

**'If they want a crisis, I'll give them a crisis'**

## Rally Planned To Protest Rising Liability Insurance Costs

By Paul Schaefer  
Herald Staff Writer

A coalition of up to 5,000 members will take their case against rising liability costs to state legislators in April to seek relief before they are forced out of business, according to coalition organizer Dr. Luis M. Perez of Sanford, president of the Florida Medical Association.

Escalating costs for liability insurance in the medical profession and other high-risk business has reached the crisis stage in the medical,

professional and industrial communities, according to Dr. Perez.

He says by Jan. 1, 1987, when the 1985 Medical Malpractice Act is enacted, many doctors will be forced to close their practices, leaving thousands without medical care.

The problem is not restricted to the medical community, Dr. Perez says. Liability insurance costs will force segments of business, industry, the professions, associations, and professional individuals out of business, he says, leading to

loss of services, or increased costs for services to the general public.

The purpose of the newly-formed "Florida Coalition for Liability Reform" is to work for reforms in the tort system through the legislative process, as well as to consider alternative solutions to the liability crisis.

He says 60 people attended an organizational meeting in Orlando last Thursday which resolved that they would hold a rally in Tallahassee on Monday, April 21, to take their case to the state

legislature and lobby for an across-the-board cap on non-economic damages in the amount of \$250,000. Those in the coalition are working toward getting 4,000 to 5,000 people to join them in the march on the state capital.

"Until the Legislature comes to grips with the driving force behind the exorbitant damage awards — which is the excessive dollars paid in all tort cases for non-economic damages (i.e. pain and suffering) — the liability crisis will not

## Military Team Flies To Laos In MIA Search

BANGKOK, Thailand (UPI) — An American military team flew Monday to southern Laos to search for the remains of 14 American Air Force crewmen aboard a warplane shot down in 1972.

The two-week joint operation is the second permitted by Laos and the third in Indochina since Vietnam and Laos accelerated cooperation in resolving the fate of U.S. servicemen listed as missing in action more than a decade after the war.

The 11-man U.S. team, led by Lt. Col. Joe Harvey, head of the U.S. Joint Casualty Resolution Center in Hawaii, flew out of Bangkok en route to Savannakhet Province in southern Laos to begin the excavation.

The warplane, an Air Force AC-130 gunship, had a crew of 14 when it was struck by a Soviet-built SAM missile March 29, 1972. It crashed about 80 miles east of the Thai-Lao border.

"This new excavation will closely resemble the one done in Laos earlier," said Lt. Col. Paul Mather, Joint Casualty Resolution Center representative in Bangkok. "No heavy digging equipment will be used, and there still is live ammunition there."

The joint excavation follows a major Vietnamese shift in position in the search for American MIAs.

A congressional delegation that visited Hanoi Friday and Saturday said Deputy Foreign Minister Hoang Bich Son claimed Americans might still be alive in remote areas of Vietnam without the knowledge of Hanoi. When the war ended, Hanoi said no U.S. servicemen were alive in Vietnam.

Son issued a "standing invitation" to the U.S. government and military to investigate "live sightings" of Americans, according to the nine-member House task force on MIAs.

More than a decade after the end of the Vietnam War, 2,433 American servicemen are still listed as missing in action. Nearly 1,800 Americans are unaccounted for in Vietnam and 556 are missing in Laos.

After landing Monday at the Savannakhet provincial capital, on the Thai-Lao border, Harvey's team was to travel to the crash site. The Lao government will provide logistical support and diggers to sift the soil for bone fragments, Mather said.

During a preliminary survey of the area last month, Harvey found a "beaten path" to the crash site and indications that someone tried to uncover remains, Mather said.

Laos permitted the first joint MIA excavation in Indochina last February, when an AC-130 yielded the remains of 12 Americans. An American B-52 bomber was excavated near Hanoi last November, but few remains were found.

## Delicious Reflection

Pausing for a moment of reflection during nibbles of ice cream is Kellena Doyle, 8, of Brownie Troop 226, Sanford. The troop toured Baskins-Robins Ice Cream parlor at the Seminole Centre Plaza and learned how the dessert is made. They also learned the history of ice cream and walked into a cooler where ice cream is stored at 20 degrees below zero. Making their own ice cream cones and tasting the fruits of their labor topped the visit.

## Aquino Promises More Pressure

# Senators Tell Reagan: Abandon Marcos' Sinking Ship

WASHINGTON (UPI) — President Reagan must call on Philippine President Ferdinand Marcos to step down or the United States will be "tied to the mast of a sinking ship," Sen. David Boren, D-Okla., says.

On their return from a weekend stop in the 7,000-island nation, Boren and Democratic Sens. Carl Levin of Michigan and David Pryor of Arkansas said Sunday the Philippine people are counting on the United States to reaffirm their faith in democracy.

"People very strongly expressed to us their true belief that the president of the United States has the power to end all legitimacy of the Marcos government," Boren said. "We call on the president to urge President Marcos to step down and transfer power to the legitimate winner of the election" — opponent Corazon Aquino.

The senators said they saw evidence of rampant fraud in the Philippine presi-

dential election — including currency they said the government printed to buy votes and dozens of ballots cast for Marcos and signed in the same hand.

The Marcos-controlled National Assembly officially declared the 20-year ruler the winner over Aquino in a violent, fraud-stained election.

Independent vote counts, the senators said, showed that Aquino clearly won the balloting and Pryor said the election fraud could trigger violence.

"There is no way to put Humpty Dumpty back together again," Boren said. "This government is going to fall, so let's not tie ourselves to the mast of a sinking ship."

But Pryor said Aquino's call Sunday for non-violent civil disobedience could be useful in forcing Marcos to step down.

"I don't think we'll see any violence yet," he said. "We had a miracle (Sunday) when a million people rallied in Manila against the government and

there was no violence. That in itself was a miracle."

In Manila, U.S. special envoy Philip Habib held separate meetings today with President Ferdinand Marcos and Corazon Aquino, hearing accusations of vote fraud, terrorism and violence by both sides in the Philippine presidential election.

Habib met later for an hour with Cardinal Jaime Sin, the influential archbishop of Manila and titular leader of the Philippine Catholic Church, which has condemned the election and endorsed a campaign of non-violent protests against the Marcos regime.

In a statement before her meeting with Habib, Aquino assailed President Reagan for calling on her to work with Marcos and she accused Washington of assisting in the betrayal of the Philippines' fight for democracy.

Opposition spokesman Rene Saguisag said Aquino and four associates told

Habib during a 55-minute meeting that they want a "swift and orderly transfer to the Aquino presidency."

Saguisag said Aquino and running mate Salvador Laurel vowed they would apply increasing pressure on Marcos until he steps down.

Habib explained during the "cordial" meeting that he was in Manila to listen and gather facts on the Feb. 7 election. He offered no advice, Saguisag said.

Information Minister Gregorio Cerdana said Marcos' two-hour talk with Habib would help "straighten out" U.S. reports of rampant government cheating in the election.

He said Marcos provided Habib with "evidence of fraud, terrorism and violence committed by the opposition," including photographs and affidavits from witnesses backing up his claims.

Marcos also outlined plans to reform

## McAuliffe's Heir Tells Kids Space Future Bright

BOISE, Idaho (UPI) — Christa McAuliffe's mantle as America's teacher in space has passed to an Idaho woman who hopes to tell the nation's youth that "the future of the space program is bright" despite the shuttle disaster.

Named by NASA Thursday as the next teacher to ride the shuttle when the program resumes, Barbara Morgan views the assignment with a sense of mission.

"Children are waiting to see what adults do with the space

program, and I'm ready to be their partner in space," said Morgan, who teaches second grade in the small mountain town of McCall.

After witnessing the Jan. 28 explosion that killed seven astronauts aboard the space shuttle Challenger, Morgan, 34, helped console the family of Christa McAuliffe, the New Hampshire high school teacher who was to be the first private citizen in space.

As McAuliffe's backup, Morgan trained with the

Challenger crew and helped McAuliffe prepare lessons she planned to deliver from space.

One of Morgan's first goals after returning to Idaho last week was to meet with her students so she could let them ask questions about the space program and what happened to the shuttle.

"They need to be able to ask questions without being surrounded by cameras and being shown on TV," said Morgan.

A Stanford University honor graduate who grew up in Fresno,

Calif., Morgan's first teaching job was at the Flathead Indian Reservation in Montana.

She later taught English and science in Quito, Ecuador, and in Idaho has organized Special Olympics and Red Cross summer swimming programs.

Unlike McAuliffe, Morgan, who is married, has no children.

"Christa was a good teacher who taught me a lot," Morgan said. "We shared similar philosophies of life and education. But we're two different

people from two different back-

## Middle School Gets 'The Birds'

Like characters in an Alfred Hitchcock film, Teague Middle School children and adults travel in fear of sea gulls, about 300 of them that migrate to the area in November and stay until April.

But it is droppings and not peckings that preoccupy the denizens of Teague Middle School.

"It's scary, but it's a big joke too," said sixth-grader Kristen Kelly. "We put our purses and books over our heads when we run from the building to the pavilion."

The lunch pavilion is the gulls' feeding ground. Their population has grown alarmingly since the school opened in 1971. A child is spattered every other day, according to Ron Hirst, assistant principal.

Even on cloudless days, Rick Moesman, principal of the school near Altamonte Springs, wears an umbrella hat during lunch patrol, and his students shield themselves as they scurry to an outdoor lunch area.

Moesman began wearing his protective headgear after two direct hits. The pink and white striped hat was a gag

## Retired Scientists Would Staff Unique Research Center

TITUSVILLE (UPI) — The Inter-American Institute of Science hopes to break ground this spring on a research center "with potentially international significance" that would use the brainpower of retired scientists.

"There's a vast pool out there just sitting around doing nothing," says Donn Searle, a former executive in the food business and the project's driving force. "It's a shame some of these great minds have nowhere to go."

The institute believes the talents of thousands of American scientists forced into retirement

are being wasted only because there is no facility where they can pursue their work.

Members of the institute, a non-profit organization sponsored by a Brevard County development commission, say proximity to Kennedy Space Center, the county's high-technology environment and Florida's weather make Titusville an ideal location for the project.

The National Science Foundation reports 118,400 scientists and engineers retired in 1984, the most recent year for which figures are available. Thousands

more retired in other countries.

"It's tragic that that knowledge should be allowed to go to waste," says Carter Henderson, a former Wall Street Journal editor and member of the institute's board of governors.

The center likely would be the only one of its kind in the United States, says Betty Vetter, executive director of the Commission on Professionals in Science and Technology in Washington, D.C.

She says the idea has been banded about for a quarter century, but money and other problems have kept the dream from being realized.

Searle says the type of scientist the institute wants to attract would be receiving some sort of retirement benefits, so only nominal salaries would be required.

He says confidence the project will get off the ground is due partially to the power of the institute's board of governors, which includes politicians, corporate executives, university administrators and lawyers.

If money can be raised for construction of the initial 5,000-square-foot laboratory, daily operations likely can be funded by grants from govern-

ment and private foundations. Companies have expressed willingness to donate equipment, Searle says.

The research areas on which the institute hopes to concentrate are biomedical, plant pathology, human nutrition, environmental studies and marine biology. Negotiations are under way for a building site.

"This is a sound concept," Henderson says. "I'd give it a good sporting chance. And if we can pull it off, it would be a feather in our cap for Florida with potentially international significance."

## IN BRIEF

### France Cancels Plans To Ship Duvalier To New York

PARIS (UPI) — Former Haitian President Jean-Claude Duvalier was booked on a flight to New York, but U.S. officials said he would not be allowed in the country and the reservation was canceled, news reports said.

The incident, reported on state-owned radio Sunday, highlights the problem of finding an exile home for "Baby Doc" Duvalier, who fled from Haiti in the wake of months of protest against his regime.

Duvalier, his wife and two children, who left Haiti Feb. 7 for France, had been booked on Air France flight 077 leaving at midday Sunday, but the reservations were canceled shortly before the plane took off for New York.

He has been staying with his family and entourage in the French Alps town of Talloires while France and the United States search the world for a country that will take them.

News reports said French officials hoped to send Duvalier to the United States, but were forced to change plans when State Department officials said they would not accept the former Haitian President-for-life.

"The State Department has said he would be inadmissible to the United States as an undesirable alien," Brown said. "He has not applied for a visa, but the State Department has said they would not grant him one."

### Portugal Gets Civilian President

LISBON, Portugal (UPI) — In a stunning political comeback, former Socialist prime minister Mario Soares has become Portugal's first civilian head of state in 60 years by narrowly winning a runoff presidential election.

Soares immediately sought Sunday to defuse a polarized electorate.

"I will not be the president of one party or of the majority that elected me but of all the Portuguese, seeking to unite them," Soares said.

Soares, a three-time prime minister and defender of Portugal's role in NATO and the European Community, rallied a divided left to defeat Christian Democrat Diogo Freitas Amarel, a former foreign minister.

With more than 98 percent of precincts reporting, Soares had 3,000,663 votes, or 51.4 percent of the total, to 2,841,054 votes, or 48.6 percent, for Freitas Amarel, who conceded defeat.

More than 78 percent of the 7.6 million eligible voters — 20 percent of whom are illiterate — voted peacefully in the 14th election since the country regained democracy in a military coup 12 years ago.

### Police Kill 4 In Rioting

JOHANNESBURG, South Africa (UPI) — Fierce anti-government rioting raged for a third straight day today in the black township of Alexandra near Johannesburg and police said they shot and killed four people during the night.

Police said they killed two blacks in Alexandra Sunday night and two more in clashes near Durban and Port Elizabeth, raising the official death toll in nine days of renewed anti-government violence to 32 — the bloodiest flare-up since Christmas in South Africa's two-year black revolt against white rule.

Police said a black woman was also seriously injured in Alexandra when unidentified blacks tried to burn her alive with a gasoline-soaked car tire — a vigilante form of execution known as "the necklace."

Four more blacks were wounded by police fire and 685 people were arrested, 641 of them when they staged an illegal march at Witbank, about 50 miles southeast of Johannesburg.

## IN BRIEF

### Soviet Bank Takeover Scheme Brings Ownership Disclosure Call

WASHINGTON (UPI) — Sen. Daniel Moynihan, D-N.Y., says he doubts the Soviets will abandon a scheme to gather high-technology secrets by taking over banks just because U.S. intelligence uncovered and foiled one such plot.

Moynihan said in a telephone interview Sunday he will introduce legislation calling for disclosure of bank ownership.

The senator said he did not know the identities of the principles involved, but The New York Times reported Sunday the Soviet scheme was to take over three Northern California banks — a plan that did not violate any U.S. law.

The Times identified the banks as Peninsula National Bank in Burlingame, First National Bank of Fresno and the Tahoe National Bank in South Lake Tahoe. The Soviets also tried to gain partial interest in Camino California Bank in San Francisco, the newspaper reported.

Moynihan, a member of the Senate Intelligence Committee, said a CIA agent noticed a peculiar lending pattern by the Singapore branch of a Soviet bank in the late 1970s, uncovered the plot.

Moynihan said the Soviets were attempting to take over the banks to get the opportunity to review blueprints and other plans for secret high-technology projects when reviewing business loan applications.

### Supermarket Pulls Baby Food

SCHENECTADY, N.Y. (UPI) — Gerber Products Co. says a "total overreaction" caused a supermarket chain to pull baby food from its shelves because two women reported finding slivers of glass inside Gerber jars.

Price Chopper officials said the chain removed the baby food from its shelves as a matter of policy, but another store that received a telephone report of glass shards in a Gerber jar took no action because the jar was thrown away and the report could not be verified.

### Ban Capsule Pills, Official Says

NEW YORK (UPI) — The top official in the county where cyanide-laced Tylenol killed a woman and a second tainted bottle was found has called for a ban on capsule forms of non-prescription drugs before a "lunatic" strikes again.

Westchester County Executive Andrew O'Rourke made the proposal Sunday as investigators reviewed storage, distribution and employee records of Johnson & Johnson, maker of the painkiller, and prepared to visit the Fort Washington, Pa., plant where the Tylenol that killed Diane Elshorst, 23, was produced.

"This certainly beats just sitting around waiting for this lunatic to strike again," O'Rourke said.

Continued from page 1A

"(The verification will be complete after review by the appropriate engineers and technical staff."

The wreckage was photographed by the crew of the Johnson Sea Link 2, a research submersible capable of reaching depths of 2,640 feet. NASA would not confirm reports from sources who said two astronauts were on board.

The 23-foot submarine, equipped with sonar, two video cameras and an airlock chamber, began diving Saturday with the research vessel Seward Johnson providing support. The wreckage of the suspect rocket

booster was found in water 1,200 feet deep, about 40 miles east of the launch pad.

A series of pictures taken by tracking cameras during Challenger's launch Jan. 28 and released by NASA Saturday night strongly indicates the right-hand booster ruptured at a joint connecting the lower two of its four fuel segments.

The photographs add to the evidence suggesting two rubber O-ring seals in the joint were somehow unable to contain hot gas and flame from the burning propellant inside.

Recovering the wreckage of the rocket is crucial to investigators who hope to examine the joint in detail to pin down exactly what went wrong. A Navy nuclear submarine called

the NR-1 is scheduled to arrive Tuesday to assist in recovery operations.

Radar tracking and sonar readings indicate Challenger's left-side booster rocket is resting on the ocean floor about 1,100 feet down, a few miles south of its counterpart.

Both of Challenger's solid rocket boosters were blown open by radio destruct commands about 36 seconds after the shuttle explosion when one of the out-of-control rockets began heading back to the Florida coast.

One photograph released by NASA shows the fireball of the destruct charges erupting from behind the exhaust plume of the right-side booster rocket. But experts say the destruct command should not have destroyed

the rocket and key evidence remains to be examined.

Other recovery ships continued working in an area about 16 miles offshore where the remains of a satellite rocket blown from the shuttle's ruptured payload bay were found last week.

In another development, administration officials say former NASA administrator James Fletcher is under consideration to head the agency if James Beggs resigns. Beggs is on leave to fight federal charges not connected with the space agency.

White House officials have spoken of the need to have an experienced NASA leader at the helm of the demoralized agency to speed its recovery from the disaster.

# ...Senators

Continued from page 1A

the 250,000-member military, which is facing a growing communist insurgency and charges of corruption.

In a statement released by Malacanang Palace, Marcos said the resignation of armed forces chief Gen. Fabian Ver — announced on Sunday — would be delayed until March 1 to "effect an efficient transfer of functions and responsibilities." Marcos earlier gave the impression the resignation was effective Sunday.

After meeting for an hour with Philippine Acting Foreign Minister Pacifico Castro and U.S. Ambassador Stephen Bosworth, Marcos and Habib spent another hour alone, Cendana said.

He quoted Marcos as saying

Habib "came to the Philippines to make observations and get information from all parties" and "not in any way to tell us how to run our affairs."

Prior to Habib's arrival at her headquarters, Aquino criticized Reagan's recent praise for the healthy two-party system in the Philippines and his appeal for the two sides to work together.

"There was nothing healthy or democratic about the violence, intimidation, cheating and bribes by which Mr. Marcos sought to snatch victory," Aquino said.

She said Filipinos gave their lives to bring peaceful change through the ballot box. More than 140 people died during the two-month election period, most of them opposition supporters.

"You cannot ask the whole nation to go back into its cage after such a demonstration of

popular will," Aquino said. "What is now at stake here is more than the removal of an impostor president. It is the future of democracy itself."

"Any ... statement by anybody that seeks to obscure this blunt truth is not helping the Filipino people and assists in the betrayal of their fight for democracy."

# ...Heir

Continued from page 1A

"I think students identify strongly with the space program," Morgan said after accepting NASA's offer to become the next teacher in space. "They need reassurance that the future of the space program is bright."

Morgan said the Challenger tragedy did not dampen her enthusiasm for the space program.

"The tragedy has reaffirmed what I've already learned about

the space program," she said. "A sense of teamwork, a can-do attitude and to go ahead in a crisis."

"You must train with a crew and use lots of teamwork," said Morgan. "These are good lessons to teach students ... to get people to work together for a common goal."

Morgan said she is not afraid to fly aboard the shuttle.

"We knew there were risks when we applied for the program," she said. "I applied because I thought it was a very good program and I trust NASA."

# Seek Planning Funds For Communities

Continued from page 1A

Lewis said.

Lewis presented a 75-page rule designed to implement the concepts adopted by the Legislature. That rule would require all 461 local governments in Florida to drastically revise the comprehensive plans used to guide local development.

If those revised plans do not live up to the standards Lewis outlined, the Cabinet could cut off revenue sharing funds to the local government.

The revised plans must project each area's future land use, transportation, and environmental protection needs and include plans for funding those needs. Coastal governments also must produce extensive plans for protecting beaches and shores.

"We're going to deal with the needs of growth. We're going to deal with them face on, and we're going to deal with them out front," Lewis said. "For the first time, it assures there will be uniformity in the local plans each community develops to guide its future in this fast-growing state."

New plans are needed, Lewis said, because existing plans are not adequate to deal with Florida's skyrocketing growth. State planners expect population to grow by 788 people each day from now until the end of the century, bringing in 5.7 million new residents by the year 2000.

"All these people mean in-

creased needs for roads, sewers, water systems, hospitals, schools. They also mean increased stress and strain on our natural resources," Lewis said.

The proposed rule must be approved by the Legislature, where the Growth Management Act caused extensive and heated debate in 1985. Lewis said he had incorporated the needs of developers, environmentalists

and local governments in the rule and predicted it would pass without extensive revision.

"Everybody seems to be grumbling equally," Lewis said. "Environmentalists say it doesn't go far enough. Developers say it goes too far. Everybody is equally happy, which is a good sign."

County governments have until 1987 to complete their plans.

# FLORIDA STATE FAIR

## Triple Honor Winner

Mike Lee of Sanford is shown with Rudolph, the Santa Gertrudis Grand Champion Bull of the Youth Beef Show during the Florida State Fair. Mike also took honors with his "WJR Victoria," the Polled Hereford Grand Champion Female, and "MLF Great Victor," the Polled Hereford Grand Champion Bull. A record breaking opening day crowd of 54,182 saw the Youth Beef Show.

# WEATHER

**NATIONAL REPORT:** The latest in a series of storms that have washed the West in floodwaters and mud brought a sixth straight day of rain today, and forecasters said a mass of clouds reaching back to Hawaii meant the deluge could last until Friday. At least two people died in the storms and two others were missing, including a man

whose raft boat capsized in a rain-swollen creek near Concord, Calif., and a woman whose home was buried by a mudslide near Santa Cruz, Calif. "I witnessed the earthquake and fire (in 1906 in San Francisco) and this is the scariest thing since," said an 88-year-old resident of Occidental, Calif. "It's like the 40 days of rain and I think I'm living in the ark. It's lasting too long. It's asking too much of the earth to absorb all that water."

**AREA READINGS (9 a.m.):** temperature: 66; overnight low: 55; Sunday's high: 75; barometric pressure: 30.13; relative humidity: 84 percent; winds: SE at 4 mph; rain: 00 in.; sunrise: 7:01 a.m., sunset 6:18 p.m.

**SATURDAY TIDES:** Daytona Beach: highs, 2:55 a.m., 3:11 p.m.; lows, 9:20 a.m., 9:09 p.m.; Port Canaveral: highs, 3:15 a.m., 3:11 p.m.; lows, 9:40 a.m., 9:29 p.m.; Bayport: highs, 2:54 a.m., 2:45 p.m.; lows, 9:00 a.m., 9:18 p.m.

**EXTENDED FORECAST:** Partly cloudy with seasonally warm temperatures. A chance of showers mainly Wednesday and Thursday. Lows mostly 50s north and 60s south but near 70

in the keys. Highs in the 70s except lower 80s interior south.

**AREA FORECAST:** Today...partly cloudy. High in the upper 70s to low 80s. South wind 10 to 15 mph. Tonight...partly cloudy. Low in the upper 50s to low 60s. South wind 10 mph. Tuesday...variable cloudiness with scattered showers. High in the low 80s. Southwest wind 10 to 15 mph. Rain chance 30 percent.

**BOATING FORECAST:** St. Augustine to Jupiter Inlet out 50 miles — Southeast to south wind 10 to 15 knots today then south to southwest tonight. Southwest wind 10 to 15 knots Tuesday. Sea 3 to 5 feet. Bay and inland waters a moderate chop. Partly cloudy becoming mostly cloudy with scattered showers Tuesday.

# Youthful Robber Flings Flashlight

A Flung flashlight knocked a Sanford woman to her kitchen floor as she pursued a burglar totting three rifles from her home Friday noon.

Mary Ann White, 33, of 109 Temple Drive, was hit in the forehead as a 12- to 14-year-old robber scrambled to get away from her, according to a sheriff's deputy's report.

Ms. White, a receptionist, went home Friday for lunch and heard someone in her kitchen after she entered the home by unlocking her front door. When she got to the dining room she saw the youngster heading for an unlocked rear door carry the guns.

According to the report, Ms. White cursed the intruder and moved towards him. The boy pushed a dining chair in her path and dropped the guns. As he hot-footed it through the kitchen with her in angry pursuit, he picked up a flashlight and heaved it at the woman striking her on the forehead.

As she dropped to the kitchen floor, the slight burglar headed east across the back yard, scaled a fence and disappeared.

According to the incident report, only one item appears to be missing from the home, a new computer still in its display box. No value for the computer was reported.

Ms. White received first aid. A Winter Springs man was being held without bond Saturday charged with sexual battery and battery.

According to the arrest report, a woman told police that she was assaulted by the man Feb. 13. She made the report at 11:51 p.m. that day. She was taken to Central Florida Regional Hospi-

tal and examined. The results are pending.

Further details about the alleged incident were not reported.

Arrested at 3:53 a.m. Friday and charged was Sherman Michael Insko, 21, of 100 Kristi Ann Ct. He was arrested at his home.

### DUI ARRESTS

The following persons have been arrested in Seminole County on a charge of driving under the influence:

—Buster Lee Terry, 37, of Route 2, Box 4, Sanford, arrested Feb. 15 at 2:40 a.m. at State Road 600 and Dog Track Road after a trooper saw his car cross a centerline.

—Gary Scott Golden, 27, of 423 Longwood Drive, Longwood, arrested Feb. 14 at 9:52 p.m. after his car was involved in an accident at State Road 434 and Grant Street in Longwood. He was also charged with having an unlawful blood alcohol level — reportedly 0.233, more than twice the legal definition of intoxication — and running a red light.

### SPOUSE ABUSE ARREST

A Lake Monroe man has been arrested following a report by his wife that he injured her.

Deborah S. Abbott, of 4500 Orange Blvd., west of Sanford, told sheriff's deputies that her husband struck her on the face.

injured her arm and threw something at her which cut her right leg. The alleged incident occurred St. Valentine's Day around 8:17 p.m.

Arrested and charged with battery was Leonard Neal Abbott, 35, of 4500 Orange Blvd. He was being held on a \$500 bond.

### SEARCH WARRANT

An Altamonte Springs man and housewife were arrested just prior to the serving of a search warrant near Altamonte Springs.

According to a sheriff's report, deputies were about to serve a warrant at 79 Salem Ct. when they reported seeing a man

exchange something for money with a woman.

The law officers moved in, arrested the woman for possession of cocaine and served the man the search warrant. The incident occurred Friday at 7:50 p.m.

A search of the house produced some packets of cocaine and the man was charged with selling and possession of cocaine.

Arrested and charged were Arthur Eugene Oliver, 29, of 79 Salem Ct., and Oliva Dionne McClennon, 22, of 118 DeSoto Ave.. Oliver was being held on \$2,000 bond Saturday; Ms. McClennon on \$1,000 bond.

## What To Say When You Forget a Name

**DEAR ABBY:** Here is a dilemma that I think we've all faced at one time. You are at a party and someone greets you by name. The face is familiar, but you can't remember the name. The person begins talking to you, then suddenly somebody you know joins you. You want to introduce the two but can't remember the name of the stranger. What do you do?

### ON THE SPOT

**DEAR ON:** You'll probably never believe this, but I just happen to have a brand-new book on my desk titled "Letitia Baldrige's Complete Guide to Executive Manners." I looked in the index under "Introducing People" and found the following: "While the easiest solution is to admit that you have temporarily forgotten a name, there is another alternative. It's called the 'talk fast and maybe they won't guess the truth' solution." If you have forgotten the name of the person who has joined your group, begin talking quickly in a pleasant, even funny exaggerated way. Build up the ego of the person whose name you can't recall:

"Listen, everyone, this is someone I haven't seen for a long, long time, but he was such a fantastic salesman that the rumor is he almost sold the office building to his company president!"

"If the only thing you can remember about a person is where he lives, you can almost always drag out a little story that will cause everyone to smile. Soon they are shaking hands and everyone is introducing himself all around. Probably the newcomer and the others in the group don't even realize you never once mentioned his name. (It works, because I do it all the time.)"

"Honestly, however, is always the best policy. Just admit the name has slipped your mind. Generally, you will be forgiven."

This book is an absolute treasure. You don't have to be an executive to learn from it; anyone who works with other people will find it enormously helpful. It's more than a guide to manners: It's a practical guide to common-sense behavior in hundreds of social and business situations. It's published by

Dear Abby

Rawson Associates, and can be found at your local book dealer's. The price is \$22.95 — not inexpensive, but worth every penny.

**DEAR ABBY:** I am a 70-year-old retired male who has been reading your column since you started it 30 years ago, but I never thought I would ever write to you. I do so now to register my surprise regarding a letter you printed. It had to do with the churchgoing person who was irritated by another church member who created a minor disturbance by unwrapping peppermints during the sermon.

With all the serious problems in this world that should be addressed, I was flabbergasted that you would select something so frivolous to print. If the old biddy couldn't stand all that noise, why didn't she change her seat where she wouldn't be so distracted, poor dear?

You're allowed one mistake, Abby. Don't let it happen again.

**PETTERBED IN PETALUMA, CALIF.**

**DEAR PERTURBED:** I admit to my share of mistakes, but this wasn't one of them. I think it's rather fascinating for my readers to know what other readers find sufficiently irritating to complain about. And occasionally a reader will write in with a solution, like this one:

**DEAR ABBY:** I sympathize with that poor woman who unwraps peppermints in church. I also carry them to suck on during concerts, at the theater and in church as well. It may be psychological, but I always get the urge to cough at times when there should be silence, and a peppermint prevents my coughing. However, I remove the cellophane wrappings at home and carry my peppermints in clean white tissues.

### "Going Bald?" Here's Help If Cause is Sebum

HOUSTON, Texas—If you have symptoms of "sebum" hair loss; oily or greasy forehead; dandruff, dry or oily; itchy scalp; and if your hair pulls out easily on top of your head, here's help.

A firm of laboratory consultants has developed a scientifically advanced formula and regimen to remove and control the continuous discharge of toxic sebum, so the scalp can function normally and effectively. This, in turn, reduces hair loss... stimulates natural hair cell production... and reverses the balding process.

This scientific regimen has proven so successful the firm invites you to try it for 32 days, at their risk, and see for yourself.

These experts point out that the majority of cases of excessive hair fall and baldness are the beginning and more fully developed stages of male pattern baldness and cannot be helped.

But, if your hair loss is caused or affected by sebum, here is help.

Everyone has a full head of hair until some time after puberty. In the case of hair loss caused by "sebum", the problem starts when the male hormone production reaches its peak. This causes an excessive discharge of toxic sebum, which if not properly controlled, will gradually destroy the hair-producing cells on top of the head.

Hair loss caused by sebum can also run in your family, and, if you wait until you are slick bald and your hair-producing cells are destroyed, you are beyond help.

So, if you still have any hair on top of your head, and would like to reverse the balding process... now is the time to do something about it before it's too late.

Loesch Laboratory Consultants, Inc., will supply you with treatment for 32 days... at their risk... if you have the sebum symptoms and are not already slick bald. Just send them the information below. Or, call them toll-free at 1-800-231-7157 (in Texas 1-800-833-8387) 8:00 a.m. to 4:00 p.m., Monday thru Thursday and they will send complete information. Your reply places you under no obligation whatsoever. ADV.

## Happy Birthday To Automobiles

An enduring fable of our time holds that technology and the modern industrial state breed more repression than freedom. Those tempted to believe this need to ponder the impact of that premier symbol of industrialization, the automobile, on its 100th anniversary.

Engineer Karl Benz of Mannheim, Germany, obtained a patent for the first commercially plausible horseless carriage on Jan. 29, 1886. On that day we were concerned with the tragedy of a newer technology and now, nearly three weeks later, we reflect on Benz.

The vehicle, a nosy, three-wheeled contraption, seemed an unlikely prototype for a machine that would revolutionize transportation, remake the global economy and vastly expand the horizons of ordinary men and women. But within a few short decades, automobiles made constantly cheaper and better by improved engineering and mass productions put millions on wheels.

This new mobility added up to new freedom. The industrial worker who once had to live in the grimy shadow of his factory could now live miles away in more bucolic surroundings and commute. His car gave him a wider choice of employment and recreation. It helped liberate his wife from hearth and home, and made the marketplace more competitive by motorizing the family's principal shopper.

And, of course, it so lowered the cost of travel that even the poor could readily move across country or visit distant places. To understand how startling a change this was, remember that in prior centuries most people lived and died within 20 miles or so of their place of birth.

Today, there are 360 million automobiles in use throughout the world. It is no mere coincidence that their distribution reflects roughly the divisions between free societies and the various totalitarian and autocratic alternatives. More than 80 percent of the world's automobiles are found in North America, Western Europe, and Japan — 17 percent of the world's population. A Soviet citizen is only one-fourteenth as likely as an American to own an automobile.

And it was page-one news in mainland China last year when the first farm family since the communist takeover in 1949 saved enough to purchase a private automobile. The make? What else but a Toyota?

Automobiles are not unqualified blessings, to be sure. Absent the necessary emission controls, their internal-combustion engines are noxious pollutants of the air. Automobile accidents kill about 45,000 persons in the United States alone each year and injure more than a million others. Progress, like freedom, is rarely without its costs.

But whatever its drawbacks, few inventions in history have so liberated their possessors as the motorcar. The revolution it prompted in transportation surpasses even the societal transformation wrought by the development of steam engines in the 1780s. Fittingly enough, the automobile has flourished in precisely those societies free enough to encourage technological innovation and then permit its commercial development.

Viewed in this light, the automobile refutes a pernicious myth about freedom and industrialization. More to the point perhaps, its remarkable story lights the path ahead to far greater transformations in such evolving technologies as telecommunications and aerospace. As always, freedom will remain the best possible lubricant of progress, even as it was when Karl Benz rolled out his odd little three-wheeler.

### BERRY'S WORLD

HELEN THOMAS

## Presidential Children Become Writers

WASHINGTON (UPI) — Two of the Reagan children have become writers.

The President and Mrs. Reagan's son, Ron, is now working for Playboy magazine, and their daughter, Patti Davis, has written a novel titled "Home Front" that has all the overtones of being autobiographical.

It's about a young girl's family ... whose father happens to be president of the United States," said Elaine Crispin, Mrs. Reagan's press secretary.

Crispin said the book is a novel and quotes Patti as saying she will "let the readers judge for themselves."

Patti, who wrote the book with co-author Maureen Strange, has probably spent less time at the White House than any other offspring of a recent president.

When she visits her parents, usually for one night, it is without fanfare. She chose to be married in her native California rather than in the White House, where it would have been almost a state affair.

She has shunned politics and the life her

parents lead. She is even more independent from family ties than Ron, who sees his parents more often.

Mrs. Reagan is looking for a new chief of staff with the departure of Lee Versandig after a month on the job. She has had two previous chiefs of staff, Peter McCoy and James Rosebush.

Versandig plans to remain on the job until his successor is named. Afterward, he will join former White House deputy chief of staff Michael Deaver, who is now a high-powered public relations executive in Washington.

The job of chief of staff in the East Wing is primarily one of being a coordinator of all the first lady's activities. The chief of staff travels with Mrs. Reagan wherever she goes and is in charge of other members of the staff.

Presidents often shy away from attending weddings, even of the children of close friends. They do not want to take the spotlight away from the bride.

When President Reagan sent his regrets to

USIA Director and Mrs. Charles Wick, his longtime friends, that he was unable to attend their son's wedding, he was merely following the example of many of his predecessors.

Presidents believe their presence is a disruptive element, since they come with a convoy of Secret Service agents and reporters.

Most of them decide to stay home so that it can be strictly the bride's day. But in terms of history, a bride would probably be happy to say her wedding was attended by the president of the United States.

Despite the tragic end of the space shuttle Challenger, you will not find a more enthusiastic devotee of the space program than the president.

Reagan told a gathering of high school students that he does not believe the tragedy "in any way should affect the policy" of sending civilians into space with astronauts. He spoke of space as the "last frontier" and said it should not be left to individuals, scientists or career people who are up there just for space exploration.

ROBERT WALTERS

## Cut Guns But Not Butter

WASHINGTON (NEA) — President Reagan wants to spend far more money next year for research on a single military project — his "Star Wars" scheme — than to pay all the operating expenses of the federal courts, Congress and their related agencies.

The president's proposed 1987 budget calls for expenditures of slightly less than \$2 billion to run the entire legislative branch of government and slightly more than \$1.2 billion to cover all the costs of the federal judiciary.

During the same period, research on the Strategic Defense Initiative would consume \$4.2 billion.

That's only one example of the distortions in Reagan's budget produced by his penchant for profligate military spending while relentlessly slashing expenditures for child nutrition, student loans, job retraining and scores of other domestic programs.

Indeed, the yearly costs of many weapons systems equal or exceed the amount of money required to finance entire government departments, agencies or programs. Some examples:

—Proposed procurement of an additional 216 F-16 Falcon jet fighters for the Air Force would cost \$3.9 billion. For the same amount of money, the government can pay the annual operating costs of all federal law enforcement agencies — the Federal Bureau of Investigation, Secret Service, Drug Enforcement Agency, Customs Service and others.

The F-16 costs a phenomenal \$18 million per copy, which means that the price of a single plane is equivalent to the annual salaries of 900 teachers at \$20,000 per year.

—Proposed procurement of additional 120 F/A-18 Hornet jet for \$3.5 billion. That's the same amount that Reagan proposes spending on all domestic child nutrition programs.

—Another \$2.4 billion would be spent to construct four new SSN-688 nuclear-powered attack submarines for the Navy. That figure is identical to the Coast Guard's entire operating budget for the year.

The Jobs with Peace Campaign, a Boston-based organization, has calculated that the average household will pay \$5,767 in federal taxes this year, not including money paid to the government to support Social Security trust funds.

Of that total, \$3,103 (almost 54 percent) will be consumed by military spending, while only \$115 will go for housing, \$126 for education and \$138 for food and nutrition programs.

That's an important reason why so many people — voters and politicians, Republicans and Democrats — view the president's budget demands as irrelevant, irrational and irresponsible.

JACK ANDERSON

## Iran Was Behind '79 Embassy Burning

By Jack Anderson  
And Dale Van Atta

WASHINGTON — Evidence stashed away in the vaults of the CIA suggests that Iranian agitators played a key role in an anti-American outrage that was initially ignited by Soviet disinformation: the sacking and burning of the U.S. Embassy in Islamabad by a Pakistani mob on Nov. 21, 1979.

The mob had been driven to an apparently spontaneous frenzy by radio reports that falsely charged the United States with instigating the takeover of the Grand Mosque in Mecca the day before. Descending on the embassy compound in buses,

the rioters forced more than 100 U.S. and Pakistani personnel to take refuge in a room-sized security vault. They huddled there in suffocating heat, amid smoke and tear gas fumes for five hours, while the chancery building burned around them.

By a near-miracle, only two Americans died in the melee: a 20-year-old Marine guard killed by sniper fire and a 30-year-old Army chief warrant officer, who succumbed when trapped in his burning apartment.

As we have reported previously, secret CIA reports indicate that KGB disinformation specialists were re-

sponsible for the inflammatory report that the United States (and Israel) engineered the seizure of the Grand Mosque. The absurd report was broadcast during a soccer match, and was widely believed despite immediate U.S. denials.

It now appears that the Iranians played a crucial part in the Islamabad embassy attack. Part of the Iranian effort was public; part was secret.

At the time of the attack — about two weeks after the takeover of the U.S. Embassy in Tehran — Iranian officials openly accused the United States of complicity in the mosque seizure by religious extremists.

Only a few hours before the mob formed, a radio broadcast from Iran into Pakistan quoted the Ayatollah Khomeini as saying:

"It is not unlikely that criminal U.S. imperialism did this in an attempt to infiltrate the solid ranks of Islam. Moslems must not let down their guard and should expect this kind of dirty act by American imperialism and international Zionism."

Intelligence reports from Pakistan in the weeks following the embassy sacking implicated a cadre of Iranian "students" as agitators who incited the Pakistanis, and virtually led the mob to the embassy.

## Imported Diseases Increase

By Gayle Young  
UPI Science Writer

NEW YORK (UPI) — Health officials are closely monitoring an increase in dengue fever and tapeworm, maladies being brought into the country by foreign immigrants, but say few native born Americans are at risk.

"They are not a public health threat although we are talking about communicable diseases," said Frank J. Sorvillo, an epidemiologist in Los Angeles County. The county has seen a steady rise since 1977 in cases of cysticercosis, a deadly brain infection caused by tapeworms.

"These diseases are extremely common in South America and many immigrants are already infected when they come into the country," he said.

Tapeworms enter the human body through infected uncooked pork, then live for years in the large intestine.

"Basically it eats what you eat," said Dr. Frank O. Richards of the Centers for Disease Control in Atlanta. "It can grow several feet long but it does not do any real damage unless the host is malnourished to begin with."

The real danger of tapeworms are their larvae, which can pass out of the human body and contaminate public drinking water supplies or — if human waste is used as fertilizer — food, said Richards.

When the larvae are ingested by humans they develop into small sacks of fluid in the brain and live as parasites, feeding off cell- and nutrient-rich fluid in the brain cavity. The parasites mask themselves to ward off attack from the human immune system, but eventually they die and damage brain tissue.

"Seizures, mental illness, extreme headaches, and weakness in the extremities are all symptoms," said Richards. "It is fatal in 5 percent of the cases."

Tapeworms have been rare in the United States since the turn of the century, but they are so common in less developed countries in South America, Africa and parts of Asia that some health officials estimate 25 to 50 percent of the population could be afflicted.

In the United States cysticercosis is not routinely reported, but a recent study conducted by the CDC showed Los Angeles County had identified at least 497 cases of the disease from 1973 to 1983. Cases started to increase steadily from 1977 on. Of those cases, 95 percent involved Latinos and most of those were immigrants.

Dengue fever is borne by a mosquito and results in a week-long raging fever, aches, a rash and headaches, said Ted Tsai, an epidemiologist at the CDC division in Fort Collins, Colo.

## Our Changing Policy

WASHINGTON (NEA) — Foreign governments often complain that U.S. policy on world affairs is far too changeable and contradictory, despite the fact that the White House claims to follow certain unchanging principles.

The United States demands that its allies adhere to its sanctions against Libya. Yet when asked to apply sanctions against South Africa, the U.S. government says that sanctions don't work.

The United States calls the FMLN, which opposes the Salvadoran government, a terrorist organization. But it says that Jonas Savimbi's UNITA and Nicaragua's contras are "freedom fighters."

It opposes a dictator in Cuba, but embraces one in Chile.

This contradictory American strategy has been hard to defend or alter — but now someone is suggesting a way to change it.

Ted Galen Carpenter, foreign-policy analyst for the conservative-libertarian Cato Institute, believes that U.S. policy contradictions are wrong. Instead, he believes, the United States should become "benignly detached" in its view of Third World dictatorships and revolutionary movements.

Carpenter received his doctorate from the University of Texas, where he worked on the college's Ideas and Action Project, analyzing U.S. foreign-policy decisions since World War II.

Especially in the Reagan administration, says Carpenter, foreign policy is dominated by "old Cold War assumptions that U.S. interests are engaged, either directly or indirectly, anywhere and at any time, that any country or revolutionary movement is friendly to or is aided by the Soviets."

This has led the United States to support forces that oppose communist-friendly regimes, or to support regimes threatened by communist-backed revolutionaries. As a result, the United States has supported many totalitarian states that have abysmal human-rights records.

"It is debilitating for a society that

## Rams Dominate District Field

**By Chuck Burgess  
Special to the Herald**  
LONGWOOD — The Lake Mary Rams showed the wrestling world this weekend that they are definitely for real as they won the District 4A-4 Wrestling Championships at Lyman High School.

The Rams put nine wrestlers in the finals and won seven of 13 weight classes to claim a 211½-149 victory over the runner-up Lyman Greyhounds who had three individual champions of their own.

The rest of the field followed with Lake Brantley (106), Seminole (80), DeLand (60), Lake Howell (56½), Spruce Creek (43½) and Mainland (42). The top four finishers in each weight class advanced to the Region 2 Wrestling Championships at Jacksonville Forrest High School this Friday and Saturday.

"I don't think we could have wrestled any better than we did," Ram coach Doug Peters said. "My guys really wanted to win the title badly. It shows how hard we have been working and it was a test to see if we were for real or not."

The Rams opened the night with the 102 match between Dan Roth of Lake Brantley and freshman Jeff Johnson of the Rams. Roth struck first with a two-point takedown, but Johnson countered with a reversal to tie things up.

The second period had no

### Wrestling

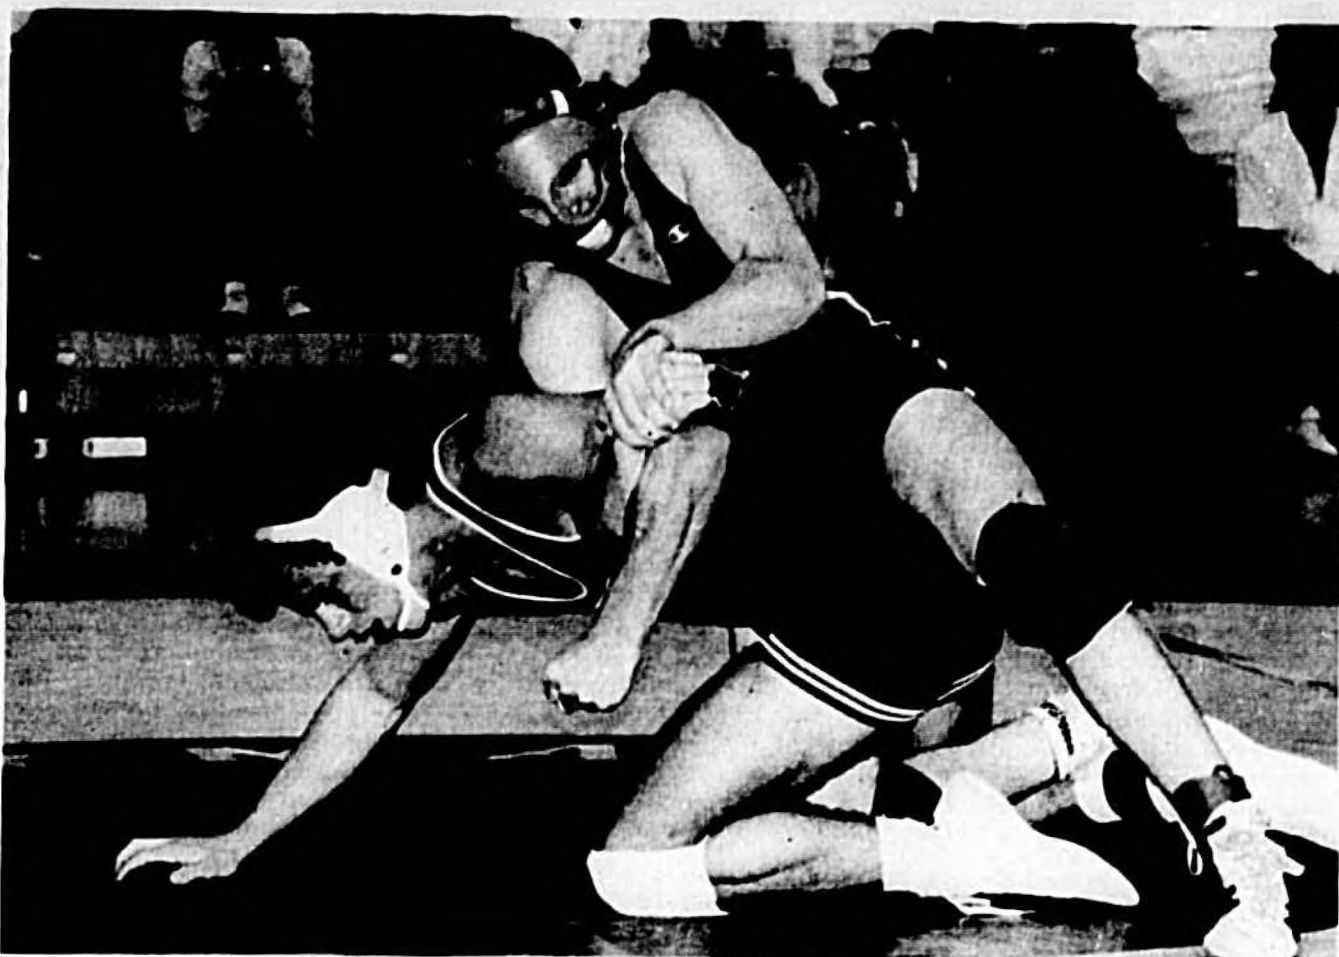

scoring as both athletes couldn't get any leverage to score points. However, Johnson got two back points when he took Roth down on his back. Roth reversed the move with 1:17 to go in the match, but Johnson got a reverse with :17 seconds left to claim a 6-4 victory.

"It really is something for a freshman to be the conference and district champion in the same year," Peters said. "Jeff was really psyched up for the match. Usually he's not very emotional, but he was really hot and wrestled on one of the best matches of his life."

Johnson's older brother, Craig, followed the family lines with a 11-0 victory over Seminole's Sheraton Mays 109. Mays couldn't seem to find the handle on Johnson, according to Seminole coach Glenn Malolini.

"He (Johnson) used a reverse bar on Sheraton (Mays)," Malolini said. "Usually the bar comes from the left side, but Johnson used it on the right. Mays didn't adjust well and ended up losing. We're going to work on some counter moves for the regional match next week."

At 116, the Greyhounds undefeated Chad Dubin knocked heads with Lake Howell's Roger Hutchins. Dubin scored first with a two-point takedown and held the lead the entire match.

Spruce Creek's Jon Shoenwetter has the upper hand on Lake Brantley's Troy Lewis. Lewis though went on to escape Shoenwetter's grip and later pinned him for the 189-pound championship at the District 4A-4 journey at Lyman High.

## 'Hounds Outlast Brantley

**By Chris Fister  
Herald Sports Writer**  
Lyman's Greyhounds didn't exactly conduct a clinic on how to hold a lead Saturday night, but they didn't self destruct either.

The 'Hounds built a 3-0 lead early in the second half only to see Lake Brantley's Patriots fight back to 3-2 with 13 minutes remaining. But, behind impressive play in the goal by Kelly Walden, and strong defense from Shaller Bowers and Chris Walden, Lyman was able to hold off the surging Patriots to claim a 3-2 victory in the 4A-9 District finals at Lyman High.

"We held on and withstood the fire," Lyman coach Ray Sandidge said. "We shouldn't have really let them back in the game, but the guys did a good job holding them off in the last 13 minutes."

Saturday's victory advances the Greyhounds, 18-1-6, to the 4A-5 Region playoff Tuesday night against Winter Park at Ward Park. Winter Park advanced with a 2-0 blanking of Orlando Evans in the 4A-10 District finals.

Lyman got on the board early Saturday night as Paul Bontempo made a heads up play on a ball that deflected off the crossbar. Gerard Mitchell took the shot that hit off the bar and Bontempo headed it in for a 1-0 lead four minutes into the game.

The Greyhounds came back to make it 2-0 with 20 minutes left in the first half on an unassisted goal by Aki Toda.

"He (Toda) dribbled across the field and released a tremendous shot from 25 yards out," Sandidge said. "The shot went over the keeper's head and just underneath the crossbar."

Lyman's 2-0 lead stood up at halftime and the Greyhounds would go on to build a 3-0 lead five minutes into the second half. Brian Ocacak served a corner kick close to the goal and Pat Howard leaped up and headed it in. "He (Howard) outjumped everyone by at least a foot and put it past the keeper," Sandidge said of the third goal.

Although Howard's goal gave Lyman a comfortable lead, Sandidge said he was still pacing the sidelines.

"Lake Brantley has always put pressure on us," Sandidge said. "They have a kid who, on throw ins, throws the ball 50-60 yards. It's better than a corner kick because he throws it right into the goalmouth every single time."

Lake Brantley started its comeback with 20 minutes left to play when Cory Sheffield launched a shot off a free kick that Walden had to jump for to save it. Walden caught the ball but it was ruled he was over the goal line and the Patriots were on the board.

"The linesman said the ball crossed the goal but I don't think it did," Sandidge said. "It looked like a good save to me."

Brantley cut the Lyman lead to 3-2 with 13 minutes left on an own goal. The score came when a Lyman player tried to clear a ball with a header but it hit off the post and bounced in.

The Patriots kept the heat on in the last 13 minutes but Lyman's defense rose to the occasion and extinguished the flame.

"They (Brantley) kept putting

## Raiders Bounce Valencia, 112-82

**By Chris Fister  
Herald Sports Writer**  
Vance Hall led six players in double figures with 20 points Saturday night as Seminole Community College's Raiders concluded the regular season with a 112-82 rout of Valencia Community College's Matadors at Orlando.

The Raiders, who finished up at 24-6 overall and 11-3 in the league, return to action Wednesday in the Mid-Florida Conference Tournament which is being held at the SCC Health Center. SCC, which finished second in the conference, drew a first-round tournament bye and will take on the winner of tonight's Central Florida at Santa Fe game.

In tonight's other games, Valencia is at Lake City and St. Johns journeys to Daytona Beach. The winners of those games will play Wednesday night at 7:30 at SCC followed by SCC vs. the Santa Fe-CFCC winner at 9.

The winner of the conference tournament gets a bid to next week's

### Basketball

State Junior College Tournament at Stetson University in DeLand. Florida Junior College got an automatic berth by winning the Mid-Florida Conference.

Joining Hall, who also grabbed 11 rebounds, in double figures Saturday were Jeff Day with 17 points, James Morris with 167, surging Carl Poelnitz with 15, Darris Gallagher with 11 and Mike Landell with 10. Lake Howell graduate Efreem Brooks added nine points.

The Raiders, playing without injured guard Tony Roberts, may have lost another starter to injury when Greg "Slim" Johnson went down early in the second half.

SCC assistant Dean Smith said Johnson injured a knee and his present status is questionable.

The Raiders forged an early lead Saturday and never looked back. SCC led by 16, 48-32, at halftime and went on to outscore the Matadors, 64-50, in the

Morris Hall

second half.

SCC shot 50.5 percent from the floor (48 of 95) compared to 43 percent (33 of 76) for VCC. Poelnitz led the way as he hit 7 of 10 from the floor while Landell hit 4 of 7, Gallagher 5 of 9 and Brooks 4 of 8.

Tim Garcia was high for Valencia with 20 points, John Cleveland tossed in 17 and Donny Webb hit 14. The Matadors concluded the regular season with a 5-26 record overall and 0-14 in the conference.

SCC (112) — Dr. Gallagher 59 13 11, Brooks 48 12 9, Dv. Gallagher 02 00 0, Landell 47 22 10, Reilly 25 00 4, Morris 6 14 4 7 16, Hackworth 11 00 3, Jackson 23 00 4, Johnson 23 00 4, Hall 7 12 6 20, Day 8 16 11 17, Poelnitz 7 10 13 15. Totals: 48 95 (50%) 16 26 (61%) 112.

VCC (82) — Garcia 7 18 6 20, Rickman 11 00 2, Carmichael 14 12 3, Richmond 5 11 00 10, Webb 6 10 22 14, Cleveland 5 16 7 8 17, Davis 6 11 02 12, Carter 23 02 24. Totals: 33 76 (43%) 16 22 (72%) 82.

Halftime — SCC 48, VCC 32. Fouls — SCC 20, VCC 20. Fouled out — Carmichael, Technical — Cleveland.

## Lions Shock Lyman, 63-60

**By Chuck Burgess  
Special to the Herald**  
Who would have thought the previously winless Oviedo Lions would be the team to decide the Seminole Athletic Conference basketball champions.

No, the Lions didn't win the SAC, but they did knock off the Lyman Greyhounds, 63-60, Saturday night at Oviedo and clinch the title for the Seminole High Seminoles.

The loss to the Lions dumped the Greyhounds into the second place position in the SAC for good behind Seminole. The Greyhounds remain at 18-5 in the year and 6-3 in the conference. Unfortunately for the Lions, they dwell in the SAC basement at 1-7 and are 9-18 in the year. Both teams go on the road this week as the Greyhounds travel to Lake Mary to face the Rams and the Lions venture to Lake Brantley to battle the Patriots.

The Lions' leading scorer, Allen Unroe single-handedly destroyed the Greyhounds with his game high 28 points and Robb Hughes added another eight as the Lions tipped in their first win of the season in the SAC.

"I don't know why it took us so long to win in the SAC," Lion coach Dale "Digger" Phillips said. "But it sure feels good to win one like this against a team like Lyman. They've got a good program and it gives us a lot of confidence going into the district tournament next week."

The Greyhounds' T.J. Scaletta needed 22 from the outside to lead the Greyhounds in the scoring department, but the 'Hounds' powerful center, Ralph

### Basketball

Philpott was totally shut down in the game and could only hit seven points.

"We totally put a lid on Philpott," Phillips said. "That was the key in the game as far as I can see it. We just kept it away from him (Philpott) and cut Lyman's inside game to nothing."

The Lions went into the fourth period with a slight 50-48 lead over the Hounds and led the entire period up until 2:44 left in the game when Scaletta tied things up at 58 apiece.

However, with only 1:03 left in the game, Jordie Wheeler hit a jump shot to put the Lions up by two with only 55 seconds remaining. Then with 44 seconds left, Hughes sank both ends of a one and one to extend the Lion lead to four.

"Robb (Hughes) made a lot of crucial free throws down the stretch," Phillips said. "It was a big team effort for us and it was probably the best we've played all year long."

With only 16 seconds remaining and the 'Hounds still not getting the ball into the cylinder, Unroe hit the last of his game high total to ice things for the Lions.

"Unroe played a heck of a game," Phillips said. "He was really hot from the line and scored most of his points from there."

Unroe, who also had a game high 17 rebounds, went 14-18

## Creek Sinks Seminoles, 9-3

**By Chris Fister  
Herald Sports Writer**  
Pitching rotation is taking on a new meaning at Seminole High.

Coach Mike Ferrell doesn't have two or three reliable starters who he can count on when it's their turn to take to the hill. Ferrell has one experienced starter, senior Brian Sheffield, and then the rest of the team is rotating in an out to see who can pitch.

Saturday night, Seminole went through three more pitch-

### Baseball

ers in a 9-3 loss to Spruce Creek. All three looked good at times, but their inexperience showed.

"All three who pitched Saturday are sophomores with very little if any experience," Ferrell said. "We have to come up with guys who can do the job on the mound and the only way to do that is to let them out there and see what they can do."

Spruce Creek got to starter Jeff Blinn for three runs in the first inning and one more in the third. Ron Blake came on in the fourth but the Creek tacked on four more runs for an 8-1 lead. Ron Blake gave way to David Houghton who gave up one run in the fifth for a 9-1 Spruce Creek lead. The 'Noles scored twice in the top of the seventh to make the final 9-3.

Seminole outlived the Creek, 9-6, but left nine runners on

See 'NOLES, Page 6A

## Bodine Reaches Pinnacle

**DAYTONA BEACH (UPI)** — Geoff Bodine has come a long way since racing at age five in a go-cart built by his father.

He's seen plenty of the down side of racing as he struggled to make a living as a driver and in the process was forced to spend most of three years away from his family. Sunday, he reached the pinnacle of the NASCAR circuit with his first Daytona 500 triumph, by an 11.26-second margin over Terry Labonte.

Bodine, who cried in victory lane after the race, said winning the Daytona 500 was the high point of his racing life. Bodine was a non-winner in 1985, but finished fifth in the Winston Cup standings. He won three races in 1984 after winning rookie-of-the-year honors in 1982.

"We (Bodine and his wife, Kathy) thought Martinsville (where he won the Sovran Bank 500 in 1984 for his first

### Auto Racing

NASCAR win) was going to be the high point of our lives in racing," Bodine said. "That was the first win we had. It's still at the top of my mind, but this one today brought all the emotions. The emotion today is really something else."

Bodine, 37, of Chemung, N.Y., and Dale Earnhardt were running 1-2 for 23 laps and were poised for a duel on the last lap until Earnhardt had to pit for gas on the 197th lap of the 200-lap race. Earnhardt, who had won the Busch Clash, one of the Twin Qualifiers, and the Goody's 300 for late model sports cars last week at Daytona, finished 13th after his engine blew as he tried to leave the pit.

Bodine, driving a Chevrolet, earned \$192,715 in the 28th

500, and Labonte, in an Oldsmobile, earned \$103,240. Defending Winston Cup points' champion Darrell Waltrip finished third in a Chevrolet, Bobby Hillin Jr. was fourth in a Chevrolet, and Benny Parsons finished fifth in an Oldsmobile.

Bodine recalled a three-year period from 1979 through 1981 when he was forced to live away from his family while he raced modified cars across the country.

"I had to work," he said in explaining the time spent in New Hampshire, Virginia, and other parts of the country while his wife and two sons were living in North Carolina. "I had to pay the bills. That was a tough time. That's what we were doing after the race."

"We were recapping the hard times we've gone through."

See BODINE, Page 6A

Dale Earnhardt's hopes of victory fizzled on lap 197.

# Seminoles Show Early Strength At Wildcat Open

By Chris Flister  
Herald Sports Writer

There are a couple of ways you could look at Seminole High's runaway victory in Saturday's Wildcat Open at Winter Park's Showalter Field. Either the competition wasn't as strong as usual, or the Fighting Seminoles are in such good early-season shape that they are so far ahead of the rest.

Seminole, the defending 4A state champion, compiled a score of 75 to win the meet, the first of the 1986 season, going away as Vero Beach was a distant second at 35.

"It was a good meet for an opening competition," Seminole coach Ken Brauman said. "Everyone competed well for us, especially those who didn't place in an event. Our young athletes were encouraged by their performances."

The Seminoles return to action Tuesday at 4 p.m. in a triangular meet with Lyman and Lake Brantley at Lake Brantley High.

The Tribe came away with six first-place finishes Saturday led by Alvin Jones' double in the long jump-triple jump. Jones leaped to a 21-5 to win the long jump and soared to 46-3 in taking the triple, which he won at state last year.

Louis Brown turned in a strong performance in the sprints as he took first in the 330 yard dash (35.3), second in the 100-meter dash (10.6) and fourth in the 220 (22.8). Eric Martin also did well in the sprints with a first in the open quarter (50.0) and fifth in the 220 (23.0).

Distance standout Billy Penick, the defending state mile champion, opened the '86 season by winning the mile Saturday with a time of 4:24, nearly 10 seconds ahead of the second place finisher, Edgewater's Larry Rau. Penick also took second in the two mile at 9:59.8.

Andre Jackson sailed to a first place finish in the 330 hurdles as he recorded a time of 41.4

## Track

compared to 42.4 for Lake Brantley's Sam Sears.

Sonny Osborn boosted the Tribe's strength in the field events with a third place in the pole vault (12-0) and a sixth in the javelin (126-0). Roosevelt Buckner and Dwight Brinson added to Seminole's dominance in the triple jump as Buckner was second at 41-8 and Brinson fourth at 40-4.

Also placing for the Seminoles were Pat Davis in the 100 meters (fourth at 10.7), Alan Seward in the 880 run (sixth at 2:06) and Dwyn Willis in the 330 dash.

Lake Mary's Rams took 12th place in the meet with a team score of 15. Fourteen of those points were scored by distance runners Ken Rohr and Eric Petersen.

Petersen, a sophomore, established a new Lake Mary sophomore record in the mile as

he took fourth with a time of 4:38.7. Petersen also placed fifth in the two mile and tied his personal best at 10:09.

"Eric's looking really strong for early in the season," Lake Mary coach Mark McGee said. "He ran his best mile and came back and tied his best two mile. He showed he has the ability to be able to get out there and double."

Rohr, who missed out on a lot of training prior to the season due to tonsillitis, took first place in the 1,320 run (three-quarters of a mile) at 3:24.7 and fifth in the mile at 10:09.

Also placing for the Rams was Cecil King who took sixth in the triple jump at 39.9.

Although he didn't place in an event, junior Jeff Pommier broke a pair of school records in Saturday's meet. Pommier ran an 11.1 in the 100 meters and 23.1 in the 220 yard dash.

Lake Mary returns to action Tuesday in a dual meet with Apopka at Lake Mary High (4

## LADY SEMINOLES 2ND

Seminole High's Lady Seminoles turned in a strong performance Saturday but defending state champion Oak Ridge showed it is the team to beat again this season as it came out on top with a team score of 78 compared to 62½ for Seminole in the Lake Howell Open at Lake Howell High.

Oak Ridge took first place in nine of the 16 events including three firsts by Michelle Spear and two each by Michelle Lee and Lisa Ingram. Lee set meet records in the shot put (39-4) and discus (115-3) while Spear set a record in the long jump (17-5).

Seminole was led by the sophomore duo of Shownda Martin and Dorchelle Webster. Martin placed in four events as she won the 880 run with a meet record 2:19.6, took second in the mile (5:27.8), second in the long jump (16-8½) and tied for sixth in the high jump (4-4). Webster placed

in three events including a first in the 440 dash (61.2), fourth in the high jump (4-8) and sixth in the 660 run (1:53.6). Webster and Martin also ran legs on the mile relay team which set a meet record with a time of 4:11.7.

Oneyke Berry had an outstanding meet for Lake Mary's Lady Rams as she placed third in the 110 high hurdles (16.9), third in the 330 low hurdles (50.1) and fourth in the long jump (16-2½). Jodie McCurdy claimed a pair of fifth places with an 18.2 in the 110 hurdles and 51.4 in the 330 hurdles.

Lisa Samocki led the way for Lake Howell's Lady Silver Hawks with a first place in the mile (5:14.8) and a second in the 880 (2:25). Martha Fonseca placed third in both the mile (5:28) and two mile (12:17.4).

Cathy Wild led the way for Lake Brantley's Lady Patriots with a first place finish in the 330 hurdles (48.4) and a fourth in the 110 hurdles at 17.4.

# Alford's 32 Propel Hoosiers

United Press International  
Steve Alford has gone from a very good foul-line shooter to an excellent one.

Alford, the leader of 16th-ranked Indiana, Sunday scored 19 of his 32 points in the second half of the Hoosiers' 84-75 victory over Ohio State.

"The thing I liked was the free throws," said Alford, one of the nation's outstanding free throw shooters, but "slumping" to 78 percent in Big Ten competition this season. "I've been in a slump. But I hit 14 of 15 today and I think that was a big key for us. I had the ball a lot late in the game and when I got fouled, I was able to get the free throws down."

Alford hit 7-of-8 from the line in the final 90 seconds.

The victory was the 17th in 22 games overall for the Hoosiers, 9-3 in the Big Ten and half a game behind league-leading Michigan.

In other games Sunday, Johnny Dawkins helped Duke win its second game in 20 hours.

The Blue Devils guard, Saturday hit two free throws with two seconds left in Duke's 72-70 triumph over No. 18 North

## Basketball

Carolina State. And Sunday, 6-foot-2 Dawkins blocked David Rivers' shot with two seconds left to preserve Duke's 75-74 victory over No. 14 Notre Dame.

"Dawkins played 37 minutes against us," Notre Dame coach Digger Phelps said. "After what he did last night, he just showed what he's capable of doing."

Dawkins, who scored 24 points against N.C. State, added 18 against the Irish to cap an outstanding weekend.

"He just does such a great job," Duke coach Mike Krzyzewski said. "His last play today was just great defense."

At Seattle, Paul Fortier overcame a tough Oregon defense in the last 4½ minutes, scoring 6 key points to spark Washington to a 73-67 victory over the Ducks. With the triumph, the Huskies moved back into sole possession of the Pac-10 Conference lead. Washington, 16-9 overall and 10-3 in league play, lead Arizona by a half-game.

Portland's Mychal Thompson takes off to the hoop.

# Beefed Up Bench Carries Celtics

INGLEWOOD, Cal. (UPI) — The Boston Celtics have taken their first steps toward redemption.

Last year, the Celtics lost the NBA championship to Los Angeles — a setback magnified when the Lakers clinched the title in Boston Garden.

Sunday, Boston exacted a measure of revenge by sweeping the two-game, regular-season series against the Lakers with a 105-99 triumph at Inglewood, Calif.

An NBA regular-season game usually generates less excitement than a pick-up contest at the local park, but Sunday's encounter between the two best teams in basketball was a spectacle.

Tempers flared throughout as players battled for every rebound, every loose ball and every free inch on the Forum court.

Clearly this was no ordinary game.

"It's an important loss because they are the team we are measured against," said Lakers center Kareem Abdul-Jabbar, who scored 23 points. "I guess for them it's a big win. Psychologically they have to be

## Basketball

happy." Boston has made returning the championship to New England its goal for 1986. The Celtics beefed up their bench this year, acquiring reserve center Bill Walton and Jerry Sichting from Indiana.

Sichting had 11 points Sunday, reserve Rick Carlisle had 6 of his 10 points in the final quarter and Walton added 10 points and 7 rebounds.

"They're deeper than they were last year," said Abdul-Jabbar. "Walton can come off the bench and play with any center in the league. They now have more guys that can play 48 minutes."

**Hawks 110, Blazers 101**  
At Portland, Ore., Cliff Levingston, starting in place of injured Dominique Wilkins, scored 21 of his 25 points in the second half to guide Atlanta Portland dropped its sixth in a row and eighth game in its last nine. Kiki Vandeweghe had 21 points for Portland.

## ...Bodine

Continued from 5A

Bodine said, "All the financial trouble we used to have."

Sunday's race was marred by eight caution flags, which were out for a total of 46 laps. The high number of laps run under the yellow flag caused Bodine's average speed to be only 148.121 mph, the slowest time since Richard Petty's 143.977 mph in 1979.

The second-longest caution period of the day, eight laps, occurred following a seven-car collision on turn four that involved some of the biggest names on the NASCAR circuit. Bill Elliott, Cale Yarborough, Kyle Petty, Neil Bonnett, Joe Ruttman, Harry Gant, and Phil Parsons were involved in the wreck, which occurred after Bonnett's Chevrolet slammed into the wall on lap 117.

Yarborough, Bonnett, Ruttman, and Gant were forced to leave the race following the wreck, in which no one was injured. Defending champion Elliott continued, but his chassis was badly damaged and he never challenged before finishing 13th.

Richard Petty, winner of 200 NASCAR races and seven Daytona 500s, left the race after he slammed into the wall in turn No. 2 on lap 64.

Earnhardt and Bodine had pulled away from the field and had the best cars Sunday.

"It was disappointing," he said. "We had them today. I think we had as good a chance as Geoff. I thought we could stretch the gas, but we didn't. When we restarted the motor, they sprayed ether in and it detonated and busted the motor."

Bodine didn't have much gas left either, with only 0.9 gallons remaining after the race and a cool-down lap.

## ...Lions

Continued from 5A

from the free throw line. Unroe hit 21 of 21 points for the Lions in the first half en route to a 36-23 halftime lead.

Scaletta was the only scoring force for the hapless Greyhounds as he hit the last eight points of the night for the 'Hounds in the final period. However, Scaletta's points were a little too late for the faltering Greyhounds.

**LYMAN (60)** — Thomas 10, Scaletta 22, Florence 6, Marshall 11, Radzak 2, Philpott 7, Newton 2. Totals 24 12 22 60.  
**OVIDO (63)** — Campbell 4, Stewart 9, Wheeler 4, Bolton 6, Hughes 8, Unroe 28, Kendall 4. Totals 20 23 24 63.  
Halftime — Ovido 36, Lyman 23. Fouls — Ovido 19, Lyman 16. Fouled out — Philpott. Technical — Scaletta.

**PATRIOTS STING HORNETS**  
Brent Bell tipped in a last second shot as the Lake Brantley Patriots slipped by the Bishop Moore Hornets, 64-62, in boys prep basketball action this past weekend at Lake Brantley.

The win improved the Patriots

to 10-12 on the year and they host the Ovido Lions Tuesday before matching up with the Lake Howell Silver Hawks this Friday in their last regular game of the season.

"We needed that win really bad," Patriot mentor Steve Jucker said after the emotional win over the Hornets.

With six seconds remaining in the game and the score tied at 62 apiece, Mark Moser let fly with a shot that hit the rim and bounced off. However, the Patriots Wade Wittig got the rebound and missed, too before Bell tipped in the ball just as the buzzer sounded ending the heated struggle.

**BISHOP MOORE (62)** — Tessitore 9, Conroy 8, McCormick 9, McDaniel 2, Brockman 2, Burgett 5, Brockman 0, Grim 7, Donerly 14. Totals 24 14 22 62.

**LAKE BRANTLEY (64)** — Hardwick 2, Palmer 6, Moser 9, Shirley 0, Bell 19, Wittig 16. Totals 22 20 25 64.  
Halftime — Bishop Moore 20, Lake Brantley 33. Fouls — Bishop Moore 20, Lake Brantley 18. Fouled out — none. Technicals — Leva, Brockman (ejected for fighting).

## ...'Noles

Continued from 5A

base. Seminole also committed four errors and the pitchers combined for eight walks.

"We got the hits but no when people were one base," Ferrell said.

Ron Blake led the way for Seminole as he went 4 for 3 with a double and drove in two runs. Greg Pond added a pair of singles.

"Overall I think we accomplished as coaches what we wanted," Ferrell said. "That was to see what the kids could do in game situations."

Seminole opens play in the Seminole Athletic Conference Friday at 4 at Ovido, Sheffield, 2-0 in the Evans Hot Stove Tournament, will most likely be the starting pitcher.

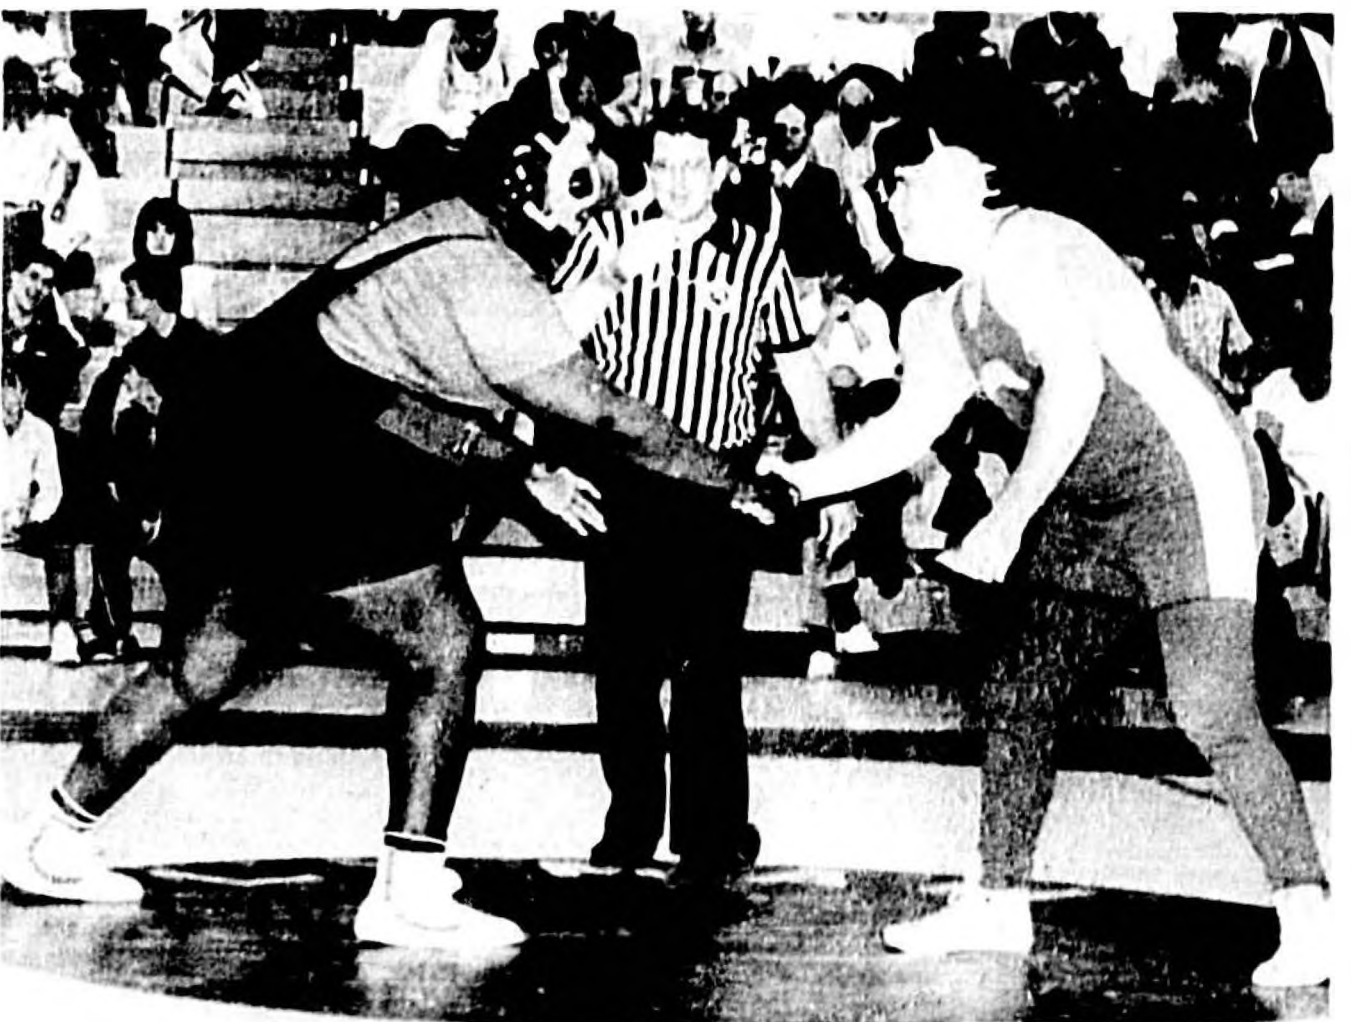

**RAMS TRIM WINTER PARK**  
Mike Schmit tossed a six-hitter

and Lake Mary's Rams broke a 1-1 tie with two runs in the top of the fifth en route to a 3-1 victory over Winter Park's Wildcats Saturday in a battle between two tournament winners at Apopka High.

Lake Mary, winner of the Apopka Rotary Tournament, now stands at 5-0 while Winter Park, the Evans Hot Stove Tournament champ, is now 4-1. The Rams return to play Tuesday in the Lyman Pre-Season Tournament. Lake Mary takes on Boone at 4 at Lyman High.

**ORANGE PARK DOWNS PATS**  
Orange Park erupted for four runs in the second inning Saturday and never looked back en route to a 7-3 victory over Lake Brantley's Patriots at Jacksonville.

Lake Brantley, 0-2, had eight hits in the game but didn't get on the board until the top of the fifth. Dan Beatty led the Patriots with two hits and two RBIs while Andy Dunn was 2 for 4.

Lake Mary's 400-pound Troy Jackson meets Mainland's 280-pound Jeff Wiggins.

## ...Rams

Continued from 5A

"Once those four guys won, it sparked the rest of the team on and we started to really kick in the gears," Peters said. "Tonight was our night and the spotlight was on us. I just hope the spotlight shows on us the next two weeks."

At 149, Victor Navarro, who earlier in the day upset Seminoles Tracy Turner, took on the Rams Scott Ross. Ross totally dominated Navarro and wiped up the mat with a 7-0 skunk of the Greyhound.

After a somewhat decision-filled tournament, Seminoles' Troy Turner showed the state that he hasn't forgotten how to pin. Turner went right to DeLand's Derrick Edward and jumped out to an early 9-0 first period lead.

After an escape only 15 seconds into the second period, Edward tried to take it to Turner, but the much more experienced and refined Turner ended up with a pin at 2:49.

"He (Turner) really likes to mix it up," Matoloni said. "When that guy (Edward) went after Troy, he loved it. Troy

really impressed me. It's more than a pleasure to watch him wrestle. He always comes through for Seminole."

Turner extended his record to 22-0 for the year and is the heavy favorite to win the state title in the 159 weight division.

At 189, the Pats' Troy Lewis took little time in pinning the Creek's Jon Shoemaker. Lewis gave the Patriots their second titleist with the 3:08 pin.

At 224 pounds, the Greyhounds Pat Perkins remained undefeated with a Patriot pin as he disposed of the Pats' Jeff Petersen in 1:35. Petersen was leading the match until he tried a cradle on Perkins which the Greyhound countered and turned into a pin.

In the heavyweight category, the Greyhounds undefeated Jimbo Smith pinned the Rams Au-Bronce Martin in a quick 1:15. Neither Martin nor Smith put any points on the scoreboard before the pin.

The match of the night stepped on the mat to end this year's district finals. The always feared 400-pound Troy Jackson of Lake Mary against Mainland's 260-pound Shannon Wiggins took center stage.

Jackson and Wiggins battled for control until they both

landed out of bounds. Unlike most super heavyweights who take their time getting to the mat, Jackson ran top speed to the center, delighting the crowd while preparing to grapple once again.

Once Jackson got onto the mat, he wasted no time in tossing Wiggins to the mat for a 36 second pin. The pin ended the Ram barrage and secured the title.

## ...Pats

Continued from 5A

the pressure on us the last 13 minutes," Sandidge said. "They were pushing defenders forward and serving ball after ball after ball in there. Kelly (Walden) made some real big air ball catches under pressure."

After getting out of the Seminole County battle royal of District 4A-9, Lyman will look forward to facing someone other than Brantley, Lake Mary and Lake Howell.

"The four Seminole County teams are so close it was a matter of who was playing best last week," Sandidge said. "Fortunately, it was us."

# SPORTS

## IN BRIEF

### Lady Rams Can Win SAC With Win Over Lake Howell

Lake Mary's Lady Rams needed a two-game medley with a big victory over Lake Brantley's Lady Patriots this past Friday and the Lady Rams can start flying high again tonight. A victory over Lake Howell would give Lake Mary the Seminole Athletic Conference title and would also clinch the top seed in the upcoming district tournament.

Tonight's season finale will be played at Lake Mary High. Lake Mary stands at 16-6 overall and 2-2 in the SAC.

Teri Whyte

Leading the way for Lake Mary are junior guard Tonya Lawson who scored 21 points against Brantley, junior forward Cynthia Patterson who is one of the top free throw shooters in the clutch and sophomore center Teri Whyte, who had 12 points and seven blocks against Brantley. Bounding out the starting lineup are senior guards Anquetette Whack and Karen DeShetler.

Lake Howell can play the spotters role tonight as an upset victory would put Lake Mary into a tie for the SAC title with Seminole. Lake Howell, 14-8 overall and 2-7 in the league, is also looking to snap a five-game conference losing streak.

Leading the Lady Hawks are junior guard Erin Hankins, sophomore guard Tammy Lewis and senior forwards Jolene and Kellee Johnson.

In other action tonight, Lake Brantley concludes the regular season in an SAC game at Oviedo High. The Lady Patriots stand at 12-8 overall and 1-8 in the SAC while Oviedo is 7-16 overall and 1-8 in the league.

### Evert Lloyd, Lendl Advance

BOCA RATON, Fla. (UPI) - Chris Evert Lloyd and Ivan Lendl have followed similar paths in traversing the first week of the \$1.8 million Lipton International Players Championships.

While neither of the two top seeds has been impressive, both have accomplished the only thing that matters - winning.

"I didn't play particularly well this week, but I didn't lose a set and I'm still in the tournament," said Evert Lloyd, who Sunday struggled past hard-serving veteran Kathy Jordan, 7-5, 6-2.

The triumph puts Evert Lloyd, ranked No. 2 in the world, in the quarterfinals.

Lendl, meanwhile, overcame a stern challenge from Greg Holmes Sunday, fighting back from deficits in both sets to record a 6-4, 7-6 (7-2) victory that earns him a spot in the round of 16.

Lendl, who has been bothered throughout the tournament by an injured ring finger on his right hand, has not been pleased with his performances - a three-set tie-breaker victory over John Sadri and a straight-set triumph over Christo Van Rensburg.

"I'm not happy with the way I played, and he hit the ball very well," said the Czech of his victory over Holmes, who was ranked 34th in the world. "I missed many balls and I didn't get a clean sound when I did hit it."

### Bubka Lashes Out At Olson

ROSEMONT, Ill. (UPI) - Soviet pole vaulter Sergel Bubka, two days after losing to Billy Olson of the United States, declared his top international competitor unworthy as an opponent.

Olson, the world indoor record holder, was supposed to compete against Bubka Sunday at the Bally Invitational in suburban Chicago, but decided not to compete.

Tom Jennings, coach of the Pacific Coast Track Club which Olson represents, said Olson was too tired after winning at the Millrose Games in New York Friday night.

Bubka, who also competed Friday, thought Olson's reason made for a bad excuse.

"I think Billy Olson, as a sportsman, leaves much to be desired," Bubka said after winning the pole vault by crossing the bar at 19-0 3/4. "My physical shape is much better than his. He will have to improve to be a worthy opponent of mine."

Bubka missed three attempts at 19-5 3/4, which would have set a world indoor record, topping Olson's mark of 19-5 1/2.

### Tyson KO's Foe, Weaver Wins

TROY, N.Y. (UPI) - Mike Tyson's only complaint about his 18th straight knockout is that Jesse Ferguson was still standing at the end.

Tyson, boxing's 19-year-old rising star, kept his perfect knockout string alive Sunday when he stopped Ferguson at 1:19 of the sixth round. At the end, Ferguson was holding onto Tyson and he refused to let go.

"I wanted to catch him and finish him," Tyson said. "I wanted to catch the guy and put him out with a punch cold, so I would have no complaints."

Mike Weaver had no complaints after winning the companion heavyweight bout. Weaver kept his career alive with a dramatic second-round TKO of Carl "The Truth" Williams. Both scheduled 10-round bouts were televised nationally.

### Lyman-Buchholz Playoff Tonight

Lyman High's Lady Greyhounds resume their quest for a second straight state soccer title tonight at 5:30 as they host the Section I playoff against Gainesville Buchholz.

The game was originally scheduled for this past Friday but was called off because the officials did not show up. The winner of tonight's game advances to the state playoffs which begin Friday.

Tonight's winner will take on South Plantation which advanced to the final four with a 2-1 victory over Coral Gables. In the other semifinal game on Friday, Coconut Creek, the last team to beat Lyman, goes up against Largo. Lyman goes into tonight's game with a 21-0 record this season and a winning streak of 45.

### Barnett Blazes In College Debut

Frank Barnett may have been running in his first college meet this past weekend but, like William "Refrigerator" Perry, he showed he's one tough cookie for a rookie.

Barnett, a 1985 Seminole High graduate, blazed to a time of 13.84 over the 110 meter high hurdles to take first place at the Tuscon Open. Barnett's time, fully automatic, would convert to around a 13.6 hand timed which is not too shabby to say the least.

It was the first meet of Barnett's collegiate career at the University of Arizona which does not compete in indoor meets.

### Boosting Enthusiasm

Sammie Seminole, Seminole High's spirited mascot, has been an excellent addition to athletic events this year. The Seminole High School Booster Club would like Sammie's enthusiasm to be catching. The boosters meet tonight at 7:30 in Bill Fleming Memorial Gymnasium to hear a preview from the spring coaches. Surrounding Sammie, from left, are booster club president Bruce McKibbin, secretary Gayle Tipton and vice-president Henry Bowlin.

## Pavin Claims Hawaiian

HONOLULU (UPI) - At the rate he's going, Corey Pavin is going to be a golfing millionaire at a very tender age.

The 26-year-old UCLA product ran his PGA Tour career earnings to \$731,950 Sunday by shooting a 16-under-par 272 to win the \$500,000 Hawaiian Open by two strokes over Paul Azinger.

To win over a windy 6,975-yard Waialae Country Club Course, Pavin went on a five-birdie run on the front nine and then checked in with an eagle 3 on the par 5, 508-yard 13th before faltering for the first time with a bogey on the 17th.

By that time, he had a two stroke lead over Azinger, but still had to sink a tricky 6-foot putt on the final hole to preserve the victory, his third on the Tour in as many years.

"I'm very pleased with the way I played," Pavin said after his closing 6-under 66. "It probably was the best round I've ever played under the conditions."

"I think it was the way I acted on the course that helped me win. I tried to keep it real smooth. I can't think of a shot I tried to force. It was the most solid round of golf I've played in a long time."

Pavin started the final day in a four-way tie for third place, three strokes behind third-round leader Tom Watson and two behind Azinger.

But by the sixth hole, Pavin had three birdies to move into the lead for good and put further distance between his challengers by holing birdies at the eighth and ninth.

Azinger almost fell off the leader board when he registered three bogeys through eight holes before recouping with an eagle at the ninth. But he birdied three holes on the back nine to move ahead of Watson, whose closing 73 put him in a tie for fourth with Masters champion Bernhard Langer, who had a closing 68.

## Bramble Retains WBA Title

RENO, Nev. (UPI) - The head-told Livingstone Bramble to go to the body.

The advice was sound; it was Bramble's key to retaining his World Boxing Association lightweight title.

"I fought a very good fight, smart all the way," Bramble said Sunday after he showed no effects from a year of inactivity and used a pounding body attack and 13th-round left-right combination to score a technical knockout of Tyrone Crawley.

"I knew Crawley was a good fighter, but I was in the best shape of my life, I ate right, slept right and I did the things a fighter has to do."

"I went out there not to look pretty, but to get the job done." Bramble, who saw three post-punchments of the bout because of injuries to the fighters and a contract dispute with promoters, chased the top-ranked contender from the beginning and never was in trouble.

In the 13th round, the champion, 23-1-1 with 15 knockouts, stalked Crawley and caught him late with the left-right. The challenger went down, but got to his feet after referee Joey Curtis reached the count of four.

"I knew he was in deep waters," Bramble said.

Bramble, known as much for his pet boa constrictors, pythons

### Boxing

and ring antics as his boxing ability, rushed Crawley immediately when the bout resumed and a flurry ended the match at 2:57 of the round.

"After he got up (the first time), he gave me enough information to continue," Curtis said of Crawley. "But after three or four blows, he couldn't continue. I don't think he was too mad when I stopped it."

The champion, who earned \$214,000, was ahead on all three of the judges' scorecards when the fight was stopped. Dave Moretti of Las Vegas, Nev., had it 117-110. Hector Hernandez of Mexico scored it 118-115 and Harmodio Cedeno of Panama had it 116-114. Cedeno inexplicably scored seven rounds even.

Bramble, whose only loss was to Anthony Fletcher in August of 1981, beat Ray Mancini for the title nearly two years ago and defended it one year ago Sunday.

His first damaging body barrage came in the second round and Crawley, 19-2, fell to the canvas.

The Rastafarian champion, who was born in the Virgin

### Boxing

Islands but now lives in Montclair, N.J., lost a point when Curtis said he threw a punch after the sixth round.

The Bramble domination then continued despite the fact that he sprained his left middle finger in either the 10th or 11th round. A sharp right late in the 12th round staggered Crawley, who fights out of Philadelphia and who earned \$71,000.

"I don't think one punch took him out," said Bramble, who said he would like to fight World Boxing Council champion Hector Comacho next. "It was the body attack, then we played tie-tac-toe. I jab him, he jabs me. I jab him."

Crawley's biggest step to his title chance was a 1983 triumph over Robin Blake, who at the time was top-ranked and 22-0.

# FLORIDA IN BRIEF

## Police Get Description Of 'Pillow Case Rapist'

MIAMI (UPI) — A woman who lied to her attacker, telling him she was "blind as a bat," has given police their first detailed description of South Florida's "Pillow Case Rapist," the man who has attacked at least 44 women over a five-year span.

Police released an artist's sketch of the suspect Saturday that was based on the description provided by a woman who was attacked at her home last Tuesday. They said they will ask grocery stores in Dade and Broward counties to distribute copies of the sketch this week among their customers.

Police said clinical tests on the attacker's semen confirmed it was the same man who has stalked women living alone for the last five years.

It was the first time in 48 attacks on women who live alone, generally on the bottom floor of an apartment complex, that a victim was able to give police a detailed description of the rapist. Four women escaped the attacks.

Most of the victims have been career women and most have left their doors or windows unlocked.

Police said the man covered the woman's face with a pillow and threatened to kill her. He said she must not look at his face.

But the woman told her attacker she was "blind as a bat" and could not see him without her glasses, police said. They said, however, that the woman was nearsighted and could see her attacker.

The woman told police she was able to see her attacker throughout the 10 to 15 minutes he was in her bedroom.

The assailant has been dubbed the "Pillow Case Rapist" by police because he covers his face and his victims' faces, generally with pillow cases, during the attacks and repeatedly warns the victims against looking at his face.

## Police Query Murder Suspect

FORT LAUDERDALE (UPI) — A man with a criminal record that includes sexual offenses Sunday was being interrogated about the murder of 11-year-old Staci Lynn Javzac.

Police refused to release any more information about the suspect.

"We don't want to release anything that may jeopardize the case," Lt. Phil McCann of the Broward County Sheriff's Office said. "I'd hate to have someone walking the streets because of something we allowed to get out."

The Lauderdale Lakes girl was found dead Friday in a field in southwestern Coral Springs. No attempt was made to conceal the body, which was in plain sight near a dirt road, police said.

The girl had been missing from her Lauderdale Lakes home since January 30, when she rode her bicycle to a local drugstore to buy school supplies.

After her disappearance hundreds of volunteers, many of them strangers to the family, joined more than 50 sheriff's deputies and detectives in a county-wide search.

Her body was identified Friday afternoon through dental records by Dr. Ronald Wright, the county medical examiner. The sheriff's office withheld the cause, date and time of Staci's death but confirmed that a preliminary autopsy Saturday morning showed she had been murdered.

## ...Perez

Continued from page 1A

abate," Dr. Perez said. "The public is going to suffer more than anyone else," Dr. Perez says.

He says roofers, day care nursery employees, bank directors, dairy workers, electricians, truckers and others all face a liability crisis, and all will be affected. The costs of increased liability protection will be passed along to the public, or the public will be without their services.

According to Dr. Perez, liability insurance has become unaffordable, due to excessive awards issued by juries in tort cases. He claims lawyers use the legal system to win great awards for their clients. "The lawyers get 45 percent of the award plus expenses, so their client only gets 35 to 40 percent," he said.

Lawyers know how to play the game," Dr. Perez said. "They're experts, we aren't. We're only doctors, not businessmen, economists, or politicians. The lawyers prey on this."

"The lawyers will blame it (the crisis) on the insurance companies," he predicted.

Dr. Perez said that Florida leads the nation in jury awards of \$1 million and more, claiming lawyers are exploiting the system.

"Only 13 states now have a

cap on non-economic damages. Indiana is the lowest, at \$100,000," he said.

Dr. Perez says legislators will be invited to sit down with doctors and business representatives from their district to discuss the crisis and proposed solutions.

The steering committee of the newly-formed coalition is made up of representatives of the business and medical community. They hope to mobilize between 4,000-5,000 people to attend their rally and meeting at the Tallahassee Civic Center in April.

The consensus of those attending the coalition's organizational meeting last Thursday is "this year there has to be relief no matter what, or we'll have to start closing our doors," Dr. Perez said.

Perez says both the speaker of the House and president of the Florida Senate have told him they felt "there is no crisis." Perez's response is, "If they want a crisis, I'll give them a crisis." Buses and planes will be chartered to take concerned representatives of business and industry to Tallahassee.

In the medical community, Dr. Perez says, "We realize we have economic responsibility to our patients. We don't want to eliminate that. If something happens to me or my wife (because of negligence), I want retribution."

But he says the 1985 Medical Malpractice Act, which goes into

effect Jan. 1, 1987 and mandates insurance coverage as a condition of licensure, is unfair.

"I am a doctor because I went to medical school where I was trained, I studied and was tested, not because I have insurance," he said.

"You are killing me professionally if I do not have insurance and can't afford to purchase it," because of the skyrocketing cost, Perez said.

"It's like telling someone they have to have life insurance, and killing them if they don't," he added.

"Part-time, or semi-retired doctors who can't pay for the insurance will have to quit, depriving society of a good doctor who does a good job," Dr. Perez continued.

"If I quit, 4,000 people will be without a doctor. If doctors start leaving the state, who will provide care?" he asked.

He says in Massachusetts, 50 percent of the doctors are leaving or retiring now. Dr. Perez said the president of the Massachusetts Medical Association told him 80 percent of the public has health insurance through Blue Cross and Blue Shield, who dictate what they will pay for a doctor's services, and there has been a 35 percent increase in medical malpractice insurance rates. Doctors can't raise their fees to pay for the insurance, and it's forcing doctors out, according to Perez.

"That's a tragedy, because the ones who are going to leave are the small town doctors."

Dr. Perez expects lawyers to be in the state capital in April at the same time the doctors converge there to counter the coalition's meeting. "They'll probably bring kids in wheel chairs, and people who are injured, and say 'look at what some doctor did to these people.'"

"Doctors make mistakes. We're only human. We want people to be compensated. But we want the tort system eliminated."

And while there may be an opportunity for violence when both groups meet head-on in April, Dr. Perez said he doesn't expect a confrontation between the coalition and the lawyers. "We'll be there to discuss the moral issues, not the emotional issues," he said. "Our job will be to sit and work with the legislators."

He said his group would not be picketing or demonstrating. "We will be physically present, orderly, and very well organized. We want to show the legislature there is a crisis, and it's got to be solved."

He says work is being done on a new financial responsibility bill to replace the 1985 Medical Malpractice Act as a solution to the crisis.

Until the crisis is resolved, Dr. Perez says, "The liability crisis is a problem of society, and the public is going to pay for it."

## AREA DEATHS

Wallace N. LaPeters

Former Sanford Police Chief Wallace N. LaPeters of 5580 Wilson Road, Sanford, died unexpectedly Saturday at the age of 52 when he suffered a heart attack on the golf driving range at the Sanford Airport.

He served as police chief here for 18 months in 1977-78. Born May 10, 1933 in New York City, he moved to Sanford in 1976. He attended school in Florida and graduated from Florida State University law school in 1969. He is a former sergeant in the U.S. Army.

He was a member of All Souls Catholic Church. He commuted to work in Cocoa Beach, where he was a polygraphist for Almar Polygraph. He was a member of the state and national Polygraph Association and wrote the Labor Relations Manual for the Florida Police Benevolent Association in 1973.

Survivors include his wife, Louise; daughter, Gina, Sanford; six sons, Charles, Stephen, Christopher, Timothy, and J.R., all of Sanford, and Michael of St. Meinrad Seminar, Indiana; mother, Regina of DeBarry.

Gramkow Funeral Home, Sanford, is in charge of arrangements.

**ELIZABETH SHEAHAN**  
Mrs. Elizabeth Sheahan, 80, of 427 Sheoah Blvd., Winter Springs, died Sunday. Born in Chicago, she moved to Winter Springs from Atlanta in 1981. She was a homemaker and a Catholic. She was a member of the Tuscewilla Golf Club.

Survivors include her husband, Melvin; four sons, Michael, Orlando, Joseph, Terence and Thomas, all of Atlanta; six daughters, Carol Riordan, Indainapolis, Patricia Zadoo, Saratoga, N.Y., Maureen Puroy, Ortonville, Mich., Cathryn Shannehan, Wilton, Conn., Mary Grinwis, Deborah Nettles, both of Atlanta; sisters, Margaret Conway, Ft. Myers, Martha Terrell, Arizona; brother, Paul Heneghan, Chicago; 25 grandchildren; three great-grandchildren.

Baldwin-Fairchild Funeral Home, Goldenrod, is in charge of arrangements.

# Spring Break's Coming

(UPI) — The palm tree is gone from pool's edge at The Candy Store, a victim of college students' overly enthusiastic efforts to recreate a movie scene.

A concrete wall — they call it "THE WALL" in Fort Lauderdale — stretches for half a mile along Route A1A. Some residents don't like it but police say others would prefer a "concentration camp" atmosphere.

The portable toilets installed on the beach do little to enhance the scenery.

Fort Lauderdale is digging in for Spring Break — the annual invasion of thousands of party-starved college students lured from the frozen North by Florida's sunshine and warmth, not to mention sex, booze and mayhem.

The first trickle began this weekend as Canadian youths got the jump on their American counterparts.

That trickle will grow to a tidal wave during the next two months as an estimated 350,000 young men and women from 37 states and abroad descend on Fort Lauderdale's sandy beaches and splash in the warm waters of the Atlantic.

The biggest group will arrive just before Easter.

The action centers on Fort Lauderdale's famed "Strip," a mile of palm trees, hotels and bars that provided the setting for at least three movies on the annual rites of Spring Break — the 1960 Connie Francis hit, "Where the Boys Are," last year's sequel and 1984's "Spring Break."

Fort Lauderdale is ready and waiting for the crush of college students.

—Seventy police officers will patrol the beachfront seven days a week.

—"THE WALL," a 3-foot-high concrete barrier topped with a fence, was erected to protect pedestrians from traffic. Two people died near the Strip last year, a 23-year-old man who staggered drunk into a car's path and a teenaged girl who fell from a moving van.

—The speed limit along the strip was slashed from 35 mph to 20 mph.

—Portable toilets were installed on the beach to combat the inclination of some college students to use whatever is handy.

—New local laws prohibit motorists and pedestrians from carrying open containers of alcoholic beverages.

Last year, police made 800 arrests, mostly for drunk and wild behavior.

Written objection to the application may be made, but should be received no later than 14 days from the date of publication. Written objections should identify the objector by name and address, and fully describe the objection to the application. Filing a written objection does not entitle you to a Chapter 120, Florida Statutes, Administrative Hearing. Only those persons whose substantial interests are affected by the application and who file a petition requesting the requirements of Section 28.201, F.A.C., may obtain an Administrative Hearing. All timely filed written objections will be presented to the Board for its consideration in its deliberation on the application prior to the Board taking action on the application.

# Combing Hair Causes Pain In The Shoulder

Dr. Gott

DEAR DR. GOTT — What causes pain in my shoulder joint when I raise my arm to comb my hair? What sorts of treatment are effective?

DEAR READER — Shoulder pain from arm elevation can be caused by injury or inflammation of any of the tissues around or in the shoulder joint. These include muscles, tendons, ligaments, bone, cartilage, the joint envelope (bursa) or the joint itself (arthritis). Treatment depends on the specific cause.

For the average adult, the type of pain you mention would commonly be due to bursitis, tendinitis or arthritis. The inflammation is usually caused by repeated movement and can be helped by heat, ultrasonic treatment, pills by mouth or medicine by injection.

DEAR DR. GOTT — Our daughter was told she had epilepsy. The family doctor has her taking Tranxene, Tegretal tabs and Dilantin. She got a letter from a girlfriend saying that epilepsy could kill her or give her a heart attack. Our doctor said some kids outgrow it. Who is right? I need help in explaining it to her.

DEAR READER — Your doctor is right. I am constantly amazed by the callousness and inconsideration of some children. I cannot imagine why your daughter's friend would write such a cruel letter, especially since the opinions expressed were inaccurate.

Epilepsy is a relatively common disorder that is due to abnormal electrical activity in the brain. People with epilepsy are normal in all other ways. The condition is treatable. Often, young people will outgrow it.

I am sure your daughter's doctor would welcome a meeting so that your concerns and questions could be aired. For more information, contact the Epilepsy Foundation of America, 4351 Garden City Dr., Landover, MD 20785.

DEAR DR. GOTT — I have been diagnosed as having fibroid tumors. Recently I became a

mother for the first time, at the age of 39. The doctor has suggested a total hysterectomy, but I would like to have at least one more child. My job requires that I walk and be on my feet. Will this worsen the condition?

DEAR READER — Fibroids are benign common growths that form inside the uterus. They do not have to be removed unless they cause excessively heavy menstrual bleeding or other

symptoms, such as discomfort. Exercise, physical activity, standing or walking will not make fibroids worse.

If you wish to have another child, go ahead. But let your obstetrician keep close watch on you during your pregnancy to make sure that no complications develop.

## WIN AT BRIDGE

Defender East immediately realized that giving declarer a spade trick would present him with the ninth trick for his no-trump game. So East won the spade king and switched to the seven of clubs leading that card rather than the two because he did not want to suggest that he held a club honor. He also wanted to be able to lead the nine later. Declarer played low and West made the natural play of the eight. Dummy's ace won and five diamond tricks quickly followed. East discarded his three spades and West discarded two small hearts. Declarer also shed two little hearts and then led a spade. East won the ace and now continued with the nine of clubs. South played low and West had to win the 10. He could

cash the king of clubs, but declarer would still retain the queen. What went wrong? West must stay alert in order to make the right play. If the club seven is the highest club held by East, it does no harm for West to play the club 10 first, and it may help. West should recognize that his partner can hold the club nine, and should therefore unblock his club 10. It's easy to see what will then happen. After taking the second spade, East does play the club nine. Declarer will play low as before. Because West has retained the club eight, he can play it under the nine, and East's last club will be played through declarer's queen, setting the contract.

## HOROSCOPE

### What The Day Will Bring...

**YOUR BIRTHDAY FEBRUARY 18, 1968**

Knowledge and expertise you have acquired over the past few years will give you the career edge over the others. It looks like a big promotion is in the offing.

**AQUARIUS** (Jan. 20-Feb. 19) The latter part of the day is the best time for handling important financial situations. You get sharper as the clock ticks on. Know where to look for romance and you'll find it.

**PISCES** (Feb. 20-March 20) You'll be better equipped than your associates today to direct a delicate situation. When leadership is required, step into the breach.

**ARIES** (March 21-April 19) Let your compassionate instincts dominate today. If some-

one needs your help, do what you can to assist, even if it causes you inconvenience.

**TAURUS** (April 20-May 20) A social commitment you've been trying to dodge will turn out to be fun today. You'll be glad you participated.

**GEMINI** (May 21-June 20) Someone whose support you thought you needed is actually more of a hindrance than a help. You'll discover this today when you do the job unaided.

**CANCER** (June 21-July 22) Your first ideas aren't apt to be your best ones today, so don't hold them in awe. You get brighter and brighter the longer you deliberate.

**LEO** (July 23-Aug. 22) A person with whom you're involved might implement changes today you may initially resent. Don't jump to conclusions; the changes will be for your good.

**VIRGO** (Aug. 23-Sept. 22)

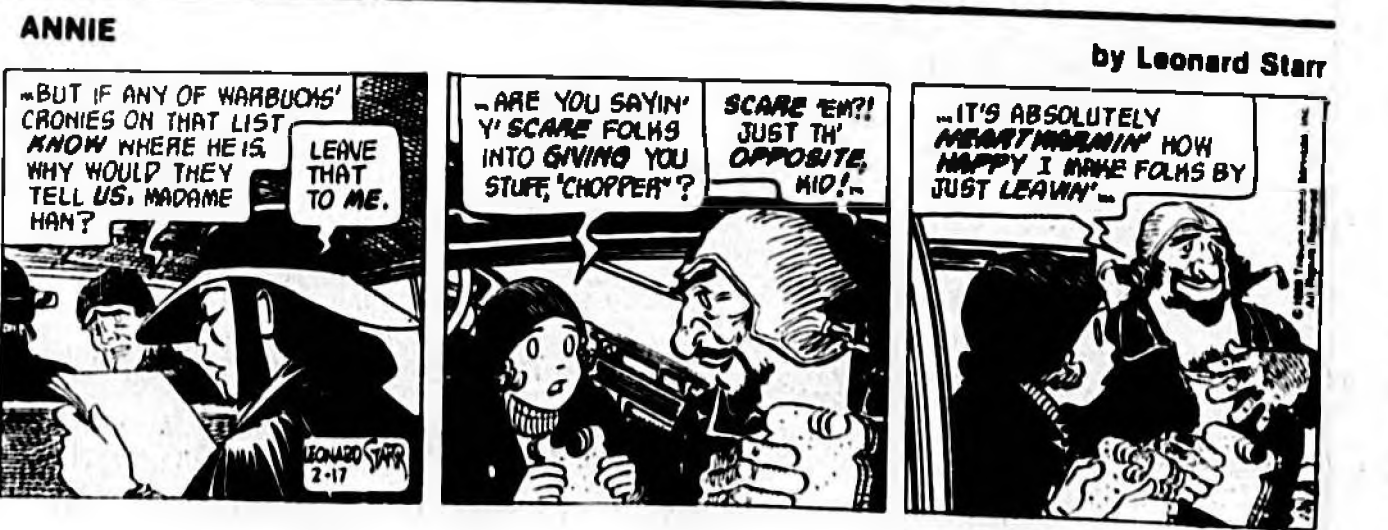

Listen attentively to your mate's input today regarding a matter of mutual concern. His or her suggestions may be better than yours.

**LIBRA** (Sept. 23-Oct. 23) This can be a productive day for you, even though you're apt to get a late start. Don't worry about lost time, but use wisely the hours left.

**SCORPIO** (Oct. 24-Nov. 22) Situations that contain chancy elements could work out rather well for you today, especially those that occur in late afternoon.

**SAGITTARIUS** (Nov. 23-Dec. 21) Rewarding results will develop today through people emotionally close to you. Flimsy relationships could misfire.

**CAPRICORN** (Dec. 22-Jan. 19) Someone you thought was not overly fond of you actually cares more than you realize. Today he or she will show their true colors.
