

## FIRE DESTROYS EPISCOPAL CHURCH BUILDINGS

### OPPOSITION TO NON PARTISAN CABINET RESULTS IN FAILURE OF ALBERT TO FORM MINISTRY

#### RELINQUISHES TASK OF CREATING NEW MINISTRY

#### PARTIES OPPOSE

Efforts of Dr. Heinrich and Germany Still Left Without Government After Interval of Four Days

(By The Associated Press) LONDON, Nov. 27.—Dr. Heinrich Albert has relinquished the task of forming a ministry for Germany, according to a dispatch received here today from Berlin.

Germany thus is still without government after interval of four days since the resignation of the Stresemann ministry which, however, is still nominally functioning ad interim. Dr. Albert's lack of success was attributed to decision of all political parties in Reichstag to oppose non-partisan cabinet.

Dispatches received last night from Berlin stated that Dr. Heinrich F. Albert up to late last night had not officially attained the rank of seventeenth chancellor of Germany. Obstructionist tactics by the Reichstag leaders have so far prevented him from winning over sufficient support and available candidates for the cabinet posts to warrant his appearance in an official capacity before the Reichstag or otherwise vouchsafe him the Reichstag's tolerance as head of a non-political ministry.

The three day's crisis again reveals the familiar picture of partisan jealousies and insistence on traditional parliamentary prerogatives, which the old line party leaders feel have been violated by President Ebert in the selection of Dr. Albert, who is viewed as an intruding outsider, aside from the fact that he is wholly without party affiliation.

President Ebert, however, thus far is apparently determined to permit Dr. Albert to exhaust all possibilities before yielding, or decreeing the Reichstag's dissolution, and late last night informed the party leaders who sought an interview with him that he would receive them today.

#### ARREST COMMUNISTS.

(By The Associated Press) BERLIN, Nov. 27.—Several prominent Berlin communists were arrested today as a precaution following the circulation of a report, which came to the hands of authorities that Moscow had called upon Berlin communists to undertake bloody provocations this evening.

#### Police Believe That Banker Killed Self

(By The Associated Press) NEW ORLEANS, Nov. 27.—Chas. Straymond, 45, vice president and cashier of the Citizens Bank & Trust Company here was found dead in a garage of his home today with a bullet hole through his head. A revolver was found beside his body and police believe it was suicide.

#### Detective Begins To Serve Delayed Term

(By The Associated Press) CHICAGO, Nov. 27.—The cell door clanked behind David S. Groh, head of a local detective agency today, when he began serving an indeterminate sentence of from one year to life after the conviction a year ago on the charge of manslaughter in connection with the killing of a policeman with his automobile. The supreme court denied rehearing.

### CITY COMMISSION AUTHORIZES WORK ON SEVEN STREETS

Preliminary resolutions requiring the widening and paving of a number of Sanford's streets were passed yesterday by the Board of City Commissioners at its regular weekly meeting.

The following streets are included in the resolution acted upon:

The widening of Sixth from Myrtle to Laurel streets, from 16 to 24 feet.

Paving of Palmetto from Fifteenth to Central to a width of 24 feet.

Paving Palmetto from Central to Hughey to a width of 24 feet.

Widening of Cypress from Union to Ninth street, from 16 to 24 feet.

Widening and paving Ninth from Cypress to Sanford Avenue, from 16 to 24 feet.

Widening Seventh from Magnolia to Pine, from 16 to 24 feet.

Widening Commercial from Park to Palmetto, from 16 to 24 feet.

### NEW UNIFORM FOR POLICE PROVIDED

Members of the Sanford Police Department will soon be sporting brand new uniforms, thanks to the City Commissioners who yesterday authorized the department to provide suitable attire for all members of the force.

Members of the department suggested a uniform costing \$28 but Mayor Lake quickly spoke up and told them to get a \$35 suit as it would look better and stand the wear.

### LATE WIRES

(By The Associated Press) BRADENTON, Nov. 27.—Walter U. Tucker today received notice from Governor Hardee of his appointment as county judge to succeed Cary B. Fish, resigned.

### NOT TO TAX OPERAS.

ATLANTA, Ga., Nov. 27.—Georgia senate today refused to write into the general tax act a levy on grand opera which has existed for many seasons.

### LEGION NOT CONCERNED.

ORLANDO, Nov. 27.—State's Attorney Maguire authorized a statement today that the American Legion is in no way connected with the prosecution of John Clore on trial for alleged murder of Alexander P. Boyer, former service man. The selection of a jury was completed this morning and the hearing of evidence was scheduled to begin this afternoon.

### COOLIDGE'S POSITION

WASHINGTON, Nov. 27.—President Coolidge's position on the Philippine independence question is based on the belief that the United States should withdraw from the islands as soon as it considers people there capable of self-government. To this end the president feels excellent progress is being made.

### PASSES BILL OVER VETO.

MANILA, Nov. 27.—Bill remitting penalties on the delinquent land tax payers vetoed by Governor General Wood, was unanimously passed over veto today by the Philippine legislature. The bill now goes to Washington for President Coolidge's consideration.

The Daily Herald 15c per week.

### MARKETS

(By The Associated Press) NEW YORK, Nov. 27.—December cotton contracts jumped to 36.10 at the opening of the market today. Overnight advance of 50 points and the highest level since 1920. The advance was due to strong English cables and bullish spot reports from the south.

CHICAGO, Nov. 27.—Wheat, Dec. 102 1-4 to 3-8; May 107 7-8 to 108; Corn, May 72 7-8 to 73 1-4; Oats, May 44 3-4.

NEW ORLEANS, Nov. 27.—December 35.27; January 35.44.

### Youth of City Suffer Great Loss In Burning of Historic Church

Holy Cross Episcopal Church destroyed by fire this morning was one of the old historical landmarks of this city being among the first religious structures to be erected here. The first Episcopal church was built at the corner of Magnolia avenue and Fourth street and stood where the Rectory was burned this morning. This first church was built on the plot of land donated by General Sanford when he laid out the city of Sanford and the First Episcopal Church received much assistance from him and his family.

General Sanford donated land for all churches in Sanford both white and colored when this city was mapped and after he was made American ambassador to Belgium in the Lincoln administration he obtained a cathedral bell in Belgium and this bell was in the belfry of the church when it burned today.

The First Episcopal Church was built in 1873. This structure was blown down in the storm of 1880 the tower falling first and crushing the church building. The church was then rebuilt at the corner of Park avenue and Fourth street and was completed in 1883-84. There were many beautiful windows in the church and several fine oil paintings. One painting of the "Crucifixion" was done by one of the old masters in Europe and was presented to the church by General Sanford. A beautiful stained window of the "Crucifixion" was said to be one of the most handsome windows of the kind in America and was presented to the church during the administration of Rev. Carpenter.

The real work of building the big plant of the Holy Cross church began with the administration of Father Peck, the present rector, who brought with his work the great love for boys and the intense desire to do something for them in a big way. Father Peck started the Parish House first and this immense building was erected about ten years ago or the first year of Father Peck's ministry. About one year ago the Parish House has a large addition built that gave the building a much better seating capacity, a good stage and many other advantages and it has been a general gathering place for the people of this city and county and its loss will be felt by everyone.

All the basket ball games

were played in the Parish House, parties and amusements, entertainments of all kinds and it has filled a large place in the minds and hearts of the people and especially the young people. In connection with the Parish House Father Peck backed by the St. Andrews Brotherhood and the Men's Club and the public spirited people of the city built the bowling alleys, the Brotherhood rooms and other buildings that housed the pool room and amusements of all kinds where the young men and boys of the city could be made comfortable with reading rooms and every form of athletics and sports. It was one of the most complete plants of the kind in this part of the state and young men of all denominations made use of it since the use of this plant was not confined to the men and boys of Holy Cross but was thrown open to everyone and all were made welcome under the broadminded policy of Father Peck who has been a father in deeds as well as in name to all the boys of Sanford.

With the many improvements in the Parish House made last year the Men's Club had taken on another ambitious program for the work this year that included all manner of athletics and while the disaster of this morning will retard the work for the time being this great work begun by Father Peck will not be allowed to die but with the Sanford spirit will go ahead as never before and from the ashes of the old Parish House and Brotherhood rooms and other buildings will arise new brick buildings of the latest type and with everything for the benefit of the boys and young men of the city and Father Peck will some day in the near future see a finer church, a new rectory and a new Parish House and buildings of all kinds to house one of the finest and best plants for the making of young manhood that the state can boast.

It was the only place in the city where all these amusements and athletic sports could be staged and all the activities of this sort will still revolve around the church and the rector who has done so much for the youth of the city and the man who has worked wholeheartedly for this great plan for so many years and his plans will not be lost but will be made bigger and better for the years to come.

### LOSS ESTIMATED OVER \$75,000; BUILDINGS RAZED BY FLAMES WHEN WATER PRESSURE FAILS

#### Residence of J. Beck a Total Loss But Some Furnishings Were Saved—Cause of Fire Unknown But Started in Bowling Alley of Brotherhood Building—Church Suffers \$50,000 Loss Partly Covered By Insurance—No One Injured

Fire of unknown cause early today completely destroyed the entire plant of the historic Holy Cross Episcopal Church, rectory, Parish House, Brotherhood of St. Andrew's building as well as the residence of J. Beck on Magnolia avenue, the loss being estimated at approximately \$75,000.

Lack of water pressure hindered the fire department in their fight against the flames and only after repeated efforts was sufficient water secured to force a stream twenty feet high, according to those who witnessed the conflagration.

Fire Chief Paxton stated this morning that there was only twenty pounds pressure for the first six minutes after the water was turned on. The call was received by the department at 4:45 a. m., and in three minutes the firemen were on the scene, according to Chief Paxton. "We fought the fire for forty minutes with the water shut off" the chief added. Policeman Walker stated that he drove to the Southern Utilities plant only to find the pressure off.

### INTERRUPTION OF SERVICE ACCOUNT OF FALLING WIRE

According to Manager H. R. Rosebro of the Southern Utilities Company—Statement is issued.

Interruption of the high pressure water service early this morning was due to the automatically cutting off of electric service by falling wires at the scene of the fire, according to H. R. Rosebro, manager of the Southern Utilities, who issues the following statement covering the situation: "The call was received at the pumping station for fire pressure at 5:55 and fire pressure was immediately furnished and continued until the electric current in the city was automatically cut off at 6:10 by wires falling in the alleys and streets near the church. These wires were cleared rapidly as possible and electric service was resumed in the city at 7:30.

"During the time that we were unable to continue the electric service, due to the danger from fallen wires, pressure was maintained on the water mains from the elevated water tank, with the exception of a few minutes interruption, which occurred when the electric current was cut off and while changing the water valves at the pumping station. Also during the time that the electric current was off, the gas engine was operated to furnish electric service at the pumping station for the operation of the electric pumps.

"The interruption of phone service resulting from the fire delayed the clearing of fallen wires from the streets, due to our inability to communicate by phone with the resident pumping station and power plant. "The above statement is based upon reports to me from employees of my company and from the recording gauges and other instruments and other instruments and is, to the best of a true statement of the facts."

### S. O. Chase Nominated By City Commission

S. O. Chase, was declared the nominee to succeed himself on the board of city commissioners, when that body met in regular session yesterday afternoon. The petition presented asked that Mr. Chase's name be placed on the ballot for the election in December, contain 26 names of qualified voters and as there was no other names presented Mr. Chase was declared the nominee and his name placed on the ballot.

HONOLULU, Nov. 27.—Louis Edwards, who admits he is one of six prisoners who escaped from Eastern Pennsylvania penitentiary at Philadelphia July 14, according to the police, was arrested here today. He also said to have escaped from the road camp at Lutz, Florida, where he was serving six years' sentence after being sent up from Jacksonville.

When the flames were discovered by Father Peck, rector of the church, after calling the department, he assisted his aged mother from the rectory. Although the rector saved many of his household effects from the first floor, everything on the second floor was lost.

According to A. P. Connelly, Father Peck sustained a personal loss of \$20,000, including a priceless collection of books in his library which was a complete loss.

It is estimated that the church suffered a loss of \$50,000 with an insurance of \$10,000. The loss of the home of Jay Beck, 410 Magnolia avenue, is estimated at \$10,000.

Father A. S. Peck, rector of the Holy Cross Church gave the following account of the fire to a Herald reporter early today:

"I discovered the flames about five o'clock, first thinking that the reflection was caused by the rising sun, but when I looked out I realized that I was mistaken. I saw the flames under the gables above the bowling alley and smelled the smoke as it poured from the building. My first thought was my mother. After waking her, I went to the telephone and called the fire department.

"Then I went out and called 'Fire' and got Mr. Bennett out. I then heard the fire engine as it advanced on Park avenue. But there was no water. A bucket of water might have put the fire out when it was first discovered.

"When I saw that the rectory would go I went to the church and saved my vestments. I cannot tell just how the fire started. The Knights of Columbus and the Brotherhood boys enjoyed a bowling game last night after which I visited the building and found everything all right.

Continued on page 3.

### American Legion Gets Aid of Commissioners

When the city commissioners met in regular session yesterday afternoon a committee representing the Campbell-Lossing Post No. 53 of the American Legion appeared requesting co-operation of that body in their effort to provide a new home for that organization.

The commissioners agreed to turn to the Legion boys the pavilion now located on the lake front and agree to try to arrange with the Atlantic Coast Line Railway to lower their spur track east of the new location for the legion club house to the elevation of the top of the bulkhead wall and to procure an easement to properties between Park and Myrtle avenues, parallel to the bulkhead so that traffic may follow the proposed route of the boulevard.

The city also agreed to furnish rock salvaged from the construction of Park avenue so as to subside the sand sufficiently to permit traffic between Park and Myrtle avenues.

DELAND—Maurice Foster has been elected president of the Sophomore Law class at Stetson University. Deacon Jones is vice-president, Miss Howard, secretary, and Kenneth King, treasurer.

# PETS! Man Has Snakes as Household Favorites, Lets 'Em Frolic in Bedroom and Kitchen

BALTIMORE, Nov. 24.—Surgery, radium and—nakes!

Dr. Howard A. Kelly, world-famous surgeon and probably the foremost authority on radium in America, is a lover of snakes. He has caught thousands, over a period of 62 years, and has been bitten by every variety of poisonous reptile on the continent.

Snakes take the place of dogs and cats in Dr. Kelly's household. A dozen roam at liberty through his four-story residence and rats and mice are unknown. He houses a seven-foot Coluber Constrictor, or Highland Blacksnake, to dispose of the larger rodents and several Florida Corn Snakes make short shift of mice.

Recently the doctor was heart-broken when he discovered a King Snake had wandered from his bannick in the dining room and made breakfast of a Hog Nosed Viper, in the pantry.

Dr. Kelly is a charter member of a national society for the protection of reptiles. Yearly he makes auto excursions to Baltimore's outskirts to repopulate snakes on Baltimore county farms. They are indispensable in diminishing rodents, he said, but he has yet to receive thanks from the farmers.

Recently Dr. Kelly returned from a camping vacation in Canada, where he had made a vain search for a specimen of Storeria Occipito-

maculata. A few days before his return he shot a large hawk and as the bird fell it vomited forth a specimen of the rare reptile.

Dr. Kelly insists the venom of reptiles is greatly exaggerated. Last year, in Florida, he was bitten by a Copperhead and a companion was the victim of a Rattler. Both recovered but the doctor admits he suffered for six weeks.

Asked whether Mrs. Kelly objected to reptiles, hop-skip-and-jumping over her carpets, Dr. Kelly replied she has cared for the collection of "pets" during his vacation, and all seemed fat and happy upon his return.

## AMUSEMENTS

### AT THE MILANE

At the Milane tonight, a screen play is so out of the ordinary run of feature films it startles and, on occasion, even terrifies the spectator. It is Glodwyn's picture, "A Blind Bargain," based on a story by Barry Pain, one of England's best and most popular writers of short stories, called "Octave of Claudius." The story is melodramatic, unusual, thrilling and tingling. Seldom, if ever, has the screen been able to induce so creepy a sensation in the nervous systems of spectators as "A Blind Bargain." It is melodrama that reaches the brain as well as the spinal column.

The story concerns one Dr. Lamb, a half-mad surgeon who believes that he can demonstrate the truth of evolution by turning back into ancestral physical and mental conditions through grafting monkey glands into the bodies. He is attacked by a half-starved struggling author Robert Sandell, but easily overcomes him and takes him home. There he learns young Sandell's story he can not make enough money to give his sick mother the medical and hospital treatment she needs to save her life. Dr. Lamb says he will restore Mrs. Sandell to health, furnish the youth with plenty of money on the condition that, at the end of a stated time, he deliver himself over to the surgeon to do with as he will in the pursuance of his experiments. Frantic with worry about his mother, the youth consents.

### CONCERT TONIGHT

Mrs. Stuckey, a pianist and prominent musician from South Carolina is donating her services for the Sanford Women's Club building fund concert to be held tonight. Assisting artists will also give their services.

Mrs. Julius Takach, soprano, a trio and chorus of women's voices will also be featured on the program.

## BOND ISSUE FOR STATE ROADS WILL BE DECIDED SOON

If Next Session of Legislature Will Pass a Bill.

(By The Associated Press)

TALLAHASSEE, Fla., Nov. 20.—The next session of the legislature will see a renewal of the fight for a \$50,000,000 bond issue, the proceeds to be used in building hard-surfaced highways throughout the state, according to present indications. A bill to that effect was introduced at the last session by Senator E. J. Etheridge of Highlands county, but failed of passage. Senator Etheridge says, however, that interest in construction of better roads throughout Florida is growing to such an extent that the anticipates less opposition to such a bill by the time of the next general assembly, in 1925.

One of the greatest obstacles to big bond issues heretofore has been hesitancy on the part of the voters to break the state's record of being practically without bond issues, but officials who have made a study of the road question are of the opinion that the proposition may be seen in a different light once the citizens of the state realize that a bond issue can be carried with comparative ease. These same officials, in discussing the question, direct attention to the backwardness of Florida as compared to other states, in road-building programs, and suggest that unless a larger vision is seen and bigger program outlined and carried out Flor-

ida will lag behind her sister states in this important phase of development.

Attention is called to the fact that North Carolina is making rapid progress in its \$75,000,000 program, that California has spent approximately \$70,000,000 within the last two or three years, and several other states are agitating the proposition to provide funds to build hard-surfaced roads to all points within their boundaries.

The Lakeland Star-Telegram, in a recent issue, reproduced figures it quoted from the Avon Park Pilot, in which it was pointed out that the \$3,000,000 yearly now provided for the state road department can be made to "build the entire state road system—NOW, not tomorrow. That \$3,000,000 per can be made to please everybody."

"Building 2,500 miles of state highway would cost \$75,000,000," it was suggested in connection with a statement that 2,500 miles of hard-surfaced roads were needed in the state. "But the state has built nearly 500 miles of these already and counties have built close to 1,000 miles. That leaves about 1,300 miles and these would cost only \$45,000,000—and the entire six-road system would be complete."

"The interest on state bonds would cost less than \$2,000,000 per year, leaving 1,000,000 per year in the sinking fund, which would retire the bonds in about thirty years," said the Star-Telegram's quoted article. "Another good reason is that the state can borrow money for four per cent, while our counties are compelled to pay 5 1-2 and 6 per cent, representing a saving of nearly three quarters of a million dollars per year," it went on, adding that with such a program the present cost of \$30,000 a mile probably could be reduced by inviting the biggest contractors in the world to bid, bringing increased competition.

"And finally the economies, these savings would undoubtedly enable the state to save something like \$10,000,000 for building lateral road connections.

"The legislature could make absolutely sure. They could order preliminary surveys made," said the Star-Telegram in concluding the quotation. "They could place adequate data before responsible engineers and determine the cost almost before hand. They could stipulate what each road was to get, and that the roads must be complete with the funds at hand. Then with this data before us, all Florida could vote intelligently on the program. It would then be a question of oads or no roads."

## COMMISSION WILL RELIEVE SHORTAGE

Continued from page 1.  
A complaint had been registered against the shortage, and the matter was taken up with the federal body by the state commission.

Instructions have been given, the American Railway association that all railroads owned refrigerators released in the Pocahontas and southern districts, and also on the Baltimore and Ohio and Pennsylvania-lines in the east be moved to Florida, the telegram said. It has been further arranged with the Santa Fe to divert all their cars released in Southern and Pocahontas districts, and 25 per day on the Pennsylvania and Erie roads to Florida. In addition the Pacific express have authorized sending their cars from the same territory and some from eastern territory to Florida, according to the message.

"The Fruit Growers Express people think this will fully meet all needs and soon eliminate any shortage of cars in ventilated service," the telegram concluded. "Shippers should use ventilated box cars for destinations to which they are safe."

### SECTIONALISM OF STATE RETARDING ITS DEVELOPMENT

Says Prominent Edition—Better Understanding Must Come if Prosperity Continues

EUSTIS, Nov. 27.—What Florida most needs is a better understanding and a more intimate relationship between the sections; a co-operation and co-ordination of efforts on the part of a united citizenship for the up-building of the state as a whole, according to Mr. A. D. Miller, editor of the Eustis Daily Lake Region.

"South Florida accuses north and west Florida of being unfair in the matter of representation in the state legislature and of appropriating more than her share of funds for public roads and other improvements, and north and west Florida retort by saying that south Florida is the most prosperous section of the state and is outstripping other section in population and wealth and ought to be able to take care of herself," he continues. "On most measures vital to the whole state the legislators from the different sections antagonize each other from personal or sectional differences. As a result the statute books of Florida are filled with unnecessary local laws, some of them worse than useless—positively harmful."

"So long as this state of affairs exists it will be impossible to enact broad and comprehensive measures which would best serve the interests of the entire people," says Mr. Miller. Florida needs a legislature, the members of which are big enough and broad enough of arise above petty sectionalism, agree upon a few constructive measures, the enactment of which will redound to the good of the entire state, do away with a number of boards and commissions which are not performing service commensurate with the cost of their operation, repeal unnecessary local laws on the statute books, followed by the citizens of all sections working in conjunction for the progress and development of Florida as a whole."

### Engineers Association Campaign Adding Many New Members

For the past three weeks the active membership campaign of the Association of American Engineers has been on principally in its preparedness stage but even in that phase of the work itself everything has pointed to ultimate success. They have been waiting for the traffic signal "T Go" and now that the white light of the get-away has been flashed, they have thrown in the high gear.

The National Board of Directors, in studying the problems of a membership campaign this fall, were convinced that the policy of emphasizing a high standard for new members should have a controlling influence. To this end, it was decided to put the actual control of the campaign, as far as possible, under the direct supervision of the chapter officers. The systematic campaign carried on uniformly through the Orlando chapter is supported by the individual efforts

Mr. Geo. E. Heller of Eustis, is president of the chapter, Mr. J. E. Walker, of Ocala, is first vice-president; Mr. E. J. Close of Tavares, is second vice-president; Mr. Chas. A. Browne and Mr. A. H. Reppard of Orlando, form the executive committee; Mr. H. G. Hatch of Eustis, is secretary and treasurer, and for the special work of this drive, Mr. E. J. Close was appointed general, to further the campaign.

The officers of the chapter and their appointees for the special campaign organization have already been doing splendid work. The board of directors and national officers have had the opportunity to see the remarkable response and the feel of the intense loyalty which is actuating active, hard

### RECOMMENDS FOLEY KIDNEY PILLS.

"Your medicine worked a miracle for me," writes Mrs. C. Biron, 140 Fayette Street, Lynn, Mass. "I was all run down, had a cough all winter, also kidney trouble and after taking a few boxes of your medicine my cough and headache left me. I can eat and sleep well. I canvass and recommend it at every house I enter." Prompt relief secured from kidney and bladder irritation, rheumatic pains through using Foley Kidney Pills. Insist on the genuine—refuse substitutes. Sold everywhere.—12-1

### LIFE ISS CHOOST VUN TING AFTER ANUDDER

working chapter officials throughout the country.

For every member of the association this is the time to repledge his service to the A. A. E. wherever he may be. If he is located in the home of a chapter where a definite team of organization is being built up, he will find his place and great pleasure in supporting his chapter general. Offer him your services. If he is located outside of the immediate field of a chapter team organization, he is considered a team by himself. President Benham's letter in the November issue of "Professional Engineer," the national organ, outlines very clearly the steps and meanings of the campaign.

The jurisdiction of the Orlando chapter extends over the following counties: Marion, Sumter, Lake, Seminole, Orange, Osceola, Polk, Hardee, Dade, Highlands, Levy, and that part of Charlotte county southeast of Charlotte Harbor.

Every member has received a letter requesting that he submit to the chapter general, the names of prospects. The basis of the campaign has been laid in the material thus presented for active canvassing. Each member is a committee of one to complete these lists, which will be turned over to the qualification committee for action.

There is every indication that the chapter's membership will be increased over 200 per cent by the end of this campaign.

On November the tenth, the "campaign dinner" was held at the Foun-

tain Inn, Eustis, at which was launched the actual campaign, into the public mind, for fruitful results. Mr. Willis B. Powell, "dean of Commercial Secretaries," was unanimously elected honorary member of the chapter. At this meeting, Mr. Powell, made a speech on the subject of "Organization," which was forcefully true as regards the power of men united. When a body of men make up their minds to do a thing, they can do it just as well in a few days, as they can in several months, and probably do it better, so this campaign is being punched hard from all sides. The prospects themselves will be circulated with literature presenting a strong case for their consideration of membership in the A. A. E. The page

has been laid down from headquarters, and the individual member will pick off his man, as he is properly spotted.

The campaign will come to a grand close with the banquet to all friends and members of the chapter to be held the first part of December. Then the smoke of battle will be cleared up and the victory of the American association will be rejected in on all sides, and the object and cause for existence of the association will be even more publically approved than before. The constitution names as the objects: "To promote the Social and Economic Welfare of the Engineer." To stimulate Public Service in the Profession and to Encourage and Develop the Agency of the Engineer."

The Herald delivered each evening at your door for 15c per week.

# PROVINCE OF A WOMAN PLAYS IMPORTANT PART IN CELEBRATION OF THANKSGIVING

HAS LONG AND MOST CURIOUS HISTORY

of the Union—Lincoln's Successor Appointed Thanksgiving Day as the Last Thursday in November

The celebration of Thanksgiving day has a long and curious history, in which it is the province of a woman to play no inconspicuous part. The earliest aspect of the day takes us back to the chronicles of the Israelites, among whom there is mention throughout the Bible of days set apart for special thanksgiving unto the Lord. Later the custom was not uncommon in England before the Reformation, and was taken up and continued by the Protestants afterward.

Thus it was that its inception there was no regularly appointed time for this celebration. Sometimes it would be observed once a year, sometimes twice, and then perhaps a year or two would be skipped—according as reasons for thanksgiving presented themselves or not.

Among the colonists it was customary for the president to issue a proclamation recommending that the people cease from their ordinary occupations and observe a day of thanksgiving, with proper ceremony, at some specified time, but it was usually left to the governors of the various states to determine whether there should be such a day, and when.

This irregular course and unofficial-like treatment of the observance might have continued in vogue indefinitely but for the well-directed and strenuous efforts of Mrs. Sarah J. Hale, editress of Godey's Lady Book. She realized, perhaps more forcibly than others at the time, that the celebration of Thanksgiving as then observed lacked character and impressiveness, which could be remedied only by the adoption of measures bringing the people to concerted participation on this occasion. Therefore she assumed and devoted herself to the task of writing to all the governors of the different states and territories, urging upon them the propriety of a national thanksgiving, and suggesting the last Thursday in

This turkey feels all dressed up. Mitzi actress, is giving the gobbler her best attention, for it was bought for her Thanksgiving dinner. It isn't every turkey that will have the honor of being eaten by a noted actress. Lucky bird!

November as the day for such celebration. She continued to write these letters year after year, and was finally rewarded for her efforts by all the governors, excepting two, granting her request.

However, the people's response was not enthusiastic, and during the Civil war, especially in the South, the custom lagged.

Immediately after the battle of Gettysburg Mrs. Hale wrote President Lincoln, inclosing a copy of George Washington's first proclamation, and suggesting that he also proclaim a day of national thanksgiving. The President acted upon her suggestion and issued a pro-

clamation "for the observance of Thursday, August 16, as a day of national thanksgiving, praise and prayer."

From that time on the celebration of the day lost its local and variable character and took on the fitting dignity of a national and state ceremony. Lincoln's successor appointed the last Thursday in November as Thanksgiving day, and the date has continued unchanged ever since.

Thanksgiving day is a legal holiday in every state, territory and possession except Utah, where it is observed, though not on the statute books.

## FINANCIAL SHAPE OF EUROPE SHOWN IN REPORT TODAY

Analysis of Finances by Experts Made Public at Geneva—Interesting Figures Are Given

GENEVA, Nov. 26.—In view of present plans to hasten a settlement of the reparations, if possible, of the United States, special interest attaches to a review of the financial position of 14 countries, mostly European, together with certain remarks on the German reparation question, contained in a memorandum issued by the League of Nations.

The report shows that in most countries a retrenchment policy has been adopted and considerable savings have been effected, although the ever-increasing burden of the public debt has in many cases swallowed up what may have been saved by cutting down the administration. The development of the public debt has been compared with the changes in the price level, i. e., the nominal amount of the debt has been divided by the wholesale price index-number, and in this way reduced to pre-war price level. When this is done it is seen that the French debt has risen to three times the amount of the pre-war debt, the British debt to seven times the amount, and the American debt to nearly 13 times the amount of the pre-war debt.

At the same time, it is pointed out that before the war France had per head of her population, a much higher debt than Great Britain or the United States and also that, in these two last named countries, deflation has considerably increased the public debt. It is rather remarkable, says the report, that the two countries in which the public debt shows the greatest real increase are the only countries which have been able to make any substantial repayments of their debts.

### Thanksgiving Menu

Look for our Thanksgiving Menu in Wednesday's Herald.

### SEMINOLE CAFE

Leaving out of account Germany, where the interior debt has been practically wiped out by the enormous inflation, the country which can boast the smallest increase in its public debt is Finland, and after Finland come South Africa, Switzerland and Sweden. Special care has been taken to pre-

sent full information regarding foreign debts and claims on foreign governments. The debt is shown both in the currency in which it is payable and in domestic currency, the rates of conversion being indicated in each case. The act passed by the United States Congress for funding the British debt is quoted, and other im-

portant statements of international indebtedness are also set out. It is interesting to note, concludes the report, that private individuals of the Netherlands, Sweden, and Switzerland have to a great extent repurchased the loans issued these countries in America during 1919, 1920 and 1921.

### THREE CONCRETE HIGHWAYS GREAT NEED OF THE STATE

Prominent Editor Believes That Trunk Lines Should Be Built to Georgia State Line.

(By The Associated Press) TALLAHASSEE, Fla., Nov. 26.—Florida's greatest need is two or three great concrete highways extending from the Georgia line to or near the southernmost tip of the Florida peninsula, according to the view of H. C. Sparkman, editor of the Daytona Morning Journal. The opinion of Mr. Sparkman is expressed in a letter addressed to The Associated Press in response to a query. The letter in full follows: "In my opinion Florida's greatest need, one overshadowing in importance all else, is two or three great concrete highways extending from the Georgia line to or near the southernmost tip of the Florida peninsula. Given these highways and intersecting and cross-state highways will follow rapidly.

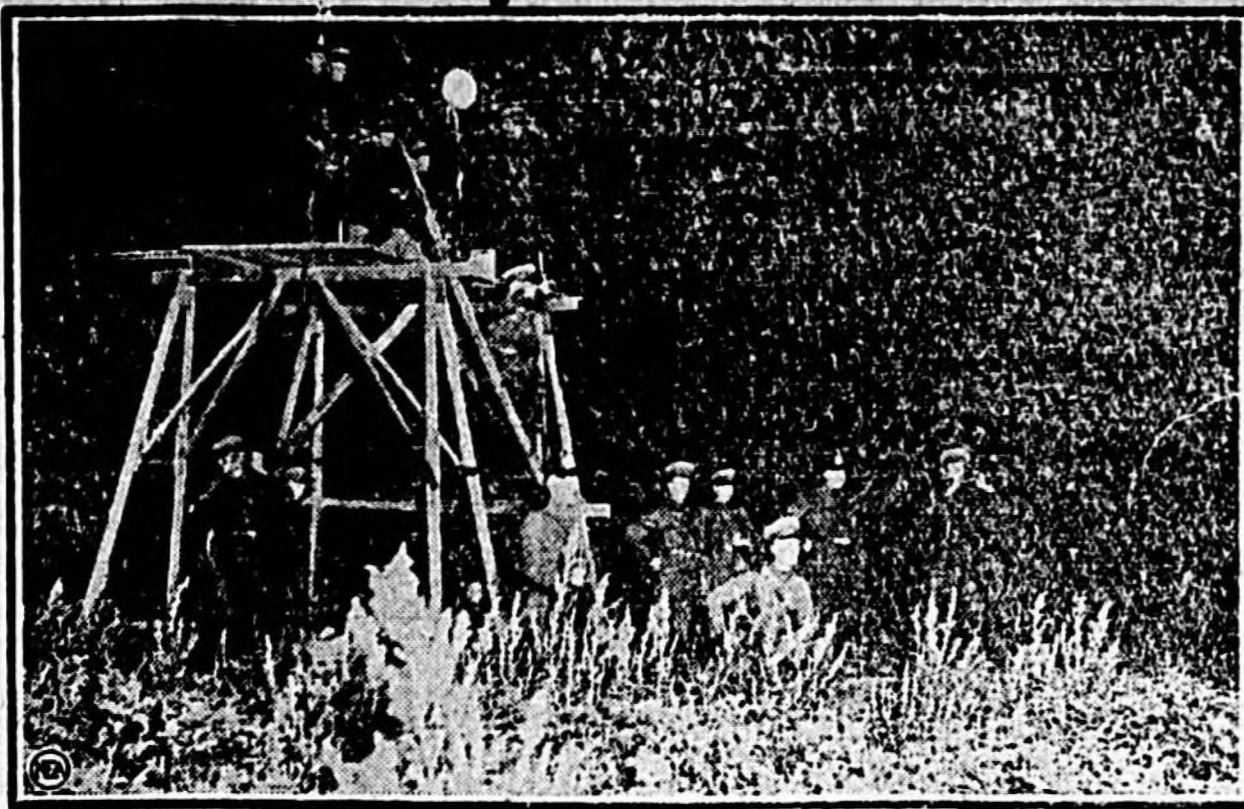

"Such roads will develop the state as no other undertaking could, bringing hundreds of thousands of people and millions upon millions of dollars into the state. Once these roads are a reality all other things we need for the development of Florida will become easy of accomplishment. "The greatest publicity could be given throughout the country to the proposed constitutional amendment forever prohibiting the levying of a state inheritance and income tax. The amendment should be carried at the general election next November by a practically unanimous vote of the people of the state."

### Aviation Suffering As Result of Quake

(By The Associated Press) TOKIO, Nov. 26.—The recent disaster has destroyed the organizations of civilian aviation in Japan, at least four concerns having announced they would close, partly on account of damages directly sustained in the earthquake, but chiefly owing to suspension of subsidies from the government. Proprietors of two of these concerns announce they will resume business as upholsterers.

### ASKS FOR BOOKS JAPANESE RELIEF

Appeal Issued by Local Woman Asking Everyone to Contribute at Least One Book for St. Luke's Hospital

In an appeal to the people of Sanford and South Florida for books to be sent to Japan, Minnie E. Kay, correspondent for the Church Periodical Club for South Florida, urges everyone to send in contributions for this purpose.

The letter being sent out is as follows:

A new opportunity has come to us out of the Japanese disaster, the opportunity to do an especially characteristic bit of work. Dr. Teusler, the director of St. Luke's Hospital, Tokyo, before he left for Japan expressed the fear that all Americans in the earthquake district would eventually suffer severely from nervous reaction. Evidently now that their most immediate physical necessities have been relieved, the reaction has set in; and Dr. Teusler is asking for one of the things that will help most, books. Essays, travel, biography, if they are recent and good, but most especially fiction, short stories and novels, good ones, recent ones, cheerful ones, and he wants them quickly we know, for he made the request by cable.

He is going to make the temporary St. Luke's not only a hospital, but also a community center for that section of Tokyo, not only for our own missionaries, but for all who need it. At present there are no English books to be had in Tokyo. Private collections have been destroyed—all the books stores which sold English books are gone. It is our privilege to supply the needed reading for Dr. Teusler's work.

Will you make this need known as widely as possible. Use your diocesan and parish papers. Also since the books are for all Americans and not only for our own church people a general appeal should be made through the local papers or in any other practical way. The aim should be to have everyone possible to send at least one book direct to St. Luke's. In the appeal stress these two points:

1. There are no English books available in Tokyo.

2. This is our opportunity to help keep up the morale of those who read English in that devastated city.

Books go as printed matter and the wrappers should be so marked. The postage is one cent for two package is four ounces pounds. The package is four pounds. The address is,

St. Luke's Hospital,   
Toukiji, Tokyo, Japan.   
The above is an extract taken from a letter sent to me from headquarters for the work at New York City. It speaks for itself.

**STATE COLLEGE NEWS**  
FLORIDA STATE COLLEGE FOR WOMEN, Nov. 27.—Next Monday, December 3, will be the occasion for the introductory recital of Miss Breaks, soprano, and Miss Miller, pianist, members of the State College faculty. On the following Monday, December 10, two other popular members of the faculty of music, will

give a recital together—Miss Isidor, violinist, and—Miss Comforter, pianist, popular artists on the faculty for a number of years.

Both last season and again this year, Miss Kathryn Reece, soprano from Tallahassee, and Miss Minnie Nobles, contralto, from Pensacola, were honored by being chosen to appear as soloists at the first concert given by the Cincinnati Conservatory orchestra. Both of these young women are former students of the Florida State College and are reflecting great

credit on the training they received in its School of Music.   
On this last occasion, Miss Nobles sang an Aria from Samson and Delilah by Saint Saens, and Miss Reece together with Mr. Clifford Cunard, sang a scene from Gounod's Romeo and Juliet. Miss Reece in addition to her continued study and concert work Cincinnati Conservatory of Music. Miss Nobles is teaching several days a week at the Miami University near Cincinnati.

Minnie E. Key, correspondent for Church Periodical Club for South Florida.

### AUTO DEPARTMENT AT STATE CAPITAL INTERESTING SPOT

Section of the Capitol—Figures of Interest Are Given

(By The Associated Press)

TALLAHASSEE, Fla., Nov. 26.—The Floridian who visits his state capitol nowadays finds many interesting phases to the activities necessary to the conduct of his state's business, but none perhaps attracts greater attention than the automobile department of the comptroller's office, where the volume of work has grown to such proportions that it has become necessary to adopt all sorts of measures to carry on in the most efficient way the affairs of this department.

In addition to the great volume of routine clerical work required, there are now an average of 300,000 individual transactions necessary in the handling of the business of the office each year. In their efforts to minimize the detail work, the officials have found it advisable to use regularly about 75 printed forms, each of which runs in number from 1,000 to 350,000. The paper and card board stock used on these forms in the course of a year will amount to more than a carload, it is estimated.

The system of handling the transactions has been worked out with a view to economical administration of the automobile license and title certificate law, so that every item of expense may be held to the minimum. Even then the expense runs into figures of good sized proportions, for the postage bill alone of the automobile department runs around \$12,000 annually, according to Captain Robert A. Gray, who is in direct charge of this department.

Affairs of the office have been so systematized that during the rush period—December and January—of each year, the department can call in considerable numbers of temporary employes and carry on the work of getting out the rush orders for licenses tags and certificates of title with comparative ease.

A color scheme adopted in making up the various application forms has much to do with the success of the routine. Once an employe has the various shades of colors well in mind, he can proceed with his work with rapidity. For example, he knows that when he receives an application writ-

ten on buff color paper that it is for a chauffeur's license; blue calls for a tin tag; white paper printed in red ink designates an application for transfer of license; title of certificate assignment memoranda are printed on golden rod paper; duplicate application blanks for title of certificate are pink paper; title of certificate memoranda returns are printed on blue paper with red ink, and numerous other combinations of sizes and colors are used throughout the list of forms, each having a particular meaning that simplifies the rapid handling of the volume of transactions.

The records of the office are so accurately and completely kept, it is stated, that a telephonic request for information as to whether or not a license has been issued for a particular car is readily handled during a three-minute call.

Details of the system are under the direct supervision of Captain Gray.

For quick results try a want ad.

### COLLEGES SOLVING FARMERS PROBLEMS

Agricultural Experimental Stations Solving Many Problems for Farmers of the Country

(By The Associated Press)

BOSTON, Nov. 26.—The agricultural experiment stations at the University of New Hampshire and Rhode Island State College have solved two problems which have puzzled the scientific farmer. At the former investigations have been in progress to learn the contrary actions on different plants from the use of Bordeaux mixture, a combination of copper and lime. This has been used universally to prevent plant disease.

Experiments have disclosed beneficial results in darker foliage, especially that in very dry soil, which was found to be helped by shade. The mixture when sprayed forms a film on the plants and the more lime used in it the less transparent it becomes

to the solar spectrum. On the other hand, the mixture, while unquestionably preventing the plant diseases for which it is used, was found to be injurious to the health of some other plants which require more light and sun.

The station at Rhode Island State College has revised the gospel of lime, earnestly preached as a corrective for acid soils, by adding the injunction to use acid phosphate with it. This, it has been found, will completely eliminate the soluble aluminum in the soil which poisons plants. The combination of lime and acid phosphate has proved better than either alone.

### Citrus Movement Far Ahead of Last Year

TAMPA, Nov. 27.—In spite of the fact that this season's Florida citrus crop is about two weeks later than last year's fruit in maturing, ship-

ments from the state up to November 24, were 2,187 carloads in excess of last season's movement at this time, says George A. Scott, general sales manager of the Florida Citrus Exchange, in his weekly review. "The heavy shipment of oranges

during the past week, totaling 2,186 carloads, has brought this movement up to 4,754 carloads for the season," Mr. Scott reports. "Grapefruit shipments during the week dwindled to but 364 carloads, with the total for the season now 4,000 carloads. To-

date, 9,154 carloads of both varieties have been moved from the state, as compared with the movement of 6,967 carloads at this time last year.

**SCRUB LIVESTOCK  
DRAGON FLORIDA**

State Agricultural Department Says That Importation of Good Stock Necessary to Succeed.

TALLAHASSEE, Fla., Nov. 26.—Scrub livestock is a drag on the pocketbook. Thus the United States agricultural department sums up its aims in helping the cattle raisers of the country by spreading the message of better sires—better stock.

The conclusion is reached, it is indicated from the frequency of letters received by the department. "I am in the cattle business," a Montana stockman is quoted as writing, "and use purebred sires, but there are still a good many people using scrub bulls in this part of the country. I would gladly work in conjunction with some one in getting the people interested and show them the great results from using pure-bred sires, and for all time do away with the scrub animal which is such a drag on the pocketbook."

This owner, the department says, asked how better sires work is conducted in other places and was given the information. A Nebraska farmer who also desired to participate in the work reported that he was disposing of his grade bull.

The manager of a large livestock farm in Indiana recently notified the department, it states, that he had sold his scrub boar which is to be replaced by a pure-bred, and henceforth all his livestock breeding operations will be on a strictly pure-bred basis.

Eastern states are said to be similarly active. A dairy-bull sale recently held in Howard county, Maryland, was preceded by a scrub-bull trial, at which the prisoner, a scrub bull, was convicted by a jury of twelve farmers and sentenced to be killed. A barbecue was part of the event.

**Colonel J. C. Woodward  
a Visitor in the City**

Col. J. C. Woodward, president of the Georgia Military Academy at College Park, Ga., and one of the leading educators of the South was a visitor in the city yesterday. Col. Woodward attended Sunday School services at First Baptist church and spoke before the young men's class. He is well known throughout central Florida and was warmly greeted by his numerous friends in Sanford.

Mr. and Mrs.

This unusual and informal snapshot shows Governor Pinchot of Pennsylvania and wife, taken at the recent dedication of the Roosevelt House in New York. The governor was Roosevelt's intimate friend.

**FORGES COST TO  
STATE ENORMOUS**

Thirty Boys Could Be Put Through College For What It Costs Florida To Punish Forgers

TALLAHASSEE, Nov. 24.—Thirty ambitious Florida boys could have been given, free of cost, full courses of four years each at the University of Florida, or any one of the other institutions of higher learning, for what it cost the state to maintain its army of forgers during the six-year period from 1917 to 1922.

During that period 158 commitments to state prison were made on conviction of charges of forgery, for sentences averaging about two years each.

On January 1, 1923, there were 1,411 prisoners in the Florida state prison, and of this number 81 were convicted for forgery. It costs the state, according to prison authorities, about \$140.00 a year to maintain

have cost the state, basing the calculations on two sentences as an average, approximately \$46,000 for men who have been sentenced for forgery since the beginning of 1917

For this amount, could it have been

diverted to educational channels, fully thirty boys could have been put through college at the rate of approximately \$400 a year each.

## ARTILLERY FACTS GLOOMY PICTURE

Major General Snow Makes Report to War Department Stating Situation Very Unpromising

WASHINGTON, Nov. 26.—A gloomy picture of the situation in the Army Field Artillery forces was presented in the annual report of Major General William J. Snow, chief of that branch of the army service made public today by the War Department.

After reviewing the "unsatisfactory" conditions due to the "single" promotion list, shortage in both of officer and enlisted personnel, and shortage of draft animals which threatens to immobilize the entire horse drawn field artillery "unless during the next session," General Snow asserted emphatically that remedies are essential if the Field Artillery is to attain the desired standard of efficiency.

## Rob's Calomel of Nausea and Danger

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected Tablet Called "Calotab"

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotab." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headache and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the large family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs. (Adv.)

## A Highly Perfected Marketing System

The American Fruit Growers, Inc., offers to growers the most highly perfected system of marketing their crops, tried and tested now by years of operation.

Developed from the experience of years it includes the best of various marketing methods, plus the economies of a great national organization that is profitably busy the year 'round.

Administered by business men, it is a business institution—like your bank. Those growers it serves adhere to it not through sentiment but for business reasons—because its superior service makes it a money-maker for them.

### EMIGRATION WILL BE DISCUSSED IN ROME CONFERENCE

(By The Associated Press)  
 GENEVA, Nov. 27.—Close collaboration by the international labor bureau whose headquarters are at Geneva will mark the international conference on emigration and immigration to be held at Rome early next year. The large mass of material which the labor office has collected on these questions will be placed at the disposal of the Italian government, which has convoked the conference. The Rome reunion will be of a technical and not a diplomatic character, and will endeavor to establish co-ordination between the services of emigration and immigration of the different countries, and frame principles which will serve as the basis for later international agreements.

Following the agitation in England, Swiss newspapers are now publishing letters from Swiss citizens who recently landed in New York and were confined for a day or more at Ellis Island. These communications allege the existence of foul conditions in the detention buildings, and characterize the demeanor of the detention camp employes as brutal. A young Swiss student who was proceeding to the United States to accept a scholarship in a western university wrote the Journal de Geneve that he was detained 29 hours, and was not permitted to appeal to the Swiss minister for assistance. His papers were in order and he had been assured by American officials abroad that he was exempt from the quota limitation.

Our government is trying to live within its income. Wish it would try living without ours.

### LOCALS

Geo. W. Merrill was a visitor to Sanford Monday from Avon Park, Fla., stopping at the Valdez.

T. A. Gill, well known business man of Ft. Lauderdale, was a guest of the Valdez Monday.

Mr. and Mrs. D. R. Humphrey of Miami, were among the arrivals at the Valdez Monday, driving up in their car.

C. W. Lyman and A. R. Barrett were arrivals at the Valdez Monday from Green Cove Springs, coming down to look over business conditions.

H. L. Ernst of Jacksonville, well known and genial salesman for Armour Co., was in Sanford Monday on business. He was registered at the Valdez.

R. R. Kinard of Crescent City, Fla., well known representative of Swift & Co., was a business visitor to the City Substantial Monday. He was a guest of the Valdez.

R. H. Dougherty, and E. G. Kerwin, officially connected with the Graham Paper Co., were arrivals at the Valdez Monday and will be in Sanford for several days looking over business conditions.

F. C. Wink, representative of the Brotherhood of Locomotive Firemen, is a visitor to Sanford and will be here for several days while transacting business with the local chapter. He is registered at the Valdez.

### AMUSEMENTS

#### AT THE MILANE

Jane Thomas, who needs no introduction to local movie patrons, plays what probably is the most important role of her career in the new William Fox photoplay special, "The Town That Forgot God," at the Milane tonight.

Miss Thomas heads a cast of notable screen artists in this production which was directed by Harry Millard, who staged the famous Fox success, "Over the Hill"

Mrs. Keppler's Kindergarten, formerly in B. S. A. Building of Holy Cross church, will meet at Mrs. Keppler's home, 312 Chapman Avenue until further notice.

### INSURANCE

Insure your property fully—insure carefully—insure safely. We represent the best in insurance, and carefully watch your interest.

A. P. CONNELLY & SONS.

### FIRE DESTROYS

Continued from page 1.  
 A Serious Lesson

"This should be taken as a serious lesson for Sanford. If there had been a good wind the city might have been destroyed. Somebody should be made responsible for the lack of water. It's criminal and something should be done."

Father Peck came to Sanford twelve years ago after serving as a government chaplain in the Panama Canal zone during the construction of the canal. He has been untiring in his efforts to build up an organization to serve the entire community.

#### Beck Tells Story

Jay H. Beck, whose home at 410 Magnolia was lost in the flames, stated that his first knowledge of the fire was when a small boy rang his door bell and shouted "Your house is on fire." "Mrs. Beck and I dressed and left the house, expecting that there would be sufficient water pressure to extinguish the flames. When we crossed the street we found that the water supply was little more than could be used through a garden hose and that the stream reached barely above the front porch.

"We immediately started the removal of our furniture, which we were able to save but we did not get out any personal effects. The only clothes we succeeded in saving were those on our back."

Mr. Beck's residence was covered by \$2,000 worth of insurance which represented only about twenty per cent of its actual value. It was built in 1915 and the Beck's have occupied it ever since. They expect to rebuild soon.

#### Public is Thanked

Father Peck this morning requested the Herald to extend his heartfelt thanks and appreciation to everyone who so kindly assisted him in the removal of his household effects from the rectory and caring for his aged mother. Throughout the entire morning the rector was the recipient of many personal calls from members of his parish and friends throughout the city, expressing deep regret over the loss caused by the fire and pledging support in the work of rebuilding a new edifice.

#### Phone Cable Broken

H. Overlin, manager of the Southern Bell Telephone Company, stated that as soon as the alarm of the fire had spread, everyone raised their telephone receivers and blew out the fuses on the switchboard. The cable at the scene of the fire was broken and the company will have to secure equipment from Orlando or Jacksonville. All telephones south of Fourth street will be out of commission until necessary repairs are made. An expert is already on the way to Sanford to make the repairs and service will be resumed just as soon as possible, according to Mr. Overlin.

#### Suggest Contributions

While watching the firemen in their efforts to extinguish the flames this morning, one of Sanford's most gracious and distinguished women voiced the sentiments of many when she remarked, "Do you know that we should forgo the giving of our usual Christmas gifts and contribute the sum thus saved to the rebuilding of the Episcopal Church and rectory. Sanford people have always rallied to the support of every good work and now this week of Thanksgiving we can show our appreciation of God's wonderful goodness by contributing to the rebuilding of this wonderful plant that represented twelve years of consecrated service and labor of Father Peck and his people."

"Father Peck has labored conscientiously and lovingly for the youth and young manhood of Sanford. Let the mothers and fathers now stand by to rehabilitate the destroyed property that the good work might be carried on."

### Thanksgiving Greetings

THANKSGIVING COMES BUT ONCE A YEAR, BUT GRATITUDE SHOULD ABIDE WITH US ALWAYS

We extend to our customers and friends in this way, our Thanksgiving Greetings, with sincere goodwishes, and appreciation for the liberal share of business that we have enjoyed through the past year.

We want your business, and we need your friendship and confidence. It is our aim always to justify these by the class of Clothing, Shoes and Furnishings we offer for sale, as well as the quality of service rendered.

We are overloaded in almost all lines that we sell, and for this reason, we are placing at your disposal, for cash, our entire stock at reduced prices—at prices that will save you money, and this is only one thing for which to be thankful.

D. L. THRASHER

Next Door to First National Bank Building, Sanford, Florida

BIBLE THOUGHT FOR TODAY

Godliness with contentment is great gain. For we brought nothing into this world, and it is certain we can carry nothing out. And having food and raiment, let us therewith be content.—1 Timothy 6:6, 7, 8.

Herald Want Ads will aid you in renting that vacant room.

Homeseekers are coming to Florida every day. Is Sanford getting her share of them?

Sanford's golf course is one of the city's best assets. Tourists will stop anytime in a city with a golf course in preference to one without.

In some quarters it is declared that Secretary Mellon's promised tax reduction is but propaganda to defeat the bonus.

Careful buyers watch newspaper advertising all the time. The merchant who consistently uses advertising space never grumbles about poor business.

Sanford High School's game football team put up a good fight against Orlando Saturday. The boys were encouraged by a large attendance of Sanford people.

And now comes the prediction that the next earthquake will occur in South America, which at least will give South Americans something to worry about.

Celebrate Thanksgiving Day by sending a contribution to the Children's Home at Jacksonville. Help some little fellow have more to be thankful for this week.

Shippers will be pleased over the news that the American Railway Association has ordered additional cars diverted to Florida to relieve the shortage of ice cars.

A drive over the roads of Seminole county through the celery and lettuce fields will convince the biggest pessimist that Sanford is truly "The City Substantial."

Over in Pensacola someone has received a letter from Germany containing 650 million marks. It bore 10,000 marks worth of postage stamps. The total value of said bonds has been figured to be .0000018458 of a cent.

Arthur Brisbane, in a copyrighted article, says that the business man's "bad presidential year" will not be a bad year, unless merchants and the people combine to make it so. A good year depends on buying and there is nothing in the presidential year to prevent buying.

Supt. Lawton calls our attention to the fact that the deplorable condition of the state educational system can only be remedied by the sympathetic interest and co-operation of the people. If you have not already joined the F. E. A., send in your membership fee of one dollar.

Says the Times-Union: Huntsmen will be coming in all over the state within the next few days ready to tell of their skill with the shot-gun—but rather disposed to limit their tales of the specifications of the game laws. It is all very well to draw the long bow when relating fishing experiences, but bragging about the game taken can possibly cause trouble.

The fact that the east coast of Florida is ahead of the west coast in the matter of tourist business is due to one man—Henry Flagler—says the Jacksonville Times-Union, and it goes on to say: "Tourist hotels preceded the tourist business. Mr. Flagler did not build his big hotels in St. Augustine because that city was a tourist center. It became a tourist center because of the hotels he built. The hotels made Palm Beach and West Palm Beach."

Keeping Boys On The Farm.

When county and home demonstration agents of Florida met recently for the twelfth annual conference, they were deeply impressed when Dr. A. A. Murphee, president of the state university at Gainesville, declared that boys leave the farm simply because they don't know anything about farming.

It has long been the custom of public speakers to decry the attractions of the city in drawing young men away from farms in the country to the great white lights, and Dr. Murphee's statement, ringing with all sincerity, will give farmers of the state real food for thought.

Since the advent of the work among the farmers by county demonstration agents, greater interest has been evidenced by the young men of the country in agricultural pursuits. It is safe to say, however, that this interest will not be permanent unless the good work is kept up and farmers give their sons every opportunity to learn to do the job even better than their predecessors.

One of the greatest institutions of learning in the South is located at Gainesville. It is the University of Florida and year after year the people of the state, the farmers as well as business men, are taking advantage of its opportunities.

Dr. Murphee called attention to the fact that annual incomes of farmers have been materially increased by schooling, pointing out the fact that a farmer without schooling earns \$240 a year; a farmer with common school education, \$565.00 per year; with an agricultural short course, \$898.95; and with a complete four year agricultural college training, \$1,254 a year. These figures, of course, are taken as an average for Southern boys. Continuing, Dr. Murphee, declared:

"The South has been characterized as a country of vast, undeveloped resources. Florida is no exception. The South will be developed far beyond the comprehension of many of us today. Farm boys now of college age and farm boys yet on the farm have a future before them. If they are given the proper opportunity they will make the glory of this day pale indeed."

By legislative enactment, boards of county commissioners throughout the state are given the power to appropriate money to award scholarships to boys and girls to the Florida College of Agriculture and the home economics department of the State College for women, and the people of every county will do well to see that advantage of this opportunity is taken.

Boys will not want to leave the farm if shown how they can double or even treble the incomes previously made by their fathers and that the real basis of prosperity rests more with them than with any other class.

Don't Discount Floridans.

Too many Florida cities in their enthusiasm to push public improvements have made the sad error of importing "experts" from New York to do their thinking and planning only to find they have been misguided and their money wasted in plans which might get by in the Empire State but do not meet conditions of a Southern clime.

Both Jacksonville and Miami have recently learned the expensive lesson that these highly paid authorities are not necessary in the development of public works and that here in Florida there are engineers with both brain and vision enough to put across any improvement desired.

Sanford is fortunate indeed in having commissioners who recognize this fact. In the employment of Joseph E. Craig, prominent engineer of Jacksonville, a wise selection was made and the tax payers may rest assured that they will get dollar for dollar for the bond money when it is spent for the improvement now being planned.

Mistakes are costly and there have been many glaring examples throughout Florida during the past year where municipalities have rushed into contracts with outside engineers without even investigating the character, experience and standing of the leading engineers of this state.

Florida is a shining example of progress and surely her people should not overlook the fact that her citizenship, made up of many of the best people of nearly every state in the union, includes men of high standing in every line of endeavor. Our own people should first be given the chance to prove their worth to the city, county and state.

IT HAS been discovered that the Federal government has collected more in taxes from the automobile business than has been expended by the government in Federal road projects, says an exchange. The sale of automobiles and the building of good roads are so closely allied that it might be stated that the government is ahead in its road-building program.

IT IS STATED that four hundred millions of dollars are lost in taxes to the government through the legal evasion resorted to by taxpayers with incomes above \$50,000, says an exchange. It is wondered if the ability to make that much money annually carries with it an expertness in evasion. The tax on these big incomes is probably excessive, and should be adjusted to a more equitable basis, but not upon the theory that the high tax creates tax-dodgers, for such a theory would annul the dry law because it creates law-dodgers.

"THE NATION can avoid revolutionary organizations among the workers only by removing economic and social disadvantages that are the source of revolutionary discontent."—Professor D. D. Leach, University of Wisconsin.

My Favorite Stories

By Irvin S. Cobb

A certain steamship line of conservative tendencies decided to hire a press agent for its New York offices. The choice was a newspaperman of varied experience and wide acquaintance. His new chief, the local manager of the line, was a Continental and a serious-minded man.

During their first official conversation the manager said he didn't think the boats were getting enough publicity in the papers over the country. The new press agent decided in his own mind that he would try to remedy that.

Inside of a week he saw his opening. Something unusual and newsworthy happened aboard one of the ships. He asked the Associated Press, the United Press, the Hearst news service and all the lesser news-gathering and news-distributing agencies to send out stories of the happening 7897E.

Then the bills from the clipping bureaus arrived. They mounted up, also. The new press agent came into his office one morning and found the general manager contemplating the sum total with a look of ghastly and stupefied surprise upon his face. Somewhat worried by the extent of his own success, he asked if anything was wrong.

"No," said the general manager slowly. "We have no complaint. But tell me, Mister Blank, can it be that spreading the news broadcast in four, zero zis many bapers?"

languages—English, Swedish, Italian and German. After which the press agent, in the name of the company, subscribed for the service of several press-clipping bureaus and sat down to await results. He didn't have to wait very long. The next day, clippings began to trickle in by mail, and by the day after the stream had grown to a torrent and the clippings were being delivered by express in large crates and bags.

A Thangsgiving Song

For flowers that bloom about our feet, For tender grass, so fresh, so sweet, For song of bird and hum of bee, For all things fair we hear or see, Our Father, we thank Thee.

For blue of stream and blue of sky, For pleasant shade of branches high, For fragrant air and cooling breeze, For beauty of the blooming trees, Our Father, we thank Thee.

For mother love and father care, For brothers strong and sisters fair, For love at home and school each day, For guidance lest we go astray, Our Father, we thank Thee.

—Selected.

SHALL THREE WARD POLITICIANS NAME OUR NEXT PRESIDENT?

BY DANIEL F. COHALAN

De Tocqueville, the great French political philosopher, has said that Democracy was applied to common sense.

I wonder if he would repeat that statement if he knew the way in which presidents were made in this greatest of all republics.

Let us take a look at the prospects ahead of us in 1924 and see how, in spite of our vaunted liberty, our hands are to be tied in advance, and we shall probably be left to make a choice between two men who represent the financial groups rather than the people.

Fate has made the choice for us on the Republican side, for the death of President Harding pitched the vice-president into the White House, and has made him the odds-on favorite for the nomination. Does any sensible man believe he would have been chosen to succeed Harding if he had not happened to be vice-president; or that he would have been nominated for vice-president in 1920 if it were not thought that Harding was a superlatively healthy man?

Fate plays strange tricks with nations as well as with men.

The sound sense of the people may yet assert itself and force the choice of a statesman, Mr. Coolidge may astonish the world during the next

few months and show himself to be a great man.

But barring these rather remote possibilities, we have one of the two candidates for whom we can vote—already in the field—and he is neither a Jefferson nor a Lincoln.

Who is likely to be the other one? If you can make in your mind's eye a composite picture of Murphy, of New York, Brennan, of Illinois, and Taggart, of Indiana, you will have before you the force that maybe will relieve a majority of the American people of the trouble of choosing a candidate for president. These three worthies are preparing to make the choice. They are prepared to let the people take the consequences of such action. They are marshalling their forces to go through the form of holding a convention—probably in New York City—that will simply register their will. They will pull the strings and the delegates selected by them will do the rest. The atmosphere of respectability and the appearance of decency will, so far as possible, be thrown around the gathering, but from it will come as the nominee a man who will be subservient to this trio or it may be to one of them who can dominate or deceive the other two.

Murphy's satellites are already plotting that he is to make a president in order to satisfy his ambition. Brennan's henchmen see in him the Warwick of 1921—although most of them would not put it that way. Taggart is enying nothing but sawing wood. What a travesty on self-government it will be if the plans of this crowd work out? Can they, with the aid of the unit rule and the two-thirds rule, set aside the character and intellect and courage of the historic party of Jefferson and Jackson?

If so, De Tocqueville was wrong, and it will take some cynic to write the story of the way in which democracy has gone out of fashion in America.

We are told that we cannot gather fire from thorns. As well might we expect to get character or courage from a president chosen by men with the background from which this trio has emerged.

TOM SIMS SAYS

Reducing German's debt makes that much less the allies lose.

Movie business is slacking up because people have seen them all.

One of the best lawyers in St. Louis left only \$500, proving there are some honest lawyers.

Scientists are hunting a way to save corn. The best way is to keep the stopper in the jug.

The powers want to reduce Germany's debt, which is the only way to keep her from owing so much.

Less movies will be made. It is a good plan. Show the same films instead of just the same plots.

Other improvements are noticed. The derby hat is passing. Old ones will make nice flower pots.

Ancestor of the Indian has been dug up near Los Angeles, perhaps, while hunting old movie plots.

Governor of Pennsylvania will wear a Texas hat, which is much better than talking through it.

Plasterers in Chicago are receiving \$25 a day. We think this is laying it on pretty thick.

Things are quite lively in Boston. A man was arrested there for claiming a razor beat four axes.

State Press Comment

Palatka News: Reese Combs, R. L. Dean and R. H. Berg have bought Bob Holly's Sanford Herald. They are a trio of experienced and energetic newspaper men, and will give Sanford a newspaper that will be a credit to the city, just as Holly has been doing for years. While the new owners will be welcomed to Florida Journalism, the losing of Bob Holly, even temporarily, to the Florida press will be regretted.

# Sanford's Social Side

Phone: Office 108; MRS. FRED DAIGER, Society Editor; Residence 217-W

## SOCIAL CALENDAR

**Tuesday**—Senior G. F. S. will meet at four o'clock at the home of Miss Georgia Mobley.

**Tuesday**—Echols-Hatcher wedding at Baptist church, at 2:30 p. m.

**Tuesday**—Social department bridge at three o'clock, with Mrs. John Smith as hostess.

**Tuesday**—Mrs. R. A. Newman will entertain the members of the Evening Bridge Club, at her home on Fourth street, at 8:30 p. m.

**Wednesday**—Literature Department meets at Club House at three o'clock.

**Wednesday**—Mrs. F. E. Roumillat will entertain the members of the Thirteen Bridge Club, at three o'clock.

**Thursday**—Dinner-dance at Valdez Hotel.

**Friday**—Informal reception at Valdez Hotel, from 9 to 11 p. m., by Mr. and Mrs. Forrest Lake, honoring Governor and Mrs. Cary Hardee.

**Friday**—N. De V. Howard Chapter, D. C., meet at the Parlor of Valdez Hotel at three o'clock.

Ed Rivers was among the Sanford folks going to Miami yesterday.

Mrs. Frank K. Smith and Mrs. Ferguson left yesterday for a short visit in Miami.

Mr. and Mrs. T. J. Miller left yesterday for Miami where they will spend several days.

D. A. Caldwell and son, Joe, were among those from Sanford going to Miami yesterday, where they will spend several days sight-seeing.

Mr. and Mrs. A. A. Drennen, of Jacksonville, are in the city for a brief stay and are pleasantly located at the Montezuma.

Miss Lucy Byrd Smythe and her house guest, Miss Helen Beerbower, of Eustis, are spending the day at Orlando.

Miss Helen Beerbower, of New Jersey, who is spending the winter at her country home at Eustis, is the attractive guest of Miss Lucy Byrd Smythe at the Montezuma.

Mr. and Mrs. B. E. Shaffer are registered at the Montezuma for a short stay. Mr. Shaffer is with the U. S. Department of Agriculture Bureau of Economics.

Wm. Lyman and W. K. Shattuck, of Minneapolis, Minn., were among the arrivals here yesterday and are stopping at the Montezuma for a brief sojourn.

The Circle chairmen for the Presbyterian Bazaar met with Mrs. J. N. Whitner yesterday afternoon to plan for the big bazaar to be held Friday and Saturday of this week.

The Westminster Guild met in the Gleaners' Class room at the Presbyterian church yesterday afternoon to complete the plans for their table at the Presbyterian bazaar.

Mrs. A. P. Connelly has returned home after spending the past two months in Washington, D. C., as the guest of her sister. Mr. and Mrs. Connelly and family are at home to their friends at Comfort Cottage for the winter.

Mrs. D. A. Kelly returned home yesterday from West Palm Beach, where she was a delegate from the Sanford Woman's Club to the State Federation of Women's Club meeting. Mrs. Kelly also visited in Miami and Key West.

Miss Claire Zachary of Sanford is spending the week-end in Jacksonville, the guest of her grandmother, Mrs. E. A. Flansburgh, in her home on West Ashley street.—Jacksonville Times-Union.

**AMERICAN LEGION AUXILIARY**  
The American Legion Auxiliary will meet Saturday afternoon at four o'clock at the home of Mrs. Roy Chittenden, 911 Elm avenue. It is earnestly desired that all members be present.

### RECEPTION FOR GOVERNOR AND MRS. HARDEE

Mr. and Mrs. Forrest Lake cordially invite the citizens of Sanford to meet Governor and Mrs. Cary A. Hardee, at the Hotel Valdez, Friday November thirtieth, from nine to eleven o'clock p. m. Informal reception.

## "Approved"

This copyrighted photograph is said to be the first one of the president's wife to be made in the White House. It was taken on Nov. 10 and approved Nov. 13. Sitting was made in the private dining room, using furniture of the blue room. One hour was given by Mrs. Coolidge for the sitting. This photograph is the favorite one and was released for publication by Ms. Coolidge, who wrote, on the back of the proof, the single word "approved".

### GIRL SCOUTS.

Saturday afternoon an enthusiastic crowd of girls met with Miss Love Turner at her home on Magnolia avenue, for the purpose of organizing the Girl Scouts.

Two patrols were formed with Mrs. L. I. Frazer and Miss Love Turner as captains.

Several hikes and camping trips have been planned and the girls anticipate much pleasure and benefit from the out-door life.

### WESTMINSTER CLUB.

Yesterday afternoon the members of the Westminster club were entertained at the Presbyterian church parlor by Mrs. Robert Grovenstein and Mrs. Wideman Caldwell.

All articles for the Christmas bazaar were turned in and marked, and plans perfected for same.

A Thanksgiving gift of money and box of clothes was sent to the Children's Home at Jacksonville.

This club clothes a child at Thornwell Orphanage and the winter wardrobe was completed and set her. It was also decided to send the child a special Christmas box and Mrs. E. D. Brownless and Mrs. W. Morton Thigpen were appointed to attend to this.

After all business had been transacted a social hour was enjoyed, the hostesses serving sandwiches and coffee with whipped cream.

About twenty members attended this meeting.

### BROTHERHOOD ST. ANDREW HOLD BANQUET

The annual B. S. A. service and banquet was held yesterday, being the Sunday nearest to St. Andrew's Day, November 20th. From the small number which sat down to this banquet eleven years ago in the dining room of Holy Cross Rectory to the large tables completely filled in Holy Cross Parish House, yesterday, was a startling contrast.

The toasts and speeches by all the members were full of loyalty and enthusiasm for the B. S. A. The singing was hearty and loud, being led by Mr. Francis C. McMahon and George Smith at the piano. The dinner of roast turkey and roast ham, escalloped oysters, corn and macaroni and cheese, half-grapefruit with red cherries, cranberry sauce and green salad, mashed potatoes, was done full justice to by the men and boys. More speeches and more songs, then the ice-cream and home-made cake. The tables were decorated in the Senior Red and the Junior Blue—lighted tapers and garlands with miniature St. Andrew crosses made the beauty of the tables.

Dr. and Mrs. J. N. Tolar, Dr. Ralph Stevens and H. R. Stevens left this afternoon for North Carolina, where they will attend the Virginia-Carolina football game.

Presbyterian Bazaar Nov. 30th and Dec. 1st will be held in the New First National Bank Building on Park Ave.

### FOR MISS ECHOLS.

Mrs. Charles Forrester was hostess last evening, when she entertained at dinner at her home on the West Side, honoring Miss Maureen Echols, whose marriage takes place this afternoon.

The spacious living room was abloom with quantities of vivid-hued poinsettias, while the color motif used in the dining room was gold and green. Golden cosmos and ferns being lavishly used. The prettily appointed table was centered with a large crystal bowl of cosmos and feathery ferns. The place cards were miniature brides and grooms. Covers were laid for eight.

Miss Echols was attired in a chic frock of celestial blue canton crepe, with trimmings of hand embroidery. Covers were laid for Miss Maureen Echols, Mr. and Mrs. Forrester, Misses Ruth Whittle, Esrie Whittle, Lucile Echols, and Arthur Hatcher, and Bryant Hatcher.

### CECILIAN MUSIC CLUB.

The Cecilian program of last Saturday afternoon opened with a talk on "History of Notation." Special emphasis was placed on how simple seems the staff clef-notes, which was hundreds of years in development before completion. And not until the 15th century were our present round sharps of notes invented.

Under current topics an interesting sketch was given of Cecil Arden, the noted metropolitan mezzo soprano, whose musical training was entirely received in this country. A favorite abroad as at home, Cecil Arden was born in New York, her father from South Carolina, her mother a Kentucky woman.

The music numbers were well rendered and greatly enjoyed comprising the following selections:

- Schertzo (from Sonata in A)—Schubert—Elizabeth Whitner.
- 2. Con Amore—Beaumont—Lou Ella Mahoney.
- 3. Hunter's Song—Schmoll—Antoinette Shinholser.
- 4. The Indian—Preston—Margarette Giles.
- 5. Minuet Antique—Earle—Margorie Haskins.
- 6. Panane (old French)—Sharpe—Clifford Shinholser.
- 7. Galon Barlesque—Gurlitt—Russell Lee Wheeler.
- 8. Butterflies—Lancone—Nezzie Stone.
- 9. Meditation—Morrison—Erma Smith.
- 10. Little Fold Group.
  - (a) Fairy—Streebbog—Ella Spencer.
  - (b) Picnic—Billro—Hazel Few.
- 11. Cave in Woods—Kroeger—Louise Hickson.
- Hunter's Song.

Mrs. J. N. Tolar has returned from Lakeland, where she was the guest of her mother, Mrs. McIntyre, and was extensively entertained.

### ST. AGNES GUILD.

An exceptionally interesting meeting of the St. Agnes Guild was held yesterday afternoon at the home of Mrs. S. M. Lloyd on Park avenue, with Mrs. Lloyd and Mrs. J. N. Robson as hostesses.

The first part of the afternoon was devoted to business, plans were made for the bazaar, and committees appointed. The furnishing of the room at the hospital was also discussed. Several other matters were attended to, after which the members enjoyed a social hour, the hostesses serving fruit salad, saltines and coffee.

Among the members present were Mrs. Clifford Peabody, Mrs. Raymond Key, Mrs. Julius Takach, Mrs. Clarke Leonard, Mrs. Paul Biggers, Mrs. J. B. Coleman, Mrs. Emmett McCall, Mrs. Chris Matthews, Mrs. M. Minarik, Mrs. Howard Overlin, Miss Smith, Mrs. Wilbur McKee, Miss Zoe Munson, Mrs. John Leonardi, Mrs. Archie Betts, and Mrs. J. N. Robson.

### WEDDINGS IN THE STATE.

Miss Ethel Oglesby Paderick to Mr. William S. Rosasco, Jr., in Pensacola, November 21.

Miss Lyndal Matthews to Mr. William M. Martin, in Ocala, November 18.

Miss Mary Elizabeth Reasoner to Mr. Jason M. Smith, in Jacksonville, November 20.

Miss Eloise Bouvier to Mr. Cecil A. McRae, in Jacksonville, November 21.

Miss Evelyn Alvord to Mr. John Conway, in Clearwater, November 20.

Miss Beatrice Baker to Mr. Paul J. Pickens in Orlando, November 20.

Miss Saida J. Butler to Mr. Daniel Lee Rowel, in Jacksonville, November 17.

Miss Sallie Parrish to Mr. James Hogan, in Jacksonville, November 17.

Mrs. Fannie Werner to Mr. Harry Skerman, in Miami, November 18.

Miss Dorothy Burright to Mr. Frank Holland, in Bartow, November 21.

Miss Mary Daniel to Mr. Norman Hart, in Bartow, November 21.

Miss Frances Ibing to Mr. James A. Fort, Jr., in Bartow, November 21.

### CONCERT A SUCCESS

It is all too seldom that the real music lovers of Sanford have such a treat as they enjoyed last evening in the concert at the club house, especially featuring the most artistic piano playing of Mrs. Henry M. Stuckey, a distinguished visitor to our city, who says of herself that she "is not a musician who happens to be a club woman, but a club woman who happens to be a musician."

Mrs. Stuckey was a guest of the State Federation in its recent convention at West Palm Beach; and is chairman of the music in her own South Carolina Federation. The enthusiastic response of her audience to all her numbers, was almost as much for her own charm of personality in her interesting little explanations of composer and theme, as for the grace and daintiness which characterized her interpretations.

Quick to catch the feeling of her hearers she realized almost immediately their partiality to MacDowell, and was most generous in her responses to their applause. One very interesting number was the original composition of Miss Wilburn Willette—a South Carolina girl who won first prize in the contest put on last year in her state. One of the encores, "Country Gardens" by Percy Grainger was especially delightful, and Cadman's Indian music was given with a comprehension that brought out every delicate shade of its haunting elusive quality.

The local favorites who assisted Mrs. Stuckey in the program were never happier in their work, nor ever more cordially received, and the closing number the trio by Mrs. Takach, Mrs. E. F. Householder and Mrs. Leak left every hearer with a little tender loving thought to take home with them. Mrs. Deas, as usual was the accompanist par excellence, for the program which follows:

- Romance ..... Jean Szibelius
  - Mrs. Henry M. Stuckey
  - (a) As We Part.....McNair Edgenfritz
  - (b) Homing .....Teresa Del Riego
  - Mrs. Lucille Aspinwall Takach
  - (a) Novallette ..... MacDowell
  - (b) Improvisation ..... MacDowell
  - Mrs. Henry M. Stuckey
  - (a) She dwelt among the untrodden ways.....L. Kelly
  - (b) Scimmer Rain.....Charles Willeby
  - Mrs. W. D. Leak
  - (a) In the Village, from the Tunder Bird Suite .....Cadman
  - (b) Singing Trees .....Cadman
  - Mrs. Henry M. Stuckey
  - (a) Pirate Dreams.....Heurter
  - (b) Goodbye to Summer .....Tosti
  - Mrs. Lucille Aspinwall Takach
  - The Desert .....Wilburn Willette
  - Mrs. Henry M. Stuckey
  - Sandman's Comin', Rockin' Time. Trio, Mrs. Takach, Mrs. Householder and Mrs. Leak
- Mrs. Stuckey will remain in the city for the remainder of the week as the lovely houseguest of her relatives, Mr. and Mrs. E. M. Galloway. While in Florida she is to give a concert at Stetson University, and is sure of a most sympathetic audience

there where good music is so well known and loved. It is to be hoped that this club season will have many concerts to its credit in Sanford, but it would be impossible to plan one more delightful than this one.

### FRILOHA BRIDGE CLUB.

The recently organized bridge club, the "Fri-lo-ha," was entertained most delightfully by Mrs. Raymond Phillips at her home on Elm avenue!

The rooms where the card tables were placed, were adorned with baskets of cut flowers and potted plants. The tally cards were autumnal suggestions and when scores were counted it was found that Mrs. Ed Betts held high score and was awarded a lovely linen towel.

At the conclusion of the card game, the hostess served a tempting salad course with coffee.

The members of the club are Mrs. Benjamin Whitner, Misses Frances and Helen Gonzalez, Mrs. W. C. Hill, Mrs. James Ridge, Mrs. Percy Mero, Mrs. Hawkins Connelly, Mrs. Ed Betts, Mrs. Emmett Hunt, and Mrs. Raymond Phillips.

### PIPE ORGAN CLUB.

The Pipe Organ Club held a most interesting meeting yesterday afternoon at the home of Mrs. Forrest Gatchell on Oak avenue.

In response to roll call, the members answered with bits of current events. Plans were discussed for the bazaar, and the bazaar chairman, Mrs. Craig Harris, announced that she had numbers of Christmas cards for sale. Several other matters of importance were transacted after which a social hour was enjoyed. Mrs. Gatchell served pineapple sandwiches, cakes and hot chocolate.

Among the members present were Mrs. W. D. Gardiner, Mrs. A. M. Phillips, Mrs. Volie Williams, Mrs. W. E. Scoggan, Mrs. W. M. Scott, Mrs. J. G. Sharon, Mrs. Guy Selman, Mrs. Martha Fox, Mrs. Leslie Bryan, Mrs. I. E. Estridge, Mrs. Roy Peoples, Mrs. Hall, Mrs. Craig Harris, Mrs. J. L. Miller, and Mrs. Ray.

### TOMPKINS-LOVEJOY.

Mr. and Mrs. C. J. Tompkins of Forsyth, Ga., announce the engagement and approaching marriage of their daughter, Grace Webb, to Mr. Augustus Branham Lovejoy, the marriage to take place December 23, at the home of Mrs. J. B. Forrest on Park avenue.

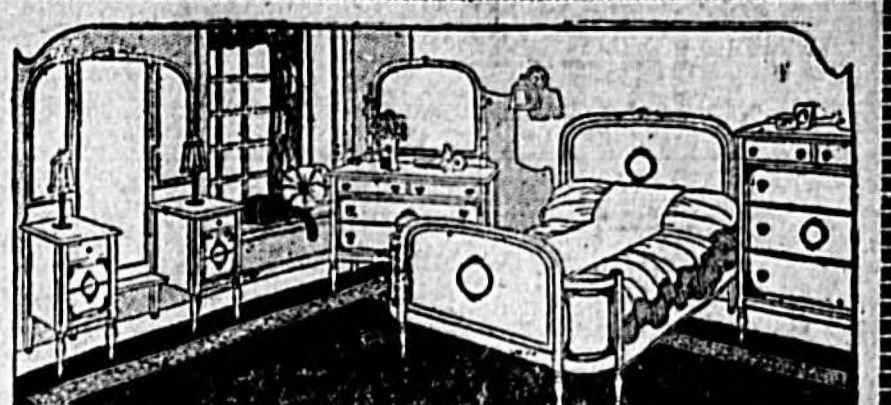

Bryant Hatcher, of Birmingham, Ala., arrived here last evening and will act as best man at the marriage

of his brother, Arthur Hatcher, to Miss Maureen Echols, which was solemnized this afternoon at the Baptist church.

Arthur Hatcher of Dothan, Ala.,

arrived here last evening, his marriage to Miss Maureen Echols takes place this afternoon at the Baptist church.

The Daily Herald, 15c per week.

## THANKSGIVING

on this day we extend to our friends our heartfelt thanks for their patronage.

Make it a Doubly Joyous and Gladsome Day with our Furniture.

## In The World Of Sports

### Lakeland "11" The Best One In The State

Are the Lakeland Dreadnoughts the champions of the state high school gridiron this year? The Sentinel sports department believes that the Lakelanders have easily and deservedly won the honors. No team to match the Lakeland clan has been produced in the state this fall, that is this department of the Sentinel feels that way, for no such aggregation has appeared against the Tiger this season, and the Orlando clan has played the Duval Tiger on the Jacksonville gridiron, has met the Purple Hurricane from over University City way, has battled the Green Devils from the Sunshine City, has taken the Ocala clan in tow, has defeated the Deland high school aggregation, has tried it's teeth on the Sanford Celery-Fed clan, and, last, but not least, while being defeated by the Lakelanders is the only eleven in the state to have scored against the team.

Cocher McQuillan presented as his pet here a high school team which if pitted against some of the south's smaller colleges would give, it is believed, any such aggregation, a run for the decision. Captain Bowyer, the Dreadnoughts have a sterling field general, by far surpassing anything in the state, save for Bach, phenomenal Sanford quarterback who startled fans here Saturday by his brilliant playing. Bowyer for two years an all-state quarterback pick, is easily the better of the two field generals, for in his work this year he has time after time given evidence as to his football prowess. And McQuillan has ten-as good men to back Bowyer as well as a galaxy of reserves, in the Lakeland demand for recognition as the state's best. The comprehensive score basis is always a poor way to judge a football clan's prowess, but even in that way the Dreadnoughts have the other aggregations bested. The matter of the Gainesville win by only a 3 to 0 score cannot be taken into the matter for the game, played on Fleming Field, was no fair test of the Lakelanders' prowess, and again the Gainesville clan was fighting with its back against the wall in an effort to restore itself to their one time position in state football circles.

The Dreadnoughts have fairly won the right to be lauded as the state's best, so let them be acclaimed this year, with the settling of all grievances in that line, being made as the football card for next fall is being arranged.—Orlando Sentinel.

**FOREIGN OFFICE BUILDING IN TOKIO IN QUAKE'S PATH RAZED**  
(By The Associated Press)  
TOKIO, Nov. 27.—The foreign office at Kasumigaseki, Tokio, the first foreign style building erected here, was badly damaged by the earthquake of September 1, although untouched by the fire, that it will have to be razed.

## Celery Seed

R. L. SHIPP

Sanford has lost the best of its athletic equipment by this morning's fire. The Men's Club and Brotherhood, if they cared to, could boast that they had the best of athletic goods in the city. They were always free hearted and willing to share it with anyone—everyone in Sanford, interested in athletics, has had a good time in the bowling alleys and Parish House.

The Brotherhood of St. Andrew Club rooms were the best that Sanford has ever had. The Brotherhood boys had just recently installed a radio set which furnished great pleasure to both a large number of members and visitors.

Cocher Wilkinson is giving the High school football squad some hard work this week in preparation for the game Turkey Day. The Springfield Athletic Club of Jacksonville will eat their Thanksgiving dinner in Sanford on that day and will make an attempt to swallow some celery afterwards.

The Celery-Feds have hopes of making the game Thursday a walk-away as far as they are concerned.

### Caseys Have Edge On the Merchants

H. Weirenski Rolled High Score For The Evening, and For One Game Very Good Bowling.

In a most interesting game last night the Knights of Columbus defeated Merchants by 120 pins. The first match of the game was very close, the Merchants winning it by the bare margin of four pins. But this was not enough to insure victory as the Caseys walked away with the Counter-Jumpers in the next two matches.

H. Weirenski made high score for the evening, both in a single match and the whole game. He garnered 181 pins for the highest of one match and a total of 477 for the whole game. His honors were closely contested in Palmer who made a total of 441 for the evening.

Ted Weirenski had the honor of making the lowest score of the evening while Henry won the prize for one game's low score.

The score as follows:

Player	Merchants	Total
Henry	121 85 115	321
Housholder	138 133 133	404
Tyler	118 128 128	374
Palmer	140 159 145	444
Cocher	143 129 127	399
	650 634 618	1942

Knights of Columbus.

Player	Total	
mann	110 160 171	441
Britt	141 140 127	408
H. Weirenski	166 130 181	477
Rive	139 145 149	433
Ted Weirenski	100 100 103	303
	656 675 731	2062

**WOMAN SEEKS LOST ATLANTIS**  
PLYMOUTH, Eng., Nov. 27.—Charlotte Cameron, the woman explorer, is headed for Mexico. She intends spending eight months in that country studying Aztec ruins, and hopes to discover traces of the lost continent of Atlantis.

According to figures given out by the coach of Springfield's team, their team averages 150 pounds in weight. The local average just a little better and as both teams are supposed to be very fast, the game will be a premier event in Sanford Thursday.

Another good game which will be in the near locality will be the fray between Rollins and Stetson. Both teams have played the University of Florida and have been defeated by almost the same scores. The Tars met the Gators on Fleming Field and were defeated by a score of 28 to 0. The Hatters did slightly better, but they were on their own field which was a great factor in their holding the powerful 'Gators to a 27 to 0 score.

The University of Florida gridironmen will eat their Thanksgiving eats in Birmingham, where on that day, they are scheduled to meet Alabama's pigskinners.

After giving Georgia a terrible trouncing last week to the tune of 36 to 0, the 'Bamans are thirsty for Gator skins.

### Football Games for Thanksgiving Day

(By The Associated Press)  
NEW YORK, Nov. 27.—Principal football games scheduled for Thanksgiving Day, November 29, in various sections of the country follow:

- East.  
Brown vs. Lehigh at Providence, R. I.  
Dartmouth vs. Columbia at New York.  
Penn State vs. Pittsburgh at Pittsburgh.  
Pennsylvania vs. Cornell at Philadelphia.
- Far West.  
Colorado Mines vs. Denver University at Denver.  
Colorado University vs. Colorado Aggies at Fort Collins, Col.  
Montana State vs. New Mexico at Albuquerque, N. M.  
Idaho vs. Willamette at Bois, Idaho.  
Oregon Aggies vs. Multnomah at Portland, Ore.  
Utah vs. Utah Aggies at Salt Lake City.
- Middle West.  
Notre Dame vs. St. Louis at St. Louis, Mo.  
Marquette vs. Vermont at Milwaukee, Wis.  
Missouri vs. Kansas at Lawrence, Kansas.  
Drake vs. Oklahoma at Norman, Oklahoma.  
Grinnell vs. Creighton at Omaha, City.  
Kansas Aggies vs. Nebraska at Lincoln, Neb.  
Oklahoma Aggies vs. Arkansas at Fort Smith, Ark.  
St. Xavier vs. Haskell Indians at Cincinnati.
- South.  
Texas Christian vs. Rice at Houston, Texas.  
Baylor vs. Southern Methodist at Dallas, Texas.

### One Instrument You've Never Played

If you are musically inclined you'll enjoy looking at the Koto, Japanese instrument. It formed part of an exhibit given by the Nippon Club, New York, for benefit of the earthquake victims. Mrs. Z. Shimizui is playing the rare instrument.

### Per Capita Tax Paid By Florida Residents As Compared With Several Other States

TALLAHASSEE, Fla., Nov. 27.—The citizens of Florida paid a per capita tax of \$7.10 more than South Carolinians, \$4.16 more than Alabamians, and \$3.21 less than Georgians for governmental purposes in 1922, according to statistics compiled by the United States Department of Commerce.

These figures show that the costs of government for South Carolina during the fiscal year ended December 31, 1922, amounted to \$7,039,493, which was a per capita cost of \$0.88, against \$2.16 in 1917, and \$1.88 in 1914. Property and special taxes represented 74.2 per cent of the total revenue for 1922; earnings of general departments, or compensation for services rendered by the state officials 10.9 per cent; business and non-business licenses 9.1 per cent.

In Alabama the government cost the tax-payers a total of \$16,832,544 for the fiscal year ended September 30, 1922, which was \$7.02 per capita, against \$3.47 in 1917, and \$3.35 in

1914. Property and special taxes represented 48.1 per cent of the total revenue in 1922; earnings of general departments or compensation for services rendered by state officials 19.5 per cent; business and non-business licenses constituted 18.6 per cent. The per capita property and special taxes were \$3.11.

Revenues collected in Georgia from general property taxes, special taxes, poll taxes; licenses and permits, and special assessments and for all subdivisions of the state, amounted to \$42,720,551, an average of \$14.39 for each person in the state.

### ESKIMOS FIND JOY IN JAZZ.

ANCHORAGE, Alaska, Nov. 27.—A missionary has organized among the Eskimos at Point Barrow, in the Arctic Circle, what probably is the farthest north brass band in the world. These Eskimos take windily to jazz, explaining that it harmonizes closely with their style of dancing.

### CLOGGED THROAT

When your wind is shut off, breathing difficult you try to raise phlegm by suddenly contracting lungs and forcing air through a throat. This is hard on your lungs and your throat and dilates the vessels. Clogged throats are easily quickly opened, phlegm raised, throat is soothed and healed by Hard's Cough Syrup (Creosoted). It prevents straining, hacking and is a valuable antiseptic action. Best remedy for coughs, colds, bronchitis, grippe, croup, and whooping cough. Safe, sure and pleasant. At all Druggists.

### Wait Don't Junk Your Old Battery

Many a battery that seems dead and gone forever quickly comes back to life when brought here. If you need a new one, we tell you so, frankly. If the old one can be revived, we revive it—or make you an allowance for a new USL—just as you wish.

Good reasons for selling. If you haven't the money and don't mean business don't answer. Address Grocery, care of Sanford Daily Herald.

## Busy Berlin Thieves.

Burglars are so numerous in Berlin, Germany, that they are stumbling over each other. The city's plain clothes men have just discovered a case in which two gangs of thieves happened to be on the same "job" at the same time and came face to face outside the residence they were about to loot. A brief consultation between the rivals resulted in plundering the place, on the understanding that the spoils would be split evenly. Teamwork made it possible to remove jewelry, silverware and linen to the value of 15,000,000 marks in the course of a few minutes.

## Wanted "Big Boy."

Although we have only lived in the neighborhood a few days, my husband has become acquainted with the little boy, about five years old, who lives next door, by playing ball with him once or twice.  
We had just finished dinner the other evening when this youngster came to the back door and said to me: "Will you please tell that big boy that lives here that the fellow he plays ball with is waiting for him to come on out."—Exchange.

## MAY SUPPLANT MORSE CODE

American Army Officer Said to Have Devised New Alphabet Superior to That in Use.

A vista for the extension of communication by radio, land lines and cables has been opened with the announcement of the invention of a new universal alphabet by Maj. Gen. George O. Squier, the chief signal officer of the army.

The new alphabet, hailed as the greatest advance in the science of communication in many years, is 2.5 times faster than the International Morse code now universally used. It is designed to supplant the latter, which was invented eighty years ago. The Morse code, General Squier said, is entirely out of date and unsuited to telegraphy as known and practiced today.

The principle upon which the new alphabet is based is that the dots and dashes occupy equal lengths of time and no consecutive signals are of the same sign, and the limit of legibility for each letter of the alphabet is practically uniform.

General Squier's other lines of research have developed results of profound importance in a technical, non-spectacular way, and other nations have recognized his scientific eminence with a bundle of honors and decorations. He is a fellow of the Physical Society of London and a member of the Royal Institute of Great Britain, a Knight Commander of the Order of St. Michael and St. George, and, at home, a member of the National Academy of Sciences, a Distinguished Service medalist and a frequent winner of the Franklin medal.—New York Herald.

## CONTRACTS AND BUILDERS

**HOMES BUILT** on easy terms. J. W. Musson.

## FEES IN GRAIN AND WINE

The president of Klein-Hoefflein, Austria, recently wrote to the Vienna papers complaining about the high cost of religious ceremonies as expected by the local pastor, whose fee for solemnizing a marriage was 110 pounds of wheat and the same amount of corn. For officiating at a funeral it was a bucket of wine. Reckoned in Austrian crowns at about 70,000 to \$1, the fees were 400,000 crowns and 442,000, respectively.

## LENGTHY FRENCH PLAY

A new play put on at the Odeon, the Paris State theater, has broken a record for length. It is a new version of "The Tragedy of Tristan and Isolt," by two modern French playwrights. There are twenty-one scenes, and the performance lasts over four and a half hours. After the first matinee the artists had not time to dine before starting the evening performance.
