Bomber's Future Uncertain

PALMDALE, Calif. (AP) - The prototype of the newest U.S. bomber, the swing-wing B1, rolls out amid ceremonies and speech-making Saturday. But the plane may be sidelined because of soaring costs. Advocates say the B1 will be superfast and hard to destroy and that armed with a potent load of missiles it will help deter World War III. Critics say it will be a flying dinosaur not worth its ever-rising price tag. The four-year-old B1 program has so far cost \$1.6 billion. By 1983 - two years before the last of 247 planes, including three prototypes, are scheduled to be built - the cost is expected to reach \$18.6 billion, or about \$76 million per plane. That's \$7.4 billion higher than estimated in 1970.

Candidates Return Donations

WASHINGTON (AP) - At least 11 congressional candidates, including nine incumbents, have returned contributions from the American Medical Association because they believe voters are skeptical of politicians who take campaign money from special interest groups. The money is distributed by the American Medical Political Action Committee, one of the richest special interest groups supporting political campaigns. A spokesman said the group has contributed to at least 220 Senate and House candidates this year and will give money to more campaigns before the Nov. 5 election.

Nixon Surgery Considered

LONG BEACH, Calif. (AP) - Hospital sources say former President Richard M. Nixon is no longer in pain as doctors consider whether he will need surgery for his phlebitis. A relatively simple and safe operation could be performed if anticoagulant drugs given by mouth and by injection fail to prevent formation of clots in Nixon's swollen left leg, his physician, Dr. John C. Lungren, says. The former president was admitted to Memorial Hospital Medical Center Wednesday night because oral anticcagulation therapy at his San Clemente home was not thinning his blood sufficiently, Lungren said.

Space 'Junkyard' Rapped

WASHINGTON (AP) - There's a population explosion of sorts in outer space. Not the baby boom variety, but in the steadily increasing number of manmade objects orbiting the earth, more than 3,000 at last count. "It's starting to look like a junkyard out there," said an official of the North American Air Defense Command, which keeps track of satellites and debris circling the globe. The stuff is coming down at the rate of one piece a day. Almost all of it burns up from atmospheric friction and the odds agains' anyone's being hit are calculated at more than one billion to one.

Ford Blames Democrats

CHICAGO (AP) - President Ford has finally said it big spenders are responsible for the country's inflation woes and the "villians" are Democrats in Congress. In a string of campaign appearances Thursday on behalf of Republican candidates, the President accused Democrats of ruining the economy with four decades of reckless spending and of now threatening foreign policy. He also accused the Democrats in Congress of "undermining our foreign relations with handcufflike restrictions on the policies of the President and the secretary of state."

WORLD **IN BRIEF**

Arab Ministers Divided

RABAT, Morocco (AP) - The leaders of the Arab world began gathering here today for another summit conference, but their foreign ministers were reported still split on the key issue of negotiations with Israel. A Syrian proposal called for a pledge from all the Arab governments not to negotiate separately with Israel but to take the negotiations back to the dormant Geneva conference. Egyptian President Anwar Sadat and King Faisal of Saudi Arabia were reported "extremely reluctant" to return to Geneva, and Sadat supports Secretary of State Henry A. Kissinger's proposal for separate negotiations between Israel and Egypt, Jordan and Syria on further territorial withdrawal by Israel.

Arms Talks Continue

MOSCOW (AP) — Secretary of State Henry A. Kissinger and Soviet Communist party chief Leonid I. Brezhnev continue their discussion of guidelings for nuclear arms negotiations today after mutual American and Soviet pledges to work for peace and better relations. The visiting secretary of state and the Soviet leader got around to the stalled arms limitation talks in Geneva Thursday night at their second meeting since Kissinger arrived Wednesday.

On Thursday, he fired four members of his cabinet, including Information Minister Hoang Duc Nha, a relative of the president's and his closest confidant.

Kidnaping Rewards Offered

ROME (AP) - The Italian government is offering 30-million-lire rewards in an attempt to crack down on kidnaping. Five persons have been abducted in the past three weeks, four of them in the northern industrial region of Lombardy. This raised the total for the year to 30 kidnapings. Eight of the victims are still missing. There nave been arrests in only 12 of the cases.

Is Fuel Adjustment Legal Or Isn't It?

We don't pretend to understand much about the fuel adjustment charge. And that's not because of any lack of effort on

our part; our stupidity, maybe, but not our zeal. Our ignorance is apparently shared by most people, including many of our public officials. During the past several months we have occasion to talk to several dozen state and local officials and, almost without exception, proved to be as completely mystified by the workings of the utility firms and the Public Service Commission as the average man on the street.

Wednesday's action whereby the Public Service Commission (which is supposed to be a regulatory body), the Attorney General (who only two weeks ago called the fuel charges illegal) and Public Consumer Counsel Fred Karl (who is supposed to be looking after our interests) agreed on a compromise that leaves the question of the legality of the charges hanging in mid-air served only to add to the confusion.

The compromise - which, to their credit, the utilities objected - froze the fuel adjustment charges at the October rate until they can be justified at public hearings.

That's the part that always bothered us. Why weren't the utilities forced to justify the charges in the first place? Why hasn't the Public Service Commission ordered that the utilities project their expenses and receipts, their expansion plans and whatever for a 5-year period, say, bring in their figures, have them questioned closely and the figures examined line by line by experts and then rule on what the utility may charge its customers. That process might cause the utility people

some headaches and it might increase the workload of the PSC, but it would have one major advantage over the present system:

Everyone would know what was going on. Under the present system the "fuel adjustment charge" is like a dream you try to reconstruct the next morning. It is floating out there but only dimly perceived by the consumer and frequently makes no sense at all; it varies from month to month and customer to customer and utility to utility so that any attempt to bring it into some kind of focus leaves the poor customer floundering in frustration.

This is not to say that the utilities are necessarily gouging the public; it is to say that since they serve what amounts to a captive audience they should be made to justify any rate increases on the basis of increased expenses. And the PSC should be held accountable that the increased expenses are legitimate and in line with good business practices.

The "compromise" was really no compromise at all for it fails to come to grips with the basic

Is the fuel adjustment charge legal?

Until that one question is settled in the courts Floridians are going to continue to distrust everyone involved.

BERRY'S WORLD

8) 1974 by YEA INC "I thought you were trying to cut back on spending How come you have treats?'

JACK ANDERSON White House Wants No More Scandals He would instruct the staff members how to

House free of scandal.

advisers are eager "to highlight the fact that this every new employe. is now the Ford White House staff" and that the the highest standard of conduct."

Yet at the same time, they hesitate to advertise their new ethical campaign. "Some will see it," they fear, "as an event staged for public consumption - a sort of honesty rally without balloons. However, if done with serious intent and minimal press fanfare, we think this danger can be minimized."

Under the direction of the President's new staff chief, Donald Rumsfeld, these moves are tentatively planned:

- There would be a "reviewing, upgrading and refreshing" of the "traditional procedures for preventing conflicts of interest." This isn't intended "to trap people but to create an ongoing sensitivity to these problems."

- Everyone who works in the White House, "from secretaries to counselors, whether on discuss "everyday ethics."

RAY CROMLEY Scientific Research Neglected WASHINGTON - (NEA) - To a considerable

degree, today's high food and industrial prices result from the cavalier way basic scientific research has been treated for two decades. Our great progress in agricultural and in

dustrial efficiency over the last 30 years depended heavily on a rich reservoir of fundamer. I discoveries made since the turn of the century in Western Europe and the United States. These breakthroughs were drawn upon to develop major practical improvements in crops, farm animals and high technology manufactured goods and for the more efficient production of such basics as iron, steel,

aluminum, glass, paper and synthetic textiles. Now this pool of besic knewledge is virtually exhausted. We are running on the rim. Research and development expenditures these past several decades have, in the main, been devoted to the practical applications mentioned above, not to replenishment of the pool.

For a time, when the Defense Department was riding high, important non-defense research projects were hidden in the Pertagon budget. No one else could get the money - the Defense Department could. Then Congress caught on and in the past number of years has forced Defense to divest itself of these programs. Some have been picked up elsewhere. Unfortunately, others have gone by the board.

To make matters worse, much recent basic research (what little there was) has been poorl a centralization of research decisions in the Letter To The Editor federal government has resulted in a deadening sameness, a lack of imagination and a paucity of original approaches. Multi- millions have been spent on refining present concepts. One scientist says that, in essence, we have been putting dollars into expensive marginal increases in the speed of the horse rather than into developing an

The major villain in the piece is Congressional stupidity allied with politics. On the one hand, the Senate and House have repeatedly passed inflationary, politically popular bills of dubious value. On the other, Congress regularly cuts into the muscle of basic research programs to achieve "economy in government."

But a series of Democratic and Republican Presidents has been almost as guilty. Basic research has been skimped to provide money to go to the Moon, to make way for questionable untested social programs and for military weapons verging on obsolescence.

The academic world is also to blame. In the contest for government subsidies, money goes to those who develop correctly-formulated proposals. Proposals submission has developed into a skill of its own, somewhat unrelated to the merits of the proposal. As a result, too much of the so-called basic research now done in the nation's colleges at government expense is make- work research designed to subsidize professors and their graduate student assistants. The product, all teo often, is not rigorous basic research intended to add to fundamenta

Anyone who takes the time to read through some thousands of the "scientific" papers delivered at this nation's academic conferences will note that too many are opinions doctored up with mathematical computations and computer

OPINION

Evening Herald, Sanford, Fl. Friday, Oct. 25, 1974-4A

Statements outling "the importance of new President has a "personal commitment to proper conduct" should be delivered to the 'entire staff." This would be accompanied by "standard of conduct rules." - Financial statements from everyone on the

White House staff would be updated and filed. - All White House personnel, both those now on the staff and those who are hired, would be cleared by the special prosecutor's office. The purpose, according to our White House sources, is to insure that no one tainted with Watergate winds up on the President's payroll.

- A review is already "in process" of the proper disposition of gifts to the First Family and White House staff. The review even extends to "gift giving between White House personnel." Two presidential counselors, Don Lowitz and Don Murdoch, have prepared a tentative agenda for the staff conference on ethics. After the President's opening remarks, Rumsfeld would

The New Crusade

If you think the Osteen Bridge deal stinks, you should smell the stench of corruption coming from the foundation of the new Capitol Building n Tallahassee. The stench has completely vercome Gov. Askew and Atty. Gen. Shevin to where they find it impossible to ask for a Grand Jury investigation of how 40 of the 120 foundation pilings were found faulty and whether the emaining 80 were driven to meet their load bearing capacity as would require to support a 22-story building

Apparently the odor has completely phyxiated the TV commentators and the Free ress editors to the point they cannot ask such estions as: "Who is D and A Equipment Co. of ensacola? Does the "A" stand for Askew? Was nspection required in the contract, if so, who was the inspector that passed 40 faulty pilings? Or where was he when these pilings were

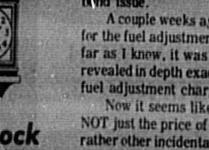

Is the attempt to hid these pilings attempted raud? If so is General Services Department accessory before or after the fact? Just what is General Services responsibility garding this building and who are they

Take a handful of "activists" and you can get the job time to show up for that Sanford meeting, we here at The done -- or the problem licked. Monday evening there were only 40 who took that time to show up at the forum at the Sanford Civic Center - and more than likely it'll be this same small ratio of eligible voters who will decide the fate of the \$6.5 million drainage bund issue.

A couple weeks ago, it was a scant 25 who showed up for the fuel adjustment meeting at the civic center and as far as I know, it was THE FIRST TIME any newspaper revealed in depth exactly what was going into the utilities fuel adjustment charges.

NOT just the price of a barrel of oil we were paying, but rather other incidentals like computers, trucks to haul the oil, thefts, spillage, etc., and practically anything else By JOHN A. SPOLSKI would be "added" to this "fuel" charge.

ALLER STRUCTURE CONTRACTOR

proposed by the two conselors, would be: "Consult with the counsel to the President in every such instance. Generally, don't touch it." Rumsfeld would also lay down the law on "politics and fund solicitation" and the use of "White House telephone and stationery."

Finally, Rumsfeld would warn the staff members that their "conduct outside of the White House" also had to be exemplary, 'Regrettably, you are always on duty in the eyes

SOLAR SCANDAL: The only inexhaustible and nonpolluting form of energy, heat from the sun, is being largely ignored because it holds no companies.

This is the discouraging conclusion of a secret Federal Energy Agency study on solar energy. one of a thick packet of draft documents we have significant contribution to the goal of longterm by 1990." energy self sufficiency ...," says the document. At present, solar energy is limited to about

I do hope the editors and commentators are resuscitated before the new Capitol Building is built on a faulty foundation and collapses perhaps killing more than have died on Osteen S.B.(Jim) Crowe

Letters to the editor are always welcome. They should be as brief as possible and omment on matters of general interest. The letters should deal with issues and avoid

their names to appear in print.

Now it seems like it's taken for granted that it was

research and small feasibility studies will be handle individuals and companies with problems conducted by private industry because the before the regulatory agencies. His advice, as longrange markets are not competitive with other research and development investments."

the report predicts. If the nation would get serious about solar energy, the face of America would change as the nation declared independent from foreign oil Giant 200-foot high windmills, one behind the other, would line the landscape, says the report.

Vast expanses of hot, arid desert land in the West would be covered by mirrors. The 10,000 square miles of California-Arizona desert "could theoretically provide. . . twice the present generating capacity in all of the United States."

Within a few years after the year 2000, says the report, "solar systems may be capable of promise of giant profits for the nation's utility supplying 15 to 30 per cent of total U.S. energy requirements" if the country ends its "business

as usual" approach and accelerates sun energy. 'However, unless federal involvement increases substantially in the late 1970s," warns obtained on every aspect of the energy crisis. the FEA document, "it is unlikely that much "Potentially, solar energy could make a development in solar energy will transpire even

But Congress has authorized a piddling \$75 25,000 solar hot water heaters and a few exmillion to study the question. And "only minimal perimental houses and swimming pools.

TOM TIEDE

Committee Adds To Pot Myth

WASHINGTON - (NEA) - After two months and many thousands of tax dollars worth of hearings, the Senate Subcommittee on Internal Security has released a report on marijuana use that insults the public mentality and can only serve to further fog and confuse reasonable debate on this most complex, often wretched social issue.

Admitting that the hearings were prejudicial that only negative weed views were allowed expression, subcommittee chairman James Eastland (D-Miss.) nevertheless warned with positive assurance that society may be "taken over by a marijuana culture" which lacking any higher moral guidance, searches only for self gratification and the escape from reality. Pot smoking "semi-zombies" walk the land, he added, coupling the poor devils with the Communist conspiracy. He concluded by predicting "national disaster" if the grass epidemic con-

Eastland, of course, is entitled to his views on pot, just as for 32 years in Congress he has been entitled to his views on school segregation and other dark-age propositions. Yet his report is a meaningless, perhaps dangerous fraud. Lacking balance, depth, fairness and investigative honesty, the subcommittee summary merely reinforces subjective ignorance and in no way resembles the consensus of scientific and studied opinion concerning marijuana.

That consensus is that pot remains largely an unknown quantity, but much evidence so far udges it in a similar risk category with alcohol. Eastland, by the way, has never been known to rail against the semi-zombies of booze.

But more than this, the Eastland report misser entirely the central point of the pot argument. Since no one but fools claim that marijuana is armless (all drugs are chancy, even aspirin), the question is not one of risk but hypocrisy. Is it ight in a nation of seven million alcoholics and no known "potoholics" to forgive the former and can the latter?

Last year while several hundred thousand booze addicts were admitted to hospitals and counseling centers in America, 420,000 people were arrested and frequently jailed for pot use.

And jail for the grassers is often no overnight The editor reserves the right to edit those thing. Several hundred people in Texas are letters for reasons of space, but will exercise serving two years to life for mere possession. great care that the thrust of the letter is not lost Even when judges, out of sympathy, do suspend pot sentences, the user for the suspension period All letters must be signed with a mailing loses his right to vote, to hold public office, to be address and, when possible, a telephone number a licenced doctor, dentist, certified public acso the identity of the writer may be checked and countant, engineer, lawyer, architect, realtor, established. However, the Evening Herald will schoolteacher, barber, funeral director or stockrespect the wishes of writers who do not want broker; and he cannot work on government jobs.

Moreover, the pot user, this semi-zombie who We reserve, of course, the right to reject any may be a kid, a housewife, a cop, even a senator, letters this newspaper considers to be libelous or is because of societal hypocrisy ofter sentenced to public humiliation as well as jail.

> Herald would probably never had the opportunity of going face-to-face with the utility reps on this subject. Lately we have been reading of Connecticut's gubernatorial candidate Ella Grasso addressing herself to this same subject.

In that state, according to Mrs. Grasso, their Public Utilities Commission has allowed power companies to charge customers \$19 million too much to cover the rising cost of oil to generate electricity.

The utilities and the commission deny there have been overcharges but admit that the oil has NOT cost as much per kilowatt hour or power as customers have been billed for.

Well, whaddyah know . . . someone else is getting wise. Let's see how brave this state's PSC is, and how much concerned they are of the "little guy" and his terrific tax load!

Cabinet Gets Jax Fill Dispute

TALLAHASSEE, Fla. (AP) - A state land management official says the Cabinet should expect strong opposition from officials of a firm that he says should pay up to \$1.7 million for dredged-up fill material. Jay Landers, director of the Trustees of the Internal Improvement Trust Fund, advised Cabinet aides Thursday to expect the opposition from Offshore Power Systems (OPS) of Jacksonville at Tuesday's Cabinet meeting

Landers said OPS should pay for material dredged from the St. Johns River and used for fill on an island where the firm is building a factory.

OPS, a joint venture of Westinghouse and Tenneco, plans to build floating nuclear power plants. The power plants would be towed to coastal cities and anchored in off-shore breakwaters to produce electrical power for the

The factory project, strongly opposed by conservationists because productive marshes are being destroyed, has been highly controversial.

Latham Uses KKK Telephone

TALLAHASSEE, Fla. (AP) - Republican treasurer candidate Jeffrey Latham has used a toll-free telephone provided by a Ku Klux Klan leader in his campaign, says Treasurer Thomas O'Malley.

Continuing the controversy over Latham's soliciting support from the Klan, O'Malley charged Thursday that his election rival failed to report the use of the telephone on campaign financial reports.

O'Malley, meanwhile, has problems of his own in his bid for re-election. He was indicted last week on a perjury charge and two counts of accepting \$50,000 in kickbacks. Latham was not available for comment on the telephone dispute.

But there has been no mention in his reports of any contribution, cash or in-kind, from John Paul Rogers of Lake Wales, the Florida grand dragon of the United Klans of America.

Consumer Education Meet

TALLAHASSEE, Fla. (AP) - The state Corrections Division is seeking federal funding to study motivational training programs in Florida prisons, a division official

T.P. Jones, chief of the bureau of planning, research and staff development, said Thursday that the division wanted to determine the effectiveness of programs designed to change prisoner attitudes.

State Parole and Probation Commission officials said they have six motivational programs throughout the state for persons placed on probation and parole.

ToFear

Hallowe'en today means children flocking from door to door to enjoy the bounty of neighborliness. But in the Dark Ages this night was regarded with dread and apprehension. Warmth, friendship, kindness, generosity inspired by our religious faith have replaced superstition. Believing in the Love of God man has nothing to fear. Your children will remember for years the fun of Hallowe'en. Are you making sure they are

learning the fundamental spiritual truths that have turned yesterday's fear into today's faith? Once a year we celebrate the death of superstition. Every Sunday we celebrate the birth of Belleving.

It is always the one who is possibly smug for us to judg

who is most compassionate who ask "Lord, Who?" We cannot questions that he is caring wholly divorce ourselves from enough, the one who is most personal or even national sacrifical who worries that he betrayal, for we, too, harbor has not given enough. I have always been interested shake our heads sorrowfully in Judas! To me, Judas plays on ponder, "Lord is it I?" and

a small part in the story about never be entirely sure that it is him in the Bible. When Jesus not. says to his disciples, "One of As a child at play when my you shall betray me," the big mother would inquire constory in not that Judas knows he cerning our activities, I would is Judas, but that 11 other always respond with, "Who supposedly totally committed ME?" As our Black friends followers of Jesus think they often sing, 'It's me, O Lord, not might be." They began every the deacon, nor the preacher, one of them to say to Jesus, but it's me, O Lord standing in "Lord, is itI?"

What, I really wonder, did each of them see within himself some one else! that caused him to think he might be the one? Take John, (the beloved disciple), for example, especially in the light of the affection Jesus had for him. Was he murmuring merely a polite comment when he said, "Lord, is it?" - the way we say, "How are you?" and do not wait for an answer? Or did he know something about himself that we don't know, just as we know something about ourselves that we do not discuss with others and that we hide even from our own thoughts?

Have you ever really thought followers and is it possible that Osceola (Kissimmee). about it, that crisis moments sometimes we have been they? are revealing. They strip away "Lord, is it I?" What they did founded in 1899 has been carefully cultivated responses at that table was to look deep distributing Scriptures since vices at Community United and force us to see ourselves for into their own souls. GENERAL TENDENCIES: Daytime presents difficulties in wishes to contribute may celebrating in all services, expressing yourself in emotional matters as well as in business. "Great Day!" The Sunday But tonight brings a release from delays and some special happiness at home with family. ARIES (Mar 21 to Apr. 19) Private worries bug you, but if you

concentrate on your blessings, these become insignificant. Don't be so highly sensitive. TAURUS (Apr. 20 to May 20) Friends may be disappointing now because they are under pressure, so be patient. Personal aims difficult to gain early become easy later.

GEMINI (May 21 to June 21) Don't irk one in high position who has power over your affairs, then you can have a happy evening with congenials. Efforts pay off.

MOON CHILDREN (June 22 to July 21) You may think you did wrong in forcing friends to go along with you on some venture, but by evening you know you're right. LEO (July 22 to Aug. 21) Pay bills on time and build up credit. Your romantic tie will be busy until evening, so wait until then to

get together. VIRGO (Aug. 22 to Sept. 22) Associates are apt to act childishly during day because of planetary influences, but by evening all is fine again. Entertain.

LIBRA (Sept. 23 Oct. 22) Make your home more charming, even though you want to be off and away to some fun place. Put off recreation to p.m. for best results.

SCORPIO (Ovct. 23 to Nov. 21) Recreation that you can really afford will be doubly pleasurable. Use talents. You can consider something very profitable in p.m.

SAGITTARIUS (Nov. 22 to Dec. 21) Don't be blunt at home or Mr. and Mrs. Gary Wayne you can get into unnecessary arguments. Entertain in p.m. Im- (Joyce) Logan, a boy, Sanford prove the appearance of your abode. CAPRICORN (Dec. 22 to Jan. 20) Shop for whatever will (Theresa) Prokosch, a boy,

make your daily operations more efficient at home or in business. Sanford Fun with congenials in p.m. Avoid a troublemaker. AQUARIUS (JAN, 21 to Feb. 19) Daytime is best for handling Sanford:

financial and other practical affairs with fine results. Not a good day to get advice from a business mogul. PISCES (Feb. 20 to Mar. 20) You don't feel like yourself and are tempted to break a good relationship, but don't. Improve

health, then be sociable in p.m. IF YOUR CHILD IS BORN TODAY. . . . he or she will want to know about everything and what is happening at all times, so may ask many questions that are embarrassing or seemingly impudent. Teach early to calm down and do more listening than talking. Then after a good education, there can be big success in this lifetime and your progeny could become a boon to society at large.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU! Carroll Righter's Individual Forecast for your sign for November is ow ready. For your copy send your birthdate and \$2 to Carroll Righter - Forecast, Evening Herald, P.O. Box 629, Hollywood, Calif. 90028.

WOMEN

Evening Herald, Sanford, FI. Friday, Oct. 25, 1974-8A

DEAR ABBY She Has 13 Kids And She's Proud

DEAR ABBY: I am a good Catholic woman. God gave me 13 children and I am proud of it. When people find out how many kids I have, they look at me like I committed some kind of crime. I am not on welfare, and I am not asking anybody else to lelp me raise them.

Some people ask me if I ever heard of birth control. I have, but the only method permitted by the Catholic Church is called "the rhythm system." Why can't people mind their own business?

PROUD MOTHER DEAR PROUD: One reason may be that they are concerned about a very real problem, which cannot be ignored. It's overpopulation.

At present, the world population is increasing at the rate of about 68 million a year - much more than the total population of Great Britain, France, Italy, or West Germany! Every day there are 185,000 more mouths to feed. This means

that the present world population of 3,632 million will double by the year 2010! But criticizing parents of large families after the fact strikes me as not only irrelevant to future solutions, but as meddlesome

and unkind. DEAR ABBY: Our son, who will be 16 his next birthday, is fast-talking, persuasive and attractive. Jeff can charm the birds

out of the trees when he want to. He keeps making remarks like: "I can't wait until my next birthday so I can drive." He's all set to sign up for driver's ed in school. He doesn't have a car to drive, and we hadn't planned on

buying him one, but he's been buttering up his grandparents lately, hoping they will buy him a car for his sixteenth birthday. (I have news for him. He still needs OUR permission to drive.) Jeff's grades are just so-so, he doesn't always keep his word, and he has to show a lot more maturity and responsibility before

we'll let him drive. He had a summer job and didn't save a dime. How do we get it across to this boy that just because the law

says he's old enough to drive doesn't necessarily mean he's going MOM AND POP

DEAR M. AND P .: You seem articulate enough. Why don't you just TELL him?

CARL VANZURA

Writer's Friend Now Holds

Title In Pro Funny Car Class

I received word this week that a good friend of mine won the biggest honor of his life as he became the holder of the title of World Champion in the Pro Funny Car class. This isn't just a token title as it takes a full year of competition against the world's best drivers in fierce side by side running.

From Georgia

Shirl Greer of Warner Robins, Georgia took home \$10,000 Sunday for his efforts this year in becoming World Champion. Shirl who is not new to the sport has been racing and winning for close to twenty years. Many times the local tracks in this area have seen him come down and win the Funny

Car class with his always consistant rigs. Back on July 31, 1966 Shirl was in Sanford to face Huston Platt in one of the most publishized match races of the year as both cars were rated in the top 5 of the year. The scene was the dragstrip run by the Seminole Timing Association on the old airport at Geneva. Greer in a close battle won the match two wins for one to Platt. I missed the race of the year but I was a winner as my oldest son Jeff was

born that day. One of the first to congratulate me was Shirl Greer.

Getting back to the Championship story Shirl made the trip to Ontario Motor Speedway in California 174 points behind Paul Smith and feeling pressure from Frank Hall and Don Prudhomme. It seemed that all hope for Greer was over when during qualifying the motor blew causing a fire which destroyed the rear of the car and burning Shirl on the hands and face sending him to the

hospital. It seemed like Prudhomme would just have to qualify and win just one round to become champ. Shirl learned from the hospital that Smith and Hall did not qualify but that his earlier run 6.47 had put him in the 11th position of the 16 car field. Knowing the fighter that Greer is an estimated 50 members of other cars and fellow drivers rebuilt his car in Grone night so that if Greer could be released from

the hospital his car would at least be ready. Sure enough on Sunday morning Greer appeared at the track wearing special gloves to protect the burns on his hands. Along with him was one of the hospitals doctors to make sure that his health would not be endangered by further competition. On the first round he met and defeated Leroy Chadderton. At the finish line the supercharger let e go popping out the windshield and causing the second fire in two days. The flames were quickly extinguished by the on-board fire bottles and the twice-wounded Mustang headed back to the pits for repairs.

Chances Looked Dim

Shirl's chances once again looked dim as he couldn't make the second round and all Prudhomme would have to do was win one more beat us, but we're not going to "Only way to avoid it is quarterback Cornelius Greene Conference play. round than Greer. Prudhomme is a great crowd let it happen." favorite at every meet he runs but you could sense that the crowd was pulling for an upset as he prepared to meet Dale Pulde. As Shirl looked on the two cars staged and when it was all over the Martin Honored biggest upset of the day had happened as Pulde set a new National record of 6.16 in beating the fastest Funny Car driver in the World as Prudhomme has

unofficially turned E.T.'s of 6.01. After it was all over I am sure the pain of the burns were still there but just a little more bearable. As Shirl did to me back in '66 I would like to be one of the first to congratulate him.

Mul-Key Has Surgery

WASHINGTON (AP) - Herb Mul-Key, the Washington Redskins' premier punt-return specialist, underwent surgery in Arlington Hospital Thursday to repair a shoulder separation sustained against Miami two weeks

Dr. P.M. Palumbo Jr., Redskins physician, said the operation, which lasted 312 hours, was for "reconstruction of shoulder ligaments and bone grafts." Earlier this week, Mul-Key was placed on the injured reserve list and is expected to miss the remainder of the season

Disabled Olympics Set

OTTAWA (AP) - The Canadian federal government says it will contribute \$500,000 to help stage Toronto's 1976 Olympiad for the Disabled, the so-called para-Olympics. The Health Department said Thursday the federal government had entered into a costsharing arrangement with the City of Toronto and the Ontario provincial government to cover the operating cost of the games Aug. 4-11.

The schedule includes 12 sports with athletes classified according to their degree of disability. The largest class is made up of athletes confined to wheelchairs.

A Billiards Rout

STATE COLLEGE, Pa. (AP) - Steve Mizerak ran 109 straight balls in a 150-1 rout ever Jack Colavita and took first place Thursday night in the Pabst-Brunswick professional billiards tournament at Penn State.

Mizerak of Edison, N.J., is now 3-0 in the tournament with the winds over Colavita of Caldwell, N.J.; Willie Munson of Milwaukee, 150-43; and Irving Crane of Rochester, N.Y., 150-36. Ray Martin moved into second place with wins over Jim

Rempe of Scranton, Pa., 150-36; and Crane, 150-41. The finals in the \$6,500 competition will be Saturday.

Wyche To Fire

PHILADELPHIA (AP) - Quarterback Bubba Wyche, obtained by the World Football League's Philadelphia Bell this week in the dispersal of players from the defunct Detroit wheel, has been traded to the Chicago Fire for a No. 1 choice in the 1975 WFL player draft. Wyche, a 6-foot-1, 195-pounder, completed 164 of 318 passes for 2,006 yards and 10 touchdowns for the Wheel. He was traded Thursday.

Penguins Waive Player

PITTSBURGH (AP) — The Pittsburgh Penguins sent defenseman Jean Guy Lagace to their Hershey farm club of the American Hockey League Thursday to see if he can play his injured shoulder back into shape. Defenseman Dennis Owchar, 21, was recalled to take the place of Lagace, 29, on the National Hockey League team's roster.

Borg In Quarterfinals

TEHRAN, Iran - Bjorn Borg of Sweden overcame a first-set defeat to oust Eddie Dibbs 1-6, 6-4, 6-4 in the quarterfinals of the \$100,000 Aryamehr Tennis Tour-

Trevino First Round Leader

NAGOYA, Japan - American Lee Trevino, Taiwan's Hsieh Yung-Yo and Toshiaki Sekimizu of Japan each fired three-under-par 69s and shared the first-round lead in the \$133,-000 Tokai Classic Golf Tournament

Australian Golf Leader

Memphis scored right after Baker's first touchdown when wide receiver Tim Beamer returned the kickoff 82 yards. But Portland knocked down a pass from Memphis quarterback John Huarte to Marshall for the TV Sports action point, and the Southmen trailed 8-7, eventually the onepoint game-winning margin. Baker scored again in the first quarter on an eight-yard pass from Beathard, and Mem-

rookie from Nebraska, picked Notre Dame.

Basketball **Pro Chart KENTUCKY COLONELS**

ABA — Eastern Division 1973-74 finish: W 53, L 31 - 2nd place

Hubie Brown, the Colonels' new coach succeeding Babe McCarthy, realizes he is stepping into a "pressure- cooker situation." Not only is he under pressure to win the ABA championship, but he has to win it the way owners Ellie and John Y. Brown Jr. want him to win it.

The Browns - rich, ambitious and eager to succeed - have gained a reputation for butting into business that usually concerns the general manager and coach. If they leave the coach alone, he might be able to lead the frustrated Colonels to their long-sought, first ABA title. The team certainly has the talent to go all the way.

FORWARDS: The Colonels finally landed the tall, defer seminded and strong rebounding forward they needed so badly o complement rugged Dan Issel, signing Wilbert Jones, who played out his option with Memphis. Jones will enable Issel to concentrate on the best part of his game, offense. Issel averaged 25.5 points a game last season. Another offseason acquisition was Marv Roberts, young, eager and extremely coachable. Red Robbins is a scrappy veteran, Ron Thomas a muscular youngster and Jim Bradley, thrust into the starting lineup after being signed out of college in the middle of last season, still has a great deal to learn. Rating: A-.

CENTER: There's no better center in the ABA than the 'clonels' Artis Gilmore. The elongated (7-2, 240) Gilmore has been the All-ABA center and leading rebounder in each of his three seasons in the league. He also is an excellent shot blocker and steady scorer. Only his selection of shots and ballhandling are below par. Rating: A. GUARDS: The Colonels usually have had a surplus of

shooting guards, but now they finally have the big, strong, defense-conscious backcourtman they have lacked. He is Ted "Hound Dog" McClain, who was purchased from Carolina. McClain led the league in steals last season and played in the All-Star game. He should work well with Louie Dampier, a 17.8 scorer, the league leader in three-point field goal percentage and third in assists. When further shooting is necessary, the Colonels have such rapid-fire marksmen as John Roche and Bird Averitt. And for added three-point accuracy, they have Joe Hamilton. Rating: A-. PREDICTION: All the ingredients are there for a cham-

pionship. Now, it will be up to Hubie Brown to put them together - in the manner in which the owners want. First in East.

Basking in the central Florida sun, buildings of both old and new architectural design blend into the downtown Sanford scene as the community quickens its pace. Far right, the rounded roof of the city civic center anchors the lakefront near the marina. At extreme left, Sanford City Hall across from the new, modern county courthouse. Center, the restored Pico building, once a hotel and restaurant - now houses professional offices. This view is from First Federal of Seminole's new six-story,
