

CONFERENCES ARE HELD ATTENDED BY FACTIONS RAILROADS AND UNIONS

May Decide Outcome of the Nation-Wide Strike

CONTINUE WORK

ATTITUDE OF TRAIN SERVICE EMPLOYEES WILL BE INVESTIGATED

CHICAGO, Oct. 19.—The first of a series of conferences in Chicago at which representatives of all factions in the railroad strike situation may decide the outcome of the strike call began today to continue over the week end.

CHICAGO, Oct. 19.—Efforts to avert the nationwide rail strike scheduled for October 30 last night found governmental agencies, representatives of the public and some railway labor unions taking action simultaneously which all hoped would prevent a tieup of the country's transportation system through a walkout of nearly two million employes in protest of wage cuts.

Foremost among the moves being made by the different groups was a meeting between the United States Railroad Labor Board and the heads of five unions, which have already authorized their men to strike, called for Thursday by the board, at the request of President Harding, it was said by board members.

The first move on the part of a public organization to avert a strike came when the American Farm Bureau Federation, representing 1,250,000 farmers, sent petitions to the Interstate Commerce Commission asking an immediate 10 to 20 per cent reduction in freight rates on necessities, and announced that it also would appeal to the labor board not to grant a new 10 per cent wage reduction, which the roads have announced they will seek, but rather to generally revise wages in accordance with the cost of living in various sections.

A series of meetings to last all week, will be started today by the eleven rail unions which have not yet issued strike calls although most of them have voted for a strike. Leaders of several of these unions announced that at these meetings they will oppose a strike call in the hope that a split between them and the five unions already authorized a walkout may avert the threatened strike.

GOVERNMENT PREPARES TO USE SOLDIERS TO KEEP TRAINS MOVING.

SAN ANTONIO, Texas, Oct. 19.—Orders for a consignment of all military commands in the Eighth army corps area, comprising five states, for soldiers experienced in the operation of railway trains and the maintenance of ways, have been issued at area headquarters, Fort Sam Houston, it was learned today.

COURT REFUSES POPE BENEFIT NEW TRIAL.

JACKSONVILLE, Fla., Oct. 19.—Another trial for John H. Pope, local attorney convicted recently of murder in the first degree, with a recommendation for mercy in connection with the killing of George Hickman, theatrical man, during a holdup, was denied by Judge Gibbs who sentenced the attorney to life imprisonment.

An affidavit for insolvency immediately was filed by Edgar Waybright counsel for Pope, and Pope was adjudged bankrupt by the court. Judge Gibbs then ordered the county to pay the expenses of an appeal to the state supreme court which Pope's counsel will prepare at once.

Frank Rawlins, who was convicted on the same charge, was sentenced to life imprisonment.

GROWERS AND SHIPPERS WILL CHANGE MEETING ORLANDO TO JACKSONVILLE

TAMPA, Fla., Oct. 19.—The meeting scheduled for Orlando, October 27th, between the growers and railroad representatives to discuss a revised freight rate, was transferred to Jacksonville and will be held on October 28-29.

Railroad Yardmasters Will Remain at Work, and Cut Out the Strike

Eight Thousand Members Will Remain at the Switch

COLUMBUS, O., Oct. 19.—National headquarters here of railroad yardmasters association of America with a membership of 8,000 throughout the country today sent out notices to remain at work performing their usual duties in event of the railroad workers strike.

DEPARTMENT OF JUSTICE IS INVESTIGATING KLAN IN FLORIDA, AS ELSEWHERE.

TAMPA, Fla., Oct. 19.—Federal District Attorney H. S. Phillips was asked last night what action he had taken in reference to complaint of Thornton Parker, of St. Petersburg, that his life had been threatened by ostensible Ku Klux Klan letters received through the mails at St. Petersburg.

Mr. Phillips stated that the department of justice some time ago began through its special agents, an investigation of activities of the Ku Klux Klan throughout the country, and that one or more special agents have been at work in this state. To a special agent operating in this district was given in charge the task of investigating the letters received by Peter in the hope of tracing them back to the sender.

PRESIDENT AT YORKTOWN CELEBRATION

RAILROAD STRIKE IS NOT WORRYING CHIEF EXECUTIVE TODAY

YORKTOWN, Va., Oct. 19.—President and Mrs. Harding are the guests of honor today at a celebration marking the 140th anniversary of the surrender of Lord Cornwallis. The presidential party arrived from the capital after overnight trip on the yacht Mayflower. Harding's address was a feature of the day's program, and was delivered at the foot of Yorktown monument. At its conclusion he proceeded to Williamsburg to participate in the installation of Dr. J. A. C. Chandler as president of the college of William and Mary. From Williamsburg the president planned to go to Jamestown to board the Mayflower.

SECRETARY OF WAR TO VISIT NITRATE PLANT IN ALABAMA.

WASHINGTON, D. C., Oct. 19.—Secretary of War Weeks, will personally inspect the government nitrate and water-power projects at Muscle Shoals, Ala., arriving there for that purpose probably Friday, October 28.

The Secretary will accompany President Harding to Birmingham next week and after a visit with Mr. Harding at Camp Benning, Secretary Weeks will leave for Muscle Shoals. Mr. Weeks will leave Atlanta on the 27th and, according to present plans, will arrive at the nitrate plant the following morning.

"I have been urged to do this," the secretary said, "by Senator Underwood and Representatives Bankhead and Almon. It is at their request that I am making the inspection."

New York's Chinatown Celebrates

The Orientals of New York have organized a new merchants' association, and for eleven days Chinatown was a riot of color and gaiety in celebration of the event.

COUNTY TAX ASSESSORS ASSOCIATION WILL MEET IN JACKSONVILLE IN NOVEMBER

STATUE OF STONEWALL JACKSON WAS UNVEILED AT CHARLOTTEVILLE.

CHARLOTTEVILLE, Va., Oct. 19.—The bronze statue of General Stonewall Jackson, was unveiled here today, with Senator Pat Harrison, of Mississippi, the principal speaker.

ROADS PREPARE TO DO UTMOST MOVING FREIGHT

PRESIDENT ILLINOIS CENTRAL DECLARED AT MEETING TODAY

CHICAGO, Oct. 19.—In event of a strike the roads are prepared to do their utmost to move necessities, utilizing to the fullest extent all man power available, Charles H. Markham president of the Illinois Central railroad declared today in an address before the American Mining Congress. Markham said the present transportation tangle was due to the fact that ninety-nine public bodies have hand in fixing rules, income and expenses of the roads and that the railroads have no voice in the expenditure of more than ninety-seven per cent of their operating costs.

Lone Bandit Held Up Express Train Obtaining Big Loot

MOOSEJAW, Saskatchewan, Oct. 19.—A lone bandit today held up the Dominion Express messenger on the Vancouver, Toronto express between Swift Current and Moosejaw, rifled the safe and dropped from the moving train. Officials checking up to determine how much loot was obtained.

SUDDEN DEATHS IN MIAMI INVESTIGATED BY STATE PHYSICIAN.

MIAMI, Fla., Oct. 19.—Doctor Dame, of Jacksonville, is in Miami, for the state board of health to conduct an investigation into the deaths of George E. Mason, sixty-one, his son Mont Davis Mason, twenty-nine, and his daughter, Mrs. Ada Prince, thirty-one, all of Fort Wayne, Ind., who died here within forty-eight hours.

he father passed away at 6 o'clock Saturday morning and the son and daughter died within an hour of each other Monday. The attending physicians and the city health officer pronounced death due to dengue fever and complications. Dr. Dame has not completed his report, but it is understood that he concurs with the city officials and physicians.

SENATE RATIFIED TREATIES WITH GERMANY, HUNGARY AND AUSTRIA LAST NIGHT

OKLAWAHA RAILROAD IN SHERIFF'S HANDS UNTIL SETTLEMENT.

OCALA, Fla., Oct. 19.—The issuance of certificates for the unpaid taxes by the receiver of the Oklawaha Valley railroad, was deferred by an order from the court to the 28th. In the meantime the road remains in the custody of the sheriff.

The Bergdoll Millions Again Take Hand, Valuable Papers Stolen

From Office of Rep. Johnson, Who Conducted Investigation

WASHINGTON, Oct. 19.—A box containing Bergdoll investigation and private papers was stolen from the office of Representative Johnson, of Kentucky, Monday night, and was found today on the fifth floor of the house office building broken open and with important documents missing.

KIRBY DECIDES NOT TO DIE ON FRIDAY.

COLUMBIA, S. C., Oct. 19.—S. J. Kirby, one of the three men under death sentence for the murder of William Brazell, Columbia taxidriver, will not die Friday. He decided this for himself when he refused to abandon his appeal and stated that he would get another lawyer and push his appeal.

King Ludwig Died Yesterday In Hungary

LONDON, Oct. 19.—Ludwig, III, former king of Bavaria whose throne crumbled when German armies were defeated and the former emperor William fled to Holland, died yesterday at Sarvar castle in Hungary.

INSANITY PLEA BY MINISTER WHO KILLED PRIEST

WAS WROUGHT UP BY FACT DAUGHTER WED CATHOLIC

BIRMINGHAM, Oct. 19.—When court adjourned last night the defense in the case of Rev. Edwin F. Stephenson, charged with second degree murder in connection with the killing of Father James E. Coyle on August 11, had begun the presentation of testimony to support its plea that the minister was insane at the time he shot the priest. The state rested earlier in the day.

According to the testimony of S. E. Willoughby, Rev. Stephenson talked to him a great deal prior to the tragedy regarding the defendant's daughter, Ruth, whose marriage to Pedro Gussman, a Catholic, was followed by the shooting of the priest who performed the marriage ceremony.

"Mr. Stephenson seemed very much disturbed and worried about some of his family affairs, declaring that his daughter was being carried into the Catholic church against his will, and came to me for advice about it. He talked very strangely and several times broke down and cried," said Mr. Willoughby.

"Just a few days before the killing he seemed temporarily resigned, and asked me to keep an eye on her and her mother, which I did. He seemed to think the trouble would blow over," he said.

On another occasion, the witness said, the minister was "disturbed immensely." This was the time when Ruth was in the home of Fred Bender, he added.

The first question on cross-examination was what the attitude of the witness toward the Catholic church was. Attorney Black objected to the question, but later withdrew opposition, and the witness said he was opposed to the Catholic church and its program.

Vote Was Sixty-Six For and Twenty Against

WE ARE AT PEACE

ACTION COMPLETES THE ADMINISTRATION'S IMMEDIATE PEACE PROGRAM

WASHINGTON, Oct. 19.—The administration's peace treaties with Germany, Austria and Hungary were ratified by the senate last night, the vote on the first two being 66 to 20, or eight more than the necessary two-thirds, and in the case of the Hungarian treaty, due to the absence of three senators, being 66 to 17.

The senate action completed the administration's immediate peace program and brought a full state of peace with the principal enemy powers. Remaining now only are the formal exchanges of the ratification, except in the case of the Hungarian treaty as that government also has yet to complete parliamentary action on the treaty.

Only three Republicans, Senator Borah, of Idaho; Sen. LaFollette, of Wisconsin, and Sen. Norris of Nebraska, who, absent on account of illness, was paired against ratification, voted against the treaties. Fourteen Democrats, on the other hand, supported the treaties while two more were paired in favor of ratification.

Before final action was taken a Democratic effort to substitute for the German treaty the treaty of Versailles with the twelve Lodge reservations was defeated, and the foreign relations committee reservations prohibiting American membership on the allied reparations commission or any other international commission without the consent of congress, were adopted.

Negro Caught After Year's Escape, Killed Little Girl

VINELAND, N. J., Oct. 19.—Louis Lively, negro, accused of killing little girl at East Mooristown last spring, was arrested here early today after shooting a policeman. According to the police he confessed to killing the child. A small crowd surrounded the jail after his arrest became known but every precaution was taken to guard the prisoner.

Lively is charged with killing seven-year-old Matilda Russo, mutilating the body and burying it in the cellar of his home. The body was found a week later. Policeman Wilson, shot by Lively when he attempted to arrest him, is believed fatally wounded. A crowd quickly gathered around the jail and a threat of lynching was heard. Lively will be removed to a safe place. It is said the girl was a playmate of his son. The child broke a dish in his home and he threw a stick of wood which struck her on the head, killing her. He became frightened and buried the body.

Thirty-Third Degree Masons Elevated in City of Jacksonville

JACKSONVILLE, Oct. 19.—Edmund Stiles Jackson, Eustis, and John Harry Pratt, Jacksonville, were elevated to honorary thirty-third degree by the Supreme Council Scottish Rite Masons now in session in Washington according to word received here.

VOCATIONAL SCHOOLS ACCUSED

WASHINGTON, D. C., Oct. 19.—Bluntly charging "exploitation and resultant destruction of the minds, bodies and souls" of former service men placed in some commercial school for vocational training, Director Forbes, of the Veterans' bureau, announced today the cancellation of more than a score of contracts with schools in various parts of the country.

Anyway, you will have to give the newspapers credit for trying to settle all the world's problems.

SPORT WORLD

STUBBORN RESISTANCE OF ROLLINS TO HEAVY UNIVERSITY TEAM WAS WONDERFUL.

Florida used 29 men against Rollins' 15—man every ten minutes a fresh player was added by the University eleven.

The splendid showing of Rollins College in its game with the University of Florida Saturday was nothing less than a marvelous exhibition of nerve and fighting spirit. To the boys who fought through the game against such fearful odds of weight and strength, too much credit cannot be given. While the score of 33 to 0 bespeak a comfortable margin for the Florida team, it in nowise expresses the struggle Florida experienced in getting that total. With a reserve of thirty men, anyone of which far out weighed the heaviest man on the Rollins squad, Florida was able to send fresh players into the game at all times. Nor did Coach Kline omit any opportunity to change his men when they appeared the least bit fatigued, for no less than 29 members of the University squad were pitted against the light weights from Winter Park, each of whom accepted the inevitable of having a new fresh opponent every ten minutes, and fought on gamely with declining strength until the final whistle of the closing play.

Coach Kline was forced to retain his original lineup of first string players throughout the first two quarters of play, a fact alone which reflects much credit to the collegians, for through what was supposed to be thirty minutes of actual play, the Winter Park aggregation held their husky opponents time and again for downs, and were even able to make considerable ground against the Florida regulars, lacking, however, the driving power and weight to put the ball over when within striking distance.

One thing which adds much to the showing made by Rollins, as well as reflecting the gameness and spirit of fair play and sportsmanship of the Winter Park players, is shown by the fact that the first quarter of play was fully 13 minutes overtime, the scrappy collegians holding the University to an 8 to 0 score for 38 minutes of actual football playing time. Instead of a 15-minute quarter at the start of the game, owing to the inefficiency of the timekeeper, the Rollins team battled with the Florida regulars for 23 minutes during the first quarter. During the second quarter, with a full set of fresh players in the lineup of the Florida eleven, Rollins held on like grim death, not a score being made in this 15 minutes of play. Certain it is that had the timekeeper been onto his job, the safety made by Florida in the first quarter would not have been made and two points eliminated from the score. Not only this, for fifteen minutes of overtime against the regular Florida eleven certainly had a tremendous part in weakening the lighter College team and making possible the running up of 13 points against them in the last quarter. While it is speculative just what effect this error in time would have had on the actual score, if 13 minutes could have been taken off from the last quarter of play, certainly the score would not have exceeded 15 or at the most 21 points; for Florida made its best gains and did its most scoring in the last ten minutes of play when the Rollins eleven was crippled and fighting without the services of Captain Wright, and its best defensive men in Boylo and Teare.

Under the rules of today, Coach Kline was allowed to put his regulars in the lineup during the last quarter which resulted in Carlton tearing through the weakened Collegians for repeated gains of 20 to forty yards. Credit is due Carlton for his spectacular broken field running, the only effective work of the Florida eleven; but it will be remembered that he and other backfield men seemed tied to a post in the first two quarters of the game.

To the Collegians remains the proud recollection of having held Florida's best to a mere eight points for 38 minutes, and the experience gained will undoubtedly be used to advantage in building up the Rollins team for its future games.

Florida goes to Carlstrom Field for a game with the aviation squad this afternoon, and followers of the 'gator eleven are looking to this game with increased interest after the gruelling game of Saturday.

MODERN ROBINSON CRUSOE.

KEY WEST, Oct. 18.—Elias Hall, a negro seaman, is of the opinion that his recent experiences rival those of Robinson Crusoe's Good Man Friday. Hall was a watchman aboard the schooner Lilly B., while she was moored off Tarpon Springs. The night of September 9, during a storm the schooner broke from her moorings, and was wrecked off Cape San Blas. Hall's foot was mashed during the storm and after two days his water and provisions gave out. He had only his pet cat to comfort him in his predicament. After 10 days when he had given up hope of being rescued, Hall was attracted by the peculiar antics of the cat. He found that the cat had sighted a vessel. He managed to attract attention and the schooner Annie M. Murphy hove-to. Later the schooner transferred him and the cat to the coast guard cutter Cossack which brought them into port. Hall was placed in the marine hospital where it is believed he will recover from his privations.

Election to Decide On Mayor Mitchell at St. Petersburg

Whether He is Sustained or Whether He is Not

(By The Associated Press)
ST. PETERSBURG, Oct. 18.—The election to decide on the recall of Mayor Noel A. Mitchell was set for November 15, 1921, by the city commissioners. Possibility of a contest in the opinion of the city attorney who declared the election should have been called by ordinance, but it is not believed likely to be a contest no matter which side wins. Mitchell says he will not oppose the election but welcomes it.

LEESBURG ACTS AS HOST FLORIDA WATER TRAFFIC LEAGUE HELD LAST NIGHT.

(Continued from Page One)
benefiting the shippers and merchants of Central Florida.

Col. Knight told the Leesburg people that it was the intention of the League, in addition to educating individuals and communities to the advantages of water transportation, to maintain a department for the handling of claims for shortages and over charges, and that it had been estimated the revenue to the League from this source alone would be considerable. Members of the League would be privileged to have claims for shortages handled on a 10 per cent basis and overcharges on a 25 per cent basis. He also stressed the necessity of securing greater tonnage for our inland water ways, if federal appropriations are to be obtained for improvements.

A. P. Connelly, of Sanford, in a very forceful manner, brought out the point that with the growth and development of Florida's agricultural resources that the railroads would be hard pressed to supply the necessary facilities for handling the volume of business this development presaged. He volunteered the suggestion, made to him some years ago by a citrus grower, that the time would arrive when it would be necessary to purchase a fleet of ships to operate to every navigable port in the world in order to create new markets for the consumption of the enormous production of the peninsula state. This operation would require a large financial outlay which should be raised by assessing every grower so much per tree. Mr. Connelly also stressed the importance of developing our tonnage via the water and as a natural consequence a physical development through federal aid would be accelerated.

L. S. Scoble, of the Clyde Line, and H. S. Ward, of the Merchants & Miners Transportation Co. brought out very interesting data showing differentials in favor of all water over all rail rates and the improvements to the services recently inaugurated by these lines.

E. T. Woodruff, of Sanford, recognized as one of the most ardent supporters of our inland waterways also emphasized the necessity of giving the Central Florida Water Traffic League their fullest support if relief from the present excessive rates were to be expected. Other speakers on the program were Mr. Fatch, of Leesburg, Mr. Burton, of Leesburg, Mr. Tarpley, secretary of the League, Willis Powell, secretary of the Lake County Chamber of Commerce; J. G. Ball, Sanford, and Secretary Pearman of the Sanford Chamber of Commerce.

At the conclusion of the addresses, motion was passed by the Leesburg Chamber of Commerce that three members from that organization be elected as directors of the Central Florida Water Traffic League, and that the League be assured of the support of the merchants and growers of Leesburg would ship by water whenever and wherever practical.

Sanford merchants should secure membership in the league at once and take advantage of the facilities offered by the League's Traffic Department for handling their claims. Dues in the League are \$10 per year, and check should be mailed to W. D. Tarpley, Orlando, together with application blanks which can be secured from the secretary of the Sanford Chamber of Commerce.

BOYS BOUGHT LIQUOR DISCOVERED MOONSHINE STILL.

KEY WEST, Oct. 18.—Discovery of two intoxicated small boys here last week resulted in the seizure of the most complete moonshine liquor manufacturing plant ever found in Monroe county. The still was in a house occupied by a Cuban who several days previously had been called to Havana because of the illness of his wife. The children, at play, entered the vacant house, found a quantity of liquor and proceeded to stage a stag party. After the drinking bout they went home, and, attracted by their conduct, neighbors reported their condition to the police. The police ascertained where the boys had been and found the still without difficulty.

JAPAN'S DELEGATES TO ARMAMENT CONFERENCE HAVE CABINET POLICY

YOKOHAMA, Oct. 17.—Members of the Japanese delegation to the Washington conference on limitation of armaments and Far Eastern questions sailed yesterday afternoon for the United States on board the steamer Kashima Maru. The newspapers say the delegation carries with it the disarmament policy of the Japanese government formulated by the cabinet council and approved by the advisory council. A copy of these instructions was handed yesterday to the American ambassador.

There was a tremendous crowd at the pier to bid the delegation farewell. Old residents of the city said that they had never witnessed a greater ovation. Numerous floral arches spanned the route of the delegates along the pier to the steamer.

Viscount Uchida, the foreign minister who accompanied the delegation which is headed by Prince Tokugawa, president of the house of peers, from Tokyo to Yokohama said to the Associated Press correspondent on leaving the ship, "May this beautiful Japanese day typify the Washington conference, leading to harmonious co-operation of the powers and making the world happier."

The world news the day it happens, delivered at your door each evening, 15c the week.

BARNES HOLDS WORLD'S RECORD FOR SETTING TYPE BY HAND.

ORLANDO, Oct. 18.—William C. Barnes, of St. Petersburg, old time printer and typesetter and holder of the world's record for typesetting by hand, was among those who attended the meeting here Sunday of union printers of the State. Mr. Barnes, who is 80 years old, was born in Canada, but most of his life has been spent in the United States.

It was on January 1, 1886, that Barnes entered the race for the world's typesetting honors, taking part in a contest with other compositors who were nationally known for their speed in sticking type. The contest lasted twenty-one consecutive hours and Barnes averaged 1,937 ems of nonpareil type per hour, for that period. The trophy he won was a diamond studded gold medal carrying with it the title of typesetting champion.

Barnes' average of 1,937 ems an hour was not his best record, however, for in another contest he set 2,160 ems in one hour. In an exhibition meet he stood at the case and, blindfolded, set 1,005 ems of type in one hour, which was just about equal to the speed of the average hand compositor not wearing "blindlers."

The world news the day it happens, the Herald office.

Wizard Denies Taking Illness at Investigation

WASHINGTON, Oct. 18.—A sharp clash between William J. Simmons, imperial wizard of the Ku Klux Klan, and Chairman Campbell of the house rules committee, marked the re-opening yesterday of the wizard's examination when the klan head touched on the question of his physical collapse last week.

Simmons declared that Assistant Attorney General Crim remarked at the time: "Damn such faking, I've been expecting it all along."

"I was also told," Simmons added, "that Mr. Crim and Chairman Campbell had said it was cheap theatricals, intended to create sympathy."

Chairman Campbell broke in with a bang on the table:

"If all the rest of your statement is as false as your statement to me, it is utterly without foundation. The conversation you mention did not occur. I made no such statement."

Representative Rodenberg (Republican, Illinois), declared the witness should not dignify such reports to insult the committee. Mr. Crim took a hand.

"I have no reply," he said. "Mr. Campbell's reply covers it."

Representative Uphaw, Democrat, Georgia, undertook to speak but was ordered to sit down.

Demand was made for the name of a newspaper correspondent that members of the committee looked upon the wizard's collapse as a fake.

Simmons could give it, but Representative Uphaw said it was the correspondent of the New Orleans Item whose name he did not know. Representative Pou, Democrat, North Carolina, insisted that the wizard have fair play and Campbell said he was getting it.

"I heard comment in this room that Mr. Simmons' collapse was stage play. Anybody could see the witness was ill," Mr. Pou said.

In beginning his statement yesterday Simmons launched into an attack against the New York World, declaring an alleged expose of the Ku Klux had never presented any evidence to support its charge that lawless acts had been committed by the klansmen.

Seeing great circulation gains by a rival, the wizard said the Hearst papers reached out for a part of it employing "a former klansman who had been discharged by Edward Young Clarke, head of the Ku Klux publicity bureau."

Everybody grinned when the wizard declared the World was preparing to have one of its representatives tarred and feathered in an effort to make it appear the crime was the work of the Ku Klux.

KEY WEST REPORTS BIG CIGAR OUTPUT

KEY WEST, Oct. 18.—Stimulation of the cigar industry has been noticeable from figures of the month of September, when all the factories of the city put out 5,073,929 cigars. The factories have big forces and all are running full time. During the month the sale of stamps totalled \$46,927.91, according to a report made by Stamp Collector H. J. Roberts.

Now---as to economy

Economy is not only a matter of saving. It consists also of spending money to best advantage. You can often add materially to the effectiveness of your purchases by reading the advertisements in this publication.

Advertising identifies goods of unquestioned value. When a manufacturer puts his name on a product and tells you about it, you may rest assured that it is worth while. It does not pay to advertise merchandise that is not sound. The comebacks are too costly.

Make a practice of reading advertisements. Read them as news from the business world, published for your benefit.

Sometimes, they keep you from making an unwise purchase by pointing out just why one article suits your needs better than another. A step toward real economy!

Often, they help you live better and dress better, and make more of your income in every way. Also, real economy!

And you will find that they frequently save you money.

Economy, Certainly

shaking hands with friends and transacting business.

PIPE ORGAN CLUB

The Temple Pipe Organ Club held its regular weekly meeting at the home of Mrs. Kent Rossitor on Colory avenue.

Answer to roll call was by names of favorite authors. Mrs. Barnes presided in the absence of the president, Mrs. C. B. Ryan.

One new member, Mrs. Farrell, was initiated and Mrs. Rand Merriwether was unanimously elected.

A most delightful luncheon of sandwiches, pickles, punch, cake and fruit was served by the hostess.

The next meeting is to be held at the home of Mrs. Arthur Johnson, 206 Laurel avenue.—Mrs. K. R. Murrell, Jr.

EVENING BRIDGE

Mrs. E. F. Housholder was the gracious hostess last evening when she entertained the members of the Evening Bridge Club at her home on Ninth street, there being three tables of players.

Purple Dahlias were used in charming profusion in the various rooms where the card tables were arranged. Of exceptional interest was the game of bridge played, high score among the men was made by Dr. Puleston, who was given an ash receiver, while the prize for high score among the ladies, a dainty vanity satchet was presented to Mrs. C. E. Henry.

After this delightful game of cards Mrs. Housholder served a tempting salad course.

Mrs. Housholder's guests included: Dr. and Mrs. S. Puleston, Mr. and Mrs. F. E. Roumillat, Mr. and Mrs. R. E. Newman, Col and Mrs. George W. Knight, Mr. and Mrs. Thrasher, and Mrs. C. E. Henry.

MRS. THOS. F. EAST RESIGNS

It is sincere regret to the members of the Methodist church, that Mrs. Thomas F. East has sent in her resignation as organist. Owing to other duties Mrs. East feels that she can not continue as organist.

HOURLY CHANGED FOR STORY HOUR

The Story Hour held each Saturday afternoon in Central Park under the auspices of the Mother's Club, will meet at four o'clock from now on instead of five as heretofore. All children between the ages of five and fifteen are cordially invited to attend.

PRESBYTERIAN MEN

H. C. DuBose, of Sanford, has been selected as speaker at the men's meeting which is to be held at the First Presbyterian church, Thursday. Mr. DuBose is said to be a pleasing and earnest speaker. Those in charge of the meeting are confident that a large number will be in attendance and there are hopes of this gathering being an inspiration for the beginning of a big work by the men of the First Presbyterian church in this city.—Tampa Tribune.

ENTERTAINS CLUBS

A delightful social event of yesterday afternoon was the bridge party given by Mrs. Archie Batts at her home on Palmetto avenue, there being three tables of players including members of the Seminole Bridge and T. N. T. Clubs.

The rooms of this lovely home were effectively decorated with baskets and crystal vases of yellow elder and daisies.

A very absorbing game of bridge was played during the afternoon. Mrs. Robert Hines making high score was awarded a basket filled with pink roses, the handle being tied with pink tulle, while Mrs. Joe Chittenden was

the fortunate one in cutting for the consolation, it being a basket of yellow elder.

At the conclusion of the card game Mrs. Batts assisted by Mrs. S. M. Lloyd served a delicious salad course.

Among those enjoying Mrs. Batts charming hospitality were: Mesdames Joe Chittenden, Robert Hines, S. M. Lloyd, Henry Purdon, A. W. Lee, John G. Smith, Howard Smith, Fred Dalger, Raymond Key, J. B. Lawson, Howard Overlin and Miss Martha Fox.

FATHERS AND SONS BANQUET

Tonight the committee from the Holy Cross Men's Club on the Fathers and Sons banquet, R. J. Holly, D. Turner, A. F. McAllister, Shemakh Lloyd, Frank L. Miller and the Club's president, B. F. Whitner, met in the B. S. A. Assembly Room. Plans are going steadily forward for the biggest "Get-together" banquet ever held of Sanford men in this city, on Thursday night, October 27th in the Parish House. This banquet is being given complimentary by the Men's Club to the Fathers who have sons in the B. S. A.; and the fathers of the men's Club who will bring their son or some other boy.

THE CIRCUS

Plans by the B. S. A. for their "Indoor P. T. Barnum's, Jr., Circus" are coming steadily on. Everyone is at work under the general chairmanship of Tom Meredith. It promises to be the greatest thing Sanford has ever had and will be staged at an early date in the newly remodelled and greatly enlarged Holy Cross Parish House.

MEETINGS

THURSDAY

3:30—Nellie Turner Circle at home of Mrs. Robert Glenn.

FRIDAY

7:30 p. m., Seminole County Federation of Baptist Young People at the Baptist Temple.

CURBSTONE BROKERS

WILL GET THE RUN IN CITY OF ORLANDO.

Word has gone out from police headquarters that the unlicensed wild cat real estate gentry will have hard going here this season.

Chief of Police Vestal passed the word out this morning that he is going after this particular brood to get 'em. It is understood he will issue a warrant for one unlicensed operator today, and others may follow.

Complaints have been made by bona fide real estate men that several men are operating in the city without licenses. It is said the number of men doing this sort of trade is increasing each year. A special endeavor will be made by the police department to break up the little game.—Reporter-Star.

C. E. MEETING AND SOCIAL

On Monday night, the Christian Endeavor of the Congregational church, had a business meeting and social at the home of Mrs. VanNess, on the west side.

KNIGHTS TEMPLAR ATTENTION

Taylor Commandery will hold a Stated Conclave on Friday evening, at 7 o'clock. All members of this Commandery as well as all Knights Templar in Sanford and Seminole county are requested to attend this Conclave. Matters of especial interest to the order will be considered. The Mediterranean Pass and the Order of Malta will be conferred upon all companions of the Red Cross of this Commandery. All companions eligible please take notice. Orders to be conferred at 8 p. m.

H. E. TOLAR,
Eminent Commander.

ATTENTION LEGIONARES.

The Woman's Auxillary of the American Legion, will give a banquet for members of the American Legion, Campbell Loosing Post, Thursday night, October 20th, 8 p. m., at the Woman's Club. Come and bring a new member for the Auxillary or the Legion, with you. Let us show the Auxillary that we have a live bunch of Legionares in Sanford, by coming out.

L. F. ROPER,
VIRGIL L. SMITH, Post Com'dr.
Post Adj. 178-Step

CARD OF THANKS.

To the many friends who were so kind to us in the death of our infant son, we wish to express our thanks.
MR. and MRS. L. B. BRAGG.

The plunger may never arrive, but he thinks he will, which is the next thing to arriving.

First Meeting Vocational School Well Attended

At the first meeting of the evening vocational school last night, much interest was shown. Over twenty enrolled for the course in mechanical drawing and blue print reading, with Mr. A. H. Stone as instructor. Mr. Stone is well qualified to handle such a course, being a man with both practical experience and college training. In fact, the Sanford tradesmen and mechanics are fortunate to have brought to them such instruction and at no expense to the men or the community for the salaries of teachers engaged for these classes are paid for out of State and Federal funds, thru the State and local boards of public instruction.

Mr. L. Sherman Greene, state supervisor of industrial education, was in the city yesterday to personally assist in the organization of these classes. He was in Orlando Monday night when that city started off with four of these classes, and each of them full. He reports that Tampa has eight classes now running, while Jacksonville will have fifteen or more. Classes will be organized in other communities as fast as is possible, and to the extent of the available funds. Mr. Greene further states, that if men in the various building trades in this city desire to have a course in architectural drawing and blue print reading, followed by a course in steel square and roof framing for carpenters, and will so express themselves to Supt. Lawton, he will recommend that the board receive aid for this purpose, provided, of course, that competent teachers can be obtained.

Supt. Lawton and the board are to be congratulated for being able to get funds and organize these courses that local men may increase their trade knowledge, skill and efficiency, at no expense to themselves or the local community, and while actively engaged in wage earning employment.

As we go to press, we understand that the board has in mind a man suitable to teach the course in architectural drawing and that it is hoped to offer this course soon.

ALLEGED DESERTER FROM ARMY JAILED ON FORGERY CHARGE

TALLAHASSEE, Fla., Oct. 19.—James Gray, self-confessed deserter from the United States army, was caught in an attempt here Saturday night to pass a forged check on T. J. Appleyard, of this city. It seems that Gray went to Appleyard's printing establishment and applied for a position as pressman. He was told that there was no vacancies. But, in some manner, while in the place of business Gray seems to have picked up a blank check. It developed that Gray took the check to a stationary store, asked to use a check protector on a check he was sending his wife, the request was granted and he then took the check to a grocery store and bought seven or eight dollars worth of goods offering the check for \$38.75 in payment. Suspicion developed at the grocery store and when the clerk went to the safe to get the cash he called Mr. Appleyard over the phone to see if such a check had been issued. Gray hearing the telephone conversation ran from the store. Chief of Police Banks was notified, who pursued and caught Gray on the railroad track on the edge of town.

The prisoner is not known in Tallahassee but he gives his name as James Gray and says he deserted the army at Camp Pike in June, 1920. He is being held in the city jail pending an investigation as to his record.

CHECK UP CONTENTS OF YOUR PURSE!

Keep your eyes open and you can prevent your being victimized by counterfeiters who are flooding the nation with bogus millions.

The secret service staff of the United States Treasury Department says: Scrutinize all bills closely. Hold a genuine note to the light and observe the fine silken texture. If you receive a note with coarser texture or with blurred outlines on the design let's open to suspicion.

"You can detect raised notes by remembering that \$10 bills bear a picture of Jackson, \$20 of Cleveland, \$50 of Grant, \$100 of Franklin and \$500 of Marshall.

"Don't depend too much on the 'ring' in detecting false coins. Run your fingers over the surface. If they stick, the coin's genuine. If they slide easily, it may not be."

Office supplies of all kinds at The Herald Printing Co. When you want anything in this line see The Herald. We have it or can get it.

Post-cards—local views—10 each at the Herald office.

THE COMMON-PLACE NEWSPAPER

(By Bob Adams)
Of all the sheets from East to West the local paper is the best. Deep is our love and deep our debt to Herald, Journal or Gazette. When first I landed on this ball, a bit of flesh wrapped 'round a squall, it welcomed me with joy and pride my life has never justified. It follows me my whole life through, with words all kind and mostly true; and even after I am heard 'twill tell my best and hide my worst. When in Oshkosh or Wicketup I wander homesick as a pup, or if in foreign lands I roam, it brings me pleasant news of home. Across the sands, across the seas, the old home paper comes to me. It is a friend both true and tried, and to it, gentle, I point with pride; yea, I will hock my Sunday pants to pay up six years in advance.

LAKE COUNTY BOY CHAMPION RIFLE SHOT

LEESBURG, Oct. 18.—Walter S. Stokes, former Lake county boy, whose parents, Dr. and Mrs. C. H. Stokes, reside at Mohawk, is winning fame as a rifle shot, according to advices received here from Washington, D. C., where he is engaged as an instructor in the High School Cadet Corps of that city. Young Stokes recently won the world's rifle championship at the international shoot in Switzerland, these advices state. Mr. Stokes was the only civilian of a team of five men representing the United States. In addition to the American team winning first place in the matches, Stokes won every individual honor. The American team captured the coveted Argentina cup, previously held by Switzerland for 17 years and valued at \$12,000.

Since eight years ago when Stokes left home he has attended school in New York state and in Washington. In 1918 he served a period in the navy. Senator Fletcher obtained for him an appointment to Annapolis, where he remained a year and then resigned to take the position as instructor of the Washington cadet corps. He is a senior at present in the law department of the George Washington University. During the past eight years he has acquired some 100 medals for his ability as a marksman.

NINE MILLION AUTOS AVAILABLE

NEW YORK, Oct. 18.—More than nine million automobiles and trucks will be available for emergency if the railroad strike for October 30 goes into effect. Alford Reeves, general manager of the National Automobile Chamber of Commerce, declared in a statement. Mr. Reeves said the motor trucks of the country could easily handle freight necessary to relieve emergencies, and added that in cities commuting passengers traffic could be taken care of by motor buses.

Farmers, Mr. Reeves said, own 130,000 trucks and these, with those in cities, could be utilized in delivering food products.

FORMING GOOD READING HABITS.

If parents wish their children to form good reading habits they must first form such habits themselves. And there is no better way to do this than to bring into the household a periodical that will be of interest to every member of it; that will supply the best reading for old and young. Among the periodicals of this description The Youth's Companion is unique. Not only does it aim to entertain and inform boys and girls in their teens, as its name suggests, but there is not a page in it that parents can pass over with indifference.

The 52 issues of 1922 will be crowded with serial stories, short stories, editorials, poetry, facts and fun. Subscribe now and receive:
The Youth's Companion—52 issues in 1922.
All the remaining issues of 1921.
The Companion Home Calendar for 1922, all for \$2.50.
Or include McCall's Magazine, the monthly authority on fashions. Both publications, only \$3.00.—The Youth's Companion, Commonwealth Ave., and St. Paul St., Boston, Mass. New subscriptions received at this office.

REGULATION OF TEMPERATURE

According to Opinion of Experts Proper Mark for the Home is About 65 Degrees.

Heating experts tell us that churches should be kept warmer than lecture rooms. Whether this implies that the lecture room audience is more apt to forget any discomfort due to temperature than a church congregation they decline to say.

According to the scientists versed in the subject 65 degrees is the proper temperature for a church, while that of a lecture hall should be between 60 and 61 degrees.

Public buildings, the experts agree, should have a temperature between 68 and 72 degrees, while schools should be kept uniformly at 70 degrees.

The proper temperature for the home is about 68 degrees, with bedrooms at between 70 and 85 degrees. Entrance halls and vestibules should be kept at a temperature between 64 and 66 degrees; gymnasiums 60 and 62 degrees; 68 degrees.

These are the temperatures for hospitals: general rooms, 72 to 75 degrees; sick rooms, 72; operating rooms, 70 to 90.

Experts apparently do not believe in making prisons attractive in cold weather, as they recommend a temperature for them between 50 and 64 degrees. Factories and shops should be kept at a temperature of 65 degrees; boiler shops and foundries, 50 to 60; machine shops, 60 to 65; paint shops, 80.

GAP JOHNSON CHANGES MIND

Native of Rumples Ridge, Ark., Decides Not to Take a Second Help-mate After Dream.

"I was feeling rotten puffy yesterday and went to bed in the daytime, and dreamt that I was about to marry again," confessed Gap Johnson of Rumples Ridge, Ark. "I thought right well of the lady, too, till after a mess of the dogs had come in a-yelling with several more after 'em, and all tore under the bed and went roaring round and round. Then most of my fourteen children boogied in, cussing and fighting among themselves over which gang of dogs had the right of it, and mostly rolled under the bed with the dogs, where all hands pursued to pound and bite and howl in seven different languages.

"The bed broke down and depopulated me among the dogs and children, and they all took a what at me. About that time wife mixed in the anecdote with a broom handle, and began to club every which-a-way. She got me a time or two in the process, and som'ers along the line I woke up. After I had waded out and the dust settled, I began to think the matter over. And it peared like I wasn't nigh as keen to marry again as I'd 'lowed I was."—Kansas City Star.

Superstitions in Wales.

Superstitions of the country folk of Wales are discussed in the quarterly report of Dr. Arthur Hughes, medical health officer of the county of Carmarthenshire. Despite the fact that fortune telling and witchcraft are prohibited under the English law, large numbers of Welsh peasants bring their ailing children to the witch doctors rather than to medical practitioners. One fetish that appeals to these superstitious people is that a witch doctor can cure a child of backwardness by means of making a slight incision in the cartilage of the child's ear. The operation must be performed during the waxing of the moon and the art is handed down from generation to generation, the "doctor" usually being a woman. If a cure does not result the operation is repeated until the child is cured. It is said that many women practice this art and that the people pay large sums to have dull children so treated.—Brooklyn Eagle.

Put the Umpire in a Cage.

Safety first, the oft-repeated warning, was very religiously heeded by the umpire at a recent benefit ball game on the Pacific coast. He appeared, Popular Mechanics relates, at the park with a large wire contrivance that looked like an exaggerated bird cage. When the game started he took his stand inside the cage. On top of the cage were mounted semaphores, lettered very plainly with the usual umpire's verdicts, "ball," "strike," "out," etc., and his decisions were announced by raising the necessary semaphore. Thus, he was not only safe from unintentional foul balls and the intentional pop bottles of irate fans who differed from his judgment but he also saved himself from much expenditure of lung power.

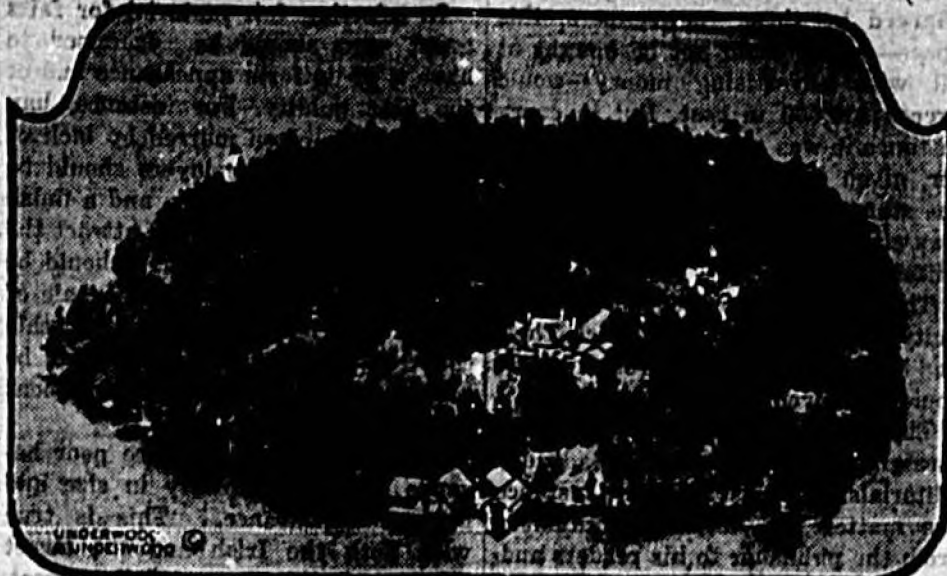

A Substitute for Fiction.

"If I give you your breakfast will you do some work to pay for it?" "Madam," replied the wanderer, "manual toil is abhorrent to a person of my—ahem—athletic temperament, but I've had a great many adventures in roaming about the world, and if you care to hear the story of my life I'll guarantee it to be more interesting than anything you have ever read in a magazine."—Birmingham Age-Herald.

New Mileage Record.

"You say he is a good prohibition enforcement officer?" "I'll say he is," "What especially are his qualifications?" "Well, he has gotten as high as twenty gallons of moonshine to the mile out of a river."—Florida Times-Union.

How Would You Like to Own This Home?

This beautiful airplane photograph, taken from a height of 1,200 feet, shows Hawk Island, in Lake Placid, New York. The island is owned by J. Fuller, whose home is seen among the trees.

Eugene Walter's Drama on Screen

"Fine Feathers," the Metro production announced to be shown at the Star theatre tonight, is particularly notable, and deserving of attention, in the fact that it was adapted from the highly successful play of the same name which came from the pen of Eugene Walter, the man who is known wherever the drama is mentioned.

This is a picture with a plot that is bound to fascinate all manners of theatre-goers, whether they be poor, struggling, or whether they have already attained the upper rungs of success' ladder. There is in it the tragedy of the well-known "love in a cottage" idea, where two young congenial persons marry, believing that a humble existence will be ideal, since they have lost. With time comes the disillusionment, and when the woman begins to hint that she deserves the fine gowns and luxuries which other men bestow on their wives, the wretched husband looks about him, and in despair does an act which gives him wealth and unhappiness in unstinted portions.

In "Fine Feathers" is an extraordinary conflict of motives and characters, and the contrast of Bob Reynolds, the young construction engineer, dependent over his seeming inability to storm the fortress of fortune, and his college mate, the unscrupulous John Brand, who uses men as tools, will long be remembered by all who see the picture.

Fred Sittenham directed the production, Arthur Caldwell photographed and Lester J. Vermilyea did the special art interiors.

The distinguished all-star cast includes Eugene Palette, Clair Whitney, Thomas W. Ross, Warburton Gamble, and June Elvidge.

PUTTING YOUR TOWN FIRST.

The patriotic citizen is the one who puts his home town ahead of others.

He trades with his neighbors in spite of inducements offered by the mail order house.

He takes pride in his school and churches.

He tells every prospector that he lives among the best people that God ever made.

He boosts each new enterprise that is opened and always declares that there is room for more.

No man ought to live in a place unless he thought that the place was the best location beneath the sun. He reflects on his intelligence when he kicks because he has full freedom to go where he pleases. Men who are worth something to a community, to society, to civilization, are the ones who have faith in those around them and who find that which is commendable in their town, rather than to fall out with.

When we visit a city the individual who wins our respect and friendship is the one who begins to tell us about all the good things in the city. The more enthusiastic he becomes the better we like him. But when a fellow begins to knock and talk hard times and to question the honesty of all those around him we never go back to have another conversation with that fellow.

Hard times come to every community; there are seasons when it takes a stout and hopeful heart to see the sunshine. But there is something so likeable about the citizen who talks of the silver linings in the clouds gathered about him.

Someone has said something similar to this, but we are going to say it anyway: The man who is an optimist might make his home in the poorest town on earth, but people will make a beaten path to his door to hear him boast it.—Exchange.

From the editor's point of view, the real melancholy thing about these days is that every man and his brother thinks his poem on Autumn should be published.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with coated tongue, foul breath or a dull headache; or if your meals sour and ferment, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to headaches, backaches, bilious attacks, constipation or stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying the morning inside bath.

Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.—Adv.

Notice of Application for Tax Deed Under Section 575 of the General Statutes.

Notice is hereby given that V. G. Jones, purchaser of 1-3 interest in Tax Certificate No. 841, dated the 2nd day of July, A. D., 1900, has filed said Certificate in my office and has made application for Tax Deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: E 1-2 of SE 1-4 of SE 1-4 Sec. 26, Twp. 20 S., Range 29 E. 20 acres. The said land being assessed at the date of the issuance of such Certificate in the name of J. E. Phipps, Admr.

Also Tax Certificate No. 883, dated the 3rd day of June, A. D., 1901, has filed said Certificate in my office and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: 1-3 int. in E 1-2 of SE 1-4 of SE 1-4 Sec. 26 Twp. 20 S., Range 29 East, 20 acres. The said land being assessed at the date of the issuance of such certificate in the name of T. A. Phipps.

Also Tax Certificate No. 836 dated the 2nd day of June, A. D., 1902, has filed said certificate in my office and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: 1-3 int. in E 1-2 of SE 1-4 of SE 1-4 Sect. 26, Twp. 20 S., Range 29 East, 20 acres. The said land being assessed at the date of the issuance of such certificate in the name of T. A. Phillip.

Also Tax Certificate No. 261, dated the 3rd day of July, A. D., 1916, has filed said certificate in my office and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: Beg. 481 ft. N. and 1114 ft. E. of SW. Cor., Sec. 31, Twp. 20 S., Range 30 E. Run N. 1 deg. E. 106 ft. N. 82 deg. W. 200 ft. S. 1 deg. W. 100 ft. Ely. 200 ft. more or less 5.10 acres. The said land being assessed at the date of the issuance of such certificate in the name of S. C. Jones.

Unless said Certificates shall be redeemed according to law tax deed will issue thereon, on the 19th day of October, A. D., 1921.

Witness my official signature and seal this the 14th day of September, A. D., 1921.

The said land being assessed at the date of the issuance of such certificate in the name of T. A. Phillip.

Also: Tax Certificate No. 261, dated the 3rd day of July, A. D., 1916, has filed said certificate in my office and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: Beg. 481 ft. N. and 1114 ft. E. of SW. Cor., Sec. 31, Twp. 20 S., Range 30 E. Run N. 1 deg. E. 106 ft. N. 82 deg. W. 200 ft. S. 1 deg. W. 100 ft. Ely. 200 ft. more or less 5.10 acres. The said land being assessed at the date of the issuance of such certificate in the name of S. C. Jones.

Unless said Certificates shall be redeemed according to law tax deed will issue thereon, on the 19th day of October, A. D., 1921.

Witness my official signature and seal this the 14th day of September, A. D., 1921.

E. A. DOUGLASS, Clerk Circuit Court, Seminole County, Florida.

By A. M. WEEKS, D. C.

Lumber has dropped

Lumber is the lowest that it has been in years and years. But the price of any commodity rarely remains stationary for long. It either goes up or down. Lumber prices have hit bottom. Their next move will be upward. Now is the time to buy lumber for building purposes. If you are ever going to build anything, buy your lumber now.

 Member of The Associated Press

Abe Martin says: "The feller that don't advertise may know his business but nobody else does."

Orlando now has a pottery factory. We always know there was excellent material around that city.

Banford has just added another triple combination fire truck to her equipment, giving that town two of these powerful machines. Plant City is forced to get along with a flivver!—Plant City Courier.

Yes, but look who we are!

"All men are my friends," says the hero of a current magazine story. Asked why, he ponders a moment, and answers, "Because I'm theirs, I guess." That's just as good philosophy for a nation as for an individual.—St. Augustine Record.

The Okeechobee News proposes that the judges in all baby shows be made to poke their heads through a hole in a canvass for the mothers to throw baseballs at. Good idea. It would more than pay the expense of the show.—Tampa Tribune.

Well, the petition nuisance has been abated in Sanford and the election will come in December and then it will all be over for some time to come. The petitions engendered more bad feeling and were the greatest annoyance that the city ever had fastened upon it. Here's hoping the petition plan for nomination of city officers will be abandoned.

They grow 'em big down in Plant City, judging from the size of the football team sent here to beat O. H. S. last Saturday. It will be noted that Chief Ed. Vestel hails from Plant City. He used to play center on the P. C. team there about 15 years ago.—Orlando Sentinel.

We thought he played with them two weeks ago in Orlando.

Warren Stone, head of the Brotherhood of Locomotive Engineers says the government can stop the railroad strike by taking over the railroads. Maybe the wish is father to the thought. Maybe taking over the railroads would be all right but unless the government shows more business sense in the future than they have in the past we say, "Nay, nay, Pauline."

Some sixty days or more until Christmas. We will not say to do your Christmas shopping early but we will say that it is not too early to begin picking out the things that you expect to buy for Christmas and thus string out the trade along a period of two months instead of doing it all the day before Christmas. Anyhow Christmas comes on Sunday and the stores will not be open this year on Christmas and that is something to think about.

Congressman Sears spoke before the Orlando Chamber of Commerce yesterday on the summer passenger rates to Florida and when he had finished Jeff Sligh, president of the Water Traffic League asked him how about the freight rates to Florida. This is what we are worrying about and not the passenger rates. It seems funny that our congressmen and senators cannot wake up to the real needs of the people.

Daytona is surely going in for some music the coming winter. The mayor

recently announced that they have \$5,000 now on hand that has been raised by taxation, and which is available to pay for music for the city the coming winter. It is an exceedingly fortunate circumstance when a city generously provides for music. It means benefits that are of inestimable value. We trust that DeLand will not fall short of our East Coast neighbor in this important proposition.—DeLand News.

There should be some way of mounting the "silent policemen" at the intersection of the streets on First street that would keep the drivers of autos from knocking them down every week. It costs money to keep them repaired and they are the neatest and best posts that any city boasts and are also a source of information to the travelers. If there are any drivers in the city who cannot drive well enough to keep from hitting these sign posts they should be kept off the streets and not allowed to drive a car.

It seems that when only two men are running for city commissioner that no primary is necessary. Just another wrong way to hold any kind of primary and again demonstrates the way the people are barred from running. Under present conditions only two men can run if they have active campaigners on their petition signing, hence no primary. In other words the people have no way of expressing their opinion at the polls. We don't like any part of the present city charter relating to the nomination of commissioners.

WASTE OF OUR MONEY

Greatest of all war vessels the Maryland has been completed and will soon be in commission at an aggregate cost of some forty-two millions of dollars—just at the time when universal peace is being declared. Forty-two million dollars is a huge sum to place in one boat—a vessel that may be destroyed by a bomb dropped by an aircraft costing less than one-eighth of that sum.

The sum expended would easily furnish each of eighty thousand families with an excellent automobile of popular make, and give each of the owners nine hundred gallons of gasoline and fifty gallons of oil. Forty thousand homes worth one thousand dollars each could be constructed and turned over to as many young couples who were anxious to make a start for themselves—and would donate to each couple fifty dollars to care for them through the first month. Forty-two million dollars would, roughly speaking, hard-surface every mile of important highway in Florida—thereby adding to the popularity of the state and creating additional values to all property, both urban and inter-urban; yet that sum goes into a war vessel carrying eight sixteen-inch guns, each of which costs about \$18,000 each time it is fired—and a score of shots will put the weapon into the scrapheap as being "worn-out."

Official reports state that the cost of upkeep—wages of officers, privates, engineers, and common laborers—will be about two million dollars a year; a sum sufficiently large to give four thousand families an outing each year that would cost \$500 and might be worth to each of such families \$5,000. Yet all this vast amount—a sum so great that few can comprehend it—is being devoted to the construction and equipment of one boat—while many or may not prove seaworthy; which may or may not be used for any purpose other than that of pomp and show.

Peace, gentle peace, may spread its mantle o'er all the earth—but at forty-two million dollars a man the movement appears to be a more expensive proposition than the building of wooden ships—which proved to be a blunder along most extravagant lines, and an action ill-advised.—Kissimmee Gazette.

VISITING EDITORS ADVERTISE FLORIDA.

That Florida derived a tremendous benefit indirect from publicity from the visit to this State last spring by the National Editorial Association has been demonstrated through figures compiled by S. C. Theis, publishers' representative of New York City, who was a member of the visiting editorial party. Being an advertising expert, representing papers over the United States, Mr. Theis naturally attempted to interpret the visit of the editors in terms of advertising.

Theis wrote every editor who made Florida trips and asked him to send in copies of his newspaper in which he mentioned the Florida trip and his impressions of this State. Thirty-five publishers from twenty-one different States responded with clippings or full papers showing the publicity they gave gratis on their return home. The total inches given by these 35 publishers amounted to 4,205. This space was, of course, in solid reading type. Since compiling the figures, Theis writes that he has received additional clippings bringing the total up to 5,587 inches of solid reading type from

the papers which sent in clippings of the Florida articles. Based on the rate charged by these newspapers, this space—which could not be bought at all with advertising money—would exceed \$10,000 in cost. But in every instance it was straight reading matter, given gratis, and usually it bore the stamp of editorial approval for it was either written or inspired by the editor himself.

This does not represent all the publicity given but only that which Theis has been able to check through actual copies received by him.

The publicity took all forms from straight news stories to double lead editorials. In nearly every instance the matter was a direct statement from the publisher to his readers and, therefore, had the additional merit of being at least semi editorial. Editor Charles B. Scott, of the Iola Kansas Daily Register, gave a five column article which was the reproduction of a speech given by him before the Current Topics Club of his city. While many of the articles were frank in their treatment of the subject, all were favorable in general tone and many of them were as enthusiastic as the average Florida booster or Real Estate man could write.

PRESS CODE OF ETHICS

The South Florida Press Association adopted the following code of ethics at their meeting in Lakeland last week:

To give due credit for all matter copied from other papers or magazines.
 To investigate all questionable advertising and refuse space to misleading and illegitimate advertisements.
 To use every endeavor to elevate the standards of journalism and to conduct our papers that competitors may find it wise, profitable and conducive to happiness to emulate our example.

To strive for no circulation or success that is not founded on the highest justice and morality.

Not to publish or claim circulation in excess of actual figures.

Not to cut prices below published rates.

Not to speak disparagingly through editorial or news columns of competing papers or editors.

Not to engage help employed by a competitor without first informing the competitor and giving him an opportunity, if he wishes, to retain his employee.

RYE FOR WINTER PASTURE.

Many Florida farmers who have stock to feed will find the planting of oats, rye, or rape for winter pasturage a desirable and profitable practice. Green, succulent feed is of the utmost importance in the winter ration of practically all farm animals; and for best results with such animals as mil cows, young growing stock, and poultry, some form of succulence is indispensable.

Oats is more widely grown than is rye for winter grazing though some farmers who have had experience with both, prefer the latter. Rye is the more hardy and sustains less injury from heavy freezing. E. W. Jenkins, of the Agricultural Extension Division, says the variety known as Abruzzi rye is superior to those most popular in the northern states for Florida. Other strains of southern-grown rye, often listed as "Georgia rye," or "Florida rye," are also among the most desirable varieties for Florida. Local seed firms usually handle the southern-grown seed or varieties best adapted to our conditions, while those whose fields of business are more or less restricted to northern sections may find other varieties more popular.

The season for planting will range thru October and early November. In the northern section of the State plantings may be made at a somewhat earlier date than would be advisable farther south. The seed should be drilled upon well prepared soil at the rate of about two bushels to the acre, or, when a grain drill is not available, it may be sown broadcast and covered with a drag harrow or disc.

Rye seeded upon good, fertile soil should, under reasonably favorable conditions, furnish good grazing in from 80 to 100 days after planting.

The profits from the livestock industry are derived very largely from the ability of farm animals, especially cattle, to turn cheap roughage into butter, beef, or other market products; and the greater the amount of pasturage and other forage produced on the farm the smaller will be the necessary feed bill. Money saved is money made.

Sanford should have a Post Card Day and have every every citizen send out Sanford post cards to friends all over the United States. Other cities are doing this and getting good publicity from it.

Try a Herald Want Ad today.

PREPARING FAIR EXHIBITS.

In selecting fair material for fairs great care should be exercised to have it of uniform appearance and of the best quality. For instance, hay exhibits are often marred by lack of care in baling. The layers should be put in place properly, and a finish given to the bale that will attract the judge. Each variety of hay should be kept separate, except where a bale of mixed hay is to be shown. In this case the "ferent varieties should be so placed as to appear prominent from the outside.

Some potato exhibits are poor because of non-uniformity in size and general appearance. This is true with both the Irish and the sweet tuber. Potatoes, especially sweet, should be medium and uniform in size. A number of exhibitors wash potatoes, which is not desirable. Each potato should be wiped clean of sand and dirt with a dry cloth.

Peanut exhibits are also often marred for the same reason. Peanuts can be polished easily by taking about a peck in a gunny sack, tying one end of the sack to a post, holding the loose end in one's hands and working the nuts backwards and forwards for several minutes. State Agent C. K. McQuarrie recommends this method and states that it leaves them appearing as though polished.

Sugar cane exhibits should be carefully selected. The stalks should be uniform in length and size. Do not mix the striped and solid colored canes. The longest stalks are not always most desirable for exhibition. A cane should carry thickness along with length. A dozen or more well filled stalks, even if not very long, will show up better than very thin ones without proper finish.

Great care should also be exercised with the exhibit of canned goods. Exhibitors of such goods should consult the home demonstration agent before arranging them.

The community, county and state fairs are going to receive more attention this year than ever before, and the foregoing should be of service in reminding exhibitors of certain important points.

WHAT IS A FRIEND?

What is a Friend? I will tell you. It is a person with whom you dare to be yourself. Your soul can go naked with him. He seems to ask of you to put on nothing, only to be what you are. He does not want you to be better or worse. When you are with him you feel as a prisoner feels who has been declared innocent. You do not have to be on your guard. You can say what you think as long as it is genuinely you.

He understands those contradictions in your nature that lead others to misjudge you. With him you breathe free. You can take off your coat and loosen your collar. You can avow your little vanities and envies and hates and vicious sparks, your meanness and absurdities, and in opening them up to him they are lost, dissolved on the white ocean of his loyalty.

He understands. You do not have to be careful. You can abuse him—neglect him—tolerate him. He likes you. He is like fire that purges all you do. He is like water that cleanses all you say. He is like wine that warms you to the bone. You can weep with him, laugh with him, sin with him, pray with him. Through and underneath it all he sees, knows and loves you. A friend, I repeat, is one with whom you dare to be yourself.—Kansas City Post.

MOVING PICTURES OF HUNTING AND FISHING SCENE.

The Men's Club of the Congregational church have arranged with the publishers of the Field and Stream to exhibit their splendid hunting and fishing motion pictures on the night of October 27th, at the Princess theatre. Watch for the big ad. and program soon to be published. tf-p.

Little Happenings Mentioned in Brief Personal Items of Interest

THE WEATHER

For Florida: Generally fair tonight and Thursday.

A. F. Hunt has returned from a pleasant visit to Montgomery, Ala.

Appalachicola Oysters, at L. P. McCuller's.

L. H. Smith and A. J. Houser, of Morrow, Ohio, are spending some time here.

"Hot-Mac" the 'buy'-word for better batteries for less money.

Jesse H. Trent, of Granly, Mo., is spending some time here at the Montezuma.

Mullet Roe at L. P. McCuller's.

W. S. Stockton, of Palatka, was in the city yesterday calling on his local customers.

Why punish your battery with your generator out of order. See Hot-Mac Battery Co., "Foot of First Street."

H. O. Adams, of Tampa, was among those calling on local customers yesterday.

24-lb. Bags Pastry flour, \$1.50, at L. P. McCuller's.

Miss Ellen Trent, of Webb City, Mo., is among the visitors stopping at the Montezuma.

Have your watches and jewelry repaired at McLanin's. Two first class watch makers. Prompt service.

L. A. Parker, of Chattanooga, was registered at the Montezuma yesterday while in the city transacting business.

Dill Pickles in bulk at L. P. McCuller's.

If there are actually eight million idle men in the country, there are almost enough men available to enforce prohibition.

The Ladies of the Episcopal Church will hold their Bazaar and Supper, December 1st and 2nd in the Parish House.

For the sake of world harmony, let us hope that Washington hotel keepers will not present their bills until the Conference is over.

VanCamp's Cream, per case, \$8.00. -at L. P. McCuller's.

We have observed that those who say they do not believe what they read in newspapers do not hesitate to quote the newspapers as their authorities.

IF YOU WANT TO BUY, SELL OR Rent property, give us a trial.—C. A. Matthews, W. V. Wheeler, Real Estate, 115 Park Ave. Phone 340.

That income tax wouldn't be such a nuisance if Uncle Sam would arrange to have the boss hold it out of our wages.

New Mackerel at L. P. McCuller's.

The spirit of indolence is spreading. A poultryman reports his chickens will starve before they will scratch.

BATTERIES—America's first car was regularly equipped with starting and lighting Batteries in 1911, this battery was an "EXIDE", today the master battery of the world. Do not be misled by the so-called just as good.—Ray Brothers, Phone 548.

Fresh country eggs, at L. P. McCuller's.

One of the advantages of prohibition is that it keeps home-brewers in evenings—evenings that used to be spent in running around.

"EXIDE" BATTERIES—Our Pullman cars, airplanes, submarines, telephones and great 7,000 mile wireless stations are equipped with the master "EXIDE" Batteries, the battery is the life of your car, get the best. We recharge and repair all makes.—Ray Brothers, Phone 548.

The cards in some hotel rooms reading "Have you left anything?" should be changed to "Have you anything left?"

Summary of the Floating Small Talks Succinctly Arranged for Herald Readers

SANFORD'S TEMPERATURE

Weather continues good. Light showers, cool and comfortable and not even the farmers have any kick coming. Election will soon be over and all will be peace and prosperity for Thanksgiving.

OCTOBER 19, 9:40 A. M.

Maximum 85 Minimum 60 Range 70 Barometer 30.00 Rain .01 Calm and cloudy.

DUVAL MAY SEND TWO TEAMS TO PLAY CUBAN FOOTBALL ELEVEN.

JACKSONVILLE, Fla., Oct. 19.—If the faculty athletic committee of the Duval high school considers favorably an offer made by a representative of the Athletic Club of Havana, Cuba, the members of the Duval football and basketball teams will get a trip to Cuba early in January to match ability with the Cuban Athletic Club.

KISSING GAME AT PARTY PROVES TO BE FATAL TO TWO.

BALTIMORE, Md., Oct. 19.—Two men were shot to death in an affray which, it is said, was the outcome of a "kissing game" at a party at the home of John Allen at Curtis Bay, a suburb, early today. The dead are: John Allen, fifty-seven. Robert Reed, thirty-six. William H. Thompson, thirty-eight years old, of Lynchburg, Va., is in jail on charges of murder. He claims he shot in self-defense.

AGED BRIDEGROOM DROPS HIS WAD.

JACKSONVILLE, Fla., Oct. 19.—Capt. John H. Welsh, seventy-six, of Miami, was married to Mrs. Mary F. Otte, of Springfield, N. Y., by Judge Arthur Wolfe, at the court house here today. After leaving the court house with his bride, Captain Welsh, discovered he had suffered a loss of \$165. He learned of the misfortune when he started to pay the taxidriver.

LAKELAND SHIPS FIRST CAR FRUIT.

LAKELAND, Fla., Oct. 19.—The first car of fruit to be shipped out of Lakeland this season was sent to St. Louis. It consisted of 350 boxes of grapefruit and was shipped by Head, Foster and Wiggin. The packing industry in this locality will be in full swing by the end of the week.

ASK FOR YOUR RECEIPT.

Subscribers to the Daily Herald should ask for a receipt when the carrier boys collect from you. It is the only protection you have in case the carrier changes or there happens to be a mistake in the account. Each carrier boy is supplied with receipt books, and is commanded to give a receipt by the Herald. See that you get your receipt at the end of each week if you are paying that way.

It is rather early to talk about Christmas, but we just want to remind the ladies especially, that the Herald Printing Co., has the finest line of Christmas cards that have ever been shown in Sanford. They come direct from the manufacturer, and the cards are all special designs and at special prices. You will not have to go out of the city this season for your Christmas cards and favors. See them any time at the Herald office.

The cards in some hotel rooms reading "Have you left anything?" should be changed to "Have you anything left?"

INDICT QUARTET AS MEMBERS OF GANG OF AUTO THIEVES.

LAKELAND, Fla., Oct. 19.—The Polk County grand jury at Bartow has returned indictments against J. G. Flynn, T. Hart Getzen and Malby Bryant, of Lakeland, for receiving stolen property, and two indictments against the same trio charging larceny of an automobile.

Two indictments were returned against J. M. Lee, T. Hart Getzen and J. G. Flynn for receiving stolen property and one indictment for larceny of an automobile.

These men are alleged to have been members of an organized gang which according to Sheriff Logan, numbered some twenty-eight men who were said to have been operating from Atlanta to Tampa, specializing in the theft of Ford cars.

The Hardee county grand jury in session Oct. 5 returned indictments against H. J. Cahill, A. J. Jones, John Cravatt, W. O. Murrell, and J. G. Flynn, in connection with the same case.

T. Hart Getzen of this city and W. O. Murrell of Wauchula, are attorneys, and, according to statements by Flynn and Lee, it was thought bills of sale provided by these attorneys that stolen cars could be disposed of. Flynn and Bryant are both of Lakeland, while J. M. Lee, who was at one time a resident of this city, moved to Wauchula some time ago. J. Jones, Cravatt and Cahill, are of Wauchula.

TO TRY TO OPERATE SOUTH CAROLINA.

COLUMBIA, S. S., Oct. 18.—Trains will be operated in South Carolina, strike or no strike, provided volunteers can be obtained to man them, asserted Governor Cooper, who said that if it were considered necessary a special session of the legislature would be called in order to draw up measures deemed expedient to meet the emergency.

CONFEDERATE GENERAL DEAD

WILMINGTON, N. C., Oct. 19.—Gen. James I. Metts, 78, commander of the North Carolina division, United Confederate Veterans, who was injured when his automobile was struck by a street car here Saturday night, died at a local hospital at 11:30 o'clock. General Metts was the father of Adj. Gen. J. Van B. Metts.

MIAMI MAY PURCHASE ITS STREET RAILWAY.

For several years Miami has had the rather unenviable distinction of being about the only city of its size and importance without street cars. It once had a street railway system, and still, we understand, has tracks on some of its streets and other equipment, owned by those progressive citizens, the Tatum brothers; but shortly after the beginning of the war, when the cost of labor, fuel and materials used in the operation and construction of street railways mounted skyward the line was compelled to suspend operations, and since that time the citizens have had to depend upon jitney service.

Now the city commissioners are proposing to take over the lines and operate them making arrangements with a local company to run them for a year, until the commissioners can get an understanding of the cost and what additional equipment is necessary.

If this venture is a success it will make the second municipally-owned and operated street railway company in the state, St. Petersburg being the pioneer in the business. The officials of St. Petersburg claim that its line is paying nicely, despite the fact that it is among the very few in the country which has held the fare down to 5 cents.—Tampa Times.

ELECTION RULES AND POLL TAX AND REGISTRATION.

All those who are eligible to vote and have never registered in the city should do so at once. The men who are not registered and all those who expect to sign petitions should register before the 18th of October in order to sign the petitions officially.

Women do not have to pay poll tax according to a ruling of the legislature that states they pay their first poll tax in 1922. There have been so many inquiries at the Herald office that this statement is given to the public at large in order that all who wish to vote and who wish to sign the petitions can be governed accordingly. For any other information see City Clerk Phillips, at the city hall. But be sure you are registered now in the city.

ASK FOR YOUR RECEIPT.

Subscribers to the Daily Herald should ask for a receipt when the carrier boys collect from you. It is the only protection you have in case the carrier changes or there happens to be a mistake in the account. Each carrier boy is supplied with receipt books, and is commanded to give a receipt by the Herald. See that you get your receipt at the end of each week if you are paying that way.

The Avon Park Pilot says that work on the park has been temporarily held up, during the moving of a building that was in the way, but that the laying of a curb and gutters and other plans for beautifying the place will soon be carried out. The town has received contributions from public-spirited citizens for making the needed improvements, and among the things discussed and proposed are a fountain, benches, many ornamental lights, walks and grass plots.
