VA Reverses Ruling, Will Mail Prescriptions Again

By GEOFFREY POUNDS

A Veterans Administration cost-cutting measure forcing some south Seminole disabled veterans to drive 10 miles to receive medication has been ordered halted and those veterans affected may again receive their medication by mail.

The policy was changed after one Casselberry veteran who is 90 percent disabled sent copies of a May 4 Evening Herald article to the offices of U.S. Senator Lawton Chiles. Congressman Bill Nelson and other elected officials. The officials checked into the matter and found the VA had overstepped its bounds in the halting of mailing services,

Prior to April of this year, Yokely and other veterans in south Seminole county were able to receive their medication through the mail from the VA Outpatient Clinic in Orlando. However, when Yokely went to the mailbox to pick up his April medication, he found a memo from C.W. Silverblatt, chief of the outpatient clinic. The memo read: "Due to the limited staff and the large amount of prescription mailouts outside the Orlando

Al Linscott, assistant clinic director, said when the directive was issued that he was aware it would "create inconvenience" for some veterans. But Linscott said the clinic was understaffed and did not have the time to prepare, package and mail the prescriptions. He said his staff could dispense the medication in about half the time if the disabled veterans would come to the clinic in per-

"How much worse can you get," he said. Yokely said the 10-mile journey from his home resulted in a full day's effort. The drive to and from the clinic in traffic took 40 minutes each way, he said. Once arriving at the clinic, he said, he waited in lines for up to three hours before getting his medication.

Gunners Shell Palestinian Positions For 2nd Day

BEIRUT, Lebanon (UPI) - Israeli and Christian rightist gunners today shelled Palestinian positions in south Lebanon for the second straight day amid escalating tensions between Syria and Israel.

Leftist sources reported from the southeast that shells rained down at the rate of "seven a minute" on the guerrilla-controlled towns of Sohmor, Yohmor, Qelia, Rihane, Kawkaba, Nabatiyeh and Hasbaya.

The intensity of the shelling, which began Thursday and continued until early today, made it difficult to determine casualty figures with any precision, the sources said. But it was feared the toll was heavy.

Israel incendiary shells started a number of fires in olive groves, fields and orchards. The Israelis used heavy 155mm and 175mm artillery, the sources said.

Pressure On Somoza Eases

MANAGUA, Nicaragua (UPI)- President Anastasio Somoza's national guard has reoccupied eastern Managua, rounding up suspected Sandinista sympathizers and knocking down barricades abandoned by guerrillas in a retreat to the rebel-held city of Masaya. The rebel withdrawal Thursday eased the immediate military pressure on Somoza, who later in the day vowed to "stay in power at all costs."

Foreign missionaries working in the shantytown eastern Managua neighborhoods reoccupied by the guard charged government troops tortured and executed many suspected rebel sympathizers, including teenage boys as young as 14.

Dayan's Cancer Removed

TEL AVIV, Israel (UPI)- Israeli Foreign Minister Moshe Dayan is recovering from an operation for cancer and doctors say they are satisfied they checked the disease before it spread.

Dayan underwent surgery Sunday after earlier tests indicated the possibility of cancer, said Dr. Boleslaw Goldman of the Sheba Medical center. Surgery and subsequent tests revealed

As a result of his requests for aid Congressman Nelson and Senator Chiles contacted VA director Max Cleland and the matter was investigated. The investigation determined that under VA guidelines, the mailing of

Fern Park Pharmacy Robbed... Again

A pharmacy in Fern Park became the target of yet another robbery Thursday afternoon, making four times in the past nine months, according to Seminole County deputies.

William C. Anschuetz, owner of Dollar Prescription Drug Center on U.S. Highway 17-92 in Fern Park, told deputies a man in his early 20s entered his pharmacy about 4:06 p.m. Thursday. The man who wore no mask and stood about 5 foot eight inches walked over to Anschuetz and pointed a blue steel revolver in his face, the owner said. He demanded Anschuetz hand over his wallet and all the Class A narcotics he had. Anschuetz told

But Anschuetz said he didn't carry Class A narcotics in the pharmacy and the drug had to be ordered 48 hours in advance. Anschuetz did hand over his wallet, which contained an undetermined amount of cash, deputies say. Class A narcotics is the most strictly regulated narcotic

category of the Drug Enforcement Agency and the Food and Drug Administration. Drugs in the category are considered to be the most likely to cause physical and psychological addiction. Heroin, for instance, falls in this category. Nothing clse from the pharmacy was taken.

motorcycle driven by another young male, deputies say. The pair was last seen traveling north on state road 600. Anschuetz's pharmacy was robbed on June 5 when two men, one dressed as a female in a red jumpsuit robbed Anschuetz at gunpoint and made off with an undetermined amount of narcotics and cash.

The pharmacy also was robbed in 1978. Det. A.J. Sanches, who's investigating this latest robbery, said deputies have apprehended a suspect for one robbery that occurred in October. A female was convicted for a second robbery arrested. Charges against her later were dropped. at the pharmacy in December, 1978. VAN TAKEN

She had left her two sons in charge of the household during her absence, deputies say.

Mrs. Williamson told deputies she noticed the items missing while she was cleaning house. In addition to the five-piece silver set, she said, she is missing a silver butter warmer and candle

OPEC's Price Hike Will Cost U.S. Jobs

WASHINGTON (UPI) — OPEC's crude oil price hike, the latest insult to motorists already sweating out long lines to pay rising gas prices, also will have a profound effect on the unemployment lines.

Seminole County has less than half the vandalism of most other counties," Carlton says. "We attribute this to the night custodial employees and the lights." Another major help is a sophisticated burglar alarm system

that's been installed at various schools throughout the county, Carlton says. Some of the alarms are set off by sound, opening certain doors or walking in a light beam, he says. Once the alarm has been activated, a telephone has been

High schools are the victims of a breakin more frequently than middle schools or elementary schools, Carlton says. Equipment tends to grow more expensive in proportion to the higher the education level, he adds.

"In the high schools, you have all kinds of shop programs, electronic equipment, radios and so on. You have much more sophisticated equipment than you do in the lower grades." Superintendent of Schools William Layer said Wednesday the amount of property stolen is "small" compared to the school district's overall inventory. He also commented on the contrast in

break-ins between the schools. "Lake Brantley High School got hit three times in the past two years but Red Bug Elementary School didn't lose anything,' Layer said. "But three years ago, a truck backed in there (the

Managua Murder: Somoza Must Go

The killing of an American television newsman in Managua, Nicaragua, was shown on all three American television networks.

The killer was a uniformed member of President Anastasio Somoza's National Guard.

The killing followed several days of anti-American propaganda broadcasts on Somoza's state radio station. It was first described by the government radio announcers as an accident. It was no accident. It was murder, in cold blood.

This crime against an American citizen makes it more difficult for Somoza to convince the American people that he deserves our support because he is anti-Communist.

There is a danger that Cuban-type Communists will dominate the Sandinista guerrilla movement. The longer the fighting goes on, the greater the danger. There is a danger that Fidel Castro will actively intervene in the fighting. He might even send troops.

The Somoza government has had our support in the past. The United States has had a long history of intervention in Nicaragua. That history has now come to an end. We have withdrawn all support from Somoza. That's good. The best policy for this country is to keep out of the domestic affairs of all other countries in this hemisphere.

Our leadership will be stronger if we exercise restraint when tempted to indulge in gunboat diplomacy.

The Organization of American States has been meeting in Washington to consider the Nicaraguan situation. We asked the OAS to take action as a group of interested neighbor nations to bring about a cease-fire and a complete cutoff of arms shipments to both sides. This kind of group action is botter than any unilateral action by the United

But it appears that there can be no stable political solution in Nicaragua unless Somoza resigns and leaves the 'country. A free election, monitored by neutral observers, could then be held to choose a new government.

- Whether or With Sandinistas are uccessoful in the bloody fighting that is now occurring, Somoza has apparently lost the ability to govern without bloodshed. The country is close to anarchy. That is a situation that invites a Communist takeover.

Black Hills Award

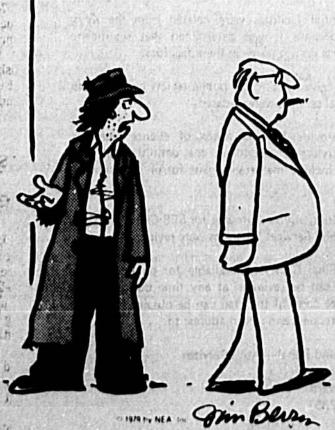

The federal government deeded some 7 million acres of the Black Hills region of South Dakota to the Sioux Indian tribes in 1868, possibly because it was believed that country wasn't worth

Then in 1875 Gen. George Custer led troops, a handful of prospectors and more than one hundred wagons into the Black Hills to find out if there was truth to the rumors of gold deposits. Evidence of gold was found by that expedition and soon the white man was invading the Indian land. Custer was wiped out at the Little Big Horn and Congress passed a law stripping the

Now the U. S. Court of Claims has ruled 5-2 that the Sloux are entitled to \$17.5 million for the land taken from them and 5 percent interest, dating back to the seizure 102 years ago. The total settlement could reach \$132.5 million, to be distributed among 60,000 Indians- and their attorneys, of course. It isn't the highest of such awards, by far. In 1971, \$962.5 million went to Alaskan natives for similar seizures. The court actions in these cases show there can be justice —

Jackson's Damaging Rhetoric

WASHINGTON (NEA) - In this political city, reasoned debate and criticism have a way of degenerating into posturing and demagoguery. Such may be the case with Sen. Henry M. Jackson's recent accusation that President Carter has engaged in a policy of appeasement toward the Soviet Union.

Because Jackson, a Washington Democrat, has become a respected national figure during his 26 years in the Senate, critics may be inclined to treat him kindly and attribute his remarks to excessive zeal. They may be too kind.

In a speech delivered less than two days before Carter left Washington for his summit meeting with President Leonid Brezhnev, Jackson accused Carter of appeasing the Soviets on a range of issues, including emigration rights, trade and technology exchange in addition to arms control. Carter and his top aides were understandably

It is a full 10 years since man first walked on the moon, yet it does not seem like yesterday. Graham Misses On Budget Spending

TALLAHASSEE, Fla. (UPI) Gov. Bob Graham cut \$102 million from the \$15.8 billion budget, but avoided a fight with House Speaker Hyatt Brown by not vetoing money for special elementary school teaching and university quality improvement.

Graham released his budget message Thursday night about 90 minutes before the deadline. The budget would have taken effect as written by the Legislature if he had not exercised his line item veto power by midnight. Graham also had until midnight to act on a bill providing for a massive overhaul of the state's higher

education system, and giving students attending a private college in Florida \$750 a year to help pay their tuition. He won't announce his decision on the proposal until today, but sources told UPI he changed his mind about vetoing it and planned to let it become law without his signature. Because he didn't veto either of the two big education items,

Sometimes the house that costs more, costs less.

The new home above meets all the requirements of Florida's new Energy-Efficiency Building Code of March, 1979. It was designed with features to help conserve ser features, and is certified by FPL to use up to 25% less energy resources. And it requires less electricity than previously built new homes.

Why? Because it has better insulation, less heatwelcoming window areas, and more efficient water heating and air conditioning systems.

The Code was a contribution to solving our energy problems, and homes built along its guidelines help the buyer save electricity. But not to the same dramatic degree as the Watt-Wise Living home shown on the right.

A Watt-Wise Living home initially costs a little more. Why? Because it contains even more energy-saving. electricity than the home on the left which meets the Building Code minimum standards.

But the initial additional cost, when included as part of your mortgage, is more than paid for by the savings on your monthly electric bill. What's more, you're making a wise investment for the future, because the energy-saving features can only enhance its resale value.

In short, the Watt-Wise home meets and exceeds the new Florida Building Code with additional energysaving options.

These options can include: extra ceiling and wall insulation, solar and heat-recovery units for water heating, a higher-efficiency air conditioner or heat pump, power savers like fluorescent lighting and a microwave oven, and thermally efficient windows and doors, (with glass areas planned to minimize heat build-up).

So before you buy or construct a new home, ask your builder about FPL's Watt-Wise Living Program. Or, stop by your local FPL office and pick up an information brochure.

The Watt-Wise Living home. It costs a little more now, but in the long run it costs a whole lot less.

Ask your builder about it.

Racquet Ball Growing In Popularity

Every morning at 10 a.m. 834-6113 becomes one of the more frequently called telephone numbers in Seminole County. That number belongs to the recreation department at Red Bug Lake park in Casselberry and 10 o'clock is the time they start accepting reservations for their two racquet ball courts.

The park is open daily from 8 a.m. to 11 p.m. and the racquet ball courts may be used for \$1 an hour until 5 p.m., when the cost for using the lighted four-wall courts rises to

"We start taking reservations at 10 a.m. (for the following day)," said John DiNicola, recreation attendant, "and I've seen the six evening hours fill up in five minutes. There's a lot of demand."

Two additional courts are being constructed at the Sanlando park and when they are completed Red Bug Lake park hopes to build two more. Altamonte Springs has several three-wall courts, which also see a lot of activity. But the lighted courts at Red Bug are the most popular, Di Nicola said.

"It's extremely difficult to get them," said attendant Dick Farnsworth. "That phone just jumps off the hook. Last month we had to turn down 703 requests for reser-

With a racquet that looks like a short handled tennis racquet, a rubber ball and a good pair of shoes, the game is played on what is basically a handball court.

"It's easier to learn (than tennis)," claims Tarry Blackbery, a Fern Park resident who has been playing four months, "and it's faster, except it's hard to get the

"In tennis you have to Lay-in. the court," she added, and when a shot is missed, "you have to go chasing the ball. With racquet ball the ball stays in the court and you get a better workout, a faster game. But I don't think a good tennis player would agree with that."

Why So Many 'Bad' Shows On TV?

DEAR DICK: I'm no prude, but could you please explain why so many TV shows have very poor taste and very immature programs. Shows like "Three's Company" would be quite funny of they didn't feel they had to have a girl show all she can of herself without being Xrated. The same with "Charlie's Angels." Do they figure people are so dense they will be satisfied with sexy females instead of good entertainment? DISCOURAGED, White Rock, B.C., Can.

It would be a cop-out for me simply to say, "You don't like them? OK, then don't watch them." The heart of the matter is that enough people DO like them to keep the ratings up and the ratings are what the networks go by. If, tomorrow, nobody watched those shows any more, then there would be no such shows on the day after tomorrow. It's a very simple equation: The networks give the public what the public seems to want.

DEAR DICK: Sunday afternoon we watched "The Lone Ranger." It wasn't bad - and 100 percent better than

another basketball game. Why do we have to have sports of some kind on all stations every Saturday and Sunday? MRS. D. JENNINGS, Richland, Mich.

Same answer as to first letter. Weekends are when, by TV tradition, the men are home and want to watch sports. If the ratings showed that didn't happen, then we would have weekends full of bird-watching tips, or whatever it was that got higher ratings.

DEAR DICK: Whatever happened to the new TV series, "Married: The First Year"? KAREN HEIM, Winona

It went off. They made the pilot film and three more, and all four were aired. It was what is called a limited series. If it had generated any excitement, then they probably would have ordered more. It didn't, so they

DEAR DICK: Is the girl who plays Angle on the show of that same name the same girl who was in "Saturday Night Fever"? A. LOPEZ, Tuscon, Ariz.

Yes. Her name is Donna Pescow. Her co-star, Robert Hays, says she is "cuddly." I believe it.

DEAR DICK: Please let me know who was the giant in the Harold Lloyd movie, "Why Worry, Never Weaken."

And what was his natural height? J.B., Kalamazoo, Mich. You are going back a ways, J. Actually, there were two movies you have somehow amalgamated - "Never Weaken" was in 1921, "Why Worry?" in 1923. As far as I can find, there was only one giant, played by Johan Aasen. in "Why Worry?" Richard Schickel, in his book., "Harold Lloyd," says: "Giant Aasen was not a professional actor and was hastily recruited for this role when a circus giant died suddenly just as production was just about to begin." So, presumably, that was his natural height.

DEAR DICK: Could you please answer a question that is disturbing me. Is the show "Good Times" still on the air? R.B., Michigan City, Ind.

DEAR DICK: Why aren't "The Hardy Boys" on any more? E.P., Silver Lake, Ind.

"Good Times" fell on bad times and "The Hardy Boys" proved to be not too hardy. Or, to put it bluntly, both shows bombed out and were dropped.

DEAR DICK: I would like you to settle an argument for me. Are Elton John and Olivia Newton-John brother and sister? A. G. Troy, Ohio.

No. and Olivia isn't descended from Sir Isdaac Newton. or his brother, Sir Fig, either.

DEAR DICK: I just recently saw the movie, "Zulu," and was impressed by the star, Stanley Baker. Could you give me some information on him? I haven't heard anything about him lately. J.A.P., Kalamazoo, Mich. Small wonder. He died in 1976.

DEAR DICK: Could you please tell me what has happened to the great Jimmy Durante? PATTY HAINES, Tucson, Ariz.

He's just grown old, that's all, and it happens to all of us If we live long enough. Jimmey is the now and his health is not so hot, but he's hanging in there.

who plays Arthur Carlson, the choleric radio station owner in the TV series "WKRP In Cincinnati." It took Jump 15 years in the trenches to finally find his niche.

A tenacreus, heavy set, balding man with melancholy eyes, Jump arrived in Hollywood in 1963 to fulfill his dream of becoming an actor after years of working in radio, usually as a production assistant, in Topeka, Kan., Dayton, Ohio, and New York City.

He supported himself, his wife and two daughters, as a lecturer for a cemetery, radio at Southern California, punching out credit cards for an oil company and

He appeared in 150 (12) GAZETTE television commercials which kept bread on the table. But worthwhile parts eluded Jump year after doleful year.

"Commercials took the place of a repertory company for me," Jump said recently. "I got most of my on-camera training in commercials.

"I was discouraged many times, but my wife, Anna, wouldn't let me quit. She knew I loved acting and told me it was no bed of roses.

ALIEN (R) - Tom Skerritt, Sigourney Weaver, John Hurt. Science fiction-horror. This is part-"Star Wars," part-"Jaws," as it tries to scare you to death futuristically. A plodding old space ship inadvertently takes aboard a monster, which does terrible things to the people it catches. The crew tries to kill it and definitely vice versa. If you like the type, this is GRADE: A,But avoid it if you scare easy.

BUTCH AND SUNDANCE: THE EARLY DAYS (PG) - William Katt, Tom Berenger, Western. This supposedly shows how Butch and Sundance were as young men, how they got together and began their nefarious partnership. The two young actors look as though they could have grown into Redford and Newman, but otherwise this "prequel" is unlike the big hit film. Richard Lester, who used to direct with a splash, does this with a plod. GRADE: C-plus.

LOVE AT FIRST BITE (PG) - George Hamilton, Susan Saint James, Arte Johnson. Comedy. You'll hate yourself in the morning, but you'll laugh while you're watching this spoof of the Dracula story. This time, Drack is back as a crack lover, in the present, and it's all done for fun. Enjoy. GRADE: Be-

MANHATTAN (R) - Woody Allen, Diane Keaton, Michael Murphy, Mariel Hemingway. Romantic comedy. Allen is back in his personal groove - writing, directing, starring - and back in the area where he functions most wittily. That's the man-women, husband-wife, boyfriendgirlfriend continuing war. This is done in black and white, and it's beautiful, functioned-crisp. GRADIS. Deplus.

PRISONER OF ZENDA, THE (PG) - Peter Sellers, Lynne Frederick, Elke Sommer. Comedy. This idea, on paper, sounded sure-fire: Sellers in a triple role in the oldie about the shnook who doubles for the monarch. But even a sure-fire needs a match, and this one never lights up. It all seems strained, more so-so than ho-ho. GRADE:
