said today the cause of the 11 p.m. blaze, discovered by a patrolling sheriff's deputy, hasn't been determined. "I don't know if the cause was lightning or not," Lavender said. (Herald Photo by Bob Lloyd)

Kiley Verdict Not In

**By BOB LLOYD Herald Staff Writer**

After eleven hours of deliberation a 12-member circuit court jury today gave no indication of reaching a verdict in the first-degree murder trial of Mrs. Betty Jean Kiley, 41, of Sanford.

The jury deliberated nine hours Thursday and at one point heard court reporter Norman Robbin read testimony of police officers that Mrs. Kiley admitted shooting her husband, Thomas R. Kiley.

The state contends Kiley, 46, was shot with a .22 caliber rifle on June 7 as he lay sleeping on a couch in the living room of the couple's 3114 Rudder Circle, Sanford, home.

After the jurors were unable to reach a verdict, which must be unanimous, a Thursday, Circuit Court Judge J. William Woodson sent them home for the night.

Today the jury requested and heard Robbin read back testimony of a Sanford Crime Lab chemist that police tests made on the hands of the defendant, the dress and two of their children showed that all had handled a firearm within the 24-hours preceding Kiley's death but that the tests were not conclusive as to who may have fired the fatal shot that killed Kiley.

In closing arguments to the jury on Thursday, defense attorney David Porter argued that the state's evidence left reasonable doubts as to the guilt of his client.

Mrs. Kiley didn't testify but two of her four children did take the witness stand to tell the jury that Kiley, in weeks before the slaying, had beaten his wife and threatened to kill her.

During the early morning hours of June 7 Sanford Police received a telephone call from a woman who said she'd just shot her husband. Officers rushed to the Rudder Circle, Sanford (Continued On Page 2-A)
