

Gators See Plays Of Villanova In Practice Session

GAINESVILLE, Oct. 2.—(Special)—Their practice field wet and soft from sporadic drizzles of rain throughout the afternoon, Florida's Gators took things easy Monday as they opened their preparation for their game with Villanova here Saturday night.

Since 36 of the 38 squad members played at least some time against Tampa Saturday, Coach Tom Lieb gave all the men light working during the two-hour workout.

The Gator mentor was apparently well satisfied with the showing made by his team and Florida stock has risen considerably since Mississippi State beat Alabama 14-0 Saturday two weeks ago. The Orange and Blue held State to a 6-0 verdict.

Realizing that the contest with Villanova will be an offensive battle Lieb spent the major part of the afternoon working on new plays for the team.

McCarthy Is Happy Over His Victory Against Dodgers

By CHARLES DUNKLEY
EBBETS FIELD, BROOKLYN, Oct. 2.—(Special)—Joseph Vincent McCarthy, kindly 34-year-old leader of the victorious New York Yankees, was the happiest man in the baseball world Monday.

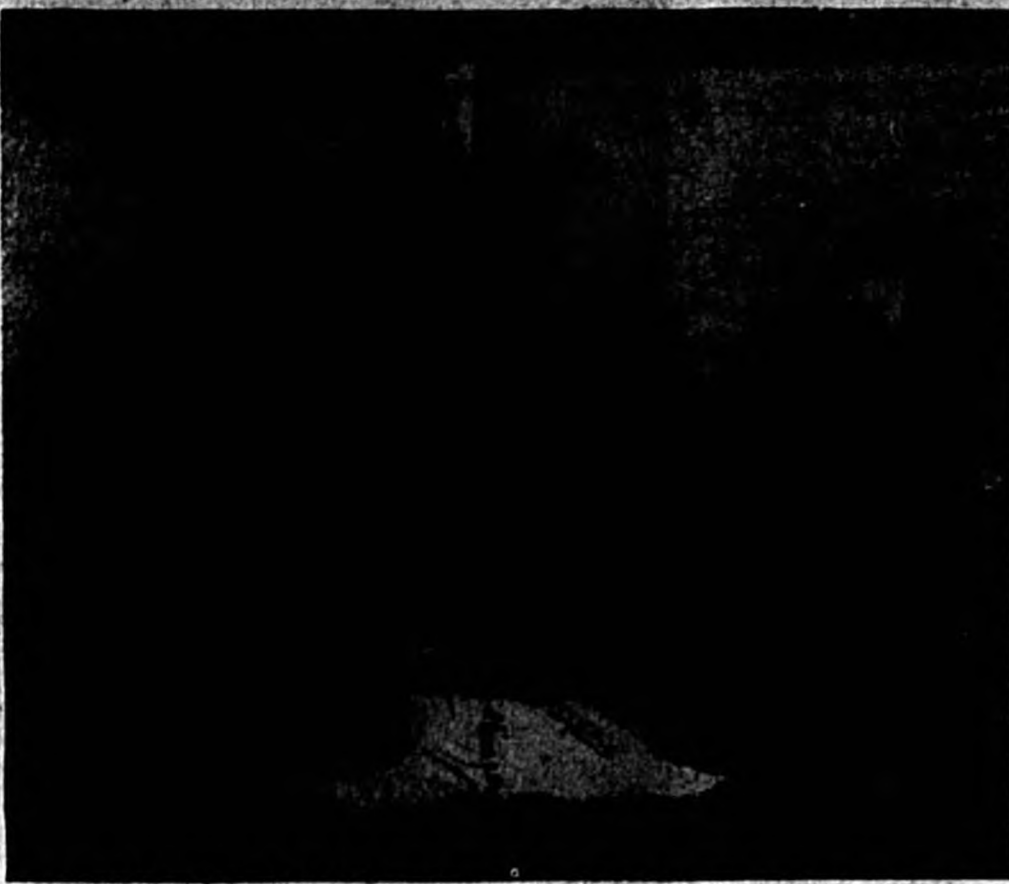

Leo (The Lip) Durocher, former manager of the vanquished Dodgers was the most disappointed one.

McCarthy proudly admitted he was happy over the achievement of his mighty Yanks in beating the Dodgers three straight nights in their own backyard and presenting him with his sixth world championship in the 11 years that he has managed the club.

The triumphant Yankees burst out in a tremendous wild demonstration the instant they hit Art Fletcher, drizzled veteran coach, jumped on a trunk, pulled off his cap, and burst out with the familiar old "On the Biceps of New York."

The Yankees joined him, singing at the top of their voices. While the joyous Yanks entered the room to embrace Pitcher Ernie (Tiny) Bonham, who held the Dodgers to four hits, McCarthy jumped on the 230-pound pitcher's back, and rode around the room for a few seconds.

By this time the room was crowded to overflowing with well-wishers, reporters and photographers. Huge floodlights had been set up to make movies, and the stuffy room was sweltering hot. William Harridge, president of the American League, shook-

Dolph Camilli, Dodgers first baseman, raises a cloud of dust as he slides into second base after hitting a double off the right centerfield screen in the second inning of the fourth world series game at Ebbets Field, Brooklyn. Rizzuto, Yank shortstop, went down as he tried to make the putout.

lected ball-handling; the linemen spent their time on mastering new blocks called or in pulling out other blocking chores.

Shortly before dark the whole squad was called up for dummy scrimmages of the new plays which increase the versatility of the Gator attack displayed against the Spartans.

Line Coach Sam McAllister returned Monday with the scouting report on Villanova's 33-6 win over Centre Saturday night and indicates the Wildcats are an improved ball club over last season.

Coach Clipper Smith used five different offensive formations in downing the Kentucky eleven including the popular plinker and man in motion setups.

Most of the men who took part in the 25-0 win over Florida last season are back and are reported to be greatly augmented by J. E. Fozelski and Ziggy Bamlynaki, sophomore backfield flashes.

The freshmen will get their first look at the Villanova formations in a drill at 12:30 today so that the varsity will probably see their first defensive work this afternoon.

Rollins Tars Are Driving Hard For Game With Miami

WINTER PARK, Oct. 2.—(Special)—With but ten days remaining before their big game of the year with the Miami Hurricanes, Jack McDowell's Rollins Tars are driving relentlessly away in practice sessions at Harper-Shepherd Field here.

Miami showed tremendous promise and power in crushing Elen Friday night, 38-0 and the Tars, with a green team from end to center, are faced with the prospect of a decisive reverse unless they can curb the dynamic down-state backs.

McDowell will not have a single letter man from last year in any of the end or tackle spots and the guard spots have been weakened by the conversion of Frank Grandler, last year's all-Florida team member, into a blocking back. Mervyn Thal, 210 pound tackle replacement who was counted on to do yeoman's work this season, has been out since the first day of practice with a bad knee and is not expected to be in uniform for the Miami game.

The first team showed little promise in Saturday's practice game with the freshmen and it is evident that the continued heat is taking its toll of the Tars. Quentin Blitt, sensational sophomore halfback, spent the weekend in the infirmary with a bad chafed knee but may be in shape to play against the Hurricanes.

Jacob L. (Jack) Webb, a great-grand grandson of Commodore Cornelius Vanderbilt is shown with his bride, the former Lenore Lemmon, prominent member of New York's safe society, following their aerial elopement to Charleston, S. C., and marriage at Monks Corner. Webb had been reported engaged to socialite Vivian Stokes.

ded his way through to congratulate McCarthy.

Durocher, minus his pants, came in from his own dressing room, which adjoins that of the Yanks, to offer his congratulations. Then in came Edward Barrow, president of the Yanks, making his first dressing room appearance of the season.

"I couldn't have lost to a better guy," said Leo (The Lip).

McCarthy's Irish brown eyes twinkled with happiness.

"I am very happy to be the manager of a great ball club. The Yanks are a game club and I think we beat a good, game team."

Bowling League Opens Tonight With 2 Matches

First match of the Sanford Bowling Club will be held tonight at the Sanford Bowling Center with the Lucky Boy team playing the Coca Cola team and the Dr. Pepper team meeting the E. C. Cola group.

At a special meeting held last Thursday night officers of the club were elected with Paul Petrol as president, Bill Jennings as vice-president and Bill Thorne as secretary. Team captains were also chosen for the eight groups to be entered in the competition this year.

Mr. Thorne will head the Lucky Boy team. Mr. Petrol, Coca Cola; Roy Holter, Dr. Pepper; Herbert Moses, E. C. Cola; Gene Bauer, Bob's; George Petrol, Gulf; Gene Katridge, Pepsi Cola and Bill Jennings, Grapette.

Wednesday night the teams of Bob's and Gulf will meet while Pepsi Cola and Grapette will compete the same evening.

All bowlers wish to thank the sponsors for this grand league being sponsored in Sanford and give the same thanks to Forest Taylor owner and operator of the bowling center, for giving a healthful and delightful place to bowl," Mr. Thorne said.

Night Games For High Schools Are Banned In Ohio

DAYTON, Ohio, Oct. 2.—(Special)—Night football games between scholastic teams here were banned Monday in the wake of boisterous downtown demonstrations by an estimated 5000 rooters Saturday night.

Emerson H. Landis, superintendent of schools, said the demonstration was an enlargement of one which occurred a week ago. After imposing the ban, Landis said he would confer with police on means of preventing any recurrence.

Police Capt. W. G. Colvere said several students were taken in custody to break up the latest demonstration and released when order was restored. A crowd of "young and old" rooters threatened to invade police headquarters during the celebrating.

Four Dayton high school teams played Saturday night. Champlain beat Rossview, 28 to 6, and Fairview defeated Silver, 13 to 0.

Miami Edison Leads Big Ten Grid Race

JACKSONVILLE, Oct. 2.—(Special)—Miami Edison, last year's champion, looked more than ever like a repeater in the Florida Big Ten high school conference title race Sunday following a convincing 15-0 victory over London, of Jacksonville.

That put Edison atop at the moment with one victory and no defeats. Next with one victory and no defeats are Plant City, Orlando and Lee, of Jacksonville.

In other weekend games Orlando beat Gainesville, 10-3. Plant City trounced Jackson, of Jacksonville, by the same score and Lee won a 25-0 drubbing from Miami Senior High, potential state champion although not a conference member. Thus Lee's conference rating was not impaired although his prestige was dimmed considerably.

Cotton Estimated 11 Million Bales

WASHINGTON, Oct. 8.—(AP)—The Agricultural Department estimated today that the cotton crop in 1941 is 11,000,000 bales of 500 pounds gross weight based on the Oct. 1 condition which was 81 percent of a normal acre yield.

The department reported an indicated yield of 100 percent of the 1941 crop to be 23.42 million bales, an increase over the 22,633,000 bales of 1940, when the Oct. 1 condition was 72 percent of a normal acre yield of 55.25 pounds.

New Offensive Is 125 Miles From Moscow

Nazis Report Battle Of Annihilatic Against Defende Of Capital Ci

Soviets Admit Heavy Attack

Gateway Leading T Rich Caucasian O. Fields Threatene

German armies driving toward Moscow in a great new offensive have reached the Soviet defense lines and are fighting a battle annihilation only 125 miles from Moscow, the German high command said today.

The Nazis said the entire south wing of the Soviet Army was broken by the drive engulfing Orsk and Marulup, and threatening Rostov, gateway to the rich Caucasian oil fields.

The Soviets admitted great masses of Germans are attacking the central front in an all-out offensive, but claimed counterattacks inflicted heavy losses to the invaders.

Turkish dispatches quoting diplomatic sources said the Germans are moving large masses of troops and tanks from Bulgaria and Greece, apparently bolstering the push along the sea of Azov.

German planes struck southwest England and South Wales, and the British acknowledged a "bad weather" block of R. A. F. fighters.

The Germans appeared to be beating slowly forward last night along the far approaches to Moscow in perhaps the most important battle of the eastern campaign, and they claimed as well that the Donets river basin in the Ukraine had been outflanked by a long advance which also menaced the equally important industrial area of the Don valley.

While Moscow was speaking of the Nazi thrust at the center as Hitler's supreme offensive, Berlin implied that it was but one and the greater one of two coordinated grand smashes.

German accounts, in fact, stressed this second all-out thrust, that of the far south.

It was claimed that the southern Nazi armies, having won a major battle about 100 miles east of the Don valley, had raced on to the east to meet the equally important industrial area of the Don valley.

All this, the Germans asserted, left the Donets basin "virtually indefensible" and Rostov itself and the valley of the Don generally open to imminent attack by the invaders.

The general picture drawn by military dispatches from the central front was of a Red line pierced here and there over an immense area by small Nazi salients in violent attacks spread over many miles.

In its communications early this morning the Soviet command for the first time stated the exact areas of this heavy German offensive action, reporting particularly heavy fighting in the region of Vyazma, 150 miles west of Moscow, and Bryansk on the Donets River some 200 miles to the southwest. The towns are about 140 miles apart.

The Soviet leadership plainly implied to the people that here in the theater before Moscow the gravest hour of the German invasion had fallen.

"The enemy" said the official organ of the Russian army, "has gathered all his forces to break through. We must answer by a crushing blow. At any price destroy German tanks, planes, guns and manpower.

Mussolini Issues Death Crime List

ROME, Oct. 8.—(AP)—Premier Mussolini Tuesday night decreed the death penalty for plotting against the state in all Italian-occupied territories.

Commander of Italian troops on all fronts, Mussolini issued the decree dated Oct. 3, fixed the death penalty for the following crimes: plotting against the state; aiming at disturbing the unity, independence and integrity of the state;

Destroying, plundering and massacring aimed against the security of the state;

Promoting, leading or participating in armed insurrection against the state;

Organizing or leading associations of violence or other order of subversion of the state; Terrorism or political crimes leading to great public danger;

Causing damage to communities or public services.

Butter Prices Go Down On Market

CHICAGO, Oct. 8.—(AP)—Cash butter in the wholesale market and futures prices on the Chicago mercantile exchange declined Tuesday on disclosure that production was planning above last year, arrival of Argentine butter in New York and a contraction in major market.

The Dairy Products Marketing Association, government-financed agency, acted to support the one-cent of 89 cents butter which was 22.1-4 cents a pound, off 1 cent from yesterday.

The Department of Agriculture reported that improved pastures and continued heavy feeding in major producing states have tended to retard the seasonal production decline.

Motor Lost At Bottom Of Lake In Boat Regatta Is Recovered

After making ten trips to Lake Conway, Orlando in the past four weeks, Gene Linder recovered a Johnson 24-horse power motor last Thursday which was lost overboard from his "Speed Run-a-Boat" boat when the steering cable broke and the motor fell away from clamps holding it to the boat.

Linder and a friend, Gene Lawrence, were participating in a regatta at the time the motor dropped to the lake's 80-foot bottom. That same afternoon both men were diving many times into the lake trying to reach the motor, all to no avail.

Hoarding Aluminum Checked In Plants

WASHINGTON, Oct. 8.—(AP)—A plant-by-plant check of aluminum supplies to uncover possible cases of hoarding of aluminum and misuse of preference-rated supplies of the metal was started by the government Tuesday.

Donald M. Nelson, priorities director, borrowed inspectors of the wage and hour division to conduct the survey. Their work, he said, would be carried on simultaneously with routine inspection of each plant for wage-hour enforcement purposes.

"Information in the hands of the priorities division indicates that a number of violations have occurred," Nelson said in a statement.

More Weary Troops Arrive At Blanding

CAMP BLANDING, Oct. 8.—(AP)—Some 12,000 travel-weary troops of the 51st and 43rd divisions rolled into camp Tuesday in two 48-mile long convoys, bringing the total number of men returned here from the Louisiana maneuvers to about 18,000.

Slightly more than 18,000 still are on route. They are expected tomorrow and Thursday.

More than 8000 vehicles made up the eight convoys. The men will remain here until they go on other army maneuvers in the Carolinas in November and December.

There are four Naval Training Stations where Naval recruits are trained before going aboard ships or ashore. One of the Training Stations is at Newport, Rhode Island; Great Lakes, Illinois; Norfolk, Virginia; and San Diego, California.

REALITY (From The Saturday Review of Literature)

That it never was, or rather say that it was long, oh very long ago. And time has dimmed that As-tet market day Beside the flowered raft of Mic'co.

Or say it's never been, but yet will be a hundred thousand centuries from now Upon the border of a frozen sea When ice has sheathed the last frail, spiny bough.

Or say it's now I'm leaning to your face In some strange twilight on the planet Mars, Or that we fill the interstellar space Beyond the light-years of the spiral stars.

There is no house, there is no street, no street, no street, Dust and the dusty clay of human toil Are heaped in formless patterns at my feet.

Then young when we were old The men are gone they might have sheathed from heat. The neon lights, the stores with parking lots, The movie palace with its restless queue, The traffic signals, throwing vivid spots— Where they had been, the oaks And I was walking with an unseen you.

This world of things we see and touch and hold is rotten in its wall, and it will sink. Then let the tree roots feed on rotten mold. Look at the ruin, beloved, do not shrink: Your spirit and our love will not grow old.

Nor meet the death these man-made things must know, For when the oaks and spruce, Old are blown away, any wind to lie in heave below. And men return, the words we have known Will be with them. They shall not be alone.

Paint Up-Clean Up

All signs point to one of the best tourist seasons this coming winter that Florida has ever had. The fact that the nation is facing an international crisis and that defense industries are booming as the country gears for war affords no proof whatever that people will be too busy to take time off for a vacation in Florida.

Sanford is continuing efforts begun last winter to induce Florida's visitors to stop in this city, if not for the entire winter, at least for a small part of their vacation. The Chamber of Commerce will spend more money in the next few months advertising Sanford than during the previous ten years. Every conceivable effort will be made to fill Sanford's hotels and rooming houses.

In recent years one of the most favorable comments heard about Sanford from winter visitors has been on the cleanliness of Sanford. The city has been doing a splendid job in keeping our streets and sidewalks clean, in taking care of parks and parkways, in removing unsightly signs and structures. Private citizens have been co-operating to a fine degree in taking care of their own premises.

As another tourist season is about to begin, The Herald hastens to remind its readers of the importance of maintaining this reputation which we have already achieved. Now is the time to get ready for winter. Now is the time to make Sanford the talk of all winter visitors coming to Florida. Sanford should be the neatest, cleanest, most orderly and well kept city in the state.

Everyone can co-operate in this great civic project by seeing to it that his own front yard is planted in grass, that it is kept mowed and reasonably free from weeds, that the parkway in front of his home is also properly taken care of and that the vacant lot next door, if there is one, is also cleaned up often enough to keep it from becoming an eyesore.

Now is a good time to have your house painted before the winter season sets in. Don't say that you can't afford it, for if the house is yours and it needs a coat of paint, you cannot afford not to. There is no economy in letting a house go too long without paint or otherwise deteriorate.

Also get yourself a package of annual seeds. They only cost a dime. And if you professional gardener on the back, you don't have to be a professional gardener to make them germinate and produce sufficient plants to give an entirely new appearance to your front lawn. You will get a lot of pleasure out of seeing them grow and you will be doing your part to make Sanford beautiful.

So let's clean up and paint up and get ready for a prosperous winter season.

An Ignorant Report

Harold Colee, of the State Chamber of Commerce, has rightly demanded an apology from Aubrey Williams, director of the National Youth Administration, for a statement attributed to a minor official of the organization regarding the mental and moral attitude of the people of Florida. Mr. Colee's demand should be backed up by every loyal son of his state until the highest officials in Washington realize that whether our school superintendents can read and write or not, everyone else can.

The charges of this field representative of the NYA, as related and retuted by the Miami Herald, were as follows:

"1—It is quite common to find county school superintendents (in Florida) who cannot read or write. (The truth: Candidates for school superintendent in Florida MUST have a college degree before their names are allowed to go on an election ballot.)

"2—There is one county in Florida with only 118 residents, 45 of whom are members of the same family. (The truth: No county in Florida has fewer than 3,000 residents.)

"3—South Florida is an uninhabited swamp, except for Everglades is an agricultural empire rivaling the Valley of the Nile; the sugar bowl of the nation; greatest bean-producing area in the country.)

"4—There are a lot of cowboys and cattle in mid-Florida, but cattle are required to stand in water from 6 inches to a foot deep most of the year. (The truth: Florida is the third state in the Union in cattle production, and such cattle standing in water as the NYA representative might have seen were there because they were enjoying a siesta.)

"His unwarranted strictures upon the morals and habits and living conditions of Floridians are wholly without any foundation in fact, a circumstance which any fourth grade school child could discover without even a perfunctory search into the record.

"The letter of this NYA man (Roswell Ward is his name) is shocking enough, but even more shocking is the fact that he was able to pass an examination that led to appointment as field representative of that governmental agency.

"His ignorance is so abysmal that it is appalling to find a man of his stripe engaged in a service designed to help the youth of the nation towards a career."

While I have lived in Florida many years, have visited its business cities, its towns and its busy cross-roads, I have not seen a single automobile with a high powered motor, nor this quiet, unobtrusive, powerful wealth of materials which in the very depths of its wildest Everglades, found pleasure on a lake and grass-fringed pool, earned to understand and appreciate its climate. It is a true Florida, a Florida that is not a mere name, but a reality.

Last Troops Arrive From War Maneuvers

(AP)—The Headquarters and headquarters battery of the 74th Field Artillery returned here today from Louisiana maneuvers where they were part of the "tank-killer" group which - theoretically - blasted tank after tank into something less than junk.

Brig. Gen. Ira T. Wyeche took the unit to maneuvers where he assumed command of the Provisional Anti-tank Group during the period. He returned yesterday to take over the 74th with its 4,500 officers and men to prepare them for possible participation in the Carolina maneuvers. The 74th would leave about Nov. 1, going to the maneuvers as Corps Artillery, not as a part of the anti-tank group.

The 74th itself did not participate in the maneuvers. Only its battery took part.

Five New Hostesses Approved For Camp

(AP)—Two new entertainments have just been approved for duty at service clubs and cafeterias here.

Mrs. Evelyn S. Peddicord of Birmingham, Ala., has been approved a senior hostess, Miss Christine Ricketts of Starke, a junior hostess and junior cafeteria hostesses are Miss Gladie E. Davis of Tampa, Miss Martha Anne Moore of Griffin, Ga., and Miss Corine Packard of Jacksonville.

The service clubs have heretofore been operated by the post exchange but they are soon to be run as separate establishments. There are three on the post, each containing a cafeteria, reading-rooms and indoor game facilities.

Various duties of the hostesses are to manage the cafeteria, assist the service club officer, arrange dances, keep information regarding room accommodations in nearby areas for visitors and assist and interview soldiers in morale matters.

Sixty enthusiastic English Flying Cadets stationed at the Naval Air Base in Jacksonville, when questioned as to what they liked best about America, replied, "American girls."

Auxiliary Plans To Teach Patriotism

Revitalizing American spirit of patriotism will be one of the important undertakings of the American League in a very busy coming year, Mr. I. W. Daniel, President of Campbell-Lossing Unit of the Auxiliary, announced today.

Enrollment of the organization in the history of the organization is being sought to help accomplish this task, she said.

Armed defenses which are building will not make America secure unless there is behind them a nation strong in patriotic spirit, Mrs. Daniel stated.

A united nation in which every one is willing to sacrifice and die for the common good is essential for the survival of our country as we know it in the world of today.

There must be no substitution or self-seeking at home while our men are training in the field. The institutions which they are training to defend must not be allowed to decay behind their backs.

"Women have a very important part to play in keeping the nation internally strong. They are the tenders of the fires of patriotism in the home. They are the ones who must instill American ideals in the young. Through their individual and organization activities they can contribute immeasurably to the defeat of the forces seeking to undermine American democracy behind the lines of armed defense."

"The Auxiliary is giving energetic service in all fields where the patriotic work of women can be effective. We need greater strength than ever before this year because of the greater need for the work we are in position to do. We are asking all eligible women of Sanford to come into our Auxiliary Unit now and help us carry forward our great program of service."

The Campbell-Lossing Unit holds its regular meetings at the Legion Hut on the first Friday evening of each month, when applications for membership will be received and new members welcomed into the organization.

Mrs. Daniel stated that all members may pay their dues for the current year to the unit treasurer, Mrs. E. C. Harper, at 108 Magnolia Avenue.

Officers Nominated For Wesley Class

The Daughters of Wesley Class of the Methodist Church held its last meeting of the year at the home of Mrs. A. B. Stevens on West Twentieth Street last evening at which time officers for the ensuing year were submitted to the nominating committee as follows:

Mrs. Chester Danahoe, president; Mrs. J. E. Carter, vice president; Mrs. J. P. Thurmond, secretary; Mrs. H. A. Swanson, treasurer; Mrs. A. H. McCall, reader. The new officers were installed by Mrs. Glenn E. McKay.

Mrs. W. L. Morgan presented the retiring president, Mrs. Edith Hand, with a gift in behalf of the class in appreciation for her leadership during the past year.

The devotional was read by Mrs. D. E. White who closed with a prayer and a prayer was offered by the Rev. W. P. Bulman and reports were given by the various committee chairmen.

News Of The World In Pictures

Former Governor and Mrs. E. D. Rivers were attacked at their Lakeland, Ga., home by a man police said apparently intended to kidnap Rivers but who was beaten off by the Rivers in a hand-to-hand battle. The man, identified as Horace W. Bille, of Pittsburgh and New York, fled to a tourist camp and shot himself to death. Rivers is pictured (foreground) with his son and daughter-in-law, Mr. and Mrs. E. D. Rivers, Jr., granddaughter Jan, his wife and his daughter, Jerry.

This is one of the last photos of Sgt. James M. Mason, reported "killed in action" while flying with the RAF as a rear gunner. He is shown dressed with bullets as he took tea and a cigar before a flight. He killed his turret "The Memphis Special." Mason was the son of an Episcopalian bishop in Memphis, Tenn.

Johnny Rucker, New York Giants outfielder, leaves Zion Episcopal Church in Dobbs Ferry, N. Y., with the former Alvin Karpis, following their marriage. Note the shows of teeth.

These are four of the eleven men who parachuted to safety when a U. S. Navy patrol bomber was forced down in the Caribbean Sea near St. Eustatius Island. They are shown on arrival in San Juan, Puerto Rico, aboard another patrol plane, which saved them up on the coast of St. Eustatius. Three other men who made the leap are missing. Left to right: Anthony Greider, 24, of San Diego, Cal.; Harry P. Brown, 24, of Phoenix, Ariz.; Ernest G. Cooper, 27, of Denton, Md.; and Joseph Amodeo, 30, of Brooklyn, N. Y.

Mariner S. Eccles

Federal Reserve Board Chairman Mariner S. Eccles is shown as he appeared before the House Banking and Currency Committee in Washington to urge that the price control bill be broadened to place ceilings on wages and farm prices. He also voiced the need of a 48-hour work week and condemned strikes.

Harold Ickes

Secretary of the Interior Harold Ickes is shown as he appeared before the Senate oil investigating committee in Washington and re-emphasized his belief that there is a serious shortage of transportation facilities to carry oil to the East. He accused the railroads of holding true conditions to block government plans for new pipelines.

Charles Hapgood, 60, a retired engineer, is shown as he appeared before the Senate oil investigating committee in Washington (U. S. Capitol) to urge that the price control bill be broadened to place ceilings on wages and farm prices. He also voiced the need of a 48-hour work week and condemned strikes.

Klutka Fills Gap Left By Loss Of Florida Ends

GAINESVILLE, Oct. 8.—(Special)—Nick Klutka, a quiet, 19-year-old New Brighton, Pa., has silenced the Gators of University of Florida football fans.

Before the opening of the current gridiron season, many followers of the Orange and Blue were lamenting the loss of two fine right ends, Alvin Ferguson and John Pumba, and Frank Smok, and expressing the fear that the Florida defense would be vulnerable to flink attacks around the right side.

But Klutka, who never saw a moment of action at end before last Spring, has in three games hushed such thoughts. Rapidly learning the details of the transfer from tactics, where he lettered last season, Klutka has found in a long time.

Extremely powerful, with his length of weight, completely distributed over six feet of height, Klutka is one of the hardest hitting men on the Gator squad. His blocking is well done, and he appears to be a tackle in the making, though he doesn't get much chance on details with receivers like Ernest Ferguson, Carl and Funder Mitchell, and Charley Tate.

Nick really starts to show when the other half gets into the fray. He is a tackle in the making, too, he knows when to smash and when to deflect. As one veteran sports editor said after watching the Gators for the first time this year, "Klutka is the one man out there that you can rely on without watching."

Gator Game With Villanova Gives Signs Of Battle

GAINESVILLE, Oct. 8.—(Special)—That's what observers throughout the state are saying this week about Saturday night's game here between the University of Florida and Villanova Gators and the Villanova Wild cats, a contest that has all the earmarks of a super-duper intercollegiate battle.

A few of the reasons why the fray looks like more than just another football game are:

1—Florida will be up to average a 28.0 licking last season.

2—Both teams made great offensive showings last Saturday night. Florida in a 46-6 victory over Tampa, Villanova with a 24-0 win over Center's Praying Colonels.

3—The rival coaches, Tom Lutz of Florida and Clipper Smith of Villanova, were once team-mate under Knute Rockne at Notre Dame.

4—Both teams have men striving for all-sectional recognition. Villanova's Walter Franks, Ferguson, left end; Tommie H. Hull, left tackle; Nick Klutka, right end; and Charley Tate, tackle. End Steve Franks, tackle. Ed Kasky, center. Ed Franks, fullback. "Whippet Joe" Perakis, sensational sophomore halfback, and Zippy Zambark, sophomore fullback.

5—The Gators and the rest of their team-mates, know that an inter-sectional rivalry is being set up. The Gators are in the hunt for the national title, so both teams will be in the hot battle from the opening whistle.

Tom Klutka, Ohio State transfer, who was drafted by the Toledo Redwings, has been released by the Toledo Redwings to return to his college football career. The Redwings' players are seen in the background.

Manager Of Airlines Awarded Gold Medal

NEW YORK, N. Y., Oct. 8.—(Special)—Bur Holman, Eastern Airlines field manager at Vero Beach, received his company's annual gold medal award for meritorious service at ceremonies here recently.

The award, conferred by Capt. Edna Rickerbacher, was E. A. J.'s recognition of "that employee who during the current year performed the most conspicuous service in the interest of the company."

Mr. Holman rendered a conspicuous and heroic service in planning and supervising the rescue of passengers from one of E. A. J.'s planes which was forced down near Vero Beach last March.

Third: To get relief from the "backache" of the menstrual period.

F-M HORIZONTAL EJECTOR
--gives an extra volume of water at low pressure

Here's a new type of pump which fills a definite need by supplying an extra volume of water at low pressure and also provides an ample supply at normal tank pressures. Extremely quiet in operation, the F-M Horizontal Ejector pump has but one moving part. It produces greater water capacity for its motor size than any other design of pump. An ejector jet and tube, built into the section side of the valve, increase the capacity of the pump and develop a high pressure discharge. A heavily constructed bronze impeller makes the pump less subject to wear from sandy water. Come in today—we will be glad to give you complete details on this F-M Horizontal Ejector Water System.

Jap Offensive In China Said To Be Badly Bugged Down

China Finance Minister Urges Democracies To Take Lesson From China

Japanese Admit Turn Of Tide

Chinese Carry Greatest Offensive In Last Four Years

CHUNGKING, Oct. 9.—(AP)—Japanese armies are "so irretrievably bogged down" in China they "are unable to take advantage of the world situation to seek conquest elsewhere," Finance Minister Dr. H. H. Kung declared today.

Kung urged the democracies to follow the example of China's effort "to shake off the yoke of oppression, tyranny and aggression which is now gradually engulfing the world."

Japanese army sources announced the greatest offensive of the Chinese army in over four years of warfare apparently is under way with the principal Chinese objective the port of Ochang on the Yangtze River.

A special homecoming meeting of the Woodmen of the World Camp was planned for next Tuesday night as the group met in their regular meeting under way with the principal Chinese objective the port of Ochang on the Yangtze River.

Orlando Army Pilot Parachutes To Safety

TRENTON, Oct. 9.—(AP)—An Army plane caught fire in mid-air and crashed here late Wednesday, the pilot parachuting to safety.

N. E. Lancaster said the pilot, identified himself as Lieut. George Albert. He quoted Albert as saying he was on route from Orlando to his home station at Eglin field in north Florida, when the plane suddenly caught fire. Albert said he attempted to find a landing field but that the flames began to blow into the cockpit, forcing him to bail out.

The pilot was unhurt, but the plane was destroyed.

Congress Is Told To Mend Neutrality Law

President Roosevelt, asserting it is time for the United States to stop playing into Hitler's hands and to make our own laws, urged Congress to revise the Neutrality Act specifically to permit the arming of American merchant vessels.

In a special message today the President also left the door open for further revision later, to give another prohibition, that of permitting American cargo ships to travel to belligerent ports.

Chemical Found To Give Cancer To Rats

SAN FRANCISCO, Oct. 9.—(AP)—The accidental discovery that a common organic chemical is a prolific producer of cancer in rats was reported Wednesday by three Stanford University medical school scientists.

The findings may give researchers an important new clue to the cause of malignant growths. What causes cancer is one of medicine's unsolved mysteries.

Dr. Floyd DeDea, Dr. Robert H. Wilson and Dr. Alvin J. Cox were testing this chemical, known technically as 2-acetylaminofluorene, for its value as an insecticide. It was known to be effective against bug pests. They found it to rate to determine its effect on animal digestive systems.
