

## 50 Boys Report For Celery-Fed Football Practice

Fifty eager and willing Celery-fed recruits turned out for initial practice Monday afternoon at Seminole High School Field on Lincoln St. McLucas at once began putting the boys through their paces.

Practice began with the linemen working at one end of the field under Dick McLucas, who is giving six hours of his time to helping the boys in their training. This work consisted of working on the fundamentals of charging, blocking and tackling. The backs were at the other end of the field and their drill consisted of different types of running patterns, kick blocking and tackling. All returning letter men, said McLucas, have reported, with the exception of Andrew Hasty.

Coach McLucas also gave the boys a pep talk differing radically from that given to former teams in past years. In those days when the sole motive was to produce a winning football team, "Our country at war faces a situation of grave peril," said McLucas as the boys crowded around him attentively. "Our success in winning this war will depend more than ever upon man power. This country needs strong, healthy men and boys—men and boys who are rugged, tough and have stamina and endurance, fighting spirit and the will to win. We want to develop men who can stand the 110 degree temperature of the Libyan Desert."

### Braves Win 4-2 Victory Over Cubs

BOSTON, Sept. 15. (UPI) — A four-run eighth inning, highlighted by Mac West's third home of the three-game series, gave the Boston Braves a 2 to 1 victory Sunday over the Chicago Cubs.

Hill Lee, although not feeling well, pitched a shut ball for the Cubs through seven innings. After walking Silby Sisti at the opening of the eighth, Lee left the game because of illness and Bill Birnboim took over. After Sisti's walk, Nanny Fernandez beat out a bunt off Birnboim.

In the dry plains of Alaska, and who can go through the rigorous training required of the American Rangers. You boys have a wonderful opportunity to get in good physical condition by going out on the football.

Right now we are up against a big problem in the way of transportation. I do not know at the present time how we will be able to travel, as a bus is not available due to wartime restrictions and rules. However, I hope something can be worked out.

Another obstacle we are up against is that of securing new equipment. I do not know whether or not we will be able to secure any more, so you boys must take especially good care of what you already have."

### Cards Take Phils To Lead Idle Dodgers In Loop By 1½ Games

By JUDSON BAILEY Associated Press Sports Writer

PHILADELPHIA, Sept. 15. (UPI) — Both weary and nervous from their struggle with the Brooklyn Dodgers, the St. Louis Cardinals had to scratch yesterday to get in a 6 to 3 decision over the Phils.

But they made the grade with a great four-run rally in the ninth inning and increased their National League lead to 1½ games over the Dodgers as well as keeping alive their chance to move another half a game forward tomorrow while Brooklyn waits through two postponed games.

The Cards showed the wear and tear of their grueling series with the Dodgers at the end of last week and the doubleheader which they divided with the Phils. Catcher Walker Cooper was benched because of bruises and Capt. Terry Moore had to leave the game early because of a stiff leg.

Yet they made a confident start with a run in the first inning, and with Harry Gumbert pitching most of ball for four games. The crowd of 2860 fans enlivened an otherwise quiet afternoon.

Although Jim Pearson clamped down tightly on the Redbirds after the first, losing tally on Terry Moore's walk and a double by Eno (Country) Slaughter looked authoritative.

Then the tall-senders tied the score in the sixth on a single by Merrill May, a sacrifice, and another single by Ron Northeim, from that point on the game was as wild and weird as any ever perpetrated in Shibe park.

The Cards regained the lead without a hit when three errors gave them a run in the seventh. The Phils then got a walk-off home run out of the box in the first half of the same inning, scoring twice on four single, and finally with one out in the ninth the Redbirds rose on a mighty rampage that brought four runs on four hits and three errors.

During this exciting both managers came back with pitchers they had used yesterday and Howard Kistit benefitted by getting credit for his 13th victory against three defeats.

John Boland, who had pitched a hitless ball for the Phils in the eighth, was the victim of the final uprising. After getting Jimmy Brown out he was tagged for a screaming triple by Harry Walker and Slaughter followed with a single that tied the score.

This caused Manager Hans Leib to call out Tommy Hughes, who had whipped St. Louis with three hits in the first four games. Hughes, however, was a Julie now. Slim Musil clammed a double into right field and Slaughter was safe at home when Catcher Tommy Livingston dropped the throw.

Musil moved to third on the play at the plate and scored on a single by Ken O'Dea. Sam Nahem replaced Hughes and First Baseman Nick Ely immediately muffed a grounder by Johnny Hopp. Then Harry Kuroki and Hopp, but Second Baseman Danny Murtaugh threw wild trying for a double play and O'Dea came home.

### Rolling To Donate Proceeds Of Games To Army Relief

The tickets are all tax paid. In addition, a special block of reserved seats for all three games are on sale at the Seminole Hotel, Ruthland's Men's Store and several other Orlando businesses. These tickets may also be ordered by mail from Dr. Merle Mallory, Box 2929, Orlando. Dr. Mallory is chairman of the 10 et 8 committee of the sponsoring American Legion Post 19, Orlando. Checks and money orders should be made payable to "Army Emergency Relief Fund."

### PEPIZ'S AIDE INDUCTED

CAMP BLANDING, Sept. 15. (Special) — Rollie Collier has set a precedent unequalled in the annals of United States football by voluntarily offering to donate all proceeds of his home games in Greater Orlando Stadium to the pressing needs of army emergency relief.

The Tars, boasting one of the best teams of history, have booked three tough gridiron foes into the 10,000 seat structure to entertain Central Florida's football fans and provide funds for soldiers desperately in need of funds through illness or emergency as pension at home.

The first of these games will be Saturday night, Sept. 26, against A.A. title claimants.

The second game will be Saturday night, Oct. 10, against the powerful Washington and Lee Generals of the Southern Conference. The final battle is booked for Saturday night, Oct. 31, against Chattanooga U. of the Dixie Conference.

Although Jim Pearson clamped down tightly on the Redbirds after the first, losing tally on Terry Moore's walk and a double by Eno (Country) Slaughter looked authoritative.

Tickets for the game are scaled from 50 cents for students and soldiers; 75 cents general admission and \$1.25 for reserved seats.

Get ready for Fall by sending your garments here for quality cleaning. Your clothes will take on new life after going through our plant.

## Reds Yielding At West Gates Of Stalingrad

### Nazi Claims Of Shock Troops In Streets, Captured Railways, Still Unconfirmed

LONDON, Sept. 16. (AP)—The BBC Monitoring Service is reported today to have picked up a Tokyo broadcast stating General Shigeru Hata, Japan's commander-in-chief in China, declaring, "The East Asia war is about to take an important step in re-operation with the European war."

This might be the invasion of India, or an attack on Siberia timed to coincide with the fall of Stalingrad.

LONDON, Sept. 16. (AP)—The Madagascar radio today announced that French Maroccais are landing in the British to end hostilities on the island and open negotiations.

(By Associated Press) Russia's armies yielded fresh ground at the bloody western gates to Stalingrad today but after 24 hours there was still no confirmation of Nazi claims that German shock troops were fighting in the city's streets, and that they had captured the main Stalingrad railway station.

Elsewhere slowly contracting arc of defense, the Russians declared to be holding firmly against the avalanche of battle-stained Nazi veterans and reserves.

Around the Volga industrial center the Germans claimed considerable additional ground gained and said the Russians were attacking in force at Riazan and Voronezh. In the other two towns, Stalingrad and Moscow, Stalingrad is shrouded in smoke but the railways are still operating on a 24-hour basis despite incessant aerial attacks.

The Red army defending Stalingrad has smashed successive assaults by fresh German troops west and southwest of the embattled city, which already is in flames from steady Nazi direct fire raids, it was announced officially.

Although the Germans succeeded in advancing yesterday southwest of the city, the Russians later threw them back in a counter-attack which disabled seven Nazi tanks and dispersed two infantry companies, the midnight communiqué said.

West of Stalingrad "repeated attacks by fresh German troops and tank forces also were repulsed," the communiqué said, and one Russian unit which fought for one inhabited locality "destroyed three German tanks, five guns, and wiped out more than 350 enemy officers and men."

In the Moscow area of the Caucasian foothills the Russians also announced successful Russian defensive fighting in which one unit destroyed eight German tanks and four armored cars dislodged the enemy from two populated places, and captured a train carrying German officers and troops.

### General Mobilization Is Ordered In Brazil

RIO DE JANEIRO, Sept. 16. (AP)—President Getulio Vargas declared mobilization throughout Brazil. The nation declared war on Germany and Italy on Aug. 22 after intercepting heavy Axis ships in the Atlantic Ocean. The Brazilian air force has helped the Allies combat the enemy over the South American field since 250,000 infantrymen afield.

### Willkie "Floats To Baghdad On Carpet"

BAGHDAD, Iraq, Sept. 16. (AP) (Delayed)—Like Slobodan the Waller, Wendell L. Willkie floated into Baghdad on a magic carpet, he said yesterday.

"The modern thieves of Baghdad, he said, "have stolen my heart and when peace again comes to the world I am going to come here to enjoy these delightful Arabic nights."

### Survivors Land In Wilton

WILLEMSTAD, CURACAO, Dutch West Indies, Sept. 16. (AP)—Survivors from a sunken United States naval transport, which were brought here to safety, arrived at the Dutch colony.

According to the U. S. Office of Navigation, the vessel, enrollment No 1841-46, is \$1,500,000.

## Wounded in U. S.-Jap New Guinea Air Battle

Capt. Frank B. Bender of the U. S. Army Air Forces is shown as he is about to be lifted into a plane, somewhere in New Guinea, for transport to the mainland for treatment of a leg injury he suffered when the bomber he was flying over Buna caught fire after being attacked by Jap planes. Bender tried to escape through the pilot's emergency hatch but it was sealed. Before he could free himself the plane exploded and he was blown through the hatch. Bender didn't lose consciousness and parachuted to safety. Comrades carried Bender to an American base. This is a phonograph.

I have sheltered a million wings,  
A forest of wild and gentle things.  
I walk my wood alone.  
The forest is empty, the birds are  
flew.

The riders follow the yapping  
pack.  
A small fox wheeling, doubles  
back

To cover the scent of his fear.  
Little fox, it is that you hear,  
It is I! In the bracken,  
Tired, and torn, and shaken.

I follow where the caged black

My own defeat is mirrored in  
his eyes.

Claire Booth Luce has been  
nominated by Connecticut Repub-  
licans for Congress. She is the  
89 year old wife of Henry Luce,  
publisher of Time and Life Mag-  
azines.

General Pershing, American  
military chief in the last war,  
celebrated his 89th birthday the  
other day. Most of the other  
great generals of that war are  
now gone.

Eddie Rickenbacker says the  
nation needs an army of 20,  
000,000. At the close of the last  
war we had some five million  
men in uniform. There's a big  
difference.

A Coca man says that he  
knows having money won't cure  
your worries, but he figures that  
at least you can worry in more  
comfort with money. — Coca

that wasn't paid for?

Appeals for reduction in long  
distance telephone calls are not  
meeting with unqualified success.  
We got one the other day. A  
woman's voice in dulcet tones  
cooed, "Hello, Daddy," only to  
discover she had the wrong num-  
ber.

In Nazi dominated France men  
and women are being forced to  
work in war industries whether  
they want to or not, whether they  
like that kind of work or not. Worse  
than that, Frenchmen who have  
not left their home soil in genera-  
tions are being transported to  
Germany to work in Nazi fac-  
tories, whether they like it or not.  
In this country men still have  
the right to choose their own type  
of work, and, unfortunately, having  
once gained that work, to strike.

Henry Morgenthau finally  
came out in favor of "forced  
savings" and said that it would  
be a wise purchase of war bonds. Ed  
Rosenstein cannot do the trick. Isn't  
it funny? The government fore-  
sees corporations to pay higher  
and higher wages and then has  
to resort to "forced savings" in  
order to borrow money from these  
men. How much easier it  
would be to "force" the  
corporations to lend the money  
to the government in the first  
place or to get it permanently  
from taxation.

**Constitution Day**

Tomorrow is Constitution Day and although the charter of our liberties has been so twisted and torn in the last few years it is wonder no one has attempted to salvage it in the scrap drive, the occasion is being widely observed. From coast to coast over the radio and through the columns of the newspapers the people will be told of the priceless heritage which we have in this old document which came to us from the fight over a tax on tea.

The Constitution guarantees to each and every one of us the right to think, to talk, and to write as our conscience dictates. But of course our Founding Fathers did not suppose that anyone would be so foolish as to allow his conscience to tell him to think things not in keeping with the spirit of the times or to write or talk about things which would not be popular or which might offend those who happen to be in power at the moment.

The Constitution provides us with a certain amount of religious liberty—that is, it says we can worship God according to our own choosing, or not at all, we suppose, if we feel that way about it. But those who drew up the Constitution had never heard of Jehovah's Witnesses and would not have supposed they would be so foolish as to refuse to salute the flag if they had.

And the Constitution says something about state's rights and reserving all power to the states not expressly granted to Congress and about not depriving a man of his private property without just compensation, and about the independence of the three separate branches of government, and a lot of other things, all of which the people know and no doubt will be reminded of in tomorrow's oratorical outpourings.

But fortunately for us in this country, we know that however necessary it may be to set aside the Constitution for the moment, we can resurrect it again and restore it to its former pristine glory when the occasion for its internment has passed. In this respect we are more gloriously blessed than the peoples of other nations.

**The Choice Part**

A shady "financier" went to a thriving town in Iowa, organized a number of stock companies, started a bank, deposited all the money of the companies in his own bank, and then promptly went into bankruptcy. A few of the principal losers called on the supposedly insolvent promoter to determine if anything could be salvaged from the wreckage. They found him enjoying the luxuries of a magnificent apartment.

"I regret very much, gentlemen," he mourned, "but I have practically nothing left. My wife owns this house and some business property, but I have nothing. Believe me, if I could do such a thing, I would give you my body and let you divide it among you, for there is nothing I can give."

"What's that proposition?" asked a rather deaf old gentleman who was standing at the back of the mournful company.

"He says that we can take his body and divide it among us," someone replied.

"Well, in that case," said the deaf old gentleman in a loud voice, "I speak for his gall."—Wall St. Journal.

**Orders Is Orders**

Hitler beat his chest and loudly protested when Goebbels tried to tell him he was losing his hold on his subjects.

"I'll prove to you that my subjects will obey me without question," he screamed. "Come with me."

Leading Goebbels into a munitions factory where lean and hungry men were sweating at their labor, Hitler ordered one of the men to approach him.

"Now I'll show you," Hitler muttered to Goebbels, as he drew his pistol from its holster and handed it to the laborer.

"Shoot five of your comrades right now!" Hitler barked.

The worker coolly, without question, obeyed the order.

Five shots rang out and five German workmen fell dead.

"That's good," Hitler praised the man. "Tell me, my man, where are you from?"

"Warsaw, Poland," the worker replied.—Your Life Magazine.

**Oddities**

Two nit-wits out in a boat found the fishing good. Said one, "Let's mark the spot," and getting out a piece of chalk, placed an "X" on the bottom of the boat. Rowing back to shore, nothing was said until his pal pondered, "But supposin' we don't get the same boat tomorrow?"

This brings to mind the fellow at a sanitarium, who, after standing a long time at the foot of a ladder, told the painter, "Take a good hold of your brush, I'm taking the ladder away."

And then there was the radio announcer's daughter, who, in asking grace, said, "This food comes to you through the courtesy of God Almighty."—Ray of Sunshine.

**TOO LATE TO CLASSIFY**

By RUSSELL KAY

Many people are viewing with alarm the increasing number of fatal accidents reported in connection with military aviation. They point out that right here in Florida hardly a day passes but one or more such accidents are reported. The public is worried and fear that the nation applies throughout the nation.

I have attempted to gather some authentic information on this subject and while military regulations naturally prevent actual figures being released, I have gathered some basic facts that make sense and should serve to relieve the public mind at this time.

While it is true that such crack-ups occur with increasing frequency, with the attendant loss of precious lives and much needed aircraft, it is equally true that any family or caretaker in the part of those charged with our training program or with the equipment in use.

Many readers will be able to recall the early days of the automobile. While some of the early cars were built to last, many others were not. The limited number of service stations and repair yards were few and far between.

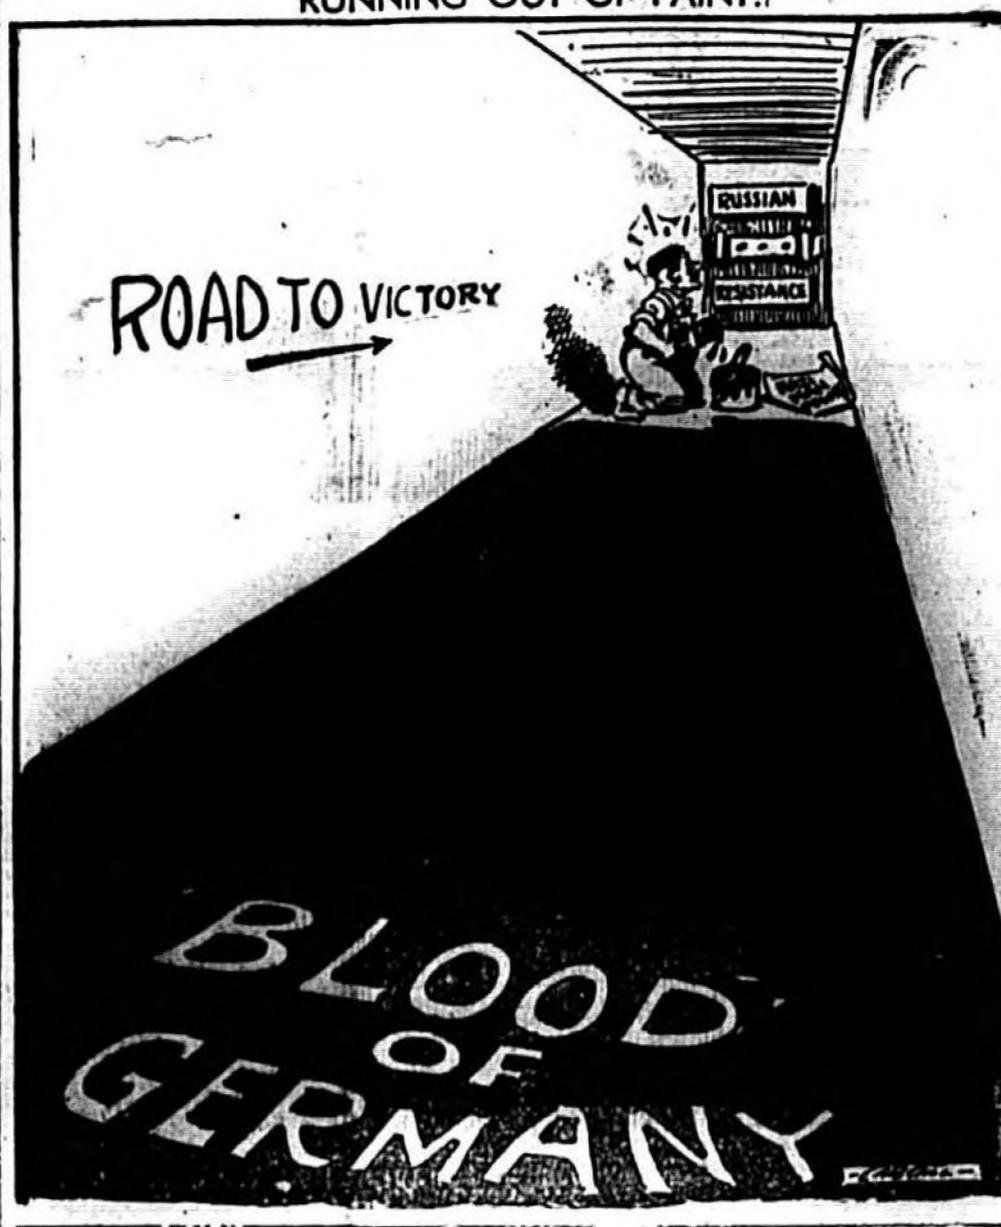

Today we have a great many more auto repair men in the County to meet the October 1st call and parts of the County will soon be those men who no longer live in the County. Their support line in November, or December, the first month of the new year.

## RUNNING OUT OF PAINT?

State Leads In Army  
Engineer Contracts

ATLANTA, Ga., Sept. 16, 1942.—(Special) For the fourth consecutive week, Florida led the rest of the seven southeastern states in the number of Army engineer contracts let with a total of 23 for the seven day period.

On Sept. 2-9, it was announced today by Headquarters, Fourth Service Command.

Georgia was second in number of contracts let with a total of 15; Georgia had 11; South Carolina and North Carolina, 10; Tennessee, 4; and Alabama, 2.

In itself a tribute to the thoroughness and care being exercised in connection with the training program.

As regrettable as unfortunate as these accidents are, it is impossible to conduct our training program on the present scale without some loss, but as I stated before, it does not call for undue alarm, for, considering the number of planes in the air, the record is better today than it was a year ago.

Another thing for Floridians to take into account is the fact that this state today is one of the outstanding air raiding areas. This naturally means that more such accidents are recorded here than elsewhere. To assume that the air aviators in this state are with less reason in those states in the union is without base or reason. In those areas where there are no large aerial training centers it naturally follows there are no accidents.

Perhaps you have heard that American planes are inferior to those of other nations, that they are more difficult to fly, or are more prone to disintegrate.

We sincerely hope our enemies believe this and continue to believe it. But when a Flying Fortress returns to its base after fighting off 12 enemy planes, our fighters keep knocking Jap Zeroes out of the skies at the rate of three to four per plane downed.

Again considering the motor car accident problem. Every individual in the community of drivers is faced with the problem of the number of planes in the air and the percentage of accidents today is less than a year ago.

ON THE WAY UP—June Storay doesn't seem to mind her difficult climb.

Jacksonville, Fla.—The "gang" decided that "if the Philippine kids can do it, so can we." Formed into the Junior Commandos by "Admiral" James Pester, they pledge themselves to make raids on scrap piles and sell War Bonds. COMMANDOS  
JUNIORS AND  
THE REAL THING

ARMY MANEUVERS SCORE A DOUBLE—Louisiana—Pals all are a soldier and his dog and a boy and his dog. While Pvt. Harry Gonzalez of Dallas, Texas, recruits the son of Mrs. Tom Tiller of Aransas, La., clutches his terrier plamate and also his tiny "shootin' iron."

THE "STRAY" BECAME A BENCH SHOW ENTRY—A dirty, flea-bitten, mangy, wire-haired terrier wandered into the yard of the Elmer Kaufmann residence a few months ago. Six-year-old Mary Ann dropped her dolls and toys, and took the dog home. She has since adopted a dog of her own. In a few days, the dog was put into good condition. Micky was just the right age for training, but seemed determined to mind no one except Mary Ann. So Mary Ann took him in hand and now the once mangy wanderer is to appear before the Mississippi Valley Kennel Club's bench on the Steeple Chase grounds.

CHARM ATTIRE—New York, N.Y.—(a) A bit of black magic to bewitch us females! Male feelings. This pair of matching pyjamas is constructed of soft rayon jersey for a sumptuous touch that is as flattering as a love affair. You can even have a slip and gown to match. (b) A bed-time story in tailored charm. The rayon jersey is a marvel of softness. (c) Bedtime pyjamas were silk or rayon before the blitz. Double stitching trails dreamily across the front. (d) Lazybones and reader-slippers go for this quilted bed jacket in a big way. The rayon jersey takes to water like a champion, never needs ironing, and packs into tiny corners.

VETERAN HURLER JOINS THE ARMY—Ted Lyons, veteran White Sox Ace, has enlisted. He had been with the Chicago team all but his entire baseball career since leaving college; and has won 256 games in that time, while losing 220.

A HOUSEHOLD DEVICE FITS A WAR NICHE—London—That famed and often indispensable household appliance—the sewing machine—fits into the war picture, too. It is a 1942 balloon weapon used to repair small rents in the big barrage bags which float over London.

BACK TO DIAMOND TO AID THE ARMY-NAVY FUNDS—New York, N.Y.—Baseball fans attending a recent Washington Senators-New York Yankees doubleheader at Yankee Stadium got a thrill from the exhibition put on by this great foursome in between the games, for the benefit of the Army-Navy relief funds. Left to right: Walter Johnson, baseball king of yesterday; Benny Bengough, catching Immortal Billy Evans, and of the greatest umpires ever to call a play; and Bob Feller.

The crew of this Flying Fortress of the American Army Air Forces had a close call with death, when it crashed as it was taking off from a United Nations air base in New Guinea for a raid on Jap held territory.
